EDU2SPM STUDIES IN PEDAGOGY AND MANAGEMENT (15. CPs Sem. TE-SEM-2 BE.) *Ms Jennifer Sheed*
Not available in 2008

EDU2ST SCIENCE TEACHING (15 CPs Sem. TE-SEM-1 BE.) *Mr Peter Cox, Dr Premnadh Kurup*

In this unit students will develop competence and skills to teach science in primary schools. Students will explore science, with a particular focus on the concepts within physical and chemical sciences. They will explore innovative pedagogies related to teaching and learning in science. Students investigate curriculum resources available for teaching science topics, with a particular focus on VELs. Students will participate in a school based program in a primary school and design, implement and evaluate a science unit over seven afternoon sessions.

Class requirements: One 1-hour lecture and one 2-hour practical per week.

Assessment: One school based science teaching program reflective journal (equivalent to 2000-word essay) (40%) In order to pass this subject, a minimum of 80% attendance is required at all practical classes as well as an overall mark of at least 50%, one team Presentation: written overview and self-paced topic reviews (equivalent 1500-word essay) (30%), one 1.5-hour final examination (30%)

Prescribed Reading:

EDU2SUA SUBSTANCE USE IN AUSTRALIAN SOCIETY (15. CPs Sem. TE-SEM-2 BE.) *Ms Cathleen Farrelly*

In this unit students will aim to increase awareness and understanding of the physical, psychological, social and economic issues surrounding substance use and abuse in our society. Students will explore a range of public policy issues relating to abuse prevention and harm minimisation with particular relevance for school environments.

Class requirements: Two 1-hour lectures and one 2-hour tutorial per week.

Assessment: Group tutorial presentation (15 minutes per member) (20%) To pass this subject students must attend 80% of the tutorials as well as obtaining an overall mark of 50% or greater, one 2000-word research paper (50%), one 1000-word media analysis (20%), contribution and participation in class debate (10 minutes per person) (10%)

Prescribed Reading:

Farrelly, C. (compiler) *Book of Readings* Bendigo: La Trobe University

EDU2TCC A STUDY OF COGNITIVE, PHYSICAL, SOCIAL AND EMOTIONAL DEV. (15 CPs Sem. TE-SEM-1 BE.) *Mrs Lyn Taylor*

Child development is examined from an intellectual, physical, emotional, moral, social and psychological perspective in the context of a changing world. Genetic and environmental forces which shape this unique pattern of growth and development is explored in the context of classroom practice. The unit covers the history and theories of child development, physical and motor development, catering for individual differences, perceptual development, personality, attachment and attachment behaviour, the self, social competence and identity and changing families.

Class requirements: Three 1-hour lectures and one 1-hour tutorial per week.

Assessment: One 1.5-hour examination (50%), one 1000-word tutorial presentation (20%), one 1500-word assignment (30%)

EDU3ENS SOCIAL, POLITICAL, LEGAL AND ECONOMIC CONTEXTS OF EDUCATION. (15 CPs Sem. TE-SEM-1 BE.) *Mr Wilf Savage*

Students completing this unit will examine the social, cultural, political, economic, legal and global contexts of education from a sociological, comparative and historical perspective. The unit covers the issues including teachers work in the global world, issues of professionalism, legal responsibility, the culture of the school, the world of work and schooling, public and private schooling, community and parental involvement, rurality, gender, race, ethnicity and indigenous education.

Class requirements: Three 1-hour lectures and one 1-hour tutorial per week.

Assessment: One 1750-word essay (40%), one 2-hour examination (60%)

Prescribed Reading:

Halsey, A et al. (Eds) (1999) *Education: Culture, Economy, Society* Oxford University Press, Oxford.

EDU3HPE STUDIES IN TEACHING AND LEARNING HEALTH AND PHYSICAL EDU (15 CPs Sem. TE-SEM-1 BE.) *Ms Cathleen Farrelly*

This unit provides a practical and theoretical study in health and physical education curriculum development. Lectures and tutorials focus on the issues impacting on the design and implementation of health and physical education curriculum, teaching and learning strategies including assessment strategies. Students will be given the opportunity to critically evaluate current curriculum guidelines and packages as well as developing knowledge and skills in the development of units of work in health and physical education for primary schools.

Class requirements: Two 1-hour lectures and two 1-hour tutorials per week.

Assessment: One 2000-word teaching resource plan (50%), one 1000-word portfolio of teaching strategies (20%), one 1500-word response to readings (30%)

Prescribed Reading:

Farrelly, C and Stockdale, M. (2001) (compilers). *Health and Physical Education Readings* Bendigo: La Trobe University

EDU3LCT LEARNING AND COMMUNICATION TECHNOLOGIES (15 CPsSem. TE-SEM-1 BE.) *Ms Chris Campbell*

In this unit students will develop information literacy knowledge, skills and values required for both the application of technology in teaching and learning as well as learning to teach about technology. Topics include the Internet, software applications for educators, integrating multimedia and educational software applications as well as creating curriculum materials. Issues addressed include those related to ethics, sociology, psychology and communications theory. This unit provides an introduction to practical computing skills and the integration of technology into the classroom. Students will be assisted to achieve the learning outcomes endorsed by the Victorian Institute for Teaching.

Class requirements: One 1-hour lecture and one 2-hour tutorial-workshop per week.

Assessment: Computer laboratory set activities – equivalent to a 750- to 900-word essay (20%), satisfactory completion of 15-day teaching practicum is a hurdle requirement of this unit. In-school observation and software – equivalent to a 750 to 900-word essay (20%), multi page educational website – equivalent to 1000-word essay (25%). individual task, digital portfolio – equivalent to a 1500-word essay (35%). individual task

Prescribed Reading:

EDU3LRE LEARNING FOR CATHOLIC RELIGIOUS EDUCATION (15 CPsSem. TE-SEM-2 BE.) *Dr JENNY MASTERS*

In this unit students will gain an understanding of the historical development of the Christian Church and tradition through examining Catholic tradition in its communal, sacramental and liturgical dimensions and implications for Catholic schooling. Students will demonstrate understanding of the technical language of religious education and an understanding of the sources and structure of the core content of religious education: Revelation as expressed through Scripture and Tradition and experienced through creation and human experience. Students will develop an understanding of Catholic beliefs organised around the eight strands of the religious education curriculum: God, Jesus Christ, Church, Sacraments, Scripture, Christian Prayer, Christian Life and Religion and Society.

Recommended Prior Studies: EDU31TSC.

Class requirements: One 2-hour lecture and one 2-hour tutorial per week.

This unit is not available for Study Abroad students.

Assessment: One 2000-word essay, one 20-minute verbal presentation (40%), three reviews of 500 words each (35%), one 20-minute verbal presentation (25%)

Recommended Reading:

Ryan, M. (1997) *Foundations of religious education in Catholic schools: An Australian perspective* Wentworth Falls, Social Science Press

EDU3LTL LITERACIES: NEW TIMES AND TENSIONS (15 CPs Sem. TE-SEM-1BE.) *Ms Debra Edwards*

In this unit, students are introduced to the developmental nature of language and literacy learning beyond the early years. A practical knowledge of curriculum programs and assessment practices at various levels of schooling; current debates in literacy teaching; innovations in language and literacy pedagogy e.g. multi-literacies; preparing to teach students for the global nature of society while still valuing and addressing local discourses and identities.

Prerequisite: EDU1LL.

Class requirements: Two 1-hour lectures and one 2-hour tutorial per week.

Assessment: One 1000-word group presentation and written plan (20%), one 2-hour examination (40%), one 1500-word reading task (40%)

Prescribed Reading:

EDU3ML MATHEMATICS LEARNING (15 CPs Sem. TE-SEM-2 BE.) *Dr**Robert Hunting*

Using concepts drawn from the topics of measurement (including: length, perimeter, area, volume, capacity, mass and weight and time) and space (including: 2- and 3-dimension shape, symmetry, position, angles, nets, angles and polygons), students explore the structure of mathematics, the goals of mathematics teaching, the nature of the mathematics curriculum and ways of engaging pupils in mathematics learning. Students will be given the opportunity to broaden their personal understandings of and attitudes to, key mathematical concepts using problem-solving and investigative approaches. The students will examine how such approaches contribute to their own learning and the implications for the learning of students in schools. In particular learning strategies such as grouping, collaboration and technology-supported learning will be emphasised.

Prerequisite: EDU11MT.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: One 2-hour examination (50%), one 2000-word assignment (30%), one 15-minute tutorial presentation and one 500-word assignment (20%)

EDU3MUE PRIMARY CLASSROOM MUSIC CURRICULUM DESIGN AND IMPLEMENTATION (15 CPs Sem. TE-SEM-1 BE.) *Mr Peter Butler***Lecture Series**

In this unit, students examine through lecture and seminar presentation the construction of imaginative music curricula in the primary school with special (but not sole) reference to the curriculum and standards framework. There is practical instruction in Kodaly and Orff music methods for years-P-3, including a weekly vocal ensemble and conducting workshop exploring repertoire appropriate to schools.

Prerequisite: EDU22MUD.

Class requirements: One 3-hour lecture per week.

Assessment: One 2000-word assignment (30%), 15-minute individual aural skills assessment (30%), 15-minute workshop conducting assessment (40%)

EDU3MUF MUSIC F (15 CPs Sem. TE-SEM-2 BE.) *Mr Peter Butler***Lecture Series**

In this unit, students examine through lecture and seminar presentation, the construction of imaginative music curricula in the primary school with special (but not sole) reference to the curriculum and standards framework. There is practical instruction in Kodaly and Orff music methods for years-4-6, including a weekly vocal ensemble and conducting workshop exploring vocal repertoire and preparation appropriate to schools.

Prerequisite: EDU31MUE.

Class requirements: One 3-hour lecture per week.

Assessment: One 2000-word assignment (30%), 15-minute individual aural skills assessment (30%), 15-minute workshop conducting assessment (40%)

EDU3PLC POSTCOLONIAL LITERATURE FOR CHILDREN (15 CPs Sem. TE-SEM-2 BE.) *Mr David Beagley*

In this unit, students study current theoretical frameworks for interpreting colonial and postcolonial children's literature and considers a range of evaluative issues entailed in applying these frameworks to different postcolonial texts. Texts from England, Canada, the United States of America, New Zealand and Australia will be analysed.

Prerequisite: EDU11GCL, EDU12HCL, EDU21ACL.

Class requirements: Two 1-hour lectures and one 2-hour tutorial-workshop per week.

Assessment: One 1500 to 2000-word assignment (30%), Commentaries and reviews – equivalent to a one 1000-word assignment (20%), evidence of tutorial preparation through participation (10%), one 2-hour final examination (40%)

Recommended Reading:

EDU3PRC PRACTICUM C – CURRICULUM DEVELOPMENT (15 CPs Sem. TE-ALL-YR BE.) *Mr Wilf Savage, Dr Jennifer Sheed*

Students will undertake two separate teaching rounds during the year, each in a different school (semester 1: 3 weeks; semester 2: 4 weeks). The accompanying lecture–tutorial program will seek both to feed upon and inform the student's school experiences and encourage critical reflection focused upon the areas of: curriculum development; pedagogical strategies; student assessment and catering for children with special needs.

Prerequisite: EDU1ITT, EDU2PRB.

Class requirements: Two 1-hour lectures and one 2-hour tutorial per week (semester 2 only), plus 35 days of school experience (15 days in semester 1 and 20 days in semester 2).

Assessment: One 1000-word tutorial presentation (20%), one 1500-word essay (20%), practicum performance (as assessed by supervisors' reports) (40%). To pass this subject, students must successfully complete 35 days of supervised teaching practice. Criteria for assessment will be supplied with subject outline.

EDU3RGS RELATIONSHIPS, GENDER AND SEXUALITY (15. CPs Sem. TE-SEM-1 BE.) *Ms Cathleen Farrelly*

In this unit students examine a range of issues related to the formation, maintenance and dissolution of human relationships. Students will explore topics including psychosocial development, influences on constructions of gender and sexual identity, violence in relationships. Related matters of sexual and reproductive health are examined along with public health policy responses. Students will gain accreditation to use the Protective Behaviours program accredited by the child protection society which is relevant not only to a range of vocations involving children and young adults but to the personal development of the students themselves.

Class requirements: Two 1-hour lectures and one 2-hour tutorial per week.

Assessment: One 2000-word literature review (35%), one 2000-word essay (45%), minimum of 80% attendance at all tutorials and the Personal Safety Program training to gain a pass grade, one 10-minute tutorial presentation discussion (20%)

Michael Faulkner

Not available in 2008

EDU3SKL SKILL LEARNING (15 CPs Sem. TE-SEM-1 BE.) *Ms Maree Stockdale*

In this unit students develop a theoretical understanding of skilled human performance. Through a series of lectures and laboratory classes the processes involved in acquiring motor skills are investigated together with the factors influencing such learning. This knowledge is integrated into a coaching context utilising a sport setting as a medium of instruction. Concepts such as error detection and correction, mental practice, instructional feedback and types of practice are investigated.

Class requirements: One 2-hour lecture per week one 2-hour practical class per week.

Assessment: One 500-word practical assignment (10%), one 2000-word assignment (45%), one 2-hour final examination (45%)

Recommended Reading:

Pye, FS. (Ed, (2001) *Better coaching* 2nd edn. Champaign, Ill: Human Kinetics

EDU3SL SCIENCE LEARNING (15 CPs Sem. TE-SEM-2 BE.) *Ms Barbara Tadich*

Students are introduced to concepts of the physical, chemical, biological and earth sciences, required for the key learning areas in primary school science. The unit aims to develop an understanding of: similarity, relationships, diversity, classification and factors affecting the survival of living things; relationships of the structure of organisms to their function; ecosystems; (properties and uses of matter and chemical changes compared to physical changes and genetics). Investigations include: Earth and atmosphere; physical environment; the solar system; concepts of energy, forces, light, sound, heat and electricity; (the transformation of energy/energy conservation: energy, mechanical, magnetic and electrostatic forces).

Prerequisite: EDU2ST.

Class requirements: One 1-hour lecture and one 2-hour tutorial/practical per week.

Assessment: One 2000-word reflective essay (40%) In order to pass this subject, a minimum of 80% attendance is required at all practical classes as well as an overall mark of at least 50%, one 1500-word project (30%), one 1.5-hour final examination (30%)

EDU3SPS SOCIAL PSYCHOLOGY OF SPORT (15 CPs Sem. TE-SEM-1 BE.)

Mr Ashley Woodcock

Through interactive lectures and tutorials, students develop knowledge and understandings of theories in social psychology and how they relate to sport and physical activity. Students analyse some of the methods used in social psychological research and have the opportunity to implement some applications of these methods in the sport and physical setting.

Prerequisite: EDU1HBS.

Class requirements: Three hours per week for thirteen weeks, or the equivalent.

Assessment: One oral presentation – equivalent to a 250-to 500-word assignment (10%), one 2000-word written assignment (45%), one 2-hour Exam (45%)

Recommended Reading:

Jowett, S and Lavallee, D. (2006) *Social Psychology of Sport* Human Kinetics, Champaign, Ill
Coakley, J. (2001) *Sport in Society* McGraw-Hill, New York

EDU3SSA SPORT AND SKILL ANALYSIS (15 CPs Sem. TE-SEM-2 BE.) *Dr**Ashley Woodcock*

Students learn about and experience methodical ways of analysing the specific objectives, demands and strategies of skills and sports.

Laboratory sessions provide students with an insight into the generic strategies and analytical methods which can be utilised in a number of sports settings.

Prerequisite: EDU21MP, EDU2MP.

Class requirements: One 3-hour lecture/workshop per week for thirteen weeks, or equivalent.

Assessment: Five laboratory reports totalling 2000 words (50%), one 2500-word assignment (50%)

Recommended Reading:

EDU3TE DESIGN AND TECHNOLOGY EDUCATION (15 CPs Sem. TE-SEM-2 BE. TE-SEM-S BE.) *Dr Simon O'Mallon*

In this unit students develop the skills and knowledge to incorporate the interdisciplinary strands of VELS into their daily classroom program. Areas covered include the development of design skills, knowledge and understanding of good design, while nurturing creativity and innovation through designing and making. Supported by a range of practical activities and tasks, students will examine the methodology, processes, assessment, OH and S issues and diversity of Technology based on the design process that is available at Primary level.

Class requirements: One 1-hour lecture and one 2-hour tutorial-workshop per week.

This unit is not available for Study Abroad students.

Assessment: One 20-minute oral tutorial presentation (20%), one 1500-word essay (30%), one portfolio of workshop competencies and activities – equivalent to a 2000-word essay (50%)

Recommended Reading:

EDU3TSC TEACHING SCRIPTURE IN CATHOLIC SCHOOLS (15 CPs Sem. TE-SEM-1 BE.) *Dr Jenny Masters*

In this unit students will be introduced to the Bible, its composition, chronology, genres and provenance, attending to both the Hebrew Scriptures and the Christian Testament. Students will explore the historical, political, geographical, socio-cultural and religious frameworks behind the production of biblical texts. They will learn to apply a variety of methods of textual analysis, based on the principles of Catholic biblical criticism. Students will research and apply a number of methodologies for teaching scripture texts in the primary classroom and explore the understandings and uses of the Bible by Christian communities and individuals.

Class requirements: One 2-hour lecture and one 2-hour tutorial per week.

This unit is not available for Study Abroad students.

Assessment: One 2500-word essay (40%), one 1000-word essay (30%), one verbal presentation of 20 minutes (30%)

Prescribed Reading:

EDU4AL ACTIVE LIFESTYLES (15 CPs Sem. TE-SEM-2 BE.) *Dr Ashley**Woodcock*

Through a series of interactive lectures and practical laboratory classes students will gain knowledge and understandings about

concepts related to physical fitness and wellness. Students will be presented with information concerning lifestyle changes designed to enhance optimal health and well-being.

Class requirements: One 2-hour lecture per week and one 2-hour laboratory class per week.

Assessment: Weekly laboratory assignments with the total equalling 2500 words (50%), one 1-hour mid-semester test (25%), one 1-hour final examination (25%)

Prescribed Reading:

Corbin, CB, Lindsey, R, Welk, GJ and Corbin, WR. (2004) *Concepts of fitness and wellness*, 5th edn. McGraw-Hill, Dubuque, Iowa

EDU4AR AT RISK STUDENTS: POLICIES, PROGRAMS AND PRACTICE (15 CPs Sem. TE-SEM-S BE.) *Dr Penelope Collet*

In this unit, issues concerning students designated as being at risk are addressed. The ways in which students are identified and described at risk of school failure and social exclusion are examined. The implications for practice of labelling students at risk are investigated. Programs intended to assist at risk students are researched and evaluated.

Class requirements: Five 7-hour days in block mode during the semester.

Assessment: One 4000-word research report based on analysis of interview data collected by students (100%)

EDU4FEA FIELD EXPERIENCE A – FROM STUDENT TO PROFESSIONAL

(15 CPs Sem. TE-SEM-1 BE, MI.) *BE: Mr Wilf Savage, BE: Dr Jennifer Sheed, MI: Ms Debbie Neal*

In this unit, students focus on the transition from student teacher to graduate teacher. The unit will be organised around the themes of essential professional knowledge embodied in the professional standards for graduating teachers current in the various Australian States and Territories with a particular focus on Victoria. The field experience component of the unit will involve students spending a minimum of eight days in schools with a view to strengthening their understandings of the knowledge needed to take their place as a staff member in a school. It will also involve students in data collection and research in order to develop a professional portfolio in response to the professional standards for graduating teachers. Topics examined include schools as institutional work sites, school level planning, teacher recruitment practices, performance management and professional practice.

Prerequisite: EDU11ITT, EDU12TL, EDU22PRB, EDU1ITT, EDU1TL, EDU3PRC, EDU2PRB.

Class requirements: Minimum of eight days in schools, three x 6-hour days in block mode during semester and eight 1-hour workshop.

This unit is not available for Study Abroad students.

Assessment: Develop a professional portfolio (2000-word equivalent) (50%), One 2000-word assignment (50%)

Recommended Reading:

EDU4FEB FIELD EXPERIENCE B – THE TEACHER AND THE CURRICULUM (15 CPs Sem. TE-SEM-1 BE, TE-SEM-2 BE, MI.) *BE: Mr Wilf Savage, BE: Dr Jennifer Sheed, MI: Ms Debbie Neal*

This unit represents a culmination of the student's four-year practicum program. In the weeks leading up to the three-week practicum, which forms the core of the unit, students will spend several days familiarising themselves with their host classroom. During the practicum period, they will be focused upon planning, teaching and assessing units of work, upon individualising instruction and catering for children with particular needs. Students are expected to assume more and more the role of a full-time teacher and to demonstrate the ability to work with children for sustained periods. In addition, particular attention will be placed upon the student's appraisal of themselves as commencing teachers.

Prerequisite: EDU11ITT, EDU22PRB, EDU32PRC, EDU41FEA, EDU4FEA, EDU3PRC, EDU2PRB, EDU1ITT, EDU1TL.

Class requirements: Fifteen days of classroom teaching experience, followed by class presentations on topics researched in the course of their time in school.

This unit is not available for Study Abroad students.

Assessment: 1500-word self-appraisal essay (30%), one 15-minute tutorial presentation exploring a topic researched during time in school (20%), assessment of teaching performance (50%), 15 days of (compulsory) supervised teaching practice – hurdle requirement. Satisfactory participation and performance to defined exit standards are required to meet the compulsory hurdle assessment

In this unit, students investigate and evaluate models of provision for gifted and talented students, at system, school and class levels. These include within class enrichment, differentiated curriculum, compacted curriculum, acceleration, mentoring, flexible vertical timetabling and online programs. Students also explore outside school enrichment options and investigates the multiple ways gifted and talented students can be encouraged and supported in their learning.

Prerequisite: EDU41GTY.

Class requirements: Three 6-hour days (weekends) and seven 3-hour evening workshops.

Assessment: One 1000-word seminar presentation (25%); in order to pass this subject, a minimum of 75% attendance is required at all classes and tutorials as well as an overall mark of at least 50%; one 3500-word assignment (75%)

Recommended Reading:

Colangelo, N and Davis, G (2003). *Handbook for Gifted Education* 3rd edn. New York: Allyn and Bacon

EDU4GTY EXPLORING THE CHARACTERISTICS OF THE TALENTED AND GIFTED (15 CPs Sem. TE-SEM-1 BE.) *Dr Michael Faulkner*

This unit provides an introduction to student giftedness, including an exploration of the characteristics of the gifted and talented. The unit covers models and myths of giftedness, school system provision for precocious learners and prevailing social attitudes towards such children. The unit includes aspects of modes and strategies of identification, temperament and personality, asynchronous child development, motivation, learning style development, social and emotional issues of development, theories of underachievement and issues relating to teacher-parent relationships.

Class requirements: One 1-hour lecture and one 2-hour tutorial per week.

Assessment: One 2000-word assignment (50%); in order to pass this subject, a minimum of 75% attendance is required at all classes and tutorials as well as an overall mark of at least 50%; one 1000-word seminar presentation (20%), one 1500-word essay (30%)

Recommended Reading:

EDU4HSW HELPING SKILLS FOR WELL-BEING (15 CPs Sem. TE-SEM-1 BE.) *Dr Michael Faulkner*

In this unit, an introduction to the relationship between effective

whole school policy and practices and individual student well-being will be provided. Students will also be introduced to the micro-skills of effective helping for all students but particularly for those with additional or special needs. It will incorporate study on the psychological, social and education implementations of effective school-side and individual helping practices for students.

Class requirements: A combination of full days, evenings and weekends.

Assessment: One 1000-word assignment (20%). This subject has a 75% class attendance hurdle requirement; one 15-minute seminar presentation (20%) and one 3000-word assignment (60%)

Recommended Reading:

Egan, G. *The Skilled Helper* 7th edn. Wadsworth: California. 2002

EDU4IAS INCLUSIVE AND SPECIAL EDUCATION (15 CPs Sem. TE-SEM-1 BE.) *Dr Michael Faulkner*

In this unit students will be provided with an overview of the philosophical, political and practical issues that face practitioners in schools and in the wider community, as they address human diversity. Rather than explore the issues in depth, they will be identified and discussed with a view to providing a comprehensive basis for further study. From this basis each student will select an area for specific study, reviewing the literature and comparing it to current and local practice and/or experience. The report of this research will comprise the assessment task.

Class requirements: Five 6-hour seminar days during the semester.

Assessment: 4000-word research report (90%), one 5-minute oral presentation (10%)

EDU4INS INCLUSIVE SPORT EDUCATION (15 CPs Sem. TE-SEM-1 BE.) *Dr Ashley Woodcock*

Through lectures, practical sessions and field work, students learn about a wide range of disabilities, including the aetiology, diagnosis and prognosis of the specific condition. Students gain knowledge about the most common types of disabilities and cite ways to adapt activities and determine categories of placement for children and adults with disabilities. In addition, students study how to cater for the interests, needs and abilities of individuals with disabilities when planning and implementing physical education programs in the regular school setting and physical recreation programs in the community.

Class requirements: One 3-hour lecture/workshop per week or equivalent block mode.

Assessment: One 1500-word assignment (35%), one 3000-word field work report (65%)

Recommended Reading:

EDU4ISP INDEPENDENT STUDY PROGRAM (20 CPs Sem. TE-SEM-1 BE, MI. TE-SEM-2 BE, MI.) *BE: Mr Ray Nichol, MI: Ms Debbie Neal*

In this unit students will examine an area of theoretical and/or professional interest not covered in other subject offerings. Students negotiate with a supervisor the specific problem to be investigated, the means by which the problem can be resolved and the manner in which the findings are to be presented for assessment. Approval is required from the course coordinator.

Class requirements: Equivalent of one hour per week supervisory conference, plus independent study.

Assessment: 5000-word research assignment (100%)

Preliminary Reading:

Negotiated Readings

EDU4ISS INDEPENDENT STUDENT STUDY (15 CPs Sem. TE-SEM-1 BE, MI. TE-SEM-2 BE, MI.) *BE: Dr Jenny Masters, MI: Ms Debbie Neal*

In this unit students will examine an area of theoretical and/or professional interest. Students negotiate with the course coordinator the specific problem to be investigated; the means by which the problem can be investigated; and the manner in which the findings are to be presented for assessment.

Class requirements: Equivalent of one hour per week supervisory conference, plus independent study.

Assessment: One 4500-word research report (100%)

Preliminary Reading:

Negotiated Readings

EDU4IT INTERACTIVE TECHNOLOGIES (15 CPs Sem. TE-SEM-1 BE. TE-SEM-2 BE, MI.) *BE: Ms Chris Campbell, MI: Ms Deb Neal*

Students will apply the principles of instructional design learning theory and product development to build an interactive web environment. The focus will be on information design, project management and evaluation, understanding the basic elements of a hypertext environment through the development of a project. Students will develop skills in emergent technologies such as interactive whiteboard technologies and digital storytelling.

Quota: 22. First in, first enrolled up to quota

Class requirements: Three hours per week.

Assessment: Develop an interactive whiteboard lesson and lesson plan – equivalent to a 1200-word essay (20%) individual task, website design statement and rationale – equivalent to a 2500-word essay (30%). Group task, one major interactive website creation project – equivalent to a 3000-word essay (50%). Group task

EDU4LFA WEAVING THE THREADS OF LITERACY EDUCATION (15 CPs Sem. TE-SEM-1 BE, MI. TE-SEM-2 BE.) *Ms Debra Edwards, Ms Debbie Neal*

In this unit students are involved in the development of understandings of the need to acknowledge and prepare students for the global nature of society while still valuing and addressing local discourses and cultural and linguistic diversity and knowledge of current debates in relation to teaching English as a second or other language. An awareness of issues and debates in relation to current practices including curriculum literacies, multi-literacies, indigenous perspectives and Aboriginal English, critical literacies, middle year's literacies will also be considered.

Prerequisite: EDU31LT.

Class requirements: Two 1-hour lectures and one 2-hour tutorial per week.

Assessment: One 1500-word essay (30%), one 2-hour examination (open book) (40%), one 1500-word assignment (unit of work) (30%)

Recommended Reading:

EDU4LM LOTE TEACHING METHOD (20. CPs Sem. TE-SEM-1 BE.) *Mr**Robin Hutchison*

Topics covered in this unit include second language acquisition theories and principles, the nature and extent of cultural aspects of language learning, LOTE policies and programs (Federal and State), LOTE curriculum design (planning, implementation and evaluation), pedagogical and assessment strategies, promotion of LOTE in the community, resources, a comparison of first and second language acquisition.

Prerequisite: Students must have an approved undergraduate languages major. Indonesian 3A and 3B can be taken concurrently. Students must have an approved undergraduate advanced languages major or equivalent.

Class requirements: 60 hours (classes are taught in block mode).

This unit is not available for Study Abroad students.

Assessment: Develop mock LOTE class, equivalent to a 1000-word essay (25%), 2000-to 3000-word reflective journal, equivalent to a 1000-word essay (25%), 1000-word assignment and class presentation (25%), WebCT Online quiz, short-answer tasks, equivalent to a 1000-word essay (25%)

EDU4LP LOTE PRACTICUM (20 CPs Sem. TE-SEM-1 BE. TE-SEM-2 BE.) *Mr**Robin Hutchison*

This unit comprises 22 days supervised teaching practice in a primary or secondary school. Students will prepare and teach lessons which reflect the strategies and techniques learned in LOTE teaching methodology and incorporating school and system requirements. They will maintain a folder of lesson plans together with observations on classroom practice.

Prerequisite: Three years post-VCE LOTE or equivalent and EDU41LTM (can be done concurrently).

Class requirements: 22 days of supervised teaching practice and observation in a primary or secondary school.

This unit is not available for Study Abroad students.

Assessment: Practicum supervisor reports (60%). To pass this subject, students must successfully complete 22 days of supervised teaching practice. Criteria for assessment will be supplied with subject outline, a 2000-word folio of plans and observation notes (40%)

EDU4NFA INCLUSIVE APPROACHES TO NUMERACY TEACHING (15 CPs Sem. TE-SEM-2 BE, MI.) *BE: Dr Dona Martin, MI: Ms Debbie Neal*

The emphasis in this unit is on research-based approaches to numeracy teaching, with emphasis on flexibility in task and pedagogy to address the specific needs of all students. In particular the issues associated with data-informed teaching, understanding the structured curriculum, matching experiences to students' needs, utilising technology effectively, activity and game-based learning, using open-ended tasks in teaching and assessment, assessment of student learning generally, as well as affective issues including engagement and self efficacy will be explored. The emphasis will be on linking theory and practice through classroom-based research projects.

Prerequisite: EDU32ML, EDU3ML.

Class requirements: Block mode equivalent to 40 hours of weekly classes.

Assessment: One 3000-word report of classroom-based research (50%), one 1500-word assignment (50%)

EDU4PEA PHYSICAL EDUCATION TEACHING METHOD A (10 CPs Sem. TE-SEM-1 BE.) *Dr Ashley Woodcock*

This unit represents the first semester of study for the all-year unit and is designed to provide a theoretical basis and skill foundation in teaching physical education in a school setting. Emphasis will be on qualities of an effective physical education teacher and physical education teaching practices. The unit will provide the student with the opportunity to apply a range of knowledge and skills to the development and evaluation of a 7-10 physical education curriculum. The curriculum will be linked to the concepts, framework and learning outcomes contained in the Health and Physical Education Key Learning Area of the Curriculum and Standards Framework II. This unit will prepare beginner teachers to teach post-compulsory physical education. It aims to introduce students to the structure and content of senior secondary physical education study design and provide the student with the knowledge and skills to plan, teach, assess and resource physical education.

Class requirements: One 2-hour lecture per week .

This unit is not available for Study Abroad students.

Assessment: One 1500-word curriculum project (25%); this represents the combined year-long assessment for the units EDU4PEA and EDU4PEB, one 1500-word senior secondary program design (25%), one 1000-word paper and one 10-minute oral presentation (30%), four 250-word abstracts (20%)

EDU4PPB PROMOTING POSITIVE BEHAVIOUR (15 CPs Sem. TE-SEM-2 BE.) *Dr Penelope Collet*

In this unit, irritating, disruptive and challenging behaviours that occur in school and other settings will be identified. Frameworks for understanding such behaviours will be investigated. A range of responses to such behaviours will be explored. The philosophical and ethical issues underpinning program design and behaviour change management will be examined. Students will explore their own philosophy of behaviour management at both the class and school level. On this basis students will develop a flexible range of strategies for addressing student behaviour.

Class requirements: Four 7-hour seminar days, prescribed reading and reflective tasks in preparation for each seminar.

This unit is not available for Study Abroad students.

Assessment: One 1500-word literature review (40%), one 2500-word class behaviour program (60%)

EDU4REP CATHOLIC RELIGIOUS EDUCATION PRINCIPLES AND METHOD (15 CPs Sem. TE-SEM-1 BE.) *Dr Barbara Tadich*

In this unit students will develop an understanding of the nature, historical development and purposes of religious education through an analysis of relevant Church documents. Students will identify, examine and critique a variety of approaches to religious education by exploring and analysing relevant religious education curriculum approaches and resource materials of selected Australian Catholic schooling systems. Students will examine, critique and develop assessment, reporting and evaluation processes used in religious education. Students will develop and implement plans for effective teaching and learning strategies in the religious education classroom. Students will participate in learning opportunities in religious education

Recommended Prior Studies: EDU31TSC, EDU32LRE.

Class requirements: One 2-hour lecture and one 2-hour tutorial per week.

This unit is not available for Study Abroad students.

Assessment: One essay of 2000 words (40%), preparation and evaluation of religious education lesson plans; equivalent to 2500-word essay. (60%)

EDU4RTA ART EDUCATION AND RESPONDING TO ART (15 CPs Sem. TE-SEM-2 BE.) *Dr Penelope Collet*

This unit comprises practical workshops in a range of activities suitable for the classroom or specialist art facility. The place of arts practice and responding to art in contemporary pedagogy and art education theory is examined. Students develop understandings in visual aesthetics and design, art history and theory.

Class requirements: One 1-hour lecture and one 2-hour tutorial per week (or equivalent block mode, or supervised independent study).

Assessment: One 3000-word research assignment (50%), practical workshop art folio and visual diary (50%). Students are required to produce four pieces of work representing each medium workshop and a visual diary

Prescribed Reading:

Wright, S. (1991) *The Arts in Young Children and Learning* Boston: Allyn and Bacon

EDU4SIM SPORTS INJURY MANAGEMENT (15 CPs Sem. TE-SEM-2 BE.) *Dr*

Ashley Woodcock

Students are introduced to the concepts of sports medicine in order to acquire knowledge of most common sporting injuries, their causes and appropriate preventative measures. Students also gain knowledge in various forms of immediate and rehabilitative treatment. Through participation in practical workshops students learn to apply the basic principles of physical conditioning in the design of fitness and rehabilitative programs. This unit also provides students with an understanding of environmental influences on physical performance, the role of administration and other precautionary procedures.

Prerequisite: EDU11HBS, EDU1HBS.

Class requirements: One 3-hour lecture/workshop per week .

Assessment: One 500-word practical assignment (30%). It is a hurdle requirement that students gain Level 2 Workplace First Aid Accreditation (ungraded, one 2000-word assignment (30%) and one 2-hour final examination (40%)

Recommended Reading:

EDU4SVE SPIRITUALITY AND VALUES IN CATHOLIC EDUCATION (15

CPs Sem. TE-SEM-2 BE.) *Dr Barbara Tadich*

In this unit students will be introduced to various models of understanding the human person and explore the function of virtues/values in the development and experience of the person in communal contexts. Students will critically analyse theories of moral development, review and evaluate literature and recent thinking on the role of the spiritual dimension of personal meaning-making. Students will learn and apply methodologies that address and develop the affective and spiritual domains of learning and explore possible descriptions and implications of a spirituality of teaching.

Recommended Prior Studies: EDU31TSC, EDU32RE, EDU41REP.

Class requirements: One 2-hour lecture and one 2-hour tutorial per week.

This unit is not available for Study Abroad students.

Assessment: One 2000-word essay (50%), two 500-word book and/or article reviews (25%), one unstructured reflective journal of 2000 to 3000 words (25%)

Recommended Reading:

ENG1ASA ACADEMIC SKILLS FOR TERTIARY STUDY A (15. CPs Sem. TE-SEM-1 BE, SH. TE-SEM-2 BE, SH.) *BE: Ms Karin Moses, SH: Mr David Jones*

Offered subject to sufficient enrolments.

This unit makes explicit the cognitive process and linguistic structure of analytical texts. The unit uses discourse analysis to develop multiple language and learning skills. It incorporates generic and discipline specific material.

The unit aims to develop students' academic skills and provide students with the ability to present oral and written work at the required level of technicality, formality and abstraction. Although students will be given the opportunity to improve their oral presentation skills, much of the focus is on the writing of research reports and essays.

Class requirements: Four hours per week.

This unit is not available for Study Abroad students.

Assessment: Two class exercises (15%) assessable in class activity, 750-word essay/report (15%), 1500-word essay/report (20%), oral presentation based on major essay/ report (15%), 2.5-hour final examination (35%). Students must pass the written examination to pass the subject

ENG1ASB ACADEMIC SKILLS FOR TERTIARY STUDY B (ESL) (15 CPs Sem. TE-SEM-1 BE. TE-SEM-2 BE.) *Ms Karin Moses, Mr David Jones*

Offered subject to sufficient enrolments.

This unit is designed for students from non-English speaking backgrounds – both international students and Australian citizens or permanent residents. The unit aims to improve students' understanding of English academic discourse while providing them with a framework for coming to terms with Australian learning paradigms. While students are given the opportunity to develop their oral presentation skills, the focus of the unit is on the construction of a variety of written academic texts including discursive essays and business and science reports.

Class requirements: Four hours per week.

This unit is not available for Study Abroad students.

Assessment: Three class exercises (10%) assessable in class activity, 750-word essay/report (15%), 1500-word essay/report (20%), oral presentation based on major essay/ report (15%), 3-hour final examination (40%). Students must pass examination to pass subject.

ENG1SIW SKILLS IN WRITING (15. CPs Sem. TE-SEM-1 BE.) *Ms Karin Moses, Ms Anne Scott*

This unit is designed for students enrolled in the Mathematics/Science Bridging course. The unit develops students' writing skills to the required level of technicality, formality and abstraction. The unit provides students with the opportunity to practise the skills needed to use appropriate and accurate vocabulary and grammatical structures, interpret assignment and examination questions and topics, take concise and reliable notes, read more effectively, write coherent and logically sequenced paragraphs, use references to retrieve and signal information as required, understand and use appropriate staging for a variety of academic genres and prepare an outline for and write reports and essays.

Class requirements: Four hours.

This unit is not available for Study Abroad students.

Assessment: Exercise, assignments and examination (100%).

INM4LTM LOTE TEACHING METHODOLOGY (15 CPs Sem. TE-SEM-1 BE.)

Mr Robin Hutchison

Not available in 2008

OED1AAL ADVENTURES IN AUSTRALIAN LANDSCAPE (15 CPs Sem. TE-SEM-1 BE. TE-SEM-2 BE.) *Dr Peter Martin*

In this unit students will be introduced to the diversity of Australia's landscape and the human-to-nature relationships that are afforded. Drawing upon discipline knowledge in outdoor education and environmental studies the unit encourages an introductory

understanding of Australian environments, their landform, flora, fauna and the human nature relationships such environments have promoted and enabled over time. As well as theoretical knowledge of outdoor education practice and environmental study, students will develop experiential knowledge of a diversity of Australian environments via outdoor education style journeys.

Quota: 18. The subject is most suited to students undertaking a semester abroad program within the School of Outdoor Education and Environment. Preference will be given to such students. Additional international students may enrol after confirmation with the course coordinator.

Class requirements: One 1-hour lecture per week and 8 field trip days.

Assessment: One 6000-word unstructured journal (80%), one 1000-word assignment (20%)

Prescribed Reading:

Book of Readings University Bookshop.

OED1AFE FIELD EXPERIENCE A (15 CPs Sem. TE-SEM-1 BE.) *Ms Terry Gaechter*

In this unit students will develop the knowledge and skills required for safe exploration of outdoor environments. Theory and practical work encourages the development of safe practice, reasonable judgement, understanding of self, care for others and the environment, sound preparation and the ability to learn from experience.

Co-requisite: OED1AOL.

Class requirements: Twelve 1-hour tutorials/lectures and nine days practical work spread over the 13-week semester.

Assessment: One 2500-word assignment (60%). Practical work completion hurdle (compulsory). Satisfactory participation and performance to defined exit standards are required to meet the practical compulsory hurdle assessment. One 1-hour exam (40%)

Prescribed Reading:

Mason, B. (1995) *Path of the Paddle*. Rev edn. Leicester: Cordee
Tempest, G. (1996) *Rock climbing: Getting Started* Melbourne: Penfolk Publishing.

OED1AOL OUTDOOR LIVING AND TRAVEL SKILLS (15 CPs Sem. TE-SEM-1 BE.) *Mr Peter Dingle*

In this unit students are introduced to the knowledge and skills required for safe participation in self-reliant wilderness travel. Bush competency, navigation theory and skills, understanding of self as a participant and the principles of social psychology are a primary focus. First aid knowledge and skills are also covered. Practical work encourages the development of safe practice, reasonable judgement, care for others and the environment, sound preparation and the ability to learn from experience.

Class requirements: Seven 1-hour lectures and four 1-hour tutorials plus 9 days of practical work spread over 13 weeks.

Assessment: One 2-hour examination (50%). Practical work hurdle (compulsory). Satisfactory participation and performance to defined exit standards are required to meet the compulsory hurdle assessment, one 500-word gear making assignment (10%) and one 1000-word learning summary assignment (40%)

Prescribed Reading:

OED1BFE FIELD EXPERIENCE B (15 CPs Sem. TE-SEM-2 BE.) *Mr Peter Dingle*

In this unit students will be able to develop further the knowledge and skills required for safe exploration of outdoor environments. Theory and practical work encourages the development of safe practice, reasonable judgement, understanding of self, care for others and the environment, sound preparation and the ability to learn from experience.

Recommended Prior Studies: OED1AFE.

Class requirements: Twelve 1-hour lectures/tutorials and eight days practical work spread over 13 weeks.

Assessment: One 2250-word major assignment (60%). Practical work hurdle (compulsory). Satisfactory participation and performance to defined exit standards are required to meet the compulsory hurdle assessment, one 1.5-hour exam (40%)

Preliminary Reading:

OED110E INTRODUCTION TO OUTDOOR EDUCATION (15 CPs Sem. TE-SEM-1 BE.) *Ms Alison Lugg*

In this unit students are introduced to the nature and scope of outdoor education. Students cover a range of foundation outdoor education content and processes including: how schools use outdoor education, the professional skills demanded by outdoor education, the relationship between outdoor education, physical education and environmental education and safety and risk management in outdoor education fieldwork. As part of the unit students will undertake four days of outdoor education practical work.

Class requirements: Two 1-hour lectures/tutorials per week, plus four days of fieldwork .

Assessment: One 2-hour final examination (50%), one 1500-word assignment (50%). Hurdle requirements: attendance at field trips

Prescribed Reading:

Martin, PA. *readings packet of material will be prepared for this unit*. La Trobe University

OED1NS NATURALIST STUDIES (15 CPs Sem. TE-SEM-2 BE.) *Mr Gregg Muller*

In this unit the students will focus on understanding, recording and reflecting on natural places through field observation and experience. Students will be introduced to the skills of field observation and recording in natural history. They will develop practical knowledge of identification and classification and expertise in planning and undertaking short excursions and multi-day educational trips in natural settings.

Recommended Prior Studies: BIO11AE.

Class requirements: 17 hours of lectures/tutorials and seven days, practical work over 13 weeks.

Assessment: One 2000-word assignment (35%), one 1000-word assignment (25%), one 1.5-hour practical examination (40%)

OED10EE OUTDOOR ENVIRONMENTS (15 CPs Sem. TE-SEM-2 BE.) *Dr Ruth Lawrence*

In this unit students will explore the natural and cultural characteristics of riverine, box and ironbark forests and mountain and alpine areas of south-eastern Australia. Changing attitudes towards the land are explored by a chronological examination of Aboriginal and European occupation of the continent. Current land management issues are explored through a number of case studies, with particular emphasis on land use conflicts in the Australian alpine area.

Recommended Prior Studies: OED1RAL.

Class requirements: 2 hours lecture and 2 hours tutorials/field trips per week .

Assessment: 1500-word assignment (30%)> Practical work hurdle (compulsory). Satisfactory participation and performance to defined exit standards are required to meet the compulsory hurdle assessment. 1000-word field report (20%), tutorial participation (10%) measured by contribution to analytical discussion, one 2-hour exam (40%)

OED1RAL READING AUSTRALIAN LANDSCAPES (15 CPs Sem. TE-SEM-1 BE.) *Dr Lesley Hodgson*

Students are introduced to the processes that shape Australian landscapes. Selected environments are used to illustrate influences and interrelationships of climate, ecology and land-forming processes on the natural system. Through practical work, field work and assignments students learn to use a range of techniques that will enable them to 'read' landscapes from a naturalist's and an outdoor educator's perspective.

Class requirements: 2-hour lecture per week, 4 hours of tutorials per semester, 22 hours of field experience per semester.

Assessment: One 2-hour final examination (50%), one 2000-word assignment (50%). Practical work hurdle (compulsory). Satisfactory participation and performance to defined exit standards are required to meet the compulsory hurdle assessment

Augee, M and Fox, M. (2000) *Biology of Australia and New Zealand* Pearson Education: Australia

OED1SRA SPORT AND RECREATION A (15 CPs Sem. TE-SEM-1 BE.) *Dr Peter Martin*

In this unit students will cover safety and skill acquisition of selected sport and recreation activities. Selected activities will be negotiated with individual students. Students will cover content related to training regimes, contextual parameters influencing performance, ethics and participation in the selected sport and recreation activities. The unit incorporates both theoretical and practical learning modes.

Co-requisite: Must be enrolled in course (EBPOEB, EBPHEB).

Class requirements: Equivalent to four hours /week. E.g, seven hours lectures and tutorials and nine days, practical work spread over the 13-week semester, usually as 1-hour tutorial per week, plus practical work. In some weeks practical work will replace the tutorial.

Assessment: One 3500-word assignment (80%), practical work (20%)

Recommended Reading:

Unit coordinator. *Book of Readings* La Trobe University

OED1SRB SPORT AND RECREATION B (15 CPs Sem. TE-SEM-2 BE.) *Dr Peter Martin*

In this unit students will cover safety and skill acquisition of selected sport and recreation activities. Selected activities will be negotiated with individual students and will be different to activities selected in OED1SRA. Students will cover content related to training regimes, contextual parameters influencing performance, ethics and participation in the selected sport and recreation activities. The unit incorporates both theoretical and practical learning modes.

Co-requisite: Must be enrolled in course (EBPOEB, EBPHEB).

Class requirements: Equivalent to four hrs /week. E.g, seven hours lectures and tutorials and nine days practical work spread over the 13-week semester, usually as 1-hour tutorial per week, plus practical work. In some weeks practical work will replace the tutorial.

Assessment: One 3500-word assignment (80%), practical work (20%)

OED1WE WORLD VIEWS AND THE ENVIRONMENT (15 CPs Sem. TE-SEM-2 BE.) *Ms Alison Lugg*

In this environmental studies unit students are introduced to some of the ideas and cultural beliefs that have shaped the way Australians perceive and interact with natural environments and explore the implications of these perceptions for their practice. Students investigate aspects of traditional western European belief systems, as well as current developments in environmental studies that seek to critically reflect on human-nature relationships. Practical trips are designed to enable students to analyse how underlying environmental worldviews have shaped the diverse ways in which different groups have responded to natural environments through action observation and evaluation.

Recommended Prior Studies: OED11WKN

OED11AOL

Class requirements: One 1-hour lecture and approximately one 1-hour tutorial per week. Five days of practical work.

Assessment: One 1600-word assignment (40%) Practical work hurdle (compulsory). Satisfactory participation and performance to defined exit standards are required to meet the compulsory hurdle assessment, one 1200-word assignment (30%) and one 1-hour examination (30%)

OED1WKN WAYS OF KNOWING NATURE (15 CPs Sem. TE-SEM-1 BE.) *Ms Terry Gaechter*

In this unit students are introduced to the theoretical and practical study of human-nature relationships. The potential for outdoor education and nature tourism to educate people for environmentally sensitive living is explored. Students will examine different ways of knowing nature, such as experiential knowledge, indigenous knowledge and 'knowing nature as a naturalist'. Emphasis is placed on developing academic skills of critical enquiry, critical reading, referencing and presentation of written work. Practical trips provide opportunities for observation and reflection which are recorded through journal keeping.

Class requirements: One 1-hour lecture, one 1-hour tutorial per week plus six days of practical work.

Assessment: One 2500-word assignment (60%), one 1.5-hr exam (40%)

Prescribed Reading:

OED2ACL AUSTRALIAN CULTURE AND LAND (15 CPs Sem. TE-SEM-2 BE.)

Mr Alistair Stewart

Students will learn about the indigenous and European culture origins and characteristics of land tenure and management of both public and private lands in Australia. They will be introduced to the history of our current land management system. Students will engage with ideas related to the cultural construction of nature and the way in which current beliefs and practices about land use are imbedded in cultural accident and history. In exploring the current institutional and legal structures involved in land use, students will be able to understand why differing expectations, regulations and practices apply to a range of land designations.

Recommended Prior Studies: OED12OEE.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week plus one 3-day field trip.

Assessment: One 2000-word assignment incorporating field trip report (50%) Practical work hurdle (compulsory 3-day field trip). Satisfactory participation and performance to defined exit standards are required to meet the compulsory hurdle assessment, one 2.5-hour examination (50%)

OED2BE BUSH ENVIRONMENTS (15 CPs Sem. TE-SEM-1 BE. TE-SEM-2 BE.)

Ms Genny Blades, Mr Phil Robertson

This unit includes content of natural history, land management and ecology directly relevant to selected bush environments of south eastern Australia. Students will develop technical expertise of bushwalking to enable safe exploration and promote experiential and interpretative knowledge of bush environments.

Prerequisite: BIO1AE.

Recommended Prior Studies: BIO1AE.

Class requirements: Seven 1-hour lecture/tutorials and nine-days practical work.

Assessment: 2500-word assignment (50%). Ongoing assessment of practical skills and knowledge (hurdle-compulsory). Satisfactory participation and performance to defined exit standards are required to meet the compulsory hurdle assessment, 1500-word assignment (50%)

OED2EI ENVIRONMENTAL INTERPRETATION (15 CPs Sem. TE-SEM-1 BE.)

Dr Lesley Hodgson

In this unit students will be introduced to the theory and practice of environmental interpretation and its role in the context of education and nature tourism. Students will critically examine theory and practice of effective interpretation through examination of interpretive venues and other materials, including some of their own. The emphasis will be on developing interpretive skills with a focus on both natural and cultural interpretation settings.

Class requirements: Two 2-hour lectures and two 2-hour tutorials per week and two days of field work.

Assessment: One 1000-word minor assignment (25%), one 2500-word major assignment (50%), one 1000-word minor assignment (25%)

OED2FEC FIELD EXPERIENCE C (15 CPs Sem. TE-SEM-1 BE. TE-SEM-2 BE. TE-SEM-3 BE.) *Mr Sean Murray*

In this unit students will develop the knowledge and skills required to undertake an extended journey in a remote natural environment and consolidate their outdoor education journey skills, environmental knowledge and introductory outdoor leadership skills. Theory and practical work encourages the development of safe practice, reasonable judgment, understanding of self, care for others and the environment, sound preparation and the ability to learn from experience.

Recommended Prior Studies: OED1BFE.

Class requirements: Eight hours of tutorials and 18 days of practical work.

Assessment: 1500-word assignment (50%), 1500-word assignment (50%). Practical work hurdle (compulsory). Satisfactory participation and performance to defined exit standards are required to meet the compulsory hurdle assessment

OED2LES LOCAL ENVIRONS STUDY (15 CPs Sem. TE-SEM-2 BE.) *Mr Gregg Muller*

In this environmental studies unit students will work in small teams to plan and implement experiential education programs within a 100km radius of the campus. They will research an educational theme and plan and implement two associated field trips. They will complete a two-day cycle safety workshop in preparation and will learn to use a handheld GPS for navigation and mapping.

Class requirements: Equivalent to four hours of contact per week, normally as seven hours of introductory lectures and nine days of practical work, in three blocks.

Assessment: GPS practical assessment 15 minutes (10%), planning assignment 2000 words (50%). Must be satisfactory in order to participate in practical work, assignment 1500 words (40%). Practical work hurdle (compulsory). Satisfactory participation and performance to defined exit standards are required to meet the compulsory hurdle assessment.

OED2OLA OUTDOOR LEADERSHIP A (15 CPs Sem. TE-SEM-2 BE.) *Mr Glyn Thomas*

In this unit students will be provided with an introduction to the theory and practice of small group leadership in the outdoors as relevant to outcomes of outdoor/environmental education and personal and group development. Students will also consider elements of effective leadership applied to nature based, or adventure, activity, including: communication, facilitation and instruction.

Prerequisite: OED12WE.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week with variation due to the schedule of practical work.

Assessment: One 1500-word assignment (40%). Practical work hurdle (compulsory). Satisfactory participation and performance to defined exit standards are required to meet the compulsory hurdle assessment. One 2500-word assignment (60%)

Prescribed Reading:

Book of Readings Media Services, La Trobe University, Bendigo

OED2OLB OUTDOOR LEADERSHIP B (15 CPs Sem. TE-SEM-1 BE.) *Mr Sean Murray*

Students further develop outdoor leadership competence and gain experience in small group leadership in outdoor/environmental education. Knowledge of safety/risk management, trip planning, remote area first aid, stress/burnout, social psychology, disability issues, legal liability, certification and professional ethics is developed.

Recommended Prior Studies: OED21OLA.

Class requirements: Eight days practical work and 13 hours of lectures/tutorials spread over the 13-week semester, usually as 1-hour tutorial per week, plus practical work. In some weeks practical work will replace the tutorial.

Assessment: One 1500-word planning and experience summary (40%). Practical work hurdle (compulsory). Satisfactory participation and performance to defined exit standards are required to meet the compulsory hurdle assessment. One 2-hour exam (60%)

Prescribed Reading:

Book of Readings. Media Services, La Trobe University, Bendigo

OED2RCS REGIONAL CATCHMENT STUDIES: RESOURCES AND MANAGEMENT (15 CPs Sem. TE-SEM-1 BE.) *Dr Ruth Lawrence*

In this unit the water resources in Australia are examined at catchment scale and on a regional basis. The processes and properties

of Australian surface water runoff, groundwater movement and water quality will be examined and the interrelationships between landform, land use and hydrology are explored. Particular emphasis will be placed on properties of northern Victoria catchments. Specific topics to be examined include floodplain management, urban hydrology, river regulation and interactions between shallow groundwater and surface land features. Principles of catchment management are introduced and several case studies of contrasting management strategies are detailed.

Class requirements: One 1-hour lecture and one 1-hour tutorial per week plus six days of field work.

Assessment: One 2-hour examination (50%), two 1250-word field reports (50%)

Preliminary Reading:

Smith, DI. *Water in Australia: Resources and Management* Oxford University Press. 1998

OED2RE RIVER ENVIRONMENTS (15 CPs Sem. TE-SEM-1 BE. TE-SEM-2 BE.)

Mr Peter Dingle

Students will develop technical expertise of paddling to enable safe exploration and promote experiential and interpretative knowledge of river environments as preparation for peer leadership. This unit includes content of natural history, land management, hydrology and ecology directly relevant to selected river environments of south eastern Australia.

Recommended Prior Studies: OED1OEE.

Class requirements: One 1-hour lecture and approximately one 1-hour tutorial per week. Eight-days of practical work.

Assessment: One 2000-word learning summary assignment (50%) Ongoing assessment of practical skills and knowledge (hurdle – compulsory). Satisfactory participation and performance to defined exit standards are required to meet the compulsory hurdle assessment. One 1500-word assignment and a 10-minute presentation (50%)

Prescribed Reading:

Book of Readings. Media Services, La Trobe University, Bendigo.

OED2RON READINGS IN OUTDOOR EDUCATION AND NATURE

TOURISM (15 CPs Sem. TE-SEM-1 BE. TE-SEM-2 BE.) *Mr Andrew Brookes*

This unit is offered at third unit level also.

Enrolment must be approved by the course coordinator.

Readings in Outdoor Education and Nature Tourism provides an opportunity for students to pursue study in depth in particular areas of the disciplines of outdoor education or nature tourism in response to personal professional and academic interests. The specific tasks within the unit are individually negotiated according to student learning objectives and experience. With guidance from a lecturer, students prepare a learning plan for readings or a project and carry out the plan with supervision. The unit may involve practical field work.

Class requirements: Equivalent of one half hour per week supervisory conference plus independent study. Up to eight days of practical work if appropriate to learning plan.

Assessment: One 500-word learning plan (15%), one 1000-word assignment (35%), one 3000-word assignment (50%)

Recommended Reading:

Depends on readings chosen. *Individually determined*. Current.

OED2RWE RIVER AND WETLANDS ENVIRONMENTS (15 CPs Sem. TE-SEM-S BE.) *Mr Alistair Stewart*

This subject is normally only available to students enrolled in the Bachelor of Arts (Nature Tourism) or Bachelor of Arts (Outdoor Education) courses.

In this unit, students will build on previous experience in the Murray Catchment. Students undertake an extended practical experience to consolidate their knowledge of natural and cultural history, land management and ecology directly relevant to selected river and wetland environments of south-eastern Australia. They will examine the notions of water in a dry landscape, developing understanding of how catchment use determines river health through exploration of the lower reaches of the Murray River. Students will develop naturalist and paddling expertise and knowledge of river and riparian ecology to enable exploration and promote experiential and interpretive knowledge of river and wetland environments.

Prerequisite: OED12OEE.

Class requirements: Seven 1-hour lectures and 18 days of field studies spread throughout the semester.

Assessment: One 1750-word assignment (40%), one 2000-word assignment (60%)

Preliminary Reading:

MacKay, N and Eastburn, D. Eds *The Murray* Canberra: Murray Darling Basin Commission (1990)

Sinclair, P. *The Murray: A River and Its People* Melbourne University Press. 2001

OED2SNT SUSTAINABLE NATURE TOURISM (15 CPs Sem. TE-SEM-2 BE.)

Dr Lesley Hodgson

This unit is offered at third unit level also.

Not available in 2008

OED2WAE WINTER ALPINE ENVIRONMENTS (15 CPs Sem. TE-SEM-2 BE.)

Mr Sean Murray

Students will examine aspects of natural history, land management, snow deposition and ecology directly relevant to selected Alpine environments of south-eastern Australia. Students will develop technical expertise of cross-country ski touring to enable safe exploration and promote experiential and interpretative knowledge of winter alpine environments.

Recommended Prior Studies: OED12OEE.

Class requirements: One 1-hour lecture, nine days of practical work.

Assessment: One 1500-word pre trip organisation assignment (35%), one 1500-word assignment (teaching resource kit) (35%), one 20-minute oral presentation (30%). Ongoing assessment of practical skills and knowledge (hurdle – compulsory). Satisfactory participation and performance to defined exit standards are required to meet the compulsory hurdle assessment.

Mr Andrew Brookes

Not available in 2008

OED3EO EDUCATION IN THE OUTDOORS (15 CPs Sem. TE-SEM-1 BE.) *Mr*

Andrew Brookes

Students examine the social and cultural context of education and implications for outdoor education. Components include discourses on the outdoors and 'the bush', curriculum enquiry and implications for teaching in the outdoors. Students plan, implement and evaluate a 3-day outdoor education or nature tourism experience.

Class requirements: 32 hours of lectures or tutorials, four days of practical work spread over the 13-week semester usually as 2-hour lecture and 1-hour tutorial per week, although this may vary somewhat due to the schedule of practical work.

Assessment: 1500-word assignment (35%). Average of both assignment grades must be 50% or better. 1000-word lesson plan (30%). Lesson plan grade must be 50% or better., 1500-word assignment (35%), practical work (0%). Participation is compulsory. Participation must satisfy standard.

Preliminary Reading:

Readings Packet Prescribed Reading:

Brookes, A. (1998) *Place and experience in Australian outdoor education and nature tourism* Outdoor recreation. Umee, Sweden.

OED3ES EDUCATION FOR SUSTAINABILITY (15 CPs Sem. TE-SEM-2 BE.)

Dr Lesley Hodgson

Students study the concept of sustainability, particularly in relation to outdoor education and nature tourism practice. The unit explores concepts of and debates about sustainability and considers practical implications and ethical dilemmas.

Prerequisite: OED12WE.

Class requirements: 26 hours of lectures, 11 hours of tutorials and three days practical work spread over 13 weeks, usually as 2-hour lecture and 1-hour tutorial per week, although this may vary somewhat due to the schedule of practical work.

Assessment: 2000-word assignment (50%), 2000-word assignment (50%)

Recommended Reading:

Scott, W and Gough, S. (2003) *Key Issues in Sustainable Development and Learning: A Critical Review* Routledge-Falmer, London

Scott, W and Gough, S. (2003) *Sustainable Development and Learning: Framing the Issues* Routledge-Falmer, London

OED3FED FIELD EXPERIENCE D (15 CPs Sem. TE-SEM-1 BE.) *Mr Andrew Brookes*

Students undertake a negotiated program to extend their outdoor education preparation. The emphasis is on leading and teaching in the outdoors and students are encouraged to build on their experience in specialist areas of their choice. Practical experience may include advanced skill development, field work-placement (practicum) and peer trip leading.

Class requirements: One 1-hour lecture and approximately one 1-hour tutorial per week and eight days of practical work.

Assessment: One 1000-word field experience plan plus satisfactory completion of practical work. (100%) Ungraded pass/fail. Satisfactory completion of field experience plan (1000 words) and satisfactory completion of practical work (compulsory hurdle), according to defined criteria.

Prescribed Reading:

Book of Readings. Media Services, La Trobe University. Bendigo

OED3FEE FIELD EXPERIENCE E (15 CPs Sem. TE-SEM-1 BE. TE-SEM-2 BE.)

Mr Andrew Brookes

Students undertake a negotiated program to extend their outdoor education preparation. The emphasis is on evaluation of students' learning and their readiness for leading and teaching in the outdoors. Practical experience may include advanced skill development, fieldwork-placement (Practicum) and peer trip leading).

Recommended Prior Studies: OED31FED.

Class requirements: One 1-hour lecture and approximately one 1-hour tutorial per week plus 8-days practical work.

Assessment: 3750-word field experience evaluation plus satisfactory completion of practical work. (100%) Ungraded pass/fail.

Satisfactory completion of field experience evaluation and satisfactory completion of practical work (compulsory hurdle), according to defined criteria.

Recommended Reading:

Camping Association of Victoria Inc. (1997) *Camping with Confidence: Australian Campsite Accreditation* Melbourne. CAV

OED3NSI NATURALIST STUDIES: INTERPRETATION (15 CPs Sem. TE-SEM-1 BE.) *Ms Lesley Hodgson*

In this unit students examine the contribution of naturalist studies to our culture as a context for development of their own philosophy and practice in nature tourism. This is done through reading and reflecting on the ways in which earlier generations of Australian naturalists have documented the landscape and its natural history. In field work students will explore, develop and present an interpretative program about one such landscape. Students will develop such programs using current educational models of interpretation. In written work, students will reflect on the work of earlier naturalists and enhance their own appreciation of field naturalists' skills and interests.

Class requirements: One 1-hour lecture and approximately one 2-hour tutorial per week. four days of field work.

Assessment: One 3000-word or equivalent major project (60%). The project could be a naturalist diary report or practical planning exercise or essay. One 1500-word or equivalent minor project (40%). This project could be a practical demonstration of interpretive skills in presenting a plan, program or information face-to-face in brochure/pamphlets, display or video form. Field trip (0%). To pass this subject students must complete four days of field work (hurdle ungraded).

OED3NTP NATURE PRACTICUM (15 CPs Sem. TE-SEM-2 BE.) *Mr Phil Robertson*

In this unit students will develop and deliver components of a community based natural history program and observe/experience program delivery in the nature tourism and environmental education field. In classes and in the field, students will also cover professional issues, networking and job application processes.

Class requirements: One 1-hour lecture and one 1-hour tutorial per week or equivalent over eight weeks. Two days of program development and delivery – linked to Spring in the Bendigo Bush and 8 days Practicum (5 days with outside agency).

Assessment: Develop and deliver a nature tourism/environmental education program (equivalent to a 2500-word assignment) (60%). Develop and deliver a program for a community agency (Spring in the Bendigo Bush, one 500-word personal workplace project (10%). Develop a personal curriculum vitae and/or job application, eight days of practicum placement (0%). Hurdle requirement includes three days in Lyell forest, one 1500-word assignment or equivalent project (30%). Report on and evaluation of practicum placement experience

OED3OPE OUTDOOR ENVIRONMENTAL PRACTICAL EXTENSION (15 CPs Sem. TE-SEM-1 BE. TE-SEM-2 BE. TE-SEM-5 BE.) *Mr Glyn Thomas*

Permission of the unit coordinator and course coordinator

In this unit students will critically examine the cultural and environmental features of a particular place in the context of outdoor education and/or nature tourism practice. The unit will incorporate: student research and presentations and practical experience in the selected place.

Co-requisite: Available only to students enrolled in Bachelor of Arts (Outdoor Education) and Bachelor of Arts (Nature Tourism).

Class requirements: Equivalent to four hours per week. For example: Seven hours of lectures and tutorials and nine days of practical work.

Assessment: 3000-word assignment (80%). Assignment includes research into a particular facet of the place and participation in field work. One 20-minute presentation (equivalent 1000 words) (20%). Presentation is of the research findings from the assignment

OED3PWM PARKS AND WILDLIFE MANAGEMENT (15. CPs Sem. TE-SEM-1 BE.) *Mr Gregg Muller*

In this unit students will develop a working knowledge of key elements in natural and cultural resource management, with particular reference to protected areas. Topics include weeds and feral animals, legal and scientific approaches to natural resource management, use of protected areas as a baseline for research and management and the interplay between natural and cultural resource management. Case studies focus on biodiversity and heritage management practices in south-eastern Australia.

Prerequisite: OED22ACL.

Class requirements: Two 1-hour lectures and one 2-hour tutorial or field trip per week.

Assessment: Two 2000-word assignments (90%), tutorial attendance and participation (10%)

Prescribed Reading:

Book of Readings. Media Services, La Trobe University, Bendigo.

Recommended Reading:

OED3TBE TEACHING IN BUSH ENVIRONMENTS (15 CPs Sem. TE-SEM-1 BE. TE-SEM-2 BE.) *Mr Andrew Brookes*

Students apply and extend bushwalking and navigation skills and environment interpretive knowledge to be able to conduct outdoor/environmental education learning experiences. Teaching, environmental interpretive content, bush travel skills and group management skills relevant to bush environments will be covered.

Prerequisite: OED2OLB, OED2FEC.

Class requirements: One 1-hour lecture and approximately one 1-hour tutorial per week. Eight days of practical work.

Assessment: 2000-word assignment (50%), 2000-word assignment (50%). Ongoing assessment of practical skills and knowledge (hurdle compulsory). Satisfactory participation and performance to defined exit standards are required to meet the compulsory hurdle assessment.

Prescribed Reading:

Ministry of Education (1998) *Camping and bush activities safety guidelines* Melbourne: Dept. of Education

OED3TNH TEACHING NATURAL HISTORY (15 CPs Sem. TE-SEM-1 BE. TE-SEM-2 BE.) *Mr Andrew Brookes*

In this unit students will plan, implement and review education experiences with a natural history focus. Students will refine their own knowledge of the locales in which they will teach, prepare a safety management plan and develop teaching strategies. They will spend at least four days of the practical work in a teaching or guiding role.

Class requirements: One 1-hour lecture per week and eight days of field trips.

Assessment: One 2000-word teaching plan (50%), one 2000-word assignment (50%)

Prescribed Reading:

Department of Education *Safety Guidelines: Camping and Bush Activities* Department of Education: Melbourne 1998

OED3TPD TEACHING AND PROGRAM DEVELOPMENT (15 CPs Sem. TE-SEM-2 BE.) *Ms Genny BLADES*

In this unit students will study ecological approaches to teaching curriculum development and apply these to outdoor education teaching and program planning and evaluation. Students plan, implement and evaluate a 4-day outdoor education camp program.

Recommended Prior Studies: OED31EO.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week and four days of practical work.

Assessment: 1000-word lesson plan (25%). Practical work hurdle (compulsory). Satisfactory participation and performance to defined exit standards are required to meet the compulsory hurdle assessment. 1000-word teaching evaluation (25%) and 2000-word major assignment (50%)

OED3TRE TEACHING IN RIVER ENVIRONMENTS (15 CPs Sem. TE-SEM-1 BE. TE-SEM-2 BE.) *Mr Glyn Thomas*

Students apply and extend technical paddling skills and river environment interpretive knowledge to be able to conduct outdoor/environmental education learning experiences. Teaching, environmental interpretive content, paddling skills and group management skills relevant to river environments will be covered.

Prerequisite: OED2RE

OED2OLB

Class requirements: Thirteen hours of lectures or tutorials and eight days of practical work spread over the 13 week semester, usually as 1-hour lecture or tutorial per week plus practical work. In some weeks, practical work will replace the lectures and tutorials.

Assessment: 2000-word assignment (50%), 2000-word assignment (50%). Ongoing assessment of practical skills and knowledge (hurdle – compulsory). Satisfactory participation and performance to defined exit standards are required to meet the compulsory hurdle assessment.

Prescribed Reading:

Book of Readings. Media Services, La Trobe University, Bendigo.
Ministry of Education (1991) *Canoeing: safety guidelines* Victoria.
Smith, DI. (1998) *Water in Australia: resources and management*. Melbourne: OUP

OED3TWA TEACHING IN WINTER ALPINE ENVIRONMENTS (15 CPs

Sem. TE-SEM-2 BE.) *Mr Andrew Brookes*

Students apply and extend cross country ski touring and snow camping skills and environment interpretive knowledge to be able to conduct outdoor/environmental education learning experiences. Teaching, environmental interpretive content, snow travel skills and group management skills relevant to snow environments will be covered.

Prerequisite: OED2OLB.

Class requirements: One 1-hour lecture and approximately one 1-hour tutorial per week plus eight days of practical work.

Assessment: 2000-word assignment (50%), 2000-word assignment (50%). Ongoing assessment of practical skills and knowledge (hurdle – compulsory). Satisfactory participation and performance to defined exit standards are required to meet the compulsory hurdle assessment.

Prescribed Reading:

Ministry of Education. (1992) *Snow activities: safety guidelines* Victoria

OED4BRB RESEARCH THESIS (OUTDOOR EDUCATION AND NATURE TOURISM) B (30 CPs Sem. TE-SEM-2 BE.) *Dr Peter Martin*

Not available in 2008

OED4RD READINGS IN OUTDOOR EDUCATION (15 CPs Sem. TE-SEM-1

BE. TE-SEM-2 BE.) *Mr Andrew Brookes*

In this unit students will individually negotiate topics according to their learning objectives and experience. Students undertake projects and study in specific aspects of outdoor education or nature tourism.

Class requirements: One hour per fortnight supervisory conference plus independent study.

Assessment: One 4500-word assignment (100%)

Preliminary Reading:

Individually negotiated according to research topics.

OED4RM RESEARCH METHODS IN OUTDOOR EDUCATION AND NATURE TOURISM HONOURS (15. CPs Sem. TE-SEM-1 BE.) *Mr Andrew Brookes*

In this unit students will be introduced to research in outdoor education and nature tourism, largely from a qualitative perspective. The skills of question formulation, literature analysis, research design, research methods, sampling, data collection, data analysis and research report writing are taught. Students develop a research proposal and critically analyse published research.

Class requirements: Supervised reading and consultation equivalent to four hours per week.

Assessment: Two 2000-word assignments: research design and paper critique (100%).

Preliminary Reading:

Henderson, KA. (1991) *Dimensions of choice: Qualitative research in recreation and park administration*, Venture, State College, PA.
Erlandson, DA, Harris, EL, Skipper, BL and Allen, SD. (1993) *Doing naturalistic inquiry: A guide to methods*. Newbury Park, CA: Sage.

OED4ROE READINGS OUTDOOR EDUCATION AND NATURE TOURISM HONOURS (15. CPs Sem. TE-SEM-1 BE. TE-SEM-2 BE.) *Mr Andrew Brookes*

Students learn to search literature comprehensively in the area in which they will conduct their research. The skills of literature review preparation are taught, including literature search and retrieval, question formulation, organisation of literature, referencing, critical and comparative analysis and writing for publication.

Class requirements: Class teaching and/or individual supervision equivalent to two hours per week for 13 weeks.

Assessment: 40,000-word assignment (100%) Students must complete one major literature review assignment. This subject will contribute 20% to the final determination of Honours.

Preliminary Reading:

Hart, C. (1998) *Doing a literature review: releasing the social science research imagination*. London: Sage.

Buchanan N and Feldhusen J. Eds. *In Conducting research and evaluation in gifted education*. New York: Teachers College Press: 33-50.

OED4SEA OUTDOOR EDUCATION OR NATURE TOURISM HONOURS

SEMINAR A (15 CPs Sem. TE-SEM-1 BE.) *Dr Andy Brookes*

Seminars concerning professional issues in nature tourism and outdoor education are presented by staff, visitors and students. Students will report on work in progress and present a summary of their work in readings, their study of a professional issue and their research project.

Class requirements: One 3-hour seminar per week.

Assessment: Readings seminar. 1500-word paper and a 10-minute presentation (40%), professional issue seminar. 2000-word papers and a 15-minute presentation (50%), contributions to seminar discussions (10%). Seminar participation will be assessed on evidence of preparation and analytical discussion.

Preliminary Reading:

Orr, D. (1992) *Ecological literacy: Education and the transition to a post modern world*. Albany, NY, USA: State University of New York Press.

Seddon, G. (1997) *Land prints: Reflections on place and landscape*. Cambridge, UK: Cambridge University Press.

OED4SEB OUTDOOR EDUCATION OR NATURE TOURISM HONOURS

SEMINAR B (15 CPs Sem. TE-SEM-2 BE.) *Dr Andy Brookes*

Seminars concerning professional issues in nature tourism and outdoor education are presented by staff, visitors and students. Students will report on work in progress and present a summary of their work in readings, their study of a professional issue and their research project.

Prerequisite: OED41SEA.

Class requirements: One 3-hour seminar per week .

Assessment: Research seminar. 1500-word paper and a 10-minute presentation (40%), professional issue seminar. 2000-word paper and a 15-minute presentation (50%), contribution to seminar discussions (10%). Seminar participation will be assessed on evidence of preparation and analytical discussion.

Preliminary Reading:

Slattery, Patrick. (1995) *Curriculum Development in the Post modern Era*. New York: Garland.

Bowers, CA. (1995) *Educating for an ecologically sustainable culture: Rethinking moral education, creativity, intelligence and other modern orthodoxies*. Albany, NY: State University of New York Press.

OED4TAP RESEARCH THESIS/OUTDOOR EDUCATION OR NATURE TOURISM HONOURS (15 CPs Sem. TE-SEM-1 BE. TE-SEM-2 BE.) *Mr Andrew Brookes*

In this unit students will be able to develop a research proposal to study a question in the field of outdoor education or nature tourism, conduct the study and prepare a report of the results.

Class requirements: Seminar, teaching or individual supervision, equivalent to 1-hour per week for 13 weeks.

This unit is not available for Study Abroad students.

Assessment: 15,000-word research report (100%). Graded assessment based on a 15,000-word research report assessed by two examiners. This represents the combined thesis assessment. This unit will contribute 60% to the final determination of Honours.

Preliminary Reading:

Bell, J. (1999) *Doing your research project: A guide for first-time researchers in education and social science 3rd edn* Buckingham, UK: Open University Press.

Stake, RE. (1995) *The art of case study research*. Thousand Oaks, CA: Sage.

OED4TBP RESEARCH THESIS/OUTDOOR EDUCATION OR NATURE TOURISM HONOURS (30 CPs Sem. TE-SEM-1 BE. TE-SEM-2 BE.) *Mr Andrew Brookes*

In this unit students will be able to develop a research proposal to study a question in the field of outdoor education or nature tourism, conduct the study and prepare a report of the results.

Class requirements: Seminar, teaching or individual supervision, equivalent to 1-hour per week for 13 weeks.

This unit is not available for Study Abroad students.

Assessment: 15,000-word research report (100%). Graded assessment based on a 15,000-word research report assessed by two examiners.

This represents the combined thesis assessment. The thesis contributes 60% to the final determination of Honours.

Preliminary Reading:

Bell, J. (1999) *Doing your research project: A guide for first-time researchers in education and social science*. 3rd ed. Buckingham, UK: Open University Press.

Stake, R.E. (1995) *The art of case study research*. Thousand Oaks, CA: Sage.

OED4TON RESEARCH THESIS/OUTDOOR EDUCATION OR NATURE TOURISM HONOURS (60. CPs Sem. TE-ALL-YR BE. TE-SEM-2 BE.) *Mr Andrew Brookes*

In this unit students will be able to develop a research proposal to study a question in the field of outdoor education or nature tourism, conduct the study and prepare a report of the results.

Class requirements: Seminar, teaching or individual supervision, equivalent to 1-hour per week for 26 weeks.

Assessment: 15,000-word research report (100%). A graded assessment will be based on a 15,000-word research report assessed by two examiners. This subject will contribute 60% to the final determination of Honours.

Preliminary Reading:

Bell, J. (1999) *Doing your research project: A guide for first-time researchers in education and social science*. 3rd edn. Buckingham, UK: Open University Press.

Stake, R. E. (1995) *The art of case study research*. Thousand Oaks, CA: Sage.

OED3RON READINGS IN OUTDOOR EDUCATION AND NATURE TOURISM (15 CPs Sem. TE-SEM-1 BE. TE-SEM-2 BE.) *Mr Andrew Brookes*
*See OED2RON for full unit description.***OED3SNT SUSTAINABLE NATURE TOURISM** (15 CPs Sem. TE-SEM-2 BE.)
Dr Lesley Hodgson
*See OED2SNT for full unit description. Not available in 2008***FACULTY OF HEALTH SCIENCES**

The Faculty of Health Sciences caters for a wide range of interests in the education of health professionals by offering undergraduate single and double degrees and a post-registration nursing degree, as well as specialist and interdisciplinary postgraduate diplomas and Masters degrees by coursework. The Faculty also provides opportunity for research at both Masters and Doctoral level. Students from other faculties of the University may apply to enrol in some individual health science units (see Faculty electives section).

The Faculty consists of four Divisions and offers courses at the Albury-Wodonga, Bendigo, Melbourne (Bundoora), Melbourne (City), Mildura and Shepparton campuses. There are also several externally funded centres and institutes that are part of the Faculty including:

- Australian Institute for Primary Care
- Australian Research Centre in Sex, Health and Society
- The Bouverie Centre – Victoria's Family Institute, which provides family therapy clinical services and offers postgraduate programs in family therapy
- Mother and Child Health Research
- Musculoskeletal Research Centre

Requirements for admission to undergraduate courses

Information about the VCE prerequisite units and other admission requirements are available from the University's Office for Prospective Students or from the Faculty of Health Sciences.

Course regulations

All courses offered by the Faculty are governed by a University regulation that specifies the entrance and other requirements of the course. These are supplemented by information contained in this *Handbook* and by other Faculty and School policies.

Each course also has its own rules of progression and most Schools produce specific procedures that operate under the authority of the University regulations and Faculty guidelines. Details of assessment in each unit are available on School notice boards from the beginning of the academic year.

A student in a full-time professional course may be required to pass all units of one year level before proceeding to the next year, or achieve such a standard as to be awarded a pass in the year as a whole. A conceded pass in a unit that is not a prerequisite for studies in the following year will normally entitle a student to proceed to the next year, provided that all other units are passed. A conceded pass is not normally awarded in a prerequisite unit.

It is Faculty policy that where a clinical or fieldwork unit has a prerequisite unit, the prerequisite unit must be passed within the previous three years.

The Faculty applies the University Academic Progress rules along with a time limit rule where a student must complete the course in a specified period of time equivalent to twice the full-time length of the course plus one year. This time limit includes intermissions.

For further information, consult the relevant School or Faculty office.

Students with a disability

Most of the courses conducted by the Faculty of Health Sciences include some type of clinical or professional practice experience which is a compulsory requirement of the course. The Faculty recognises that professional and clinical placements can present particular challenges to students with disabilities. Every effort will be made to make reasonable adjustments to the learning experience and assessment requirements of a clinical or professional practicum within the requirements of the course.

In order to do this, students who have a temporary or permanent disability of any type that may have an impact upon their ability to complete course requirements are encouraged to meet with the course coordinator prior to the commencement of the course.

Health procedures

It is strongly suggested that students undergo a medical examination with a view to preventing or detecting disease.

To further reduce health risks, it is strongly recommended that:

- tuberculin testing be undertaken prior to attending hospital clinics, with follow-ups as necessary
- all students be immunised against hepatitis B
- all students be immunised against rubella, measles and mumps
- all students be up-to-date in their immunisation against poliomyelitis, diphtheria and tetanus.

Students with an infectious condition such as HIV or HBV should take every reasonable precaution to ensure that no other person is placed at risk of infection, as advised by their treating doctor. Many placement agencies ask for proof of immunisation before accepting students for placement. Immunisation programs are organised for students on the Albury-Wodonga, Bendigo and Melbourne (Bundoora) campuses at some cost to students.

Uniforms and class materials

Some courses require a prescribed uniform for hospital and clinical activities. Details are available from the relevant course coordinator or administrative officer.

Schools may charge students for expendable materials supplied where the materials are consumed by students to their direct personal benefit or where students may wish to retain continuing possession of the materials concerned. Students may be charged deposits for non-consumable items issued for temporary use. Schools may recover the

cost of lecture notes and other printed material issued to students, provided that no student is compelled to acquire such notes or materials.

Clinical or professional placements

Please note that most courses require students to undertake unpaid clinical or professional placements. Placements may be located in either metropolitan or rural areas. In most courses that require students to undertake placements, the placement involves being assigned to an agency on a full-time basis over a period of weeks. Types of places where students may obtain experience as a volunteer include major hospitals, health care networks, schools, community centres and clinics. In some cases, students undertake placement interstate or overseas.

The University maintains insurance policies to protect students undertaking outside, clinical or practical placement (practica) as a compulsory course requirement, or fieldwork or other work undertaken off-campus as part of a course or approved research work. Further information is available from the University Insurance Office, Faculty Office or School.

Police security clearance procedures

In those courses where students are required to undertake clinical or professional placements, students may come into contact with vulnerable people. Most agencies require students to provide the results of a Victorian police security clearance check. The cost of obtaining a Victorian police security clearance check is payable by the student directly to the police and in 2007 the volunteer fee was \$13.30. Students should obtain the security clearance check application form from their School of enrolment. The School will provide a signature required to obtain the check at the volunteer rate. The certificate is valid for one year only. Students will be expected to obtain a new police security clearance each year in which a clinical or fieldwork-placement is required.

Students undertaking placement in New South Wales (e.g., Albury-Wodonga students) may also require a NSW police security clearance check. Details are available from the School of enrolment.

Confirmation of a criminal record may jeopardise a student's ability to gain access to a suitable (or any) practicum placement(s) and may therefore delay or prevent completion of the course. Any questions or concerns relating to these checks should be directed to the relevant School office or placement coordinator.

Flexible teaching arrangements

In order to accommodate student needs, some units are taught in a mode different from the normal face-to-face or regular weekly classes. For example, modes may include block mode (i.e., intensive weekend or week-long classes), classes taught outside of the normal teaching period dates such as placement units, or classes taught via distance education or eeb-based teaching. Please refer to unit descriptions for those units that are offered by flexible teaching arrangements.

Students may be required to complete clinical placement outside of University teaching periods.

Units Offered by the Faculty

A full description of Health Sciences units appears at the end of this chapter in alphabetical order by unit code. Students should note that units published in the hardcopy *Handbook* are subject to change and should refer to the unit database for up-to-date information www.latrobe.edu.au/udb_handbook.

Bachelor of Health Sciences in Dentistry/Master of Dentistry – Bendigo (HZHSDD)

The Bachelor of Health Sciences in Dentistry/Master of Dentistry will commence in 2008 at Bendigo. The program is one for which there is strong student demand for students with high ENTER scores.

The Bachelor of Health Sciences in Dentistry/Master of Dentistry is a five year program, the first three years of which comprise the Bachelor of Health Sciences in Dentistry, a qualification that will not allow registration as a dental practitioner. The successful completion of an additional two years of a Master of Dentistry will enable students to apply for registration as a dental practitioner*.

The Bachelor of Health Sciences in Dentistry/Master of Dentistry is a unique program that responds to rural health needs and the shortage of oral health professionals, by establishing a course based in Bendigo. The course will have a strong focus on public oral health in rural and regional Victoria and the development of clinical teaching sites at Albury-Wodonga, Mildura and Melton will further strengthen the University's capacity to deliver high class education programs in rural Victoria.

First year students will be expected to purchase a dental gown (\$58.50), La Trobe polo shirt (\$35), lab coat (\$35), textbooks per semester (\$400), safety goggles (\$15) and pay a bond for instruments (approximately \$300).

First year

Teaching period	Unit title	Unit code	Credit points
TE-SEM-1	Dental Science A	DEN1DSA	15
TE-SEM-1	Oral Health Science A	ORH1OHA	15
TE-SEM-1	Introduction to Public Health	PHE1PHA	15
TE-SEM-1	Clinical Practice A	ORH1CPA	15
TE-SEM-2	Public Health Principles	HLT3PHP	15
TE-SEM-2	Dental Science B	DEN1DSB	15
TE-SEM-2	Oral Health Science B	ORH1OHB	15
TE-SEM-2	Clinical Practice B	ORH1CPB	15

Key: * Subject to Australian Dental Council accreditation of the program. The Faculty has commenced preparation for accreditation of the Dentistry program with the Australian Dental Council, to ensure graduates of the course are able to register with the Dental Practice Board of Victoria and work in Australia and New Zealand.

Bachelor of Human Services – Bendigo (HBHSVB)

This course is designed to prepare graduates for work in welfare agencies in service provision, research and administrative roles. Students will develop the knowledge, values and skills appropriate for understanding the welfare needs of individuals, families, groups and communities and methods of responding to these needs. Students will develop the capacity for analysing and working effectively within welfare organisations, including work in interdisciplinary teams. Elective studies are available in social policy, community work and a range of fields of practice.

The curriculum of the course is based on a philosophy of social justice and is taught within an adult-learning model.

Degree requirements

The course is offered as a three year degree for post-VCE entry. Advanced standing may be offered to suitably qualified applicants. After successful completion of one year of this degree, students may apply to transfer to the Bachelor of Social Work/Bachelor of Human Services.

After successful completion of two years of this degree, students may apply to transfer to the two-year degree, Bachelor of Social Work (Advanced Standing).

Course structure

Students are required to undertake a course of studies equivalent to that listed below. Some unit codes differ depending upon the campus of offer.

Electives, subject to approval, may be chosen from the complete range of units offered on the campus where a student is enrolled. From time to time students may be required to attend some lectures

and seminars in block mode and/or out of normal University hours. For the purpose of the Commonwealth Supported Places Scheme (CSP), a full-time enrolment is 120 credit points per year or 60 credit points per teaching period.

First year

Bachelor of Oral Health Science – Bendigo (HBOHSB)

Tel: (03) 5444 7417

Duration: 6 semesters

The Bachelor of Oral Health Science will qualify students to register as dental hygienists and dental therapists. The course will have a strong focus on public oral health in rural and regional Victoria.

Students will undertake a number of units in common with nursing, public health, social work and pharmacy students. Specific oral health and health science units are taught in the first two years to help underpin the theoretical and clinical practice of oral health. Students will be required to complete pre-clinical and clinical oral health units over the six semesters of the course. Clinical Practice E will be run in the summer semester. Students will gain clinical experience working with a variety of patients, primarily in public health settings in rural areas.

First year students will be expected to purchase a dental gown (\$56), La Trobe shirt (\$56), lab coat (\$35), textbooks per semester (\$400) and safety goggles (\$7). Prices indicated are approximate.

Ten scholarships will be awarded each year by the Victorian State Government Department of Human Services for commencing students who are successfully admitted to the course. Students must apply for these scholarships. Further information can be found at www.latrobe.edu.au/scholarships/prospective/health/.

Second year students will be expected to pay approximately \$200 as a bond for use of the instruments, which will be returned at the end of the year on receipt of the instrument kit.

Bachelor of Physiotherapy – Bendigo (HBPHE), Melbourne (Bundoora) (HBPH)

Tel: (03) 9479 5815

Duration: 4 years

Physiotherapists assess and treat patients with temporary or long term physical injuries, movement disorders or disability, aiming to achieve the highest possible degree of recovery, activity, participation and quality of life. They may work independently or as members of health care teams. Physiotherapists are active in the prevention of illness and injury and in the promotion of health. Physiotherapists are also involved in clinical research, movement rehabilitation, ergonomics and the management of health care organisations. Units include general and health sciences, professional, clinical and research-related studies.

Degree requirements

The course involves pre-clinical and clinical study over four years and is offered on a full-time basis. Students are required to complete all of the units listed in the course structure and are normally expected to complete all of one year's work before enrolling in a later-year unit. In each year, the physiotherapy units are usually co-requisites for each other. Earlier year physiotherapy units are prerequisites for study in later years.

Students are required to reach a satisfactory standard in both the theoretical/written and practical/clinical components of all physiotherapy units in the course. All students have the opportunity to complete 15 credit points of elective units in their third year.

Course structure

During the first part of the course, students study basic biological, medical and behavioural sciences, including anatomy, physiology, psychology and research methods. The theory and application of specific physiotherapy techniques and the clinical reasoning process are introduced. All students will undertake these two years of study at Melbourne (Bundoora). In the third and fourth years students build on and apply their knowledge and skills to the physiotherapy management of specific disorders and acquire skills in health promotion, evidence-based practice and outcomes measurement. Students treat patients under supervision in hospitals and other clinical settings, in metropolitan and rural settings, in order to gain a sound basis for clinical practice. For students enrolled in the Melbourne (Bundoora) program, lectures, demonstrations and practical sessions are held at the Melbourne (Bundoora) campus.

All students enrolled in the Bendigo program will complete third and fourth-year studies based at Bendigo Health Care Group.

Assessment is conducted by means of written, practical and clinical examinations as well as web-based assignments. Details for each unit are available at the beginning of the academic year. Attendance requirements for practical classes and clinics must be met in order to be eligible for assessment in these units.

Clinical practica are often undertaken outside standard teaching periods in first and second year. Bundoora program students are expected to undertake at least one five week clinical practicum in a rural setting and Bendigo program students undertake at least one in a metropolitan setting. All travel and accommodation costs are at students' expense.

First year

Teaching period	Unit code	Unit title	Credit points
TE-ALLR	PTY1CLP	Physiotherapy Clinical Practice 1	10

Third year

Teaching period	Unit code	Unit title	Credit points
TE-ALLR	PTY3PHE	Interpersonal Processes and Professional Practice	5
TE-SEM-1	PTY3CRP	Cardiorespiratory Physiotherapy – Theory and Practice	15
TE-SEM-1	PTY3NEU	Neurological Physiotherapy – Theory and Practice	15
TE-SEM-1 plus	PTY3MSP	Musculoskeletal Physiotherapy – Theory and Practice	15
TE-SEM-1 plus		Third year elective(s) taken from anywhere within the University	15
TE-SEM-2 or TE-SEM-3		Core Clinical Practicum	40–60

Fourth year

Teaching period	Unit code	Unit title	Credit points
TE-ALLR	PTY4EBP	Evidence-based Practice in Physiotherapy	20
TE-SEM-1 or TE-SEM-2	HLT3IPA	Interdisciplinary Professional Practice	15
TE-SEM-1	PTY4AMS	Advanced Musculoskeletal Physiotherapy	5
TE-SEM-1	PTY4PWH	Introduction to Physiotherapy in Women's Health	5
TE-SEM-1 plus	PTY4PRG	Physiotherapy in Rehabilitation and Gerontology	10
TE-SEM-1		Core Clinical Practicum	20–40
TE-SEM-2		Clinical Electives	40

Core clinical practica

Four five week, full-time clinical placements are undertaken between the middle of third year to the middle of fourth year in the course. Students are allocated to a clinical school for the four core units. All travel and accommodation costs are at students' expense. Students undertake two or three of the clinics in third year and one or two in fourth year. Students must gain experience in the areas of cardiorespiratory physiotherapy, neurological physiotherapy and musculoskeletal physiotherapy. The unit codes and titles are as follows:

Teaching period	Unit code	Unit title	Credit points
TE-SEM-2	PTY3CCA	Core Clinical A	20
TE-SEM-2	PTY3CCB	Core Clinical B	20
TE-SEM-2	PTY3CCC	Core Clinical C	20

TE-SEM-1	PTY4CCC	Core Clinical C	20
TE-SEM-1	PTY4CCD	Core Clinical D	20

Elective clinical practica

The clinical elective comprises two full-time, five week clinical placements. The specific areas of practice are selected to complement and build on the student's prior clinical experiences and/or to develop an area of particular interest.

Teaching period	Unit code	Unit title	Credit points
TE-SEM-2	PTY4CEA	Clinical Elective A	20
TE-SEM-2	PTY4CEB	Clinical Elective B	20

The electives require completion of all four core clinical units as a prerequisite.

Professional recognition

Students are required to register with the Physiotherapist Registration Board of Victoria.

Graduates are eligible for registration with the Physiotherapists Registration Board in any state or territory. Registration is an essential prerequisite for physiotherapy practice in Australia.

Honours program

A sequence of units in the third and fourth years of the course leads to the award of an Honours degree. Applicants are selected at the end of the second year on the basis of academic results achieved in the first and second year units of the Bachelor of Physiotherapy. From each of these units, a grade point average is calculated. Further details are made available at the commencement of the Honours program. Honours candidates undertake a research design unit in place of the Third year elective and a research project in place of the unit PTY4EBP 'Evidence-based Practice in Physiotherapy in fourth year.'

Teaching period	Unit code	Unit title	Credit points
TE-ALLR	PTY3HON	Research Design in Physiotherapy	15
TE-ALLR	PTY4HON	Honours Thesis	45

Bachelor of Social Work – Bendigo (RBSW)

Note: This program is only available to continuing students.

The course entitles graduates entry into the profession of social work and the degree is recognised by the Australian Association of Social Workers (AASW). Part-time study is available. Students will develop the knowledge, values and skills appropriate to understanding the needs commonly experienced by individuals, families, groups and communities and the appropriate responses for aiding personal and social adjustment and social development.

The degree prepares students to practise in a wide range of social work roles, including direct service, research, administration and social policy and planning. Study areas include social welfare history, social work practice methodologies, socio-personal systems, community organisation, research methods, social policies and programs, laboratory work and field studies.

The curriculum of the course is based on a philosophy of social justice and is taught within an adult-learning model. Students are encouraged to relate their relevant experiences to the theories and practice knowledge presented in the program.

Degree requirements

The course is not offered to new students in 2008.

Course structure

Continuing students are required to undertake a course of studies equivalent to that listed below. From time to time students may be required to attend some lectures and seminars in block mode and/or out of usual University hours. For the purpose of the Higher Education Contribution Scheme (HECS), this course is valued at 120 credit points per year or 60 credit points per teaching period.

Third year

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1	SWP3COM	Social Work Practice in Communities	15

TE-SEM-1	SWP3IFG	Social Work Practice with Individuals, Families and Groups A	20

Bachelor of Social Work (Advanced Standing) – Bendigo (RBSWBE)

The course qualifies graduates for entry into the profession of social work. The degree is recognised by the Australian Association of Social Workers (AASW). Students will develop the knowledge, values and skills appropriate to understanding the needs commonly experienced by individuals, families, groups and communities and the appropriate responses for personal and social adjustment and social development.

The degree prepares students to practise in a wide range of social work roles, including direct service, research, administration and social policy and planning. Units offered are a mix of theoretical, practical and field-based studies. This reflects the nature of social work within contemporary society, which demands that a competent social work graduate understands their practice in terms of ideas about individuals, groups and communities, knowledge of how society operates, the values of the profession; and has a range of practice skills. The course includes seventy days (in each year) of placement in a professional social work agency.

The curriculum of the course is based on a philosophy of social justice and is taught within an adult-learning model. Students are encouraged to relate their relevant experiences to the theories and practice presented in the program.

Degree requirements

The course is offered as a two year (advanced standing) degree for applicants with at least two years of approved university study. Further advanced standing may be offered to suitably qualified applicants.

Course structure

Students are required to undertake a course of study equivalent to that listed below.

From time to time students may be required to attend some lectures and seminars in block mode and/or out of normal University hours.

For the purpose of the Commonwealth Supported Places Scheme (CSP), a full-time enrolment is 120 credit points per year or 60 credit points per teaching period.

First year

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1	SWP3COM	Social Work Practice in Communities	15
TE-SEM-1	SWP3IFG	Social Work Practice with Individuals, Families and Groups A	20
TE-SEM-1	SWP3ITP	Introduction to Social Work	10
TE-SEM-1	SWP3LER	Social Work Practice: Law, Ethics and Human Rights	15
TE-W36-49	SWP3FEA	Field Education A	40
TE-W29-35	SWP3FOP	Fields of Social Work Practice A	15

Bachelor of Social Work with Honours – Bendigo (RHSW)

An Honours program is offered in the final year of the Bachelor of Social Work and the Bachelor of Social Work (Advanced Standing) degrees.

Admission requirements

Honours will be offered to those students who have achieved results of a high academic standard at the end of the third year of the Bachelor of Social Work and at the end of the first year of the Bachelor of Social Work (Advanced Standing) on the basis of that year's study. In addition to specified unit requirements, Honours students are required to prepare a research proposal and then write and submit an Honours thesis of 10,000–12,000 words by the end of the Honours year.

Course structure

Students are required to undertake a course of studies equivalent to that listed below. From time to time students may be required to attend some lectures and seminars in block mode and/or out of normal University hours.

For the purposes of the Commonwealth Supported Places Scheme (CSP), a full-time enrolment is 120 credit points per year or 60 credit points per teaching period.

First year

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1	HLT3IPA	Interdisciplinary Professional Practice	15
TE-SEM-1	SWP4HOA	Social Work Honours A	20
TE-SEM-1	SWP4IFG	Social Work Practice with Individuals, Families and Groups B	20
TE-SEM-1	SWP4SPP	Social Policy and Practice B	20
TE-WK36-49	SWP4FEB	Field Education B	40
TE-SEM-2	SWP4HOB	Social Work Honours B	20

Grades awarded to students successfully completing Honours are H1, H2A, H2B or H3.

Bachelor of Social Work/Bachelor of Human Services – Bendigo (HZSWHB)

The course qualifies graduates for entry into the profession of social work and equips graduates to work effectively in complex organisations and in the policy environment of human services. The Bachelor of Social Work is recognised by the Australian Association of Social Workers (AASW). Students will develop the knowledge, values and skills appropriate to understanding the needs commonly experienced by individuals, families, groups and communities and the appropriate responses for personal and social adjustment and social development. Students will develop the knowledge and skills for analysing the organisational and policy context of social work and human service practice.

This double degree prepares students to practise in a wide range of social work roles and to perform these roles effectively in the complex organisation setting that is characteristic of contemporary social work practice. These roles include direct service, research, administration and social policy and planning. Units offered are a mix of theoretical, practical and field-based studies. This reflects the nature of social work within contemporary society which demands that a competent social work graduate understands their practice in terms of ideas about individuals, groups and communities, knowledge of how society operates, the values of the profession; and has a range of practice skills. Students will be prepared for effectively integrating theory into practice and to work effectively in complex and changing organisations. The course includes 70 days of placement (in each of the third and fourth years) in a professional social work agency.

The curriculum of the course is based on a philosophy of social justice and is taught within an adult-learning model. Students are encouraged to relate their relevant experiences to the theories and practice presented in the program.

Degree requirements

The course is offered as a four year degree for post-VCE entry. Advanced standing may be offered to suitably qualified applicants.

Course structure

Students are required to undertake a course of study equivalent to that listed below. Some unit codes differ depending upon the campus of offer.

Electives, subject to approval, may be chosen from the complete range of units offered on the campus where a student is enrolled. From time to time students may be required to attend some lectures and seminars in block mode and/or out of normal University hours.

For the purpose of the Commonwealth Supported Places Scheme (CSP), a full-time enrolment is 120 credit points per year or 60 credit points per teaching period.

First year

Bachelor of Social Work (Honours)/Bachelor of Human Services – Albury-Wodonga (H2HSWW), Bendigo (H2HSWB), Melbourne (Bundoora) (H2HSW)

Note: This course will be offered subject to University approval.

An Honours program is offered in the final year of the Bachelor of Social Work/Bachelor of Human Services Degree.

Admission requirements

Honours will be offered to those students who have achieved results of a high academic standard at the end of the third year of the Bachelor of Social Work/Bachelor of Human Services on the basis of that year's study. In addition to specified unit requirements, Honours

students are required to prepare a research proposal and then write and submit an Honours thesis of 10,000-12,000 words by the end of the Honours year.

Course structure

Students are required to undertake a course of studies equivalent to that listed below. From time to time students may be required to attend some lectures and seminars in block mode and/or out of normal university hours.

For the purposes of the Commonwealth Supported Places Scheme (CSP) a full-time enrolment is 120 credit points per year or 60 credit points per teaching period.

First year

Bachelor of Public Health – Bendigo (RBPH)

The Bachelor of Public Health is a flexible, innovative degree program which offers graduates a strong foundation for a considerable number of career paths. At the end of their first year, students elect to study either an Environmental Health or Health Promotion major stream.

Students who elect to take the Environmental Health major learn about the social and environmental factors that cause ill health as well as those factors that sustain and create good health. Environmental Health graduates have a range of skills including environmental health risk assessment and management, knowledge of environmental law and extensive knowledge in the field. They learn about health research, community development, health education and program planning. Graduates find work in local, state or federal government and in private enterprise.

Students who elect to take the Health Promotion major learn about the social and environmental factors that cause ill health as well as those factors that sustain and create good health. This stream in Public Health prepares graduates to work in health promotion, community development, research and health programs and projects. Graduates find work in community health, non-government organisations or in a wide range of health organisations and research centres.

The degree may be awarded as a three year pass degree, as a double degree with the Bachelor of Nursing and as a degree with Honours. To enter the Honours year, a student must normally have completed the requirements for the three year degree with academic results of a high standard. Graduates may consider postgraduate studies in research or any of the specialist areas provided by postgraduate diplomas, such as community health, teaching and environmental health.

Professional recognition

Following successful completion of the course, students may be eligible for membership of organisations such as the Public Health

Association of Australia and the Australian Health Promotion Association. Students completing the Environmental Health major stream may be eligible for membership of the Australian Institute of Environmental Health.

Admission requirements

A study score of at least 20 in Units 3 and 4 of English (any) is required. Students with existing qualifications and work experience will be considered on an individual basis and may be granted credits according to their study background.

Course structure

In the first year of the course, students are required to complete the eight core units. In the second and third years of the course, students are required to complete eight units per year as per the program structure listed below. Students may select electives from a range of course-specific units offered in the Bachelor of Public Health and may pursue units of interest in any School of the University if they meet the prerequisites and have the approval of the course coordinator.

The course is valued at 360 credit points.

First year – common

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1	HLT1CS	Communication Skills	15
TE-SEM-1	HLT1PIA	Public Health in Australia	15
TE-SEM-1	HBS1LS1	Life Sciences 1	15
TE-SEM-1	PHE1PHA	Introduction to Public Health A	15

Bachelor of Public Health (Honours) – Bendigo (RHPH)

This course builds on the theory and practice of public health and is designed to develop skills in independent research, providing a basis for further studies at a Masters and Doctoral level.

Admission requirements

Students should have completed and obtained at least a B grade average in the Bachelor of Public Health. Students from other degree programs wishing to pursue a career in public health may qualify and should apply to enrol prior to graduation from their first course, to ensure that they have a public health major suitable for entry to the Honours program. Students who expect to meet the entry criteria must submit a 300-word description of their proposed research project with their application.

Course structure

This is a one year, full-time course. Students must complete the three compulsory core units and complete a 15,000-word thesis.

This course is valued at 120 credit points.

Teaching period	Unit code	Unit title
TE-SEM-1	HLT4THA	Thesis (PH)
TE-SEM-2	HLT4THB	Thesis (PH)

Advanced Diploma in Nursing – Albury-Wodonga (HDIANW), Bendigo (RDN), Melbourne (Bundoora) (HDIAN)

This course is available for part-time study only.

The course is a part-time course offered over two semesters with a limited number of places available. This course is offered across the Albury-Wodonga, Bendigo and Melbourne (Bundoora) campuses. Application is by direct admission. The applicant should be a previously registered nurse on the Division 1 register but who has allowed his or her registration to lapse, or an International Registered Nurse wishing to obtain registration in Victoria. The application form should include a copy of the lapsed registration certificate plus a letter of approval to undertake the course, obtained from the Nurses Board of Victoria. Applications close at the end of October. Late applications may be considered, if places are available.

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1	NSG1HAS	Health Assessment for Nurses	15
TE-SEM-1	NSG2MED	Medication Management for Nurses	15
TE-SEM-2	NSG2AUA	Acute Nursing Practice A	15
TE-SEM-2	NSG2MHL	Mental Health Nursing Practice	15

Bachelor of Nursing (Post-registration) – Albury-Wodonga (HSBNW), Bendigo (RBNP), Melbourne (Bundoora) (HBNP)

This course enables registered nurses to expand and practically apply their knowledge base. This course is available across the Albury-Wodonga, Bendigo and Melbourne (Bundoora) campuses. It aims to provide students with academic and practical skills and the attitudes required to comprehend, critically analyse and evaluate new knowledge in nursing. Graduates of the course will have a strong discipline base for postgraduate study.

Consistent with the rationale of the course, the Division of Nursing and Midwifery aims to prepare qualified nurses to:

- Develop further a discipline perspective through the study of relevant literature
- Acquire the ability to interpret and utilise nursing research findings
- Critically examine issues related to health care delivery systems and the implications for nursing and recipients
- Broaden and deepen their knowledge of nursing practice in order to expand their role in a selected practice setting
- Demonstrate commitment to learning as a life-long process.

Stream A

Admission requirements

This course is open to nurses who hold a diploma from a college or university or who hold a nursing certificate from a hospital-based program. Applicants must be eligible for registration as Division 1 nurses with the Nurses Board of Victoria.

Advanced standing

Holders of a three year Australian Diploma in Nursing may apply for advanced standing.

Course structure

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1 or TE-SEM-2	NSG1HAS	Health Assessment for Nurses	15
TE-SEM-2	NSG2EBP	Evidence-Based Nursing	15

Plus six electives chosen with the agreement of the course coordinator.

Stream B

Admission requirements

This course is designed for nurses who hold a diploma or degree in nursing from a college or university or who hold a nursing certificate from a hospital-based program and are not currently registered with the Nurses Board of Victoria. This course is available across the

Albury-Wodonga, Bendigo and Melbourne (Bundoora) campuses. Local applicants must have been previously registered as Division 1 or Division 3 nurses with the Nurses Board of Victoria and wish to re-enter the nursing profession. Students are required to provide the University with a letter from the Nurses Board of Victoria granting permission to undertake the course with the intention of applying for registration or re-registration.

Course structure

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1	NSG2MED	Medication Management	15
TE-SEM-2	NSG2MHL	Mental Health Nursing Practice	15
TE-SEM-2	NSG2EBP	Evidence-Based Nursing	15
TE-SEM-1	NSG1HAS	Health Assessment for Nurses	15
TE-SEM-1	NSG2AUA	Acute Nursing Practice A	15

Plus three electives chosen with the agreement of the course coordinator.

Post-registration recommended electives – Stream A and Stream B

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1	NSG3NTF	Nursing the Future	15
TE-SEM-1	NSG2MED	Medication Management	15
TE-SEM-1	NSG2PRH	Promoting Health in Nursing Practice	15
TE-SEM-2	NSG2LEA	Law, Ethics and Accountability for Nurses	15
TE-SEM-1 or TE-SEM-2	NSG2MHL	Mental Health Nursing Practice	15
TE-SEM-2	NSG3INT	Managing Complex Interactions in Nursing	15
TE-SEM-2	NSG2CAF	Child and Family Nursing Practice	15
TE-SEM-1	NSG3GER	Gerontic Nursing Practice	15

Professional recognition

Graduates are eligible for membership of the Royal College of Nursing, Australia.

Bachelor of Nursing (Pre-registration) – Albury-Wodonga (HBNPRW), Bendigo (RBN), Melbourne (Bundoora) (HBN), Mildura (HBNM), Shepparton (HBNUP)

The Bachelor of Nursing (pre-registration) is a three year pass-degree. This course is offered across the Albury-Wodonga, Bendigo, Melbourne (Bundoora), Mildura and Shepparton campuses. An Honours year is also available for candidates who meet the entrance requirements.

The philosophy of the course views students as active participants in the learning process. This enhances the development of the critical thinking and problem-solving skills that enable the graduate to respond to the changing demands of health care services. The course involves study in nursing theory, practice and research, human biosciences and behavioural health sciences.

The on-campus skills laboratory enables students to practise and develop clinical nursing skills in a simulated and supportive environment.

This course is offered on a full-time basis. Part-time study is not recommended but may be considered at the discretion of the undergraduate course coordinator. It is also offered as a two year, full-time graduate entry program (Melbourne (Bundoora) only), with one year of advanced standing being granted to selected applicants with an Australian Bachelor degree or its equivalent.

An additional year of study is available at Honours level for students who have achieved an outstanding academic record. Students who enrol in the Honours stream may apply for registration as a Division 1 nurse at the completion of pass-degree studies.

Professional recognition

Graduates are eligible to apply for registration through the Nurses Board of Victoria on the Division 1 Register.

Admission requirements

In addition to satisfying the University's general entrance requirements, students must have a study score of at least 25 in Units 3 and 4 of English (any) and a study score of at least 20 in one of

biology, chemistry, mathematics (any), physical education or physics. International applicants and those whose principal language of educational instruction was other than English will require an IELTS score of at least 6.5.

Course structure

This course is valued at 360 credit points.

Students will be required to produce evidence of completion of a First Aid Certificate prior to the commencement of semester 2 of their first year of study.

First year

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1	NSG1LIL	Information Literacy for Nurses	15

TE-SEM-2	NSG3INT	Managing Complex Interactions in Nursing	15
TE-SEM-2	HLT3IPA	Interdisciplinary Professional Practice	15

Clinical experience

Nursing practicum units are offered throughout the course to complement theory and to establish skill competency. To meet the registration requirements of the Nurses Board of Victoria, students must satisfactorily achieve a range of competencies in the area of clinical practice. Clinical practica are offered in a range of metropolitan and rural settings and are undertaken either as single days or as block experience of single to multiple weeks of experience.

Bachelor of Nursing (Honours) – Melbourne (Bundoora) (HHN), Bendigo (RHN), Albury-Wodonga (HSHNW)

An Honours stream, normally undertaken on a part-time basis over two years, is available as the fourth year of the Bachelor of Nursing. This course is available across the Albury-Wodonga, Bendigo and Melbourne (Bundoora) campuses. To be eligible, students should have achieved a B-grade average or above in third year studies. Students with a Bachelor of Nursing from another institution may be considered for entry.

Students are assisted to demonstrate academic and investigative skills in critical review and analysis of data that are at a higher level than normally expected of pass-level students and to broaden and deepen their theoretical knowledge in the discipline of nursing as a preparation for graduate study.

Course structure

Honours students enrol in four coursework units, participate in research seminars and submit a research essay or project comprising 10,000 to 12,000 words or the equivalent. Both first and second year

are based on part-time study. Study mode includes attendance at fortnightly research seminars.

First year

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1	NSG4RHP	Research Honours Preparation	15
TE-SEM-1		Nursing Practicum Elective from approved list	15
TE-SEM-2	NSG4NTP	Thesis preparation	15
TE-SEM-2	NSG4RIN	Readings in Nursing	15

Second year

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1	NSG4NTH	Thesis	30
TE-SEM-2	NSG4NTH	Thesis	30

Bachelor of Nursing (Division 2 Conversion) 2 year Program – Melbourne (Bundoora) (HSBNC), Albury-Wodonga (HSBNCW), Bendigo (BEBND2), Mildura (HBNCM), Shepparton (HBNCN)

The course is designed for students who hold current Division 2 registration with the Nurses Board of Victoria (or home-state equivalent). It is offered across the Albury-Wodonga, Bendigo, Melbourne (Bundoora), Mildura and Shepparton campuses.

Admission requirements

Current registration as a Division 2 Nurse (or equivalent) is required. Applicants should apply through the VTAC system and undertake the STAT Test. Applicants must provide the selection officer with a copy of their current Division 2 registration certificate.

Course structure

All students are required to complete a short course in anatomy and physiology prior to the commencement of the program. Information on such courses is available from the course coordinator or administrative officer. Preliminary study programs may incur a fee. This course is valued at 240 credit points.

Students will be required to produce evidence of completion of a First Aid Certificate prior to the commencement of semester two of their first year of study.

First year

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1	NSG1AAS	Nursing Art and Science	15
TE-SEM-1	NSG1LIL	Information Literacy for Nurses	15
TE-SEM-1	HBS2PAT	Pathophysiology in Nursing	15
TE-SEM-1	NSG1HAS	Health Assessment for Nurses	15
TE-SEM-2	NSG2AUA	Acute Nursing Practice A	15
TE-SEM-2	NSG2MHL	Mental Health Nursing Practice	15
TE-SEM-2	NSG2LEA	Law, Ethics and Accountability for Nurses	15
TE-SEM-2	NSG2EBP	Evidence-Based Nursing	15
TE-SEM-2	NSG2MED	Medication Management for Nurses	15

Second year

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1	NSG3NTF	Nursing the Future	15
TE-SEM-1	NSG3AUB	Acute Nursing Practice B	15
TE-SEM-1	NSG3GER	Gerontic Nursing Practice	15
TE-SEM-2	NSG3AUC	Acute Nursing Practice C	15
TE-SEM-2	NSG3INT	Managing Complex Interactions in Nursing	15
TE-SEM-2	NSG3CPR	Community Nursing Practice	15
TE-SEM-2	NSG2CAF	Child and Family Nursing Practice	15

Clinical experience

Nursing practicum units are offered throughout the course to complement theory and to establish skill competency. To meet the registration requirements of the Nurses Board of Victoria, students must satisfactorily achieve a range of competencies in the area of clinical practice. Clinical practica are offered in a range of metropolitan and rural settings and are undertaken either as single days or as block experience of single to multiple weeks of experience.

Bachelor of Nursing (Advanced Standing), Division 3 Conversion, 1 Year Program – Bendigo (BEBNAS)

This one year, full-time course is designed for students who hold current Division 3 registration with the Nurses Board of Victoria (or home-state equivalent). It is offered at the Bendigo Campus only.

Admission requirements

Current registration as a Division 3 Nurse (or equivalent) is required. Pre-selection interview and a copy of the Division 3 registration certificate are also required.

Course structure

Students may choose to complete short courses in anatomy and physiology prior to the commencement of the program. Information on such courses is available from the course coordinator or administrative officer. Preliminary study programs may incur a fee. Students may be required to produce evidence of completion of a First Aid Certificate prior to the commencement of their first clinical placement.

This course is valued at 120 credit points.

Nursing practicum units are offered throughout the course to complement theory and to establish skill competency. To meet the registration requirements of the Nurses Board of Victoria, students must satisfactorily achieve a range of competencies in the area of clinical practice. Clinical practica are offered in a range of metropolitan and rural settings and are undertaken either as single days or as block experience of single to multiple weeks of experience.

Bachelor of Nursing (Honours) – Bendigo (RHN), Melbourne (Bundoora) (HHN), Albury-Wodonga (HSHNW)

The Bachelor of Nursing (Honours) enhances career opportunities for nurses in specific areas of nursing research and practice. The Bachelor of Nursing (Honours) also provides a career pathway for students seeking an academic, research or clinical speciality area of practice such as clinical nurse specialist, nursing project officer, nurse educator, research assistant or nurse academic. It also provides an opportunity for continuing postgraduate studies leading to Masters and Doctoral degrees.

Information regarding Honours year awards which consist of employment, graduate-year options and full/part-time studies may be found in the Awards section at the front of this Handbook.

Admission requirements

Students who have maintained a B grade average or above in the third year of a Bachelor of Nursing course are eligible to apply for admission. Level of achievement in Australian Nursing and Midwifery Council (ANMC) clinical competencies will be taken into consideration during the selection process. Normally students must enrol within two years of completing the requirements for the Bachelor of Nursing.

Course structure

The course must normally be completed in one year of full-time or two years of part-time study.

This course is valued at 120 credit points.

Year 1

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1	NSG4RHP	Research Honours Preparation	15
TE-SEM-1		Nursing Practicum Elective from approved list	15
TE-SEM-2	NSG4NTP	Thesis Preparation	15
TE-SEM-2	NSG4RIN	Readings in Nursing	15

Year 2

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1	NSG4NTH	Thesis	30
TE-SEM-2	NSG4NTH	Thesis	30

Students undertaking an approved graduate year program while enrolled in an Honours program may apply for credit for their Nursing Practicum elective. To receive this credit, students must have completed a minimum of 52 days of clinical practice and provide a satisfactory report of their clinical program from the graduate year coordinator.

Bachelor of Nursing Science – Bendigo (RBNS), Melbourne (Bundoora) (HBNS)

This course is available to continuing students only.

This is Australia's first four year degree leading to registration as a Division 1 nurse with the Nurses Board of Victoria. This course is available across the Bendigo and Melbourne (Bundoora) campuses. The course represents the ideal educational preparation for registered nurses and received numerous commendations from across Australia and the profession. While it has a number of units in common with the three year Bachelor of Nursing, it aims to prepare the nurse leaders of the future. To this end the entry score is higher and students have a greater opportunity to develop their clinical skills in an area of particular interest, with enhanced research preparation and skills now required of nurses in management, leadership, negotiation and delegation.

Professional recognition

Graduates are eligible for registration as Division 1 nurses with the Nurses Board of Victoria. After registration, graduates are eligible for membership of the Royal College of Nursing Australia.

Course structure

The course provides an opportunity to study an Honours stream from the third year. For the structure of the course offered at the Melbourne (Bundoora) campus, please refer to the relevant entries elsewhere in this *Handbook*.

Bachelor of Nursing/Bachelor of Public Health – Bendigo (RZNPH)

The Bachelor of Nursing/Bachelor of Public Health provides graduates with qualifications that prepare them for modern health care practice and to work flexibly across hospital care, community care, illness prevention, health promotion and education. It is especially suitable for positions that require a combination of clinical and public health skills and knowledge. This is a four year, full-time course (or part-time equivalent) that requires successful completion of both theoretical and clinical experience units. Work opportunities may be found in a range of employment agencies. These include local, state or federal government agencies, shire councils, research centres, community health centres, hospitals, aged care facilities, acute in-patient and community mental health agencies and specialist health services such as alcohol and drug and women's health. Employment is also likely in public health organisations which value the combination of clinical qualifications with public health and nursing knowledge and skills.

Professional recognition

Graduates are eligible to apply for registration through the Nurses Board of Victoria, on the Division 1 register and may be eligible for membership of the Public Health Association of Australia.

Admission requirements

In addition to satisfying the University's general entrance requirements, students must have a study score of at least 25 in Units 3 and 4 of English and a study score of at least 20 in one of mathematics (any), biology, chemistry, physical education, or physics. International applicants and those whose principal language of education instruction was other than English will require an IELTS score of at least 6.5. Provision will be made for recognition of prior study and experience.

Course structure

This is a four year, full-time course (or part-time equivalent) that requires successful completion of 540 credit points of study as outlined below. It should be noted that students may be required to complete clinical placement outside of University teaching periods. Students will be required to produce evidence of completion of a First Aid Certificate prior to the commencement of semester 2 of their first year of study.

Electives

An approved elective list, suitable to the double degree program, will be advised.

Clinical experience

To meet the registration requirements of the Nurses Board of Victoria, students must satisfactorily achieve a range of competencies in the area of clinical practice. Clinical practica and field experience are offered to students as either a single-day experience or block experience of one to five weeks.

UNIT DESCRIPTIONS

DEN1DSA DENTAL SCIENCE A (15 CPs Sem. TE-SEM-1 BE.) *Coordinator to be advised*

In this unit students will examine basic material sciences (gypsum and dental stones, acrylic resins, wrought wire, dental alloys and waxes, abrasives and abrasion), as well as build a detailed understanding of human biology relevant to dentistry. The unit will also introduce health and safety in the work-place as the students are taught the use of all dental laboratory equipment. The unit will be presented in coordination with various practical sessions.

Class requirements: One 2-hour lecture per week; 2 hours of tutorials per week; 39 hours of practical classes across the semester.

This unit is not available for 'Study Abroad' students.

Assessment: One 1.5-hour examination (40%), two 10-minute class tests or oral quiz (20%), three 2-hour practical exercises (40%)

DEN1DSB DENTAL SCIENCE B (15 CPs Sem. TE-SEM-2 BE.) *Coordinator to be advised*

In this unit students attend a series of lectures with simultaneous laboratory instructions, developing an understanding of tooth preparation for and placement of, direct restorative materials including amalgam, composite resins and glass ionomer cements. Basic introductory lectures pertaining to indirect restorative techniques for the placement of inlays and onlays will also be presented. This unit is linked to the clinical placement program and will build on the knowledge gained from Dental Science A with an

overview of material science and how materials are developed, tested, selected and clinically manipulated to replace biological structures in dental tissues. Materials covered will include metals, ceramics, polymers and composites.

Prerequisite: DEN1DSA.

Class requirements: One 1-hour lecture and one 1-hour tutorial per week; 39 hours of practical and 39 hours of pre-clinical across the semester.

This unit is not available for 'Study Abroad' students.

Assessment: One 3-hour written examination (50%), one 20-minute take-home assignment (15%), three 2-hour Practical Exercises (35%)

DFS1ANB AUSLAN 1B (15 CPs Sem. TE-SEM-2 BE, BU. TE-SEM-5 BU. TE-W28-28 BU.) *Ms Berna Hutchins*

The offering of this unit as a one-week intensive is subject to sufficient enrolments

In this unit, students continue to concentrate on developing practical abilities in both the reception and production of Australian sign language (Auslan) to a level of basic communicative competence. Students are introduced to the grammatical structures of Auslan and the use of the language in its appropriate cultural and social content.

Prerequisite: DFS1ANA or equivalent.

Class requirements: One 3-hour seminar per week. WebCT is utilised in this unit.

Assessment: Class exercises equivalent to 700 words (20%), two 15-minute live signing tests (40%) and one 2-hour examination (40%). Hurdle requirement: must obtain a pass in all components of assessment (0%)

Prescribed Reading:

Branson, J. (Ed) *Auslan 1 B Readings and workbook* NIDS, La Trobe University, 2008

Branson, J et al. *Introduction to Auslan level 2* NIDS, La Trobe University, 1995.

DFS2ANA AUSLAN 2A (20. CPs Sem. TE-SEM-1 BE, BU.) *Professor Jan Branson*

In this unit, students concentrate on further developing their communicative competence in both receptive and productive skills. Students focus on the use of informal registers and discourse forms in the language. The issue of language variation within the deaf community will be discussed.

Prerequisite: DFS1ANB or equivalent.

Class requirements: One 2-hour seminar or lecture plus one 2-hour tutorial per week. WebCT is utilised in this unit.

Assessment: Four class exercises total equivalent to 1200 words (20%), two 15-minute live signing tests (40%) and one 2-hour examination (40%). Hurdle requirement: must obtain a pass in all components of assessment

Prescribed Reading:

Branson, J. (Ed) *Auslan 2A Readings* NIDS, La Trobe University, 2008

Auslan 2A Student Video. NIDS, La Trobe University, 2008

DFS2ANB AUSLAN 2B (20. CPs Sem. TE-SEM-2 BE, BU.) *Professor Jan Branson*

In this unit, students continue to concentrate on further developing their communicative competence in both receptive and productive skills. Students focus on formal registers and discourse forms used in the language. The issue of language variation within the deaf community will be discussed.

Prerequisite: DFS2ANA or equivalent.

Class requirements: One 2-hour seminar/lecture and one 2-hour tutorial per week. WebCT is utilised in this unit.

Assessment: Two 15-minute live signing tests (40%), one 2-hour examination (40%), four class exercises total equivalent to 1200 words (20%), Hurdle requirement: must obtain a pass in all components of assessment (0%)

Prescribed Reading:

Branson, J. (Ed) *Auslan 2B Readings and workbook* NIDS, La Trobe University, 2008

Auslan 2B Student video. NIDS, La Trobe University, 2008

DFS3ANA AUSLAN 3A (20. CPs Sem. TE-SEM-1 BE, BU.) *Ms Anne Bremner*

This unit critically examines the emergence of the deaf community in Australia and its development out of the colonisation of Australia. It examines the very beginnings of that community from the arrival of the first deaf person in Australia on the Second Fleet and the establishment of schools of the deaf in the 19th century to the community today. It traces the historical origins of linguistic and educational ideas that the early members of the community brought with them to Australia. Topics studied include the impact of spoken and written languages on the development of Auslan and other signing systems.

Prerequisite: DFS2ANB or equivalent.

Class requirements: One 4-hour seminar or lecture per week. WebCT is utilised in this unit.

Assessment: Four class exercises total equivalent to 1200 words (20%), two 15-minute live signing tests (40%) and one 2-hour examination (40%). Hurdle requirement: Must obtain a pass in all components of assessment (0%)

Prescribed Reading:

Fischer, R and Lane, H. *Looking back* Signum Press, Hamburg 1993

DFS3ANB AUSLAN 3B (20. CPs Sem. TE-SEM-2 BE, BU.) *Ms Anne Bremner*

In this unit, students will examine the structures of signs and sequences from a linguistic perspective. Students will explore the theme of sign language universals, focusing on how sign languages develop grammatical structures that are linked to the visual-spatial dimension in which these languages operate. Specific topics examined are space and grammars, incorporating pronominalisation, verb inflection, role shift and time marking, classifiers, non-manual markers and sign order.

Prerequisite: DFS3ANA or equivalent.

Class requirements: One 4-hour seminar or lecture per week. WebCT is utilised in this unit.

Assessment: Two 15-minute live signing tests (40%), one 2-hour examination (40%), four class exercises equivalent to 1200 words (20%), Hurdle requirement: must obtain a pass in all components of assessment (0%)

HBS1LS1 LIFE SCIENCE 1 (15. CPs Sem. TE-SEM-1 BE.) *Ms Mary Boelen*

In this unit, students are provided with the opportunity to acquire a fundamental understanding of human life processes and are introduced to the structure and basic function of human organ systems, biological chemistry and human inheritance. Areas covered include, atoms, ions and biological molecules; energy organic processes; enzymes; cells; tissues; a tour of organ systems including skin, bone, skeleton, muscles, nervous systems, special senses, endocrine, immune, respiratory, digestive, cardiovascular, urinary and reproductive systems and human continuity.

Class requirements: Thirty-four 1-hour lectures, six 1-hour tutorials and six 2-hour practical sessions.

Assessment: One 2-hour examination (75%), six practical exercise reports, equivalent to 200 words each (25%). three reports consist of anatomical/histological drawings and three consist of answering questions Pass in the assessment of the practical is compulsory.

Prescribed Reading:

Marieb, EN, Hoehn, K. *Human Anatomy and Physiology 7th edn* Pearson, Benjamin, Cummings, 2007.

HBS1LS2 LIFE SCIENCE 2 (15. CPs Sem. TE-SEM-2 BE.) *Ms Mary Boelen, Dr Adrian Verrinder*

In this unit, students are provided with the opportunity to investigate the integration and regulation of the human body. The unit takes a homeostatic approach to neurophysiology, reflex loops, special senses, the central, peripheral and autonomic nervous systems, neural integration, endocrines, cardiovascular, respiratory, gastrointestinal and urinary physiology.

Prerequisite: Bachelor of Nursing and Bachelor of Nursing Science students must have satisfactorily completed all first semester units. Bachelor of Oral Health students to have passed HBS1LS1.

Class requirements: 33 1-hour lectures, seven 1-hour tutorials and six 2-hour practical sessions.

Assessment: 2-hour examination (75%), six practical write-ups (25%), six reports consisting of answering questions up to 200 words each. Pass in practical assessment is compulsory.

Prescribed Reading:

HBS2PAT PATHOPHYSIOLOGY IN NURSING (15 CPs Sem. TE-SEM-1 AW, BE, BH, BU, HK, MI, SH, SI.) *AW: Dr Charu Mishra, BE: Dr Terri Meehan-Andrews, BU: Mr Robert Paine*

In this unit students will examine disorders which may be experienced by individuals over the life-span, emphasising the underlying biological mechanisms that produce signs and symptoms and the risk factors and contributing causes of disorders. Specifically, general pathological processes will be discussed with emphasis on disturbed function, adaptation to injury, inflammation, tissue healing, immunological disorders, neoplasia, fluid imbalance, thrombosis, embolism and vascular disorders. In addition to general pathological processes, emphasis will be given to relevant disorders of the respiratory, cardiovascular and renal gastrointestinal, endocrine, skeletal and nervous systems.

Prerequisite: HBS1HBF, except for students enrolled in the HSBNC, HSBNCW, BEBND2, HBNCM, HBNC, HBNPRG and HBNPGW.

Class requirements: Four 1-hour lectures per week and one 1-hour seminar or tutorial per week. Some lectures will be given via WebCT.

Assessment: One 45-min mid-semester test (20%), one 3-hour final examination (80%)

Prescribed Reading:

Porth, CM. *Pathophysiology Concepts of altered health states*. Lippincott, New York, 2005

HCS1ANA AUSLAN 1A (15 CPs Sem. TE-SEM-1 BE, BU. TE-W06-07 BU. TE-W28-28 BU. TE-W46-48 BU.) *Ms Berna Hutchins*

*Not available in 2008***HLT1CS COMMUNICATION SKILLS** (15. CPs Sem. TE-SEM-1 BE. TE-SEM-2 BE.) *Mr Paul Jackson*

This unit gives students an insight into the communication process and develops ways of improving their communication competence in public health. Students follow a learning model that outlines communication theories, models concrete examples of communication behaviour, analyses specific skills, puts these skills into practice and

finally helps students develop self-assessment and real-life applications. The teaching process is highly interactive.

Class requirements: Three hours of seminar/interactive tutorial sessions.

Assessment: Conduct one 10-minute interview and submit 2000-word written report (60%), one 1-hour class test (30%) and participation in group activities (10%). Students will be assessed on their contribution to co-operative group activities.

Prescribed Reading:

Mohan, T et al. *Communicating as professionals* Thomson

HLT1FEA FIELD EXPERIENCE A (15. CPs Sem. TE-SEM-2 BE.) *Ms Di Robertson*

This is an introduction to the public and environmental health fields and provides opportunities for students to explore public health in practice. It is a pre-requisite for the third year field experience subject.

Class requirements: 110 hours of contact time, comprising lectures, tutorials and field trips. Field trips range in duration from two hours to all day.

This unit is not available for 'Study Abroad' students.

Assessment: One 1500-word structured journal (20%), one 10-minute oral presentation of journal material (20%), one 2500-word report (60%)

Recommended Reading:

HLT1HEH HUMAN ECOLOGY AND HEALTH (15. CPs Sem. TE-SEM-2 BE.)

Dr Adrian Verrinder

This subject runs in conjunction with BIO10ES – Environmental Science.

In this unit students will examine the health status of humans as individuals, groups and populations in relation to their adaptation to environmental changes. Content includes humans, their health and disease in relation to ecosystems, the interplay between biological, microbiological and cultural processes, genetic and cultural adaptation to new circumstances and conflicts between the evolution of the hunter-gatherer life style, the process of 'civilisation' and the development of agricultural and industrial communities.

Prerequisite: BIO11LS1.

Class requirements: 261-hour lectures, nine 1-hour tutorials and two 2-hour practical sessions.

Assessment: One 2-hour examination (60%), microbiology practice write-up (max. 400 words) (10%), one essay (1250–1500 words) (30%)

Prescribed Reading:

Verrinder, A. (2003). *Human Ecology and Health* 3rd edn., Bendigo: La Trobe University Bendigo

Or McMichael, A.J. (1993)

Planetary Overload. Cambridge: Cambridge University Press.

HLT1HSA SOCIAL HEALTH (15. CPs Sem. TE-SEM-2 BE.) *Dr Jon Willis*

The health of individuals within our society and the health care processes that we develop are part of the wider, more general 'social construction' of everyday life. This sociology subject is essentially designed for Health Science students and the issues examined assist in comprehending the social processes that influence the health and the organisation of health care in our contemporary Australian society.

Class requirements: one 2-hour lecture and one 1-hour tutorial per week for 13 weeks; or one 2-hour lecture and one 2-hour workshop per week for 10 weeks.

Assessment: One 2000-word essay (50%), one 2-hour examination (50%)

Prescribed Reading:

Germor, J. 3rd edn. 2005 *Second Opinion: An Introduction to Health Sociology* Melbourne Oxford University Press.

HLT1PHR PUBLIC HEALTH RESEARCH A (15. CPs Sem. TE-SEM-2 BE.) *Dr Virginia Dickson-Swift*

The aim of this unit is to demonstrate to students that there is nothing mysterious about research. Students are introduced to the terminology and concepts necessary to be able to understand quantitative and qualitative research articles. Students are introduced to the concept of critical appraisal and participate in a qualitative analysis project and a quantitative analysis project.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: One article retrieval exercise (equiv 300 words) (10%), one quantitative analysis project (equiv 1000 words) (20%), one critical appraisal exercise (equiv 800 words) (20%), one qualitative analysis exercise (equiv 800 words) (20%), one 1.5-hour exam (30%)

Recommended Reading:

HLT1PIA PUBLIC HEALTH IN AUSTRALIA (15. CPs Sem. TE-SEM-1 BE.) *Ms Glenda Verrinder*

In this unit, students are introduced to the significance of public health practices as a social enterprise within Australia; the interdisciplinary and intersectional approach to public health; the belief that public health professionals acting individually and collectively can improve public health practice for the community as a whole; the importance of health promotion strategies for enhancing the health of Australians. The unit content includes the development of public health, health studies and the determinants of health and illness and factors that influence health service delivery within Australia.

Class requirements: One 2-hour lecture/seminar and one 1-hour tutorial per week.

Assessment: One 2-hour examination (50%), one 2000-word assignment (50%)

Prescribed Reading:

Baum, F. (1998) *The New Public Health: An Australian Perspective* Oxford University Press; Melbourne.

HLT2EH ENVIRONMENTAL HEALTH (15. CPs Sem. TE-SEM-1 BE.) *Dr Cameron Earl*

In this unit students will be provided with the opportunity to develop a greater understanding of the interrelationship between the physical environment and human health in preparation for public health practice. Content themes include climate change, biodiversity, population increase, toxicology and land degradation. Students also have the opportunity to study the legal, political, educational and planning frameworks associated with this exciting field.

Prerequisite: HLT1HEH BIO11LS1.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

This unit is not available for 'Study Abroad' students.

Assessment: One 2000-word assignment (50%), one 2.5-hour examination (50%)

Recommended Reading:

Yassi, A et al. (2001) *Basic Environmental Health* Oxford University Press
Elliott. (1998) *Global Politics of the Environment* MacMillan Company of Australia

HLT2FSE FOOD SCIENCE: ESSENTIALS (15. CPs Sem. TE-SEM-2 BE.) *Mr Paul Jackson*

In this unit students are introduced to the basics of food science and food handling. A multi-disciplinary approach examines the chemistry and biology of food, food handling procedures and the scientific basis for modern processing techniques used to extend the shelf life and maintain safety of different foods. Topics include basic food nutrition and health implications, food groups, basic food chemistry/biochemistry, chemical spoilage and contamination of food, microbial spoilage of food and factors affecting spoilage (pathogenic organisms and microbial toxins), basic scientific principles for food preservation (refrigeration, freezing, irradiation, fermentation, drying,

freeze-drying, salting, pasteurisation, canning, vacuum packaging, preservatives and other additives), hygiene strategy and food handling, including fast foods, sample collection for analysis hygienic legislation, food and nutrition policies.

Prerequisite: BBI110 or BBI1LS1 or BIO11LS1 or HBS1LS1 or equivalent approved by course or subject coordinator.

Class requirements: Two 1 hours lectures, 1-two hour block of tutorials/demonstration/practicals per week plus one excursion during the semester.

Assessment: 2-hour examination (50%), 1000-word assignment (20%). There is also a practical report. This is a hurdle requirement, 1500-word assignment (30%)

HLT2HSP PUBLIC HEALTH POLICY STUDIES (15. CPs Sem. TE-SEM-1 BE. TE-SEM-2 BE.) *Ms Virginia Dickson-Swift*

In this unit students will examine the political institutions which impact on the delivery of health care, as well as the political and economic perspectives relevant to health issues. The theory and practice of health care policy are explored, including social economic and political influences on health policy development and the relationship between health policy and health status of the population. Also of relevance is the inter-relationship between health care providers and customers. Students will develop the skills necessary to critically evaluate the impact of health policy.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

This unit is not available for 'Study Abroad' students.

Assessment: 2000-word presentation/report (50%), sighted, 2-hour take-home examination (2000 words) (50%)

Public Health Association of Australia, Policy Statements, 1999. On short loan in the Library

HLT2PHR PUBLIC HEALTH RESEARCH B (15. CPs Sem. TE-SEM-1 BE.) *Dr Virginia Dickson-Swift*

This unit examines the basic activities involved in conducting research relevant to health sciences including focus group discussions, questionnaire design, writing a research proposal and ethics in research.

Prerequisite: HLT1PHR or equivalent.

Class requirements: One 2-hour lecture, one 1-hour tutorial per week.

Assessment: Research plan and submission to a funding body (equiv 1500 words) (40%), questionnaire design project (equiv 1000 words) (40%), one 2-hour examination (20%)

Prescribed Reading:

Minichiello, V, Sullivan, G, Greenwood, K and Axford, R. 2nd edn 2004 *Research Methods for Nursing and Health Sciences* Pearson Education: French's Forest

HLT3CS COUNSELLING SKILLS (15. CPs Sem. TE-SEM-1 BE. TE-SEM-2 BE.)

Ms Glenda Verrinder

Subject to sufficient enrolments. May be offered in block mode.

This unit offers a basic framework within which counselling skills may be developed. By virtue of the nature of the skills, approximately half of the unit will consist of experiential learning exercises. It is anticipated that this unit will be personally challenging – students will be asked to look at themselves, their values and attitudes and to reflect on their present therapeutic communication skills.

Class requirements: 39 hours of lectures and workshops, conducted over five full study days.

Assessment: Skills-based practical assessment (40%) equiv 1500 words, one 2500-word assignment (60%). Hurdle requirement: 80% attendance and participation in lectures and tutorials is required to pass the subject

Recommended Reading:

HLT3EHA ENVIRONMENTAL HEALTH MANAGEMENT A (15 CPs Sem. TE-SEM-1 BE.) *Mr Paul Jackson*

In this unit students will study four major areas. Environmental health hazards such as those associated with air, water and soil pollution; risk management; risk assessment and health impact assessment methodologies.

Prerequisite: HLT1HEH HLT2EH.

Class requirements: 39 hours consisting of one 2-hour lecture and one 1-hour tutorial per week. This unit may be delivered in block mode consisting of a three-day block and a two-day block, totalling 39 hours, held on weekdays.

Assessment: 2.5-hour examination (50%), report (2000 words) (50%)

Recommended Reading:

Yassi et al. (2000) *Basic Environmental Health* Oxford University Press

HLT3EHB ENVIRONMENTAL HEALTH MANAGEMENT B (15 CPs Sem. TE-SEM-2 BE.) *Mr Paul Jackson*

In this unit students are provided with the opportunity to continue to examine aspects of environmental health practice and further develop an understanding of the role of the environmental health practitioner in Government and industry settings.

Prerequisite: HLT1HEH, HLT3EHA.

Class requirements: 39 hours consisting of one 2-hour lecture and one 1-hour tutorial per week. This unit may be delivered in block mode consisting of a three-day block and a two-day block, totalling 39 hours, held on weekdays.

Assessment: 2-hour examination (50%), learning folio (equiv 2500 words) (50%)

Prescribed Reading:

Yassi, A et al. (2001) *Basic environmental health* Oxford: Oxford University Press

Recommended Reading:

HLT3EP EPIDEMIOLOGY (15. CPs Sem. TE-SEM-1 BE. TE-SEM-2 BE.) *Dr Jon Willis*

In this unit students will focus on the measurements and evaluation of disease in the population and the health status of the individual and the community from an epidemiological perspective. Content includes the definition of population statistics, incidence, prevalence, rates, biostatistics, screening, mortality and morbidity.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: One retrieval of population statistics assignment (20%), one interpretation of epidemiological data assignment (30%), one 2.5-hour examination (50%)

Prescribed Reading:

Beaglehole, R, Bonita, R and Kjellstrom (1993) *Basic Epidemiology*. Geneva: World Health Organisation.

HLT3FEB FIELD EXPERIENCE B (15. CPs Sem. TE-SEM-1 BE. TE-SEM-2 BE.)

Ms Diane Robertson

In this unit students are provided with experience that enables them to put into practice theoretical knowledge and skills gained and developed throughout the course. The experience also provides

opportunities to examine and compare ways in which public health is practised and to play a role in the delivery of public and community health services.

Prerequisite: HLT21FE1, HLT3PHP, HLT3PD1.

Class requirements: Approximately 150 hours: comprising pre-practicum, practicum and post-practicum sessions.

This unit is not available for 'Study Abroad' students.

Assessment: Practicum proposal (800 words) (20%), report (2,750 words) (60%), curriculum vitae (equiv. 800 words) (20%)

HLT3HP HEALTH PROMOTION (15. CPs Sem. TE-SEM-2 BE.) *Dr Lyn Talbot*

In this unit students are introduced to strategic approaches to the goals, targets and priorities for health advancement. The content and assessments are designed to provide opportunities for students to apply their theoretical knowledge and practical skills in areas of health promotion. This unit presents materials based on the frameworks which underpin health promotion and illness/injury prevention strategies, from the individual, community and wider population levels. A particular focus is to provide opportunities for inter-sectoral collaboration and action for health, an important strategy for advancing the health of Australians.

Prerequisite: HLT3PHP, HLT3PD1.

Incompatible unit: PHE31CHP

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

This unit is not available for 'Study Abroad' students.

Assessment: One 1500-word minor assignment (40%), one 3000-word major health promotion program (60%)

Prescribed Reading:

Talbot, L and Verrinder, G (2005) *Promoting Health* Elsevier

HLT3HPE HEALTH PROMOTION PLANNING AND EVALUATION (15. CPs Sem. TE-SEM-1 BE.) *Ms Glenda Verrinder*

In this unit students have the opportunity to examine various theoretical frameworks related to health promotion program planning and evaluation. Students develop the necessary knowledge and skills to undertake the planning and evaluation process with a community they are familiar with, based on sound evidence. Content includes assessing community needs, reviewing relevant literature, designing public health programs using socio-environmental or community development approaches, implementation and evaluation options and finance and budgeting.

Class requirements: One 3-hour combination lecture and seminar discussion per week.

Assessment: One 2500-word Needs assessment and literature review (50%), one poster presentation and 2000 folio of program (50%)

Prescribed Reading:

McKenzie, J, Neiger, B and Smeltzer, J. (2005) *Planning, Implementing and Evaluating Health Promotion Programs* 4th edn Boston: Pearson

HLT3IPA INTERDISCIPLINARY PROFESSIONAL PRACTICE (15 CPs Sem. TE-SEM-1 AW, BE, BU, DE, MI, SH. TE-SEM-2 AW, BE, BU, DE, MI.) *Dr Helen Cleak, Ms Dianne Williamson*

In this web-based unit, students across the Faculty of Health Sciences study together in interdisciplinary groups in preparation for professional practice. This unit consists of four online modules: Professional Development, Provision of Care within the Context of Human Service Systems and Implementing a Plan to Improve Service Quality, Professional Accountability and Organizational Dynamics – Working Effectively in Health and Human Service Organizations. Through guided activities, students will be encouraged to critically reflect on the structure and influences on the human services organisation, develop interdisciplinary awareness and explore the contribution of other professions, consider the rights and expectations of service consumers and apply the key issues of ethical decision-making within the context of relevant law.

Prerequisite: Bachelor of Health Sciences students must have completed at least 240 credit points. (All other courses must have

completed one of) the following units: NSG2EBP; HIM2HCC; ORT3CLI; OCT3PRD; PTY32CPC; PTY32MPC; PTY32NPC; PTY32SSP; POD3PCP; POR2CEB; POR2CEB; HCS30CLI; HCS30PPR; SWP3FEA; ORH33CPE.

Bachelor of Health Sciences students must have completed at least 240 credit points.

Incompatible unit: HLT32IPA, HLT31IPA

Class requirements: Eight hours of lectures/seminars over two days during Orientation Week plus a flexible learning package equivalent to three hours of classroom contact per week. Students have regular contact with lecturers via the unit coordinator using telephone, fax and email.

Assessment: Three 500-word online group task (30%). Hurdle requirements: students are required to participate in all online tasks and must pass all assessment components in order to pass this unit, one 1500-word online assignment (40%), participation/contribution to online discussions as per guidelines provided to students (10%), one 750-word online group tasks (20%), one 1500-word group online assignment (40%), participation/contribution to online discussions as per guidelines provided to students (10%).

Prescribed Reading:

Duckett, S.J. *The Australian Health Care System* Melbourne: Oxford (2000).

HLT3LEH LAW AND ETHICS IN HEALTH (15. CPs Sem. TE-SEM-1 BE. TE-SEM-2 BE.) *Ms Sandra Kippen*

In this unit students will be introduced to legal and ethical concepts relevant to public health in the Australian context. While the two components are taught separately, the issues covered will have common ground. Students have opportunities to think analytically about public health issues from different, yet complementary, perspectives.

Class requirements: One 3-hour lecture per week.

This unit is not available for 'Study Abroad' students.

Assessment: Law component: one 1500-word essay (30%), one 1-hour class test (20%), (50%). Students must pass both the Law and Ethics components of this subject to gain a pass overall. Ethics component: one 1000-word essay (30%); one 1-hour class test (20%), (50%)

Prescribed Reading:

Johnstone, M. (1995) *Bioethics: A Nursing Perspective* Harcourt
Shotton L. (Ed) (1997). *Health Care Law and Ethics*. Katoomba: Social Science Press

Staunton, P. (1997) *Nursing and the Law* Saunders

HLT3PHN PUBLIC HEALTH NUTRITION (15. CPs Sem. TE-SEM-2 BE.) *Dr Lyn Talbot*

In this unit students become familiar with the biochemistry and physiology of energy nutrients appropriate to public health practice and understand the factors influencing the nutritional status of populations. Nutrition policies and strategies will be critiqued. Building on this information and the principles of public health, they develop the skills necessary to assist community members to translate knowledge into practice.

Prerequisite: Public Health Principles: HLT30PHP or HLT31PHP or HLT3PHP equivalent.

Class requirements: Three hours per week of lectures/seminars.

Assessment: 2-hour examination (50%), one 2000-word assignment (50%)

Prescribed Reading:

Wahlgrist. (2002) *Food and Nutrition in Australia and the Pacific* NSW: Allen and Unwin

HLT3PHP PUBLIC HEALTH PRINCIPLES (15. CPs Sem. TE-SEM-1 BE.) *Dr Lyn Talbot, Ms Glenda Verrinder*

In this unit students are introduced to the principles of public health and primary health care in their political and economic context. Students also examine the strategies used in public health, in the context of public health planning frameworks.

Incompatible unit: PHE31CHP

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

This unit is not available for 'Study Abroad' students.

Assessment: One 2500-word assignment (60%), one 2-hour sighted examination (40%)

Prescribed Reading:

Talbot and Verrinder. (2005) *Promoting Health* Elsevier

Recommended Reading:

Ife, J. (1997) *Community Development: Creating Community alternatives – vision analysis and practice*. Melbourne: Addison Wesley Longman.

HLT3RPH PUBLIC HEALTH FRAMEWORKS FOR RURAL PHARMACY PRACTICE (15 CPs Sem. TE-SEM-2 BE.) *Ms Glenda Verrinder*

In this unit, students will be introduced to the interdisciplinary and intersectional nature of public health and the belief that health professionals acting individually and collectively can improve public health. The content includes the history of the development of modern public health practice and how the range of strategies seeks to address the social/environmental determinants of disease and health. Key frameworks will be introduced which can guide public health practitioners when planning, implementing and evaluating various strategies. The rural context of much pharmacy practice makes it essential that students understand the factors which undermine the health status of rural people and also impinge on health service policy, planning and delivery in rural areas.

Class requirements: Offered fully online via WebCT or offered online via WebCT supported by four 1.5-hour on-campus tutorials throughout the semester.

Assessment: One 2-hour Examination (40%). Held informal examination setting during the University examination period, learning assessment task (30%). Online posting presentation, one 1500-word essay (30%)

Prescribed Reading:

To be advised on first day of class.

HLT3WPH WOMEN AND PUBLIC HEALTH (15. CPs Sem. TE-SEM-1 BE.) *Dr Lyn Talbot*

In this unit, the awareness of specific health problems confronting women is raised from a sociological perspective. The social model of health is developed for its appropriateness in understanding the context of women's health and women's health services. Specific issues are addressed, including reproduction and contraception, violence, sexual health, mental and emotional health and service delivery.

Prerequisite: HLT1HSA, HLT1PIA

Class requirements: 26 hours of lectures and 13 hours of tutorials, conducted over 5 full study days, held on week-days during the semester.

Assessment: One 1-hour class test (30%), one 2000-word review of literature on a topic of significance to women's health and well-being (35%), one 1500-word essay report (35%)

HLT3WSE WATER SCIENCE: ESSENTIALS (15. CPs Sem. TE-SEM-1 BE.) *Mr Paul Jackson*

In this unit, students will be introduced to the nature of the aquatic environment and its uses and abuses by our society. A multi-disciplinary approach examines chemical, biological and physical processes, how these may be unbalanced by human activity and subsequently affect human health. Topics include water in society, water as a finite resource, the water cycle, aquatic macro and micro environments, eutrophication, the relationship between soil and water, water quality indicators, chemical and microbial pollution, water-borne disease, water use (drinking, swimming, spas, cooling towers, etc), waste water management and an overview of the Environmental Protection Act.

Prerequisite: BI010CO or BI010LS1 or BI011LS1 or HSB11LS1 or equivalent approved by course or subject coordinator.

Class requirements: Two 1-hour lectures, two hours of tutorials, demonstrations, practicals per week, plus one excursion per semester.

Assessment: 2-hour examination (50%), 1500-word assignment (40%), practical reports (equivalent 500 words) (10%)

HLT4HED HEALTH EDUCATION (15. CPs Sem. TE-SEM-1 BE. TE-SEM-2 BE.)*Dr Lyn Talbot*

In this unit students are introduced to foundation education theories. Health education models are compared and contrasted with education theories and health education is critiqued. Other topics include the learning domains, educator qualities and group teaching-learning processes. Students analyse the characteristics of teaching and learning opportunities and develop skills suitable for a range of health education settings.

Incompatible unit: PHE22HSD*Class requirements:* One 1-hour lecture and one two-hour tutorial/practical session per week.*Assessment:* One 10-minute teaching session and 750-word analysis report (35%), one 3000-word health education package presentation (65%), one 3000-word health education package presentation (65%)*Prescribed Reading:*Talbot, L and Verrinder, G. (2005) *Promoting Health* Elsevier*Recommended Reading:*Lorig, K. (1996) *Patient Education: A Practical Approach* 2nd edn. Sage PublicationsKiger, A. (2004) *Teaching for Health* 4th edn. CPs Sem. TE-SEM-2 BE.) *Dr Virginia Dickson-Swift**Not available in 2008*

This unit is divided into two main components, theory and research skills. Throughout the semester, students explore a variety of qualitative research methodologies such as grounded theory, ethnography, action research, unobtrusive observation, case study, phenomenology and archival methods. In addition, students engage in a number of practical activities aimed at increasing their skills in literature critique, data collection and analysis and report writing.

Prerequisite: Appropriate studies in research methodologies.*Class requirements:* One 2-hour lecture and one 1-hour tutorial per week OR offered in block mode over five full week-days during the semester.

This unit is not available for 'Study Abroad' students.

Assessment: One 2000-word assignment (40%), one 4000-word project (60%)**HLT4RHI READINGS IN HEALTH ISSUES** (15. CPs Sem. TE-SEM-1 BE. TE-SEM-2 BE.) *Dr Virginia Dickson-Swift*

This unit is designed to allow the student the freedom to choose and investigate an area of public health interest. It is envisaged this investigation would examine the selected topic from both a theoretical and applied perspective. The chosen area or topic for investigation will not have been previously presented by the student for assessment.

Class requirements: One 1-hour meeting with supervisor and two hours directed reading per week, according to designated parameters agreed between student and supervisor.*Assessment:* One seminar presentation (40%), 15–20-minute verbal and 1000-word written presentation, one 3000-word major assignment (60%)*Recommended Reading:**Those selected as being most relevant to topic of research***HLT4THA THESIS** (30. CPs Sem. TE-SEM-1 BE. TE-SEM-2 BE.) *Ms Glenda Verrinder**Not available in 2008**This unit represents one semester of a year-long unit.*

In this unit students select a topic from the discipline of public health's research interest areas. Approval of the topic depends on the

suitability of the proposed project and the availability of appropriate facilities and supervision. Please note that this unit is to be undertaken with HLT4THB

Prerequisite: HLT51RM.*Class requirements:* Students are expected to attend a seminar series program and present their work in progress at least once during their enrolment period.

This unit is not available for 'Study Abroad' students.

Assessment: One 15,000-word dissertation (100%) The assessment listed is the combined assessment for HLT41THE and HLT42THE**HLT4THB THESIS** (30. CPs Sem. TE-SEM-1 BE. TE-SEM-2 BE.) *Ms Glenda Verrinder**Not available in 2008**This unit represents one semester of a year-long unit.*

In this unit students select a topic from the discipline of public health's research interest areas. Approval of the topic depends on the suitability of the proposed project and the availability of appropriate facilities and supervision. Please note that this unit is to be undertaken with HLT4THA

Prerequisite: HLT51RM.*Class requirements:* Students are expected to attend a seminar series program and present their work in progress at least once during their enrolment period.

This unit is not available for 'Study Abroad' students.

Assessment: One 15,000-word dissertation (100%) The assessment listed is the combined assessment for HLT41THE and HLT42THE**NSG1AAS NURSING ART AND SCIENCE** (15 CPs Sem. TE-SEM-1 AW, BE, BU, MI, SH.) *AW: Ms Yolanta McLaughlin, BE: Ms Gamble Kerrie, BU: Mr Bill McGuiness*

In this unit students will be provided with an introduction to the theoretical framework of the curriculum as an underpinning for professional nursing practice. The foundations of the program are discussed in the context of nursing as a discipline and a profession. Creative and scientific processes and concepts that underlie and guide nursing practice are explored from a historic, holistic and global perspective. Students are introduced to various nursing roles in health care by examination of professional nursing practice. The concepts of nursing as an art, nursing as a science and of care and caring within a professional, legal and ethical framework are examined. Students will explore dimensions of the nurse–patient relationship. In particular they will develop skill in initiating, maintaining and concluding effective therapeutic and professional communication. Students will also be expected to maintain a reflective journal and to engage in group discussions.

Class requirements: 26 hours of lectures, 13 hours of problem-based learning (fortnightly class-based tutorials and seven hours of web-based tutorials) and 16 hours of clinical placement over the semester. This unit will have an online component and may also be offered in block mode (two consecutive 6-hour days, three times over the semester). There may be various to this structure on difference campuses.*Assessment:* One 1800-word assignment (40%). Hurdle requirement: completion of a clinical learning activity related to communication skill and professional development, one 2200-word written essay (60%). Students must pass both the theoretical and clinical components to pass the subject.*Recommended Reading:*Crisp, J and Taylor, C. (Eds) *Potter and Perry's Fundamentals of Nursing*. Sydney: Elsevier Mosby (2005) 2nd edn.**NSG1FUN FUNDAMENTALS OF NURSING PRACTICE** (15 CPs Sem. TE-SEM-1 AW, BU, TE-SEM-2 AW, BE, BU, MI, SH.) *AW: Ms Yolanta McLaughlin, BE: Ms Kerrie Gamble, BU: Dr Michael Bauer**Not available in 2008**This unit represents one semester of a year-long unit.*

In this foundation unit students will learn how to assist clients to meet their activities of daily living. Students will study the effect of immobility on the individual's ability to self-care. Using an issues based learning approach, students are introduced to therapeutic nursing practices which are designed to promote, maintain and improve health status and provide comfort. Emphasis will be placed on fundamental nursing skills including basic life support. Related topics include alterations in comfort, hygiene, nutrition, elimination,

respiration, circulation and body temperature and infection control. Students will also develop skills in individualised care as a beginning member of the nursing team with awareness of legal, ethical and professional responsibilities. Students are introduced to the interactions between micro-organisms and humans including the roles of microbes in health maintenance and in infectious diseases.

Co-requisite: NSG1HAS and students must be enrolled in one of the following: HBNPRG, HBNPGW, BEBN2, RBN, HBNM, HBNPRW, HBNUP, HBNSCW, RBNS, HBNS, HZNM, HBN or BIO1LS1, HBS1API or equivalent.

Class requirements: One 2-hour lecture and one 2-hour laboratory practice session (weeks 1–10), one 2-hour tutorial (weeks 1–6) plus a 80-hour clinical placement. This unit will have an online component. Block mode: two consecutive 7-hour days four times across the semester plus a 80-hour clinical placement. There may be variation to the structure on different campuses.

Assessment: 2-hour end of semester examination (50%). Hurdle requirement: successful completion of clinical practicum, one 2000-word written project (50%). Students must pass the theoretical and the clinical components to pass the unit.

NSG1HAS HEALTH ASSESSMENT FOR NURSES (15 CPs Sem. TE-SEM-1 AW, BE, BU, MI, SH. TE-SEM-2 AW, BE, BU, MI, SH. TE-W34-43 BH. TE-W47-06 SL.)

Ms Yolanta McLaughlin, Ms Sharon Kendall, Ms TBA, Ms Bev Blanch, Ms Bernadette Griffiths, Dr Beverley Wood

In this unit students will focus on the knowledge, techniques and skills needed by the nurse to perform comprehensive health assessments of individuals across the life span. Students are provided with information on normal findings of assessment and will be able to use this in identification of healthy individuals. Students are introduced to a variety of health assessment frameworks, including the functional health assessment framework to facilitate a comprehensive health assessment. Critical thinking skills will be developed in order to assist students to synthesise collected data. Emphasis will be placed on assessment techniques and documentation of findings. The use of technology and supervised practice on campus and clinical facilities will facilitate the development of skills required for assessment of clients. Laboratory experiences, focusing on selected psychomotor and interpersonal skills, are designed to support the development of relevant health assessment skills.

Prerequisite: Students must be enrolled in HBN, HBNPRW, RBN, HBNM, HBNPRG, HSBNC, HSBNCW, BEBND2, HBNCM, HBNUP, HBNCW, HBNSCW, RBNS, HBNS, HDIAN, HZNM, RDN, HDIANW or have passed HBS1LS1, BIO1LS1, HBS1API or equivalent.

Class requirements: 24 hours of lectures, 12 hours of tutorials, 12 hours of laboratory sessions and 40 hours of clinical practice. This unit will have an online component and may be offered in block mode (two consecutive six-hour days four times over the semester).

This unit is not available for 'Study Abroad' students.

Assessment: One 1500-word health assessment report (25%). Students must pass both the theoretical and clinical components to pass the subject. One 1500-word clinical reasoning exercise (25%), 40-minute practical clinical skills examination (50%)

NSG1LIL INFORMATION LITERACY FOR NURSES (15 CPs Sem. TE-SEM-1 AW, BE, BU, MI, SH.) AW: Ms Eileen Clark, BE: Dr Julie Ellis, BU: Dr TBA, MI: Ms Bev Blanch

In this unit the students will be assisted to develop the information literacy and written communication/documentation skills required of a

nurse in the 21st century. Informatics and evidence based practice are key aspects of that contemporary nursing practice. Students will be assisted to meet the CAUL information literacy standards, develop an understanding of the role of written communications/documentation and information technology in the practice of nursing and gain a beginning appreciation of the role of evidence as it informs nursing practice. Further, the students will be provided with a foundation on information management and processing principles used to support the data, information and knowledge needs in the provision and delivery of nursing and health care. In this unit students will become practised in the use of both electronic media and traditional written and oral communication skills in the communication of a well-developed argument.

Class requirements: 13 hours of lectures plus directed activities equivalent to 26 hours of classroom contact across the semester. This unit will have an online component.

Assessment: One 2500-word assignment (60%), one 1500-word assignment (40%)

Recommended Reading:

Higgs, J. (Ed) (2005) *Communicating in the Health and Social Sciences* South Melbourne: Oxford University Press

NSG2AUA ACUTE NURSING PRACTICE A (15 CPs Sem. TE-SEM-1 AW, BE, BU, MI, SH. TE-SEM-2 AW, BE, BU, MI.) AW: Ms Nanette Lundie, BE: Ms Adele Callaghan, BU: Mrs Robin Ray

In this unit students will be offered the opportunity to gain the knowledge, techniques and skills needed by the nurse to care for the person experiencing episodic illness in a hospital. Using a problem-based learning approach, the focus will be on the effect of episodic illness on skin integrity (wounds), nutritional status and elimination. Further themes for exploration include pain management, fluid and electrolyte balance and issues surrounding hospitalisation. Students will be introduced to beginning technical skills as well as the knowledge necessary for planning and implementing individualised care while considering cultural, social, psychological, ethical and legal aspects of care.

Prerequisite: NSG1HAS, NSG1FUN. If student enrolled in HBNPRG, HBNPGW, BEBN2 then must have passed NSG1HAS, NSG1FUN, NSG2MED and HBS2PAT. If student enrolled in HSBNC, HSBNCW, RBN2, BEBND2, HBNCM, HBNCW then must have passed NSG1HAS, NSG2MED and HBS2PAT.

Co-requisite: NSG2MED, HBS2PAT.

Class requirements: Bundoora/Albury-Wodonga/Mildura campus: two 2-hour lectures per week over five weeks, one 2-hour problem-based learning group per week over five weeks, one 2-hour laboratory session per week over five weeks plus clinical practicum of 15 days over three or four weeks (105 hours). Bendigo campus: as above except with a 105-hour clinical practicum of 35 hours per week over three weeks. Or alternatively two consecutive five hour seminar days four times across the semester plus a 105-hour clinical practicum of 35 hours per week over three weeks. This unit may have an online component.

This unit is not available for 'Study Abroad' students.

Assessment: One 2000-word case study (50%). Students must pass the theoretical and clinical component to pass the unit. One 2-hour examination (50%). Hurdle requirement: clinical assessment of clinical reasoning, psychomotor and communication skills and professional development in line with the ANCI competencies using the Bondy scale.

NSG2CAF CHILD AND FAMILY NURSING PRACTICE (15 CPs Sem. TE-SEM-2 AW, BE, BH, BU, HK, MI, SH, SI.) AW: Ms Nanette Lundie, BE: Ms Diana Guzys, BU: Ms Sharon Gan, MI: Ms Bev Blanch

In this unit students will be offered the opportunity to gain knowledge and skills to work in a respectful and collaborative partnership with families to identify and manage health concerns and provide quality care for children and families in a variety of settings. Students will investigate and critically appraise issues related to sociocultural, structural, developmental and emotional perspectives, as well as specific knowledge and skills to assess health status of families. The effects of disadvantages on the child and family, with emphasis on families of children with special needs will be explored. Using more developed interpersonal skills, students will develop evidence-based family focused initiatives to promote optimal family functioning and health.

Prerequisite: NSG1FUN, NSG1HAS, PHE1PHB or HLT1HAS, HBS1AON, HBS1HBF or BIO12LS2 or HBS1LS2.

Class requirements: 20 hours of lectures, 10 hours of tutorials, six hours of directed learning activities online and 3 hours of self-directed learning across the semester. This unit may have an online component.

Assessment: One 2000-word scenario-based clinical decision-making exercise (50%). Hurdle requirement: all assessment requirements must be completed to be eligible for a pass grade in this unit. You must obtain a mark of 50% to pass this unit. One 2000-word family assessment assignment (50%)

Prescribed Reading:

NSG2EBP EVIDENCE BASED NURSING (15 CPs Sem. TE-SEM-1 AW, BE, BU, HK, SI. TE-SEM-2 AW, BE, BU, MI, SH, SI.) AW: Ms Eileen Clark, BE: Ms Fran Sheehan, BH: Dr Beverley Wood, BU: Dr Simon Black, HK: Dr Beverley Wood, MI: Ms Bev Blanch, SI: Dr Beverley Wood

In this unit students will be offered the opportunity to examine the nature and sources of evidence for nursing practice and the processes through which this evidence is generated. Information on the research process and the methods for obtaining and evaluating the application of evidence to practice will be provided. Exploration of the research process includes: conceptual basis, methodology, data collection, data analysis and presentation and utilization of research and the development of evidence-based practice.

Prerequisite: NSG1FUN.

Class requirements: Bundoora/Albury-Wodonga campus: two 1-hour lectures per week over seven weeks, one 1-hour lecture per week over two weeks, one 2-hour tutorial per week over seven weeks and 7 hours of self-directed learning equivalent to one hour of class contact per week over seven weeks. Bendigo campus: as above or alternatively two consecutive five hour seminar days four times across the semester. This unit may have an online component.

This unit is not available for 'Study Abroad' students.

Assessment: one 1-hour tutorial test (25%), one 2000-word critical appraisal of published research (50%), one discussion and interaction, equivalent to 1000 words (25%)

Prescribed Reading:

Trinder, L and Reynolds, S. *Evidence-based practice: a critical appraisal*. Blackwell Science, Oxford, 2000.

Recommended Reading:

NSG2LEA LAW, ETHICS AND ACCOUNTABILITY FOR NURSES (15 CPs Sem. TE-SEM-1 HK, SI. TE-SEM-2 AW, BE, BH, BU, HK, MI, SH, SI. TE-SEM-3 AW, BH, HK, SI. TE-W01-08 BH. TE-W45-03 SI.) Ms Nanette Lundie, Mr Ron Picard, Mr Les Fitzgerald, Ms Kathleen Tori, Dr Beverley Wood, Ms Susan Hunter, Dr Beverley Wood

In this unit students will be assisted to examine the legal, ethical and accountability issues which impact on the practice of nursing. Individual responsibility of the nurse is emphasised through investigation of professional ethical and legal accountability and forms of regulation. Current models for ethical decision-making are

explored and applied in the analysis of selected ethical problems in nursing practice. The students are encouraged to examine and clarify personal and professional values and beliefs and develop a reflective approach to their practice.

Class requirements: 16 hours of lectures, 16 hours of tutorials (comprising fact-to-face and tutor-facilitated online activity) and seven hours of self-directed learning equivalent to one hour of class contact. Lectures and face-to-face tutorials are conducted in the first five to eight weeks of semester (the number of weeks depending on the campus), while online and self-directed learning occurs across the semester. This may vary in offshore programs.

This unit is not available for 'Study Abroad' students.

Assessment: One 1000-word scenario-based ethical decision-making exercise (30%) (individual assessment), one 2500-word written assignment (60%) (individual assessment), one online discussion and interaction, equivalent to 500 words (10%)

Recommended Reading:

NSG2MED MEDICATION MANAGEMENT FOR NURSES (15. CPs Sem. TE-SEM-1 AW, BE, BU, MI, SH. TE-W09-21 BU.) Ms Nanette Lundie, Dr Sharon Kendall, Ms Gayle McKenzie, Ms Bev Blanch

In this unit students will be offered the opportunity to develop knowledge of safe and ethical practice in medication administration. Information will be provided to students on pharmacologic, pharmacokinetic and pharmacodynamic principles essential for clinical practice and the basic principles of pharmacotherapeutics and pharmacological interventions in nursing including the related nursing responsibilities will be introduced. Emphasis will be placed on clinical aspects including dosing regimes and compliance, paediatric and geriatric pharmacology, adverse drug reactions and interactions, post-surgical care and polypharmacy. An overview of the clinical application of classifications of drugs on human systems will be provided.

Prerequisite: NSG1HAS, NSG1FUN, HBS1AON, HBS1HBF or HBS1LS2 or Students must be enrolled in HBNPRG, HBNPGW, BEBN2, HSBNC, HSBCNW, BEBND2, HBNCM and HBNCP.

Class requirements: 26 hours of lectures and 13 hours of facilitated small group sessions across the semester. This unit may have an online component.

This unit is not available for 'Study Abroad' students.

Assessment: One 2-hour written examination (60%), one 1500-word assignment (30%), one 30-minute drug calculation examination (10%). Hurdle requirement-must achieve mastery of 80% in the drug calculation examination to pass the unit.

NSG2MHL MENTAL HEALTH NURSING PRACTICE (15 CPs Sem. TE-SEM-1 AW, BU. TE-SEM-2 AW, BE, BU, MI, SH.) AW: Ms Eileen Petrie, BE: Ms Susan Kidd, BU: Mr Alan Robins

In this unit students will be offered the opportunity to discuss the general principles and practices of psychiatric/mental health nursing and their impact on the individual and their family. Theoretical explanations of mental health and mental illness, the manifestation and classification of mental illness and major treatment modalities will be explored. Therapeutic and psychosocial interventions are discussed within the context of the broad socio-cultural environment.

Topics will include current debates on mental health and illness, psychiatric disorders, populations at risk, continuity of care and cross-cultural perspectives on mental health and illness. Students will also be offered the opportunity to examine the framework for mental health service delivery in Victoria.

Prerequisite: NSG2AUA, NSG2MED, HBS2PAT.

Co-requisite: NSG2AUA if student enrolled in HSBNC, HSBNCW, RBN2, BEBND2, HBNCM, HBNCP, HBNPRG, HBNPGW, BEBN2.

Class requirements: 30 hours of lecture/tutorial across the semester. Content to be delivered in flexible lecture and tutorial combination. This unit may be offered block mode across the semester in the format of seminar days. In addition, there is a 140-hour clinical practicum of 35 hours per week over four weeks. This unit may have an online component.

This unit is not available for 'Study Abroad' students.

Assessment: One 1750-word written assignment (40%). Hurdle requirement: clinical assessment of clinical reasoning, psychomotor and communication skills and professional development in line with the ANCI competencies using the Bondy scale. One 2-hour written examination (60%)

Prescribed Reading:

Meadows, G, Singh, B and Grigg M. *Mental Health in Australia*. 2nd edn. Oxford University Press. Australia (2006)

NSG2PMH PROMOTING MENTAL HEALTH A (15 CPs Sem. TE-SEM-1 AW, BE, BU.) AW: Ms Eileen Petrie, BE: Ms Sue McConnachie, BU: Mr Alan Robins

In this unit students will be assisted to explore the role of the nurse in assessing individuals, family and group needs. Students are introduced to theories and models for health promotion and health education and the principles of planning, implementing and evaluating programs in a variety of health related settings. Students will develop their own health education strategies appropriate to cultural and lifespan needs. The mental health promotion needs of individuals, families and communities will be explored in diverse cultures and in various settings.

Class requirements: Two 1-hour lectures per week over ten weeks, one 1-hour tutorial per week over ten weeks, self-directed learning equivalent to 1-hour of class contact per week over ten weeks plus 70 hours of clinical practicum of 35 hours per week over two weeks and 2 hours of clinical supervision per week over 10 weeks. The unit may be offered in block mode: one five hour seminar day four times across the semester, self-directed learning equivalent to 1-hour of class contact per week over ten weeks plus a 70-hour clinical practicum of 35 hours per week over two weeks and 2 hours of clinical supervision per week over 10 weeks. This unit may have an online component.

This unit is not available for 'Study Abroad' students.

Assessment: One 3000-word health education session (70%). Hurdle requirement: while the clinical assessment is ungraded, students must achieve at a designated level, one 30-minute group presentation (10-minutes per member) (20%). Interaction with and contribution to online discussion equivalent to 500 words (10%)

NSG2PRH PROMOTING HEALTH IN NURSING PRACTICE (15 CPs Sem. TE-SEM-1 AW, BE, BH, BU, HK, MI, SH, SL.) AW: Ms Eileen Petrie, BE: Ms Kerrie Gamble, BE: Ms Di Guzys, BU: Ms Sandra Lucas

In this unit students will be assisted to explore the role of the nurse in assessing individuals, family and group needs. Students are introduced to theories and models for health promotion and health education and the principles of planning, implementing and evaluating programs in a variety of health related settings. Students will develop their own health education strategies appropriate to cultural and lifespan needs.

Prerequisite: NSG1HAS, PHE1PHB.

Class requirements: 13 hours of lectures and 13 hours of tutorials per semester, plus a 35-hour clinical practicum. This unit may have an online component.

Assessment: One 40-minute group presentation of a health education session – 10 minutes per member (40%). Hurdle requirement: clinical assessment of clinical reasoning, psychomotor and communication skills and professional development in line with the ANMC competencies using the Bondy scale. One 3000-word health promotion assignment (60%). Students must pass the theoretical and clinical components to pass the unit.

NSG3AUB ACUTE NURSING PRACTICE B (15 CPs Sem. TE-SEM-1 AW, BE, BH, BU, MI, SL.) AW: Ms Ann Kuypers, BE: Ms Helen Aikman, BU: Ms Elizabeth Watt, MI: Ms Bev Blanch

In this unit students will be offered the opportunity to further develop their knowledge and skills by caring for people experiencing complex health problems require nursing intervention. Previously learnt technical, interpersonal and decision-making skills are further developed while aspects of health education and legal and ethical aspects are incorporated to provide individualised care. Using a problem-based learning approach students will be offered the opportunity to study the effect of complex acute and chronic illness by focusing on patients situation that involve conditions that seriously alter absorption and utilization of food and fluids; metabolism and endocrine function, elimination of bodily waste. The students will also be offered the opportunity to study the effect that these have on other body systems.

Prerequisite: NSG2AUA, NSG2MED, HBS2PAT.

Class requirements: Five 3-hour lectures, ten 1-hour problem-based learning groups and ten 1-hour laboratory sessions across the semester. A 105-hour clinical practicum of 35 hours per week over three weeks. Communication and discussion via WebCT.

This unit is not available for 'Study Abroad' students.

Assessment: One 2-hour written examination (50%) Students must pass the theoretical and clinical components to pass the subject, one 2500-word case study (50%). Hurdle requirement – clinical assessment of clinical reasoning, psychomotor and communication skills and professional development in line with the ANCI competencies using the Bondy scale.

NSG3AUC ACUTE NURSING PRACTICE C (15 CPs Sem. TE-SEM-2 AW, BE, BH, BU, HK, MI, SL.) AW: Ms Ann Kuypers, BE: Ms Helen Aikman

In this unit students will be provided with the opportunity to consolidate knowledge and skills in order to effectively prioritise care for a group of clients experiencing a range of complex co-morbidities. Using a problem-based learning approach students will be offered the opportunity to study the effect of complex acute and chronic illness by focusing on patient situations involving serious alterations in cardiac, respiratory and neurological function and the effect that these have on other body systems. A feature of this unit is the development of the student's ability to incorporate therapies involved in the helping role of the nurse whilst managing a case load of patients.

Prerequisite: NSG3AUB.

Class requirements: Five 2-hour lectures, ten 1-hour problem-based learning session and ten 1-hour laboratory sessions across the semester plus 140-hour clinical practicum of 35 hours per week over four weeks.

This unit is not available for 'Study Abroad' students.

Assessment: One 2000-word case study (50%). Hurdle requirement: clinical assessment of clinical reasoning, psychomotor and communication skills and professional development in line with the ANCI competencies using the Bondy scale, one 2000-word assignment (50%). Students must pass the theoretical and clinical component to pass the subject.

Prescribed Reading:

Lewis, S, Collier, I and Heitkemper, M. *Medical-surgical nursing: assessment and management of clinical problems*. 6th edn. Mosby, St. Louis, 2004.

Galbraith, A, Bullock, S and Manias, E. *Fundamentals of pharmacology*. 3rd edn. Prentice Hall, Sydney, 2001.

NSG3CAC CANCER NURSING THEORY (15 CPs Sem. TE-SEM-1 AW, BE, BU, MI, SH. TE-SEM-2 AW, BE, BU, MI, SH.) AW: Ms Yolanta McLaughlin, BE: Dr Sharon Kendall, BU: Ms Rosaleen Rudd, MI: Ms Bev Blanch

In this unit students will be offered the opportunity to develop a beginning knowledge about the nature of nursing a client with cancer. Students will be provided with the opportunity to acquire knowledge pertaining to the nature of cancer and aspects of cancer prevention, treatment and rehabilitation, with particular emphasis on cancer nursing. Information on aspects of epidemiology in relation to cancer, the physiology of cancer and oncology emergencies will be provided.

Prerequisite: NSG1HAS

Class requirements: One 2-hour lecture and one 1-hour tutorial per week for ten weeks; one 3-hour laboratory session during the semester; plus six hours of self-directed learning activities equivalent to one hour of classroom contact per week for six weeks. This unit may be offered in block mode: two consecutive 6-hour seminar days three times across the semester and six hours of self-directed learning activities equivalent to one hour of classroom contact per week for six weeks. This unit may have an online component.

Assessment: One 1000-word scenario-based assessment (25%), one 2500-word participation portfolio (50%) and one 1000-word critical reasoning exercise (25%)

Prescribed Reading:

Langhorne, M, Fulton, J and Otto, S. *Oncology Nursing* 5th edn. C.V. Mosby, St Louis, 2004.

NSG3CAD MENTAL HEALTH NURSING PRACTICE: CHILD AND ADOLESCENT (15 CPs Sem. TE-SEM-2 AW, BE, BU.) AW: Ms Eileen Petrie, BE: Ms Susan McConnachie, BU: Mr Alan Robins

In this unit students will develop skills relevant to the health of infants, children and adolescents within a variety of settings, including children and adolescents from diverse cultural and geographic backgrounds. Critical appraisal of issues related to child and family health from a socio-cultural, structural, developmental and emotional perspective will occur. A major focus is on children and families and the development of specific evidence based knowledge, skill and interventions necessary to assess health status, promote health and well being and to prevent or manage illness, injury and/or disability.

Prerequisite: NSG2PMH.

Class requirements: Two 1-hour lectures per week over ten weeks, one 2-hour tutorial per week over eight weeks, self-directed learning equivalent to 1-hour of class contact per week over four weeks plus 70-hour clinical practicum of 35 hours per week over two weeks and 2 hours of clinical supervision per week over 10 weeks. Or alternatively, two consecutive five hour seminar days four times across the semester plus a 70-hour clinical practicum of 35 hours per week over two weeks and 2 hours of clinical supervision per week over 10 weeks. This unit may have an online component.

This unit is not available for 'Study Abroad' students.

Assessment: One 2000-word family case study report (50%), one 2000-word scenario-based clinical decision-making exercise (50%). Hurdle requirement: while the clinical assessment is ungraded students must achieve at a designated level.

Prescribed Reading:

Elders, R, Evans, K and Nizzette, D. *Psychiatric and Mental Health Nursing* Marrickville Australia. Elsevier (2005)

NSG3CAR CARDIAC REHABILITATION NURSING IN PRACTICE (15 CPs Sem. TE-SEM-1 AW, BE, BU. TE-SEM-2 AW, BE, BU.) AW: Ms Jan Berry, BE: Mr Leigh Kinsman, BU: Ms Nikki Phillips

This subject may not be offered every year.

In this practice-based subject students will be offered the opportunity to explore the role of cardiac rehabilitation in the recovery from cardiac problems and the prevention of disease progress. The aims of cardiac rehabilitation will be explored according to the best available evidence. Barriers and enablers to the cardiac rehabilitation process will be investigated. Patient education models, risk factor management, social support and the role of diet and exercise will be explored.

Prerequisite: NSG1HAS.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week for ten weeks; one 3-hour laboratory session during the semester; six hours of self-directed learning activities equivalent to one hour of classroom contact per week for six weeks; plus a one-week 35-hour clinical practicum. This unit may be offered in block mode: two consecutive 6-hour seminar days three times across the semester; six hours of self-directed learning activities equivalent to one hour of classroom contact per week for six weeks; plus a one-week 35-hour clinical practicum. This unit may have an online component.

This unit is not available for 'Study Abroad' students.

Assessment: One 1000-word scenario-based assessment (25%).

Hurdle requirement: while the clinical assessment is ungraded, students must achieve at a designated level, one 1750-word participation portfolio (50%). Students must successfully pass both the theoretical and practical component to pass the subject, one 1000-word clinical reasoning exercise (25%)

Recommended Reading:

NSG3CAT CHILD AND ADOLESCENT NURSING THEORY (15 CPs Sem. TE-SEM-2 AW, BE, BU, MI.) Ms Sharon Gan

This subject may not be offered every year.

In this unit students will be offered the opportunity to extend their knowledge of paediatric nursing building on the information presented in Child and Family Nursing Practice. The focus will be on the acquisition of knowledge and skills required to assist the child and the family in times of health deviation. Information will be provided on nursing interventions that assist in promoting, maintaining and restoring health of infants, children and adolescents.

Prerequisite: NSG2CAF

NSG1HAS.

Class requirements: 20 hours of lectures, 10 hours of online tutorials, 3 hours of laboratory sessions and 6 hours of self-directed learning across the semester. This unit will have an online component.

This unit is not available for 'Study Abroad' students.

Assessment: One 2500-word participation portfolio (50%), one 2000-word critical reasoning exercise (50%)

Not available in 2008

NSG3COG CONTROVERSIES IN GERONTIC NURSING (15 CPs Sem. TE-SEM-2 AW, BE, BU, MI.) AW: Ms Yolanta McLaughlin, BE: Dr Amanda Kenny, BU: Dr Susan Koch

This unit may not be offered every year.

In this unit students will be challenged to consider issues that raise ethical and moral challenges for nurses and society. Lifestyle choices and social stereotypes will be explored. Case study examples will be used to highlight the complexity of delivering care that involves personal lifestyle choices and contexts.

Prerequisite: NSG1HAS.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week for ten weeks during the semester plus nine hours of self-directed learning activities equivalent to one hour of classroom contact per week for nine weeks. This unit may be offered in block mode: two consecutive 6-hour seminar days three times across the semester and six hours of self-directed learning activities equivalent to one hour of classroom contact per week for six weeks. This unit may have an online component.

This unit is not available for 'Study Abroad' students.

Assessment: One 20-minute case study presentation (25%), one 2500-word evidenced based practice assignment (50%), one 1000-word critical reasoning exercise (25%)

NSG3CPR COMMUNITY NURSING PRACTICE (15 CPs Sem. TE-SEM-2 AW, BE, BH, BU, HK, MI, SI.) AW: Ms Eileen Petrie, BE: Ms Kerrie Gamble, BE: Ms Di Guzys, BU: Ms Sandra Lucas

In this unit students will be offered the opportunity to analyse the role of the nurse in facilitating health with individuals and groups in the community. An issues-based learning approach will be utilised, allowing students to apply theories and models for community development, social marketing and primary health care to practice situations. In analysing community practice roles, students will be asked to critique their own values relating to lifespan, culture and social issues that impact health and be accountable (both ethically and legally) for their contribution to health service provision. Students will be able to build on knowledge gained in Information Literacy for Nurses to develop a multimedia package.

Prerequisite: NSG1LIL, NSG2AUA, NSG2PRH and NSG3AUB or students must be enrolled in HZNM. If students enrolled in HBNPRG, HBNPGW, BEBN2, HSBNC, HSBCNW, BEBND2, HBNCM, HBNCN then must have passed NSG2AUA, NSG3AUB.

Class requirements: 16 hours of lectures, 14 hours of problem-based learning and 7 hours of self-directed learning plus a 105-hour clinical practicum of approximately 35 hours per week. This unit may have an online component.

This unit is not available for 'Study Abroad' students.

Assessment: One 2000-word equivalent multimedia package based on a community assessment (50%). Hurdle requirement: clinical assessment of clinical reasoning, psychomotor and communication skills and professional development in line with the ANMC competencies using the Bondy scale. One 2000-word community development practice analysis (50%). Students must pass the theoretical and clinical components to pass the unit.

NSG3CPS COMMUNITY PSYCHIATRIC NURSING THEORY (15 CPs Sem. TE-SEM-1 AW, BE, BU. TE-SEM-2 AW, BE, BU.) AW: Ms Maureen Cuskelly, BE: Ms Susan Kidd, BU: Ms TBA
Not available in 2008

NSG3CRE CARDIAC REHABILITATION NURSING THEORY (15 CPs Sem. TE-SEM-1 AW, BE, BU. TE-SEM-2 AW, BE, BU.) AW: Ms Janet Berry, BE: Mr Leigh Kinsman, BU: Ms Nicole Phillips

This subject may not be offered every year.

In this unit students will be offered the opportunity to explore the role of cardiac rehabilitation in the recovery from cardiac problems and the prevention of disease progress. The aims of cardiac rehabilitation will be explored according to the best available evidence. Barriers and enablers to the cardiac rehabilitation process will be investigated. Patient education models, risk factor management, social support and the role of diet and exercise will be explored.

Prerequisite: NSG1HAS

Class requirements: One 2-hour lecture and one 1-hour tutorial per week for ten weeks; one 3-hour laboratory session during the semester; plus six hours of self-directed learning activities equivalent to one hour of classroom contact per week for six weeks. This unit may be offered in block mode: two consecutive 6-hour seminar days three times across the semester and six hours of self-directed learning activities equivalent to one hour of classroom contact per week for six weeks. This unit may have an online component.

This unit is not available for 'Study Abroad' students.

Assessment: One 1000-word scenario-based assessment (25%), one 2500-word participation portfolio (50%) and one 1000-word critical reasoning exercise (25%)

Recommended Reading:

LeMone, P, Burke, K.M. *Medical-surgical nursing: critical thinking in client care.* 2nd edn. Prentice-Hall Inc, Sydney, 2000.

NSG3DDA MENTAL HEALTH NURSING PRACTICE: DRUG AND ALCOHOL (15 CPs Sem. TE-SEM-2 AW, BE, BU.) AW: Ms Eileen Petrie, BE: Ms Sue McConnachie, BU: Mr Alan Robins

In this unit students are provided with the opportunity to integrate theory and practice in implementing strategies to deal with drug and alcohol misuse. Exploration will take place of the theoretical explanations for drug and alcohol misuse in society and the implications of substance misuse on individuals, families and communities. Competencies will be developed in primary prevention, early and acute intervention, rehabilitation and harm minimisation. Examination will take place of the particular needs and challenges of working with individuals, families and communities from diverse cultural groups and from a range of geographical and practice settings.

Prerequisite: NSG2PMH, NSG3CAD, NSG2MHL, NSG3MOP, NSG3IMS.

Class requirements: Two 1-hour lectures per week over ten weeks, one 1-hour problem-based learning group per week over ten weeks, one 1-hour laboratory session per week over ten weeks plus a 70-hour clinical practicum of 35 hours per week over two weeks and two hours of clinical supervision per week over 10 weeks. Or alternatively one 6-hour seminar day five times across the semester plus a 70-hour clinical practicum of 35 hours per week over two weeks and two hours of clinical supervision per week over 10 weeks. This unit may have an online component.

This unit is not available for 'Study Abroad' students.

Assessment: One 3000-word clinical case study (50%). Hurdle requirement: while the clinical assessment is ungraded, students must achieve at a designated level, one online assessment equivalent to 1500 words (50%)

Prescribed Reading:

Elders, R, Evans, K and Nizzett, D. *Psychiatric and Mental Health Nursing* Marrickville Australia. Elsevier (2005)

NSG3GER GERONTIC NURSING PRACTICE (15 CPs Sem. TE-SEM-1 AW, BE, BH, BU, HK, MI, SI.) AW: Ms Yolanta McLaughlin, BE: Ms Julie Ellis, BU: Dr Susan Koch

In this unit students will be offered the opportunity to consider the health needs of older people in diverse settings. The examination of the social, psychological and biological aspects of ageing; demographics of ageing, health and ageing, ageing in place, acute care and the principles of long term care and of rehabilitation will be included. The importance of the nurses' roles in promoting, maintaining and restoring the health of older adults will be stressed. The students will be encouraged to focus on the independent role of the nurse and an interdisciplinary approach to the planning and implementation of client care and development skills in management, team work, delegation and prioritising care. As part of the clinical experience, students may be required to undertake evening and weekend work in this unit.

Prerequisite: NSG2AUA, NSG2MED, HBS2PAT.

Class requirements: 40 hours – 20 hours of lecturers, 10 hours of tutorials, 10 hours of self-directed learning. 140-hour clinical practicum. This may include weekends and evenings work. This unit may have an online component.

This unit is not available for 'Study Abroad' students.

Assessment: One 2500-word evidence-based case management review (60%). Hurdle requirement: clinical assessment of clinical reasoning, psychomotor and communication skills and professional development in line with the ANCI competencies using the Bondy scale, one 1500-word written assignment (40%). Students must pass the theoretical and clinical components to pass the subject.

NSG3IMS MENTAL HEALTH NURSING: INTERVENTION MODALITIES

(15 CPs Sem. TE-SEM-1 AW, BE, BU.) AW: Ms Eileen Petrie, BE: Ms Sue McConnachie, BU: Mr Alan Robins

In this unit students are provided with the skills and competencies needed to select, apply and evaluate selected intervention modalities – psychopharmacology, case management, group therapy and rehabilitation – for use with individuals and families experiencing mental illness and disorder. Examination will take place of the theoretical underpinnings and clinical application of these modalities. Interventions will be based on a comprehensive assessment of needs and will be informed by an understanding of evidence-based practice. Analysis will be undertaken of the particular intervention modality needs of consumers from diverse cultures. At all times, critical reflection on practice will be emphasised, with a focus on the need to develop strategies to maintain the well-being of self and fellow workers.

Prerequisite: NSG2PMH, NSG2MHL, NSG3CAD.

Class requirements: One 1-hour lectures per week over ten weeks, one 1-hour problem-based learning group per week over ten weeks, one 1-hour laboratory session per week over ten weeks, plus a 70-hour clinical practicum of 35 hours per week over two weeks and two hours of clinical supervision per week over 10 weeks. Or alternatively one 6-hour seminar day five times across the semester plus a 70-hour clinical practicum of 35 hours per week over two weeks and two hours of clinical supervision per week over 10 weeks. This unit may have an online component.

This unit is not available for 'Study Abroad' students.

Assessment: Small group presentation (20-mins per member) (40%), one 2500-word assignment (60%)

Prescribed Reading:

Elders, R, Evans, K and Nizzette, D. *Psychiatric and mental health nursing* Marrickville Australia. Elsevier (2005)

NSG3INT MANAGING COMPLEX INTERACTIONS IN NURSING (15 CPs

Sem. TE-SEM-1 HK. TE-SEM-2 AW, BE, BU, HK, MI. TE-SEM-3 HK.) Ms Ann Kuypers, Ms Sharon Kendall, Ms Elizabeth Pascoe, Dr Beverley Wood

In this unit, students are placed in situations that are unique to professional nursing practice, that require a complex range of knowledge, skill and awareness. Engagement in complicated, often stressful and distressing encounters requires the nurse to be equipped with a sophisticated repertoire of skills, including 'awareness' of self and others. Effective intervention on a variety of levels is seen as an essential role of the professional nurse. The students will be given a theory base for understanding human behaviour and basic mental health concepts are introduced. Emphasis will be placed on theory-based strategies to improve interaction and coping with individuals, families and other health care professionals. The unit focuses on the complex events and interactions that occur in health care settings.

Prerequisite: NSG3AUB or students must be enrolled in HZNM

Co-requisite: NSG3AUC or students must be enrolled in HZNM.

Class requirements: Two hours of lectures six times over the semester and two hours of problem-based learning activities seven times over the semester as well as thirteen hours of directed activities over the semester. This may vary in offshore programs.

This unit is not available for 'Study Abroad' students.

Assessment: One 2000-word critical reflective portfolio (50%), one 2000-word online assessment (50%)

Prescribed Reading:

McCabe, C and Timmins, F. *Communication Skills for Nursing Practice* Palgrave MacMillan (2006)

Recommended Reading:

NSG3NSN NEUROSCIENCE NURSING IN PRACTICE (15 CPs Sem. TE-SEM-1 AW, BE, BU. TE-SEM-2 AW, BE, BU.) AW: Ms Jan Berry, BE: Mr Jim Kevin, BU: Ms Nicole Phillips

This subject may not be offered every year.

In this practice-based subject the focus will be on the nursing management of people with both acute and chronic conditions related to disturbances in neurological function. Students will be provided with the opportunity to develop the knowledge and skills necessary to care effectively and efficiently for people experiencing neurological disorders.

Prerequisite: NSG1HAS.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week for ten weeks; one 3-hour laboratory session during the semester; six hours of self-directed learning activities equivalent to one hour of classroom contact per week for six weeks; plus a one-week 35-hour clinical practicum. This unit may be offered in block mode: two consecutive 6-hour seminar days three times across the semester; six hours of self-directed learning activities equivalent to one hour of classroom contact per week for six weeks; plus a one-week 35-hour clinical practicum. This unit may have an online component.

This unit is not available for 'Study Abroad' students.

Assessment: One 1000-word scenario-based assessment (25%).

Hurdle requirement: while the clinical assessment is ungraded, students must achieve at a designated level.

One 1750-word participation portfolio (50%). Students must successfully pass both the theoretical and practical component to pass the subject, one 1000-word clinical reasoning exercise (25%)

Prescribed Reading:

NSG3NTF NURSING THE FUTURE (15 CPs Sem. TE-SEM-1 AW, BE, BH, BU, HK, MI, SI. TE-SEM-2 BH, HK, SI.) AW: Ms Ann Kuypers, BE: Ms Fran Sheean, BU: Ms Helen Forbes, BU: Ms Elizabeth Pascoe

In this unit students will be assisted to focus on directions for professional development. The influence of research and evolving nursing knowledge on professional roles will be examined and students will be introduced to frameworks for analysing selected contemporary issues and trends in health care that will shape future nursing practice. Contemporary strategies for managing the delivery of nursing care will be explored and the associated role requirements in nursing analysed. In addition, each student will have the opportunity to reflect on professional development, consider future career directions and prepare a curriculum vitae. Pre-registration students will focus on transition to the registered nurse role and preparation of applications for graduate positions, while post-registration students will concentrate on career planning and exploration of expanded nursing roles.

Prerequisite: NSG2AUA, NSG2LEA, NSG2EBP.

Class requirements: One 2-hour lecture eight times over the semester and one 2-hour tutorial five times over the semester. This unit may have an online component.

This unit is not available for 'Study Abroad' students.

Assessment: One 2000-word portfolio (50%), one 2000-word professional issues case study (50%)

NSG3PEO PERIOPERATIVE NURSING THEORY (15 CPs Sem. TE-SEM-1 BE, BU. TE-SEM-2 AW, BE, BU, MI.) AW: Ms Ann Kuypers, BU: Ms Deb Fleckner

This subject may not be offered every year.

In this unit students are introduced to fundamental theoretical aspects of perioperative nursing, including nursing in the context of the operating room and associated environments. Content will be provided that will extend students knowledge of aspects of infection and its control in the operating suite. The students are given insight into the variety of roles of the nurse in the operating suite. The principles of surgical intervention and wound management are discussed. Information on the operating room environment, including design and patient and staff safety will be provided. An emphasis is placed on the care of the patient in the operating suite.

Prerequisite: NSG1HAS.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week for ten weeks; one 3-hour laboratory session during the semester; plus six hours of self-directed learning activities equivalent to one hour of classroom contact per week for six weeks. This unit may be offered block mode: two consecutive 6-hour seminar days three times across the semester and six hours of self-directed learning activities equivalent to one hour of classroom contact per week for six weeks. This unit may have an online component.

This unit is not available for 'Study Abroad' students.

Assessment: One 2000-word assignment (50%), one 2000-word portfolio (50%)

NSG3PSE PSYCHIATRIC NURSING THEORY (15 CPs Sem. TE-SEM-1 BE. TE-SEM-2 AW, BE, BU, MI.) AW: Ms Eileen Petrie, BE: Ms Sue McConnachie, BU: Mr Alan Robins

This unit may not be offered every year.

In this unit students will be provided with the opportunity to build on their knowledge of mental health nursing. Students will be asked to examine the phenomena of psychiatry and psychiatric nursing from various points of view that have, as their common focus, the impact of psychiatric disorders and psychiatric health interventions on the person and groups of people.

Prerequisite: NSG1HAS, NSG2MHL

Class requirements: One 2-hour lecture and one 1-hour tutorial per week for ten weeks; one 3-hour laboratory session during the semester; plus six hours of self-directed learning activities equivalent to one hour of classroom contact per week for six weeks. This unit may be offered block mode: two consecutive 6-hour seminar days three times across the semester and six hours of self-directed learning activities equivalent to one hour of classroom contact per week for six weeks. This unit may have an online component.

This unit is not available for 'Study Abroad' students.

Assessment: One 1000-word scenario-based assessment (25%), one 2500-word participation portfolio (50%) and one 1000-word critical reasoning exercise (25%)

Prescribed Reading:

NSG3WMT WOUND MANAGEMENT NURSING THEORY (15 CPs Sem. TE-SEM-1 AW, BE, BU. TE-SEM-2 AW, BE, BU.) AW: Ms Jan Berry, BE: Mr Les Fitzgerald, BU: Mr Bill McGuiness

This subject may not be offered every year.

An important aspect of nursing work is to care for a person's integument by preventing or minimizing tissue damage and providing effective wound management. Appropriate management of a person with a wound requires specific knowledge of wound-healing processes, an awareness of factors that influence healing outcomes and the skill to select and implement relevant interventions. In this unit the student will be provided with information to facilitate knowledge and skill development in these key areas. Students will be encouraged to explore contemporary evidence and knowledge, actively participate in the discussion of the clinical management of clients requiring wound management and contribute to case discussions.

Prerequisite: NSG1HAS.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week for ten weeks; one 3-hour laboratory session during the semester; plus six hours of self-directed learning activities equivalent to one hour of classroom contact per week for six weeks. This unit may be offered in block mode: two consecutive 6-hour seminar days three times across the semester and six hours of self-directed learning activities equivalent to one hour of classroom contact per week for six weeks. This unit may have an online component.

This unit is not available for 'Study Abroad' students.

Assessment: One 2500-word case study (50%), one 1000-word critical reasoning exercise (25%), one online activity, equivalent to 500 words (12%), one online activity, equivalent to 500 words (13%)

Prescribed Reading:

NSG4CPA CLINICAL NURSING PROJECT A (15 CPs Sem. TE-SEM-1 AW, BE, BU. TE-SEM-2 AW, BE, BU.) AW: Ms Eileen Clark, BE: Dr Amanda Kenny, BU: Ms Eileen Clark

In this unit students will be assisted to plan a clinical nursing project under the guidance of a supervisor who is associated with one of the School's or Department's research groups. Generally, the clinical projects will be directed at quality improvement or clinical audit and provide the students with the skills to engage in these activities as part of their professional practice. The research-based skills needed to undertake quality improvement or clinical audit will be covered in this planning unit.

Prerequisite: NSG2EBP.

Class requirements: Individual supervision and attendance at seminars equivalent to 1–3 hours per week. Must have contact no less than the equivalent of 13 hours across the semester.

This unit is not available for 'Study Abroad' students.

Assessment: One 2000-word rationale (45%), one 2500-word detailed plan for clinical project (55%)

NSG4CPP CLINICAL PRACTICE PROJECT (30 CPs Sem. TE-SEM-1 BE. TE-SEM-2 BE.) Ms Sharon Kendall

This unit offers students the opportunity to develop an area of clinical practice in which they have a specific interest. Working with a faculty and a clinical mentor, students will be encouraged to identify factors in the clinical setting which indicate the need for investigation and to conduct a clinical project in order to determine or validate evidence for practice.

Class requirements: Negotiated learning contract and faculty meetings (including two hours in Week 1). Clinical placement 160 hours.

This unit is not available for 'Study Abroad' students.

Assessment: 6000-word (or equiv) clinical project report (80%), 20 minute oral presentation (20%)

NSG4HIA HIGH ACUITY NURSING PRACTICE (15 CPs Sem. TE-SEM-1 AW, BE, BH, BU, HK, SI.) AW: Ms Jan Berry, BE: Ms Kathleen Tori, BU: Ms Helen Forbes

In this unit students will be provided with the opportunity to participate in the nursing care of clients with multiple and/or complex health care needs or multi-system failure. Students will be encouraged to focus on the nurse's role in caring for the critically ill patient, particularly the interface of technology and caring roles. The effect of critical illness on the patient, family and the nurse will be examined. Emphasis will also be placed on the nurse's role as coordinator of care.

Prerequisite: NSG21AUC.

Class requirements: Two consecutive five hour seminar days twice across the semester and six hours of self-directed learning equivalent to 1-hour of class contact per week over six weeks plus a 140-hour clinical practicum of 35 hours per week for 4 weeks. This unit may have an online component.

This unit is not available for 'Study Abroad' students.

Assessment: One 2000-word assignment (40%) Students must pass both the theoretical and clinical components to pass the unit., one 3-hour examination (60%). Hurdle requirement: whiles the clinical assessment is ungraded students must achieve at a designated level.

Prescribed Reading:

Kinney, MR. *AACN's clinical reference for critical care nursing*. McGraw Hill, New York, 1998.

NSG4NP NURSING PROJECT (15. CPs Sem. TE-SEM-1 BE. TE-SEM-2 BE.) Ms Sharon Kendall

Enrolment must be approved by course coordinator.

This unit applies the knowledge and skills acquired in nursing research to the formulation and implementation of a real life research project in a selected area of student interest.

Prerequisite: NSG4NR.

Class requirements: 39 hours delivered by individual learning contract.

This unit is not available for 'Study Abroad' students.

Assessment: One 3000-word written submission (80%), class presentation (equivalent to 1500 words (20%))

NSG4NTH THESIS (30 CPs Sem. TE-SEM-1 AW, BE, BH, BU, HK, SI. TE-SEM-2 AW, BE, BH, BU, HK, SI.) *AW: Ms Eileen Clark, BE: Ms Julie Ellis, BH: Dr Beverley Wood, BU: Dr Bill Koch, HK: Dr Beverley Wood*

In this unit students will complete a total of 60 credit points in order to successfully complete the thesis component of Honours. Students are required to undertake a nursing research project associated with one of the research interests of the School or Discipline under the guidance of a supervisor. Students are required to attend regular research seminars designed to provide peer and academic support and guidance. Regular contact with the project supervisor is required.

Prerequisite: NSG2EBP, NSG3RHP, NSG4RHP.

Class requirements: Individual supervision and attendance at seminars equivalent to 1–3 hours per week. Must have contact no less than the equivalent of 13 hours across the semester.

This unit is not available for 'Study Abroad' students.

Assessment: One 15,000-word thesis (100%). Students are expected to enrol in and successfully complete 60 credit points of this unit in order to complete the thesis

NSG4NTP THESIS PREPARATION (15 CPs Sem. TE-SEM-1 AW, BE, BU. TE-SEM-2 AW, BE, BU.) *AW: Ms Eileen Clark, BE: Ms Julie Ellis, BU: Dr Bill Koch*

In this unit students are provided with a forum to explore research methodologies while assisting them to select a topic and a framework for their research. Students are also provided with an opportunity to defend and refine their plan for the research project. Students are required to attend regular research seminars designed to provide peer and academic support and guidance. Regular contact with the project supervisor is required.

Prerequisite: NSG2EBP, NSG3RHP, NSG4RHP.

Class requirements: Individual supervision and attendance at seminars equivalent to 1–3 hours per week. Must have contact no less than the equivalent of 13 hours across the semester.

This unit is not available for 'Study Abroad' students.

Assessment: One 20-minute seminar presentation on research topic (20%), one 3000-word research proposal (80%)

Prescribed Reading:

Minichiello, V, Sullivan, G, Greenwood, K and Axford, R. *Research Methods for Nursing and Health Sciences*. Sydney: Pearson (2003)

NSG4PCO NURSING PRACTICE CONSOLIDATION (15 CPs Sem. TE-SEM-2 AW, BE, BH, BU, HK, SI.) *BE: Ms Kathleen Tori, BH: Dr Beverley Wood, BU: Ms Elizabeth Watt, HK: Dr Beverley Wood*

In this unit students will be provided with further opportunity to synthesise and consolidate knowledge and skills acquired throughout the course in the delivery of patient-centred care for a group of clients; a major focus is on the development of leadership skills. The students will be provided with the opportunity to further develop discharge planning skills as well as developing their role as a professional nurse by supporting and directing care provided by other health care team members and responding to the needs of patients, their families and their colleagues in relation to patient, family and nurse education.

Prerequisite: NSG4HIA.

Class requirements: One 1-hour seminar per week over six weeks, one 1-hour problem-based learning session per week over the semester, seven hours of self-directed learning equivalent to one hour of class contact per week across seven weeks plus a 200-hour clinical practicum of 40 hours per week for five weeks. This unit may have an online component.

This unit is not available for 'Study Abroad' students.

Assessment: One 4000-word clinically based learning contract. (100%). Students must pass both the theoretical and clinical components to pass the subject.

Hurdle requirement: while the clinical assessment is ungraded students must achieve at a designated level.

NSG4RHP RESEARCH HONOURS PREPARATION (15 CPs Sem. TE-SEM-1 AW, BE, BH, BU, HK, SI.) *AW: Ms Eileen Clark, BE: Ms Julie Ellis, BU: Dr Bill Koch*

In this unit students will be given content and guidance to prepare them to undertake an Honours project. Students will be offered the opportunity to be introduced to the predominant research paradigms and students will attain the knowledge and skills to plan and implement a research study using one research approach. An overview of different research processes; discussing the ethical issues in conducting research using human subjects will be presented.

Prerequisite: NSG2EBP.

Class requirements: Three 4-hour seminars across the semester. This unit has an online component equivalent to 27 hours of learning.

This unit is not available for 'Study Abroad' students.

Assessment: One 2000-word assessment (50%), one 2000-word assessment (50%)

Prescribed Reading:

Minichiello, V, Sullivan, G, Greenwood, K and Axford, R. *Research Methods for Nursing and Health Sciences*. Sydney: Pearson (2003)

NSG4RIN READINGS IN NURSING (15. CPs Sem. TE-SEM-2 AW, BE, BU.)

AW: Ms Eileen Clark, BE: Dr Julie Ellis, BU: Dr Bill Koch

Offered subject to sufficient enrolments. Enrolment must be approved by course coordinator.

In this unit students are provided with the opportunity to select an area within nursing they wish to investigate fully. It is envisaged that the chosen topic will be investigated thoroughly through examination of the current literature.

Class requirements: Negotiated with individual supervisors; equivalent to 39 hours per semester. This unit will have an online component.

This unit is not available for 'Study Abroad' students.

Assessment: One 3000-word essay (60%), one 20-minute class presentation (40%)

ORH1CPA CLINICAL PRACTICE A (15 CPs Sem. TE-SEM-1 BE.) *Ms Colleen McCarthy*

In this unit students are introduced to the skills and knowledge necessary for dental therapists and hygienists. By the end of the unit, students will be expected to have achieved competency in areas including dental materials, infection control, pre-clinical dental procedures and patient management techniques.

Co-requisite: HBS1LS1, ORH1OHA.

Class requirements: One 1-hour lecture, one 1-hour tutorial and two 3-hour practical classes per week. This unit contains material that requires learning of hand skills but does not require students to undertake activities outside contact hours.

Assessment: Practical work as outlined in the unit guide (45%), one 2-hour theory examination (40%), one 1000-word assignment (15%).
Hurdle requirement: successful completion of the theory and preclinical practical tests are mandatory for completing this unit.

Prescribed Reading:

Summitt, JB, Robbins, JW and Schwartz, RS. *Fundamentals of operative dentistry: a contemporary approach* Quintessence Publishing, 2000

Cameron, AC and Widmer RP. (Eds). *Handbook of Paediatric Dentistry* 2nd edn. Mosby, 2003

ORH1CPB CLINICAL PRACTICE B (15 CPs Sem. TE-SEM-2 BE.) *Ms Colleen McCarthy*

In this unit students will further develop the skills and knowledge necessary for dental therapists and hygienists. By the end of this unit, students will be expected to have achieved competency in areas including oral radiography, dental materials, pre-clinical dental procedures and pre-clinical restorative dentistry. Students will also undertake a limited amount of clinical practice at Bendigo Health Care Group.

Prerequisite: ORH1CPA, HBS1LS1.

Co-requisite: HBS1LS2, ORH1OHB.

Class requirements: One 2-hour lecture and 3 three-hour practical classes per week. This unit contains material that requires the learning of hand skills but does not require students to undertake activities outside contact hours.

Assessment: One 2-hour theory examination (35%), one 1000-word written assignment (15%). Hurdle requirement: successful completion of the theory and preclinical practical tests are mandatory for completing this unit, practical work as outlined in the unit guide (50%)

Prescribed Reading:

Darby, ML and Walsh MM. *Dental hygiene theory and practice* 2nd edn. W.B. Saunders Co, 2003
Pattison, AM and Pattison, GL. *Periodontal instrumentation* 2nd edn. Norwalk, Con, Appleton and Lange, 1992

ORH1OHA ORAL HEALTH SCIENCE A (15. CPs Sem. TE-SEM-1 BE.)

Professor Marc Tennant

In this unit, students will be introduced to aspects of oral health science, in particular the anatomy of the human skull and oral cavity. Students will gain knowledge of the temporomandibular joint, facial muscles and cranial nerves. This unit will also give students the understanding of the anatomy of deciduous and permanent teeth as well as terminology used to describe teeth. Students will also be introduced to oral microbiology and the development of tooth caries.

Class requirements: Three 1-hour lectures, one 1-hour tutorial and one 2-hour practical classes per week.

Assessment: Two 10-minute class tests (20%), one 20-minute take-home assignment (10%), one 3-hour written examination (70%). Hurdle requirement: participation in all components of the assessment and an overall aggregate of 50% in all assessments is required to pass this unit.

Recommended Reading:

Wheeler, RC. *Dental Anatomy, Physiology and Occlusion* 8th edn. Saunders 2003
Berkovitz, b k B et al. *Oral Anatomy, Histology and Embryology* 3rd edn. Mosby 2002

ORH1OHB ORAL HEALTH SCIENCE B (15. CPs Sem. TE-SEM-2 BE.)

Professor Marc Tennant

In this unit students will extend their knowledge of oral health science gained in unit ORH1OHA. Students will cover the anatomy of the vertebral column, neck musculature, oral cavity, pharynx and nasal cavity and sinuses. The innervation of the head, neck and oral cavity will also be covered. This unit will also introduce students to periodontal disease.

Prerequisite: ORH1OHA, HBS1LS1.

Class requirements: Three 1-hour lectures, one 1-hour tutorial and one 2-hour practical class per week.

Assessment: One 3-hour written examination (70%). Hurdle requirement: participation in all components of the assessment and an overall aggregate of 50% in all assessments is required to pass this unit, two 10-minute class tests (20%), one 20-minute take-home assignment (10%)

ORH2CPC CLINICAL PRACTICE C (30 CPs Sem. TE-W07-22 BE.) Ms

Colleen McCarthy

In this unit students will further develop the skills and knowledge necessary for dental therapists and hygienists. By the end of the unit, students will be expected to have achieved competency in the provision of local analgesia. Students will have also developed an understanding of the issues associated with gerodontology and refined their skills in treatment planning, clinical dental hygiene practice as well as the skills associated with dental therapy practice. Some parts of this unit will be undertaken outside of normal university semester.

Prerequisite: ORH1CPB.

Co-requisite: HBS2PAT, HLT1CS.

Class requirements: 70 hours of professional intensive in February. Eight hours a week through semester (one 2-hour lecture and two 3-hour of pre-clinic and clinic per week plus two additional 2-hour lectures.

This unit is not available for 'Study Abroad' students.

Assessment: One 2-hour theory examination (40%), simulated clinical activities (30%), continuous clinical assessment (30%)

Recommended Reading:

Microbiology and infection control for health professionals NSW (ISBN 0733973442)

ORH2CPD CLINICAL PRACTICE D (15 CPs Sem. TE-W29-43 BE.) Ms

Colleen McCarthy

In this unit students will further develop the skills and knowledge necessary for dental therapists and hygienists. By the end of the unit, students will be expected to have developed an understanding of the relationship of specialist dental practice (including orthodontics and pedodontics) to their roles. In addition students will develop proficiencies in oral health education as part of this unit.

Prerequisite: ORH2CPC.

Co-requisite: ORH2PPM, HLT4HED.

Class requirements: Week 1 (professional intensive) consists of eight lectures, 10 hours preclinical and 20 hours clinical activity. Rest of semester: two 1-hour lectures a week, one 3-hour pre-clinical and two 3-hour clinical (nine hours a week).

This unit is not available for 'Study Abroad' students.

Assessment: One 1.5-hour theory examination (30%), preclinical assessment as outlined in the unit guide (20%), clinical activity examination (OSCE Assessment type) (10%), clinical assessment as outlined in the unit guide (40%)

ORH2PPM ORAL PATHOLOGY, PHARMACOLOGY AND SPECIAL NEEDS

(15 CPs Sem. TE-SEM-2 BE.) *Coordinator to be advised*

In this unit students will be introduced to the principles of dental management of patient with systemic disorders as well as oral pathology and pharmacology. Students will gain an understanding of treating patients with disorders including cardiovascular disease, respiratory, haematological, neurological, endocrine and neoplastic conditions, as well as, people with intellectual, physical and sensory disability. Students will also be introduced to oral soft and hard tissue pathology and pharmacology.

Prerequisite: HBS2PAT.

Class requirements: One 2-hour lecture, one 2-hour practical and one 3-hour clinical activity per week.

This unit is not available for 'Study Abroad' students.

Assessment: Two 1500-word assignments (40%), one 2-hour written examination (60%)

PHE2RHC RESEARCH IN HEALTH CARE (15 CPs Sem. TE-SEM-1 BU, DE, MI,

OS. TE-SEM-2 AW, BE, BU, DE, MI.) AW: Ms Eileen Clark, BU: Mr Stephen Polgar

Not available in 2008

PHE4RMH RESEARCH METHODS IN HEALTH 4 (15. CPs Sem. TE-SEM-1

BE. TE-W07-22 BU.) *Professor Pranee Liamputtong*

In this unit students develop advanced skills in a range of quantitative and qualitative research approaches directly applicable to research

and evaluation in the health sciences, as a preparation for an Honours thesis. Students are introduced to advanced health research and evaluation skills, citation standards, literature review techniques, preparation of ethics applications, preparation and defence of the thesis protocol and skills in thesis writing. Data analysis techniques relevant to the student's thesis are discussed.

Class requirements: 39 hours of lectures and workshops.

Assessment: One 4500-word methodology (100%)

Recommended Reading:

Thomas, S. *How to write health science papers, dissertations and theses*. Edinburgh: Churchill Livingstone, 2000.

Polgar, S and Thomas, S. *Introduction to research in the health sciences*. 4th edition. Edinburgh: Churchill Livingstone, 2000.

PTY3CCA CORE CLINICAL A IN PHYSIOTHERAPY PRACTICE (20 CPs Sem. TE-W01-05 BE, BU. TE-W30-34 BE, BU. TE-W35-39 BE, BU. TE-W40-44 BE, BU.)

BE: Dr Helen McBurney, BU: Dr Belinda Bilney

In this unit students will develop clinical competencies in the assessment of a patient's problems and needs, the analysis of assessment findings, the formulation of short- and long term goals and the development, implementation and evaluation of an intervention plan. Students will also develop appropriate professional behaviours and learn to operate effectively within the health care system. Students will be supervised by qualified physiotherapists. This unit is one of four core clinical practicum in which students will develop basic clinical competencies required for safe and effective patient management. The four complementary practicum will provide experience in musculoskeletal, cardiorespiratory and neurological conditions in various health care settings, with patients of all ages.

Prerequisite: PTY3CRP, PTY3MSP, PTY3NEU.

Co-requisite: PTY3PHE, PTY3CCB.

Class requirements: Five weeks of full-time clinical experience (32 hours per week, a total of 160 hours) W31-35, or W36-40 or W41-45. Exact weeks may vary depending on placement availability with clinical agencies.

This unit is not available for 'Study Abroad' students.

Assessment: Continuous clinical assessment (80%). 1500-word written assignment (20%). Hurdle requirement: a pass must be achieved in both written and clinical components, in order to pass the unit.

Prescribed Reading:

Unit manuals for PTY3MSP, PTY3NEU, PTY3CPR and PTY3PHE

PTY3CCB CORE CLINICAL B IN PHYSIOTHERAPY PRACTICE (20 CPs Sem. TE-W35-39 BE, BU. TE-W40-44 BE, BU. TE-W45-49 BE, BU.)

BE: Dr Helen McBurney, BU: Ms Felicity Blackstock

In this unit students will develop clinical competencies in the assessment of a patient's problems and needs, the analysis of assessment findings, the formulation of short- and long term goals and the development, implementation and evaluation of an intervention plan. Students will also develop appropriate professional behaviours and learn to operate effectively within the health care system. Students will be supervised by qualified physiotherapists. This unit is one of four core clinical practicum in which students will develop basic clinical competencies required for safe and effective patient management. The four complementary practicum will provide experience in musculoskeletal, cardiorespiratory and neurological conditions in various health care settings, with patients of all ages.

Prerequisite: PTY3CRP, PTY3MSP, PTY3NEU.

Co-requisite: PTY3PHE, PTY3CCA.

Class requirements: Five weeks of full-time clinical experience (32 hours per week, a total of 160 hours) W36-40, W41-45 or W46-50. Exact weeks may vary depending on placement availability with clinical agencies.

This unit is not available for 'Study Abroad' students.

Assessment: Continuous clinical assessment (80%), 1500-word written assignment (20%). Hurdle requirement: a pass must be achieved in both written and clinical components, in order to pass the unit.

Prescribed Reading:

Unit Manuals for PTY3MSP, PTY3NEU, PTY3CRP and PTY3PHE

PTY3CCC CORE CLINICAL C IN PHYSIOTHERAPY PRACTICE (20 CPs Sem. TE-W25-29 BE, BU. TE-W40-44 BE, BU. TE-W45-49 BE, BU.)

BE: Dr Helen McBurney, BU: Ms Marilyn Mackenzie

In this unit students will develop clinical competencies in the assessment of a patient's problems and needs, the analysis of assessment findings, the formulation of short and long term goals and the development, implementation and evaluation of an intervention plan. Students will also develop appropriate professional behaviours and learn to operate effectively within the health care system. Students will be supervised by qualified physiotherapists. This unit is one of four Core Clinical Practicum in which students will develop basic clinical competencies required for safe and effective patient management. The four complementary practicum will provide experience in musculoskeletal, cardiorespiratory and neurological conditions in various health care settings, with patients of all ages.

Prerequisite: PTY3CRP, PTY3MSP, PTY3NEU.

Co-requisite: PTY3PHE, PTY3CCA, PTY3CCB.

Class requirements: Five weeks of full-time clinical experience (32 hours per week, a total of 160 hours) W41-45, W46-50. Exact weeks may vary depending on placement availability with clinical agencies. This unit is not available for 'Study Abroad' students.

Assessment: Continuous clinical assessment (80%), 1500-word written assignment (20%). Hurdle requirement: a pass must be achieved in both written and clinical components, in order to pass the unit.

Prescribed Reading:

Unit Manuals for PTY3MSP, PTY3NEU, PTY3CRP and PTY3PHE.

PTY3CRP CARDIORESPIRATORY PHYSIOTHERAPY – THEORY AND PRACTICE (15 CPs Sem. TE-SEM-1 BE, BU.)

BE: Dr Helen McBurney, BU: Ms Felicity Blackstock

In this unit students are introduced to the aetiology, pathology, clinical features, complications and management of common cardiac and respiratory conditions. Emphasis is on the development of physiotherapy skills to assess and treat patients with these conditions. Evidence-based practice is applied to patient care in the areas of general and specialist surgery, intensive and coronary care, cardiac and pulmonary rehabilitation, respiratory medicine and chest trauma.

Prerequisite: PTY2CLP, HBS2APC, HBS2PPB, PHE2BDA, PTY2CDP, PTY2PSC, HBS2NSM, HBS2PPY, PHE2BDB, PHE2RMH, PTY2EPA, PTY2PAE, PTY2PSD.

Co-requisite: PTY3PHE, PTY3NEU, PTY3MSP.

Class requirements: Three 1-hour lectures and two 1.5 hour practical classes per week.

Assessment: One 2-hour written examination (50%), one 20-minute practical examination (50%). Hurdle requirement: demonstration of a satisfactory level of safety. To pass this subject, students must obtain a pass in both the written and practical examinations.

Prescribed Reading:

PTY3CRP cardiorespiratory physiotherapy manual Current edition, School of Physiotherapy, La Trobe University.

PTY3HON RESEARCH DESIGN IN PHYSIOTHERAPY (15. CPs Sem. TE-ALL-YR BE, BU.)

Professor Karen Dodd

Applicants are selected on the basis of previous academic performance in 1st and 2nd year.

This unit runs concurrently with the undergraduate course and is offered as the first part of a two year program in third and fourth years, leading to the award of a Honours degree. This unit introduces students to the principles of conducting research which is of relevance to physiotherapy. Each student works closely with a supervisor who guides the development of a research project. In addition, students attend regular lectures, seminars and laboratory sessions in which the theoretical and pragmatic aspects of conducting research are discussed. Topics include writing skills for literature reviews, the use of computers in research and the application of principles of research design as learnt in PHE1RMH and PHE2RMH. Emphasis is placed on encouraging the student to apply principles of critical analysis to the theory and practice of research.

Prerequisite: PTY2CLP, HBS2APC, HBS2PPB, PHE2BDA,

PTY2CDP, PTY2PSC, HBS2NSM, HBS2PPY, PHE2BDB, PHE2RMH, PTY2EPA, PTY2PAE, PTY2PSD, PHE1RMH.

Co-requisite: PTY3PHE, PTY3CRP, PTY3MSP, PTY3NEU.

Class requirements: 28 hours of lectures/seminars and 37 hours of contact with supervisor for individual consultation and independent work.

Assessment: One 3500–4500 word systematic literature review and research proposal essay (100%). Hurdle requirement: 20min verbal research proposal presentation

Prescribed Reading:

American Psychological Association. *Publication manual of the American Psychological Association*, 4 5th edn. Washington, DC: Author, 2001.

Recommended Reading:

Portney, LG and Watkins MP. *Foundations of clinical research: applications to practice* 2nd edn. Appleton and Lange, 2000.

PTY3MSP MUSCULOSKELETAL PHYSIOTHERAPY – THEORY AND PRACTICE (15 Cps Sem. TE-SEM-1 BE, BU.) *Ms Janet McConville*

In this unit students are introduced to cause, pathology, clinical features and management of common musculoskeletal conditions, including fractures, soft tissue injuries and vertebral syndromes. Emphasis is on the development of physiotherapy skills to assess and treat patients with these conditions.

Prerequisite: PTY2CLP, HBS2APC, HBS2PPB, PHE2BDA, PTY2CDP, PTY2PSC, HBS2NSM, HBS2PPY, PHE2BDB, PHE2RMH, PTY2EPA, PTY2PAE, PTY2PSD.

Co-requisite: PTY3PHE, PTY3CRP, PTY3NEU.

Class requirements: Two 1-hour lectures and two 1.5-hour practical sessions per week.

Assessment: One 2-hour written examination (50%), one 20-minute practical examination (50%). Hurdle requirement: demonstration of a satisfactory level of safety. To pass this subject, students must obtain a pass in both the written and practical examinations.

Prescribed Reading:

PTY3MSP *orthopaedic practical manual* Current edn. School of Physiotherapy, La Trobe University.

PTY3NEU NEUROLOGICAL PHYSIOTHERAPY – THEORY AND PRACTICE (15 Cps Sem. TE-SEM-1 BE, BU.) *Dr Belinda Bilney*

In this unit students are able to learn to assess measure, educate and rehabilitate people with movement disorders and reduced mobility arising from neurological disorders. Students gain an understanding of the aetiology, pathology, clinical presentation and medical and surgical management of common neurological conditions. Skills in movement training are learned by working with expert clinicians, academics, other students and patients and movement analysis and measurement skills are developed to a high standard. Self-learning guides complement lectures and practical classes.

Prerequisite: PTY2CLP, HBS2APC, HBS2PPB, PHE2BDA, PTY2CDP, PTY2PSC, HBS2NSM, HBS2PPY, PHE2BDB, PHE2RMH, PTY2EPA, PTY2PAE, PTY2PSD.

Co-requisite: PTY3PHE, PTY3CRP, PTY3MSP.

Class requirements: Two 1-hour lectures and two 1.5-hour practicals or tutorials per week, one visit to a spinal unit.

Assessment: One 2-hour written examination (60%), one 20-minute practical examination (40%). Hurdle requirement: demonstration of a satisfactory level of safety. To pass this unit, students must obtain a pass in both the written and practical examinations.

Prescribed Reading:

Carr, J and Shepherd, R. *Stroke Rehabilitation – guidelines for exercise and training to optimise motor skill*. Butterworth Heinemann, 2003.

PTY3PHE INTERPERSONAL PROCESSES AND PROFESSIONAL PRACTICE (5 Cps Sem. TE-ALL-YR BE, BU.) *BE: Dr Helen McBurney, BU: Dr Megan Davidson, BU: Dr Paul O'Halloran*

In this unit students will focus on interpersonal communication skills, analysis of interactions between clinicians and clients and essential knowledge and skills related to physiotherapy professional practice. It encourages the adaptation of clinical reasoning to include case load management, the physiotherapist's role as educator, ethics and quality

issues and the development of professional attitudes related to personal learning. Emphasis is placed on providing preparation and support as the students move into clinical settings.

Prerequisite: PTY2CLP, HBS2APC, HBS2PPB, PHE2BDA, PTY2CDP, PTY2PSC, HBS2NSM, HBS2PPY, PHE2BDB, PHE2RMH, PTY2EPA, PTY2PAE, PTY2PSD.

Co-requisite: PTY3CRP, PTY3MSP, PTY3NEU, PTY3CCA, PTY3CCB.

Class requirements: Module 1 (wk 10 to 17) – One 1.5-hour workshop per week Module 2 (wk 18 to 22)–Three 1.5-hour workshops and two self-directed learning tasks. Block mode – One 8-hour workshop over two days in week 29 prior to commencement of semester two clinic blocks.

Assessment: Attendance and participation in groups (20%), 1200-word workshop journal (30%), 1000-word assignment (50%)

Prescribed Reading:

School of Physiotherapy PTY3PHE – *Interpersonal Processes and Professional Practice Manual* Current edn. La Trobe University. School of Public Health *Readings for interpersonal processes* 3 La Trobe University.

PTY4AMS ADVANCED MUSCULOSKELETAL PHYSIOTHERAPY (5 Cps Sem. TE-SEM-1 BE, BU.) *Ms Janet McConville*

This unit builds on the theoretical knowledge and skills obtained in the third year musculoskeletal physiotherapy subjects, so that graduates are better equipped with the skills necessary for treating musculoskeletal disorders. The unit includes revision and refinement of mobilising and manipulation techniques; and information on hand therapy and the management of people with burns.

Prerequisite: PTY3PHE, PTY3CRP, PTY3MSP, PTY3NEU.

Co-requisite: PTY4EBP, PTY4PRG, PTY4PWH, HLT3IPA.

Class requirements: One 1-hour lecture per week and 10 hours of practical sessions per semester.

Assessment: Satisfactory rating by supervisor. Refer to performance criteria in PTY4AMS manual (100%). Hurdle requirement: attendance at all classes. If unable to attend any class, refer to PTY4AMS manual for compulsory requirements.

Recommended Reading:

Maitland GD. *Vertebral manipulation* 6th edn. Butterworths, London, 2001

PTY4CCB CORE CLINICAL B IN PHYSIOTHERAPY PRACTICE (20 Cps Sem. TE-W01-05 BE, BU.) *BE: Dr Helen McBurney, BU: Ms Felicity Blackstock*

In this unit students will develop clinical competencies in the assessment of a patient's problems and needs, the analysis of assessment findings, the formulation of short and long term goals and the development, implementation and evaluation of an intervention plan. Students will also develop appropriate professional behaviours and learn to operate effectively within the health care system. Students will be supervised by qualified physiotherapists. This unit is one of four core clinical practicum in which students will develop basic clinical competencies required for safe and effective patient management. The four complementary practicum will provide experience in musculoskeletal, cardiorespiratory and neurological conditions in various health care settings, with patients of all ages.

Prerequisite: PTY3CRP, PTY3MSP, PTY3NEU.

Incompatible unit: PTY3CCB

Class requirements: Five weeks of full-time clinical experience (32 hours per week, a total of 160 hours in W02-06. Exact weeks may vary depending on placement availability with clinical agencies.

This unit is not available for 'Study Abroad' students.

Assessment: Continuous clinical assessment by the supervising therapist against explicit criteria (70%). Hurdle requirement: criteria for clinical assessment are provided to students and supervising therapists prior to commencement of the clinical practicum, 1500-word written assignment (30%). Hurdle requirement: a pass must be achieved in both written and clinical components in order to pass the unit.

Prescribed Reading:

Unit Manuals for PTY3MSP, PTY3NEU, PTY3CRP and PTY3PHE

PTY4CCC CORE CLINICAL C IN PHYSIOTHERAPY PRACTICE (20 CPs Sem. TE-W01-05 BE, BU. TE-W09-13 BE, BU. TE-W14-19 BE, BU. TE-W20-24 BE, BU.) BE: Dr Helen McBurney, BU: Dr Belinda Bilney

In this unit students will develop clinical competencies in the assessment of a patient's problems and needs, the analysis of assessment findings, the formulation of short- and long term goals and the development, implementation and evaluation of an intervention plan. Students will also develop appropriate professional behaviours and learn to operate effectively within the health care system. Students will be supervised by qualified physiotherapists. This unit is one of four core clinical practicum in which students will develop basic clinical competencies required for safe and effective patient management. The four complementary practicum will provide experience in musculoskeletal, cardiorespiratory and neurological conditions in various health care settings, with patients of all ages.

Prerequisite: PTY3PHE, PTY3CCA, PTY3CCB.

Co-requisite: PTY4CCD.

Class requirements: Five weeks of full-time clinical experience (32 hours per week, a total of 160 hours) W02-06, W10-14, W16-20 or W21-25. Exact weeks may vary depending on placement availability with clinical agencies.

This unit is not available for 'Study Abroad' students.

Assessment: Continuous clinical assessment (80%), 1500-word written assignment (20%). Hurdle requirement: a pass must be achieved in both written and clinical components, in order to pass the unit.

Prescribed Reading:

Unit manuals for PTY3MSP, PTY3NEU, PTY3CRP and PTY3PHE

PTY4CCD CORE CLINICAL D IN PHYSIOTHERAPY PRACTICE (20 CPs Sem. TE-W01-05 BE, BU. TE-W09-13 BE, BU. TE-W14-19 BE, BU. TE-W20-24 BE, BU. TE-W25-29 BE, BU.) BE: Dr Helen McBurney, BU: Dr Nicholas Taylor

In this unit students will develop clinical competencies in the assessment of a patient's problems and needs, the analysis of assessment findings, the formulation of short- and long term goals and the development, implementation and evaluation of an intervention plan. Students will also develop appropriate professional behaviours and learn to operate effectively within the health care system. Students will be supervised by qualified physiotherapists. This unit is one of four core clinical practicum in which students will develop basic clinical competencies required for safe and effective patient management. The four complementary practicum will provide experience in musculoskeletal, cardiorespiratory and neurological conditions in various health care settings, with patients of all ages.

Prerequisite: PTY3PHE, PTY3CCA, PTY3CCB, PTY3CCC.

Co-requisite: PTY4CCC.

Class requirements: Five weeks of full-time clinical experience (32 hours per week, a total of 160 hours) W02-06, W10-14, W16-20 or W21-25 and W26-30. Exact weeks may vary depending on placement availability with clinical agencies.

This unit is not available for 'Study Abroad' students.

Assessment: Continuous clinical assessment (80%), 1.5-hour written exam (20%). Hurdle requirement: a pass must be achieved in both written and clinical components, in order to pass the unit.

Prescribed Reading:

Unit manuals for PTY3MSP, PTY3NEU, PTY3CRP and PTY3PHE

PTY4CEA CLINICAL ELECTIVE A (20 CPs Sem. TE-W30-34 BE, BU. TE-W35-39 BE, BU. TE-W40-44 BE, BU.) BE: Dr Helen McBurney, BU: Dr Megan Davidson, BU: Ms Marilyn Mackenzie

In this unit, final year students are provided with a range of opportunities to develop knowledge and skills in specific and specialist areas of clinical practice. The specific area of practice is selected to complement and build on the student's prior clinical experiences and/or to develop an area of particular interest. Students are required to undertake a clinical project which is negotiated with the hospital/clinic.

Prerequisite: PTY3CCA, PTY3CCB, PTY3CCC OR PTY4CCC, PTY4CCD.

Class requirements: five week full-time clinical placement (160

hours) W31-35, W36-40, W41-45. Exact weeks may vary depending on placement with clinical agencies.

This unit is not available for 'Study Abroad' students.

Assessment: Continuous clinical assessment. (80%), Clinical project equivalent to 1500 words. (20%)

PTY4CEB CLINICAL ELECTIVE B (20 CPs Sem. TE-W35-39 BE, BU. TE-W40-44 BE, BU. TE-W45-49 BE, BU.) BE: Dr Helen McBurney, BU: Dr Megan Davidson, BU: Ms Marilyn Mackenzie

In this unit, final year students are provided with a range of opportunities to develop knowledge and skills in specific and specialist areas of clinical practice. The specific area of practice is selected to complement and build on the student's prior clinical experiences and to develop an area of particular interest. Students are required to undertake a clinical project which is negotiated with the hospital/clinic.

Prerequisite: PTY3CCA, PTY3CCB, PTY3CCC or PTY4CCC, PTY4CCD.

Quota: 115.

Class requirements: five week full-time clinical placement (160 hours), W36-40, W41-45, W46-50. Exact weeks may vary depending on placement with clinical agencies.

This unit is not available for 'Study Abroad' students.

Assessment: Continuous clinical assessment (80%). Clinical project equivalent to 1500 words (20%).

PTY4EBP EVIDENCE-BASED PRACTICE IN PHYSIOTHERAPY (20 CPs Sem. TE-ALL-YR BE, BU.) BE: Dr Helen McBurney, BU: Dr Megan Davidson

In this unit students will develop the basic knowledge and skills required for evidence-based practice in physiotherapy. Students will develop skills in formulating answerable clinical questions, searching for the available evidence, critical appraisal of the literature and making decisions about practice-based on the evidence. The unit is comprised of lectures, tutorials and online modules relating to the location and critical appraisal of systematic reviews randomised controlled trials and other experimental designs, qualitative research and evaluations of diagnostic tests.

Prerequisite: PTY3PHE, PTY3CRP, PTY3MSP, PTY3NEU.

Incompatible unit: PTY4HON

Class requirements: Six 1-hour lectures, six 1.5-hour tutorials and 90 hours of web-based self-directed learning tasks and undertaking a critically appraised topic under the guidance of a topic supervisor.

Assessment: Two 1500-word critically appraised papers (40%), one 1-hour exam (20%) and 20-minute verbal presentation (40%)

Prescribed Reading:

Herbert, R et al. *Practical evidence-based physiotherapy* Edinburgh: Elsevier Butterworth Heinemann, 2005.

PTY4HON HONOURS THESIS (45 CPs Sem. TE-ALL-YR BE, BU.) Professor Karen Dodd

In this unit, students complete the second part of a two year program for a Honours degree. Under the supervision of an academic staff member, students will be required to plan, conduct and report on original research.

Prerequisite: PTY3HON, PTY3PHE, PTY3CRP, PTY3MSP, PTY3NEU.

Co-requisite: PTY4AMS, PTY4PWH, PTY4PRG, HLT3IPA, PTY4CCC and/or PTY4CCD.

Incompatible unit: PTY4EBP

Class requirements: Students will be required to plan, conduct and report on original research. This involves one full day of presentations and one 1-hour meeting per week with supervisor.

This unit is not available for 'Study Abroad' students.

Assessment: One, 13,500-word thesis (100%). Hurdle requirement: one 30-minute verbal presentation.

PTY4PRG PHYSIOTHERAPY IN REHABILITATION AND GERONTOLOGY (10 CPs Sem. TE-W07-24 BE, BU.) BE: Dr Helen McBurney, BU: Ms Marilyn Mackenzie

In this enquiry-based unit, the topics covered are rehabilitation theory and practical aspects of physiotherapy management in rehabilitation and gerontology. Students gain an understanding of physical and

psycho-social aspects of ageing in health and disease and develop an understanding of the role of physiotherapy in health care teams.

Prerequisite: PTY3PHE, PTY3CRP, PTY3MSP, PTY3NEU.

Co-requisite: PTY4PWH, PTY4AMS, PTY4EBP OR PTY4HON, HLT3IPA, PTY4CCC AND/OR PTY4CCD.

Class requirements: Contact hours are scheduled over three weeks (11/2–31/3) and during a subsequent five week theory block. Students work in small groups to present four case management plans which include interdisciplinary management. Self-learning module on management of circulatory conditions and lymphedema (1.5–2 hours).

Assessment: Group (consisting of 8–10 students) four case management plans of 2500 words each (80%). Contribution to group tasks and attendance at a minimum of 80% of group meetings is a hurdle requirement, peer Assessment (20%).

PTY4PWH INTRODUCTION TO PHYSIOTHERAPY IN WOMEN'S HEALTH

(5 CPs Sem. TE-SEM-1 BE, BU.) *Mrs Diana Spurrutt*

In this unit students are introduced to the fundamental knowledge and skills necessary for working in the field of physiotherapy in women's health and continence. The knowledge component includes specific anatomy, physiology and pathology. Skills acquired are of two kinds: those extrapolated from other areas of physiotherapy practice and those specific to the unit. Group dynamics and adult learning skills are further practised and small group teaching is experienced.

Prerequisite: PHE3PHE, PTY3CRP, PTY3NEU, PTY3MSP.

Co-requisite: PTY4EBP or PTY4HON, PTY4AMS, PTY4PRG, HLT3IPA, PTY4CCC and/or PTY4CCD.

Class requirements: Two 3-hour seminars, five 1.5-hour practical sessions, one 1-hour practical session and four 1.5-hour student presentation sessions per semester.

Assessment: One 15-minute teaching facilitation session with class design peer handout (70%), one 30-minute written examination (30%). Hurdle requirement: students must satisfactorily complete both components to receive an overall pass in the unit.

SWP1IIP INTRODUCTION TO SOCIAL WORK A (15 CPs Sem. TE-SEM-1

AW, BE, BU. TE-SEM-2 MI.) *Dr Sue Hodgkin, Ms Grace Brown, Dr*

Christine Bigby, Ms Paula Bruce

In this unit students will be orientated to a university mode of study. They will be introduced to the complex and often contested nature of social work and the diverse knowledge base that informs social work practice. Students will gain an understanding of the core values, the history and current orientation of social work. Ideas that social problems are constructed and understood differently across time and in accordance with different value and theoretical perspectives are explored. Using selected examples, the impact of societal organisation on individuals and social problems will be examined.

Class requirements: One 2-hour lecture and one 1.5-hour tutorial per week.

Assessment: One study skills and library assignment equivalent to 1250 words (30%), one 1500-word essay (40%), one group class presentation equivalent to 500 words (10%) and one individual write-up equivalent to 1000 words (20%)

SWP1OPW ORGANISATIONAL APPROACHES TO POLICY WORK (10 CPs

Sem. TE-WO6-11 AW, BE, BU.) *AW: Ms Robyn Mortlock, BE: Ms Di Cox, BU: Ms Maureen Long*

In this unit students learn about the policies organisations develop to alleviate poverty in society and the approach they take to implement these policies through their services, research, advocacy and social action. Students explore and analyse the history, mission, values, policies and actions of one Australian organisation involved in poverty alleviation.

Class requirements: Five hours of seminars and 30 hours of self-directed study.

Assessment: One oral presentation equivalent to 1000 words (10%), one 2000-word essay (organisational analysis) (90%)

Recommended Reading:

SWP1PPI POLICY, POVERTY AND INEQUALITY (25 CPs Sem. TE-SEM-2 AW,

BE, BU.) *AW: Ms Robyn Mortlock, BE: Ms Di Cox, BU: Ms Maureen Long*

In this unit students are introduced to various historical, contemporary and comparative understandings of poverty and inequality. Students examine various definitions and ways to measure poverty and explore the impact of poverty and inequality on individuals and society.

Australian social policy approaches to the alleviation of poverty are discussed in relation to various groups at particular risk of poverty. Students learn about the policies organisations develop to alleviate poverty in society and the approach they take to implement these policies through their services, research, advocacy and social action. Students analyse the history, mission, values, policies and actions of one Australian organisation involved in poverty alleviation.

Class requirements: Two 1-hour lectures per week for 13 weeks, seven 1-hour tutorials per semester, five 2-hour tutorials per semester and 30 hours of self-directed study.

Assessment: One 2000-word essay (organisational analysis) (30%), one 2500-word essay (policy analysis) (40%), one 1500-word fact sheet (20%), one presentation equivalent to 1000 words (10%)

SWP1SP SOCIAL POLICY AND PRACTICE A (15 CPs Sem. TE-SEM-2 AW,

BE, BU.) *AW: Ms Robyn Mortlock, BE: Ms Di Cox, BU: Ms Maureen Long*

In this unit students are introduced to various historical, contemporary and comparative understandings of poverty and inequality. Students examine various definitions and ways to measure poverty and explore the impact of poverty and inequality on individuals and society.

Australian social-policy approaches to the alleviation of poverty are explored in relation to various groups at particular risk of poverty.

Class requirements: Two 1-hour lectures for 13 weeks and one 1-hour tutorial per week for 12 weeks.

Assessment: One 1500-word statistical commentary (30%), one 2500-word essay (70%)

Preliminary Reading:

Australian Senate Communities Affairs Committee *A hand up not a hand out* AGPS, 2004.

SWP2DLC DEVELOPMENT ACROSS THE LIFE COURSE IN SOCIAL CONTEXTS (20 CPs Sem. TE-SEM-1 AW, BE, BU.) AW: Dr Judith Gibbs, BE: Dr Jennifer Lehmann, BU: Dr John McCormack

In this unit students will build on first year psychological studies and explore human development within a social context, drawing out implications for social work practice. It focuses on human development across the life course and the key roles played by relationships in influencing development. It considers the challenges to individual and social functioning of non-normative factors such as illness, impairment and disability during the life course. It covers particular implications for social work practice when development becomes problematic as well as in normal development transitions. *Class requirements:* Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: One 2000-word essay (40%), one 3000-word essay (60%)

Prescribed Reading:

Peterson, C. *Looking forward through the life span* 4th edn. Pearson Education, 2004.

Recommended Reading:

SWP2HSO SOCIAL WORK IN HUMAN SERVICE ORGANISATIONS A (10 CPs Sem. TE-SEM-2 AW, BE, BU.) AW: Ms Virginia Mansel Lees, BE: Dr Jennifer Lehmann, BU: Ms Margarita Frederico

In this unit students are introduced to the organisational context of social work practice. In the context of the interface of policy and practice, students will explore the role of human service organisations in the delivery of social services and the practice of social work. Through lectures, seminars and required visits to organisations the student will examine the organisational knowledge and skills necessary to practice effectively in the organisational context of welfare.

Class requirements: One 1-hour lecture and one 1-hour tutorial per week. Three of the tutorial hours will be allocated as time for students to undertake organisational visits.

Assessment: One 2000-word paper on organisational case study (66%), one 1-hour examination (for Albury-Wodonga and Bundoora) (34%). In Bendigo the examination will be substituted by one structured investigative journal of approximately 2000 words

Recommended Reading:

SWP2ITP INTRODUCTION TO SOCIAL WORK B (20 CPs Sem. TE-SEM-1 AW, BE, BU.) AW: Ms Virginia Mansel Lees, BE: TBA, BU: Dr Helen Cleak

In this unit students will be provided with an understanding of the theoretical foundations and values of social work and social work practice. This unit will examine what social workers need to know, the values and ideology that frame social work and then what they do in practice. This will enable students to develop an overall map of the knowledge and skills required for social work, with a particular emphasis on the systems theory and an approach to practice that is known as the ecosystem perspective. The student will be introduced to the major contexts in which a generalist social worker operates and the different forms and levels of intervention, namely the micro, mezzo and macro levels and the role of social workers in these different settings.

Class requirements: One 2-hour lecturer per week and 14 hours of tutorials over the semester.

Assessment: One 1500-word research essay (40%), one 3500-word essay (60%)

Prescribed Reading:

Payne, M. *Modern social work theory* 3rd edn. Palgrave, 2005.
Chenoweth, L and McAuliffe, D. *The road to social work and human service practice* Thompson Learning, 2005.

SWP2OCP ORGANISATIONAL CONTEXTS OF SOCIAL WORK PRACTICE (20 CPs Sem. TE-SEM-2 AW, BE, BU.) AW: Ms Virginia Mansel Lees, BE: Dr Jennifer Lehmann, BU: Ms Margarita Frederico

In this unit students will explore the role of human service organisations in the delivery of social services and the practice of social work. Through lectures and tutorials, or seminars, student will examine organisation theory and the organisational knowledge and skills necessary to practice effectively in the organisational context of social and community services which is characterised by complex developments in policy, practice interventions and accountability. Student will complete an investigatory assessment task of an organisation, as approved by the unit coordinator.

Prerequisite: SWP2PPH.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week for Bundoora and Albury-Wodonga students; one 3-hour seminar per week for Bendigo students; 10 hours of self-directed learning per semester; two hours of tutorial time will be allocated for students to undertake organisational visits.

Assessment: One 2000-word paper on organisational case study (35%), one structured investigative journal of approximately 2000 words (30%), one 2-hour examination (for Albury-Wodonga and Bundoora) (35%). In Bendigo the examination will be substituted by one 2000-word essay).

Recommended Reading:

SWP2PPH PROFESSIONAL PRACTICE: HISTORY AND VALUES (30 CPs Sem. TE-SEM-1 AW, BE, BU.) AW: Ms Virginia Mansel Lees, BE: TBA, BU: Dr Helen Cleak

In this unit students will be provided with an understanding of the theoretical foundations and values of social work and social work practice. This unit will examine what social workers need to know, the values and ideology that frames social work and then what they do in practice. This will enable students to develop an overall map of the knowledge and values required for social work, with a particular emphasis on the systems theory and an approach to practice that is known as the ecosystem perspective. The student will be introduced to the major contexts in which a generalist social worker operates and the different forms and levels of intervention, namely the micro, mezzo and macro levels and the role of social workers in these different settings. Throughout the unit students will be encouraged to explore, articulate and share their experiences and relate them to their ongoing development as social work students.

Class requirements: One 2-hour lecture per week, one 2-hour tutorial per week and 15 hours of self-directed learning.

Assessment: One 3500-word essay (40%), one 4000-word research essay (60%). Hurdle requirement: students must present one 10-minute individual poster presentation.

Prescribed Reading:

Payne, M. *Modern Social Work Theory* 3rd edn. Palgrave, 2005.
Chenoweth, L and McAuliffe, D. *The road to social work and human service practice* Thompson Learning, 2005

SWP2RA READINGS IN SOCIAL WORK A (5 CPs Sem. TE-SEM-1 BE.) Ms

Fiona Gardner

Students will explore a chosen issue of social work theory and consider how it can be applied to practice. The specific topic will be developed in consultation with the appropriate academic staff member.

Class requirements: Individual consultation with lecturing staff, to develop topic and appropriate further contact time.

Assessment: One 1250-word essay OR one 2000–3000-word reflective journal, depending on chosen topic (100%).

Preliminary Reading:

Determined by lecturer. *Dependent on topic.* Negotiated in week 1.

SWP2RB READINGS IN SOCIAL WORK B (5 CPs Sem. TE-SEM-2 BE.) Ms

Fiona Gardner

Students will consider a specific social work field and explore relevant theory. The specific topic will be developed in consultation with the appropriate academic staff member.

Class requirements: Individual consultation with lecturing staff, to develop topic and appropriate further contact time.

Assessment: One 1250-word essay OR one 2000–3000-word reflective journal, depending on chosen topic (100%).

Preliminary Reading:

Determined by lecturer. *Dependent on topic.* Negotiated in week 1.

SWP2REC SOCIAL WORK AND REFLECTIVE COMMUNICATION (20 CPs Sem. TE-SEM-1 MI. TE-SEM-2 AW, BE, BU.) AW: Ms Robyn Mortlock, BE:

Dr Jennifer Lehmann, BU: Dr Trish McNamara, MI: Ms Paula Bruce

In this unit students are encouraged to critically examine how their values and beliefs shape emotional and behavioural responses. Students are helped to develop a foundation for effective interpersonal communication based on conscious use of self and critical self-reflection. Students are exposed to human communication issues relevant to social work from the microsystems level to the macro level of society. Students will study different models of communication emphasising the importance of understanding social diversity. Largely experiential seminars will encourage students to become aware of their own interactional style in one-to-one situations and in groups and to become increasingly self-confident communicators.

Class requirements: One 2-hour lecture and one 2-hour seminar per week.

Assessment: One 2500–3000-word essay (50%), one group presentation (15 minutes per member) (25%), one 1500-word individual write up of presentation (25%)

Prescribed Reading:

Adler, R and Rodman, G. *Understanding human communication* 9th edn. Oxford University Press, 2006.

SWP2RES RESEARCH FOR SOCIAL WORK PRACTICE A (10 CPs Sem. TE-SEM-2 AW, BE, BU.) AW: Dr Suzanne Hodgkin, BE: Ms Pascal Janice,

BU: Dr Martin Ryan

In this unit students will be introduced to core concepts in the research process as it applies to social work practice. There will be an overview of both quantitative and qualitative approaches to research. Students will explore the key concepts involved in planning, designing and implementing a social work research study. This knowledge of these concepts will be developed through the preparation of a literature review and a research proposal.

Class requirements: One 1-hour lecture and one 1-hour tutorial per week.

Assessment: One 2000-word essay (60%), one 1000-word essay (40%)

Prescribed Reading:

Bouma, G and Ling, R. *The research process* 5th edn. Oxford University Press, South Melbourne, 2004.

Recommended Reading:

Bryman, A. *Social research methods* 2nd edn. Oxford University Press, 2004.

SWP3COM SOCIAL WORK PRACTICE IN COMMUNITIES (15 CPs Sem.

TE-SEM-1 AW, BE, BU, MI.) AW: Ms Robyn Mortlock, BE: Ms Dianne

Cox, BU: Dr Carmel Laragy, MI: Ms Paula Bruce

In this unit students will focus on social work practice at the community and societal levels. It covers conceptual and theoretical underpinnings of community development including principles, such as active citizenship and participatory democracy. It has a broad focus in that it covers social, economic, political, cultural, environmental and personal development. It will examine community development as a framework to facilitate people, communities and organisations to engage in the change process and to promote social well-being and community building.

Class requirements: Two 1-hour lectures and one 1-hour seminar per week.

Assessment: One 2000-word essay (40%), one group 3000-word essay (40%), one group presentation (five minute per member) (20%)

Prescribed Reading:

Ife, J and Tesoriero, F. *Community development: community-based alternatives in an age of globalisation* 3rd edn. Pearson, 2006.

Kenny, S. *Developing communities for the future: community development in Australia* 3rd edn. Thomson, Australia, 2006.

Kirst-Ashman, K and Hull, G. *Generalist practice with organisations and communities* 3rd edn. Thomson Brooks/Cole, 2006.

SWP3FEA FIELD EDUCATION A (40 CPs Sem. TE-W36-49 AW, BE, BU, MI.

TE-W44-07 AW, BE, BU, MI.) AW: Mr Jerry Sweeting, BE: TBA, BU: Dr

Helen Cleak, MI: Ms Paula Bruce

This unit will offer students the opportunity to integrate different theoretical perspectives and skills by undertaking a supervised fieldwork practicum. Students are placed in a range of human service organisations and are required to become experiential learners who can reflect critically on their practice and who can demonstrate beginning skills in appropriate social work skills. SWP3FEA is the first and SWP4FEB the second of two fieldwork-placements to be undertaken by the students under the supervision of a qualified social worker with the liaison support of an academic staff member. Each placement period is 14 weeks full-time as required by the AASW and is normally taken in second semester (September to December) each year. As part of the practicum, students will be required to attend 10 hours of preparatory seminars (held in both first and second semester) and 10 hours of seminars throughout the practicum to integrate theory with the practicum experience.

Prerequisite: SWP3IFG, SWP3LER.

Class requirements: Field placement of fourteen weeks full-time (70 days) and eight hours of preparatory lectures/seminars.

Assessment: Learning agreement, mid-placement and final placement reports as per BSW Field Education Handbook (100%). Assessed as pass or fail grade.

Recommended Reading:

Cooper, L and Briggs, L. *Fieldwork in the human services*. Allen and Unwin, Sydney, 2000.

Cleak, H and Wilson, J. *Making the most of field placement* Thomson, 2004.

Bogo, M and Vayda, E. *The practice of field instruction in social work*. Columbia University Press, New York, 1998.

SWP3FOA FIELD EDUCATION AND ORGANISATIONAL ANALYSIS (55 CPs Sem. TE-W36-49 AW, BE, BU.) AW: Mr Jerry Sweeting, BE: TBA, BU:

Dr Helen Cleak

In this unit students will have the opportunity to integrate different theoretical perspectives and skills by undertaking a supervised and supported fieldwork practicum. Students are placed in a human service organisation and encouraged to become experiential learners who can reflect critically on their practice and who can demonstrate beginning skills in appropriate social work tasks and roles. Students explore the nature of the placement as a learning experience and the organisational context of field education. Students undertake a 14-week full-time fieldwork-placement under the supervision of a qualified social worker with regular contact and support directly and online from an academic staff member. The unit has additional explicit focus on the organisational context's impact on practice.

Prerequisite: SWP2OCP, SWP3IFG, SWP3LER.

Class requirements: Field placement of 14 weeks full-time (70 days); 10 hours of preparatory lectures/seminars in semester 1 and 2; 18 hours of integrative lectures/seminars and guided reading.

Assessment: One 1500-word essay on reflective preparation for placement (10%), all evaluation documentation as per BSW Field Education Handbook equivalent to 9000 words (70%). Also involves presentations at integrative seminars, one 2000-word essay on an organisational analysis (20%). Unit is assessed as pass or fail grade only

Recommended Reading:

Cooper, L and Briggs, L. *Field work in the human services* Allen and Unwin, 2000.

Cleak, H and Wilson, J. *Making the most of field placement* Thompson, 2004.

SWP3FOP FIELDS OF SOCIAL WORK PRACTICE A (15 CPs Sem. TE-W29-35 AW, BE, BU, MI.) AW: Dr Guinever Threlkeld, BE: Ms Di Cox, BU: Ms Maureen Long, MI: Ms Paula Bruce

In this unit students are introduced to the practice of social work in diverse fields exploring context, policies, programs and practice in various fields. The content helps to integrate social work knowledge and builds on core social work knowledge and skills, introducing further knowledge and skills specific to the field being studied. Specific fields are selected by the School each year and may include social work practice and mental health; children and families; ageing; grief and loss; disability; protective services, health; addiction studies; child protection; poverty and inequality; and international social work.

Class requirements: Fives hours of seminars/lectures per week for six weeks plus self-directed learning activities equivalent to nine hours of classroom contact across the semester.

Assessment: One 1000-word essay (25%), one 20-minute verbal presentation may be undertaken in lieu of the 1000-word essay, one 3000-word essay (75%)

Recommended Reading:

Teare, RJ and Sheafor, BW. *Practice sensitive social work education: an empirical analysis of social work practice and practitioner* Council of Social Work Education, 1995.

SWP3IFG SOCIAL WORK PRACTICE WITH INDIVIDUALS, FAMILIES AND GROUPS A (20 CPs Sem. TE-SEM-1 AW, BE, BU, MI.) BE: Ms Jan

Pascal, BE: Dr TBA, BU: Mr Mark Furlong, MI: Ms Paula Bruce

In this unit students will be introduced to a basic understanding of theories and models of social work practice with individuals, families and groups integrated with structured opportunities to develop and refine self-knowledge, critical reflection and casework interview skills. Students will also develop skills in undertaking casework assessment and interventions. As such, this unit aims to integrate theoretical models with direct casework practice. Throughout, this unit encourages active participation in role plays, value clarification exercises, exploring social and personal assumptions, as well as developing an awareness of relationship between social and personal issues. The expected outcome for this unit is the achievement of a level of competence in social work practice sufficient for entry into a first supervised fieldwork-placement.

Recommended Prior Studies: SWP2ITP, SWP2REC.

Class requirements: Two 1-hour lectures and one 3-hour seminar per week.

Assessment: One 1000-word personal reflection (15%), one 1000-word case formulation (15%), one 2000-word follow-on case study (50%), simulated casework interviews equivalent to a 20-minute verbal presentation (20%).

Hurdle requirements: students must obtain a pass standard in the simulated casework interviews and attend 80% of seminars/tutorial in order to obtain a pass in this unit.

SWP3ITP INTRODUCTION TO SOCIAL WORK (10 CPs Sem. TE-SEM-1 AW, BE, BU, MI.) AW: Ms Virginia Mansel Lees, BE: Dr Jennifer Lehmann, BU: Mr David Green, MI: Ms Paula Bruce

This unit is available to Bachelor of Social Work (Advanced Standing) students only.

In this unit two year BSW (Advanced Standing) students are provided with opportunities to relate prior learning and experiences to the key values and orientation, the knowledge base and the skills of social work, including its multilevel analytic and interceptive nature. They will cover aspects of the social work profession, the historical and contemporary construction of social problems and the welfare state (with a particular focus on the contemporary restructuring of the welfare state) and key defining issues for contemporary social work practice.

Class requirements: One 1-hour lecture per week for twelve weeks and one 2-hour seminar per fortnight during semester.

Assessment: One 1000-word exploratory learning essay (40%), one 1500-word essay investigating a social work issue (60%)

Recommended Reading:

SWP3LER SOCIAL WORK PRACTICE: LAW ETHICS AND HUMAN RIGHTS (15 CPs Sem. TE-SEM-1 AW, BE, BU, MI.) AW: Dr Guinever

Threlkeld, BE: Ms Grace Brown, BU: Dr Carmel Laragy, MI: Ms Paula Bruce

In this unit students explore the foundations of legal and ethical decision-making, the implications of working within the Australian legal system and address concepts of moral philosophy that underpin the AASW Code of Ethics and AASW Practice Standards. Students examine the human rights regime, its relevance to social work and the role of ethics from various perspectives in social work practice. They explore a process for ethical decision-making. There is an examination of the legal contexts within which social workers function and which they are expected to understand in their practice.

Class requirements: two 1-hour lectures (weeks 1–5), one 1-hour lecture (weeks 6–13), one 1-hour tutorial per week for 12 weeks plus an additional eight hours for two court visits during semester.

Assessment: One 1750-word court report (40%), one 2000-word essay (60%)

SWP3RES RESEARCH FOR SOCIAL WORK PRACTICE B (15 CPs Sem. TE-W29-35 AW, BE, BU, MI.) AW: Dr Guinever Threlkeld, BE: Ms Grace Brown, BU: Dr John McCormack, MI: Ms Paula Bruce

In this unit students will build on previous research education to provide research skills and knowledge for direct application in social work practice. A range of approaches to social work practice research will be explored including evidence-based research, clinical research

and qualitative methods. There will also be significant input on data analysis, both qualitative and quantitative in the unit.

Recommended Prior Studies: SWP2RES.

Class requirements: Two 2-hour lectures and one 1-hour computer laboratory/seminar per week for 6 weeks plus self-directed learning activities equivalent to three hours of classroom contact across the teaching period.

Assessment: One 2500-word research proposal (65%), one 1500-word data analysis exercise (35%)

Prescribed Reading:

SWP4DIV DIVERSITY AND SOCIAL WORK PRACTICE (10 CPs Sem. TE-W29-35 AW, BE, BU, MI.) *AW: Ms Virginia Mansel Lees, BE: Ms Di Cox, BE: Dr Jennifer Lehmann, BU: Mr Mark Furlong, MI: Ms Paula Bruce*

This unit will particularly emphasize social work practice methods in a diverse society. In order to introduce and develop the concept of 'diversity and social work practice' three broad arenas of 'difference' will be featured from among the many forms of social and cultural diversity. These arenas are not exclusive but will in this instance be: indigenous Australians; sexuality; and migration and culture. As social workers are expected to practise within a framework of social and cultural difference, the aim of the unit is to introduce students to and to promote values and skills for, 'difference-competent practice' and 'anti-oppressive practice'.

Class requirements: One 2-hour lecture, one 1-hour lecture and one 1-hour tutorial per week for six weeks across the semester.

Assessment: One 1000-word essay (40%), one, 1500-word essay (60%)

Recommended Reading:

SWP4FEB FIELD EDUCATION B (40 CPs Sem. TE-W36-49 AW, BE, BU, MI. TE-W44-07 AW, BE, BU, MI.) *AW: Mr Jerry Sweeting, BE: TBA, BU: Dr Helen Cleak, MI: Ms Paula Bruce*

In this unit, students will undertake a supervised fieldwork practicum which will provide opportunities to integrate theoretical knowledge with practice and develop competencies to the standard required by AASW. Students are placed in a range of human service organisations to demonstrate their knowledge and skills and further develop their practice knowledge. SWP3FEA is the first and SWP4FEB the second of two fieldwork-placements to be undertaken by students under the supervision of a qualified social worker with the liaison support of an academic staff member. Each placement period is 14 weeks full-time as required by the AASW and is normally taken at the end of second semester (September to December) each year. As part of the practicum, students will be required to attend six hours of preparatory seminars (held in both first and second semester) and ten hours of seminars throughout the practicum to integrate theory with the practicum experience.

Prerequisite: SWP3COM, SWP3FEA, SWP4IFG, SWP4SPP, SWP4DIV, SWP4FOP.

Class requirements: Field placement of 14 weeks full-time (70 days) and six hours of preparatory lectures/seminars.

Assessment: Learning agreement, mid-placement and final placement reports as per BSW Field Education Handbook (100%). Assessed on pass or fail grade.

Recommended Reading:

SWP4FOP FIELDS OF SOCIAL WORK PRACTICE B (15 CPs Sem. TE-W29-35 AW, BE, BU, MI.) *AW: Dr Guinever Threlkeld, BE: Ms Di Cox, BU: Ms Maureen Long, MI: Ms Paula Bruce*

In this unit students are introduced to the practice of social work in diverse fields exploring context, policies, programs and practice in various fields. The content helps to integrate social work knowledge and builds on core social work knowledge and skills, introducing further knowledge and skills specific to the field being studied. Specific fields are selected by the School each year and may include social work practice and mental health; children and families; ageing; grief and loss; disability; protective services, health; addiction studies; child protection; poverty and inequality; and international social work.

Prerequisite: SWP3FOP, SWP3FEA.

Class requirements: Five hours of seminars/lectures per week for six weeks plus self-directed learning activities equivalent to nine hours of classroom contact across the semester.

Assessment: One 1000-word essay (25%); one 20-minute verbal presentation may be undertaken in lieu of the 1000-word essay; one 3000-word essay (75%)

Recommended Reading:

SWP4FPP FIELD EDUCATION AND PROGRAM PLANNING (55 CPs Sem. TE-W37-50 AW, BE, BU.) *AW: Mr Jerry Sweeting, BE: TBA, BU: Dr Helen Cleak*

In this unit students will have the opportunity to integrate different theoretical perspectives and skills by undertaking a supervised and supported field work-placement. Students are placed in a human service organisation and are required to be experiential learners who can reflect critically on their practice and can demonstrate graduate level skills in a range of social work roles and tasks. In first semester students focus on program design and evaluation. In second semester students commence a 14-week placement under the supervision of a qualified social worker with regular contact and support directly and online from an academic staff member. They also complete a program plan or program evaluation.

Prerequisite: SWP3COM, SWP3FOA, SWP4IFG, SWP4SPP, HLT3IPA, SWP4FOP, SWP4DIV.

Class requirements: Six hours of pre-placement seminars; 15 hours of integrative seminars; field placement of 14 weeks full-time (70 days); and participation in online forum throughout placement.

Assessment: One 3000-word essay on integration of theory and practice and critical reflections (30%). All assessment is calculated as pass or fail grade only. Students must submit all documentation to pass the unit, all evaluation documentation as per BSW Field Education Handbook equivalent to 9000 words (70%). This assessment includes participation in online discussion throughout the placement

SWP4HOA SOCIAL WORK HONOURS A (20 CPs Sem. TE-SEM-1 AW, BE, BU.) *AW: Dr Guinever Threlkeld, BE: Dr Jennifer Lehmann, BU: Professor Allan Borowski*

Available only to BSW Honours students. Successful completion of year-3 of the BSW degree and a high level of academic performance. In addition, Honours students must enrol in all BSW year-4 units except Diversity in Social Work Practice and Fields of Practice B.

This unit represents one semester of a year-long program and must be taken in conjunction with SWP4HOB.

In this unit the major tasks for Honours students are: (1) the satisfactory completion of a research proposal and (2) a seminar presentation of their research topic. Please note that this unit is to be undertaken with SWP4HOB.

Prerequisite: SWP3COM, SWP3IFG, SWP3LER, SWP3FOP, SWP3RES, SWP3FEA

Class requirements: One 2-hour seminar per week in semester one and attendance at regular thesis supervision sessions as required by the supervisor.

This unit is not available for 'Study Abroad' students.

Assessment: One 30-minute seminar presentation of research proposal (20%). Assessed as pass/fail grade only. Students must pass both components to pass unit. One 3000-word (approximately) research proposal (80%)

Recommended Reading:

Bryman, A. *Social Research Methods* 2nd edn. Oxford University Press, 2004.

Grinnell, R.M. *Social work research and evaluation* 6th edn. F.E. Peacock, 2001.

SWP4HOB SOCIAL WORK HONOURS B (20 CPs Sem. TE-SEM-2 AW, BE, BU.) AW: Dr Guinever Threlkeld, BE: Dr Jennifer Lehmann, BU:

Professor Allan Borowski

Available only to BSW Honours students. Successful completion of year-3 of the BSW degree and a high level of academic performance. In addition, Honours students must enrol in all BSW year-4 units except Diversity in Social Work Practice and Fields of Practice B. This unit represents one semester of a year-long program and must be taken in conjunction with SWP4HOA.

In this unit the major tasks for Honours students is the completion, under supervision, of an Honours research thesis of 10,000–12,000 words that addresses a meaningful research question. Please note that this unit is to be undertaken with SWP4HOA.

Prerequisite: SWP4HOA.

Class requirements: Four 2-hour seminars in semester 2 and attendance at regular thesis supervision sessions as required by the supervisor.

This unit is not available for 'Study Abroad' students.

Assessment: One 10,000–12,000-word thesis (100%). This assessment is taken in conjunction with that of SWP4HOA

Recommended Reading:

Bryman, A. *Social research methods* 2nd edn. Oxford University Press, 2004.

SWP4IFG SOCIAL WORK PRACTICE WITH INDIVIDUALS, FAMILIES AND GROUPS B (20 CPs Sem. TE-SEM-1 AW, BE, BU, MI.) AW: Ms Virginia

Mansel Lees, BE: Dr TBA, BU: Dr Noel Renouf, MI: Ms Paula Bruce

In this unit the aim is to build on the content of SWP3IFG and to develop for students a more advanced level of knowledge, values and skill in relation to social work practice with individuals, families and groups. In addition there will be coverage of key areas of contemporary practice such as case management, multi-cultural service users and the tension between structural and post-structural perspectives. Throughout, this unit encourages active participation in skills training using role plays, value clarification exercises, exploring social and personal assumptions, as well as developing an awareness of the relationship between social and personal issues. The expected outcome for this unit is the achievement of a level of competence in social work practice sufficient for entry into the final supervised fieldwork-placement.

Prerequisite: SWP3IFG, SWP3FEA.

Class requirements: Two 1-hour lectures and one 3-hour seminar per week.

Assessment: One 1000-word essay (20%), one major 2000-word critical reflection (35%), one 1500-word follow-on case study (25%), simulated casework interviews equivalent to a 20-minute verbal presentation (20%).

Hurdle requirement: students must obtain a pass standard in the simulated casework interviews and attend 80% of seminars/tutorials in order to obtain a pass in the unit.

SWP4SPP SOCIAL POLICY AND PRACTICE B (20 CPs Sem. TE-SEM-1 AW, BE, BU, MI.) AW: Dr Guinever Threlkeld, BE: Ms Di Cox, BU:

Professor Allan Borowski, MI: Ms Paula Bruce

In this unit students are enabled to be policy practitioners through the development of skills and knowledge about how the social policy contexts affects social work practice and how to intervene effectively in the policy process. It introduces students to the meaning of social policy and its concepts and frameworks for understanding and developing policies. This unit covers material about the welfare state, how it operates in Australia and in other countries and how it is changing.

Class requirements: Three 1-hour lectures per week for 13 weeks and one 1-hour tutorial per week for 10 weeks.

Assessment: One 2500-word essay (40%), one 3500-word essay (60%)

Prescribed Reading:

FACULTY OF HUMANITIES AND SOCIAL SCIENCES

Single degrees

Bachelor of Arts – Bendigo (RBA)

The Bachelor of Arts is an undergraduate course designed to meet the needs of students in a rapidly changing and uncertain environment. As occupations change, disappear, or are absorbed into new multi-skilled ones, it is vital that the education students receive now promotes responsiveness and creativity and develops skills that can be easily transferred into a range of new activities and occupations at a later stage when and if needed. Fostering multi-skilling and flexibility is the goal of the Bachelor of Arts at Bendigo.

The Bachelor of Arts at Bendigo offers students a wide choice of units. Hence students (subject to regulations and timetabling) are able to tailor their studies to their own specific needs.

The Bachelor of Arts recognises the following departmental disciplines and area studies as accredited majors:

- History, Indonesian
- Literature, film and art
- Philosophy and religious studies
- Sociology and politics
- Women's studies

Subject to regulations, quotas and timetable, a limited number of units from other Schools and Departments may be taken, including:

- Accounting
- Applied statistics
- Art and visual culture
- AUSLAN
- Biology
- Business law
- Computing
- Economics
- Environmental science
- Human resource management
- Information technology
- Marketing

- Mathematics
- Multimedia
- Photojournalism
- Psychology
- Public health

Admission requirements

Students should satisfy the normal university entrance requirements, including a study score of at least 20 in Units 3 and 4 of English.

Degree requirements

To qualify for the degree of Bachelor of Arts, students must satisfactorily complete a minimum of 360 credit points, with at least 120 credit points at third year level and include in their course either a single major or a double major as follows.

Single major

A major consists of 130 credit points, including at least 60 credit points at third year level, in a discipline (or area of study) offered by the Faculty of Humanities and Social Sciences, noting that majors in some disciplines must include specific units or combinations of units.

First year

TE-SEM-1	Major	Elective	Elective	Elective
TE-SEM-2	Major	Elective	Elective	Elective

Second year

TE-SEM-1	Major	Elective	Elective
TE-SEM-2	Major	Elective	Elective

Third year

TE-SEM-1	Major	Major	Elective
TE-SEM-2	Major	Elective	Elective

Double major

A double major consists of 130 credit points in each of two different disciplines. This consists of 30 credit points at first year level, 40 credit points at second year level and 60 credit points at third year level in each discipline.

First year

TE-SEM-1	Major 1	Major 2	Elective	Elective
TE-SEM-2	Major 1	Major 2	Elective	Elective

Second year

TE-SEM-1	Major 1	Major 2	Elective
TE-SEM-2	Major 1	Major 2	Elective

Third year

TE-SEM-1	Major 1	Major 1	Major 2
TE-SEM-2	Major 1	Major 2	Major 2

Course regulations

A full-time study load for each year level is 120 credit points (60 credit points in each semester). Students require permission from the faculty to overload by taking more than 60 credit points in any teaching period. Permission is normally based on a student's previous academic record.

First year units

Students must take a minimum of 90 credit points at first year level from units offered by the faculty. A minimum of 120 credit points and a maximum of 135 credit points of first year units may normally be included in the degree.

Units from other La Trobe faculties and other universities

Students may take two semester units at each year level from other La Trobe faculties or other universities. Students may, with permission, study units from another tertiary institution in a discipline that is not available at La Trobe University. Applicants for cross-institutional study in a discipline that is available at La Trobe University require written approval from the head of that School or Department. This should be submitted to the Faculty Enquiries Office.

Links to postgraduate study

The Bachelor of Arts can also provide a pathway to specialisation at

postgraduate levels in a range of different programs: graduate diplomas, Masters degrees by coursework and research and PhD studies at Bendigo – and programs at other universities. For many careers, specialised skills developed at postgraduate levels are essential: librarianship, urban and regional planning, teaching, journalism, computing, management, recreation and leisure and counselling. A Graduate Diploma in Arts also exists for graduates wishing to pursue an undergraduate major not previously studied. All the disciplines and area studies of the Bachelor of Arts are available for study within a Graduate Diploma in Arts.

Honours

Students are strongly encouraged to consider a fourth year of study in Honours. Honours involves a specialisation, which if successfully completed, enables a pathway to higher degrees and opens up new career opportunities.

Units

The following list of disciplines and areas of study from which students may construct their courses identifies units by year level. Normally, 30 credit points of first year units in the relevant discipline are required as the prerequisite for second year units and 40 credit points of second year units in the relevant discipline are required as the prerequisite for third year units. Otherwise, students may seek approval to enrol in a unit from the unit coordinator. Units listed will be available dependent upon staff availability and/or student demand.

The Honours degree is designed for students who have achieved a high academic standard in a Bachelor of Arts. It is designed to equip students to undertake research at higher levels of study. Students undertake coursework study in a discipline or disciplines in which they have majored and a year-long thesis. The normal duration of the Honours program is one year full-time or two years part-time. Part-time students are required to demonstrate that they have the time to pursue study, are able to meet the due dates for submission of written work and can attend scheduled classes (most of which are held during the day).

Admission requirements

Applicants should have achieved at least a B grade average in their pass degree course, preferably with several A grades within their intended Honours discipline or area of study. They should have achieved at least an average B grade level at the third year level of the pass degree. Students who expect to meet these entry criteria and who wish to be admitted into the Honours program should consult with the Honours coordinator and staff in their academic area about the possibilities for coursework study, a potential supervisor for their thesis and any other pre-conditions that disciplines or area studies may have.

Course structure

This course is valued at 120 credit points. The thesis is a year-long activity and research must begin in the first semester of enrolment. Overall assessment is based on the results of coursework assessment and the thesis. The relative weightings will be 50% for coursework and 50% for the thesis (12,000–15,000 words). Students must not fail any component of the degree. Combinations of units from different disciplines may be possible, providing students possess the necessary prerequisites.

Bachelor of Urban, Rural and Environmental Planning – Bendigo (ABURE)

The Bachelor of Urban, Rural and Environmental Planning is comprised of two major disciplines: Planning and Environment Studies and Society, People, Economic and Management Studies. The course includes extensive practical studies for students as well as project management, organisational behaviour and negotiation, mediation and community development. Professional work experience is a requirement in semester one of the third year and semester two of the fourth year, which provides students with the opportunity to develop their skills in the workplace.

Admission requirements

Students should satisfy the normal university entrance requirements, including a study score of at least 20 in Units 3 and 4 of English.

Course structure

The course comprises 480 credit points, of which 120 credit points must be taken at each year level. It may be undertaken full-time over four years or on a part-time basis. Students take the units as listed below for each year level.

First year

Teaching period	Unit title	Unit code
TE-SEM-1	Reading Australian Landscapes	OED1RAL
TE-SEM-1	Introduction to Planning and Design	PLA1IPD
TE-SEM-1	Introduction to Sociology, Politics and Culture 101	SOC1SP1

Bachelor of Visual Arts – Bendigo (RBVA)

In this course students are encouraged to specialise or to diversify in line with contemporary practice in the visual arts. The strong lecture and studio sequence of Theory and Methodologies in the Studio Practice units is structured to accelerate development in the range and depth of students' creative concepts. Theoretical and visual cultural studies contribute to studio production of folios in their major medium, selected from an offering of ceramics, painting and drawing, photography, printmaking or multimedia. Visual Arts Media Workshops in these major media expand students' technical expertise through challenging applied assignments. Comparative Studies in Visual Media provide opportunities to explore new means of combining and hybridising media from another discipline in conjunction with the major and this unit itself can become a major study. Additional disciplines of illustration and photojournalism provide further options in this unit. The first year in the degree is supported by a vigorous Art and Visual Culture program. Professional Studies is a compulsory unit in the final two semesters of the course and guides students in the vocational outcomes of their study.

For students who successfully complete all requirements of the course and whose academic transcript indicates that more than 50% of their studies are devoted to one medium, this specialisation will be reflected in the title of their degree.

Students should note that this course is available at the Mildura Campus, but the range of disciplines may be restricted.

Admission requirements

Applicants must satisfy the University's normal entrance requirements, including a study score of at least 20 in Units 3 and 4 of English, or equivalent. It is desirable for all applicants to have undertaken Studio Arts and/or Art. Successful completion of the first year of the TAFE Certificate in Art and Design is also acceptable. A Diploma of Visual Arts, Advanced Diploma of Visual Arts or equivalent approved qualification will qualify individuals for entry to the degree course at a level determined by a selection committee. Mature-age students will be considered for admission by the selection committee based on recognition of prior learning or professional standing.

Folio requirements

All applicants must apply through the Victorian Tertiary Admissions Centre (VTAC). Applicants must attend an interview in late November and submit a folio to an interview panel. A statutory declaration confirming that the work is that of the applicant must accompany the folio. The folio should demonstrate the applicant's aptitude, creativity, sense of design and abilities in a range of media or in a specialist area. It should contain material relevant to the applicant's proposed course of study, including finished pieces and preparatory studies. Where possible, students should bring the original artwork but, where size is a constraint, photographs will be considered.

Course requirements

The Bachelor of Visual Arts involves three years of full-time study. The course may be undertaken on a part-time basis.

Recognition

The course is primarily designed to produce professional artists, although graduates may also have the opportunity to work as art administrators, gallery curators and directors, dealers and commercial gallery staff, art critics, historians, photojournalists, professional photographers, illustrators, secondary art teachers or art lecturers with relevant further study.

Academic performance

The applicant's performance throughout secondary school is considered (present academic records and references where possible). Other factors such as the ENTER score may be taken into consideration.

Contact hours

Contact hours refers to the minimum time students are required to attend studio study and develop their work within this practical environment. During staff-student engagement time, teaching will occur in the form of lectures, workshops, technical demonstrations, tutorials, individual staff-student consultation and studio practice as directed by the student's approved, individual research proposal. When staff are not present outside formal engagement times, studio technical support staff may be available for technical demonstrations, information and assistance. From the second year onwards, studies are built upon specific studio units and developed through sustained studio practice and independent research.

Course structure

The course is undertaken by full-time study over three years. It may also be undertaken by part-time study after consultation with the Visual Art Selection Committee. All compulsory units must be successfully completed. This course is valued at 120 credit points per year.

First year

Teaching period	Unit title	Unit code
TE-SEM-1	Art and Visual Culture A	VPA1VCA
TE-SEM-1	Theory and Methodologies in Studio Practice	AVPA1TMA
TE-SEM-1	Visual Arts Media Workshop A	VPA1MWA
TE-SEM-1	Comparative Studies in Visual Media A	VPA1CVA
TE-SEM-2	Art and Visual Culture B	VPA1VCB
TE-SEM-2	Theory and Methodologies in Studio Practice	BVPA1TMB
TE-SEM-2	Visual Arts Media Workshop B	VPA1MWB
TE-SEM-2	Comparative Studies in Visual Media B	VPA1CVB

Second year

Teaching period	Unit title	Unit code
TE-SEM-1	Theory and Methodologies in Studio Practice C	VPA2TMC
TE-SEM-1	Visual Arts Media Workshop C	VPA2MWC
TE-SEM-1	Comparative Studies in Visual Media C	VPA2CVC
TE-SEM-2	Theory and Methodologies in Studio Practice D	VPA2TMD
TE-SEM-2	Visual Arts Media Workshop D	VPA2MWD
TE-SEM-2	Comparative Studies in Visual Media D	VPA2CVD

Third year

Teaching period	Unit title	Unit code
TE-SEM-1	Theory and Methodologies in Studio Practice	EVPA3TME
TE-SEM-1	Professional Studies A	VPA3PSA
TE-SEM-1 or	Visual Arts Media Workshop E	VPA3MWE
TE-SEM-1	Comparative Studies in Visual Media E	VPA3CVE
TE-SEM-2	Theory and Methodologies in Studio Practice	FVPA3TMF
TE-SEM-2	Professional Studies B	VPA3PSB
TE-SEM-2 or	Visual Arts Media Workshop F	VPA3MWF
TE-SEM-2	Comparative Studies in Visual Media F	VPA3CVF

Studio major

Sequential studies in any one given medium offered in Theory and Methodologies in Studio Practice units constitute a major area of study. Students are encouraged to expand their technical knowledge in their chosen media by undertaking parallel studies in Visual Arts Media Workshop units. The aesthetic and technical base is further expanded through the studio-based Comparative Studies in Visual Media units in another medium.

Facilities available

Quality facilities include industry-standard multimedia computing and digital imaging facilities, photographic studios with separate darkrooms for black and white and colour production, extensive painting and drawing studios and intaglio and relief printmaking studios. There is a ceramics centre with clay preparation plant; wheels; and electric, natural gas, LPG and wood-fired kilns. Students have access to studios during weekday evenings and at weekends, under the regulations as prescribed by the Head of School of Visual Arts and Design. A large gallery is maintained with a continuing program of exhibitions.

Regulations

While it is permissible to take longer than three years to complete the course, any unit failed must be passed on the second attempt in the consecutive semester or year. Any formal written examination will be moderated. Reconsideration is not possible for the studio-based units Theory and Methodologies in Studio Practice, Visual Arts Media Workshops and Comparative Studies in Visual Media, where the whole folio is assessed by a panel of examiners.

Special assessment details

Visual Arts Media Workshop and Comparative Studies in Visual Media units will be progressively assessed on three assignments per semester. Theory and Methodologies in Studio Practice units are based on folio assessments, which will be assessed by a panel of staff responsible for studio units. The examination panel for the Theory and Methodologies in Studio Practice F assessment includes outside moderators selected for their high standing in visual arts.

Visual Arts electives for non-Bachelor of Visual Arts/Bachelor of Visual Arts (Graphic Design) students.

Bachelor of Graphic Design – Bendigo (RBVAGD)

This course aims to equip students with the creative and technical skills necessary for employment as a graphic designer in a variety of professional situations. The Bachelor of Visual Arts (Graphic Design) involves three years of full-time study. This course is also available at the Mildura Campus – please refer to the Mildura Campus entry in this *Handbook* for the course structure.

Admission requirements

As for Bachelor of Visual Arts.

Folio requirements

As for Bachelor of Visual Arts.

Course structure

The course is undertaken by full-time study over three years. It may also be undertaken by part-time study after consultation with the Graphic Design Selection Committee. Prospective students should check course details with the course coordinator prior to enrolment. All units are compulsory. This course is valued at 120 credit points per year.

First year

Teaching period	Unit title	Unit code
TE-SEM-1	Applied Design 1	VPA1AD1
TE-SEM-1	Art and Visual Culture A	VPA1VCA
TE-SEM-1	Design Studies 1	VPA1DS1
TE-SEM-1	Visual Arts Media Workshop A	VPA1MWA
TE-SEM-2	Applied Design 2	VPA1AD2
TE-SEM-2	Art and Visual Culture B	VPA1VCB
TE-SEM-2	Design Studies 2	VPA1DS2
TE-SEM-2	Visual Arts Media Workshop B	VPA1MWB

Second year

Teaching period	Unit title	Unit code
TE-SEM-1	Applied Design 3	VPA2AD3

TE-SEM-1	Design Studies 3	VPA2DS3
TE-SEM-1	Visual Arts Media Workshop C	VPA2MWC
TE-SEM-2	Applied Design 4	VPA2AD4
TE-SEM-2	Design Studies 4	VPA2DS4
TE-SEM-2	Visual Arts Media Workshop D	VPA2MWD

Third year

Teaching period	Unit title	Unit code
TE-SEM-1	Applied Design 5	VPA3AD5
TE-SEM-1	Design Studies 5	VPA3DS5
TE-SEM-1	Graphic Design Professional Practice A	VPA3GPA
TE-SEM-2	Applied Design 6	VPA3AD6
TE-SEM-2	Design Studies 6	VPA3DS6
TE-SEM-2	Graphic Design Professional Practice B	VPA3GPB

During staff–student engagement time, teaching will occur in the form of lectures, workshops, technical demonstrations, tutorials, individual consultation and studio practice as dictated by the student's approved research proposal. When staff are not present outside of formal engagement times, studio technical support staff will be available for technical demonstrations, information and assistance. From semester two of the second year onwards, studies are built upon specific studio components and developed through sustained studio practice and independent research.

Studio major

As for Bachelor of Visual Arts.

Facilities available

Facilities for graphic design include large design studios, colour and monochrome dark rooms and photography studios equipped with electronic flash and access to industry standard image formats. A computer graphics and digital design laboratory is furnished with 32 high-end Macintosh computers, CD burners, scanners and a Final Cut Pro digital video-editing suite.

Regulations

As for Bachelor of Visual Arts.

Special assessment details

As for Bachelor of Visual Arts.

Visual Arts electives for non-Bachelor of Visual Arts/Bachelor of Graphic Design students are available. Units include options in:

Ceramics
Multimedia
Illustration
Photography
Photojournalism
Printmaking
Painting/Drawing
Visual Arts Practice are tailored to the Educational degrees.

Bachelor of Visual Arts (Honours) – Bendigo (RHVA)

The Bachelor of Visual Arts (Honours) is intended to foster a spirit of excellence and a strong sense of independent artistic inquiry. It is designed to meet the needs of visual artists who seek a higher intellectual and artistic achievement than is practical at undergraduate level. It addresses these needs at a professional level in practice (studio) and visual art theory

and research. The inspiration for the high level of artistic achievement is pursued through an individual program of study at greater depth in either a technical, theoretical or conceptual component, thus forming the core of students' artistic exploration.

Admission requirements

Upon successful completion of a three year Bachelor of Visual Arts degree or equivalent, a candidate may apply to the Honours coordinator, Visual Arts, to undertake the Honours program. On receipt of a favourable recommendation from the Honours Selection Panel, the applicants will be admitted to the Honours degree, provided that (1) they have achieved an average B grade (70% or higher) in the third year of their pass degree, preferably with an A-grade average (80% or higher) within the applicant's chosen discipline(s) or major area(s) of studio study, or equivalent.

All applicants must provide their study proposal with their application. The Bachelor of Visual Arts (Honours) consists of one academic year of full-time study. The program is predominantly studio based and is therefore not available for external study.

Course structure

This is an advanced studio program based upon the candidate's study proposal. This course is valued at 120 credit points. The course comprises two compulsory and related segments.

Teaching period	Unit title	Unit code
TE-ALLYR	Studio Practice ¹	VPA4SP
TE-ALLYR	Research – Visual Art ²	VPA4RVA

Key: ¹ Comprising 20 hours per week for 26 weeks, 90 credit points.

² Three hours per week for 26 weeks, 30 credit points.

Studio major

Studio majors available are: ceramics, multimedia, painting and drawing, photography and printmaking.

Bachelor of Graphic Design (Honours) – Bendigo (RHVAGD)

The Bachelor of Graphic Design (Honours) is intended to foster a spirit of excellence and a strong sense of independent artistic inquiry. It is designed to meet the needs of designers who seek a higher intellectual and professional achievement than is practical at an undergraduate level. It addresses these needs in graphic design practice (studio), theory and research. Consistent with the rationale of fostering a sense of independent artistic inquiry, the program provides an opportunity for graduates to explore a specific genre within graphic design (designated by themselves in an approved study program), in a manner not possible with the more generalised requirements of an undergraduate program.

Areas of specialisation may include illustration, advertising or editorial design, web design, corporate branding, photojournalism or others as specified in a proposal on application.

Admission requirements

As for Bachelor of Visual Arts (Honours).

Course structure

As for Bachelor of Visual Arts (Honours).

ENG2WS WRITING SONGS OF PROTEST (20 CPs Sem. TE-SEM-2 BE.) Dr Sue Gillett

This unit is offered at third year level also.

In this unit we will begin with an analysis of early spirituals and blues songs of African-Americans and then consider popular and political lyric compositions of the 20th and 21st centuries. The emphasis will be on folk and blues traditions, songs of protest and social justice, particularly in the following contexts: the American Civil Rights movement; the anti-nuclear and anti-war movements; feminist politics; Aboriginal land-rights, stolen generations and reconciliation politics. We will consider: what are the qualities and conditions that turn a conscience-song into an activist anthem? how important are the literary qualities of a protest song to its success? what relationships exist between the popularity of a song and its political effectiveness? There will be a practical emphasis on the craft of writing song lyrics. The composition of exemplary songs of social justice will be

examined and students will be required to write their own song lyrics on specified themes.

Prerequisite: 30 cps of first year English or HUM1CL AND HUM1MM or coordinator's approval.

Class requirements: One 3-hour lecture/tutorial per week.

Assessment: One 1500-word essay (30%), one original lyrics workbook (2000 words equivalent) (40%), one 1500-word essay (30%). Third year students will be expected to show a greater achievement of discipline-specific skills in their written work than second year students.

ENG3WS WRITING SONGS OF PROTEST (20 CPs Sem. TE-SEM-2 BE.) *Dr Sue Gillett*

See ENG2WS for full unit description.

GEG1SP SOCIETY, PEOPLE AND PLACE (15 CPs Sem. TE-SEM-2 BE.) *Mr*

Andrew Butt

In this unit students will focus on Society, People and Place. We deal specifically with the structure of Australian society, examining issues related to the changing demographic and socio-economic status of populations and the way in, which space and social structures in society interact to shape the quality of life and a sense of place for Australian people. Students will be introduced to a range of debates and social policies related to current issues such as an ageing population, population size, internal migration, immigration and a declining workforce base. Comparisons of the issues and the implication of major demographic and socio-economic trends will be made between metropolitan, regional and rural Australia and other countries. Students will also be introduced to the theoretical foundations of community development and the link between community development practice and the understanding of the broader population characteristics and debates outlined above.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: One 500-word poster assignment including a five minute oral presentation (30%), one 1250-word essay (25%), one 2-hour examination (45%)

Recommended Reading:

HIS1DEV GLOBALISATION: THE RISE OF THE MODERN WORLD (15 CPs Sem. TE-SEM-2 BE, BU, SH.) *Dr Robbie Robertson*

Multi-campus unit involving some delivery by video conferencing
Globalisation is a process, much in the news, by which distant regions are increasingly linked, shaping our lives and impacting on the fate of nations. In this unit students will explore world history by examining the process by which the wealthy countries expanded into and influenced the rest of the world. Today we think primarily in terms of industry, trade and technology; in addition in this unit we take a broader view of globalisation, including the expansion of European customs, laws and attitudes as well as technology.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: Weekly quiz (20%), one 1000-word bibliographic essay (30%), one 2000-word essay (50%)

HIS1MEA MODERN EUROPE A: FROM MONARCHIES TO NATIONS (15.

CPs Sem. TE-SEM-1 BE, BU, SH.) *BU: Dr Philip Bull, BU: Dr Adrian*

Jones, BU: Dr Jennifer Ridden

In this unit, students study how the old monarchical and paternalist orders of society in Europe were transformed by ideas of liberty, democracy and nationalism. Initially the focus is upon the values and traditions of the Old Regimes. Students will then trace how these were undermined by the French and Industrial Revolutions. The impact of new ideas of rights, citizenship, nationality, democracy and equality are the focus of studies of key and contrasting episodes in the history of European nations in the nineteenth century. In these developments can be seen the roots of the political and social crises of the twentieth century.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: Essay/exercises (2000 words equivalent) (60%), one 2-hour examination (40%). Alternatively, students may choose to reverse the percentage weightings of the two assessment components.

Preliminary Reading:

Woloch, I. *Eighteenth-century Europe: tradition and progress 1715-1789* Norton, 1982.

Huften, O. *Europe: privilege and protest, 1730-1789* Harvester, 1980.

Recommended Reading:

HIS1REV REVOLUTIONARY EUROPE (15. CPs Sem. TE-SEM-1 BE, SH.) *BE:*

Dr Yolande Collins, SH: Dr Al Gabay

Not available in 2008

HIS2ALS AUSTRALIAN LABOUR AND THE STATE (20. CPs Sem. TE-SEM-2 BE, SH.) *Dr Charles Fahey*

This unit is offered at third year level also.

In this unit students examine the rise of the labour movement and the Australian Labour Party, taking account of factors such as the growth of industry, the great strikes of the 1890s and the 1890s depression. Students examine the growth of state regulation in the labour movement through the introduction of wages boards and federal arbitration and the response of conservative political parties to the growth of labour. How the experiments of the 1890s and 1900s developed over the course of the century – through booms, depressions and wars – is also examined.

Prerequisite: 30 credit points of first year history or sociology, or coordinator's approval.

Class requirements: One 1-hour lecture and one 2-hour workshop per week.

Assessment: 1000-word work-shop presentation (20%), 2000-word research essay (40%), one 2-hour take-home examination (40%). Third year students will be expected to display a higher level of discipline-specific skills in their written work than second year students.

HIS2BH BRITISH HISTORY (20 CPs Sem. TE-SEM-2 BE.) *Dr Yola Collins*

This unit is offered at third year level also.

Not available in 2008

HIS2BM BLOOD, GUTS AND MEDICINE: A SOCIAL HISTORY OF MEDICINE IN AUSTRALIA 1850 TO 1970 (20 CPs Sem. TE-SEM-2 BE, SH.)

Dr Yolande Collins

This unit is offered at third year level also.

Not available in 2008

HIS2DA DANGEROUS ATTRACTIONS: RACE, SEX AND GENDER (20 CPs Sem. TE-SEM-2 BE.) *Dr Ruth Ford*

This unit is offered at third year level also.

HIS2EUU THE EUROPEAN UNION (20 CPs Sem. TE-SEM-1 AW, BE, BU, MI.)

BU: Dr Stefan Auer, BU: Dr Philip Bull, BU: Dr Anthony Jarvis

This unit is offered at third year level also.

Within the history of the integration process and with a particular focus on the European Union (EU), students will evaluate the extent to which integration has changed the lives of citizens and relations

between nation-states in Europe; critique EU policies and processes; analyse the EU's role as an international actor; and apply insights derived from integration theory. The lecture program for the unit will capitalise on the availability in Australia of many experts associated with the EU and its institutions, as well as providing more general contextual lectures on its history, functioning and place in the contemporary world. Tutorials will be focused on ensuring that students develop an adequate understanding of how the EU functions, its relationships with member nations and the ways in which it is important to the rest of the world, including Australia.

Prerequisite: Any first year history or politics subject.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: One seminar presentation (equivalent 500 words) (10%), two WebCT quizzes (10%), one 2000-word research essay (40%), one 2-hour examination (40%). Third year students will be expected to show a greater achievement of discipline-specific skills in their written work than second year students.

Recommended Reading:

Cini, M. (Ed) *European Union politics*, 2nd edn. OUP, 2003

HIS2GRH GENDER RELATIONS IN AUSTRALIAN HISTORY (20 CPs Sem. TE-SEM-2 BE.) *Dr Ruth Ford*

This unit is offered at third year level also.

Why were Aboriginal children removed while white women were urged to have babies? Why were convict women seen as depraved and disorderly? What political rights did women struggle for? In this unit students examine changing relationships between women and men in nineteenth and twentieth century Australia. We explore the experience of indigenous women, female convicts, settlers and migrants. We consider gender and work, masculinity and national identity, political movements for equal rights, romance, family and sexuality. Students will conduct a research project/essay (individual or group) based on an oral history interview or historical documents, gaining valuable research and interviewing skills.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: One 10-minute seminar presentation (10%), one 1500-word essay (30%), one 2000-word research essay (40%), one 1000-word journal (100 words/wk for 10 weeks) (20%). Hurdle requirement: 75% tutorial attendance. Third year students will be expected to display a higher level of discipline-specific skills in their written work than second year students.

Preliminary Reading:

Grimshaw, P et al. *Creating a nation 1788–1990* McPhee Gribble, 1994

Prescribed Reading:

Saunders, K and Evans, R. (Eds) *Gender relations in Australia: domination and negotiation* Harcourt Brace Jovanovich, 1992

Recommended Reading:

Lake, M. *Getting equal: the history of Australian feminism* Allen and Unwin, 1999

HIS2NI NATIONALISM AND IDENTITY (20 CPs Sem. TE-SEM-1 BE, SH.) *Dr Robbie Robertson*

Robbie Robertson

This unit is offered at third year level also.

In this unit we examine the many ways that nationalism has shaped identities and why it continues to do so. We will also look at the impact that development and globalisation have on identities and in particular on the role both play in enabling new identities to emerge and challenge older identities (including nationalisms) that have for a long time been considered the natural order of things. Issues covered include: indigenism, cultural imperialism, globalisation, republicanism and clashes of civilisations. Although we draw heavily on the wider Pacific region, including Australia and New Zealand, our focus is global.

Prerequisite: 30 credit points of first year History or coordinator's approval.

Class requirements: One 2-hour presentation and one 1-hour seminar per week.

Assessment: one 1000-word book review (20%), one 500-word research proposal (10%), one 2500-word research essay (50%), one seminar presentation (1000 words equivalent) (20%). Third year

students will be expected to display a higher level of discipline-specific skills in their written work than second year students.

Prescribed Reading:

Said, E. *Culture and imperialism*, Chatto and Windus, 1993

HIS2OWD OUT WEST AND DOWN UNDER (20. CPs Sem. TE-SEM-2 BE.)

Dr Charles Fahey

This unit is offered at third year level also.

Not available in 2008

HIS2RAR RIOTS AND REBELLIONS (20 CPs Sem. TE-SEM-2 BE, BU.) *Dr Jennifer Ridden*

Jennifer Ridden

This unit is offered at third year level also.

Students will be introduced to the study of riots and rebellions and will explore what these movements can tell us about the transformation of pre-modern societies in the eighteenth century into modern societies in the nineteenth century. Examples include the 1798 Irish rebellion, the Scottish Jacobites, the Welsh Rebecca riots and English machine-breaking protests, as well as the American War of Independence and the 1857 Indian rebellion. We will examine their changing aims and methods, their impacts on socio-economic and cultural relations, on political structures within domestic Britain and on the development of a 'British world' overseas. Students will critically consider three common assumptions: that Britain's status as a pre-eminent industrial world power was unchallenged; that domestic Britain was both peaceful and secure; and the development of a 'British world' involved the reproduction of a relatively settled and homogeneous society 'at home'.

Prerequisite: 30 credit points of first year history.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: One 1000-word essay (25%), ten 100-word written discussion notes on WebCT (25%), one 3000-word essay (50%). Third year students will be expected to show a greater achievement of discipline-specific skills in their written work than second year students.

HIS3HS HERITAGE STUDIES (20. CPs. TE-SEM-2 BE, SH.) *Dr Yola Collins*

Students are taught to develop skills in the evaluation and identification of heritage places and environments, assess and document sites for conservation and gain a basic understanding of Victorian and (some) international heritage legislation. These theoretical and practical skills are then used to address issues concerning the North Central Victorian region.

Class requirements: One 1-hr lecture and one 2-hr seminar per week (includes some excursions).

Assessment: One 2,500-word essay (50%), one 2.5-hour exam (50%). Third year students will be expected to display a higher level of discipline-specific skills in their written work than second year students.

In this unit we introduce Western literature at its birth, both for the intrinsic value of the works themselves and as a foundation for understanding the seminal role of classical literature in Western consciousness. We examine issues such as the transition from non-literate song to literary epic, narrative technique, the function of myth in literature, the use and re-use of material drawn from the same myth cycle, the concept of the hero, the difference between epic and tragedy, literature and life, women in classical literature, the relationship between Greek and Roman literature, the classical sensibility and the concept of the canon.

Class requirements: Three 1-hour lectures and one 1-hour tutorial per week.

Assessment: One 1000-word assignment (25%), one 1-hour class test (25%), one 2-hour examination (50%)

Prescribed Reading:

Seneca *Thyestes*, in *Four Tragedies and Octavia*, Tr. Watling, E. F. Penguin

HUM1GM GREEK MYTHOLOGY (15. CPs Sem. TE-SEM-2 BE.) *Dr Roger**Sworder*

Greek myths exercised an influence on almost all the departments of Greek civilisation – on their sense of history, on their philosophic systems, on all the branches of their arts and on their religious cults. Study of Greek myths allows a ready approach to the totality of the classical Greek experience. In lectures students are introduced to some of the major myths and myth cycles and to interpretations of them. In tutorials we evaluate the arguments for these interpretations and consider ways in which these myths have functioned as formative elements in the western cultural tradition.

Class requirements: Three 1-hour lectures and 1-hour tutorial per week.

Assessment: One 2000-word essay (50%), one 2000-word essay (50%)

Prescribed Reading:

Homer *The Odyssey*, Tr. E. V. Rieu 2nd edn. Rev. D. C. H. Rieu. Penguin

Plato *The last days of Socrates*, Tr. H Tredennick. Penguin

HUM1IRS INTRODUCING RELIGIOUS STUDIES (15. CPs Sem. TE-SEM-1BE.) *Dr Harry Oldmeadow*

This is an introduction to the academic and comparative study of religion, religions and religious phenomena. The unit starts with a consideration of some general theoretical and methodological issues and then proceeds through three modules focusing on the study of primal, mythological religions, the understanding of sacred texts and an introduction to Buddhism. Students are introduced to some of the themes and concerns which are studied in greater depth later in the Philosophy and Religious Studies sequence. Illustrative material and case studies will be drawn from primal cultures such as those of the Australian Aborigines and the Plains Indians of North America and from the great historical religious traditions of both East and West.

Class requirements: One 2-hour lecture, one 1-hour lecture and one 1-hour tutorial per week.

Assessment: One 1500-word research essay (40%), one 1-hour class test (20%) and one 1.5-hour examination (40%)

Prescribed Reading:

Anthology Reading Bookshop, La Trobe University, Bendigo

HUM1MM MODERN MYTH IN LITERATURE AND FILM (15. CPs Sem. TE-SEM-2 BE, SH.) *Dr Sue Gillett*

The culture of post-Renaissance Europe is examined via some of the most famous stories and heroic figures of the 17th and 19th centuries. Stories and figures of such fundamental importance to human nature that, having once been invented, they continually seek to re-invent themselves in art and thought. Study proceeds in two directions. In one direction, these stories disclose the fundamental nature of certain trends in European society over the past four centuries, while in another, they disclose their kinship with, or derivation from, ancient stories, mythical figures and modes of thought.

Class requirements: Three 1-hour lectures and one 1-hour tutorial per week.

Assessment: One 1000-word essay (25%), one 1-hour class test (25%), one 2-hour examination (50%)

TE-SEM-1 BE.) *Mr John**Penwill**This unit is offered at third year level also.*

This unit represents the first semester of study for an all-year unit. Students undertake a thorough study of elementary Greek grammar, which is taught as far as possible through reading. Students study grammar that covers the various verb forms, the case-endings of nouns, pronouns and adjectives, the use of adverbs, conjunctions and prepositions and the way in which Greek sentences are put together. The reading is carefully graded so as to correspond to the level of grammatical competence reached at each stage and is supported with full running vocabulary.

Class requirements: Two 2-hour lectures per week.

Assessment: Weekly translation assignments (2000 words equivalent) (40%), one 3-hour examination (60%). Third year students will be expected to display a higher level of discipline-specific skills in their written work than second year students.

HUM2CGB CLASSICAL GREEK B (20 CPs Sem. TE-SEM-2 BE.) *Mr John**Penwill**This unit is offered at third year level also.*

This unit represents the second semester of study for an all-year unit. Students undertake a thorough study of elementary Greek grammar, which is taught as far as possible through reading. Students study grammar that covers the various verb forms, the case-endings of nouns, pronouns and adjectives, the use of adverbs, conjunctions and prepositions and the way in which Greek sentences are put together. The reading is carefully graded so as to correspond to the level of grammatical competence reached at each stage and is supported with full running vocabulary.

Class requirements: Two 2-hour lectures per week.

This unit is not available for 'Study Abroad' students.

Assessment: Weekly translation assignments (2000 words equivalent) (40%), one 3-hour examination (60%). Third year students will be expected to display a higher level of discipline-specific skills in their written work than second year students.

CPs Sem. TE-SEM-2 BE.) *Dr Roger**Sworder**This unit is offered at third year level also.**Not available in 2008***HUM2ERP EASTERN RELIGION AND PHILOSOPHY** (20 CPs Sem. TE-SEM-1 BE.) *Dr Harry**Oldmeadow**This unit is offered at third year level also.*

An introduction to some of the central religious and philosophical ideas and principles of the Eastern traditions, with a particular focus on Hinduism and Buddhism; sacred scriptures; religious and social institutions; art and iconography. In this unit we focus primarily on India but some attention will also be given to Tibet, China and Japan.

Prerequisite: 30 credit points of first year philosophy or religious studies, or coordinator's approval.

Class requirements: Three 1-hour lectures and one 1-hour tutorial per week.

Assessment: One 2000-word essay (40%), one 1000-word book review (20%), one 2-hour examination (40%). Third year students will be expected to display a higher level of discipline-specific skills in their written work than second year students.

Preliminary Reading:

Smith, H. *The world's religions: our great wisdom traditions* Harper 1992

HUM2GC GENDERED CINEMA (20 CPs Sem. TE-SEM-2 BE.) *Dr Sue Gillett**This unit is offered at third year level also.**Not available in 2008***HUM2GP GREEK PHILOSOPHY** (20 CPs Sem. TE-SEM-2 BE.) *Dr Roger**Sworder**This unit is offered at third year level also.*

A study of classical Greek philosophy, commencing with Hesiod and moving through the pre-Socrats, Plato and Aristotle to Epicurus. Hesiod's *Theogony*, *works and days* set the scene for particular ways of thinking about both the physical and the moral world. Students then explore the principal strands of pre-Socratic thought, with special attention to Heraclitus, Parmenides, Empedocles and Democritus. Socrates and Plato enter via *The Republic*. Here discussion encompasses all the issues – moral, aesthetic, epistemological, political, metaphysical – that *The Republic* ties together. The unit concludes with a consideration of Aristotle's ethical theory and Epicurus' formula for spiritual well-being.

Prerequisite: 30 credit points of first year Philosophy and Religious Studies, or coordinator's approval.

Class requirements: Three 1-hour lectures per week.

Assessment: One 2000-word assignment (40%), one 1-hour class test (20%), one 2-hour examination or two 1000-word assignments (40%). Third year students will be expected to display a higher level of discipline-specific skills in their written work than second year students.

HUM2IC THE IDEA OF THE CLASSIC (20. CPs Sem. TE-SEM-1 BE.) *Mr John**Penwill**This unit is offered at third year level also.*

The study of classicism as a permanent ideal in western culture; its first manifestation in the art of ancient Greece, in particular the representation of the human body in sculpture and painting and the architecture of temple and theatre. The changes that the ideal proves capable of and the ideologies it comes to serve: Hellenistic innovation, Roman classicism, 18th century classical revivalism, French neo-classicism, 20th century fascism.

Prerequisite: 30 credit points of first year English, or coordinator's approval.

Class requirements: One 3-hour lecture per week.

Assessment: One 1500-word assignment (30%), one 2-hour class test (40%), one 1500-word assignment (30%). Third year students will be expected to display a higher level of discipline-specific skills in their written work than second year students.

HUM2ML MODERN LITERATURE (20. CPs Sem. TE-SEM-2 BE.) *Mr Maurie Nestor*

This unit is offered at third year level also.

An endeavour to confront our changed relation to the past through a study of key books written during the first 20 or 30 years of this century by authors such as Yeats, Eliot, Pound and Rilke, Conrad, Lawrence, Joyce and Woolf. Their dis-ease and dismay at loss of the Past and loss of meaning. The validity of their various attempts to find, or to forge, value out of a present that can no longer admit of old assurances. The difficult relation of all these things to a contrary heightening of consciousness and to a quickening of experiment in form and language that equally mark the movement.

Prerequisite: 30 credit points of first year English or coordinator's approval.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: One 1500-word assignment (30%), one 1-hour class test (20%), one 2.5-hour examination (50%). Third year students will be expected to display a higher level of discipline-specific skills in their written work than second year students.

HUM2MS MEDIEVAL STUDIES (20 CPs Sem. TE-SEM-2 BE.) *Dr Rodney Blackhirst*

This unit is offered at third year level also.

In this unit students are introduced to some cultural and intellectual aspects of medieval Europe. Depending on the availability of staff, topics studied will include the monastic ideal, European pagan mythologies, the role and meaning of the Arthurian legend in medieval England, the Crusades and courtly culture, perceptions of landscape and animals, the symbolism of the hunt, the symbolism of the gothic cathedral and the perceptions and culture of death. Students will have a wide range of topics to choose from so that they can follow their own interests in their major research essay.

Prerequisite: 30 credit points of first year History or Philosophy and Religious Studies, or coordinator's approval.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: One 2500-word essay (50%), two class tests (2500 words equivalent) (50%). Third year students will be expected to display a higher level of discipline-specific skills in their written work than second year students.

HUM2RM ROMANTIC MOVEMENT (20. CPs Sem. TE-SEM-1 BE, SH.) *Dr Roger Swarder*

This unit is offered at third year level also.

In this unit we explore the origins of such modern ideas as revolution, creativity, sexual liberation, nature, history. We concentrate on the high Romantic poets – Blake, Wordsworth, Coleridge, Keats; but some attention may also be given to Romantic painting and music. Additional texts provide an introduction to Romantic theories of the imagination, Romantic Satanism and the death of Romanticism. The theme of our study is an examination of the success or failure of Romantic art and idealism as answers to present problems.

Prerequisite: 30 credit points of first year English, or coordinator's approval.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: One 1500-word essay (30%), one 1.5-hour class test (30%), one 2-hour written examination (40%). Third year students will be expected to display a higher level of discipline-specific skills in their written work than second year students.

Prescribed Reading:

Flaubert, G. *Madame Bovary*, Penguin

Williams, O. (edn.) *The Mentor book of major British poets*, For the

poems of Blake, Wordsworth, Coleridge and Keats – Mentor

Bronte, E. *Wuthering Heights*, Signet

HUM2TC TRADITIONAL COSMOLOGIES (20 CPs Sem. TE-SEM-1 BE.) *Dr Rodney Blackhirst*

This unit is offered at third year level also.

Students will study an introduction to ancient and medieval world-views and traditional cosmological sciences considered on their own terms, not as proto-science or obsolete superstitions. Topics include creation myths, astrology, alchemy, sacred geometry, the four element theory, traditional medicine, the human body as microcosm. The focus of the unit is Plato's major cosmological dialogue, *Timaeus*.

Class requirements: One 3-hour lecture per week.

Assessment: One 3000-word essay (60%), one 2-hour exam (40%). Third year students will be expected to show a greater achievement of discipline-specific skills in their written work than second year students.

Prescribed Reading:

Plato *Timaeus and Critias* Penguin, 1986

INM1IA INDONESIAN 1A (15. CPs Sem. TE-SEM-1 BE.) *Ms Nita Rahayu*
In this introductory subject, students will study a series of dialogues and readings. The students will develop the skills to communicate predictable personal information on familiar topics within the theme daily life. The students will also acquire an understanding of the cultural differences and similarities between Indonesian and Australian contexts.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week

Assessment: One five minute class presentation (10%), five minute bi-weekly written or spoken exercises (30%), one 1-hour mid-semester test (10%), one 1-hour written examination (20%), one 10-minute oral examination (30%).

Prescribed Reading:

Marshall, B *Kehidupan Seharian-hari A*, La Trobe University, Bendigo 2003

Recommended Reading:

Sahanaya, W and Tan, A. *The Oxford Study Indonesian Dictionary* Oxford University Press, 2001

INM1IB INDONESIAN 1B (15. CPs Sem. TE-SEM-1 BE.) *Ms Nita Rahayu*
Through the study of a series of dialogues and readings and the completion of a range of consolidating and communicative tasks, this unit provides the opportunity for the development of listening, speaking, reading and writing skills to the basic transactional level. The theme is daily life, but increasingly in the Indonesian context. Students will acquire an understanding of key linguistic features in Indonesian and form a comparison with English.

Perequisites: INM1IA

Class requirements: One 2-hour lecture and one 2-hour tutorial per week.

Assessment: One five minute class presentation (10%), five minute bi-weekly written or spoken exercises (30%), one 1-hour mid-semester test (10%), one 1-hour 20-minute written examination (20%), one 10 minutes oral examination (30%).

Prescribed Reading:

Marshall, B. *Kehidupan Seharian-hari B (Daily Life B)* La Trobe University, Bendigo 2003

Sahanaya, W and Tan, A. *The Oxford study Indonesian dictionary* Oxford University Press, 2001

INM2IC INDONESIAN 2C (15. CPs Sem. TE-SEM-1 BE.) *Ms Nita Rahayu*

In this unit, students will learn to hold conversations and write a range of discourse forms on various topics within the theme society and environment. Through a variety of activities, both consolidating and communicative, students will develop their proficiency in listening, speaking, reading and writing and expand their knowledge of Indonesian culture.

Prerequisite: INM1IB.

Class requirements: One 2-hour lecture and one 2-hour tutorial per week.

Assessment: Two 600-word written assignments (30%), one 7-minute oral and presentation (20%), one 15-minute oral examination (20%), one 1.5-hour written examination (30%)

Prescribed Reading:

Lowry, D and Rahayu, N. *Masyarakat dan Lingkungan Indonesia (Indonesian Society and Environment)*, La Trobe University, Bendigo 2003

Sahanaya, W and Tan, A. *The Oxford study Indonesian dictionary*, OUP 2001

INM2ID INDONESIAN 2D (15. CPs Sem. TE-SEM-2 BE.) *Ms Nita Rahayu*

This unit extends the ability of students to hold conversations and write a range of discourse forms on topics such as the environment, famous people and relationships, within the theme society and environment. Through a variety of activities, both consolidating and communicative, students will develop their proficiency in listening, speaking, reading and writing and expand their knowledge of Indonesian culture and society, especially as it compares with Australian culture and society.

Prerequisite: INM2IC.

Class requirements: One 2-hour lecture and one 2-hour tutorial per week.

Assessment: Two 600-word written assignments (30%), one 7-minute oral task and presentation (20%), one 15-minute oral examination (20%), one 1.5-hour written examination (30%)

Prescribed Reading:

Lowry, D and Rahayu, N. *Masyarakat dan Lingkungan Indonesia (Indonesian Society and Environment)*, La Trobe University, Bendigo 2003

Sahanaya, W and Tan, A. *The Oxford study Indonesian dictionary*, OUP 2001

INM3IE INDONESIAN 3E (15. CPs Sem. TE-SEM-1 BE.) *Mrs Nita Rahayu*

Through a close study of extended dialogues and readings on Javanese and Makassar society, the students will develop an understanding of the diversity of Indonesia. The students will enhance their productive language skills by writing and reports procedural texts and giving an oral presentation in which they will show some degree of mastery of specialised language and a range of increasingly sophisticated linguistic features.

Prerequisite: INM2ID.

Class requirements: One 2-hour lecture and one 2-hour tutorial per week.

Assessment: One 7-minute oral presentation (20%), two 300-word written assignments (20%), one 15-minute oral examination (25%), one 1.5-hour written examination (35%)

Prescribed Reading:

Marshall, B and Rahayu, N. *Pahlawan Indonesia*, La Trobe University, Bendigo 2003

INM3IF INDONESIAN 3F (15. CPs Sem. TE-SEM-2 BE.) *Mrs Nita Rahayu*

In this unit, students examine the major historical influences on the development of Indonesia. The students will develop their Indonesian language skills by responding to readings and other resources such as film extracts to develop an understanding the major themes.

Prerequisite: INM3IE.

Class requirements: One 2-hour lecture and one 2-hour tutorial per week.

Assessment: One 7-minute oral presentation (20%), two 300-word written assignments (20%), two 15-minute oral examinations (25%), one 1-hour 30-minute written examination (35%)

Prescribed Reading:

Marshall, B and Rahayu, N. *Masyarakat Indonesia Kontemporer*, La Trobe University, Bendigo 2003

INM4IG INDONESIAN G (15. CPs Sem. TE-SEM-1 BE.) *Ms Nita Rahayu*

In this unit, students extend their study of diversity in Indonesia by examining the cultural background of a number of important Indonesian communities. Extended reading is required, as are regular responses to the material, both orally and in writing. Students will demonstrate increasing mastery of a range of linguistic features, particularly those required for writing, such as affixation.

Prerequisite: INM3IF.

Class requirements: One 2-hour lecture and one 2-hour tutorial per week.

Assessment: one 10-minute oral presentation (20%), one 750-word written assignment (20%), one 750-word grammar journal (10%), one 15-minute oral examination (20%), one 1-hour 30-minute written examination (30%)

INM4IH INDONESIAN H (15. CPs Sem. TE-SEM-2 BE.) *Ms Nita Rahayu*

In this unit, students will study examples of Indonesian literature, including short stories and poetry, for appreciation of the content, but also to develop an understanding of the vocabulary, structures and writing styles found in literature. They will respond to their reading in various ways, for example, by turning a narrative into a newspaper style article or by dramatising a short story.

Prerequisite: INM4IG.

Class requirements: One 2-hour lecture and one 2-hour tutorial per week.

Assessment: One 750-word summary (10%), one 10-minute oral presentation (20%), one 750-word article (20%), one 15-minute oral examination (20%), one 1.5-hour written examination (30%)

Prescribed Reading:

INM4RCI INDONESIAN READING COURSE I (15 CPs Sem. TE-SEM-1 BE.)

Miss Nita Rahayu

This unit requires research and extensive reading, largely in Indonesian, in order for students to develop knowledge of a particular area of Indonesia literature, culture or history. A suitable topic of interest is decided in consultation with the supervisor.

Prerequisite: INM4IH.

Class requirements: One 1-hour weekly meeting with supervisor.

Assessment: Six sustained weekly discussions in Indonesian with supervisor, each of 10-minute duration (20%), one 500-word translation from Indonesian text into English (10%), one 700-word summary of materials read (30%), one 1000-word analytical essay in Indonesian (40%)

Recommended Reading:

Mintz, M. *Advanced writing for students of Malay Indonesian*, EFB Publishers 1993

INM4RCJ INDONESIAN READING COURSE J (15 CPs Sem. TE-SEM-2 BE.)

Ms Nita Rahayu

This unit requires research and extensive reading, largely in Indonesian, in order to develop knowledge of a particular area of Indonesia literature, culture or history. A suitable topic of interest is decided in consultation with the supervisor. The students are encouraged to negotiate topic or area for investigation. The topics could relate to cultural literature, current affairs, etc.

Prerequisite: INM4RCI.

Class requirements: One 1-hour weekly meeting with supervisor.

Assessment: six sustained weekly discussion in Indonesian with supervisor each of ten minutes duration (20%), one 500-word translation from Indonesian into English (10%), one 700-word summary of materials read (30%), one 1000-word analytical essay in Indonesian (40%)

Recommended Reading:

Mintz, M. *Advanced writing for students of Malay Indonesian*, EFB Publishers 1993

PLA1IPD INTRODUCTION TO PLANNING AND DESIGN (15 CPs Sem. TE-SEM-1 BE.) *Mr Trevor Budge*

This unit is an introduction to the theory, concepts and practice of planning and design as an historical development and as practised in contemporary Australia. These developments are studied in the context of progressive architectural movements such as the city beautiful and garden suburb movements and the rise of new urbanism as a design form in reaction to post-WWII suburbs. The urbanisation and suburbanisation of Australia and the role of housing as a social expression of Australia will be explored together with the form and character of regional centres and small towns. The role and function of community-based movements on planning and design will be assessed against the development of legislation and government policy seeking to promote good design. Using case studies, fieldwork and practical work students will develop skills in the assessment of cultural heritage significance and the preparation of a design.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week plus two half-day field trips and two half-day practical design workshops.

Assessment: One 1500-word essay (30%), practical design workshop exercise (equivalent to 1000 words) (30%), one 1.5-hour examination (40%)

Recommended Reading:

PLA1ISP INTRODUCTION TO STATUTORY PLANNING (15 CPs Sem. TE-SEM-2 BE.) *Mr Trevor Budge*

In this unit students examine the statutory bases of Victorian land use and development control, in particular the Planning and Environment Act 1987 and related legislation. Topics covered include: planning as a process and the limitations of land use and development controls; the principles of judicial review of administrative action; scheme amendment; permit applications and applications for review; enforcement; compensation for land acquisition; and the impact of planning decisions. We focus on the formulation and implementation of planning policies and development controls on land.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: One 1000-word assignment (20%), one 1500-word assignment (30%), one 2-hour examination (50%)

Prescribed Reading:

Eccles, D and Bryant, T. *Statutory planning in Victoria*, 2nd edn. Federation Press 1999

PLA1PSD PRINCIPLES OF SUSTAINABLE DEVELOPMENT (15 CPs Sem. TE-SEM-1 BE.) *Mr Andrew Butt*

In this unit we explore the meaning and emerging opportunities of sustainable development – drawing together the inextricable links between the development of human and social capital, the maintenance of natural capital and sustainable wealth creation. Development opportunities are emerging through innovative sustainable technologies and shifts in focus toward ‘growing people’ rather than only ‘growing the economy’. Areas of study will cover issues of social well-being and the measurement of progress; links between economic, social and ecological systems; the value of nature to economic and social well-being; practical examples of sustainability innovations and planning frameworks for sustainable development based on the triple bottom line audit concept. Students will complete the unit understanding the multidisciplinary nature of sustainable development, enabling them to think critically as they undertake subjects within the different disciplines.

Class requirements: Two 1-hour lectures and one 1-hour workshop per week, plus one 1-day field trip.

Assessment: One 1500-word essay (40%), one 2000-word essay (50%), workshop presentation (10 minutes) (10%)

PLA2PPA PLANNING PRACTICE 2A (20 CPs Sem. TE-SEM-1 BE.) *Mr Trevor Budge*

In this unit students are introduced to planning in the work-place through assessments based on visits to workplaces and field work. The focus is on problem-solving using projects involving statutory and strategic planning, natural resource management and environmental protection. We introduce the concept of GIS as a tool to assist in research and problem-solving. Attention is given to the preparation and presentation of project material including practical designs, plans and proposals to resolve problems associated with the physical constraints of sites and the economic and social agenda associated with land use change and development. Concepts such as working with relevant agencies and authorities, liaising with other departments within organisations, consulting with the community, resolving disputes and managing a planning process are introduced. Students are required to bring theory and knowledge together and to apply it to resolve situations from the work-place.

Prerequisite: PLA1ISP.

Class requirements: Students undertake 30 days of work experience prior to the start of semester 1. Weeks 1 to 3 of semester: one 1-hour lecture and one 2-hour workshop per week, weeks 4 to 12 of semester: 2 hours of classes and two days of work experience per week.

This unit is not available for ‘Study Abroad’ students.

Assessment: One 1500-word essay (30%), one group presentation (1500 words equivalent) (30%), one 2000-word practical assignment (40%)

Prescribed Reading:

PLA2RRP RURAL AND REGIONAL PLANNING (20 CPs Sem. TE-SEM-2 BE.)

Mr Andrew Butt

In this unit students will examine the theory, concepts and practice of local, rural and regional planning. The changing settlement structure and demographic characteristics of rural and regional Australia will be examined. A review of the historical development of regional studies and planning will provide a context for current policies and practices. The statutory and institutional planning hierarchy including the roles and responsibilities of agencies at Local, State and Federal Government will be analysed as a basis for understanding their strategies, policies and programs in respect to rural and regional planning and development. On completion of this unit students should have acquired a basic understanding of the preparation, implementation and evaluation of rural and regional planning techniques and practices.

Prerequisite: 30 credit points of first year Community Planning and Development or coordinator's approval.

Class requirements: Two 1-hour lectures and one 2-hour tutorial/practical per week. Postgraduate students may elect the following alternative mode of delivery: 50% of the delivery consisting of six modules of learning materials (paper or electronic), each taking three hours of student time to complete and supplemented by electronic communication with the lecturer and other students. 50% consisting of a three-day intensive workshop.

Assessment: One 3000-word project report (60%), two practical exercises (equivalent to 1000 words each) (40%)

PLA4ESI ASSESSMENT OF ENVIRONMENTAL, ECONOMIC AND SOCIAL IMPACTS (20 CPs Sem. TE-SEM-2 BE. TE-W44-07 BE.) Mr Trevor Budge

Modern planning legislation, including the Victorian Planning and Environment Act 1987, requires that the environmental, economic and social impacts of proposed development are considered in decision-making processes, particularly for major developments. Students will not be provided with the knowledge and skills necessary to undertake such assessment but rather to equip them with knowledge and skills to enable them as practising planners to more adequately supervise the work of consultants and/or to critique studies undertaken by other agencies and/or consultants.

Class requirements: 50% of the delivery consists of weekly modules of learning materials (paper or electronic), each taking three hours of student time to complete and supplemented by electronic communication with the lecturer and other students. 50% consists of a three-day intensive workshop.

This unit is not available for 'Study Abroad' students.

Assessment: One 2000-word assignment (40%), one 3000-word assignment (60%)

Prescribed Reading:

Thomas, I. *Environmental impact assessment in Australia: theory and practice* Federation Press 1996

Smith, LG. *Impact assessment and sustainable resource management*, John Wiley, Longman, Burnt Mill 1993

PLA4LGA LOCAL GOVERNMENT ADMINISTRATION (20 CPs Sem. TE-SEM-1 BE. TE-SEM-2 BE. TE-W44-07 BE.) Coordinator to be advised

In this unit students examine the major changes faced by local government in an environment of technological change, roles and responsibilities in respect to Federal and State Governments, administrative restructures, globalisation and international competitiveness. These changes are considered in the context of competing theories of public administration and the changing role of local government bodies, including the adoption of private sector management principles. We aim to provide an understanding of how different types of local government structures are evolving and the relationship between strategic, tactical and operational functions within local government administration.

Class requirements: 50% of the delivery consists of weekly modules of learning materials (paper or electronic), each taking three hours of student time to complete and supplemented by electronic communication with the lecturer and other students. 50% consists of a three-day intensive workshop.

Assessment: Two 1500-word assignments (50%), one 2-hour examination (50%)

Kelly, A. *Local Government*, Franklin Watts 1999

PLA4NMC NEGOTIATION, MEDIATION AND COMMUNITY DEVELOPMENT (20 CPs Sem. TE-SEM-1 BE. TE-SEM-2 BE. TE-W44-07 BE.) Dr

Michael Faulkner

In this unit we aim to (i) develop skills in and a critical understanding of, the practical aspects of dispute resolution via negotiation, mediation and conciliation; and (ii) provide insights and skills in fostering community participation processes as a means of enhancing community development. Approximately half the unit is devoted to

negotiation, mediation and dispute resolution of conflicts, which arise in relation to development proposals. The issues that emerge from examining disputes and concerns that arise from development proposals are examined in order to provide a more advanced understanding of techniques for managing community conflicts and for fostering public participation in decision-making.

Class requirements: 50% of the delivery consists of weekly modules of learning materials (paper or electronic), each taking three hours of student time to complete and supplemented by electronic communication with the lecturer and other students. 50% consists of a three-day intensive workshop.

This unit is not available for 'Study Abroad' students.

Assessment: Two 1500-word assignments (50%), one 2-hour examination (50%)

PLA4PP PROFESSIONAL PRACTICE (20 CPs Sem. TE-SEM-1 BE. TE-SEM-2 BE. TE-W44-07 BE.) Mr Trevor Budge

In this unit students will critique notions of 'profession' and 'professionalism' and examines the extent to which planning may be called a profession. Students will critically examine: the application of ideas such as equity, fairness and rights to planning practice and the assumptions underlying the rationales used by 'professional planners'. As part of these explorations, client and professional relationships are examined, as are the design and management of briefs, contract administration and the supervision and management of consultants and contractors.

Class requirements: 50% of the delivery consists of weekly modules of learning materials (paper or electronic), each taking three hours of student time to complete and supplemented by electronic communication with the lecturer and other students. 50% consists of a three-day intensive workshop.

This unit is not available for 'Study Abroad' students.

Assessment: One 2000-word assignment (40%), one 3000-word assignment (60%)

PLA4PSP PRINCIPLES OF STRATEGIC PLANNING (20 CPs Sem. TE-SEM-1 BE. TE-SEM-2 BE. TE-W44-07 BE.) Mr Trevor Budge

In this unit the major principles in the development and application of strategic planning are examined. The practice of strategic management, strategic planning and decision-making particularly as it applies to private organisations, State and Local Governments and its application to land use and development is reviewed and analysed. Techniques and means used to apply strategic planning to address a range of corporate, management, community, land use and resource management issues in a context of globalisation, technological change, community expectations and government policy is assessed. These changes are evaluated against the principles and theories of strategic planning and the management of processes to implement strategic plans. An understanding of how the public and private sectors have developed strategic approaches to a range of urban, rural and regional problems is provided.

Class requirements: 13 weekly learning material modules and one three-day intensive workshop.

This unit is not available for 'Study Abroad' students.

Assessment: One 1000-word report (20%), one 2000-word assignment (40%), one 2000-word assignment (40%)

PLA4SP STATUTORY PLANNING (20 CPs Sem. TE-SEM-1 BE. TE-SEM-2 BE. TE-W44-07 BE.) *Mr Trevor Budge*

In this unit students examine the statutory bases of planning land use and development control, in particular relevant Acts and related legislation. Topics covered include: planning as a process and the limitations of land use and development controls; the principles of judicial review of administrative action; scheme amendment; permit applications and applications for review; enforcement; and compensation for land acquisition and the impact of planning decisions. In this unit the focus is on the formulation and implementation of planning policies and development controls on land.

Class requirements: 50% of the delivery consists of seven weekly modules of learning materials (paper or electronic), each taking three hours of student time to complete and supplemented by electronic communication with the lecturer and other students. 50% consists of a three-day intensive workshop.

This unit is not available for 'Study Abroad' students.

Assessment: Two 1500-word assignments (50%), one 2-hour examination (50%)

POL2PIA POLITICAL INTERESTS IN AUSTRALIA (20. CPs Sem. TE-SEM-1 BE.) *Mr Ian Tulloch*

This unit is offered at third year level also.

Some of the significant interest groups in the Australian political system are examined in terms of the issues which mobilise them and evaluated for their influence on the decision-making process. Groups studied may include business, labour, women, aborigines, the media, rural interest groups, political extremes, migrants and environmental organisations.

Prerequisite: 30 credit points of first year politics or sociology, or coordinator's approval.

Class requirements: One 1-hour lecture and one 2-hour tutorial per week.

Assessment: One 2000-word essay (40%), one 1000-seminar paper (20%), one 2000-word essay (40%). Third year students will be expected to display a higher level of discipline-specific skills in their written work than second year students.

POL2PIV POLITICS AND PUBLIC POLICY IN VICTORIA (20 CPs Sem. TE-SEM-2 BE.) *Dr Ardel Shamsullah*

This unit is offered at third year level also.

In this unit students will examine the Victorian political system, exploring the state's institutional political arrangements and reviewing the policy reforms introduced in the 1990s, which reshaped the Victorian public sector. The dramatic fluctuations witnessed in the fortunes of State Governments, from Cain and Kirner to Kennett and Bracks will be assessed. Topics will include: the significance of the States, the role of State parliament, government accountability, the political parties, elections, the media, the premier, privatisation, metropolitan regional issues and policy changes in a range of fields.

Class requirements: One 1-hour lecture and one 2-hour tutorial per week.

This unit is not available for 'Study Abroad' students.

Assessment: One 2500-word essay (40%), one 2-hour examination (40%), one 1000-word tutorial paper (20%). Third year students will be expected to show a greater achievement of discipline-specific skills in their written work than second year students.

SOC1SP1 INTRODUCTION TO SOCIOLOGY POLITICS AND CULTURE 101 (15. CPs Sem. TE-SEM-1 BE, SH.) *Mr Ian Tulloch*

In this unit students are introduced to a range of concepts, issues and perspectives for the study of society, politics and culture. The unit begins with a general overview of the processes of socialisation and social reproduction in Australian society. Key dimensions of Australian social, political and cultural life are then considered in detail. Topics covered will include class, gender, work, politics, the state and political culture.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: One 750-word essay (10%), one 1000-word essay (25%), one 2000-word essay (45%), tutorial exercises (20%)

Prescribed Reading:

Not available in 2008

SOC2APC ASIAN-PACIFIC CITIES (20 CPs Sem. TE-SEM-2 BE, BU.) BE: Mr Trevor Budge, BE: Mr Andrew Butt, BU: Dr Trevor Hogan

This unit is offered at third year level also.

In this unit students are helped to think about urban challenges and innovation in contemporary cities of the Asia-Pacific. For the first time in world history the majority of humankind now lives in cities and in cities that are bigger and more complex than any previous historical epoch. The twenty-first century is the Asia-Pacific era and the cities of the region are the urban imaginaries and techno-industrial engines of the world. Our deepest nightmares and our most utopian hopes for cities can be found in the cities of this region. Australian cities are closely modelled on North American cities, especially of the Pacific Rim and most of our trade and cultural traffic is with Asian and North American cities. A critical understanding of these cities, from LA to Vancouver, Tokyo to Shanghai, Hong Kong to Singapore, Bangkok to Manila, will help us to think about the spatial, built form, technological and cultural challenges of our own cities for long term sustainability.

Prerequisite: Bendigo students: 30 credit points of first year sociology and politics or unit coordinator's approval

Bundoora students: 30 credit points of first year sociology, anthropology or AST1IJI or AST1ICI or unit coordinator's approval.

Class requirements: One 2-hour seminar and one hour on WebCT per week.

Assessment: One 1000-word presentation and essay (25%), one 2500-word research essay (45%), one group class presentation (1500 words equivalent) (30%). Third year students will be expected to show a greater achievement of discipline-specific skills in their written work than second year students.

SOC2LL LANDSCAPE AND THE HUMAN WORLD (20. CPs Sem. TE-SEM-2 BE, BU, SH.) Mr Gerry Gill

This unit is offered at third year level also.

In this unit our studies are based on the areas of central Victoria, which were the estates of the Jaara and Daung Wurrung clans. Students will examine: the contrasting indigenous and European modes of imagining and shaping this landscape; the violence and clash of values on the frontier; the transformations of the landscape by successive generations of Europeans and the traces of their failed dreams and abandoned traditions. We will focus on specific stories and places, but also undertake aesthetic, ecological and theoretical reflection on the relationship of the human world to the Earth. Students will be introduced to the specific skills of interpreting physical landscapes, totemic landscapes, rituals, archival documents and maps. In addition to academic texts, a range of landscape-inspired art, music, film and poetry will be studied.

Prerequisite: 30 credit points of first year Humanities and Social Science or coordinator's approval.

Class requirements: Bendigo: one 2-hour lecture and one 1-hour tutorial for nine weeks and two 6-hour field trips.

Bundoora and Shepparton: equivalent of fifteen hours of lectures in the form of PowerPoint presentations accessible on the web supported by a DVD of readings, short films, music and images. Two 2-day blocks with six hours of lectures and seminars on day one and a six-hour field trip on the following day.

Assessment: One 2000-word essay (40%), one field-trip note-book and skills exercises (1000 words equivalent) (20%), one 2-hour examination (40%). Third year students will be expected to display a higher level of discipline-specific skills than second year students.

SOC2MS MACRO-SOCIOLOGY (20. CPs Sem. TE-SEM-1 BE.) Mr Gerry Gill

This unit is offered at third year level also.

In this unit students will study the sociological theories, which have attempted to account for the big picture of social change in human history and to orient humankind to the future. The classical theories of social evolution of Marx, Durkheim, Weber, Parsons and Levi-Strauss will be studied before moving on to consider the more recent theories of writers such as Habermas, Sanderson, Mann, Giddens and Trigger.

Prerequisite: 30 credit points of first year sociology or coordinator's approval.

Class requirements: One 1-hour lecture and one 2-hour seminar per week.

Assessment: Two 1000-word exercises (40%), one 2500-word essay (50%), one 500-word tutorial paper (10%). Third year students will be expected to display a higher level of discipline-specific skills in their written work than second year students.

SOC2SH SOCIOLOGY OF HEALTH AND ILLNESS (20. CPs Sem. TE-SEM-2 BE.) Dr Shari Sieglhoff

This unit is offered at third year level also.

In this unit we undertake a study of the changes in the scope and organisation of health care associated with the changing conceptualisation of health and illness. Both organisational changes to health care and changes to concepts of health and illness will be analysed as changing social relationships, i.e., between the state and providers of health care, between those providing and those receiving health care and between the providers themselves. The organisation of health care is approached through studies of professionalisation, medical bureaucracies and medical technology. Concepts of disease and illness are examined with particular focus on 'mental illness' and on rural health.

Prerequisite: 30 credit points of first year Social Research, Planning and Development or Sociology, Politics and Culture, or coordinator's approval.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: One 1000-word tutorial paper and presentation (20%), one 2000-word essay (40%), one 2-hour examination (40%). Third year students will be expected to display a higher level of discipline-specific skills in their written work than second year students.

SOC2SR SOCIAL RESEARCH (20. CPs Sem. TE-SEM-1 BE.) *Dr Shari Sieglhoff*
This unit is offered at third year level also.

Students are introduced to social research principles and methods for studying the social world. Compared to other ways of knowing about the social world, social research is shown to be distinguished by a scientific approach. The series of steps involved in the social research process are considered in detail. We will then review the range of methods social researchers use to analyse media content, conduct a survey, run a social experiment, find and use information from the Australian Bureau of Statistics, participate in and observe social groups in natural settings and conduct interviews with individuals and groups.

Prerequisite: 30 credit points of first year sociology, or coordinator's approval.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: One 2500-word research project (50%), one 1000-word practical research exercise (20%) and one 1.5-hour examination (30%). Third year students will be expected to display a higher level of discipline-specific skills in their written work than second year students.

VPA1AD1 APPLIED DESIGN 1 (15. CPs Sem. TE-SEM-1 BE, MI.) *BE: Ms Claire Smith, MI: Mr Neil Fetting*

Digital and print studies are offered to alternative groups each semester

The application of techniques for visual communication is at the core of this unit. Through applied projects such essential skills as construction techniques, layout visualisation and presentation, applied drawing, photo mechanical and reproductive techniques, photographic and typographic application are developed.

Class requirements: One 1-hour lecture and 2 hours of practical classes per week.

Assessment: Five 2-week projects (100%)

Recommended Reading:

Craig, J. *Basic typography: a design manual*, Watson-Guptill 1990
 Craig, J. *Production for the graphic designer*, Watson-Guptill 1974
 Spiekerman, E and Ginger, E. M. *Stop stealing sheep and find out how type really works*, Adobe Press 1993

VPA1AD2 APPLIED DESIGN 2 (15. CPs Sem. TE-SEM-2 BE, MI.) *BE: Mr Paul Morris, MI: Mr Neil Fetting*

Digital and print studies are offered to alternative groups each semester

The creation of integrated design solutions to both two dimensional and 3 dimensional applied projects is the focus of this unit. Creative design solutions are a major element in effective communication and emphasis is placed on the creative interplay between words, text, images, ideas and typography. Package design is investigated through model making, packaging and three-dimensional construction activities and copywriting skills, combining words and images are developed.

Class requirements: One 1-hour lecture one 2 hours practical classes per week.

Assessment: Five 2-week projects (100%)

Recommended Reading:

Glaser, M. *Graphic design*, Overlook Press 1973
 Morgan, C. L. *Packaging design*, Rob Vision SA 1997
 Booth-Clibborn, E and Baroni, D. *The language of graphics*, Thames and Hudson 1980

VPA1APA VISUAL ARTS PRACTICE A (15 CPs Sem. TE-SEM-1 BE.) *Ms Julia McCormick*

Not available to students enrolled in the Bachelor of Visual Arts

In this unit we emphasise the development of the student's appreciation of three-dimensional form, generating an individual response to clay as a creative medium. Through set projects the student is expected to: (a) become proficient in the fundamentals of fabrication techniques, (b) research and experiment with a range of decorative techniques and (c) achieve a sound working knowledge in the use of low firing processes.

Lectures and practical demonstration are accompanied by fully supervised studio instruction. Assessment is based on two practical projects, one written assignment and presentation of a design journal.

Class requirements: One 1-hour lecture, one 1-hour tutorial and one 2-hour workshop per week.

Assessment: Two set ceramic projects of three pieces each (80%), one 1500-word written assignment (10%), one design journal (10%)

Prescribed Reading:

Berensohn, P. *Finding one's way with clay*, Simon and Schuster 1972
 Consentino, P. *Pottery techniques*, New Burlington Books 1990

VPA1APB VISUAL ARTS PRACTICE B (15 CPs Sem. TE-SEM-2 BE.) *Ms Julia McCormick*

Not available to students enrolled in the Bachelor of Visual Arts

In this unit we allow progressive development of the student's power of observation, perception and analysis of form. Through correct observation and visual perception (i.e. being able to look at an object, analyse the relationship of size, shape, value and texture), students will increase their ability to draw realistically. Exploration of a variety of linear and tonal techniques will assist students in being able to translate, directly from observation, three-dimensional information into marks on a two-dimensional surface. Assessment is based on the submission of a portfolio of set projects designed to develop student's conceptual and technical skills in drawing.

Class requirements: One 1-hour lecture, one 1-hour tutorial and one 2-hour workshop per week.

Assessment: two finished drawings (10%), five organisational line drawings (10%), five drawings (15%), ten gesture drawings (15%), one page developmental drawings and one tonal drawing (15%), developmental and finished drawing (15%), developmental and finished drawing (20%)

Prescribed Reading:

Medelowitz, D. *A guide to drawing*, 4th edn. Holt, Rinehart and Winston Inc. 1988
 Betti, C. *Drawing: a contemporary approach*, 3rd edn. Holt, Rinehart and Winston Inc. 1992

VPA1CVA COMPARATIVE STUDIES IN VISUAL MEDIA A (15 CPs Sem. TE-SEM-1 BE, MI. TE-W25-30 MI.) *Mr Cameron Rose*

In this unit students are introduced to interdisciplinary studies through a foundation in alternative media. They select an alternative study; either electronic (digital imaging), or 'manual' media (painting, drawing, ceramics, chemical-based photography or illustration), to augment their major discipline study in the other. The emphasis of assignments is on process, through which the student brings images from a familiar medium into the studio of the alternative medium to be developed. Through assessment and feedback sessions students are provided with the critical skills to evaluate outcomes. Lectures provide a theoretical and technical background in the principles of design from examples of processes of developing a concept across media.

Class requirements: One 1-hour lecture, one 1-hour tutorial-workshop and one 1-hour workshop per week.

Assessment: Five 2-week assignments (each 600 words equivalent) (100%)

VPA1CVB COMPARATIVE STUDIES IN VISUAL MEDIA B (15 CPs Sem. TE-SEM-2 BE, MI.) *Mr Stephen Turpie*

In this unit students extend concerns investigated in the medium of their major studio discipline in an alternative visual art discipline or studio. Students bring ideas or concepts from their familiar major medium into the studio of the alternative medium. The emphasis of assignments is on process and an assessable journal is used to record process, development and outcomes. In the lectures we provide an overview of historical practice in combined media or multi-media, examining practitioners including Marcel Duchamp, Meret Oppenheim, Lazlo Moholy-Nagy, Joseph Cornell and Mary Kelly. Assessment and feedback sessions provide students with the critical skills to evaluate the outcomes.

Prerequisite: VPA1CVA.

Class requirements: One 1-hour lecture, one 1-hour tutorial-workshop and one 1-hour workshop per week.

Assessment: Five 2-week assignments (each 600 words equivalent) (100%)

VPA1DS1 DESIGN STUDIES 1 (15. CPs Sem. TE-SEM-1 BE, MI.) *BE: Mr Geoff Hocking, MI: Mr Neil Fetting*

An introduction to the realisation of visual concepts through theoretical consideration of design elements – Composition, Spatial Layout, Scale, Placement, Structure – through the application of basic design elements – colour, texture form and image. Conceptual development is encouraged as links between visual image, text and idea are established through applied projects.

Class requirements: One 1-hour lecture and 2 hours of practical classes per week.

Assessment: Introduction to computer programs (20%), conceptual poster assignment (20%), 3d construction, typographic and pictorial form (20%), conceptual packaging (20%), page layout, type and illustration (20%)

Recommended Reading:

Pentagram Design *Ideas on design*, Faber and Faber 1968
Itten, J. *The art of colour: the subjective experience and objective rationale of colour*, Reinhold Pub. Corp. 1961
Hinrichs, K. *Type Wise*, North Light Books 1990

VPA1DS2 DESIGN STUDIES 2 (15. CPs Sem. TE-SEM-2 BE, MI.) *BE: Mr Geoff Hocking, MI: Mr Neil Fetting*

In Design 2 students develop an understanding of basic design applications through applied projects. The relationship of design elements – symbol and image, symbol and text, typography and image, photo and text – and their application to both two and three dimensional design projects through the expression of creative communicative projects is investigated. Computers as a production tool are introduced at this level – the basics of hardware, software, computer conventions and basic typesetting for applied projects are considered. Subject matter is introduced through formal briefing and theoretical discussion and developed by critique and assessment of outcomes.

Class requirements: One 1-hour lecture and 2 hours of practical classes per week.

Assessment: Corporate style assignment (20%), product packing assignment (20%), text and image (Poster) design assignment (20%), magazine cover design assignment (20%), event promotion assignment (20%)

Recommended Reading:

Popper, F. *Art of the electronic age*, Thames and Hudson 1993
Elam, K. *Expressive typography: the word as image*, Van Nostrand Reinhold 1990

VPA1MWA VISUAL ARTS MEDIA WORKSHOP A (15 CPs Sem. TE-SEM-1 BE, MI.) *Ms Julie Milowick*

In this unit we offer self-contained fully supervised workshops which introduce students to specialisation in the media of ceramics, painting/drawing, photography, printmaking, or multimedia, linked to their major discipline study. Provided over four-week blocks simultaneously in each of the media, workshops contain a lecture/demonstration and lecturer supervision of student investigations and production of assigned work appropriate to each medium, with some time for self-directed study. Investigation within these workshops will include: introduction to specific media; health and safety within the workshop environment; investigation of materials, tools, techniques; and historic/contemporary precedents. Assessment is based on three set sequential assignments and a technical journal.

Class requirements: One 1-hour lecture, one 1-hour tutorial and one 1-hour workshop per week.

Assessment: Photography: three assignments (100%), multimedia: three thematically based assignments (100%), Painting and drawing: three relevant assignment works (produced on site in drawing workshops) (100%), ceramics: three projects (100%), printmaking: three projects nominated by unit coordinator (100%). Students submit assessment in only one of the streams

VPA1MWB VISUAL ARTS MEDIA WORKSHOP B (15 CPs Sem. TE-SEM-2 BE, MI.) *Mr Anthony Conway*

In this unit students consolidate their initial investigations of their chosen media of ceramics, painting/drawing, photography, printmaking, or multimedia. The objectives of these workshops are: to develop more advanced concepts and explorations of students' application to the solution of set problems; to introduce them to concepts of independent workshop research and enquiry; and to relate visual outcomes to their major study. Self-contained fully supervised workshops, provided over four week blocks in each of the media, contain a lecture/demonstration and lecturer supervision of student investigations and production, with some time for self-directed study. Assessment is based on three set sequential assignments and a technical journal.

Prerequisite: VPA1MWA.

Class requirements: One 1-hour lecture, one 1-hour tutorial and one 1-hour workshop per week.

Assessment: Photography: three assignments (100%), multimedia: three thematically based assignments (100%), painting and drawing: three relevant assignment works (produced on site in drawing workshops) (100%), ceramics: three projects (100%), printmaking: three projects nominated by unit coordinator (100%). Students submit assessment in only one of the streams

VPA1TMA THEORY AND METHODOLOGIES IN STUDIO PRACTICE A (15 CPs Sem. TE-SEM-1 BE, MI.) *Mr Anthony Conway*

Art and Time: Design, Construction, Process.

In this unit we examine studio methods used in constructing artwork, from the Modernist principles of design as introduced in the Bauhaus, through to more recent concepts of Process Art. In the seminars we compare the differing notions of creativity as process and reorganisation and as representation. Scheduled time for practical studio production provides students with the opportunity to explore a range of solutions and responses to the critical analysis and discussion.

Class requirements: One 1-hour lecture, one 1-hour tutorial and one 1-hour workshop per week.

Assessment: Multimedia: folio of 10 images (or equivalent) and annotated visual journal (1000 words equivalent) (100%), photography: 12 prints, 10 proof sheets (100%), painting and

drawing: four major pieces plus working journal (1000 words equivalent) (100%), ceramics: three projects (100%), printmaking: 12 prints or equivalent (100%). Students submit assessment in only one of the streams

VPA1TMB THEORY AND METHODOLOGIES IN STUDIO PRACTICE B

(15 CPs Sem. TE-SEM-2 BE, MI.) *Mr Stephen Turpie*

Representation and the Readymade.

In this unit students consider the principle of representation in art, comparing realism and the tradition of working from the object, with the Modernist concept of the objet trouve and the post modern concept of suture. The interdependent roles of craft and concept are thus highlighted in discussions of contemporary and historic artworks. Students are required to identify these issues in their own cultural practice, employing a critical vocabulary to develop a reflective approach towards their practice in the development of a folio of work in their chosen disciplines.

Prerequisite: VPA1TMA.

Class requirements: One 1-hour lecture, one 1-hour tutorial and one 1-hour workshop per week.

Assessment: Multimedia: 3- to five minute video and annotated visual journal (1000 words equivalent) (100%), photography: 12 prints, 10 proof sheets (100%), painting and drawing: 4 major pieces plus working journal (1000 words equivalent) (100%), ceramics: 3 projects (100%), printmaking: 12 prints or equivalent (100%). Students submit assessment in only one of the streams.

VPA1VCA ART AND VISUAL CULTURE A (15. CPs Sem. TE-SEM-1 BE, MI.)

Dr Lisa Beaven

In this unit students are provided with a broad introduction to the study of art and visual culture. We take the widest definition of the subject to include art, design, cinema, video and electronic media and consider art chronology from the Renaissance to the present. Students are introduced to a range of theoretical positions and a variety of methodologies for viewing and interpreting art with the aim of encouraging the development of skills in visual analysis. There is a strong emphasis on excursions and on-site learning in galleries and museums.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: One 2000-word essay (50%), two 1000-word assignments (50%)

Prescribed Reading:

Rose, G *Visual methodologies: an introduction to the interpretation of visual materials* Sage 2001

VPA1VCB ART AND VISUAL CULTURE B (15. CPs Sem. TE-SEM-2 BE, MI.)

Dr Lisa Beaven

In this unit students explore the central ideas and concepts that motivated the Modern Movement in art and design in Europe from the 1890s through the first half of the 20th century. Students examine the concept of the avant-garde as played out in individual movements – Cubism, Futurism, Dada, De Stijl and Surrealism – while placing these in the broader context of the rapidly changing technological, social and political conditions of the first decades of the century. Students gain a detailed overview of art and art movements in the first half of the twentieth century and develop further their ability to critically analyse works of art and critical writings about art.

Prerequisite: VPA1VCA.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: One 2000-word essay (50%), one 500-word bibliographic exercise (10%), one 1-hour slide test (30%), one 500-word online assignment (10%)

Recommended Reading:

Golding, J. *Paths to the absolute* Thames and Hudson 2000
Harrison, C. *Primitivism, cubism, abstraction: the early twentieth century* Yale UP 1993
Wood, P. (edn.) *The challenge of the avant-garde* Yale UP 1999

VPA2AD3 APPLIED DESIGN 3 (20. CPs Sem. TE-SEM-1 BE, MI.) *BE: Mr*

Paul Morris, MI: Mr Neil Fetting

Digital and print studies are offered to alternative groups each semester

Through assigned projects, students will develop a wide range of essential skills in the area of digital technology. All projects will be taken to laser printing, some projects will be taken to film output in preparation for print. Scanning, re-screening, image manipulation, layers, clipping paths, file management and proofing are essential skills to be mastered in this unit.

Class requirements: One 1-hour lecture and one 2-hour practical class per week.

Assessment: Five 2-week projects (80%), one 1000-word rationale report (20%)

Recommended Reading:

Hayden, *Advanced Adobe Photoshop for Macintosh*, Adobe Press 1994

Evans, P. *Fresh ideas in Photoshop*, F and W 1998

Blatner, D and Taub, *Quark XPress book*, 4th edn. Peachpit Press 1994

VPA2APC VISUAL ARTS PRACTICE C (15 CPs Sem. TE-SEM-1 BE.) *Ms Julia*

McCormick

Not available to students enrolled in the Bachelor of Visual Arts

In this unit students are introduced to the basics of tonal painting and drawing, such as scale, volume, space, tonal values. Aspects of paint application, methods and materials are discussed along with all the formal elements that make up the picture-making process. Students will gain an understanding of fundamental techniques and processes, along with a foundational knowledge of modernist styles and theories. Assessment includes three practical projects per semester.

Class requirements: One 1-hour lecture, one 1-hour tutorial and one 2-hour workshop per week.

Assessment: Developmental works including 30 drawings and preparatory studies towards eight finished paintings (80%), one design journal (20%)

Prescribed Reading:

Godfrey, T. *Drawing today*, Phaidon 1990

Green, C. *Peripheral vision: Australian contemporary art*, Craftsman House 1995

Hughes, R. *The shock of the new*, Thames and Hudson 1991

VPA2APD VISUAL ARTS PRACTICE D (15 CPs Sem. TE-SEM-2 BE.) *Ms Julia*

McCormick

Not available to students enrolled in the Bachelor of Visual Arts

In this unit students will develop a degree of specialisation and competence in basic printmaking techniques and procedures. Students will be encouraged to explore the expressive possibilities and limitations of each of the techniques. Mono printing, relief printing and collagraph printing will form the basis of the semesters work. Emphasis will be placed on correct use of materials and equipment. Of importance will be identification and curatorial concerns and also Health and safety issues. Assessment is based on set projects and technical journal.

Class requirements: One 1-hour lecture, one 1-hour tutorial and one 2-hour workshop per week.

Assessment: Folio of ten mono prints, celluloid etchings, linocuts (80%), one design journal (20%)

Prescribed Reading:

Woods, L. *Practical printmaking*, The Free Press 1996

Rothenstein, M. *Relief printmaking*, Watson, Guptill Publications 1970

Ross, J and Romano, C. *The complete printmaker*, Quintet Publishing Ltd. 1972

VPA2CVC COMPARATIVE STUDIES IN VISUAL MEDIA C (20 CPs Sem. TE-SEM-1 BE, MI.) *Dr James McArdle*

In this unit each student works collaboratively with a student from another discipline major to present a combined work or works. In the lectures we explore the history and contemporary practice of collaboration in the visual arts, with reference also to collective production in theatre, architecture and film. A journal is used to record the collaborative process and its development. Workshop lecturers in consultation supervise the collaboration. In assessment and feedback sessions students are provided with the critical skills to evaluate these outcomes.

Prerequisite: VPA1CVB.

Class requirements: One 1-hour lecture, one 1-hour tutorial-workshop and one 1-hour workshop per week.

Assessment: Five 2-week assignments (each 800-word equivalents) (80%), one 500-word proposal (10%), one 500-word evaluation (10%).

VPA2CVD COMPARATIVE STUDIES IN VISUAL MEDIA D (20 CPs Sem. TE-SEM-2 BE, MI.) *Ms Claire Smith*

In this unit students combine two media to produce a hybrid form of their own devising. Hybridisation requires experimentation and innovation and alternative works will be trialled, tested and recorded before a single solution is selected. After progressive iterations and assessments, outcomes will be presented in a group exhibition and evaluated with regard to the extent that differences between the selected convergent media are resolved. In lectures that provide the critical background, we will consider the variety of art forms that become possible when the distinctions between traditional media become blurred or transgressed. Reference will be made to contemporary practitioners and examples of hybrid media.

Prerequisite: VPA2CVC.

Class requirements: One 1-hour lecture, one 1-hour tutorial and one 1-hour workshop per week.

Assessment: Five 2-week assignments (each 800-word equivalents) (80%), one 500-word proposal (10%), one 500-word evaluation (10%).

VPA2DS3 DESIGN STUDIES 3 (20. CPs Sem. TE-SEM-1 BE, MI.) *BE: Mr Geoff Hocking, MI: Mr Neil Fetting*

In this unit we explore a variety of different design practices e.g., advertising, publishing, editorial and information design. Various projects covering a basic understanding of these applications are taken to 'presentation visual' standard; this can be achieved either manually or digitally. Specific attention is paid to typographic detail, copy and text, creation and application of visual imagery, photographic application, illustration and marketing concepts. Subject matter is introduced through formal briefing and theoretical discussion and developed by critique and assessment of outcomes.

Class requirements: One 1-hour lecture and 2 hours of practical classes per week.

Assessment: Studio assignment (16%), editorial/publishing assignment (16%), advertising assignment (16%), photographic assignment (16%), typographic assignment (16%), one 1000-word research project (20%).

Recommended Reading:

VPA2DS4 DESIGN STUDIES 4 (20. CPs Sem. TE-SEM-2 BE, MI.) *BE: Mr Geoff Hocking, MI: Mr Neil Fetting*

In this unit we investigate a broad range of design applications with specific attention to page/grid layout, corporate style, promotional design (through visual merchandising, display and packaging), photographic realisation and print concepts. Typographic detail is an essential consideration of this unit as function and communication become more acutely detailed. Subject matter is introduced through formal briefing and theoretical discussion and developed by critique and assessment of outcomes.

Class requirements: One 1-hour lecture and two hours of practical classes per week.

Assessment: Product concept assignment (16%), magazine/press advertising assignment (16%), point of sale design assignment (16%), catalogue design assignment (16%), direct mail assignment (8%), television assignment (8%), one 1000-word research project (20%).

Recommended Reading:

VPA2MWC VISUAL ARTS MEDIA WORKSHOP C (20 CPs Sem. TE-SEM-1 BE, MI.) *Mr Anthony Conway*

In this unit emphasis is placed on developing technical competence informal or image-making skills from advancing individual outcomes contributing to the technical component of their major study. In self-contained, fully supervised workshops students advance their understanding of the media of ceramics, painting/drawing, photography, printmaking, or multimedia. Provided over four week blocks simultaneously in each of the media, workshops include a lecture/demonstration and lecturer supervision of student investigations and production, with some time for self-directed study. Assessment is based on three set sequential assignments and a technical journal.

Prerequisite: VPA1MWB.

Class requirements: One 1-hour lecture, one 1-hour tutorial and one 1-hour workshop per week.

Assessment: Photography: three assignments with individual assessment criteria and one 1000-word exhibition review (100%); multimedia: three thematically based assignments and one 1000-word exhibition review (100%); painting and drawing: three works (produced in drawing workshops) and one 1000-word exhibition review (100%); ceramics: three projects and one 1000-word exhibition review (100%); printmaking: three projects nominated by unit coordinator and one 1000-word exhibition review (100%). Students submit assessment in only one of the streams.

VPA2MWD VISUAL ARTS MEDIA WORKSHOP D (20 CPs Sem. TE-SEM-2 BE, MI.) *Ms Claire Smith*

In this unit students develop their own specific use of media, to achieve clearly demonstrable technical command of appropriate processes and to develop sound problem-solving skills in their selected media. In self-contained, fully supervised workshops, students will advance their command of the media of ceramics, painting/drawing, photography, printmaking, or multimedia. Provided over four-week blocks in each of the media, workshops contain a lecture/demonstration and lecturer supervision of student investigations and production, with some time for self-directed study. Assessment is based on three set sequential assignments and a technical journal.

Prerequisite: VPA2MWC.

Class requirements: One 1-hour lecture, one 1-hour tutorial and one 1-hour workshop per week.

Assessment: Photography: 3 assignments with individual assessment criteria and one 1000-word exhibition review (100%); multimedia: 3 thematically based assignments and one 1000-word exhibition review (100%); painting and drawing: 3 works (produced in drawing workshops) and one 1000-word exhibition review (100%); ceramics: 3 projects and one 1000-word exhibition review (100%); printmaking: 3 projects nominated by unit coordinator and one 1000-word

exhibition review (100%). Students submit assessment in only one of the streams.

VPA2TMC THEORY AND METHODOLOGIES IN STUDIO PRACTICE C (20 CPs Sem. TE-SEM-1 BE, MI.) *Ms Julie Millowick*

'Talking' Pictures: art and narrative, art and text.

In this unit students will examine and create narrative and story-telling in images. Starting with the students' own personal snapshots and memorabilia, the significance of life story and psyche in the study of artists and the production of art will be evaluated. In seminars and lectures we critique the notion of autobiography, the self, the soul, the body and its image, its uses in social critique or personal confession, or in the construction of fictional selves. Investigations of the narrative image genre will follow. Students will be encouraged to put into practice critical self-awareness in extending their own studio practice.

Prerequisite: VPA1TMB.

Class requirements: One 1-hour lecture, one 1-hour tutorial and one 1-hour workshop per week.

Assessment: One practical assignment (20%), presentation of a class paper (1000-word equivalent) (20%), one 1000-word essay (20%), folio (40%).

VPA2TMD THEORY AND METHODOLOGIES IN STUDIO PRACTICE D (20 CPs Sem. TE-SEM-2 BE, MI.) *Mr Stephen Turpie*

Recombinant Object: montage, bricolage, decoupage, deconstruction. In this unit students investigate and produce 'recombinant' art, which exploits as its raw ingredients pre-existing cultural artefacts. Current and recent hybrid art will be set in an historical and critical philosophical context. Concepts like creativity, originality and authorship raise legal, ethical, political, cultural and philosophical issues, which will provide the critical platform for discussions of such practices and aesthetics and inform the production of the students' individual folios.

Prerequisite: VPA2TMC.

Class requirements: One 1-hour lecture, one 1-hour tutorial and one 1-hour workshop per week.

Assessment: One practical assignment (20%), presentation of a class paper (1000-word equivalent) (20%), one 1000-word essay (20%), folio (40%).

VPA3AD5 APPLIED DESIGN 5 (20. CPs Sem. TE-SEM-1 BE, MI.) *BE: Mr Cameron Rose, MI: Mr Neil Fetting*

Digital and print studies are offered to alternative groups each semester

This unit attempts to approximate the working environment through its industrial application. A series of professional briefs is actively sought and students are expected to complete a minimum of five submissions to clients in response to these briefs.

Prerequisite: VPA2AD4.

Class requirements: One 1-hour lecture one 2 hours of practical classes per week.

Assessment: Five 2-week projects (80%), one 1000-word rationale report (20%)

Recommended Reading:

Salles, Poyssick and Behoriam, *Adobe Photoshop creative techniques*, Hayden 1995

Baldwin, H. *Director 6 for Macintosh (Visual Quick start Guide)*, Peachpit Press 1997

VPA3AD6 APPLIED DESIGN 6 (20. CPs Sem. TE-SEM-2 BE, MI.) *BE: Mr Cameron Rose, MI: Mr Neil Fetting*

Digital and print studies are offered to alternative groups each semester

Presentation of design artwork for print reproduction is the focus of this unit. Two compulsory assignments and a minimum of five professional briefs (selected from a larger offering) are essential to complete a final folio presentation. The production of a Corporate Style Manual, with documented research and project design proposals, is an integral component of project submission. Combined digital art for a full-colour personal business card is also a

compulsory assignment. Some work including the business card will be taken to print. Aspects of billing, client liaison and production management are investigated.

Class requirements: One 1-hour lecture and one 2-hour practical class per week.

Assessment: Five 2-week projects (80%), one 1000-word rationale report (20%)

Recommended Reading:

Olins, W. *Corporate identity: making business study visible through design*, Harvard Business School Press 1990

VPA3APE VISUAL ARTS PRACTICE E (15 CPs Sem. TE-SEM-1 BE.) *Ms Julia McCormick*

Not available to students enrolled in the Bachelor of Visual Arts

In this unit students will cover the following elements: (1) extending their powers of observation, perception and analysis of form, (2) an introduction to the principles of composition, through the selection and organisation of the art elements and principles of design to produce a more unified and meaningful drawing and (3) increasing their working knowledge of the various drawing tools, methods and techniques through practical application and art appreciation. Assessment is based on the submission of a portfolio of drawings designed to develop student's conceptual and technical skills.

Prerequisite: VPA1APB.

Class requirements: One 1-hour lecture, one 1-hour tutorial and one 2-hour workshop per week.

Assessment: Six finished drawings (30%), research for projects (10%), four finished drawings with developmental studies (30%), eight gesture drawings (30%)

Prescribed Reading:

Edwards, B. *Drawing on the right side of the brain*, Fontana Collins 1979

Smith, S. *How to draw and paint*, Ebury Press 1981

Laidman, H. *The complete book of drawing and painting*, Thomas Nelson and Sons Ltd. 1973

VPA3APF VISUAL ARTS PRACTICE F (15 CPs Sem. TE-SEM-2 BE.) *Ms Julia McCormick*

Not available to students enrolled in the Bachelor of Visual Arts

In this unit students are provided with the opportunity to extend their skills and understanding of ceramic processes acquired in VPA1APA. Through set project students are encouraged to develop a more investigative approach to the development of design and aesthetic concepts and to further explore the potential of ceramic materials, decorative techniques and firing processes. Assessment is based on submission of a folio and a design journal, which consists of design drawings and technical information pertaining to folio work.

Prerequisite: VPA1APA.

Class requirements: One 1-hour lecture, one 1-hour tutorial and one 2-hour workshop per week.

Assessment: Two set ceramic projects of three pieces each (80%), one design journal (20%)

Prescribed Reading:

Speight, C.F. *Hands in clay: an introduction to ceramics*, Mayfield Publishing 1988

Gibson, J. *Pottery decoration: contemporary approaches*, A and C Black 1987

Tyler, C and Hirsch, R. *Raku: techniques for contemporary potters*, Watson Guptill 1975

VPA3CVE COMPARATIVE STUDIES IN VISUAL MEDIA E (20 CPs Sem. TE-SEM-1 BE, MI.) *Mr Anthony Conway*

In this unit students may choose to follow a particular direction in the production of convergent media, including collaborative projects, community-based projects and the combination of two or more media to produce hybrid forms of their own devising. They should provide evidence of a sound grasp of the comparative process. Experimentation and progressive iterations are significant assessable outcomes. Assessments will be presented in group reviews and

evaluated with regard to the extent that characteristics of the selected convergent media are exploited for aesthetic purpose. In lectures students will be provided with the critical background to consider the variety of art forms, other than 'high art', that may be derived from historical and contemporary cultural exchange. Reference will be made to contemporary practitioners and examples.

Prerequisite: VPA2CVD.

Class requirements: One 1-hour lecture, one 1-hour tutorial and one 1-hour workshop per week.

Assessment: Five 2-week assignments (each 800 words equivalents) (80%), one 500-word proposal (10%), one 500-word evaluation (10%).

VPA3CVF COMPARATIVE STUDIES IN VISUAL MEDIA F (20 CPs Sem. TE-SEM-2 BE, MI.) *Ms Claire Smith*

In this unit, which is a continuation of VPA3CVE, students may choose to follow a particular direction in the production of interdisciplinary studies in convergent media, including collaborative projects, community-based projects, or the combination of two or more media to produce hybrid forms of their own devising. Students should demonstrate a sound grasp of the comparative process and the links that their production has with their Studio Theory, as well as the capacity to resolve outcomes. Experimentation and progressive iterations are significant assessable outcomes. Assessments will be presented in group reviews and evaluated with regard to the extent that characteristics of the selected convergent media are exploited for aesthetic purpose. In lectures we will provide the critical background, with reference to contemporary practitioners and examples.

Prerequisite: VPA3CVE.

Class requirements: One 1-hour lecture, one 1-hour tutorial and one 1-hour workshop per week.

Assessment: Five 2-week assignments (each 1000 words equivalent) (100%)

VPA3DS5 DESIGN STUDIES 5 (20. CPs Sem. TE-SEM-1 BE, MI.) *BE: Mr Geoff Hocking, MI: Mr Neil Fetting*

This unit is a studio-based program that attempts to approximate the professional studio environment. The design industry is viewed as comprising five separate working environments – studio, advertising, publishing, information/education and electronic media. Projects are devised to allow students to gain experience, working at an advanced level, in each of these conceptually different areas of the communication industry. Subject matter is introduced through formal briefing and theoretical discussion and developed by critique and assessment of outcomes. Professional work may be introduced into this unit allowing for students to benefit from 'real time' industrial experience.

Prerequisite: VPA2DS4.

Class requirements: One 1-hour lecture and 2 hours of practical classes per week.

Assessment: Editorial design assignment (16%), packaging (16%), advertising assignment (16%), corporate assignment (16%), mass communication assignment (16%), one 1000-word research project (20%).

Recommended Reading:

Herring, J. *Annual report design: A guide to the annual report process for graphic designers and corporate communicators*, Watson-Guptill 1990

VPA3DS6 DESIGN STUDIES 6 (20. CPs Sem. TE-SEM-2 BE, MI.) *BE: Mr Geoff Hocking, MI: Mr Neil Fetting*

Students are encouraged to select an area of specialisation based on their experience gained in Design Studies 5. The final folio will be built on this individual interest or direction and may include – advertising, publishing, editorial, illustration, photography, studio design, electronic media etc. A choice of programmes is prepared for students in consultation with the unit coordinator. Individually selected projects must be compatible with the requirements of the course at an advanced level and with the preference of the individual student. Subject matter is introduced through formal briefing and

theoretical discussion and developed by critique and assessment of outcomes.

Class requirements: One 1-hour lecture and 2 hours of practical classes per week.

Assessment: One 16-page booklet/publication design (15%), production of a business card, an exhibition banner and an exhibition catalogue page (10%), one assignment comprising: pitch design 10%, product 15%, marketing 15%, report 15% (50%), one 1000-word research project (20%).

Recommended Reading:

Quon, M. *Corporate graphics*, Saint Martins Press Inc. 1997

VPA3GPA GRAPHIC DESIGN PROFESSIONAL PRACTICE A (20 CPs Sem. TE-SEM-1 BE, MI.) *Mr Geoff Hocking*

In this unit we examine professional practice in the advertising industry. Students conduct market research, examine research data and make proposals for change through the development of a marketing strategy for a consumer product. Students prepare packaging, product re-branding, develop promotional material, corporate style and track responses to their proposed strategy through 'mock board-room' presentations and external research. Assessment is based upon presentation of the material in digital 'power-point' style to the class (market group) and hard-copy 'folio' presentation of advertising/packaging material. Lectures include video presentations of case studies, discussions of copyright issues, sexual politics in marketing and branding, social demographic tracking and human psychological responses to marketing stimuli.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

This unit is not available for 'Study Abroad' students.

Assessment: One PowerPoint advertising campaign project comprising ten parts (80%), one 1000-word class paper (20%).

VPA3GPB GRAPHIC DESIGN PROFESSIONAL PRACTICE B (20 CPs Sem. TE-SEM-2 BE, MI.) *Mr Geoff Hocking*

In this unit students investigate the discipline of corporate style management. Students prepare designs for re-direction of Corporate Style for a selected public organisation, charity or professional business activity. Research data is collected and examined, proposals for change tested and applied to a corporate style management proposal 'document'. The document includes logo development, stationery applications, delivery systems, corporate livery, applications to vehicles and physical structures, external signage and website face page design.

Prerequisite: VPA3GPA.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: One corporate style manual project comprising ten parts (80%), one 1000-word class paper (20%).

VPA3MWE VISUAL ARTS MEDIA WORKSHOP E (20 CPs Sem. TE-SEM-1 BE, MI.) *Ms Robyn Burgess*

In this unit we advance previous knowledge and experience of chosen media, enabling students to achieve a higher level of proficiency and confidence in realising contemporary concepts. In self-contained, fully supervised workshops we will augment students' expertise in the specialised media of ceramics, painting/drawing, photography, printmaking, or multimedia. Provided over four week blocks in each of the media, workshops contain a lecture/demonstration and lecturer supervision of student investigations and production. Self-directed assignments will be developed in tandem with the students' major studies in consultation with lecturers. Assessment is based on three discrete, sequential tasks self-assigned with the assistance of the lecturer and a technical journal.

Prerequisite: VPA2MWD.

Class requirements: One 1-hour lecture, one 1-hour tutorial and one 1-hour workshop per week.

Assessment: Photography: three self-assigned briefs relevant to folio and one 1000-word exhibition review (100%); multimedia: three self-assigned briefs relevant to folio and on 1000-word exhibition review (100%); painting and drawing: three relevant assignment works and one 1000-word exhibition review (100%); ceramics: three projects

and one 1000-word exhibition review (100%); printmaking: three projects nominated by unit coordinator and one 1000-word exhibition review (100%). Students submit assessment in only one stream.

VPA3MWF VISUAL ARTS MEDIA WORKSHOP F (20 CPs Sem. TE-SEM-2 BE, MI.) *Dr James McArdle*

In this unit we develop the students' own self-direction, organisation, selection and professional utilisation of materials, processes and media; and increase students' ability to invent visual solutions to the challenges of contemporary practice in ceramics, painting/drawing, photography, printmaking, or multimedia. Provided over four-week blocks in each of the media, workshops include a lecture/demonstration and lecturer supervision of student investigations and production, with time for self-directed study. Three individual self-directed assignments, documented in a technical journal, will be developed in tandem with the students' major studies and in consultation with lecturers.

Prerequisite: VPA3MWE.

Class requirements: One 1-hour lecture, one 1-hour tutorial and one 1-hour workshop per week.

Assessment: Photography: three self-assigned briefs relevant to folio and one 1000-word exhibition review (100%); multimedia: three self-assigned briefs relevant to folio and on 1000-word exhibition review (100%); painting and drawing: three relevant assignment works and one 1000-word exhibition review (100%); ceramics: three projects and one 1000-word exhibition review (100%); printmaking: three projects nominated by unit coordinator and one 1000-word exhibition review (100%). Students submit assessment in only one stream.

VPA3PSA PROFESSIONAL STUDIES A (20 CPs Sem. TE-SEM-1 BE, MI.) *Ms Julie Millowick*

In this unit students develop critical analysis and research skills, with an emphasis on articulating individual arts practice at a professional level as well as investigating a broad range of career options. The diversity of these options, career paths and supporting bodies are presented in a two-day seminar, speakers at the conference representing a broad cross-section of visual arts organisations relevant to practising artists. Topics include formulating an artist's statement, curriculum vitae, investigating gallery systems, exhibition protocol, audience demographics, ethics procedures, commercial studios and small business practice. Grant applications and funding bodies are investigated via local, state, regional and national networks.

Class requirements: One 1-hour lecture and one 1-hour tutorial per week plus one 2-day seminar.

Assessment: One prescribed assignment (artist's statement, CV plus images) (20%), one research assignment (2000-word equivalent) (40%), one 1-hour examination (20%), one 20-minute tutorial presentation (20%).

VPA3PSB PROFESSIONAL STUDIES B (20 CPs Sem. TE-SEM-2 BE, MI.) *Ms Julie Millowick*

Students are required to undertake an individual research topic as a 'contractual proposal', investigating in depth an area of research closely associated with their specific discipline, where possible creating the opportunity to expand their knowledge outside of the university confines. Areas of research may include a summary of an interactive industry-based learning program, curating a substantial exhibition, publication of a significant article, which can be either a review of an exhibition, report on a workshop/conference attended, interview of a significant artist, or technical paper on significant research within your area of study.

Class requirements: One 1-hour lecture and one 1-hour tutorial per week, plus research investigation.

This unit is not available for 'Study Abroad' students.

Assessment: One research assignment (2000-word equivalent) (40%), one prescribed assignment (1000-word equivalent) (20%), one visual written journal industry-based research (1000-word equivalent) (20%), one 20-minute tutorial presentation (20%).

VPA3TME THEORY AND METHODOLOGIES IN STUDIO PRACTICE E (20 CPs Sem. TE-SEM-1 BE, MI.) *Dr James McArdle*

Artificial/Sublime Space.

The value of beauty is considered in the theories and histories of art and is here considered alongside the notions of artifice and 'nature'.

Australian art of the environment, ranging across traditional and new technologies, across micro/macro scales and dimensions, provides a reference for further exploration of spatio-temporal reality and imaginative and creative spaces. The Central Goldfields landscape serves as a test case for a study of what constitutes the artificial (cultivated/exploited), the Arcadian (natural/unspoiled) and the utopian/dystopia and serves as a laboratory for sustained individual response and production of imagery and objects.

Prerequisite: VPA2TMD.

Class requirements: One 1-hour lecture, one 1-hour tutorial and one 1-hour workshop per week.

Assessment: One practical assignment (20%), presentation of a class paper (1000-word equivalent) (20%), one 1000-word essay (20%), folio (40%).

VPA3TMF THEORY AND METHODOLOGIES IN STUDIO PRACTICE F (20 CPs Sem. TE-SEM-2 BE, MI.) *Dr James McArdle*

Visual Research Methodologies.

In this unit students conduct Visual Arts research to interpret images of ideas, including their own, to draw conclusions about the production and exchange of meanings. Vision and visuality, the sites of meaning, visual pleasure and disruption, intentionality (auteur theory), modalities in technologies and other issues are examined through established methodologies from sciences, social sciences and humanities. Comparisons provide the student artist/researcher with means of evaluating the available methodologies' usefulness, application and adaptation to their own visual research and resultant production.

Prerequisite: VPA3TME.

Class requirements: One 1-hour lecture, one 1-hour tutorial and one 1-hour workshop per week.

Assessment: One practical assignment (20%), presentation of a class paper (1000-word equivalent) (20%), one 1000-word essay (20%), folio (40%).

VPA4RVA RESEARCH METHODS – VISUAL ARTS (30 CPs Sem. TE-ALL-YR BE.) *Ms Robyn Burgess*

The theory/research component is mandatory, providing a basis for critical dialogue and theoretical analysis.

Prerequisite: Successful completion of a visual arts undergraduate degree.

Class requirements: Three hours per week for 26 weeks.

Assessment: One 4000–5000-word research essay based on an aspect of studio practice/study (50%), two 1500–2000-word seminar papers (50%)

Recommended Reading:

Berger, W. *Advertising today*, Phaidon 2000
Harrison, C and Wood, P. (Eds) *Art in theory, 1900-1990: an anthology of changing ideas*, Blackwell 1993
Staniszewski, M.A. *Believing is seeing: creating the culture of art*, Penguin 1995

VPA4SP STUDIO PRACTICE (90 CPs Sem. TE-ALL-YR BE.) *Ms Robyn Burgess*

The course requires substantial study of theoretical topics, providing a foundation for studio praxis.

Prerequisite: Successful completion of a visual arts undergraduate degree.

Class requirements: Comprising 20 hours per week for 26 weeks.

Assessment: Displayed works (80%), journal (20%). Monthly and mid year reviews will be conducted. Continual assessment based upon candidate's ability to present concepts/ideas in an accurate, inventive and professional manner.

Recommended Reading:

Gill, M. *The image of the body: aspects of the nude*, Doubleday 1989

FACULTY OF LAW AND MANAGEMENT

Single degrees

Bachelor of Business – Bendigo (RBB)

The Bachelor of Business is offered at five Victorian campuses of La Trobe University: Albury-Wodonga, Bendigo, Melbourne (Bundoora), Mildura and Shepparton. This course is also offered in association with partner organisations at other sites in Australia and overseas. In Australia, the Bachelor of Business is offered by the Australian Campus Network in Sydney. The Bachelor of Business is also offered in Malaysia, Vietnam and France.

The structure of the 24-unit degree program is identical at the five university campuses and at associated tertiary institutions in Australia and overseas. This structure enables students to complete a core of seven first year foundation units, followed by one or two eight-unit majors in subsequent years. The units that comprise the first year core and majors may vary slightly across sites; these minor variations reflect differences in specialised interests and expertise and the particular needs of students at different sites. Details of the specific units offered at the five Victorian campuses are listed in this *Handbook* under the respective campus entries. Details of programs offered at associated tertiary colleges are published separately by each institution.

External programs are offered at the following campuses: Australian Campus Network, Sydney (ACN); Hanoi University of Foreign Studies, Vietnam (HANU); Kolej Komuniti Mertajam, Malaysia (KKM); Nilai College, Malaysia (NILAI); and École Supérieure de Commerce, Montpellier, France (ESC).

Note that accounting at the Melbourne (Bundoora), Albury-Wodonga, Bendigo, Mildura and Shepparton campuses is offered as a separate degree: the Bachelor of Commerce. International Business is offered at Melbourne (Bundoora) as a separate degree: the Bachelor of International Business. See the relevant course descriptions in the respective campus entries for further details.

Bachelor of Business students may specialise in business law, economics, human resource management, international business information technology and marketing. If they plan carefully and choose the required units early in their course, students may be able to undertake two majors. Professional body requirements and unit sequences may also affect completion of a second major.

Credit transfers and exemptions

Students who have studied previously at post-secondary level and are enrolled in the Bachelor of Business course may apply to the course coordinator for credit of specific units towards the course. Applications for credit must be supported by original documentary evidence or certified copies. Original documents will be returned after being sighted.

Admission requirements

Admission requirements are completion of VCE units 3 and 4 of English (any) with a minimum study score of 20 and completion of units 1 and 2 of General Mathematics or Mathematical Methods. Applicants with comparable qualifications will be considered. A limited number of students may also be considered under Special Entry Schemes.

Course structure

Students must complete a course of units accumulating a minimum total of 360 credit points, of which at least 255 must be units offered in the School of Business. The course is designed to be completed within three years of full-time study, although part-time study is possible. The maximum course duration is ten years.

Students should undertake 120 credit points at each year level and must undertake at least 120 credit points at third year level, including 90 credit points at third year level from the School of Business.

Variations to this structure are subject to approval by a School of Business course adviser.

The degree is designed to allow completion of two majors or one major and elective units. At least one major must be in a business discipline. A business major will consist of eight units.

First year

Students in all majors must enrol in the following units.

Teaching period	Unit title	Unit code
TE-SEM-1	Accounting for Management Decisions	ACC1AMD
TE-SEM-1	Business Law	LST1BSL
TE-SEM-1	Microeconomics	ECO1IMI
TE-SEM-1	Management Information Systems	BUS1MIS
TE-SEM-2	Macroeconomics	ECO1IMA
TE-SEM-2	Foundations of Management	MGT1FOM
TE-SEM-2	Introductory Statistics for Business	ECO1ISB
TE-SEM-2	First unit of chosen major	

Students must ensure that their choice takes into account the particular requirements of the major in which they intend to specialise (including prerequisites) and the requirements of any professional body to which they may wish to apply for admission after completion of their course.

Major in economics

This major aims to produce graduates who are well versed in economic theory, in the collection and use of economic data and who have a practical, objective approach to economic problems. Additionally, it is intended to acquaint students with a variety of economic concepts relevant to their future vocational requirements within the business management decision-making process. Students are encouraged to consider units with a regional emphasis.

Course structure

Students must satisfactorily complete 24 semester units. Eight economics units must be successfully completed, including Microeconomics and Macroeconomics at first year level, three second year economics units and five third year economics units.

First year

Teaching period	Unit title	Unit code
TE-SEM-1	Business Law	LST1BSL
TE-SEM-1	Management Information Systems	BUS1MIS
TE-SEM-1	Accounting for Management Decisions	ACC1AMD
TE-SEM-1	Microeconomics	ECO1IMI
TE-SEM-2	Macroeconomics	ECO1IMA
TE-SEM-2	Foundations of Management	MGT1FOM
TE-SEM-2	Introductory Statistics for Business	ECO1ISB
TE-SEM-2	Elective unit	

Second and third years

Students complete the following units, having regard to prerequisites.

Unit title	Unit code
Intermediate Microeconomics	ECO2IM
Government and the Economy	ECO2GE
Globalisation and the Regional Business	MGT2GRB
Asian-Australian Trade Issues	ECO3ATI
Comparative Economic Systems	ECO3CES
Money and Banking	ECO3MB
International Economics	ECO3IE
Industrial Relations	ECO3IRE

Major in human resource management

The objective of this major is to develop students' knowledge and skills in areas of human resource management and employee relations, in addition to a range of general management disciplines.

Professional recognition

Successful completion of this course will prepare graduates for admission to the Australian Human Resources Institute (AHRI) depending on electives and work experience.

First year

Teaching period	Unit title	Unit code
TE-SEM-1	Business Law	LST1BSL
TE-SEM-1	Management Information Systems	BUS1MIS
TE-SEM-1	Accounting for Management Decisions	ACC1AMD
TE-SEM-1	Microeconomics	ECO1IMI
TE-SEM-2	Foundations of Management	MGT1FOM
TE-SEM-2	Introductory Statistics for Business	ECO1ISB
TE-SEM-2	Macroeconomics	ECO1IMA
TE-SEM-2	One elective unit	

Second and third years

Students must complete the following eight units, having regard to the levels of units and prerequisites.

Unit title	Unit code
Organisational Behaviour	MGT2OBE
Human Resource Management	MGT2HRM
Industrial Relations	ECO3IRE
Human Resource Development	MGT2HRD
Human Resource Information Systems	MGT3HRI
Interpersonal Skills and Conflict Management	MGT2ISC
International Human Resource Management	MGT3IHR
Organisational Change and Development	MGT3OCD

Major in marketing

Marketing reinforces the importance of communication skills in business. The increasingly competitive nature of business makes it evident that a marketing approach taken by graduates provides them with a competitive advantage in the workplace. This major in the Bachelor of Business course has been designed to produce graduates who can perform as managers in marketing, sales, market research, advertising, promotional management, marketing planning and marketing strategy.

Professional recognition

Graduates are eligible to join the Australian Marketing Institute as associate members or the Market Research Society of Australia, initially with associate membership status.

First year

Teaching period	Unit title	Unit code
TE-SEM-1	Business Law	LST1BSL
TE-SEM-1	Management Information Systems	BUS1MIS
TE-SEM-1	Accounting for Management Decisions	ACC1AMD
TE-SEM-1	Microeconomics	ECO1IMI
TE-SEM-2	Marketing Principles and Practices	MKT2MPP
TE-SEM-2	Introductory Statistics for Business	ECO1ISB
TE-SEM-2	Foundations of Management	MGT1FOM
TE-SEM-2	Macroeconomics	ECO1IMA

Second and third years

Students must complete the following seven units, having regard to the levels of units and prerequisites.

Unit title	Unit code
Consumer Behaviour	MKT2CBE
Marketing Communication	MKT3MCO
Marketing Law	LST2MAL
Marketing Research	MKT3MRE
Selling and Sales Management	MKT3SSM
Services Marketing	MKT2SMA
Strategic Marketing A	MKT3SMA

Major in international business

A strong international theme is essential in any contemporary business degree. This is particularly true because of the impact of global events on Australia. This major in international business will provide a high quality academic program drawing on a range of well-established disciplines, which will be especially attractive to students seeking to add an international perspective to their studies in other areas.

First year

Teaching period	Unit title	Unit code
TE-SEM-1	Business Law	LST1BSL
TE-SEM-1	Management Information Systems	BUS1MIS
TE-SEM-1	Accounting for Management Decisions	ACC1AMD
TE-SEM-1	Microeconomics	ECO1IMI
TE-SEM-2	Foundations of Management	MGT1FOM
TE-SEM-2	Introductory Statistics for Business	ECO1ISB
TE-SEM-2	Macroeconomics	ECO1IMA
TE-SEM-2	Marketing Principles and Practices	MKT2MPP

Second and third years

Students must complete the following eight units, having regard to the levels of units and prerequisites.

Unit title	Unit code
Strategic Management	MGT3SMG
Globalisation and the Regional Business	MGT2GRB
Asian-Australian Trade Issues	ECO3ATI
International Economics	ECO3IE
International Marketing	MKT3IMK
Supply Chain Management	MGT2SCM
International Business Law	LAW2IBL
International Human Resource Management	MGT3IHR

Major in business law

This major provides a high quality academic program of study in business law units at the undergraduate level that will complement major studies in other areas of the degree. In undertaking a major in business law, students will develop an understanding of the critical connections between the law and business practice in a range of areas; enhance their skills in legal research and reasoning; appreciate the connections between law and ethical behaviours in business; and develop awareness of major compliance issues in business and the roles of legal professionals in business operations

First year

Teaching period	Unit title	Unit code
TE-SEM-1	Business Law	LST1BSL
TE-SEM-1	Management Information Systems	BUS1MIS
TE-SEM-1	Accounting for Management Decisions	ACC1AMD
TE-SEM-1	Microeconomics	ECO1IMI
TE-SEM-2	Foundations of Management	MGT1FOM
TE-SEM-2	Introductory Statistics for Business	ECO1ISB
TE-SEM-2	Macroeconomics	ECO1IMA
TE-SEM-2	Elective unit	

Second and third years

Students must complete eight of the following units, having regard to the levels of units and prerequisites.

Unit title	Unit code
Environmental Law	LST2EL
Employee Relations Law	LST3ERL
Marketing Law	LST2MAL
Intellectual Property Law	LST3IPL
Property Law	LST3PL

International Business Law	LAW2IBL
Tourism and Hospitality Law	LST2THL
Professional Liability	LST3PLI

Note that not all law units are available every year and the semester on offer may change.

Major in information technology

The objective of this major is to provide a comprehensive grounding in the basic discipline of computing around which approved minors may be developed. The emphasis in the computing area is on applications.

First year

Teaching period	Unit title	Unit code
TE-SEM-1	Business Law	LST1BSL
TE-SEM-1	Management Information Systems	BUS1MIS
TE-SEM-1	Accounting for Management Decisions	ACC1AMD
TE-SEM-1	Microeconomics	ECO1IMI
TE-SEM-2	Foundations of Management	MGT1FOM
TE-SEM-2	Introductory Statistics for Business	ECO1ISB
TE-SEM-2	Macroeconomics	ECO1IMA
TE-SEM-2	Information Systems	CSE1IS

Second and third years

Students must complete eight of the following units, having regard to prerequisites.

Unit title	Unit code
IS Development	CSE2ISD
Business Programming Concepts	CSE2BPC
Business Computer Networks	CSE3BCN
Business Data Structures	CSE3BDS
Database	CSE3DB
Programming Environment	CSE1PE
Web Development	CSE2WD
Web Services	CSE3WS

The sequence of units will depend upon the information technology units available and chosen by students.

Bachelor of Business – Montpellier (RBBMO)

This course is available only to offshore students. Students will be eligible to enrol in this course when they have passed a minimum La Trobe University equivalent of 240 credit points in the Bachelor of Business Administration (Honours) or the Bachelor of Science in Marketing at École Supérieure de Commerce, Montpellier, France. They will then study 120 credit points of La Trobe University units and, on successful completion of both programs, students will graduate with both Montpellier's Bachelor of Business Administration or Bachelor of Science in Marketing and La Trobe's Bachelor of Business with an international business major.

Course structure

The La Trobe University component of this twinning-degree program is one year in duration and students undertake this during the final year of their Montpellier Bachelor of Business Administration or Bachelor of Science in marketing program. The La Trobe University units studied at École Supérieure de Commerce Montpellier are as follows.

Unit title	Unit code
International Economics	ECO3IE
Strategic Management	MGT3SMG
Asian-Australian Trade Issues	ECO3ATI
Globalisation and Regional Business	MGT2GRB
International Marketing	MKT3IMK
International Human Resource Management	MGT3IHR
Asian Business Project (Part 1)	MGT3BPA
Asian Business Project (Part 2)	MGT3BPB

All La Trobe units are worth 15 credit points each. All units are delivered in online block mode. Further information on the offshore programs may be obtained from the Offshore Course Administrators.

Bachelor of Business (Tourism and Hospitality) – Bendigo (RBBTH)

This course aims to equip students with the skills and knowledge required for future leaders in the tourism and hospitality industries. The course combines practical, professional hospitality training and studies in business and tourism. Its broad nature allows students to obtain a firm foundation for careers in areas other than tourism and hospitality.

Admission requirements

Applicants must satisfy the University's normal entrance requirements, including a study score of at least 20 in units 3 and 4 VCE English.

Degree requirements

Students must complete a course of units accumulating a minimum of 360 credit points (24 units) including eight level 3 units. All core units are worth 15 credit points each. The course is designed to be completed in three years of full-time study, although part-time study is possible.

Course structure

The course consists of the units shown in the following grid.

First year

Teaching period	Unit title	Unit code
TE-SEM-1	Introduction to Leisure Industry Studies	THS1ILS
TE-SEM-1	Management Communications	THS1MCO
TE-SEM-1	Accounting for Management Decisions	ACC1AMD
TE-SEM-1	Food and Beverage Services	THS1FBS
TE-SEM-2	Accommodation Operations	THS1AOS
TE-SEM-2	Management Information Systems	BUS1MIS
TE-SEM-2	Introduction to Marketing: Tourism and Hospitality	THS2IMT
TE-SEM-2	Accounting and Management for Entrepreneurs	ACC1AME

Second year

Teaching period	Unit title	Unit code
TE-SEM-1	Microeconomics for Tourism and Hospitality	THS2MIC
TE-SEM-1	Organisational Behaviour	MGT2OBE
TE-SEM-1	Consumer Behaviour	MKT2CBE
TE-SEM-1	Hospitality Operations Management	THS2HOM
TE-SEM-2	Macroeconomics for Tourism and Hospitality	THS2MAC
TE-SEM-2	Tourism and Hospitality Law 2	LST2THL
TE-SEM-2	Human Resource Management	MGT2HRM
TE-SEM-2	Introductory Statistics for Business	ECO1ISB

Third year

Teaching period	Unit title	Unit code
TE-SEM-1	Rural Tourism	THS3RT
TE-SEM-1	Festival and Event Tourism	THS3FET
TE-SEM-1	Tourism Enterprise Management	THS3EM
TE-SEM-1	Tourism and the Environment	THS3TEN
TE-SEM-2	Community Tourism	THS3CT
TE-SEM-2	Destination Marketing and Management	THS3DMM
TE-SEM-2	Third year elective	
TE-SEM-2	Third year elective	

Study of some units offered at other campuses is possible, but such study must be approved by the Director of Programs (Bendigo), School of Sport, Tourism and Hospitality Management.

Bachelor of Commerce – Bendigo (LBCB)

This course enables students to obtain a professional accounting qualification. It is designed to equip students with competence and expertise in areas such as financial accounting, management accounting, auditing, finance, business law, taxation, business communication and information systems.

Admission requirements

Admission requirements are VCE units 3 and 4 of English (any) and mathematics (any) with a minimum study score of at least 20 in each. Applicants with comparable qualifications will be considered. A limited number of students may also be considered under special entry schemes.

Professional recognition

This course is structured to meet the accreditation requirements of CPA Australia and the Institute of Chartered Accountants in Australia (ICAA). In order to meet the accreditation requirements of the ICAA, Taxation and Auditing must be completed.

Degree requirements

Students must complete a course of units accumulating a minimum of 360 credit points, at least 285 of which must be units offered by the School of Business. The course is designed to be completed within three years of full-time study, although part-time study is possible.

Students must undertake 120 credit points at first year level and 120 credit points at third year level, including at least 90 credit points at third year level from the School of Business. Variations to this structure are subject to approval by the course coordinator.

Course structure

Students completing the course structure listed below graduate with a major in accounting. All units are worth 15 credit points.

First year

Teaching period	Unit title	Unit code
TE-SEM-1	Business Law	LST1BSL
TE-SEM-1	Management Information Systems	BUS1MIS
TE-SEM-1	Accounting for Management Decisions	ACC1AMD
TE-SEM-1	Microeconomics	ECO1IMI
TE-SEM-2	Introductory Statistics for Business	ECO1ISB
TE-SEM-2	Macroeconomics	ECO1IMA
TE-SEM-2	Foundations of Management	MGT1FOM
TE-SEM-2	Introductory Financial Accounting	ACC1IFA

Second year

Teaching period	Unit title	Unit code
TE-SEM-1	Introductory Management Accounting	ACC2IMA
TE-SEM-1	Corporate Reporting	ACC2CRE
TE-SEM-1	Elective	
TE-SEM-1	Elective	
TE-SEM-2	Intermediate Management Accounting	ACC2IMB
TE-SEM-2	Law of Business Association	LST2LBA
TE-SEM-2	Elective	

Third year

Teaching period	Unit title	Unit code
TE-SEM-1	Auditing	ACC3AUD
TE-SEM-1	Taxation	ACC3TAX
TE-SEM-1	Elective	
TE-SEM-1	Elective	
TE-SEM-2	Advanced Financial Accounting	ACC3AFA
TE-SEM-2	Business Finance	ACC3BF
TE-SEM-2	Elective	
TE-SEM-2	Elective	

Double degrees

Bachelor of Business/Bachelor of Information Technology (RZBC)

Details of this course can be found under the entry in the *Handbook* for the Faculty of Science, Technology and Engineering, Bendigo Campus.

Bachelor of Information Technology/Bachelor of Commerce (SZITCB)

Details of this course can be found under the entry in the *Handbook* for the Faculty of Science, Technology and Engineering, Bendigo Campus.

Bachelor of Civil Engineering/Bachelor of Business (RZBE)

Details of this course can be found under the entry in the *Handbook* for the Faculty of Science, Technology and Engineering, Bendigo Campus.

Bachelor of Laws/Bachelor of Arts – Bendigo Campus (LZLAB)

The Bachelor of Laws/Bachelor of Arts is a five year combined degree providing an accredited professional qualification in law as well as a degree in arts. Students undertake their first two years of study at the Bendigo campus and then transfer to the equivalent combined degree program at the Melbourne (Bundoora) campus (LZLA), where they complete the remainder of their course. Students initially select a major or a double major in arts from the disciplines offered by the Faculty of Humanities and Social Sciences at Bendigo. As there may be some arts disciplines on offer at Bendigo that are not available within the Faculty of Humanities and Social Sciences at Melbourne (Bundoora), students must choose an arts major or double major at first year that can be continued at Melbourne (Bundoora). In addition, students cannot normally undertake any units offered by Schools or Faculties other than the Faculty of Humanities and Social Sciences at Bendigo.

At Melbourne (Bundoora), students complete the remainder of the Council of Legal Education core law units and undertake law electives as well as completing their arts major or double major. The eight law units undertaken at Bendigo will normally be taught by means of video-conferencing from the School of Law at Melbourne (Bundoora), in conjunction with tutorials and seminars offered on campus at Bendigo.

Admission requirements

Admission requirements are VCE units 3 and 4 of English (any), with a study score of at least 30.

Degree structure

Students complete eight core law units and seven arts units over their two years at Bendigo. Students will receive full advanced standing for these units at Melbourne (Bundoora). The degree structure is identical to that of the Bachelor of Laws/Bachelor of Arts (undergraduate entry) (LZLA) offered at the Melbourne (Bundoora) campus, except that the arts units offered at Bendigo, which can then be taken as majors at Melbourne (Bundoora), are more restricted. Disciplines available as majors at Bendigo are set out below. Students should note that the number of units required for a major in the Bachelor of Laws/Bachelor of Arts at Melbourne (Bundoora) differs from the requirements of the Bachelor of Arts at Bendigo.

Degree requirements

Students must:

- complete a total of at least five years of full-time study or equivalent
- complete in sequence the compulsory law units
- complete a total of 645 credit points (375 credit points in law and a minimum of 270 credit points in arts)
- complete a total of 22 units in law (15 compulsory units and 7 electives)
- satisfy the requirements of the Bachelor of Arts by completing:
 - either one major study of 130 credit points in one arts discipline, consisting of two electives at first year, two electives at second year and three electives at third year level, of *or* a double major of 260 credit points in two separate arts disciplines, each consisting of two electives at first year, two electives at second year and three electives at third year level

- complete a minimum of 60 and a maximum of 90 credit points at first year level in arts, with no more than 45 credit points in one discipline
- complete a minimum of 80 credit points at third year level in arts (with a minimum of 60 credit points in a major arts discipline)
- complete no more than 180 credit points at first year overall.

Course structure

First year (Bendigo)

Teaching period	Unit title	Unit code	Credit points
TE-SEM-1	Dispute Resolution	LAW1DR	15
TE-SEM-1	Legal Institutions and Methods	LAW1LIM	15
TE-SEM-1	Two first year arts units		30
TE-SEM-2	Criminal Law	LAW2CRM	20
TE-SEM-2	Principles of Public Law	LAW2PPL	15
TE-SEM-2	Two first year arts units ¹		30

Second year (Bendigo)

Teaching period	Unit title	Unit code	Credit points
TE-SEM-1	Law of Contracts	LAW2CNT	20
TE-SEM-1	Law of Torts	LAW2TOR	20
TE-SEM-1	One first or second year arts unit ²		15–20
TE-SEM-2	Commercial and Consumer Contracts	LAW2CCC	15
TE-SEM-2	Constitutional Law	LAW2CNL	20
TE-SEM-2	One first or second year arts unit ²		15–20
TE-SEM-2	One second year arts unit		20

Third to fifth years

See years three to five of the degree structure for the entry for the Bachelor of Laws/Bachelor of Arts degree (LZLA) at Melbourne (Bundoora) in this *Handbook*.

Key: ¹ The range of arts units available to students in the combined Bachelor of Laws/Bachelor of Arts degree at Bendigo is restricted. Students are normally only permitted to take units in disciplines that are also offered by the Faculty of Humanities and Social Sciences at Melbourne (Bundoora), so that they can receive advanced standing for their Bendigo studies towards their major upon transfer and satisfy prerequisites for Melbourne (Bundoora) units. Arts units at Bendigo may be chosen from English, history, religious studies, Indonesian language, politics, sociology and women's studies (referred to as gender, sexuality and diversity studies at Melbourne (Bundoora)). But students must choose units from the lists below. At both Bendigo and Melbourne (Bundoora), students in the Bachelor of Laws/Bachelor of Arts degree are not permitted to take units offered outside the Faculty of Humanities and Social Sciences. Chinese Language has been available to students at Bendigo in the past but is no longer available. Students may, with the permission of the Registrar of the Faculty of Humanities and Social Sciences, Melbourne (Bundoora), take some units from an arts discipline at Bendigo not listed above, but may not be able to complete a major at Melbourne (Bundoora) in this discipline. For example, students may be permitted to enrol in some philosophy, cinema studies or art history units. For possible units, see Miscellaneous Units below. It may also be possible to commence a major at Melbourne (Bundoora) not listed above, provided that the student completes no more than 60 credit points of arts at Bendigo at first year level. Students with concerns about advanced standing at Melbourne (Bundoora) for their choice of arts units at Bendigo should discuss the matter with an adviser from the Faculty of Humanities and Social Sciences at Melbourne (Bundoora).

² Students wishing to take a double major should take these units at a second year level.

For further information on arts units at Bendigo, please contact the Faculty of Humanities and Social Sciences (Bendigo). For information on units available as arts electives at Bundoora, please refer to the Bachelor of Arts entry in the Faculty of Humanities and Social Sciences section of this *Handbook*. For general information about the remainder of the law program, please consult the Bachelor of Laws (Graduate Entry) (LBLE) degree at Melbourne (Bundoora) in this *Handbook*.

Disciplines available at first year and second year level in arts at Bendigo within Bachelor of Laws/Bachelor of Arts

The School of Arts at Bendigo is now part of the Faculty of Humanities and Social Sciences at Melbourne (Bundoora). But the School of Arts currently recognises a number of different departmental disciplines and area studies as accredited majors within

the Bachelor of Arts at Bendigo. As some of these are not available as majors at the Melbourne (Bundoora) campus, students must take only units at Bendigo from the disciplines listed below if they wish to receive full advanced standing for their major studies upon transfer to the Bachelor of Laws/Bachelor of Arts at Melbourne (Bundoora). For further information on the list of offerings within these disciplines, students are referred to the Bendigo campus chapter for the Bachelor of Arts in this *Handbook*.

English

First year level (15 credit points)

Teaching period	Unit title	Unit code
TE-SEM-1	Classical Literature	HUM1CL
TE-SEM-2	Modern Myth in Literature and Film	HUM1MM

Second/third year level (20 credit points)

Teaching period	Unit title	Unit code
TE-SEM-1	Australian and Contemporary Literature ¹	HUM2ACL/HUM3ACL

TE-SEM-2	Gendered Cinema ¹	HUM2GC/HUM3GC
TE-SEM-2	Remembering the Past	HIS2RTP/HIS3RTP
TE-SEM-2	Writing Songs of Protest	ENG2WS/ENG3WS

Key: ¹ Not offered in 2008.

² Students wishing to major in women's studies should consider doing no more than 60 credit points at first year level in arts so that they can enrol in two first year gender and diversity units at Melbourne (Bundoora).

Indonesian language**First year level (15 credit points)**

Teaching period	Unit title	Unit code
TE-SEM-1	Indonesian A ¹	INM1IA
TE-SEM-2	Indonesian B	INM1IB

Key: ¹ Students with VCE Indonesian should enrol in second year Indonesian. For information on Indonesian language courses, please contact the Faculty of Humanities and Social Sciences, Bendigo. Students who complete IND2IC and IND2ID will receive specified advanced standing for the Melbourne (Bundoora) units INM1ADA and INM1ADB. These are the units undertaken by students with VCE Indonesian. Students who complete IND3IE and IND3IF will receive specified advanced standing for the Melbourne (Bundoora) units INM2ADA and INM2ADB. These are the second year units undertaken by students who have completed INM1ADA and INM1ADB. Students who transfer into this

program with advanced standing for Indonesian at second or third year must seek advice on what is required to complete a major due to the difference in credit points between Bendigo and Melbourne (Bundoora) units. For further information on Indonesian language units at Melbourne (Bundoora), please contact the Faculty of Humanities and Social Sciences, Melbourne (Bundoora).

Second year level (15 credit points)

Teaching period	Unit title	Unit code
TE-SEM-1	Indonesian C	INM2IC
TE-SEM-2	Indonesian D	INM2ID

Third year level (15 credit points)

Teaching period	Unit title	Unit code
TE-SEM-1	Indonesian E	INM3IE
TE-SEM-2	Indonesian F	INM3IF

Miscellaneous units

With the permission of the Registrar of the Faculty of Humanities and Social Sciences, Melbourne (Bundoora), students may be able to undertake some other units, but may not be able to continue with these disciplines at Melbourne (Bundoora). Students must also ensure that they can continue with at least one approved discipline from the majors listed above at Melbourne (Bundoora).

Legal studies in Bachelor of Laws/Bachelor of Arts

Students at Bendigo are not permitted to enrol in legal studies units as part of their combined Bachelor of Laws/Bachelor of Arts degree, because they are all business law units that cannot be taken at Melbourne (Bundoora) as part of the Bachelor of Arts. Upon transfer to Melbourne (Bundoora), students are permitted to take some non-business law legal studies units at second or third year level, such as criminology units, but are not permitted to enrol in Criminal Law and Society (LST2CLS/LST3CLS) because it overlaps with Criminal Law (LAW2CRM). Students are also not permitted to enrol in Business Law (LST1BSL), Law of Business Associations (LST2LBA/LST3LBA), Marketing Law (LST2MAL/LST3MAL) or Tourism and Hospitality Law (LST2THL) because these units are not offered by the Faculty of Humanities and Social Sciences.

Honours

Students may be permitted to undertake Honours in the law program in the final year of their law studies. Normally an average grade of B over two full-time years of law study is required. Honours comprises a research component and a compulsory research seminar. Students must complete a 10,000-word thesis (which takes the place of two law electives) on a topic to be approved by the Honours Research and Graduate Studies Committee. The compulsory research seminar is conducted throughout the year. Students must attend at least six of the sessions and are required to present a paper on their individual research project.

Students invited to enrol in Honours in arts must complete a further full-time year of study. For further information, please see the Bachelor of Arts entry in the Faculty of Humanities and Social Sciences section of this *Handbook*.

Professional recognition

The law degree includes those units approved by the Victorian Council of Legal Education, which must be successfully completed as a prerequisite for entry into legal practice. See Bachelor of Laws (Graduate Entry) at Melbourne (Bundoora) for specific units and further information.

Unit availability and descriptions

A full description of units, including the unit name, unit code, credit points, campus/location, unit coordinator, class requirements, assessment, prerequisites and readings, appears at the end of this section. For the most recent descriptions of units students should access the unit database at www.latrobe.edu.au/udb_public.

Bachelor of Laws/Bachelor of Business – Bendigo Campus (LZLBB)

The Bachelor of Laws/Bachelor of Business is a five year combined degree providing an accredited professional qualification in law as well as a degree in business. Students undertake their first two years of study at Bendigo campus and then transfer into the equivalent

combined degree program at Melbourne (Bundoora) campus, where they complete the remainder of their course. As some business majors on offer at Bendigo are not available at Melbourne (Bundoora), students normally choose a major at first year that can be continued at Melbourne (Bundoora). Approved majors at Bendigo for this degree are: business economics, human resource management, marketing and international business. Bendigo students can also major in management or financial management, but in such cases must postpone the commencement of their major until they transfer to Melbourne (Bendigo). In such cases, they take six core business units and two business electives at Bendigo. Students are not permitted to take a business major in business law or information technology. Whilst at Bendigo, students in most cases complete eight core law units, six core business units and two units towards their business major or business electives. Students will receive full advanced standing for these units at Melbourne (Bundoora).

At Melbourne (Bundoora), students complete the remainder of the Council of Legal Education core law units and undertake law electives as well as completing or commencing their business major. Most students will transfer into the Bachelor of Laws/Bachelor of Business, but students majoring in international business will have to transfer into the Bachelor of Laws and the Bachelor of International Business concurrently. For further general information about the business component of this degree, please consult the information for the Bendigo Bachelor of Business (RBB) in this *Handbook*, but note that the specific degree requirements for this combined degree are more restrictive. The eight law units undertaken at Bendigo will normally be taught by means of video-conferencing from the School of Law at Melbourne (Bundoora), in conjunction with tutorials and seminars offered on campus at Bendigo.

Admission requirements

Admission requirements are VCE units 1 and 2 of one of general mathematics or mathematical methods and VCE units 3 and 4 of English, with a study score of at least 30.

Degree structure

The overall degree structure for each student will depend upon the particular business major selected. Most students will remain in the Bachelor of Laws/Bachelor of Business program. Students majoring in international business will enrol in the undergraduate Bachelor of Laws (LBL) and Bachelor of International Business (LBIB) concurrently, but will be granted a reduction in the overall credit points for these two degrees to bring them into line with the credit points in a five year combined degree. All students complete 645 credit points overall: 375 credit points in law (22 law units: 15 core and 7 electives) and 270 credit points in business or international business (18 units, including 8 units in their major). Most students will complete eight law units and eight business units at Bendigo. The business units include six core units and two units towards the selected major or business electives.

Degree requirements

Students must:

- complete a total of at least five years of full-time study or equivalent
- complete in sequence the compulsory law units
- complete in sequence the compulsory business units
- complete a total of 645 credit points (375 credit points in law and 270 credit points in business)
- complete a total of 22 units in law (15 compulsory units and 7 electives)
- complete a total of 18 units in business (6 core units, 8 units from a permissible business major and 4 School of Business electives)
- complete 90 credit points at first year in core School of Business units
- complete 120 credit points in a permissible business major, comprising 0–15 credit points at first year, 45–60 credit points at second year and 60 credit points at third year (depending on the major chosen)
- complete 60 credit points in School of Business electives, with a maximum of 15 credit points at first year level and a minimum of 30 credit points at third year level
- complete a minimum of 90 credit points at third year in School of Business units

- complete no more than 180 credit points at first year level overall;
- if commencing at Bendigo, complete the first two years of study in law at Bendigo prior to transfer to Melbourne (Bundoora)

In lieu of 30 credit points of School of Business electives, students may complete up to 30 credit points in other free electives with the permission of the Director of Undergraduate Studies in the School of Law at Melbourne (Bundoora) in consultation with the Head of the School of Business at Melbourne (Bundoora).

Course approval

All Bendigo students must have their enrolments, including unit variations, approved by a course adviser in order to ensure that they receive full advanced standing for their studies following transfer to Melbourne (Bundoora).

Course structure

First year

Teaching period	Unit title	Unit code	Credit Points
TE-SEM-1	Dispute Resolution	LAW1DR	15
TE-SEM-1	Legal Institutions and Methods	LAW1LIM	15
TE-SEM-1	Accounting for Management Decisions	ACC1AMD	15
TE-SEM-1	Microeconomics	ECO1IMI	15
TE-SEM-2	Criminal Law	LAW2CRM	20
TE-SEM-2	Principles of Public Law	LAW2PPL	15
TE-SEM-2	Foundations of Management ¹	MGT1FOM	15
TE-SEM-2	Macroeconomics	ECO1IMA	15

Second year

Teaching period	Unit name	Unit code	Credit Points
TE-SEM-1	Law of Contracts	LAW2CNT	20
TE-SEM-1	Law of Torts	LAW2TOR	20
TE-SEM-1 or TE-SEM-2	Management Information Systems	BUS1MIS	15
TE-SEM-1	One second year business major unit ²		15
TE-SEM-2	Commercial and Consumer Contracts	LAW2CCC	15
TE-SEM-2	Constitutional Law	LAW2CNL	20
TE-SEM-1 or TE-SEM-2	Introductory Statistics for Business	ECO1ISB	15
TE-SEM-2	One first-or second year business major unit (depending on the business major) ³		15

Key: ¹ Students wishing to major in business economics should enrol in Introductory Statistics for Business (ECO1ISB) in place of Foundations of Management (MGT1FOM) and should enrol in Foundations of Management in teaching period 2, second year. This will enable them to access more second year economics units in second year. Students wishing to major in marketing should take their first business major unit here, Marketing Principles and Practice (MKT2MPP), in place of Foundations of Management and should defer Foundations of Management until teaching period 2, second year. They should also enrol in Consumer Behaviour (MKT2CBE) in second year.

² Students wishing to major in financial management, international business or business economics may not be able to undertake some or all of their major units until they transfer to Melbourne (Bundoora). If this is the case, they should however take a second year business elective in lieu of this major unit.

³ Some majors require first year core units: for example, business economics and financial management majors must complete ECO1IQA at Melbourne (Bundoora). Bendigo students wishing to major in financial management, international business or business economics should take a second year business elective in lieu of this major unit, if no major unit is available at Bendigo.

Third to fifth years

For students who transfer into the Bachelor of Laws/Bachelor of Business at Melbourne (Bundoora), please consult the Bachelor of Laws/Bachelor of Business (LZLB) entry in the Faculty of Law and Management section in this *Handbook* for information about this major. For general information about business majors, please consult the Bachelor of Business (LBB) degree information.

For students who transfer into the Bachelor of International Business at Melbourne (Bundoora) concurrently with the Bachelor of Laws, please consult the Bachelor of International Business (LBIB) entry and the Bachelor of Laws (LBL) entry in the Faculty of Law and Management section in this *Handbook*.

Students will generally complete 10 business units at Melbourne (Bundoora) from offerings in the School of Business, including any

core units for their major not already completed at Bendigo. Students may have to tailor their courses slightly differently depending upon the number and nature of the units undertaken at Bendigo. Students will receive proper course advice upon transfer to enable them to complete their studies within five years.

Legal studies in Bachelor of Business

Students are not permitted to take legal studies or business law units as business electives within this degree, unless they have the prior permission of the Director of Undergraduate Studies, School of Law, Melbourne (Bundoora) on (03) 94792284.

Business majors not available at Bendigo for students transferring to Melbourne (Bundoora)

Students are not permitted to take a business major in business law or information technology as part of this combined degree at Bendigo or Melbourne (Bundoora), even though these may be available as majors within the Bachelor of Business (RBB) at Bendigo.

Honours

Students may be permitted to undertake Honours in the law program in the final year of their law studies. Normally an average grade of B over two full-time years of law study is required. Honours comprises a research component and a compulsory research seminar. Students must complete a 10,000-word thesis (which takes the place of two law electives) on a topic to be approved by the Honours Research and Graduate Studies Committee. The compulsory research seminar is conducted throughout the year. Students must attend at least six of the sessions and are required to present a paper on their individual research project.

Students invited to enrol in Honours in business, international business or commerce must complete a further full-time year of study. For further information, please consult the relevant entries for the Bachelor of Business, Bachelor of International Business and Bachelor of Commerce.

Professional recognition

The law degree includes those units approved by the Victorian Council of Legal Education, which must be successfully completed as a prerequisite for entry into legal practice. See the Bachelor of Laws (Graduate Entry) (LBLG) at Melbourne (Bundoora) for specific units and further information.

For information on professional recognition for business units completed within this combined degree, please consult the relevant entries for the Bachelor of Business (LBB) and the Bachelor of International Business (LBIB) in the Faculty of Law and Management section in this *Handbook*.

Unit availability and descriptions

A full description of units, including the unit name, unit code, credit points, campus/location, unit coordinator, class requirements, assessment, prerequisites and readings, appears at the end of this section. For the most recent descriptions of units students should access the unit database at www.latrobe.edu.au/udb_public.

Bachelor of Laws/Bachelor of Science – Bendigo Campus (LZLSB)

The Bachelor of Laws/Bachelor of Science is a five year combined degree providing an accredited professional qualification in law as well as a degree in science. Students undertake their first two years of study at the Bendigo campus and then transfer to the equivalent combined degree program at the Melbourne (Bundoora) campus, where they complete the remainder of their course. Students complete eight core law units and seven science units over their two years at Bendigo. Students will receive full advanced standing for their law units, but some reduction in advanced standing may be necessary in the case of science units to take into account the different content of and credit points for, science units at Bendigo and Melbourne (Bundoora). As there may be some science majors on offer at Bendigo that are not available at Melbourne (Bundoora), students must ordinarily choose a major at first year that can be continued at Melbourne (Bundoora). Subject to the approval of the Faculty of Science, Technology and Engineering at Melbourne (Bundoora), if a desired major discipline is not available at Bendigo, it may still be possible to commence that major after transfer to Melbourne

(Bundoora), but to complete other science units in the interim. At Melbourne (Bundoora), students complete the remainder of the Council of Legal Education core law units and undertake law electives as well as completing their science units.

The eight law units undertaken at Bendigo will normally be taught by means of video-conferencing from the School of Law at Melbourne (Bundoora), in conjunction with tutorials and seminars offered on campus at Bendigo.

Admission requirements

Admission requirements are VCE units 3 and 4 of English (any) and mathematical methods or specialist mathematics, with a study score of at least 30 in English and a study score of at least 20 in mathematical methods or specialist mathematics.

Degree structure

Students must:

- complete a total of at least five years of full-time study or its equivalent
- complete in sequence the compulsory law units
- satisfy the requirements of the Bachelor of Science
- complete a total of 630 credit points (375 credit points in law and 255 credit points in science)
- complete a total of 22 units in law (15 compulsory units and 7 electives)
- complete a minimum of 60 and a maximum of 90 credit points at first year level, a minimum of 80 credit points at second year level and a minimum of 90 credit points at third year level in science;
- complete no more than 180 credit points at first year level overall. Students will usually be enrolled in between 120 and 135 credit points each year, but may enrol in up to 145 credit points without special approval.

Course structure

First year

Teaching period	Unit name	Unit code	Credit Points
TE-SEM-1	Dispute Resolution	LAW1DR	15
TE-SEM-1	Legal Institutions and Methods	LAW1LIM	15
TE-SEM-1	Two first year science electives		30
TE-SEM-2	Criminal Law	LAW2CRM	20
TE-SEM-2	Principles of Public Law	LAW2PPL	15
TE-SEM-2	Two first year science electives		30

Second year

Teaching period	Unit name	Unit code	Credit Points
TE-SEM-1	Law of Contracts	LAW2CNT	20
TE-SEM-1	Law of Torts	LAW2TOR	20
TE-SEM-1	First or second year science elective		15
TE-SEM-2	Commercial and Consumer Contracts	LAW2CCC	15
TE-SEM-2	Constitutional Law	LAW2CNL	20
TE-SEM-2	First or second year science elective(s) ¹		15–20
TE-SEM-2	First or second year science elective(s) ¹		15–20 ²

Key: ¹ As second and third year electives at Bendigo are all worth 15 credit points, students who elect to complete second year units at Bendigo may have to complete an additional unit at second year level to what is noted on the grid in order to complete the minimum 80 credit points required at second year level by the end of the degree. This can be taken at Bendigo or Melbourne (Bundoora).

² Subject to a maximum of 90 first year credit points.

Third to fifth years

See years 3–5 in the entry for the Bachelor of Laws/Bachelor of Science (LZLSB) degree in the Faculty of Science and Technology at Melbourne (Bundoora) in this *Handbook*. Some adjustments will be necessary to take into account the fact that students will not have completed a law elective in their second year at Bendigo, but will have completed one second year science unit in lieu.

For general information about the law program, please consult the entry for the Bachelor of Laws (Graduate Entry) (LBLG) in the Faculty of Law and Management at Melbourne (Bundoora) in this *Handbook*. For advice on science units at Melbourne (Bundoora), please consult a course adviser in the Faculty of Science, Technology and Engineering, Melbourne (Bundoora).

Science majors

The following majors are available to students at Bendigo following transfer to Melbourne (Bundoora): biological sciences, chemistry, computer science, mathematics, physics, psychological sciences and statistics. In order to obtain entry into second year Melbourne (Bundoora) units, leading to a major study of one of these disciplines at third year level, the following Bendigo units must normally be included in the first-and second year enrolments at Bendigo. Second year level Bendigo units have been included when their content overlaps with core first year level Melbourne (Bundoora) units.

Discipline	Unit Name	Unit Code	Teaching period	Credit Points
Biological sciences ¹	Biology of the Cell and Organism	BIO1CO	TE-SEM-1	15
	Organs and Organ Systems	BIO1OOS	TE-SEM-2	15
Chemistry	Chemistry 1A	CHE1C1A	TE-SEM-1	15
	Chemistry 1B	CHE1C1B	TE-SEM-2	15
Computer science	Programming Environment	INT1PE	TE-SEM-1	
			or	
			TE-SEM-2	15
	Programming Concepts	INT1PC	TE-SEM-1	
			or	
			TE-SEM-2	15
Mathematics	Object-Oriented Programs	INT2OOP	TE-SEM-1	15
	Data Structures	INT2DS	TE-SEM-1	
			or	
			TE-SEM-2	15
	Discrete Mathematics (also highly recommended)	MAT1DIS	TE-SEM-2	15
	Calculus A	MAT1CA	TE-SEM-1	15
Physics	Calculus B	MAT1CB	TE-SEM-2	15
	Linear Algebra	MAT2LIN	TE-SEM-1	15
	Discrete Mathematics (also highly recommended)	MAT1DIS	TE-SEM-2	15
	Physics A	PHY1PA	1	15
Psychological sciences	Physics B	PHY1PB	2	15
	Psychology A	PSY1PYA	1	15
	Psychology B	PSY1PYB	2	15
	Introduction to Behavioural Neuroscience A	PSY1BNA	1	15
Statistics	Introduction to Behavioural Neuroscience B	PSY1BNB	2	15
	Statistical Methods	STA1STM	TE-SEM-1/ TE-SEM-2	15

Key: ¹ Students may be permitted to take two units, Life Sciences 1 (HBS1LS1) and Life Sciences 2 (HBS1LS2), in lieu of Biology of the Cell and Organism (BIO1CO) and Organs and Organ Systems (BIO1OOS). Refer to Faculty of Science, Technology and Engineering section in this *Handbook* for full unit details.

Subject to the approval of the Faculty of Science, Technology and Engineering at Melbourne (Bundoora), if a desired major discipline is not available at Bendigo, it may still be possible to commence that major after transfer to Melbourne (Bundoora), but to complete some of the above science units in the interim. Students in this position would have to leave some of the maximum 90 credit points at first year level free so that they could undertake the first year units of their major at Melbourne (Bundoora).

Honours

Students may be permitted to undertake Honours in the law program in the final year of their law studies. Normally a grade of B average over two full-time years of law study is required. Honours comprises a research component and a compulsory research seminar. Students must complete a 10,000-word thesis (which takes the place of two law electives) on a topic to be approved by the Honours Research and Graduate Studies Committee. The compulsory research seminar is conducted throughout the year. Students must attend at least six of the sessions and are required to present a paper on their individual research project.

Students invited to enrol in Honours in science must complete a further full-time year of study. For further information, please see the

Bachelor of Science entry in the Faculty of Science, Technology and Engineering section of this *Handbook*.

Professional recognition

The law degree includes those units approved by the Victorian Council of Legal Education that must be successfully completed as a prerequisite for entry into legal practice. See Bachelor of Laws (Graduate Entry) at Melbourne (Bundoora) for specific units and further information.

Bachelor of Science/Bachelor of Commerce (SZSCB)

Details of this course can be found under the entry in the *Handbook* for the Faculty of Science, Technology and Engineering, Bendigo Campus.

Honours degrees

Bachelor of Business (Honours) – Bendigo (RHB)

This course is designed for high-achieving students who wish to undertake further studies in human resource management or marketing. It provides a fourth year of theoretical and practical studies with a strong research focus so as to provide a basis for further study at the Masters and Doctoral levels and the opportunity for advanced professional employment.

Admission requirements

To qualify for entry to the Bachelor of Business (Honours), candidates should normally have completed a Bachelor of Business degree with a major in human resource management or marketing and a B (70% or greater) average result in six second and third year core units from the designated major. Students must complete all requirements of their undergraduate degree before taking up Honours.

Course structure

The course can be undertaken by full-time study for one year or part-time study for two years. Students are required to complete four coursework units and a thesis of 20,000 words. The thesis will be completed under the direct supervision of an academic staff member. Approval of a research topic is subject to the availability of a supervisor in the designated discipline area. The major the student is studying will dictate the core units required.

Major in human resource management

Teaching period	Unit title	Unit code
TE-SEM-1	Research Methods	MGT4RMA
TE-SEM-1	Issues in Human Resource Management	MGT4IHM
TE-SEM-1	Directed Readings Unit	BUS4DRE
Plus one other approved fourth or fifth year level unit		
TE-SEM-2	20,000-Word Thesis	BUS4HTC

Major in marketing

Teaching period	Unit title	Unit code
TE-SEM-1	Research Methods	MGT4RMA
TE-SEM-1	Issues in Marketing	MKT4IIM
TE-SEM-1	Directed Readings Unit	BUS4DRE
Plus one other approved fourth or fifth year level unit		
TE-SEM-2	20,000-Word Thesis	BUS4HTC

Note: Availability of units is dependent on demand.

Bachelor of Commerce (Honours) – Bendigo (LHCB)

This course is designed for high-achieving students who wish to undertake further studies in accounting. It provides a fourth year of theoretical and practical studies with a strong research focus so as to provide a basis for further study at the Masters and Doctoral levels and the opportunity for advanced professional employment.

Admission requirements

The entry requirements are successful completion of a Bachelor's degree majoring in accounting and a B (70% or greater) average result in six second and third year core units in accounting. Students must complete all requirements of their undergraduate degree before taking up Honours.

Course structure

The course can be undertaken by full-time study for one year or part-time study for two years. Students will be required to complete either: four coursework units and a thesis of 20,000 words or five coursework units and a thesis of 15,000 words. Students are required to complete the thesis in an accounting topic under the direct supervision of an academic staff member. Approval of a research topic is subject to the availability of a supervisor in the designated discipline area.

Teaching period	Unit title	Unit code
TE-SEM-1	Research Methods	MGT4RMA
TE-SEM-1	Issues in Accounting	ACC4IIA
TE-SEM-1	Directed Readings Unit	BUS4DRE
Plus one or two other approved fourth or fifth year level units		
TE-SEM-2, or	15,000-Word Thesis	ACC4HTB
TE-SEM-2	20,000-Word Thesis	ACC4HTC

Note: Availability of units is dependent on demand.

UNIT DESCRIPTIONS

ACC1AMD ACCOUNTING FOR MANAGEMENT DECISIONS (15. CPs Sem. TA-ACNSEM1 SY. TA-ACNSEM2 SY. TA-ACNSEMS SY. TE-SEM-1 AW, BE, BU, MI, SH. TE-SEM-2 BU. TE-SEM-S BU. TE-W13-26 NI. TE-W31-46 NI.) *Dr Liz Duncan, Mrs Selina Lim, Ms Kathie Stirling, Mr Petrus Usmanij, Mrs Susan Nalder*

This unit is designed to introduce undergraduate students from all disciplines to the nature of accounting and its role in business. Topics covered provide an overview of key financial and managerial accounting concepts and include: the recording of business transactions; the calculation and measurement of profit; the preparation of financial statements; the analysis and interpretation of financial statement data; cost accounting and reporting systems; and cost analysis for planning, control and decision-making.

Class requirements: Two 1-hour lecture and one 1-hour tutorial per week.

Assessment: Tutorial assessment (10%), mid-semester test (20%), one 3-hour final examination (70%). Hurdle requirement: students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject, major assignment (30%). AW: comprising practical problem and report – 1000-word (equivalent), one 3-hour final examination (70%). AW: Hurdle requirement. Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass this unit.

Prescribed Reading:

AW: *Accounting Business Reporting for decision-making*

ACC1AME ACCOUNTING AND MANAGEMENT FOR ENTREPRENEURS (15. CPs Sem. TE-SEM-1 BU. TE-SEM-2 BE, BU.) *BE: Ms Diane Harvey, BU: Ms Sarah Yang Spencer*

Not available to students in the Bachelor of Commerce.

This unit is designed to give students a solid understanding of the important basics of starting and managing business ventures, especially the accounting theory and practice relating to entrepreneurs in managing a small business. The aim is to provide students with a guide to the fundamentals of good management in running their future business and to give students the ability to apply financial information and generate financial reports, which will enable them to control small business operations, make business decisions and apply problem-solving techniques. Attention will be directed to both short term and long term decision-making including cost and financial control, pricing and current asset management.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: One business planning project (30%) equivalent to 1500 words, one 3-hour final examination (70%)

Prescribed Reading:

BE: Jopling, R, Lucas, P and Norton, G. *Accounting for business – a non-accountant's guide* McGraw-Hill 2nd edn.

BE: Schaper, M and Thiery, V. *Entrepreneurship and small business – a Pacific Rim perspective (special print)* Wiley

ACC1IFA INTRODUCTORY FINANCIAL ACCOUNTING (15. CPs Sem. TA-ACNSEM1 SY. TA-ACNSEM2 SY. TE-SEM-1 AW, BU. TE-SEM-2 BE, BU, MI, SH. TE-W13-26 NI. TE-W31-46 NI.) *Mr Greg Ellis, Mr Glenn Hill, Ms Sue Nalder*

This unit introduces students to accounting information systems, which record financial events and provide information to management. The unit begins with the accounting equation, accounting cycle, accrual accounting concepts and the preparation of financial statements. Attention is then given to application of generally accepted accounting principles and selected accounting standards to specific financial elements and transactions.

Prerequisite: ACC1AMD.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: One computerised practice set (10%), one manual practice set (20%), one 3-hour final examination (70%). Hurdle requirement: students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject. One 1/2-hour take-home examination (10%). AW: based on assignment tutorial questions, one 1-hour mid-semester test (20%). AW: one 3-hour final examination (70%). AW: Hurdle requirement: students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the unit.

ACC2CRE CORPORATE REPORTING (15. CPs Sem. TA-ACNSEM1 SY. TA-ACNSEM2 SY. TE-SEM-1 BE, BU, SH. TE-SEM-2 AW, BU, MI. TE-W13-26 NI. TE-W31-46 NI.) *Dr Liz Duncan, Mr Greg Ellis, Dr Xu-Dong Ji*

This unit covers corporate financial accounting and reporting at an intermediate level. It provides students with an understanding of the corporate reporting environment in Australia and the economic implications of accounting numbers. The unit incorporates evaluation and application of selected accounting standards, as well as the preparation of corporate group financial reports, which satisfy professional and regulatory requirements.

Prerequisite: ACC1IFA.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

This unit is not available for 'Study Abroad' students.

Assessment: One 500-word assignment (15%), one 1-hour mid-semester test (15%), one 3-hour final examination (70%). Hurdle requirement: students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject. One 30-minute mid-semester test (30%). AW and SH: one 3-hour final examination (70%). AW and SH: Hurdle requirement: students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the unit

ACC2IMA INTRODUCTORY MANAGEMENT ACCOUNTING (15. CPs Sem. TA-ACNSEM1 SY. TA-ACNSEM2 SY. TE-SEM-1 AW, BE, BU, MI, SH. TE-SEM-2 BU. TE-W13-26 NI.) *Mr Sunil Dahanayake, Mr Greg Ellis, Ms Dianne Harvey, Dr Prem Yapa*

This unit is offered in another teaching period

Managerial accounting provides organisations with internal financial and non-financial information required for the three functions of planning, controlling and decision-making. This unit enables students to develop an understanding of the elements of management

accounting and the way in which cost information is used in undertaking these functions within the context of a modern business concern. The unit examines the nature and behaviour of product cost information and students should be able to apply their understanding of this to decision-making situations using both a quantitative and a qualitative approach.

Prerequisite: ACC1AMD.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: One tutorial presentation (10%) equivalent to 1000 words, one 3-hour final examination (70%). Hurdle requirement: students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject. One 45-minute mid-semester test (20%)

Prescribed Reading:

Langfield-Smith, Thorne and Hilton AW: *Management Accounting* McGraw Hill

ACC2IMB INTERMEDIATE MANAGEMENT ACCOUNTING (15. CPs Sem. TA-ACNSEM1 SY. TA-ACNSEM2 SY. TE-SEM-1 BU. TE-SEM-2 AW, BE, BU, MI, SH. TE-W31-46 NI.) *Mr Sunil Dahanayake, Ms Katherine Stirling, Ms Suzanne Salmon, Mr Petrus Usmanij*

Intermediate Management Accounting further develops the concepts of management accounting and provides analytical methods for both short term and long term managerial decisions. Topics include budgeting standard costing and variance analysis, capital budgeting, inventory management, performance measurement and contemporary developments in management accounting.

Prerequisite: ACC2IMA/ACC21IMA/ACC22IMA.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: One 45-minute mid-semester test (20%), one 3-hour final examination (70%). Hurdle requirement: students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject, one 10-minute class presentation (10%)

Prescribed Reading:

Langfield-Smith, K, Thorne, H and Hilton, R. W. *Management accounting: an Australian perspective*. 4th edn. McGraw-Hill, 2006

ACC3AFA ADVANCED FINANCIAL ACCOUNTING (15. CPs Sem. TA-ACNSEM1 SY. TA-ACNSEM2 SY. TE-SEM-1 AW, BU. TE-SEM-2 BE, BU, MI, SH. TE-W31-46 NI.) *Dr Liz Duncan, Dr Jane Hamilton, Dr Kamran Ahmed*

This unit aims to promote an understanding of some of the major contemporary issues associated with the measurement and reporting of the operating results and financial position of modern reporting entities. Topics on foreign currency transaction and translation, superannuation, financial instruments, construction contracts and other topical issues will be covered within the context of recent recommendations of the Australian accounting profession. The role of theory in accounting will also be covered.

Prerequisite: ACC2CRE.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: One 45-minute mid-semester test (30%), one 3-hour final examination (70%). Hurdle requirement: students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject, AW: and SH one 3-hour final exam (70%). Hurdle requirement: students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the unit. AW: and SH: One major practical problem (30%) involving accounting for superannuation.

Prescribed Reading:

CPA Australia *Accounting Handbook 2008* Pearson, Education Australia

ACC3AUD AUDITING (15. CPs Sem. TA-ACNSEM1 SY. TA-ACNSEM2 SY. TE-SEM-1 BE, BU, SH. TE-SEM-2 AW, BU. TE-SEM-5 MI. TE-W13-26 NI.) *Ms Jane Hamilton, Ms Biserka Siladi, Mr Larry O'Connor*

This unit covers auditing theory and practice and is designed to meet the preliminary requirements of the Institute of Chartered Accountants

in Australia and CPA Australia. Auditing is designed to give students an understanding of the concepts involved in the auditing process.

The unit aims to integrate these concepts with practical application including reference to appropriate accounting and auditing standards.

Prerequisite: ACC2CRE.

Class requirements: One 2-hour lectures and one 1-hour tutorial per week.

Assessment: One 3-hour final examination (70%). Hurdle requirement: students must achieve at least 40% in the final examination as well as an overall 50% for the unit. One 1-hour mid-semester test (20%), tutorial exercises/assignment, equivalent to 500 words (10%)

Prescribed Reading:

ACC3BF BUSINESS FINANCE (15. CPs Sem. TE-SEM-2 BE.) *Ms Dianne Harvey*

Students are acquainted with the financial environment in which business operates and introduced to certain principles associated with financial management decisions. The unit is primarily concerned with decisions confronting senior financial executives with respect to the investment, financing and dividend policies of a firm. Students study the fundamentals of financial management, including the valuation of the firm, principles relating to capital investment, capital structured dividend policy and the cost and sources of business finance. Specific topics include the principles of investment and portfolio theory and the introduction of risk analysis in capital budgeting decisions, the cost of capital, current asset management, capital structure, dividend decisions and interest rates.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: One 3-hour final examination (70%). Hurdle requirement: students must achieve at least 40% in the examination, as well as an overall total of at least 50% to pass the Unit, One 1500-word assignment (30%)

Prescribed Reading:

Peirson, G, Brown, R, Easton, S, Howard, P and Pinder, S. *Business finance* McGraw-Hill Irwin, 9th edn (2006)

ACC3TAX TAXATION (15. CPs Sem. TA-ACNSEM1 SY. TA-ACNSEM2 SY. TE-SEM-1 BE, BU, MI. TE-SEM-2 AW, BU, SH. TE-W13-26 NI. TE-W31-46 NI.) *Ms Dianne Harvey, Mr Les Nethercote*

This unit develops an understanding of Commonwealth income tax legislation and the implications of income tax on the individual and business enterprise. A practical approach is taken to the unit matter and topics include objectives of taxation, the general concepts of assessable income and allowable deductions, determination of taxable income and tax payable, special classes of taxpayers, returns and assessments, objections and appeals, collection and recovery of taxation, substantiation provisions and an introduction to capital gains and fringe benefits tax.

Prerequisite: ACC1IFA and LST2LBA.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: Tutorial participation (5%), one 1500-word assignment (25%), one 3-hour final examination (70%). Hurdle requirement: students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject

Prescribed Reading:

ACC3TTX TOPICS IN TAXATION (15. CPs Sem. TE-SEM-2 BE.) *Ms Di**Harvey**Not available in 2008***ACC4HTB COMMERCE HONOURS THESIS OPTION B** (45. CPs Sem. TE-SEM-2 BE.) *Dr Jane Hamilton*

Students undertake this unit as part of their Bachelor of Commerce (Honours). The research component of the program consists of 45 credit points. Students are required to complete a 15,000-word thesis in an accounting topic under the direct supervision of an academic staff member. Topics outside of accounting must be approved by Head of School in consultation with the Professor of Discipline.

Class requirements: There are no formal class requirements. Students are required to consult with their supervisor on a regular basis.

Assessment: One 15,000-word thesis (100%)

ACC4HTC COMMERCE HONOURS THESIS OPTION C (60. CPs Sem. TE-SEM-1 BU, TE-SEM-2 BE, BU.) *BE: Dr Jane Hamilton, BU: Professor Zahirul Hoque*

Students undertake this unit as part of their Bachelor of Commerce (Honours). The research component of the program consists of 60 credit points. Students are required to complete a 20,000-word thesis in an accounting topic under the direct supervision of an academic staff member. Topics outside of accounting must be approved by Head of School in consultation with the Professor of Discipline.

Class requirements: There are no formal class requirements. Students are required to consult with their supervisor on a regular basis.

This unit is not available for 'Study Abroad' students.

Assessment: One 20,000-word thesis (100%)

ACC4IFA ISSUES IN FINANCIAL ACCOUNTING (15. CPs Sem. TE-SEM-1 BE.) *Dr Jane Hamilton*

This unit is part of the accounting Honours program and provides students with a framework within which to examine the choices in financial reporting methods and to study the issues involved in the measurement of the elements of financial statements. Topics covered include: the nature of accounting theory – nature, construction and verification of accounting theory, descriptive and prescriptive theories, empirical research in accounting; current issues in financial accounting selected from the conceptual framework and accounting standard-setting process; measurement theory and the valuation of assets and liabilities; accounting for government and not-for-profit entities; social accounting and related issues; ethical considerations in accounting.

Prerequisite: Entry to the Bachelor of Commerce (Honours).

Class requirements: 3-hour seminar for one semester.

This unit is not available for 'Study Abroad' students.

Assessment: 20-minute seminar presentation (20%), 2000-word essay (50%), 90-minute examination (30%)

ACC4IFR ISSUES IN FINANCIAL REPORTING (15. CPs Sem. TE-SEM-1 BE, BU.) *Professor Kamran Ahmed*

The purpose of this unit is to examine financial reporting from a theoretical perspective and examines the role of accounting numbers in contractual and organisational arrangements for efficient operations of our economy. Several empirical and theoretical papers dealing with perspectives of financial reporting, usefulness of accounting numbers and disclosures, corporate governance and international harmonization are examined.

Class requirements: One two-hour seminar per week and self-directed learning activities equivalent to 1-hour classroom contact per week.

This unit is not available for 'Study Abroad' students.

Assessment: Two 10-minute individual class presentations and one 500-word written summary (15%), one 20-minute individual 1000-word class presentation (15%), one 3000-word take-home final examination (70%)

Recommended Reading:

ACC4IIF ISSUES IN FINANCE (15. CPs Sem. TE-SEM-1 BE.) *Mr Earl**Jobling*

This unit is part of the accounting Honours program and provides students with the opportunity of an in-depth study of aspects of

financial management and contemporary financial issues. Topics include: the nature and methodology of finance and portfolio theory research; efficient market hypothesis and the CAPM; extensions of the CAPM, arbitrage pricing model; option, futures and hybrid securities – pricing models, security valuation; mergers and takeovers, financial strategy; international finance and FOREX.

Prerequisite: Entry to the Bachelor of Commerce (Honours).

Class requirements: Three-hour seminar for one semester.

This unit is not available for 'Study Abroad' students.

Assessment: 20-minute seminar presentation (20%), 2000-word essay (50%), 90-minute examination (30%)

ACC4IMA ISSUES IN MANAGEMENT ACCOUNTING (15. CPs Sem. TE-SEM-1 BE, BU.) *Professor Zahirul Hoque*

The aim of this unit is to provide the student with an understanding of research in management accounting. This paper draws particularly on the research interests and publications of the teaching staff. Particular emphasis is placed on the social institutional and organisational context of management accounting. Students will be challenged to think about the nature and influence of management accounting.

Class requirements: One 2-hour seminar per week.

This unit is not available for 'Study Abroad' students.

Assessment: Two 2250-word essays (100%)

BUS1MIS MANAGEMENT INFORMATION SYSTEMS (15. CPs Sem. TA-ACNSEM1 SY, TA-ACNSEM2 SY, TA-ACNSEMS SY, TE-SEM-1 AW, BE, BU, MI, SH, TE-SEM-2 BE, BU, TE-W13-26 NI, TE-W31-46 NI.) *Dr Liz Duncan, Dr John**McCullagh, Mr Liam Lenten, Mrs Selena Lim*

This unit introduces students to some basic information systems (IS) ideas and concepts as IS are the key to business functions today. It will provide students with an overview of the entire IS discipline as well as a solid preparation for further study in information systems units. In addition, students will also gain an appreciation for business-related packages. This will give them a competitive edge in the job marketplace.

Incompatible unit: CSE111S

Class requirements: Two 1-hour lectures and one 2-hour computer laboratory session/tutorial per week.

Assessment: BU: SH: NI: lab exercises (15%) equal to 500 words, online quizzes (15%) equivalent to 1000 words over the semester, one 3-hour final examination (70%). Hurdle requirement: students must achieve at least 40% in the examination as well as an overall total of 50% to pass the unit. A/W: presentation and report (15%). equivalent to 500 words, one Excel spreadsheet assignment (15%). equal to 500 words, one 3-hour final exam (70%). Hurdle requirement: students must achieve at least 40% in the examination as well as an overall total of 50% to pass the unit. BE: online quizzes (15%) equivalent to 1000 words over the semester, one practical assignment (15%) equivalent to 500 words, one 3-hour final exam (70%). Hurdle requirement: students must achieve at least 40% in the examination as well as an overall total of 50% to pass the unit

BUS4DRE DIRECTED READINGS (15. CPs Sem. TE-SEM-1 BE, BU, TE-SEM-2 BE, BU.) *BE: Dr Jane Hamilton, BU: Dr Outi Niinen*

An individual reading project. This unit will be available as necessary and at the discretion of the Head of School.

Class requirements: Students are required to discuss their reading project individually with their supervisors at weekly intervals.

Assessment: Two essays/research reports equivalent in total to 4500 words (100%) as arranged for each individual student

BUS4HIB INTERNATIONAL BUSINESS HONOURS THESIS B (30. CPs Sem. TE-SEM-1 BE, BU, TE-SEM-2 BE, BU.) *Dr Heidi Ryoo*

Students undertake this unit as part of a Bachelor of International Business (Honours). Students are required to complete a 15,000-word thesis under direct supervision of an academic staff member. Topics outside International Business must be approved by the Head of Department.

Prerequisite: BUS41HIA or BUS42HIA.

Class requirements: There are no formal class requirements. Students

are required to consult with their supervisor on a regular basis.
This unit is not available for 'Study Abroad' students.

Assessment: One 15,000-word thesis (100%)

BUS4HTC BUSINESS HONOURS THESIS OPTION C (60. CPs Sem. TE-SEM-1 BU, TE-SEM-2 BE, BU.) *Dr Outi Niininen*

Students undertake this unit as part of their Bachelor of Business (Honours) majoring in either human resource management, management or marketing. The research component of the program consists of 60 credit points. Students are required to complete a 20,000-word thesis under the direct supervision of an academic staff member. Approval of research topic is subject to availability of a supervisor in the designated discipline area.

Class requirements: There are no formal class requirements. Students are required to consult with their supervisor on a regular basis.

This unit is not available for 'Study Abroad' students.

Assessment: One 20,000-word thesis (100%)

ECO1IMA MACROECONOMICS (15. CPs Sem. TA-ACNSEM1 SY. TA-ACNSEM2 SY. TA-ACNSEMS SY. TE-SEM-1 BU, MI. TE-SEM-2 AW, BE, BU, SH. TE-W31-46 NI.) *Dr Jayanath Ananda, Mr David Reimers, Dr Jan Libich, Dr Jayanth Ananda*

Introduces students to the study of the economy as a whole and to the economic way of thinking. Topics include national income accounting, consumption and investment demand, government spending, exports and imports, aggregate demand and supply, money and banking, fiscal and monetary policy, alternative macroeconomic theories, the balance of payments, national and foreign debt, inflation, unemployment, productivity and economic growth.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: BU; SH; NI; MI; ACN; weekly problem sets/assignment (maximum 1000 words) (15%), BU; SH; NI; MI; ACN; one 1-hour mid-semester test (15%), BU; SH; NI; MI; ACN; one 2-hour final examination (70%). Hurdle requirement: students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject, BE: in-term tests, assignments, tutorial performance (40%), BE: one 3-hour final examination (60%). Hurdle requirement: students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject, AW: in-term tests, assignments, tutorial performance (40%), AW: one 2-hour final examination (60%). Hurdle requirement: students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the unit.

ECO1IMI MICROECONOMICS (15. CPs Sem. TA-ACNSEM1 SY. TA-ACNSEM2 SY. TA-ACNSEMS SY. TE-SEM-1 AW, BE, BU, SH. TE-SEM-2 BU, MI. TE-W01-08 NI. TE-W13-26 NI.) *Dr Lin Crase, Mr Earl Jobling, Professor Gary Magee*

Microeconomics implies a focus on the individual elements and components of an economy rather than on its aggregate nature. Students are introduced to the economic way of thinking in this context and to the broad subject matter of microeconomics. Topics include; consumer behaviour and demand, firm behaviour, costs and supply, price determination and the operation of markets, including imperfect markets. Analysis extends to the elementary theory of factor markets and distribution, the nature of the market system and of microeconomic policy.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: BU; ACN; Nilai: in-term tests, assignments, tutorial performance (30%), one 2-hour final examination (70%). Hurdle requirement: students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject, BE: one 3-hour final examination (60%). Hurdle requirement: students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the unit. BE: in-term tests, assignments, tutorial performance (40%), AW: SH: one 2-hour final

examination (60%). Hurdle requirement: students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the unit. AW: SH: weekly tutorial papers (10%), AW: SH: two 40-minute tests (30%)

ECO2GE GOVERNMENT AND THE ECONOMY (15. CPs Sem. TE-SEM-2 BE.)

Mr David Reimers

In this unit, students are introduced to the broad analytical tools of economics and apply them to the area of government taxation and expenditure. In particular, the efficacy of government intervention is examined in relation to taxation regimes, the environment (an introduction to environmental economics), the re-distribution of income and related welfare issues, health outcomes and education.

Prerequisite: ECO1IMI.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: Two 45-minute tests (20% each) (40%), one 3-hour final examination (60%)

Prescribed Reading:

Not available in 2008

ECO2IM INTERMEDIATE MICROECONOMICS (15. CPs Sem. TE-SEM-1 BE.)

Mr David Reimers

Following on from the principles developed in basic microeconomics, this unit introduces additional analytical techniques, which students can use to describe economic behaviour and address resource-use issues. Students are encouraged to examine the decision-making process as it applies to everyday life situations as well as to business. Key areas of study include decision-making with respect to consumer behaviour, conditions of imperfect knowledge and the labour/capital mix in the production process, the wage/status connection, cost/benefit analysis in business investment and the behaviour of

firms under various conditions of imperfect competition. Of particular interest is an introduction to games theory as it applies to human behaviour and its effect on business strategies in the market place.

Prerequisite: ECO1IMI.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

This unit is not available for 'Study Abroad' students.

Assessment: Two 45-minute tests (each 20%) (40%), one 3-hour examination (60%)

ECO3ATI ASIAN-AUSTRALIAN TRADE ISSUES (15. CPs Sem. TE-SEM-1 BE, CH. TE-W01-15 FR. TE-W48-09 FR.) *Dr Li Zhang*

In this unit students will examine: the origins of international trade and of Australia's trade in particular; the growth of Australia's trade and business relationships with the Asia-Pacific region; the recent economic development and trade patterns of Australia's principal trading partners in the region, especially Japan, China, Taiwan, South Korea, Hong Kong and Singapore; some of the practical issues encountered in the process of doing business in the Asia-Pacific region; the organisation of trade in the region through multilateral bodies and Australia's role in promoting regional trade institutions.

Prerequisite: ECO1IMA.

Class requirements: Onshore students: two hours lectures and one-hour tutorial per week.

Offshore students: France – This unit is offered as a semester-long online program, with email, telephone and chat room support provided by staff; China – This unit is offered as a five-month program of study in conjunction with Jiangsu University of Science and Technology. Lecture support by staff from the Bendigo campus covers 30 hours of this period.

Assessment: One 1500-word essay (30%), one 3-hour final examination (70%). Hurdle requirement: students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject

ECO3CES COMPARATIVE ECONOMIC SYSTEMS 3 (15. CPs Sem. TE-SEM-2 BE.) *Dr Andrzej Solecki*

This is a comparative study of different systems of economic organisations including laissez faire, market-directed, plan-directed, mixed and traditional economies. Contemporary economic systems are analysed in terms of their goals, values, structure, function and performance. Practical illustrations are drawn from a number of countries, though the main concentration is on the Australian, the European Union, Japanese and the USA economies.

Prerequisite: ECO1IMI, ECO1IMA.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: One 1-hour test (20%), one 1500-word assignment (30%), one 2-hour examination (50%)

Prescribed Reading:

Kennett, D. (2004) *A new view of comparative economics* South Western

ECO3IE INTERNATIONAL ECONOMICS (15. CPs Sem. TE-SEM-2 BE. TE-W11-22 FR. TE-W37-50 FR.) *Dr Andrzej Solecki*

In this unit students explore the basic theoretical principles governing international trade and apply these principles to the problems of balance-of-payments disequilibrium and adjustments, especially in relation to recent Australian experience. Attention is paid to certain international economic issues and in light of these issues, an attempt is made to formulate appropriate trade policies for Australia. Major topics include theories of international trade, trade and commercial policies, foreign exchange and the adjustment process and specialised topics on key international issues.

Prerequisite: ECO1IMI, ECO1IMA.

Class requirements: Onshore students: two 1-hour lectures and one 1-hour tutorial per week

Offshore students: France – This unit is offered as a semester-long online program, with email, telephone and chat room support provided by staff.

Assessment: One 1-hour test (20%), one 1500-word essay (30%), one 2-hour examination (50%)

ECO3IRE INDUSTRIAL RELATIONS (15. CPs Sem. TA-ACNSEM1 SY. TA-ACNSEMS SY. TE-SEM-1 BE, BU, SH. TE-W13-26 NI.) *Mr John Griffiths, Dr Apollo Nsubuga-Kyobe*

Three inter-related areas are covered. The first is economic aspects of wages and industrial relations, the second is the sociological study of workers and managers and the third is the major institutions of Australian industrial relations, including trade unions, employers' organisations, industrial tribunals and enterprise bargaining. Further topics include the evolution of wages policy, women at work and current controversies over the reform of the industrial relations system together with comparative insights into other countries' industrial relations systems.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: BU: ACN: tutorial assessment (15%), one 50-minute essay written in tutorial time (15%), one 2-hour final examination (70%). Hurdle requirement: students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject. SH: tutorial assessment (10%), one 2500-word report (20%) and one 2-hour final examination (70%). Hurdle requirement: students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject. BE: Nilai: one 2-hour examination (70%). Hurdle requirement: students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject. One 1500-word assignment (30%)

ECO3MB MONEY AND BANKING (15. CPs Sem. TE-SEM-1 BE.) *Dr Andrzej Solecki*

Students gain an understanding of the economic theory related to the financial sector and explore the interrelationships between this sector and the total economy. The unit examines the international monetary system and in particular, its impact upon Australia. Students develop the ability to analyse monetary policies and evaluate them in relation to specified objectives. Key topics include money and money economy, financial institutions and markets, the central bank – its targets and policies, the process of financial intermediation and its impact upon economic activity, inflation and unemployment from a monetary standpoint, international finance and Australian monetary problems.

Prerequisite: ECO1IMI, ECO1IMA.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: One 1-hour test (20%), one 1500-word essay (20%), one 2-hour examination (60%)

Prescribed Reading:

LAW1DR DISPUTE RESOLUTION (15. CPs Sem. TE-SEM-1 BE, BU.) *BE: Ms Frances Gibson, BU: Ms Judy Gutman, BU: Ms Mary Anne Noone*

A significant aspect of lawyers work is helping people resolve disputes. In this unit, students will be provided with a general introduction to the theoretical and practical aspects of dispute resolution. The processes of arbitration, conciliation, mediation and negotiation are described and evaluated. A range of issues, including power imbalances between disputants, rights vs interest-based approaches, bargaining in the shadow of the law and lawyers as mediators, are analysed. Skills-based training in negotiation and mediation is a major and compulsory component of the unit.

Prerequisite: Only available to LLB students and BLS students commencing prior to 2006 who may undertake this unit with permission from Director of Undergraduate Studies.

Incompatible unit: LST3DRE, LAW2/3DRE

Class requirements: One 2-hour lecture per week and six 2-hour skills seminars.

This unit is not available for 'Study Abroad' students.

Assessment: One 2-hour examination (70%), skills assessment (30%)

Recommended Reading:

LAW1LM LEGAL INSTITUTIONS AND METHODS (15. CPs Sem. TE-SEM-1 BE, BU.) *BE: Ms Frances Gibson, BU: Ms Judy Gutman, BU: Dr Emma Henderson, BU: Mr Keith Kendall*

Current enrolment in Bachelor of Laws or permission of the Head of Undergraduate Studies

Basic legal concepts and skills are examined. The institutions of law – the court and parliament structures – are examined, along with introductions to concepts such as international law, corporate law and access to justice. The main skills examined are the conduct of legal research, the use of primary sources of law and the employment of legal modes of analysis, especially problem-solving. The tasks which students are assigned include finding primary and secondary sources in the library, analysing and assessing cases, examining court structures through a court visit exercise, preparing case briefs, interpreting legislation and legal writing. Ethical aspects of legal advising are also examined.

Incompatible unit: LAW1LSC

Class requirements: One 1-hour lecture and one 2-hour seminar per week.

Assessment: 1500-word court report (30%), one 2-hour examination (50%), compulsory library practical research skills exercises (online) (5%), case brief and presentation (group exercise) (15%)

LAW2CCC COMMERCIAL AND CONSUMER CONTRACTS (15. CPs Sem. TE-SEM-2 BE, BU.) *BE: Dr Francine Rochford, BU: Dr Gonzalo Villalta Puig*

Current enrolment in Bachelor of Law

In Law of Contracts (LAW2CNT), students examined voluntarily assumed obligations at common law and in equity, including formation, breach and construction and termination of contract.

In this unit, students will resume their examination of voluntarily assumed obligations subject to the statutory distinction between commercial contracts and consumer contracts. Thus, they will examine the doctrine of privity of contract, exclusion clauses, statutory implied terms, remedies for breach of contract and vitiating factors involving selected types of unfair conduct in conjunction with the statutory remedies available for such conduct.

In combination with Law of Contracts (LAW2CNT), the unit has been endorsed by the Council of Legal Education as providing understanding of and competence in the area of contracts under the Legal Practice (Admission) Rules 1999 (Vic). Successful completion of both units is required for admission to legal practice in Victoria.

Prerequisite: LAW21TOR and LAW21/22CNT.

Incompatible unit: LAW2CCL

Class requirements: One 2-hour lecture per week and one 2-hour seminar per fortnight.

Assessment: One 2-hour examination (50%) 40% hurdle (i.e., minimum of 20 marks out of 50), one 2500-word essay (50%)

Prescribed Reading:

LAW2CNL CONSTITUTIONAL LAW (20. CPs Sem. TE-SEM-2 BE, BU.) *BE:*

Ms Frances Gibson, BU: Dr Spencer Zifcak

Current enrolment in Bachelor of Laws. Undergraduate students should not attempt this subject until the second year of the law program.

An exposition of the Australian Constitution through its historical development and present character is undertaken in this unit. Attention is paid to the nature of constitutional doctrine and an effort is made to locate the Constitution in its functioning political and administrative context. Federalism, for example, is treated as both legal doctrine and a system for sharing political power. Topics include federalism, grants and taxation, freedom of interstate trade, the corporations' power, the external affairs power and express and implied constitutional rights. This unit in conjunction with Principles of Public Law meets the requirements of the Council of Legal Education for admission to practice in Victoria in the area of Federal and State Constitutional Law.

Prerequisite: Completion of LAW1LSC or LAW1LIM, LAW11/12CRM and completion of or concurrent enrolment in LAW12CNM or LAW12PPL permission of Director of Law Program.

Class requirements: One 2-hour lecture and one 2-hour seminar per week.

Assessment: One 3-hour examination, (70%), one take-home examination (30%)

Prescribed Reading:

Blackshield, A and Williams, G. *Australian Constitutional Law and Theory; Commentaries and Materials* 3rd edn. Federation Press 2002.

LAW2CNT LAW OF CONTRACTS (20. CPs Sem. TE-SEM-1 BE, BU.) *BE: Dr*

Francine Rochford, BU: Ms Alison King, BU: Mr Anthony O'Donnell, BU: Mr Terry Reid

Current enrolment in Bachelor of Laws

In this unit students examine the law of contract, but within the broader framework of the law of obligations. The focus is the principles for the recognition of obligations in contracts and the award of remedies in the event of their breach. An important theme is the shift from freedom of contract towards a model demanding heightened standards of fair dealing in contractual relationships. Topics include the requirements for contract formation and enforceability, the sources and construction of contract terms, provision for alteration of contracts, including bona fide settlements of disputes, grounds for terminating contracts, excuses for non-performance and common law rights and remedies for breach including restitutionary actions and enforcement of debts following termination. This unit, in combination with Commercial and

Consumer Contracts (LAW2CCC), meets the requirements of the Council of Legal Education for admission to practice in Victoria in the area of Law of Contracts.

Prerequisite: Completion of LAW11/1LIM and LAW22/32/2/3PPL and LAW22/32/2/3CRM.

Co-requisite: LAW2TOR.

Incompatible unit: LAW21/22CNT

Class requirements: Two 2-hour lectures in alternate weeks, one 2-hour lecture and one 2-hour seminar every other week.

Assessment: 2-hour mid-semester test (34%), 3-hour examination (66%)

Frances Gibson, **BU:** Ms Judy Gutman, **BU:** Dr Emma Henderson,

BU: Ms Marilyn McMahon, **BU:** Mr John Willis

This unit is offered at third unit level also.

Current enrolment in Bachelor of Laws

Key aspects of the substantive criminal law are examined in this unit. The initial focus is on an analysis of basic concepts and principles in the criminal law, such as the onus and standard of proof, evidentiary and persuasive burdens, objective and subjective tests and principles of offence classification. Substantive topics dealt with are homicide, non-fatal offences against the person, sexual offences, offences against property and complicity. This unit, in conjunction with Criminal Procedure and Evidence, meets the requirements of the Council of Legal Education for admission to practice in Victoria in the area of Criminal Law and Procedure.

Prerequisite: Completion of LAW11LIM.

Class requirements: One 2-hour lecture and one 2-hour seminar per week.

Assessment: One 2-hour class test (30%), one 3-hour end of semester exam (70%)

Preliminary Reading:

LAW2PPL PRINCIPLES OF PUBLIC LAW (15 CPs Sem. TE-SEM-2 BE, BU.)

BE: Ms Frances Gibson, **BU:** Dr Oliver Mendelsohn, **BU:** Dr Steven Tudor

This unit is offered at third unit level also.

Current enrolment in Bachelor of Laws

Students explore the principles of Australian public law. It provides a general foundation for particular units in public law as well as private law. The main topics are rights, the rule of law, separation of powers and checks and balances, federalism, parliamentary supremacy, representative government, responsible government and governmental conventions, accountability of the executive to the law, republicanism and the Victorian Constitution. These are studied against the background of English and Australian constitutional history and other legal systems. This unit, in conjunction with Constitutional Law, meets the requirements of the Council of Legal Education in the area of Federal and State Constitutional Law.

Prerequisite: Completion of LAW11LIM or permission of the Director of the Law program.

Incompatible unit: LAWCONM, LAW10CNM, LAW12CNM

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

This unit is not available for 'Study Abroad' students.

Assessment: One 2.5-hour examination (60%), Tutorial workbook (40%)

LAW2RRJ RURAL AND REGIONAL ISSUES IN JUSTICE (15 CPs Sem. TE-SEM-2 BE.) **Ms Frances Gibson**

Students in this unit will be placed in a legal practice-based in rural and regional Australia. Students will work in organisations assisting disadvantaged clients based in the Loddon–Campaspe region for one day a week during semester. Students are given responsibility for assisting in casework, community legal education and law reform projects under the supervision of staff lawyers. Students will be involved in taking instructions from clients and assisting volunteer lawyers who provide legal advice to clients. Students also attend a series of seminars on relevant areas of law, practical skills and socio legal policy.

Prerequisite: LAW11LIM, LAW22/32CRM.

Class requirements: Six 2-hour seminars; one day per week 9.00am to 5.00pm at assigned placement venue, attend at least four evening advice shifts at the Loddon Campaspe Community Legal Centre.

Assessment: Either one 2500-word essay (choice of topics) (50%) and 2-hour final examination (50%), plus satisfactory performance as assessed by placement supervisor, or

One 4000-word research essay (100%), plus satisfactory performance as assessed by placement supervisor

LAW2TOR LAW OF TORTS (20. CPs Sem. TE-SEM-1 BE, BU.) **BE:** Dr

Francine Rochford, **BU:** Mr Kenneth Warner

Current enrolment in Bachelor of Laws

In this unit, students will be concerned primarily with the civil action in negligence through which the law provides for compensation in respect of injuries suffered of a physical and an economic nature. The working operations of the torts of nuisance, strict liability, trespass and defamation as well as the social interests affected by them are also examined. This unit meets the requirements of the Council of Legal Education for admission to practice in Victoria in the area of Torts.

Prerequisite: Completion of LAW11/22/32CRM and LAW12CNM or LAW12/22/32PPL or permission of the Director of Law Program.

Co-requisite: LAW21CNT.

Incompatible unit: LAW20TOR

Class requirements: Three hours of lectures and one 1-hour tutorial per week.

Assessment: One 1.5-hour take-home examination (25%), one 3-hour final examination (75%)

Prescribed Reading:

Anderson, R, Leo, S, McDonald, B and Swanston, J. *Cases on Torts* Federation Press, 3rd edn. 2007

LST1BSL BUSINESS LAW (15. CPs Sem. TA-ACNSEM1 SY. TA-ACNSEM2 SY. TA-ACNSEMS SY. TE-SEM-1 BE, BU, MI, SH. TE-SEM-2 AW, BU, CH. TE-W31-46 NI.)

Dr Chris Chadien, Professor Vivien Goldwasser, Mr Keith Kendall, Mr Terry Reid

This unit is not available to Bachelor of Laws students as a law elective or to students who have completed LAW21/22CNT.

This unit is offered in another semester.

Bachelor of Business Students should enrol in this subject.

In this unit students examine legal institutions and practices such as law making and interpretation of laws. The law of contract and its place in commercial law, notably the law of the sale of goods, comprise the body of the unit. Other kinds of civil liability such as fault liability are compared. Students examine the economic and political factors, which have influenced the development of this law and assess the impact of the law on business and industrial activity.

Incompatible unit: LAW21/22CNT, LST11/12LCC, LST11/12IBL

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: One 1500-word essay (30%), one 3-hour examination (70%). Students must achieve at least a mark of 40% for the final examination.

Prescribed Reading:

Casebook TBA Ciro, T and Goldwasser, VR.

Law and Business OUP, 2nd edition (2006)

LST2EL ENVIRONMENTAL LAW (15. CPs Sem. TE-SEM-2 BE.) *Dr Francine Rochford*

This unit provides an overview of the legal environmental framework within Australia and studies how these frameworks affect the activities of organisations that deal with environmentally sensitive situations. It examines how statutory frameworks assess the impact of environmental developments.

Prerequisite: Available to second and third year students.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: One 2-hour examination (50%), one 2000–2500-word essay (50%). To pass students are required to obtain at least 40% in each assessment as well as at least 50%.

Prescribed Reading:

Bates, GM. *Environmental law in Australia*. 6th edn. Butterworths, Sydney.

LST2LBA LAW OF BUSINESS ASSOCIATION (15. CPs Sem. TA-ACNSEM1 SY. TA-ACNSEM2 SY. TE-SEM-1 AW. TE-SEM-2 BE, BU, MI, SH. TE-W31-46 NI.) *Dr*

Chris Chadien, Mr David Wishart

This unit is offered at third unit level also.

Not available to Bachelor of Laws students as a law elective

In this unit students deal with the key features of the legislation and cases which govern the formation and regulation of business associations (particularly corporations) and the operation of securities markets in Australia. There is an explanation of how these laws operate on the economy and society and on persons and institutions within society, along with how persons and institutions may best utilise these laws. Students completing the unit should be able to apply rules and principles extracted from the legislation and cases to resolve disputes arising from the operations and functioning of business associations and the workings of securities markets.

Prerequisite: Completion of LST11/12LCC or LST11/12IBL or LST11/12BSL.

Incompatible unit: LST12LBA, LAW41COR

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: 1000-word assignment (20%), 3-hour open book examination (70%), tutor's assessment (10%). AW: 500-word assignment

Prescribed Reading:

Butterworths or CCH *Australian corporations legislation* LBC, Butterworths, or CCH, current edition

Government Acts *Partnership act reprint* Victorian Government Printing Office (2006)

LST2MAL MARKETING LAW (15 CPs Sem. TA-ACNSEM2 SY. TE-SEM-2 BE, BU, OS.) *BE: Dr Francine Rochford, BU: Ms Michelle Harper*
This unit is offered at third unit level also.

Not available to Bachelor of Laws students as a law elective.

Bachelors of Business students are encouraged to enrol in this unit at third year.

The ways in which the law affects marketing activities are examined. A number of specific legal issues relevant to the marketing of goods and services are identified such as various selling techniques, intellectual property, restrictive trade practices, privacy, electronic commerce and anti-spam laws. The unit is designed to raise students' awareness of the issues and develop their skills to achieve compliance with the law.

Prerequisite: Completion of LST11/12LCC or LST11/12IBL or LST11/12BSL or LST2THL or LAW21/22CNT. Completion of LST12/22/32LBA or another first or second year legal studies subject is highly recommended.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: BE: one 2500-word essay (55%) and one 2000-word essay (45%) (100%), BU: one 1500-word assignment (25%) and one 2-hour final examination (75%) OR one 3-hour final exam (100%). Bundoora students may choose between the two assessment options: (a) is 25% and 75% and (b) is 100%. ACN: one 1500-word assignment (30%) and one 2-hour final examination (70%) (100%)

Preliminary Reading:

LST2THL TOURISM AND HOSPITALITY LAW (15. CPs Sem. TE-SEM-2 BE, BU, SH.) *BE: Dr Chris Chadien, BU: Ms Michelle Harper*

Not available to Bachelor of Laws students as a law elective

Students will be introduced to the legal process and the institutions of Australia's legal system. There will be an emphasis on those aspects of law most relevant to small business in the Tourism and Hospitality industries. Topics include the law of contract, bailment, agency, business organisations, insurance, employment, torts, food, liquor and gaming. In addition, students will examine recent case law on the responsible service of alcohol and gaming

Incompatible unit: LST11/12LCC or LST11/12IBL or LST1BSL

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: (a) a 1500-word assignment (25%) and a 2-hour examination (75%) or (b) a 3-hour examination (100%) (100%). Students may choose between the two assessment options: (a) is 25% and 75% and (b) is 100%

Prescribed Reading:

LST3ATL ADVANCED TAXATION LAW (15. CPs Sem. TE-SEM-2 BE.) *Ms*

Dianne Harvey

Not available in 2008

LST3ERL EMPLOYEE RELATIONS LAW (15. CPs Sem. TE-SEM-1 BE. TE-SEM-S MI.) *Ms Jill Broaden*

The nature of the legal implications between employer and employee under common law is examined in this unit. Areas of study include the contract of employment, including the rights and obligations of the parties, affirmative action, equal opportunity, occupational health and safety and industrial torts.

Prerequisite: LST11LCC, LST12BLB, LST12BL2, or LST12LCC.

Class requirements: Onshore students: one 3-hour seminar

Offshore students: This unit is offered as a 3-month distance education program. Students are provided with text and study guide and are supported by email, telephone and web. In addition, lecture support is provided as follows:

Hong Kong – 20 hours of lectures in block mode and 18 hours of tutorials spread either during the teaching period or in block mode.

Assessment: One 2-hour examination (50%), one 2500-word essay (50%). To pass the subject students are required to obtain at least 40% in each assessment as well as at least 50%.

Prescribed Reading:

Not available in 2008

LST3PLI PROFESSIONAL CONDUCT: ETHICS AND LIABILITY (15 CPs Sem. TE-SEM-1 BE.) *Dr Francine Rochford*

In this unit, students will reflect on the nature of professional obligations, both as individual responsibilities and as creating obligations in an organisational context. The nature of obligations arising in ethics, professional standards, codes of conduct and law and the consequence of the Professional Standards Act 2003 (Vic) and the Professional Standards Agreement 2005 will be addressed. The compliance and risk management issues arising from these obligations will be addressed in particular. The consequences of breach of rules, particularly legal rules, both in terms of civil and criminal liability and in terms of loss of reputation assets will also be considered.

Prerequisite: LST11LCC, LST11BL, or LST1BSL.

Class requirements: Two 1-hour lectures, one 1-hour tutorial per week.

Assessment: Written case studies (2500 words) (55%), One major assignment (2000 words) (45%)

MGT1FOM FOUNDATIONS OF MANAGEMENT (15. CPs Sem. TA-ACNSEM1 SY. TA-ACNSEM2 SY. TA-ACNSEMS SY. TE-SEM-1 BU, SH. TE-SEM-2 AW, BE, BU, MI. TE-W01-08 NI. TE-W13-26 NI.) *Dr Sue O'Keefe, Dr John Pacher, Ms Nicola McNeil, Mr Jeremy Seward*

This unit introduces the management of organisations and aims to provide an understanding of the fundamental concepts and relevant issues relating to management in the modern business environment, with a particular emphasis placed upon Australia and the Asia-Pacific region. The relationship between management practices and organisational performance will be explored within the context of both individual and organisational outcomes.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: One 30-minute class test (10%), one 1200-word literature review (20%) and one 3-hour final examination (70%). Hurdle requirement: students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject, AW: one 30-minute test (10%), AW: one 1200-word literature review (20%), AW: tutorial exercises (10%), AW: one 2-hour final examination (60%). Hurdle requirement: students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the unit.

MGT2GRB GLOBALISATION AND REGIONAL BUSINESS (15 CPs Sem. TE-SEM-1 BE. TE-W11-22 FR. TE-W37-50 FR.) *Mr John Griffiths*

In this unit, students will place their studies in context through an examination of the global pressures for globalisation and international business operations. Part of that study will include the influences on those operations of treaties, trade blocs and regional economic integration. The unit will deal with market and investment opportunities for regional businesses and the particular opportunities for global E-commerce. The strategic and operational implications of organising and managing regional SMEs will receive close attention.

Prerequisite: ECO1IMI, ECO1IMA, MGT1FOM.

Class requirements: Onshore students: Two 1-hour lectures and one 1-hour tutorial per week.

Offshore students: France – This unit is offered as a semester-long online program, with email, telephone and chat room support provided by staff.

Assessment: One 1500-word essay (30%), one 2-hour final examination (70%). Hurdle requirement: students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the unit.

MGT2HRD HUMAN RESOURCE DEVELOPMENT (15. CPs Sem. TA-ACNSEM1 SY. TA-ACNSEMS SY. TE-SEM-1 BE, BU, SH. TE-W13-26 NI.) *Ms Cindy Taylor, Dr Tim Bartram, Dr Apollo Nsubuga-Kyobe*

This unit available at Shepparton campus in 2007

The unit introduces students to the theory and practice of human resource development of people in the workplace and assists students in developing some basic skills which practising professionals use in their craft. Topics include behaviourist and cognitive theories of learning, with particular emphasis regarding the learning of adults (a systems approach to training incorporating training needs analysis, development of learning outcomes, design, delivery and evaluation of training), the key issues and approaches to management development, organisational learning and unstructured learning in the work-place, the vocational training system with particular reference to the implementation of the National Training System, plus other current issues impacting on human resource development.

Prerequisite: MGT2HRM.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: One 2000-word essay (30%), one 2-hour final examination (70%). Hurdle requirement: students must achieve at least 40% in the final examination as well as an over all total of 50% to pass the subject

Prescribed Reading:

MGT2HRM HUMAN RESOURCE MANAGEMENT (15. CPs Sem. TA-ACNSEM1 SY. TA-ACNSEM2 SY. TA-ACNSEMS SY. TE-SEM-1 AW, BE, BU. TE-SEM-2 BU, MI, SH, VI. TE-W31-46 NI.) *Dr Sue O'Keefe, Dr John Pacher, Dr Darcy McCormack, Dr Apollo Nsubuga-Kyobe*

The unit explores the operational and strategic issues of managing staff in the workplace. It examines the challenges facing human resource managers in contemporary Australian organisations and seeks to develop an understanding of human resource management practices in our continually changing social, economic, industrial relations and organisational environments.

Prerequisite: MGT1FOM.

Class requirements: Onshore students: one 2-hour lecture and one 1-hour tutorial per week

Offshore students: This unit is offered as a three or four-month distance education program. Students are provided with text and study guide and are supported by email, telephone and web.

Assessment: Tutorial participation (5%), one 20-minute individual presentation (10%), one 1,200-word essay (15%), one 2-hour final examination (70%). Hurdle requirement: students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject, BE: one 2000-word assignment (30%), BE: one 2.5-hour final examination (70%). Hurdle requirement: students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the unit

MGT2ISC INTERPERSONAL SKILLS AND CONFLICT MANAGEMENT (15 CPs Sem. TA-ACNSEM2 SY. TE-SEM-2 BE, BU, SH. TE-SEM-S BU. TE-W31-46 NI.)

Dr John Pacher, Dr Lynne Leveson

This unit integrates material from the disciplines of communication and organisational behaviour. It brings together theoretical models, empirical research and practice on various aspects of interpersonal communication (such as, nonverbal behaviour, assertion, listening skills and conflict resolution) and their relationship to conflict – personally and in context of the workplace. In tutorials, the emphasis is placed on group and experiential work. At an individual level, students will be encouraged to develop self-awareness of their own interpersonal styles and the skills necessary to develop effective working relationships.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: One 15-minute presentation (10%), one 1500-word assignment (20%), one 2-hour final examination (70%). Hurdle requirement: students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject, BE: 2000-word assignment (30%). BE: one 2.5-hour final examination (70%). Hurdle requirement: students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the unit

Prescribed Reading:

MGT20BE ORGANISATIONAL BEHAVIOUR (15. CPs Sem. TA-ACNSEM1 SY. TA-ACNSEM2 SY. TA-ACNSEMS SY. TE-SEM-1 AW, BE, BU, MI. TE-SEM-2 BU, SH. TE-W13-26 NI.) *Dr Sue O'Keefe, Mr Max Mollard, Dr Nick Djurkovic, Dr George Sansbury, Dr Apollo Nsubuga-Kyobe*

Organisational behaviour aims at understanding the management of people at work in order to improve an organisation's effectiveness. It is a multidisciplinary examination of what people do in organisations and has four levels of analysis: individual, group, organisation and culture. This unit explores all four levels of analysis and emphasises the psychological aspects of organisational behaviour.

Prerequisite: MGT1FOM.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: One 1500-word essay (20%), one 2-hour final examination (70%). Hurdle requirement: students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject. One class presentation (10%), equivalent to 1000 words, BE: one 2000-word essay (30%), BE: one 2-hour final examination (60%), submission of sample examination answers (equivalent to 200 words) (10%), AW: one 1500-word essay (25%), AW: one 2-hour final examination (60%). Hurdle requirement: students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the unit. AW: weekly tutorial exercises (15%)

MGT2PM PROJECT MANAGEMENT (15. CPs Sem. TE-SEM-1 BE.) *Dr R.*

Findlay Johnston

This unit is offered at third unit level also.

Project management may be regarded as a powerful tool to assist in the management of very large projects. The aim of the project manager is to bring the project in on time, within budget and to the satisfaction of the client. Topics studied include the role of the project manager in initiating, organising, implementing, controlling and terminating the project. Thus, on successful completion of the unit, students should understand the processes involved in setting up, managing and successfully concluding major projects of a one-off high budget type. The fields of study will embrace industrial and commercial project ventures and the course should be suitable for students in business studies and information technology as well as engineering

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week. For online delivery, a study schedule is provided detailing week-by-week topic studies.

Assessment: One 1500-word assignment (30%). Students enrolled at third year level will be expected to demonstrate a greater degree of subject understanding and discipline-specific skills than students taking second year level, one 3000-word equivalent major assignment using Microsoft Project (or a similar computer package) (70%). To pass the subject students must achieve at least 50% for this assignment.

MGT2SCM SUPPLY CHAIN MANAGEMENT (15 CPs Sem. TE-SEM-2 BE.) *Dr*

Marthin Nanere

In a globalised and highly competitive economy, there is a vital need to secure regular, reliable supplies of raw materials, information and services that are both cost and quality effective. Businesses need to minimise inventories and maximise the value of production processes through the development of effective supply chain strategies. In this unit, students are introduced to topics dealing with inventory control, operational purchasing, strategic sourcing, supply chain tools and techniques, supply chain management and distribution systems. Emphasis is placed upon supply chain management within the context of regional businesses operating within global sourcing both as consumer and as supplier.

Prerequisite: MGT1FOM.

Class requirements: Two 2-hour lectures and one 1-hour tutorial per week.

Assessment: One 1500-word essay (30%), one 2.5-hour examination (70%)

Prescribed Reading:

Wisner, JD, Leong, GK and KC Tan. *Principles of supply chain management: a balanced approach*, Thomson, South Western, 2005.

MGT3BP BUSINESS PROJECT (15. CPs Sem. TE-SEM-1 BE, MI. TE-SEM-2 BE, MI.) *Dr Findlay Johnston*

In this unit, students will complete a business-related project that offers practical exposure to aspects of business. They will explore typical situations confronting commercial enterprises, from some specialist perspectives, which may for example include marketing, finance, manufacturing, human resources, statistical analysis and general management. Through their experience of the project, students have the opportunity to increase their understanding of the factors affecting business outcomes.

Prerequisite: Final year students only. This unit also depends on staff availability for project supervision and the course coordinator should be consulted prior to enrolment.

Quota: 5.

Class requirements: Students are required to consult with the project supervisor up to three hours per week.

Assessment: Cumulative assessment (100%). Students are assessed on completion of a final report and appropriate assignments (to be outlined at unit commencement). The total word length of all assessment will be 4500 words.

MGT3HRI HUMAN RESOURCE INFORMATION SYSTEMS (15. CPs Sem. TE-SEM-2 BE, BU, SH. TE-W31-46 NI.) *Professor David Brown*

The unit introduces students to the theory and practice of human resource information systems. Human resource information is central to the strategic planning and running of organisations and the collection and use of human resource information is seen to be a potential source of benefit to the organisation. This unit focuses on organisational human resource (HR) functions and how human resource information systems (HRIS) can be developed to support HR activities. While the unit content views the relationship between HR and HRIS using models from socio-technical theory, the primary emphasis is on the collection of HR information, data interpretation and communication of this information to management.

Prerequisite: MGT2HRM.

Class requirements: One 2-hour lecture per week and one 2-hour lab class per fortnight.

Assessment: Two written reports totalling 2500 words (30%), one 2-hour final examination (70%). Hurdle requirement: students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject

Preliminary Reading:

MGT3IHR INTERNATIONAL HUMAN RESOURCE MANAGEMENT (15. CPs Sem. TA-ACNSEM1 SY. TA-ACNSEMS SY. TE-SEM-1 FR. TE-SEM-2 BE, BU, FR, SH. TE-W31-46 NI.) *Dr Timothy Bartram, Dr Apollo Nsubuga-Kyobe*

In this unit, students' understanding of the theories of human resource management will be extended to incorporate the international dimension. This perspective underlies each of the topics to be examined. These will include the organisational context, international recruitment and selection, performance management, training and development, compensation, repatriation and labour relations. Underlying themes will be drawn and likely future challenges predicted.

Prerequisite: MGT2HRM.

Class requirements: Onshore students: one 2-hour lecture and one 1-hour tutorial per week

Offshore students: France – This unit is offered as a semester-long online program, with email, telephone and chat room support provided by staff.

Assessment: One 10-minute seminar presentation (10%), one 2000-word essay (20%), one 2-hour final examination (70%). Hurdle requirement: students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject

MGT30CD ORGANISATIONAL CHANGE AND DEVELOPMENT (15. CPs Sem. TA-ACNSEM2 SY. TE-SEM-1 VI. TE-SEM-2 BE, BU, MI, SH. TE-W01-08 NI. TE-W31-46 NI.) *Dr Rosaria Burchielli, Dr Apollo Nsubuga-Kyobe*

For the past decade or so, organisations have been subjected to enormous change. One of the major challenges facing managers (and consultants) in this climate is how to achieve greater organisational effectiveness, including increased financial performance as well as improved quality of work life. This unit attempts to address this question by examining the process (contracting, diagnoses, intervention strategies and change management) and practice (strategic, technological, structural and human resources) of organisation development.

Prerequisite: MGT1FOM.

Class requirements: One 2-hour lecture per week and one 2-hour tutorial per fortnight.

Assessment: One five minute class presentation (10%) based on analysis of specific readings, one 1500-word assignment (20%) and one 2-hour final examination (70%). Hurdle requirement: students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject

Prescribed Reading:

Graetz, F, Rimmer, M, Lawrence, A and Smith, A. *Managing organisational change*. 2006 John Wiley and Sons, Australia Ltd.

MGT3SMG STRATEGIC MANAGEMENT (15. CPs Sem. TA-ACNSEM2 SY. TE-SEM-1 BU, CH, MI, SH. TE-SEM-2 BE. TE-W01-15 FR. TE-W13-26 NI. TE-W48-09 FR.) *Dr Findlay Johnston, Dr Rosaria Burchielli*

Strategic management focuses on the underlying determinants of business success. It dwells on the techniques applied by top management to gain competitive advantage and the patterns of decisions and actions taken to guide the firm in competitive environments. Key topics in strategic management include industry and competitor analysis, generic strategies, core competency, manufacturing competitiveness, diversification and integration, international business strategy, organisational structure and controls and re-engineering. Students of strategic management will apply concepts in strategic management to the solution of the problems presented in case studies involving real firms.

Prerequisite: MGT1FOM.

Class requirements: Onshore students: one 2-hour lecture and one 1-hour tutorial per week

Offshore students: China – This unit is offered as a five-month program of study in conjunction with Jiangsu University of Science and Technology. Lecture support by staff from the Bendigo campus covers 30 hours of this period. France – This unit is offered as a semester-long online program, with email, telephone and chat room support provided by staff.

Assessment: One five minute class presentation (10%) based on analysis of specific readings, one 1500-word assignment (20%) and one 2-hour final examination (70%). Hurdle requirement: students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject

MGT4RMA RESEARCH METHODOLOGY (15. CPs Sem. TE-SEM-1 BE, BU.)

Ms Nicola McNeil

The goal of this unit is to equip fourth year students with the skills to successfully undertake a piece of independent research. The unit includes lectures on the selection and definition of a research problem, the preparation and evaluation of a research plan, sampling and measurement, data analysis and qualitative research methods.

Class requirements: One 2-hour seminar per week.

This unit is not available for 'Study Abroad' students.

Assessment: Progressive assessment (40%) equivalent to 2000 words, one 3000-word research proposal (60%)

MKT2CBE CONSUMER BEHAVIOUR (15. CPs Sem. TA-ACNSEM1 SY. TA-ACNSEM2 SY. TA-ACNSEMS SY. TE-SEM-1 BE, BU, SH, VI. TE-SEM-2 AW. TE-W13-26 NI. TE-W16-29 SI.) *Dr Lin Crase, Dr Wenbin Guo, Dr Clare D'Souza*

This unit provides an understanding of the role of consumer behaviour in development of the total marketing mix. The contribution of psychological and social knowledge relevant to both consumer and organisational marketing is evaluated, with an emphasis on practical skills of analysis and the writing of effective positioning statements.

Prerequisite: MKT2MPP or THS2IMT.

Incompatible unit: MKT32CBC

Class requirements: Onshore students: two 1-hour lectures and one 1-hour tutorial

Offshore students: This unit is offered as a three or four-month distance education program. Students are provided with text and study guide and are supported by email, telephone and web.

Assessment: One 1-hour mid-semester multiple choice test (15%), one 2000-word assignment (15%), one 2-hour final examination (70%). Hurdle requirement: students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject

MKT2MPP MARKETING PRINCIPLES AND PRACTICE (15. CPs Sem. TA-ACNSEM1 SY. TA-ACNSEM2 SY. TA-ACNSEMS SY. TE-SEM-1 AW, BU, MI. TE-SEM-2 BE, BU, SH. TE-W31-46 NI.) *Mr Peter Lamb, Dr Marthin Nanere, Dr Outi Niininen, Ms Elaine Plant*

This is an introductory unit to marketing principles and practice as applied to mainly fast moving consumer goods. The unit is designed to give you a broad understanding of the formal discipline of marketing and of the key marketing activities in business. Topics cover the marketing concept, the marketing environment, buying behaviour in consumer and organisational markets, customer segmentation, targeting and positioning, developing the marketing mix (product, price, promotion and distribution) and the implementation and control of marketing programs. As a pre-requisite to further study in marketing, it is intended to provide a sound foundation upon which more advanced skills and applications can be built.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: BU: ACN: one team oral presentation (05%), one individual assignment/test (10%) equivalent to a 1000-word assignment, one group assignment (15%). 1500 words per student, one 2-hour final examination (70%). Hurdle requirement: students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject. WO: tutorial exercises and case studies totalling 500 words (10%), one group assignment (40%). 1500 words per student, one 2-hour final examination (50%). Hurdle requirement: students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject, BE: one 3-hour examination (70%). Hurdle requirement: students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject. BE: one 1500-word case assignment (30%)

MKT2SMA SERVICES MARKETING (15. CPs Sem. TA-ACNSEM2 SY. TE-SEM-1 VI. TE-SEM-2 BE, BU, SH. TE-W28-41 OS.) *Professor Rhett Walker, Dr Sandra Gountas*

Service industries are rapidly emerging as the most dominant force in most world economies, including Australia. In developed economies up to 70% of the labour force, 75% of the GNP and 45% of an average family's budget are accounted for by services. Services (both commercial and not-for-profit) possess several unique characteristics that require a distinctive approach to marketing strategy, both in its development and in execution. This unit expands upon and adapts the marketing management concepts covered in the unit Marketing Principles and Practice. Topics include how to improve service quality, increase and maintain customer satisfaction levels, generate customer loyalty and create a healthy service culture within the firm.

Prerequisite: MKT2MPP or THS2IMT.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: BE: one 1500-word major assignment (30%), BE: one 3-hour final examination (70%). Hurdle requirement: students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the unit. Tutorial test (20%), one 6000-word team research project (20%). 1500 words per student

Students will be working in groups of four, one 2-hour final examination (60%). Hurdle requirement: students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject

MKT3IMK INTERNATIONAL MARKETING (15. CPs Sem. TA-ACNSEM1 SY. TA-ACNSEMS SY. TE-SEM-1 FR, SH. TE-SEM-2 AW, BE, BU, FR. TE-SEM-S AW. TE-W31-46 NI.) *Mr Peter Lamb, Dr Wenbing Guo, Dr Clare D'Souza*

This unit focuses on the nature of the international marketplace and the problems and decisions facing managers of international marketing. It is comprehensive and practical covering marketing goods and services across national boundaries, as well as within different national markets. Major topic areas covered are the international marketing imperative, analysis of foreign environments, development of international marketing strategies and the implementation of marketing programs across different nations and within nations.

Prerequisite: MKT2MPP, THS2THM, OR THS2IMT.

Class requirements: Onshore students: one 2-hour lecture and one 1-hour tutorial per week

Offshore students: France – This unit is offered as a semester-long online program, with email, telephone and chat room support provided by staff.

Assessment: Class participation (10%) AW: one 20-minute seminar presentation (10%). AW: one 1-hour mid-semester test (10%), one 2000-word individual assignment (20%), one 2-hour final examination (70%). Hurdle requirement: students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject. One group assignment (30%). AW: 1000 words per student, one 2-hour final examination (50%). AW: Hurdle requirement: students must achieve at least 40% in the final examination as well as an overall total of 50% to pass this unit.

MKT3MC MARKETING COMMUNICATION (15. CPs Sem. TE-SEM-1 BE, HK, MI, NI, SI. TE-SEM-2 HK, SI. TE-SEM-S HK, SI.) *Professor Rhett Walker* Not available in 2008

MKT3MCO MARKETING COMMUNICATION (15. CPs Sem. TA-ACNSEM2 SY. TE-SEM-1 BE, BU, SH. TE-W13-26 NI.) *Professor Rhett Walker, Mr Roman Peretiatko, Ms Elaine Plant*

An understanding of the role of integrated marketing communications in the total marketing mix is provided, with the particular roles of advertising, public relations, personal selling, sales promotion, direct marketing and Internet marketing being explored and evaluated. Emphasis is placed on the practical skills of writing advertising briefs and marketing communications plans, as well as understanding the key strategic issues involved in their development.

Prerequisite: MKT2MPP or THS2IMT, MKT2CBE.

Class requirements: BU: one 2-hour lecture and one 1-hour tutorial BE: two 1-hour lectures and one 1-hour tutorial

Offshore students: This unit is offered as a 3-month distance education program. Students are provided with text and study guide and are supported by email, telephone and web.

Assessment: BU: one 1-hour mid-semester test (10%), BU: one 4000-word group project and presentation (20%). approximately 1000 words per student, BU: one 2-hour final examination (70%). Hurdle requirement: students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject, BE: one 2-hour final examination (70%). Hurdle requirement: students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the unit. BE: one 1-hour mid-semester multiple-choice test (10%). BE: one 2500-word assignment (20%)

MKT3MRE MARKETING RESEARCH (15 CPs Sem. TA-ACNSEM1 SY. TA-ACNSEMS SY. TE-SEM-1 BE. TE-SEM-2 AW, BU, SH, VI. TE-W13-26 NI.) *Dr Marthin Nanere, Professor Geoffrey Crouch*

Business managers request, assess, purchase and use marketing research to make a wide number of informed decisions. To be able to do this competently, they need to know what marketing research can provide, what research methods are appropriate for different types of problems and how results should be interpreted. The aim of this unit is to give you the knowledge and skills, as either a future business manager or a marketing research practitioner, to make intelligent decisions in your specification, evaluation and application of marketing research.

Prerequisite: MKT2MPP or THS2IMT and either ECO1HSB or ECO1IBS (or equivalent first year statistics unit)

Incompatible unit: MKT2MRB

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: One 1500-word major case study assignment (30%), one 3-hour final examination (70%). Hurdle requirement: students must achieve at least 40% in the final examination as well as an overall 50% to pass the subject

Prescribed Reading:

MKT3SMA STRATEGIC MARKETING A (15 CPs Sem. TE-SEM-1 BE, CH.) *Dr Wen Bin Guo*

In this unit, students will concentrate on the concept and process of strategic marketing planning, the analysis that informs this process and the concept and derivation of competitive advantage.

Prerequisite: MKT2MPP or THS2IMT.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: Case study analysis equivalent to 2000 words (30%), one 3-hour examination (70%). Hurdle requirement: students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject

Prescribed Reading:

BE: Walker, O.C. *Marketing strategy: a decision-focussed approach* 5th edn. McGraw Hill, 2006

MKT3SSM SELLING AND SALES MANAGEMENT (15 CPs Sem. TE-SEM-2 BE, MI. TE-W31-46 NI.) *Professor Rhett Walker*

Students are provided with an understanding of both the nature and role of personal selling and the varied responsibilities and tasks of sales management. As well as involving students in the theory and practice of effective personal selling, topics including recruitment, selection and training and directing the sales force are covered. Legal and ethical issues of selling are addressed in the context of relationship selling and other approaches.

Prerequisite: MKT2MPP or THS2IMT.

Class requirements: Onshore students: two 1-hour lectures and one 1-hour tutorial per week.

Offshore students: This unit is offered as a 3-month distance education program. Students are provided with text and study guide and are supported by email, telephone and web.

Assessment: One 1500-word assignment (30%), one 3-hour final examination (70%). Hurdle requirement: students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the unit.

THS1AOS ACCOMMODATION OPERATIONS MANAGEMENT (15 CPs Sem. TE-SEM-2 BE.) *Dr Garry Price*

This unit builds on the professional skills required for the hospitality industry that were introduced in THS1FBS. It provides students with an introduction to the skills and knowledge required to manage and maintain an accommodation department. Students gain an understanding of front office and accommodation reservation systems. This includes an introduction to a computerised reservation system. There is a strong emphasis on acquiring practical skills through exposure to simulated situations.

Prerequisite: THS1FBS.

Incompatible unit: THS1IAM

Class requirements: One 1-hour lecture and one 2-hour practical per week.

Assessment: One 2-hour examination (50%), one 1500-word essay (20%), practicum consisting of a skills competence assessment exercise (30%)

THS1FBS FOOD AND BEVERAGE SERVICE (15 CPs Sem. TE-SEM-1 BE, BU.)

BE: Dr Garry Price, BU: Mr Paul Strickland

Students are required to wear clothing as directed to all practical classes.

This unit introduces students to all areas of restaurant and 'front of house' operations, ensuring that the students have the knowledge and skills needed to identify and provide high quality service to clients. The unit introduces students to relevant industry issues including product promotions, hygiene, health and safety, responsible service of alcohol, current product knowledge and customer relations. Students are required to obtain a reasonable competence in food service techniques, along with the ability to operate a food and beverage outlet.

Prerequisite: None.

Class requirements: One 2-hour lecture, one 4-hour tutorial and practical per week. Minimum of 30 hours work experience at set locations.

Assessment: One 1800-word assignment (20%), one 3-hour practical skill assessment exercise (30%), one 2-hour final examination (50%)

Recommended Reading:

Payne-Palacio, J and Theis, M. *Introduction to Food Service*, 10th edn. Pearson Prentice Hall, NJ, USA 2005

THS1ILS INTRODUCTION TO LEISURE INDUSTRY STUDIES (15 CPs Sem. TE-SEM-1 BE, BU.) *BE: Dr Clare Lade, BU: Ms Sonia Francis, BU: Dr Elspeth Frew*

In this unit students develop a comprehensive overview of the leisure, tourism and hospitality industries in Australia. The primary objective is to create an awareness of the breadth and diversity of the industry and the social, cultural, political and economic interests and activities it encompasses. The course is designed to ensure that students can analyse the various components, which form the leisure industry; appreciate the inter-linkage of the major sector, locate and utilise leisure industry resources; examine the organisation, management and structure of the industry and assess and understand the various impacts, which result from leisure, tourism and hospitality.

Prerequisite: None.

Co-requisite: None.

Incompatible unit: THS10ITH

Class requirements: One 2-hour lecture and one 1-hour seminar per week.

Assessment: One 10-minute class presentation (15%), one 1500-word report (20%), assessment exercises (15%), one 2-hour examination (50%)

Prescribed Reading:

School of Sport, Tourism and Hospitality Management *THS1ILS, Introduction to Leisure Industry Studies Readings*, 2008 La Trobe University

THS1MCO MANAGEMENT COMMUNICATIONS (15. CPs Sem. TE-SEM-1 BE, BU.) *BE: Dr Garry Price, BU: Dr Caroline Winter*

This unit is offered at another campus and in another semester.

This unit provides students with a foundation in communication theory and its application to business and management contexts. On completion of this unit students should be able to: understand the principles of effective communication both written and oral and to apply those principles in a range of contexts; reflect on their own communication skills and the underlying values which shape them; understand the importance of sensitivity and awareness in intercultural communication; demonstrate a capacity to make a professional presentation; demonstrate the ability to write fluently and in a style appropriate to the purpose of the writing and the intended audience and understand and demonstrate the ability to work in teams.

Incompatible unit: MGT21MCW, MGT21/22BCO

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: BU: one 2-hour examination (50%), BU: one group activity (10%), BU: one 1500-word research report (20%), BU: one 1000-word essay (10%), BU: tutorial performance (10%), BE: one 2-hour examination (50%), BE: one group activity (15%), BE: one 1000-word research report (15%), BE: one 1000-word team task report (15%), BE: tutorial performance (5%)

Prescribed Reading:

Dwyer, J. (2005). *Communication in Business: Strategies and Skills* 3rd edn. Prentice-Hall, Frenchs Forest, NSW

THS2HOM HOSPITALITY OPERATIONS MANAGEMENT (15. CPs Sem. TE-SEM-1 BE.) *Dr Garry Price*

In this unit, students build on the breadth of their operational and management skills developed in the first year program. Students are given an understanding of practical organisational management applied to the specialist areas of Hospitality and Tourism. Topics include staff organisation, communication, leadership and specific applications in management computing.

Prerequisite: THS1FBS, THS1AOS.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

This unit is not available for 'Study Abroad' students.

Assessment: One 1.5-hour examination (30%), five tutorial assignments (50%), total of 2000 words, one 1000-word research project (20%)

THS2IMT INTRODUCTION TO MARKETING: TOURISM AND HOSPITALITY (15 CPs Sem. TE-SEM-2 BE.) *Dr Clare Lade*

Students are introduced to the role of marketing principles and practices as they apply to the tourism and hospitality industries. Strategic guidelines to problem-solving and decision-making in a marketing environment are introduced. The content encompasses such topics as marketing in the broader economy and particularly in the tourism and hospitality fields, the role of management and marketing strategy, the consumer, buyer behaviour, marketing research, product development and policy, distribution strategy, price strategy, promotion techniques, recognition of destination and public sensitivities as by elements of individual marketing strategies in the tourism and hospitality industries.

Incompatible unit: MKT2MPP

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week for one semester.

Assessment: One major group assignment (1500 words per group member) (30%), one 2-hour examination (45%), one 45-minute mid-semester test (15%), tutorial contribution (10%)

Prescribed Reading:

BE: Pride, Elliot, Rundle-Thiele et al. (2006) *Marketing: core concepts and applications* Wiley and Sons, Milton, Qld.

THS2MAC MACROECONOMICS FOR TOURISM AND HOSPITALITY (15. CPs Sem. TE-SEM-2 BE.) *Mr David Reimers*

This unit provides students with an understanding of basic macroeconomic concepts and methodology necessary for understanding and analysing the macroeconomic environment in

which the tourism and hospitality industries operate. The unit also provides an awareness of the various schools of economic thought as they are applied to interpretations of appropriate policy formulations. The unit considers the practical implications of the foregoing theoretical concepts as they apply to Australian stabilisation policy. Topics include introduction to macroeconomic theory and policy, measuring national production and income, bank behaviour since financial deregulation, the money market, the foreign exchange market, inflation and unemployment, the theory of income determination, current schools of economic thought, fiscal policy, monetary policy and the international economy.

Incompatible unit: ECO1IMA

Class requirements: Three 1-hour lectures, one 1-hour tutorial/seminar per week.

Assessment: Three 1-hour tests (25% each) (75%), one 1000-word assignment (25%)

Prescribed Reading:

Coomes, T and Reimers, D. *Contemporary Australian Macroeconomics* McGraw-Hill, 2006

THS2MIC MICROECONOMICS FOR TOURISM AND HOSPITALITY (15. CPs Sem. TE-SEM-1 BE.) *Mr Earl Jobling*

This unit provides students with an understanding of basic microeconomic concepts and methodology necessary for analysing issues specific to different sub-sectors of the wider tourism and hospitality industries. The unit provides a basic understanding of the economic theory of price determination under the market structures of perfect competition, monopolistic competition, oligopoly and monopoly. By applying these theories, students develop knowledge and an appreciation of the structure of a variety of markets in the Australian economy, particularly those relating to the tourism and hospitality industries. Students are expected to critically evaluate the reasons governments may intervene in the market place and to gain a basic understanding of the main forms this intervention takes in the Australian economy. Main topics include price determination, the theory of the firm and the pricing of productive factors.

Incompatible unit: ECO1IMI

Class requirements: Three 1-hour lectures, one 1-hour tutorial/seminar per week.

Assessment: Two 40-minute tests (40%), one 3-hour final examination (60%). Hurdle requirement: students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the unit.

Prescribed Reading:

Taylor, J and Frost, L. *Microeconomics* Wiley, 3rd edn. (2005)

THS2TL2 TOURISM AND HOSPITALITY LAW 2 (15. CPs Sem. TE-SEM-2 BE.)

Ms Jill Breden

Not available in 2008

THS3BMB NEW TOURISM BUSINESS MARKETING (15 CPs Sem. TE-SEM-2 BE.) *Ms Sue Beeton*

Not available in 2008

THS3CT COMMUNITY TOURISM (15 CPs Sem. TE-SEM-2 BE.) *Dr Garry Price*

This unit provides students with an understanding of how communities respond to and live with, tourism. An examination is made of tourism impacts on communities as well as the role communities can play in the planning and development of their tourism products. Concepts such as community driven tourism, social representation and community-tourism relationships are explored. Case studies are used to highlight these concepts.

Prerequisite: THS1ILS.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: One major 2500-word research project (40%), tutorial exercises (10%), one 2-hour examination (50%)

Prescribed Reading:

BE: Beeton, S. (2006) *Community development through tourism* Landlinks Press, Collingwood, Vic.

THS3DMM DESTINATION MARKETING AND MANAGEMENT (15 CPs Sem. TE-SEM-2 BE, BU, OS.) *BE: Dr Clare Lade, BU: Dr Sue Beeton*

This unit examines the marketing of tourism destinations at supra-national, national, state, regional and local/city levels. It will cover a variety of topics such as destination image, destination choice, promotion, destination competitiveness, the role of destination marketing organisations (DMOs), the role of partnerships and alliances to sell the destination, target marketing and destination positioning, delivering the destination experience, sustainable tourism destination development, among others. The unit will emphasise the link between destination marketing and strategic planning for development.

Prerequisite: THS21THM OR THS12LTM or THS2IMT.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: One two-hour examination (30%), tutorial contribution (10%), one 1000-word (groups of 2) project research report (20%), one 6000-word (groups of 3 or 4) group project final report (40%)

Recommended Reading:

Ritchie, B and Crouch, G. (2003) *The Competitive Destination: A Sustainable Tourism Perspective*. CABI Publishing.

THS3DRT DIRECTED READINGS ON TOURISM, HOSPITALITY AND SPORT (15 CPs Sem. TE-SEM-1 BE, BU, TE-SEM-2 BE, BU.) *BE: Dr Garry Price, BU: Dr Hans Westerbeek*

This unit is offered in another semester. Unit attempt requires Head of School approval

In this unit, students undertake a reading project in a specific topic of tourism or hospitality. This unit is available as necessary at the discretion of the Head of School.

Quota: 5.

Class requirements: As directed by the Head of School, students will be required to discuss their reading project with a supervisor on a weekly basis.

This unit is not available for 'Study Abroad' students.

Assessment: (100%) 5000-word research assignment or equivalent as directed by Head of School.

THS3EM TOURISM ENTERPRISE MANAGEMENT (15 CPs Sem. TE-SEM-1 BE.) *Dr Garry Price*

The principles of entrepreneurship are applied to a small business setting. In conjunction with developing the necessary knowledge and skills in starting and operating a small tourism business, particular emphasis will be given to the entrepreneurial skills of exploiting opportunity and using creativity and innovation to provide a competitive advantage.

Prerequisite: THS1ILS.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

This unit is not available for 'Study Abroad' students.

Assessment: Major project – minimum 2500 words (60%), one 2-hour examination (40%)

Recommended Reading:

Extensive use of journal articles especially The Annals of Tourism, research and case studies Weaver, D and Oppermann, M. (2000) *Tourism management* Wiley

THS3FET FESTIVAL AND EVENT TOURISM (15 CPs Sem. TE-SEM-1 BE.) *Dr Garry Price*

Students develop an in-depth understanding of the vital role festivals and events can play in rural areas, particularly as a means of developing community pride and well-being and delivering associated economic benefits through related tourism. An understanding and recognition of the needs of the various tourist markets (local, regional, national and international) interested in a range of festivals and events will be gained. Aspects covered include planning for a local event, sporting events, cultural festivals, agricultural and farming festivals as well as regional conferences and conventions.

Prerequisite: THS1ILS.

Class requirements: One 2-hour lecture and one 1-hour tutorial or fieldwork per week.

Assessment: One 2-hour examination (50%), one 1500-word essay (20%), one 2000-word group project and formal presentation (20%). Students work in pairs. Tutorial attendance and contribution (10%)

Prescribed Reading:

McDonnell, I, Allen, J and O'Toole, W. *Festival and special event management* John Wiley and Sons, 3rd edn.

THS3ITO INDIGENOUS TOURISM (15 CPs Sem. TE-SEM-1 BE.)

Coordinator to be advised

Not available in 2008

THS3RT RURAL TOURISM (15 CPs Sem. TE-SEM-1 BE, TE-SEM-2 BE.) *Dr Clare Lade*

Students develop an overall understanding of rural tourism and its various components with an emphasis on rural industries (including farming and processing) and local heritage, incorporating a tourism focus. Issues surrounding the practical application of rural tourism such as planning, skills needs analysis, authenticity and methods of interpretation will be considered by students undertaking relevant research projects on existing rural tourism enterprises. It will be demonstrated how this form of tourism can contribute to existing economic activities of an area and assist in sustaining a traditional way of life.

Prerequisite: THS1ILS.

Class requirements: One 2-hour lecture and two 1-hour tutorials or fieldwork per week.

Assessment: One 2000-word research project (40%), tutorial assignments and preparation (10%), one 2-hour final examination (50%). Hurdle requirement: students must submit all assessable requirements to be eligible to pass the unit.

Recommended Reading:

Weaver, D and Oppermann, M. (2000) *Tourism management* Wiley

THS3TEN TOURISM AND THE ENVIRONMENT (15 CPs Sem. TE-SEM-1 BU, TE-SEM-2 BE.) *Dr Garry Price, Dr Caroline Winter*

In this unit, the nexus between tourism and the environment, both physical and socio-cultural, is examined from economic, ecological, historical, philosophical and socio-cultural perspectives. The relationship between environmentally responsible tourism and sustainable development, in theory and practice, is critically examined. Both Australian and international case studies are used.

Prerequisite: None.

Co-requisite: None.

Class requirements: One 2-hour lecture/seminar per week and one 1-hour tutorial per week.

Assessment: BE: tutorial performance (10%), tutorial performance (10%), one 3000-word written assignment (40%), one 2-hour final examination (50%), BE: one 2,050-word written assignment (40%), BE: one 2-hour final examination (50%)

FACULTY OF SCIENCE, TECHNOLOGY AND ENGINEERING

Single degrees

Bachelor of Science (SBSB) – Bendigo

The Bachelor of Science is a general degree program that provides students with flexibility to combine studies in their chosen areas of science (subject to satisfying the relevant prerequisites). Areas of study available at the Bendigo campus are:

- biochemistry
- biomedical sciences
- biotechnology
- chemistry
- information Technology
- physics (first year only)
- psychology¹
- mathematics and Statistics

Key: ¹ Enrolment in psychology is subject to students achieving the minimum ENTER requirement for entry into the Bachelor of Psychology degree.

After a broad first year of study, students may take major studies in any of these areas through to third year. Students who qualify for entry are eligible to proceed to an Honours year in their relevant area of science.

Course structure

To qualify for the Bachelor of Science, students must complete units to the value of 360 credit points, normally 120 credit points at each of first, second and third year levels. Up to a total of 130 credit points may be taken outside the Faculty. Specific requirements for each year level are given below. Students must establish at least one major area of study in science by taking a sequence of at least 30 credit points at first year level, at least 40 credit points at second year level and 60 credit points at third year level. Within these requirements, unit selection is limited only by timetable clashes, prerequisite and co-requisite needs, quotas and specific exclusions relating to incompatible units.

First year

Students choose units to the value of 90 credit points from science units with the remaining 30 credit points selected from first year units offered by the Faculty of Science, Technology and Engineering, or by other Faculties of the University. Students must choose units at first year level that will lead to the completion of a major area of study in science at third year level (60 credit points).

Second year

Students must choose 90 credit points from units offered by the Faculty of Science, Technology and Engineering, which must include at least 45 credit points from a single scientific discipline as listed below. The remaining 30 credit points are selected from second year units offered by this or other Faculties.

Third year

Students choose units to the value of 60 credit points in one of the areas of study, with the remaining 60 credit points selected from third year units offered by this or other Faculties.

First year (120 credit points)

Honours

Honours degree students are selected on the basis of their performance in the final year of the pass degree course. Students must obtain a minimum average of 60% across all of their third year units and obtain at least 65% in units germane to the Honours discipline to the value of 60 credit points. An Honours year may be taken in any of the departments contributing to the pass degree course for which they have the appropriate prerequisites. The Bachelor of Science (Honours) degree will be available at the Bendigo campus in 2009; until then, the Bachelor of Applied Science (Honours) degree is available. See the relevant entry in this section of the *Handbook*.

Bachelor of Applied Science (RBAS) – Bendigo

This degree is being phased out. No new enrolments will be permitted. Please refer to the Bachelor of Science entry.

Course aims

The Bachelor of Applied Science course will provide opportunities for students to:

- meet a range of scientific disciplines and integrate knowledge across scientific disciplines
- develop skills and knowledge about scientific process, including critical thinking, analytical and problem-solving skills
- develop well-developed communication, reporting and information technology skills and express ethical positions
- have the confidence and competence to work in a team environment
- use the above skills to identify and contribute objectively to public debate on topical and significant issues and assess the scientific knowledge being presented
- explore relationships between structure and function from molecules to ecosystems
- possess in-depth knowledge and understanding in a major area of scientific study
- be aware of broader issues outside their discipline
- have confidence and competency in laboratory and field situations through hands-on experience
- prepare for employment in commerce, industry, administration, government or the education sector and meet entry requirements for graduate programs including those leading to and supported by local research groups
- maintain and share a curiosity and excitement about science.

Professional recognition

Major study sequences have been designed to meet specific professional requirements where these exist. The course provides the basis for the entry of graduates into higher degree programs and is a suitable base qualification for a teaching career in science. With the appropriate selection of units, the Directorate of School Education requirements can be met for specialist teaching in biology, chemistry, environmental studies, mathematics, or science. Applied science graduates of high standing may proceed to a Bachelor of Applied Science (Honours) and thence to Masters or Doctoral research.

Advanced standing

Applications for advanced standing are considered on an individual basis. Full credit is given for tertiary studies in relevant disciplines unless particular units to be undertaken in this course have special entry requirements that have not been met by those studies.

Course structure

The course is of three years full-time or equivalent part-time duration and requires the completion of 360 credit points. Students complete units to the value of 120 credit points at each year level.

First year

- Satisfactory completion of the five compulsory units outlined.
- Satisfactory completion of three approved elective units.

Major and minor sequences

- At least one approved major sequence (not less than 90 credit points at second and third year level) must be satisfactorily completed.
- At least one approved minor sequence (not less than 60 credit points at second and third year level) must be completed.
- No unit may be counted towards both the major and minor sequence.

Modern Analytical Techniques (SCI2/3MI)

All students must complete this unit in either the second or third year of their course.

Major study areas

- Biomedical science
- Biotechnology
- Medicinal chemistry
- Environmental chemistry
- Environmental science

The choice of major study area may prescribe particular electives in first year in order to satisfy prerequisite requirements for later units. Additional elective units may be required for students who wish to obtain professional accreditation of their programs. Appropriate information will be available from the course coordinator or the head of discipline.

Students of this program are usually those wishing to obtain a broad scientific background to prepare themselves for such careers as science teaching. The course coordinator may substitute a maximum of 30 credit points from second level units to support this.

First year (120 credit points)

Core units (75 credit points)

Teaching period	Unit title	Unit code	Credit points
TE-SEM-1	Group Research 1A: Science and Society	SCI1G1A	15
TE-SEM-1	Biology of the Cell and Organism	BIO1CO	15
TE-SEM-1	Chemistry 1A or General Chemistry	CHE1C1A/CHE1GE2	15
TE-SEM-2	Group Research 1B: Communication of Science	SCI1G1B	15
TE-SEM-2	Measurement and Observation	PHY1MO	15

Electives (45 credit points)

The remaining 45 credit points must be chosen from the list below.

Teaching period	Unit title	Unit code	Credit points
TE-SEM-1	Calculus A	MAT1CA	15
TE-SEM-1	Australian Environments	BIO1AE	15
TE-SEM-1	Earth Science	GEO1ES	15
TE-SEM-1 or TE-SEM-2	Statistical Methods	STA1STM	15
TE-SEM-1 or TE-SEM-2	Information Technology Fundamentals	CSE1ITF	15
TE-SEM-2	Materials Geology	GEO1MG	15
TE-SEM-2	Chemistry 1B	CHE1C1B	15
TE-SEM-2	Environmental Science	SCI1ES	15

Second year (120 credit points)

Biomedical science

Choose four from:

Teaching period	Unit title	Unit code	Credit points
TE-SEM-1	Biomolecules	BIO2BMO	15
TE-SEM-1	Introduction to Microbiology	BIO2IMB	15
TE-SEM-1	Excitable Cells and Endocrine Systems	BIO2CES	15
TE-SEM-2	Intermediary Metabolism	BIO2IMM	15
TE-SEM-2	Microbial Ecology and Systematics	BIO2MES	15
TE-SEM-2	Organs and Organ Systems	BIO2OOS	15

Biotechnology

Teaching period	Unit title	Unit code	Credit points
TE-SEM-1	Biomolecules	BIO2BMO	15
TE-SEM-2	Intermediary Metabolism	BIO2IMM	15
TE-SEM-1	Introduction to Microbiology	BIO2IMB	15
TE-SEM-2	Microbial Ecology and Systematics	BIO2MES	15

Medicinal chemistry

Teaching period	Unit title	Unit code	Credit points
TE-SEM-1	Pharmaceutical Chemistry	CHE2PHC	15
TE-SEM-2	Aquatic Chemistry	CHE2AQC	15
TE-SEM-2	Medicinal Chemistry A	CHE2MCA	15

Environmental chemistry

Teaching period	Unit title	Unit code	Credit points
TE-SEM-1	Aquatic Chemistry	CHE2AQC	15
TE-SEM-1	Environmental Chemistry	CHE2ENV	15
TE-SEM-2	Chemical Analysis	CHE2ENA	15

Environmental science

Teaching period	Unit title	Unit code	Credit points
TE-SEM-1	Ecology	BIO2ECO	15
TE-SEM-1	Environmental Chemistry	CHE2ENV	15
TE-SEM-2	Plant Ecology	BIO2PE	15

Third year (120 credit points)

Biomedical science

Choose two from:

Teaching period	Unit title	Unit code	Credit points
TE-SEM-1	Clinical Biochemistry	BIO3CBC	15
TE-SEM-1	Pharmaceutical Microbiology	PHA4PM	15
TE-SEM-1	Oxygenation and Exercise	BIO3OAE	15
TE-SEM-2	Brain, Mind and Behaviour	BIO3BMB	15
TE-SEM-2	Clinical Haematology and Immunology	BIO3CHI	15

Biotechnology

Teaching period	Unit title	Unit code	Credit points
TE-SEM-1	Molecular Biotechnology	BIO3MBT	15
TE-SEM-2	Applications of Biotechnology	BIO3ABT	15

Medicinal chemistry

Teaching period	Unit title	Unit code	Credit points
TE-SEM-1	Medicinal Chemistry B	CHE3MCB	15
TE-SEM-1	Colloids and Polymers	CHE3CP	15
TE-SEM-1 or TE-SEM-2	Project	SCI3PRJ	15

Environmental chemistry

Teaching period	Unit title	Unit code	Credit points
TE-SEM-1	Pollution and Waste Management	CHE3PW	15
TE-SEM-1	Chemical Dynamics	CHE3CD	15
TE-SEM-1	Colloids and Polymers	CHE3CP	15

Environmental science

Teaching period	Unit title	Unit code	Credit points
TE-SEM-1	Environmental Geomorphology	GEO3EGM	15
TE-SEM-2	Environmental Case Studies	SCI3ECS	15
TE-SEM-2	Soil Science	GEO3SSC	15

Honours and postgraduate studies

Eligible students wishing to proceed to further study may undertake an Honours degree, providing a range of research opportunities.

Bachelor of Agricultural Science (SBASB) – Bendigo

The first year only of this degree is offered at the Bendigo campus. Students will complete the final three years of the course at the Melbourne (Bundoora) Campus. Refer to the Bachelor of Agricultural Science (SBAS) in the (Melbourne) Bundoora section of this Handbook for full course details.

The Bachelor of Agricultural Science course provides a basic understanding of the relationships between soils, plants, animals, economics and the environment. It should be emphasised that the degree is in agricultural science, not in farming. Agriculture is not only an important component of our environment, it reacts with and affects the non-agricultural components. The emphasis in the course is, therefore, on the sciences relevant to an understanding of primary production and resource management.

The course concentrates on the sciences concerned with soil productivity, plant and animal production, business management and agricultural marketing and policy; and the disciplines of soil science, plant and animal nutrition, physiology and biochemistry, plant and animal health, weed ecology and control, agribusiness marketing and commodity trading, statistics and case studies in agricultural production.

The science and business studies that are the foundation of the Bachelor of Agricultural Science degree have a highly successful record in leading to a wide variety of careers in agriculture, industrial research and commercial organisations.

Industry experience

Twelve weeks of approved industry experience taken during university vacations is an essential requirement of this degree.

Course structure

The course requires the completion of 480 credit points over four years of full-time or equivalent part-time study. This is a fixed content course.

First year (120 credit points)

Teaching period	Unit title	Unit code	Credit points
TE-SEM-1	Earth Sciences	GEO1ES	15
TE-SEM-1	Biology of Cells and Organisms	BIO1CO	15
TE-SEM-1	Chemistry 1A	CHE1C1A	15
TE-SEM-1	Microeconomics ¹	ECO1IMI	15
TE-SEM-2	Chemistry 1B	CHE1C1B	15
TE-SEM-2	Measurement and Observation	PHY1MO	15
TE-SEM-2	Plant Ecology	BIO2PE	15
TE-SEM-2	Statistical Methods	STA1STM	15

Key: ¹ In the first semester, students enrolled in the first year of the Bachelor of Agricultural Science degree at Bendigo will have the choice of studying either Microeconomics (ECO1IMI) at the Bendigo Campus, or Introduction to Agribusiness (MGF1240) taken over one-week at the Melbourne (Bundoora) Campus in July 2008, during the University vacation period. The advantage of this latter option is that students who complete all four agribusiness units (which include MGF1240) will graduate with a Professional Diploma in Agribusiness, in addition to the Bachelor of Agricultural Science. The visit to Bundoora in July will also enable Bendigo students to meet other first year Bachelor of Agricultural Science students from the other three campuses in a social setting and will allow them to get a feel for the Bundoora campus environment. College accommodation on the Bundoora campus will be available during the week-long session.

Bachelor of Chemical Sciences (RBSCS) – Bendigo

The chemical industry has long been one of the major destinations for science graduates. The Bachelor of Chemical Sciences caters for the needs of this industry sector, but also provides an excellent qualification for those students considering progressing to a higher degree in chemistry. Although the units specified for the degrees are different for the Bendigo and Melbourne (Bundoora) campuses, students can transfer between campuses if they wish. Graduates are eligible for membership of the Royal Australian Chemical Institute.

Course structure

The course is of three years full-time or equivalent part-time duration and requires the completion of 360 credit points. Students must complete units totalling at least 120 credit points in each of the first, second and third years. Units from any campus of the University may be included.

Some units are only offered every second year and this will need to be taken into consideration when planning individual programs.

First year (120 credit points)

Core units (30 credit points)

Teaching period	Unit title	Unit code	Credit points
TE-SEM-1	Chemistry 1A	CHE1C1A	15
TE-SEM-2	Chemistry 1B	CHE1C1B	15

Electives (90 credit points)

Students must choose first year science units to the value of 60 credit points, which must include at least 15 credit points of mathematics or physics units. The remaining 30 credit points may be chosen from first year units offered by any faculty.

Second year (120 credit points)

Core units (60 credit points)

Teaching period	Unit title	Unit code	Credit points
TE-SEM-1	Environmental Chemistry	CHE2ENV	15
TE-SEM-1	Pharmaceutical Chemistry	CHE2PHC	15
TE-SEM-2	Medicinal Chemistry A	CHE2MCA	15
TE-SEM-2	Aquatic Chemistry	CHE2AQC	15

Electives (60 credit points)

Students choose second year science units to the value of 30 credit points. The remaining 30 credit points may be chosen from second year level units offered by any faculty.

Third year (120 credit points)

Core units (60 credit points)

Teaching period	Unit title	Unit code	Credit points
TE-SEM-2	Chemical Analysis	CHE3ENA	15

Plus three other chemistry units:

TE-SEM-1	Chemical Dynamics	CHE3CD	15
TE-SEM-1	Colloids and Polymers	CHE3CP	15
TE-SEM-1	Medicinal Chemistry B	CHE3MCB	15
TE-SEM-2	Pollution and Waste Management	CHE3PW	15

Electives (60 credit points)

Students must choose third year science units to the value of 30 credit points. The remaining 30 credit points may be chosen from third year units offered by any faculty.

Honours and postgraduate studies

Eligible students wishing to proceed to further study may undertake an Honours degree, which provides a range of research opportunities.

Bachelor of Civil Engineering (RBE) – Bendigo

The engineering course continues a 100 year-old tradition of professional engineering education at Bendigo. The Bachelor of Civil Engineering course consists of eight semesters of academic studies and a period of paid industry-integrated learning. The course can be combined with either science or business courses in double degree programs.

Professional recognition

The course is accredited by Engineers Australia.

Industry-integrated learning options

The course includes a period of paid industry-integrated learning. Students can choose one of the following options for this part of the course.

- Option 1: 10 weeks during the vacation at the end of each of second and third years.
- Option 2: 20 weeks following completion of the academic program.
- Option 3: One full year of employment.

Teaching period	Unit title	Unit code	Credit points
TE-SEM-1	Industry Integrated Learning	CIV3IIL	60
TE-SEM-2	Industry Integrated Learning	CIV3IIL	60

Course structure

This course is of four years full-time or equivalent part-time duration and requires the completion of 480 credit points. The first year is common to all major study areas.

First year (120 credit points)

Teaching period	Unit title	Unit code	Credit points
TE-SEM-1	Engineering Practice	CIV1EP	15
TE-SEM-1	Calculus A	MAT1CA	15
TE-SEM-1	Physics A	PHY1PA	15
TE-SEM-1	Accounting for Management Decisions	ACC1AMD	15
TE-SEM-2	Engineering CAD	CIV1CAD	15
TE-SEM-2	Calculus B	MAT1CB	15
TE-SEM-2	Environmental Science	SCI1ES	15
TE-SEM-2	Mechanics of Solids	PHY1MS	15

Second year (120 credit points)

Teaching period	Unit title	Unit code	Credit points
TE-SEM-1	Calculus C	MAT2CC	15
TE-SEM-1	Civil Engineering Materials	CIV2CEM	15
TE-SEM-1	Structures 1	CIV2ST1	15
TE-SEM-1	Surveying	CIV2SUR	15
TE-SEM-2	Geomatics	CIV3GM	15
TE-SEM-2	Engineering Group Research	CIV2GR	15
TE-SEM-2	Hydraulics	CIV2HYD	15
TE-SEM-2	Environmental Law	LST2EL	15

Third year (120 credit points)

Teaching period	Unit title	Unit code	Credit points
TE-SEM-1	Project Management	MGT3PM	15
TE-SEM-1	Earth Science	GEO1ES	15
TE-SEM-1	Numerical Mathematics	MAT3NM	15
TE-SEM-1	Structures 2	CIV3ST2	15
TE-SEM-2	Civil Construction and Environment	CIV3CC	15
TE-SEM-2	Environmental Case Studies	SCI3ECS	15
TE-SEM-2	Geotechnology A	CIV3GTA	15
TE-SEM-2	Hydraulic Engineering 1	CIV3HE1	15

Fourth year (120 credit points)

Teaching period	Unit title	Unit code	Credit points
TE-SEM-1	Sustainable Infrastructure	CIV4SI	15
TE-SEM-1	Geotechnology B	CIV4GTB	15
TE-SEM-1	Hydraulic Engineering 2	CIV4HE2	15
TE-SEM-1	Structures 3	CIV4ST3	15
TE-SEM-2	Investigation	CIV4INV	15
TE-SEM-2	Structural Design	CIV4SD	15
TE-SEM-2	Regional Engineering	CIV4RE	15
TE-SEM-2	Transportation Engineering	CIV4TE	15

Bachelor of Information Technology (RBC) – Bendigo

This course provides a generalist education in information technology and the opportunity to specialise in information systems, software development, computer networks and web development. The course is structured to enable students to combine studies with another discipline. Students may choose elective units from any other approved course with the approval of the course coordinator.

Professional recognition

Graduates are recognised by the Australian Computer Society as information technology professionals and are eligible for membership.

Industry-based learning

A limited number of scholarships are offered for students to undertake an industry-based learning component. Students who have completed two full years of study are eligible to apply. Each industry-based learning unit is undertaken full-time for half a year and is equivalent to two of the 24 units required for the degree to be awarded. Further details may be obtained from the industry-based learning coordinator.

Course structure

The course is of three years full-time or equivalent part-time duration and requires the completion of 360 credit points. Students complete units to the value of 120 credit points each year. The course consists of 24 semester units, comprising four units per semester in each year of study. Sixteen units must be IT units and four units must be non-IT units. No more than 10 units overall may be studied at first year level. All units are worth 15 credit points. This course is valued at 360 credit points.

Non-information technology and elective units

Students may take up to eight non-IT units for credit in the course. All elective choices must be approved by the course coordinator. Some possible areas are business, electronics, humanities, social science, multimedia, mathematics, statistics, public health and environmental science.

First year (120 credit points)*Core units (90 credit points)*

Teaching period	Unit title	Unit code	Credit points
TE-SEM-1	Information Technology Fundamentals	CSE1ITF	15
TE-SEM-1	Mathematics for IT ¹	MAT1MIT	15
TE-SEM-1	Programming Environment ²	CSE1PE	15
TE-SEM-2	Object Oriented Programming Fundamentals	CSE1OOF	15
TE-SEM-2	Discrete Mathematics	MAT1DIS	15
TE-SEM-2	Information Systems	CSE1IS	15

Key: ¹ A non-information technology unit may replace this unit if a satisfactory standard has been achieved in year-12 mathematics subjects.

² Another information technology unit may replace this unit if a satisfactory standard has been achieved in year-12 Information Systems.

Electives (30 credit points)

The remaining 30 credit points must be chosen from non-information technology units with the approval of the course coordinator.

Second year (120 credit points)*Core units (90 credit points)*

Teaching period	Unit title	Unit code	Credit points
TE-SEM-1	Intermediate Object Oriented Programming	CSE1IOO	15
TE-SEM-1	IS Development	CSE2ISD	15

Plus a further 60 credit points of second year level information technology units 60

Electives (30 credit points)

The remaining 30 credit points must be chosen from second year level non-information technology units with the approval of the course coordinator.

Third year (120 credit points)*Core units (75 credit points)*

Teaching period	Unit title	Unit code	Credit points
75 credit points of third year level information technology units			75

Electives (45 credit points)

The remaining 45 credit points must be chosen from third year level non-information technology units with the approval of the course coordinator.

Information Technology units:

Teaching period	Unit title	Unit code	Credit points
TE-SEM-1	Algorithms and Data Structures	CSE2ALG	15
TE-SEM-1	Computer Networks	CSE2CN	15
TE-SEM-1	Emerging Topics in Information Technology	CSE3ETI	15
TE-SEM-1	Major Project Part 1	CSE3MP1	15
TE-SEM-1	Software Development Environments	CSE3SDE	15
TE-SEM-1	Web Engineering	CSE3WE	15
TE-SEM-2	Minor Project	CSE2MIP	15
TE-SEM-2	Data Communications	CSE3DC	15
TE-SEM-2	Database	CSE3DB	15
TE-SEM-2	Information Systems Practice	CSE3ISP	15
TE-SEM-2	Major Project Part 2	CSE3MP2	15
TE-SEM-2	Multimedia Authoring	CSE2MA	15
TE-SEM-2	Object Oriented Application Development	CSE3OAD	15
TE-SEM-2	Software Engineering	CSE3SE	15
TE-SEM-2	Web Development	CSE2WD	15
TE-SEM-2	Web Services	CSE3WS	15

Bachelor of Information Technology (Computer Networks) (RBITCN) – Bendigo

This degree is being phased out. No new enrolments will be permitted from 2008. Please refer to the entry for the Bachelor of Information Technology.

This course provides a professional education in computer networks and the Internet. The course also features an industry experience option and is structured to enable students to combine computing studies with another discipline. Students may choose elective units from any other approved course with the approval of the course coordinator.

Professional recognition

Graduates are recognised by the Australian Computer Society as computer professionals and are eligible for membership.

Industry-based learning

A limited number of scholarships are offered for students to undertake an industry-based learning component. Students who have completed two full years of study are eligible to apply. Each industry-based learning unit is undertaken full-time for half a year and is equivalent to two of the 24 units required for the degree to be awarded. Further details may be obtained from the industry-based learning coordinator.

Course structure

The course is of three years full-time or equivalent part-time duration and requires the completion of 360 credit points. The course consists of 24 semester units, comprising four units per semester in each year

of study. Sixteen units must be information technology units and four units must be non-information technology units. No more than ten units overall may be studied at first year level. All units are worth 15 credit points.

Non-information technology units

Students may take up to eight non-IT units for credit in the course. All non-information technology choices must be approved by the course coordinator. Some possible areas are business, electronics, humanities, social sciences, multimedia, mathematics, statistics, public health and environmental science.

First year (120 credit points)

Teaching period	Unit title	Unit code	Credit points
TE-SEM-1	Programming Environment ²	CSE1PE	15
TE-SEM-1	Computer Technology	CSE1CT	15
TE-SEM-1	Information Technology Fundamentals	CSE1ITF	15
TE-SEM-1	Mathematics for IT ¹	MAT1MIT	15
TE-SEM-2	Object Oriented Programming Fundamentals	CSE1OOF	15
TE-SEM-2	Discrete Mathematics	MAT1DIS	15
TE-SEM-2	Information Systems	CSE1IS	15

TE-SEM-2	Encryption and Network Security	CSE3ENS	15

Electives (45 credit points)

The remaining 45 credit points may be chosen from third year level units offered by any department and may include further information technology units.

Bachelor of Information Technology (Information Systems) (RBITIS) – Bendigo

This degree is being phased out. No new enrolments will be permitted from 2008. Please refer to the entry for the Bachelor of Information Technology.

This course provides a professional education in information systems. Students in this degree will study systems analysis and design methodologies in depth. The course also features an industry experience option and is structured to enable students to combine computing studies with another discipline. Students may choose elective units from any other approved course with the approval of the course coordinator.

Professional recognition

Graduates are recognised by the Australian Computer Society as computer professionals and are eligible for membership.

Industry-based learning

A limited number of scholarships are offered for students to undertake an industry-based learning component. Students who have completed two full years of study are eligible to apply. Each industry-based learning unit is undertaken full-time for half a year and is equivalent to two of the 24 units required for the degree to be awarded. Further details may be obtained from the industry-based learning coordinator.

Course structure

The course is of three years full-time or equivalent part-time duration and requires the completion of 360 credit points. The course consists of 24 semester units, comprising four units per semester in each year of study. Sixteen units must be information technology units and four units must be non-information technology units. No more than ten units overall may be studied at first year level. All units are worth 15 credit points.

Non-information technology units

Students may take up to eight non-IT units for credit in the course. All non-information technology choices must be approved by the course coordinator. Some possible areas are business, electronics, humanities, social sciences, multimedia, mathematics, statistics, public health and environmental science.

First year (120 credit points)

Core units (90 credit points)

Teaching period	Unit title	Unit code	Credit points
TE-SEM-1	Information Technology Fundamentals	CSE1ITF	15
TE-SEM-1	Programming Environment ²	CSE1PE	15
TE-SEM-1	Mathematics for IT ¹	MAT1MIT	15
TE-SEM-2	Object Oriented Programming Fundamentals	CSE1OOF	15
TE-SEM-2	Discrete Mathematics	MAT1DIS	15
TE-SEM-2	Information Systems	CSE1IS	15

Key: ¹ A non-information technology unit may replace this unit if a satisfactory standard has been achieved in year-12 mathematics subjects.

² Another information technology unit may replace this unit if a satisfactory standard has been achieved in year-12 Information Systems.

Electives (30 credit points)

The remaining 30 credit points must be chosen from non-information technology units with the approval of the course coordinator.

Second year (120 credit points)

Core units (90 credit points)

Teaching period	Unit title	Unit code	Credit points
TE-SEM-1	Intermediate Object Orientated Programming	CSE1IOO	15
TE-SEM-1	IS Development	CSE2ISD	15
TE-SEM-1	Computer Networks	CSE2CN	15
TE-SEM-2	IS Practice	CSE3ISP	15
TE-SEM-2	Database	CSE3DB	15
Plus a further 15 credit points of information technology units			15

Electives (30 credit points)

The remaining 30 credit points must be chosen from second year level units offered by any department, subject to a maximum of 75 credit points of second year information technology units being taken.

Third year (120 credit points)

Core units (90 credit points)

Teaching period	Unit title	Unit code	Credit points
TE-SEM-1	Major Project Part 1	CSE3MP1	15
TE-SEM-2	Major Project Part 2	CSE3MP2	15
TE-SEM-2	Professional Environment	CSE3PE	15
Plus a further 45 credit points of information technology units			45

Electives (30 credit points)

The remaining 30 credit points may be chosen from third year level units offered by any department and may include further information technology units.

Bachelor of Information Technology (Professional) (SBITL) – Bendigo

A program developed in consultation with industry, the Bachelor of Information Technology (Professional) combines information technology and business theory with professional information technology practice. The units studied cover the range of information technology fundamentals, theory and techniques applicable to the development of information technology systems. In addition students select units in business disciplines to complete a business minor.

Scholarships

Students offered a place in the course will be granted a School or Department Scholarship for the first two years. The industry placement year will attract either an Industry Based Learning Scholarship of approximately \$19 000 plus a rent subsidy for the Melbourne-based part of the placement, or a salary as negotiated with an employer. Note that this does not preclude a prospective student from applying for any other La Trobe University scholarship.

Course structure

The course is of three and a half years full-time duration and requires the completion of 360 credit points. In the first year, students complete units from a list of core and recommended units from within the disciplines of information systems, mathematics and business. In the second year of the degree, students select available information systems and business units. In the third year of the degree, students complete placements with industry partner(s) equivalent to forty weeks full-time work. The fourth year will consist of one semester of full-time study.

First year (120 credit points)

Teaching period	Unit title	Unit code	Credit points
TE-SEM-1	Information Technology Fundamentals	CSE1ITF	15
TE-SEM-1	Programming Environment	CSE1PE	15
TE-SEM-2	Discrete Mathematics	MAT1DIS	15
TE-SEM-2	Information Systems	CSE1IS	15
TE-SEM-2	Object Oriented Programming Fundamentals	CSE1OOF	15
TE-SEM-2	Web Development	CSE2WD	15
Plus 30 credit points of business units with the approval of the course coordinator			30

Second year (120 credit points)

Teaching period	Unit title	Unit code	Credit points
TE-SEM-1	Computer Networks	CSE2CN	15
TE-SEM-1	IS Development	CSE2ISD	15
TE-SEM-1	Intermediate Object Oriented Programming	CSE1IOO	15
TE-SEM-2	Database	CSE3DB	15
TE-SEM-2	Object Oriented Application Development	CSE3OAD	15
TE-SEM-2	second year level information technology unit		15
Plus 30 credit points of approved second year level business units			30

Third year (60 credit points)

Teaching period	Unit title	Unit code	Credit points
TE-SEM-1	Industry Based Learning A	CSE3IBA	30
TE-SEM-2	Industry Based Learning B	CSE3IBB	30

Fourth year (60 credit points)

Teaching period	Unit title	Unit code	Credit points
TE-SEM-1	Professional Environment	CSE3PE	15
TE-SEM-1	Third year level information technology units		30
TE-SEM-1	Approved third year level business unit		15

Honours

An Honours year is available to suitably qualified students and requires the completion of a further year of study.

Bachelor of Information Technology (Software Development) (RBITSD) – Bendigo

This degree is being phased out. No new enrolments will be permitted from 2008. Please refer to the entry for the Bachelor of Information Technology.

This course provides a professional education in software development. Students in this degree will study a variety of software engineering techniques and programming languages. The course also

features industry experience options and is structured to enable students to combine computing studies with another discipline. Students may choose elective units from any other approved course with the approval of the course coordinator.

Professional recognition

Graduates are recognised by the Australian Computer Society as computer professionals and are eligible for membership.

Industry-based learning

A limited number of scholarships are offered for students to undertake an industry-based learning component. Students who have completed two full years of study are eligible to apply. Each industry-based learning unit is undertaken full-time for half a year and is equivalent to two of the 24 units required for the degree to be awarded. Further details may be obtained from the industry-based learning coordinator.

Course structure

The course is of three years full-time or equivalent part-time duration and requires the completion of 360 credit points. The course consists of 24 semester units, comprising four units per semester in each year of study. Sixteen units must be information technology units and four units must be non-information technology units. No more than ten units overall may be studied at first year level. All units are worth 15 credit points.

Non-information technology units

Students may take up to eight non-information technology units for credit in the course. All elective choices must be approved by the course coordinator. Some possible areas are business, electronics, humanities, social sciences, multimedia, mathematics, statistics, public health and environmental science.

First year (120 credit points)

Core units (90 credit points)

Teaching period	Unit title	Unit code	Credit points
TE-SEM-1	Information Technology Fundamentals	CSE1ITF	15
TE-SEM-1	Object Oriented Programming Fundamentals	CSE1OOF	15
TE-SEM-1	Mathematics for IT ¹	MAT1MIT	15
TE-SEM-2	Intermediate Object Oriented Programming	CSE1IOO	15
TE-SEM-2	Discrete Mathematics	MAT1DIS	15
TE-SEM-2	Information Systems	CSE1IS	15

Key: ¹ Another information technology unit may replace this unit if a satisfactory standard has been achieved in year-12 Information Systems.

Electives (30 credit points)

The remaining 30 credit points must be chosen from non-information technology units with the approval of the course coordinator.

Second year (120 credit points)

Core units (90 credit points)

Teaching period	Unit title	Unit code	Credit points
TE-SEM-1	Object Oriented Application Development	CSE3OAD	15
TE-SEM-1	IS Development	CSE2ISD	15
TE-SEM-1	Computer Networks	CSE2CN	15
TE-SEM-2	Software Engineering	CSE3SE	15
TE-SEM-2	Database	CSE3DB	15
TE-SEM-2	Second year level software development unit		15

Electives (30 credit points)

The remaining 30 credit points must be chosen from second year level units offered by any department, subject to a maximum of 90 credit points of second year information technology units being taken.

Third year (120 credit points)

Core units (90 credit points)

Teaching period	Unit title	Unit code	Credit points
TE-SEM-1	Major Project Part 1	CSE3MP1	15
TE-SEM-2	Major Project Part 2	CSE3MP2	15
Plus a further 30 credit points of third year level software development units			30
Plus a further 30 credit points of third year level information technology units			30

Electives (30 credit points)

The remaining 30 credit points may be chosen from third year level units offered by any department and may include further information technology units. Students may choose from the following list of software development units:

Teaching period	Unit title	Unit code	Credit points
TE-SEM-1	Software Development Environments	CSE3SDE	15
TE-SEM-1	Web Engineering	CSE3WE	15
TE-SEM-2	Web Services	CSE3WS	15
TE-SEM-2	Software Engineering	CSE3SE	15
TE-SEM-2	Web Development	CSE2WD	15

Bachelor of Pharmacy (RBP) – Bendigo

The Bachelor of Pharmacy course was developed to address the serious shortage of pharmacists in regional, rural and remote areas of Australia. The main feature of the course is the integration of the science components with the patient-orientated components of pharmacy practice and pharmaceutical care, giving the future pharmacist skills in optimising patient therapeutic outcomes and improving patient health. Thus the program emphasises patient care, rural health issues and the place of the pharmacist as a member of the primary health care team. Students study units in science and public health alongside students in other courses.

Graduates will find ready employment in community or hospital pharmacies throughout Australia. The course will equip them for work in smaller population centres through the provision of a range of units including rural health and by placements in rural pharmacies. This provides opportunities to forge relationships with other health professionals.

Professional recognition

In order to practise as a pharmacist in Victoria a graduate must be registered with the Pharmacy Board of Victoria. Graduates are required to undertake a pre-registration year under supervision and then pass an examination set by the Board, before being accepted for registration.

Course structure

This is a four year, full-time course. Much of the first year is concerned with the science that underlies the study of pharmacy and with the tools of mathematics and information technology. The units Introduction to Pharmacy and Pharmacy Practice A introduce students to the practice of pharmacy and include visits to community and hospital pharmacies. Students must complete units totalling at least 120 credit points in each of the first, second and third years.

In later years of the course the emphasis shifts from the basic sciences to the pharmacy-specific units of therapeutics, pharmacy practice, pharmaceuticals, pharmacology and medicinal chemistry, together with studies relating to the health care system. Students spend progressively more time in practical placements, during which they undertake specific learning tasks. This course is valued at 480 credit points.

Honours program

Students who achieve a high academic standard may be invited to participate in the Honours program. Honours candidates undertake 135 credit points in the fourth year, enrolling in the units Pharmacy Honours Project A (20 credit points) and Pharmacy Honours Project B (25 credit points) in place of either Pharmaceutical Biotechnology or Complementary Medicines in semester 1 and the elective unit in semester 2.

First year (120 credit points)

Teaching period	Unit title	Unit code	Credit points
TE-SEM-1	Cell and Organism	BIO1CO	15
TE-SEM-1	Chemistry 1A	CHE1CIA	15
TE-SEM-1	Information Technology Fundamentals	CSE1ITF	15
TE-SEM-1	Introduction to Pharmacy	PHA1IP	15
TE-SEM-2	Pharmacy Practice A	PHA1PPA	15
TE-SEM-2	Organ and Organ Systems	BIO1OOS	15
TE-SEM-2	Chemistry 1B	CHE1CIB	15
TE-SEM-2	Pharmacy Mathematics	MAT1PHM	15

Second year (120 credit points)

Teaching period	Unit title	Unit code	Credit points
TE-SEM-1	Pharmaceutics A – Two Phase Systems	PHA2PTA	15
TE-SEM-2	Pharmacy Practice B	PHA2PPB	15
TE-SEM-1	Pharmaceutical Chemistry	CHE2PHC	15
TE-SEM-1	Pharmacology A	PHA2PGA	15

TE-SEM-1	Introduction to Microbiology	BIO2IMB	15
TE-SEM-2	Medicinal Chemistry A	CHE2MCA	15
TE-SEM-2	Pharmacology B	PHA2PGB	15
TE-SEM-2	Biochemistry for Pharmacy	BIO2BPC	15

Third year (120 credit points)

Teaching period	Unit title	Unit code	Credit points
TE-SEM-1	Clinical Pharmacy, Legislation and Practice	PHA3PPL	15
TE-SEM-1	Clinical Biochemistry and Clinical Haematology	BIO3CBH	15
TE-SEM-1	Medicinal Chemistry B	CHE3MCB	15
TE-SEM-1	Pharmacology C	PHA3PGC	15
TE-SEM-2	Clinical Pharmacy and Pharmacopidemiological Research	PHA3APP	15
TE-SEM-2	Pharmaceutics B – Solid Dosage Forms	PHA3PTB	15
TE-SEM-2	Pharmacology D	PHA3PGD	15
TE-SEM-2	Rural Public Health	HLT3RPH	15

Fourth year – Pass (120 credit points)

Teaching period	Unit title	Unit code	Credit points
TE-SEM-1	Pharmaceutical Care – Quality Use of Medicines A	PHA4PCA	15
TE-SEM-1	Pharmaceutical Microbiology and Oncology	PHA4PM	15
TE-SEM-1	Pharmaceutical Biotechnology	PHA4PBT	15
TE-SEM-1	Complementary Medicines	PHA4CM	15
TE-SEM-2	Pharmaceutical Care – Quality Use of Medicines B	PHA4PCB	15
TE-SEM-2	Pharmacy Practice and Management	PHA4PPM	15
TE-SEM-2	Advanced Counselling	PHA4PAC	15
TE-SEM-2	Elective: Pharmacy Project	PHA4PP	15

Fourth year – Honours (135 credit points)

Teaching period	Unit title	Unit code	Credit points
TE-SEM-1	Pharmaceutical Care – Quality Use of Medicines A	PHA4PCA	15
TE-SEM-1	Pharmacy Honours Project A	PHA4HPA	20
TE-SEM-1	Pharmaceutical Microbiology and Oncology	PHA4PM	15
TE-SEM-1 or	Pharmaceutical Biotechnology	PHA4PBT	15
TE-SEM-1	Complementary Medicines	PHA4CM	15
TE-SEM-2	Pharmaceutical Care – Quality Use of Medicines B	PHA4PCB	15
TE-SEM-2	Pharmacy Honours Project B	PHA4HPB	25
TE-SEM-2	Pharmacy Practice and Management	PHA4PPM	15
TE-SEM-2	Pharmacy Practice and Advanced Counselling	PHA4PAC	15

Bachelor of Psychological Science (RBBS) – Bendigo

The Bachelor of Psychological Science is a coherent program of study in psychology that includes other units considered central to a broad education in behavioural science.

The course prepares students for careers in a range of settings including personnel, management and mental health and human services.

It is important to emphasise that the Bachelor of Psychological Science does not qualify a graduate to work as a psychologist. Further education, training and supervised experience is required for registration as a professional psychologist with the Psychologists' Registration Board of Victoria and also for membership of the Australian Psychological Society (APS).

Course structure

The Bachelor of Psychological Science is normally undertaken in three years of full-time study, but can be completed on a part-time basis. Students intending to study part-time should note that this means enrolling in a lesser workload, rather than studying after hours, as units are not available as evening classes.

The degree requires the completion of 360 credit points, consisting of 120 credit points accrued from units taken at each of the first, second and third year levels. An additional requirement is that students must successfully complete a minimum of 150 credit points of psychology units across the three years of the degree, with no less than 120 credit

points of psychology accrued from units at second and third year level.

Note that the four third year psychology units PSY3ANA, PSY3CDB, PSY3CFA and PSY3SCB (each worth 20 credit points) will be available in alternate years. PSY3CFA and PSY3SCB will be available in 2008 and PSY3ANA and PSY3CDB will be available in 2009.

Units taught by the School of Psychological Science and which normally are components of the degree are PSY1PYA, PSY1PYB, PSY1BNA, PSY1BNB, PSY2PYA, PSY2PYB, PSY3PYA, PSY3PYB, PSY3RSA and PSY3RSB.

(Full details of the units offered by the School of Psychological Science are available in the unit handbooks produced by the School in February of each year and the School website at www.latrobe.edu.au/psy).

First year (120 credit points)

Core units (75 credit points)

Teaching period	Unit title	Unit code	Credit points
TE-SEM-1	Psychology A	PSY1PYA	15
TE-SEM-2	Psychology B	PSY1PYB	15
TE-SEM-2 either	Statistical Methods	STA1STM	15
TE-SEM-1 and	Introduction to Behavioural Neuroscience A	PSY1BNA	15
TE-SEM-2 or	Introduction to Behavioural Neuroscience B	PSY1BNB	15

Any other first year biological science units totalling not less than 30 credit points

Electives (45 credit points)

At least 30 credit points must be chosen from units within the Faculty of Education, Law and Management, Humanities and Social Science, or Health Science. The remaining 15 credit points would normally be selected from other science units. However, with the approval of the course co-ordinator, students may choose units offered by other Faculties.

Second year (120 credit points)

Core units (40 credit points)

TE-SEM-1	Psychology A	PSY2PYA	20
TE-SEM-2	Psychology B	PSY2PYB	20

Electives (80 credit points)

Second/third year level units to the value of 80 credit points chosen from units offered by any department. Most second year units are worth 20 credit points but some are worth 15. Students will be required to complete at least 60 credit points per semester, which could mean the selection of more than two elective units. Students must not exceed 70 credit points per semester.

Highly Recommended units:

TE-SEM-1	Applied Neuroscience A ¹	PSY3ANA	20
TE-SEM-1	Counselling and Family Psychology A	PSY3CFA	20
TE-SEM-2	Cognitive and Developmental Psychology B ¹	PSY3CDB	20
TE-SEM-2	Social and Community Psychology B	PSY3SCB	20

Key ¹ Not available in 2008.

Third year (120 credit points)

Core units (80 credit points)

Teaching period	Unit title	Unit code	Credit points
TE-SEM-1	Psychology	PSY3PYA	20
TE-SEM-1	Research Project A	PSY3RSA	20
TE-SEM-2	Psychology	PSY3PYB	20
TE-SEM-2	Research Project B	PSY3RSB	20

Electives (40 credit points)

Students choose third year level units for which prerequisite requirements have been met

Highly Recommended units:

TE-SEM-1	Applied Neuroscience A ¹	PSY3ANA	20
TE-SEM-1	Counselling and Family Psychology A	PSY3CFA	20
TE-SEM-2	Cognitive and Developmental Psychology B ¹	PSY3CDB	20
TE-SEM-2	Social and Community Psychology B	PSY3SCB	20

Key: ¹ Not available in 2008.

Honours

Students who perform at a high standard may apply to undertake a further year of psychology study in Honours (PSY4HNA and PSY4HNB), which is a prerequisite for most postgraduate courses of study. Following the successful completion of the Honours years, these students will graduate with a Bachelor of Psychological Science (Honours). The Honours course is presently offered only at the Melbourne (Bundoora) campus although students from the Bendigo and Albury-Woodonga campus may apply.

Double degrees

Science Double Degree Program (SZSSB)

This double degree program is designed to allow academically able students to combine any two of the three year degrees offered by the Faculty of Science, Technology and Engineering. A course adviser will assist students in designing a program that will suit their individual interests. Provided that the core requirements for each degree are met, graduates will be awarded both selected degrees.

Eligible three year degrees offered by the Faculty are:

- Bachelor of Psychological Science
- Bachelor of Chemical Sciences
- Bachelor of Information Technology
- Bachelor of Science

Course Structure

This double degree is of four and a half years full-time or equivalent part-time duration and requires the completion of 540 credit points overall. Students may complete this double degree in four years as part of an accelerated study program. The maximum number of first year level credit points to be taken is 180 and the minimum number of third year level credit points required is 180. Normally the maximum load permitted in any one semester is 80 credit points. Students are required to complete the core requirements for each of the two degrees. For new students an adviser will be available at the enrolment session to plan their individual course structure.

Students who experience difficulties with the overloaded nature of the course may apply to transfer to either of the degrees.

Honours

Suitably qualified students may be eligible to undertake an Honours year, which will require an additional full-time or equivalent part-time year of study.

Bachelor of Applied Science/Bachelor of Business (RZASB) – Bendigo

This degree is being phased out. No new enrolments will be permitted. Please refer to the 2006 Handbook entry for full course details.

Bachelor of Applied Science/Bachelor of Computing (RZASC) – Bendigo

This degree is being phased out. No new enrolments will be permitted from 2008. Please refer to the entry for the Science Double Degree program.

This double degree program combines the Bachelor of Applied Science with the Bachelor of Computing. The course is taken over four years and enables students to undertake an in-depth study of both computing and a chosen discipline in applied science.

Industry-based learning

A limited number of scholarships are offered for students to undertake an industry-based learning component. Students who have completed three full years of study are eligible to apply. Each industry-based learning unit is undertaken full-time for half a year and is equivalent to two of the 24 units required for the degree to be awarded. Further details can be obtained from the industry-based learning coordinator.

Course structure

This double degree is of four and a half years full-time duration and requires the completion of 540 credit points overall. Students may complete this double degree in four years as part of an accelerated

study program. Students will undertake five units each semester in the first and second years of the course (150 credit points per year) and four units each semester in the third and fourth years of the course (120 credit points per year).

To qualify for admission to the degree of Bachelor of Applied Science via the double degree program a candidate must complete a minimum of 270 credit points from approved science units and fulfil the following requirements. When choosing the applied science units, students should use the schedules under the course outline for the single degree program of the Bachelor of Applied Science.

First year

All prerequisite units for second-and third year units must be completed.

Major and minor sequences

- At least one approved major sequence (not less than 90 credit points at second and third year level) must be satisfactorily completed.
- At least one approved minor sequence (not less than 60 credit points at second and third year level) must be completed.
- No units may be counted towards both the major and minor sequence, but the course coordinator may approve the substitution of one unit in a minor by a related unit.
- At least 75 credit points must be passed from third year level applied science units.
- Modern Analytical Techniques (SCI2/3MI): all students must complete this unit in the second, third or fourth year of their course.

First year (150 credit points)

Teaching period	Unit title	Unit code	Credit points
TE-SEM-1	Information Technology Fundamentals	CSE1ITF	15
TE-SEM-1	Programming Environment	CSE1PE	15
TE-SEM-2	Discrete Mathematics	MAT1DIS	15
TE-SEM-2	Information Systems	CSE1IS	15
TE-SEM-2	Object Oriented Programming Fundamentals	CSE1OOF	15
	Five applied science units		75

Second year (150 credit points)

Teaching period	Unit title	Unit code	Credit points
TE-SEM-1	Intermediate Object Oriented Programming	CSE1IOO	15
TE-SEM-1	Information Systems Development	CSE2ISD	15
	Six applied science units		90
	Two information technology units		30

Third year (120 credit points)

Teaching period	Unit title	Unit code	Credit points
	Three third year level applied science units		45
	Five third year level information technology units		75

Fourth year (120 credit points)

Teaching period	Unit title	Unit code	Credit points
TE-SEM-1	Professional Environment	CSE3PE	15
	Four third year level applied science units		60
	Three third year level information technology units		45

Other information technology units

Teaching period	Unit title	Unit code	Credit points
TE-SEM-1	Algorithms and Data Structures	CSE2ALG	15
TE-SEM-1	Computational Intelligence	CSE3CI	15
TE-SEM-1	Computer Networks	CSE2CN	15
TE-SEM-1	Emerging Topics in Information Technology	CSE3ETI	15
TE-SEM-1	Major Project Part 1	CSE3MP1	15
TE-SEM-1	Software Development Environments	CSE3SDE	15
TE-SEM-1	Web Engineering	CSE3WE	15
TE-SEM-1 or TE-SEM-2	Minor Project	CSE2MIP	15
TE-SEM-2	Data Communications	CSE3DC	15
TE-SEM-2	Database	CSE3DB	15
TE-SEM-2	Web Services	CSE3WS	15
TE-SEM-2	Information Systems Practice	CSE3ISP	15
TE-SEM-2	Major Project Part 2	CSE3MP2	15

TE-SEM-2	Object Oriented Application Development	CSE3OAD	15
TE-SEM-2	Software Engineering	CSE3SE	15
TE-SEM-2	Web Development	CSE2WD	15

Bachelor of Business/Bachelor of Information Technology (RZBC) – Bendigo

This double degree program combines the Bachelor of Business (all specialisations except information technology) with the Bachelor of Information Technology. The course enables students to undertake an in-depth study of information technology and one of economics, international business, business law, human resource management or marketing. Employers have indicated that there is a high demand for graduates with such expertise. Students should carefully check professional body requirements before finalising their course of study.

Course structure

This double degree is of four and a half years full-time duration and requires the completion of 540 credit points overall. Students may complete this double degree in four years as part of an accelerated study program. In order to be admitted to the two degrees, a total of 36 units of 15 credit points each for a total of 540 credit points and the individual requirements of each of the degrees must be achieved. The information technology major in the Bachelor of Business is not available in this double degree. Students should consult with the course coordinator for specific unit requirements for professional accreditation.

Industry-based learning

A limited number of scholarships are offered for students to undertake an industry-based learning component in the course. The program is normally available only to students who have completed three full years of study. Each industry-based learning unit is undertaken full-time for half a year and is equivalent to two units in the double degree program. Further details may be obtained from the industry-based learning coordinator.

Bachelor of Civil Engineering/Bachelor of Business (RZBE) – Bendigo

This double degree aims to produce multi-skilled graduates capable of applying a diverse range of knowledge and abilities to the analysis and solution of problems and decision-making and to provide a course of study that enables students to meet educational entry requirements of appropriate professional associations in engineering and business. This degree also aims to make available, especially to residents of central and northern Victoria, a qualification combining the strengths of a degree in civil engineering with specialised studies in recognised business disciplines.

Career opportunities

As well as the career opportunities associated with each of the single degrees, double degree graduates can access areas of employment that require expertise in both engineering and business. In addition, experience has shown that many engineers obtain work in management positions within a relatively short time of graduation. For these graduates the Bachelor of Business provides invaluable management expertise. Project management is a very important area of employment for engineers and requires a comprehensive understanding of the economic and human resource management aspects of tasks, in addition to the engineering requirements. These skills will be gained in the Bachelor of Business component of the course. Students should check carefully professional body requirements before finalising their course of study.

Course structure

This double degree is of five and a half years full-time duration and requires the completion of 690 credit points overall. Students may complete this double degree in five years as part of an accelerated study program. In order to be eligible for admission to the two degrees a student must have completed at least 46 units, each of 15 credit points, giving a total of 690 credit points. Generally students are encouraged to undertake five units in each semester of the first, second and third years and four units each semester in the fourth and

fifth years. This provides flexibility in course planning by allowing students to take extra units in the fourth and fifth years of the course if necessary. The regulations governing the separate degrees apply except where varied by the specific regulations for the double degree.

Bachelor of Civil Engineering

To be eligible for admission to the degree of Bachelor of Civil Engineering through the double degree, a student must have completed all of the compulsory units within the civil engineering course, except where these are superseded by studies at an equivalent or higher level within the business component of their program.

Bachelor of Business

Business major studies are permitted in economics, information technology and human resource management. To qualify for admission to the degree of Bachelor of Business via the double degree program, a candidate must pass business units having an aggregate value of not less than 270 credit points (18 units) and fulfil the following requirements:

- compulsory first year units: Accounting for Management Decisions, Management Information Systems, Microeconomics, Business Law, Macroeconomics, Foundations of Management, Introductory Statistics for Business and a first year unit of chosen major
- other first year units: seven additional first year engineering units from the first year list;
- second and third year: compulsory units as indicated for the major chosen (see the Bachelor of Business course outline and the Bachelor of Civil Engineering course outline elsewhere in this *Handbook*).

Honours and postgraduate study

Students are assessed for Honours according to the criteria for the single degree in engineering and business. Advanced postgraduate diplomas and higher degrees are available.

Bachelor of Civil Engineering/Bachelor of Science (RZCES) – Bendigo

This course combines studies in civil engineering with selected majors in science. The course aims to produce multi-skilled graduates capable of applying a diverse range of knowledge and abilities to the analysis and solution of problems and to decision-making, as well as to provide a course of study that enables students to meet the educational entry requirements of appropriate professional associations in engineering and science. This course also aims to make available, especially to residents of central and northern Victoria, a qualification combining the strengths of a degree in civil engineering with specialised studies in recognised science disciplines.

Career opportunities

As well as career opportunities associated with each of the single degrees, double degree graduates will be able to access areas of employment that require expertise in both civil engineering and science.

Course structure

This double degree is of five and a half years full-time duration and requires the completion of 630 credit points overall. Students may complete this double degree in five years as part of an accelerated study program. In order to be eligible for admission to the two degrees, a student must have completed at least 42 units, each of 15 credit points, giving a total of 630 credit points. Students will be encouraged to undertake five units in each semester in the first year (150 credit points) and four units each semester in later years (120 credit points per year). This provides flexibility in course planning by allowing students to take extra units in the fourth and fifth years of the course if necessary. The regulations governing the separate degrees apply except where varied by the specific regulations for the double degree.

Bachelor of Civil Engineering

To be eligible for admission to the degree of Bachelor of civil engineering through the double degree a student must have completed all of the compulsory units within the civil engineering course, except where these are superseded by studies at an equivalent or higher level within the science component of their program.

Bachelor of Science

The areas of study available are biochemistry, biomedical sciences, biotechnology, chemistry, information technology, physics (first year only), mathematics and statistics and psychology.

To qualify for admission to the degree of Bachelor of Science through the double degree, a candidate must fulfil the following requirements:

First year

Students must choose units at first year level that will lead to the study of a single science discipline of 60 credit points at third year level.

Second year

Students choose 60 credit points from units offered by the Faculty of Science, Technology and Engineering that should include 45 credit points from one area of study.

Third year

Students choose units to the value of 60 credit points in one of the areas of study, with the remaining credit points selected from third year.

- At least one approved major sequence must be satisfactorily completed.
- For unit selection students should refer to the Bachelor of civil engineering course structure and the information set out for the Bachelor of Science majors. Further information is available from the course coordinators.

Honours and postgraduate study

Students are assessed for Honours according to the criteria for the single degree in science or engineering. Advanced postgraduate diplomas and Masters degrees as well as PhD studies are available.

Bachelor of Commerce/Bachelor of Information Technology (SZCITB) – Bendigo

This double degree program combines the Bachelor of Commerce with the Bachelor of Information Technology and is designed to meet the needs of industry by providing graduates with professional accreditation in Accounting and Information Technology. Students will have vocational choices in both discipline areas as well as options that require expertise in both areas.

Career Opportunities

Graduates of this double degree program will gain the benefits of accreditation associated with the single degree programs. The globally accredited accounting firms (CPA Australia and the Institute of Chartered Accountants). Have clearly indicated their desire to employ graduates who have both accounting and information technology qualifications. Graduates typically take up computer system management/auditing positions and often quickly progress to leadership positions within these organisations.

Industry-based learning

A limited number of scholarships are offered for students to undertake an industry-based learning component. Students who have completed three full years of study are eligible to apply. Each industry-based learning unit is undertaken full-time for half a year and is equivalent to two of the units required for the degree to be awarded. Further details may be obtained from the industry-based learning coordinator.

Course Structure

This double degree is a four and a half year full-time or equivalent part-time duration course and requires the completion of 540 credit points overall. Students may complete this double degree in four years as part of an accelerated study program. As part of the accelerated study program students will normally take five units in the first semester and four units in the second semester in all years of the course

The course comprises 36 units in total and contains the required components of each degree within the structure of the course with each component requiring 18 units. Each unit is valued at 15 credit points and students undertaking the accelerated study program will accumulate 135 credit points (nine units) each year.

The Commerce component of the course is made up of seven core

business units, eight specialist commerce units and three elective School of Business units. The Information Technology component is made up of nine core IT units, seven elective IT units and two elective units from IT or other discipline.

Elective units

All elective units must be approved by the course coordinator and are normally chosen from units available on the Bendigo Campus. School of Business units will be chosen from the various business disciplines, for example marketing, human resource management or economics. information technology or computer science units may be chosen and normally non-information technology units will be chosen from other disciplines including Business.

First year (135 credit points)

Teaching period	Unit title	Unit code	Credit points
TE-SEM-1	Business Law	LST1BSL	15
TE-SEM-1	Accounting for Management Decisions	ACC1AMD	15
TE-SEM-1	Microeconomics	ECO1IMI	15
TE-SEM-1	Information Technology Fundamentals	CSE1ITF	15
TE-SEM-1	Programming Environment	CSE1PE	15
TE-SEM-2	Macroeconomics	ECO1IMA	15
TE-SEM-2	Introductory Financial Accounting	ACC1IFA	15
TE-SEM-2	Information Systems	CSE1IS	15
TE-SEM-2	Object Oriented Programming Fundamentals	CSE1OOF	15

Second year (135 credit points)

TE-SEM-1	Introductory Management Accounting	ACC2IMA	15
TE-SEM-1	Corporate Reporting	ACC2CRE	15
TE-SEM-1	Information Systems Development	CSE2ISD	15
TE-SEM-1	Intermediate Object Oriented Programming	CSE1IOO	15
TE-SEM-1	Computer Networks	CSE2CN	15
TE-SEM-2	Intermediate Management Accounting	ACC2IMB	15

Fourth year (135 credit points)

TE-SEM-1	Two third year level School of Business units		30
TE-SEM-1	Two third year level information technology units		30
TE-SEM-1	Third year level information technology unit or non-information technology unit		15
TE-SEM-2	Third year level School of Business unit		15
TE-SEM-2	Professional Environment	CSE3PE	15
TE-SEM-2	Third year level information technology unit		15
TE-SEM-2	Third year level information technology or non-information technology unit		15

Bachelor of Civil Engineering/Bachelor of Applied Science (RZASE) – Bendigo

This degree is being phased out. No new enrolments will be permitted from 2008. Please refer to the 2007 Handbook entry for full course details.

This course combines studies in civil engineering with selected majors in applied science. The course aims to produce multi-skilled graduates capable of applying a diverse range of knowledge and abilities to the analysis and solution of problems and to decision-making, as well as to provide a course of study that enables students to meet the educational entry requirements of appropriate professional associations in engineering and science. This course also aims to make available, especially to residents of central and northern Victoria, a qualification combining the strengths of a degree in civil engineering with specialised studies in recognised science disciplines.

Career opportunities

Double degree graduates will be able to pursue their studies in a wide range of scientific disciplines.

Course structure

This double degree is of five and a half years full-time duration and requires the completion of 690 credit points overall. Students may complete this double degree in five years as part of an accelerated study program. In order to be eligible for admission to the two degrees, a student must have completed at least 46 units, each of 15 credit points, giving a total of 690 credit points. Students will be encouraged to undertake five units in each semester in the first, second and third years (150 credit points per year) and four units each semester in the fourth and fifth years (120 credit points per year). This provides flexibility in course planning by allowing students to take extra units in the fourth and fifth years of the course if necessary. The regulations governing the separate degrees apply except where varied by the specific regulations for the double degree.

Bachelor of Civil Engineering

To be eligible for admission to the degree of Bachelor of civil engineering through the double degree a student must have completed all of the compulsory units within the civil engineering course, except where these are superseded by studies at an equivalent or higher level within the science component of their program.

Bachelor of Applied Science

To qualify for admission to the degree of Bachelor of Applied Science via the double degree program a candidate must complete a minimum of 270 credit points from approved science units and fulfil the following requirements.

First year

All prerequisite units for second and third year units must be completed.

Major and minor sequences

- At least one approved major sequence (not less than 90 credit points at second and third year level) must be satisfactorily completed.
- At least one approved minor sequence (not less than 60 credit points at second-and third year level) must be completed.
- No unit may be counted towards both the major and minor sequence but the course coordinator may approve the substitution of one unit in a minor by a related unit.
- At least 75 credit points must be passed from third year level applied science units.
- Modern Analytical Techniques (SCI2/3MI): all students must complete this unit in the second, third or fourth year of their course.
- For unit selection students should refer to the Bachelor of civil engineering course structure and the information set out for the Bachelor of Applied Science major and minors. Further information is available from the course administrators.

Honours and postgraduate study

Students are assessed for Honours according to the criteria for the single degree in science or engineering. Advanced postgraduate diplomas and Masters degrees as well as PhD studies are available.

Bachelor of Science/Bachelor of Commerce (SZSCB) – Bendigo

This double degree program provides the opportunity for students to undertake major studies in any area of science offered by the Faculty, while at the same time completing studies in commerce leading to accreditation with CPA Australia and the Institute of Chartered Accounts. Depending on the choice of science units, accreditation with the relevant science professional association is also possible.

Course structure

This double degree is of four and a half years full-time or equivalent part-time duration and requires the completion of 540 credit points overall. Students may complete this double degree in four years as part of an accelerated study program. To complete this double degree, students must complete the core requirements of each of the two chosen degrees. 270 credits points are required for the Bachelor of

Commerce and 240 credit points are required for the Bachelor of Science. Of the science units, generally 75 credit points will be required at first and second year level with 90 credit points required at third year level. 30 credit points of free electives are permitted. To satisfy the requirements for the Bachelor of Science/Bachelor of Commerce program, a student must complete the following units.

First year (135 credit points)

Teaching period	Unit title	Unit code	Credit points
TE-SEM-1	Accounting for Management Decisions	ACC1AMD	15
TE-SEM-1 or TE-SEM-2	Introductory Statistics for Business	ECO1ISB	15
TE-SEM-1 or TE-SEM-2	Macroeconomics	ECO1IMA	15
TE-SEM-1 or TE-SEM-2	Microeconomics	ECO1IMI	15
TE-SEM-1 or TE-SEM-2	Management Information Systems	BUS1MIS	15
TE-SEM-2	Introductory Financial Accounting	ACC1IFA	15
First year level science units			45

Second year (130-135 credit points)

Teaching period	Unit title	Unit code	Credit points
TE-SEM-1 or TE-SEM-2	Foundations of Management	MGT1FOM	15
TE-SEM-1 or TE-SEM-2	Business Law	LST1BSL	15
TE-SEM-1 or TE-SEM-2	Introductory Management Accounting	ACC2IMA	15
TE-SEM-2	Law of Business Association	LST2LBA	15
First year level science units			30
Second year level science units			40-45

Third year (135-150 credit points)

Teaching period	Unit title	Unit code	Credit points
TE-SEM-1 or TE-SEM-2	Business Finance	ACC3BF	15
TE-SEM-1 or TE-SEM-2	Corporate Reporting	ACC2CRE	15
TE-SEM-1 or TE-SEM-2	Intermediate Management Accounting	ACC2IMB	15
Second year level Business elective**			15
Second year level science units			30-45
Third year level science units			30-45

Fourth year (135-150 credit points)

Teaching period	Unit title	Unit code	Credit points
TE-SEM-1 or TE-SEM-2	Auditing	ACC3AUD	15
TE-SEM-1 or TE-SEM-2	Taxation	ACC3TAX	15
TE-SEM-1 or TE-SEM-2	Advanced Financial Accounting	ACC3AFA	15
Third year level business elective**			15
Third year level science units, a total of 90 credit points at third year level is required.			50-60
Free electives			30

** 16 compulsory accounting units make up the core of the Bachelor of Commerce and Auditing and Taxation are part of these prescribed units. One of these can also be taken in the third year of the program.

The order in which students take the units may vary and depend on individual programs and offerings in any one year.

Honours and postgraduate study

Students are assessed for Honours according to the criteria for the single degree in science and business. Advanced postgraduate diplomas and higher degrees are available.

Bachelor of Science/Bachelor of Science Education (SZSSEB) – Bendigo

This innovative double degree has been developed in response to the Federal Government's 'Innovation Statement' and aims to integrate full science degree studies with a complete teaching qualification,

with a particular emphasis on mathematics, statistics (taught as part of mathematics in secondary schools), physics, chemistry and/or information technology. Graduates of this double degree will have a deepened understanding of their teaching units and will be equipped to adapt their teaching to engage with the needs of their teaching settings, including their own students and the nature of the areas of knowledge and behaviour that constitute the discipline. In this program, emphasis is placed on the teacher's ability to adapt teaching to continual changing circumstances while fostering deep understanding of relevant areas of scientific disciplines.

Please note: students must undertake a 'Working with Children' check form, available from Australia Post offices. Students must provide a certified copy of their valid 'Working with Children' card, prior to undertaking teaching placements in schools.

Course structure

This double degree is of four and a half years full-time or equivalent part-time duration and requires the completion of 540 credit points overall. Students may complete this double degree in four years as part of an accelerated study program.

Students will gain a foundation in science in the first year. Combined studies in science and education will commence in the second year and continue during the third year. Two science disciplines must be studied through to third year: the major discipline comprising units to the value of 60 credit points in the third year and the minor discipline, 30 credit points. The major discipline must be one of mathematics, statistics, physics, chemistry, or information technology. The minor discipline may also be chosen from among the major discipline areas or from any other science discipline offered by the Faculty of Science, Technology and Engineering. The science disciplines are those defined for the Bachelor of Science degree. The final year will consist of full teacher training, including the practicum requirement and will include a combined science and education project. Normally, students would be expected to have satisfactorily completed all of the requirements for the first three years before progressing to the fourth year.

Note:

- Your unit choices at first and second year must ensure that one of mathematics, physics, chemistry, statistics, or information technology can be taken as a major at third year level. Physics is available as a minor discipline only at Bendigo.
- Note that students taking physics or computer science may need to transfer to the Bundoora campus for the second and third year levels of their degree.
- Note also that the major and the minor cannot be both mathematics and statistics as double mathematics method is not offered in Education.
- You will be qualified to teach units corresponding to your chosen major and minor disciplines but not units corresponding to your terminating first year science discipline. If you major or minor in physics or chemistry, you will also be qualified to teach secondary school general science. As general science also covers biology, such students should consider taking a first year biology unit as a first year level elective.
- The research project must relate to science education or mathematics education.
- All units must be chosen in consultation with and approved by, the course coordinator
- In some cases core education units might not be available on the Bendigo Campus. In which case, equivalent units will be offered.

First year (120 credit points)

30 credit points in each of three different science disciplines (with regard to the above requirement)	90
first year level electives (Education units excluded)	30

Note: the maximum number of credit points in any one science discipline is 45.

Second year (140 credit points)

at least 40 credit points in each of two different science disciplines	80
up to 20 credit points second year level elective(s) (chosen from any discipline and which may be a further science or education unit)	20
TE-SEM-1 Teaching Practice A	EDU2TPA 20
TE-SEM-1 Science and Technology in Contemporary Society	EDU5STC 20

Third year (140 credit points)

TE-SEM-1 or TE-SEM-2	Science Education Mentoring	EDU3SEM	10
60 credit points chosen from one of the following disciplines: mathematics, physics, chemistry, statistics, computer science or information technology			
30 credit points chosen from a single science discipline (which differs from that already chosen as the major discipline)			
TE-SEM-S	Issues in Education	EDU4IIE	20
TE-SEM-2	Teaching Practice B	EDU3TPB	20

Fourth year (140 credit points)

TE-SEM-1	Context of Learning	EDU4COL	20
TE-SEM-1	Teaching Practice and Skills	EDU4TPS	20
TE-SEM-1 or TE-SEM-2	Research Practicum 1	EDU4RP	20
TE-SEM-2	Issues in Secondary Education	EDU4SEI	20
TE-SEM-2	Teaching Practice and Models	EDU4TPM	20

Plus two method units to be chosen from the following list:

TE-SEM-1 and TE-SEM-2	Chemistry Teaching Method A	EDU4CHA	10
TE-SEM-1 and TE-SEM-2	Chemistry Teaching Method B	EDU4CHB	10
TE-SEM-1 and TE-SEM-2	IT Teaching Method A	EDU4ITA	10
TE-SEM-1 and TE-SEM-2	IT Teaching Method B	EDU4ITB	10
TE-SEM-1 and TE-SEM-2	Mathematics Teaching Method A	EDU4MAA	10
TE-SEM-1 and TE-SEM-2	Mathematics Teaching Method B	EDU4MAB	10
TE-SEM-1 and TE-SEM-2	Physics Teaching Method A	EDU4PHA	10
TE-SEM-1 and TE-SEM-2	Physics Teaching Method B	EDU4PHB	10
TE-SEM-1 and TE-SEM-2	Science Teaching Method A	EDU4SCA	10
TE-SEM-1 and TE-SEM-2	Science Teaching Method B	EDU4SCB	10

Elective units may be chosen from the newly accredited Bachelor of Education course, the Graduate Diploma of Technology Education or the Graduate Diploma of Special Education. Electives should be chosen in consultation with the appropriate course administrator in the School of Education.

Honours degrees**Bachelor of Applied Science (Honours) (RHAS) – Bendigo**

The Bachelor of Applied Science (Honours) provides specialised education in selected fields of science and introduces students to the principles and practices of research in preparation for postgraduate study or advanced professional employment. Honours programs may be taken in biological sciences, chemistry, environmental science and geology. Many employers of scientists in high-level positions prefer Honours graduates because of their intensive training, especially in research skills. Honours degrees are the normal entry requirement for postgraduate research study and the basis for competition for postgraduate research scholarships.

Admission requirements

A pass degree (three year) Bachelor of Applied Science or equivalent in an appropriate discipline with a high standard of achievement, especially in the final year, is required. Normally students will not be permitted to enrol more than two years after completing a pass degree.

Course structure

The course consists of an individual research project and advanced coursework. The research component is weighted at 65 percent of the total program. It is conducted under the supervision of one or more members of the academic staff. The student is required to submit a written report and to give at least one seminar presentation on the research project. The coursework comprises lecture series or directed reading programs on specialist topics in the discipline and a common unit on the management of research programs. Some coursework units may be shared with science Honours courses in other institutions. This course is valued at 120 credit points.

Bachelor of Information Technology (Honours) (RHC) – Bendigo

This course provides specialised education in computing to the recent graduate in Information Technology. It introduces students to the principles and practices of research, in preparation for postgraduate study or advanced professional employment.

Admission requirements

Applicants must have completed a degree in computing with a high standard of achievement, especially in the final year. Normally students are not permitted to enrol for an Honours degree later than the end of the second year after completing the pass degree. A school Honours Committee determines admissions and individual programs before enrolment.

Course structure

This is a one year full-time or two year part-time course. It consists of:

- Two fourth/fifth year level coursework units in computing. The availability of given units depends on demand. Early negotiation with the course coordinator/Honours Committee is recommended. Equivalent units at Melbourne (Bundoora), other universities, or from commercial courses may also be considered for credit in this category.
- A research methods unit.
- An independent research project leading to a dissertation, CSE4HTA/CSE4HTB, equivalent to five units.

The course is valued at 120 credit points.

Bachelor of Engineering (Civil) with Honours (RHE) – Bendigo

The degree is awarded with Honours to those students who achieve sufficiently high overall grades in their final year of the Bachelor of Engineering (Civil).

Bachelor of Pharmacy with Honours (RHP) – Bendigo

Students who achieve a high academic standard may be invited to participate in the Honours program. Honours candidates undertake 135 credit points in the fourth year, enrolling in the unit Pharmacy Honours Project (45 credit points) in place of either Pharmaceutical Biotechnology or Complementary Medicines in semester 1 and the elective unit in semester 2.

BIO1AE AUSTRALIAN ENVIRONMENTS (15 CPs Sem. TE-SEM-1 BE.) *Dr Lesley Hodgson, Mr Neville Rosengren, Dr Sabine Wilkens*
Not available in 2008

BIO1CO BIOLOGY OF THE CELL AND ORGANISM (15. CPs Sem. TE-SEM-1 BE.) *Dr Sabine Wilkens*

In this unit students are introduced to biology by discussing units of ever increasing size and complexity; from molecules and cells to tissues and organs in plants and animals and how these units cooperate in the whole organism. Topics covered in lectures include cell and molecular biology, structure and function of animal and plants, Mendelian genetics as well as biological principles. The practical component will focus on biological observation, recording skills and data interpretation and introduce a number of biological disciplines (microscopy, microbiology, biochemistry and physiology). *Class requirements:* 3 hours lectures, 2 hours of combined practical/tutorial work per week.

Assessment: 2-hour examination (50%), laboratory work (30%).

Hurdle requirement of 70% minimum attendance at prac classes. Seven practicals are assessed (five biological drawings; one poster report of an experiment; one standard scientific report – up to 500 words), Two 500-word assignments (20%)

Prescribed Reading:

Raven, PH, Johnson, GB, Losos, JB and Singer, SR. (2005) *Biology* 7th edn. Sydney: McGraw Hill

BIO100S ORGANS AND ORGAN SYSTEMS (15. CPs Sem. TE-SEM-2 BE.) *Dr Michelle Gibson*

In this unit students are introduced to the functional biology of organs and organ systems, focusing on human and mammalian systems. Integration and coordination of function, maintenance of homeostasis and adaptation to environmental stressors are included. The ultra structural, microscopic and histological structure of organs and organ systems found in mammals and humans will be explored. The practical component of this unit acquaints students with a variety of

biological and histological techniques, encourages critical thinking and analysis of data, reinforces the need for accuracy in recording observations and ultimately aims to illustrate the scientific principles underpinning the disciplines of biology and histology.

Prerequisite: BIO1CO.

Class requirements: Three 1-hour lectures and 3 hours of practical/tutorial work per week.

Assessment: 2-hour examination (50%), 1000-word essay (15%), presentation/interview (equivalent 500 words) (10%). Students are required to undertake six (6) physiology practicals to adequately prepare for this assessment, histology practical reports (approx 1000 words) (25%). Students are required to undertake 11 histology practical reports, each comprising 5 questions.

Prescribed Reading:

Widmaier, EP, Raff, H and Strang, KT. (2004) *Vander, Sherman and Luciano's Human Physiology: Mechanisms of Body Function*, 9th edn. McGraw Hill: New York

BIO2BMO BIOMOLECULES (15. CPs Sem. TE-SEM-1 BE.) *Dr Ian Swift*

In this unit students will study the structure and function of the basic classes of biological molecules, enzymes (including mechanisms and rate equations of catalysis), interactions between molecules, the flow of energy and matter (from cell to biosphere), cells and cell constituents (microbial, plant and animal cells) and basic biochemical techniques.

Prerequisite: BIO1CO or BIO1LS1 plus one of CHE1GE2, CHE1C1A, CHE1C1B

Class requirements: Two 1-hour lectures per week, plus eight 2-hour practicals and ten 1-hour tutorials spread across the semester.

Assessment: 2-hour examination (60%), laboratory work (20%), 1500-word assignment (20%).

Prescribed Reading:

Matthews, CK, van Holde, KE and Ahern, KG. (1999) *Biochemistry* 3rd edn. Addison Wesley Longman.

BIO2BPC BIOCHEMISTRY FOR PHARMACY (15 CPs Sem. TE-SEM-2 BE.) *Dr Ian Swift*

This unit will introduce the structure and function of the basic classes of biological molecules, rate equations of catalysis, enzyme kinetics and allosteric control. Students will study the pathways by which various biological molecules are degraded within the cell to release energy, or synthesised from smaller molecules. Emphasis is on the integration and regulation of the pathways. The practical course will consolidate basic biochemical techniques and introduce formal report writing.

Prerequisite: BIO1CO and CHE2PHC, or approval of the course coordinator.

Incompatible unit: BIO2BMO, BIO2IMM

Class requirements: Three 1-hour lectures and three hours of practical classes, tutorial work and directed learning per week.

Assessment: 3-hour examination (60%), practical reports (40%)

Prescribed Reading:

Boyer, Rodney *Concepts in biochemistry* 2nd edn. Pacific Grove, California: Brooks/Cole Thomson Learning

BIO2CES EXCITABLE CELLS AND ENDOCRINE SYSTEMS (15. CPs Sem. TE-SEM-1 BE.) *Dr Meeuwis Boelen*

Regulation and integration with the aim to conceptualise control systems in biology. Operation of the nervous system at the molecular and cell level. Principles of endocrine control. Introduction to muscle physiology at the molecular and cell level. Contents will include: membranes, membrane transport and membrane potential; action potential; cells and functional anatomy of the nervous system; nerve impulse transmission and pharmacology; sensory and motor systems; excitation-contraction coupling in muscle cells; autonomic and endocrine function, illustrated on glucose homeostasis and sex hormones; reproduction and development. The practical component will introduce the use of physiological equipment and animal experimentation ethical considerations.

Prerequisite: BIO1CO or HBS1LS1 or approval of the Course coordinator.

Class requirements: Two hours of lectures and two hours of practical and tutorial work per week.

Assessment: 3-hour examination (65%), 2000-word assignment (20%), practical interview (15%)

Prescribed Reading:

Widmaier, E.P, Raff, H and Strang, K.T. 2004 *Vander, Sherman and Luciano's Human Physiology 9th Ed* McGraw Hill: Boston

BIO2ECO ECOLOGY (15. CPs Sem. TE-SEM-1 BE.) *Dr Sabine Wilkens*

A study of environmental factors and their effects on organisms; evolution and adaptation; properties of populations: interactions between organisms, including: competition and predator-prey relationships; terrestrial, fresh water and marine environments and their conservation.

Prerequisite: OED1RAL or BIO1CO or BIO1AE or approval of unit coordinator.

Class requirements: Three 1-hour lectures per week; eight 2-hour and three 3-hour practical classes. An average of five hours per week per semester.

Assessment: 2-hour examination (50%), six practical reports (an average 250 words each including one poster) (30%). Students must attend a minimum of 70% of time allotted to practical classes. One oral presentation (10 minutes) (20%)

Prescribed Reading:

Attiwill, P and Wilson, B. (2006) *Ecology: An Australian Perspective* 2nd edn. Melbourne: Oxford

BIO2IAI INFECTION AND IMMUNITY (15. CPs Sem. TE-SEM-2 BE.) *Dr Michelle Gibson*

May be delivered in intensive study block mode.

In this unit students are introduced to the relationships between micro-organisms and humans. Topics include infection prevention and control in hospitals and the community, public health issues, micro-organisms as commensals, opportunistic pathogens and pathogens on the human host, the biological and immunological consequences of societal organisation, stress, low immunisation rates, antibiotic resistance, marginalised communities and malnutrition. A range of common pathogens are selected to illustrate the principles of disease transmission, nosocomial infections, specimen handling and collection and epidemiology.

Class requirements: Three 1-hour lectures and one 1-hour tutorial per week.

Assessment: One 2-hour examination (50%), one 1750-word essay (50%)

Preliminary Reading:

To be advised in first class

BIO2IMB INTRODUCTION TO MICROBIOLOGY (15. CPs Sem. TE-SEM-1 BE.) *Dr Daniel Tillett*

Students are introduced to the structure and function of microbes including viruses, bacteria, fungi, protozoa and algae with an emphasis on morphological diversity. An introduction to the physiological basis of growth of microbes, methods for estimating growth and chemical and physical influences on growth. The practical course aims to teach basic microbiological techniques while illustrating material presented in lectures.

Prerequisite: BIO1CO or BIO1LS1.

Class requirements: Three hours of lectures/tutorials and three hours of practical classes per week.

Assessment: 3-hour examination (60%), practical assessment (40%)

Prescribed Reading:

Madigan, MT, Martinko, J and Parker, J. (1997) *Brook Biology of Micro organisms* 8th edn. Prentice-Hall, London.

BIO2IMM INTERMEDIARY METABOLISM (15. CPs Sem. TE-SEM-2 BE.) *Dr Ian Swift*

In this unit students will study the pathways by which various biological molecules are degraded within the cell to release energy, or synthesised from smaller molecules. Emphasis is on integration and regulation of the pathways, ATP generation, substrate-level phosphorylation (fermentation) and electron transport coupled phosphorylation (anaerobic and aerobic). Diversity of carbon-capture

(hetero-, auto- and mixotrophs) and diversity in energy sources (chemo- and phototrophs) are also studied, as well as subcellular specialisation and metabolic coordination in multicellular organisms. The practical component aims to consolidate basic biochemical skills and will introduce formal report writing.

Prerequisite: BIO2BMO.

Class requirements: Two 1-hour lectures and one 3-hour practical/tutorial session per week.

Assessment: 2-hour examination (60%), practical work and reports (20%), 1500-word assignment (20%)

Prescribed Reading:

Matthews, CK, van Holde, KE and Ahern, KG. (1999) *Biochemistry* 3rd edn. Addison Wesley Longman.

BIO2MES MICROBIAL ECOLOGY AND SYSTEMATICS (15. CPs Sem. TE-SEM-2 BE.) *Professor Robert Seviour*

In this unit students will learn how micro-organisms interact with living and non-living environments (including plants, animals and other micro-organisms), how micro-organisms (especially bacteria) are classified and identified, how to apply modern molecular techniques in ecology and taxonomy and the basics of bacterial genetics. The practical component teaches more advanced microbiological techniques and is strongly linked to the material covered in lectures.

Prerequisite: BIO2IMB.

Class requirements: Three hours of lectures/tutorials and two hours of practical classes per week.

Assessment: 3-hour examination (60%), practical assessment (40%)

Prescribed Reading:

Madigan, MT, Martinko, J and Parker, J. (1997) *Brock Biology of Micro organisms* 8th edn. Prentice-Hall, London.

BIO2OAE OXYGENATION AND EXERCISE (15. CPs Sem. TE-SEM-1 BE.) *Dr Michelle Gibson*

In this unit students examine respiratory control, cardiovascular regulation and hemodynamics (including smooth muscle function) associated with tissue perfusion and oxygenation under resting and exercise conditions. Muscle (skeletal and cardiac) physiology is investigated with respect to changes in muscle function with exercise and training, including the development of fatigue, metabolic shifts and alterations in substrate utilization.

Prerequisite: BIO11CO.

Class requirements: Three 1-hour lectures and one 3-hour practical class per week.

Assessment: One 2-hour examination (60%), presentation/interview (equivalent 1000 words) (15%). Students are also required to satisfactorily complete six (6) pieces of assigned practical work, one 1500-word essay (25%)

Prescribed Reading:

Berne, RM, Levy, MN, Koeppen, B.M and Stanton, BA. (2004) *Physiology* 5th edn. Mosby: St Louis

BIO2OOS ORGANS AND ORGAN SYSTEMS (15. CPs Sem. TE-SEM-2 BE.)

Dr Michelle Gibson

In this unit students are introduced to the functional biology of organs and organ systems, focusing on human and mammalian systems. Integration and coordination of function, maintenance of homeostasis and adaptation to environmental stressors are included. The ultra structural, microscopic and histological structure of organs and organ systems found in mammals and humans will be explored. The practical component of this unit acquaints students with a variety of biological and histological techniques, encourages critical thinking and analysis of data, reinforces the need for accuracy in recording observations and ultimately aims to illustrate the scientific principles underpinning the disciplines of biology and histology.

Prerequisite: BIO1CO.

Class requirements: Three 1-hour lectures and 3 hours of practical/tutorial work per week.

Assessment: 2-hour examination (50%), 1000-word essay (15%), presentation/interview (equivalent 500 words) (10%). Students are required to undertake six (6) physiology practicals to adequately prepare for this assessment, histology practical reports (approx 1000

words) (25%). Students are required to undertake 11 histology practical reports, each comprising five questions.

Prescribed Reading:

Widmaier, EP, Raff, H and Strang, KT. (2004) *Vander, Sherman and Luciano's Human Physiology: Mechanisms of Body Function*, 9th edn. McGraw Hill: New York

BIO2PE PLANT ECOLOGY (15. CPs Sem. TE-SEM-2 BE.) *Dr Sabine Wilkens*

In this unit, students are given an appreciation of the characteristics of Australian plants, how they function in their environment of poor soils, aridity, salinity and fire; and how they interact with other organisms through pollination, fruit dispersal and herbivory. Designing and carrying out ecological experiments to measure plant-animal interactions are integral parts of the practical component, as well as developing skills in identification, observation and drawing.

Prerequisite: OED1RAL or BIO1CO or BIO1AE or approval of the unit coordinator.

Class requirements: Two 1-hour lectures per week; ten 3-hour practical classes, nine 1-hour video sessions per semester.

Assessment: One 2-hour examination (50%), five practical reports (total equiv 1500 words) (30%). Students must attend a minimum of 70% of the practical component in order to pass the subject. One 1000-word essay (20%)

Prescribed Reading:

King, J. (1997) *Reaching for the Sun* Cambridge University Press

BIO3ABT APPLICATIONS OF BIOTECHNOLOGY (15. CPs Sem. TE-SEM-2 BE.) *Professor Robert Seviour*

Overproduction of primary and secondary metabolites by microbes, animal and plant biotechnology, immobilised systems of industrial importance, environmental biotechnology and the exploitation of microbes for pollution control are a few of the topics covered in this unit.

Prerequisite: BIO3MBT.

Class requirements: Three 1-hour lectures and one 3-hour practical class per week.

Assessment: 3-hour examination (60%), practical work (40%)

BIO3BMB BRAIN, MIND AND BEHAVIOUR (15. CPs Sem. TE-SEM-2 BE.)

Dr Meeuwis Boelen

In this unit students will explore contemporary neurophysiology, with the emphasis on the process of experimental discovery. The unit will cover functional anatomy of the brain and neural imaging, synaptic integration, computational characteristics of neuronal circuits, information processing in the visual system and higher functions such as sleep, learning, memory and movement control. Disorders of higher functions and pharmacological developments to remedy these will be considered. The practical component aims to complement the theory and consolidate experimental skills. Class discussion on current topics and controversies in neuroscience will be delivered from a multidisciplinary perspective.

Prerequisite: BIO2CES or approval of the course coordinator.

Incompatible unit: PSY3BSB

Class requirements: Two 1-hour lecture per week and 39 hours of practical classes/tutorial work, spread throughout the semester.

Assessment: 3-hour examination (60%), 1000-word essay (25%), practical interview (15%). The practical interview is ten minutes in duration. Students are questioned on the practical of their choice. Assessors then choose another practical and question the student.

Rang, HP, Dale, MM. Ritter, JM and Moore, PK. *Pharmacology* 5th edn. Churchill Livingstone 2003

BIO3CBC CLINICAL BIOCHEMISTRY (15. CPs Sem. TE-SEM-1 BE.) *Dr Ian Swift*

Topics include enzyme kinetics, advanced Michaelis-Menten and cooperative application of kinetics to assays of enzymic activity, including clinical biochemistry, serum components, enzymes, proteins, lipoproteins and other components of diagnostic interest such as bilirubin, sugars, minerals and gases.

Prerequisite: BIO2IMM.

Class requirements: Three 1-hour lectures and one 3-hour practical/workshop class per week.

Assessment: 3-hour examination (60%), one 1000-word assignment (20%), laboratory work (20%)

Prescribed Reading:

Mathews, CK, van Holde, KE and Ahern, KG. *Biochemistry* 3rd edn. Addison Wesley Longman. (1999)

BIO3CBH CLINICAL BIOCHEMISTRY AND CLINICAL HAEMATOLOGY

(15 CPs Sem. TE-SEM-1 BE.) *Dr Christopher Bradley*

Topics include blood cell morphology in the normal physiological state and disease; full blood examination (FBE); haemoglobinopathies; drug-induced blood dyscrasias; introduction to blood group serology. The clinical biochemistry component encompasses serum components, enzymes, proteins, lipoproteins and other components of diagnostic interest such as bilirubin, sugars, minerals and gases.

Prerequisite: BIO2BPC.

Incompatible unit: BIO3CBC

Class requirements: 34 one-hour lectures plus 12 two-hour workshops per semester.

Assessment: 3-hour examination (60%), Group presentation (5 minutes/person) (10%), individual presentation (10 minutes) (15%), one 500-word assignment (15%)

Prescribed Reading:

Hoffbrand, AV, Pettit, JE and Moss PAH, 2001 *Essential Haematology* 4th edn. Blackwell Scientific Publications

BIO3CHI CLINICAL HAEMATOLOGY AND IMMUNOLOGY (15 CPs Sem.

TE-SEM-2 BE.) *Dr Chris Bradley*

The purpose of this unit is to introduce students to the normal physiological processes and the pathology of diseases within the fields of haematology and immunology. Emphasis will be on common diseases as opposed to rare syndromes and on the laboratory tests used in the diagnosis of these diseases. Upon successful completion of the unit, students should be able to interpret abnormal morphology in a blood film, carry out the essential laboratory tests used to diagnose disorders of haemoglobin and of coagulation, perform essential blood banking procedures and analyse: the immune response to infectious agents, immune competency, immunodeficiency, immune hyperactivity, malignancy and histocompatibility.

Prerequisite: BIO1OOS or the approval of the course coordinator.

Class requirements: 26 hours lectures and 39 hours of practical classes, workshops and tutorials per semester.

Assessment: One 2-hour examination; (40%), one 20-minute presentation; (20%), two practical reports (approx 500 words each). (40%)

Prescribed Reading:

Abbas, AK and Lichtman, AH. *Basic Immunology: Functions and Disorders of the Immune System* W.D. Saunders and Co; 2001

BIO3MBT MOLECULAR BIOTECHNOLOGY (15 CPs Sem. TE-SEM-1 BE.) *Dr*

Ian Swift

In this unit students will be introduced to the fundamental principles underlying the common techniques used in DNA technology and genetic engineering and their applications in the biomedical field. Students will also be introduced to the area of bioinformatics and how genetic data may be accessed and utilised for the purposes of gene analysis and taxonomy.

Prerequisite: BIO2IMM, BIO2MES.

Class requirements: Three 1-hour lectures and an average of two hours laboratory work per week.

Assessment: One 2.5-hour examination (50%), practical exercises – assessed from four reports, each 500 words. (50%)

BIO3OAE OXYGENATION AND EXERCISE (15. CPs Sem. TE-SEM-1 BE.) *Dr*

Michelle Gibson

In this unit students examine respiratory control, cardiovascular regulation and hemodynamics (including smooth muscle function) associated with tissue perfusion and oxygenation under resting and

exercise conditions. Muscle (skeletal and cardiac) physiology is investigated with respect to changes in muscle function with exercise and training, including the development of fatigue, metabolic shifts and alterations in substrate utilization.

Prerequisite: BIO1CO.

Class requirements: Three 1-hour lectures and one 3-hour practical class per week.

Assessment: One 2-hour examination (60%), presentation/interview (equivalent 1000 words) (15%). Students are also required to satisfactorily complete six (6) pieces of assigned practical work, one 1500-word essay (25%)

Prescribed Reading:

BIO3PAT PATHOLOGY (15. CPs Sem. TE-SEM-1 BE.) *Coordinator to be advised*

Not available in 2008

CHE1C1A CHEMISTRY 1A (15 CPs Sem. TE-SEM-1 BE.) *Dr Michael Angove*

In this unit the principles of chemistry are introduced, forming the basis for further study. Topics include: chemical hazards and the safe handling of acids and bases; stoichiometry; atomic and molecular structure; periodic trends; Introduction to organic chemistry; chemical equilibrium; acids and bases; pH calculations; buffers; introduction to acid-base titrations; chemical thermodynamics; Energy relations in chemistry; chemical kinetics: reaction rates.

Class requirements: Three 1-hour lectures, one 1-hour tutorial per week, plus eight 3-hour practical classes per semester.

Assessment: 3-hour examination (60%), tutorial exercises (equivalent 500 words) (10%), practical work (20%), problem-based assignment (equivalent 500 words) (10%)

Prescribed Reading:

Kotz, JC and Treichel, PM. *Chemistry and chemical reactivity* 6th edn. Thomson.

CHE1C1B CHEMISTRY 1B (15 CPs Sem. TE-SEM-2 BE.) *Dr Jasim Al-Rawi*

In this unit students will be introduced to chemical hazards and the safe handling of inorganic and organic chemicals. The lecture course covers the chemistry of carbon and its compounds: alkanes, alkenes, alkynes, aromatic compounds, halides, phenols, ethers, nitro compounds, amines, aldehydes, ketones, carboxylic acids, amino acids and their derivatives.

Prerequisite: CHE1C1A.

Class requirements: Three 1-hour lectures, one 1-hour tutorial per week, plus eight 3-hour practical classes per semester.

Assessment: 3-hour examination (60%). Students must obtain at least 40% in the examination in order to pass the subject, tutorial problems (equiv 500 words) (10%), practical work (20%), problem-based assignment (equivalent 500 words) (10%)

Prescribed Reading:

Bruice, PY. (2007) *Organic Chemistry* 5th Edn. Prentice Hall

CHE1GE2 GENERAL CHEMISTRY (15 CPs Sem. TE-SEM-1 BE.) *Dr Michael*

Angove

Not available in 2008

CHE2AQC AQUATIC CHEMISTRY (15 CPs Sem. TE-SEM-2 BE.) *Dr Michael*

Angove

In this unit students are provided with an overview of chemical reactions that take place in water, with particular emphasis on gaining an understanding of environmental aquatic chemical processes. The importance of kinetic, thermochemical and equilibrium behaviour in aquatic systems is discussed. Practical work introduces experimental techniques for investigating and assessing the behaviour of chemical components and species in aquatic systems.

Prerequisite: CHE1C1A.

Incompatible unit: CHE2RWD

Class requirements: Three 1-hour lectures, one 1-hour tutorial per week, plus eight 3-hour practical classes per semester.

Assessment: Two problem-based assignments (equivalent 500 words each) (20%), 3-hour examination (60%), laboratory work (20%)

Recommended Reading:

Evangelou, VP. (1998) *Environmental Soil and Water Chemistry* Wiley

Atkins, PW *Physical Chemistry* 7th edn. Oxford 2002

CHE2ENA CHEMICAL ANALYSIS (15 CPs Sem. TE-SEM-2 BE.) *Dr Michael Angove*

This unit is offered at third unit level also.

In this unit students are introduced to some advanced methods of chemical analysis that are commonly used to analyse environmental and other samples. These include classical and electrochemical methods, as well as some advanced applications of spectroscopy and chromatography. Detailed consideration is given to the limitations, interferences and problems that can be associated with the various analytical techniques. The principles underlying the treatment and preparation of samples is introduced and applied.

Prerequisite: CHE1C1A.

Class requirements: Two 1-hour lectures and one 4-hour practical class per week.

Assessment: One problem-based assignment (equivalent 500 words) (10%), 3-hour examination (60%), laboratory work (20%), analytical project (10%)

Prescribed Reading:

Harris, DC. (2003) *Quantitative Chemical Analysis* 6th edn. Freeman

CHE2ENV ENVIRONMENTAL CHEMISTRY (15 CPs Sem. TE-SEM-1 BE.) *Dr David Morton*

In this unit students will study the scope of environmental chemistry. Environmental monitoring, including sampling and analysis. Aspects of aquatic chemistry, atmospheric chemistry, soil chemistry and chemical toxicology.

Prerequisite: CHE1C1A.

Class requirements: Three hours lectures/tutorials per week, plus eight 3-hour practical classes per semester.

This unit is not available for Study Abroad students.

Assessment: 3-hour examination (60%), two problem-based assignments (equivalent 500 words each) (20%), practical work (20%)

Prescribed Reading:

Van Loon, GW and Duffy, SJ. *Environmental Chemistry. A Global Perspective* 2nd edn. (2005) Oxford University Press, Oxford

Recommended Reading:

Baird, C. (1999) *Environmental Chemistry* 2nd edn. WH Freeman and Company.

CHE2MCA MEDICINAL CHEMISTRY A (15 CPs Sem. TE-SEM-2 BE.) *Dr Jasim Al-Rawi*

This unit will provide an understanding of how the chemical structure and behaviour of drug molecules relate to the activity of drugs in biological systems and how this knowledge can be used to devise strategies for drug design. The unit will include: principles of drug design and modification; structure-activity relationships (SAR and QSAR); drug-receptor interactions; stabilisation of drug-receptor complexes; theories of drug activity; quantitative aspects of drug action, prodrugs and their use; assays and chromatography methods of drug analysis.

Prerequisite: CHE2PHC.

Class requirements: Three 1-hour lectures per week and eight 3-hour practical classes per semester.

Assessment: Laboratory result explanation (5%), one 3-hour examination (60%). Students must obtain at least 40% in the examination to pass this unit, one 30-minute mid-semester test (10%), laboratory practical work (15%), laboratory report writing (10%)

Prescribed Reading:

CHE2PF PHARMACEUTICAL FORMULATION (15 CPs Sem. TE-SEM-2 BE.)

Dr David Morton

Not available in 2008

CHE2PHC PHARMACEUTICAL CHEMISTRY (15 CPs Sem. TE-SEM-1 BE.) *Dr Jasim Al-Rawi*

In this unit students will be introduced to further chemical principles that are required for the development of pharmaceutical skills and knowledge. The main areas of study are: introduction to drug development, introduction to spectroscopic identification of organic/drug molecule including infrared, ultraviolet, proton and carbon-13 NMR spectroscopy. The unit also introduces students to the chemistry and nomenclature of carbohydrates, lipids, steroids and heterocyclic compounds.

Prerequisite: CHE1C1A, CHE1C1B.

Class requirements: Three 1-hour lectures, one 1-hour tutorial per week, plus eight 3-hour practical classes per semester.

Assessment: 3-hour examination (60%). Students must obtain at least 40% in the examination to pass this subject, tutorial exercises (equivalent 500 words) (10%), laboratory practical work (15%), laboratory reports, including interpretation of data (15%)

Prescribed Reading:

Bruice, PY. (2007) *Organic Chemistry* 5th edn. Prentice Hall

CHE3CD CHEMICAL DYNAMICS (15 CPs Sem. TE-SEM-1 BE.) *Dr David Morton*

Components include molecular spectroscopy, microwave, IR, UV, statistical thermodynamics of equilibrium systems, theories of reaction rates (collision theory and absolute rate theory), reactions in solution (effects of ionic strength, ion charge and dipole moment), diffusion controlled reactions, electrochemistry, electrolytic conduction, over-potential, industrial applications and phase equilibria in ternary systems.

Prerequisite: CHE2AQC.

Class requirements: 3 hours lectures/tutorials and 2 hours practical work per week.

Assessment: One 3-hour examination (60%), one problem-based assignment (equivalent 1000 words) (20%), practical work (20%)

Prescribed Reading:

Atkins, PW. (1998) *Physical Chemistry*. 6th edn. Oxford UP.

Recommended Reading:

Atkins, PW. (2002) *Physical chemistry* 7th edn. Oxford: Oxford University Press

CHE3CP COLLOIDS AND POLYMERS (15 CPs Sem. TE-SEM-1 BE.) *Dr Michael Angove*

In this unit students will explore the chemistry and properties of colloidal materials of importance to environmental, pharmaceutical and industrial systems. First the preparation and properties of both synthetic and biological macromolecular (polymer) systems will be considered and their industrial and pharmaceutical uses emphasised. Then the stability and properties of particulate colloidal systems will be explored with particular reference to their importance in environmental and industrial systems. Practical classes will develop the students' laboratory skills through preparation of colloidal systems and use of a range of techniques to identify and study their unique characteristics.

Prerequisite: CHE2AQC or CHE2PHC.

Co-requisite: CHE2PF (if CHE2AQC has not been completed).

Class requirements: Three 1-hour lectures, one 1-hour tutorial per week, plus eight 3-hour practical classes per semester.

Assessment: One 3-hour examination (60%), practical work (20%), one problem-based assignment (equivalent 1000 words) (20%)

Recommended Reading:

Stevens, MP. (1999) *Polymer Chemistry: An Introduction* 3rd edn. Oxford: Oxford University Press

CHE3MCB MEDICINAL CHEMISTRY B (15 CPs Sem. TE-SEM-1 BE.) *Dr**Jasim Al-Rawi*

This unit introduces the aspect of molecular modelling techniques, computer-aided drug design and common molecular modelling terminology. Students are introduced to the concept of a pharmacophore and how this concept can be used as a tool in drug development and in the analyses of drug-receptor interactions. Principal strategies in drug design are discussed and illustrated using examples from selected drug groups. Physio-chemical properties important to the absorption, stability, distribution, excretion, solubility and administration of drug compounds. Structural and functional characteristics of molecules are discussed in the context of dosage forms, compound stability and administration. The unit also includes an introduction to organic-metal complexes and their use and importance in medicinal applications and a brief review of nuclear medicine, its use and application.

Prerequisite: CHE2MCA.

Class requirements: Three 1-hour lectures per week; eight 3-hour practical sessions/workshops per semester.

Assessment: 3-hour examination (70%). Students must obtain at least 40% in the examination to pass this unit. Mid-semester exam (10%), practical work (8%), drug development presentation (12%)

Prescribed Reading:

CHE3OS ORGANIC SYNTHESIS (15 CPs Sem. TE-SEM-2 BE.) *Dr Jasim Al-**Rawi*

Topics in this unit include, Retosynthetic analysis, Synthesis with diethylmalonate and ethylacetoacetate, general structure of acids and ketones from diethylmalonate and ethylacetoacetate, stereo specific synthesis, synthesis and reactions, heterocyclic, which include synthesis of the heterocyclic five, six and fused rings, pharmaceutical examples, advanced spectroscopy including two dimensional NMR and mass spectrometry.

Prerequisite: CHE2PHC.

Class requirements: Three 1-hour lectures/tutorials and one 2-hour practical class per week.

Assessment: One 3-hour examination (60%). Exam hurdle: students must obtain at least 40% in the examination to pass the unit. One calculation-based assignment (equivalent 500 words) (10%), practical work (equivalent 500 words) (15%), one written report (equivalent to 500 words) (15%)

Recommended Reading:

CHE3PW POLLUTION AND WASTE MANAGEMENT (15 CPs Sem. TE-SEM-2 BE.) *Dr David Morton*

In this unit students consider the problem of pollutants and how they impact on the environment. Chemical reactions associated with these processes are discussed. Also included is an investigation of waste minimisation processes and strategies, together with a discussion of waste management issues. Lectures and practical classes are also designed to further develop student skills in the detection, monitoring and analysis of pollutants.

Prerequisite: CHE1C1A

CHE20ENV

Class requirements: Two 1-hour lectures, one 1-hour tutorial per week; plus 26 hours of laboratory work spread throughout the semester.

Assessment: One 3-hour examination (60%), practical work (20%), one 750-word assignment (20%)

Prescribed Reading:

Van Loon, GW and Duffy, SJ. (2005) *Environmental chemistry – A global perspective 2nd edn.* Oxford: Oxford University Press

CHE4WT WATER TREATMENT (15 CPs Sem. TE-SEM-2 BE.) *Dr John Russell*
*Not available in 2008***CIV1CAD ENGINEERING CAD** (15. CPs Sem. TE-SEM-2 BE.) *Dr Daniela Ionescu*

In this unit, students study the fundamentals of computer-aided drawing with AutoCAD software; and the principles of 2-D and 3-D CAD. Topics covered include drawing as a communication tool; dimensioning principles; layers; sectioning; hatching; scale; detailing; arrays; sheet layout; borders and title block. Students also study model space; paper space and view ports; material lists and member schedules; site plane; intersection of solids; development of surfaces; digitising of information; introduction to 3D modelling; wire frame modelling; limitations and applications; and UCS and dynamic views.

Prerequisite: Nil.

Class requirements: One 1-hour lecture, 3 hours of supervised practical work and two 2 hours of unsupervised practical work per week.

Assessment: One 1-hour test (20%), ten drawings (each drawing being equivalent to 350 words) (80%)

Prescribed Reading:

McFarlane, Bob *Beginning AutoCAD R14* (1998) Arnold
SAA HB1, (1994). *Technical Drawing for Students*

CIV1EP ENGINEERING PRACTICE (15 CPs Sem. TE-SEM-1 BE.) *Dr Andrew Kilpatrick*

Civil engineering encompasses a diversity of specialty sub-disciplines, the major ones of which are: structural, water resources, environmental, construction, transportation and geotechnical engineering. Key skills for a successful civil engineer include: communication (both written and oral); perceiving, visualising, reasoning and problem-solving; managing oneself, other people, time and things; working with other people and using mathematics and science in design and problem-solving. This unit seeks to provide a perspective and exposure to civil engineering practice. Through project-based learning, the student will develop a range of generic skills together with experience in complex problem-solving and an appreciation of the complete cycle of a project.

Prerequisite: Nil.

Class requirements: One 2-hour lecture and four hours of directed learning per week.

Assessment: One group technical report 2000 words per student (70%) Each student must attend and contribute to group work, group meetings and skill sessions as specified in the unit outline. One 15-minute group seminar plus verbal analysis of another group's report and seminar (15%). All members must participate in the group seminar and participate in their groups leading role in question time following the seminar presentation of another group. Four individual assignments of 400 words each (15%). To pass this unit, students must attend nominated lectures and activities specified in the unit outline and obtain an overall mark not less than 50%.

CIV2CEM CIVIL ENGINEERING MATERIALS (15. CPs Sem. TE-SEM-1 BE.)*Dr Daniela Ionescu*

In this unit students are introduced to the structure and properties of materials used in civil engineering. Topics include: Introduction to the types of materials and their characteristic properties, the structure-property-processing relationship, materials selection, bonding between atoms, structure of materials, mechanical properties of materials, carbon steels, concrete (cement, aggregates, admixtures, mix design, strength, durability), timber (classification, seasoning, grading and strength relationship, durability), geosynthetics (types and applications), bituminous materials, bricks and blocks, inspection of materials, non-destructive testing, sampling, material specification and quality control.

Prerequisite: PHY1MS.

Class requirements: Four 1-hour lectures and one 2-hour tutorial per week.

This unit is not available for Study Abroad students.

Assessment: One 3-hour examination (70%), five assignments (calculation-based) equivalent to 125 words each (15%), laboratory work (15%)

Prescribed Reading:

Jackson, N and Dhir, RK. (1996) *Civil Engineering Materials* 5th edn. Macmillan

Neville, A. *Concrete Technology* Longman Cheshire (1987)

CIV2GR ENGINEERING GROUP RESEARCH (15 CPs Sem. TE-SEM-2 BE.)

Dr Andrew Kilpatrick

In this unit, students will experience the process of working in a team. By the conclusion of this unit, students are expected to have: worked effectively within a team to produce an investigative project; worked to a time schedule; gathered and evaluated appropriate information from a variety of sources; organised information to form a coherent argument; taken part in an oral presentation; contributed to a written report on the project and critically analysed the project produced by a peer group. Each group will investigate the interaction and inter-relationships between modern society and the profession. Topics should be concerned with a political or economic decision that has engineering implications, the introduction of some technology, or an engineering-based issue or discovery that has implications for society.

Prerequisite: CIV1GRA.

Class requirements: One 1-hour lecture and four hours directed learning per week.

This unit is not available for Study Abroad students.

Assessment: Two 15-minute group seminars plus 10-minute verbal analysis of another groups report and seminar (25%). All students must participate in the group seminar and participate in their groups leading role in question-time following the seminar presentation of another group. One group technical report and (2000 words per student) (75%). To pass this unit, students must attend nominated lectures and activities specified in the unit outline and obtain an overall mark not less than 50%.

CIV2HYD HYDRAULICS (15. CPs Sem. TE-SEM-2 BE.) *Mr Ross Anderson*

This unit introduces students to the concepts, knowledge and skills in fluid mechanics essential for an adequate understanding of fluid behaviour in engineering systems. Topics covered include properties of fluids, fluid static's (pressure and its measurement, hydrostatic force on plane and curved surfaces and equilibrium of floating bodies), principles of fluid flow analysis, concept of control volume and the measurement of flows through pipes and channels. Other topics include momentum principles, the forces on bends, etc, fluid machinery (pumps and turbines) types and performance characteristics, incompressible flow through pipes and ducts, steady uniform flow in channels and the concept of boundary layer, such as drag on bodies.

Prerequisite: PHY1PA.

Class requirements: Three hours of lectures, two hours of tutorials and laboratory work per week.

This unit is not available for Study Abroad students.

Assessment: 3-hour examination (60%), 8 assignments (calculation-based) (20%), 8 practicals and laboratory work (20%)

CIV2ST1 STRUCTURES 1 (15. CPs Sem. TE-SEM-1 BE.) *Professor Joe Petrolito*

Topics: concepts of structural mechanics as a component of understanding structural behaviour in basic structural design principles and methods with particular application to steel, timber and masonry. Structural mechanics examines topics such as stress and strain, transformation of stress and strain in two dimensions, principal stresses and strains, Mohr's circle, stress-strain relationships, linear and nonlinear behaviour, deflections of beams, strain energy, energy theorems, impact loads, the behaviour of short and long columns, buckling, combined loading problems, failure theories, introduction to elastic-plastic analysis. Design component examines limit states design philosophy, loads (dead, live, wind and earthquake), steel and timber beams with and without lateral restraint, steel and timber columns with and without lateral restraints, tension members, masonry design the properties of bricks, blocks and brickwork and block work, in plane load capacity and wind loads on walls.

Prerequisite: PHY1MS.

Class requirements: Four 1-hour lectures and two 1-hour tutorials per

week.

Assessment: Two 2.0-hour examinations (70%), six assignments (calculation-based) equivalent to 500 words (30%)

Prescribed Reading:

Hibbleler *Mechanics of Materials* 6th edn. Pearson

Gorenc, B, Tinyou, R and Syam, A. (1996) *Steel Designers Handbook* 7th edn. NSW University Press.

Schodek, D. *Structures* 5th edn. Prentice Hall.

CIV2SUR SURVEYING (15 CPs Sem. TE-SEM-1 BE.) *Mr Don Swiney*

The Australian Mapping Grid and the Australian Height Datum, the use and adjustment of levels, level traversing, various forms of distance measurement, care and use of theodolites, measurement and adjustment of traverses, detail surveys, calculation of volumes, calculation and setting out of horizontal and vertical curves.

Prerequisite: Nil.

Class requirements: Two hours lectures and three hours tutorials/practicals per week.

This unit is not available for Study Abroad students.

Assessment: Three assignments (calculation-based) (20%), two practical reports (calculation-based) (20%), one 3-hour examination (60%)

Prescribed Reading:

Wolf *Elementary Surveying* 9th edn. Addison Wesley, 1997

CIV3CC CIVIL CONSTRUCTION AND ENVIRONMENT (15 CPs Sem. TE-SEM-2 BE.) *Professor Joe Petrolito*

This unit covers factors to be considered and techniques employed in civil engineering construction. Construction equipment, including selection of equipment, concrete production, placement, curing and quality control, earthmoving materials and operations, rock excavation and quarrying operations, building construction, foundations, soil improvement and stability of excavations, the principles of soil stabilisation, grouting, construction and environment, environmental legislation, construction of solid waste landfill sites, planning and scheduling of construction, occupational health and safety, legislation, site safety, work practices and working conditions.

Prerequisite: Nil.

Class requirements: One 3-hour lecture and one 2-hour tutorial per week.

This unit is not available for Study Abroad students.

Assessment: One 3-hour examination (70%), two assignments (750 words each) (30%)

Prescribed Reading:

Antill, JM, Ryan, PWS and Easton, GR. (1998) *Civil Engineering Construction* 6th edn. McGraw-Hill.

CIV3GM GEOMATICS (15. CPs Sem. TE-SEM-2 BE.) *Professor Joe Petrolito*

Remote sensing platforms, aerial photography, the stereo pair, enclosed water way hydrographic surveying, survey techniques to monitor the movement of structures, the calibration of EDM equipment, an introduction to satellite surveying, introduction to Geographic Information Systems, including the presentation of data, data sets, datum, projections and an introduction to geographic information analysis.

Prerequisite: CIV2SUR

Incompatible unit: INT1GIS

Class requirements: Two hours lectures and three hours tutorials per week.

This unit is not available for Study Abroad students.

Assessment: Five assignments (calculation-based) (40%), 3-hour examination (60%)

Prescribed Reading:

Wolf *Elementary Surveying* 9th edn. Addison Wesley, 1997

Recommended Reading:

Clarke *Getting Started with Geographic Information Systems* 2nd edn. Prentice Hall, 1999

CIV3GTA GEOTECHNOLOGY A (15. CPs Sem. TE-SEM-2 BE.) *Dr Daniela Ionescu*

In this unit, students are presented with the concepts and knowledge in geotechnology as an essential component of understanding the behaviour of earth materials in the context of civil and environmental engineering systems. Topics covered include the nature of soils, particle size distribution, Atterberg limits, soil classification, phase relationships, soil compaction, steady state seepage, design criteria for filters, effective stress concepts, introduction to rock mechanics, elastic theory applied to soil/rock behaviour, compressibility and consolidation of soils, shear strength of soils and rocks.

Prerequisite: CIV2CEM.

Class requirements: Three 1-hour lectures per week; and two 1-hour tutorials/laboratory sessions per week (including up to a maximum of 13 hours of directed learning per semester).

This unit is not available for Study Abroad students.

Assessment: One 3-hour examination (70%), five assignments (calculation-based) each equivalent to 125 words (15%), laboratory work (15%)

Prescribed Reading:

Withlow R. (2001) *Basic soil mechanics* 4th edn. Prentice Hall
Das. B. M. (2002) *Principles of geotechnical engineering* 5th edn. Brooks/Cole.

CIV3HE1 HYDRAULIC ENGINEERING 1 (15. CPs Sem. TE-SEM-2 BE.) *Dr John Russell*

Students are provided with an understanding of the elements and behaviour of hydraulic systems. Topics covered include hydrological cycle, rainfall and run-off, data acquisition and stream gauging, estimation of run-off from a catchment, flood routing through reservoirs and channels, urban drainage, computing modelling, flood mitigation, gradually varied flow computations, design of culverts and retarding basins, hydraulic jump and channel transitions.

Prerequisite: PHY22HYD

Class requirements: Three 1-hour lectures and two 1-hour tutorials/laboratory sessions per week.

This unit is not available for Study Abroad students.

Assessment: One 3-hour examination (60%), four assignments (calculation-based) each equivalent to 200 words (20%), laboratory work (20%)

Prescribed Reading:

Kinsky *Fluid Mechanics Advanced Applications* McGraw Hill, 1997

CIV3IIL INDUSTRY INTEGRATED LEARNING (60. CPs Sem. TE-SEM-1 BE. TE-SEM-2 BE.) *Dr John Russell*

The work program is devised by the employer and is under the supervision of experienced engineers. This program gives practical application to the academic work already completed by the student prior to the placement period and also provides opportunities to acquire a variety of workplace skills. The University organises the placements, which may be anywhere in Australia or overseas. The goals and academic plan for students undertaking this program are set by the supervising University staff member following consultation with the industry supervisor.

Prerequisite: Successful completion of the academic program leading up to the industry placement.

Class requirements: Students can choose one of the following options for this part of the course:

- Option 1: 10 weeks during the vacation at the end of each of second and third years.
- Option 2: 20 weeks following completion of the academic program.
- Option 3: Civil engineering, Environmental Management Engineering and Internet Telecommunications students will be given the option of completing a full year of Industry Integrated Learning with the approval of the course coordinator.

Assessment: A written report at the completion of each employment period (100%)

CIV3ST2 STRUCTURES 2 (15. CPs Sem. TE-SEM-1 BE.) *Professor Joe Petrolito*

Introduce the principles of the analysis of skeletal structures and basic structural design principles and methods with particular application to

reinforced concrete. A component on analysis focuses on basic concepts of structural analysis, determinate and indeterminate structures and moment distribution and influence lines, matrix methods of structural analysis, plastic analysis, approximate methods and computer applications. The component on design contains a revision of concrete technology, bending, shear and deflection equations and methods for reinforced concrete, application to beams (rectangular, T and L beams – singly reinforced), application to slabs (one and two way, including flat slabs), application to footings (pads – square and rectangular), the anchorage of reinforcement and member detailing and concrete column design.

Prerequisite: CIV21ST1

Class requirements: Four 1-hour lectures and one 2-hour tutorial per week.

This unit is not available for Study Abroad students.

Assessment: Two 2-hour examinations (70%), six assignments (calculation-based) equivalent to 500 words (30%)

Prescribed Reading:

Warner, R, Foster, S and Kilpatrick, A. *Reinforced Concrete Basics* 1st edn. Pearson
Ghali, A *Structural Analysis* 5th edn. Routledge

CIV4GTB GEOTECHNOLOGY B (15. CPs Sem. TE-SEM-1 BE.) *Dr Daniela Ionescu*

Not available in 2008

CIV4GTC GEOTECHNOLOGY C (15. CPs Sem. TE-SEM-2 BE.) *Dr Daniela Ionescu*

Not available in 2008

CIV4HE2 HYDRAULIC ENGINEERING 2 (15. CPs Sem. TE-SEM-1 BE.) *Dr John Russell*

This unit aims to introduce students to the elements and behaviour of the hydraulics systems used in water supply, irrigation and sewerage. Topics to be covered include: Water Supply: demand, quality, sources of water, treatment of water, distribution of water, pipe network analysis and elements of water hammer analysis, surge tanks. Waste Water Systems: estimation of flow rates, characteristics of waste water, collection systems, design of reticulation systems including pumping, treatment and disposal of waste water. Irrigation: sources and quality of water for irrigation, water requirement for crops, design of irrigation channels, methods of irrigation, dry land and wetland salinity and strategies to control the salinity, design of irrigation structures and measurement of irrigation water.

Prerequisite: CIV32HE1

Class requirements: Two 2-hour lectures and one 1-hour tutorial per week.

This unit is not available for Study Abroad students.

Assessment: One 3-hour examination (70%), six assignments (calculation-based) each equivalent to 250 words (30%)

Recommended Reading:

Barnes, David *Water and Wastewater Engineering Systems*

CIV4HE3 HYDRAULIC ENGINEERING 3 (15. CPs Sem. TE-SEM-1 BE.) *Dr John Russell*

Not available in 2008

CIV4INV INVESTIGATION (15. CPs Sem. TE-SEM-2 BE.) *Dr Andrew Kilpatrick*

This unit allows students to investigate in depth a topic that is related to the course. Students are encouraged to choose a topic with an industry focus. Topics may be suggested by the students or by academic staff members. The topic must be approved by the academic supervisor prior to the start of the investigation.

Prerequisite: Completion of the engineering subjects to the end of semester six.

Class requirements: This unit is similar to an Honours thesis in a science degree. The five hours/week requirement is a nominal specification for the unit. Students work independently on their project and maintain regular contact with their supervisors.

This unit is not available for Study Abroad students.

Assessment: Report (8,000–10,000 words) (90%), a seminar presentation (10%)

CIV4PMA POLLUTION MANAGEMENT A (15. CPs Sem. TE-SEM-1 BE.) *Dr**John Russell**Not available in 2008***CIV4PMB POLLUTION MANAGEMENT B** (15. CPs Sem. TE-SEM-2 BE.) *Dr**John Russell**Not available in 2008***CIV4PWT POLLUTION AND WATER TREATMENT RESOURCE MANAGEMENT** (15 CPs Sem. TE-SEM-2 BE.) *Dr John Russell**Not available in 2008***CIV4RE REGIONAL ENGINEERING** (15 CPs Sem. TE-SEM-1 BE. TE-SEM-2 BE.) *Dr John Russell**Not available in 2008***CIV4SD STRUCTURAL DESIGN** (15. CPs Sem. TE-SEM-2 BE.) *Dr Andrew Kilpatrick*

Using project-based learning in small groups, students will develop skills in the first phase of the structural design process – decision-making and the conceptual design and development of structural systems. These will be supplemented by coverage of related topics such as concrete framed structures, steel framed structures, fire engineering, tilt-up construction, footings, prestressed concrete and retaining walls.

Prerequisite: CIV31ST2*Class requirements:* Five hours per week of lectures, tutorials, design studios and site visits.

This unit is not available for Study Abroad students.

Assessment: Three group design assignments – 1000 words each per student (75%), two 500-word individual design assignments (25%)*Prescribed Reading:*Warner, RF, Rangan, BV, Hall, A.S and Faulkes, KA. (1998) *Concrete Structures*. 1st edn. Longman.Gorenc, B, Tinyou, R and Syam, A. (1996) *Steel Designers Handbook* 6th edn. UNSW Press**CIV4SI SUSTAINABLE INFRASTRUCTURE** (15 CPs Sem. TE-SEM-1 BE.) *Dr**John Russell*

There are two major objectives to this unit. The first is to provide students with an in depth experience of the functioning of government departments, agencies and Engineering consultancies in the region. The second is to impart a detailed understanding and appreciation of the importance of the application of sustainability principles to all civil engineering practices. Students will gain skills in effective communication, how to undertake problem identification, formulation and solution, an understanding of sustainable design and development and an understanding of and commitment to professional and ethical responsibilities.

Prerequisite: SCI3ECS.*Class requirements:* Three 1-hour lectures and two 1-hour tutorials per week.*Assessment:* Three summary reports (500 words each) (35%), small-group report (2000 words/student) (50%), small group presentation (10 minutes/student) (15%)*Preliminary Reading:**To be advised***CIV4ST3 STRUCTURES 3** (15. CPs Sem. TE-SEM-2 BE.) *Professor Joe Petrolito*

In this unit there is a focus on elasticity theory as a basis for analysing structures and the use of finite elements for obtaining approximate solutions is covered. It discusses the theoretical underpinnings of standard structural theories, including buckling and dynamics. The unit also introduces the key concepts of the finite element method and how it is implemented and used in practice.

Prerequisite: CIV31ST2*Class requirements:* Three 1-hour lectures and two 1-hour tutorials per week.*Assessment:* One 3-hour examination (70%), six assignments (calculation-based) each equivalent to 250 words (30%)*Prescribed Reading:*Ugural, A. *Advanced Strength and Applied Elasticity* 4th edn. Pearson EducationGhali, A *Structural Analysis* 5th edn. Routledge**CIV4TE TRANSPORTATION ENGINEERING** (15. CPs Sem. TE-SEM-2 BE.) *Dr**Daniela Ionescu*

This is an introduction to the transport system including road, rail, air and maritime transport and the interaction of these systems, transport economics, traffic prediction, traffic management, road and street design, location and geometry, design traffic, sub-grade evaluation, pavement materials, design of flexible pavements, design of rigid pavements, drainage, pavement construction methods, road maintenance. Use of computer packages.

Prerequisite: CIV30GT1*Class requirements:* Two 2-hour lectures and one 1-hour tutorial per week.

This unit is not available for Study Abroad students.

Assessment: One 3-hour examination (70%), two assignments (calculation-based) each equivalent to 500 words (25%), laboratory work (5%)*Prescribed Reading:*Underwood, RT. *Road Engineering Practice* MacMillan (1995)**CSE1CT COMPUTER TECHNOLOGY** (15. CPs Sem. TE-SEM-1 BE.) *TBA*

In this unit students are introduced to the architecture and hardware of current personal computer systems and are provided with a general description of the technologies incorporated in them.

Incompatible unit: INT1CT*Class requirements:* Two 1-hour lectures and two 1-hour tutorials per week.

This unit is not available for Study Abroad students.

Assessment: One 2-hour examination (50%), two 1000-word assignments (each 25%) (50%)**CSE100 INTERMEDIATE OBJECT-ORIENTED PROGRAMMING** (15 CPs Sem. TE-SEM-1 BE, BU. TE-SEM-2 BE, BU.) *BE: Ms Mary Martin, BU: Dr Julie Main*

The teaching of object-oriented concepts is continued while students gain more experience with the Java programming language and basic software engineering principles. Topics covered include inheritance (class hierarchies, abstract classes), input/output streams, file operations, exceptions, recursion, generics and dynamic data structures (linked lists). Software engineering principles are further developed, including parameters for characterising software quality, testing strategies and debugging strategies.

Prerequisite: CSE1OFA or CSE1OOF, CSE100J, CSE1OJA, CSE11OJA.*Incompatible unit:* CSE12IPJ, CSE11IJA, CSE1IPJ, CSE1IJA, CSE12IJA*Class requirements:* Two 1-hour lectures, one 2-hour laboratory class and one 1-hour practice class per week for 12 weeks.*Assessment:* One 3-hour examination (70%), one computer programming assignment equivalent to 1500 words (30%). In order to pass the unit, students must obtain an overall pass grade, obtain at least 45% in the examination and pass the non-examination component.**CSE1IS INFORMATION SYSTEMS** (15. CPs Sem. TE-SEM-1 BE. TE-SEM-2 BE.)*Mr Noel McEwan*

In this unit students are introduced to the concept of an information system (IS). It deals with the systems development life cycle as a framework for IS development and emphasises the role and involvement of users in an IS project. The use of appropriate fact-finding techniques in systems analysis and an introduction to data flow and E-R modelling are covered. Several information system case studies are used to illustrate the concepts introduced. Students will receive hands-on experience in the construction of a small information system using a suitable prototyping tool. The subject also introduces file design, input/output/interface design, file conversion and implementation techniques.

Prerequisite: INT1ITF or CSE1ITF or BUS1MIS

Incompatible unit: INT1IIS

Class requirements: Two 1-hour lectures, one 1-hour tutorial and one 1-hour workshop per week.

Assessment: One 2.5-hour examination (60%). Hurdle: to pass the unit students must obtain at least 45% for the examination component of the assessment and at least 50% overall. Two assignments each equivalent to 1000 words (40%)

Prescribed Reading:

Shelley, G, Cashman, T and Rosenblatt, H. *Systems analysis and design*. Thomson, 6th edn.

CSE1ITF INFORMATION TECHNOLOGY FUNDAMENTALS (15. CPs Sem. TE-SEM-1 BE, BU. TE-SEM-2 BE.) *BE: Dr John McCullagh, BU: Dr Richard Lai*

Bundoora students who have taken CSE1IIS are not permitted to take this unit.

In this unit students will be provided with a general and practical introduction to information technology for students in all disciplines. It consists of two compulsory modules:

Theory one: fundamental principles of computer operation, the main hardware components of the computer, data storage and retrieval,

Theory two: introduction to system software, introduction to data communications, hardware selection and evaluation;

And four elective two-week modules to be chosen from:

Theory three: operating systems, file management systems, memory management and CPU scheduling, data communications and networking, hardware management, security and backup;

Application software modules: spreadsheets, database packages, the World Wide Web, applied IT modules.

Incompatible unit: BUS1MIS, INT1ITF

Class requirements: BENDIGO: two 1-hour lectures and two 1-hour tutorial/practical classes per week

BUNDOORA: two 1-hour lectures, one 2-hour laboratory class and one 1-hour practice class per week.

Assessment: BU: one 2.5-hour examination (70%). BE: one 2-hour examination (60%). Hurdle: to pass the unit, students must submit all assessment material and achieve at least 45% for the examination. BE: one 750-word practical assignment (15%). BE: one assignment equiv to 500 words (10%). BE: five tutorial tasks equivalent to 50 words each (5%). BE: 30-minute test equiv to 500 words (10%), BU: one 1000-word programming assignment (23%), BU: three 10-minute laboratory tests (7%)

Prescribed Reading:

Shelly, Cashman and Vermaat. *BENDIGO CAMPUS: Discovering computers 2007 (introductory)* Thomson, 7th edn.

Stair and Stair *BUNDOORA CAMPUS: Principles of information systems*, 8th edn. Thomson.

CSE1OOF OBJECT-ORIENTED PROGRAMMING FUNDAMENTALS (15 CPs Sem. TE-SEM-1 BE, BU. TE-SEM-2 BE.) *BE: Dr Chris Cope, BU: Dr Kinh Nguyen*

Students are introduced to computers, object-oriented concepts and programming using Java. Students also gain a working knowledge of the UNIX operating system. Topics covered include classes and objects, primitive data types, flow of control, methods, basic input/output and arrays. Software engineering principles are introduced, including coding standards, class design and testing strategies

Incompatible unit: CSE1OOJ, CSE1OJA, CSE1IOOJ, CSE1IOJA, CSE12OJA, CSE1OFA

Class requirements: Two 1-hour lectures, one 2-hour laboratory class and one 1-hour practice class per week for 12 weeks.

Assessment: Computer programming assignments equiv to 1500 words (40%), one 2.5-hour examination (60%). In order to pass the unit, students obtain an overall pass grade, obtain at least 45% in the examination and pass the combined non-examination components.

CSE1PE PROGRAMMING ENVIRONMENT (15. CPs Sem. TE-SEM-1 BE.) *Mr Tim Whitfort*

In this unit students are introduced to the University's computer networks and facilities. Emphasis is placed on the programming environment covering the user's and programmer's view of operating

systems, software and software engineering tools and utilities on different platforms.

Incompatible unit: INT1PE

Class requirements: Two 1-hour lectures and two 1-hour tutorials per week.

Assessment: One 2.5-hour examination (60%). Hurdle: students must obtain at least 40% on the examination component of the assessment and 50% overall to pass the subject. One programming assignment equivalent to 300 words (6%), two programming assignments equivalent to 600 words each (12% each) (24%), tutorial work (10%). Five programming questions (each 100-word equivalent) (2% each)

Recommended Reading:

Robertson, L. *Simple Program Design* Thomas Nelson Aus, 4th edn.

Taylor, D *Teach Yourself UNIX in 24 hours* 4th edn. Sams/Prentice Hall (2005)

CSE2ALG ALGORITHMS AND DATA STRUCTURES (15 CPs Sem. TE-SEM-1 BE, BU. TE-SEM-2 BE, BU.) *BE: Mr Tim Whitfort, BU: Dr Julie Main*

This unit covers a range of important algorithms and data structures. Data structures for implementing containers are covered and include linear structures, tree structures and hash tables. Algorithms for insertion and deletion of elements and algorithms for searching and sorting on these structures are covered where appropriate. Graphs and graph algorithms are also covered. Students will learn the construction and workings of the data structures and algorithms covered. They will learn to analyse the effectiveness of each data structure and algorithm for specific problems and categories of problems. Students will also implement in programs a wide range of the structures and algorithms covered.

Prerequisite: CSE1IPJ or CSE1IJA or CSE1IOO and MAT1DM.

Incompatible unit: CSE21ADS, CSE22ADS, CSE41FAS, CSE42FAS, CSE21ADC, CSE22ADC, CSE41FAD, CSE42FAD, CSE2ADS, CSE4FAS

Class requirements: Two 1-hour lectures, one 2-hour laboratory class per week for twelve weeks.

Assessment: One 3-hour examination (70%), one computer-programming assignment equiv to 1000 words (30%). In order to pass the unit, students must obtain an overall pass grade, obtain at least 45% in the examination and pass the non-examination component.

CSE2BPC BUSINESS PROGRAMMING CONCEPTS (15. CPs Sem. TE-SEM-1 BE. TE-SEM-2 BE.) *Dr Chris Cope*

Students undertaking major/minor computing studies (in other than the BComp or BIT courses) will explore the concepts of writing structured programs. Topics include top-down problem-solving using stepwise refinement and algorithm design for procedural programs, simple and array data types, modular programming and parameter passing, introduction to object oriented concepts, documentation, debugging and testing.

Prerequisite: INT1PE or CSE1PE.

Incompatible unit: INT1PC, INT2BPC

Class requirements: Two 1-hour lectures and two 1-hour tutorials per week.

Assessment: One 2.5-hour examination (60%). Students must obtain a minimum of 40% on the examination component of the assessment and 50% overall to pass the subject. Two programming assignments (equivalent to 1500 words) (30%). Hurdle: students must obtain at least 40% on the examination component of the assessment and 50% overall to pass the subject. Five 100-word tutorial questions (10%).

Prescribed Reading:

Malik, D. S. *Java Programming* Thomson, 2nd edn.

CSE2CN COMPUTER NETWORKS (15. CPs Sem. TE-SEM-1 BE.) *Mr TBA*

In this unit, students are provided with the opportunity to gain an understanding of the protocols and technologies of modern computer networks, with particular emphasis on the global Internet. The unit has a 'top-down' structure, concentrating firstly and principally, on network applications and application protocols. The various underlying network technologies are then examined in somewhat less detail. Several 'specialist' topics, such as Network and Data Security, Network Management and Network Applications in Electronic Commerce are also covered in overview.

Prerequisite: INT1ITF or CSE1ITF, INT1PE or CSE1PE

Incompatible unit: INT3CN or CSE3CN, INT2CN

Class requirements: Two 1-hour lectures and two 1-hour tutorials per week.

Assessment: One 2.5-hour examination (60%). Students enrolled at third year level will be expected to demonstrate a greater degree of subject understanding and discipline specific skills than students taking second year level. One assignment equivalent to 200 words (5%), one assignment equivalent to 700 words (15%), one assignment equivalent to 1000 words (20%)

Recommended Reading:

Kurose, J and Ross, K. *Computer Networking: A top down approach*. Addison Wesley Pub. 3rd edn. 2005.

CSE2ISD INFORMATION SYSTEMS DEVELOPMENT (15. CPs Sem. TE-SEM-1 BE.) *Dr Lorraine Staehr*

In this unit the tools and techniques introduced in Information Systems are further developed. Major topics include project management, database design and the human computer interface, social and ethical issues and the responsibilities of IT professionals.

Prerequisite: INT1IS or CSE1IS.

Incompatible unit: INT2ISD

Class requirements: One 2-hour workshop, one 1-hour tutorial/practical per week.

Assessment: One 3-hour open book examination (65%), learning portfolio on two topics (equivalent to 1000 words) (20%), one-assignment equivalent to 500 words (15%). To obtain a pass, all assessment components must be submitted and a minimum of 40% must be obtained on both the assignment and examination components, as well as an overall mark of at least 50%.

Prescribed Reading:

Course readings may be purchased by students.

CSE2MA MULTIMEDIA AUTHORING (15 CPs Sem. TE-SEM-2 BE.) *Dr John McCallagh*

In this unit, students will focus on developing applications that integrate text, audio, video, 2D and 3D images and animations. They will learn the basic principles of each medium type including digital representation and issues that arise when media are combined. Students will deal with ethical and legal issues, design considerations including usability, hardware and software that enables multimedia, data representation and file types, data storage, data transmission, intelligent interfaces and emerging issues in multimedia. An understanding of basic IT skills such as those acquired in the prerequisite are assumed.

Incompatible unit: INT2MA

Class requirements: Two one-hour lectures and one two-hour tutorial-workshop per week.

This unit is not available for Study Abroad students.

Assessment: One 2-hour examination (50%), two-multimedia assignments (each equivalent to 1250 words) (50%)

Prescribed Reading:

Vaughan, T. (2004) *Multimedia: making it work*. 6th edn. NY: McGraw-Hill

Recommended Reading:

Aho, K. (2004) *Macromedia studio MX 2004 step-by-step* Boston: Thompson

Sklar, J. (2003) *Principles of web design*. 2nd edn. Boston: Thompson

CSE2MIP MINOR PROJECT (15. CPs Sem. TE-SEM-1 BE. TE-SEM-2 BE.) *Dr Pat Horan*

This unit is offered at third unit level also.

Students work alone or as part of a team on an information technology project. The project may be internal to the University or in collaboration with industry. Students make a formal presentation of the project and its documentation.

Prerequisite: INT2ISD or CSE2ISD, INT2DS, CSE1IOO.

Incompatible unit: INT2MIP

Class requirements: Four hours of group work, including meeting with supervisor, per week.

This unit is not available for Study Abroad students.

Assessment: Project documentation (2700 words) (60%). Students enrolled at third year level will be expected to demonstrate a greater degree of subject understanding and written and oral presentation skills than students at second year level. One 20-minute presentation (3-4 students per group) (10%), one 1350-word report (30%)

CSE2WD WEB DEVELOPMENT (15. CPs Sem. TE-SEM-1 BE. TE-SEM-2 BE.)

Mr Noel McEwan

In this unit students are introduced to the basic concepts necessary for development of applications for the World Wide Web and the available tools for Web development. Topics covered: history of the World Wide Web; overview and architecture of the World Wide Web, its current uses and potential development; methods for displaying information on the web, the XHTML document; creating simple and advanced XHTML documents; animation and executable program links; making the web interactive: creating simple forms for data collection; introduction to JavaScript as a general development tool for Web programming, writing simple applets in JavaScript; using XHTML, JavaScript and Cascading Style Sheets (CSS).

Prerequisite: INT1ITF or CSE1ITF, BUS1MIS or permission of the lecturer.

Incompatible unit: INT2WD

Class requirements: Two hours of lectures, two hours of tutorial and practical work per week. Students are provided with text and study guide and are supported during their study by email, telephone and web.

Assessment: One 2-hour examination (60%), two minor Web assignments (each 1000-word essay equivalent) (40%).

Prescribed Reading:

Carey, P and Canovatchel, F. *JavaScript – Comprehensive New Perspectives* Thomson (2006)

CSE3BCN BUSINESS COMPUTER NETWORKS (15 CPs Sem. TE-SEM-1 BE.) *TBA*

This unit is not available to students enrolled in any of the Bachelor of Information Technology courses.

In this unit students are provided with the opportunity to gain an understanding of the protocols and technologies of modern computer networks, with particular emphasis on the global Internet. The unit has a 'top down' structure, concentrating firstly and principally, on network applications and application protocols. The various underlying network technologies are then examined in somewhat less detail. Several 'specialist' topics, such as Network and Data Security, Network Management and Network Application in Electronic Commerce are also covered in overview.

Prerequisite: INT1PE or CSE1PE, INT1ITF or CSE1ITF, BUS1MIS.

Incompatible unit: INT21CN or CSE2CN, INT3BCN

Class requirements: Two 1-hour lectures and two 1-hour tutorials per week.

Assessment: One assignment equivalent to 700 words (15%), one assignment equivalent to 1000 words (20%), one 2.5-hour examination (60%), one assignment equivalent to 200 words (5%)

Recommended Reading:

Kurose, J and Ross, K. *Computer Networking: A top down approach*. Addison Wesley Pub. 3rd edn. 2005.

CSE3BDS BUSINESS DATA STRUCTURES (15 CPs Sem. TE-SEM-1 BE. TE-SEM-2 BE.) *Ms Mary Martin*

Students undertaking major/minor computing studies (in other than the BComp or BIT courses) will explore the concepts, techniques and algorithms associated with complex data structures. Topics include composite data structures with abstract data types, generalising abstract data types, advanced sorting, searching and merging techniques for linear structures, recursion, dynamic memory allocation linked tests, trees, program correctness and algorithm complexity, documentation, debugging and testing.

Prerequisite: INT2BPC or CSE2BPC, INT1PC, CSE1OOF.

Incompatible unit: INT2DS, INT3BDS, CSE1IOO

Class requirements: Two 1-hour lectures and two 1-hour tutorials per week.

This unit is not available for Study Abroad students.

Assessment: One 2.5-hour examination (60%), two assignments (1000-word equivalent each) (40%).

Prescribed Reading:

Malik *Data Structures Using Java* Thomas Nelson Aust, 3rd edn.

Recommended Reading:

Hubbard *Schaum's Outline of Data Structures*

CSE3BP BUSINESS PROGRAMMING (15. CPs Sem. TE-SEM-2 BE.) Dr

Chris Cope

Not available in 2008

CSE3CI COMPUTATIONAL INTELLIGENCE (15. CPs Sem. TE-SEM-2 BE, BU.)

BE: Mr Tim Whitfort, BU: Dr Dianhui Wang

This unit includes the main three components of computational intelligence, which are fuzzy logic, neural nets and genetic algorithms (GA). The course provides students with concepts and fundamentals in intelligent systems design and applications. Technical aspects cover fuzzy inference mechanisms and applications, mapping neural networks, learning, functionality and applications in intelligent prediction and classification systems and GA techniques for solving parameter optimisation problems. Students will work with real data to help consolidate their knowledge in this area.

Prerequisite: CSE2AI (from 2009 CSE2AIF).

Incompatible unit: CSE3ISE, CSE4FIS

Class requirements: One 2-hour lecture and one 2-hour laboratory class per week for 10 of the 13 weeks of semester.

Assessment: One 3-hour examination (70%), one programming assignment equivalent to 750 words (25%) and laboratory work. (5%)

Recommended Reading:

Lin, CT, and Lee, CS. *A neuro-fuzzy synergism to intelligent systems*. Prentice-Hall, 1996.

Negnevitsky, M. *Artificial intelligence—a guide to intelligent systems*, Addison-Wesley, 2002.

Lin, CT and Lee, CS. *Neural fuzzy systems—a neuro-fuzzy synergism to intelligent systems*. Prentice-Hall. 1996.

CSE3DB DATABASE (15. CPs Sem. TE-SEM-2 BE.) Mr Noel McEwan

In this unit students examine database fundamentals; the relational model; logical database design (entity-relationship and normalisation); physical database design; database processing and SQL; database administration including DBA, integrity and security; Transaction management including concurrency and backup/recovery; other database models including information retrieval, distributed database, object-oriented database, temporal databases, spatial databases, data warehouses and web databases.

Prerequisite: INT1PC, INT2BPC or CSE2BPC, INT1ITF or CSE1ITF, BUS1MIS, CSE1OOF.

Incompatible unit: INT3DB

Class requirements: Two one-hour lectures and two 1-hour tutorials per week.

Assessment: One 2.5-hour examination (60%). Hurdle: students must achieve a minimum of 40% on the examination component of the assessment and 50% overall to pass the unit. Two programming assignments (each equivalent to 1000 words) (20% each) (40%).

Prescribed Reading:

Hoffer, J. *Modern database management* Pearson Ed, 8th edn.

CSE3DC DATA COMMUNICATIONS (15. CPs Sem. TE-SEM-2 BE.) TBA

In this unit students examine a bottom-up overview of the OSI layered model, the nature of physical links, bandwidth, Shannon's law, Nyquist theorem, media characteristics, hardware interface standards, LAN cabling standards, the data link/MAC/LLC layers, concepts of typical systems, connection-oriented vs. connectionless approaches and protocols. Formal and informal protocol descriptions, the network layer, types of networks, network design issues and protocols (e.g., IP, X.25, CLNS), public network services, transport layer, OSI and Internet approaches, design issues, programmer interface and emergent network issues from a technical viewpoint are all examined.

Prerequisite: INT1PC, CSE1OOF.

Incompatible unit: INT3DC

Class requirements: Two 1-hour lectures and two 1-hour tutorials per week.

Assessment: One 2.5-hour examination (60%) To pass students must obtain at least 40% in the examination and at least 50% overall. Two assignments each equivalent to 800 words (40%)

Recommended Reading:

Stallings, W. *Data and computer communications*. 7th edn. Prentice Hall, 2001.

CSE3ENS ENCRYPTION AND NETWORK SECURITY (15 CPs Sem. TE-SEM-2

BE.) Dr Christopher Lenard

The two strands of this unit cover the fundamental concepts of encryption as a means of securing information and the basics of network security. Topics in encryption will include classical and modern single-key encryption, public-key encryption, message authentication, hash functions, digital codes and the Data Encryption Standard and Advanced Encryption Standard. Network system security issues dealt with include firewalls, packet encryption and virtual private networks as well as user responsibility and the role of the system administrator. These concepts will be illustrated with examples such as TCP/IP, Kerberos, PGP, S/MIME, IPsec and SSL.

Prerequisite: INT2CN or CSE2CN and one of MAT1DIS or MAT1CA.

Incompatible unit: INT3ENS

Class requirements: Two 1-hour lectures and two 1-hour tutorials per week.

Assessment: Two 1000-word assignments (40%), one 2.5-hour final examination (60%)

Recommended Reading:

Stallings, W. *Cryptography and network security* 3rd edn. Prentice Hall (2003)

Singh, S. *Science of secrecy: secret history of CD* London, Fourth Estate (2000)

CSE3ETI EMERGING TOPICS IN INFORMATION TECHNOLOGY (15. CPs

Sem. TE-SEM-1 BE.) Ms Mary Martin

The unit focuses on one or more topics, which are not covered in depth elsewhere in the curriculum and, which are becoming important in the IT discipline. Recent examples of such topics include: data mining, human-computer interaction, web commerce and internet information systems. Students will explore the topics, surveying the literature, practice and application in the area. Each student will typically also research one aspect in depth, presenting that to others in the units.

Prerequisite: This is a final year elective, requiring the permission of the unit and course coordinators, based on the student's academic performance and preparation (through prior study) for the topics to be covered.

Incompatible unit: INT3ETI

Class requirements: A mix of readings, lectures, tutorials, seminars and projects equivalent to three hours contact per week.

Assessment: One 2000-word survey paper (40%), one 2000-word project-based paper (40%) and one 10-minute seminar presentation (20%)

CSE3IBA INDUSTRY BASED LEARNING A (30. CPs Sem. TE-SEM-1 BE, BU.)

BE: Dr Lorraine Staehr, BU: Dr Torab Torabi

Students undertake a 20-week full-time industry-based learning program. A member of the academic staff acting in the capacity of industry-based learning coordinator liaises with the placement provider to formulate and structure a program of learning for each student. This program is normally project based, with day-to-day supervision by the placement provider. Progress is monitored at regular intervals.

Prerequisite: Application to and selection by industry-based learning committee. Normally only applications from students who have completed two years of a degree offered by the Dept. of Computer Science and Computer Engineering will be considered.

Incompatible unit: INT3MP1 or CSE3MP1, INT3MP2 or CSE3MP2, INT3IEA or CSE3IEA, INT3IEB or CSE3IEB, INT3IBA

Class requirements: Industry placement for 20 weeks.

This unit is not available for Study Abroad students.

Assessment: one page preliminary report (5%), reflective diary, submitted weekly by email (25%), one 10-minute mid-semester presentation (10%), one 2000-word written report and documentation of placement (40%), one 20-minute formal presentation at end of placement (20%)

CSE3IBB INDUSTRY BASED LEARNING B (30. CPs Sem. TE-SEM-2 BE, BU.)*BE: Dr Lorraine Staehr, BU: Dr Torab Torabi*

Students undertake a 20-week full-time industry-based learning program. A member of the academic staff acting in the capacity of industry-based learning coordinator liaises with the placement provider to formulate and structure a program of learning for each student. This program is normally project based, with day-to-day supervision by the placement provider. Progress is monitored at regular intervals.

Prerequisite: INT3IBA or CSE3IBA, or approval by the Department of Computer Science and Computer Engineering.

Incompatible unit: INT3IBB

Class requirements: Industry placement for 20 weeks.

This unit is not available for Study Abroad students.

Assessment: one page preliminary report (5%), reflective diary, submitted weekly by email (25%), one 10-minute mid-semester presentation (10%), one 2000-word written report and documentation of placement (40%), one 20-minute formal presentation at end of placement (20%)

CSE3IEA INDUSTRY EXPERIENCE A (15. CPs Sem. TE-SEM-1 BE, TE-SEM-2 BE.) *Dr Lorraine Staehr*

In this unit students are provided with the opportunity to apply theoretical knowledge learnt in other subjects of the course and to gain practical knowledge in the information technology professions. The student will undertake a 13-week work program with an external organisation, which has been approved as an industry year employer by the Unit and Course coordinators. The work to be undertaken by the student must be in a recognised information technology area and provide an appropriate learning environment. The employer will nominate a workplace supervisor who will oversee the student's work program and liaise with the unit coordinator.

Prerequisite: Completion of two years of the Bachelor of computing or equivalent at an appropriate level. Approval of the unit and course coordinators.

Co-requisite: Full-time employment with an approved industry year employer.

Incompatible unit: INT3IBA or CSE3IBA, INT3IBB or CSE3IBB, INT3IEA

Class requirements: Full-time employment with an approved industry year employer for a minimum of 13 weeks. Weekly contact with the Unit coordinator.

Assessment: 1200-word reflective diary (45%), 2500-word final report (45%) and one 15-minute presentation (10%). All assessment must be completed. Assessment will be carried out by the unit coordinator in consultation with the workplace supervisor.

CSE3IEB INDUSTRY EXPERIENCE B (15. CPs Sem. TE-SEM-1 BE, TE-SEM-2 BE.) *Dr Lorraine Staehr*

This unit provides the students with the opportunity to apply theoretical knowledge learnt in other subjects of the course and to gain practical knowledge in the information technology professions. The student will undertake a 13-week work program with an external organisation, which has been approved as an industry year employer by the unit and course coordinators. The work to be undertaken by the student must be in a recognised information technology area and provide an appropriate learning environment. The employer will nominate a workplace supervisor who will oversee the student's work program and liaise with the unit coordinator.

Prerequisite: INT3IEA or CSE2IEA

Co-requisite: Full-time employment with an approved industry year employer.

Incompatible unit: INT3IBA or CSE3IBA, INT3IBB or CSE3IBB, INT3IEB

Class requirements: Full-time employment with an approved industry year employer for a minimum of 13 weeks. Weekly contact with the Unit coordinator.

Assessment: 1200-word reflective diary (45%), 2500-word final report (45%) and 15-minute presentation (10%). All assessments must be completed. Assessment will be carried out by the subject coordinator in consultation with the workplace supervisor.

CSE3INW INTERNETWORKING (15 CPs Sem. TE-SEM-1 BE.) *TBA*

In this unit students will build on foundation studies in Computer Networks and Data Communications to examine 'real world' issues in large-scale networking. Students will understand issues of scalability in the global Internet and multi-protocol contexts. Students will gain experience in configuring typical internetworking components.

Content: The Internet work model. Overview of layered protocols and the history of large-scale internetworking. Review of the TCP/IP protocol architecture. Review of modern LAN technology. Internet work routing: interior and exterior routing. Autonomous systems. Scalable routing protocols and router configuration. OSPF, IGRP and EIGRP, BGP. Multi-protocol issues in the WAN context. Carrier options: ISDN, frame Relay, ATM, SONET. Other issues: Encapsulation and VPNs, impact of new multimedia traffic types, QoS, IPv6 migration.

Prerequisite: INT3DC or CSE3DC, INT2CN or CSE2CN.

Incompatible unit: INT3INW

Class requirements: Two hours lectures, one hour tutorial and one hour practical session per week for one semester.

Assessment: One written/practical assignment (5%), one written/practical assignment (15%), one written/practical assignment (20%), three-hour examination (60%)

Recommended Reading:

Doyle, J. *CCIE Professional Development: Routing TCP/IP, Volume 1* Cisco Systems, 1998

Malhotra, R. *IP Routing*. O'Reilly and Associates, 2nd edn.

Comer, D. *Internetworking with TCP/IP: Volume 1, Principles, Protocols and Architecture 3/e* Prentice Hall, 1995

Stevens, W Richard. *TCP/IP Illustrated, Volume 1: The Protocols* Addison-Wesley, 1994

CSE3ISP INFORMATION SYSTEMS PRACTICE (15. CPs Sem. TE-SEM-2 BE.)*Dr Pat Horan*

The aim of this unit is to enable students to develop a mature understanding of information systems concepts, practices and current issues in academic and professional contexts. Topics covered will be drawn from systems evaluation and failure; systems testing, implementation and maintenance, including test design, user training and documentation; overview of methodologies such as the object oriented paradigm; managing user involvement in system development, installation and maintenance; control, security and backup of physical facilities, hardware, software and data; systems acquisition including tendering; large systems; social, legal and ethical responsibilities of computer professionals; current professional and academic systems issues.

Prerequisite: INT2ISD or CSE2ISD.

Incompatible unit: INT3ISP

Class requirements: Two 2-hour workshops per week.

Assessment: One 3-hour open book examination (55%). Hurdle: to pass the subject, students must obtain at least 45% on the examination component of assessment and an overall mark of at least 50%. One 6,000-word group assignment (4 students per group) (45%)

CSE3KBS KNOWLEDGE BASED SYSTEMS (15. CPs Sem. TE-SEM-1 BE, TE-SEM-2 BE.) *Dr TBA*

Not available in 2008

CSE3MP1 MAJOR PROJECT PART 1 (15. CPs Sem. TE-SEM-1 BE, TE-SEM-2 BE.) *Dr Pat Horan*

Students (individually and in groups) work on projects that may include the planning, analysis, design, development, documentation and implementation of one or more systems. The project may be internal to the University or in collaboration with industry.

Prerequisite: INT2DS, INT2ISD or CSE2ISP (final year students only), CSE1IOO.

Incompatible unit: INT3MP1

Class requirements: Four hours of group work, including meeting with supervisor, per week.

This unit is not available for Study Abroad students.

Assessment: Project documentation (2700 words) (60%), one 20-minute group presentation (10%). 3–4 students per group, one 1350-word report (30%)

CSE3MP2 MAJOR PROJECT PART 2 (15. CPs Sem. TE-SEM-1 BE. TE-SEM-2 BE.) *Dr Pat Horan*

Students normally continue the project commenced in Major Project Part 1.

Students (individually and in groups) work on projects that may include the planning, analysis, design, development, documentation and implementation of one or more systems. The project may be internal to the University or in collaboration with industry.

Prerequisite: Satisfactory completion of INT3MP1 or CSE3MP1 in the previous academic period.

Incompatible unit: INT3MP2

Class requirements: Four hours of group meetings, including meeting with supervisor, per week.

This unit is not available for Study Abroad students.

Assessment: Project documentation (2700 words) (60%), one 1350-word report (30%), one 20-minute group presentation (10%). 3–4 students per group

CSE3OAD OBJECT-ORIENTED APPLICATION DEVELOPMENT (15 CPs Sem. TE-SEM-2 BE, BU.) *BE: Ms Mary Martin, BU: Dr Julie Main, BU: Dr Kinh Nguyen*

Students are introduced to advanced application development in Java. Topics covered include design patterns, event-driven programming and graphical user interfaces (layout management, GUI components), applets, multithreading, socket programming and various build utilities.

Prerequisite: CSE1100 or CSE11PJ or CSE11JA.

Class requirements: Two 1-hour lectures and one 2-hour laboratory class per week for 12 weeks.

Assessment: One computer-programming assignment equivalent to 1000 words (30%), one 3-hour examination (70%). In order to pass the unit students must obtain an overall pass grade, obtain at least 45% in the examination and pass the non-examination component.

CSE3PE PROFESSIONAL ENVIRONMENT (15. CPs Sem. TE-SEM-1 BE. TE-SEM-2 BE, BU.) *Dr Lorraine Staehr*

In this unit students are introduced to the professional aspects of practising in the computing field, ethical and legal responsibilities of computing professionals and are encouraged to consider the social implications of their work.

Bendigo Campus: No prerequisite required.

Prerequisite: Graduate Diploma students: permission of the coordinator; undergraduate students: for final year computing students only.

Incompatible unit: INT3PE, MGT2BCO, CSE2COM

Class requirements: One 3-hour session per week incorporating lectures, seminars and tutorials.

Assessment: Two 1000-word essays (each 25%) and two 10-minute presentations based on the essays (50%) To pass the unit, students must attempt all assessments and must obtain an overall mark of at least 50%. Two 500-word equivalent assignments (each 15%) (30%), one 500-word equivalent reflective diary (10%), class participation (10%). Contributions to class discussions are noted

CSE3SDE SOFTWARE DEVELOPMENT ENVIRONMENTS (15. CPs Sem. TE-SEM-1 BE.) *Mr Tim Whitfort*

This unit provides the opportunity for students to obtain a thorough grounding in the theory and application of advanced software development environments. It includes an introduction to a software development environment, programming language and tools, rapid application development, programming the user interface, database programming and computing components. Other topics such as windows programming, current issues and trends and a comparison of software development environments are also covered.

Prerequisite: INT2DS and INT1IS or CSE1IS, CSE1HOO.

Incompatible unit: INT3SDE

Class requirements: Two 1-hour lectures and two 1-hour tutorials per week.

Assessment: One 2.5-hour examination (60%). Students must achieve a minimum of 40% on the examination component of the assessment and 50% overall to pass the unit. Two 1000-word assignments (or equivalent in program code and documentation) (40%)

Preliminary Reading:

Prince. *Murachs VB.NET Database Programming* Deitel
Visual Basic .NET How to Program. Prentice Hall, 3rd edn.

CSE3SE SOFTWARE ENGINEERING (15. CPs Sem. TE-SEM-2 BE.) *Mr Tim Whitfort*

This unit introduces students to the concept of software engineering, a disciplined approach to building software systems in a cost-effective way. Topics covered in this unit include programming style, software development tools, requirements definition, testing and debugging, software design, software project management, programming languages and applications.

Prerequisite: INT2DS, INT2ISD or CSE2ISD, CSE1HOO.

Incompatible unit: INT3SE

Class requirements: Two 1-hour lectures and two 1-hour tutorials per week.

Assessment: One 2.5-hour examination (60%). Students must achieve a minimum of 40% on the examination component of the assessment and 50% overall to pass the unit. Two 1000-word assignment (or equivalent in program code and documentation) (40%)

Preliminary Reading:

Priestly, M. *Practical Object Oriented Design* McGraw Hill Aust.

Recommended Reading:

McConnell, S. (1993) *Code complete: a practical Handbook of software construction*. Redmond, Wash: Microsoft Press.
Pressman, RS. (2001) *Software engineering: a practitioner's approach*. 5th edn. Boston: McGraw-Hill.
Pfleeger, SL. (2001) *Software engineering: theory and practice* 2nd edn. Upper Saddle River, NJ: Prentice-Hall.
Booch, G, Rumbaugh, J and Jacobson, I. (1999) *The unified modelling language user guide*. Reading Mass: Addison-Wesley.
Scott, K. (2001) *UML explained*. Boston: Addison-Wesley.

CSE3WE WEB ENGINEERING (15. CPs Sem. TE-SEM-1 BE.) *Mr Peter Somerville*

Students will study advanced concepts and issues associated with the development of commercial and business applications for the World Wide Web. Topics include web page design issues, new and emergent mark-up language concepts for the web protocols, forms and CGI basics; programming in Perl; shopping cart applications; web security; payment systems, emergent 'digital cash' systems; CGI and database systems; large scale vendor systems; web server issues: applications in E-commerce; new developments in Internet-based E-commerce; the politics of E-commerce, censorship and regulation, taxation issues.

Prerequisite: INT2DS, INT3CN or CSE3CN, CSE1HOO.

Incompatible unit: INT3WE

Class requirements: Two hours lectures per week and two hours of tutorial and practical work.

Assessment: One 2.5 hour examination (50%), one 2000-word assignment (50%)

Recommended Reading:

Guelich, S, Gundavaram, S and Birznies, G. *CGI Programming in Perl* O'Reilly and Associates, 2nd edn. 2000.

CSE3WS WEB SERVICES (15 CPs Sem. TE-SEM-2 BE.) *Mr Mary Martin*

This unit examines the provision and application of web services based on XML and web protocols, including using XSL for publishing XML documents into multiple formats. Acknowledged industry standards and standard organisations are examined in the context of the delivery of web services and applications of XML. An understanding of HTML, cascading style sheets and programming skills in a high level language, such as Java or Perl, are assumed from the prerequisite subjects.

Prerequisite: INT2WD or CSE2WD, INT2DS, CSE1HOO.

Incompatible unit: INT3WS

Class requirements: Two 1-hour lectures and two 1-hour tutorial/laboratory sessions per week.

Assessment: One 3-hour examination (70%), one 1000-word assignment (or equivalent in program code and documentation) (20%), one 500-word assignment (or equivalent in program code and documentation) (10%).

Recommended Reading:

Harold, ER and Means, WS. *XML in a nutshell*. O'Reilly, 3rd edn. 2004.

CSE4ADB ADVANCED DATABASES (15. CPs Sem. TE-SEM-1 BU. TE-SEM-2 BE.) *Mr Noel McEwan, Dr Wenny Rahayu*

The concepts and implementations of next generation databases; object-oriented databases and object-relational databases are covered. Building a data warehouse, structuring and implementing OLAP (online Analytical Processing) queries. Implementation of a Web/Internet database, XML database design and implementation, XPath and XQuery. Setting-up a web database application, building a web database system that meets a system specification and implementation of the system on a selected commercial DBMS such as ORACLE10g application server.

Prerequisite: CSE21DB or CSE31DB or CSE41FDB.

Class requirements: One 2-hour lecture and one 2-hour laboratory per week.

Assessment: One 3-hour examination (65%), one programming assignment equivalent to 1500 words. (30%), one class test (5%)

CSE4AGR ADVANCED GRAPHICS (15. CPs Sem. TE-SEM-1 BE. TE-SEM-2 BU.)

BE: Dr Chris Cope, BU: Dr Richard Hall

In this unit, studies will be focused on covering the theory and practice of advanced 3D graphics. The unit covers such topics as ray casting, local illumination, transformations, texture mapping and Monte Carlo ray tracing. The laboratories will include exercises using popular 3D APIs such as OpenGL and Direct 3D.

Incompatible unit: CSE41AGR

Class requirements: One 2-hour lecture and one 3-hour laboratory class per week for 10 of the 13 weeks of the semester.

Assessment: One 3-hour examination. (60%), one programming assignment equivalent to 1500 words. (30%), laboratory work. (10%)

CSE4AT1 ADVANCED TOPICS IN COMPUTER SCIENCE 1 (15. CPs Sem. TE-SEM-1 BE, BU. TE-SEM-2 BU.) *Dr Chris Cope*

This unit is offered from time to time as a seminar series. The majority of the seminars are conducted by external experts with an international reputation. Students should contact the department of Computer Science and Computer Engineering to confirm, which topics will be available.

Class requirements: One 2-hour lecture and one 3-hour laboratory per week for 10 of the 13 weeks of semester.

This unit is not available for Study Abroad students.

Assessment: One 3-hour examination (70%), one assignment equivalent to 1500 words. (30%)

CSE4AT2 ADVANCED TOPICS IN COMPUTER SCIENCE 2 (15. CPs Sem. TE-SEM-1 BU. TE-SEM-2 BE, BU.) *Dr Chris Cope*

This unit is offered from time to time as a seminar series. The majority of the seminars are conducted by external experts with an international reputation. Students should contact the department of Computer Science and Computer Engineering to confirm, which topics will be available.

Incompatible unit: HUS20LBD/30LBD.

Quota: 50.

Class requirements: One 2-hour lecture and one 3-hour laboratory class per week for 10 of the 13 weeks of the semester.

Assessment: One 3-hour examination (60%), one assignment equivalent to 1500 words. (40%)

CSE4DIR DIRECTED STUDY (15. CPs Sem. TE-SEM-1 BE, BU. TE-SEM-2 BE, BU.) *BE: Dr Chris Cope, BU: Dr Wenny Rahayu*

This is a subject, which enables students to carry out independent study supervised by a member of staff. Enrolment requires the approval of the supervising member of staff in the Department of Computer Science and Computer Engineering and also the fourth year coordinator.

Class requirements: Supervised research under the direction of a member of staff equivalent to four hours of class contact per week.

This unit is not available for Study Abroad students.

Assessment: One 4000-word technical report or equivalent. (100%)

CSE4DIS DISTRIBUTED COMPUTING (15. CPs Sem. TE-SEM-1 BE, BU.) *BE:*

Dr Chris Cope, BU: TBA

Not available in 2008

CSE4DMI DATA MINING (15. CPs Sem. TE-SEM-2 BE, BU.) *BE: Dr Chris*

Cope, BU: Dr Dianhui Wang

Data mining refers to various techniques, which can be used to uncover hidden information from a database. The data to be mined may be complex data including multimedia, spatial and temporal. Data mining has evolved from several areas including: databases, artificial intelligence, algorithms, information retrieval and statistics. This unit is designed to provide graduate students with a solid understanding of data mining concepts and tools. The unit covers classification rule extraction, clustering and association rule mining techniques. Two domain applications, multimedia data mining for visual information retrieval and pattern discovery for bioinformatics, will be addressed in this unit.

Prerequisite: CSE3ISE (from 2009 CSE3CI).

Class requirements: One 2-hour lecture and one 3-hour laboratory class per week.

Assessment: One 3-hour examination (50%), one programming assignment equivalent to 1500 words. (50%)

Recommended Reading:

Dunham, MH. *Data Mining: introductory and advanced topics*. Prentice-Hall, 2003.

Tan, PN, Steinbach, M and Kumar, V. *Introduction to Data Mining* Pearson Education, Inc. 2006

CSE4HTA IT HONOURS THESIS (30 CPs Sem. TE-SEM-1 BE. TE-SEM-2 BE.)

Dr Chris Cope

Progression to the next unit CSE4HTB depends on an accurate and satisfactory progress report being filed by the student and supervisor and accepted by the CEM.

This unit represents the first unit of study for the Honours thesis. A list of prospective topics is available from the Bendigo Section of the Department of Computer Science and Computer Engineering. The student conducts a critical review of the literature relevant to the area of study, refines the topic to a specific proposal, conducts the proposed investigation and analyses outcomes. The student presents a seminar on the topic, attends related seminars and writes up the research as a thesis for examination.

Incompatible unit: INT4HTA

Class requirements: A weekly interview with the supervisor and attendance at research seminars as required.

Assessment: 17,000–22,000-word thesis (90%). This represents the combined assessment for the Honours thesis INT4HTA and INT4HTB.

Hurdle requirement: satisfactory progress report at the end of the intermediate semester. 30-minute seminar presentation (10%). Hurdle requirements: satisfactory 30-minute thesis presentation and attendance at other seminar presentations.

Prescribed Reading:

Evans, D and Gruba, P. *How to write a better thesis* Melbourne University Press, 2002.

CSE4HTB IT HONOURS THESIS (45 CPs Sem. TE-SEM-1 BE. TE-SEM-2 BE.)

Dr Chris Cope

Progression to this unit from INT4HTA or CSE4HTA depends on an accurate and satisfactory progress report being filed by the student and supervisor and accepted by the CEM.

This unit represents the second semester of study for the Honours thesis. A list of prospective topics is available from the Bendigo Section of the Department of Computer Science and Computer Engineering. The student conducts a critical review of the literature relevant to the area of study, refines the topic to a specific proposal, conducts the proposed investigation and analyses outcomes. The student presents a seminar on the topic, attends related seminars and writes up the research as a thesis for examination.

Prerequisite: INT4HTA or CSE4HTA.

Incompatible unit: INT4HTB

Class requirements: A weekly interview with the supervisor and attendance at research seminars as required.

This unit is not available for Study Abroad students.

Assessment: 30-minute seminar presentation (10%). Hurdle requirements: satisfactory 30-minute thesis presentation and attendance at other seminar presentations. 17,000-22,000-word thesis. (90%). This represents the combined assessment for the Honours thesis units INT4HTA and INT4HTB.

Prescribed Reading:

Evans, D and Gruba, P. *How to write a better thesis* Melbourne University Press, 2002.

CSE4THA THESIS A (30. CPs Sem. TE-SEM-1 BE, BU. TE-SEM-2 BE, BU.) *BE:* Dr Chris Cope, BU: Dr Wenny Rahayu

The thesis is available to students enrolled in fourth year programs offered by the Department of Computer Science and Computer Engineering. The thesis is also available to Masters students who do not wish to undertake the major 90 credit point thesis. This unit together with CSE4THB must be completed consecutively over two semesters

Students undertake a project, across both CSE4THA and CSE4THB that takes the equivalent of eight or nine months of continuous work under the supervision of a member of staff. Each project is written up as a minor thesis with all students presenting a seminar on their topic. A literature survey is required at the end of the first semester of enrolment as well as five small research based exercises, which are a hurdle requirement for the unit. A list of prospective thesis topics is available from the Department of Computer Science and Computer Engineering.

Class requirements: One 1-hour lecture per week for 12 weeks of the semester. Supervised research under the direction of a member of staff equivalent to five hours per week.

This unit is not available for Study Abroad students.

Assessment: Literature survey including a problem definition equivalent to 5000 words (25%). First semester: students submit the literature survey and the research based exercises (which are a hurdle requirement), one thesis equivalent to 10,000 words (60%), one 30-minute oral presentation (5%). Second semester: students submit the 10,000-word thesis and deliver their oral presentation, one research paper equivalent to 2000 words (10%). The assessment components listed are the combined assessment for CSE4THA and CSE4THB. A final grade will be awarded on CSE4THB

CSE4THB THESIS B (30. CPs Sem. TE-SEM-1 BE, BU. TE-SEM-2 BE, BU.) *BE:* Dr Chris Cope, BU: Dr Wenny Rahayu

This thesis is available to students enrolled in fourth year programs offered by the Department of Computer Science and Computer Engineering. The thesis is also available to Masters students who do not wish to undertake the major 90 credit point thesis. This unit together with CSE4THA must be completed consecutively over two semesters

Students undertake a project, across both CSE4THB and CSE4THC that takes the equivalent of eight or nine months of continuous work under the supervision of a member of staff. Each project is written up as a minor thesis, with all students presenting a seminar on their topic. A literature survey is required at the end of the first semester of enrolment as well as five small research based exercises, which are a hurdle requirement. A list of prospective thesis topics is available from the Department of Computer Science and Computer Engineering.

Class requirements: Supervised research under the direction of a member of staff equivalent to five hours per week.

This unit is not available for Study Abroad students.

Assessment: literature survey including a problem definition equivalent to 5000 words (25%) First semester: students submit the literature survey and the five research based exercises (hurdle requirement), one-thesis equivalent to 10,000 words (60%), one 30-minute oral presentation (5%). Second semester: students submit the 10,000-word thesis and deliver their oral presentation., one research paper equivalent to 2000 words (10%). The assessment components listed are the combined assessment for CSE4THA and CSE4THB. The final grade will be awarded on CSE4THB

GEO1ES EARTH SCIENCE (15 CPs Sem. TE-SEM-1 BE.) *Mr Neville Rosengren*

This is an introduction to Earth Science. The course commences with a review of controversial issues such as the origin and age of the earth, measuring geological time, causes of ice ages and climate change, plate tectonics and continental drift and mass extinctions related to extraterrestrial impacts. Detailed studies are then made of the chemical and physical features of the common rock-forming minerals followed by a study of the origin, composition, texture and structure of igneous, sedimentary and metamorphic rocks. Other topics include volcanoes and earthquakes, the internal composition and structure of Earth, geological structures such as folds, faults and joints, rock weathering and the causes and rates of geological change on Earth. In practical classes, a study is made of rock-forming and common ore minerals and students are introduced to recognising a variety of sedimentary, igneous and metamorphic rocks. Basic procedures of geological mapping are also taught.

Class requirements: Two 1-hour lectures per week; and one 3-hour practical per week (including up to a maximum of 13 hours of directed learning per semester) and one 8-hour field class.

Assessment: Two 2-hour examinations; one theory, one practical. (90%), one 250-word field report (5%), practical work (equivalent to 250 words) (5%)

Hamblin, W. K. *Earth's dynamic systems* (1996) Macmillan Publishing Company, New York.

GEO1MG MATERIALS GEOLOGY (15 CPs Sem. TE-SEM-2 BE.) *Mr Neville Rosengren*

The unit commences with a study of the structure and dynamics of the solar system, the geology of the terrestrial planets, the moons of the Jovian planets and the structure and motions of the Earth-Moon system. The geology, geological and landform evolution of the Australian continent is then studied along with details of the economic geology of Australia including major ore deposits, hydrocarbons, other fuels and water resources. There is an introduction to the nature and uses of fossils in geology and a review of the major vertebrate and invertebrate fossil groups important in Australia. There is a study of natural hazards including geological events such as volcanoes, earthquakes, tsunamis and slope failure and climatic events such as flooding and storms on a local, regional, continental and global scale. Practical classes focus on topographical and geological mapping techniques and map interpretation.

Class requirements: Two 1-hour lectures per week; and one 3-hour practical per week (including up to a maximum of 13 hours of directed learning per semester) and one 8-hour field class.

Assessment: One 3-hour practical examination (80%), one 1000-word field report (10%), practical work (equivalent to 500 words) (10%)

Prescribed Reading:

Hamlin, WK. (1996) *Earth's dynamic systems*. Macmillan Publishing Company, New York.

GEO3EGM ENVIRONMENTAL GEOMORPHOLOGY (15 CPs Sem. TE-SEM-1 BE.) *Mr Neville Rosengren*

In this unit students study a variety of geological environments. The unit is substantially based on field work. The curriculum includes methods of study and dating of landforms, land forming events and the Quaternary in Australia. Students also study the geomorphology of coastlines, lakes, volcanoes, river valleys, mountains and arid areas with particular reference to recognition of hazards and risk assessment, identification and management of sites of special scientific significance and the impact of tourism and other activities

in sensitive geomorphological environments. Students also examine geomorphology in environmental impact assessments and the geomorphology of Victoria.

Prerequisite: GEO1ES

Class requirements: three hours of lectures and practical work per week, plus eight days of field work with a total of 78 hours for the semester.

Assessment: one 3-hour examination (70%), field reports (equivalent to 1500 words) (30%)

Prescribed Reading:

Cochrane GW, Quick, GW and Spencer-Jones D.(1991) *Introducing Geology*. Geological Society of Australia Inc, Melbourne.
Bird, ECF. (1993) *The Coast of Victoria*. Melbourne University Press.

GEO3SSC SOIL SCIENCE (15 CPs Sem. TE-SEM-2 BE.) *Mr Neville*

Rosengren

An examination is made of soil composition, physical and chemical properties of soil, the nature of parent material of soil, weathering and factors in soil formation, methods of soil survey and mapping, soil classification schemes and physical and chemical analysis of soil in the field and laboratory. Also covered are the fundamentals of soil chemistry, soils and geomorphology, soil-plant relationships and soil deterioration and soil erosion (salinity, acidification, structure decline, erosion).

Prerequisite: GEO1ES or CHE1C1A, or approval of course coordinator.

Class requirements: Three 1-hour lectures per week; and two hours of practicals and field work per week (including up to a maximum of 13 hours of directed learning per semester).

Assessment: One 2-hour theory examination (50%). Students must obtain at least 30 marks out of 65 for the total examination component of the assessment and 50% overall to pass the subject. One 1-hour practical examination (15%), five practical class reports (each equivalent to 300 essay words) (35%)

Prescribed Reading:

MATOBM BRIDGING MATHEMATICS (30. CPs Sem. TE-ALL-YR BE.) *Ms Lex*

Milne

Not available in 2008

MATICA CALCULUS A (15. CPs Sem. TE-SEM-1 BE.) *Dr Simon Smith*

The development of calculus as a crucial step in the evolution of much of modern pure and applied mathematics is studied. The key concepts of differential and integral calculus are explored in this unit, which lays the foundation for subsequent major studies in mathematics or studies within the engineering program.

Recommended Prior Studies: a study score of at least 20 in VCE Mathematical Methods 3 and 4 or MAT1AC.

Class requirements: three 1-hour lectures and one 1-hour tutorial per week.

This unit is not available for Study Abroad students.

Assessment: Three 30-minute tests (each 10%) (30%), one 3-hour examination (70%)

Prescribed Reading:

Stewart, J. *Calculus and CD* 5th edn. Brooks/Cole, Pacific Grove, 2003.

MAT1CB CALCULUS B (15. CPs Sem. TE-SEM-2 BE.) *Dr Robert Champion*

The aim of Calculus B is to continue the theme of Calculus A in developing the foundations for studies in a wide range of areas of mathematics and engineering. Students are introduced to vector quantities and their application in geometry and mechanics, differential and integral calculus of functions of several variables and second order differential equations.

Prerequisite: MAT1CA.

Class requirements: three 1-hour lectures and one 1-hour tutorial per week.

This unit is not available for Study Abroad students.

Assessment: one 3-hour examination (70%), three 30-minute tests (each 10%) (30%)

Prescribed Reading:

Stewart, J. *Calculus and CD* 5th edn. Brooks/Cole, Pacific Grove, 2003.

MAT1DIS DISCRETE MATHEMATICS (15. CPs Sem. TE-SEM-2 BE.) *Dr Simon*

Smith

Students survey the mathematical structures, which occur throughout computing-related disciplines and, which are needed to fully appreciate the processes involved in modern information technology. Topics studied include the basic structures of algorithms, the representation and manipulation of numbers in different bases and propositional logic and its relation to digital circuits via Boolean algebra. More advanced algorithmic and programming structures such as recursion are also considered.

Class requirements: Three 1-hour lectures and one 1-hour tutorial per week.

Assessment: One 3-hour examination (70%), two 45-minute tests (each 15%) (30%)

Prescribed Reading:

Grossman, P. *Discrete mathematics for computing*. 2nd edn. Palgrave Macmillan, Basingstoke, 2002.

MAT1MIT MATHEMATICS FOR IT (15 CPs Sem. TE-SEM-1 BE.) *Dr*

Christopher Lenard

Mathematics for IT will provide a general introduction to mathematics typically encountered in later IT subjects and promote an awareness and appreciation of the influence of mathematics and computing on each other. The emphasis will be on mathematical reasoning in IT, with examples from all areas and eras of computing. Topics will include: using statistics to analyse codes; logarithms – computers before computing; algorithms – such as Euclid's and sorting and searching; efficiency of algorithms – polynomials and exponentials; functions – both mathematical and programming; order is important – parsing and flow control; simulation and modelling; teaching a machine to think; early computing devices and aids.

Incompatible unit: MAT1POM

Class requirements: 4 hours of lectures and tutorials per week.

Assessment: one 1500-word assignment (30%), one 1-hour test (20%), one 2-hour examination (50%)

MAT1PHM PHARMACY MATHEMATICS (15 CPs Sem. TE-SEM-2 BE.) *Dr*

John Schutz

In Pharmacy Mathematics, students are introduced to some of the fundamental mathematical and statistical techniques that are required for pharmacy studies and research. The first part of the unit provides a revision of differential and integral calculus and an introduction to mathematical modelling and differential equations. Emphasis is then given to statistics, with the major topics being probability distributions, basic statistical inference and confidence intervals, hypothesis testing and simple linear regression. Throughout the unit, topics will be illustrated with examples drawn from contemporary pharmacy practice.

Class requirements: Two 1-hour lectures and one 2-hour workshop per week.

Assessment: Two 45-minute tests (40%), one 3-hour examination (60%)

Prescribed Reading:

lecture notes provided by the lecturer

MAT2CC CALCULUS C (15. CPs Sem. TE-SEM-1 BE.) *Dr John Schutz*

In Calculus C, a variety of concepts and techniques that have important practical applications in applied mathematics and engineering are introduced. Topics to be studied include matrices and the eigenvalue problem, Fourier series and the calculus of vector fields.

Prerequisite: MAT12CB.

Class requirements: Three 1-hour lectures and one 1-hour tutorial per week.

This unit is not available for Study Abroad students.

Assessment: One 3-hour examination (70%), three 30-minute tests (each 10%) (30%)

Prescribed Reading:

James, G et al. *Advanced modern engineering mathematics*. 4th edn. Addison-Wesley, Wokingham, 2000.

MAT2LIN LINEAR ALGEBRA (15. CPs Sem. TE-SEM-2 BE.) *Dr Christopher Lenard*

The approach taken in this unit is the use of linear algebra as a tool and language for understanding and solving problems from a wide variety of disciplines such as statistics and computing. Matrices and systems of linear equations are introduced and we show how the familiar notions of point, line, plane and distance can be generalised. Basic ideas such as basis, linear independence and eigenvalues are studied. Applications may include Leontieff economic models, curve-fitting, regression, factor analysis, Markov chains, environmental management, game theory, error-correcting codes, tomography and computer graphics.

Prerequisite: MAT11CA.

Incompatible unit: MAT31LA, MAT32LA

Class requirements: Four 1-hour lectures per week.

Assessment: One 2.5-hour examination (50%), two calculation-based assignments (each equivalent to 1000 words) (50%)

Prescribed Reading:

Poole, D. *Linear algebra* Thomas Nelson Aust. 2nd edn.
Poole D. (2003) *Linear algebra: a modern introduction* Pacific Grove, CA: Brooks/Cole

MAT2NAG NETWORKS AND GRAPHS (15 CPs Sem. TE-SEM-1 BE.) *Dr Christopher Lenard*

This unit is offered at third unit level also.

Some of the fundamental algorithms of networks and graphs, which are used throughout information technology are studied in this unit. For example, telecommunications networks rely heavily on algorithms, which minimise costs or maximise efficiency, while sorting and searching are ubiquitous in databases. Topics to be covered include trees and sorting algorithms, the minimum spanning tree problem, depth-first and breadth-first searches, shortest-path problems, networks and critical paths, maximum flows and minimum costs, greedy algorithms and matchings. Particular applications will depend on the interests of the class. This unit is particularly suitable for computing, mathematics and engineering students.

Prerequisite: MAT12DIS or MAT11CA.

Class requirements: Four hours of lectures and workshops per week.

Assessment: Three major problem-based assignments (each equivalent to 1000 words) (25% each) (75%). Third year students will be expected to demonstrate a greater degree of subject understanding and discipline-specific skills in their written work. One 1000-word essay (25%).

Prescribed Reading:

Aldous, JM and Wilson, RJ. *Graphs and Applications: An introductory approach*. Springer, London, New York, 2000.

MAT3ALG ALGEBRA (15. CPs Sem. TE-SEM-2 BE.) *Dr Christopher Lenard*
*Not available in 2008***MAT3CA COMPLEX ANALYSIS** (15. CPs Sem. TE-SEM-1 BE. TE-SEM-2 BE.) *Dr Simon Smith*

Students wishing to enrol in this unit must seek approval from the Head of Mathematics.

The development of the theory of functions of a complex variable provides a fascinating example of how initial vague and uncertain ideas can be turned into a powerful and rigorous theory with far-ranging applications. The key aspects of this development are studied, from the first attempts to satisfactorily define and manipulate complex numbers, to the immense contribution of mathematicians such as Cauchy in the 19th century and finally to the modern era, where the advent of high speed computers has brought mathematics to a wide audience.

Prerequisite: MAT21CC.

Class requirements: Three 1-hour lectures and one 1-hour tutorial per week.

Assessment: 3-hour examination (70%), two problem-based assignments, each equivalent to 750 words (each 15%) (30%)

Prescribed Reading:

Brown, JW and Churchill, RV. *Complex variables and applications* 6th edn. McGraw-Hill, New York, 1996.

MAT3NM NUMERICAL MATHEMATICS (15. CPs Sem. TE-SEM-1 BE.) *Dr Robert Champion*

Students are introduced to a wide variety of concepts and methods in computational mathematics. Topics covered are solutions of nonlinear equations, interpolation and approximation, numerical integration, numerical linear algebra, solutions of ordinary differential equations and optimisation. Use is made of modern computer packages to illustrate key aspects of these numerical problems and to facilitate their solution.

Prerequisite: MAT2CC.

Class requirements: One 2-hour lecture and one 2-hour tutorial per week.

Assessment: One 3-hour examination (70%), two calculation-based assignments, each equivalent to 750 words (each 15%) (30%)

Prescribed Reading:

Champion R and Mills T. *Numerical Mathematics* (to be provided by the lecturers)

MAT3TIM TOPICS IN MATHEMATICS (15. CPs Sem. TE-SEM-1 BE. TE-SEM-2 BE.) *Dr Christopher Lenard*

Students wishing to enrol in this unit must seek approval from the Head of the Department of Mathematics and Statistics.

This unit provides an opportunity for advanced students to study a suitable topic in mathematics, which is not covered in other subjects offered by the Department of Mathematics. The topic will depend on the interests of students and available staff.

Prerequisite: Successful completion of 30 credit points of mathematics units at second year level and permission of the Head of the Department of Mathematics and Statistics.

Class requirements: 3 hours of lectures per week.

Assessment: Either two calculation-based assignments (each 50%) (100%) equivalent to 2000 words each, or two calculation-based assignments (each 40%) (80%) equivalent to 1500 words each and one 20-minute presentation (20%)

PHA1IP INTRODUCTION TO PHARMACY (15. CPs Sem. TE-SEM-1 BE.) *Mrs Joy Spark*

In this unit students will be introduced to a range of pharmacy issues, including the profession of pharmacy, its history, ethical and legal issues and dispensing. The students will explore the complex interaction between health and various theories of learning, motivation and personality. They will also examine how stress, group behaviour and psychopathology can directly and indirectly influence our health status.

Class requirements: Three 1-hour lectures, one 1-hour tutorial and one 2-hour workshop per week. Two 2-hour practice placements during semester.

This unit is not available for Study Abroad students.

Assessment: One 3-hour examination (60%). Students must pass both the psychology and pharmacy components of this subject.

Assessments, which contribute to each component will be notified in Week 1. Workshop and practice placements reports (20%). Students must submit satisfactory placement reports in order to obtain a pass in the subject. Online activities, multiple choice quizzes (20%)

Prescribed Reading:

PHA1PPA PHARMACY PRACTICE A (15 CPs Sem. TE-SEM-2 BE.) *Mrs Joy Spark*

Students will be introduced to pharmaceutical products and routes of administration, absorption, distribution and elimination of drugs. They will study pharmaceutically relevant physicochemical phenomena and formulation of solutions and pharmaceutical calculations. Students'

written and oral communication skills will be developed in workshops because communication is an important element of pharmacy practice.

Prerequisite: PHA1IP,CHE1C1A.

Class requirements: Two 1-hour lectures and two 2-hour workshops per week; two 2-hour practice placements during semester.

This unit is not available for Study Abroad students.

Assessment: One 500-word communication assignment and one, 5-minute oral presentation (20%). Students must obtain a mark of at least 50% in both the communication skills and pharmaceuticals components to pass. Assessments which contribute to these components will be notified in week 1. One 2.5-hour examination (50%), one 1250-word placement report (15%), Laboratory practical reports (15%). Students must attend at least 80% of both pharmaceuticals and communications workshops to pass this unit.

PHA2PGA PHARMACOLOGY A (15 CPs Sem. TE-SEM-1 BE.) *Dr Meeuwis Boelen*

In this unit students will be introduced to physiological control and the body systems involved in control. The unit will cover receptor kinetics, nerve impulse propagation and transmission, the operation of the nervous and endocrine systems (with special emphasis on the autonomic nervous system) and the pharmacology of drugs acting at synaptic and neuromuscular sites. The practical component will introduce the use of physiological equipment and animal experimentation ethical considerations.

Prerequisite: BIO1CO or BIO1LS1, or approval of the course coordinator.

Incompatible unit: BIO2CES

Class requirements: Three 1-hour lectures and three hours of practical classes, tutorial work and directed learning per week.

Assessment: 3-hour examination (65%), practical reports (approx 1500 words) (20%), interview (15%). Practical interview of ten minutes duration. Students are questioned on the practical of their choice. Assessors then choose another practical and question the student.

PHA2PGB PHARMACOLOGY B (15 CPs Sem. TE-SEM-2 BE.) *Dr Adrian Verrinder*

This unit will build on the principles introduced in Pharmacology A. It will cover peripheral mediators, local hormones and pharmacological manipulations in inflammation, immunity, the cardiovascular system, atherosclerosis, lipoprotein metabolism, haemostasis, the respiratory system and the renal system. For each system there will be consideration of some of the associated contraindications, interactions, allergic reactions, incompatibilities, adverse effects, toxicity and inherited disorders.

Prerequisite: PHA2PGA, or approval of the course coordinator.

Co-requisite: PHA2PPB.

Class requirements: Three 1-hour lectures and three hours of practical classes, tutorial work and directed learning per week.

Assessment: 3-hour examination (60%), practical reports (approx 750 words) (20%), 750-word assignment (20%)

PHA2PP2 PHARMACY PRACTICE 2 (15. CPs Sem. TE-ALL-YR BE.) *Professor*

Kenn Raymond

Not available in 2008

PHA2PPB PHARMACY PRACTICE B (15. CPs Sem. TE-SEM-2 BE.) *Professor*

Kenn Raymond

The discipline of pharmacy practice is the focus of pharmacy students' studies. This unit introduces the important concept of pharmaceutical care. Communication and referral skills will be applied in a pharmacy counselling context. Therapeutics, where possible, is taught in conjunction with Pharmacology B and includes drugs used to treat digestive disorders, including dyspepsia, diarrhoea and constipation; inflammatory drugs – analgesics and corticosteroids; drugs affecting the heart, lungs and kidneys. The major thrust of this unit is communication of therapeutic information to the patient.

Prerequisite: PHA12PPA.

Co-requisite: PHA2PGB.

Class requirements: Three 1-hour lectures and 2 hours of workshops or tutorials per week; one 5 day placement during the mid-year break.

Assessment: One 3-hour end-of-year examination (70%). Students must obtain at least 40% in the examination to pass this unit. Students must attend 80% of workshops to pass this unit.

Tutorial assessments. Assignments (total of 1000 words), one five minute oral presentation (30%). Including participation, counselling sessions and drug information. Students must obtain a satisfactory placement report in order to obtain a pass.

PHA2PTA PHARMACEUTICS A – TWO PHASE SYSTEMS (15 CPs Sem. TE-SEM-1 BE.) *Mrs Joy Spark*

This unit is offered at third unit level also.

Students will be taught the design and formulation of two-phase pharmaceutical products including suspensions and emulsions. Major topics include: pharmaceutically relevant physicochemical phenomena and formulation of two phase dosage forms; preparation and dispensing of extemporaneous pharmaceutical preparations; introduction to biopharmaceutics, pharmacokinetics and the concepts of bioavailability, pharmaceutical calculations.

Prerequisite: PHA1PPA,CHE1C1A

Class requirements: Two 1-hour lectures per week and 10 1-hour tutorials and 30 hours (total) laboratory work per semester.

Assessment: Laboratory Practical test (10%), tutorial and laboratory exercises (1500 words) (20%). Students must attend 80% of laboratory classes and 80% of tutorial classes to pass this unit, 3-hour examination (70%). Students must obtain at least 40% in the examination to pass this unit.

PHA3APP CLINICAL PHARMACY AND PHARMACOEPIDEMOLOGICAL RESEARCH (15 CPs Sem. TE-SEM-2 BE.) *Professor Kenn Raymond*

In this unit material previously learnt in Pharmacology (particularly Pharmacology D) is integrated with the relevant patient counselling skills. Clinical therapeutics relating to neurodegenerative disorders, affective disorders, anxiety and depression, epilepsy, Parkinsonism, pain control, drug dependence and substance abuse are taught. Team teaching, ward rounds and student-presented clinical seminars continue. Research methods and pharmacoepidemiology are introduced and students learn research terminology and are engaged in consideration of qualitative and quantitative methods, data collection, statistical analyses and critical appraisal of existing research focussing on pharmacoepidemiology.

Prerequisite: PHA3PPL.

Co-requisite: PHA3PGD.

Incompatible unit: None

Class requirements: Three 1-hour lectures and two hours of tutorials per week, these may be taught in block mode; one three–five day placement (during the mid-year break).

This unit is not available for Study Abroad students.

Assessment: One 2-hour examination (40%). Students must pass each of the examination, drugs in profile and clinical report components of this subject. Pharmacoepidemiological research report (1500 words) (30%), drugs in profile and clinical reports (total 250 words) (10%), research evidence and interpretation task (total 750 words) (20%). Students must submit a satisfactory placement report to pass this subject.

PHA3PGC PHARMACOLOGY C (15 CPs Sem. TE-SEM-1 BE.) *Dr Adrian Verrinder*

This unit builds on the principles introduced in Pharmacology A and B. It covers pharmacological manipulation in the gut, liver, endocrine pancreas, thyroid, pituitary, adrenal cortex, reproductive system (including obstetrics and gynaecology) and bone and calcium metabolism. Special attention is paid to obesity and metabolic disorders and their impact on drug excretion. This unit also covers considerations of paediatric therapeutics, drug safety in pregnancy and lactation including teratogens and mutagens and age related changes in drug disposition. For each system some of the associated contraindications, interactions, allergic reactions, incompatibilities, adverse effects, toxicity and inherited disorders are also addressed.

Prerequisite: PHA2PGB.

Co-requisite: PHA3PPL.

Class requirements: Two 1-hour lectures per week and three hours of case histories, directed learning or tutorials per week.

Assessment: One 3-hour examination (70%), two 750-word case histories or laboratory reports. (30%)

Prescribed Reading:

PHA3PGD PHARMACOLOGY D (15 CPs Sem. TE-SEM-2 BE.) *Dr Meeuwis Boelen*

Drugs affecting the central nervous system will be covered by this unit, including drugs used in pain relief, anaesthesia, neurological disorders and psychiatric disorders. Some contraindications, interactions allergies, incompatibilities, adverse reactions and signs of toxicity, drug dependence and abuse will be considered.

Prerequisite: PHA2PGA or equivalent, with approval of course coordinator.

Co-requisite: PHA3APP.

Class requirements: Three 1-hour lectures and one 3-hour practical or workshop per week.

Assessment: 2-hour examination (50%), drug research report (3000 words) (30%), 20-minute seminar presentation (20%)

PHA3PPL CLINICAL PHARMACY, LEGISLATION AND PRACTICE (15 CPs Sem. TE-SEM-1 BE.) *Professor Kenn Raymond*

A highly integrated and relevant picture of how pharmacists can contribute to patients' health outcomes is presented. Students learn pertinent clinical therapeutic material that enables them to optimise patient therapies in a wide range of disorders (gastrointestinal, liver, endocrine and reproductive disorders and calcium metabolism). Topics covered are complementary to those taught in Pharmacology C and interface with Clinical Biochemistry. Students obtain a thorough understanding of the Law and Ethics of Pharmacy. State and Federal legislation controlling pharmacy, drugs and poisons are covered.

Prerequisite: PHA2PPB.

Co-requisite: PHA3PGC.

Incompatible unit: None

Class requirements: Three 1-hour lectures, one 2-hour clinical tutorial, these may be taught in block mode.

Assessment: One 1.5-hour end of semester examination (Pharmacy Law) (35%). Students must pass all components in order to pass the subject. Workshop activities (clinical seminar presentations and assignments, drugs in profile) (1000 words) (25%), one 2-hour end-of-semester examination (Pharmacy Practice) (40%)

PHA3PTB PHARMACEUTICS B – SOLID DOSAGE FORMS (15 CPs Sem. TE-SEM-2 BE.) *Mrs Joy Spark*

Design and formulation of solid pharmaceutical products. Major topics include: pharmaceutically relevant physicochemical phenomena and formulation of solid dosage forms; preparation and dispensing of extemporaneous pharmaceutical preparations; specialised dosage forms including delayed, sustained and controlled release products, pro-drugs, liposomes and targeted drug delivery; drug stability, including physical stability of various formulations and shelf life; pharmaceutical calculations; advanced pharmacokinetics.

Prerequisite: PHA2PTA.

Class requirements: Three 1-hour lectures per week and 30 hours of practical sessions or workshops per semester.

This unit is not available for Study Abroad students.

Assessment: 3-hour examination (70%), two practical tests in class (20%). Students must pass the practical tests to pass this subject. Pharmaceutical calculation assessment (10%). Students must obtain 100% for the pharmaceutical calculation assessment to pass this subject. (Maximum of 3 attempts allowed).

PHA4CM COMPLEMENTARY MEDICINES (15 CPs Sem. TE-SEM-1 BE.) *Mrs Joy Spark*

Students will be introduced to the use of herbal and homeopathic medicines, nutritional supplements and traditional Chinese medicines. Appropriate examples applicable to pharmacy practice in Australia will be introduced, enabling students to critically evaluate the total therapeutic regime (complementary medicines and evidence-based medicines). Other issues covered include, quality and safety of complementary medicines and nutrition.

Class requirements: Three 1-hour lectures and one 2-hour workshop or equivalent directed learning per week.

This unit is not available for Study Abroad students.

Assessment: One 500-word assignment (10%), one 2000-word report (directed learning component) (40%), one 2-hour examination (50%)

PHA4HPA PHARMACY HONOURS PROJECT A (20. CPs Sem. TE-SEM-1 BE.)

Ms Joy Spark

This unit represents one semester of a year-long unit.

After review of the relevant literature, students will, in conjunction with an academic staff supervisor, refine a research question and research design. The method used in the project will depend on the research question. It may involve literature evaluation, experimental or empirical study, case study, theoretical or inferential work, survey etc. This unit consists mainly of pilot work, data collection, data analysis, seminar presentation and the writing of a minor thesis.

Prerequisite: Invitation to undertake Honours in Pharmacy based on high academic achievement in third year.

Class requirements: Students will plan, conduct and report on original research. They will meet with their supervisors regularly and attend research methods classes pertinent to their research field.

This unit is not available for Study Abroad students.

Assessment: One research proposal, including literature review (1500 words) (15%). Students will be unable to proceed unless a satisfactory research proposal is developed, one seminar presentation (15 minutes) (10%), one minor thesis (11,000 words) (75%)

PHA4HPB PHARMACY HONOURS PROJECT B (25. CPs Sem. TE-SEM-2 BE.)

Ms Joy Spark

This unit represents one semester of a year-long unit.

After review of the relevant literature, students will, in conjunction with an academic staff supervisor, refine a research question and research design. The method used in the project will depend on the research question. It may involve literature evaluation, experimental or empirical study, case study, theoretical or inferential work, survey etc. This unit consists mainly of pilot work, data collection, data analysis, seminar presentation and the writing of a minor thesis.

Prerequisite: PHA4HPA.

Class requirements: Students will plan, conduct and report on original research. They will meet with their supervisors regularly and attend research methods classes pertinent to their research field.

This unit is not available for Study Abroad students.

Assessment: One research proposal, including literature review (1500 words) (15%). Students will be unable to proceed unless a satisfactory research proposal is developed. One seminar presentation (15 minutes) (10%), one minor thesis (11,000 words) (75%)

PHA4PAC PHARMACY PRACTICE AND ADVANCED COUNSELLING (15 CPs Sem. TE-SEM-2 BE.) *Mrs Joy Spark*

In this unit students will develop skills to help solve problems of a sociological nature likely to be encountered when practicing as a

pharmacist. Topics to be covered include making decisions about how to respond, ways to respond, crisis intervention, telephone counselling, dealing with people from culturally and linguistically diverse (CALD) backgrounds, values and beliefs about people, customers in difficult situations, assertive skills, grief and loss, teamwork and counselling across the life span.

Class requirements: One 1-hour lecture, one 2-hour seminar and one 2-hour workshop or equivalent directed learning per week and a half day placement with a medical practitioner per semester.

This unit is not available for Study Abroad students.

Assessment: Counselling class papers (2000 words in total) (40%), analysis of workshop discussions (1000 words) (20%), one 2-hour examination (40%)

Prescribed Reading:

Compton, BR and Galway, B. *Social Work Processes* latest edn. USA, Brooks/Cole Publishing

Recommended Reading:

Gaud, P. *A behavioural approach to pharmacy practice* latest edn. Oxford, Blackwell Science

PHA4PBT PHARMACEUTICAL BIOTECHNOLOGY (15. CPs Sem. TE-SEM-1 BE.) *Dr Ian Swift*

In this unit students will be introduced to the fundamental principles underlying the common techniques used in DNA technology and genetic engineering and their application to pharmacy and the pharmaceutical industry. Students will also be introduced to the areas of pharmacogenomics, bioinformatics and how genetic data may be assessed for the purpose of gene analysis.

Prerequisite: BIO2IMB BIO2BPC.

Incompatible unit: BIO3MBT

Class requirements: Three 1-hour lectures per week and ten 2-hour workshops or practical sessions per semester.

This unit is not available for Study Abroad students.

Assessment: One 3-hour examination (65%), Workshop/practical reports (1500 words total) (35%)

Prescribed Reading:

Weaver RF. *Molecular biology* 2nd edn. 2002 McGraw Hill

PHA4PCA PHARMACEUTICAL CARE – QUALITY USE OF MEDICINES A (15 CPs Sem. TE-SEM-1 BE.) *Professor Kenn Raymond*

In this unit students will explore the expanded role of the pharmacist in delivering optimised therapy with positive outcomes for the patient. Areas that will be covered include dermatology and wound management, pain management, infections and oncology including infections of gastrointestinal tract, respiratory tract, renal systems, brain and CNS and bone. Issues associated with medication misadventure will be discussed.

Prerequisite: PHA3APP.

Co-requisite: PHA4PM.

Class requirements: Three 1-hour lectures and one 2-hour workshop or equivalent directed learning per week and two weeks of placement per semester.

This unit is not available for Study Abroad students.

Assessment: Four 500-word assignments (clinical histories obtained from placements) (40%), one 3-hour examination (60%)

Prescribed Reading:

Koda-Kimble MA et al. *Handbook of Applied Therapeutics* latest edn. USA, Lippincott-Williams and Wilkins

Therapeutic Guidelines *Therapeutic Guidelines* (latest editions of relevant titles) North Melbourne, Australia, Therapeutic Guidelines Ltd

Recommended Reading:

Reeve J, Polack M, (Eds) *Counselling Guide for Non-Prescription Medicines* (Latest Edn.) Curtin ACT, Pharmaceutical Society of Australia

PHA4PCB PHARMACEUTICAL CARE – QUALITY USE OF MEDICINES B (15 CPs Sem. TE-SEM-2 BE.) *Professor Kenn Raymond*

In this unit, students will explore the issues of information sources to determine the true therapeutic place of various treatment regimes, using an evidence-based medicine approach and how this information can be conveyed to the patient so that therapy is optimised. Topics to be covered include cardiovascular, renal, endocrinology and

respiratory disease states, health issues affecting males and over the counter medications. Placements, role-plays, clinical scenarios and Home Medication Reviews will ensure that students will be introduced to the newer roles of pharmacists in delivery of pharmaceutical care.

Prerequisite: PHA41PCA.

Class requirements: Three 1-hour lectures and one 2-hour workshop or equivalent directed learning per week and 3-weeks of placement per semester.

This unit is not available for Study Abroad students.

Assessment: four 500-word assignments (clinical histories obtained from placements) (40%) A satisfactory placement report must be submitted to pass this unit, one 2.5-hour examination (60%). Students must obtain at least 40% in the examination to pass this unit

Prescribed Reading:

Koda-Kimble MA et al. *Handbook of Applied Therapeutics* (latest edn.) USA, Lippincott-Williams and Wilkins
Therapeutic Guidelines *Therapeutic Guidelines* (current editions of relevant titles) Melbourne, Australia

PHA4PM PHARMACEUTICAL MICROBIOLOGY AND ONCOLOGY (15 CPs Sem. TE-SEM-1 BE.) *Professor Robert SEVIOUR*

Material presented in Introduction to Microbiology is extended and built on. Topics covered include: sterilization techniques and sterility testing, microbial standards for sterile products, microbial genetics and antibiotic resistance and vaccination. Infections of organ systems, treatment with antibiotics, antifungals, antivirals, antiprotazoals and anthelmintics will also be covered along with oncology and cytotoxic drugs.

Prerequisite: BIO211MB.

Class requirements: Three 1-hour lectures per week and ten 2-hour workshops or practical sessions, per semester. This unit is not available for Study Abroad students.

Assessment: One 3-hour examination (65%), four practical/workshop reports (1500 words total) (35%)

Prescribed Reading:

PHA4PP PHARMACY PROJECT (15 CPs Sem. TE-SEM-2 BE.) *Mrs Joy Spark*

Students will work in groups of a maximum of eight (8) students, to conduct a project under the supervision of academic staff. The group will choose a topic on an issue relevant to pharmaceutical science or pharmacy practice.

Prerequisite: PHA3APP.

Class requirements: The group will meet with their supervisor for one hour once a week, to demonstrate their progress and participation. This unit is not available for Study Abroad students.

Assessment: One initial 15-minute group oral presentation (10%), demonstrated participation and one final 30–45-minute group oral presentation (35%). Each student's participation will be assessed by the other students in their group. Individual students must satisfy participation requirements to pass the subject. Final report, where each member is responsible for 3000 words (55%)

PHA4PPM PHARM PRAC AND MANAGEMENT: PHARMACY PRACTICE AND MANAGEMENT (15 CPs Sem. TE-SEM-2 BE.) *Mr Barry Phillips*

Students will be provided with an understanding of legal, accounting and other associated aspects relevant to management. Topics will include business structures, law of contract, law of negligence, Trade Practices Act, insurance, confidentiality, law of employment, equal opportunity, occupational health and safety, basic accounting concepts, organisational issues and pharmacy management computer software.

Class requirements: One 3-hour seminar and one 2-hour workshop or equivalent directed learning, per week.

This unit is not available for Study Abroad students.

Assessment: One 2500-word essay (50%), one 2-hour examination (50%)

Prescribed Reading:

PHY0BP BRIDGING PHYSICS (30. CPs Sem. TE-ALL-YR BE.) *Dr Katherine Legge*

Legge

Not available in 2008

PHY1MO MEASUREMENT AND OBSERVATION (15 CPs Sem. TE-SEM-2 BE.)

Mr Mal Haysom

This unit is intended primarily for students enrolled in the first year of the Bachelor of Applied Science. In this unit students will be introduced to the concepts of Physics used in the major study areas of the Applied Science degree. In particular they will be introduced to the concepts upon, which much of modern instrumentation is based. On completion the students should have a competence in the application of the principles of physics covered and an understanding of basic measurement and observation techniques. Topics covered include waves, optics, thermal properties of materials, pressure, basic mechanics, electricity, fields, the structure of atoms and radioactivity.

Incompatible unit: Students who have completed Physics 120 to a satisfactory level may not enrol in this unit without permission from their course coordinator.

Class requirements: Three 1-hour lectures per week
one 2-hour practical session per week.

Assessment: Six practical reports (250 words each) (40%), one 3-hour examination (60%)

Prescribed Reading:

Trefil J and Hazen R. *Physics Matters* Wiley, 2004

PHY1MS MECHANICS OF SOLIDS (15. CPs Sem. TE-SEM-2 BE.) *Dr Andrew Kilpatrick*

Kilpatrick

In this unit, students are introduced to the fundamentals of structural mechanics. Topics covered include force and force systems, equations of equilibrium in two and three dimensions, external and internal forces, free-body diagrams, supports and calculation of reactions, analysis of statically determinate structural systems, truss analysis (method of joints and method of sections), distributed forces, centre of gravity, properties of areas and masses, forces in statically determinate beams, shear and bending moment diagrams, axial and shear stresses, stresses due to axial, bending and shear, combined stresses and introductions to torsion and buckling of columns.

Prerequisite: PHY1PA.

Class requirements: Four hours of lectures and two hours of tutorials/laboratory per week.

This unit is not available for Study Abroad students.

Assessment: One 3-hour examination (80%), three assignments (each 375 words) (15%), laboratory work (5%)

Prescribed Reading:

Hibbeler, RC. *Statics and mechanics of materials* 2nd edn. Prentice Hall.

PHY1PA PHYSICS A (15. CPs Sem. TE-SEM-1 BE.) *Dr Katherine Legge*

In this unit opportunities are provided to build on skills learned in year-12 physics to develop problem-solving techniques, to promote a conceptual understanding of physics and to provide an introduction to further study in the physical sciences. The key concepts in mechanics, heat and material properties are explored in this unit laying the foundation for subsequent studies in the engineering program.

Prerequisite: VCE Physics 3 and 4 and Mathematical Methods 3 and 4 or equivalent.

Class requirements: Three 1-hour lectures, one 2-hour practical and one 1-hour tutorial per week (including up to a maximum of 13 hours of directed learning per semester).

This unit is not available for Study Abroad students.

Assessment: One 3-hour examination (70%). In order to pass this subject, students must obtain a mark of at least 40% on the examination, as well as an overall mark of at least 50%. Laboratory work (20%), assignment (10%). The assignment will consist of up to 30 selected calculation-based problems.

Prescribed Reading:

Randall D. Knight *Physics for Scientists and Engineers with Modern Physics – A strategic approach* Pearson Addison Wesley

PHY1PB PHYSICS B (15 CPs Sem. TE-SEM-2 BE.) *Dr Katherine Legge*

In this unit students build on their foundation course knowledge in the fundamentals of physics. Students are encouraged to develop problem-solving skills and conceptual understandings in the areas of electromagnetism, optics and atomic and nuclear physics.

Prerequisite: VCE Physics units 3 and 4, Mathematical Methods 3 and 4.

Class requirements: Three 1-hour lectures per week; and two hours of practical or tutorials per week (including up to a maximum of 13 hours of directed learning per semester).

This unit is not available for Study Abroad students.

Assessment: One 3-hour examination (70%). To pass this subject, a mark of at least 40% must be obtained for the examination, as well as an overall mark of at least 50%. Laboratory work (20%), assignment (10%). The assignment will consist of up to 30 selected calculation-based problems.

Prescribed Reading:

Randall D. Knight *Physics for Scientists and Engineers with Modern Physics – A strategic approach* Pearson Addison Wesley

PHY2E ELECTRONICS (15. CPs Sem. TE-SEM-1 BE. TE-SEM-2 BE.) *Mr Mal Haysom*

Not available in 2008

PHY2TPA TOPICS IN PHYSICS A (15 CPs Sem. TE-SEM-1 BE.) *Dr Katherine Legge*

This unit is co-taught with Principles of Physics A (PHY2SCA) on the Bundoora Campus. Students will undertake three of the four components offered in PHY2SCA. The components focus on a number of fundamental areas of physics. By completion students should comprehend fundamental tenets of the theory of physics, have acquired additional experimental skills related to a practical exploration of the topics and have developed problem-solving skills and the ability to construct useful mathematical models for physical situations. In the laboratory component an extensive selection of experiments relate to the components, as well as a selection of specialist experiments.

Prerequisite: PHY1PA, PHY1PB, MAT1CA, MAT1CB or approval from a course adviser of studies.

Class requirements: Three 1-hour lectures, 1-hour tutorial and up to two hours of laboratory per week.

Assessment: Three 1-hour examinations (70%), tutorial problem sets (10%), practical laboratory reports (20%)

PHY3EM ELECTRON MICROSCOPY (15. CPs Sem. TE-SEM-2 BE.) *Dr Rob Glaisher*

Topics covered include: Electron Optics: electromagnetic waves, resolution, magnification and lens aberrations. Basic vacuum technology. Electron beam production and control. Image formation by secondary, backscatter and transmitted electrons. Chemical analysis via energy dispersive x-ray spectroscopy. Quantitative interpretation of images using computer image analysis and specimen preparation. Biological applications are covered in lectures and practical classes, with these including conventional electron microscopy, cytochemistry, gold labelling and cryo techniques.

Prerequisite: PHY11PA OR PHY12PB OR PHY12MO.

Class requirements: Three 1-hour lectures and one 3-hour practical per week.

Assessment: One 2-hour examination (50%), one assignment (calculation-based) equivalent to 2500 words (50%)

PSY1BNA INTRODUCTION TO BEHAVIOURAL NEUROSCIENCE A (15 CPs Sem. TE-SEM-1 AW, BE, BU.) *AW: Dr Brad Wright, BE: Dr Anna Kokavec, BU: Dr Stephen Kent*

In this unit students are introduced to the language of neuroscience and in particular to the nomenclature that is fundamental to an understanding of the relationship between the biological processes of the brain and behaviour. The unit is designed to link knowledge and techniques from traditional biological disciplines, such as genetics, with those of psychology as a behavioural science. Topic areas centre

on study of the neuron as the basic cellular unit of the nervous systems and include ultra structural and neurophysiological approaches to excitable membranes, neurotransmitters and psychopharmacology.

Quota: 250. Subject to laboratory space constraints

Class requirements: Three 1-hour lectures and one 3-hour laboratory class per week.

Assessment: One 1000-word essay (20%), one 1000-word work book (15%), one 100-word in-class practical examination (15%), one 2-hour examination (50%)

Prescribed Reading:

Bear, MF, Connors, BW and Paradiso, MA. (2006) *Neuroscience: Exploring the brain* 3rd edn. Baltimore: Williams and Wilkins

PSY1BNB INTRODUCTION TO BEHAVIOURAL NEUROSCIENCE B (15 CPs Sem. TE-SEM-2 AW, BE, BU.) *AW: Dr Brad Wright, BE: Dr Anna Kokavec, BU: Dr Stephen Kent*

In this unit students are introduced to the mechanisms of sensory (input) information and motor processing and the intrinsic factors affecting brain development and behaviour such as, hormones, learning and memory. Lectures are organised into four streams: neuroscience of sensory and motor systems, brain development, neuroendocrinology and introduction to the neuroscience of learning and memory.

Quota: 250. Resource constraints

Class requirements: Three 1-hour lectures and one 3-hour laboratory class per week.

Assessment: One oral poster presentation (10%), one 1000-word laboratory report (20%), one 2-hour examination (50%), one 1000-word work book (20%)

Prescribed Reading:

Bear, MF, Connors, BW and Paradiso, MA. (2006) *Neuroscience: Exploring the brain* 3rd edn. Baltimore: Williams and Wilkins

PSY1PSA PSYCHOLOGY STUDIES A (15. CPs Sem. TE-SEM-1 AW, BE, BU, HK, MI, SH.) *Dr Sandra Tunley*

BU: AW: BE: MI: SH: Available only to students enrolled in the Bachelor of Social Work and the Bachelor of Social Work/Bachelor of Human Services. BU: AW: BE: Not available to students enrolled in the Bachelor of Psychological Science. This is not part of an APAC-accredited course of study and completion cannot be counted towards membership of the APS, or registration as a psychologist.

In this unit students are introduced to psychology as a science. The aim is to assist students to understand behaviour in terms of current theories of psychology. The content is presented in the several core areas of: the discipline. These areas are examined from both a theoretical and an applied perspective. Methods of studying behaviour in these content areas are examined and there is a focus on developing a variety of academic abilities such as the group work, library and writing skills of students.

Incompatible unit: PSY11PYA, PSY1PYA

Quota: 100.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: One 1250-word essay (25%), one 1.5-hour examination (40%), one 500-word library and referencing assignment (10%) and one 750-word research report (20%), tutorial participation (5%)

Prescribed Reading:

Westen, D, Burton, L and Kowalski, R. *Psychology: Australian and New Zealand edn. Milton, Qld:* John Wiley and Sons Australia, Ltd 2006

PSY1PSB PSYCHOLOGY STUDIES B (15. CPs Sem. TE-SEM-2 AW, BE, BU, HK, MI, SH.) *Dr Sandra Tunley*

BU: AW: BE: MI: SH: Available only to students enrolled in the Bachelor of Social Work and the Bachelor of Social Work/Bachelor of Human Services. BU: AW: BE: Not available to students enrolled in the Bachelor of Psychological Science. This is not part of an APS-accredited course of study and completion cannot be counted towards membership of the Society, or registration as a psychologist.

In this unit students are introduced to psychology as a science. The aim is to further assist students to understand behaviour in terms of current theories of psychology. The content is presented in several core areas of the discipline. These areas are examined from both a

theoretical and an applied perspective. Methods of studying behaviour in these content areas are examined and there is a focus on further developing a variety of academic abilities such as the group work, library and writing skills of students.

Incompatible unit: PSY12PYB, PSY1PYB

Quota: 100.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: One 1250-word essay (25%), one 30-minute group tutorial presentation (20%), one 500-word report (10%), one 1.5-hour examination (40%), tutorial participation (5%)

Prescribed Reading:

Westen, D, Burton, L and Kowalski, R. *Psychology: Australian and New Zealand edn.* Milton, Qld: John Wiley and Sons Australia, Ltd. 2006

PSY1PYA PSYCHOLOGY A (15. CPs Sem. TE-SEM-1 AW, BE, BU.) AW: Ms

Sharon Zakhary, BE: Dr Tim Godber, BU: Dr Mary Omodei

In this unit and its companion PSY1PYB, students are introduced to the scientific study of psychology and gain a foundation for higher level units in psychology. The curriculum provides an introduction to the discipline and initiates the study of several key fields of psychology, the formal terms and theories associated with those fields as well as the scientific methods used to gather the relevant knowledge. Students will also be taught the skills of writing research reports to communicate their investigations and will participate in activities that foster group work skills.

Prerequisite: Enrolment in this unit is restricted. Therefore, students enrolled in courses for, which this unit is not core must obtain the approval of the course adviser prior to enrolment.

Incompatible unit: PSY11PSA, PSY1PSA

Quota: 450.

Class requirements: Three 1-hour lectures and one 1-hour tutorial per week.

Assessment: One 2000-word tutorial workbook (50%), one 2-hour examination (50%)

PSY1PYB PSYCHOLOGY B (15. CPs Sem. TE-SEM-2 AW, BE, BU.) AW: Ms

Sharon Zakhary, BE: Dr Tim Godber, BU: Dr Mary Omodei

The work in this unit complements the content of PSY1PYA. The formal terms and theories associated with those fields, as well as the scientific methods used to gather the relevant knowledge, will be presented. PSY1PYB will also further develop student skills in: the writing of research reports and essays; the conduct of library research and participation in group work.

Incompatible unit: PSY12PSB, PSY1PSB

Quota: 450.

Class requirements: Three 1-hour lectures and one 1-hour tutorial per week.

Assessment: One 2000-word tutorial workbook (50%), one 2-hour examination (50%)

PSY2PYA PSYCHOLOGY A (20. CPs Sem. TE-SEM-1 AW, BE, BU.) AW: Dr

Brad Wright, BE: Dr Anna Kokavec, BU: Dr Ben Ong

In this unit, students are expected to study, in detail and at a more advanced level, the major content areas of experimental psychology introduced in first year. The aim is to consolidate theoretical knowledge and methodological skills for conducting psychological research. Together with PSY2PYB, this unit forms the second year of the APAC-accredited major sequence and covers the following content areas: cognitive psychology, social neuroscience, perception, individual differences and psychological research methods.

Prerequisite: PSY11PYA and PSY12PYB, STA12PSY or STA12OCT.

Class requirements: Three 1-hour lectures and one 1-hour tutorial per week.

Assessment: Two 1500-word tutorial workbooks (50%), one 2-hour examination (50%)

PSY2PYB PSYCHOLOGY B (20. CPs Sem. TE-SEM-2 AW, BE, BU.) AW: Dr

Brad Wright, BE: Dr Anna Kokavec, BU: Dr Ben Ong

In this unit, students are expected to study, in detail and at a more advanced level, the major content areas of experimental psychology

introduced in first year. The aim is to consolidate theoretical knowledge and methodological skills for conducting psychological research. Together with PSY2PYA, this unit forms the second year of the APAC-accredited major sequence and covers the following content areas: abnormal psychology, history of psychology, social psychology, language and child development and psychological research methods.

Prerequisite: PSY11PYA and PSY12PYB and STA12PSY or STA12OCT.

Class requirements: Three 1-hour lectures and one 1-hour tutorial per week.

Assessment: Two 1500-word tutorial workbooks (50%), one 2-hour examination (50%)

PSY3ANA APPLIED NEUROSCIENCE A (20 CPs Sem. TE-SEM-1 AW, BE, BU.)

Dr Richard Weisinger

Not available in 2008

PSY3CDB COGNITIVE AND DEVELOPMENT PSYCHOLOGY B (20 CPs

Sem. TE-SEM-2 AW, BE, BU.) Dr Sheila Crewther

Not available in 2008

PSY3CFA COUNSELLING AND FAMILY PSYCHOLOGY A (20 CPs Sem. TE-

SEM-1 AW, BE, BU.) Dr Anthony Love

This is one of four elective units offered in the second or third year of the Psychological Science degree. In this unit students study topics related to counselling skills, theories of attachment and family functioning.

Prerequisite: PSY1PYA and PSY1PYB.

Incompatible unit: PSY21TOP, PSY22TOP, PSY31TOP, PSY32TOP, PSY30APP, PSY31APP, PSY32APP

Quota: 300.

Class requirements: Three 1-hour lectures and one 1-hour tutorial per week.

Assessment: Two 1500-word case studies (50%), one 2-hour examination (50%). one oral poster presentation, hurdle requirement only

PSY3HMH PSYCHOLOGY 3 – HEALTH/MENTAL HEALTH (15. CPs Sem. TE-

SEM-2 BE.) Dr Sue Jeavons

In this unit, students study two themes of health. The health psychology theme will examine psychological theory of health, provide current perspectives of the relationship between mind and body, address a theoretical and empirical understanding of stress, strain and hassles on health and address health promotion by focusing on lifestyle issues that purport to describe, explain and predict the health behaviours of individuals, communities and populations. The mental health theme examines a number of psychological disorders, which are approached from the viewpoint of the diagnostic criteria and theoretical models for their aetiology (causes). Video material and case studies are used to illustrate the disorders.

Prerequisite: PSY11PIA and PSY12PIB.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: One 2-hour final examination (40%), two tutorial presentations written as two 1000-word essays (50%), weekly-written tutorial response (10%)

Prescribed Reading:

Barlow, DH and Durand, VM. (2004) *Abnormal psychology: an integrative approach* 4th edn. Pacific Grove, CA: Brooks/Cole
Caltabiano, ML and Sarafino, EP. (2002). *Health psychology: biopsychosocial interactions* Milton Qld: John Wiley and Sons Australia, Ltd

PSY3HMP PSYCHOLOGY 3 – HEALTH/MENTAL HEALTH (P) (20. CPs Sem.

TE-SEM-2 BE.) Dr Sue Jeavons

In this unit students study two themes of health. The health psychology theme will examine psychological theory of health, provide current perspectives of the relationship between mind and body, address a theoretical and empirical understanding of stress, strain and hassles on health and address health promotion by focusing on lifestyle issues that purport to describe, explain and predict the health behaviours of individuals, communities and populations. The

mental health theme examines a number of psychological disorders, which are approached from the viewpoint of the diagnostic criteria and theoretical models for their aetiology (causes). Video material and case studies are used to illustrate the disorders.

Prerequisite: PSY11PIA and PSY12PIB.

Class requirements: Two 1-hour lectures, one 1-hour tutorial and one 1-hour practical per week.

Assessment: One 2-hour final examination (40%), two tutorial presentations written as two 1000-word essays (30%), weekly-written tutorial response equivalent to 500 words (10%), research report equivalent to 1500 words (20%)

Prescribed Reading:

Barlow, DH and Durand, VM. (2004) *Abnormal psychology: An integrative approach* 4th edn. Pacific Grove, CA: Brooks/Cole
Caltabiano, ML and Sarafino, EP. (2002). *Health psychology: Biopsychosocial interactions* Milton Qld: John Wiley and Sons Australia Ltd

PSY3PYA PSYCHOLOGY A (20 CPs Sem. TE-SEM-1 AW, BE, BU.) *AW: Dr Michael Halloran, BE: Dr Anna Kokavec, BU: Dr Emiko Kashima*

This unit of study is usually taken as the first semester of a year-long program. These are the final units in the major sequence of psychology and are part of the sequence accredited by APAC. Upon completing PSY3PYA/3PYB, students will be able to demonstrate further knowledge of both theory and research in key areas in psychology, including cognition, cultural psychology, developmental psychology, language, neuropsychology, social psychology and ethics and professional practice. Students will also have developed skills in the analysis of the philosophical underpinning of psychological theories, quantitative and qualitative psychological research methods, applied psychometric theory and evaluation of psychological tests and assessment methods. Students should also have integrated and advanced their understanding of scientific research methods.

Prerequisite: PSY21PYA and PSY22PYB.

Class requirements: Three 1-hour lectures, one 1-hour tutorial per week.

Assessment: Two 2000-word assignments (50%), one 2-hour examination (50%).

PSY3PYB PSYCHOLOGY B (20 CPs Sem. TE-SEM-1 AW, BE, BU.) *AW: Dr Michael Halloran, BE: Dr Anna Kokavec, BU: Dr Emiko Kashima*

These are the final units in the major sequence of psychology and are part of the sequence accredited by the APS.

Upon completing PSY3PYA/3PYB, students will be able to demonstrate further knowledge of both theory and research in key areas in psychology, including cognition, cultural psychology, developmental psychology, language, neuropsychology, social psychology and ethics and professional practice. Students will also have developed skills in the analysis of the philosophical underpinning of psychological theories, quantitative and qualitative psychological research methods, applied psychometric theory and evaluation of psychological tests and assessment methods. Students should also have integrated and advanced their understanding of scientific research methods.

Prerequisite: PSY21PYA and PSY22PYB.

Incompatible Unit: PSY30PY

Class requirements: Three 1-hour lectures, one 1-hour tutorial per week.

Assessment: Two 2000-word assignments (50%), one 2-hour examination (50%).

PSY3RSA RESEARCH PROJECT A (20 CPs Sem. TE-SEM-1 AW, BE, BU.) *AW: Dr Michael Halloran, BE: Dr Anna Kokavec, BU: Dr Emiko Kashima*

This is the first part of a supervised research project, which provides training in research methods as required by the Australian Psychology Accreditation Council. The supervised research project runs over both PSY3RSA and PSY3RSB. PSY3RSA is comprised of: conducting a literature review, a rationale for the research project, design of a suitable study, application for ethics approval and the writing of a research proposal. These activities are supported by a block of thirteen 1-hour seminars and thirteen 3-hour tutorials.

Prerequisite: PSY21PYA or PSY2PYA and PSY22PYB or PSY2PYB.

Quota: 160. Approval of Adviser of Studies required

Class requirements: Blocks of seminars equivalent to one 1-hour lecture per week and one 3-hour tutorial per week.

Assessment: A 2000-word draft ethics application (10%) The draft ethics application is a hurdle requirement. One 3000-word project proposal (80%), project participation (10%)

PSY3RSB RESEARCH PROJECT B (20 CPs Sem. TE-SEM-2 AW, BE, BU.) *AW: Dr Michael Halloran, BE: Dr Anna Kokavec, BU: Dr Emiko Kashima*

This is the second part of a supervised research project, which provides training in research methods, as required by the Australian Psychology Accreditation Council. The supervised research project runs over both PSY3RSA and PSY3RSB. PSY3RSB is comprised of: collecting research data, conducting statistical analyses of these data, understanding the implications of the data for the original research question and writing a research report describing the whole of the study. These activities are supported by a block of thirteen 1-hour seminars and thirteen 3-hour tutorials.

Prerequisite: PSY21PYA or PSY2PYA and PSY22PYB or PSY2PYB and PSY3RSA.

Quota: 160. Approval of Adviser of Studies required

Class requirements: Blocks of seminars equivalent to one 1-hour lecture per week and one 3-hour tutorial per week.

Assessment: One 4000-word project report and one 1000-word display and discussion poster presentation (90%). The poster presentation is a hurdle requirement. Project participation (10%)

PSY3SCB SOCIAL AND COMMUNITY PSYCHOLOGY B (20 CPs Sem. TE-SEM-2 AW, BE, BU.) *Dr Art Stukas*

This is one of four elective units offered in the second or third year of the Psychological Science degree. In this unit students study topics related to Social Psychology and Community Psychology.

Prerequisite: PSY1PYA and PSY1PYB.

Incompatible unit: PSY21TOP, PSY22TOP, PSY31TOP, PSY32TOP, PSY30APP, PSY31APP, PSY32APP

Quota: 250

Class requirements: Three 1-hour lectures and one 1-hour tutorial per week.

Assessment: Two 1500-word case studies (50%), one 2-hour examination (50%). One oral poster presentation, hurdle requirement only

SCIOICP INDUSTRY CADETSHIP (60 CPs Sem. TE-SEM-1 AW, BE, BU. TE-SEM-2 AW, BE, BU.) *Ms Jill Mullen*

Students enrolled in this unit are involved in the Industry Cadetship Program. The program enables students to spend a training period within a specific industry. The program is competitive with each position requiring a formal application and interview process. Final selection is made by the Industry partner involved.

Prerequisite: Enrolment in an undergraduate program of the Faculty of Science, Technology and Engineering.

Class requirements: The placement is carried out during semester as agreed between the industry partners the student and the ICP office of the Faculty.

This unit is not available for Study Abroad students.

Assessment: NONE (100%)

SCIOICS INDUSTRY CADETSHIP (0 CPs Sem. TE-W47-06 AW, BE, BU.) *Ms Jill Mullen*

Students enrolled in this unit are involved in the Industry Cadetship Program. The program enables students to spend a training period within a specific industry. The program is competitive with each position requiring a formal application and interview process. Final selection is made by the Industry partner involved.

Prerequisite: Enrolment in an undergraduate program of the Faculty of Science, Technology and Engineering.

Class requirements: The placement is carried out during the summer break as agreed between the industry partners the student and the ICP office of the Faculty.

This unit is not available for Study Abroad students.

Assessment: NONE (100%)

SCIOICW INDUSTRY CADETSHIP (0 CPs Sem. TE-SEM-2 AW, BE, BU.) *Ms**Jill Mullen*

Students enrolled in this unit are involved in the Industry Cadetship Program. The program enables students to spend a training period within a specific Industry. The Industry Cadetship Program is competitive with each position requiring a formal application and interview process. Final selection is made by the Industry partner involved.

Prerequisite: Enrolment in an undergraduate program of the Faculty of Science, Technology and Engineering.

Class requirements: The placement is carried out during the winter break as agreed between the industry partners the student and the ICP office of the Faculty.

This unit is not available for Study Abroad students.

Assessment: NONE (100%)

SCI1DS DISCOVERING SCIENCE (15 CPs Sem. TE-SEM-1 BE. TE-SEM-2 BE.)*Dr Katherine Legge*

In this unit opportunities will be provided to enhance students' knowledge and skills in general science through the examination of key concepts relating to the local environment. Students will be introduced to the concepts of atoms and atomic structure as a basis for a multidisciplinary examination of the materials and colours of their surroundings.

Class requirements: Two 1-hour lectures and one 2-hour practical per week plus one 4-hour off-campus excursion per semester.

Assessment: One 2-hour examination (50%) To pass this subject students must attend at least 80% of practical classes. One 1500-word investigation project (30%), practical work (20%)

Recommended Reading:

Tillery, BW. *Physical sciences*. (2002) McGraw-Hill, New York.

Trefil, J and Hazen, RM. *The sciences: an integrated approach*. (2001) John Wiley and Sons, New York.

SCI1ES ENVIRONMENTAL SCIENCE (15. CPs Sem. TE-SEM-2 BE.) *Dr John**Russell*

In this unit students are introduced to the nature of the environment and its uses and abuses by our society. A multi-disciplinary approach is used to examine chemical, biological and physical processes, how these may be unbalanced by human activity and the subsequent effect on human health and the environment.

Class requirements: One 2-hour lecture and one 2-hour practical/tutorial class per week. A minimum of two field excursions will be conducted in lieu of some practical sessions.

Assessment: Up to three case studies – total 1500 words (30%), one 2-hour examination (50%), practical work (20%)

Prescribed Reading:

Miller, GT. *Sustaining the Earth* 7th edn. Thomas Nelson Aust.

SCI1G1A GROUP RESEARCH 1A: SCIENCE AND SOCIETY (15. CPs Sem. TE-SEM-1 BE.) *Dr Sabine Wilkens*

Not available in 2008

SCI1G1B GROUP RESEARCH 1B: COMMUNICATION OF SCIENCE (15.

CPs Sem. TE-SEM-2 BE.) *Dr Katherine Legge, Dr Sabine Wilkens*

Not available in 2008

SCI2EE EARTH AND ENERGY (15. CPs Sem. TE-SEM-1 BE. TE-SEM-2 BE.) *Dr**Katherine Legge*

In this unit students will explore the concept of energy. A multidisciplinary approach is taken to examine energy and energy transfer and the consequences for life on Earth. Students are introduced to, our place in space and the temporal variations that affect weather, tides and seasons. Energy resources are researched in terms of their environmental impact, practicality and suitability.

Prerequisite: SCI11/2DS.

Class requirements: Two 1-hour lectures and one 2-hour practical per week per semester.

Assessment: One 1500-word case study (30%), practical work (20%), one 2-hour examination (50%)

Recommended Reading:

Healey, J. (Ed) *Alternative energy* (2001) Spinney Press, Rozelle, NSW.

Risten, R, and Kraushaar, J. *Energy and the environment* (1999) John Wiley and Sons, New York.

McKinney, M and Schoch, R. *Environmental science: systems and solutions* (1998) Jones and Bartlett Publishers, Sudbury, Mass.

Hill, R, O'Keefe, P and Snape, C. *The future of energy use* (1995) St Martin's Press, New York

SCI2FN FOOD AND NUTRITION (15 CPs Sem. TE-SEM-2 BE.) *Dr Sabine**Wilkens*

In this unit students will be introduced to the basics of food science, nutrition and food handling. A multi-disciplinary approach is used to examine the chemistry and biology of food, nutrition, energy requirements and food handling procedures.

Prerequisite: BIO1CO.

Class requirements: Two 1-hour lectures, one 2-hour block of tutorials/demonstration/laboratory sessions per week.

Assessment: One 2-hour examination (50%), one 1500-word assignment (30%), laboratory work (20%)

Preliminary Reading:

To be advised

SCI2MI MODERN ANALYTICAL TECHNIQUES (15 CPs Sem. TE-SEM-1 BE.)*Dr Michael Angove*

This unit is offered at third unit level also.

To introduce students to some of the important instrumental techniques used in modern science. Students will gain an appreciation for the application and limitation of techniques such as spectroscopy, microscopy and separation methods. The unit will focus on sample preparation and the interpretation of instrumental output. After completing the unit, students will be able to suggest appropriate instrumentation and sample handling procedures required for the analysis and characterisation of a particular sample.

Prerequisite: CHE11C1A or CHE10GE2, and PHY12MO or with approval of Subject Convenor.

Class requirements: Two 1-hour lecture/tutorials and three hours of laboratory work per week.

Assessment: One 7200-word group report. Each student will contribute 1800 words. (60%). Groups will be of four students each, one 25-minute group presentation (30%), one individual 10-minute presentation (10%)

Prescribed Reading:

Harris, D. *Quantitative Chemical Analysis*. 5th edn. Freeman: New York (1999)

SCI3ECS ENVIRONMENTAL CASE STUDIES (15 CPs Sem. TE-SEM-1 BE. TE-SEM-2 BE.) *Dr TBA*

This unit examines how scientific studies may be applied to determining the origin, nature and quality of land and water resources; assessing the impacts of using resources on the quality and diversity of the biophysical environment; identifying and monitoring environmental change – past, present and future; and assisting balanced decision-making in the sustainable use of resources.

The unit is based around field studies of the physical and biological components and the dynamics of selected ecosystems. Lecture and practical classes provide a background for and follow-up to those field studies.

Prerequisite: GEO1ES, BIO2ECO, CHE2ENV.

Class requirements: Equivalent of five hours per week in the form of lectures, practical and field work. There will be a minimum of five days compulsory field work.

This unit is not available for Study Abroad students.

Assessment: One 2-hour examination (25%), active participation and performance in field classes and other class activities (10%), submitted reports including written projects, poster and class presentations (65%)

Preliminary Reading:

Jeans, DN. *Australia: a geography, Vol. 1 the natural environment*. Sydney University Press, Sydney, 1986.

Prescribed Reading:

Young, AR. *Environmental; change in Australia since 1788*. Oxford University Press, 1996
 Walker, J and Reuter, DJ. *Indicators of catchment health – a technical perspective*. CSIRO, 1996.
 Graetz, D. *Looking back – the changing face of the Australian continent 1972–1992*. CSIRO, 1992

SCI3PRJ PROJECT (15. CPs Sem. TE-SEM-1 BE. TE-SEM-2 BE.) *Dr Sabine Wilkens*

The student undertakes a research or development project related to his or her major studies. The work follows an approved project proposal and research or development plan, which must be submitted prior to enrolment. The student must present a seminar and submit a formal written report on the project.

Prerequisite: Completion of 180 credit points towards Bachelor of Applied Science degree.

Class requirements: There are no formal classes but work expectations are those of any other subject i.e., (10–12 hours per week on average for the semester).

Assessment: Research or development work and report (minimum 4000 words) (100%). A presentation of 15 minutes' duration is a hurdle requirement.

SCI4SHA SCIENCE HONOURS A (60 CPs Sem. TE-SEM-1 BE. TE-SEM-2 BE.) *Dr Ian Swift*

This unit represents one semester of a year-long unit.

The Honours program includes advanced studies in applied science and an introduction to research. Each student undertakes a research project, representing 65% of the Honours program and reports the outcomes in a thesis and at a seminar. The coursework (35% of the program) comprises an introduction to research methods and a number of specialised topics in applied science.

Class requirements: Students undertake supervised research throughout the academic year and attend such coursework as is specified for the Honours program. Attendance at departmental seminars is mandatory.

This unit is not available for Study Abroad students.

Assessment: Research project: one 17,500-word thesis, one 20-minute seminar and one 10-minute oral examination (65%). The assessment components listed are the combined assessment for SCI4SHA and SCI4SHB. Research methods: assessed by assignments during the academic year (10%). Three specialised topics assessed by examination and/or assignments, each equivalent to 3000 words (25%)

SCI4SHB SCIENCE HONOURS B (60 CPs Sem. TE-SEM-1 BE. TE-SEM-2 BE.) *Dr Ian Swift*

This unit represents one semester of a year-long unit.

The Honours program includes advanced studies in applied science and an introduction to research. Each student undertakes a research project, representing 65% of the Honours program and reports the outcomes in a thesis and at a seminar. The coursework (35% of the program) comprises an introduction to research methods and a number of specialised topics in applied science.

Prerequisite: SCI4SHA.

Class requirements: Students undertake supervised research throughout the academic year and attend such coursework as is specified for the Honours program. Attendance at departmental seminars is mandatory.

This unit is not available for Study Abroad students.

Assessment: Research project: one 17,500-word thesis, one 20-minute seminar and one 10-minute oral examination (65%). The assessment components listed are the combined assessment for SCI4SHA and SCI4SHB. Research methods: assessed by assignments during the academic year (10%). Three specialised topics assessed by examination and/or assignments, each equivalent to 3000 words (25%)

STA1STM STATISTICAL METHODS (15. CPs Sem. TE-SEM-1 BE. TE-SEM-2 BE.) *Dr Christopher Lenard, Ms Lex Milne*

In this unit students will be introduced to statistical methods, which are frequently used in science, business, health science and the social

sciences. Topics include descriptive treatment of sample data, elementary probability and distributions, estimation and hypothesis testing of means and proportions. Other topics may include sample survey techniques, introduction to regression, chi-square distribution and use of statistical packages.

Incompatible unit: ECO1IBS

Class requirements: Two 1-hour lectures and one 2-hour workshop per week.

Assessment: One 3-hour examination (70%). Hurdle: in order to pass the unit, a mark of at least 40% must be obtained on the examination, as well as an overall mark of at least 50%. Two 45-minute tests (each 15%) (30%)

Prescribed Reading:

Moore, DS. *The basic practice of statistics*. 4th edn. W.H. Freeman, New York

STA2FOR FORECASTING (15. CPs Sem. TE-SEM-2 BE.) *Dr Robert Champion*

Statistical forecasting methods are vital parts of contemporary economics, finance, management accounting and logistics. In this unit students are presented with a survey of common statistical forecasting techniques, such as regression analysis and time series methods. Topics include correlation and simple linear regression, multiple regression analysis and an introduction to the analysis of time series. The use of statistical packages is a feature of this unit.

Prerequisite: STA1STM.

Class requirements: Onshore students: three 1-hour lectures and one 1-hour tutorial per week. Offshore students: this unit is offered as a 3-month distance education program in Hong Kong. Students are provided with the text and a comprehensive study guide and are supported by email, telephone and web, as well as 20 hours of lectures in block mode and 18 hours of tutorials either spread during the teaching period or in block mode.

Assessment: One 3-hour exam (70%), 40% exam hurdle, one 45-minute test (15%), one assignment (equivalent 750 essay words) (15%)

Prescribed Reading:

Champion, R and Mills, T. *Forecasting*. La Trobe University, Bendigo, 2006.

STA2OR OPERATIONS RESEARCH (15. CPs Sem. TE-SEM-1 BE.) *Dr John Schutz*

This unit is offered at third unit level also.

Not available in 2008

STA2QC QUALITY CONTROL (15. CPs Sem. TE-SEM-2 BE.) *Dr John Schutz*

This unit is offered at third unit level also.

Not available in 2008

STA3EXD EXPERIMENTAL DESIGN (15. CPs Sem. TE-SEM-1 BE.) *Dr Graeme Byrne*

The design of experiments is a branch of statistics, which has many applications, especially in the experimental sciences, psychology and education. Topics include basic concepts in experimental design, randomisation, blocking and replication and the analysis of variance for factorial and repeated measures designs. Extensive use of statistical packages is a feature of this unit.

Prerequisite: STA21STM.

Class requirements: Two 1-hour lectures and two 1-hour tutorials per week.

Assessment: One 3-hour examination (70%), one calculation-based assignment (equivalent to 1500 words) (30%)

Prescribed Reading:

Kuehl, R. *Design of experiments* 2nd edn. Duxbury Press, 2000.

STA3MA MULTIVARIATE ANALYSIS (15 CPs Sem. TE-SEM-2 BE.) *Dr Graeme Byrne*

Most statistical problems involve many variables and therefore multivariate data analysis has an enormous range of applications. After reviewing key aspects of statistical methods for one variable and multiple regression, students are introduced to common multivariate statistical methods: screening and describing multivariate data, principal component analysis, factor analysis, cluster analysis

and logistic regression. En route, you will encounter the multivariate Normal distribution, learn about matrix algebra and how to use SPSS for multivariate data analysis.

Prerequisite: STA22FOR or STA31EXD.

Class requirements: Two 1-hour lectures and one 1-hour computer laboratory.

Assessment: One 1000-word assignment (25%), one 2000-word assignment (50%), verbal presentation to the class (20 minutes) (25%)

Prescribed Reading:

Lattin, J. *Data Analysis Multivariate Data* 3rd edn. Thomas Nelson Aust.

STA3PRB PROBABILITY (15. CPs Sem. TE-SEM-2 BE.) *Dr Graeme Byrne*

Students wishing to enrol in this unit must seek approval from the Head of the Department of Mathematics and Statistics.

In this unit students are provided with a scientific approach to describing chance and measuring risk. Students will explore the mathematical basis of probability and sample some contemporary applications with special relevance to engineering. Students will be encouraged to think stochastically: that is, to develop an appreciation of the role of probability models for describing various phenomena. Further, they will gain considerable experience in and learn the joys of, problem-solving.

Prerequisite: MAT1CB

Class requirements: Three hours per week of lecture/tutorial classes.

Assessment: One calculation-based assignment (equivalent to 1500 words) (30%), one 3-hour examination (70%)

Prescribed Reading:

Hsu, H. *Schaum's outline of theory and problems of probability, random variables and random processes*. McGraw-Hill, New York, 1996.

STA3TIS TOPICS IN STATISTICS (15. CPs Sem. TE-SEM-1 BE. TE-SEM-2 BE.)

Dr Christopher Lenard

Students wishing to enrol in this unit must seek approval from the Head of the Department of Mathematics and Statistics.

This unit provides an opportunity for students to study a suitable topic in applied statistics, which is not covered in other subjects offered by the Department of Mathematics and Statistics. The topic will depend on the interests of students and available staff.

Prerequisite: Successful completion of 30 credit points of statistics subjects at second year level and permission of the Head of the Department of Mathematics and Statistics.

Class requirements: Three hours of lectures per week.

Assessment: Either two calculation-based assignments (each 50%) (100%) equivalent to 2000 words each, or two calculation-based assignments (each 40%) (80%) equivalent to 1500 words each and one 20-minute presentation (20%)

CHE3ENA CHEMICAL ANALYSIS (15 CPs Sem. TE-SEM-2 BE.) *Dr Michael*

Angove

See CHE2ENA for full unit description.

CSE3MIP MINOR PROJECT (15. CPs Sem. TE-SEM-1 BE. TE-SEM-2 BE.) *Dr*

Pat Horan

See CSE2MIP for full unit description.

MAT3NAG NETWORKS AND GRAPHS (15 CPs Sem. TE-SEM-1 BE.) *Dr*

Christopher Lenard

See MAT2NAG for full unit description.

PHA3PTA PHARMACEUTICS A – TWO PHASE SYSTEMS (15 CPs Sem. TE-SEM-1 BE.) *Mrs Joy Spark*

See PHA2PTA for full unit description.

SCI3MI MODERN ANALYTICAL TECHNIQUES (15 CPs Sem. TE-SEM-1 BE.)

Dr Michael Angove

See SCI2MI for full unit description.

STA3OR OPERATIONS RESEARCH (15. CPs Sem. TE-SEM-1 BE.) *Dr John*

Schutz

See STA2OR for full unit description.

Not available in 2008

STA3QC QUALITY CONTROL (15. CPs Sem. TE-SEM-2 BE.) *Dr John Schutz*

See STA2QC for full unit description.

General information about the Mildura Campus

Introduction

The Mildura campus is located at 1159 Benetook Avenue, between Eleventh and Fourteenth Streets, Mildura and is three kilometres from the city centre and serviced by public transport.

The George and William Chaffey Building is located at 29 Deakin Avenue in the Mildura CBD.

Student services

Student services include counselling, disability support, Indigenous student support, accommodation services, financial aid advice, language and academic skills assistance.

Campus facilities

The Brian Grogan Building at the Mildura Campus includes a 150-seat lecture theatre (with videoconferencing), tutorial/seminar rooms, computer resource laboratory, nursing laboratory, administration and lecturer offices. The building also houses the Murray-Darling Freshwater Research Centre, Lower Basin Laboratory. Other facilities in or near the building include shaded outdoor areas, library, on-site student residential accommodation, book shop, food outlets, child care facility and free car parking.

The George and William Chaffey Building comprises lecture and seminar rooms, student lounge, computer resource laboratory and lecturers' offices.

Facilities for fine art include extensive painting, print making, sculpture, drawing and photographic/multimedia studios associated with darkrooms for black and white and colour production. A networked Apple computer system, scanners, laser printers and digital video editing suite are utilised in the Visual Arts courses.

The Gambetta Library is a shared facility of La Trobe University and Sunraysia Institute of TAFE and provides core materials for all units taught at Mildura. Other material may be sourced by the campus librarian from the larger campuses via intercampus loan. Clients can request copies of journal articles and documents from the collections of the other campus libraries. Computers are readily available for general use and for accessing online lectures, databases and high use reading material in electronic format. Library staff support individuals and class groups with research and information skills.

Units offered at Mildura

For a full description of any unit offered at the Mildura campus, including class requirements, assessment, prerequisites and reading, students should refer to the Course Index at the back of the *Handbook* and then locate the unit in the relevant faculty chapter, or access the Unit Database at (www.latrobe.edu.au/udb_public).

Students should note that units published in the hardcopy *Handbook* are subject to change and should refer to the Unit Database for more up-to-date information.

Faculty of Education

General information about the Faculty of Education

The Faculty of Education caters for a wide range of interests in areas related to education and the environment including undergraduate and graduate teaching programs; TESOL and applied linguistics; outdoor education and environment; nature tourism and natural resources education; and specialist graduate programs for professionals at graduate certificate, graduate diploma and Masters degree levels. The Faculty also provides the opportunity for research at both Masters and Doctoral level. The Faculty provides professional development activities and programs for teachers on a range of educational issues

across all curriculum areas. Students from other Faculties of the University may apply to enrol in some individual education units.

The Faculty consists of three schools: the School of Education, the School of Outdoor Education and Environment and the School of Educational Studies. Programs are offered at Melbourne (Bundoora) and at the regional campuses of Bendigo, Albury-Wodonga, Mildura and Shepparton. Some programs are also offered offshore.

School of Education

Location:

Bendigo

Enquiries: (03) 5051 4009

Email: mildura@latrobe.edu.au

Mildura

Enquiries: (03) 5051 4009

The School of Education offers programs at the Bendigo and Mildura campuses and is committed to providing a rich learning environment for students and staff through innovative programs and services in areas related to education. The School's focus is on pre-service, in-service and postgraduate courses for teachers and other professionals with an interest in education. The school is committed to research and other scholarly activities that advance the teaching profession. Programs offered are informed by current research and are designed to meet the needs of the University's regional and international communities. Students have an opportunity to explore widely with leaders in their particular field of interest.

Specialist areas of study include:

- curriculum and policy
- gifted education
- health education
- information and communication technology
- language and literacy
- middle years
- multimedia education
- physical education
- pre-service teacher education
- rural education
- science and mathematics education
- special education
- student welfare and guidance
- technology education
- vocational education and training.

School of Outdoor Education and Environment

Location: Bendigo Campus

Enquiries: (03) 5444 7285

Email: outdoor.bendigo@latrobe.edu.au

The School offers undergraduate programs in Outdoor Education and Environment including Nature Tourism and Natural Resources Education as well as graduate programs in research (Masters and PhD) and postgraduate coursework at Graduate Diploma and Masters levels. The School's focus is on developing knowledge about nature, building relationships with the land and understanding place, culture, language and experience. Students have an opportunity to explore widely with leaders in their particular field of interest.

Studies in outdoor education and the environment include:

- environmental studies: bush, rock, local, river, winter alpine
- leadership
- natural resources education
- naturalist studies
- nature tourism
- outdoor education
- outdoor and physical education
- outdoor recreation education.

School of Educational Studies

Locations: Melbourne (Bundoora) Campus
Education Buildings 1 and 2
Tel: (03) 9479 2546
Albury-Wodonga Campus
Tel: (02) 6024 9865
Shepparton Campus
Tel: (03) 5833 2589
Email: education@latrobe.edu.au

The School of Educational Studies offers Education (including TESOL and Applied Linguistics) programs in Melbourne (Bundoora), Albury-Wodonga and Shepparton. Some programs are also offered offshore. The School supports the development of educational communities both within and outside Australia; encourages the development and application of new knowledge and ideas through research, teaching and community engagement; promotes open discourse and intellectual integrity in all interactions between staff, students and the wider community; and values interdisciplinary perspectives on education and the reflective development of knowledge and practice.

Specialist studies include:

- pre-service teacher education
- adult education
- applied linguistics (including TESOL and LOTE teaching)
- cross-cultural communication
- multicultural education
- counselling
- student welfare and guidance
- curriculum and policy
- educational administration and leadership
- information and communication technology
- multimedia education
- language and literacy
- science and mathematics education
- technology education
- industry training
- vocational education and training.

General course enquiries

Enquiries about prerequisites, admission requirements and requests for applications for coursework degrees, by both current and prospective students, should be directed to the relevant campus and school office. Local students apply through VTAC for undergraduate courses.

International students

Admission of international students is coordinated by the university's International Programs Office. For information on application procedures, accommodation, visa requirements, fees, etc. contact the office on +61 3 9479 1199 or write to International Programs Office, La Trobe University, Victoria, 3086, Australia. Website: www.latrobe.edu.au/international

Course regulations

All courses offered by the Faculty of Education are governed by a University regulation that specifies the entrance and other requirements of the course. These are supplemented by information contained in this *Handbook* and by other faculty and school policies.

Each course has its own rules of progression and most schools produce specific procedures that operate under the authority of the University regulations and faculty guidelines.

Professional placements

Some courses require students to undertake unpaid professional teaching practice placements. Placements may be located in either metropolitan or rural areas. In most courses that require students to undertake placements, the placement involves being assigned to a school, or other approved educational setting, on a full-time basis over a period of days or weeks. In some cases students undertake placement interstate or overseas.

The University maintains insurance policies to protect students undertaking outside practical placement (practicum) as a compulsory course requirement, or fieldwork or other work undertaken off campus as part of a course or approved research work. Further information is available from the La Trobe University Insurance Office website: www.latrobe.edu.au/insurance/ or Faculty or School Office.

Working with Children Checks

The Victorian Department of Education and Training requires a satisfactory criminal record check for all teacher education students undertaking practicum requirements in Victorian Department of Education and Training schools. It is expected that equivalent requirements will exist for all other Victorian schools. Upon first enrolling in teacher education courses, students will be required to complete a 'Working With Children Check' form available at Australia Post offices. Students must provide a certified copy of their valid 'Working With Children' card prior to undertaking teaching placements. Confirmation of a criminal record may jeopardise a student's ability to gain access to a suitable, or any, practicum placement(s) and may therefore delay or prevent completion of the course.

Fees

Both 'Commonwealth supported' and 'fee-paying' places are available. Australian citizens and holders of Permanent Humanitarian visas offered either a Commonwealth supported place or a fee-paying place are eligible to defer the tuition fees by using the HECS-HELP or Fee-HELP Commonwealth Government loan schemes. Further information on HECS-HELP and Fee-HELP can be found at www.goingtouni.gov.au

Further information on Faculty of Education courses and fees is available on the website: www.latrobe.edu.au/education/courses and www.latrobe.edu.au/education/courses/fees

Flexible teaching arrangements

In order to accommodate student needs, some units are taught in a mode different from the normal regular weekly classes. For example, modes may include block mode (i.e. intensive weekend or week-long classes), classes taught outside of normal semester dates, classes taught via web-based teaching or a combination of online learning and face-to-face classes.

Units offered by the Faculty of Education

A full list of undergraduate units offered by the Faculty of Education appears at the end of this chapter, in alphabetical order. Students should note that units published in the hardcopy *Handbook* are subject to change and should refer to the Unit Database for up-to-date information: www.latrobe.edu.au/udb_public

Unit timetable

Unit timetables are available on the La Trobe website: www.latrobe.edu.au/students/timetables.html or from the Education enquiries office on the campus of enrolment.

Single degrees

Bachelor of Education – Bendigo (RBED)

Bachelor of Education – Mildura (RBEDM)¹

Note: ¹ First year and fourth year only are offered at Mildura. Students in first year at Mildura must transfer to Bendigo for second and third years and have the option of completing fourth year at Mildura or Bendigo.

Note: This course is currently being reaccredited and may vary slightly in 2008.

The course is a four year full-time program. It consists of 480 credit points of study. Units are categorised as Teaching Studies, Curriculum Studies, Discipline Studies and Electives. Practicum and Field Experience units provide essential school-based experiences that contextualise the theoretical components of Teaching and Curriculum Studies. All students, by the end of the course, must have demonstrated the ability or the potential to meet the professional expectations of a beginning teacher. The course is structured so that students may satisfy other specialist teaching requirements, which may then be noted on their formal academic transcript. Possible pathways are:

- Languages Other Than English (LOTE)
- Middle Years P-9
- Catholic Education
- Honours.

Professional recognition

The course is recognised by the Victorian Institute of Teaching (VIT). Graduates from the course are eligible for employment in government, Catholic and independent schools in Victoria, other Australian states or overseas. Graduates may also pursue a range of careers in the human services and training sectors.

Admission requirements

Applicants must satisfy the University's normal entrance requirements, including a study score of at least 25 in Units 3 and 4 of English. Applicants who have a study score of at least 20 in a LOTE will be deemed to have an ENTER up to 3.0 percentage points higher. A special entry provision exists for Aboriginal applicants. Applicants should, in the first instance, consult the Coordinator of the Aboriginal Tertiary Support Unit.

The Victorian Department of Education and Training requires a satisfactory criminal record check for all teacher education students undertaking practicum requirements in Victorian Department of Education and Training schools. It is expected that equivalent requirements will exist for all other Victorian schools. Prior to commencing the course, students will be required to complete a 'Working With Children Check' form available at Australia Post offices. Students must provide a certified copy of their valid 'Working With Children' card prior to undertaking teaching placements. Confirmation of a criminal record may jeopardise a student's ability to gain access to a suitable, or any, practicum placement(s) and may therefore delay or prevent completion of the course.

Course structure

(Note: This course is currently being reaccredited and this course structure listed below is subject to change.)

Teaching Studies (7 units)

All students will study seven units in preparation for teaching.

Year	Teaching period	Unit name	Unit code	Credit points
1	TE-SEM-1	Introduction to Teaching	EDU1ITT	15
1	TE-SEM-2	Theories of Learning	EDU1TL	15
1	TE-SEM-2	Inclusive Education	EDU1IE	15
2	TE-ALLYR	Practicum B	EDU2PRB	15
3	TE-ALLYR	Practicum C	EDU3PRC	15
4	TE-SEM-1	Field Experience A	EDU4FEA	15
4	TE-SEM-2	Field Experience B	EDU4FEB	15

These units provide the professional orientation and the practical perspectives that complement the curriculum studies.

Curriculum Studies (11 units)

All students will study 11 units in curriculum and methods of teaching in the Key Learning Areas of the primary school.

Year	Teaching period	Unit name	Unit code	Credit points
1	TE-SEM-1	Mathematics Teaching	EDU1MT	15
1	TE-SEM-2	Learning Language	EDU1LL	15
2	TE-SEM-1	Science Teaching	EDU2ST	15
2	TE-SEM-2	Art and Music Education	EDU2AME	15
2	TE-SEM-2	Studies of Soc. and Environment	EDU2SOS	15
3	TE-SEM-1	Health and Physical Education	EDU3HPE	15
3	TE-SEM-1	Literacy Teaching	EDU3LT	15
3	TE-SEM-2	Mathematics Learning	EDU3ML	15
3	TE-SEM-2	Science Learning	EDU3SL	15
4	TE-SEM-1	Literacy for All	EDU4LFA	15
4	TE-SEM-2	Numeracy for All	EDU4NFA	15

These units address the dimensions described as the content knowledge and skills for teaching. They include issues such as appropriate content, methods of teaching and strategies for supporting and assessing pupils' learning.

Discipline Studies (minimum 8 units)

All students are required to study a three-unit sequence in a discipline area. Students will be encouraged to choose at least four units in an area that can satisfy the requirements for a minor. The purpose of the discipline studies is to broaden teachers' background knowledge.

Education Discipline Studies

There is also a four-unit sequence in the discipline of education:

Year	Teaching period	Unit name	Unit code	Credit points
1	TE-SEM-1	Learning Technologies	EDU1LT	15
2	TE-SEM-1	The Contemporary Child	EDU2TCC	15
2	TE-SEM-2	Indigenous Studies	EDU2IS	15
3	TE-SEM-1	Education in a Network Society	EDU3ENS	15

These units address the theoretical perspective of education. The thinking and learning undertaken within the units can be generalised to non-school educational contexts.

Electives (6 units)

Students can choose up to six other electives from discipline studies or, in their third and fourth years, advanced teaching and curriculum studies. Students may use their six elective units to satisfy a major in these disciplines, or begin a second minor or major. These electives allow students to pursue their own areas of interest.

Pathways

The course will be structured so that students may satisfy other specialist teaching requirements in particular fields. These will be noted on their formal academic transcript.

Languages Other Than English (LOTE)

Specialist languages include Bahasa Indonesia and Auslan.

LOTE pathway – beginners

Year	Teaching period	Unit name	Unit code	Credit points
1	TE-SEM-1	Indonesian A	INM1IA	15
1	TE-SEM-2	Indonesian B	INM1IB	15

4	TE-SEM-2	LOTE Practicum	EDU4LP	20

Key: ¹ Credit may be given for successful AUSLAN studies at the VCE level.

Middle Years P-9 Pathway

This pathway trains teachers to teach from prep to middle school secondary, provided Victorian Institute of Teaching requirements are satisfied.

Students must complete two minors. It is recommended that at least one be in Mathematics, English, Science, or Information Technology. This pathway includes two relevant Teaching Methods at year 4

Year 4

Year	Teaching period	Unit name	Unit code	Credit points
4	TE-SEM-1	Field Experience A (Sec. Practicum)	EDU4FEA	15
4	TE-SEM-2	Field Experience B (Sec. Practicum)	EDU4FEB	15

Teaching Method units (for Middle Years Pathway)

Please consult with the Course Administrator for up-to-date unit information.

Year	Teaching period	Unit name	Unit code	Credit points
4	TE-SEM-1 and TE-SEM-2	Biology Teaching Method	EDU4BIA/ EDU4BIB	10 10
4	TE-SEM-1 and TE-SEM-2	Business Studies Teaching Method	EDU4BSA/ EDU4BSB	10 10

4	TE-SEM-1 and TE-SEM-2	Outdoor Education Teaching Method	EDU4OEA/ EDU4OEB	10 10

Key: * LOTE Teaching Method includes vacation classes.

Catholic Education Pathway

This pathway qualifies teachers for accreditation in Religious Studies and Catholic teaching. It includes four elective units that must be completed:

Year	Teaching period	Unit name	Unit code	Credit points
3	TE-SEM-1	Teaching Scripture in Catholic Schools	EDU3TSC	15
3	TE-SEM-2	Learning for Catholic Religious Education	EDU3LRE	15
4	TE-SEM-1	Catholic Religious Education Principles and Method	EDU4REP	15
4	TE-SEM-2	Spirituality and Values in Catholic Education	EDU4SVE	15

Honours Pathway

This is a research based pathway for students interested in developing a deeper understanding of a specific topic. It includes a compulsory curriculum unit at Year 4. Entry is by invitation only.

Year	Teaching period	Unit name	Unit code	Credit points
4	TE-ALLYR	Education Thesis	EDU4THE	60

UNIT DESCRIPTIONS

A full description of units, including the unit name, unit code, credit points, campus/location, unit coordinator, class requirements, assessment, prerequisites and readings, appears at the end of this chapter. For the most recent descriptions of units students should access the Unit Database at www.latrobe.edu.au/udb_public

EDU1GCL GENRES IN CHILDREN'S LITERATURE (15 CPs Sem. TE-SEM-1 BE, MI.) *BE: Mr David Beagley, MI: Ms Deb Neal*

In this unit, students study current theories of genres relating to children's literature as a form of social practice. Topics covered include modernist and postmodern picture books, traditional European folk and fairy tales, fantasy and realistic fiction and poetry.

Class requirements: Two 1-hour lectures and one 2-hour tutorial/workshop per week.

Assessment: One 1500-word written assignment (30%), one weekly readings diary – equivalent to 1000 words (20%), evidence of tutorial preparation through participation (10%), one 2-hour written examination (40%).

Recommended Reading:

Lukens R. *A Critical Handbook of Children's Literature*. 7th edn.

Boston: Allyn and Bacon, 2002.

Cullinan B and Galda L. *Literature and the Child*. 6th edn. Belmont, CA: Wadsworth/Thomson Learning, 2006.

Anstey M and Bull, G. *Reading the Visual: Written and Illustrated Children's Literature*. Sydney: Harcourt Australia, 2000.

EDU1HCL HISTORY OF CHILDREN'S LITERATURE 1 (15 CPs Sem. TE-SEM-2 BE, MI.) *BE: Mr David Beagley, MI: Ms Debbie Neal*

In this unit, students investigate the influence of traditional literature on themes and genres in nineteenth and early twentieth century texts for children. Topics covered include myths, legends, folk and fairy tales and their influence on the emergence of the genres of fantasy and realism.

Prerequisite: EDU11GCL.

Class requirements: Two 1-hour lectures and one 2-hour tutorial per week.

Assessment: One set of webpages, with research notes (equivalent to a 1500 – 2000 word essay) (30%), one annotated bibliography (equivalent to a 1000 word essay) (10%), evidence of tutorial preparation through participation (10%), one 2-hour final examination (40%).

Recommended Reading:

Zipes J. *Happily Ever After: fairy tales, children and the culture*. New York: Routledge, 1997.

EDU1IE INCLUSIVE EDUCATION: STUDENT DIVERSITY, WELFARE AND INCLUSIVE (15 CPs Sem. TE-SEM-2 BE, MI.) BE: Ms Cherry Rattue, MI: Mrs Debra Neal

In this unit, students are provided with an introduction to the philosophy and concepts underlying the well-being of all students with specific focus on inclusive education and student welfare. As part of this unit students will consider the functional implications of student diversity and the pedagogical process and practical adaptations that enable teachers to include students with additional learning, behavioural, emotional and environmental needs. The provision of challenging learning activities through the effective differentiation of the curriculum will be explored.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: One 2-hour examination (40%), one 1250 word assignment (30%), attendance, class participation and Practicum observation report – equivalent to a 1250-word essay (30%).

Prescribed Reading:

As detailed annually in the *Anthology of Readings: Welfare, Disability and Inclusion* Bendigo: La Trobe University.

Recommended Reading:

Ashman A and Elkins J (eds). *Educating Children with Diverse Abilities*. Australia: Prentice Hall, 2002.

EDU1IT INTRODUCTION TO TEACHING PRACTICE (15 CPs Sem. TE-SEM-1 BE, MI.) Mr Wilf Savage

In this unit, students will engage in a lecture-tutorial program combined with school-based activities to study how students learn and what teachers must do so that learning can be maximised. The focus for the unit is primarily upon the role of the teacher in the learning experience and the content of the lecture tutorial program draws upon, yet simultaneously illuminates the experiences of students in the concurrent practicum program.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week. 12 days of school experience.

Assessment: One 10-minute tutorial presentation (20%), one 750-word essay (15%), a 1250-word essay (25%), practicum reports (performance assessed by reports from practicum supervisors) (10%), twelve days of (compulsory) supervised teaching practice – hurdle requirement. Satisfactory participation and performance to defined exit standards are required to meet the compulsory hurdle assessment, one 1-hour examination (30%).

EDU1LL LEARNING, LANGUAGE AND ENGLISH/LITERACY (15 CPs Sem. TE-SEM-2 BE, MI.) BE: Ms Debra Edwards, MI: Ms Deb Neal

In this unit students will be involved in the development of self knowledge including an understanding of the influence of their identities and cultures on their development as English/Literacy teachers. Personal competencies including an explicit knowledge about language codes and conventions and the use of technologies to enhance personal learning and as a way of ensuring currency of curricular policies, programs and resources will be considered. Students will be introduced to the developmental nature of language and literacy learning; knowledge of a range of language and literacy

learning theories and associated approaches and programs with a focus on the early years of schooling.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: One 1500-word assignment (30%), one 2-hour examination (40%), attendance, participation and completion of weekly class activities, equivalent to 1000 word essay (30%). Students will be expected to keep a 'Learning Language Notebook' recording reading and preparation for lectures and tutorials, tutorial and WebCT activities and lecture notes.

EDU1LT LEARNING TECHNOLOGIES –
INFORMATION/COMMUNICATION (15 CPs Sem. TE-SEM-1 BE, MI.) Ms

Chris Campbell

In this unit students develop information literacy knowledge, skills and values required for both the application of technology in teaching and learning as well as learning to teach about technology. Topics for this unit include the Internet, software applications for educators, integrating multimedia and educational software applications as well as creating curriculum materials. Issues to be addressed will include those related to ethics, sociology, psychology and communications theory. This unit provides an introduction to practical computing skills and the integration of technology into the classroom. Students will be assisted to achieve the learning outcomes endorsed by the Victorian Institute for Teaching.

Class requirements: Two 1-hour lectures and one 1-hour tutorial/workshop per week.

Assessment: Computer Laboratory Set Activities including online activities – equivalent to a 2000 word essay (40%), Multipage educational website equivalent to 1000 word essay (25%). Individual task, Digital portfolio equivalent to one 1500 word essay (35%) individual task.

Prescribed Reading:

Campbell C. *Electronic readings – various*. La Trobe University.

EDU1MT THE TEACHING OF NUMBER, CHANCE AND DATA AND ALGEBRA (15 CPs Sem. TE-SEM-1 BE, MI.) Dr Dona Martin

Using concepts drawn from the topics of number, chance and data and algebra, the structure of mathematics, the goals of mathematics teaching, the nature of the mathematics curriculum and ways of engaging pupils in mathematics learning are explored. Students will be given the opportunity to broaden their personal understandings of and attitudes to, these key mathematical concepts using problem solving and investigative approaches. The students will examine how understanding of these key mathematical concepts contributes to the development of numerate citizens and how such approaches contribute to their own learning and the implications for their mathematics teaching.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: One 15-minute content assignment (10%). It is a hurdle requirement that all students demonstrate appropriate understanding of relevant mathematical content for primary teaching. One 2-hour examination (40%), one 1000-word assignment (30%), one 15-minute tutorial presentation and one 1000-word assignment (20%).

Preliminary Reading:

EDU1TL THEORIES OF LEARNING (15 CPs Sem. TE-SEM-2 BE, MI.) *Dr Craig Deed*

A lecture-tutorial program based on the second half of a full year study associated with how students learn and what teachers must do so that learning can be maximised. The unit is designed to familiarise students with established theories, which attempt to explain the nature of learning, how it happens and the forces, which influence human motivation.

Prerequisite: EDU11ITT, EDU1ITT.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: Tutorial participation and one oral tutorial presentation equivalent to a 1000 word essay (20%), one 1500 word essay (30%). Completion of two online modules equivalent to 1000 word essay (20%), one Practicum journal(reflective) of 2000 to 3000 words (equivalent to a 1000 word essay) (20%), school practicum Supervisors report (10%). Eight day practical work hurdle (compulsory). Satisfactory participation and performance to defined exit standards are required to meet the compulsory hurdle assessment.

EDU4FEA FIELD EXPERIENCE A – FROM STUDENT TO PROFESSIONAL (15 CPs Sem. TE-SEM-1 BE, MI.) *BE: Mr Wilf Savage, BE: Dr Jennifer Sheed, MI: Ms Debbie Neal*

In this unit, students focus on the transition from student teacher to graduate teacher. The unit will be organised around the themes of essential professional knowledge embodied in the professional standards for graduating teachers current in the various Australian States and Territories with a particular focus on Victoria. The field experience component of the unit will involve students spending a minimum of eight days in schools with a view to strengthening their understandings of the knowledge needed to take their place as a staff member in a school. It will also involve students in data collection and research in order to develop a professional portfolio in response to the professional standards for graduating teachers. Topics examined include schools as institutional work sites, school level planning, teacher recruitment practices, performance management and professional practice.

Prerequisite: EDU11ITT, EDU12TL, EDU22PRB, EDU1ITT, EDU1TL, EDU3PRC, EDU2PRB.

Class requirements: Minimum of eight days in schools, three 6-hour days in block mode during semester and 1-hour workshops over eight weeks.

This unit is not available for Study Abroad students.

Assessment: Develop a professional portfolio, 2000 word equivalent (50%), one 2000 word assignment (50%).

Recommended Reading:

Department of Education, Science and Training. *An ethic of care, effective programs for beginning teachers*. Canberra: Commonwealth of Australia, 2002.

School of Education. *Book of selected readings prepared by unit coordinato*. 2007.

Wyse D. *Becoming a primary school teacher*. London ; New York : RoutledgeFalmer, 2002.

EDU4FEB FIELD EXPERIENCE B – THE TEACHER AND THE

CURRICULUM (15 CPs Sem. TE-SEM-1 BE, TE-SEM-2 BE, MI.) *BE: Mr Wilf Savage, BE: Dr Jennifer Sheed, MI: Ms Debbie Neal*

This unit represents a culmination of the student's four year practicum program. In the weeks leading up to the three-week practicum, which forms the core of the unit, students will spend several days familiarising themselves with their host classroom. During the practicum period, they will be focused upon planning, teaching and assessing units of work, upon individualising instruction and catering for children with particular needs. Students are expected to assume more and more the role of a full-time teacher and to demonstrate the ability to work with children for sustained periods. In addition, particular attention will be placed upon the student's appraisal of themselves as commencing teachers.

Prerequisite: EDU11ITT, EDU22PRB, EDU32PRC, EDU41FEA, EDU4FEA, EDU3PRC, EDU2PRB, EDU1ITT, EDU1TL.

Class requirements: Fifteen days of classroom teaching experience, followed by class presentations on topics researched in the course of their time in school.

This unit is not available for Study Abroad students.

Assessment: 1500-word self-appraisal essay (30%), one 15-minute tutorial presentation exploring a topic researched during time in school (20%), assessment of teaching performance (50%), 15 days of (compulsory) supervised teaching practice – Hurdle requirement. Satisfactory participation and performance to defined exit standards are required to meet the compulsory Hurdle assessment

EDU4ISP INDEPENDENT STUDY PROGRAM (20 CPs Sem. TE-SEM-1 BE, MI.

TE-SEM-2 BE, MI.) *BE: Mr Ray Nichol, MI: Ms Debbie Neal*

In this unit students will examine an area of theoretical and/or professional interest not covered in other subject offerings. Students negotiate with a supervisor the specific problem to be investigated; the means by which the problem can be resolved and the manner in which the findings are to be presented for assessment. Approval is required from the Course Coordinator.

Class requirements: Equivalent of one-hour per week supervisory conference, plus independent study.

Assessment: 5000-word research assignment (100%).

Preliminary Reading:

Negotiated Readings *Negotiated Readings*

EDU4ISS INDEPENDENT STUDENT STUDY (15 CPs Sem. TE-SEM-1 BE, MI.

TE-SEM-2 BE, MI.) *BE: Dr Jenny Masters, MI: Ms Debbie Neal*

In this unit students will examine an area of theoretical and/or professional interest. Students negotiate with the Course Coordinator the specific problem to be investigated; the means by which the problem can be investigated; and the manner in which the findings are to be presented for assessment.

Class requirements: Equivalent of one-hour per week supervisory conference, plus independent study.

Assessment: One 4500-word research report (100%).

Preliminary Reading:

Negotiated Readings

EDU4IT INTERACTIVE TECHNOLOGIES (15 CPs Sem. TE-SEM-1 BE, TE-SEM-

2 BE, MI.) *BE: Ms Chris Campbell, MI: Ms Deb Neal*

Students will apply the principles of instructional design learning theory and product development to build an interactive web environment. The focus will be on information design, project management and evaluation, understanding the basic elements of a hypertext environment through the development of a project. Students will develop skills in emergent technologies such as interactive whiteboard technologies and digital storytelling.

Quota: 22. First in, first enrolled up to quota

Class requirements: Three hours per week.

Assessment: Develop an interactive whiteboard lesson and lesson plan – equivalent to a 1200 word essay (20%) individual task, Website Design Statement and rationale – equivalent a 2500 word essay (30%). Group task, one major interactive website creation project – equivalent to a 3000 word essay (50%). Group task

Various *Electronic readings available on WebCT* Latrobe University

EDU4LFA WEAVING THE THREADS OF LITERACY EDUCATION (15 CPs Sem. TE-SEM-1 BE, MI. TE-SEM-2 BE.) *Ms Debra Edwards, Ms Debbie Neal*

In this unit students are involved in the development of understandings of the need to acknowledge and prepare students for the global nature of society while still valuing and addressing local discourses and cultural and linguistic diversity and knowledge of current debates in relation to teaching English as a second or other language. An awareness of issues and debates in relation to current practices including curriculum literacies, multiliteracies, Indigenous perspectives and Aboriginal English, critical literacies, middle years literacies will also be considered.

Prerequisite: EDU31LT.

Class requirements: Two 1-hour lectures and one 2-hour tutorial per week.

Assessment: One 1500-word essay (30%), one 2-hour examination (open book) (40%), one 1500-word assignment (unit of work) (30%).

Recommended Reading:

EDU4NFA INCLUSIVE APPROACHES TO NUMERACY TEACHING (15 CPs Sem. TE-SEM-2 BE, MI.) *BE: Dr Dona Martin, MI: Ms Debbie Neal*

The emphasis in this unit is on research based approaches to numeracy teaching, with emphasis on flexibility in task and pedagogy to address the specific needs of all students. In particular the issues associated with data informed teaching, understanding the structured curriculum, matching experiences to students needs, utilising technology effectively, activity and game based learning, using open-ended tasks in teaching and assessment, assessment of student learning generally, as well as affective issues including engagement and self efficacy will be explored. The emphasis will be on linking theory and practice through classroom based research projects.

Prerequisite: EDU32ML, EDU3ML.

Class requirements: Block mode equivalent to 40 hours of weekly classes.

Assessment: One 3000-word report of classroom based research (50%), one 1500-word assignment (50%).

Faculty of Health Sciences

Enquiries: Faculty Office

Level 2, Health Sciences 1 Building, Melbourne (Bundoora) Campus

Tel: (03) 9479 3583

Email: health@latrobe.edu.au

Web: www.latrobe.edu.au/health/

The Faculty of Health Sciences caters for a wide range of interests in the education of health professionals by offering a wide range of undergraduate, postgraduate coursework and Graduate Entry Master Programs. The Faculty also provides opportunity for research at both a Master and Doctoral level. Students from other faculties of the University may apply to enrol in some individual health sciences units.

The Faculty consists of four Divisions:

- Allied Health
- Health Studies
- Nursing and Midwifery
- Research.

Courses are offered at the Albury-Wodonga, Bendigo, Melbourne (Bundoora and City), Mildura and Shepparton campuses. The Faculty also teaches at a number of hospitals, offers some courses via distance education and teaches some courses overseas.

There are several externally funded centres and institutes that are part of the Faculty including:

- Australian Institute for Primary Care
- Australian Research Centre in Sex, Health and Society
- Mother and Child Health Research Centre
- Musculoskeletal Research Centre
- The Bouverie Centre – Victoria's Family Institute, which provides family therapy clinical services and offers postgraduate programs in family therapy.

Requirements for admission to undergraduate courses

Information about the VCE prerequisite units and other admission requirements are available from the University's Office for Prospective Students or from the Faculty of Health Sciences.

Course regulations

All courses offered by the Faculty are governed by a University regulation that specifies the entrance and other requirements of the course.

Each course also has its own rules of progression and most schools produce specific procedures that operate under the authority of the University Regulations and Faculty guidelines. Details of assessment in each unit are available on discipline notice boards from the beginning of the academic year.

A student in a full-time professional course may be required to pass all units of a specified year level before proceeding to units at the next year level, or achieve such a standard as to be awarded a pass in the year as a whole. A conceded pass in a unit, which is not a prerequisite for studies in the following year, will normally entitle a student to proceed to the next year, provided that all other units are passed. A conceded pass is not awarded for a unit which is a prerequisite unit for a unit which must be taken later in the course.

It is Faculty policy that where a professional placement unit has a prerequisite unit, the prerequisite unit must be passed within the previous three years.

The Faculty applies the University academic progress rules along with a time limit rule where a student must complete the course in a specified period of time equivalent to twice the full-time length of the course plus one year. This time limit includes any intermissions. For further information, consult the relevant division or Faculty office.

Students with a disability

Most of the courses conducted by the Faculty of Health Sciences include some type of clinical or professional practice experience which is a compulsory requirement of the course. The Faculty recognises that professional and clinical placements can present particular challenges to students with disabilities. Every effort will be made to make reasonable adjustments to the learning experience and assessment requirements of a clinical or professional practicum within the requirements of the course. In order to do this, students who have a temporary or permanent disability of any type which may have an impact upon their ability to complete course requirements are encouraged to meet with the course coordinator prior to the commencement of the course.

Health procedures

It is strongly suggested that students undergo a medical examination with a view of preventing or detecting disease.

To further reduce health risks, it is strongly recommended that:

- tuberculin testing be undertaken prior to attending hospital clinics, with follow-ups as necessary
- all students be immunised against hepatitis B
- all students be immunised against rubella, measles and mumps
- all students be up to date with their immunisation against poliomyelitis, diphtheria and tetanus.

Students with an infectious condition such as HIV or HBV should take every reasonable precaution to ensure that no other person is placed at risk of infection, as advised by their treating doctor.

Students should note that many hospitals require students to be immunised prior to allowing students to attend a professional placement. Students who are not immunised may jeopardise their ability to gain access to a suitable (or any) professional placement(s) and may therefore delay or prevent completion of the course.

Uniforms and class materials

Some courses require a prescribed uniform for hospital and clinical activities. Details are available from the relevant course coordinator or administrative officer.

Schools may charge students for expendable materials supplied where the materials are consumed by students to their direct personal benefit or where students may wish to retain continuing possession of the materials concerned. Students may be charged deposits for non-consumable items issued for temporary use. Schools may recover the cost of lecture notes and other printed material issued to students, provided that no student is compelled to acquire such notes or materials.

Professional placements

Please note that most courses require students to undertake unpaid professional placements. In most courses that require students to undertake professional placements, the placement involves being assigned to an agency on a full-time basis over a period of weeks. Students may be required to attend placements located in either metropolitan or regional areas for which the student is expected to meet any travel and accommodation costs. Some financial support from the Faculty may be available but there is no guarantee of financial support. In some cases, students undertake placement interstate or overseas. For overseas placements, students may be eligible to apply for the Government OS-Help Loan.

The types of places where students may attend a professional placement include major hospitals, health care networks, schools, community centres and clinics.

The University maintains insurance policies to protect students undertaking professional placement outside of the University as a

compulsory course requirement or other work undertaken off-campus as part of a course or approved research work. Further information is available from the University Insurance Office website www.latrobe.edu.au/insurance/ Faculty office or Division.

National Police Record Check

In those courses where students are required to undertake professional placements, students may come into contact with vulnerable people. Most agencies require students to provide the results of a National Police Record Check. The cost of obtaining a record check from the Victorian Police is payable by the student directly to Victoria police. In 2007 the volunteer fee for the record check was \$13.30. Students should obtain the *Consent to Check and Release National Police Record* application form from their division of enrolment or it can be downloaded from the Victoria Police website. Students should complete the application form and obtain a signature from the division office which will allow the check to be obtained at the volunteer rate. The certificate is valid for the current year only. Students will be expected to obtain a new police security clearance each year in which a professional placement is required.

Students undertaking placement in New South Wales will also require a National Police Record Check. This check will include a 'Working with Children' check. Details are available from the division of enrolment.

Students being placed in Victoria may also be required to obtain a 'Working with Children' check.

Confirmation of a criminal record may jeopardise a student's ability to gain access to a suitable (or any) professional placement(s) and may therefore delay or prevent completion of the course. Any questions or concerns relating to these checks should be directed to the relevant school office or placement coordinator.

Flexible teaching arrangements

In order to accommodate student needs, some units are taught in a mode different from the normal face-to-face or regular weekly classes. For example, modes may include block mode (i.e. intensive weekend or week-long classes), classes taught outside of the normal teaching period dates such as placement units, or classes taught via distance education or web-based teaching. Please refer to unit descriptions for those units that are offered by flexible teaching arrangements.

Fees

The Australian Government has introduced a new system of fees for Australian universities. From 2005, the Higher Education Loan Program (HELP), available to Australian citizens and holders of permanent humanitarian visas will be available to assist students with the payment of their university fees.

- HECS-HELP – for Australian citizens and holders of a permanent humanitarian visa if enrolled in a Commonwealth-supported place.
- FEE-HELP – for eligible fee-paying students enrolled at eligible higher education providers. Loans will cover up to the full amount of their tuition fees with students able to borrow up to an amount determined by the Federal Government.
- OS-HELP – for eligible full-time Commonwealth supported students who wish to study one or two study periods overseas. Loans will be up to \$5000 per six-month study period. OS-HELP loans will be subject to a 20% loan fee.

For more information, please refer to www.hecs.gov.au

Units Offered by the Faculty

A full description of Health Sciences units appears at the end of this chapter, in alphabetical order by unit code. Students should note that units published in the hardcopy *Handbook* are subject to change and should refer to the unit database for up to date information www.latrobe.edu.au/udb_public

Electives units offered by the Faculty appear at the end of the courses section prior to the unit descriptions.

Courses Offered by the Faculty

DIVISION OF ALLIED HEALTH

Bachelor of Social Work (Pathway Program)

A pathway to the Bachelor of Social Work degree is available at the Mildura campus. This pathway is available to current year-12 students, non year-12 and mature age entry applicants. Students are required to enrol in the Bachelor of Arts degree and undertake a number of units of specific relevance to social work as well as specific social work units including Introduction to Social Work (SWP1ITP) and Reflective Communication (SWP2REC). After completing two years of the Bachelor of Arts degree students then transfer to the Bachelor of Social Work (Advanced Standing) degree, which is conducted over two years in block mode.

Social Work is a professional qualification accredited by the Australian Association of Social Workers.

Bachelor of Social Work (Advanced Standing) (HSBSWM)

The course qualifies graduates for entry into the profession of social work. The degree is recognised by the Australian Association of Social Workers (AASW). Students will develop the knowledge, values and skills appropriate to understanding the needs commonly experienced by individuals, families, groups and communities and the appropriate responses for personal and social adjustment and social development.

The degree prepares students to practise in a wide range of social work roles, including direct service, research, administration and social policy and planning. Units offered are a mix of theoretical, practical and field-based studies. This reflects the nature of social work within contemporary society which demands that a competent social work graduate understands their practice in terms of ideas about individuals, groups and communities, knowledge of how society operates, the values of the profession, and has a range of practice skills. The course includes seventy days (in each year) of placement in a professional social work agency.

The curriculum of the course is based on a philosophy of social justice and is taught within an adult-learning model. Students are encouraged to relate their relevant experiences to the theories and practice presented in the program.

Degree requirements

The course is offered as a two year (advanced standing) degree for applicants with at least two years of approved university study. Further advanced standing may be offered to suitably qualified applicants.

Course structure

Students are required to undertake a course of studies equivalent to that listed below.

At Mildura the course is taught in block mode only, i.e., four consecutive days of lectures, seminars and tutorials, in approximately 10 blocks, across two semesters in each of the two years. Students will be required to attend some lectures, seminars and tutorials out of normal University hours.

For the purpose of the Commonwealth Supported Places Scheme (CSP) a full-time enrolment is 120 credit points per year or 60 credit points per teaching period.

DIVISION OF NURSING AND MIDWIFERY

Tel: (03) 5051 4067 or (03) 9479 5950

Bachelor of Nursing (pre-registration) – Albury-Wodonga (HBNPRW), Bendigo (RBN), Melbourne (Bundoora) (HBN), Mildura (HBNM), Shepparton (HBNUP)

Duration – Three years full-time

This comprehensive course leads to registration as a Division 1 Nurse with the Nurses Board of Victoria. It is offered across the Melbourne (Bundoora), Albury-Wodonga, Bendigo, Mildura and Shepparton campuses. Students are required to undertake a course of studies equivalent to that listed below. Some unit codes differ depending upon the campus of offer. The following course structure is that of the Mildura campus. For the structure of courses offered at the Albury-Wodonga, Bendigo, Melbourne (Bundoora) and Shepparton campuses, please refer to those campus entries elsewhere in this *Handbook*. Note that the teaching period in which a unit is offered may change.

The Bachelor of Nursing (pre-registration) is a three year pass degree. An honours year is also available for candidates who meet the entrance requirements.

Within the course students are viewed as active participants in the learning process. This enhances the development of critical thinking and problem-solving skills, which enables the graduate to respond to the changing demands of health care services. The course involves study in nursing theory, practice and research, human biosciences and public health.

The on-campus skills laboratory enables students to practise and develop clinical nursing skills in a simulated and supportive environment. The clinical learning component occurs in hospitals and health care agencies in the Mildura region and a variety of metropolitan facilities.

This course is offered on a full-time basis. Part-time study is not recommended but may be considered at the discretion of the Undergraduate Course Coordinator.

Professional recognition

Graduates are eligible for registration as Division 1 Nurses with the Nurses Board of Victoria. After registration, graduates are eligible for membership of the Royal College of Nursing Australia.

Bachelor of Nursing (Division 2 Conversion) – Melbourne (Bundoora) (HSBNC), Albury-Wodonga (HSBNCW), Bendigo (BEBND2), Mildura (HBNCM), Shepparton (HBNCP)

Duration: Three years part -time

Course structure (three year, Division 2 Conversion)

The Bachelor of Nursing (Division 2 Conversion) is offered as a three year course available to students who hold a current Division 2 Registration and wish to upgrade their qualification to Division 1. It is offered across the Albury-Wodonga, Bendigo, Melbourne (Bundoora), Mildura and Shepparton campuses. Successful completion of this course prepares graduates for Division 1 registration. This course requires all students to successfully complete a short course in human anatomy and physiology prior to the commencement.

Professional recognition

Graduates are eligible for registration as Division 1 Nurses with the Nurses Board of Victoria. After registration, graduates are eligible for membership of the Royal College of Nursing Australia.

Co-requisite: HBS1HBF, HBS1API.

Class requirements: Eighteen 1-hour lectures and four 2-hour practical classes per semester.

This unit is not available for Study Abroad students.

Assessment: One 10-minute multiple choice test (equivalent to 200 words) (10%), one 300-word assignment (20%), one 1-hour written examination (70%). Hurdle requirement: student must participate in all components of the assessment.

Recommended Reading:

Moore LM and Agur AMR. *Essential clinical anatomy*. 2nd edn. Lippincott, Williams and Wilkins, 2002.

HBS1AON current edn. *student manual*.

HBS1API INTRODUCTION TO THE HUMAN BODY (15 CPs Sem. TE-SEM-1 AW, BU, MI, SH.) AW: Dr Charu Mishra, BU: Dr Susan Malcolm, BU: Dr Jodi Sita

In this unit students will be introduced to basic physiological and anatomical concepts that will be further developed in semester two. Physiology lectures will cover homeostasis, body fluids, the cell and plasma membrane, mechanisms by which substances cross the membrane, the nervous system and skeletal muscle. Anatomy lectures will cover anatomical terminology, tissues, skin, the musculoskeletal system, nerves and regional anatomy. Lectures are supported by practical classes and tutorials.

Incompatible unit: HBS1APH, HBS1HFU

Class requirements: Four 1-hour lectures per week, nine 1-hour practical classes and five 1-hour tutorials over the semester.

Assessment: Two short multiple question tests (10%). Hurdle requirement: participation in all components of the assessment, one 2-page diagram-based assignment (10%), one 350-word assignment (10%), one 1.5-hour written anatomy exam (35%), one 1.5-hour written physiology exam (35%).

Recommended Reading:

HBS1API – Anatomy current edn. *student manual*.

HBS1API – Physiology Marieb E and Hoehn K.

Human Anatomy and Physiology. 7th edn. Pearson, 2007.

HBS1HBF HUMAN BODY FUNCTION (10 CPs Sem. TE-SEM-2 AW, BU, MI, SH.) AW: Dr Charu Mishra, BU: Ms Jane McCooley

In this unit, students' understanding of the functioning human body, introduced in semester one is extended. Begins with an overview of how the endocrine system contributes to regulation of body functioning and hence to homeostasis. Descriptions of selected hormones and their functions illustrate the general principles. Most of the unit is devoted to the study of body systems, including the cardiovascular system, respiratory system, renal system, digestive system and metabolism, reproductive system. Interactions between the systems to meet challenges to normal functioning imposed by changes within and external to the body are discussed. Concludes by considering changes in body functioning with development from a neonate to a very old person.

Co-requisite: HBS1API or HBS1APH or HBS1HFU or BIO1OF.

Class requirements: Four 1-hour lectures and one 1-hour tutorial (voluntary attendance) per week.

Assessment: One 40-minute written examination mid-semester (20%), one 2-hour examination at the end of the semester (80%).

Prescribed Reading:

Marieb E and Hoehn K. *Human anatomy and physiology*. 7th edn. Pearson, 2007

HBS2PAT PATHOPHYSIOLOGY IN NURSING (15 CPs Sem. TE-SEM-1 AW, BE, BH, BU, HK, MI, SH, SI.) AW: Dr Charu Mishra, BE: Dr Terri

Meehan-Andrews, BE: Dr Adrian Verrinder, BU: Mr Robert Paine

In this unit students will examine disorders which may be experienced by individuals over the life-span, emphasising the underlying biological mechanisms that produce signs and symptoms and the risk factors and contributing causes of disorders. Specifically, general pathological processes will be discussed with emphasis on disturbed function, adaptation to injury, inflammation, tissue healing, immunological disorders, neoplasia, fluid imbalance, thrombosis, embolism and vascular disorders. In addition to general pathological

UNIT DESCRIPTIONS

HBS1AON ANATOMY: ORGANS (5 CPs Sem. TE-SEM-2 AW, BU, MI, SH.)

Dr Jodi Sita

In this unit, the principles of anatomy which began in HBS1API will be developed and applied to the location and physical relationships between major organ systems of the head and trunk. Emphasis will be placed on cardiovascular, respiratory, digestive, renal and reproductive systems, paralleling the functional approach to these in HBS1HBF. Lectures will be supported by practical sessions, including surface anatomy and examination of cadaver specimens.

processes, emphasis will be given to relevant disorders of the respiratory, cardiovascular, renal gastrointestinal, endocrine, skeletal and nervous systems.

Prerequisite: HBS1HBF, except for students enrolled in the HSBNC, HSBNCW, BEBND2, HBNCM, HBNCN, HBNPRG, HBNPGW.

Class requirements: Four 1-hour lectures per week and one 1-hour seminar or tutorial per week. Some lectures will be given via WebCT.

Assessment: One 45-min mid-semester test (20%), one 3-hour final examination (80%).

Porth CM. *Pathophysiology Concepts of altered health states*. New York: Lippincott, 2005.

HLT3IPA INTERDISCIPLINARY PROFESSIONAL PRACTICE (15 CPs Sem. TE-SEM-1 AW, BE, BU, DE, MI, SH. TE-SEM-2 AW, BE, BU, DE, MI.) *Dr Helen*

Cleak, Ms Dianne Williamson

In this web-based unit, students across the Faculty of Health Sciences study together in interdisciplinary groups in preparation for professional practice. This unit consists of four online modules: Professional Development, Provision of Care within the Context of Human Service Systems and Implementing a Plan to Improve Service Quality, Professional Accountability and Organisational Dynamics – Working Effectively in Health and Human Service Organisations. Through guided activities, students will be encouraged to critically reflect on the structure and influences on the human services organization, develop interdisciplinary awareness and explore the contribution of other professions, consider the rights and expectations of service consumers and apply the key issues of ethical decision making within the context of relevant law.

Prerequisite: Bachelor of Health Sciences students must have completed at least 240 credit points. All other courses must have completed one of the following units: NSG2EBP, HIM2HCC, ORT3CLI, OCT3PRD, PTY32CPC, PTY32MPC, PTY32NPC, PTY32SSP, POD3PCP, POR2CEB, POR2CEB, HCS30CLI, HCS30PPR, SWP3FEA, ORH33CPE.

Bachelor of Health Sciences students must have completed at least 240 credit points.

Incompatible unit: HLT32IPA, HLT31IPA

Class requirements: Eight hours of lectures/seminars over two days during Orientation Week plus a flexible learning package equivalent to three hours of classroom contact per week. Students have regular contact with lecturers via the unit coordinator using telephone, fax and e-mail.

Assessment: Three 500-word online group task (30%). Hurdle requirements: students are required to participate in all online tasks and must pass all assessment components in order to pass this unit, one 1500-word online assignment (40%), participation/contribution to online discussions as per guidelines provided to students (10%), one 750-word online group tasks (20%), one 1500-word group online assignment (40%), participation/Contribution to online discussions as per guidelines provided to students (10%).

NSG1AAS NURSING ART AND SCIENCE (15 CPs Sem. TE-SEM-1 AW, BE, BU, MI, SH.) *AW: Ms Yolanta McLaughlin, BE: Ms Gamble Kerrie, BU: Mr Bill McGuinness*

In this unit students will be provided with an introduction to the theoretical framework of the curriculum as an underpinning for professional nursing practice. The foundations of the program are discussed in the context of nursing as a discipline and a profession. Creative and scientific processes and concepts that underlie and guide nursing practice are explored from a historic, holistic and global perspective. Students are introduced to various nursing roles in health care by examination of professional nursing practice. The concepts of nursing as an art, nursing as a science and of care and caring within a professional, legal and ethical framework are examined. Students will explore dimensions of the nurse-patient relationship. In particular they will develop skill in initiating, maintaining and concluding effective therapeutic and professional communication. Students will also be expected to maintain a reflective journal and to engage in group discussions.

Class requirements: 26 hours of lectures, 13 hours of problem-based learning (fortnightly class based tutorials and seven hours of web based tutorials) and 16 hours of clinical placement over the semester. This unit will have an online component and may also be offered in block mode (two consecutive 6-hour days, three times over the semester). There may be various to this structure on difference campuses.

Assessment: One 1800 word assignment (40%). Hurdle requirement: Completion of a clinical learning activity related to communication skill and professional development, one 2200-word written essay (60%). Students must pass both the theoretical and clinical components to pass the subject.

Recommended Reading:

Crisp J and Taylor, C. (Eds). *Potter and Perry's Fundamentals of Nursing*. 2nd edn. Sydney: Elsevier Mosby, 2005.

NSG1FUN FUNDAMENTALS OF NURSING PRACTICE (15 CPs Sem. TE-SEM-1 AW, BU. TE-SEM-2 AW, BE, BU, MI, SH.) *AW: Ms Yolanta*

McLaughlin, BE: Ms Kerrie Gamble, BU: Dr Michael Bauer

In this foundation unit students will learn how to assist clients to meet their activities of daily living. Students will study the effect of immobility on the individual's ability to self-care. Using an issues based learning approach, students are introduced to therapeutic nursing practices which are designed to promote, maintain and improve health status and provide comfort. Emphasis will be placed on fundamental nursing skills including basic life support. Related topics include alterations in comfort, hygiene, nutrition, elimination, respiration, circulation, body temperature and infection control. Students will also develop skills in individualised care as a beginning member of the nursing team with awareness of legal, ethical and professional responsibilities. Students are introduced to the interactions between microorganisms and humans including the roles of microbes in health maintenance and in infectious diseases.

Co-requisite: NSG1HAS and students must be enrolled in one of the following: HBNPRG, HBNPGW, BEBND2, RBN, HBNM, HBNPRW, HBNUP, HBNSCW, RBNS, HBNS, HZNM, HBN or BIO1LS1, HBS1AP1 or equivalent.

Class requirements: One 2-hour lecture and one 2-hour laboratory practice session (weeks 1–10), one 2-hour tutorial (weeks 1–6) plus a 80-hour clinical placement. This unit will have an online component. Block mode: two consecutive 7-hour days four times across the semester plus a 80-hour clinical placement. There may be variation to the structure on different campuses.

Assessment: One 2-hour end of semester examination (50%). Hurdle requirement: successful completion of clinical practicum, one 2000-word written project (50%). Students must pass the theoretical and the clinical components to pass the unit.

NSG1HAS HEALTH ASSESSMENT FOR NURSES (15 CPs Sem. TE-SEM-1 AW, BE, BU, MI, SH. TE-SEM-2 AW, BE, BU, MI, SH. TE-W34-43 BH. TE-W47-06 SI.)

Ms Yolanta McLaughlin, Ms Sharon Kendall, Ms TBA TBA, Ms Bev Blanch, Ms Bernadette Griffiths, Dr Beverley Wood

In this unit students will focus on the knowledge, techniques and skills needed by the nurse to perform comprehensive health assessments of individuals across the life span. Students are provided with information on normal findings of assessment and will be able to use this in identification of healthy individuals. Students are introduced to a variety of Health Assessment frameworks, including the Functional Health Assessment framework to facilitate a comprehensive health assessment. Critical thinking skills will be developed in order to assist students to synthesise collected data. Emphasis will be placed on assessment techniques and documentation of findings. The use of technology and supervised practice on campus and clinical facilities will facilitate the development of skills required for assessment of clients. Laboratory

experiences, focusing on selected psychomotor and interpersonal skills, are designed to support the development of relevant health assessment skills.

Prerequisite: Students must be enrolled in HBN, HBNPRW, RBN, HBNM, HBNPRG, HSBNC, HSBCNW, BEBND2, HBNCM, HBNU, HBNC, HBNSCW, RBNS, HBNS, HDIAN, HZNM, RDN, HDIANW or have passed HBS1LS1, BIO1LS1, HBS1API or equivalent.

Class requirements: 24 hours of lectures, 12 hours of tutorials, 12 hours of laboratory sessions and 40 hours of clinical practice. This unit will have an online component and may be offered in block mode (two consecutive 6-hour days four times over the semester).

This unit is not available for Study Abroad students.

Assessment: One 1500-word health assessment report (25%). Students must pass both the theoretical and clinical components to pass the subject, one 1500-word clinical reasoning exercise (25%), 40 minute practical clinical skills examination (50%).

NSG1LIL INFORMATION LITERACY FOR NURSES (15 CPs Sem. TE-SEM-1 AW, BE, BU, MI, SH.) AW: Ms Eileen Clark, BE: Dr Julie Ellis, BU: Dr TBA TBA, MI: Ms Bev Blanch

In this unit the students will be assisted to develop the information literacy and written communication/documentation skills required of a nurse in the 21st century. Informatics and Evidence Based Practice are key aspects of that contemporary nursing practice. Students will be assisted to meet the CAUL information literacy standards, develop an understanding of the role of written communications/documentation and information technology in the practice of nursing and a beginning appreciation of the role of evidence as it informs nursing practice. Further, the students will be provided with a foundation on information management and processing principles used to support the data, information and knowledge needs in the provision and delivery of nursing and health care. In this unit students will become practised in the use of both electronic media and traditional written and oral communication skills in the communication of a well-developed argument.

Class requirements: 13 hours of lectures plus directed activities equivalent to 26 hours of classroom contact across the semester. This unit will have an online component.

Assessment: One 2500-word assignment (60%), one 1500-word assignment (40%).

NSG2AUA ACUTE NURSING PRACTICE A (15 CPs Sem. TE-SEM-1 AW, BE, BU, MI, SH. TE-SEM-2 AW, BE, BU, MI.) AW: Ms Nanette Lundie, BE: Ms Adele Callaghan, BU: Mrs Robin Ray

In this unit students will be offered the opportunity to gain the knowledge, techniques and skills needed by the nurse to care for the person experiencing episodic illness in a hospital. Using a problem-based learning approach the focus will be on the effect of episodic illness on skin integrity (wounds), nutritional status and elimination. Further themes for exploration include pain management, fluid and electrolyte balance and issues surrounding hospitalisation. Students will be introduced to beginning technical skills as well as the knowledge necessary for planning and implementing individualised care while considering cultural, social, psychological, ethical and legal aspects of care.

Prerequisite: NSG1HAS, NSG1FUN. If student enrolled in HBNPRG, HBNPGW, BEBN2 then must have passed NSG1HAS, NSG1FUN, NSG2MED, HBS2PAT. If student enrolled in HSBNC, HSBNCW, RBN2, BEBND2, HBNCM, HBNCP then must have passed NSG1HAS, NSG2MED, HBS2PAT.

Co-requisite: NSG2MED, HBS2PAT.

Class requirements: Bundoora/Albury-Wodonga/Mildura campus: two 2-hour lectures per week over five weeks, one 2-hour problem-based learning group per week over five weeks, one 2-hour laboratory

session per week over five weeks plus clinical practicum of 15 days over three or four weeks (105 hours). Bendigo campus: as above except with a 105-hour clinical practicum of 35 hours per week over three weeks. Or alternatively two consecutive 5-hour seminar days four times across the semester plus a 105-hour clinical practicum of 35 hours per week over three weeks. This unit may have an online component.

This unit is not available for Study Abroad students.

Assessment: One 2000-word case study (50%). Students must pass the theoretical and clinical component to pass the unit, one 2-hour examination (50%). Hurdle requirement: clinical assessment of clinical reasoning, psychomotor and communication skills and professional development in line with the ANCI competencies using the Bondy scale.

NSG2CAF CHILD AND FAMILY NURSING PRACTICE (15 CPs Sem. TE-SEM-2 AW, BE, BH, BU, HK, MI, SH, SI.) AW: Ms Nanette Lundie, BE: Ms

Diana Guzys, BU: Ms Sharon Gan, MI: Ms Bev Blanch
In this unit students will be offered the opportunity to gain knowledge and skills to work in a respectful and collaborative partnership with families to identify and manage health concerns and provide quality care for children and families in a variety of settings. Students will investigate and critically appraise issues related to sociocultural, structural, developmental and emotional perspectives, as well as specific knowledge and skills to assess health status of families. The effects of disadvantages on the child and family, with emphasis on families of children with special needs will be explored. Using more developed interpersonal skills, students will develop evidence-based family focused initiatives to promote optimal family functioning and health.

Prerequisite: NSG1FUN, NSG1HAS, PHE1PHB or HLT1HAS, HBS1AON, HBS1HBF or BIO12LS2 or HBS1LS2.

Class requirements: 20 hours of lectures, 10 hours of tutorials, 6 hours of directed learning activities online and three hours of self directed learning across the semester. This unit may have an online component.

Assessment: One 2000-word scenario based clinical decision making exercise (50%). Hurdle Requirement: All assessment requirements must be completed to be eligible for a pass grade this unit. You must obtain a mark of 50% to pass this unit, one 2000-word family assessment assignment (50%).

Prescribed Reading:

NSG2EBP EVIDENCE BASED NURSING (15 CPs Sem. TE-SEM-1 AW, BE, BU, HK, SI. TE-SEM-2 AW, BE, BU, MI, SH, SI.) AW: Ms Eileen Clark, BE: Ms Fran Sheehan, BH: Dr Beverley Wood, BU: Dr Simon Black, HK: Dr Beverley Wood, MI: Ms Bev Blanch, SI: Dr Beverley Wood

In this unit students will be offered the opportunity to examine the nature and sources of evidence for nursing practice and the processes through which this evidence is generated. Information on the research process and the methods for obtaining and evaluating the application of evidence to practice will be provided. Exploration of the research process includes: conceptual basis, methodology, data collection, data analysis and presentation and utilisation of research and the development of evidence based practice.

Prerequisite: NSG1FUN.

Class requirements: Bundoora/Albury-Wodonga campus: two 1-hour lectures per week over seven weeks, one 1-hour lecture per week over two weeks, one 2-hour tutorial per week over seven weeks and seven hours of self directed learning equivalent to one hour of class contact per week over seven weeks. Bendigo campus: as above or alternatively two consecutive 5-hour seminar days four times across the semester. This unit may have an online component.

This unit is not available for Study Abroad students.

Assessment: One 1-hour tutorial test (25%), one 2000-word critical appraisal of published research (50%), one discussion and interaction, equivalent to 1000 words (25%).

Prescribed Reading:

Trinder L, Reynolds S. *Evidence based practice: a critical appraisal*. Oxford: Blackwell Science, 2000.

Beanland C, Schneider Z, LoBiondo-Wood G and Haber J. *Nursing research: methods, critical appraisal and utilisation*. 1st edn. Sydney: Mosby, 1999.

NSG2LEA LAW, ETHICS AND ACCOUNTABILITY FOR NURSES (15 CPs Sem. TE-SEM-1 HK, SI. TE-SEM-2 AW, BE, BH, BU, HK, MI, SH, SI. TE-SEM-3 AW, BH, HK, SI. TE-W01-08 BH. TE-W45-03 SI.) *Ms Nanette Lundie, Mr Ron Picard, Mr Les Fitzgerald, Ms Kathleen Tori, Dr Beverley Wood, Ms Susan Hunter, Dr Beverley Wood*

In this unit students will be assisted to examine the legal, ethical and accountability issues which impact on the practice of nursing. Individual responsibility of the nurse is emphasised through investigation of professional ethical and legal accountability and forms of regulation. Current models for ethical decision-making are explored and applied in the analysis of selected ethical problems in nursing practice. The students are encouraged to examine and clarify personal and professional values and beliefs and develop a reflective approach to their practice.

Class requirements: 16 hours of lectures, 16 hours of tutorials (comprising fact-to-face and tutor-facilitated online activity) and seven hours of self-directed learning equivalent to one hour of class contact. Lectures and face-to-face tutorials are conducted in the first 5-8 weeks of semester (the number of weeks depending on the campus), while online and self directed learning occurs across the semester. This may vary in offshore programs.

This unit is not available for Study Abroad students.

Assessment: One 1000-word scenario based ethical decision making exercise (30%) (individual assessment), one 2500-word written assignment (60%). (individual assessment), one online discussion and interaction, equivalent to 500 words (10%).

Recommended Reading:

NSG2MED MEDICATION MANAGEMENT FOR NURSES (15 CPs Sem. TE-SEM-1 AW, BE, BU, MI, SH. TE-W09-21 BU.) *Ms Nanette Lundie, Dr Sharon Kendall, Ms Gayle McKenzie, Ms Bev Blanch*

In this unit students will be offered the opportunity to develop knowledge of safe and ethical practice in medication administration. Information will be provided to students on pharmacologic, pharmacokinetic and pharmacodynamic principles essential for clinical practice and the basic principles of pharmacotherapeutics and pharmacological interventions in nursing including the related nursing responsibilities will be introduced. Emphasis will be placed on clinical aspects including dosing regimes and compliance, paediatric and geriatric pharmacology, adverse drug reactions and interactions, post-surgical care and polypharmacy. An overview of the clinical application of classifications of drugs on human systems will be provided.

Prerequisite: NSG1HAS, NSG1FUN, HBS1AON, HBS1HBF or HBS1LS2 or Students must be enrolled in HBNPRG, HBNPGW, BEBN2, HSBNC, HSBNCW, BEBND2, HBNCM, HBNCN.

Class requirements: 26 hours of lectures and 13 hours of facilitated small group sessions across the semester. This unit may have an online component.

This unit is not available for Study Abroad students.

Assessment: One 2-hour written examination (60%), one 1500-word assignment (30%), one 30-minute drug calculation examination (10%). Hurdle requirement: must achieve mastery of 80% in the drug calculation examination to pass the unit.

NSG2MHL MENTAL HEALTH NURSING PRACTICE (15 CPs Sem. TE-SEM-1 AW, BU. TE-SEM-2 AW, BE, BU, MI, SH.) *AW: Ms Eileen Petrie, BE: Ms Susan Kidd, BU: Mr Alan Robins*

In this unit students will be offered the opportunity to discuss the general principles and practices of psychiatric/mental health nursing and their impact on the individual and their family. Theoretical explanations of mental health and mental illness, the manifestation and classification of mental illness and major treatment modalities will be explored. Therapeutic and psychosocial interventions are discussed within the context of the broad socio-cultural environment. Topics will include current debates on mental health and illness, psychiatric disorders, populations at risk, continuity of care and cross-cultural perspectives on mental health and illness. Students will also be offered the opportunity to examine the framework for mental health service delivery in Victoria.

Prerequisite: NSG2AUA, NSG2MED, HBS2PAT.

Co-requisite: NSG2AUA if student enrolled in HSBNC, HSBNCW, RBN2, BEBND2, HBNCM, HBNCN, HBNPRG, HBNPGW, BEBN2.

Class requirements: 30 hours of lecture/tutorial across the semester. Content to be delivered in flexible lecture and tutorial combination. This unit may be offered block mode across the semester in the format of seminar days. In addition a 140-hour clinical practicum of 35 hours per week over four weeks. This unit may have an online component.

This unit is not available for Study Abroad students.

Assessment: One 1750-word written assignment (40%). Hurdle requirement: clinical assessment of clinical reasoning, psychomotor and communication skills and professional development in line with the ANCI competencies using the Bondy scale, one 2-hour written examination (60%).

Prescribed Reading:

Meadows G, Singh B and Grigg M. *Mental Health in Australia*. 2nd edn. Australia: Oxford University Press, 2006.

NSG2PRH PROMOTING HEALTH IN NURSING PRACTICE (15 CPs Sem. TE-SEM-1 AW, BE, BH, BU, HK, MI, SH, SI.) *AW: Ms Eileen Petrie, BE: Ms Kerrie Gamble, BE: Ms Di Guzys, BU: Ms Sandra Lucas*

In this unit students will be assisted to explore the role of the nurse in assessing individuals, family and group needs. Students are introduced to theories and models for health promotion and health education and the principles of planning, implementing and evaluating programs in a variety of health related settings. Students will develop their own health education strategies appropriate to cultural and lifespan needs.

Prerequisite: NSG1HAS, PHE1PHB.

Class requirements: 13 hours of lectures and 13 hours of tutorials per semester, plus a 35-hour clinical practicum. This unit may have an online component.

Assessment: One 40-minute group presentation of a health education session – 10 minutes per member (40%). Hurdle requirement: clinical assessment of clinical reasoning, psychomotor and communication skills and professional development in line with the ANMC competencies using the Bondy scale, one 3000-word health promotion assignment (60%). Students pass the theoretical and clinical components to pass the unit.

NSG3AUB ACUTE NURSING PRACTICE B (15 CPs Sem. TE-SEM-1 AW, BE, BH, BU, MI, SI.) AW: Ms Ann Kuypers, BE: Ms Helen Aikman, BU: Ms Elizabeth Watt, MI: Ms Bev Blanch

In this unit students will be offered the opportunity to further develop their knowledge and skills by caring for people experiencing complex health problems requiring nursing intervention. Previously learnt technical, interpersonal and decision-making skills are further developed while aspects of health education and legal and ethical aspects are incorporated to provide individualised care. Using a problem-based learning approach students will be offered the opportunity to study the effect of complex acute and chronic illness by focusing on patients situation that involve conditions that seriously alter absorption and utilisation of food and fluid; metabolism and endocrine function, elimination of bodily waste. The students will also be offered the opportunity to study the effect that these have on other body systems.

Prerequisite: NSG2AUA, NSG2MED, HBS2PAT.

Class requirements: Five 3-hour lectures, ten 1-hour problem-based learning groups and ten 1-hour laboratory sessions across the semester. A 105-hour clinical practicum of 35 hours per week over three weeks. Communication and discussion via WebCT.

This unit is not available for Study Abroad students.

Assessment: One 2-hour written examination (50%). Students must pass the theoretical and clinical components to pass the subject, one 2500-word case study (50%). Hurdle requirement – clinical assessment of clinical reasoning, psychomotor and communication skills and professional development in line with the ANCI competencies using the Bondy scale.

Prescribed Reading:

NSG3AUC ACUTE NURSING PRACTICE C (15 CPs Sem. TE-SEM-2 AW, BE, BH, BU, HK, MI, SI.) AW: Ms Ann Kuypers, BE: Ms Helen Aikman

In this unit students will be provided with the opportunity to consolidate knowledge and skills in order to effectively prioritise care for a group of clients experiencing a range of complex co-morbidities. Using a problem-based learning approach students will be offered the opportunity to study the effect of complex acute and chronic illness by focusing on patient situations involving serious alterations in cardiac, respiratory and neurological function and the effect that these have on other body systems. A feature of this unit is the development of the student's ability to incorporate therapies involved in the helping role of the nurse while managing a case load of patients.

Prerequisite: NSG3AUB.

Class requirements: Five 2-hour lectures, ten 1-hour problem-based learning session and ten 1-hour laboratory sessions across the semester plus 140-hour clinical practicum of 35 hours per week over four weeks. This unit is not available for Study Abroad students.

Assessment: One 2000-word case study (50%). Hurdle requirement: clinical assessment of clinical reasoning, psychomotor and communication skills and professional development in line with the ANCI competencies using the Bondy scale, one 2000-word assignment (50%). Students must pass the theoretical and clinical component to pass the subject.

Prescribed Reading:

NSG3CAC CANCER NURSING THEORY (15 CPs Sem. TE-SEM-1 AW, BE, BU, MI, SH. TE-SEM-2 AW, BE, BU, MI, SH.) AW: Ms Yolanta McLaughlin, BE:

Dr Sharon Kendall, BU: Ms Rosaleen Rudd, MI: Ms Bev Blanch

In this unit students will be offered the opportunity to develop a beginning knowledge about the nature of nursing a client with cancer. Students will be provided with the opportunity to acquire knowledge pertaining to the nature of cancer and aspects of cancer prevention, treatment and rehabilitation, with particular emphasis on cancer nursing. Information on aspects of epidemiology in relation to cancer, the physiology of cancer and oncology emergencies will be provided.

Prerequisite: NSG1HAS

Class requirements: One 2-hour lecture and one 1-hour tutorial per week for ten weeks; one 3-hour laboratory session during the semester, plus six hours of self directed learning activities equivalent to one-hour of classroom contact per week for six weeks. This unit may be offered in block mode: two consecutive 6-hour seminar days three times across the semester and six hours of self directed learning activities equivalent to one-hour of classroom contact per week for six weeks. This unit may have an online component.

Assessment: One 1000-word scenario based assessment (25%), one 2500-word participation portfolio (50%), one 1000-word critical reasoning exercise (25%).

Prescribed Reading:

Langhorne M, Fulton J and Otto S. *Oncology Nursing*. 5th edn. St Louis: CV. Mosby, 2004.

NSG3CAT CHILD AND ADOLESCENT NURSING THEORY (15 CPs Sem. TE-SEM-2 AW, BE, BU, MI.) Ms Sharon Gan

This subject may not be offered every year.

In this unit students will be offered the opportunity to extend their knowledge of paediatric nursing building on the information presented in Child and Family Nursing Practice. The focus will be on the acquisition of knowledge and skills required to assist the child and the family in times of health deviation. Information will be provided on nursing interventions that assist in promoting, maintaining and restoring health of infants, children and adolescents.

Prerequisite: NSG2CAF, NSG1HAS.

Class requirements: 20 hours of lectures, 10 hours of online tutorials, three hours of laboratory sessions and six hours of self directed learning across the semester. This unit will have an online component.

This unit is not available for Study Abroad students.

Assessment: One 2500-word participation portfolio (50%), one 2000-word critical reasoning exercise (50%).

Recommended Reading:

Hockenberry M, Wilson D, Winkelstein M and Klien. N Wong's *nursing care of infants and children*. St Louis: Mosby, 2003.

NSG3COG CONTROVERSIES IN GERONTIC NURSING (15 CPs Sem. TE-SEM-2 AW, BE, BU, MI.) AW: Ms Yolanta McLaughlin, BE: Dr Amanda Kenny, BU: Dr Susan Koch

This unit may not be offered every year.

In this unit students will be challenged to consider issues that raise ethical and moral challenges for nurses and society. Lifestyle choices and social stereotypes will be explored. Case study examples will be used to highlight the complexity of delivering care that involves personal lifestyle choices and contexts.

Prerequisite: NSG1HAS.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week for ten weeks during the semester plus nine hours of self directed learning activities equivalent to one-hour of classroom contact per week for nine weeks. This unit may be offered in block mode: two consecutive 6-hour seminar days three times across the semester and six hours of self directed learning activities equivalent to one-hour of classroom contact per week for six weeks. This unit may have an online component.

This unit is not available for Study Abroad students.

Assessment: One 20-minute case study presentation (25%), one 2500-word evidenced based practice assignment (50%), one 1000-word critical reasoning exercise (25%).

Recommended Reading:

Nay R, Garratt S. *Nursing older people: issues and innovations*. Sydney: MacLennan and Petty, 1999.

NSG3CPR COMMUNITY NURSING PRACTICE (15 CPs Sem. TE-SEM-2 AW, BE, BH, BU, HK, MI, SI.) AW: Ms Eileen Petrie, BE: Ms Kerrie Gamble, BE: Ms Di Guzys, BU: Ms Sandra Lucas

In this unit students will be offered the opportunity to analyse the role of the nurse in facilitating health with individuals and groups in the community. An issues-based learning approach will be utilised, allowing students to apply theories and models for community development, social marketing and primary health care to practice situations. In analysing community practice roles, students will be asked to critique their own values relating to lifespan, culture and social issues that impact health and be accountable (both ethically and legally) for their contribution to health service provision. Students will be able to build on knowledge gained in Information Literacy for Nurses to develop a multimedia package.

Prerequisite: NSG1LIL, NSG2AUA, NSG2PRH and NSG3AUB or students must be enrolled in HZNM. If students enrolled in HBNPRG, HBNPGW, BEBN2, HSBNC, HSBNCW, BEBND2, HBNCM, HBNCP then must have passed NSG2AUA, NSG3AUB.

Class requirements: 16 hours of lectures, 14 hours of problem-based learning and seven hours of self directed learning plus a 105-hour clinical practicum of approximately 35 hours per week. This unit may have an online component.

This unit is not available for Study Abroad students.

Assessment: One 2000-word equivalent multimedia package based on a community assessment (50%). Hurdle requirement: clinical assessment of clinical reasoning, psychomotor and communication skills and professional development in line with the ANMC competencies using the Bondy scale, one 2000-word community development practice analysis (50%). Students must pass the theoretical and clinical components to pass the unit.

NSG3GER GERONTIC NURSING PRACTICE (15 CPs Sem. TE-SEM-1 AW, BE, BH, BU, HK, MI, SI.) AW: Ms Yolanta McLaughlin, BE: Ms Julie Ellis, BU: Dr Susan Koch

In this unit students will be offered the opportunity to consider the health needs of older people in diverse settings. The examination of the social, psychological and biological aspects of ageing: demographics of ageing, health and ageing, ageing in place, acute care and the principles of long-term care and of rehabilitation will be included. The importance of the nurses' roles in promoting, maintaining and restoring the health of older adults will be stressed. The students will be encouraged to focus on the independent role of the nurse and an interdisciplinary approach to the planning and implementation of client care and development skills in management, team work, delegation and prioritising care. As part of the clinical experience, students may be required to undertake evening and weekend work in this unit.

Prerequisite: NSG2AUA, NSG2MED, HBS2PAT.

Class requirements: 40 hours – 20 hours of lecturers, 10 hours of tutorials, 10 hours of self-directed learning. 140-hour clinical practicum. This may include weekends and evenings work. This unit may have an online component.

This unit is not available for Study Abroad students.

Assessment: One 2500-word evidence-based case management review (60%). Hurdle requirement: clinical assessment of clinical reasoning, psychomotor and communication skills and professional development in line with the ANCI competencies using the Bondy scale, one 1500-word written assignment (40%). Students must pass the theoretical and clinical components to pass the subject.

NSG3INT MANAGING COMPLEX INTERACTIONS IN NURSING (15 CPs Sem. TE-SEM-1 HK, TE-SEM-2 AW, BE, BU, HK, MI, TE-SEM-S HK.) Ms Ann Kuypers, Ms Sharon Kendall, Ms Elizabeth Pascoe, Dr Beverley Wood

In this unit, students are placed in situations that are unique to professional nursing practice, that require a complex range of knowledge, skill and awareness. Engagement in complicated, often stressful and distressing encounters requires the nurse to be equipped with a sophisticated repertoire of skills, including 'awareness' of self and others. Effective intervention on a variety of levels is seen as an essential role of the professional nurse. The students will be given a theory base for understanding human behaviour and basic mental health concepts are introduced. Emphasis will be placed on theory-based strategies to improve interaction and coping with individuals, families and other health care professionals. The unit focuses on the complex events and interactions that occur in health care settings.

Prerequisite: NSG3AUB or students must be enrolled in HZNM

Co-requisite: NSG3AUC or students must be enrolled in HZNM.

Class requirements: Two hours of lectures six times over the semester and two hours of problem-based learning activities seven times over the semester as well as thirteen hours of directed activities over the semester. This may vary in offshore programs.

This unit is not available for Study Abroad students.

Assessment: One 2000-word critical reflective portfolio (50%), one 2000-word online assessment (50%).

Prescribed Reading:

NSG3NTF NURSING THE FUTURE (15 CPs Sem. TE-SEM-1 AW, BE, BH, BU, HK, MI, SI, TE-SEM-2 BH, HK, SI.) AW: Ms Ann Kuypers, BE: Ms Fran Sheean, BU: Ms Helen Forbes, BU: Ms Elizabeth Pascoe

In this unit students will be assisted to focus on directions for professional development. The influence of research and evolving nursing knowledge on professional roles will be examined and students will be introduced to frameworks for analysing selected contemporary issues and trends in health care that will shape future nursing practice. Contemporary strategies for managing the delivery of nursing care will be explored and the associated role requirements in nursing analysed. In addition, each student will have the opportunity to reflect on professional development, consider future career directions and prepare a curriculum vitae. Pre-registration students will focus on transition to the registered nurse role and preparation of applications for graduate positions, while post-registration students will concentrate on career planning and exploration of expanded nursing roles.

Prerequisite: NSG2AUA, NSG2LEA, NSG2EBP.

Class requirements: One 2-hour lecture eight times over the semester and one 2-hour tutorial five times over the semester. This unit may have an online component.

This unit is not available for Study Abroad students.

Assessment: One 2000-word portfolio (50%), one 2000-word professional issues case study (50%).

NSG30CH OCCUPATIONAL HEALTH NURSING THEORY (15 CPs Sem. TE-SEM-2 AW, BE, BU, MI.) *Ms Robin Ray*
Not available in 2008

NSG3PEO PERIOPERATIVE NURSING THEORY (15 CPs Sem. TE-SEM-1 BE, BU, TE-SEM-2 AW, BE, BU, MI.) *AW: Ms Ann Kuypers ,*
BU: Ms Deb Fleckner

This subject may not be offered every year.

In this unit students are introduced to fundamental theoretical aspects of perioperative nursing, including nursing in the context of the operating room and associated environments. Content will be provided that will extend students knowledge of aspects of infection and its control in the operating suite. The students are given insight into the variety of roles of the nurse in the operating suite. The principles of surgical intervention and wound management are discussed. Information on the operating room environment, including design and patient and staff safety will be provided. An emphasis is placed on the care of the patient in the operating suite.

Prerequisite: NSG1HAS.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week for ten weeks; one 3-hour laboratory session during the semester plus six hours of self directed learning activities equivalent to one-hour of classroom contact per week for six weeks. This unit may be offered block mode: two consecutive 6-hour seminar days three times across the semester and six hours of self directed learning activities equivalent to one-hour of classroom contact per week for six weeks. This unit may have an online component.

This unit is not available for Study Abroad students.

Assessment: One 2000-word assignment (50%), one 2000-word portfolio (50%).

Prescribed Reading:

NSG3PIN PHILOSOPHIES IN NURSING (15 CPs Sem. TE-SEM-1 AW, BE, BH, BU, HK, MI, OS, SI.) *AW: Ms Lyn Lang , BE: Ms Sharon Kendall ,*
BU: Professor Annette Street
Not available in 2008

NSG3PSE PSYCHIATRIC NURSING THEORY (15 CPs Sem. TE-SEM-1 BE, TE-SEM-2 AW, BE, BU, MI.) *AW: Ms Eileen Petrie , BE: Ms Sue*

McConnachie , BU: Mr Alan Robins

This unit may not be offered every year.

In this unit students will be provided with the opportunity to build on their knowledge of mental health nursing. Students will be asked to examine the phenomena of psychiatry and psychiatric nursing from various points of view that have, as their common focus, the impact of psychiatric disorders and psychiatric health interventions on the person and groups of people.

Prerequisite: NSG1HAS, NSG2MHL

Class requirements: One 2-hour lecture and one 1-hour tutorial per week for ten weeks; one 3-hour laboratory session during the semester; plus six hours of self directed learning activities equivalent to one-hour of classroom contact per week for six weeks. This unit may be offered block mode: two consecutive 6-hour seminar days three times across the semester and six hours of self directed learning activities equivalent to one-hour of classroom contact per week for six weeks. This unit may have an online component.

This unit is not available for Study Abroad students.

Assessment: One 1000-word scenario based assessment (25%), one 2500-word participation portfolio (50%), one 1000-word critical reasoning exercise (25%).

PHE1PHA INTRODUCTION TO PUBLIC HEALTH A (15 CPs Sem. TE-SEM-1 AW, BU, MI, SH.) *AW: Dr tha tha , BU: Ms Janet Carnegie,*
BU: Dr Paul O'Halloran

Albury/Wodonga campus: available only to Bachelor of Nursing students.

Public Health practice operates at individual, social and structural levels. That is, public health knowledge is acquired from these multiple sources and public health interventions can be targeted at the individual, social, or structural level. In this unit, students will predominately address public health at the individual level. The principal aim of the unit is to provide foundation knowledge pertaining to preventive work with individuals at multiple levels in the health care system. Topics are organised into the broad groupings related to health (e.g., learning), regulatory systems (obesity, motivation and developmental) and social influences on health (development, communication processes) and personality, stress and mental health.

Incompatible unit: PHE1PHC

Class requirements: Three 1-hour lectures and one 1-hour tutorial per week.

Assessment: One 1.5-hour examination (50%), four 300-word short answer questions (20%), one 1200-word essay (20%), tutorial participation (10%).

Prescribed Reading:

McMurray A. *Community health and wellness: a socioecological approach*. 2nd edn. NSW: Mosby, Marrickville, 2003.

PHE1PHB INTRODUCTION TO PUBLIC HEALTH B (15 CPs Sem. TE-SEM-2 AW, BU, MI, SH.) *AW: Ms Eileen Clark , BU: Ms Prue Bagley*

In this unit students are introduced to social understandings of health and health care practice. Changing definitions of health and illness are examined, inequalities in health and health care are analysed from different sociological perspectives and some key political and ethical issues are explored. The aim is to develop students' capacity to view current health concerns in a public health perspective and to understand how this relates with other professional practice perspectives.

Incompatible unit: PHE1PHD

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: One 1-hour examination (30%), one 2500-word tutorial assignment (40%), one 10 minute tutorial presentation (30%).

PHE2RHC RESEARCH IN HEALTH CARE (15 CPs Sem. TE-SEM-1 BU, DE, MI, OS, TE-SEM-2 AW, BE, BU, DE, MI.) *AW: Ms Eileen Clark ,*

BU: Mr Stephen Polgar

Not available in 2008

SWP1IIP INTRODUCTION TO SOCIAL WORK A (15 CPs Sem. TE-SEM-1 AW, BE, BU, TE-SEM-2 MI.) *Dr Sue Hodgkin, Ms Grace Brown, Dr*

Christine Bigby, Ms Paula Bruce

In this unit students will be orientated to a University mode of study. They will be introduced to the complex and often contested nature of social work and the diverse knowledge base that informs social work practice. Students will gain an understanding of the core values, the history and current orientation of social work. Ideas that social problems are constructed and understood differently across time and in accordance with different value and theoretical perspectives are explored. Using selected examples, the impact of societal organisation on individuals and social problems will be examined.

Class requirements: One 2-hour lecture and one 1.5-hour tutorial per week.

Assessment: One study skills and library assignment equivalent to 1250-words (30%), one 1500-word essay (40%), one group class presentation equivalent to 500-words (10%), one individual write up equivalent to 750-words (20%).

Preliminary Reading:

SWP2REC SOCIAL WORK AND REFLECTIVE COMMUNICATION (20 CPs)

Sem. TE-SEM-1 MI. TE-SEM-2 AW, BE, BU.) AW: Ms Robyn Mortlock , BE:

Dr Jennifer Lehmann , BU: Dr Trish McNamara ,

MI: Ms Paula Bruce

In this unit students are encouraged to critically examine how their values and beliefs shape emotional and behavioural responses. Students are helped to develop a foundation for effective interpersonal communication based on conscious use of self and critical self-reflection. Students are exposed to human communication issues relevant to social work from the microsystems level to the macro level of society. Students will study different models of communication emphasising the importance of understanding social diversity. Largely experiential seminars will encourage students to become aware of their own interactional style in one to one situations and in groups and to become increasingly self-confident communicators.

Class requirements: One 2-hour lecture and one 2-hour seminar per week.

Assessment: One 2500-3000-word essay (50%), one group presentation (15 minutes per member) (25%), one 1500-word individual write up of presentation (25%).

Prescribed Reading:

Adler R and Rodman G. *Understanding human communication*. 9th edn. Oxford University Press, 2006.

SWP3COM SOCIAL WORK PRACTICE IN COMMUNITIES (15 CPs Sem.

TE-SEM-1 AW, BE, BU, MI.) AW: Ms Robyn Mortlock , BE: Ms Dianne

Cox , BU: Dr Carmel Laragy , MI: Ms Paula Bruce

In this unit students will focus on social work practice at the community and societal levels. It covers conceptual and theoretical underpinnings of community development including principles, such as active citizenship and participatory democracy. It has a broad focus in that it covers social, economic, political, cultural, environmental and personal development. It will examine community development as a framework to facilitate people, communities and organisations to engage in the change process and to promote social well-being and community building.

Class requirements: Two 1-hour lectures and one 1-hour seminar per week.

Assessment: One 2000-word essay (40%), one group 3000-word essay (40%), one group presentation (five minutes per member) (20%).

Prescribed Reading:

Ife, J and Tesoriero, F. *Community development: community-based alternatives in an age of globalisation*. 3rd edn. Pearson, 2006.

SWP3FEA FIELD EDUCATION A (40 CPs Sem. TE-W25-38 AW, BE, BU, MI.

TE-W36-49 AW, BE, BU, MI.) AW: Mr Jerry Sweeting , BE: TBA , BU: Dr

Helen Cleak , MI: Ms Paula Bruce

This unit will offer students the opportunity to integrate different theoretical perspectives and skills by undertaking a supervised fieldwork practicum. Students are placed in a range of human service organisations and are required to become experiential learners who can reflect critically on their practice and who can demonstrate beginning skills in appropriate social work skills. SWP3FEA is the first and SWP4FEB the second of two fieldwork placements to be

undertaken by the students under the supervision of a qualified social worker with the liaison support of an academic staff member. Each placement period is 14 weeks full-time as required by the AASW and is normally taken in second semester (September to December) each year. As part of the practicum, students will be required to attend 10 hours of preparatory seminars (held in both first and second semester) and 10 hours of seminars throughout the practicum to integrate theory with the practicum experience.

Prerequisite: SWP3IFG, SWP3LER.

Class requirements: Field placement of fourteen weeks full-time (70 days) and eight hours of preparatory lectures/seminars.

Assessment: Learning agreement, mid placement and final placement reports as per *BSW Field Education Handbook* (100%). Assessed as pass or fail grade.

Recommended Reading:

Bogo M and Vayda E. *The practice of field instruction in social work*. New York: Columbia University Press, 1998.

Cleak H and Wilson J. *Making the most of field placement*. Thomson, 2004.

Cooper L and Briggs L. *Fieldwork in the human services*. Sydney: Allen and Unwin, 2000.

SWP3FOP FIELDS OF SOCIAL WORK PRACTICE A (15 CPs Sem. TE-W29-

35 AW, BE, BU, MI.) AW: Dr Guinever Threlkeld , BE: Ms Di Cox , BU:

Ms Maureen Long , MI: Ms Paula Bruce

In this unit students are introduced to the practice of social work in diverse fields exploring context, policies, programs and practice in various fields. The content helps to integrate social work knowledge and builds on core social work knowledge and skills, introducing further knowledge and skills specific to the field being studied.

Specific fields are selected by the School each year and may include: social work practice and mental health, children and families, ageing, grief and loss, disability, protective services, health, addiction studies, child protection, poverty and inequality, and international social work.

Class requirements: Five hours of seminars/lectures per week for six weeks plus self directed learning activities equivalent to nine hours of classroom contact across the semester.

Assessment: One 1000-word essay (25%) one 20-min verbal presentation may be undertaken in lieu of the 1000-word essay, one 3000-word essay (75%).

Recommended Reading:

Davies M. (ed). *The Blackwell companion to social work*. Blackwell Publishing, 2002.

SWP3IFG SOCIAL WORK PRACTICE WITH INDIVIDUALS, FAMILIES

AND GROUPS A (20 CPs Sem. TE-SEM-1 AW, BE, BU, MI.) BE: Ms Jan

Pascal, BE: TBA , BU: Mr Mark Furlong , MI: Ms Paula Bruce

In this unit students will be introduced to a basic understanding of theories and models of social work practice with individuals, families and groups integrated with structured opportunities to develop and refine, self-knowledge, critical reflection and casework interview skills. Students will also develop skills in undertaking casework assessment and interventions. As such, this unit aims to integrate theoretical models with direct casework practice. Throughout, this unit encourages active participation in role plays, value clarification exercises, exploring social and personal assumptions, as well as developing an awareness of relationship between social and personal issues. The expected outcome for this unit is the achievement of a level of competence in social work practice sufficient for entry into a first supervised fieldwork placement.

Recommended Prior Studies: SWP2ITP, SWP2REC.

Class requirements: Two 1-hour lectures and one 3-hour seminar per week.

Assessment: One 1000-word personal reflection (15%), one 1000-word case formulation (15%), one 2000-word follow-on case study (50%), simulated casework interviews equivalent to a 20-minute verbal presentation (20%). Hurdle requirement: Students must obtain a pass standard in the simulated casework interviews and attend 80% of seminars/tutorials in order to obtain a pass in this unit.

Recommended Reading:

SWP3ITP INTRODUCTION TO SOCIAL WORK (10 CPs Sem. TE-SEM-1 AW, BE, BU, MI.) AW: Ms Virginia Mansel Lees , BE: Dr Jennifer Lehmann , BU: Mr David Green , MI: Ms Paula Bruce

This unit is available to Bachelor of Social Work (Advanced Standing) students only.

In this unit two year BSW (Advanced Standing) students are provided with opportunities to relate prior learning and experiences to the key values and orientation, the knowledge-base and the skills of social work, including its multilevel analytic and interventive nature. They will cover aspects of the Social Work profession, the historical and contemporary construction of social problems and the welfare state (with a particular focus on the contemporary restructuring of the welfare state) and key defining issues for contemporary social work practice.

Class requirements: One 1-hour lecture per week for twelve weeks and one 2-hour seminar per fortnight during semester.

Assessment: One 1000-word exploratory learning essay (40%), one 1500-word essay investigating a social work issue (60%).

Recommended Reading:

SWP3LER SOCIAL WORK PRACTICE: LAW, ETHICS AND HUMAN RIGHTS (15 CPs Sem. TE-SEM-1 AW, BE, BU, MI.) AW: Dr Guinever Threlkeld , BE: Ms Grace Brown , BU: Dr Carmel Laragy , MI: Ms Paula Bruce

In this unit students explore the foundations of legal and ethical decision-making, the implications of working within the Australian legal system and address concepts of moral philosophy that underpin the AASW Code of Ethics and AASW Practice Standards. Students examine the human rights regime, its relevance to social work and the role of ethics from various perspectives in social work practice. They explore a process for ethical decision-making. There is an examination of the legal contexts within which social workers function and which they are expected to understand in their practice.

Class requirements: Two 1-hour lectures (weeks 1–5), one 1-hour lecture (weeks 6–13), one 1-hour tutorial per week for 12 weeks plus an additional eight hours for two court visits during semester.

Assessment: One 1750-word court report (40%), one 2000-word essay (60%).

Prescribed Reading:

SWP3RES RESEARCH FOR SOCIAL WORK PRACTICE B (15 CPs Sem. TE-W29-35 AW, BE, BU, MI.) AW: Dr Guinever Threlkeld , BE: Ms Grace Brown , BU: Dr John McCormack , MI: Ms Paula Bruce

In this unit students will build on previous research education to provide research skills and knowledge for direct application in social work practice. A range of approaches to social work practice research will be explored including evidence-based research, clinical research and qualitative methods. There will also be significant input on data analysis, both qualitative and quantitative in the unit.

Recommended Prior Studies: SWP2RES.

Class requirements: Two 2-hour lectures and one 1-hour computer laboratory/seminar per week for six weeks plus self-directed learning activities equivalent to three hours of classroom contact across the teaching period.

Assessment: One 2500-word research proposal (65%), one 1500-word data analysis exercise (35%).

SWP4DIV DIVERSITY AND SOCIAL WORK PRACTICE (10 CPs Sem. TE-W29-35 AW, BE, BU, MI.) AW: Ms Virginia Mansel Lees , BE: Ms Di Cox, BE: Dr Jennifer Lehmann , BU: Mr Mark Furlong , MI: Ms Paula Bruce

This unit will particularly emphasise social work practice methods in a diverse society. In order to introduce and develop the concept of 'diversity and social work practice' three broad arenas of 'difference' will be featured from amongst the many forms of social and cultural diversity. These arenas are not exclusive but will in this instance be: Indigenous Australians, sexuality, and migration and culture. As social workers are expected to practice within a framework of social and cultural difference, the aim of the unit is to introduce students to and to promote values and skills for, 'difference-competent practice' and 'anti-oppressive practice'.

Class requirements: One 2-hour lecture, one 1-hour lecture and one 1-hour tutorial per week for six weeks across the semester.

Assessment: One 1000-word essay (40%), one 1500-word essay (60%).

Recommended Reading:

Dominelli L. *Anti-oppressive social work theory and practice*. Palgrave, 2002.
 Mullaly B. *Challenging oppression, a critical social work approach*. Oxford University Press, 2002.

SWP4FEB FIELD EDUCATION B (40 CPs Sem. TE-SEM-1 AW, BE, BU. TE-W06-22 AW, BE, BU. TE-W25-38 AW, BU, MI. TE-W26-39 BE. TE-W36-49 AW, BE, BU, MI. TE-W44-07 AW, BE, BU, MI.) AW: Mr Jerry Sweeting , BE: Ms TBA TBA , BU: Dr Helen Cleak , MI: Ms Paula Bruce

In this unit, students will undertake a supervised fieldwork practicum which will provide opportunities to integrate theoretical knowledge with practice and develop competencies to the standard required by AASW. Students are placed in a range of human service organisations to demonstrate their knowledge and skills and further develop their practice knowledge. SWP3FEA is the first and SWP4FEB the second of two fieldwork placements to be undertaken by students under the supervision of a qualified social worker with the liaison support of an academic staff member. Each placement period is 14 weeks full-time as required by the AASW and is normally taken at the end of second semester (September to December) each year. As part of the practicum, students will be required to attend six hours of preparatory seminars (held in both first and second semester) and ten hours of seminars throughout the practicum to integrate theory with the practicum experience.

Prerequisite: SWP3COM, SWP3FEA, SWP4IFG, SWP4SPP, SWP4DIV, SWP4FOP.

Class requirements: Field placement of 14 weeks full-time (70 days) and six hours of preparatory lectures/seminars.

Assessment: learning agreement, mid-placement and final placement reports as per *BSW Field Education Handbook* (100%). Assessed on pass or fail grade.

Recommended Reading:

SWP4IFG SOCIAL WORK PRACTICE WITH INDIVIDUALS, FAMILIES AND GROUPS B (20 CPs Sem. TE-SEM-1 AW, BE, BU, MI.) AW: Ms Virginia Mansel Lees, BE: Dr TBA TBA, BU: Dr Noel Renouf, MI: Ms Paula Bruce

In this unit the aim is to build on the content of SWP3IFG and to develop for students a more advanced level of knowledge, values and skill in relation to social work practice with individuals, families and groups. In addition there will be coverage of key areas of contemporary practice such as case management, multi-cultural service users and the tension between structural and post-structural perspectives. Throughout, this unit encourages active participation in skills training using role plays, value clarification exercises, exploring social and personal assumptions, as well as developing an awareness of the relationship between social and personal issues. The expected outcome for this unit is the achievement of a level of competence in social work practice sufficient for entry into the final supervised fieldwork placement.

Prerequisite: SWP3IFG, SWP3FEA.

Class requirements: Two 1-hour lectures and one 3-hour seminar per week.

Assessment: One 1000-word essay (20%), one major 2000-word critical reflection (35%), one 1500-word follow-on case study (25%), simulated casework interviews equivalent to a 20-minute verbal presentation (20%). Hurdle requirement: Students must obtain a pass standard in the simulated casework interviews and attend 80% of seminars/tutorials in order to obtain a pass in this unit.

SWP4SPP SOCIAL POLICY AND PRACTICE B (20 CPs Sem. TE-SEM-1 AW, BE, BU, MI.) AW: Dr Guinever Threlkeld, BE: Ms Di Cox, BU: Professor Allan Borowski, MI: Ms Paula Bruce

In this unit students are enabled to be policy practitioners through the development of skills and knowledge about how the social policy contexts affects social work practice and how to intervene effectively in the policy process. It introduces students to the meaning of social policy and its concepts and frameworks for understanding and developing policies. This unit covers material about the welfare state, how it operates in Australia and in other countries and how it is changing.

Class requirements: Three 1-hour lectures per week for 13 weeks and one 1-hour tutorial per week for 10 weeks.

Assessment: One 2500-word essay (40%), one 3500-word essay (60%).

Faculty of Humanities and Social Sciences

Bachelor of Arts (HUSBAM)

All three years of this course are available at the Mildura campus. For further details contact the Faculty Office on (03) 9479 1635.

The degree of Bachelor of Arts is offered by the Faculty of Humanities and Social Sciences either as a pass degree or with honours. The pass degree, if taken full-time, is designed to be completed within three years. An honours degree, which requires an additional year of full-time study, is available at the Melbourne (Bundoora) campus to qualified students.

It is the responsibility of students to familiarise themselves with course requirements and ensure that they are enrolled in units that conform to those requirements. Students are encouraged to contact the Faculty Office if they have any questions regarding requirements for their course.

Admission requirements

Prerequisite studies: a study score of at least 20 in VCE units 3 and 4 of English or equivalent is required for entry to the Bachelor of Arts. The Faculty will consider for admission applicants from all entrance categories.

Applicants who have not completed year-12 or equivalent may apply under the Special Entry Access Schemes. See the current VTAC Guide for more details or go to www.vtac.edu.au

Further information may be obtained from the Campus Office.

Disciplines

The following humanities and social sciences disciplines offer sequences of units to fulfil the course requirements of the Bachelor of Arts:

- English
- History
- Social sciences.

The following humanities and social sciences disciplines offer elective units for the Bachelor of Arts:

- Art history
- Philosophy.

Students may also include as elective units in their Bachelor of Arts course units offered by other faculties at the Mildura campus, subject to the restrictions in the course requirements below.

Course requirements

To qualify for the degree of Bachelor of Arts, students must:

- satisfactorily complete a minimum of 360 credit points, with at least 120 credit points at first year level and at least 120 credit points at third year level
- and include in their course either a major of 130 credit points, including at least 60 credit points at third year level, in a discipline offered by the Faculty, noting that majors in some disciplines must include specific units or combinations of units:

First year

TE-SEM-1	Major	Elective	Elective	Elective
TE-SEM-2	Major	Elective	Elective	Elective

Second year

TE-SEM-1	Major	Elective	Elective
TE-SEM-2	Major	Elective	Elective

Third year

TE-SEM-1	Major	Major	Elective
TE-SEM-2	Major	Elective	Elective

or:

two sequences of at least 110 credit points (30 credit points at first year level and 40 credit points at second and third year level) from different disciplines with at least one sequence in a discipline offered within the Faculty:

First year

TE-SEM-1	1st sequence	2nd sequence	Elective	Elective
TE-SEM-2	1st sequence	2nd sequence	Elective	Elective

Second year

TE-SEM-1	1st sequence	2nd sequence	Elective
TE-SEM-2	1st sequence	2nd sequence	Elective

Third year

TE-SEM-1	1st sequence	2nd sequence	Elective
T-SEM-2	1st sequence	2nd sequence	Elective

Special Entry Access Schemes (SEAS)

Applicants who are aged 21 years or more by 1 January of the year of their intended entry and who have not satisfied minimum tertiary entrance requirements may become eligible for entry by completing extra application requirements.

Course regulations

- A maximum of 205 credit points may be taken from any single discipline in the Faculty.
- 120 credit points (60 credit points in each semester) is a full-time study load for each year level. Students require permission from the Faculty to overload by taking more than 60 credit points in any semester. Permission is normally based on the student's previous academic record.

First year units

- As part of their 120 credit points at first year level, students must take a minimum of 90 credit points from units offered by the Faculty. A maximum of 45 credit points may be taken in any one discipline.
- A minimum of 120 credit points and a maximum of 135 credit points of first year units may normally be included in the degree.

Units from other La Trobe Faculties and other universities

- Students may take two semester units at each year level from other La Trobe Faculties.
- Students may take up to two semester units at each year level from another tertiary institution in a discipline that is not available at La Trobe University.

The following units are available at Mildura for students entering the Bachelor of Arts:

First year (15 credit points)

Teaching period	Unit title	Unit code
TE-SEM-1	Introduction to Asia: Japan and Indonesia	AST1IJI
TE-SEM-1	Myth, Legend and History	HIS1MLH
TE-SEM-1	Texts over Time	ENG1TOT
TE-SEM-2	Australia and Beyond	SOC1AAB
TE-SEM-2	Critical Thinking (online unit)	PHI1CRT
TE-SEM-2	Modern Europe B: The Twentieth Century	HIS1MEB
TE-SEM-2	Text, Criticism and the Visual	ENG1TCV

Second and third year units (20 credit points)

TE-SEM-1	Art of Byzantium (online unit)	ARH2AOB/ARH3AOB
TE-SEM-1	British and American Romanticism	ENG2BAR/ENGBAR

TE-SEM-1	Community Studies	SOC2CMS/SOC3CMS
TE-SEM-1	The European Union	HIS2EUU/HIS3EUU
TE-SEM-2	Families and Change	SOC2FAC/SOC3FAC
TE-SEM-2	Medieval Europe c600–c1200 (online unit)	ARH2MEU/ARH3MEU
TE-SEM-2	Shakespeare and Contemporaries	ENG2SAC/ENG3SAC
TE-SEM-2	U.S. Civil Rights Movement 1954 – 1968	HIS2UCR/HIS3UCR

Third year (20 credit points)

TE-SEM-1	Reading Course A	HIS3RCA
TE-SEM-2	Reading Course B	HIS3RCB

Bachelor of Visual Arts (BEBVAM)

All three years of this course are available at Mildura, with major studies in painting, printmaking, photography, drawing and sculpture. The course develops students' perceptual, conceptual and research skills in the areas of painting, drawing, sculpture, photography, printmaking and multimedia.

Admission requirements

Applicants must satisfy the University's normal entrance requirements, including a study score of at least 20 in units 3 and 4 of English, or equivalent. It is desirable for all applicants to have undertaken Studio Arts and/or Art. A Diploma of Arts, or equivalent approved qualification, will qualify individuals for entry to the degree course at a level determined by a selection committee. Mature age students will be considered for admission by the selection committee.

Folio requirements

Applicants must attend an interview, which is conducted in late November and submit a folio to an interview panel. A statutory declaration confirming that the work is that of the applicant must accompany the folio. The folio should demonstrate the applicant's aptitude, creativity, sense of design and abilities in a range of media or in a specialist area. It should contain material relevant to the applicant's proposed course of study including finished pieces and preparatory studies. Where possible, students should bring the original artwork but, where size is a constraint, photographs or electronic documentation will be considered.

Facilities available

Facilities for fine art include extensive painting, printmaking, sculpture, drawing and photographic/multimedia studios associated with darkrooms for black and white and colour production. There is access to studios during weekday evenings, at weekends and during semester breaks.

Special assessment details

Workshop units will be progressively assessed on three assignments per semester. Studio Theory and methodologies in studio practice units are based on folio assessments, which will be assessed by a panel of staff responsible for studio units. The examination panel for the final year studio theory assessment includes outside moderators selected for their high standing in visual arts.

Course structure

The course is undertaken by full-time study over three years or by part-time study after consultation with the selection committee. This course is valued at 120 credit points per year.

First year

Teaching period	Unit title	Unit code
TE-SEM-1	Art and Visual Culture A	VPA1VCA
TE-SEM-1	Theory and Methodologies in Studio Practice A	VPA1TMA
TE-SEM-1	Visual Arts Media Workshop A	VPA1MWA
TE-SEM-1	Comparative Studies in Visual Media A	VPA1CVA
TE-SEM-2	Art and Visual Culture B	VPA1VCB
TE-SEM-2	Theory and Methodologies in Studio Practice B	VPA1TMB
TE-SEM-2	Visual Arts Media Workshop B	VPA1MWB
TE-SEM-2	Comparative Studies in Visual Media B	VPA1CVB

Second year

TE-SEM-1	Theory and Methodologies in Studio Practice C	VPA2TMC
TE-SEM-1	Visual Arts Media Workshop C	VPA2MWC
TE-SEM-1	Comparative Studies in Visual Media C	VPA2CVC
TE-SEM-2	Theory and Methodologies in Studio Practice D	VPA2TMD
TE-SEM-2	Visual Arts Media Workshop D	VPA2MWD
TE-SEM-2	Comparative Studies in Visual Media D	VPA2CVD

Third year

TE-SEM-1	Theory and Methodologies in Studio Practice	EVPA3TME
TE-SEM-1	Professional Studies A	VPA3PSA

or		
TE-SEM-2	Comparative Studies in Visual Media F	VPA3CVF

Bachelor of Graphic Design (BEBVAGM)

All three years of the course are available at Mildura.

This course equips students with the creative and technical skills necessary for employment as a graphic designer and involves three years of full-time study.

Admission requirements

Applicants must satisfy the University's normal entrance requirements, including a study score of at least 20 in units 3 and 4 of English, or equivalent. It is desirable for all applicants to have undertaken studio arts and/or art. A Diploma of Arts, or equivalent approved qualification, will qualify individuals for entry to the degree course at a level determined by a selection committee. Mature age students will be considered for admission by the selection committee.

Folio requirements

Applicants must attend for interview which is conducted in late November and submit a folio to an interview panel. A statutory declaration confirming that the work is that of the applicant must accompany the folio. The folio should demonstrate the applicant's aptitude, creativity, sense of design and abilities in a range of media or in a specialist area. It should contain material relevant to the applicant's proposed course of study including finished pieces and preparatory studies. Where possible, students should bring the original artwork but, where size is a constraint, photographs or electronic documentation will be considered.

Facilities available

Facilities include separate studios for each year of the course and several darkrooms for black and white and colour photography. Computer graphics are generated through networked Apple Macintosh computers, flatbed scanners, laser printers and multimedia video production hardware and software with full editing suite. Students also have access to silk screen and other printing facilities.

Course structure

The course is undertaken by full-time study over three years or by part-time study after consultation with the selection committee. Prospective students should check course details with the course co-ordinator prior to enrolment. This course is valued at 120 credit points per year.

UNIT DESCRIPTIONS

ARH2AOB ART OF BYZANTIUM (20 CPs Sem. TE-SEM-1 AW, BU, MI.)

Co-ordinator to be advised

This unit is offered at third year level also.

This subject is only available as a fully online subject. Offered subject to sufficient enrolments.

Beginning with art from the reign of Emperor Constantine (312-337), students will study major works of early Christian art and architecture in Constantinople and Rome, as well as in the Byzantine capitals Milan and Ravenna from c. 312-726. They will explore the different attitudes to iconoclasm in the East and in Rome before analysing Byzantine art and architecture in centres such as Hosios Lukas, Daphni and Nea Moni. They will also consider the transformation of Byzantine art in medieval Italy, in Rome, Venice and Sicily.

Prerequisite: Any first year Art History subject.

Class requirements: Fully on line subject: students listen to one 1-hour recorded and illustrated lecture, read an online presentation and engage in a discussion forum each week.

This unit is not available for Study Abroad students.

Assessment: Two 2000-word essays (80%), five 200-word short assignments (20%). Third year students are expected to show greater levels of achievement of discipline-specific skills than second year students.

Preliminary Reading:

Mathews TF. *The art of Byzantium*. Everyman Art Library, 1998.

Prescribed Reading:

Krautheimer R and Curcic S. *Early Christian and Byzantine architecture*. Yale University Press, 1986.

Recommended Reading:

Ousterhout RG. *Master builders of Byzantium*. Princeton University Press, 2000.

ARH2MEU MEDIEVAL EUROPE C 600-C 1200 (20 CPs Sem. TE-SEM-2 AW, BU, MI.)

Co-ordinator to be advised

This unit is offered at third year level also.

Offered subject to sufficient enrolments. This subject is only available as a fully online subject.

In this unit students consider the art and architecture of Europe in the Middle Ages starting in the Dark Ages, when the Roman Empire had declined, in the face of barbarian invasions. We analyse selected examples of the art of these barbarian peoples. The career of Gregory the Great spans the end of the ancient Roman world and the early middle Ages. The rise of Islam in the seventh century led to the Muslim conquest of Spain and the subsequent campaigns of reconquest. From the tenth century the pilgrimage to Santiago de Compostela was most popular. The monks of Cluny promoted the pilgrimage. Students will look in detail at the Romanesque and early Gothic art and architecture to be found along the pilgrim routes through France and Spain and at the art and architecture associated with monasteries.

Prerequisite: 15 credit points of first year art history or co-ordinators approval.

Class requirements: Students complete the equivalent of thirteen 3-hour sessions online via WebCT. This includes one presentation and one lecture online each week, with fortnightly exercises.

Assessment: Two 2000-word essays (80%), five online exercises (1000-words equivalent) (20%). Third year students will be expected to show a greater achievement of discipline-specific skills in their written work than second year students.

AST11J INTRODUCTION TO ASIA: JAPAN AND INDONESIA (15 CPs Sem. TE-SEM-1 AW, BU, MI.) *Dr Kaori Okano*
 Successful completion of this unit may be counted towards first year requirements for Asian studies, politics, sociology and anthropology. Students are introduced to two of Australia's Asian neighbours, Japan and Indonesia. To ensure a systematic approach, we focus on how countries are run (government), how people connect with each other (society) and how people perceive themselves and how outsiders perceive them (culture). The unit is both contemporary and historical. We examine pre-European history, the impact of European imperialists and the condition of these countries today. With AST11CI, students are prepared for more detailed study of Asia and for further study in Politics, History, Sociology and Anthropology. They are provided with a sound background for the study of Asian languages. A required workbook of readings may be purchased from the University Bookshop and is also available from the Library.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: Tutorial exercises (500-word equivalent) (15%), one 500-word exercise (15%), one 1500-word essay (35%), one 1.5-hour final examination (35%).

Recommended Reading:

 Sugimoto Y. *An introduction to Japanese society*. Cambridge University Press, 1997.

ENG1TCV TEXT, CRITICISM AND THE VISUAL (15 CPs Sem. TE-SEM-2 AW, BU, MI.) *Professor Sue Thomas*

Students study a range of novels and plays, together with film adaptations of them. Topics covered in discussions include the ways texts tell stories and present personality, gender and genre, issues of representation in contemporary culture and what might be meant by describing some of the texts and films as 'popular' and some as 'classic'. The films will be studied as interpretations of literary texts. Prescribed texts must be purchased before the beginning of the semester.

Class requirements: One 1-hour lecture and one 1-hour tutorial per week and six 2-hour film screenings.

Assessment: One 1500-word essay (35%), one 1500-word essay (35%), class tests (1000-words equivalent) (30%).

Prescribed Reading:

Fest J. *Inside Hitler's bunker*. Macmillan Paperback.
 James H. *Washington Square*. Penguin.
 Leonard E. *Rum Punch*. Penguin.
 Melville H. *Billy Budd and other stories*. Pearson.
 Shakespeare W. *Richard III*. Any edition.

ENG1TOT TEXTS OVER TIME: INTRODUCTION TO LITERATURE (15 CPs Sem. TE-SEM-1 AW, BU, MI.) *Mr Chris Palmer*

This unit is an introduction to the discussion and analysis of a range of literary texts, including plays, poems and novels. Its aim is to develop awareness of the possibilities of constructing meaning and significance in texts. In addition to the set texts, there will be a subject reader for poetry.

Class requirements: One 1-hour lecture, one 1-hour online workshop and one 1-hour tutorial per week.

Assessment: Two 1500-word essays (80%), tutorial exercises (1000-words equivalent) (20%).

Prescribed Reading:

Atwood M. *Alias Grace*. Virago
 Austen J. *Mansfield Park*. Penguin.

Conrad J. *Heart of darkness*. Norton
 Fugard A. *The township plays – the Island*. Oxford.
 Shakespeare, W. *The merchant of Venice* Penguin.

ENG2BAR BRITISH AND AMERICAN ROMANTICISM (20 CPs Sem. TE-SEM-1 AW, BU, MI.) *Dr Iain Topliss*
This unit is offered at third year level also.

In this unit we have an introduction to poetry of the period 1790–1870, from William Blake to Emily Dickinson. Emphasis is placed on close reading of poems. Classes give attention to the social, religious and political context. The poets' own critical writings are considered along with contemporary and academic criticism.

Prerequisite: 30 credit points of first year English.

Class requirements: One 1-hour lecture or seminar per week and one 2-hour tutorial per week.

Assessment: One 2000-word exercise (40%), one 3000-word essay (60%).

Prescribed Reading:

Wu D (ed). *Romanticism: an anthology*. Blackwell, 2005.

ENG2SAC SHAKESPEARE AND CONTEMPORARIES (20 CPs Sem. TE-SEM-2 AW, BU, MI.) *Mr Chris Palmer*

This unit is offered at third year level also.

A study of various forms of tragedy and tragi-comedy in Shakespeare and the drama of his age. Discussion of these plays will also give attention to their historical context, their importance at the present time and to current critical approaches.

Prerequisite: 30 credit points of first year English.

Class requirements: One 1-hour tutorial and one 2-hour lecture/seminar per week.

Assessment: One 2000-word essay (40%). Third year students will be expected to show a greater achievement of discipline-specific skills in their written work than second year students, one 2000-word essay (40%), one 1000-word exercise (20%).

Prescribed Reading:

Marlowe C. *Doctor Faustus*. Oxford.
 Salgado (ed). *Three Jacobean Tragedies*. Penguin.
 Shakespeare W. *Hamlet*. Everyman.
 Shakespeare W. *Macbeth*. Oxford.
 Shakespeare W. *Measure for measure*. Penguin.

HIS1MEB MODERN EUROPE B: THE TWENTIETH CENTURY (15 CPs

Sem. TE-SEM-2 AW, BU, MI.) *BU: Dr Philip Bull, BU: Dr Adrian Jones*

In this unit, students study the turbulent twentieth century in Europe, beginning with the industrial, national and imperial rivalries, which culminated in the First World War. The revolutions and revolutionary pressures, which arose out of that war, are examined as a background to the emergence of the ideologies of Fascism and Communism and the totalitarian regimes of Nazism and Stalinism. Post-war European prosperity and integration and the collapse of Communism are studied. Through this unit students will gain a deeper understanding of the crises, which have characterised European history in the twentieth century.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: Essay/exercises, 2000-words equivalent) (60%), one 2-hour examination (40%). Alternatively, students may choose to reverse the percentage weightings of the two assessment components

Preliminary Reading:

Thomson D. *Europe since Napoleon*. Penguin, 1966.
 Wiskemann E. *Europe of the dictators, 1919–1945*. Fontana, 1966.
 Joll J. *Europe since 1870: an international history*. 4th edn. Penguin, 1990.

Prescribed Reading:

Derfler L and Kollander P. *An age of conflict*. 3rd edn. Harcourt Brace, 2002.

HIS1MLH MYTH, LEGEND AND HISTORY (15 CPs Sem. TE-SEM-1 BU, MI.)

Dr Diane Kirkby

From ancient Greece and medieval Britain come some of the best-known names and places in history. Achilles, Troy, Rome, King Arthur, Guinevere and Robin Hood – all have had glorious stories told about them. Their names have become synonymous with history

and have been transmuted into fiction. In this unit we read these stories and consider the power and attraction of myth in storytelling, literature, art and film. We examine the archaeological evidence and material culture that support or challenge written texts. We also explore the links between mythic pasts, creation stories, gender, historical legends and nation building. Just what is the relationship between myth, legend, fiction and history?

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: One 500-word assignment (15%), one 1000-word assignment (25%), one 1.5-hour examination (40%), two 30-minute short answer tests (20%).

Preliminary Reading:

Grant M. *The classical Greeks*. Phoenix Paperback, 1997.

HIS2EUU THE EUROPEAN UNION (20 CPs Sem. TE-SEM-1 AW, BE, BU, MI.)

BU: Dr Stefan Auer, **BU:** Dr Philip Bull, **BU:** Dr Anthony Jarvis
This unit is offered at third year level also.

Within the history of the integration process and with a particular focus on the European Union (EU), students will evaluate the extent to which integration has changed the lives of citizens and relations between nation-states in Europe; critique EU policies and processes; analyse the EU's role as an international actor; and apply insights derived from integration theory. The lecture program for the unit will capitalise on the availability in Australia of many experts associated with the EU and its institutions, as well as providing more general contextual lectures on its history, functioning and place in the contemporary world. Tutorials will be focused on ensuring that students develop an adequate understanding of how the EU functions, its relationships with member nations and the ways in which it is important to the rest of the world, including Australia.

Prerequisite: Any first year history or politics subject.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: One seminar presentation (equivalent 500-words) (10%), two WebCT quizzes (10%), one 2000-word research essay (40%), one 2-hour examination (40%). Third year students will be expected to show a greater achievement of discipline-specific skills in their written work than second year students.

Recommended Reading:

Cini M (ed). *European Union politics*. 2nd edn. OUP, 2003.

HIS2UCR U.S. CIVIL RIGHTS MOVEMENT 1954-1968 (20 CPs Sem. TE-SEM-2 BU, MI.) Dr Tim Minchin

This unit is offered at third year level also.

In this unit students examine what is probably the most significant social movement in United States history. The central protests and demonstrations of this major movement are explored in detail in this unit. Drawing on both a substantial secondary literature and published primary sources, students identify the circumstances under which non-violent direct action protest was successful. Particular attention is given to the role of Dr Martin Luther King, Jr and his role is assessed in relation to the ongoing 'man v. movement' debate.

Prerequisite: 30 credit points of first year history or majoring in the North American area of study.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: One 2500-word research essay (50%), one 2500-word research essay (50%).

Recommended Reading:

Carson C. et al. (eds). *Eyes on the prize civil rights reader: documents, speeches and firsthand accounts from the black freedom struggle*. 2nd edn. Penguin, 1988.

Fairclough A. *To redeem the soul of America: the southern Christian Leadership Conference and Martin Luther King Jr*. University of Georgia Press, 1987.

Hampton H and Fayer S. *Voices of freedom: an oral history of the civil rights movement*. Bantam, 1990.

Williams J. *Eyes on the prize: America's civil rights years*. Penguin, 1988.

PHI1CRT CRITICAL THINKING (15 CPs Sem. TE-SEM-2 AW, BU, MI.) Dr

Norva Y.S. Lo

PHI1CRT semester two is taught entirely online. There will be one 90-minute mediated online discussion per week plus learning

activities as specified online (equivalent to 90-minutes attendance per week). For more information contact the unit co-ordinator or visit www.latrobe.edu.au/philosophy/resources Ug/handout crt.html.

Thinking and reasoning are essential components of human life. But much of our thinking and reasoning is biased, distorted and uninformed. Yet the quality of our life and that of what we produce, make or build depends precisely on the quality of our thoughts and reasons. In this unit, you will learn how to reason well, to think clearly and independently and also to engage fairly with others in discussions and debates. Many students find the experience gained in this unit immensely valuable, both within the University and later in employment whatever their subsequent areas of specialisation.

Assessment: One 3-hour examination (55%), three short exercises, 2000-words equivalent) (45%).

Prescribed Reading:

Phillips R and Oakley T. *Reason and argument*. Monash, 1996.

SOC1AAB AUSTRALIA AND BEYOND: INTRODUCTION TO SOCIOLOGY

(15 CPs Sem. TE-SEM-2 BU, MI.) Dr Trevor Hogan

In this unit students are introduced to the sociology of contemporary society. The focus is on Australia — a nation-state and society subject to global forces and expressions of local culture and power. We rethink social order and divisions in Australian society across place and time. We look at particular cities and regions across Australia and beyond. What are we to make of the way the larger global context impacts upon us? How can sociology help us to answer questions such as this?

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: One 2000-word written assignment (50%), one 1.5-hour multiple choice examination (30%), one 500-word written assignment (20%).

Prescribed Reading:

Beilharz P and Hogan T (eds). *Relocating sociology: place, time, division*. Oxford UP, 2006.

SOC2CMS COMMUNITY STUDIES (20 CPs Sem. TE-SEM-1 BU, MI.)

Dr Anthony Moran

This unit is offered at third year level also.

In this unit the aims are, first, to explore the notion of 'community' both in an historical context and how it is used today. Second, by examining a range of contemporary communities, we link the study of community to broader theoretical debates within the sociological and anthropological traditions. These include debates around modernity and social change; universalism and particularism; individualism and group identity. Also considered are the impacts of globalisation on personal and social identity. Throughout, our central focus remains on the changing nature of the concept of community and on different forms of community in contemporary society.

Prerequisite: 30 credit points of first year sociology or anthropology, or AST1IJI and AST1ICI, or unit co-ordinator's approval.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: One 3000-word essay/research report (60%), one 2-hour examination (40%). Third year students will be expected to show a greater achievement of discipline specific skills in their written work than second year students.

Recommended Reading:

Delanty G. *Community*. Routledge, 2003.

SOC2FAC FAMILIES AND CHANGE (20 CPs Sem. TE-SEM-2 BU, MI.) Dr

Kerreen Reiger

This unit is offered at third year level also.

Several change processes in families are explored in this unit. First, we consider the changes in the institution of the family over time – those in partnering and having children, patterns of divorce and remarriage, paid and unpaid work, gender roles and parenthood. Explanations for and the meaning of these changes will be considered. Second, we also consider changes in Australian families in terms of life stage transitions and emerging family models. Throughout the unit the diversity of family forms and how experiences differ according to age, gender, class and ethnicity are emphasised. Regular attendance at classes is essential to the research emphasis in this unit.

Prerequisite: 30 credit points of first year sociology or anthropology, or gender, sexuality and diversity studies, or AST11JI and AST11CI, or unit coordinator's approval.

Class requirements: One 2-hour lecture and one 1-hour seminar per week.

Assessment: One 2000-word research report (40%), one 1500-word essay (30%) and one 1500-word literature review (30%). Third year students will be expected to show a greater achievement of discipline specific skills in their written work than second year students.

VPA1AD1 APPLIED DESIGN 1 (15 CPs Sem. TE-SEM-1 BE, MI.) *BE: Mr*

Geoff Hocking, MI: Mr Neil Fetting

Digital and print studies are offered to alternative groups each semester

The application of techniques for visual communication is at the core of this unit. Through applied projects such essential skills as construction techniques, layout visualisation and presentation, applied drawing, photo mechanical and reproductive techniques, photographic and typographic application are developed.

Class requirements: One 1-hour lecture and 2 hours of practical classes per week.

Assessment: Five 2-week projects (100%).

Recommended Reading:

Craig J. *Basic typography: a design manual*. Watson-Guptill, 1990.

Craig J. *Production for the graphic designer*. Watson-Guptill, 1974.

Spiekerman E and Ginger EM. *Stop stealing sheep and find out how type really works*. Adobe Press, 1993.

VPA1AD2 APPLIED DESIGN 2 (15 CPs Sem. TE-SEM-2 BE, MI.) *BE: Mr*

Geoff Hocking, MI: Mr Neil Fetting

Digital and print studies are offered to alternative groups each semester.

The creation of integrated design solutions to both two dimensional and three dimensional applied projects is the focus of this unit. Creative design solutions are a major element in effective communication and emphasis is placed on the creative interplay between words, text, images, ideas and typography. Package design is investigated through model making, packaging and three-dimensional construction activities and copywriting skills, combining words and images are developed.

Class requirements: One 1-hour lecture, one 2-hour practical class per week.

Assessment: Five 2-week projects (100%).

Recommended Reading:

Booth-Clibborn E and Baroni D. *The language of graphics*. Thames and Hudson, 1980.

Glaser M. *Graphic design*. Overlook Press, 1973.

Morgan CL. *Packaging design*. Rob Vision SA, 1997.

VPA1CVA COMPARATIVE STUDIES IN VISUAL MEDIA A (15 CPs Sem. TE-SEM-1 BE, MI. TE-W25-30 MI.) *Mr Cameron Rose*

In this unit students are introduced to interdisciplinary studies through a foundation in alternative media. They select an alternative study: either electronic (digital imaging), or 'manual' media (painting, drawing, ceramics, chemical-based photography or illustration), to augment their major discipline study in the other. The emphasis of assignments is on process through which the student brings images from a familiar medium into the studio of the alternative medium to be developed. Through assessment and feedback sessions students are provided with the critical skills to evaluate outcomes. Lectures provide a theoretical and technical background in the principles of design from examples of processes of developing a concept across media.

Class requirements: One 1-hour lecture, one 1-hour tutorial/workshop and one 1-hour workshop per week.

Assessment: Five 2-week assignments (each 600 words equivalent) (100%).

VPA1CVB COMPARATIVE STUDIES IN VISUAL MEDIA B (15 CPs Sem. TE-SEM-2 BE, MI.) *Mr Stephen Turpie*

In this unit students extend concerns investigated in the medium of their major studio discipline in an alternative visual art discipline or studio. Students bring ideas or concepts from their familiar major medium into the studio of the alternative medium. The emphasis of assignments is on process and an assessable journal is used to record process, development and outcomes. In the lectures we provide an overview of historical practice in combined media or multi-media, examining practitioners including Marcel Duchamp, Meret Oppenheim, Lazlo Moholy-Nagy, Joseph Cornell and Mary Kelly. Assessment and feedback sessions provide students with the critical skills to evaluate the outcomes.

Prerequisite: VPA1CVA.

Class requirements: One 1-hour lecture, one 1-hour tutorial/workshop and one 1-hour workshop per week.

Assessment: Five 2-week assignments (each 600 words equivalent) (100%).

VPA1DS1 DESIGN STUDIES 1 (20 CPs Sem. TE-SEM-1 BE, MI.) *BE: Mr*

Geoff Hocking, MI: Mr Neil Fetting

An introduction to the realisation of visual concepts through theoretical consideration of design elements – Composition, Spatial Layout, Scale, Placement, Structure – through the application of basic design elements – colour, texture form and image. Conceptual development is encouraged as links between visual image, text and idea are established through applied projects.

Class requirements: VPA1DS1, VPA1DS2, VPA2DS3, VPA2DS4, VPA3DS5, VPA3DS6

One 1-hour lecture and 2 hours of practical classes per week.

Assessment: Introduction to computer programs (20%), conceptual poster assignment (20%), 3-d construction, typographic and pictorial form (20%), conceptual packaging (20%), page layout, type and illustration (20%).

Recommended Reading:

Pentagram Design *Ideas on design*. Faber and Faber, 1968.

VPA1DS2 DESIGN STUDIES 2 (15 CPs Sem. TE-SEM-2 BE, MI.) *BE: Mr*

Geoff Hocking, MI: Mr Neil Fetting

In Design 2 students develop an understanding of basic design applications through applied projects. The relationship of design elements – symbol and image, symbol and text, typography and image, photo and text – and their application to both 2 and 3 dimensional design projects through the expression of creative communicative projects is investigated. Computers as a production tool are introduced at this level – the basics of hardware, software, computer conventions and basic typesetting for applied projects are considered. Subject matter is introduced through formal briefing and theoretical discussion and developed by critique and assessment of outcomes.

Class requirements: VPA1DS1, VPA1DS2, VPA2DS3, VPA2DS4, VPA3DS5, VPA3DS6

One 1-hour lecture and 2 hours of practical classes per week.

Assessment: Corporate Style assignment (20%), Product packing assignment (20%), Text and Image (Poster). Design assignment (20%), Magazine Cover Design assignment (20%), Event Promotion assignment (20%).

Recommended Reading:

Elam K. *Expressive typography: the word as image*. Van Nostrand Reinhold, 1990.

Popper F. *Art of the electronic age*. Thames and Hudson, 1993.

VPA1MWA VISUAL ARTS MEDIA WORKSHOP A (15 CPs Sem. TE-SEM-1 BE, MI.) *Ms Claire Smith*

In this unit we offer self-contained fully supervised workshops which introduce students to specialisation in the media of Ceramics, Painting/Drawing, Photography, Printmaking, or Multimedia, linked to their major discipline study. Provided over four-week blocks simultaneously in each of the media, workshops contain a lecture/demonstration and lecturer supervision of student

investigations and production of assigned work appropriate to each medium, with some time for self-directed study. Investigation within these workshops will include: introduction to specific media; health and safety within the workshop environment; investigation of materials, tools, techniques; and historic/contemporary precedents. Assessment is based on three set sequential assignments and a technical journal.

Class requirements: One 1-hour lecture, one 1-hour tutorial and one 1-hour workshop per week.

Assessment: Photography: 3 assignments (100%), Multimedia: 3 thematically based assignments (100%), Painting and drawing: 3 relevant assignment works (produced on site in drawing workshops) (100%), Ceramics: 3 projects (100%), Printmaking: 3 projects nominated by Unit Coordinator (100%). Students submit assessment in only one of the streams.

VPA1MWB VISUAL ARTS MEDIA WORKSHOP B (15 CPs Sem. TE-SEM-2 BE, MI.) *Mr Anthony Conway*

In this unit students consolidate their initial investigations of their chosen media of Ceramics, Painting/Drawing, Photography, Printmaking, or Multimedia. The objectives of these workshops are: to develop more advanced concepts and explorations of students' application to the solution of set problems; to introduce them to concepts of independent workshop research and enquiry; and to relate visual outcomes to their major study. Self-contained fully supervised workshops, provided over four week blocks in each of the media, contain a lecture/demonstration and lecturer supervision of student investigations and production, with some time for self-directed study. Assessment is based on three set sequential assignments and a technical journal.

Prerequisite: VPA1MWA.

Class requirements: One 1-hour lecture, one 1-hour tutorial and one 1-hour workshop per week.

Assessment: Photography: 3 assignments (100%), Multimedia: 3 thematically based assignments (100%), Painting and drawing: 3 relevant assignment works (produced on site in drawing workshops) (100%), Ceramics: 3 projects (100%), Printmaking: 3 projects nominated by Unit Coordinator (100%). Students submit assessment in only one of the streams.

VPA1TMA THEORY AND METHODOLOGIES IN STUDIO PRACTICE A

(15 CPs Sem. TE-SEM-1 BE, MI.) *Mr Anthony Conway*
Art and Time: Design, Construction, Process.

In this unit we examine studio methods used in constructing artwork, from the Modernist principles of design as introduced in the Bauhaus, through to more recent concepts of Process Art. In the seminars we compare the differing notions of creativity as process and reorganisation and as representation. Scheduled time for practical studio production provides students with the opportunity to explore a range of solutions and responses to the critical analysis and discussion.

Class requirements: One 1-hour lecture, one 1-hour tutorial and one 1-hour workshop per week.

Assessment: Multimedia: folio of 10 images (or equivalent) and annotated visual journal (1000 words equivalent) (100%), Photography: 12 prints, 10 proof sheets (100%), Painting and drawing: 4 major pieces plus working journal (1000 words equivalent) (100%), Ceramics: 3 projects (100%), Printmaking: 12 prints or equivalent (100%). Students submit assessment in only one of the streams.

VPA1TMB THEORY AND METHODOLOGIES IN STUDIO PRACTICE B

(15 CPs Sem. TE-SEM-2 BE, MI.) *Ms Claire Smith*
Representation and the Readymade.

In this unit students consider the principle of representation in art, comparing realism and the tradition of working from the object, with the Modernist concept of the object *trouve* and the Post modern concept of *suture*. The interdependent roles of craft and concept are thus highlighted in discussions of contemporary and historic artworks. Students are required to identify these issues in their own cultural practice, employing a critical vocabulary to develop a reflective approach towards their practice in the development of a folio of work in their chosen disciplines.

Prerequisite: VPA1TMA.

Class requirements: One 1-hour lecture, one 1-hour tutorial and one 1-hour workshop per week.

Assessment: Multimedia: 3- to 5-minute video and annotated visual journal (1000 words equivalent) (100%), Photography: 12 prints, 10 proof sheets (100%), Painting and drawing: 4 major pieces plus working journal (1000 words equivalent) (100%), Ceramics: 3 projects (100%), Printmaking: 12 prints or equivalent (100%). Students submit assessment in only one of the streams.

VPA1VCA ART AND VISUAL CULTURE A (15 CPs Sem. TE-SEM-1 BE, MI.)

Dr Lisa Beaven

In this unit students are provided with a broad introduction to the study of Art and Visual Culture. We take the widest definition of the subject to include art, design, cinema, video and electronic media and consider art chronology from the Renaissance to the present. Students are introduced to a range of theoretical positions and a variety of methodologies for viewing and interpreting art with the aim of encouraging the development of skills in visual analysis. There is a strong emphasis on excursions and on-site learning in galleries and museums.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: One 2000-word essay (50%), two 1000-word assignments (50%).

Prescribed Reading:

Rose G *Visual methodologies: an introduction to the interpretation of visual materials*. Sage, 2001.

VPA1VCB ART AND VISUAL CULTURE B (15 CPs Sem. TE-SEM-2 BE, MI.)

Dr Lisa Beaven

In this unit students explore the central ideas and concepts that motivated the Modern Movement in art and design in Europe from the 1890s through the first half of the 20th century. Students examine the concept of the *avant-garde* as played out in individual movements: Cubism, Futurism, Dada, De Stijl, Surrealism, while placing these in the broader context of the rapidly changing technological, social and political conditions of the first decades of the century. Students gain a detailed overview of art and art movements in the first half of the twentieth century and develop further their ability to critically analyse works of art and critical writings about art.

Prerequisite: VPA1VCA.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: One 2000-word essay (50%), one 500-word bibliographic exercise (10%), one 1-hour slide test (30%), one 500-word online assignment (10%).

Recommended Reading:

Golding J. *Paths to the absolute*. Thames and Hudson, 2000.

Harrison C. *Primitivism, cubism, abstraction: the early twentieth century*. Yale UP, 1993.

Wood P (ed). *The challenge of the avant-garde*. Yale UP, 1999.

VPA2AD3 APPLIED DESIGN 3 (20 CPs Sem. TE-SEM-1 BE, MI.) *BE: Mr*

Geoff Hocking, MI: Mr Neil Fetting

Digital and print studies are offered to alternative groups each semester.

Through assigned projects, students will develop a wide range of essential skills in the area of digital technology. All projects will be taken to laser printing, some projects will be taken to film output in preparation for print. Scanning, re-screening, image manipulation, layers, clipping paths, file management and proofing are essential skills to be mastered in this unit.

Class requirements: One 1-hour lecture and one 2-hour practical class per week.

Assessment: VPA2AD3, VPA2AD4, VPA3AD5, VPA3AD6 (partial only). Five 2-week projects (80%), one 1000-word rationale report (20%).

Recommended Reading:

Blatner D and T. *Quark XPress book*. 4th edn. Peachpit Press, 1994.

Evans P. *Fresh ideas in Photoshop*. F and W, 1998.

Hayden. *Advanced Adobe Photoshop for Macintosh*. Adobe Press, 1994.

VPA2AD4 APPLIED DESIGN 4 (20 CPs Sem. TE-SEM-2 BE, MI.) *BE: Mr**Geoff Hocking, MI: Mr Neil Fetting*

Digital and print studies are offered to alternative groups each semester.

Through assigned projects, students will be able to develop a wide range of essential skills in the area of digital technology. All projects will be taken to laser printing, some projects will be taken to film output in preparation for print. Scanning, re-screening, image manipulation, layers, clipping paths, file management and proofing are essential skills to be mastered in this unit.

Class requirements: One 1-hour lecture and one 2-hour practical class per week.

Assessment: VPA2AD3, VPA2AD4, VPA3AD5, VPA3AD6 (partial only)

Five 2-week projects (80%), one 1000-word rationale report (20%).

Recommended Reading:

VPA2CVC COMPARATIVE STUDIES IN VISUAL MEDIA C (20 CPs Sem. TE-SEM-1 BE, MI.) *Dr James McArdle*

In this unit each student works collaboratively with a student from another discipline major to present a combined work or works. In the lectures we explore the history and contemporary practice of collaboration in the visual arts, with reference also to collective production in theatre, architecture and film. A journal is used to record the collaborative process and its development. Workshop lecturers in consultation supervise the collaboration. In assessment and feedback sessions students are provided with the critical skills to evaluate these outcomes.

Prerequisite: VPA1CVB.

Class requirements: One 1-hour lecture, one 1-hour tutorial/workshop and one 1-hour workshop per week.

Assessment: VPA2CVC, VPA2CVD, VPA3CVE

Five 2-week assignments (each 800 words equivalent) (80%), one 500-word proposal (10%), one 500-word evaluation (10%).

VPA2CVD COMPARATIVE STUDIES IN VISUAL MEDIA D (20 CPs Sem. TE-SEM-2 BE, MI.) *Dr James McArdle*

In this unit students combine two media to produce a hybrid form of their own devising. Hybridisation requires experimentation and innovation and alternative works will be trialled, tested and recorded before a single solution is selected. After progressive iterations and assessments, outcomes will be presented in a group exhibition and evaluated with regard to the extent that differences between the selected convergent media are resolved. In lectures that provide the critical background, we will consider the variety of art forms that become possible when the distinctions between traditional media become blurred or transgressed. Reference will be made to contemporary practitioners and examples of hybrid media.

Prerequisite: VPA2CVC.

Class requirements: One 1-hour lecture, one 1-hour tutorial and one 1-hour workshop per week.

Assessment: VPA2CVC, VPA2CVD, VPA3CVE

Five 2-week assignments (each 800 words equivalent) (80%), one 500-word proposal (10%), one 500-word evaluation (10%).

VPA2DS3 DESIGN STUDIES 3 (20 CPs Sem. TE-SEM-1 BE, MI.) *BE: Mr**Geoff Hocking, MI: Mr Neil Fetting*

In this unit we explore a variety of different design practices e.g., advertising, publishing, editorial and information design. Various projects covering a basic understanding of these applications are taken to 'presentation visual' standard – this can be achieved either manually or digitally. Specific attention is paid to typographic detail, copy and text, creation and application of visual imagery, photographic application, illustration and marketing concepts. Subject matter is introduced through formal briefing and theoretical discussion and developed by critique and assessment of outcomes.

Class requirements: VPA1DS1, VPA1DS2, VPA2DS3, VPA2DS4, VPA3DS5, VPA3DS6

One 1-hour lecture and 2 hours of practical classes per week.

Assessment: VPA2DS3

Studio assignment (16%), editorial/publishing assignment (16%), advertising assignment (16%), photographic assignment (16%), typographic assignment (16%), one 1000-word research project (20%).

Recommended Reading:

Grazier B and Yelland J. *Typo survival kit for all type emergencies*. Press for Success, 1993.

Hillman D, Peccinotti H and Gibbs D. *Nova 1965–1975*. Pavilion, 1993.

White J. *Graphic idea notebook: inventive techniques for designing printed pages*. Watson-Guptill, 1980.

VPA2DS4 DESIGN STUDIES 4 (15 CPs Sem. TE-SEM-2 BE, MI.) *BE: Mr**Geoff Hocking, MI: Mr Neil Fetting*

In this unit we investigate a broad range of design applications with specific attention to page/grid layout, corporate style, promotional design (through visual merchandising, display and packaging), photographic realisation and print concepts. Typographic detail is an essential consideration of this unit as function and communication become more acutely detailed. Subject matter is introduced through formal briefing and theoretical discussion and developed by critique and assessment of outcomes.

Class requirements: VPA1DS1, VPA1DS2, VPA2DS3, VPA2DS4, VPA3DS5, VPA3DS6

One 1-hour lecture and 2 hours of practical classes per week.

Assessment: VPA2DS4

Product concept assignment (16%), magazine/press advertising assignment (16%), point of sale design assignment (16%), catalogue design assignment (16%), direct mail assignment (8%), television assignment (8%), one 1000-word research project (20%).

Recommended Reading:

Morgan C. *Packaging design*. Roto Vision SA, 1997.

VPA2MWC VISUAL ARTS MEDIA WORKSHOP C (20 CPs Sem. TE-SEM-1 BE, MI.) *Dr James McArdle*

In this unit emphasis is placed on developing technical competence informal or image-making skills from advancing individual outcomes contributing to the technical component of their major study. In self-contained, fully supervised workshops students advance their understanding of the media of Ceramics, Painting/Drawing, Photography, Printmaking, or Multimedia. Provided over four week blocks simultaneously in each of the media, workshops include a lecture/demonstration and lecturer supervision of student investigations and production, with some time for self-directed study. Assessment is based on three set sequential assignments and a technical journal.

Prerequisite: VPA1MWB.

Class requirements: One 1-hour lecture, one 1-hour tutorial and one 1-hour workshop per week.

Assessment: Photography: 3 assignments with individual assessment criteria and one 1000-word exhibition review (100%); multimedia: 3 thematically based assignment and one 1000-word exhibition review (100%); painting and drawing: 3 words (produced in drawing workshops) and one 1000-word exhibition review (100%); ceramics: 3 projects and one 1000-word exhibition review (100%); printmaking: 3 projects nominated by Unit Coordinator and one 1000-word exhibition review (100%). Students submit assessment in only one of the streams.

VPA2MWD VISUAL ARTS MEDIA WORKSHOP D (20 CPs Sem. TE-SEM-2 BE, MI.) *Mr Stephen Turpie*

In this unit students develop their own specific use of media, to achieve clearly demonstrable technical command of appropriate processes and to develop sound problem-solving skills in their selected media. In self-contained, fully supervised workshops,

students will advance their command of the media of Ceramics, Painting/Drawing, Photography, Printmaking, or Multimedia. Provided over four week blocks in each of the media, workshops contain a lecture/demonstration and lecturer supervision of student investigations and production, with some time for self-directed study. Assessment is based on three set sequential assignments and a technical journal.

Prerequisite: VPA2MWC.

Class requirements: One 1-hour lecture, one 1-hour tutorial and one 1-hour workshop per week.

Assessment: Photography: 3 assignments with individual assessment criteria and one 1000-word exhibition review (100%); Multimedia: 3 thematically based assignments and one 1000-word exhibition review (100%); Painting and drawing: 3 works (produced in drawing workshops) and one 1000-word exhibition review (100%); Ceramics: 3 projects and one 1000-word exhibition review (100%); Printmaking: 3 projects nominated by Unit Coordinator and one 1000-word exhibition review (100%). Students submit assessment in only one of the streams.

VPA2TMC THEORY AND METHODOLOGIES IN STUDIO PRACTICE C

(20 CPs Sem. TE-SEM-1 BE, MI.) *Ms Julie Millowick*

'Talking' Pictures: art and narrative, art and text.

In this unit students will examine and create narrative and story-telling in images. Starting with the students' own personal snapshots and memorabilia, the significance of life story and psyche in the study of artists and the production of art will be evaluated. In seminars and lectures we critique the notion of autobiography, the self, the soul, the body and its image, its uses in social critique or personal confession, or in the construction of fictional selves. Investigations of the narrative image genre will follow. Students will be encouraged to put into practice critical self-awareness in extending their own studio practice.

Prerequisite: VPA1TMB.

Class requirements: One 1-hour lecture, one 1-hour tutorial and one 1-hour workshop per week.

Assessment: VPA2TMC, VPA2TMD, VPA3TME, VPA3TMF

One practical assignment (20%), presentation of a class paper (1000 words equivalent) (20%), one 1000-word essay (20%), folio (40%).

VPA2TMD THEORY AND METHODOLOGIES IN STUDIO PRACTICE D

(20 CPs Sem. TE-SEM-2 BE, MI.) *Mr Stephen Turpie*

Recombinant Object: montage, bricolage, decoupage, deconstruction. In this unit students investigate and produce 'recombinant' art which exploits as its raw ingredients pre-existing cultural artefacts. Current and recent hybrid art will be set in an historical and critical philosophical context. Concepts like creativity, originality and authorship raise legal, ethical, political, cultural and philosophical issues which will provide the critical platform for discussions of such practices and aesthetics and inform the production of the students' individual folios.

Prerequisite: VPA2TMC.

Class requirements: VPA2TMC, VPA2TMD, VPA3TME, VPA3TMF

One practical assignment (20%), presentation of a class paper (1000 words equivalent) (20%), one 1000-word essay (20%), folio (40%).

VPA3AD5 APPLIED DESIGN 5 (20 CPs Sem. TE-SEM-1 BE, MI.) *BE: Mr*

Geoff Hocking, MI: Mr Neil Fetting

Digital and print studies are offered to alternative groups each semester.

This unit attempts to approximate the working environment through its industrial application. A series of professional briefs is actively sought and students are expected to complete a minimum of five submissions to clients in response to these briefs.

Prerequisite: VPA2AD4.

Class requirements: One 1-hour lecture, one 2-hour of practical class per week.

Assessment: VPA2AD3, VPA2AD4, VPA3AD5, VPA3AD6 (partial only)

Five 2-week projects (80%), one 1000-word rationale report (20%).

Recommended Reading:

Baldwin H. *Director 6 for Macintosh (Visual Quickstart Guide)*.

Fahey M. *Web publishers design guide for Macintosh*. Coriolis G 1997.

Peachpit Press, 1997.

Salles P and B. *Adobe Photoshop creative techniques*. Hayden 1995.

VPA3AD6 APPLIED DESIGN 6 (20 CPs Sem. TE-SEM-2 BE, MI.) *BE: Mr*

Geoff Hocking, MI: Mr Neil Fetting

Digital and print studies are offered to alternative groups each semester.

Presentation of design artwork for print reproduction is the focus of this unit. Two compulsory assignments and a minimum of five professional briefs (selected from a larger offering) are essential to complete a final folio presentation. The production of a Corporate Style Manual, with documented research and project design proposals, is an integral component of project submission. Combined digital art for a full-colour personal business card is also a compulsory assignment. Some work including the business card will be taken to print. Aspects of billing, client liaison and production management are investigated.

Class requirements: One 1-hour lecture and one 2-hour practical class per week.

Assessment: VPA2AD3, VPA2AD4, VPA3AD5, VPA3AD6 (partial only)

Five 2-week projects (80%), one 1000-word rationale report (20%).

Recommended Reading:

Carson D and Blackwell L. *The end of print: the graphic design of David Carson*. Laurence King, 1995.

Heller S and Chwast, S. *Graphic style: from Victorian to Post-modern*. Thames and Hudson, 1998.

Olins W. *Corporate identity: making business study visible through design*. Harvard Business School Press, 1990.

VPA3CVE COMPARATIVE STUDIES IN VISUAL MEDIA E (20 CPs Sem. TE-

SEM-1 BE, MI.) *Mr Anthony Conway*

In this unit students may choose to follow a particular direction in the production of convergent media, including collaborative projects, community-based projects, the combination of two or more media to produce hybrid forms of their own devising. They should provide evidence of a sound grasp of the comparative process.

Experimentation and progressive iterations are significant assessable outcomes. Assessments will be presented in group reviews and evaluated with regard to the extent that characteristics of the selected convergent media are exploited for aesthetic purpose. In lectures students will be provided with the critical background to consider the variety of art forms, other than 'high art' that may be derived from historical and contemporary cultural exchange. Reference will be made to contemporary practitioners and examples.

Prerequisite: VPA2CVD.

Class requirements: One 1-hour lecture, one 1-hour tutorial and one 1-hour workshop per week.

Assessment: VPA2CVC, VPA2CVD, VPA3CVE

Five 2-week assignments (each 800 words equivalent) (80%), one 500-word proposal (10%), one 500-word evaluation (10%).

VPA3CVF COMPARATIVE STUDIES IN VISUAL MEDIA F (20 CPs Sem. TE-

SEM-2 BE, MI.) *Dr James McArdle*

In this unit, which is a continuation of VPA3CVE, students may choose to follow a particular direction in the production of interdisciplinary studies in convergent media, including collaborative projects, community-based projects, or the combination of two or more media to produce hybrid forms of their own devising. Students should demonstrate a sound grasp of the comparative process and the links that their production has with their Studio Theory, as well as the capacity to resolve outcomes. Experimentation and progressive iterations are significant assessable outcomes. Assessments will be presented in group reviews and evaluated with regard to the extent that characteristics of the selected convergent media are exploited for aesthetic purpose. In lectures we will provide the critical background, with reference to contemporary practitioners and examples.

Prerequisite: VPA3CVE.

Class requirements: One 1-hour lecture, one 1-hour tutorial and one 1-hour workshop per week.

Assessment: Five 2-week assignments (each 1000 words equivalent) (100%).

VPA3DS5 DESIGN STUDIES 5 (20 CPs Sem. TE-SEM-1 BE, MI.) *BE: Mr**Geoff Hocking, MI: Mr Neil Fettling*

This unit is a studio based program that attempts to approximate the professional studio environment. The design industry is viewed as comprising five separate working environments – studio, advertising, publishing, information/education and electronic media. Projects are devised to allow students to gain experience, working at an advanced level, in each of these conceptually different areas of the communication industry. Subject matter is introduced through formal briefing and theoretical discussion and developed by critique and assessment of outcomes. Professional work may be introduced into this unit allowing for students to benefit from ‘real-time’ industrial experience.

Prerequisite: VPA2DS4.

Class requirements: VPA1DS1, VPA1DS2, VPA2DS3, VPA2DS4, VPA3DS5, VPA3DS6.

One 1-hour lecture and 2 hours of practical classes per week.

Assessment: VPA3DS5

Editorial design assignment (16%), packaging (16%), advertising assignment (16%), corporate assignment (16%), mass communication assignment (16%), one 1000-word research project (20%).

Recommended Reading:

Cato K. *Design in progress: what happens behind the scenes*. Nippan Publications, 1992.

Herring J. *Annual report design: A guide to the annual report process for graphic designers and corporate communicators*. Watson-Guptill, 1990.

Velthoven W, Boer L and Strengholt G. *Website graphics: the best of global site design*. Thames and Hudson, 1997.

VPA3DS6 DESIGN STUDIES 6 (20 CPs Sem. TE-SEM-2 BE, MI.) *BE: Mr**Geoff Hocking, MI: Mr Neil Fettling*

Students are encouraged to select an area of specialisation based on their experience gained in Design Studies 5. The final folio will be built on this individual interest or direction and may include – advertising, publishing, editorial, illustration, photography, studio design, electronic media etc. A choice of programs is prepared for students in consultation with the unit coordinator. Individually selected projects must be compatible with the requirements of the course at an advanced level and with the preference of the individual student. Subject matter is introduced through formal briefing and theoretical discussion and developed by critique and assessment of outcomes.

Class requirements: VPA1DS1, VPA1DS2, VPA2DS3, VPA2DS4, VPA3DS5, VPA3DS6.

One 1-hour lecture and 2 hours of practical classes per week.

Assessment: VPA3DS6

One 16-page booklet/publication design (15%), production of a business card, an exhibition banner and an exhibition catalogue page (10%), one assignment comprising: a) pitch design 10%, b) product 15%, report 15% (50%), rationale documentation (5%), one 1000-word research project (20%).

Recommended Reading:

Lewis R. *Annual reports: conception and design of annual reports*. Graphis, 1971.

Quon M. *Corporate graphics*. Saint Martins Press Inc, 1997.

VPA3GPA GRAPHIC DESIGN PROFESSIONAL PRACTICE A (20 CPs Sem.*TE-SEM-1 BE, MI.) Mr Geoff Hocking*

In this unit we examine professional practice in the advertising industry. Students conduct market research, examine research data and make proposals for change through the development of a marketing strategy for a consumer product. Students prepare packaging, product re-branding, develop promotional material, corporate style and track responses to their proposed strategy through ‘mock board-room’ presentations and external research. Assessment is based upon presentation of the material in digital PowerPoint style to the class (market group) and hard-copy ‘folio’ presentation of advertising/packaging material. Lectures include video presentations of case studies, discussions of copyright issues, sexual politics in marketing and branding, social demographic tracking and human psychological responses to marketing stimuli.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

This unit is not available for Study Abroad students.

Assessment: One PowerPoint advertising campaign project comprising ten parts (80%), one 1000-word class paper (20%).

VPA3GPB GRAPHIC DESIGN PROFESSIONAL PRACTICE B (20 CPs Sem.*TE-SEM-2 BE, MI.) Mr Geoff Hocking*

In this unit students investigate the discipline of Corporate Style Management. Students prepare designs for re-direction of Corporate Style for a selected public organisation, charity or professional business activity. Research data is collected and examined, proposals for change tested and applied to a Corporate Style Management Proposal ‘document’. The document includes: logo development, stationery applications, delivery systems, corporate livery, applications to vehicles and physical structures, external signage and Website face page design.

Prerequisite: VPA3GPA.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: VPA3GPA, VPA3GPB (partial only)

One Corporate Style Manual project comprising ten parts (80%), one 1000-word class paper (20%).

VPA3MWE VISUAL ARTS MEDIA WORKSHOP E (20 CPs Sem. TE-SEM-1*BE, MI.) Ms Robyn Burgess*

In this unit we advance previous knowledge and experience of chosen media, enabling students to achieve a higher level of proficiency and confidence in realising contemporary concepts. In self-contained, fully supervised workshops we will augment students’ expertise in the specialised media of Ceramics, Painting/Drawing, Photography, Printmaking, or Multimedia. Provided over four week blocks in each of the media, workshops contain a lecture/demonstration and lecturer supervision of student investigations and production. Self-directed assignments will be developed in tandem with the students’ major studies in consultation with lecturers. Assessment is based on three discrete, sequential tasks self-assigned with the assistance of the lecturer and a technical journal.

Prerequisite: VPA2MWD.

Class requirements: One 1-hour lecture, one 1-hour tutorial and one 1-hour workshop per week.

Assessment: VPA3MWE, VPA3MWF

Photography: 3 self-assigned briefs relevant to folio and one 1000-word exhibition review (100%), multimedia: 3 self-assignment briefs relevant to folio and one 1000-word exhibition review (100%), painting and drawing: 3 relevant assignment works and one 1000-word exhibition review (100%), printmaking: 3 projects nominated by Unit Coordinator and one 1000-word exhibition review (100%). Students submit assessment in only one stream.

VPA3MWF VISUAL ARTS MEDIA WORKSHOP F (20 CPs Sem. TE-SEM-2*BE, MI.) Dr James McArdle*

In this unit we develop the students’ own self-direction, organisation, selection and professional utilisation of materials, processes and media; and increase students’ ability to invent visual solutions to the challenges of contemporary practice in Ceramics, Painting/Drawing, Photography, Printmaking, or Multimedia. Provided over four week blocks in each of the media, workshops include a lecture/demonstration and lecturer supervision of student investigations and production, with time for self-directed study. Three individual self-directed assignments, documented in a technical journal, will be developed in tandem with the students’ major studies and in consultation with lecturers.

Prerequisite: VPA3MWE.

Class requirements: One 1-hour lecture, one 1-hour tutorial and one 1-hour workshop per week.

Assessment: Photography: 3 self-assigned briefs relevant to folio and one 1000-word exhibition review (100%), multimedia: 3 self-assignment briefs relevant to folio and one 1000-word exhibition review (100%), painting and drawing: 3 relevant assignment works and one 1000-word exhibition review (100%); printmaking: 3 projects nominated by Unit Coordinator and one 1000-word exhibition review (100%). Students submit assessment in only one stream.

VPA3PSA PROFESSIONAL STUDIES A (20 CPs Sem. TE-SEM-1 BE, MI.) *Dr**James McArdle*

In this unit students develop critical analysis and research skills, with an emphasis on articulating individual arts practice at a professional level as well as investigating a broad range of career options. The diversity of these options, career paths and supporting bodies are presented in a two-day seminar, speakers at the conference representing a broad cross-section of visual arts organisations relevant to practising artists. Topics include formulating an artist's statement, curriculum vitae, investigating gallery systems, exhibition protocol, audience demographics, ethics procedures, commercial studios and small business practice. Grant applications and funding bodies are investigated via local, state regional and national networks.

Class requirements: One 1-hour lecture and one 1-hour tutorial per week plus one 2-day seminar.

Assessment: VPA3PSA

One prescribed assignment (artist's statement, CV plus images) (20%), one research assignment (2000 words equivalent) (40%), one 1-hour examination (20%), one 20-minute tutorial presentation (20%).

VPA3PSB PROFESSIONAL STUDIES B (20 CPs Sem. TE-SEM-2 BE, MI.) *Dr**James McArdle*

Students are required to undertake an individual research topic as a 'contractual proposal', investigating in depth an area of research closely associated with their specific discipline, where possible creating the opportunity to expand their knowledge outside of the University confines. Areas of research may include a summary of an interactive industry-based learning program, curating a substantial exhibition, publication of a significant article which can be either a review of an exhibition, report on a workshop/conference attended, interview of a significant artist, or technical paper on significant research within your area of study.

Class requirements: One 1-hour lecture and one 1-hour tutorial per week, plus research investigation.

This unit is not available for Study Abroad students.

Assessment: One research assignment (2000-words equivalent) (40%), one prescribed assignment (1000-words equivalent) (20%), one visual and written journal of industry-based research (1000-words equivalent) (20%), one 20-minute tutorial presentation (20%).

VPA3TME THEORY AND METHODOLOGIES IN STUDIO PRACTICE E (20CPs Sem. TE-SEM-1 BE, MI.) *Dr James McArdle*

Artificial/Sublime Space.

The value of beauty is considered in the theories and histories of art and is here considered alongside the notions of artifice and 'nature'. Australian art of the environment, ranging across traditional and new technologies, across micro/macro scales and dimensions, provides a reference for further exploration of spatio-temporal reality and imaginative and creative spaces. The Central Goldfields landscape serves as a test case for a study of what constitutes the artificial (cultivated/exploited), the Arcadian (natural/unspoiled) and the utopian/dystopia and serves as a laboratory for sustained individual response and production of imagery and objects.

Prerequisite: VPA2TMD.

Class requirements: One 1-hour lecture, one 1-hour tutorial and one 1-hour workshop per week.

Assessment: VPA2TMC, VPA2TMD, VPA3TME.VPA3TMF

One practical assignment (20%), presentation of a class paper (1000 words equivalent) (20%), one 1000-word essay (20%), folio (40%).

VPA3TMF THEORY AND METHODOLOGIES IN STUDIO PRACTICE F (20CPs Sem. TE-SEM-2 BE, MI.) *Mr Cameron Rose*

Visual Research Methodologies.

In this unit students conduct Visual Arts research to interpret images of ideas, including their own, to draw conclusions about the production and exchange of meanings. Vision and visuality, the sites of meaning, visual pleasure and disruption, intentionality (auteur theory), modalities in technologies and other issues are examined through established methodologies from sciences, social sciences and humanities. Comparisons provide the student artist/researcher with means of evaluating the available methodologies' usefulness, application and adaptation to their own visual research and resultant production.

Prerequisite: VPA3TME.

Class requirements: One 1-hour lecture, one 1-hour tutorial and one 1-hour workshop per week.

Assessment: VPA2TMC, VPA2TMD, VPA3TME.VPA3TMF

One practical assignment (20%), presentation of a class paper (1000 words equivalent) (20%), one 1000-word essay (20%), folio (40%).

See SOC2FAC for full unit description.

Faculty of Law and Management**Bachelor of Business (RBBM)****Admission requirements**

Admission requirements are completion of units 3 and 4 of English (any) with a minimum study score of 20. Applicants with comparable qualifications will be considered. A limited number of students may also be considered under Special Entry Schemes. Follow the application directions for Special Entry Application Schemes provided through VTAC.

Degree requirements

Students must complete a course of units accumulating a minimum total of 360 credit points, at least 255 of which must be units offered in the School of Business. The course is designed to be completed within three years of full-time study, although part-time study is possible. Maximum course duration is ten years.

Students should undertake 120 credit points at each year level and must undertake at least 120 credit points at third year level including 90 credit points at third year level from the School of Business.

Variations to this structure must be approved in advance by a School of Business course adviser.

The degree requires completion of at least one major in a business discipline offered by the School of Business. A business major will consist of eight prescribed units.

Mildura Campus program

Students must pass compulsory and elective units listed below. All units are worth 15 credit points. The management major is the only major which can be completed on the Mildura campus.

Please see a course adviser as some units may be offered in semesters other than indicated.

First year

Teaching period	Unit title	Unit code
TE-SEM-1	Macroeconomics	ECO1IMA
TE-SEM-1	Management Communications	MGT2MCB
TE-SEM-1	Accounting for Management Decisions	ACC1AMD
TE-SEM-2	Introductory Statistics for Business	ECO1ISB
TE-SEM-2	Microeconomics	ECO12MI
TE-SEM-1	Management Information Systems	BUS1MIS
TE-SEM-2	Foundations of Management	MGT1FOM
TE-SEM-2	Introductory Financial Accounting *	ACC1IFA

Key: *First year elective required of any student applying for transfer to the Bachelor of Commerce in second year.

Second year

Teaching period	Unit title	Unit code
TE-SEM-1	Organisational Behaviour	MGT2OBE
TE-SEM-1	Marketing Principles and Practice	MKT2MPP
TE-SEM-2	Business Law	LST1BSL
TE-SEM-1	Second year elective unit	
TE-SEM-2	Human Resource Management	MGT2HRM
TE-SEM-2	Business Finance	ACC3BF
TE-SEM-2	Second year elective unit	
TE-SEM-2	Second year elective unit	

Third year

Teaching period	Unit title	Unit code
TE-SEM-1	Strategic Management	MGT3SMG
TE-SEM-1	Business Project	MGT3BP
TE-SEM-1	Third year School of Business elective unit	
TE-SEM-1	Third year elective unit	
TE-SEM-2	Entrepreneurship	MGT3ENC
TE-SEM-2	Organisational Change and Development	MGT3OCD
TE-SEM-2	Second or third year elective unit	
TE-SEM-2	Third year elective unit	

Management major units

Organisational Change and Development	MGT3OCD

Electives

Providing prerequisites have been met, students can select electives from any of the degrees offered at or through the Mildura campus.

Honours

Honours in Business is not available at the Mildura campus, but Mildura students may be invited to undertake Honours at Melbourne (Bundoora). See the Faculty of Law and Management section of the *Handbook* for information on the Honours program.

Bachelor of Commerce (LBCM)

This course aims to prepare graduates who will be capable of pursuing careers in a wide range of business fields but with particular emphasis on those specifically related to the various branches of accounting. The course aims to blend concepts with application and provides studies in basic disciplines around which more specialised studies and skills may be developed. Graduates will be expected to be skilled, adaptable and mobile, both for regional and metropolitan Australia and overseas.

Admission requirements

Admission requirements are completion of VCE and units 3 and 4 of English (any) and mathematics (any) with a minimum study score of at least 20 in each. Applicants with comparable qualifications will be considered. A limited number of students may also be considered under Special Entry Schemes. Follow the application directions for Special Entry Application Schemes provided through VTAC.

Degree requirements

Students must complete a course of units accumulating a minimum of 360 credit points, at least 285 of which must be units offered by the

School of Business. The course is designed to be completed within a minimum of three years of full-time study, although part-time study is possible. Maximum course duration is ten years.

Students should undertake 120 credit points at each year level and must undertake at least 120 credit points at third year level including 90 credit points at third year level from the School of Business. Variations to this structure must be approved in advance by a School of Business course advisor.

Mildura Campus program

Students must pass compulsory and elective units listed below. All units are worth 15 credit points. Students wishing to graduate with a double major (Accounting and Management) must complete all units listed. Students may choose to graduate with only an Accounting major and take elective units where the option is indicated.

Please see a course adviser as some units may be offered in semesters other than indicated.

First year

Teaching period	Unit title	Unit code
TE-SEM-1	Macroeconomics	ECO1IMA
TE-SEM-1	Management Communications *	MGT2MCB
TE-SEM-1	Accounting for Management Decisions	ACC1AMD

Organisational Change and Development	MGT3OCD

Electives

Providing prerequisites have been met, students can select electives from any of the degrees offered at or through the Mildura campus.

Professional recognition

This course is structured to meet the accreditation requirements of CPA Australia and the Institute of Chartered Accountants in Australia (ICAA). Taxation and Auditing are no longer part of the accreditation requirements for CPA Australia although both are required for membership of the ICAA. Students who do not complete the Taxation

and Auditing units as part of their degree will be admitted to membership of CPA Australia, but will be required to complete studies in both areas as part of their ongoing CPA training.

Graduates may enter the accountancy profession in Australia. Accountancy graduates are eligible for admission as associate members of the Australian Society of CPAs. The Institute of Chartered Accountants in Australia allows graduates to enter the profession through their professional year, subject to the employment requirement of at least one year in the office of a member of the Institute. Graduates with accounting majors are also eligible to apply for membership of the Association of Taxation and Management Accountants at the full member level.

Students should seek advice from the course coordinator for further information on professional recognition by the above associations.

Honours

Honours in Commerce is not available at the Mildura campus, but Mildura students may be invited to undertake Honours at Melbourne (Bundoora). See the Faculty of Law and Management section of the *Handbook* for information on the Honours program.

UNIT DESCRIPTIONS

ACC1AMD ACCOUNTING FOR MANAGEMENT DECISIONS (15 CPs Sem. TA-ACNSEM1 SY. TA-ACNSEM2 SY. TA-ACNSEMS SY. TE-SEM-1 AW, BE, BU, MI, SH. TE-SEM-2 BU. TE-SEM-3 BU. TE-W13-26 NI. TE-W31-46 NI.) *Dr Liz Duncan, Mrs Selina Lim, Ms Kathie Stirling, Mr Petrus Usmanij, Mrs Susan Nalder*

This unit is designed to introduce undergraduate students from all disciplines to the nature of accounting and its role in business. Topics covered provide an overview of key financial and managerial accounting concepts and include: the recording of business transactions, the calculation and measurement of profit, the preparation of financial statements, the analysis and interpretation of financial statement data, cost accounting and reporting systems, and cost analysis for planning, control and decision making.

Class requirements: Two 1-hour lecture and one 1-hour tutorial per week.

Assessment: Tutorial assessment (10%), mid-semester test (20%), one 3-hour final examination (70%). Hurdle requirement: Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject. Major assignment (30%). AW: Comprising of practical problem and report – 1000-word (equivalent), one 3-hour final examination (70%). AW: Hurdle requirement – Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass this unit.

Prescribed Reading:

Boland G. *AW: Accounting – Study Guide*.

Chambers B. *AW: Accounting Business Reporting for Decision Making*.

ACC1IFA INTRODUCTORY FINANCIAL ACCOUNTING (15 CPs Sem. TA-ACNSEM1 SY. TA-ACNSEM2 SY. TE-SEM-1 AW, BU. TE-SEM-2 BE, BU, MI, SH. TE-W13-26 NI. TE-W31-46 NI.) *Mr Greg Ellis, Mr Glenn Hill, Ms Sue Nalder*

This unit introduces students to accounting information systems, which record financial events and provide information to management. The unit begins with the accounting equation, accounting cycle, accrual accounting concepts and the preparation of financial statements. Attention is then given to application of generally accepted accounting principles and selected accounting standards to specific financial elements and transactions.

Prerequisite: ACC1AMD.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: One computerised practice set (10%), one manual practice set (20%), one 3-hour final examination (70%). Hurdle requirement: Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject, one 1/2-hour take home examination (10%). AW: based on assignment

tutorial questions, one 1-hour mid-semester test (20%). AW: one 3-hour final examination (70%). AW: Hurdle Requirement – Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the unit.

Prescribed Reading:

Horngren C, Harrison, Bamber, Best, Fraser, Willett AW: *Financial Accounting*. 5th edn. Pearson Education, 2006.

ACC2CRE CORPORATE REPORTING (15 CPs Sem. TA-ACNSEM1 SY. TA-ACNSEM2 SY. TE-SEM-1 BE, BU, SH. TE-SEM-2 AW, BU, MI. TE-W13-26 NI. TE-W31-46 NI.) *Dr Liz Duncan, Mr Greg Ellis, Dr Xu-Dong Ji*

This unit covers corporate financial accounting and reporting at an intermediate level. It provides students with an understanding of the corporate reporting environment in Australia and the economic implications of accounting numbers. The unit incorporates evaluation and application of selected accounting standards, as well as the preparation of corporate group financial reports, which satisfy professional and regulatory requirements.

Prerequisite: ACC1IFA.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

This unit is not available for Study Abroad students.

Assessment: One 500-word assignment (15%), one 1-hour mid-semester test (15%), one 3-hour final examination (70%). Hurdle requirement: Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject, one 30-minute mid-semester test (30%). AW: and SH: one 3-Hour final examination (70%). AW: and SH: Hurdle requirement: Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the unit.

Prescribed Reading:

Deegan C. *Australian financial accounting*. 5th edn. McGraw-Hill/Irwin, 2007.

ACC2IMA INTRODUCTORY MANAGEMENT ACCOUNTING (15 CPs Sem. TA-ACNSEM1 SY. TA-ACNSEM2 SY. TE-SEM-1 AW, BE, BU, MI, SH. TE-SEM-2 BU. TE-W13-26 NI.) *Mr Sunil Dahanayake, Mr Greg Ellis, Ms Dianne Harvey, Dr Prem Yapa*

This unit is offered in another teaching period

Managerial accounting provides organisations with internal financial and non-financial information required for the three functions of planning, controlling and decision-making. This unit enables students to develop an understanding of the elements of management accounting and the way in which cost information is used in undertaking these functions within the context of a modern business concern. The unit examines the nature and behaviour of product cost information and students should be able to apply their understanding of this to decision-making situations using both a quantitative and a qualitative approach.

Prerequisite: ACC1AMD.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: One tutorial presentation (10%) equivalent to 1000-words, one 3-hour final examination (70%). Hurdle requirement: Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject, one 45-minute mid-semester test (20%).

Prescribed Reading:

Langfield-Smith Thorne and Hilton. *AW: Management Accounting*. McGraw Hill.

ACC2IMB INTERMEDIATE MANAGEMENT ACCOUNTING (15 CPs Sem. TA-ACNSEM1 SY. TA-ACNSEM2 SY. TE-SEM-1 BU. TE-SEM-2 AW, BE, BU, MI, SH. TE-W31-46 NI.) *Mr Sunil Dahanayake, Ms Katherine Stirling, Ms Suzanne Salmon, Mr Petrus Usmanij*

Intermediate Management Accounting further develops the concepts of management accounting and provides analytical methods for both short-term and long-term managerial decisions. Topics include budgeting standard costing and variance analysis, capital budgeting, inventory management, performance measurement and contemporary developments in management accounting.

Prerequisite: ACC21MA / ACC21IMA/ACC22IMA.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: One 45-minute mid-semester test (20%), one 3-hour final examination (70%). Hurdle requirement: Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject, one 10-minute class presentation (10%).

Prescribed Reading:

Langfield-Smith K, Thorne H and Hilton RW. *Management accounting: an Australian perspective*. 4th edn. McGraw-Hill, 2006.

ACC3AFA ADVANCED FINANCIAL ACCOUNTING (15 CPs Sem. TA-ACNSEM1 SY. TA-ACNSEM2 SY. TE-SEM-1 AW, BU, TE-SEM-2 BE, BU, MI, SH. TE-W31-46 NI.) *Dr Liz Duncan, Dr Jane Hamilton, Dr Kamran Ahmed*

This unit aims to promote an understanding of some of the major contemporary issues associated with the measurement and reporting of the operating results and financial position of modern reporting entities. Topics on foreign currency transaction and translation, superannuation, financial instruments, construction contracts and other topical issues will be covered within the context of recent recommendations of the Australian accounting profession. The role of theory in accounting will also be covered.

Prerequisite: ACC2CRE.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: One 45-minute mid-semester test (30%), one 3-hour final examination (70%). Hurdle requirement: Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject, AW: and SH one 3-Hour Final Exam (70%). Hurdle requirement. Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the unit, AW: and SH: One major practical problem (30%). Involving accounting for superannuation

Prescribed Reading:

CPA Australia. *Accounting Handbook 2008*. Australia: Pearson, Education.
Deegan C. *Australian financial accounting*. 5th edn.

ACC3AUD AUDITING (15 CPs Sem. TA-ACNSEM1 SY. TA-ACNSEM2 SY. TE-SEM-1 BE, BU, SH. TE-SEM-2 AW, BU, TE-SEM-S MI. TE-W13-26 NI.) *Ms Jane Hamilton, Ms Biserka Siladi, Mr Larry O'Connor*

This unit covers Auditing theory and practice and is designed to meet the preliminary requirements of the Institute of Chartered Accountants in Australia and CPA Australia. Auditing is designed to give students an understanding of the concepts involved in the auditing process. The unit aims to integrate these concepts with practical application including reference to appropriate accounting and auditing standards.

Prerequisite: ACC2CRE.

Class requirements: One 2-hour lectures and one 1-hour tutorial per week.

Assessment: One 3-hour final examination (70%). Hurdle requirement: Students must achieve at least 40% in the final examination as well as an overall 50% for the unit, one 1-hour mid-semester test (20%), tutorial exercises/assignment, equivalent to 500-words (10%).

Prescribed Reading:

Gay G, Simmet R. *AW: Auditing and assurance services in Australia*. Revised edn. McGraw-Hill Irwin.
ICAA or CPA. *Auditing and assurance handbook*. Current edn. John Wiley and Sons or Pearson Education.
Leung BE: *Auditing and assurance services*. 3rd edn. John Wiley and Sons

ACC3TAX TAXATION (15 CPs Sem. TA-ACNSEM1 SY. TA-ACNSEM2 SY. TE-SEM-1 BE, BU, MI. TE-SEM-2 AW, BU, SH. TE-W13-26 NI. TE-W31-46 NI.) *Ms Dianne Harvey, Mr Les Nethercote*

This unit develops an understanding of Commonwealth income tax legislation and the implications of income tax on the individual and business enterprise. A practical approach is taken to the unit matter and topics include objectives of taxation, the general concepts of assessable income and allowable deductions, determination of taxable income and tax payable, special classes of taxpayers, returns and

assessments, objections and appeals, collection and recovery of taxation, substantiation provisions and an introduction to capital gains and fringe benefits tax.

Prerequisite: ACC1IFA and LST2LBA.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: Tutorial participation (5%), one 1500-word assignment (25%), one 3-hour final examination (70%). Hurdle requirement: Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject.

Prescribed Reading:

BUS1MIS MANAGEMENT INFORMATION SYSTEMS (15 CPs Sem. TA-ACNSEM1 SY. TA-ACNSEM2 SY. TA-ACNSEMS SY. TE-SEM-1 AW, BE, BU, MI, SH. TE-SEM-2 BE, BU. TE-W13-26 NI. TE-W31-46 NI.) *Dr Liz Duncan, Dr John McCullagh, Mr Liam Lenten, Mrs Selena Lim*

This unit introduces students to some basic information systems (IS) ideas and concepts as IS are the key to business functions today. It will provide students with an overview of the entire IS discipline as well as a solid preparation for further study in information systems units. In addition, students will also gain an appreciation for business-related packages. This will give them a competitive edge in the job marketplace.

Incompatible unit: CSE111S

Class requirements: Two 1-hour lectures and one 2-hour computer laboratory session/tutorial per week.

Assessment: BU: SH: NI: lab exercises (15%) equal to 500-words, online quizzes (15%). Equivalent to 1000-words over the semester, one 3-hour final examination (70%). Hurdle Requirement: Students must achieve at least 40% in the examination as well as an overall total of 50% to pass the unit, AW: presentation and report (15%). equivalent to 500 words, one excel spreadsheet assignment (15%). equal to 500-words, one 3-hour final exam (70%). Hurdle requirement: Students must achieve at least 40% in the examination as well as an overall total of 50% to pass the unit, BE: online quizzes (15%). Equivalent to 1000-words over the semester, one practical assignment (15%). Equivalent to 500-words, one 3-hour final exam (70%). Hurdle Requirement: Students must achieve at least 40% in the examination as well as an overall total of 50% to pass the unit.

Prescribed Reading:

ECO11MA MACROECONOMICS (15 CPs Sem. TA-ACNSEM1 SY. TA-ACNSEM2 SY. TA-ACNSEMS SY. TE-SEM-1 BU, MI. TE-SEM-2 AW, BE, BU, SH. TE-W31-46 NI.) *Dr Jayanath Ananda, Mr David Reimers, Dr Jan Libich, Dr Jayanth Ananda*

Introduces students to the study of the economy as a whole and to the economic way of thinking. Topics include national income accounting, consumption and investment demand, government spending, exports and imports, aggregate demand and supply, money and banking, fiscal and monetary policy, alternative macroeconomic theories, the balance of payments, national and foreign debt, inflation, unemployment, productivity and economic growth.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: BU, SH, NI, MI, ACN, weekly problem sets/assignment (maximum 1000 words) (15%), BU, SH, NI, MI, ACN, one 1-hour

mid-semester test (15%), BU, SH, NI, MI, ACN, one 2-hour final examination (70%). Hurdle requirement: Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject, BE: in-term tests, assignments, tutorial performance (40%), BE: one 3-hour final examination (60%). Hurdle requirement: Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject, AW: in-term tests, assignments, tutorial performance (40%), AW: one 2-hour final examination (60%). Hurdle requirement: Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the unit.

Prescribed Reading:

BE: Coombes T and Reimers D. *Contemporary Australian macroeconomics*. Pearson.

Jackson and McIver AW: *Macroeconomics*. 8th edn. McGraw-Hill, 2007.

ECO11MI MICROECONOMICS (15 CPs Sem. TA-ACNSEM1 SY. TA-ACNSEM2 SY. TA-ACNSEMS SY. TE-SEM-1 AW, BE, BU, SH. TE-SEM-2 BU, MI. TE-W01-08 NI. TE-W13-26 NI.) *Dr Lin Crase, Mr Earl Jobling, Professor Gary Magee*

Microeconomics implies a focus on the individual elements and components of an economy rather than on its aggregate nature. Students are introduced to the economic way of thinking in this context and to the broad subject matter of microeconomics. Topics include: consumer behaviour and demand, firm behaviour, costs and supply, price determination and the operation of markets, including imperfect markets. Analysis extends to the elementary theory of factor markets and distribution, the nature of the market system and of microeconomic policy.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: BU: ACN: Nilai: in-term tests, assignments, tutorial performance (30%), one 2-hour final examination (70%). Hurdle requirement: Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject, BE: one 3-hour final examination (60%). Hurdle requirement: Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the unit, BE: in-term tests, assignments, tutorial performance (40%), AW: SH: one 2-hour final examination (60%). Hurdle requirement: Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the unit, AW: SH: weekly tutorial papers (10%), AW: SH: two 40-minute tests (30%).

Prescribed Reading:

Jackson S and McIver AW: *Microeconomics*. 8th edn. McGraw Hill Gans J, King S and Mankiw N. *Principles of microeconomics*. 3rd edn. Thomson, 2005.

ECO11SB INTRODUCTORY STATISTICS FOR BUSINESS (15 CPs Sem. TA-ACNSEM1 SY. TA-ACNSEM2 SY. TA-ACNSEMS SY. TE-SEM-1 AW, BE, BU. TE-SEM-2 AW, BE, BU, MI, SH. TE-W01-08 NI. TE-W31-46 NI.) *Dr Warren Paul, Dr Christopher Lenard, Dr Suzanne Sommer*

In this unit students consider how to communicate and interpret commercial and economic information in terms of statistical measures. The probability approach is introduced, with applications to inferential statistics and hypothesis testing using sampling distributions in the realms of economics and commerce. Simple linear regression and testing for various hypotheses in business, economics and finance is also covered.

Incompatible unit: ECO11IBS/ECO12IBS

Class requirements: Two 1-hour lectures, one 1-hour workshop and one 1-hour tutorial per week.

This unit is not available for Study Abroad students.

Assessment: Assignments and project (15%), tutorial participation (5%), one mid-semester test (10%), one 3-hour final examination (70%). Hurdle requirement: Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject, ten 100 word tutorials (15%). Albury-Wodonga Submitted weekly, one 2-hour examination (55%). Albury-Wodonga: Open Book exam. Hurdle requirement: Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the unit, two 750-word assignments (30%). Albury-Wodonga: SPSS based

Assignment 1 – Descriptive Statistics

Assignment 2 – Inferential Statistics

LST1BSL BUSINESS LAW (15 CPs Sem. TA-ACNSEM1 SY. TA-ACNSEM2 SY. TA-ACNSEMS SY. TE-SEM-1 BE, BU, MI, SH. TE-SEM-2 AW, BU, CH. TE-W31-46 NI.)

Dr Chris Chadien, Professor Vivien Goldwasser, Mr Keith Kendall, Mr Terry Reid

This unit is not available to Bachelor of Laws students as a law elective or to students who have completed LAW21/22CNT.

This unit is offered in another semester.

Bachelor of Business Students should enrol in this subject.

In this unit students examine legal institutions and practices such as law making and interpretation of laws. The law of contract and its place in commercial law, notably the law of the sale of goods, comprise the body of the unit. Other kinds of civil liability such as fault liability are compared. Students examine the economic and political factors, which have influenced the development of this law and assess the impact of the law on business and industrial activity.

Incompatible unit: LAW21/22CNT, LST11/12LCC, LST11/12IBL
Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: One 1500-word essay (30%), one 3-hour examination (70%). Students must achieve at least a mark of 40% for the final examination.

Prescribed Reading:

Casebook. TBA. Ciro T and Goldwasser VR.

Law and Business. 2nd edn. OUP, 2006.

LST2LBA LAW OF BUSINESS ASSOCIATION (15 CPs Sem. TA-ACNSEM1 SY. TA-ACNSEM2 SY. TE-SEM-1 AW. TE-SEM-2 BE, BU, MI, SH. TE-W31-46 NI.) *Dr*

Chris Chadien, Mr David Wishart

This unit is offered at third-unit level also.

Not available to Bachelor of Laws students as a law elective.

In this unit students deal with the key features of the legislation and cases which govern the formation and regulation of business associations (particularly corporations) and the operation of securities markets in Australia. There is an explanation of how these laws operate on the economy and society and on persons and institutions within society, along with how persons and institutions may best utilise these laws. Students completing the unit should be able to apply rules and principles extracted from the legislation and cases to resolve disputes arising from the operations and functioning of business associations and the workings of securities markets.

Prerequisite: Completion of LST11/12LCC or LST11/12IBL or LST11/12BSL.

Incompatible unit: LST12LBA, LAW41COR

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: One 1000-word assignment (20%), 3-hour open book examination (70%), tutor's assessment (10%). AW: 500 word assignment

Prescribed Reading:

Butterworths or CCH *Australian corporations' legislation*. LBC, Butterworths, or CCH, current edn.

Government Acts. *Partnership act reprint*. Victorian Government Printing Office, 2006.

Woodward S, Bird H and Sievers S. *Corporations' law in principle*. LBC, current edn.

LST3ERL EMPLOYEE RELATIONS LAW (15 CPs Sem. TE-SEM-1 BE. TE-SEM-S MI.) *Ms Jill Broadben*

The nature of the legal implications between employer and employee under common law is examined in this unit. Areas of study include the contract of employment, including the rights and obligations of the parties, affirmative action, equal opportunity, occupational health and safety and industrial torts.

Prerequisite: LST11LCC, LST12BLB, LST12BL2, or LST12LCC.

Class requirements: Onshore students: one 3-hour seminar

Offshore students: This unit is offered as a three-month distance education program. Students are provided with text and study guide and are supported by email, telephone and web. In addition, lecture support is provided as follows:

Hong Kong – 20 hours of lectures in block mode and 18 hours of tutorials spread either during the teaching period or in block mode.

Assessment: One 2-hour examination (50%), one 2500-word essay (50%). To pass the subject students are required to obtain at least 40% in each assessment as well as at least 50%.

Prescribed Reading:

Price R. *Employment law in principle*. latest edn. Law Book.

MGT1FOM FOUNDATIONS OF MANAGEMENT (15 CPs Sem. TA-ACNSEM1 SY. TA-ACNSEM2 SY. TA-ACNSEMS SY. TE-SEM-1 BU, SH. TE-SEM-2 AW, BE, BU, MI. TE-W01-08 NI. TE-W13-26 NI.) *Dr Sue O'Keefe, Dr John Pacher, Ms Nicola McNeil, Mr Jeremy Seward*

This unit introduces the management of organisations and aims to provide an understanding of the fundamental concepts and relevant issues relating to management in the modern business environment, with a particular emphasis placed upon Australia and the Asia Pacific Region. The relationship between management practices and organisational performance will be explored within the context of both individual and organisational outcomes.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: One 30-minute class test (10%), one 1200-word literature review (20%) and one 3-hour final examination (70%). Hurdle requirement: Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject, AW: one 30-minute test (10%), AW: one 1200-word literature review (20%), AW: tutorial exercises (10%), AW: one 2-hour final examination (60%). Hurdle requirement: Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the unit.

Prescribed Reading:

Samson D and Daft R AW: *Fundamentals of Management*. Second Pacific Rim edn. Thomson, 2005.

MGT2HRM HUMAN RESOURCE MANAGEMENT (15 CPs Sem. TA-ACNSEM1 SY. TA-ACNSEM2 SY. TA-ACNSEMS SY. TE-SEM-1 AW, BE, BU. TE-SEM-2 BU, MI, SH, VI. TE-W31-46 NI.) *Dr Sue O'Keefe, Dr John Pacher, Dr Darcy McCormack, Dr Apollo Nsubuga-Kyobe*

The unit explores the operational and strategic issues of managing staff in the workplace. It examines the challenges facing human resource managers in contemporary Australian organisations and seeks to develop an understanding of human resource management practices in our continually changing social, economic, industrial relations and organisational environments.

Prerequisite: MGT1FOM.

Class requirements: Onshore students: one 2-hour lecture and one 1-hour tutorial per week

Offshore students: This unit is offered as a three- or four-month distance education program. Students are provided with text and study guide and are supported by email, telephone and web.

Assessment: Tutorial participation (5%), one 20-minute individual presentation (10%), one 1200-word essay (15%), one 2-hour final examination (70%). Hurdle requirement: Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject, BE: one 2000-word assignment (30%), BE: one 2.5-hour final examination (70%). Hurdle requirement: Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the unit.

Prescribed Reading:

MGT2MCB MANAGEMENT COMMUNICATIONS (15 CPs Sem. TE-SEM-1 AW, MI.) *Dr Lin Crase*

The importance of communication both within and outside the organisation from a management perspective is emphasised. Students

examine how managers communicate with individuals and groups and their need for significant oral and written skills. Topics include effective communication, intercultural communication conflict resolution and, negotiation, gaining and imparting information and written communications, oral presentations. Practical skills are developed throughout the course.

Incompatible unit: MGT21BCO/MGT22BCO, THS11MCO

Class requirements: One 1-hour lecture and one 2-hour tutorial per week.

This unit is not available for Study Abroad students.

Assessment: ACN: tutorial attendance and evidence of work done between tutorials (10%), one 15-minute oral presentation (10%), one 1000-word essay (10%), one 3-hour final examination (70%). Hurdle requirement: Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject, AW: In Class Exercises (30%), one 15-minute oral presentation and report (15%), one 2-hour final examination (40%). Hurdle requirement: Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject, 1000-word assignment (15%).

Prescribed Reading:

Baker E, Barrett M and Roberts L. *Working Communication*. Wiley and Son.

MGT20BE ORGANISATIONAL BEHAVIOUR (15 CPs Sem. TA-ACNSEM1 SY. TA-ACNSEM2 SY. TA-ACNSEMS SY. TE-SEM-1 AW, BE, BU, MI. TE-SEM-2 BU, SH. TE-W13-26 NI.) *Dr Sue O'Keefe, Mr Max Mollard, Dr Nick Djurkovic, Dr George Sansbury, Dr Apollo Nsubuga-Kyobe*

Organisational behaviour aims at understanding the management of people at work in order to improve an organisation's effectiveness. It is a multidisciplinary examination of what people do in organisations and has four levels of analysis: individual, group, organisation and culture. This unit explores all four levels of analysis and emphasises the psychological aspects of organisational behaviour.

Prerequisite: MGT1FOM.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: One 1500-word essay (20%), one 2-hour final examination (70%). Hurdle requirement: Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject, one class presentation (10%). Equivalent to 1000 words, BE: one 2000-word essay (30%), BE: one 2-hour final examination (60%), submission of sample examination answers (equivalent to 200 words) (10%), AW: one 1500-word essay (25%), AW: one 2-hour final examination (60%). Hurdle requirement: Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the unit, AW: weekly tutorial exercises (15%).

Prescribed Reading:

Graetz Rimmer, Lawrence, Smith AW: *Managing Organisational Change*. Wiley, 2002.

Robbins BE: *Organisation behaviour Aust/NZ*. 4th edn. Pearson Education.

MGT3BP BUSINESS PROJECT (15 CPs Sem. TE-SEM-1 BE, MI. TE-SEM-2 BE, MI.) *Dr Findlay Johnston*

In this unit, students will complete a business-related project that offers practical exposure to aspects of business. They will explore typical situations confronting commercial enterprises, from some specialist perspectives, which may for example include marketing, finance, manufacturing, human resources, statistical analysis and general management. Through their experience of the project, students have the opportunity to increase their understanding of the factors affecting business outcomes.

Prerequisite: Final year students only. This unit also depends on staff availability for project supervision and the Course Coordinator should be consulted prior to enrolment.

Quota: 5.

Class requirements: Students are required to consult with the project supervisor up to three hours per week.

Assessment: Cumulative assessment (100%). Students are assessed on completion of a final report and appropriate assignments (to be

outlined at unit commencement). The total word length of all assessment will be 4500 words.

MGT3ENC ENTREPRENEURSHIP (15 CPs Sem. TE-SEM-2 AW, MI.) *Dr Jayanath Ananda*

This unit examines the planning approach required to fulfil the function of entrepreneurship. The unit analyses the role of the entrepreneur and introduces entrepreneurship, i.e., the notion of entrepreneurial spirit employed within the context of existing organisations. The unit begins by introducing the various theoretical dimensions to entrepreneurship before examining the planning process. Skills in the application of various analytical tools for evaluating business opportunities are also developed.

Prerequisite: MGT1FOM.

Class requirements: One 3-hour seminar per week.

Assessment: One 30-minute mid-semester test (15%), one 2000-word project brief (35%), one 2-hour final examination (50%).

Prescribed Reading:

Frederick H, Kuratko D and Hodgetts. *Entrepreneurship: Theory, Process and Practice*. Asia-Pacific edn. South Melbourne, Thompson, 2007.

MGT3OCD ORGANISATIONAL CHANGE AND DEVELOPMENT (15 CPs Sem. TA-ACNSEM2 SY. TE-SEM-1 VI. TE-SEM-2 BE, BU, MI, SH. TE-W01-08 NI. TE-W31-46 NI.) *Dr Rosaria Burchielli, Dr Apollo Nsubuga-Kyobe*

For the past decade or so, organisations have been subjected to enormous change. One of the major challenges facing managers (and consultants) in this climate is how to achieve greater organisational effectiveness, including increased financial performance as well as improved quality of work life. This unit attempts to address this question by examining the process (contracting, diagnoses, intervention strategies and change management) and practice (strategic, technological, structural and human resources) of organisation development.

Prerequisite: MGT1FOM.

Class requirements: One 2-hour lecture per week and one 2-hour tutorial per fortnight.

Assessment: One 5-minute class presentation (10%) based on analysis of specific readings, one 1500-word assignment (20%) and one 2-hour final examination (70%). Hurdle requirement: Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject.

Prescribed Reading:

Graetz F, Rimmer M, Lawrence A and Smith A. *Managing organisational change*. John Wiley and Sons, Australia, 2006.

MGT3SMG STRATEGIC MANAGEMENT (15 CPs Sem. TA-ACNSEM2 SY. TE-SEM-1 BU, CH, MI, SH. TE-SEM-2 BE. TE-W01-15 FR. TE-W13-26 NI. TE-W48-09 FR.) *Dr Findlay Johnston, Dr Rosaria Burchielli*

Strategic management focuses on the underlying determinants of business success. It dwells on the techniques applied by top management to gain competitive advantage and the patterns of decisions and actions taken to guide the firm in competitive environments. Key topics in strategic management include industry and competitor analysis, generic strategies, core competency, manufacturing competitiveness, diversification and integration, international business strategy, organisational structure and controls and re-engineering. Students of strategic management will apply concepts in strategic management to the solution of the problems presented in case studies involving real firms.

Prerequisite: MGT1FOM.

Class requirements: Onshore students: one 2-hour lecture and one 1-hour tutorial per week

Offshore students: China – This unit is offered as a five-month program of study in conjunction with Jiangsu University of Science and Technology. Lecture support by staff from the Bendigo campus covers 30 hours of this period. France – This unit is offered as a semester-long online program, with email, telephone and chat room support provided by staff.

Assessment: One 5-minute class presentation (10%) based on analysis of specific readings, one 1500-word assignment (20%) and one 2-hour final examination (70%). Hurdle requirement: Students must

achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject.

Prescribed Reading:

Hanson D et al. *Strategic management: competitiveness and globalisation*. Pacific Rim edn. South Melbourne: Nelson/Thomson Learning, c2005.

MKT2MPP MARKETING PRINCIPLES AND PRACTICE (15 CPs Sem. TA-ACNSEM1 SY. TA-ACNSEM2 SY. TA-ACNSEMS SY. TE-SEM-1 AW, BU, MI. TE-SEM-2 BE, BU, SH. TE-W31-46 NI.) *Mr Peter Lamb, Dr Marthin Nanere, Dr Outi Niininen, Ms Elaine Plant*

This is an introductory unit to marketing principles and practice as applied to mainly fast moving consumer goods. The unit is designed to give you a broad understanding of the formal discipline of marketing and of the key marketing activities in business. Topics cover the marketing concept, the marketing environment, buying behaviour in consumer and organisational markets, customer segmentation, targeting and positioning, developing the marketing mix (product, price, promotion and distribution) and the implementation and control of marketing programs. As a pre-requisite to further study in marketing, it is intended to provide a sound foundation upon which more advanced skills and applications can be built.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: BU: ACN: one team oral presentation (5%), one individual assignment/test (10%), equivalent to a 1000-word assignment, one group assignment (15%). 1500-words per student, one 2-hour final examination (70%). Hurdle requirement: Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject, AW: tutorial exercises and case studies totalling 500-words (10%), one group assignment (40%). 1500-words per student, one 2-hour final examination (50%). Hurdle requirement: Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject, BE: one 3-hour examination (70%). Hurdle requirement: Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject, BE: one 1500-word case assignment (30%).

Prescribed Reading:

MKT3MC MARKETING COMMUNICATION (15 CPs Sem. TE-SEM-1 BE, HK, MI, NI, SI. TE-SEM-2 HK, SI. TE-SEM-S HK, SI.) *Professor Rhett Walker* *Not available in 2008*

MKT3SSM SELLING AND SALES MANAGEMENT (15 CPs Sem. TE-SEM-2 BE, MI. TE-W31-46 NI.) *Professor Rhett Walker*

Students are provided with an understanding of both the nature and role of personal selling and the varied responsibilities and tasks of sales management. As well as involving students in the theory and practice of effective personal selling, topics including recruitment, selection and training and directing the sales force are covered. Legal and ethical issues of selling are addressed in the context of relationship selling and other approaches.

Prerequisite: MKT2MPP or THS2IMT.

Class requirements: Onshore students: Two 1-hour lectures and one 1-hour tutorial per week.

Offshore students: This unit is offered as a three-month distance education program. Students are provided with text and study guide and are supported by email, telephone and web.

Assessment: One 1500-word assignment (30%), one 3-hour final examination (70%). Hurdle requirement: Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the unit.

General information about the Shepparton Campus

The Shepparton Campus offers a small range of undergraduate degrees and graduate diplomas with a focus on business and the professions. Campus Administration and academic staff in Business, Arts and Nursing are located at 127 Welsford Street, Shepparton. Teaching facilities, the University library and academic staff in Education are co-located with the Goulburn-Ovens Institute of TAFE in Fryers Street, Shepparton. Shepparton is serviced by rail and coach services from Melbourne.

Course information

The University's faculties offer courses at Shepparton Campus – further details of these courses can be found in the faculty entries elsewhere in this *Handbook*.

Student services

Assistance is available in areas such as research and study skills, counselling, disability support, careers advice, financial aid and accommodation. Study skills workshops, a key part of support services at the campus, are conducted at the commencement of the academic year and thereafter according to demand. Assistance with reader education and information retrieval skills is provided by the Library. A list of real estate agents and hostel type accommodation is available on the campus website or from the administration office. Support for students of Aboriginal and Torres Strait Islander background is provided in association with the University's Equity and Access Unit. For more information Tel: 5821 8316

Office of the Director, Indigenous Education
The Indigenous Student Service Unit at Shepparton is:
Indigenous Student Support Officer
Shepparton Campus
Tel: (03) 5444 7812
Email: indigenous_enquiries@latrobe.edu.au

Support and guidance is available to students who are Australian Aboriginal and/or Torres Strait Islanders. Please refer to the Office of the Director, Indigenous Education entry in this *Handbook* for details.

Campus facilities

The campus is equipped with a modern computer laboratory with a range of software, including office applications and statistical software, access to electronic mail and the Internet. The library is a shared facility of La Trobe University and the Goulburn Ovens Institute of TAFE. It houses a variety of printed and electronic educational resources, including books, journals, databases and multimedia materials. With access to online library catalogues of other campuses and universities, it is the gateway to the resources available through the La Trobe University Library. Students are offered training sessions to develop their skills in finding information. A bookshop is located next to the library. Metered parking is available in the immediate vicinity of the Fryers Street Campus and unrestricted free parking can be found two blocks away. Local public transport is also available.

Careers and Employment

Advice on careers is available from the Student Services Office and members of academic staff.

You can also access a wealth of information online via Career Hub, the online careers centre, and job-posting service for all La Trobe students. To look for a job or to use the online career library, go to www.latrobe.edu.au/careers, register, and start your search.

Library

The Library is a shared facility of La Trobe University and the Goulburn Ovens Institute of TAFE. It houses a variety of printed resources, including books, journals, and multimedia materials. Computers provide online access to the resources available through

the La Trobe University Library including databases and electronic books. A range of office applications, statistical software, electronic mail and Internet use are available to all students. Training sessions to develop skills in finding information are offered by the campus librarian.

Shepparton Students' Union

An active students' union organises a range of social, recreational and educational activities throughout the year.

Programs of study at Shepparton

The programs offered at the campus are controlled by the faculties of the University and are delivered, in most instances, by staff located at the campus. In some cases visiting staff from other campuses deliver lectures, tutorials and other programs for students. In the following sections the programs offered at the campus are listed under the relevant faculties and schools. The names of contact people at the campus are provided for those seeking information about particular courses.

A list of units taught at the Shepparton Campus appears at the end of each Faculty section. The units are in alphabetical order by unit code, indicating unit name, credit points, teaching period, campus/location, unit coordinator, class requirements, assessment, prerequisites and reading. Students should note that units published in the hardcopy *Handbook* are subject to change and should refer to the Unit Database for more up-to-date information www.latrobe.edu.au/udb_public.

For an explanation of teaching periods and campus codes see the foreword at the beginning of this *Handbook*.

Faculty of Health Sciences

Enquiries: Faculty Office
Level 2, Health Sciences 1 Building, Melbourne (Bundoora) Campus
Tel: (03) 9479 3583
Email: health@latrobe.edu.au
Web: www.latrobe.edu.au/health/

The Faculty of Health Sciences caters for a wide range of interests in the education of health professionals by offering a wide range of undergraduate, postgraduate coursework and Graduate Entry Master Programs. The Faculty also provides opportunity for research at both a Master and Doctoral level. Students from other faculties of the University may apply to enrol in some individual health sciences units.

The Faculty consists of four Divisions:

- Allied Health
- Health Studies
- Nursing and Midwifery
- Research.

Courses are offered at the Albury-Wodonga, Bendigo, Melbourne (Bundoora and City), Mildura and Shepparton campuses. The Faculty also teaches at a number of hospitals, offers some courses via distance education and teaches some courses overseas.

There are several externally funded centres and institutes that are part of the Faculty including:

- Australian Institute for Primary Care
- Australian Research Centre in Sex, Health, and Society
- Mother and Child Health Research Centre
- Musculoskeletal Research Centre
- The Bouverie Centre – Victoria's Family Institute, which provides family therapy clinical services and offers postgraduate programs in family therapy.

Requirements for admission to undergraduate courses

Information about the VCE prerequisite units and other admission requirements are available from the University's Office for Prospective Students or from the Faculty of Health Sciences.

Course regulations

All courses offered by the Faculty are governed by a University regulation that specifies the entrance and other requirements of the course.

Each course also has its own rules of progression and most schools produce specific procedures that operate under the authority of the University Regulations and Faculty guidelines. Details of assessment in each unit are available on discipline notice boards from the beginning of the academic year.

A student in a full-time professional course may be required to pass all units of a specified year level before proceeding to units at the next year level, or achieve such a standard as to be awarded a pass in the year as a whole. A conceded pass in a unit, which is not a prerequisite for studies in the following year, will normally entitle a student to proceed to the next year, provided that all other units are passed. A conceded pass is not awarded for a unit which is a prerequisite unit for a unit which must be taken later in the course.

It is Faculty policy that where a professional placement unit has a prerequisite unit, the prerequisite unit must be passed within the previous three years.

The Faculty applies the University academic progress rules along with a time limit rule where a student must complete the course in a specified period of time equivalent to twice the full-time length of the course plus one year. This time limit includes any intermissions.

For further information, consult the relevant division or Faculty office.

Students with a disability

Most of the courses conducted by the Faculty of Health Sciences include some type of clinical or professional practice experience, which is a compulsory requirement of the course. The Faculty recognises that professional and clinical placements can present particular challenges to students with disabilities. Every effort will be made to make reasonable adjustments to the learning experience and assessment requirements of a clinical or professional practicum within the requirements of the course. In order to do this, students who have a temporary or permanent disability of any type, which may have an impact upon their ability to complete course requirements, are encouraged to meet with the course coordinator prior to the commencement of the course.

Health procedures

It is strongly suggested that students undergo a medical examination with a view of preventing or detecting disease.

To further reduce health risks, it is strongly recommended that:

- tuberculin testing is undertaken prior to attending hospital clinics, with follow-ups as necessary
- all students be immunised against hepatitis B
- all students be immunised against rubella, measles and mumps
- all students are up to date with their immunisation against poliomyelitis, diphtheria, and tetanus.

Students with an infectious condition such as HIV or HBV should take every reasonable precaution to ensure that no other person is placed at risk of infection, as advised by their treating doctor.

Students should note that many hospitals require students to be immunised prior to allowing students to attend a professional placement. Students who are not immunised may jeopardise their ability to gain access to a suitable (or any) professional placement(s), and may therefore delay or prevent completion of the course.

Uniforms and class materials

Some courses require a prescribed uniform for hospital and clinical activities. Details are available from the relevant course coordinator or administrative officer.

Schools may charge students for expendable materials supplied where students to their direct personal benefit consume the materials or where students may wish to retain continuing possession of the materials concerned. Students may be charged deposits for non-consumable items issued for temporary use. Schools may recover the cost of lecture notes and other printed material issued to students, provided that no student is compelled to acquire such notes or materials.

Professional placements

Please note that most courses require students to undertake unpaid professional placements. In most courses that require students to undertake professional placements, the placement involves being assigned to an agency on a full-time basis over a period of weeks. Students may be required to attend placements located in either metropolitan or regional areas for which the student is expected to meet any travel and accommodation costs. Some financial support from the Faculty may be available but there is no guarantee of financial support. In some cases, students undertake placement interstate or overseas. For overseas placements, students may be eligible to apply for the Government OS-Help Loan.

The types of places where students may attend a professional placement include major hospitals, health care networks, schools, community centres and clinics.

The University maintains insurance policies to protect students undertaking professional placement outside of the University as a compulsory course requirement or other work undertaken off-campus as part of a course or approved research work. Further information is available from the University Insurance Office website: www.latrobe.edu.au/insurance/, Faculty office or Division.

National Police Record Check

In those courses where students are required to undertake professional placements, students may come into contact with vulnerable people. Most agencies require students to provide the results of a National Police Record Check. The cost of obtaining a record check from the Victorian Police is payable by the student directly to Victoria police. In 2007 the volunteer fee for the record check was \$13.30. Students should obtain the Consent to Check and Release National Police Record application form from their division of enrolment or it can be downloaded from the Victoria Police website. Students should complete the application form and obtain a signature from the division office, which will allow the check to be obtained at the volunteer rate. The certificate is valid for the current year only. Students will be expected to obtain a new police security clearance each year in which a professional placement is required.

Students undertaking placement in New South Wales will also require a National Police Record Check. This check will include a 'Working with Children' check. Details are available from the division of enrolment.

Students being placed in Victoria may also be required to obtain a 'Working with Children' check.

Confirmation of a criminal record may jeopardise a student's ability to gain access to a suitable (or any) professional placement(s), and may therefore delay or prevent completion of the course. Any questions or concerns relating to these checks should be directed to the relevant school office or placement coordinator.

Flexible teaching arrangements

In order to accommodate student needs, some units are taught in a mode different from the normal face-to-face or regular weekly classes. For example, modes may include block mode (i.e. intensive weekend or week-long classes), classes taught outside of the normal teaching period dates such as placement units, or classes taught via distance education or web-based teaching. Please refer to unit descriptions for those units that are offered by flexible teaching arrangements.

Fees

The Australian Government has introduced a new system of fees for Australian universities. From 2005, the Higher Education Loan Program (HELP), available to Australian citizens and holders of permanent humanitarian visas will be available to assist students with the payment of their university fees.

- HECS-HELP – for Australian citizens and holders of a permanent humanitarian visa if enrolled in a Commonwealth-supported place
- FEE-HELP – for eligible fee-paying students enrolled at eligible higher education providers. Loans will cover up to the full amount of their tuition fees with students able to borrow up to an amount determined by the Federal Government.

- OS-HELP – for eligible full-time Commonwealth supported students who wish to study one or two study periods overseas. Loans will be up to \$5000 per six-month study period. OS-HELP loans will be subject to a 20% loan fee.

For more information, please refer to www.hecs.gov.au

Units Offered by the Faculty

A full description of Health Sciences units appears at the end of this chapter, in alphabetical order by unit code. Students should note that units published in the hardcopy *Handbook* are subject to change and should refer to the unit database for up to date information:

www.latrobe.edu.au/udb_public

Courses Offered by the Faculty

The Division of Nursing and Midwifery offers the following degrees:

Bachelor of Nursing (pre-registration) – Albury-Wodonga (HBNPRW), Bendigo (RBN), Melbourne (Bundoora) (HBN), Mildura (HBNM), Shepparton (HBNUP)

Enquiries: (02) 6024 9730

This comprehensive course leads to registration as a Division 1 nurse with the Nurses Board of Victoria. It is offered across the Melbourne (Bundoora), Albury-Wodonga, Bendigo, Mildura, and Shepparton campuses. Students are required to undertake a course of studies equivalent to that listed below. Some unit codes differ depending upon the campus of offer. The following course structure is that of the Shepparton campus. For the structure of courses offered at the Albury-Wodonga, Bendigo, Melbourne (Bundoora) and Mildura campuses, please refer to those campus entries elsewhere in this *Handbook*. Note that the teaching period in which a unit is offered may change.

The Bachelor of Nursing (pre-registration) is a three year pass degree. Within the philosophy of the course students are viewed as active participants in the learning process. This enhances the development of critical thinking and problem-solving skills, which enables the graduate to respond to the changing demands of health care services. The course involves study in nursing theory, practice and research, human biosciences and behavioural health sciences.

The on-campus skills laboratory enables students to practise and develop clinical nursing skills in a simulated and supportive environment. For enrolled students, the clinical learning component occurs in hospitals and health care agencies in regional and metropolitan areas (depending on your campus of enrolment).

This course is offered on a full-time basis. Part-time study is not recommended but may be considered at the discretion of the undergraduate course coordinator.

It is also offered as a two-year, full-time graduate entry program at the Melbourne (Bundoora) campus, with one year of advanced standing being granted to selected applicants with an Australian Bachelor degree or equivalent.

Professional recognition

Graduates are eligible for registration as Division 1 nurses with the Nurses Board of Victoria. After registration, graduates are eligible for membership of the Royal College of Nursing Australia.

Course structure (three year program)

First year

Teaching period	Unit code	Unit name	Credit points
TE-SEM-1	PHE1PHA	Introduction to Public Health A	15
TE-SEM-1	NSG1AAS	Nursing Art and Science	15
TE-SEM-1	HBS1API	Introduction to Human Body	15
TE-SEM-1	NSG1LIL	Information Literacy for Nurses	15
TE-SEM-2	NSG1FUN	Fundamentals of Nursing Practice	15
TE-SEM-2	NSG1HAS	Health Assessment for Nurses	15

Bachelor of Nursing (Division 2 Conversion) – Melbourne (Bundoora) (HSBNC), Albury-Wodonga (HSBNCW), Bendigo (BEBND2), Mildura (HBNM), Shepparton

Enquiries: (02) 6024 9730

Course structure (three-year, part-time, Division 2 Conversion)

The Bachelor of Nursing (Division 2 Conversion) is offered as a three year part-time course available to students who hold a current Division 2 Registration and wish to upgrade their qualification to Division 1. It is offered across the Albury-Wodonga, Bendigo, Melbourne (Bundoora), Mildura and Shepparton campuses. Successful completion of this course prepares graduates for Division 1 registration. This course requires all students to successfully complete a short course in human anatomy and physiology prior to commencement.

Professional recognition

Graduates are eligible for registration as Division 1 Nurses with the Nurses Board of Victoria. After registration, graduates are eligible for membership of the Royal College of Nursing Australia.

First year

Teaching period	Unit code	Unit name	Credit points
TE-SEM-1	NSG1LIL	Information Literacy for Nurses	15
TE-SEM-1	NSG1AAS	Nursing Art and Science	15

UNIT DESCRIPTIONS

HBS1AON ANATOMY: ORGANS (5 CPs Sem. TE-SEM-2 AW, BU, MI, SH.) *Dr Jodi Sita*

In this unit, the principles of anatomy which began in HBS1API will be developed and applied to the location and physical relationships between major organ systems of the head and trunk. Emphasis will be placed on cardiovascular, respiratory, digestive, renal and reproductive systems, paralleling the functional approach to these in HBS1HBF. Lectures will be supported by practical sessions, including surface anatomy and examination of cadaver specimens.

Co-requisite: HBS1HBF, HBS1API.

Class requirements: Eighteen 1-hour lectures and four 2-hour practical classes per semester.

This unit is not available for Study Abroad students.

Assessment: One 10-minute multiple choice test (equivalent to 200 words) (10%), one 300-word assignment (20%), one 1-hour written examination (70%). Hurdle requirement: student must participate in all components of the assessment.

Recommended Reading:

Blackhouse KM, Haching RT. *Clinical surface anatomy*. Mosby, 1998.

Moore LM and Agur AMR. *Essential clinical anatomy*. 2nd edn. Lippincott, Williams and Wilkins, 2002.

HBS1AON Current edn. *student manual*.

HBS1API INTRODUCTION TO THE HUMAN BODY (15 CPs Sem. TE-SEM-1 AW, BU, MI, SH.) *AW: Dr Charu Mishra, BU: Dr Susan Malcolm, BU: Dr Jodi Sita*

In this unit students will be introduced to basic physiological and anatomical concepts that will be further developed in semester two. Physiology lectures will cover homeostasis, body fluids, the cell and plasma membrane, mechanisms by which substances cross the membrane, the nervous system and skeletal muscle. Anatomy lectures will cover anatomical terminology, tissues, skin, the musculoskeletal system, nerves and regional anatomy. Lectures are supported by practical classes and tutorials.

Incompatible unit: HBS1APH, HBS1HFU

Class requirements: Four 1-hour lectures per week, nine 1-hour practical classes, and five 1-hour tutorials over the semester.

Assessment: Two short multiple question tests (10%). Hurdle requirement: participation in all components of the assessment, one 2-page diagram-based assignment (10%), one 350-word assignment (10%), one 1.5-hour written anatomy exam (35%), one 1.5-hour written physiology exam (35%).

Recommended Reading:

HBS1API – *Anatomy*. Current edn. *student manual*.

HBS1API – Marieb E and Hoehn K. *Physiology*.

Human Anatomy and Physiology. 7th edn. Pearson, 2007.

HBS1HBF HUMAN BODY FUNCTION (10 CPs Sem. TE-SEM-2 AW, BU, MI, SH.) *AW: Dr Charu Mishra, BU: Ms Jane McCooley*

In this unit, students' understanding of the functioning human body, introduced in semester one is extended. Begins with an overview of how the endocrine system contributes to regulation of body functioning and hence to homeostasis. Descriptions of selected hormones and their functions illustrate the general principles. Most of the unit is devoted to the study of body systems, including the cardiovascular system, respiratory system, renal system, digestive system and metabolism, reproductive system. Interactions between the systems to meet challenges to normal functioning imposed by changes within and external to the body are discussed. Concludes by considering changes in body functioning with development from a neonate to a very old person.

Co-requisite: HBS1API or HBS1APH or HBS1HFU or BIO1OF.

Class requirements: Four 1-hour lectures and one 1-hour tutorial (voluntary attendance) per week.

Assessment: One 40-minute written examination mid-semester (20%), one 2-hour examination at the end of the semester (80%).

Prescribed Reading:

Marieb E and Hoehn K. *Human anatomy and physiology*. 7th edn. Pearson, 2007.

HBS2PAT PATHOPHYSIOLOGY IN NURSING (15 CPs Sem. TE-SEM-1 AW, BE, BH, BU, HK, MI, SH, SI.) *AW: Dr Charu Mishra, BE: Dr Terri Meehan-Andrews, BE: Dr Adrian Verrinder, BU: Mr Robert Paine*

In this unit, students will examine disorders, which may be experienced by individuals over the life span, emphasising the underlying biological mechanisms that produce signs and symptoms, and the risk factors and contributing causes of disorders. Specifically, general pathological processes will be discussed with emphasis on disturbed function, adaptation to injury, inflammation, tissue healing, immunological disorders, neoplasia, fluid imbalance, thrombosis, embolism and vascular disorders. In addition to general pathological processes, emphasis will be given to relevant disorders of the respiratory, cardiovascular, renal gastrointestinal, endocrine, skeletal and nervous systems.

Prerequisite: HBS1HBF, except for students enrolled in the HSBNC, HSBNCW, BEBND2, HBNCM, HBNCPC, HBNPRG, and HBNPGW.

Class requirements: Four 1-hour lectures per week and one 1-hour seminar or tutorial per week. Some lectures will be given via WebCT.

Assessment: One 45-min mid-semester test (20%), one 3-hour final examination (80%).

HLT3IPA INTERDISCIPLINARY PROFESSIONAL PRACTICE (15 CPs Sem. TE-SEM-1 AW, BE, BU, DE, MI, SH. TE-SEM-2 AW, BE, BU, DE, MI.)

Mr Matthew Oates

In this web-based unit, students across the Faculty of Health Sciences study together in interdisciplinary groups in preparation for professional practice. This unit consists of four online modules: Professional Development, Provision of Care within the Context of Human Service Systems and Implementing a Plan to Improve Service Quality, Professional Accountability, and Organisational Dynamics – Working Effectively in Health and Human Service Organisations. Through guided activities, students will be encouraged to critically reflect on the structure and influences on the human services organisation, develop interdisciplinary awareness and explore the contribution of other professions, consider the rights and expectations of service consumers and apply the key issues of ethical decision-making within the context of relevant law.

Prerequisite: Bachelor of Health Sciences students must have completed at least 240 credit points. All other courses must have completed one of the following units: NSG2EBP, HIM2HCC, ORT3CLI, OCT3PRD, pTY32CPC, PTY32MPC, PTY32NPC, PTY32SSP, POD3PCP, POR2CEB, POR2CEB, HCS30CLI, HCS30PPR, SWP3FEA, ORH33CPE.

Incompatible unit: HLT32IPA, HLT31IPA.

Class requirements: Eight hours of lectures/seminars over two days during Orientation Week plus a flexible learning package equivalent to three hours of classroom contact per week. Students have regular contact with lecturers via the unit coordinator using telephone, fax and e-mail.

Assessment: Three 500-word online group task (30%). Hurdle requirements: students are required to participate in all online tasks, and must pass all assessment components in order to pass this unit, one 1500-word online assignment (40%), participation/contribution to online discussions as per guidelines provided to students (10%), one 750-word online group tasks (20%), one 1500-word group online assignment (40%), participation/contribution to online discussions as per guidelines provided to students (10%).

NSG1AAS NURSING ART AND SCIENCE (15 CPs Sem. TE-SEM-1 AW, BE, BU, MI, SH.) *AW: Ms Yolanta McLaughlin, BE: Ms Gamble Kerrie, BU: Mr Bill McGuinness*

In this unit students will be provided with an introduction to the theoretical framework of the curriculum as an underpinning for professional nursing practice. The foundations of the program are discussed in the context of nursing as a discipline and a profession. Creative and scientific processes and concepts that underlie and guide nursing practice are explored from a historic, holistic, and global

perspective. Students are introduced to various nursing roles in health care by examination of professional nursing practice. The concepts of nursing as an art, nursing as a science and of care and caring within a professional, legal, and ethical framework are examined. Students will explore dimensions of the nurse–patient relationship. In particular, they will develop skill in initiating, maintaining, and concluding effective therapeutic and professional communication. Students will also be expected to maintain a reflective journal and to engage in group discussions.

Class requirements: 26 hours of lectures, 13 hours of problem-based learning (fortnightly class based tutorials and seven hours of web based tutorials) and 16 hours of clinical placement over the semester. This unit will have an online component and may also be offered in block mode (two consecutive 6-hour days, three times over the semester). There may be variations to this structure on different campuses.

Assessment: One 1800-word assignment (40%). Hurdle requirement: Completion of a clinical learning activity related to communication skill and professional development, one 2200-word written essay (60%). Students must pass both the theoretical and clinical components to pass the subject.

Recommended Reading:

Crisp J and Taylor, C (Eds). *Potter and Perry's Fundamentals of Nursing*. 2nd edn. Sydney: Elsevier Mosby, 2005.

NSG1FUN FUNDAMENTALS OF NURSING PRACTICE (15 CPs Sem. TE-SEM-1 AW, BU, TE-SEM-2 AW, BE, BU, MI, SH.) AW: Ms Yolanta McLaughlin, BE: Ms Kerrie Gamble, BU: Dr Michael Bauer

In this foundation unit students will learn how to assist clients to meet their activities of daily living. Students will study the effect of immobility on the individual's ability to self-care. Using an issues-based learning approach, students are introduced to therapeutic nursing practices, which are designed to promote, maintain, and improve health status and provide comfort. Emphasis will be placed on fundamental nursing skills including basic life support. Related topics include alterations in comfort, hygiene, nutrition, elimination, respiration, circulation, body temperature and infection control. Students will also develop skills in individualised care as a beginning member of the nursing team with awareness of legal, ethical, and professional responsibilities. Students are introduced to the interactions between micro-organisms and humans including the roles of microbes in health maintenance and in infectious diseases.

Co-requisite: NSG1HAS and students must be enrolled in one of the following: HBNPRG, HBNPGW, BEBN2, HSBNCW, HSBNC, HBNCM, HBNCN, or BIO1LS1, HBS1API or equivalent.

Class requirements: One 2-hour lecture and one 2-hour laboratory practice session (weeks 1–10), one 2-hour tutorial (weeks 1–6) plus an 80-hour clinical placement. This unit will have an online component. Block mode: two consecutive 7-hour days four times across the semester plus an 80-hour clinical placement. There may be variation to the structure on different campuses.

Assessment: One 2-hour end of semester examination (50%). Hurdle requirement: successful completion of clinical practicum, one 2000-word written project (50%). Students must pass the theoretical and the clinical components to pass the unit.

NSG1HAS HEALTH ASSESSMENT FOR NURSES (15 CPs Sem. TE-SEM-1 AW, BE, BU, MI, SH. TE-SEM-2 AW, BE, BU, MI, SH. TE-W34-43 BH. TE-W47-06 SI.)

Ms Yolanta McLaughlin, Ms Sharon Kendall, Ms TBA, Ms Bev Blanch, Ms Bernadette Griffiths, Dr Beverley Wood

In this unit students will focus on the knowledge, techniques and skills needed by the nurse to perform comprehensive health assessments of individuals across the life span. Students are provided with information on normal findings of assessment and will be able to use this in identification of healthy individuals. Students are

introduced to a variety of Health Assessment frameworks, including the Functional Health Assessment framework to facilitate a comprehensive health assessment. Critical thinking skills will be developed in order to assist students to synthesise collected data. Emphasis will be placed on assessment techniques and documentation of findings. The use of technology and supervised practice on campus and clinical facilities will facilitate the development of skills required for assessment of clients. Laboratory experiences, focusing on selected psychomotor and interpersonal skills, are designed to support the development of relevant health assessment skills.

Prerequisite: Students must be enrolled in HBNPRG, HSBNC, HSBNCW, BEBN2, HBNCM, HBNCN, HDIAN, HZNM, RDN, and HDIANW or have passed HBS1LS1, BIO1LS1, HBS1API, or equivalent.

Class requirements: 24 hours of lectures, 12 hours of tutorials, 12 hours of laboratory sessions and 40 hours of clinical practice. This unit will have an online component and may be offered in block mode (two consecutive 6-hour days four times over the semester).

This unit is not available for Study Abroad students.

Assessment: One 1500-word health assessment report (25%). Students must pass both the theoretical and clinical components to pass the subject, one 1500-word clinical reasoning exercise (25%), 40 minute practical clinical skills examination (50%).

Recommended Reading:

Jarvis C. *Physical examination and health assessment*. 4th edn. Philadelphia: Saunders, 2004.

NSG1LIL INFORMATION LITERACY FOR NURSES (15 CPs Sem. TE-SEM-1 AW, BE, BU, MI, SH.) AW: Ms Eileen Clark, BE: Dr Julie Ellis, BU: Dr TBA, MI: Ms Bev Blanch

In this unit, the students will be assisted to develop the information literacy and written communication/documentation skills required of a nurse in the 21st century. Informatics and Evidence Based Practice are key aspects of that contemporary nursing practice. Students will be assisted to meet the CAUL information literacy standards, develop an understanding of the role of written communications/documentation and information technology in the practice of nursing, and a beginning appreciation of the role of evidence as it informs nursing practice. Further, the students will be provided with a foundation on information management and processing principles used to support the data, information, and knowledge needs in the provision and delivery of nursing and health care. In this unit students will become practised in the use of both electronic media and traditional written and oral communication skills in the communication of a well-developed argument.

Class requirements: 13 hours of lectures plus directed activities equivalent to 26 hours of classroom contact across the semester. This unit will have an online component.

Assessment: One 2500-word assignment (60%), one 1500-word assignment (40%).

Recommended Reading:

Higgs J. (Ed). *Communicating in the Health and Social Sciences*. South Melbourne: Oxford University Press, 2005.

NSG2AUA ACUTE NURSING PRACTICE A (15 CPs Sem. TE-SEM-1 AW, BE, BU, MI, SH. TE-SEM-2 AW, BE, BU, MI.) AW: Ms Nanette Lundie, BE: Ms Adele Callaghan, BU: Mrs Robin Ray

In this unit, students will be offered the opportunity to gain the knowledge, techniques, and skills needed by the nurse to care for the person experiencing episodic illness in a hospital. Using a problem-based learning approach the focus will be on the effect of episodic illness on skin integrity (wounds), nutritional status and elimination. Further themes for exploration include pain management, fluid and electrolyte balance, and issues surrounding hospitalisation. Students will be introduced to beginning technical skills as well as the knowledge necessary for planning and implementing individualised care while considering cultural, social, psychological, ethical, and legal aspects of care.

Prerequisite: NSG1HAS, NSG1FUN. If student enrolled in HBNPRG, HBNPGW, BEBN2 then must have passed NSG1HAS, NSG1FUN, NSG2MED, and HBS2PAT. If student enrolled in

HSBNC, HSBNCW, RBN2, BEBND2, HBNCM, HBNCN then must have passed NSG1HAS, NSG2MED, and HBS2PAT.

Co-requisite: NSG2MED, HBS2PAT.

Class requirements: Bundoora/Albury-Wodonga/Mildura campus: two 2-hour lectures per week over five weeks, one 2-hour problem-based learning group per week over five weeks, one 2-hour laboratory session per week over five weeks plus clinical practicum of 15 days over three or four weeks (105 hours). Bendigo campus: as above except with a 105-hour clinical practicum of 35 hours per week over three weeks. Or alternatively two consecutive 5-hour seminar days four times across the semester plus a 105-hour clinical practicum of 35 hours per week over three weeks. This unit may have an online component.

This unit is not available for Study Abroad students.

Assessment: One 2000-word case study (50%). Students must pass the theoretical and clinical component to pass the unit, one 2-hour examination (50%). Hurdle requirement: clinical assessment of clinical reasoning, psychomotor and communication skills and professional development in line with the ANCI competencies using the Bondy scale.

NSG2CAF CHILD AND FAMILY NURSING PRACTICE (15 CPs Sem. TE-SEM-2 AW, BE, BH, BU, HK, MI, SH, SI.) AW: Ms Nanette Lundie, BE: Ms Diana Guzys, BU: Ms Sharon Gan, MI: Ms Bev Blanch

In this unit, students will be offered the opportunity to gain knowledge and skills to work in a respectful and collaborative partnership with families to identify and manage health concerns, and provide quality care for children and families in a variety of settings. Students will investigate and critically appraise issues related to socio cultural, structural, developmental, and emotional perspectives, as well as specific knowledge and skills to assess health status of families. The effects of disadvantages on the child and family, with emphasis on families of children with special needs will be explored. Using more developed interpersonal skills, students will develop evidence-based family focused initiatives to promote optimal family functioning and health.

Prerequisite: NSG1FUN, NSG1HAS, PHE1PHB or HLT1HAS, HBS1AON, HBS1HBF or BIO12LS2 or HBS1LS2.

Class requirements: 20 hours of lectures, 10 hours of tutorials, 6 hours of directed learning activities online and 3 hours of self directed learning across the semester. This unit may have an online component.

Assessment: One 2000-word scenario based clinical decision-making exercise (50%). Hurdle Requirement: All assessment requirements must be completed to be eligible for a pass grade in this unit. You must obtain a mark of 50% to pass this unit, one 2000-word family assessment assignment (50%).

NSG2EBP EVIDENCE BASED NURSING (15 CPs Sem. TE-SEM-1 AW, BE, BU, HK, SI. TE-SEM-2 AW, BE, BU, MI, SH, SI.) AW: Ms Eileen Clark, BE: Ms Fran Sheehan, BH: Dr Beverley Wood, BU: Dr Simon Black, HK: Dr Beverley Wood, MI: Ms Bev Blanch, SI: Dr Beverley Wood

In this unit students will be offered the opportunity to examine the nature and sources of evidence for nursing practice and the processes through which this evidence is generated. Information on the research process and the methods for obtaining and evaluating the application

of evidence to practice will be provided. Exploration of the research process includes conceptual basis, methodology, data collection, data analysis, and presentation and utilisation of research and the development of evidence based practice.

Prerequisite: NSG1FUN.

Class requirements: Bundoora/Albury-Wodonga campus: two 1-hour lectures per week over seven weeks, one 1-hour lecture per week over two weeks, one 2-hour tutorial per week over seven weeks and seven hours of self directed learning equivalent to one hour of class contact per week over seven weeks. Bendigo campus: as above or alternatively two consecutive 5-hour seminar days four times across the semester. This unit may have an online component.

This unit is not available for Study Abroad students.

Assessment: One 1-hour tutorial test (25%), one 2000-word critical appraisal of published research (50%), one discussion, and interaction, equivalent to 1000 words (25%).

Prescribed Reading:

Trinder L, Reynolds S. *Evidence based practice: a critical appraisal*. Oxford: Blackwell Science, 2000.

Recommended Reading:

NSG2LEA LAW, ETHICS AND ACCOUNTABILITY FOR NURSES (15 CPs Sem. TE-SEM-1 HK, SI. TE-SEM-2 AW, BE, BH, BU, HK, MI, SH, SI. TE-SEM-3 AW, BH, HK, SI. TE-W01-08 BH. TE-W45-03 SI.) Ms Nanette Lundie, Mr Ron Picard, Mr Les Fitzgerald, Ms Kathleen Tori, Dr Beverley Wood, Ms Susan Hunter, Dr Beverley Wood

In this unit students will be assisted to examine the legal, ethical and accountability issues which impact on the practice of nursing. Individual responsibility of the nurse is emphasised through investigation of professional ethical and legal accountability, and forms of regulation. Current models for ethical decision-making are explored and applied in the analysis of selected ethical problems in nursing practice. The students are encouraged to examine and clarify personal and professional values and beliefs and develop a reflective approach to their practice.

Class requirements: 16 hours of lectures, 16 hours of tutorials (comprising fact-to-face and tutor-facilitated online activity), and seven hours of self-directed learning equivalent to one hour of class contact. Lectures and face-to-face tutorials are conducted in the first 5–8 weeks of semester (the number of weeks depending on the campus), while online and self directed learning occurs across the semester. This may vary in offshore programs.

This unit is not available for Study Abroad students.

Assessment: One 1000-word scenario based ethical decision-making exercise (30%) (Individual assessment), one 2500-word written assignment (60%) (individual assessment), one online discussion and interaction, equivalent to 500 words (10%).

Recommended Reading:

NSG2MED MEDICATION MANAGEMENT FOR NURSES (15 CPs Sem. TE-SEM-1 AW, BE, BU, MI, SH. TE-W09-21 BU.) Ms Nanette Lundie, Dr Sharon Kendall, Ms Gayle McKenzie, Ms Bev Blanch

In this unit students will be offered the opportunity to develop knowledge of safe and ethical practice in medication administration. Information will be provided to students on pharmacologic, pharmacokinetic, and pharmacodynamic principles essential for clinical practice and the basic principles of pharmacotherapeutics and pharmacological interventions in nursing including the related nursing responsibilities will be introduced. Emphasis will be placed on clinical aspects including dosing regimes and compliance, paediatric and geriatric pharmacology, adverse drug reactions and interactions, post-surgical care, and polypharmacy. An overview of the clinical application of classifications of drugs on human systems will be provided.

Prerequisite: NSG1HAS, NSG1FUN, HBS1AON, HBS1HBF, HBS1LS2, or Students must be enrolled in HBNPRG, HBNPGW,

BEEN2, HSBNC, HSBNCW, BEBND2, HBNCM, and HBNCP.

Class requirements: 26 hours of lectures and 13 hours of facilitated small group sessions across the semester. This unit may have an online component.

This unit is not available for Study Abroad students.

Assessment: One 2-hour written examination (60%), one 1500-word assignment (30%), one 30-minute drug calculation examination (10%). Hurdle requirement: must achieve mastery of 80% in the drug calculation examination to pass the unit.

NSG2MHL MENTAL HEALTH NURSING PRACTICE (15 CPs Sem. TE-SEM-1 AW, BU, TE-SEM-2 AW, BE, BU, MI, SH.) AW: Ms Eileen Petrie,

BE: Ms Susan Kidd, BU: Mr Alan Robins

In this unit, students will be offered the opportunity to discuss the general principles and practices of psychiatric/mental health nursing and their impact on the individual and their family. Theoretical explanations of mental health and mental illness, the manifestation and classification of mental illness, and major treatment modalities will be explored. Therapeutic and psychosocial interventions are discussed within the context of the broad socio-cultural environment. Topics will include current debates on mental health and illness, psychiatric disorders, populations at risk, continuity of care and cross-cultural perspectives on mental health and illness. Students will also be offered the opportunity to examine the framework for mental health service delivery in Victoria.

Prerequisite: NSG2AUA, NSG2MED, HBS2PAT.

Co-requisite: NSG2AUA if student enrolled in HSBNC, HSBNCW, RBN2, BEBND2, HBNCM, HBNCP, HBNPRG, HBNPGW, BEEN2.

Class requirements: 30 hours of lecture/tutorial across the semester. Content to be delivered in flexible lecture and tutorial combination. This unit may be offered block mode across the semester in the format of seminar days. In addition a 140-hour clinical practicum of 35 hours per week over four weeks. This unit may have an online component.

This unit is not available for Study Abroad students.

Assessment: One 1750-word written assignment (40%). Hurdle requirement: clinical assessment of clinical reasoning, psychomotor and communication skills and professional development in line with the ANCI competencies using the Bondy scale, one 2-hour written examination (60%).

Prescribed Reading:

Meadows G, Singh B, and Grigg M. *Mental Health in Australia*. 2nd edn. Australia: Oxford University Press, 2006.

NSG2PRH PROMOTING HEALTH IN NURSING PRACTICE (15 CPs Sem. TE-SEM-1 AW, BE, BH, BU, HK, MI, SH, SI.) AW: Ms Eileen Petrie, BE: Ms Kerrie Gamble, BE: Ms Di Guzys, BU: Ms Sandra Lucas

In this unit, students will be assisted to explore the role of the nurse in assessing individuals, family and group needs. Students are introduced to theories and models for health promotion and health education and the principles of planning, implementing, and evaluating programs in a variety of health related settings. Students will develop their own health education strategies appropriate to cultural and lifespan needs.

Prerequisite: NSG1HAS, PHE1PHB.

Class requirements: 13 hours of lectures and 13 hours of tutorials per semester, plus a 35-hour clinical practicum. This unit may have an online component.

Assessment: One 40-minute group presentation of a health education session – 10 minutes per member (40%). Hurdle requirement: clinical

assessment of clinical reasoning, psychomotor and communication skills and professional development in line with the ANMC competencies using the Bondy scale, one 3,000-word health promotion assignment (60%). Students pass the theoretical and clinical components to pass the unit.

NSG3AUB ACUTE NURSING PRACTICE B (15 CPs Sem. TE-SEM-1 AW, BE, BH, BU, MI, SH, SI.) AW: Ms Ann Kuypers, BE: Ms Helen Aikman, BU: Ms Elizabeth Watt, MI: Ms Bev Blanch

In this unit, students will be offered the opportunity to further develop their knowledge and skills by caring for people experiencing complex health problems requiring nursing intervention. Previously learnt technical, interpersonal, and decision-making skills are further developed while aspects of health education and legal and ethical aspects are incorporated to provide individualised care. Using a problem-based learning approach students will be offered the opportunity to study the effect of complex acute and chronic illness by focusing on patients situation that involve conditions that seriously alter absorption and utilisation of food and fluids, metabolism and endocrine function, elimination of bodily waste. The students will also be offered the opportunity to study the effect that these have on other body systems.

Prerequisite: NSG2AUA, NSG2MED, HBS2PAT.

Class requirements: Five 3-hour lectures, ten one hour problem-based learning groups, and ten one hour laboratory sessions across the semester. A 105-hour clinical practicum of 35 hours per week over three weeks. Communication and discussion via WebCT.

This unit is not available for Study Abroad students.

Assessment: One 2-hour written examination (50%). Students must pass the theoretical and clinical components to pass the subject, one 2500-word case study (50%). Hurdle requirement: clinical assessment of clinical reasoning, psychomotor, communication skills, and professional development in line with the ANCI competencies using the Bondy scale.

Prescribed Reading:

NSG3AUC ACUTE NURSING PRACTICE C (15 CPs Sem. TE-SEM-2 AW, BE, BH, BU, HK, MI, SH, SI.) AW: Ms Ann Kuypers, BE: Ms Helen Aikman

In this unit, students will be provided with the opportunity to consolidate knowledge and skills in order to effectively prioritise care for a group of clients experiencing a range of complex co-morbidities. Using a problem-based learning approach students will be offered the opportunity to study the effect of complex acute and chronic illness by focusing on patient situations involving serious alterations in cardiac, respiratory, and neurological function, and the effect that these have on other body systems. A feature of this unit is the development of the student's ability to incorporate therapies involved in the helping role of the nurse while managing a caseload of patients.

Prerequisite: NSG3AUB.

Class requirements: Five 2-hour lectures, ten one hour problem-based learning session and ten one hour laboratory sessions across the semester plus 140-hour clinical practicum of 35 hours per week over four weeks.

This unit is not available for Study Abroad students.

Assessment: One 2000-word case study (50%). Hurdle requirement: clinical assessment of clinical reasoning, psychomotor and communication skills and professional development in line with the

ANCI competencies using the Bondy scale, one 2000-word assignment (50%). Students must pass the theoretical and clinical component to pass the subject.

Prescribed Reading:

Lewis S, Collier I and Heitkemper M. *Medical-surgical nursing: assessment and management of clinical problems*. 6th edn. St Louis: Mosby, 2004.

NSG3CAC CANCER NURSING THEORY (15 CPs Sem. TE-SEM-1 AW, BE, BU, MI, SH. TE-SEM-2 AW, BE, BU, MI, SH.) AW: Ms Yolanta McLaughlin, BE: Dr Sharon Kendall, BU: Ms Rosaleen Rudd, MI: Ms Bev Blanch

In this unit students will be offered the opportunity to develop a beginning knowledge about the nature of nursing a client with cancer. Students will be provided with the opportunity to acquire knowledge pertaining to the nature of cancer and aspects of cancer prevention, treatment and rehabilitation, with particular emphasis on cancer nursing. Information on aspects of epidemiology in relation to cancer, the physiology of cancer and oncology emergencies will be provided.

Prerequisite: NSG1HAS

Class requirements: one 2-hour lecture and one one hour tutorial per week for ten weeks; one 3-hour laboratory session during the semester; plus 6 hours of self directed learning activities equivalent to one hour of classroom contact per week for six weeks. This unit may be offered in block mode: two consecutive 6-hour seminar days three times across the semester and 6 hours of self directed learning activities equivalent to one hour of classroom contact per week for six weeks. This unit may have an online component.

Assessment: One 1000-word scenario based assessment (25%), one 2500-word participation portfolio (50%), and one 1000-word critical reasoning exercise (25%)

Prescribed Reading:

Langhorne M, Fulton J, and Otto S. *Oncology Nursing*. 5th edn. St Louis: CV. Mosby, 2004.

NSG3CAT CHILD AND ADOLESCENT NURSING THEORY (15 CPs Sem. TE-SEM-2 AW, BE, BU, MI, SH.) Ms Sharon Gan

This subject may not be offered every year.

In this unit, students will be offered the opportunity to extend their knowledge of paediatric nursing building on the information presented in Child and Family Nursing Practice. The focus will be on the acquisition of knowledge and skills required to assist the child and the family in times of health deviation. Information will be provided on nursing interventions that assist in promoting, maintaining, and restoring health of infants, children, and adolescents.

Prerequisite: NSG2CAF, NSG1HAS.

Class requirements: 20 hours of lectures, 10 hours of online tutorials, three hours of laboratory sessions and 6 hours of self-directed learning across the semester. This unit will have an online component. This unit is not available for Study Abroad students.

Assessment: One 2500-word participation portfolio (50%), one 2000-word critical reasoning exercise (50%)

Recommended Reading:

Hockenberry M, Wilson, D, Winkelstein M and Klien N Wong's *nursing care of infants and children*. St Louis: Mosby, 2003.

NSG3CPR COMMUNITY NURSING PRACTICE (15 CPs Sem. TE-SEM-2 AW, BE, BH, BU, HK, MI, SH, SI.) AW: Ms Eileen Petrie, BE: Ms Kerrie Gamble, BE: Ms Di Guzys, BU: Ms Sandra Lucas

In this unit, students will be offered the opportunity to analyse the role of the nurse in facilitating health with individuals and groups in the community. An issues-based learning approach will be utilised, allowing students to apply theories and models for community development, social marketing, and primary health care to practice situations. In analysing community practice roles, students will be asked to critique their own values relating to lifespan, culture and social issues that impact health and be accountable (both ethically and legally) for their contribution to health service provision. Students will be able to build on knowledge gained in Information Literacy for Nurses to develop a multimedia package.

Prerequisite: NSG1LIL, NSG2AUA, NSG2PRH and NSG3AUB, or students must be enrolled in HZNM. If students enrolled in HBNPRG, HBNPGW, BEBN2, HSBNC, HSBCNW, BEBND2, HBNCM, HBNCP then must have passed NSG2AUA, NSG3AUB.

Class requirements: 16 hours of lectures, 14 hours of problem-based learning and seven hours of self-directed learning plus a 105-hour clinical practicum of approximately 35 hours per week. This unit may have an online component.

This unit is not available for Study Abroad students.

Assessment: One 2000-word equivalent multimedia package based on a community assessment (50%). Hurdle requirement: clinical assessment of clinical reasoning, psychomotor and communication skills and professional development in line with the ANMC competencies using the Bondy scale, one 2000-word community development practice analysis (50%). Students must pass the theoretical and clinical components to pass the unit.

NSG3GER GERONTIC NURSING PRACTICE (15 CPs Sem. TE-SEM-1 AW, BE, BH, BU, HK, MI, SH, SI.) AW: Ms Yolanta McLaughlin, BE: Ms Julie Ellis, BU: Dr Susan Koch

In this unit, students will be offered the opportunity to consider the health needs of older people in diverse settings. The examination of the social, psychological, and biological aspects of ageing; demographics of ageing, health and ageing, ageing in place, acute care and the principles of long-term care and of rehabilitation will be included. The importance of the nurses' roles in promoting, maintaining, and restoring the health of older adults will be stressed. The students will be encouraged to focus on the independent role of the nurse and an interdisciplinary approach to the planning and implementation of client care and development skills in management, teamwork, delegation, and prioritising care. As part of the clinical experience, students may be required to undertake evening and weekend work in this unit.

Prerequisite: NSG2AUA, NSG2MED, HBS2PAT.

Class requirements: 40 hours – 20 hours of lecturers, 10 hours of tutorials, 10 hours of self-directed learning. 140-hour clinical practicum. This may include weekends and evenings work. This unit may have an online component.

This unit is not available for Study Abroad students.

Assessment: One 2500-word evidence-based case management review (60%). Hurdle requirement: clinical assessment of clinical reasoning, psychomotor and communication skills and professional development in line with the ANCI competencies using the Bondy scale, one 1500-word written assignment (40%). Students must pass the theoretical and clinical components to pass the subject.

NSG3INT MANAGING COMPLEX INTERACTIONS IN NURSING (15 CPs Sem. TE-SEM-1 HK. TE-SEM-2 AW, BE, BU, HK, MI, SH. TE-SEM-S HK.) Ms Ann Kuypers, Ms Sharon Kendall, Ms Elizabeth Pascoe, Dr Beverley Wood

In this unit, students are placed in situations that are unique to professional nursing practice, that require a complex range of knowledge, skill, and awareness. Engagement in complicated, often

stressful, and distressing encounters requires the nurse to be equipped with a sophisticated repertoire of skills, including 'awareness' of self and others. Effective intervention on a variety of levels is seen as an essential role of the professional nurse. The students will be given a theory base for understanding human behaviour, and basic mental health concepts are introduced. Emphasis will be placed on theory-based strategies to improve interaction, and coping with individuals, families, and other health care professionals. The unit focuses on the complex events and interactions that occur in health care settings.

Prerequisite: NSG3AUB or students must be enrolled in HZNM

Co-requisite: NSG3AUC or students must be enrolled in HZNM.

Class requirements: Two hours of lectures six times over the semester and two hours of problem-based learning activities seven times over the semester as well as thirteen hours of directed activities over the semester. This may vary in offshore programs.

This unit is not available for Study Abroad students.

Assessment: One 2000-word critical reflective portfolio (50%), one 2000-word online assessment (50%).

Prescribed Reading:

McCabe C and Timmins F. *Communication Skills for Nursing Practice*. Palgrave MacMillan, 2006.

Recommended Reading:

NSG3NTF NURSING THE FUTURE (15 CPs Sem. TE-SEM-1 AW, BE, BH, BU, HK, MI, SH, SI. TE-SEM-2 BH, HK, SI.) **AW:** Ms Ann Kuypers, **BE:** Ms Fran Sheean, **BU:** Ms Helen Forbes, **BU:** Ms Elizabeth Pascoe

In this unit, students will be assisted to focus on directions for professional development. The influence of research and evolving nursing knowledge on professional roles will be examined, and students will be introduced to frameworks for analysing selected contemporary issues and trends in health care that will shape future nursing practice. Contemporary strategies for managing the delivery of nursing care will be explored and the associated role requirements in nursing analysed. In addition, each student will have the opportunity to reflect on professional development, consider future career directions, and prepare a curriculum vitae. Pre-registration students will focus on transition to the registered nurse role and preparation of applications for graduate positions, while post-registration students will concentrate on career planning and exploration of expanded nursing roles.

Prerequisite: NSG2AUA, NSG2LEA, NSG2EBP.

Class requirements: One 2-hour lecture eight times over the semester and one 2-hour tutorial five times over the semester. This unit may have an online component.

This unit is not available for Study Abroad students.

Assessment: One 2000-word portfolio (50%), one 2000-word professional issues case study (50%).

NSG3PEO PERIOPERATIVE NURSING THEORY (15 CPs Sem. TE-SEM-1 BE, BU, TE-SEM-2 AW, BE, BU, MI, SH.) **AW:** Ms Ann Kuypers,

BU: Ms Deb Fleckner

This subject may not be offered every year.

In this unit, students are introduced to fundamental theoretical aspects of perioperative nursing, including nursing in the context of the operating room and associated environments. Content will be provided that will extend students knowledge of aspects of infection and its control in the operating suite. The students are given insight into the variety of roles of the nurse in the operating suite. The principles of surgical intervention and wound management are discussed. Information on the operating room environment, including design, and patient and staff safety will be provided. An emphasis is placed on the care of the patient in the operating suite.

Prerequisite: NSG1HAS.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week for ten weeks, one 3-hour laboratory session during the semester; plus six hours of self-directed learning activities equivalent to one hour of classroom contact per week for six weeks. This unit may be offered block mode: two consecutive 6-hour seminar days three times across the semester and six hours of self-directed learning activities equivalent to one hour of classroom contact per week for six weeks. This unit may have an online component.

This unit is not available for Study Abroad students.

Assessment: One 2000-word assignment (50%), one 2000-word portfolio (50%)

NSG3PSE PSYCHIATRIC NURSING THEORY (15 CPs Sem. TE-SEM-1 BE, TE-SEM-2 AW, BE, BU, MI, SH.) **AW:** Ms Eileen Petrie, **BE:** Ms Sue

McConnachie, **BU:** Mr Alan Robins

This unit may not be offered every year.

In this unit, students will be provided with the opportunity to build on their knowledge of mental health nursing. Students will be asked to examine the phenomena of psychiatry and psychiatric nursing from various points of view that have, as their common focus, the impact of psychiatric disorders and psychiatric health interventions on the person and groups of people.

Prerequisite: NSG1HAS, NSG2MHL

Class requirements: One 2-hour lecture and one 1-hour tutorial per week for ten weeks; one 3-hour laboratory session during the semester; plus six hours of self-directed learning activities equivalent to one hour of classroom contact per week for six weeks. This unit may be offered block mode: two consecutive 6-hour seminar days three times across the semester and six hours of self-directed learning activities equivalent to one hour of classroom contact per week for six weeks. This unit may have an online component.

This unit is not available for Study Abroad students.

Assessment: One 1000-word scenario based assessment (25%), one 2500-word participation portfolio (50%), and one 1000-word critical reasoning exercise (25%)

PHE1PHA INTRODUCTION TO PUBLIC HEALTH A (15 CPs Sem. TE-SEM-1 AW, BU, MI, SH.) **AW:** Dr TBA, **BU:** Ms Janet Carnegie, **BU:** Dr Paul

O'Halloran

Albury/Wodonga campus: available only to Bachelor of Nursing students.

Public Health practice operates at individual, social and structural levels. That is, public health knowledge is acquired from these multiple sources and public health interventions can be targeted at the individual, social, or structural level. In this unit, students will predominately address public health at the individual level. The principal aim of the unit is to provide foundation knowledge pertaining to preventive work with individuals at multiple levels in the health care system. Topics are organised into the broad groupings related to health (e.g. learning), regulatory systems (obesity, motivation and developmental) and social influences on health (development, communication processes), and personality, stress and mental health.

Incompatible unit: PHE1PHC

Class requirements: Three 1-hour lectures and one 1-hour tutorial per week.

Assessment: One 1.5-hour examination (50%), four 300-word short answer questions (20%), one 1200-word essay (20%), tutorial participation (10%).

Prescribed Reading:

McMurray A. *Community health and wellness: a socioecological approach*. 2nd edn. Marrickville, NSW.: Mosby, 2003.

Passer MW, and Smith RE. *Psychology: the science of mind and behaviour*. 3rd edn. Boston, MA: McGraw-Hill, 2007.

PHE1PHB INTRODUCTION TO PUBLIC HEALTH B (15 CPs Sem. TE-SEM-2 AW, BU, MI, SH.) AW: Ms Eileen Clark, BU: Ms Prue Bagley

In this unit students are introduced to social understandings of health and health care practice. Changing definitions of health and illness are examined, inequalities in health and health care are analysed from different sociological perspectives, and some key political and ethical issues are explored. The aim is to develop students' capacity to view current health concerns in a public health perspective and to understand how this relates with other professional practice perspectives.

Incompatible unit: PHE1PHD

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: One 1-hour examination (30%), one 2500-word tutorial assignment (40%), one 10 minute tutorial presentation (30%).

Faculty of Humanities and Social Sciences**Bachelor of Arts (BEBAP)**

The Bachelor of Arts combines a broad general education with the opportunity to sharpen your skills, broaden your horizons and work towards specific occupational or personal goals. Learn about the past, the present, and the future – about society, culture, history, politics and literature.

The following BA disciplines (also referred to as accredited majors) are offered at Shepparton:

- Sociology and Politics
- History
- Literature, Film, and Art.

Subject to regulations, quota arrangements, availability and timetable, other disciplines offered at Shepparton may be taken including:

- Accounting
- Human Resource Management
- Management
- Marketing
- Psychology.

Admission requirements

Students should satisfy the normal university entrance requirements, including a minimum score of 20 in units 3 and 4 of VCE English.

Degree requirements

To qualify for the degree of Bachelor of Arts students must satisfactorily complete a minimum of 360 credit points, with at least 120 credit points at third year level and include in their course one of the following choices:

1. A single major

A major consists of 130 credit points, including at least 60 credit points at third year level, in a discipline (or area of study) offered by the faculty, noting that majors in some disciplines must include specific units or combinations of units.

First Year

TE-SEM-1	Major	Elective	Elective	Elective
TE-SEM-2	Major	Elective	Elective	Elective

Second Year

TE-SEM-1	Major	Elective	Elective
TE-SEM-2	Major	Elective	Elective

Third Year

TE-SEM-1	Major	Major	Elective
TE-SEM-2	Major	Elective	Elective

or

2. A double major

A double major consists of 130 credit points in each of two different disciplines. This consists of 30 credit points at first year level and 40 credit points at second- year level and 60 credit points at third year level in each discipline.

First Year

TE-SEM-1	Major 1	Major 2	Elective	Elective
TE-SEM-2	Major 1	Major 2	Elective	Elective

Second Year

TE-SEM-1	Major 1	Major 2	Elective
TE-SEM-2	Major 1	Major 2	Elective

Third Year

TE-SEM-1	Major 1	Major 1	Major 2
TE-SEM-2	Major 1	Major 2	Major 2

Course regulations

One hundred and twenty credit points (60 credit points in each semester) is a full-time study load for each year level. Students require permission from the faculty to overload by taking more than 60 credit points in any teaching period. Permission is normally based on the student's previous academic record.

First year units

A minimum of 120 credit points and a maximum of 135 credit points of first year units may normally be included in the degree.

Units from other La Trobe faculties and other universities

Students may take two semester units at each year level from other La Trobe faculties or other universities.

Students may, with permission, study units from another tertiary institution in a discipline that is not available at La Trobe University.

UNIT DESCRIPTIONS

HIS1DEV GLOBALISATION: THE RISE OF THE MODERN WORLD (15

CPs Sem. TE-SEM-2 BE, BU, SH.) *Dr Robbie Robertson*

Multi-campus unit involving some delivery by video conferencing.

Globalisation is a process, much in the news, by which distant regions are increasingly linked, shaping our lives and impacting on the fate of nations. In this unit students will explore world history, by examining the process by which the wealthy countries expanded into and influenced the rest of the world. Today we think primarily in terms of industry, trade and technology; in addition in this unit we take a broader view of globalisation, including the expansion of European customs, laws and attitudes as well as technology.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: Weekly quiz (20%), one 1000-word bibliographic essay (30%), one 2000-word essay (50%).

HIS1MEA MODERN EUROPE A: FROM MONARCHIES TO NATIONS (15

CPs Sem. TE-SEM-1 BE, BU, SH.) *BU: Dr Philip Bull, BU: Dr Adrian*

Jones, BU: Dr Jennifer Ridden

In this unit, students study how the old monarchical and paternalist orders of society in Europe were transformed by ideas of liberty, democracy and nationalism. Initially the focus is upon the values and traditions of the Old Regimes. Students will then trace how these were undermined by the French and Industrial Revolutions. The impact of new ideas of rights, citizenship, nationality, democracy and equality are the focus of studies of key and contrasting episodes in the history of European nations in the nineteenth century. In these developments can be seen the roots of the political and social crises of the twentieth century.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: Essay/exercises (2000-words equivalent) (60%), one 2-hour examination (40%). Alternatively, students may choose to reverse the percentage weightings of the two assessment components.

Preliminary Reading:

HIS1REV REVOLUTIONARY EUROPE (15 CPs Sem. TE-SEM-1 BE, SH.) *BE:*

Dr Yolande Collins, SH: Dr Al Gabay

Not available in 2008

HIS2ALS AUSTRALIAN LABOUR AND THE STATE (20 CPs Sem. TE-SEM-2

BE, SH.) *Dr Charles Fahey*

This unit is offered at third year level also.

In this unit students examine the rise of the labour movement and the Australian Labor Party, taking account of factors such as the growth of industry, the great strikes of the 1890s, and the 1890s depression. Students examine the growth of state regulation in the labour movement through the introduction of wages boards and federal arbitration, and the response of conservative political parties to the growth of labour. How the experiments of the 1890s and 1900s developed over the course of the century – through booms, depressions and wars – is also examined.

Prerequisite: 30 credit points of first year history or sociology, or co-ordinator's approval.

Class requirements: One 1-hour lecture and one 2-hour workshop per week.

Assessment: One 1000-word workshop presentation (20%), 2000-word research essay (40%), one 2-hour take-home examination (40%). Third year students will be expected to display a higher level of discipline-specific skills in their written work than second year students.

HIS2BM BLOOD, GUTS AND MEDICINE: A SOCIAL HISTORY OF MEDICINE IN AUSTRALIA 1850 TO 1970 (20 CPs Sem. TE-SEM-2 BE, SH.)

Dr Yolande Collins

This unit is offered at third year level also. Not available in 2008

HIS2DC DEVELOPMENT AND CHANGE (20 CPs Sem. TE-SEM-1 BE, SH.) *Dr*

Robbie Robertson

This unit is offered at third year level also. Not available in 2008

HIS2NI NATIONALISM AND IDENTITY (20 CPs Sem. TE-SEM-1 BE, SH.) *Dr*

Robbie Robertson

This unit is offered at third year level also.

In this unit we examine the many ways that nationalism has shaped identities, and why it continues to do so. We will also look at the impact that development and globalisation have on identities, and in particular on the role both play in enabling new identities to emerge and challenge older identities (including nationalisms) that have for a long time been considered the natural order of things. Issues covered include: indigenism, cultural imperialism, globalisation, republicanism, and clashes of civilizations. Although we draw heavily on the wider Pacific region, including Australia and New Zealand, our focus is global.

Prerequisite: 30 credit points of first year History or co-ordinator's approval.

Class requirements: One 2-hour presentation and one 1-hour seminar per week.

Assessment: One 1000-word book review (20%), one 500-word research proposal (10%), one 2500-word research essay (50%), one seminar presentation (1000-words equivalent) (20%). Third year students will be expected to display a higher level of discipline-specific skills in their written work than second year students.

Prescribed Reading:

Said E. *Culture and imperialism*. Chatto and Windus, 1993.

HIS3HS HERITAGE STUDIES (20 CPs TE-SEM-2 BE, SH.) *Dr Yola Collins*

Students are taught to develop skills in the evaluation and identification of heritage places and environments, assess and document sites for conservation and gain a basic understanding of Victorian and (some) international heritage legislation. These theoretical and practical skills are then used to address issues concerning the North Central Victorian region.

Class requirements: One 1-hr lecture and one 2-hr seminar per week (includes some excursions).

Assessment: One 2500-word essay (50%), one 2.5-hour exam (50%)

Third year students will be expected to display a higher level of discipline-specific skills in their written work than second year students.

Prescribed Reading:

Pearson M and Sullivan S. *Looking After Heritage Places*. MUP, 1995.

Aplin G. *Heritage, Identification, Conservation and Management*. OUP, 2002.

HUM1CL CLASSICAL LITERATURE (15 CPs Sem. TE-SEM-1 BE, SH.) *Mr John*

Penwill

In this unit we introduce Western literature at its birth, both for the intrinsic value of the works themselves and as a foundation for understanding the seminal role of classical literature in Western consciousness. We examine issues such as the transition from non-literate song to literary epic, narrative technique, the function of myth in literature, the use and re-use of material drawn from the same myth cycle, the concept of the hero, the difference between epic and tragedy, literature and life, women in classical literature, the relationship between Greek and Roman literature, the classical sensibility and the concept of the canon.

Class requirements: Three 1-hour lectures and one 1-hour tutorial per week.

Assessment: One 1000-word assignment (25%), one 1-hour class test (25%), one 2-hour examination (50%).

Prescribed Reading:

Hecuba and Trojan Women in the Trojan Women and Other Plays, trans J. Morwood OUP World's Classics.

Seneca. *Thyestes, in Four Tragedies and Octavia* (Tr.). Watling, EF. Penguin.

Virgil. *The Aeneid*, (Tr.). C. Day Lewis OUP, World's Classics.

HUM1MM MODERN MYTH IN LITERATURE AND FILM (15 CPs Sem. TE-SEM-2 BE, SH.) *Dr Sue Gillett*

The culture of post-Renaissance Europe is examined via some of the most famous stories and heroic figures of the 17th and 19th centuries. Stories and figures of such fundamental importance to human nature that, having once been invented, they continually seek to re-invent themselves in art and thought. Study proceeds in two directions. In one direction, these stories disclose the fundamental nature of certain trends in European society over the past four centuries, while in another, they disclose their kinship with, or derivation from, ancient stories, mythical figures and modes of thought.

Class requirements: Three 1-hour lectures and one 1-hour tutorial per week.

Assessment: One 1000-word essay (25%), one 1-hour class test (25%), one 2-hour examination (50%).

Prescribed Reading:

Marlowe C. *Doctor Faustus*. OUP, World's Classics.

Shelley M. *Frankenstein*. OUP, World's Classics.

Shakespeare *The Tempest*. M Tartar (Ed.)

Stevenson RL. *Dr Jekyll and Mr Hyde*, in *Dr Jekyll and Mr Hyde, and Weir of Hermiston*. OUP, World's Classics.

HUM2ACL AUSTRALIAN AND CONTEMPORARY LITERATURE (20 CPs Sem. TE-SEM-1 BE, SH.) *Dr Sue Gillett*

This unit is offered at third year level also.

Not available in 2008

HUM2AL AMERICAN LITERATURE (20 CPs Sem. TE-SEM-2 BE, SH.) *This unit is offered at third year level also.*

Not available in 2008

HUM2RM ROMANTIC MOVEMENT (20 CPs Sem. TE-SEM-1 BE, SH.) *Dr Roger Swooner*

This unit is offered at third year level also.

In this unit we explore the origins of such modern ideas as revolution, creativity, sexual liberation, nature, history. We concentrate on the high Romantic poets – Blake, Wordsworth, Coleridge, Keats; but some attention may also be given to Romantic painting and music. Additional texts provide an introduction to Romantic theories of the imagination, Romantic Satanism, and the death of Romanticism. The theme of our study is an examination of the success or failure of Romantic art and idealism as answers to present problems.

Prerequisite: 30 credit points of first year English, or co-ordinator's approval.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: One 1500-word essay (30%), one 1.5-hour class test (30%), one 2-hour written examination (40%). Third year students will be expected to display a higher level of discipline-specific skills in their written work than second year students.

Prescribed Reading:

Bronte E. *Wuthering Heights*. Signet.

Flaubert G. *Madame Bovary*. Penguin.

Williams O (Ed.) *The Mentor book of major British poets*. (For the poems of Blake, Wordsworth, Coleridge, and Keats. Mentor.

SOC1SP1 INTRODUCTION TO SOCIOLOGY POLITICS AND CULTURE 101 (15 CPs Sem. TE-SEM-1 BE, SH.) *Mr Ian Tulloch*

In this unit students are introduced to a range of concepts, issues and perspectives for the study of society, politics and culture. The unit begins with a general overview of the processes of socialisation and social reproduction in Australian society. Key dimensions of Australian social, political and cultural life are then considered in detail. Topics covered will include class, gender, work, politics, the state, and political culture.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: One 750-word essay (10%), one 1000-word essay (25%), one 2000-word essay (45%), tutorial exercises (20%).

Prescribed Reading:

Van Krieken R et al. *Sociology: themes and perspectives*. 3rd edn. Pearson Education, 2006.

SOC1SP2 INTRODUCTION TO SOCIOLOGY POLITICS AND CULTURE 102 (15 CPs Sem. TE-SEM-2 BE, SH.) *Mr Ian Tulloch*

In this unit students are introduced to an advanced range of concepts, issues and perspectives for the study of society, politics and culture. The unit begins with a general overview of the processes of socialisation and social reproduction in Australian society. Key dimensions of Australian social, political and cultural life are then considered in detail. Topics covered will include class, gender, work, politics, the state, and political culture.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: One 750-word essay (10%), one 1000-word essay (25%), one 2000-word essay (45%), tutorial exercises (20%).

Prescribed Reading:

Van Krieken R. et al. *Sociology: themes and perspectives*. 3rd edn. Pearson Education, 2006.

SOC2CSI CONTEMPORARY SOCIAL ISSUES (20 CPs Sem. TE-SEM-1 BE, SH.) *Mr Gerry Gill*

This unit is offered at third year level also.

Not available in 2008

SOC2ER ENGENDERING REPRESENTATION (20 CPs Sem. TE-SEM-1 SH.)

Dr Sue Gillett

This unit is offered at third year level also.

The purpose of this unit is to study the ways in which literary, screen and mixed media texts engender meaning, for their readers/viewers, and within the broader networks of culture. We will explore the role played by a range of texts from popular culture in the construction, regulation and reproduction of gendered identities. In addition we will consider some textual challenges to dominant ideologies of gender and sexual identities. Topics include: fairy-tales for adults, masculinity and violence, food, femininity and body image, hysteria and melodrama, queer romance, masks of female beauty.

Prerequisite: For second year students, 30 credit points of first year sociology, or coordinator's approval, for third year students, 40 credit points of second year sociology, or coordinator's approval.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: 6000-word reflective journal (60%), 2000-word essay (40%). Third year students will be expected to display a higher level of discipline-specific skills in their written work than second year students.

Prescribed Reading:

A book of readings. La Trobe University, Bendigo. Bookshop.

SOC2KG KNOWLEDGE AND GENDER (20 CPs Sem. TE-SEM-2 SH.) *Dr Mary Jo Fortuna*

This unit is offered at third year level also.

Not available in 2008

SOC2LL LANDSCAPE AND THE HUMAN WORLD (20 CPs Sem. TE-SEM-2 BE, BU, SH.) *Mr Gerry Gill*

This unit is offered at third year level also.

In this unit, our studies are based on the areas of central Victoria, which were the estates of the Jaara and Daung Wurrung clans. Students will examine: the contrasting Indigenous and European modes of imagining and shaping this landscape; the violence and clash of values on the frontier; the transformations of the landscape by successive generations of Europeans and the traces of their failed dreams and abandoned traditions. We will focus on specific stories and places, but also undertake aesthetic, ecological and theoretical reflection on the relationship of the human world to the Earth. Students will be introduced to the specific skills of interpreting physical landscapes, totemic landscapes, rituals, archival documents and maps. In addition to academic texts, a range of landscape-inspired art, music, film and poetry will be studied.

Prerequisite: 30 credit points of first year Humanities and Social Science or coordinator's approval.

Class requirements: Bendigo: one 2-hour lecture and one 1-hour tutorial for nine weeks and two 6-hour field trips.

Bundoora and Shepparton: equivalent of fifteen hours of lectures in the form of PowerPoint presentations accessible on the web supported by a DVD of readings, short films, music and images. Two 2-day blocks with six hours of lectures and seminars on day one and a six-hour field trip on the following day.

Assessment: One 2000-word essay (40%), one field-trip notebook and skills exercises (1000-words equivalent) (20%), one 2-hour examination (40%). Third year students will be expected to display a higher level of discipline-specific skills than second year students.

Faculty of Law and Management

Bachelor of Business (LMBBP)

Admission requirements

Admission requirements are completion of units 3 and 4 of English (any) with a minimum study score of 20 and completion of units 1 and 2 of General Mathematics or Mathematical Methods. Applicants with comparable qualifications will be considered. A limited number of students may also be considered under Special Entry Schemes.

Follow the application directions for Special Entry Application Schemes provided through VTAC.

Degree requirements

Students must complete a course of units accumulating a minimum total of 360 credit points, at least 255 of which must be units offered in the School of Business. The course is designed to be completed within three years of full-time study, although part-time study is possible. Maximum course duration is ten years.

Students should undertake 120 credit points at each year level and must undertake at least 120 credit points at third year level including 90 credit points at third year level from the School of Business.

Variations to this structure must be approved by a School of Business course adviser.

The degree is designed to allow completion of two majors or one major and elective units. At least one major must be in a business discipline. A business major will consist of eight units.

Some units in the management, marketing and human resource management majors will only be offered in alternate years. All students will need to follow the enrolment schedule published on the campus website. Students who wish to complete a double major must consult a course adviser before commencing semester two studies in the first year of the course; full-time students may be required in first year to complete two designated units from their chosen majors in order to meet prerequisite requirements.

Course structure

Students must pass the compulsory and elective units listed below. All units are worth 15 credit points.

First year

Teaching period	Unit name	Unit code
TE-SEM-1	Accounting for Management Decisions	ACC1AMD
TE-SEM-1	Foundations of Management	MGT1FOM
TE-SEM-1	Microeconomics	ECO1IMI
TE-SEM-1	Management Information Systems	BUS1MIS
TE-SEM-2	Introductory Statistics for Business	ECO1ISB
TE-SEM-2	Macroeconomics	ECO1IMA
TE-SEM-2	Two compulsory units in chosen major	

Second year

Teaching period	Unit name	Unit code
TE-SEM-1	Business Law	LST1BSL
TE-SEM-1	Three compulsory units in chosen major	
or		
TE-SEM-2	Four elective units	
plus		
TE-SEM-1		
or		
TE-SEM-2		

Third year

Teaching period	Units
TE-SEM-1	Three compulsory units according to your chosen major
or	
TE-SEM-2	one elective unit
plus	
TE-SEM-1	Four elective units
or	
TE-SEM-2	

Students can major in **one** or **two** of the following:

Human Resource Management

Teaching period	Unit name	Unit code
2007	2008	
TE-SEM-2	TE-SEM-2	Human Resource Management MGT2HRM
TE-SEM-1	TE-SEM-1	Human Resource Development MGT2HRD
	TE-SEM-1	Industrial Relations ECO3IRE
TE-SEM-2	TE-SEM-2	Human Resource Information Systems MGT3HRI
	TE-SEM-2	Interpersonal Skills and Conflict Management MGT2ISC
	TE-SEM-2	Organisational Behaviour MGT2OBE
TE-SEM-2		Organisational Change and Development MGT3OCD
	TE-SEM-2	International Human Resource Management MGT3IHR

Management

Teaching period	Unit name	Unit code
2007	2008	
TE-SEM-2	TE-SEM-2	Human Resource Management MGT2HRM
TE-SEM-1		Strategic Management MGT3SMG
TE-SEM-1		International Management MGT3IMG
	TE-SEM-2	Business Ethics MGT2BET
TE-SEM-1	TE-SEM-1	Finance FIN2FIN
	TE-SEM-2	Organisational Behaviour MGT2OBE
TE-SEM-2		Organisational Change and Development MGT3OCD
TE-SEM-2		Organisational Structure and Design MGT3OSD

Marketing

Teaching period	Unit name	Unit code
2007	2008	
TE-SEM-1		Marketing Communication MKT3MCO
TE-SEM-1	TE-SEM-1	Consumer Behaviour MKT2CBE
	TE-SEM-2	Services Marketing MKT2SMA
TE-SEM-2	TE-SEM-2	Marketing Principles and Practice MKT2MPP
TE-SEM-2		Marketing Research MKT3MRE
TE-SEM-2		Strategic Marketing MKT3SMK
	TE-SEM-1	International Marketing MKT3IMK
TE-SEM-1	TE-SEM-1	Electronic Marketing * MKT3ELM

Key: * Offered online from the Albury-Wodonga campus

Professional recognition

Students who complete all of the units in the marketing major are eligible for full membership of the Australian Marketing Institute.

Honours

Honours in Business is not available at Shepparton Campus, but Shepparton students may be invited to undertake Honours at Melbourne (Bundoora). See the Faculty of Law and Management section of the *Handbook* for information on the Honours program.

Bachelor of Commerce (LMBCP)**Admission requirements**

Admission requirements are VCE units 3 and 4 of English (any) and Mathematics (any) with a minimum study score of at least 20 in each. Applicants with comparable qualifications will be considered. A limited number of students may also be considered under Special Entry Schemes. Follow the application directions for Special Entry Application Schemes provided through VTAC.

Degree requirements

Students must complete a course of units accumulating a minimum of 360 credit points, at least 285 of which must be units offered by the School of Business. The course is designed to be completed within a minimum of three years of full-time study, although part-time study is possible.

Students must undertake 120 credit points at first year level and 120 credit points at third year level, including at least 90 credit points at third year level from the School of Business.

Students are expected to complete all available first year requirements before undertaking second or third year units. Variations to this structure must be approved by a School of Business course adviser.

Course structure

Students completing the course structure listed below graduate with a major in Accounting. The course is designed to allow for an optional second major in Management (see Bachelor of Business course structure for a list of units required for the second major). Students who wish to undertake the Management major must see a course adviser at the time of enrolment for advice regarding their first year enrolment and the scheduling of units in second and third year.

All units are worth 15 credit points.

First year

Teaching period	Unit name	Unit code
TE-SEM-1	Accounting for Management Decisions	ACC1AMD
TE-SEM-1	Foundations of Management	MGT1FOM
TE-SEM-1	Microeconomics	ECO1IMI
TE-SEM-1	Management Information Systems	BUS1MIS
TE-SEM-2	Introductory Statistics for Business	ECO1ISB

TE-SEM-2	Introductory Financial Accounting	ACC1IFA
TE-SEM-2	Macroeconomics	ECO1IMA
TE-SEM-2	One second year elective unit	

Second year

Teaching period	Unit name	Unit code
TE-SEM-1	International Accounting	ACC21AC
TE-SEM-1	Business Law	LST1BSL
TE-SEM-1	Corporate Reporting	ACC2CRE
TE-SEM-1	Introductory Management Accounting	ACC2IMA

or
TE-SEM-2

Third year

Teaching period	Unit name	Unit code
TE-SEM-1	Auditing *	ACC3AUD
TE-SEM-1	One third year Accounting unit	
TE-SEM-2	Advanced Financial Accounting	ACC3AFA
TE-SEM-2	Taxation *	ACC3TAX
TE-SEM-1	Two third year School of Business elective units	

or

TE-SEM-2

TE-SEM-1

Two third year elective units

or

TE-SEM-2

Key: * See Professional Recognition requirements below

Professional recognition

Taxation and Auditing are no longer part of the accreditation requirements for CPA Australia although both are required for membership of the Institute of Chartered Accountants in Australia (ICAA). Students who do not complete the Taxation and Auditing units as part of their degree will be admitted to membership of CPA Australia, but will be required to complete studies in both areas as part of their ongoing CPA training.

Honours

Honours in Commerce is not available at Shepparton Campus, but Shepparton students may be invited to undertake Honours at Melbourne (Bundoora). See the Faculty of Law and Management section of the *Handbook* for information on the Honours program.

UNIT DESCRIPTIONS

ACC1AMD ACCOUNTING FOR MANAGEMENT DECISIONS (15 CPs Sem. TA-ACNSEM1 SY. TA-ACNSEM2 SY. TA-ACNSEMS SY. TE-SEM-1 AW, BE, BU, MI, SH. TE-SEM-2 BU. TE-SEM-S BU. TE-W13-26 NI. TE-W31-46 NI.) *Dr Liz Duncan,*

Mrs Selina Lim, Ms Kathie Stirling, Mr Petrus Usmanij,

Mrs Susan Nalder

This unit is designed to introduce undergraduate students from all disciplines to the nature of accounting and its role in business. Topics covered provide an overview of key financial and managerial accounting concepts and include: the recording of business transactions, the calculation and measurement of profit, the preparation of financial statements, the analysis and interpretation of financial statement data, cost accounting and reporting systems, and cost analysis for planning, control and decision-making.

Class requirements: Two 1-hour lecture and one 1-hour tutorial per week.

Assessment: Tutorial assessment (10%), mid-semester test (20%), one 3-hour final examination (70%). Hurdle requirement: Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject, Major assignment (30%). AW: Comprising of practical problem and report – 1000-word (equivalent), one 3-hour final examination (70%). AW: Hurdle requirement. Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass this unit.

Prescribed Reading:

Boland G. AW: *Accounting – Study Guide*.

Chambers B. AW: *Accounting Business Reporting for decision-making*.

ACC1IFA INTRODUCTORY FINANCIAL ACCOUNTING (15 CPs Sem. TA-ACNSEM1 SY. TA-ACNSEM2 SY. TE-SEM-1 AW, BU. TE-SEM-2 BE, BU, MI, SH. TE-W13-26 NI. TE-W31-46 NI.) *Mr Greg Ellis, Mr Glenn Hill, Ms Sue Nalder*

This unit introduces students to accounting information systems, which record financial events and provide information to management. The unit begins with the accounting equation, accounting cycle, accrual accounting concepts and the preparation of financial statements. Attention is then given to application of generally accepted accounting principles and selected accounting standards to specific financial elements and transactions.

Prerequisite: ACC1AMD.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: One computerised practice set (10%), one manual practice set (20%), one 3-hour final examination (70%). Hurdle requirement: Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject, one 1/2-hour take home examination (10%). AW: based on assignment tutorial questions, one 1 – hour mid semester test (20%). AW: one 3-hour final examination (70%). AW: Hurdle Requirement. Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the unit.

Prescribed Reading:

Horngren C, Harrison, Bamber, Best, Fraser, Willett. AW: *Financial Accounting*. 5th edn. Pearson Education, 2006.

ACC2CRE CORPORATE REPORTING (15 CPs Sem. TA-ACNSEM1 SY. TA-ACNSEM2 SY. TE-SEM-1 BE, BU, SH. TE-SEM-2 AW, BU, MI. TE-W13-26 NI. TE-W31-46 NI.) *Dr Liz Duncan, Mr Greg Ellis, Dr Xu-Dong Ji*

This unit covers corporate financial accounting and reporting at an intermediate level. It provides students with an understanding of the corporate reporting environment in Australia and the economic implications of accounting numbers. The unit incorporates evaluation and application of selected accounting standards, as well as the preparation of corporate group financial reports which satisfy professional and regulatory requirements.

Prerequisite: ACC1IFA.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

This unit is not available for Study Abroad students.

Assessment: One 500-word assignment (15%), one 1-hour mid-semester test (15%), one 3-hour final examination (70%). Hurdle requirement: Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject, one x 1/2 – hour mid semester test (30%). AW and SH: one 3-Hour final examination (70%). AW and SH: Hurdle requirement: Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the unit.

Prescribed Reading:

Deegan C. *Australian financial accounting*. 5th edn. McGraw-Hill/Irwin, 2007.

ACC2IMA INTRODUCTORY MANAGEMENT ACCOUNTING (15 CPs Sem. TA-ACNSEM1 SY. TA-ACNSEM2 SY. TE-SEM-1 AW, BE, BU, MI, SH. TE-SEM-2 BU. TE-W13-26 NI.) *Mr Sunil Dahanayake, Mr Greg Ellis, Ms Dianne Harvey, Dr Prem Yapa*

This unit is offered in another teaching period.

Managerial accounting provides organisations with internal financial and non-financial information required for the three functions of planning, controlling and decision-making. This unit enables students to develop an understanding of the elements of management accounting and the way in which cost information is used in undertaking these functions within the context of a modern business concern. The unit examines the nature and behaviour of product cost information and students should be able to apply their understanding of this to decision-making situations using both a quantitative and a qualitative approach.

Prerequisite: ACC1AMD.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: One tutorial presentation (10%) equivalent to 1000-words, one 3-hour final examination (70%). Hurdle requirement: Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject, one 45-minute mid-semester test (20%).

Prescribed Reading:

Langfield-Smith, Thorne and Hilton AW: *Management Accounting*. McGraw Hill.

ACC2IMB INTERMEDIATE MANAGEMENT ACCOUNTING (15 CPs Sem. TA-ACNSEM1 SY. TA-ACNSEM2 SY. TE-SEM-1 BU. TE-SEM-2 AW, BE, BU, MI, SH. TE-W31-46 NI.) *Mr Sunil Dahanayake, Ms Katherine Stirling,*

Ms Suzanne Salmon, Mr Petrus Usmanij

Intermediate Management Accounting further develops the concepts of management accounting and provides analytical methods for both short-term and long-term managerial decisions. Topics include budgeting standard costing and variance analysis, capital budgeting, inventory management, performance measurement and contemporary developments in management accounting.

Prerequisite: ACC2IMA / ACC21IMA/ACC22IMA.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: One 45-minute mid-semester test (20%), one 3-hour final examination (70%). Hurdle requirement: Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject, one 10-minute class presentation (10%).

Prescribed Reading:

Langfield-Smith K, Thorne H and Hilton RW. *Management accounting: an Australian perspective*. 4th edn. McGraw-Hill, 2006.

ACC3AFA ADVANCED FINANCIAL ACCOUNTING (15 CPs Sem. TA-ACNSEM1 SY. TA-ACNSEM2 SY. TE-SEM-1 AW, BU. TE-SEM-2 BE, BU, MI, SH. TE-W31-46 NI.) *Dr Liz Duncan, Dr Jane Hamilton, Dr Kamran Ahmed*

This unit aims to promote an understanding of some of the major contemporary issues associated with the measurement and reporting of the operating results and financial position of modern reporting entities. Topics on foreign currency transaction and translation, superannuation, financial instruments, construction contracts and other topical issues will be covered within the context of recent recommendations of the Australian accounting profession. The role of theory in accounting will also be covered.

Prerequisite: ACC2CRE.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: One 45-minute mid-semester test (30%), one 3-hour final examination (70%). Hurdle requirement: Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject, AW: and SH one 3-Hour Final Exam (70%). Hurdle requirement. Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the unit, AW: and SH: One major practical problem (30%). Involving accounting for superannuation.

ACC3AUD AUDITING (15 CPs Sem. TA-ACNSEM1 SY. TA-ACNSEM2 SY. TE-SEM-1 BE, BU, SH. TE-SEM-2 AW, BU. TE-SEM-S MI. TE-W13-26 NI.) *Ms Jane Hamilton, Ms Biserka Siladi, Mr Larry O'Connor*

This unit covers Auditing theory and practice and is designed to meet the preliminary requirements of the Institute of Chartered Accountants in Australia and CPA Australia. Auditing is designed to give students an understanding of the concepts involved in the auditing process. The unit aims to integrate these concepts with practical application including reference to appropriate accounting and auditing standards.

Prerequisite: ACC2CRE.

Class requirements: One 2-hour lectures and one 1-hour tutorial per week.

Assessment: One 3-hour final examination (70%). Hurdle requirement: Students must achieve at least 40% in the final examination as well as an overall 50% for the unit, one 1-hour mid semester test (20%), tutorial exercises/assignment, and equivalent to 500-words (10%).

BUS1MIS MANAGEMENT INFORMATION SYSTEMS (15 CPs Sem. TA-ACNSEM1 SY. TA-ACNSEM2 SY. TA-ACNSEMS SY. TE-SEM-1 AW, BE, BU, MI, SH. TE-SEM-2 BE, BU, TE-W13-26 NI. TE-W31-46 NI.) *Dr Liz Duncan, Dr John McCullagh, Mr Liam Lenten, Mrs Selena Lim*

This unit introduces students to some basic information systems (IS) ideas and concepts as IS are the key to business functions today. It will provide students with an overview of the entire IS discipline as well as a solid preparation for further study in information systems units. In addition, students will also gain an appreciation for business-related packages. This will give them a competitive edge in the job marketplace.

Incompatible unit: CSE11IS

Class requirements: Two 1-hour lectures and one 2-hour computer laboratory session/tutorial per week.

Assessment: BU: SH: NI: lab exercises (15%) equal to 500-words, online quizzes (15%) equivalent to 1000-words over the semester, one 3-hour final examination (70%). Hurdle requirement: Students must achieve at least 40% in the examination as well as an overall total of 50% to pass the unit, AW: presentation and report (15%). equivalent to 500 words, one excel spreadsheet assignment (15%). equal to 500-words, one 3-hour final exam (70%). Hurdle requirement: Students must achieve at least 40% in the examination as well as an overall total of 50% to pass the unit, BE: online quizzes (15%) equivalent to 1000-words over the semester, one practical assignment (15%) equivalent to 500-words, one 3-hour final exam (70%). Hurdle requirement: Students must achieve at least 40% in the examination as well as an overall total of 50% to pass the unit.

ECO11MA MACROECONOMICS (15 CPs Sem. TA-ACNSEM1 SY. TA-ACNSEM2 SY. TA-ACNSEMS SY. TE-SEM-1 BU, MI. TE-SEM-2 AW, BE, BU, SH. TE-W31-46 NI.)

Dr Jayanath Ananda, Mr David Reimers, Dr Jan Libich,

Dr Jayanth Ananda

Introduces students to the study of the economy as a whole and to the economic way of thinking. Topics include: national income accounting, consumption and investment demand, government spending, exports and imports, aggregate demand and supply, money and banking, fiscal and monetary policy, alternative macroeconomic theories, the balance of payments, national and foreign debt, inflation, unemployment, productivity and economic growth.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: BU, SH, NI, MI, ACN, weekly problem sets/assignment (maximum 1000 words) (15%), BU, SH, NI, MI, ACN, one 1-hour mid-semester test (15%), BU, SH, NI, MI, ACN, one 2-hour final examination (70%). Hurdle requirement: Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject, BE: in-term tests, assignments, tutorial performance (40%), BE: one 3-hour final examination (60%). Hurdle requirement: Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject, AW: in-term tests, assignments, tutorial performance (40%), AW: one 2-hour final examination (60%). Hurdle requirement: Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the unit.

Prescribed Reading:

ECO11MI MICROECONOMICS (15 CPs Sem. TA-ACNSEM1 SY. TA-ACNSEM2 SY. TA-ACNSEMS SY. TE-SEM-1 AW, BE, BU, SH. TE-SEM-2 BU, MI. TE-W01-08 NI. TE-W13-26 NI.) *Dr Lin Crase, Mr Earl Jobling, Professor Gary Magee*

Microeconomics implies a focus on the individual elements and components of an economy rather than on its aggregate nature. Students are introduced to the economic way of thinking in this context and to the broad subject matter of microeconomics. Topics include: consumer behaviour and demand, firm behaviour, costs and supply, price determination and the operation of markets, including imperfect markets. Analysis extends to the elementary theory of factor markets and distribution, the nature of the market system, and of microeconomic policy.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: BU: ACN: Nilai: in-term tests, assignments, tutorial performance (30%), one 2-hour final examination (70%). Hurdle requirement: Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject, BE: one 3-hour final examination (60%). Hurdle requirement: Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the unit, BE: in-term tests, assignments, tutorial performance (40%), AW: SH: one 2-hour final examination (60%). Hurdle requirement: Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the unit, AW: SH: weekly tutorial papers (10%), AW: SH: two 40-minute tests (30%).

Prescribed Reading:

Jackson S and McIver *AW: Microeconomics*. McGraw Hill 8th edn. Gans J, King S and Mankiw N. *Principles of microeconomics*. 3rd edn. Thomson, 2005.

ECO11SB INTRODUCTORY STATISTICS FOR BUSINESS (15 CPs Sem. TA-ACNSEM1 SY. TA-ACNSEM2 SY. TA-ACNSEMS SY. TE-SEM-1 AW, BE, BU. TE-SEM-2 AW, BE, BU, MI, SH. TE-W01-08 NI. TE-W31-46 NI.) *Dr Warren Paul, Dr Christopher Lenard, Dr Suzanne Sommer*

In this unit students consider how to communicate and interpret commercial and economic information in terms of statistical measures. The probability approach is introduced, with applications to inferential statistics and hypothesis testing using sampling distributions in the realms of economics and commerce. Simple linear regression and testing for various hypotheses in business, economics and finance is also covered.

Incompatible unit: ECO11IBS/ECO12IBS

Class requirements: Two 1-hour lectures, one 1-hour workshop, and one 1-hour tutorial per week.

This unit is not available for Study Abroad students.

Assessment: Assignments and project (15%), tutorial participation (5%), one mid-semester test (10%), one 3-hour final examination (70%). Hurdle requirement: Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject, ten 100-word tutorials (15%). Albury-Wodonga: Submitted weekly, one 2-hour examination (55%). Albury-Wodonga: Open Book exam.

Hurdle requirement: Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the unit, two 750-word assignments (30%). Albury-Wodonga: SPSS based.

Assignment 1 – Descriptive Statistics.

Assignment 2 – Inferential Statistics.

Selvanathan A. et al. *Australian Business Statistics*. 3rd edn. Nelson, 2004.

ECO3IRE INDUSTRIAL RELATIONS (15 CPs Sem. TA-ACNSEM1 SY. TA-ACNSEMS SY. TE-SEM-1 BE, BU, SH. TE-W13-26 NI.) *Mr John Griffiths, Dr Apollo Nsubuga-Kyobe*

Three inter-related areas are covered. The first is economic aspects of wages and industrial relations, the second is the sociological study of workers and managers, and the third is the major institutions of Australian industrial relations, including trade unions, employers' organisations, industrial tribunals and enterprise bargaining. Further topics include the evolution of wages policy, women at work and current controversies over the reform of the industrial relations system together with comparative insights into other countries' industrial relations systems.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: BU: ACN: tutorial assessment (15%), one 50-minute essay written in tutorial time (15%), one 2-hour final examination (70%). Hurdle requirement: Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject, SH: tutorial assessment (10%), one 2500-word report (20%), and one 2-hour final examination (70%). Hurdle requirement: Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject, BE: Nilai: one 2-hour examination (70%). Hurdle requirement: Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject, one 1500-word assignment (30%)

LST1BSL BUSINESS LAW (15 CPs Sem. TA-ACNSEM1 SY. TA-ACNSEM2 SY. TA-ACNSEMS SY. TE-SEM-1 BE, BU, MI, SH. TE-SEM-2 AW, BU, CH. TE-W31-46 NI.)

Dr Chris Chadien, Professor Vivien Goldwasser, Mr Keith Kendall, Mr Terry Reid

This unit is not available to Bachelor of Laws students as a law elective nor to students who have completed LAW21/22CNT.

This unit is offered in another semester.

Bachelor of Business Students should enrol in this subject.

In this unit students examine legal institutions and practices such as law making and interpretation of laws. The law of contract and its place in commercial law, notably the law of the sale of goods, comprise the body of the unit. Other kinds of civil liability such as fault liability are compared. Students examine the economic and political factors, which have influenced the development of this law and assess the impact of the law on business and industrial activity.

Incompatible unit: LAW21/22CNT, LST11/12LCC, LST11/12IBL

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: One 1500-word essay (30%), one 3-hour examination (70%). Students must achieve at least a mark of 40% for the final examination.

Prescribed Reading:

Ciro T and Goldwasser VR. *Casebook TBA Law and Business*. 2nd edn. OUP, 2006.

LST2LBA LAW OF BUSINESS ASSOCIATION (15 CPs Sem. TA-ACNSEM1 SY. TA-ACNSEM2 SY. TE-SEM-1 AW. TE-SEM-2 BE, BU, MI, SH. TE-W31-46 NI.) *Dr Chris Chadien, Mr David Wishart*

This unit is offered at third level also. Not available to Bachelor of Laws students as a law elective

In this unit students deal with the key features of the legislation and cases which govern the formation and regulation of business associations (particularly corporations) and the operation of securities markets in Australia. There is an explanation of how these laws operate on the economy and society and on persons and institutions within society, along with how persons and institutions may best utilise these laws. Students completing the unit should be able to apply rules and principles extracted from the legislation and cases to resolve disputes arising from the operations and functioning of business associations and the workings of securities markets.

Prerequisite: Completion of LST11/12LCC or LST11/12IBL or LST11/12BSL.

Incompatible unit: LST12LBA, LAW41COR

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: 1000-word assignment (20%), 3-hour open book examination (70%), tutor's assessment (10%). AW: 500-word assignment.

Prescribed Reading:

Butterworths or CCH *Australian corporations legislation*. current edn. LBC, Butterworths or CCH.

Government Acts. *Partnership act reprint*. Victorian Government Printing Office, 2006.

LST2THL TOURISM AND HOSPITALITY LAW (15 CPs Sem. TE-SEM-2 BE, BU, SH.) *BE: Dr Chris Chadien, BU: Ms Michelle Harper*

Not available to Bachelor of Laws students as a law elective

Students will be introduced to the legal process and the institutions of Australia's legal system. There will be an emphasis on those aspects of law most relevant to small business in the Tourism and Hospitality industries. Topics include the law of contract, bailment, agency, business organisations, insurance, employment, torts, food, liquor and gaming. In addition, students will examine recent case law on the responsible service of alcohol and gaming

Incompatible unit: LST11/12LCC or LST11/12IBL or LST1BSL

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: (a) One 1500-word assignment (25%) and one 2-hour examination (75%) or (b) one 3-hour examination (100%) (100%). Students may choose between the two assessment options: (a) is 25% and 75% and (b) is 100%.

MGT1FOM FOUNDATIONS OF MANAGEMENT (15 CPs Sem. TA-ACNSEM1 SY. TA-ACNSEM2 SY. TA-ACNSEMS SY. TE-SEM-1 BU, SH. TE-SEM-2 AW, BE, BU, MI. TE-W01-08 NI. TE-W13-26 NI.) *Dr Sue O'Keefe, Dr John Pacher, Ms Nicola McNeil, Mr Jeremy Seward*

This unit provides an introduction to the management of organisations, and aims to provide an understanding of the fundamental concepts and relevant issues relating to management in the modern business environment, with a particular emphasis placed upon Australia and the Asia Pacific Region. The relationship between management practices and organisational performance will be explored within the context of both individual and organisational outcomes.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: One 30-minute class test (10%), one 1200-word literature review (20%), and one 3-hour final examination (70%). Hurdle requirement: Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject, AW: one 30-minute test (10%), AW: one 1200-word literature review (20%), AW: tutorial exercises (10%), AW: one 2-hour final examination (60%). Hurdle requirement: Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the unit.

MGT2HRD HUMAN RESOURCE DEVELOPMENT (15 CPs Sem. TA-ACNSEM1 SY. TA-ACNSEMS SY. TE-SEM-1 BE, BU, SH. TE-W13-26 NI.) *Ms Cindy Taylor, Dr Tim Bartram, Dr Apollo Nsubuga-Kyobe*

This unit available at Shepparton campus in 2007

The unit introduces students to the theory and practice of human resource development of people in the workplace and assists students in developing some basic skills which practising professionals use in their craft. Topics include behaviourist and cognitive theories of learning, with particular emphasis regarding the learning of adults (a systems approach to training incorporating training needs analysis, development of learning outcomes, design, delivery and evaluation of training), the key issues and approaches to management development, organisational learning and unstructured learning in the work place, the vocational training system with particular reference to the implementation of the National Training System, plus other current issues impacting on human resource development.

Prerequisite: MGT2HRM.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: One 2000-word essay (30%), one 2-hour final examination (70%). Hurdle requirement: Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject

Prescribed Reading:

MGT2HRM HUMAN RESOURCE MANAGEMENT (15 CPs Sem. TA-ACNSEM1 SY. TA-ACNSEM2 SY. TA-ACNSEMS SY. TE-SEM-1 AW, BE, BU. TE-SEM-2 BU, MI, SH, VI. TE-W31-46 NI.) *Dr Sue O'Keefe, Dr John Pacher, Dr Darcy McCormack, Dr Apollo Nsubuga-Kyobe*

The unit explores the operational and strategic issues of managing staff in the workplace. It examines the challenges facing human resource managers in contemporary Australian organisations and seeks to develop an understanding of human resource management practices in our continually changing social, economic, industrial relations and organisational environments.

Prerequisite: MGT1FOM.

Class requirements: Onshore students: one 2-hour lecture and one 1-hour tutorial per week

Offshore students: This unit is offered as a three or four-month distance education program. Students are provided with text and study guide, and are supported by email, telephone and web.

Assessment: Tutorial participation (5%), one 20-minute individual presentation (10%), one 1200-word essay (15%), one 2-hour final examination (70%). Hurdle requirement: Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject, BE: one 2000-word assignment (30%), BE: one 2.5-hour final examination (70%). Hurdle requirement: Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the unit.

MGT2ISC INTERPERSONAL SKILLS AND CONFLICT MANAGEMENT (15 CPs Sem. TA-ACNSEM2 SY. TE-SEM-2 BE, BU, SH. TE-SEM-S BU. TE-W31-46 NI.)

Dr John Pacher, Dr Lynne Leveson

This unit integrates material from the disciplines of communication and organisational behaviour. It brings together theoretical models, empirical research, and practice on various aspects of interpersonal communication (such as, nonverbal behaviour, assertion, listening skills and conflict resolution), and their relationship to conflict – personally and in context of the workplace. In tutorials the emphasis is placed on group and experiential work. At an individual level, students will be encouraged to develop self-awareness of their own interpersonal styles and the skills necessary to develop effective working relationships.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: One 15-minute presentation (10%), one 1500-word assignment (20%), one 2-hour final examination (70%). Hurdle requirement: Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject, BE: 2000-word assignment (30%) BE: one 2.5-hour final examination (70%). Hurdle requirement: Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the unit

MGT2OBE ORGANISATIONAL BEHAVIOUR (15 CPs Sem. TA-ACNSEM1 SY. TA-ACNSEM2 SY. TA-ACNSEMS SY. TE-SEM-1 AW, BE, BU, MI. TE-SEM-2 BU, SH. TE-W13-26 NI.) *Dr Sue O'Keefe, Mr Max Mollard, Dr Nick Djurkovic, Dr George Sansbury, Dr Apollo Nsubuga-Kyobe*

Organisational behaviour aims at understanding the management of people at work in order to improve an organisation's effectiveness. It is a multidisciplinary examination of what people do in organisations and has four levels of analysis: Individual, group, organisation and culture. This unit explores all four levels of analysis and emphasises the psychological aspects of organisational behaviour.

Prerequisite: MGT1FOM.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: One 1500-word essay (20%), one 2-hour final examination (70%). Hurdle requirement: Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject, one class presentation (10%). equivalent to 1000-words, BE: one 2000-word essay (30%), BE: one 2-hour final examination (60%), submission of sample examination answers (equivalent to 200 words) (10%), AW: one 1500-word essay (25%), AW: one 2-hour final examination (60%). Hurdle requirement: Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the unit, AW: weekly tutorial exercises (15%)

MGT3HRI HUMAN RESOURCE INFORMATION SYSTEMS (15 CPs Sem. TE-SEM-2 BE, BU, SH. TE-W31-46 NI.) *Professor David Brown*

The unit introduces students to the theory and practice of human resource information systems. Human resource information is central to the strategic planning and running of organisations, and the collection and use of human resource information is seen to be a potential source of added value to the organisation. This unit focuses on organisational human resource (HR) functions and how human resource information systems (HRIS) can be developed to support HR activities. While the unit content views the relationship between HR and HRIS using models from socio-technical theory, the primary emphasis is on the collection of HR information, data interpretation and communication of this information to management.

Prerequisite: MGT2HRM.

Class requirements: One 2-hour lecture per week and one 2-hour lab class per fortnight.

Assessment: Two written reports totalling 2500 words (30%), one 2-hour final examination (70%). Hurdle requirement: Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject.

Preliminary Reading:

MGT3HRP HRM PRACTICUM (15 CPs Sem. TE-SEM-2 BU, SH.)

Ms Joan Baber

Not available in 2008

MGT3IHR INTERNATIONAL HUMAN RESOURCE MANAGEMENT (15 CPs Sem. TA-ACNSEM1 SY. TA-ACNSEMS SY. TE-SEM-1 FR. TE-SEM-2 BE, BU, FR, SH. TE-W31-46 NI.) *Dr Timothy Bartram, Dr Apollo Nsubuga-Kyobe*

In this unit students' understanding of the theories of human resource management will be extended to incorporate the international dimension. This perspective underlies each of the topics to be examined. These will include the organisational context, international recruitment and selection, performance management, training and development, compensation, repatriation and labour relations. Underlying themes will be drawn and likely future challenges predicted.

Prerequisite: MGT2HRM.

Class requirements: Onshore students: one 2-hour lecture and one 1-hour tutorial per week

Offshore students: France – This unit is offered as a semester-long online program, with email, telephone and chat room support provided by staff.

Assessment: One 10-minute seminar presentation (10%), one 2000-word essay (20%), one 2-hour final examination (70%). Hurdle requirement: Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject

MGT3IMG INTERNATIONAL MANAGEMENT (15 CPs Sem. TA-ACNSEM1 SY. TA-ACNSEMS SY. TE-SEM-1 BU, SH. TE-W01-08 NI. TE-W13-26 NI.)

Dr Terri Joiner

Globalisation stemming from reduced trade barriers, technological advancements, and the proliferation of multinational organisations has changed the nature of business management today. Successful international managers increasingly need a global mindset to understand and succeed in this rapidly changing business environment. This course primarily focuses on developing students' understanding of national cultural differences and how these differences influence management practice. Topics include the meanings and dimensions of culture, intercultural communication, motivation and leadership across cultures, comparative organisational design, and managing ethical and social responsibility in multinational companies.

Prerequisite: MGT1FOM.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: One 750-word essay (10%), one group presentation (20%). 10 minutes per member, plus a 2-page summary, one 2-hour final examination (70%). Hurdle requirement: Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject.

MGT3OCD ORGANISATIONAL CHANGE AND DEVELOPMENT (15 CPs Sem. TA-ACNSEM2 SY. TE-SEM-1 VI. TE-SEM-2 BE, BU, MI, SH. TE-W01-08 NI. TE-W31-46 NI.) *Dr Rosaria Burchielli, Dr Apollo Nsubuga-Kyobe*

For the past decade or so, organisations have been subjected to enormous change. One of the major challenges facing managers (and consultants) in this climate is how to achieve greater organisational effectiveness, including increased financial performance as well as improved quality of work life. This unit attempts to address this question by examining the process (contracting, diagnoses, intervention strategies and change management) and practice (strategic, technological, structural and human resources) of organisation development.

Prerequisite: MGT1FOM.

Class requirements: One 2-hour lecture per week and one 2-hour tutorial per fortnight.

Assessment: One 5-minute class presentation (10%) based on analysis of specific readings, one 1500-word assignment (20%), and one 2-hour final examination (70%). Hurdle requirement: Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject.

Prescribed Reading:

Graetz F, Rimmer M, Lawrence A, and Smith A. *Managing organisational change*. John Wiley and Sons, 2006

MGT3OSD ORGANISATIONAL STRUCTURE AND DESIGN (15 CPs Sem. TA-ACNSEM1 SY. TA-ACNSEMS SY. TE-SEM-2 BU, SH. TE-W01-08 NI. TE-W31-46 NI.) *Dr Terri Joiner*

Organisation theory, the essence of this unit, is a discipline that examines the structure and design on organisations in the pursuit of (improved) organisational effectiveness. Theoretical models, academic research and current business practice are used to provide the basis for understanding organisational phenomena, analysing problems, and responding with well-formulated solutions. Case studies are used throughout as a means of illustrating the application of organisational theory principles. Case studies also provide a means whereby students can improve their analytical skills and learn to deal with some level of uncertainty and ambiguity in their work.

Prerequisite: MGT11FOM/MGT12FOM/MGT13FOM is strongly recommended.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: SH: BU: two 300-word workbook assignments (10%), one 20-minute case study presentation (20%), and one 2-hour final examination (70%). Hurdle requirement: Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the unit, ACN: Nilai: Hanoi: three 600-word workbook assignments (30%), one 2-hour final examination (70%). Hurdle requirement: Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the unit.

Prescribed Reading:

Daft R. *Organisation theory and design*. 9th edn. South Western, 2007.

MGT3SMG STRATEGIC MANAGEMENT (15 CPs Sem. TA-ACNSEM2 SY. TE-SEM-1 BU, CH, MI, SH. TE-SEM-2 BE. TE-W01-15 FR. TE-W13-26 NI. TE-W48-09 FR.) *Dr Findlay Johnston, Dr Rosaria Burchielli*

Strategic management focuses on the underlying determinants of business success. It dwells on the techniques applied by top management to gain competitive advantage, and the patterns of decisions and actions taken to guide the firm in competitive environments. Key topics in strategic management include industry and competitor analysis, generic strategies, core competency, manufacturing competitiveness, diversification and integration, international business strategy, organisational structure and controls, and re-engineering. Students of strategic management will apply concepts in strategic management to the solution of the problems presented in case studies involving real firms.

Prerequisite: MGT1FOM.

Class requirements: Onshore students: one 2-hour lecture and one 1-hour tutorial per week

Offshore students: China – This unit is offered as a five-month program of study in conjunction with Jiangsu University of Science and Technology. Lecture support by staff from the Bendigo campus covers 30 hours of this period. France – This unit is offered as a semester-long online program, with email, telephone and chat room support provided by staff.

Assessment: One 5-minute class presentation (10%) based on analysis of specific readings, one 1500-word assignment (20%), and one 2-hour final examination (70%). Hurdle requirement: Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject.

Prescribed Reading:

Hanson D. et al. *Strategic management: competitiveness and globalisation*. Pacific Rim edn. South Melbourne: Nelson/Thomson Learning, c2005.

MKT2CBE CONSUMER BEHAVIOUR (15 CPs Sem. TA-ACNSEM1 SY. TA-ACNSEM2 SY. TA-ACNSEMS SY. TE-SEM-1 BE, BU, SH, VI. TE-SEM-2 AW. TE-W13-26 NI. TE-W16-29 SI.) *Dr Lin Crase, Dr Wenbin Guo, Dr Clare D'Souza*

This unit provides an understanding of the role of consumer behaviour in development of the total marketing mix. The contribution of psychological and social knowledge relevant to both consumer and organisational marketing is evaluated, with an emphasis on practical skills of analysis and the writing of effective positioning statements.

Prerequisite: MKT2MPP or THS2IMT.

Incompatible unit: MKT32CBC

Class requirements: Onshore students: two 1-hour lectures and one 1-hour tutorial.

Offshore students: This unit is offered as a three or four month distance education program. Students are provided with text and study guide, and are supported by email, telephone and web.

Assessment: One 1-hour mid-semester multiple choice test (15%), one 2000-word assignment (15%), one 2-hour final examination (70%). Hurdle requirement: Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject.

Prescribed Reading:

Blackwell and D'Souza et al. *Consumer Behaviour*. Melbourne: Thompson Learning, 2007.

MKT2MPP MARKETING PRINCIPLES AND PRACTICE (15 CPs Sem. TA-ACNSEM1 SY. TA-ACNSEM2 SY. TA-ACNSEMS SY. TE-SEM-1 AW, BU, MI. TE-SEM-2 BE, BU, SH. TE-W31-46 NI.) *Mr Peter Lamb, Dr Marthin Nanere, Dr Outi Niininen, Ms Elaine Plant*

This is an introductory unit to marketing principles and practice as applied to mainly fast moving consumer goods. The unit is designed to give you a broad understanding of the formal discipline of marketing and of the key marketing activities in business. Topics cover the marketing concept, the marketing environment, buying behaviour in consumer and organisational markets, customer segmentation, targeting and positioning, developing the marketing mix (product, price, promotion and distribution) and the implementation and control of marketing programs. As a prerequisite to further study in marketing, it is intended to provide a sound foundation upon which more advanced skills and applications can be built.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: BU: ACN: one team oral presentation (5%), one individual assignment/test (10%) equivalent to a 1000-word assignment, one group assignment (15%) 1500-words per student, one 2-hour final examination (70%). Hurdle requirement: Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject, WO: tutorial exercises and case studies totalling 500-words (10%), one group assignment (40%). 1500-words per student, one 2-hour final examination (50%). Hurdle requirement: Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject, BE: one 3-hour examination (70%). Hurdle requirement: Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject, BE: one 1500-word case assignment (30%).

MKT2SMA SERVICES MARKETING (15 CPs Sem. TA-ACNSEM2 SY. TE-SEM-1 VI. TE-SEM-2 BE, BU, SH. TE-W28-41 OS.) *Professor Rhett Walker, Dr Sandra Gountas*

Service industries are rapidly emerging as the most dominant force in most world economies, including Australia. In developed economies up to 70% of the labour force, 75% of the GNP and 45% of an average family's budget are accounted for by services. Services (both commercial and not-for-profit) possess several unique characteristics that require a distinctive approach to marketing strategy—both in its development and in execution. This unit expands upon and adapts the marketing management concepts covered in the unit 'Marketing Principles and Practice'. Topics include: how to improve service quality, increase and maintain customer satisfaction levels, generate customer loyalty and create a healthy service culture within the firm.

Prerequisite: MKT2MPP or THS2IMT.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: BE: one 1500-word major assignment (30%), BE: one 3-hour final examination (70%). Hurdle requirement: Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the unit, tutorial test (20%), one 6000-word team research project (20%). 1500-words per student

Students will be working in groups of four, one 2-hour final examination (60%). Hurdle requirement: Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject.

Prescribed Reading:

Fisk R, Gountas S, Hume M and Gountas J. *Services Marketing*. Australia: Wiley, 2007.
BE: Lovelock C. *Services marketing – Australia and New Zealand*. 4th edn. Prentice Hall.

MKT3IMK INTERNATIONAL MARKETING (15 CPs Sem. TA-ACNSEM1 SY. TA-ACNSEMS SY. TE-SEM-1 FR, SH, TE-SEM-2 AW, BE, BU, FR. TE-SEM-S AW. TE-W31-46 NI.) *Mr Peter Lamb, Dr Wenbing Guo, Dr Clare D'Souza*

This unit focuses on the nature of the international marketplace and the problems and decisions facing managers of international marketing. It is comprehensive and practical covering marketing goods and services across national boundaries, as well as within different national markets. Major topic areas covered are the international marketing imperative, analysis of foreign environments, development of international marketing strategies and the implementation of marketing programs across different nations and within nations.

Prerequisite: MKT2MPP OR THS2THM OR THS2IMT.

Class requirements: Onshore students: one 2-hour lecture and one 1-hour tutorial per week

Offshore students: France – This unit is offered as a semester-long online program, with email, telephone and chat room support provided by staff.

Assessment: Class participation (10%) AW: one 20-minute seminar presentation (10%). AW: one 1-hour mid-semester test (10%), one 2000-word individual assignment (20%), one 2-hour final examination (70%). Hurdle requirement: Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject, one group assignment (30%). AW: 1000-words per student, one 2-hour final examination (50%). AW: Hurdle requirement: Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass this unit.

Prescribed Reading:

Cateora P, Taghian M, Mort G, Weerawardena J, D'Souza C and John Graham. *International Marketing: an Asia-Pacific approach*. Melbourne: McGraw-Hill, 2008.

MKT3MCO MARKETING COMMUNICATION (15 CPs Sem. TA-ACNSEM2 SY. TE-SEM-1 BE, BU, SH. TE-W13-26 NI.) *Professor Rhett Walker, Mr Roman Peretiatko, Ms Elaine Plant*

An understanding of the role of integrated marketing communications in the total marketing mix is provided, with the particular roles of advertising, public relations, personal selling, sales promotion, direct marketing and Internet marketing being explored and evaluated. Emphasis is placed on the practical skills of writing advertising briefs and marketing communications plans, as well as understanding the key strategic issues involved in their development.

Prerequisite: MKT2MPP or THS2IMT, MKT2CBE.

Class requirements: BU: one 2-hour lecture and one 1-hour tutorial

BE: two 1-hour lectures and one 1-hour tutorial

Offshore students: This unit is offered as a three-month distance education program. Students are provided with text and study guide, and are supported by email, telephone and web.

Assessment: BU: one 1-hour mid-semester test (10%), BU: one 4000-word group project and presentation (20%) approximately 1000 words per student, BU: one 2-hour final examination (70%). Hurdle requirement: Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject, BE: one 2-hour final examination (70%). Hurdle requirement: Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the unit, BE: one 1-hour mid-semester multiple-choice test (10%) BE: one 2500-word assignment (20%).

MKT3MRE MARKETING RESEARCH (15 CPs Sem. TA-ACNSEM1 SY. TA-ACNSEMS SY. TE-SEM-1 BE. TE-SEM-2 AW, BU, SH, VI. TE-W13-26 NI.)

Dr Marthin Nanere, Professor Geoffrey Crouch

Business managers request, assess, purchase and use marketing research to make a wide number of informed decisions. To be able to do this competently, they need to know what marketing research can provide, what research methods are appropriate for different types of problems, and how results should be interpreted. The aim of this unit is to give you the knowledge and skills, as either a future business manager or a marketing research practitioner, to make intelligent decisions in your specification, evaluation, and application of marketing research.

Prerequisite: MKT2MPP or THS2IMT and either ECO1ISB or ECO1IBS (or equivalent first year statistics unit)

Recommended Prior Studies: Incompatible unit: MKT2MRB

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: One 1500-word major case study assignment (30%), one 3-hour final examination (70%). Hurdle requirement: Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject.

Prescribed Reading:

MKT3SMK STRATEGIC MARKETING (15 CPs Sem. TA-ACNSEM2 SY. TE-SEM-2 AW, BU, SH, VI. TE-W31-46 NI.) *Mr Peter Lamb, Dr John Gountas*

This unit available at Shepparton campus in 2007

This is the final unit in the marketing major sequence. The unit provides a comprehensive and practical understanding of strategic management of the marketing process in a competitive environment. A central focus is the preparation of a marketing plan for a specific product or service and/or alternatively, a detailed marketing audit. Skills of strategy formulation, implementation and control, as well as reporting and presentation of marketing initiatives are developed in this unit. A review of advanced issues in marketing, including the current state of the discipline, is a further focus.

Prerequisite: MKT2MPP.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: One 1-hour mid-semester test (10%), one group project equivalent to 1500-words per student (20%), one 2-hour final examination (70%). Hurdle requirement: Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the subject, AW: class participation (8%), AW: one 20-minute group presentation (12%), AW: one group assignment (30%). 1000-words per student, AW: one 2-Hour final examination (50%). Hurdle requirement: Students must achieve at least 40% in the final examination as well as an overall total of 50% to pass the unit.

LST3LBA LAW OF BUSINESS ASSOCIATION (15 CPs Sem. TA-ACNSEM1 SY. TA-ACNSEM2 SY. TE-SEM-1 AW. TE-SEM-2 BE, BU, MI, SH. TE-W31-46 NI.)

Dr Chris Chadien, Mr David Wishart

See LST2LBA for full unit description.

Index by Campus, Discipline and Faculty

Undergraduate Courses Offered by the University

Faculties, Schools, Departments, Campuses

There are five multi-campus Faculties at La Trobe University:

Faculty of Education
Faculty of Health Sciences
Faculty of Humanities and Social Sciences
Faculty of Law and Management
Faculty of Science, Technology and Engineering.

Within the Faculties are a range of Schools and some Schools are further divided into Departments or Programs. The regional campuses are Albury-Wodonga, Beechworth, Bendigo, Mildura and Shepparton.

Courses listed under the Faculty of Education, Faculty of Health Sciences, Faculty of Humanities and Social Sciences, Faculty of Law and Management, and Faculty of Science, Technology and Engineering are available at Melbourne (Bundoora) and in some cases are available on multiple campuses. Courses available at regional campuses are listed according to each campus of offer (see regional campus chapters). Some regional campuses currently offer only the initial years of some undergraduate courses or course streams. Students are urged to check carefully the availability of courses and be aware of the possibility of needing to transfer to another campus to complete their degree. For most undergraduate courses an honours year is available. Enquiries should be made to School or Faculty offices.

Undergraduate Courses by Campus

ALBURY-WODONGA CAMPUS

Advanced Diploma in Nursing (HDIANW)	526
Bachelor of Agricultural Science (SBASW)	563
Bachelor of Arts (HUSBAW)	543
Bachelor of Biological Sciences (STBBSW)	563
Bachelor of Business (ECBBW)	552
Bachelor of Business (Hospitality Management) (LBBHM)	553
Bachelor of Chemical Sciences (SBCHSW)	563
Bachelor of Commerce (LBCW)	552
Bachelor of Educational Studies (EDBEW)	522
Bachelor of Human Services (HBHSVW)	523
Bachelor of Nursing (Division 2 Conversion) (HSBNCW)	527
Bachelor of Nursing (Honours) (HSHNW)	527
Bachelor of Nursing (Post-registration) (HSBNW)	527
Bachelor of Nursing (Pre-registration) (HBNPRW)	526
Bachelor of Psychological Science (BVBSW)	564
Bachelor of Science (STBSW)	562
Bachelor of Science in Environmental Management and Ecology (SBSEME)	562
Bachelor of Science/Bachelor of Science Education (STBSSW)	522
Bachelor of Science/Bachelor of Science Education (STBSSW)	565
Bachelor of Social Work (Advanced Standing) (HBSWAW)	524
Bachelor of Social Work (Honours)/Bachelor of Human Services (H2HSWW)	526
Bachelor of Social Work (HSBSWW)	524
Bachelor of Social Work with Honours (HSHSWW)	525
Bachelor of Social Work/Bachelor of Human Services (HZSWHW)	525

BENDIGO CAMPUS

Advanced Diploma in Nursing (HDIANW)	621
Bachelor of Agricultural Science (SBASB)	699
Bachelor of Applied Science (Honours) (RHAS)	710
Bachelor of Applied Science (RBAS)	698
Bachelor of Applied Science/Bachelor of Business (RZASB)	705
Bachelor of Applied Science/Bachelor of Computing (RZASC)	705
Bachelor of Arts (Honours) (Nature Tourism) (RHANT)	594
Bachelor of Arts (Honours) (Outdoor Education) (RHAOE)	594
Bachelor of Arts (Honours) (RHA)	651
Bachelor of Arts (Natural Resources Education) (EBNRE)	590

Bachelor of Arts (Nature Tourism) (RBANT)	591
Bachelor of Arts (Outdoor Education) (RBAOE)	591
Bachelor of Arts (Outdoor Environmental Education) (EBOEE)	592
Bachelor of Arts (Outdoor Recreation Education) (EBORE)	593
Bachelor of Arts (RBA)	649
Bachelor of Business – Montpellier (RBBMO)	675
Bachelor of Business (Honours) (RHB)	681
Bachelor of Business (RBB)	673
Bachelor of Business (Tourism and Hospitality) (RBBTH)	675
Bachelor of Business/Bachelor of Information Technology (RZBC)	676
Bachelor of Business/Bachelor of Information Technology (RZBC)	706
Bachelor of Chemical Sciences (RBSCS)	700
Bachelor of Civil Engineering (RBE)	700
Bachelor of Civil Engineering/Bachelor of Applied Science (RZASE)	708
Bachelor of Civil Engineering/Bachelor of Business (RZBE)	676
Bachelor of Civil Engineering/Bachelor of Business (RZBE)	706
Bachelor of Civil Engineering/Bachelor of Science (RZCES)	707
Bachelor of Commerce (Honours) (LHCB)	681
Bachelor of Commerce (LBCB)	675
Bachelor of Commerce/Bachelor of Information Technology (SZCITB)	707
Bachelor of Education (RBED)	586
Bachelor of Education (RBEDM)	586
Bachelor of Education with Honours (RBED)	594
Bachelor of Educational Studies (RBES)	588
Bachelor of Engineering (Civil) with Honours (RHE)	710
Bachelor of Graphic Design (Honours) (RHVAGD)	654
Bachelor of Graphic Design (RBVAGD)	653
Bachelor of Health Sciences in Dentistry/Master of Dentistry (HZHSDS)	615
Bachelor of Human Services (HBHSVB)	615
Bachelor of Information Technology (Computer Networks) (RBITCN)	701
Bachelor of Information Technology (Information Systems) (RBITIS)	702
Bachelor of Information Technology (Professional) (SBITL)	703
Bachelor of Information Technology (RBC)	701
Bachelor of Information Technology (Software Development) (RBITSB)	703
Bachelor of Information Technology/Bachelor of Commerce (SZITCB)	676
Bachelor of Laws/Bachelor of Arts (LZLAB)	676
Bachelor of Laws/Bachelor of Business (LZLBB)	678
Bachelor of Laws/Bachelor of Science (LZLSB)	680
Bachelor of Nursing (Advanced Standing), Division 3 Conversion, 1 Year Program (BEBNAS)	623
Bachelor of Nursing (Division 2 Conversion) 2 year Program (BEBND2)	622
Bachelor of Nursing (Honours) (RHN)	622
Bachelor of Nursing (Honours) (RHN)	623
Bachelor of Nursing (Post-registration) (RBNP)	621
Bachelor of Nursing (Pre-registration) (RBN)	621
Bachelor of Nursing Science (RBNS)	623
Bachelor of Nursing/Bachelor of Public Health (RZNPH)	624
Bachelor of Oral Health Science (HBOHSB)	616
Bachelor of Pharmacy (RBP)	704
Bachelor of Pharmacy with Honours (RHP)	710
Bachelor of Physical and Health Education (EBPHEB)	589
Bachelor of Physical and Outdoor Education (EBPOEB)	589
Bachelor of Physiotherapy (HBPHBE)	616
Bachelor of Psychological Science (RBBS)	704
Bachelor of Public Health (Honours) (RHPPH)	620

Bachelor of Mathematical and Statistical Science (SBMSS)	431
Bachelor of Media Studies (ABMS)	230
Bachelor of Media Studies/Bachelor of Asian Studies (AZMSAS)	234
Bachelor of Medical Science (SBMS)	432
Bachelor of Medicinal Chemistry (SBMC)	433
Bachelor of Nanotechnology/Bachelor of Science (SZNTS)	455
Bachelor of Nursing (Division 2 Conversion) (HSBNC)	152
Bachelor of Nursing (Graduate Entry Program) (HBNPRG)	151
Bachelor of Nursing (Honours) (HHN)	151
Bachelor of Nursing (post-registration) (HBNP)	152
Bachelor of Nursing (pre-registration) (HBN)	151
Bachelor of Nursing Science (HBNS)	153
Bachelor of Nursing/Bachelor of Midwifery (HZNM)	153
Bachelor of Occupational Therapy (HBOT)	131
Bachelor of Occupational Therapy/Bachelor of Ergonomics, Safety and Health (HZOTBE)	134
Bachelor of Occupational Therapy/Bachelor of Psychological Science (HZOTBB)	132
Bachelor of Occupational Therapy/Bachelor of Psychological Science (HZOTBB)	456
Bachelor of Orthoptic and Ophthalmic Sciences (HBOOS)	135
Bachelor of Pastoral Care (Graduate Entry) (HBPC)	150
Bachelor of Physiotherapy (HBPH)	135
Bachelor of Physiotherapy/Bachelor of Ergonomics (HBPD)	138
Bachelor of Prosthetics and Orthotics (HBPO)	139
Bachelor of Psychological Science (SBBS)	433
Bachelor of Science (Honours)/Bachelor of Electronic Engineering (SZSEE)	457
Bachelor of Science (SBS)	411
Bachelor of Science with a specialisation in Environmental Science	411
Bachelor of Science with a specialisation in Space Science	412
Bachelor of Science with a specialisation in Statistics	412
Bachelor of Science with a specialisation in Viticulture	413
Bachelor of Science/Bachelor of Commerce (SZSC)	456
Bachelor of Science/Bachelor of Science Education (SZSSE)	102
Bachelor of Science/Bachelor of Science Education (SZSSE)	458
Bachelor of Social Sciences (ABSS)	231
Bachelor of Social Work (Advanced Standing) (HBSWAS)	140
Bachelor of Social Work (HBSW)	139
Bachelor of Social Work (Honours)/Bachelor of Human Services (H2HSW)	141
Bachelor of Social Work with Honours (HSHSW)	141
Bachelor of Social Work/Bachelor of Human Services (HZSWH)	140
Bachelor of Software Engineering (SBSE)	434
Bachelor of Space Science (SBSS)	435
Bachelor of Speech Pathology (HBSP)	141
Bachelor of Viticultural Science (STBVS)	436
Bachelor of Viticultural Science and Wine Production (SBVSWP)	436
Diploma in Languages (ADIL)	232
Science Double Degree Program (SZSS)	437

MILDURA CAMPUS

Bachelor of Arts (HUSBAM)	759
Bachelor of Business (RBBM)	769
Bachelor of Commerce (LBCM)	770
Bachelor of Education (RBEDM)	742
Bachelor of Graphic Design (BEBVAGM)	761
Bachelor of Nursing (Division 2 Conversion) (HBNCM)	750
Bachelor of Nursing (pre-registration) (HBNM)	749
Bachelor of Social Work (Advanced Standing) (HBSWSM)	749
Bachelor of Social Work (Pathway Program)	749
Bachelor of Visual Arts (BEBVAM)	760

SHEPPARTON CAMPUS

Bachelor of Arts (BEBAP)	788
Bachelor of Business (LMBBP)	791
Bachelor of Commerce (LMBCP)	792
Bachelor of Nursing (Division 2 Conversion) (HSBNC)	781
Bachelor of Nursing (pre-registration) (HBNUP)	781

Undergraduate Courses by Discipline**ARTS, COMMUNICATION AND EDUCATION**

Bachelor of Archaeology	224
Bachelor of Arts	223
Bachelor of Arts (Honours) (Nature Tourism)	103
Bachelor of Arts (Honours) (Outdoor Education)	103
Bachelor of Arts (Natural Resources Education)	98
Bachelor of Arts (Nature Tourism)	99
Bachelor of Arts (Outdoor Education)	99
Bachelor of Arts (Outdoor Environmental Education)	100
Bachelor of Arts (Outdoor Recreation Education)	101
Bachelor of Arts in Contemporary European Studies	225
Bachelor of Arts with Honours	224
Bachelor of Arts/Bachelor of Arts Education	101
Bachelor of Arts/Bachelor of Arts Education	233
Bachelor of Arts/Bachelor of Commerce	233
Bachelor of Arts/Bachelor of Economics	233
Bachelor of Arts/Bachelor of Health Sciences	234
Bachelor of Arts/Bachelor of Science	234
Bachelor of Asian Studies	226
Bachelor of Creative Arts	227
Bachelor of Education with Honours	103
Bachelor of Education	94
Bachelor of Educational Studies	96
Bachelor of International Development	227
Bachelor of International Relations	228
Bachelor of Journalism	229
Bachelor of Legal Studies	230
Bachelor of Media Studies	230
Bachelor of Media Studies/Bachelor of Asian Studies	234
Bachelor of Physical and Health Education	97
Bachelor of Physical and Outdoor Education	98
Bachelor of Science/Bachelor of Science Education	102
Bachelor of Social Sciences	231
Diploma in Languages	232

BUSINESS, HOSPITALITY, TOURISM AND SPORT MANAGEMENT

Bachelor of Arts/Bachelor of Commerce	348
Bachelor of Arts/Bachelor of Economics	349
Bachelor of Business (Sport and Leisure Management)	393
Bachelor of Business (Tourism and Hospitality)	394
Bachelor of Business (Tourism Management)	394
Bachelor of Business Honours	344
Bachelor of Business	343
Bachelor of Business/Bachelor of Asian Studies	349
Bachelor of Commerce	345
Bachelor of Commerce Honours	345
Bachelor of Commerce/Bachelor of Economics	350
Bachelor of Commerce/Bachelor of Finance	351
Bachelor of Economics	346
Bachelor of Economics Honours	346
Bachelor of Finance	347
Bachelor of Finance Honours	347
Bachelor of International Business Honours	348
Bachelor of International Business	347
Bachelor of Laws/Bachelor of Business	374
Bachelor of Laws/Bachelor of Commerce	375
Bachelor of Laws/Bachelor of Economics	376
Bachelor of Laws/Bachelor of Finance	377

COMPUTING AND ENGINEERING

Bachelor of Business/Bachelor of Computing	441
Bachelor of Civil Engineering	428
Bachelor of Civil Engineering/Bachelor of Applied Science	442
Bachelor of Civil Engineering/Bachelor of Science	442
Bachelor of Cognitive Science/Bachelor of Computer Science	442
Bachelor of Computer Network Engineering	419
Bachelor of Computer Science (Honours)/Bachelor of Electronic Engineering	444
Bachelor of Computer Science	420
Bachelor of Computer Science/Bachelor of Commerce	443

Bachelor of Computer Science/Bachelor of Mathematical and Statistical Science	445
Bachelor of Computer Science/Bachelor of Science	446
Bachelor of Computer Systems Engineering	423
Bachelor of Computer Technology	424
Bachelor of Electronic Engineering	426
Bachelor of Electronic Engineering/Master of Biomedical Engineering	447
Bachelor of Electronic Engineering/Master of Microelectronic Engineering	448
Bachelor of Electronic Engineering/Master of Telecommunication Engineering	449
Bachelor of Electronic Technology	427
Bachelor of Engineering (Civil)/Bachelor of Business	450
Bachelor of Information Systems	430
Bachelor of Information Systems/Bachelor of Business	453
Bachelor of Information Technology (Computer Networks)	431
Bachelor of Information Technology (Information Systems)	431
Bachelor of Information Technology (Professional)	431
Bachelor of Information Technology (Software Development)	431
Bachelor of Information Technology	431
Bachelor of Information Technology/Bachelor of Commerce	455
Bachelor of Laws/Bachelor of Electronic Engineering	455
Bachelor of Laws/Bachelor of Information Systems	455
Bachelor of Software Engineering	434

HEALTH SCIENCES AND SOCIAL WORK

Advanced Diploma in Nursing	152
Bachelor of Arts with a sequence in Deaf Studies	130
Bachelor of Health Information Management	142
Bachelor of Health Information Management/Bachelor of Health Sciences	143
Bachelor of Health Sciences	144
Bachelor of Health Sciences/Bachelor of Business	146
Bachelor of Health Sciences/Bachelor of Commerce	146
Bachelor of Health Sciences/Bachelor of Economics	147
Bachelor of Health Sciences/Bachelor of International Development	148
Bachelor of Health Sciences/Bachelor of International Relations	149
Bachelor of Health Sciences/Bachelor of Media Studies	149
Bachelor of Health Sciences/Bachelor of Pastoral Care	148
Bachelor of Human Services	131
Bachelor of Nursing (Division 2 Conversion)	152
Bachelor of Nursing (Graduate Entry Program)	151
Bachelor of Nursing (Honours)	151
Bachelor of Nursing (post-registration)	152
Bachelor of Nursing (pre-registration)	151
Bachelor of Nursing Science	153
Bachelor of Nursing/Bachelor of Midwifery	153
Bachelor of Occupational Therapy	131
Bachelor of Occupational Therapy/Bachelor of Ergonomics, Safety and Health	134
Bachelor of Occupational Therapy/Bachelor of Psychological Science	132
Bachelor of Orthoptic and Ophthalmic Sciences	135
Bachelor of Pastoral Care (Graduate Entry)	150
Bachelor of Physiotherapy	135
Bachelor of Physiotherapy/Bachelor of Ergonomics	137
Bachelor of Podiatry	138
Bachelor of Prosthetics and Orthotics	139
Bachelor of Social Work (Advanced Standing)	140
Bachelor of Social Work (Honours)/Bachelor of Human Services	141
Bachelor of Social Work with Honours	141
Bachelor of Social Work	139
Bachelor of Social Work/Bachelor of Human Services	140
Bachelor of Speech Pathology	141

LAW AND LEGAL STUDIES

Bachelor of Laws (Graduate Entry)	372
Bachelor of Laws (Undergraduate Entry)	373
Bachelor of Laws/Bachelor of Arts	374
Bachelor of Laws/Bachelor of Business	374
Bachelor of Laws/Bachelor of Commerce	375
Bachelor of Laws/Bachelor of Economics	376
Bachelor of Laws/Bachelor of Finance	377
Bachelor of Laws/Bachelor of International Relations	378
Bachelor of Laws/Bachelor of Media Studies	379
Bachelor of Laws/Bachelor of Psychological Science	380
Bachelor of Laws/Bachelor of Science	381

SCIENCES AND PSYCHOLOGY

Bachelor of Agricultural Science	413
Bachelor of Agricultural Science	413
Bachelor of Agricultural Science	413
Bachelor of Agricultural Science/Bachelor of Business	437
Bachelor of Agricultural Science/Bachelor of International Development	439

Bachelor of Animal and Veterinary Biosciences	414	Bachelor of Health Sciences/Bachelor of Economics – Melbourne (Bundoora) (HZHSE)	147
Bachelor of Applied Science	411	Bachelor of Health Sciences/Bachelor of International Development – Melbourne (Bundoora) (HZHSDS)	148
Bachelor of Applied Science/Bachelor of Business	440	Bachelor of Health Sciences/Bachelor of International Relations – Melbourne (Bundoora) (HZHSIR)	149
Bachelor of Applied Science/Bachelor of Computing	440	Bachelor of Health Sciences/Bachelor of Media Studies – Melbourne (Bundoora) (HZHSMS)	149
Bachelor of Arts/Bachelor of Science	440	Bachelor of Health Sciences/Bachelor of Pastoral Care – Melbourne (Bundoora) (HZHSPC)	148
Bachelor of Bioinformatics/Bachelor of Science	441	Bachelor of Human Services – Albury-Wodonga (HBHSWV); Bendigo (HBHSVB); Melbourne (Bundoora) (HBHSV)	131
Bachelor of Biological Sciences	415	Bachelor of Nursing (Division 2 Conversion) – Melbourne (Bundoora) (HSBNC), Albury-Wodonga (HSBNCW), Bendigo (BEBND2), Mildura (HBNCM), Shepparton (HBNPC)	152
Bachelor of Biological Sciences	417	Bachelor of Nursing (Graduate Entry Program) – Melbourne (Bundoora) (HBNPRG)	151
Bachelor of Biotechnology and Cell Biology	418	Bachelor of Nursing (Honours) – Melbourne (Bundoora) (HHN), Bendigo (RHN), Albury-Wodonga (HSHNW)	151
Bachelor of Chemical Sciences	419	Bachelor of Nursing (post-registration) – Albury-Wodonga (HSBNW), Bendigo (RBNP), Melbourne (Bundoora) (HBNP)	152
Bachelor of Cognitive Science/Bachelor of Computer Science	442	Bachelor of Nursing (pre-registration) – Albury-Wodonga (HBNPRW), Bendigo (RBN), Melbourne (Bundoora) (HBN), Mildura (HBNM)	153
Bachelor of Conservation Biology and Ecology	425	Bachelor of Nursing Science – Bendigo (RBNS), Melbourne (Bundoora) (HBNS)	153
Bachelor of Environmental Science	428	Bachelor of Nursing/Bachelor of Midwifery – Melbourne (Bundoora) (HZNM)	131
Bachelor of Environmental Science/Bachelor of Biological Sciences	450	Bachelor of Occupational Therapy – Melbourne (Bundoora) (HBOT)	134
Bachelor of Finance/Bachelor of Mathematical and Statistical Science	452	Bachelor of Occupational Therapy/Bachelor of Ergonomics, Safety and Health – Melbourne (Bundoora) (HZOTBE)	132
Bachelor of Finance/Bachelor of Science	453	Bachelor of Occupational Therapy/Bachelor of Psychological Science – Melbourne (Bundoora) (HZOTBB)	135
Bachelor of Human Nutrition	429	Bachelor of Orthoptic and Ophthalmic Sciences – Melbourne (Bundoora) (HBOOS)	150
Bachelor of Laws/Bachelor of Psychological Science	455	Bachelor of Pastoral Care (Graduate Entry) – Melbourne (Bundoora) (HBPC)	135
Bachelor of Laws/Bachelor of Science	455	Bachelor of Physiotherapy – Bendigo (HBPHBE), Melbourne (Bundoora) (HBPH)	137
Bachelor of Mathematical and Statistical Science	431	Bachelor of Physiotherapy/Bachelor of Ergonomics – Melbourne (Bundoora) (HZPHE)	138
Bachelor of Medical Science	432	Bachelor of Podiatry – Melbourne (Bundoora) (HBPD)	139
Bachelor of Medicinal Chemistry	433	Bachelor of Prosthetics and Orthotics – Melbourne (Bundoora) (HBPO)	139
Bachelor of Nanotechnology/Bachelor of Science	455	Bachelor of Social Work – Albury-Wodonga (HSBSWW), Bendigo (RBSW), Melbourne (Bundoora) (HBSW)	140
Bachelor of Occupational Therapy/Bachelor of Psychological Science	456	Bachelor of Social Work (Advanced Standing) – Albury-Wodonga (HSBSAW), Bendigo (RBSWBE), Melbourne (Bundoora) (HSBSWAS), Mildura (HSBSWM)	141
Bachelor of Pharmacy	433	Bachelor of Social Work (Honours)/Bachelor of Human Services – Albury-Wodonga (H2HSWW), Bendigo (H2HSWB), Melbourne (Bundoora) (H2HSW)	141
Bachelor of Psychological Science	433	Bachelor of Social Work with Honours – Albury-Wodonga (HSHSWW), Bendigo (RHSW), Melbourne (Bundoora) (HSHSW)	141
Bachelor of Science (Honours)/Bachelor of Electronic Engineering	457	Bachelor of Social Work/Bachelor of Human Services – Albury-Wodonga (HZSWHW), Bendigo (HZSWHB), Melbourne (Bundoora) (HZSWH)	141
Bachelor of Science in Environmental Management and Ecology	434	Bachelor of Speech Pathology – Melbourne (Bundoora) (HBSP)	151
Bachelor of Science with a specialisation in Environmental Science	411	Shepparton (HBNUP)	151
Bachelor of Science with a specialisation in Space Science	412		
Bachelor of Science with a specialisation in Statistics	412		
Bachelor of Science with a specialisation in Viticulture	413		
Bachelor of Science	411		
Bachelor of Science/Bachelor of Commerce	456		
Bachelor of Science/Bachelor of Science Education	458		
Bachelor of Software Engineering	434		
Bachelor of Space Science	435		
Bachelor of Viticultural Science and Wine Production	436		
Bachelor of Viticultural Science	436		
Science Double Degree Program	437		

VISUAL ART AND DESIGN

Bachelor of Graphic Design	653
Bachelor of Graphic Design (Honours)	654
Bachelor of Visual Arts	652
Bachelor of Visual Arts (Honours)	654

Undergraduate Courses by Faculty

FACULTY OF EDUCATION

Bachelor of Arts (Honours) (Nature Tourism) – Bendigo (RHANT)	103
Bachelor of Arts (Honours) (Outdoor Education) – Bendigo (RHAOE)	103
Bachelor of Arts (Natural Resources Education) – Bendigo (EBNRE)	98
Bachelor of Arts (Nature Tourism) – Bendigo (RBANT)	99
Bachelor of Arts (Outdoor Education) – Bendigo (RBAOE)	99
Bachelor of Arts (Outdoor Environmental Education) – Bendigo (EBOEE)	100
Bachelor of Arts (Outdoor Recreation Education) – Bendigo (EBORE)	101
Bachelor of Arts/Bachelor of Arts Education – Melbourne (Bundoora) (AZAAE)	101
Bachelor of Education – Bendigo (RBED)	94
Bachelor of Education – Mildura (RBEDM)	94
Bachelor of Education with Honours – Bendigo (RBED)	103
Bachelor of Educational Studies – Albury-Wodonga (EDBEW), Bendigo (RBES), Bundoora (ABES)	96
Bachelor of Physical and Health Education – Bendigo (EBPHEB)	97
Bachelor of Physical and Outdoor Education – Bendigo (EBPOEB)	98
Bachelor of Science/Bachelor of Science Education – Bendigo (SZSSEB), Melbourne (Bundoora) (SZSSE), Albury-Wodonga (STBSSW)	102

FACULTY OF HEALTH SCIENCES

Advanced Diploma in Nursing – Melbourne (Bundoora) (HDIAN), Bendigo (RDN), Albury-Wodonga (HDIANW)	152
Bachelor of Arts with a sequence in Deaf Studies – Melbourne (Bundoora) (ABA)	130
Bachelor of Health Information Management – Melbourne (Bundoora) (HBHIM)	142
Bachelor of Health Information Management/Bachelor of Health Sciences – Melbourne (Bundoora) (HZHIHS)	143
Bachelor of Health Sciences – Melbourne (Bundoora) (HBHS)	144
Bachelor of Health Sciences/Bachelor of Business – Melbourne (Bundoora) (HZHSB)	146
Bachelor of Health Sciences/Bachelor of Commerce – Melbourne (Bundoora) (HZHSC)	146

FACULTY OF HUMANITIES AND SOCIAL SCIENCES

Bachelor of Archaeology (ABAR) – Melbourne (Bundoora)	224
Bachelor of Arts (ABA) – Melbourne (Bundoora)	223
Bachelor of Arts in Contemporary European Studies (ABACE) – Melbourne (Bundoora)	225
Bachelor of Arts with Honours (AHA) – Melbourne (Bundoora)	224
Bachelor of Arts/Bachelor of Arts Education (AZAAE) – Melbourne (Bundoora)	233
Bachelor of Arts/Bachelor of Commerce (LZAC)	233
Bachelor of Arts/Bachelor of Economics (LZAE)	233
Bachelor of Arts/Bachelor of Health Sciences (AZAHS) – Melbourne (Bundoora)	234
Bachelor of Arts/Bachelor of Science (SZAS)	234
Bachelor of Asian Studies (ABAS) – Melbourne (Bundoora)	226
Bachelor of Creative Arts (ABCA) – Melbourne (Bundoora)	227
Bachelor of International Development (ABID) – Melbourne (Bundoora)	227
Bachelor of International Relations (ABIR) – Melbourne (Bundoora)	228
Bachelor of Journalism (ABJ) – Melbourne (Bundoora)	229
Bachelor of Legal Studies (LBSL) – Melbourne (Bundoora)	230
Bachelor of Media Studies (ABMS) – Melbourne (Bundoora)	230
Bachelor of Media Studies/Bachelor of Asian Studies (AZMSAS) – Melbourne (Bundoora)	234
Bachelor of Social Sciences (ABSS) – Melbourne (Bundoora)	231
Diploma in Languages (ADIL) – Melbourne (Bundoora)	232

FACULTY OF LAW AND MANAGEMENT

Bachelor of Arts/Bachelor of Commerce (LZAC)	348
Bachelor of Arts/Bachelor of Economics (LZAE)	349
Bachelor of Business (LBB)	343
Bachelor of Business (Sport and Leisure Management) – Bundoora (LBBSL)	393
Bachelor of Business (Tourism and Hospitality) – Bundoora (LBPTH)	394
Bachelor of Business (Tourism Management) (LBBTM)	394
Bachelor of Business Honours (LHB)	344
Bachelor of Business/Bachelor of Asian Studies (LZBAS)	349

Bachelor of Commerce (LBC)	345	Bachelor of Information Technology (Computer Networks) (RBITCN) – Bendigo	431
Bachelor of Commerce Honours (LHC)	345	Bachelor of Information Technology (Information Systems) (RBITIS) – Bendigo	431
Bachelor of Commerce/Bachelor of Economics (LZCE)	350	Bachelor of Information Technology (Professional) (SBITL) – Bendigo	431
Bachelor of Commerce/Bachelor of Finance	351	Bachelor of Information Technology (RBC) – Bendigo	431
Bachelor of Economics (LBE)	346	Bachelor of Information Technology (Software Development) (RBITSD) – Bendigo	431
Bachelor of Economics Honours (LHE)	346	Bachelor of Information Technology/Bachelor of Commerce (SZCITB) – Bendigo	455
Bachelor of Finance (LBF)	347	Bachelor of Laws/Bachelor of Electronic Engineering (LZLEE) – Melbourne (Bundoora)	455
Bachelor of Finance Honours (LHF)	347	Bachelor of Laws/Bachelor of Information Systems (LZLIS) – Melbourne (Bundoora)	455
Bachelor of International Business – LBIB	347	Bachelor of Laws/Bachelor of Psychological Science (LZLBS) – Melbourne (Bundoora)	455
Bachelor of International Business Honours (LHIB)	348	Bachelor of Laws/Bachelor of Science (LZLS) – Melbourne (Bundoora)	455
Bachelor of Laws (Graduate Entry) (LBLE)	372	Bachelor of Mathematical and Statistical Science (SBMSS) – Melbourne (Bundoora)	431
Bachelor of Laws (Undergraduate Entry) (LBL)	373	Bachelor of Medical Science (SBMS) – Melbourne (Bundoora)	432
Bachelor of Laws/Bachelor of Arts (LZLA) – Melbourne (Bundoora)	374	Bachelor of Medicinal Chemistry (SBMC) – Melbourne (Bundoora)	433
Bachelor of Laws/Bachelor of Business (LZLB) – Melbourne (Bundoora)	374	Bachelor of Nanotechnology/Bachelor of Science (SZNTS) – Melbourne (Bundoora)	455
Bachelor of Laws/Bachelor of Commerce (LZLC)	375	Bachelor of Occupational Therapy/Bachelor of Psychological Science (HZOTBB)	
Bachelor of Laws/Bachelor of Economics (LZLE)	376	– Melbourne (Bundoora)	456
Bachelor of Laws/Bachelor of Finance (LZLF)	377	Bachelor of Pharmacy (RBP) – Bendigo	433
Bachelor of Laws/Bachelor of International Relations (LZLIR)	378	Bachelor of Psychological Science (BVBBSW) – Albury-Wodonga	433
Bachelor of Laws/Bachelor of Media Studies (LZLMS)	379	Bachelor of Psychological Science (RBBS) – Bendigo	433
Bachelor of Laws/Bachelor of Psychological Science (LZLBS)	380	Bachelor of Psychological Science (SBBS) – Melbourne (Bundoora)	433
Bachelor of Laws/Bachelor of Science (LZLS) – Melbourne (Bundoora)	381	Bachelor of Science (Honours)/Bachelor of Electronic Engineering (SZSEE)	
FACULTY OF SCIENCE, TECHNOLOGY AND ENGINEERING		– Melbourne (Bundoora)	457
Bachelor of Agricultural Science (SBAS) – Melbourne (Bundoora)	413	Bachelor of Science (SBS) – Melbourne (Bundoora)	411
Bachelor of Agricultural Science (SBASB) – Bendigo	413	Bachelor of Science (SBSB) – Bendigo	411
Bachelor of Agricultural Science (SBASW) – Albury-Wodonga	413	Bachelor of Science (STBSW) – Albury-Wodonga	411
Bachelor of Agricultural Science/Bachelor of Business (SZASB) – Melbourne (Bundoora)	437	Bachelor of Science in Environmental Management and Ecology (SBSEME)	
Bachelor of Agricultural Science/Bachelor of International Development (SZASID) – Melbourne (Bundoora)	439	– Albury-Wodonga	434
Bachelor of Animal and Veterinary Biosciences (SBANS) – Melbourne (Bundoora)	414	Bachelor of Science with a specialisation in Environmental Science	411
Bachelor of Applied Science (RBAS) – Bendigo	411	Bachelor of Science with a specialisation in Space Science	412
Bachelor of Applied Science/Bachelor of Business (RZASB) – Bendigo	440	Bachelor of Science with a specialisation in Statistics	412
Bachelor of Applied Science/Bachelor of Computing (RZASC) – Bendigo	440	Bachelor of Science with a specialisation in Viticulture	413
Bachelor of Arts/Bachelor of Science (SZAS) – Melbourne (Bundoora)	440	Bachelor of Science/Bachelor of Commerce (SZSC) – Melbourne (Bundoora)	456
Bachelor of Bioinformatics/Bachelor of Science (SZBS) – Melbourne (Bundoora)	441	Bachelor of Science/Bachelor of Commerce (SZSCB) – Bendigo	456
Bachelor of Biological Sciences (Advanced Science) (SBBAS) – Melbourne (Bundoora)	417	Bachelor of Science/Bachelor of Science Education (STBSSW) – Albury-Wodonga	458
Bachelor of Biological Sciences (SBBIS) – Melbourne (Bundoora)	415	Bachelor of Science/Bachelor of Science Education (SZSSE) – Melbourne (Bundoora)	458
Bachelor of Biological Sciences (STBBSW) – Albury-Wodonga	415	Bachelor of Science/Bachelor of Science Education (SZSSEB) – Bendigo	458
Bachelor of Biotechnology and Cell Biology (SBBBCB) – Melbourne (Bundoora)	418	Bachelor of Software Engineering (SBSE) – Melbourne (Bundoora)	434
Bachelor of Business/Bachelor of Computing (RZBC) – Bendigo	441	Bachelor of Space Science (SBSS) – Melbourne (Bundoora)	435
Bachelor of Chemical Sciences (RBSCS) – Bendigo	419	Bachelor of Viticultural Science (STBVS) – Melbourne (Bundoora)	436
Bachelor of Chemical Sciences (SBCHS) – Melbourne (Bundoora)	419	Bachelor of Viticultural Science and Wine Production (SBVSWP) – Melbourne (Bundoora)	436
Bachelor of Chemical Sciences (SBCHSW) – Albury-Wodonga	419	Science Double Degree Program (SZSS) – Melbourne (Bundoora)	437
Bachelor of Civil Engineering (RBE) – Bendigo	428	Science Double Degree Program (SZSSB) – Bendigo	437
Bachelor of Civil Engineering/Bachelor of Applied Science (RZASE) – Bendigo	442		
Bachelor of Civil Engineering/Bachelor of Science (RZCES) – Bendigo	442		
Bachelor of Cognitive Science/Bachelor of Computer Science (SZCSCS)			
– Melbourne (Bundoora)	442		
Bachelor of Computer Network Engineering (SBCNE) – Melbourne (Bundoora)	419		
Bachelor of Computer Science (Honours)/Bachelor of Electronic Engineering (SZCSEE) – Melbourne (Bundoora)	444		
Bachelor of Computer Science (SBCS) – Melbourne (Bundoora)	420		
Bachelor of Computer Science/Bachelor of Commerce (SZCSC)			
– Melbourne (Bundoora)	443		
Bachelor of Computer Science/Bachelor of Mathematical and Statistical Science (SZCSMS) – Melbourne (Bundoora)	445		
Bachelor of Computer Science/Bachelor of Science (SZCSS) – Melbourne (Bundoora)	446		
Bachelor of Computer Systems Engineering (SBCSE) – Melbourne (Bundoora)	423		
Bachelor of Computer Technology (SBCT) – Melbourne (Bundoora)	424		
Bachelor of Conservation Biology and Ecology (SBCBE) – Melbourne (Bundoora)	425		
Bachelor of Electronic Engineering (SBEE) – Melbourne (Bundoora)	426		
Bachelor of Electronic Engineering/Master of Biomedical Engineering (SZEEBE)			
– Melbourne (Bundoora)	447		
Bachelor of Electronic Engineering/Master of Microelectronic Engineering (SZEEME)			
– Melbourne (Bundoora)	448		
Bachelor of Electronic Engineering/Master of Telecommunication Engineering (SZEEET) – Melbourne (Bundoora)	449		
Bachelor of Electronic Technology (SBET) – Melbourne (Bundoora)	427		
Bachelor of Engineering (Civil)/Bachelor of Business (RZBE) – Bendigo	450		
Bachelor of Environmental Science (SBES) – Melbourne (Bundoora)	428		
Bachelor of Environmental Science/Bachelor of Biological Sciences (SZESBS)			
– Melbourne (Bundoora)	450		
Bachelor of Finance/Bachelor of Mathematical and Statistical Science (SZFMS)			
– Melbourne (Bundoora)	452		
Bachelor of Finance/Bachelor of Science (SZFS) – Melbourne (Bundoora)	453		
Bachelor of Human Nutrition (SBNS) – Melbourne (Bundoora)	429		
Bachelor of Information Systems (SBIS) – Melbourne (Bundoora)	430		
Bachelor of Information Systems/Bachelor of Business (SZISB)			
– Melbourne (Bundoora)	453		

Index of Units by Unit Code

Emergency Contact Details

Metropolitan Campuses

Melbourne (Bundoora)

In the case of a serious emergency, where an Ambulance, Fire Brigade, or other special response is needed, please call Extension 2222 or telephone 9479 2222 or freecall 1 800 800 613. This will put you directly in contact with the Security Control Centre. This centre dispatches all Police, Fire, Emergency Medical, and other emergency response personnel.

Melbourne (City)

For all Campus Emergencies please dial 100.

If no answer dial 0 000 and ask for the Emergency Service required.

Regional Campuses

Albury-Wodonga

For all Campus Emergency and Security issues dial 8222, or mobile 0418 459 324 (24 hour service).

For all Buildings and Grounds issues, dial mobile 0427 006 339 or 0427 432 571.

If no answer dial 0 000 and ask for the Emergency Service required.

Beechworth

From a phone on campus:

Security – Extension 6000

Facilities Officer - Extension 6006

External calls:

5720 8000

0418 174416

If no answer dial 0 000 and ask for the Emergency Service required.

Bendigo

For all Campus Emergencies dial Extension 7999 (24 hour service).

If no answer dial 0 000 and ask for the Emergency Service required.

Mildura

From a phone on campus dial Extension 4099 (9am-5pm), or call Security on 5022 7855 (24 hours).

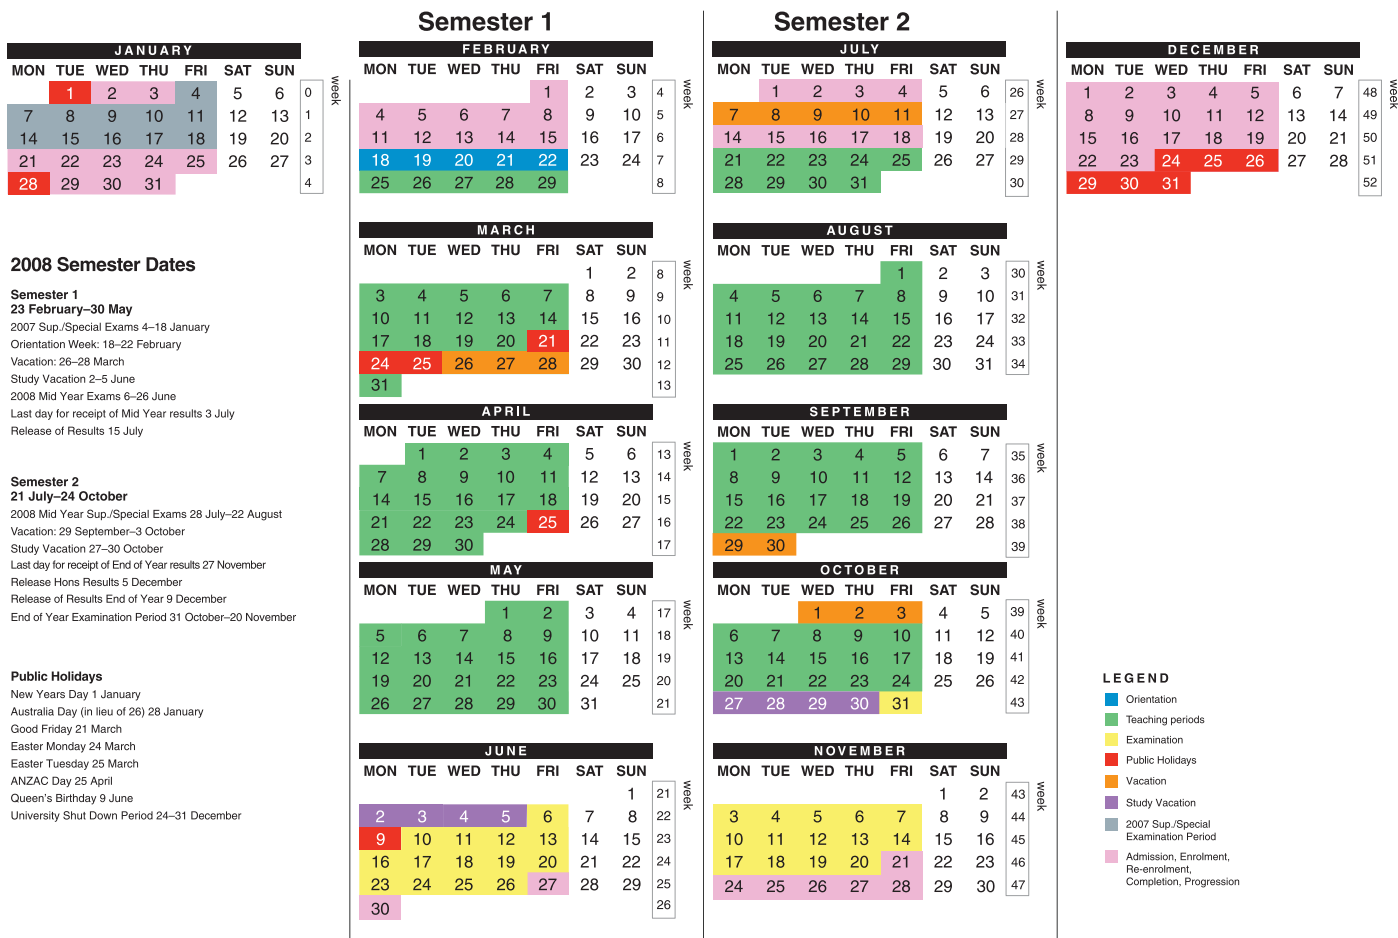

If no answer dial 0 000 and ask for the Emergency Service required.

Shepparton

For all Campus Emergencies, dial Extension 2683 or Extension 2666.

If no answer dial 0 000 and ask for the Emergency Service required.
