Campuses of La Trobe University

Metropolitan Campuses

The main campus of the University is located at Melbourne (Bundoora).

Melbourne (Bundoora)

Location: Plenty Road, Bundoora
Postal address: La Trobe University, Victoria 3086
Tel: (03) 9479 1111
Web: www.latrobe.edu.au/bundoora

Melbourne (City)

Location: 215 Franklin Street, Melbourne, Vic 3000
Tel: (03) 9285 5100
Web: www.latrobe.edu.au/city

Regional Campuses

Albury-Wodonga

Location: University Drive, Wodonga
Postal address: La Trobe University, Albury-Wodonga Campus
PO Box 821, Wodonga, Vic 3689
Tel: (02) 6024 9700
Web: www.latrobe.edu.au/aw

Beechworth

Location: Albert Road, Beechworth
Postal address: La Trobe University, Beechworth Campus
PO Box 474, Beechworth, Vic 3747
Tel: (03) 5720 8000
Web: www.latrobe.edu.au/beeceworth

Bendigo

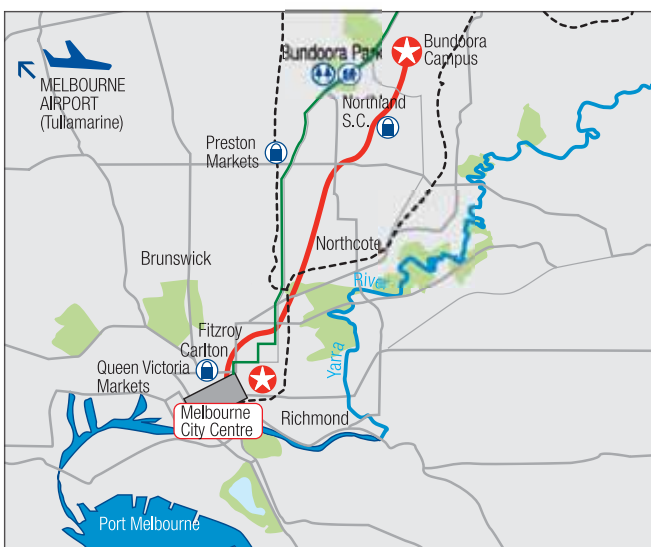

Location: Edwards Road, Flora Hill, Bendigo
Postal address: La Trobe University, Bendigo Campus
PO Box 199, Bendigo, Vic 3552
Tel: (03) 5444 7222
Web: www.latrobe.edu.au/bendigo

Mildura

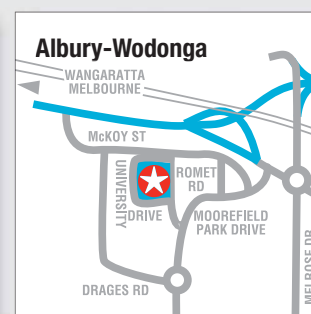

Location: Benetook Avenue, Mildura
Postal address: La Trobe University, Mildura Campus
PO Box 4095, Mildura, Vic 3502
Tel: (03) 5051 4000
Web: www.latrobe.edu.au/mildura

Shepparton

Location: 127 Welsford Street, Shepparton
Postal address: La Trobe University, Shepparton Campus
PO Box 6044, Shepparton, Vic 3632
Tel: (03) 5821 8450
Web: www.latrobe.edu.au/shepparton

Important Notices

IMPORTANT NOTICE TO ALL STUDENTS

The Important Notices section of this *Handbook* contains vital information. You should make yourself familiar with this, as the University will assume you have read this material. While every effort is made to provide full and accurate information in this *Handbook* at the time of publication, it may contain inadvertent errors. The University does not give any warranties in relation to the accuracy and completeness of the contents. No responsibility will be taken for any loss incurred as a result of reliance on information in the *Handbook*.

The availability of units and courses listed in this *Handbook* is conditional on the availability of staff and other resources. While every effort is made to provide the units and courses offered, no absolute guarantee of the structure or manner of teaching or availability is implied in the listing of a unit or course for this or any subsequent year. The University reserves the right not to offer any unit for which the number of enrolments or the resources available are insufficient and it reserves the right to restrict the number of enrolments in any unit.

This *Handbook* is also available on the Web at www.latrobe.edu.au/handbook/

You should note that the *Handbook* on the web is updated periodically, and thus it may provide more recent information than this *Handbook*.

You should check with the relevant faculty, school, or department before relying on any information in the *Handbook*.

Some of the material presented in your course may prove to be confronting and contrary to your personal beliefs. One of the objectives of a university education is to present material that allows students to reach an informed decision concerning the merit of material in a social, political, and cultural context. Such material may not necessarily present the views and values of teaching staff of the University. Accordingly, students who do not wish to be exposed to material that may include explicit sexual, political, religious, and racial references need to consider these factors before enrolling.

New Student Information System

The University will implement a new Student Information System during 2008. Students can expect to see significant changes to Student On line when the new system becomes operational. There will be a number of changes to the terminology used by the University in relation to managing and maintaining enrolments. These changes will come into effect during 2008, as the new system is being unveiled. Students will be able to manage and maintain their enrolments, re-enrol for the coming year, pay fees and view their results. The way in which these tasks are carried out will differ. The University has developed an implementation plan that will inform and train students to use the new system. More information will be provided throughout the implementation phases. A website has been created to provide a reference point for students as information becomes available. You may access the website at www.latrobe.edu.au/acadserv/current/studentonline

USING THE HANDBOOK AT ENROLMENT

The *Course Handbook* is designed as an aid to students contemplating enrolment or re-enrolment in undergraduate and postgraduate courses. Understanding what information is provided and how it is ordered will assist you to make the best use of it. The *Handbook* contains information on the courses of the five faculties of the University (Education, Health Sciences, Humanities and Social Sciences, Law and Management, Science, Technology and Engineering). Separate chapters are devoted to the regional campuses (Albury-Wodonga, Beechworth, Bendigo, Mildura, and Shepparton).

In each section of faculty or campus information, admission requirements, course structures, possible programs of study and unit lists are provided. In addition to descriptions of courses being offered in 2008, important information is contained in the introduction to each Faculty or campus chapter. Students are advised to read all of the information associated with their course of study prior to enrolment. The University presumes they will have done so.

The following is a suggested procedure for using the *Handbook* to plan your enrolment:

1. Decide on the course you wish to study and the campus at which you wish to study.
2. Check that you satisfy the admission requirements.
3. Note the requirements for qualifying for the award (generally listed as the degree requirements).
4. Read the course structure and options for programs of study.
5. Determine your preferred major, minor or specialist studies.
6. Choose your units according to the above criteria and any other relevant considerations.
7. Refer to the Unit Database online www.latrobe.edu.au/udb_public for full unit descriptions, noting prerequisites, co-requisites, class requirements, etc. Note that unit descriptions listed in the hard copy *Handbook* are correct at the time of publication, but the most up-to-date information on units can be found on the Unit Database.
8. Note particularly the methods of assessment, which apply to your chosen units, and be certain that you are comfortable with them.
9. Note any quotas, which apply to your chosen units.
10. Select one or more back-up units in case of quota exclusions or timetable problems.
11. Use the class timetable – available in student centres, Faculty offices and on the web – to check that you will be able to combine the desired units with each other and with your personal commitments.
12. Read the Important Notices and General Information sections of this *Handbook* for further important information.

UNITS

Availability of units and courses

The availability of units and courses listed in this *Handbook* is conditional on the availability of staff and other resources.

While every effort is made to provide full and accurate information, no absolute guarantee of the structure or manner of teaching or availability is implied in the listing of a unit or course for this or any subsequent year.

The University reserves the right not to offer any unit for which the number of enrolments or the resources available are insufficient and it reserves the right to restrict the number of enrolments in any unit.

Accessing information on units

Students should note that units published in this *Handbook* are subject to change and should refer to the Unit Database online for more up-to-date information www.latrobe.edu.au/udb_public

Unit descriptions

The unit descriptions in this *Handbook* indicate unit code, unit name, credit points, teaching period, campus/location, unit coordinator, class requirements, assessment, prerequisites, and reading.

Indexes of units by unit name, and by unit code are located at the back of the *Handbook*.

For the most part, unit descriptions appear at the end of sections or chapters. In the case of Albury-Wodonga; Bendigo, Mildura and Shepparton chapters, descriptions are listed for those units taught only on that campus. For units taught on that campus as well as elsewhere, students should refer to the index at the back of the *Handbook* to locate the unit in the relevant faculty section, or access the Unit Database online www.latrobe.edu.au/udb_public

Units are listed in alphabetical order either by unit name or by unit code.

Each entry includes the following:

- the unit name and unit code
- the credit-point value of the unit (expressed as CPs)
- the teaching period in which the unit is offered (e.g., TE-SEM-1) (see Teaching Period table below)
- the teaching location at which the unit is offered (see campus abbreviations below)
- and, in most cases, the name of the course coordinator(s).

Unit codes

Unit codes are written (usually) as three letters followed by one digit followed by three letters, e.g., NSG3PIN. The first three characters usually indicate the discipline (in this case, Nursing). The fourth character indicates the year level of the unit (in this case, third year). The last three characters of a unit code usually denote an abbreviation of the unit name (in this example, Philosophies in Nursing).

TEACHING PERIODS

The University 2008 academic year can be accessed at www.latrobe.edu.au/acadserv/current/acadcalendar

A 2008 calendar is provided inside the back cover of this *Handbook*.

2008 – Standard teaching periods

Summer Semester	2 January–17 February 2008 (may vary from Faculty to Faculty)
Semester 1	25 February–30 May 2008
Semester 2	21 July–24 October 2008
All year Semester	25 February–24 October 2008
Term 1	7 January–16 March 2008
Term 2	31 March–8 June 2008
Term 3	23 June–31 August 2008
Term 4	15 September–23 November 2008

Abbreviations

Abbreviations for teaching periods are listed below. The first three listed here are the most common.

Standard

TE-ALLYR	All year
TE-SEM-1	Semester 1
TE-SEM-2	Semester 2
TE-SEM-S	Summer semester
TE-TERM-1	Term 1
TE-TERM-2	Term 2
TE-TERM-3	Term 3
TE-TERM-4	Term 4

Cross institutional

TX-ALL-YR	Cross-institutional, out all year
TX-SEM-1	Cross-institutional, out semester 1
TX-SEM-2	Cross-institutional, out semester 2
TX-SPRING	Cross-institutional, out spring period
TX-SUMMER	Cross-institutional, out summer period
TX-AUTUMN	Cross-institutional, out autumn period
TX-WINTER	Cross-institutional, out winter period

Research

TR-RES-1	Research 1 Jan – 30 June
TR-RES-2	Research 1 July – 31 December

APESMA

TA-APSEM1	APESMA Semester 1
TA-APSEM2	APESMA Semester 2
TA-APESMS	APESMA Summer semester

2008 – Non-standard teaching periods

The University also delivers a number of non-standard teaching periods through third-party providers or to meet special course requirements. The University publishes a comprehensive list of all teaching periods and associated unit census dates on the University's website www.latrobe.edu.au/acadserv/current/fees

Abbreviations

Non-standard teaching periods appear in the form Wxx-yy, for example W12-22. These indicate the whole weeks of the teaching period, from the first Monday to the last Sunday. For example, W12-22 has a teaching period that begins on the twelfth whole week in 2008 (Monday 17 March) and finishes on the twenty-second whole week in 2008 (Sunday 1 June).

TEACHING LOCATIONS – ABBREVIATIONS OF CAMPUS NAMES

Code	Location
AP	APESMA Association of Professional Engineers, Scientists and Managers, Australia
AS	Alice Springs
AW	Albury-Wodonga

IN	India
JA	Japan
KM	Kolej Komuniti Mertajam
KU	Kunming Medical College
MA	University of Makassar-Indonesia
MI	Mildura
ML	Malaysia
MO	Mongolia
NI	Nilai College
NZ	New Zealand
O2	Other site 2
OL	Online
OS	Other site
PE	Perth ACN
SH	Shepparton
SI	Singapore
SY	Sydney ACN
TH	Thailand
VI	Vietnam

BOOKLISTS

- *Preliminary reading* – texts to be read by students before attending the first lecture
- *Prescribed reading* – basic textbooks essential to the course
- *Recommended reading* – a list of texts that may be useful.

It is suggested that students check with their course coordinator before purchasing any of the texts listed in the *Handbook*.

MODES OF DELIVERY

While much of the teaching and learning at La Trobe University is designed around traditional lectures, tutorials, seminars, and practical classes, which take place in a classroom, modern technology supports these modes of delivery as appropriate. In addition, many of the courses and units offered at La Trobe University are specifically designed around state-of-the-art methods of flexible teaching and learning. This means that topics and components of some units could be studied via one, or a combination of, the following modes:

- computer-based learning
- online (WebCT) learning
- electronic mail and electronic mailing lists
- CD-ROM materials and tasks
- video-conferencing and video-lecturing
- teleconferencing
- self-paced print materials and study guides
- pre-taped video cassettes
- student-led discussion.

These flexible learning environments, responsive teaching, and learning practices are particularly used to increase cross-campus course offerings and enhance student-learning outcomes. Flexible learning practices can be used to offer students more choice about when, where and how to learn. Your course or unit coordinator can give you more information about the modes of delivery of the units in which you plan to enrol.

ACADEMIC STANDARDS AND CONDUCT

On enrolment, all students are required to sign a declaration acknowledging that they are subject to the statutes and regulations of the University. The primary purpose of the statutes and regulations is to establish and to uphold the academic standards of the University in an environment where staff and students can best pursue their academic goals.

Misconduct in relation to examinations or written or practical work for assessment, or in the more general sense as a member of the University, is viewed seriously.

Penalties such as fail grades for work submitted, failure in a unit as a whole, fines, and exclusion from the University may be imposed for breaches of discipline.

THE UNIVERSITY

History of La Trobe University

La Trobe University is named after Charles Joseph La Trobe, the first Superintendent of the Port Phillip District from 1839 to 1850 and first Lieutenant-Governor of the new colony of Victoria from 1851 to 1854. He supervised the establishment of self-government, the public library, the art gallery, a university, and the development of the gold fields.

La Trobe University, established and incorporated through an Act of the Victorian Parliament in December 1964, was officially opened by the Premier of Victoria in March 1967 and began teaching during the first term of that year. It was the third university established in Victoria and has since grown to accommodate some 27,000 students across its several campuses in Victoria.

The Act requires that the University serves the community and in particular, the citizens of Victoria, by the provision of facilities necessary for the advancement of knowledge through teaching and research, the conferring of degrees and awarding of diplomas and the fostering of the general welfare and development of all enrolled students.

La Trobe University's armorial bearings combine significant symbols that encapsulate its history, goals and pride in its Victorian genesis. Australia is represented by the Australian Wedge-tailed Eagle, one of the world's largest eagles. Victoria is represented by the sprigs of heath, Victoria's floral emblem. The open book refers to the University's commitment to learning. The scallop shells are part of the La Trobe family bearings and have been included to acknowledge the La Trobe name.

The University motto '*Qui cherche trouve*' (Whoever seeks shall find) is a modern version of the La Trobe family motto.

Land for the Melbourne (Bundoora) Campus was made available by the Government of Victoria on the recommendation of the Third University Committee, established in 1964.

This campus, comprising more than 330 hectares, is located only 16 kilometres from the city of Melbourne and is served well by public transport. It is an attractive campus, featuring garden settings, a vast range of native flora and fauna, particularly birds, and a wildlife reserve.

This metropolitan campus also houses the main research and teaching faculties of the University, including the Research and Development Park, a world-renowned library, multi-media facilities and a hospital including student medical services.

The Melbourne (City) Campus is located on the fringe of Melbourne's Central Business District, in Franklin Street. The central location provides easy access to a wide range of restaurants, cafes and commercial services, and is well serviced by the public transport system. This campus has a wide range of facilities and services including quality conference and teaching facilities.

The regional campuses of the University are located at Albury-Wodonga, Beechworth, Bendigo, Mildura and Shepparton.

The Bendigo Campus, 150 kilometres north-west of Melbourne, caters for over 4000 students, and is set on 33 hectares of natural bushland only three kilometres from the heart of Bendigo. The history of La Trobe University at Bendigo dates back to 1873 when the Bendigo School of Mines and Industries was established. As the technical education it provided broadened, it became the Bendigo Institute of Technology. In 1976 this Institute merged with the State College of Victoria, Bendigo (formerly the Bendigo Teachers' College) to form the Bendigo College of Advanced Education. This College affiliated with La Trobe University in 1991 as La Trobe University College of Northern Victoria, which integrated as a faculty of the University from 1994. At the commencement of 2005 a new Faculty of Education was created and centred at Bendigo. This faculty offers courses at several campuses of the University including Melbourne (Bundoora). A broad range of other courses is offered at the Bendigo Campus through the other metropolitan-based faculties of the University.

There are approximately 1200 students at Albury-Wodonga, originally the campus of the Wodonga Institute of Tertiary Education which amalgamated with La Trobe in 1991. The campus offers a range of courses through the five University faculties.

Late in 1993, the University established a presence in Shepparton following a State Government review of higher education in the Goulburn Valley region. The Shepparton Campus provides three-year courses and one year Graduate Diploma courses with a focus on business and the professions.

At Mildura a new University building has been developed adjacent to the Sunraysia Institute of TAFE on land designated for educational purposes. A close relationship exists with the TAFE. Students have the opportunity to complete three-year courses in arts, business, visual arts and nursing, as well as the first year of a number of courses, which can be completed at other campuses.

The primary focus of the Beechworth Campus is as a professional and personal development centre facilitating conferences and conventions, post-initial education and short course programs, and residential retreats and activities. La Trobe at Beechworth is the largest professional development and conference centre in regional Victoria.

The University and its vision

As one of Australia's leading universities, La Trobe University will continue to enhance its profile nationally and internationally and will achieve wide recognition for delivering socially responsible, inclusive, relevant and radical learning, teaching and research.

La Trobe University will build upon its existing strengths in learning, teaching and research to achieve renown for its academic excellence. We will continue to benchmark and measure our performance in these key areas and will aim to substantiate this recognition through improved international and national rankings.

In learning and teaching, we will produce graduates with the personal qualities and theoretical and practical insights and foresight to transform society. We will continue to enhance the quality and breadth of our degree programs and will work to improve the quality of the student experience at La Trobe. In order to achieve this, we will maintain our diverse student population and our safe, supportive campus communities. We will also actively seek student feedback to enhance our quality teaching and services. At La Trobe, students will be challenged and supported along the path to their desired career outcomes.

In research, La Trobe will promote a research strategy, which encourages innovation, specialisation and collaboration. Our researchers will be strongly committed to solving some of the leading issues of our time and will take an active role in the public arena through commentary, publications and information exchange. We will also continue to emphasise research-led teaching and, through provision of the highest quality academic supervision, will aim to establish the University as a leader in research training.

La Trobe will maintain and enhance its links with business, government, industry and local communities. We will continue to engage with all stakeholders to ensure the relevance of our learning, teaching and research, and in order to deliver to our students outstanding graduate outcomes.

As a multi-campus university and one of the strongest providers of regional campus education in Australia, La Trobe has a strong, focused regional presence and a reputation for community engagement. Through our network of campuses in Bendigo, Albury-Wodonga, Shepparton, Mildura and Beechworth, we will continue to provide outstanding educational opportunities for students in regional and rural areas and contribute significantly to the development of regional Victoria.

The University will remain strongly committed to internationalisation and to producing graduates who will contribute to a global community. Staff and students will benefit from the University's global education network and links in research, teaching, and student and staff mobility. Collaborative opportunities in learning, teaching and research will be pursued in the international arena.

Policies and legislation

Act, statutes and regulations

The *La Trobe University Act 1964* gives the governing body of the University (the Council of the University) the authority to make statutes and regulations for the management and regulation of the affairs of the University.

Much of this subsidiary legislation directly affects students – their conduct on campus, examinations, payment of fees, and so on. Copies of all legislation are available in each library, student centre, faculty office and many school offices, or go to www.latrobe.edu.au/students/ and follow the link: University Regulations.

Universities Australia guidelines

The University endorses the guidelines published by the Australian Vice Chancellors' Committee (Universities Australia), *Universities and their Students: Principles for the Provision of Education by Australian Universities*. See www.universitiesaustralia.edu.au/ – Publications – University guidelines.

ORGANISATION OF THE UNIVERSITY

Management structure

The operations of the University are managed within the Organisational, Academic and Committee Structure of the University.

Senior management

The Vice Chancellor and President is the senior academic appointment of the University. He is assisted by a number of Pro Vice Chancellors and the Vice Principal (Resources and Administration) who is the senior administrative appointment of the University.

Administrative divisions

The administrative divisions of the University provide advice to senior management plus a range of services and resources to members of the University to support them in the fulfilment of the University mission. A number of these divisions reports to the Vice Principal (Resources and Administration).

Faculties, schools, departments

There are five multi-campus faculties at La Trobe University:

- Faculty of Education
- Faculty of Health Sciences
- Faculty of Humanities and Social Sciences
- Faculty of Law and Management
- Faculty of Science, Technology and Engineering.

The faculties are each managed by a Dean assisted by a Deputy Dean, Associate Deans and Faculty Registrar. Within the faculties are a range of schools managed by the Heads of School. Some schools are further divided into departments or programs.

Regional campuses

The Pro Vice Chancellors and/or Campus Directors are responsible for the day-to-day administration of the regional campuses, providing support to the faculties in the pursuit of the academic mission of the University.

University committees

The University Council is the governing body of the University, presided over by the Chancellor and with membership defined by the *La Trobe University Act* of 1964.

The most important committees of Council are:

- Council Executive Committee, which acts on urgent matters on behalf of Council between meetings of Council
- the Academic Board, which advises Council on all academic issues
- the Corporate Governance and Audit Committee, which monitors compliance by staff of the University with policies established by Council
- the Finance and Resources Committee, which advises Council on all financial and business issues and on all issues relating to the University's buildings and grounds; and
- the Equity, Access and Personal Welfare Committee, which advises Council on equal opportunity and welfare matters.

Each has a range of subsidiary committees that advise on or manage the University's many activities. Additionally a number of specific-purpose committees reports to Council.

Campuses

Albury-Wodonga

Location: University Drive, Wodonga
Postal address: La Trobe University, Albury-Wodonga Campus,
PO Box 821, Wodonga, Vic 3689
Tel: (02) 6024 9700
Web: www.latrobe.edu.au/aw/

Beechworth

Location: Albert Road, Beechworth
Postal address: La Trobe University, Beechworth Campus,
PO Box 474, Beechworth, Vic 3747
Tel: (03) 5720 8000
Web: www.latrobe.edu.au/beechworth/

Bendigo

Location: Edwards Road, Flora Hill, Bendigo
Postal address: La Trobe University, Bendigo Campus,
PO Box 199, Bendigo, Vic 3552
Tel: (03) 5444 7222
Web: www.latrobe.edu.au/bendigo/

Melbourne (Bundoora)

The main campus of the University is located at Melbourne (Bundoora).

Location: Plenty Road, Bundoora
Postal address: La Trobe University, Victoria 3086
Tel: (03) 9479 1111
Web: www.latrobe.edu.au/bundoora/

Melbourne (City)

Location: 215 Franklin Street, Melbourne, Vic 3000
Tel: (03) 9285 5100
Web: www.latrobe.edu.au/city/

Mildura

Location: Benetook Avenue, Mildura
Postal address: La Trobe University, Mildura Campus,
PO Box 4095, Mildura, Vic 3502
Tel: (03) 5051 4000
Web: www.latrobe.edu.au/mildura/

Shepparton

Location: Welsford Street, Shepparton
Postal address: La Trobe University, Shepparton Campus,
PO Box 6044, Shepparton, Vic 3632
Tel: (03) 5821 8450
Web: www.latrobe.edu.au/shepparton/

COMPLAINTS OR GRIEVANCES

University policy

The University encourages and welcomes feedback on aspects of the University's operation. It recognises the rights of students to express dissatisfaction or make complaints about processes or services provided by the University. The University is committed to continuous improvement and ensures complaints and expressions of concern are analysed to improve academic and administrative services.

While the University is committed to providing students with an education of the highest possible standard, from time to time a student may have a complaint about a decision or action in relation to an academic matter or an administrative decision or action. The University operates several informal and formal processes for dealing with these complaints. These are explained in the 'Student Complaint and Grievance Handling Policy and Procedures' published on the Internet at <http://www.latrobe.edu.au/policies/assets/downloads/grievance.pdf>

In general, wherever possible, the first point of contact should be the supervisor or person responsible for the area that took the action that has provoked the complaint.

University Ombudsman

If a complaint or grievance regarding an academic matter or an administrative decision or action is not resolved through the relevant faculty, school or administrative department, advice may be sought from:

The University Ombudsman
Mr Cliff Picton
Located within the offices of Equity and Access
Room 136, Level 1, Peribolos East
Melbourne (Bundoora) Campus
Tel: (03) 9479 1897
Fax: (03) 9479 3897
Email: c.picton@latrobe.edu.au

Victorian Ombudsman

If the complaint or grievance is not resolved through the University Ombudsman, you may lodge a complaint with the Victorian Ombudsman: www.ombudsman.vic.gov.au. The Victorian Ombudsman is, generally, the office of last resort. If you have not followed the steps laid down in the relevant University procedures, the Victorian Ombudsman may ask you to do so before accepting your complaint. Contact:

Ombudsman Victoria
Level 3, South Tower
459 Collins Street
Melbourne, 3000
Tel: (03) 9613 6222

Whistleblowers' Protection Act

The Whistleblowers' Protection Act is designed to encourage the disclosure of improper conduct by public officers and public bodies including universities. It provides for the investigation of disclosures of improper conduct and for the protection of individuals who make disclosures. For further information go to www.latrobe.edu.au/policies

Freedom of Information

The *Victorian Freedom of Information (FOI) Act* extends as far as possible the right of the community to access information in the possession of La Trobe University by:

- making available to the public information about the operations of the University and
- creating a general right of access to information.

The types of information you can request from La Trobe University are:

- documents created by the University
- documents supplied to the University by an external organisation or individual
- documents relating to your own personal affairs, regardless of the age of the documents and
- documents of a non-personal nature which are not older than 5 July 1978.

However, exemptions may apply to documents where the information is not required to be released, whether it is the whole document or part of the document.

The University makes special provision for students to inspect their own files and examination papers. These may be examined under supervision and a request need not be made under the provisions of the FOI Act. In the case of student files, the appropriate Student Centre should be contacted, while each faculty office can assist with access to examination scripts. Students should note that examination scripts are only available for twelve months from the date of the assessment. Applications for access to evaluation reports of student placements will be considered on a case-by-case basis.

See www.latrobe.edu.au/records/foi.htm for more information regarding FOI requests.

LEARNING AND TEACHING AT LA TROBE UNIVERSITY

The learning and teaching environment at La Trobe University is shaped by guiding principles that reflect the history and ethos of the University. Specifically, the University values:

- a supportive learning environment and community for students

- teaching that reflects a spirit of inquiry and is informed by research
- a diversity of approaches and styles in learning and teaching
- the commitment of staff to students, teaching, research and ongoing development.

These values are central to the vision, which is the focus of University development over the 2005–2008 period.

La Trobe's Learning and Teaching Vision Statement and Operational Plan (which can be seen at www.latrobe.edu.au/teaching/), are guided by the Pro-Vice Chancellor Academic with the Academic Committee.

Accreditation and review of courses

Undergraduate and postgraduate courses are developed and maintained through a rigorous approval, accreditation and review process. This can involve both internal and external scrutiny, and consultation with appropriate professional registration authorities to ensure the continuing quality and relevance of the programs and awards.

EQUITY AND ACCESS POLICIES

Equal opportunity

In keeping with the spirit and provisions of Commonwealth and State equal opportunity legislation and University policy, La Trobe University is committed to a policy of equal opportunity in education and employment. As an employer and an educator, the University is opposed to, and accepts that it has a responsibility to eliminate from its structures any source of direct or indirect discriminatory practice or behaviour, and is committed to providing an environment which is free from sexual harassment, harassment and discrimination.

For further information and advice, contact the Equity and Access Unit at the Melbourne (Bundoora) Campus, Tel: (03) 9479 2900, email: equity@latrobe.edu.au or contact the Equity Officers at other campuses.

Sexual harassment and discrimination legislation

Under the *Victorian Equal Opportunity Act 1995*, it is unlawful to discriminate against another on the basis of age, impairment, industrial activity, lawful sexual activity, sexual orientation, marital status, breastfeeding, parental/carer status, physical features, political belief or activity, pregnancy, race, religious belief or activity, sex, gender identity and personal association with a person who is identified with any of these attributes.

Under this legislation sexual harassment is also unlawful. Sexual harassment includes a wide range of unacceptable behaviours of a sexual nature that takes place in circumstances in which a reasonable person, having regard to all the circumstances, would have anticipated that the other person would be offended, humiliated or intimidated. Unacceptable behaviours could include:

- personally offensive verbal comments
- whistling or leering
- sexual, crude, or smutty jokes
- repeated comments or teasing about a person's alleged sexual activities or private life
- persistent, unwelcome social invitations or telephone calls
- unsolicited letters, notes, graffiti, electronic messages
- obscene telephone calls
- offensive hand or body gestures
- physical contact such as patting, pinching, touching, or putting an arm around another person's body
- provocative visual material or posters with a sexual connotation, particularly pornography.

Offenders may be liable to disciplinary action or be the subject of a complaint under the legislation. The University has people, policy and procedures in place to deal with sexual harassment and discrimination. Advisers and conciliators throughout the University are trained to deal with these issues on a confidential basis. Brochures providing information are available from the Equity and Access Units, residential colleges and student unions throughout the University. Information relating to the policy on sexual harassment, harassment

and discrimination can be found on the Equity and Access Unit's website: www.latrobe.edu.au/equity

For further information and advice, contact the Equity and Access Unit at the Melbourne (Bundoora) Campus, Tel: (03) 9479 2900, email: equity@latrobe.edu.au or the equity officers at regional campuses.

Racial and religious tolerance

Under the *Racial and Religious Tolerance Act 2001*, it is unlawful to vilify a person or group on the basis of their race or religion. The Act includes behaviour that incites hatred against, serious contempt for, or revulsion or severe ridicule of a person or class of persons due to that person or group's race or religion. Unlawful conduct may include the wearing of symbols or uniforms, graffiti, telephone calls, speeches, statements, or Internet and email messages. Offenders may be liable to disciplinary action or be the subject of a complaint under the legislation.

For further information and advice, contact the Equity and Access Unit at the Melbourne (Bundoora) Campus, Tel: (03) 9479 2900; email: equity@latrobe.edu.au or contact the Equity Officers at regional campuses.

Children on campus

The University acknowledges that students and staff may also be parents or guardians of children. While it emphasises that the responsibility for each child's safety rests with the adult concerned, it directs staff to deal sympathetically with requests from students to bring a dependent child into teaching situations if normal arrangements change unexpectedly. Children are not permitted to enter scientific laboratories, workshops or commercial kitchens without the express approval of the area manager, and then provided they are under appropriate supervision.

Information relating to the policy on children on campus can be found on the Equity and Access Unit's website: www.latrobe.edu.au/equity or from the Equity and Access Unit on the Melbourne (Bundoora) Campus, Tel: (03) 9479 2900, email: equity@latrobe.edu.au or the Equity Officers at regional campuses.

Disabilities, ongoing medical conditions, deaf or hearing impairment

The University is committed to the enhancement of educational opportunities for people with disabilities or additional needs at all its campuses and strives to provide a study environment that recognises and responds to the needs of students with disabilities or additional needs.

Information relating to the policy on people with disabilities, mental health issues and/or ongoing medical conditions and deaf or hearing impaired can be found on the Equity and Access Unit's website: www.latrobe.edu.au/equity

For further information contact the Disability Liaison Officer, Equity and Access Unit at the Melbourne (Bundoora) Campus, Tel: (03) 9479 2900, email: disability_support@latrobe.edu.au or deaf_support@latrobe.edu.au or contact the Disability Liaison Officers at other campuses.

COPYRIGHT POLICIES

Unless otherwise permitted by the *Copyright Act 1968*, unauthorised copying of a work in which copyright subsists may infringe the copyright in that work. If you reproduce material, in either hardcopy or electronic formats, which is protected by copyright, without the permission of the copyright owner, you may infringe copyright. Reproducing a part of a work may infringe copyright if a part is important; it need not be a large part. Copyright owners are entitled to take legal action against people who infringe their copyright. La Trobe University does not authorise individuals to make infringing reproductions of copyright material. This includes any unauthorised copying or downloading from the Internet of files (such as music, movies or software). It is an individual's responsibility to make sure that any reproductions they make do not infringe copyright.

Photocopiers, scanners, cameras and image capturing devices

Where making a copy of a literary, dramatic, musical or artistic work or an adaptation of a literary, dramatic or musical work is a fair dealing under section 40 of the *Copyright Act 1968*, making that copy is not an infringement of the copyright in the work if it is for the purpose of research or study. Copying of one or more articles on the same subject matter in a periodical publication (e.g. magazines, newspapers and journals) is taken to be 'fair'. In the case of any other work, a reasonable portion of a work may be copied. For a published work in hard copy form, which is not less than ten pages and is not an artistic work (e.g. graphs, maps, pictures), 10 per cent of the total number of pages, or one chapter, is a reasonable portion. The 10 per cent limit applies to the whole or part of a single chapter of the work. More extensive copying may constitute a fair dealing for the purpose of research or study. To determine whether it does, it is necessary to have regard to the criteria set out in section 40 (2) of the *Copyright Act 1968*:

- the purpose and character of the dealing
- the nature of the work or adaptation
- the possibility of obtaining the work within a reasonable time at an ordinary commercial price
- the effect of the use upon the potential market for, or value of, the work
- where only part of the work or adaptation is copied, the amount and substantiality of the part copied in relation to the whole work or adaptation.

Computers and USB devices

If you reproduce print and graphic material in hard copy or electronic form, protected by copyright without the permission of the copyright owner, you may infringe copyright. This includes printing material, saving to a USB device (flash drive), saving to floppy disk, tape or CD-ROM and copying a file from one USB device, floppy disk or CD-ROM to another. Reproducing the whole or part of a work may infringe copyright.

You should check whether there are any special conditions that apply to reproducing the material you are viewing, particularly if the material is on a CD-ROM or an online database.

If you are downloading or reproducing material from the Internet, you should check whether there is a statement about copyright or terms of use on the site where the material is stored.

If you copy material for your research or study, you may not infringe copyright provided your copying is fair. In deciding whether your use is fair, you should take into account the factors under section 40 (2) of the *Copyright Act 1968* (see above). The copying limits are the same for a periodical publication as stated above, whether in electronic or hard copy form. In the case of a published edition in the electronic form, a reasonable portion is 10 per cent of the words or one chapter. If the published edition is in hard copy form, a reasonable portion is 10 per cent of the pages or one chapter. The 10 per cent limit applies to the whole or part of a single chapter of the work.

Audiovisual items

If you copy an audiovisual item such as a sound recording, a film, a television broadcast, webcast, videocast, podcast or sound broadcast for your research or study, you may not infringe copyright, provided your copying is fair. In deciding whether your use is fair, you should take into account the matters under section 103C of the *Copyright Act 1968*:

- the purpose and character of the dealing
- the nature of the audiovisual item
- the possibility of obtaining the audiovisual item within a reasonable time at an ordinary commercial price
- the effect of the dealing upon the potential market for, or value of, the audiovisual item
- in a case where part only of the audiovisual item is copied – the amount and substantiality of the part copied taken in relation to the whole item.

If you are downloading or reproducing material from the Internet (webcast, videocast, podcast), you should check whether there is a statement about copyright or terms of use on the site where the material is stored.

INSURANCE

There is Personal Accident insurance for students but it is limited in regards to the scope of cover and compensation benefits payable.

Please refer to the Student Association responsible for your campus for full details of the Product Disclosure Statement, Policy Schedule, Policy Wording and claim forms.

Claims against this insurance must be lodged within 30 days of the date of your accident causing bodily injury.

It is recommended that students have their own private health insurance and ambulance cover.

International students – for information on medical insurance, please refer to the International Student section of this *Handbook*.

By Victorian Government legislation, students are not covered under the University's Work Cover and are not covered by a host organisation's Work Cover while on outside placement.

Neither the University, the Guild or Student Associations insure any personal property of students. It is recommended that students insure all property for which they are responsible.

OCCUPATIONAL HEALTH AND SAFETY

Emergency evacuation procedures, and emergency telephone numbers

See inside back cover of this *Handbook*.

The University recognises its obligation to take reasonable precautions to protect the safety of its employees, students and visitors while they are on campus. Safety is the responsibility of all members of the University and requires active participation on the part of all staff and students. The University is concerned that every student enjoys a safe working environment. Each student therefore:

- is responsible for following work practices consistent with the extent of their control over or influence on working conditions and methods
- is obligated, given the experimental nature of work carried out in laboratories and workshops, to adhere rigidly to prescribed safety standards
- has the responsibility to ensure that they do nothing to render ineffective the University's actions in safety matters
- should report any safety issues to their supervisor.

University occupational health and safety policies are available on the La Trobe student website: www.latrobe.edu.au/students/

How to report a safety issue

All accidents, near misses, or any issue to do with safety should be reported, using the LTU Incident Report Form.

www.latrobe.edu.au/hr/forms/incident-report.pdf

Incident report forms are also available from most school offices and the University OHS website. Serious accidents must be reported within 24 hours to the relevant school and the Occupational Health and Safety Section.

Emergency response

On hearing fire bells, alerts, evacuation tones or being informed by building wardens please exit the building via the nearest emergency exit and assemble in the allocated building assembly area. You must not enter or transverse through an alarmed building or area. Building and floor wardens, are identified by red or yellow caps. Information on assembly areas is displayed in all buildings. Please take the time to familiarise yourself to emergency procedures.

Occupational overuse syndrome

Students should be aware of potential dangers to their health from repetitive use of keyboards. The early warning signs of overtaxing muscles are feelings of numbness and/or tenderness in the muscle regions. Occupational Overuse Syndrome may be avoided by some basic common sense measures such as frequently changing postures and general arm and hand stretches. Information on self assessment of your workstation is available www.latrobe.edu.au/hr/ohs/workstation-ergonomics.htm

Environmental improvement

To keep our campuses clean and tidy please place all rubbish in the appropriate containers.

LA TROBE UNIVERSITY LIBRARY

La Trobe University Library is your gateway to information. It has:

- A focus on service: knowledgeable and friendly staff are happy to help with enquiries about finding materials and using the Library.
- Libraries at metropolitan and regional campuses: campus libraries are located in Melbourne at Bundoora and in the regional centres of Albury-Wodonga, Bendigo, Mildura, and Shepparton. Library services are also available at the Melbourne (City) Campus.
- A comprehensive website: the Library's home page, www.lib.latrobe.edu.au/ is an entrée to a vast range of resources shared by the libraries as a whole, and specifically at each of the campus libraries. It provides access to the Library's catalogue and information about the Library, electronic publications, readings for courses, and a wide range of databases on the Internet. Current University staff and students can dial in from a non-University site to access electronic journals and Library databases, and clients anywhere can request help via email by using the 'Ask Us' online service. Off-campus students benefit in particular from having access to the diverse range of library resources and services via the home page.
- Library materials: the major collections are held in the Borchardt Library at the Melbourne (Bundoora) Campus, with around 1.3 million books, a strong government publications collection, a wide range of journals and a substantial audiovisual collection which includes DVDs, sound recordings, musical scores, multimedia, CD-ROMs, slides and anatomical models. The David Mann Library at Albury-Wodonga and the Heyward Library at Bendigo have also been long established and have collections relevant to the courses at those campuses. These libraries have shared study areas, extensive electronic workstations, wireless networks to allow you to connect a laptop to the University network, and training rooms to meet the demands of the modern learning environment. The libraries at Mildura and Shepparton have growing collections of core resources and provide access to loans and services from the three larger libraries.
- The latest in information technology: the Library makes available the latest in educational and information technology, including workstations for accessing the Internet, electronic collections of journals, books and databases, and multimedia workstations. All libraries provide photocopying facilities.
- Access to resources beyond the campus: the Library participates in a reciprocal borrowing scheme with all other Australian universities and many TAFE colleges, enabling La Trobe University students and staff to borrow from participating libraries. Students and staff are able to obtain material from La Trobe University campuses other than the one at which they are located through an inter-campus loan service. For approved borrowers, the Library provides access to the resources of Australian and international libraries through its document delivery services.
- Information skills sessions: a range of programs, from orientation tours to the specialised classes given by the subject librarians, are offered throughout the year, complemented by subject guides available from the website. For those studying offsite or who want to refresh their skills, 'Library Skills Online' on the Library's website provides self-paced tutorials for developing information searching techniques.
- Extended opening hours: all campus libraries are open for extended hours during semester, and details can be obtained from each campus.

RESEARCH CENTRES AND INSTITUTES

La Trobe University has a powerful research profile. The University's policy is to set its research and research training standards at the highest international levels.

La Trobe University also recognises that it has a responsibility to direct its research and research training to meet the needs of the Australian community. It is acknowledged as one of the finest research universities in Australia, with many researchers and scholars who are recognised worldwide for their outstanding contributions. The University's significant research institutes and centres include the Institute for Advanced Study, which has been established on the Bundoora Campus and is a focal point for visiting scholars. The Institute houses the internationally renowned Research Centre for Linguistic Typology.

The University's research profile is enhanced by the presence at Bundoora of an extensive Research and Development Park. The Technology Enterprise Centre, which is on the Park, nurtures 'start-up' technology companies.

University-wide centres and institutes

AD Trendall Research Centre for Ancient Mediterranean Studies

Professor AD Trendall believed that Australian and New Zealand scholars had made, and could continue to make, a significant contribution to our understanding of the ancient cultures that bordered the Mediterranean. To assist in this continuing endeavour he bequeathed his large personal library of books, journals and offprints, as well as his extraordinary archive of photographs of south Italian red-figure vases, to La Trobe University in order to provide the basis for a research centre in the broad area of ancient Mediterranean studies.

When the residual estate was handed over to La Trobe University in November 1998, a research centre was established with a director and managerial board under the chairmanship of the Vice Chancellor of the University. The Centre is at present located, according to Trendall's expressed wish, in his former apartment above the south wing of Menzies College.

The Centre is normally open to scholars and students (honours and graduate only) on two days a week (at present Wednesday and Thursday) from 9.30 am to 12.30 pm and 1.30 to 4.30 pm (or at other times by arrangement with the Director, Dr Ian McPhee). Further information is available on the website: www.latrobe.edu.au/trendall/

Information and Communication Technology Centre

The Bendigo Information and Communication Technology (ICT) Centre was established in 2002 through funding granted to La Trobe University Bendigo Campus from the Victorian Government Regional Infrastructure Development Fund (RIDF).

The emphasis at the centre is on:

- showcasing and applying leading-edge technology for regional businesses and the broader community via collaboration with the local IT community
- providing a focal point for development of software and telecommunications applications for local, national and international use
- undertaking research and development into the application of information and communication technologies

The ICT Centre provides a high-level technology environment for targeted high-growth IT businesses which are using technology effectively to make a positive difference to regional Victoria. It is located in a prominent position within the Bendigo CBD and forms part of the Bendigo campuses of La Trobe University. Further information is available on the website: www.latrobe.edu.au/ict/

Information and Knowledge Transfer Division

The Innovation and Knowledge Transfer (IKT) Division was created in order to consolidate the commercialisation and industry liaison services of La Trobe University, providing a meeting place where industry and researchers can work collaboratively. We aim to contribute to State and National economic growth by supporting new technology-based businesses, facilitating translational research, and encouraging the transfer of technical and business expertise to the wider community. The Innovation and Knowledge Transfer Division includes:

- University R&D Parks and Business Incubators
- Commercialisation Services i.e., management and commercialisation of University intellectual property, tenders and research contracts and
- Innovation programs i.e. student business planning competitions, Young Achiever Australia Biotechnology Program and Innovation programs for staff and students.

Institute for Advanced Study, incorporating the Research Centre for Linguistic Typology

The Institute for Advanced Study aims to bring together outstanding scholars – individuals at the cutting edge of research and leaders in their discipline. Fostering research activities that otherwise might not take place is a high priority. Fellowships are open to senior researchers of exceptional distinction and junior post doctoral researchers of high promise in disciplines represented at La Trobe University. Fellowships are by invitation, nomination or application. The Director of the Institute is Professor Gilah Leder, who may be contacted on (03) 9479 3461. Further information is available on the website: www.latrobe.edu.au/ias/ or by emailing ias@latrobe.edu.au

La Trobe Research and Development Park

Location: La Trobe University R&D Park,
2 Research Avenue Bundoora, Vic 3083
Central Victorian Innovation Park, Edwards Road Bendigo, Vic 3552

La Trobe University Research and Development Parks provide a home for a variety of businesses from start up enterprises to multi-national companies and include those involved in AgriBioscience, mining and exploration, information and communication technology, and biotechnology. The parks provide a centre for R&D excellence and industry collaboration and an environment that encourages the development of key technologies in all areas of the University's research areas. Support services are provided to tenants and researchers through seminars and incubation programs that facilitate the interaction between academic units, industry, government and the community.

National Centre for Hellenic Studies and Research

The National Centre for Hellenic Studies and Research seeks:

- to maintain and develop the Greek language and culture and the Hellenic civilisation to the broader Australian society as well as the second and consecutive generations of Australia's Hellenes
- to study and promote the history of Greek expatriation in the Diaspora
- to develop and maintain strong academic links between metropolitan Hellenes and the Hellenes of the Diaspora, particularly those living in Australasia and Latin America
- to promote Hellenic studies and research by encouraging interchange of staff and students with those in Greece and Cyprus, promoting projects, seminars and conferences highlighting significant Hellenic themes, fostering local and international Greek literature, assisting in the maintenance of and loyalty to the Greek language, and enhancing productive interaction between the University and the community.

The Director is Professor Anastasios Tamis. Further information is available on: www.latrobe.edu.au/www/nhc/

Research Centre for Linguistic Typology

The Research Centre for Linguistic Typology (RCLT) is part of the new Institute for Advanced Study within La Trobe University, under the leadership of the Director, Professor RMW Dixon.

The main business of the Centre consists in putting forward inductive generalisations about human language. The Centre organises an

annual international workshop on topics in typological theory. During the year, various seminars and workshops are also held at the Centre. The RCLT has a number of fixed-term positions which are advertised as they become available. Each year there is also a number of visiting fellows who contribute to the highly intellectual ambience of the Centre. Scholars from other universities who undertake research on language description and in typological issues are encouraged to consider spending their sabbatical at the Centre. Further information is available on the website: www.latrobe.edu.au/rclt/

Centres and Institutes of the Faculty of Education

Adult Migrant English Program Research Centre

Australia's AMEP Research Centre provides research, professional development, publications and information services to the Adult Migrant English Program nationally.

The Research Centre brings together the resources and expertise of Macquarie University's National Centre for English Language Teaching and Research (NCELTR) in Sydney and La Trobe University's School of Educational Studies in Melbourne.

Research Centre services for the Adult Migrant English Program include:

- conducting research into language and literacy education
- coordinating a national research program for the AMEP
- conducting professional development programs and activities for AMEP teachers
- conducting a national AMEP conference each year
- maintaining the Professional Connections website which provides news, information and access to online professional development for AMEP teachers across Australia
- providing, through its Resource Centre, a comprehensive range of library and information services on all aspects of English language education and applied linguistics
- publishing and distributing research reports and associated teaching and learning materials
- publishing *Prospect*, the internationally recognised journal of the AMEP.

Further information can be obtained from the website at: www.nceltr.mq.edu.au/amep/index.html

Centres and Institutes of the Faculty of Health Sciences

Australian Centre for Evidence Based Aged Care (ACEBAC)

ACEBAC, located at Bundoora Extended Care Centre (BECC), aims to improve the care of older people by advancing service delivery through research programs that focus on:

- the conduct of systematic reviews and analysis of the literature in areas such as continuous quality improvement in aged care, the development of innovative models of care delivery, and clinical effectiveness in aged care
- developing and evaluating guidelines for Best Practice in service delivery and organisation in aged care, based on the systematic review of research findings
- conducting international multi-site programs to implement Best Practice guidelines
- evaluating the impact of the implementation of Best Practice guidelines on health and social outcomes in aged care.

Further information can be obtained from the website at www.latrobe.edu.au/acebac/

Australian Institute for Primary Care

The Australian Institute for Primary Care promotes quality improvement and best practice in all areas of primary health care. It supports the integration of theory and practice in primary health care and promotes the standing and visibility of primary health care and community health services. The Institute incorporates:

- the Centre for Development and Innovation in Health
- the Centre for Quality in Health and Community Services

- the Lincoln Centre for Ageing and Community Care Research.
- Further information can be obtained from: www.latrobe.edu.au/aipc/

Australian Research Centre in Sex, Health and Society

The Australian Research Centre in Sex, Health and Society (ARCSHS) was established as the Centre for the Study of Sexually Transmissible Diseases in 1992 as an independent research unit within the Faculty of Health Sciences. ARCSHS has a multi-disciplinary team of staff with qualifications and expertise in psychology, anthropology, sociology, public health, health promotion, methodology, epidemiology, education, women's health, consumer advocacy and health policy.

Further information can be obtained from: www.latrobe.edu.au/arcschs/

The Bouverie Centre

The Bouverie Centre, Victoria's family institute, is a state-wide integrated clinical, academic and consultation agency specialising in family approaches in mental health service provision. The Bouverie Centre provides a range of programs to individuals and family members, service providers and agencies. Further information can be obtained from the website: www.latrobe.edu.au/bouverie/

Centre for Ergonomics and Human Factors

The Centre for Ergonomics and Human Factors (CEHF) is located in the School of Human Biosciences, where it originated in 1987. It is currently under designation as a World Health Organisation Collaborating Centre in Occupational Health. Its purpose is to promote occupational and community health and safety by applying a systems-based approach to enhance physical, psychological and organisational aspects of system functioning. Current activities focus on: assessment and control of both physical and psychosocial hazards to prevent work-related musculoskeletal injuries and other stress-related disorders; occupational health and safety implications of age-related differences in worker characteristics; and design of occupational health and safety management systems to suit varying hazard profiles and socio-economic conditions. Further information can be obtained from www.latrobe.edu.au/ergonomics

Centre for Professional Development

The Centre for Professional Development was established in 2002, initially as a joint venture between La Trobe University and the Victorian Department of Human Services. The Centre primarily provides continuing education for practising professionals. Although based in Bendigo, the Centre provides services at state, national and international levels.

Although most participants are from the health and human services fields, the Centre specialises in providing training which is applicable for experienced professionals across many occupations and disciplines. Participants have included nurses, teachers, social workers, doctors, occupational and physiotherapists, working in a variety of management, clinical and policy roles.

Further information can be obtained from: www.latrobe.edu.au/cpd/

Mother and Child Health Research Centre

Mother and Child Health Research (formerly Centre for the Study of Mothers and Children's Health) was established in 1991 with a program grant from the Victorian Health Promotion Foundation and research grants from a range of agencies. In November 1994 the Centre became part of the Faculty of Health Sciences at La Trobe University. MCHR has a broad public health and population focus taking account of the social aspects of health and medical care, valuing the contribution of a range of disciplines, seeing the health of mothers and babies as integrally related, and taking the health concerns of women themselves seriously. MCHR emphasises the need for research, service development, evaluation and policy to be linked. Further information can be obtained from the website at www.latrobe.edu.au/mchr/

Musculoskeletal Research Centre

The Musculoskeletal Research Centre (MRC) was established in January 2000, with the aim of drawing together researchers, academics and clinicians from a range of schools at the University, the La Trobe University Medical Centre and other healthcare institutions in order to conduct research as an evidence base for

clinical practice in the musculoskeletal and sports fields. The MRC provides a central focus for personnel, equipment and funding to advance knowledge in this area.

Further information can be obtained from: www.latrobe.edu.au/mrc/

National Institute for Deaf Studies and Sign Language Research

The National Institute for Deaf Studies and Sign Language Research was established in 1993 to provide a national focus for research into the Australian deaf community, its language Auslan (Australian Sign Language), its culture and the education of deaf students. It houses the Australian Sign Language Research Facility, funded by the Federal government, which includes a professional production unit for making videos and a unique specialist library. The Institute is involved in the coordination of a wide range of teaching and research projects and works closely with the deaf community.

Further information can be obtained from:
www.latrobe.edu.au/hcs/nids/nidshome.html

Palliative Care Unit

The Palliative Care Unit is a unit within the Department of Health and Social Care, located at the City campus, 215 Franklin Street, Melbourne. Established in 1998, the Unit provides education and training, consultancy, and social research. Courses coordinated by unit staff include a graduate entry Bachelor of Pastoral Care program and a graduate certificate/postgraduate diploma in health promoting palliative care. Staff also supervise masters and doctoral research projects. Training or consultancy is provided upon request to Victorian palliative care services and other groups involved in end-of-life care, while staff offer regular one or two-day professional development workshops in the field, often in partnership with the Centre for Professional Development. Research interests and staff publications cover: pastoral care and spiritual care, social experiences of living with cancer, social aspects of death, dying and mystical experiences, service delivery models in palliative care, and public health palliative care policy. The Unit premises are located on the second floor of the Melbourne (City) campus. Further information can be obtained from the Unit office or the Unit's website www.latrobe.edu.au/pcu

Centres and Institutes of the Faculty of Humanities and Social Sciences

Centre for Dialogue

The Centre for Dialogue was officially launched in August 2006 at the National Gallery of Victoria by the Hon. John Pandazopoulos MP representing the Premier of Victoria. The Centre is also supported by a nine-member Board of Management and a twenty-nine member Advisory Board with representatives from academia, community and religious groups, the media, business and legal professions. This is a major initiative which will have international as well as local and national significance.

Headed by Professor Joseph Camilleri, the orientation of the Centre for Dialogue is inter-cultural and inter-disciplinary.

The Centre serves several interrelated functions:

- Pure and applied research
- Educational projects
- Community engagement
- International networking
- Policy advice

The Centre also fosters interaction and dialogue between organisations representing diverse religious traditions, professional associations and non-governmental organisations more generally, research institutions, think-tanks, and representatives of key constituencies, including government, industry and international organisations.

The Centre seeks to establish a Global Network for Dialogue – with Melbourne as one of its central locations – comprising partner organisations, principally research institutes and university-based centres. To date, projects that have been running include:

- Australia's handling of tensions between Islam and the West since September 11
- Religion and Conflict: implications for Southeast Asia and Australia

- Education Dialogue Project designed to assist teachers to develop intercultural study programs informed by the dialogue method
- A series of consultations and workshops involving key sectors of the community, including educators, religious and community organisations, and media
- Europe and Asia: between Islam and the United States
- Leadership Training Program for Young Muslims (organised with the Islamic Council of Victoria and supported by the Government of Victoria)
- Developing an Interfaith Network for Melbourne's Northern Region
- La Trobe Cyprus Project (fostering interaction between the two Cypriot communities)

For further information contact:

Tel: (03) 9479 1893

Email: dialogue@latrobe.edu.au

Website: www.latrobe.edu.au/dialogue

European Union Centre

La Trobe University is the leading institution in a national European Union Centre, funded by the EU. The Innovative Universities European Union Centre (IUEU Centre) is based on a network of six Australian universities. The development of this Centre has enhanced opportunities for postgraduate research on European topics at La Trobe. One PhD scholarship is offered each year through the La Trobe node of the Centre, and there is now increased provision for supervision of European research topics. In particular, the appointment of Dr Stefan Auer, an expert on central and eastern European politics, has helped consolidate a strong core of European researchers in history and politics. In addition the Centre will facilitate co-supervision by relevant experts from the other universities in the network.

The Centre will also be developing a La Trobe Masters by coursework program in which students will be provided with opportunities to select from a wide range of units offered through the network of universities. Enrolling for the degree at La Trobe, they will all take a fully online core unit and then select electives from amongst those offered in any of the six universities, depending on accessible modes of delivery such as online, distance or block teaching.

The object of postgraduate program offered through the Centre, either by research or coursework, is to open up career opportunities in the European Union or in related enterprises in Europe or Australia, to enhance the expertise of those already in relevant business or government employment, and to stimulate and sponsor high quality academic knowledge.

The European Union has taken a strong interest in La Trobe's program of study on Europe, and has established a prize for the top students in the undergraduate subject on the European Union. It is hoped that these developments will consolidate La Trobe's position as a centre for European studies, thus making it an attractive choice for those wishing at postgraduate level to build up their knowledge of Europe and the European integration project.

For further information contact:

The Director, Dr Philip Bull

Institute of Latin American Studies

The Institute of Latin American Studies (ILAS), founded in 1975 with the help of a grant from the Myer Foundation, coordinates Latin American teaching and research at La Trobe University. The Director of ILAS is Dr Barry Carr.

In addition to fortnightly seminars, ILAS organises conferences and sponsors visits by Latin Americanists from the Spanish and English-speaking world. Members of ILAS recently organised a major international conference at La Trobe in July 2005. This was the inaugural meeting of a new Asia Pacific Network of Latin American Studies, CELAO. The conference attracted over 100 speakers from nearly two countries in Asia, Latin America and the Pacific and was held at the Institute of Advanced Studies, at the University's Melbourne (Bundoora) campus.

Members of ILAS publish regularly and present their research to national and international audiences. Other activities include editing

and producing JILAS, Journal of Iberian and Latin American Studies, the journal of the Association of Iberian and Latin American Studies of Australasia (AILASA).

An important new initiative by ILAS is the Centre for Mexican Studies. The Centre was launched in September 2006 with a conference and the arrival of the Centre's first Visiting Fellow, Dr Guillermo Palacios, from El Colegio de Mexico in Mexico City. In 2007 the Centre will be holding its second symposium – probably in October.

Other recent projects undertaken by ILAS include: a web-based guide to video and film resources in Victoria dealing with Latin America; project working with Australians Studying Abroad (ASA); cultural and historical tours of Mexico and Cuba; collaboration with Filmoteca, a Melbourne group showing Spanish and Latin American films at ACMI – ILAS and Filmoteca arranged a retrospective exhibition of screenings of the film work of the Mexican director Arturo Ripstein. ILAS also sponsored a visit to La Trobe by the distinguished prize-winning US Mexicanist, Eric van Young of the University of California, San Diego.

For more information visit the ILAS website at: www.latrobe.edu.au/history/ilas/index.html

Research Centre for Linguistic Typology

The Research Centre for Linguistic Typology (RCLT) is part of the Institute for Advanced Study and is primarily concerned with the fundamental business of linguistics. Members undertake intensive studies of previously undescribed (or barely described) languages, focussing in particular on the languages of Amazonia, the Papuan languages of New Guinea and nearby islands, and the Aboriginal languages of Australia. The Centre eschews eclipsing-type formalisms (which are inherently transient), instead working in terms of basic linguistic theory, the cumulative model which is employed in most linguistic descriptions. All of the Research Centre's work has a sound empirical basis but also shows a firm theoretical orientation – it seeks for explanation hand-in-hand with description.

Research at the Centre looks at the ways in which languages influence each other – what kinds of words, or grammatical categories, or construction types, are likely to be borrowed between two contiguous languages, and under what social circumstances? Diffusion of grammatical systems and the spread of languages within a particular geographical area are also research concerns of the Centre.

The Research Centre for Linguistic Typology has a range of Research Fellows and PhD students. Each year a number of leading international scholars spend periods of between three to six months in the vibrant intellectual atmosphere of the Research Centre.

The Centre also organises a biennial international workshop on topics in typological theory as well as various seminars and workshops throughout the year.

Further information is available at: www.latrobe.edu.au/rclt/

Philippines Australia Studies Centre (PASC)

The aims of the Philippines Australia Studies Centre (PASC) are:

- to encourage the development of Filipino and Australian research through publications, workshops, forums and conferences;
- to encourage Filipino students to enrol in Australian postgraduate programs and vice versa; and
- to encourage student exchanges between the two nations through La Trobe University and Ateneo de Manila University.

Since its inception in 2003, La Trobe University staff and postgraduate students have formed strong connections with Filipino universities through the important links and networks that the Centre has created internationally. The international connection has been further enhanced as a result of PASC donating nearly 1000 books to the Ateneo de Manila University library.

In June 2007, the Centre led a 12-person delegation to Manila, Philippines, to present at a series of colloquium, public lectures and art exhibition entitled *Palimpsest: Mapping, Imagining, and Moving Antipodean Landscape*. The delegation consisted of academics, postgraduate students and researchers and the event was hosted by the Ateneo de Manila University.

The Centre also has links with Barangay Australia, a local network of Pinoy Postgraduates from all Victorian Universities. Barangay Australia facilitates a cultural bridge between local and international

students through social activities, and provides assistance in various ways to newly arrived students.

For more information about the Philippines Australia Studies Centre go to: www.latrobe.edu.au/socsci/pasc/

Refugee Health Research Centre (RHRC)

The Refugee Health Research Centre (RHRC) at La Trobe University is located in the School of Social Sciences, Melbourne (Bundoora) Campus and is affiliated with the Victorian Foundation for Survivors of Torture (VFST) in Brunswick. Professor Sandy Gifford is Director of the Centre at La Trobe.

The RHRC promotes the health and well-being of refugee communities through applied and foundation research, teaching, continuing education and professional development. Funding has been provided by La Trobe University, Victorian Foundation for Survivors of Torture (Foundation House) and research project grants from a number of other agencies.

The Centre aims are to:

- undertake multi-disciplinary research into the social determinants of health and well-being of people from refugee backgrounds
- provide post-graduate education in refugee health and resettlement
- provide expertise upon which other organisations can draw to assist them in health promotion, service delivery, and research and policy development
- contribute to community debate and awareness raising.

The RHRC represents an innovative partnership between a university and a non-profit community organisation, integrating research and education with service delivery and community development. Established in 1987, Foundation House is an independent, non-profit community organisation. It provides services and support for both adults and children who have fled persecution, torture and war-related trauma in order to find safety in Australia. Foundation House is recognised internationally for its model of service delivery and resources in refugee health and resettlement.

The work of the RHRC contributes to improving access to health and social services for refugee communities and informs strategies for promoting participation and social inclusion in Australian society. The RHRC builds public awareness and contributes to community debate about issues relating to refugee health and settlement both in Australia and globally.

The RHRC conducts research in four key areas:

Young people

Focusing on the social determinants and contexts that promote health and well-being for young people from refugee backgrounds, with particular attention to key transitions in education and the workforce.

Emerging communities

Focusing on the social contexts that promote health and optimal settlement for newly emerging refugee communities. Investigating the backgrounds of refugee communities including their culture, health beliefs and practices, the impact of refugee experiences on successful settlement, the establishment of social connections, and access and use of health services.

Refugee protection

Focusing on the policies, contexts and factors that constitute protection for people seeking asylum, and the influence of various kinds of protection on the health and well-being of individuals, families and communities.

Service innovation and community strengthening

Focusing on health services and community development research including access to health care, needs assessment and evaluation, and research into community development and strengthening.

RHRC Locations

The RHRC has offices in both the School of Social Sciences at La Trobe University (Bundoora campus) and at the Victorian Foundation for Survivors of Torture (VFST in) Brunswick.

Additional information can be obtained from the RHRC website: www.latrobe.edu.au/rhrc

Thesis Eleven Centre for Critical Theory

The *Thesis Eleven* Centre for Critical Theory, formally established in 2001, is located in the School of Social Sciences, La Trobe University. It is closely aligned with the international journal *Thesis Eleven: Critical Theory and Historical Sociology*. It aims to encourage the development of social and political theory throughout

- the world through publications, workshops, forums and conferences facilitate international exchanges of internationally recognised
- scholars in the field of social and political theory attract overseas students to enrol in the Faculty's postgraduate programs in the field of
- social and political theory and to encourage a local postgraduate research culture and scholarly research in this field.

The Centre focuses on organising four kinds of events:

- Annual and public lectures by leading and renowned intellectuals and scholars, both in Australia and overseas
- Full day seminars on the work and thought of such intellectuals with them present and working in conversation with a range of local interlocutors and discussants of their work
- Half day seminars on particular themes with invited speakers
- Symposia and colloquia in other cities either connected to the work of the journal or to international social theory and social science conferences

In June 2007, the Centre organised a series of colloquium, public lectures and art exhibition entitled *Palimpsest: Mapping, Imagining, and Moving Antipodean Landscapes* in Manila, Philippines, and another series of colloquium and public lectures in Bangkok, Thailand, entitled *Cartographies of Culture, Religion and Thought*. A 12-person delegation attended the events and consisted of academics, postgraduate students and researchers.

For more details about the Centre, visit the website at: www.latrobe.edu.au/socsci/thesiseleven/Centre.htm

Visual Arts Centre

Located in the heart of Bendigo's arts precinct at 121 View Street, Bendigo, the La Trobe University Visual Arts Centre is a contemporary visual arts facility that houses a print workshop, a 67 seat auditorium, public exhibition space, art studios and an artist's residence. The Centre hosts a range of public programs that aim to support the production and promotion of contemporary Australian art and the exchange of ideas through studio practice, academic research and exchange opportunities.

For more information go to www.latrobe.edu.au/vacentre/

Centres and Institutes of the Faculty of Law and Management

Centre for Sustainable Regional Communities

The Centre for Sustainable Regional Communities (CSRC) is an active community development and partnership agent that develops and supports partnership projects with communities. The Centre was established by La Trobe University in 1998 to support regional and rural communities grow in the face of economic, environmental and social challenges. The CSRC is located at the Bendigo Campus. Further information can be obtained from the website at: www.latrobe.edu.au/csrc/

Centres and Institutes of the Faculty of Science, Technology and Engineering

Applied Computing Research Institute (ACRI)

The aim of the Applied Computing Research Institute is to stimulate and promote research and development in applied computing and its applications through promoting collaboration between members of different departments of La Trobe University, providing links between

industry and academia and to exchange and collaborate with other Australian and international universities and research institutes.

The Director of this Institute is Associate Professor Karl Reed.

For further information visit the website:

www.latrobe.edu.au/cs/research/ – Research Centres.

ARC Centre of Excellence for Mathematics and Statistics of Complex Systems

The Australian Research Council (ARC) has established Centres of Excellence to maintain and develop Australia's research output in four designated areas:

- Nano-Materials and Bio-Materials
- Genome/Phenome Research
- Complex/Intelligent Systems; and
- Photon Science and Technology.

These Centres are also expected to generate economic, social and cultural benefits for Australia.

The ARC Centre of Excellence for Mathematics and Statistics of Complex Systems comprises 14 chief investigators from La Trobe University, The University of Melbourne, Australian National University, The University of New South Wales, and The University of Queensland, all of whom have international reputations for their research in mathematics and statistics. The Centre's mission is to stimulate research activity in mathematical and statistical modelling of complex systems.

Further information can be obtained from the website at www.complex.org.au

Biotechnology Research Centre

The Biotechnology Research Centre, based at the Bendigo Campus, has two main areas of research interest: wastewater treatment and microbial fermentation. It also offers a number of services to the wastewater industry.

The Centre has adopted a multi-disciplined approach to studies of wastewater treatment systems, particularly conventional and advanced activated sludge processes. Members of the Centre have an international reputation for their work into the microbiology and chemistry of biological phosphorous removal processes, and their studies with the filamentous bacteria causing bulking and foaming in these systems. The Centre also carries out research into the production of metabolites by microbes, and it has a particular interest in the growth kinetics and behaviour of filamentous bacteria and fungi in fermenters. Research interests have concentrated on the factors affecting production of several polysaccharides of fungal origin in sophisticated laboratory scale fermentation systems.

Further information can be obtained from the website at www.latrobe.edu.au/brc/

Centre of Excellence for Coherent X-ray Science

The Centre of Excellence for Coherent X-ray Science was established in 2005 with a grant of \$9 million from the Australian Research Council over five years and \$1.8 million from the Victorian Government's Science Technology and Innovation Initiative. The Centre brings together physicists, chemists and biologists to develop fundamentally new approaches to probing biological structures and processes. It combines world-class expertise in imaging, structural biology, laser science and molecular theory. The project will develop novel high-resolution imaging using the Australian Synchrotron, and ultimately X-ray lasers, to determine the structures of important drugs targets whose molecular architecture cannot be determined with current techniques.

The Centre's Director is Professor Keith Nugent, Federation Fellow in Physics at the University of Melbourne. Professor Tilley, Department of Biochemistry is Deputy Director, while Associate Professor Andrew Peele (Physics) and Associate Professor Mike Ryan (Biochemistry) are Project Leaders.

Further information can be obtained from the website at www.coecxs.org

Centre for Materials and Surface Science

The Centre for Materials and Surface Science (CMSS) is an interdisciplinary research centre involving staff from the departments of Physics, Chemistry, Electronic Engineering and Pharmacy. CMSS research activities are predominantly within the areas of

materials and surface science involving significant interaction with both local and international industrial and academic research organisations. The Centre aims to:

- promote cooperative activities and programs in education and research
- encourage collaboration between local and international organisations
- provide, receive and disseminate information in the areas of the centre.

CMSS operates one of Australia's major surface analysis facilities, incorporating state-of-the-art x-ray photoelectron spectroscopy (XPS), time-of-flight secondary ion mass spectrometry (TOF-SIMS), scanning probe microscopy (SPM) and optical contact angle analysis. The facility serves around 25 universities and research organisations from Australia and the Asia Pacific region and 40 companies.

CMSS hosts the La Trobe node of the Victorian Centre for Advanced Materials Manufacturing (VCAMM), a state government funded, multi-institutional research centre committed to assisting companies with advanced research and development activities.

Further information can be obtained from the website at www.latrobe.edu.au/surface/

Murray-Darling Freshwater Research Centre

The Murray-Darling Freshwater Research Centre (MDFRC) is an unincorporated joint venture between CSIRO (through its Division of Land and Water), the Murray-Darling Basin Commission, and La Trobe University. Additional investment is provided by the Australian Government through the Department of Agriculture, Fisheries and Forestry.

The MDFRC is a multi-disciplinary centre which undertakes research into environmental flows, biological and chemical monitoring, nutrient ecology and algal blooms, fish and invertebrate ecology, macro and microinvertebrate taxonomy, and water quality assessment. MDFRC operates two regional laboratories, strategically based in the Murray-Darling Basin, at Albury-Wodonga (established for 21 years) and Mildura (established for 11 years). Both laboratories are co-located on the campuses of La Trobe University. MDFRC employs over 30 scientific and support staff and has within its structure: an established NATA accredited chemical laboratory, an invertebrate taxonomy voucher collection housing approximately 2,500 species, an interactive guide and resource for the identification and ecology of Australian freshwater invertebrates, a microbiological laboratory (enumeration and identification of bacteria using both traditional and molecular techniques) in aquatic ecosystems, and waste treatment plants.

The Centre's Director is Dr Ben Gawne, and further information can be obtained from the website at www.mdfr.org.au/

Research Centre for Applied Alpine Ecology

The aims of the Centre are to undertake research and scholarly activity that will gain and communicate an understanding of the ecology of alpine landscapes that can be used for their wise and sustainable management. Specifically, the Centre conducts research based on the research needs of alpine landscapes and ecosystems attracts research funds from governments and industry and attracts researchers and postgraduate students.

The Centre consists of 20 La Trobe staff and eight research students drawn from the departments of Botany, Zoology, Agricultural Sciences, Environmental Management and Ecology (Wodonga) and Geology (Bendigo). Researchers from other organisations such as University of Melbourne and CSIRO collaborate on specific projects. The researchers involved in the Centre have a disciplinary breadth and experience of working in the alps that is not found in any other Melbourne institution.

Current research is wide-ranging and includes post-fire regeneration in alpine and sub-alpine landscapes, the ecology and genetics of *Burramys parvus* (Mountain Pygmy possum) populations in the Victorian alps, the ecology of alpine peatlands and their restoration, the ecology, taxonomy and conservation of alpine invertebrates, and the use of plant functional types to understand long-term vegetation change.

A collaborative project with the University of Melbourne is assessing the potential impacts of climate change on vegetation in the Victorian Alps. This research, funded by an ARC Grant, the Department of

Sustainability and Environment, and Parks Victoria, is linked to the International Tundra Experiment (ITEX). In February 2007, the Centre hosted the Annual Meeting of ITEX, drawing researchers from overseas and Australia.

The Centre conducts the Alpine Ecology Course each summer and specialised land rehabilitation courses.

Further information email: alpine.ecology@latrobe.edu.au

Cooperative Research Centres

The University is also a participant/member of the following centres/institutes:

INFORMATION FOR PROSPECTIVE AND CURRENT STUDENTS

Campus Student Administration Centres

Students should refer administrative queries to the following:

Albury-Wodonga Campus

Student Administration Office on the ground floor of Building 4, University Drive, Wodonga.

The office is open Monday, Tuesday, Wednesday and Friday, between 9.00 am and 5.00 pm; and Thursdays from 9.00 am to 4.00 pm.

Bendigo Campus

Student Administration, Administration Precinct, Edwards Road, Flora Hill. The office is open 9.00 am to 5.00 pm

Melbourne (Bundoora) Campus

Student Centre, Level 2, David Myers Building, Bundoora.

The office is open Mondays, Tuesdays, Thursdays, Fridays, 8.45 am to 5.00 pm; and Wednesdays, 8.45 am to 4.00 pm

Melbourne (City) Campus

Campus Administration Office, 215 Franklin Street, Melbourne.

The office is open during teaching periods: Monday to Thursday, 8.30 am to 9.00 pm; and Friday, 8.30 am to 6.00 pm. The office hours at other times: Monday to Friday, 8.30 am to 6.00 pm

Mildura Campus

Campus Administration Office, Benetook Avenue, Mildura.

The office is open Monday to Friday, 9.00 am to 5.00 pm

Shepparton Campus

Campus Administration, 127 Welsford Street, Shepparton.

The office is open Monday, Wednesday and Thursday, 9.00 am to 5.00 pm; Tuesday, 9.00 am to 6.00 pm; Friday, 9.00 am to 4.00 pm

Important dates

2008 standard teaching periods

Semester or term	Starts on	Ends on
Summer Semester	2 January	17 February 2008 (may vary from faculty to faculty)
Semester 1	25 February	30 May 2008
Semester 2	21 July	24 October 2008
All Year Semester	25 February	24 October 2008
Term 1	7 January	16 March 2008
Term 2	31 March	8 June 2008
Term 3	23 June	31 August 2008
Term 4	15 September	23 November 2008

2008 research teaching periods

Research periods	Starts on	Ends on
TR-RES-1	1 January	30 June
TR-RES-2	1 July	31 December

2008 non-standard teaching periods

The University also delivers a number of non-standard teaching periods through third-party providers or to meet special course requirements. The University publishes a comprehensive list of all teaching periods and associated Unit Census Dates on the University's website at: www.latrobe.edu.au/acadserv/current/fees. Non-standard teaching periods appear in the form Wxx-yy, for example W12-22. These indicate the whole weeks of the teaching period, from the first Monday to the last Sunday. For example: W12-22 has a teaching period that begins on the twelfth whole week in 2008 (Monday 17 March) and finishes on the twenty-second whole week in 2008 (Sunday 1 June).

2008 official vacation dates

Vacation	Starts on	Ends on
Mid-semester 1 vacation	24 March	30 March 2008
Inter-semester vacation	27 June	20 July 2008
Mid-semester 2 vacation	29 September	5 October 2008

2008 official examination/assessment dates

Supplementary/Special examination period for 2008

4 January–18 January 2008

Semester 1 mid-year examination period

6 June–26 June 2008

Mid-year supplementary/special examination period for 2008

to be announced

Semester 2/all year semester annual examination period

31 October–20 November 2008

2008 official study breaks

Study break	Starts on	Ends on
Semester 1	2 June	5 June 2008
Semester 2/All Year Semester	27 October	30 October 2008

2008 public holidays

The University will close for the Christmas/New Year break at 5.00 pm on Friday 21 December 2007 and will re-open on Wednesday 2 January 2008.

The University is also closed on:

Monday 28 January 2008	Australia Day
Friday 21 March to Tuesday 25 March 2008 inclusive	Easter
Friday 25 April 2008	ANZAC Day
Monday 9 June 2008	Queen's Birthday

The University remains open on Labour Day (12 March 2008), Melbourne Cup Day (4 November 2008) and the former Show Day.

Admissions

Undergraduate admission requirements

Admission to courses in the University is competitive, with selection based on a combination of academic merit and a selection committee's assessment of an applicant's ability to complete a course. Applicants must meet the University's basic admission requirements and any additional requirements of Faculties for the course to which they seek admission.

Applicants for award courses at La Trobe University must normally be at least 16 years of age by 31 December in the preceding year to be eligible for admission. Applicants who do not meet this requirement should make a case for admission, which will be considered by the appropriate faculty dean on an individual basis.

In the main, applicants apply through VTAC for undergraduate courses and postgraduate education courses. Applicants for selected courses at Albury-Wodonga and Mildura campuses may apply through the New South Wales University Admissions Centre (UAC). Direct applications may be made to the University for mid-year entry, postgraduate courses and after VTAC and UAC closing dates.

International students should also refer to information in the 'International students' chapter in this Handbook.

Normal requirements for admission

The University's minimum requirements for admission are met by any student who has:

1. satisfactorily completed the Victorian Curriculum and Assessment Authority Victorian Certificate of Education (VCE) and Units 3 and 4 English (any). Any of the four VCE English subjects – English, Literature, English Language or English as a Second Language – these units must be completed in sequence and in the same calendar year or
2. gained qualifications equivalent to (1) above recognised as such by the Victorian Tertiary Admissions Centre (VTAC). This covers interstate, International Baccalaureate and overseas qualifications and qualifications obtained under previous conditions, including compensation or concessional arrangements or
3. gained a Victorian Curriculum and Assessment Authority Statement of Equivalent Qualification to the VCE or
4. fulfilled the requirements of one of the University's alternative entry schemes.

In exceptional cases, the dean of a faculty may admit a year-12 applicant who has not satisfied normal University entrance requirements. In such cases, the applicant must have satisfied course subject prerequisites and have achieved a level of performance which, as part of a complete certificate, would clearly merit selection into the course.

While normal requirements for admission are as listed above, most courses require a study score of at least 20 in Units 3 and 4 of English (any). All students are expected to have an adequate command of the English language in order to pursue their chosen course.

Any person offered a place at La Trobe University in 2008 may be required to sit an English language test. An applicant found to be below the necessary standard may be required to undertake a remedial English language course conducted by the University concurrently with his or her undergraduate course or may have his or her provisional offer withdrawn.

Applicants whose principal language of instruction was other than English must provide evidence of their proficiency in English. This can be done by achieving a satisfactory result in VCE English (any) or in an International English Language Testing System (IELTS) or another test acceptable to the University. For further information telephone the International Programs Office on (03) 9479 1199.

VTAC and UAC applicants with IELTS or other test results should supply them directly to their relevant admission centre with their application. Other applicants should provide their results directly to the course selection officer(s). Applications may not be considered until results have been provided.

Additional requirements for admission to the courses offered by a given faculty are listed in that faculty's section in this *Handbook*.

Complete details regarding requirements for admission, including course prerequisites and application procedures are available in the *VTAC Guide 2008 – A Guide to University and TAFE Courses* and in the *VICTER 2008 – Victorian Tertiary Entrance Requirements*.

Special entry access schemes

The University offers several special entry schemes, details of which are provided below. All schemes require application through VTAC's Special Entry Access Scheme (SEAS), and may require applicants to submit supplementary information directly to the University. The supplementary information required may include:

- completion of a personal particulars form
- an autobiographical essay
- mathematics test (relevant to the course applied for)
- an aptitude test, e.g. Special Tertiary Admissions Test (STAT)
- an interview.

Information regarding the eligibility criteria and application process for La Trobe University's equity and access schemes are provided in the institutional information contained in the Special Entry Schemes (SEAS) booklet available from VTAC www.vtac.edu.au.

Indigenous Australians

Aboriginal and Torres Strait Island people are encouraged to apply for entry to La Trobe University and will be considered on an individual basis. All applicants, including VCE students and non-VCE applicants, must apply through VTAC and complete the appropriate section of the VTAC SEAS-Access and Equity application form with relevant supporting evidence and statements. Applicants may be asked to attend an interview with a panel including the Aboriginal Liaison Officer, and may also be asked to provide some written information. For assistance with your application, contact the Ngarn-gi Bagora Indigenous Centre (Melbourne Bundoora campus) or the Aboriginal Liaison Officer at the campus to which you are applying for entry.

Mature aged entry (non-year-12 applicants)

Applicants aged 21 years or more at 1 January 2008 who have not completed a semester of tertiary level studies (including post-Year-12 TAFE qualifications) in the last two years may be eligible for entry into the University via the University's Mature Age Entry Scheme. Applicants should apply through VTAC and complete the appropriate section of the VTAC SEAS-Access and Equity application form with relevant supporting evidence and statements. Depending on the course(s) applied for, applicants under this category may also be required to submit an autobiographical essay, undertake a STAT Multiple Choice, STAT Written English and/or sit a mathematics test.

Disadvantaged groups

Applicants who feel that a significant part of their preparation for tertiary study has been adversely affected by one or more of the following factors may apply for special consideration:

- non-English speaking background

- difficult family circumstances
- disadvantaged socio-economic background
- rural or isolated applicants
- applicants from under-represented schools
- disability or long-term medical condition.

Applicants should apply through VTAC and complete the appropriate section(s) of the VTAC SEAS-Access and Equity application form with relevant supporting evidence and statements.

Year-12 special consideration scheme

This application is aimed at assisting those current year-12 students who have experienced circumstances that can be demonstrated to have had an adverse impact on the final year of their secondary school performance. La Trobe University will take into account the information provided on the VTAC Year-12 Special Consideration application form when ranking current Year-12 applicants for 2008 selection, provided the application meets the criteria for a SEAS-Year-12 Special Consideration application and appropriate supporting statements are provided. Information regarding the eligibility criteria and application process for this scheme is provided in the Special Entry Access Schemes (SEAS) booklet, available from the VTAC website at www.vtac.edu.au. For information specific to La Trobe, go to www.latrobe.edu.au/access/

Regional consideration

In pursuing its regional mission, the University may adjust upwards the aggregate points of applicants from regional schools. Details of the regional school bonus applied to specific course codes can be found at www.latrobe.edu.au/access/

Admission procedures

All prospective domestic students seeking entrance to any degree or diploma course for full-time or part-time studies at first year level must apply through VTAC by 5.00 pm on 28 September 2007. Late applications will be accepted by VTAC until 5.00 pm on 16 November 2007, subject to the payment of the prescribed late fee. Very late applications will be accepted by VTAC until 5.00 pm on 14 December 2007, subject to the payment of the prescribed very late fee.

Offers of admission

The normal VTAC procedure detailed in the VTAC Guide 2008 provides for undergraduate applicants to be offered places as follows:

late November – early December	Early offers
Late January	Round one offers
February	Round two and subsequent offers

Students are notified of offers officially by post. Prospective students applying directly to the University would normally expect to receive offers within this timeframe.

Advanced entry

Current or previous university or TAFE students may be eligible for advanced entry to La Trobe University courses and should apply as follows:

Albury-Wodonga, Melbourne (Bundoora), Mildura, and Shepparton campuses

Directly to the selection officer of the intended course if a current La Trobe University student, or through VTAC or UAC (selected courses) if not a current La Trobe University student.

Bendigo campus

Directly to the selection officer of the intended course if a current La Trobe University or Bendigo Regional Institute of TAFE student. All other Bendigo applicants should apply through VTAC.

Graduate Diploma in Education

All applicants (other than international applicants) for the Graduate Diploma in Education must apply through VTAC.

Enrolment and re-enrolment

Enrolment for 2008

New undergraduate and postgraduate domestic students who apply through VTAC or UAC will be sent a copy of the La Trobe University Enrolment Guide 2008 after they receive an offer. New undergraduate and postgraduate domestic students who successfully

apply directly to the University will be contacted by the relevant faculty by way of a letter of offer. New international undergraduate or postgraduate coursework or postgraduate research students who successfully apply directly to the University via the International Programs Office will be contacted by that office by way of a letter of offer. Enquiries from domestic students regarding research and higher degree studies should be made directly to the Research and Graduate Studies Office. For further information email rgs@latrobe.edu.au

Advanced standing

Students who have studied at tertiary level elsewhere, or who have relevant studies or work experience, may be eligible for some credit towards a La Trobe University qualification. Each faculty has different policies in respect to the number and type of units and any work experience it is willing to accept for credit purposes. Students should apply for credit after they have been offered a place and at the time of enrolment.

Applicants who have completed a TAFE course may be eligible to apply for entry into related degree courses with a significant level of credit through the La Trobe – TAFE Pathways Program. For example, students who have satisfactorily completed the Diploma of Hospitality Management may be granted up to eight units of credit when enrolling in the Bachelor of Business (Tourism and Hospitality).

For applicants with partial university studies, completion of individual units can lead to credit(s), determined on an individual basis, which takes into account the units already completed and those required in the La Trobe University course. Credit arrangements are dependent on the specific studies already completed and the La Trobe University course in which the student enrolls. Further information is available from the relevant La Trobe University faculty or Course Adviser. Advanced Standing must be completed by the relevant unit census dates. This includes the removal of units for which your faculty has granted Advanced Standing. International students holding a student visa are reminded that Condition 8202 relates to a student visa holder's enrolment attendance and academic progress. Therefore, students are required to be enrolled on a full time basis at all times, except during the final term or semester of their course. This includes instances where an international student receives Advanced Standing for previous studies. Note that international students may not enrol in less than 75percent of a full time load.

To access La Trobe University's Advanced Standing Policy go to www.latrobe.edu.au/policies/assets/downloads/credit_standing.pdf

Re-enrolment for 2009 (continuing students)

Students who have been enrolled in, but have not completed, a course in the preceding year need not apply for re-admission, but must comply with current University re-enrolment procedures.

Undergraduate degree, postgraduate graduate diploma, Masters preliminary and Masters by coursework students normally pre-enrol from October 2008 onwards via a web-based service called StudentOnLine unless advised otherwise by the faculty of enrolment. Research and higher degree students are not normally required to re-enrol annually as their enrolment is continuous unless advised otherwise by the faculty of enrolment or the Research and Graduate Studies Office.

Continuing (returning) students who fail to submit an enrolment plan by the due date set by the faculty of enrolment may not be guaranteed a place in the course in 2008 as their course enrolment may lapse. Failure to re-enrol by the date specified in your re-enrolment information may result in the imposition of a late re-enrolment fee of \$110.00.

Enrolment variations – addition and deletion of units

Any change to the status of a unit attempt is normally made via application on the 'Variation of Enrolment' form to a faculty office or local Student Administration Office for domestic campuses. This includes variation of enrolment, advanced standing (see Admissions section above) and enrolment in cross-institution units. In most faculties, students are able to vary unit attempts using the web-based enrolment variation facility, StudentOnLine, which can be accessed from the University's website at www.latrobe.edu.au/acadserv/current/studentonline.html

In the first instance all enquiries concerning variation of unit attempts should be directed to a faculty office or local Student Administration Office for small or domestic campuses.

Addition of a unit

Each faculty annually sets deadlines for variations to enrolment that may involve the addition of a unit after the commencement of the teaching period, but prior to the Unit Census Date. Enquiries regarding these important dates should be directed to the faculty office or local Student Administration Office for small or domestic campuses. Addition of any units after the Unit Census Date will be treated as full fee-paying units. Students will not automatically be entitled to HECS-HELP or FEE-HELP for those units as the enrolment responsibilities have not been met.

Deletion of a unit

All changes to enrolments involving the deletion of a unit should normally be made prior to the Unit Census Date for a given teaching period. Discontinuation of a unit attempt after the Unit Census Date in most cases will lead to the unit attempt remaining on the student's academic record. Fees, HECS-HELP or FEE-HELP liability will remain if discontinuation of a unit attempt is after Unit Census Date in the given teaching period.

Subject to course and unit rules and conditions, the final decision on any change to an enrolment is that of the student, with the exception of adding units after the teaching period has commenced. Any decision should be made in consultation with an adviser of studies within your faculty of enrolment.

Important dates for the discontinuation of a unit in the Official 2008 Standard Teaching Periods

Semester	Semester starts	Semester ends	Last day for discontinuation of unit(s) without financial penalty
Summer Semester units	2 January	17 February 2008 (may vary from faculty to faculty).	16 January 2008
Semester 1	25 February	30 May 2008	27 March 2008
Semester 2	21 July	24 October 2008	21 August 2008
All Year Semester	25 February	24 October 2008	15 May 2008
Term 1	7 January	16 March 2008	29 January 2008
Term 2	31 March	8 June 2008	22 April 2008
Term 3	23 June	31 August 2008	15 July 2008
Term 4	15 September	23 November 2008	7 October 2008

Unit Census Date

This is the date from which Fees, HECS-HELP (HECS), or FEE-HELP liability remains payable for a given unit enrolment in a given teaching period.

Detailed information regarding the University's Unit Census Dates for 2008 will be available at the University's website

www.latrobe.edu.au/acadserv/current/fees from October 2007.

Application of K Grades after the discontinuation of a unit

Discontinuation of a unit, after the completion of one-third of the teaching period in which the unit is offered (or the Unit Census Date), but prior to the completion of two-thirds of the teaching period in which the unit was offered, results in a K grade being awarded (withdrawal, not counted as a failure).

Discontinuation of a unit, after completion of two-thirds of the teaching period in which the unit is offered, but prior to the end of that teaching period, results in a KN grade being awarded (withdrawal to count as a failure).

Students cannot discontinue a unit enrolment once the teaching period in which it was offered has ended.

Students must check their enrolment carefully prior to Unit Census Dates. This can be achieved using the web-based enrolment facility, StudentOnLine, which can be accessed via the University's website at www.latrobe.edu.au/acadserv/current/censusdates.html. Problems regarding incorrect unit enrolments should be brought to the attention of the relevant faculty office or local Student Administration Office for a small or domestic campus immediately.

Cross-institution unit enrolment for La Trobe students at another institution

Students who wish to study one or more unit(s) with another higher education provider within Australia, which will be credited toward their degree at La Trobe University, must complete an 'Application for Cross-Institution Enrolment' form.

Requests must be approved by the Faculty of enrolment in conjunction with the host provider and then lodged with the local Student Administration Office.

Responsibility for enrolment at the host provider rests entirely with the student. A cross-institutional (Out) student may incur a fee, HECS-HELP or FEE-HELP liability at the host provider for the extra unit(s) and appropriate arrangements should be made with that institution.

Cross-institution unit enrolment at La Trobe University for students from another institution

Students from another higher education provider within Australia, who wish to study at La Trobe University, must provide written approval from their home institution. The relevant Faculty of enrolment must also approve any request and the student must ensure that they are properly enrolled by the appropriate Unit Census Date. A Commonwealth Supported Place (CSP) is not guaranteed unless the enrolment at La Trobe University is a compulsory component of a CSP funded course from the student's home institution.

A cross-institutional (In) student may incur a fee, HECS-HELP or FEE-HELP liability at La Trobe University for the extra unit(s) and appropriate arrangements should be made with the University.

Variation of course attempt (enrolment)

Any changes to the status of your course enrolment must be made via application to a Faculty office or local Student Administration Office for small or domestic campuses. This includes deferral, intermission, transfer and discontinuation of course.

Deferral, intermission, transfer and withdrawal of enrolment

Deferral of enrolment (prior to commencement of course)

Deferment may be granted in most undergraduate and postgraduate courses. Most applications for deferment in undergraduate courses are approved and the process that must be followed is outlined in the La Trobe University Enrolment Guide 2008.

In the first instance all enquiries concerning the deferment of a postgraduate course should be directed to the Faculty office or local Student Administration Office for domestic campuses. It is not normally necessary to attend the University in person to seek deferment. Written applications should be made directly to the Selection Officer for the course at the relevant campus, by the date specified for accepting the offer.

Enquiries involving possible deferment of research and higher degree studies should be taken directly to the Research and Graduate Studies Office.

Commencing students cannot defer studies once they have incurred any fees, HECS-HELP or FEE-HELP liability (see Intermission of Course Attempt).

Students who fail to notify the University that they will be taking up a deferment, by the due date set by the Faculty of enrolment, may forfeit that place in 2009.

Intermission of enrolment (post commencement of course)

Intermission may be granted in all undergraduate and postgraduate courses, and faculties set policies regarding the administration of this process. In the first instance all enquiries concerning the intermission of an undergraduate or postgraduate course should be directed to a Faculty office or local Student Administration Office for domestic campuses. It is not normally necessary to attend the University in person to seek intermission of course attempt. Written applications using the 'Application for Intermission of Studies' form should be submitted directly to the Course Coordinator/Adviser of Studies from

the Faculty responsible for the administration of the course or local Student Administration Office for domestic campuses. Students will be notified in writing on the success of their application, clearly outlining the approved period of intermission.

Enquiries involving possible suspension of research and higher degree studies should be made directly to the Research and Graduate Studies Office.

Students cannot intermit their course enrolment to avoid the requirement to 'Show Cause' for unsatisfactory academic progress in a given academic year.

Fees, HECS-HELP or FEE-HELP liability is dependant upon the date on which the student received approval from the faculty to intermit their course.

Students who fail to notify the University that they will be returning from intermission by the due date set by the Faculty of enrolment may forfeit that place in 2009, as their course attempt will lapse. International students holding a student visa should note that Intermission of study for greater than six months usually results in cancellation of their student visa. Within 28 days of the approved date of Intermission, a student is required to either leave the country or apply for another visa.

Transfer of course

Transfers from one course to another within the University may be considered on an individual basis. This includes transfers (articulations) from one postgraduate course to another where the initial course of enrolment contains another component or 'embedded' course.

An 'Application to Transfer Course' form must be completed and submitted to the appropriate Faculty of enrolment to which you wish to transfer. Contact Faculties for submission deadline dates.

Applications for the transfer of a course received after the deadline date for submission, as set by the Faculty or school of enrolment, may not be considered for teaching periods commencing in 2009. Students pending approval to transfer must re-enrol in their current course. If approved, students will be notified by their Faculty office. Note that the University is obliged to inform the Department of Immigration and Culture if an international student transfers their course.

Enquiries involving the possible upgrade or downgrade of research and higher degree studies should be made directly to the Research and Graduate Studies Office.

Discontinuation of enrolment (withdrawal)

Undergraduate and postgraduate domestic students can discontinue their course enrolment by completing a 'Discontinuation of Enrolment' form and submitting it to the faculty of enrolment or local Student Administration Office.

Enquiries involving possible discontinuation of research and higher degree studies should be made directly to the Research and Graduate Studies Office.

Students contemplating discontinuation of enrolment are strongly encouraged to discuss this with a Course Adviser and consult with counselling services, or the International Student Support Services staff at the International Programs Office.

All changes to enrolments involving the discontinuation of a unit should normally be made prior to the Unit Census Date for a given teaching period. Discontinuation of a unit after the Unit Census Date, but before the end of the teaching period may remain on the student's academic record. Fees, HECS-HELP and FEE-HELP liability will remain depending on the Unit Census Date for the effected units in the given teaching period.

Important dates for the deletion of a unit for the official 2008 semester and term dates are located at www.latrobe.edu.au/acadserv/current/importantdates

In accordance with administrative requirements of the Higher Education Support Act (2003) students must be informed, and give consent, to any overpayment in enrolment fees being used as credit against current and future liabilities with the University.

Credits or overpayments to enrolment fees usually arise from variations to enrolment, discontinuation of course enrolments and intermission of studies. These credits are not automatically refunded. Students must apply via an 'Application for Refund' form at www.latrobe.edu.au/acadserv/current/fees.html#refunds

Should your enrolment be varied, intermitted or discontinued resulting in an overpayment of enrolment fees, you will be given an opportunity to nominate whether you wish to have the monies credited against current and future liabilities with the University. Current and future liabilities are defined as monies outstanding to the University which may arise from library loans or fines, non payment of financial assistance loans, monies owing to commercial areas of the University such as (but not limited to) accommodation or child care services, or student contribution fees.

Types of degrees available

Double degrees and concurrent enrolments

The University offers a range of double-degree programs, which allow students to receive two three-year degrees after four years of study. Details can be found in the faculty sections of this *Handbook*. A concurrent enrolment is a simultaneous enrolment in two courses, which can normally be completed in less time than if they were taken separately. Thus, combinations of degrees can be taken for which there is no formal double-degree program. These are also referred to as combined degrees. Rules, guidelines and further information regarding this type of program can be provided at the relevant faculty office or local Student Administration Office at domestic campuses. Students require faculty permission to enrol concurrently in two single awards.

Honours year studies

An Honours degree is the normal prerequisite for entry to higher degree studies – Masters and doctoral courses. It is usually awarded as a first class, second class (upper division), second class (lower division) or third class degree.

You can obtain an Honours degree by taking a fourth year of study after completion of a three-year bachelor course, normally with a B-grade average or better. Entry to a fourth-year Honours program is commonly by invitation only from the faculty of enrolment.

The course content is usually a combination of coursework and minor thesis. In some cases a quota may apply to the number of candidates accepted.

Some schools offer joint Honours programs which combine two disciplines. In many four-year bachelor courses it is possible to obtain an Honours degree by achieving particularly good marks throughout the course or by choosing an Honours stream. Failure to complete an Honours program successfully does not jeopardise a student's entitlement to the pass degree. Normally fees, HECS-HELP or FEE-HELP student liability status will remain the same as the linking undergraduate bachelor course.

Higher degree studies

This information comprises only a brief introduction to the options available after completing a pass degree. More detailed information is available from school and faculty offices, your local Student Administration Office, the Research and Graduate Studies Office (RGSO), and the Faculty sections of this *Handbook*. Information about financial assistance for higher degree studies can be found in the 'Fees, scholarships and financial matters' section of this chapter.

Masters preliminary or postgraduate diploma studies

Students who do not have an Honours degree and who aspire to higher degree study may be permitted to undertake Masters preliminary study, a non-award program that is generally equivalent to an Honours year. Successful completion will normally qualify a student for entry to a Masters program. Some schools do not offer a Masters preliminary program – in those (and some other) schools, completion of a postgraduate diploma may qualify a student for entry to a higher degree program.

Higher degree studies (Masters and doctoral degrees)

Higher degree courses available at La Trobe include Masters by Coursework, Masters by Research, Doctor of Philosophy (the PhD) and Professional Doctorates. All students interested in pursuing higher degree studies by research should make enquiries directly to the postgraduate coordinator in the relevant faculty/school.

Student identification and contact details, privacy of information

Student status

A student remains a student only until the start of the next consecutive teaching period providing that they have formally re-enrolled. For example, a student who has only a Semester 1 2008 enrolment will cease to be a student on the commencement of Semester 2 2008. Students enrolled in both semesters will continue to be a student until the commencement of the next consecutive teaching period. At this time the student's enrolment status lapses if they are not formally enrolled.

Student status for Centrelink purposes may differ and it is recommended that students seek advice from Centrelink.

Name changes

Students must notify the University immediately of any name changes. Official documentary evidence (e.g., marriage certificate, passport, birth certificate) is required before a change of name will be amended on the University's student information system. For the purposes of conferring an award, a student cannot change his or her name after the award has been conferred. (Please note: this is currently under review.)

Privacy of student information

La Trobe University respects the privacy of your personal information. Personal information about you is collected and handled by the University to ensure your entitlements and obligations at La Trobe University are established and appropriately managed. Personal information we collect from you can be accessed from your local Student Administration Office in accordance with applicable laws. Further information regarding information privacy at La Trobe University is available at:
www.latrobe.edu.au/records/privacy/ltu.htm

Use of email for communication with students

Under University policy, La Trobe's normal medium for official communication with students is email to and from official University accounts. Communications about day-to-day student administrative

matters will be sent by email only, to the email addresses allocated to the students by the University. Communications about matters of critical importance, such as the outcomes of 'show cause' hearings, will be sent both by email and by postal mail. All students should note that:

- communication sent to the official La Trobe student email account is deemed to have been delivered to the student
- students are responsible for checking their University email account frequently, and generally no less than twice weekly
- the University normally does not enter into email communication with students who contact the University from an email address other than their official La Trobe address, as it is impossible to authenticate the sender's identity.

Students who believe that this policy may disadvantage them on equity or access grounds may submit a case for alternative arrangements. For more information, contact the Policy Unit in the Academic Services Division: academic_policy@latrobe.edu.au.

Student contact details

Students must notify the University immediately of any changes to their local and/or overseas postal address. In certain circumstances, official University communications are forwarded to a student's local and/or overseas postal mailing addresses as recorded on the enrolment form, or as subsequently amended throughout the duration of their studies. Changes to an address can be made by a student using StudentOnLine or by the 'Amendment to Personal Details' form available from your local Student Administration Office. It is University policy that any official communication directed to the last known local postal address of a student is deemed to have been delivered to the student.

Student identity cards

La Trobe Cards are issued to students at the time of their first enrolment and need to be updated each year on re-enrolment (subject to change in 2008). La Trobe ID cards are issued to students at Bundoora and Bendigo campuses on the day of enrolment. Students from Albury-Wodonga, Mildura and Shepparton will have their cards issued after their enrolment has been processed.

The La Trobe ID card is used for:

- identification
- library borrowing
- photocopying and network printing
- building access.

If your ID card is damaged you can purchase a replacement card for \$20.00 from the Card Centre (or in the case of regional campuses, your Student Administration Office).

If your ID card is lost or stolen you must report it immediately to the Card Centre on (03) 9479 1349. The Card Centre is located in the Student Administration Office, Level 2, David Myers Building, Bundoora Campus. If you are located at a regional campus, you can advise your local Student Administration Office. It is also suggested that you report any card loss/theft to the Library immediately, to avoid any fraudulent book borrowing.

A replacement card will be issued to you at a cost of \$20. If your card was stolen and you can present a police stolen property report, a replacement card will be issued free of charge.

Students should carry their La Trobe ID card at all times while on campus. Students may be requested to produce their card as proof of identity by an identified officer of the University. Student cards are required as proof of identity at all examinations and Student Administration Offices.

Cards are issued to students as proof of identification. Cards must be returned to the Card Centre should your enrolment at the University cease. The University reserves the right to cancel cards and remove access to facilities when enrolment ceases.

The University adopts the Australian Government Passport photo guidelines with regard to ID card photo standards. If a student is unable to comply with these guidelines due to religious or cultural practices, particularly regarding the wearing of a burkah or other such garment, students will be provided with a secondary proof of ID card. This card will include a specimen signature, which will be used as further proof of identity, especially under examination conditions. Students will be required to provide both forms of ID while on campus and during examinations.

StudentOnLine

The University provides an interactive website for students – StudentOnLine which enables students to check their enrolment, re-enrol, vary enrolment, change postal addresses, check results and course completion, view and print an unofficial transcript, pay fees and access other student services. A username and password is required by the student to access the site and students are required to change the password when accessing the service for the first time.

Passwords and usernames are printed on the first Statement of Account which is issued following a student's commencing enrolment (subject to change in 2008). The reissuing of a new password may incur a \$10 replacement fee.

University charges for 2008

The following charges applied at the time of printing of this *Handbook*:

Late unit enrolment fee	\$32
Revival of enrolment fee	\$105
Late fee payment charge	\$85
Academic transcript	
• 24 hour service	\$30
• weekly service	\$15
• additional copies	\$2
Replacement testamur	\$100
Replacement StudentOnLine password/PIN	\$10
'To whom it may concern' letter	
• 48 hour service	\$25
Late re-enrolment fee	\$110
Personal (unofficial) record	\$6
Graduation attending	
• Local	\$85
• Overseas	\$100
ID card replacement	
• Plain card	\$10
• SmartCard	\$20

For an explanation of the above charges, contact your local Student Administration Office.

Complaints about charges

If staff or students are concerned that, in individual cases, charges may constitute violations of the Higher Education Support Act, the matter should at first be taken up with La Trobe University and then Department of Education, Science and Training (DEST) if unresolved. It is the responsibility of the University to ensure that its charges are consistent with this advice and the Act. Staff or students should go to the University website to access a Customer Service Feedback Form at www.latrobe.edu.au/acadserv/current/office.html

FEES, SCHOLARSHIPS AND FINANCIAL MATTERS

Tuition fees

Single unit fees

La Trobe University offers single unit (non-award) studies for fees to domestic and international students.

For all teaching periods, single unit fees are due and payable on the date specified on the University's Statement of Account. A student must not have incurred any tuition fee liability (remained enrolled past the Unit Census Date) to be entitled to a full refund of a specific single unit fee.

Undergraduate domestic fees

La Trobe University offers undergraduate fee-paying places to domestic students.

For all teaching periods, undergraduate fees are due and payable on the date specified on the University's Statement of Account. A student must not have incurred any tuition fee liability (remained enrolled past the Unit Census Date) to be entitled to a full refund of the fees for a specific unit.

Postgraduate domestic fees

For all teaching periods, postgraduate fees are due and payable on the date specified on the University's Statement of Account. A student must not have incurred any tuition fee liability (remained enrolled past the Unit Census Date) to be entitled to a full refund of the fees for a specific unit.

For further information refer to the 2008 Domestic Fees webpage at www.latrobe.edu.au/acadserv/current/fees

Commonwealth Supported Place (CSP)

To be eligible to be made an offer of a Commonwealth Supported Place (CSP) you must:

- be an Australian citizen or a New Zealand citizen, or a holder of an Australian permanent visa (including an Australian permanent humanitarian visa)
- complete a 'Request for Commonwealth Support and HECS-HELP' form
- have sufficient Student Learning Entitlement to undertake the units of study within the offered course (refer to SLE below).

As a Commonwealth-supported student, the Australian Government will contribute towards your study costs. Students who are offered a Commonwealth Supported Place (CSP) are usually required to pay a student contribution.

Maximum student contribution amounts for a Commonwealth Supported Place

The following table shows the maximum student contribution amounts for a place that may be charged for units of study in 2008. These rates apply to Commonwealth supported students who are not covered by the transitional arrangements in the *Higher Education Support (Transitional Provisions and Consequential Amendments) Act 2003* and the Transitional Arrangements for Students Guidelines issued under that Act or the saving provision in Schedule 7 of the *Higher Education legislation Amendment (2007 Budget measures) Act 2007*

Item	Funding cluster	Maximum student contribution amount
1	Law	\$8499
	Accounting	
	Administration	
	Economics	
	Commerce	
2	Humanities	\$5095
3(a)	Mathematics	\$7260
	Statistics	
	Computing	
	Built Environment	
	Other Health	
3(b)	Behavioural Science	\$5095
	Social Studies	
3(c)	Education	\$4077
4(a)	Clinical Psychology	\$5095
	Foreign Languages	
	Visual and Performing Arts	
4(b)	Allied Health	\$7260
5	Nursing	\$4077
6	Engineering	\$7260
	Science	
	Surveying	
7(a)	Dentistry	\$8499
	Medicine	
	Veterinary Science	
7(a)	Agriculture	\$7260

Maximum student contribution amounts for a Commonwealth Supported Place for pre-2008 students

For pre-2008 students, the maximum student contribution amount that may be charged for Accounting, Administration, Economics, and Commerce units is \$7260. This amount applies to Commonwealth supported students who commenced a course of study before 1 January 2008 and are covered by the saving provision in Schedule 7 of the *Higher Education Legislation Amendment (2007 Budget Measures) Act 2007*.

Maximum student contribution amounts for a Commonwealth Supported Place for pre-2005 students

The following table shows the maximum student contribution amounts for a place that pre-2005 HECS students (who are not pre-1997 students) may be charged for a unit of study undertaken in 2008. These rates apply to Commonwealth-supported students who are covered by the *Higher Education Support (Transitional Provisions and Consequential Amendments) Act 2003* and the Transitional Arrangements for Students Guidelines issued under that Act.

Item	Funding cluster	Maximum student contribution amount
1(a)	Law	\$6798
1(b)	Accounting	\$5807
	Administration	
	Economics	
	Commerce	
2	Humanities	\$4077
3(a)	Mathematics	\$5807
	Statistics	
	Computing	
	Built Environment	
	Other Health	
3(b)	Behavioural Science	\$4077
	Social Studies	
3(c)	Education	\$4077
4(a)	Clinical Psychology	\$4077
	Foreign Languages	
	Visual and Performing Arts	
4(b)	Allied Health	\$5807
5	Nursing	\$4077
6	Engineering	\$5807
	Science	
	Surveying	
7(a)	Dentistry	\$6798
	Medicine	
	Veterinary Science	
7(b)	Agriculture	\$6798

Maximum student contribution amount for a place for pre-1997 students

The maximum student contribution amount for a place that pre-1997 students may be charged for units of study in 2008 is \$3061. This rate applies to Commonwealth-supported students who commenced their course of study before 1997, and who are covered by the *Higher Education Support (Transitional Provisions and Consequential Amendments) Act 2003* and the *Transitional Arrangements for Students Guidelines* issued under that Act.

Payment of the student contribution

All Australian citizens and holders of permanent humanitarian visas who are offered a Commonwealth Supported Place may choose one of the following methods to pay their Student Contribution amount:

- pay the full student contribution amount up-front or make a partial payment (\$500 or more) and receive a 20 percent discount on the amount paid
- defer their student contribution amount by taking out a HECS-HELP or FEE-HELP debt, which will be repaid via the Australian Taxation Office when the student's income reaches the thresholds set by the Government
- New Zealand citizens and permanent residents (other than an Australian permanent humanitarian visa) can also access Commonwealth Supported Places, however they must pay the full student contribution amount up-front without any discount

Detailed information on the University's policies and procedures regarding FEE-HELP will be available at the University's website www.latrobe.edu.au/acadserv/fees

Note: Permanent Residents and New Zealand citizens are not eligible to defer their HECS-HELP. Permanent Residents and New Zealand citizens are only eligible to pay their fees up-front without a discount.

Student Learning Entitlement (SLE)

If you are an Australian citizen, New Zealand citizen or a holder of an Australian permanent visa (including an Australian permanent humanitarian visa) you will receive a Student Learning Entitlement

(SLE) giving you access to seven full-time years or part-time equivalent as a Commonwealth Supported student. Additional SLE is allocated in specific circumstances, for example if you are enrolled in an undergraduate course that is longer than six years. SLE is consumed as the student enrolment is finalised after each Census date.

Commonwealth Higher Education Student Support Number (CHESSN)

When a person applies for admission to La Trobe University, either through Victorian Tertiary Admission Centre (VTAC), Universities Admission Centre (UAC), or via direction application, personal identifying information will be provided electronically to the Department of Education, Science and Training (DEST) and the Australian Taxation Office, after each applicant has given their consent, for the allocation of a CHESSN.

DEST will be responsible for allocating CHESSNs or to return an existing CHESSN for the applicant.

Each eligible student receiving Commonwealth assistance through a Commonwealth Supported Place (CSP) will be allocated a CHESSN. This number will stay with the student throughout their academic life, and for the management of their Commonwealth assistance. Students will be notified of their CHESSN on their Commonwealth Assistance Notice which is sent after the Census date of their first unit. Students are responsible for monitoring their eligibility for Commonwealth support and Student Learning Entitlement balance.

To obtain more information, refer to: www.goingtouni.gov.au or www.latrobe.edu.au/study

Remissions and refunds of fees

Remission (refund) of unit fees, HECS-HELP or FEE-HELP debt

Prior to a Unit Census Date, applications may be made to have any unit tuition fees and part payments with respect to HECS-HELP and FEE-HELP liability, refunded directly by electronic funds transfer.

After a Unit Census Date, normally liability is non refundable. If a student becomes seriously ill or other special circumstances occur and they are unable to continue studies, application can be made to have their fees, HECS-HELP or FEE-HELP debt for the relevant teaching period reduced or removed.

'Special circumstances' does not include lack of knowledge or understanding of fees, HECS-HELP or FEE-HELP and how they are administered, or of La Trobe University's enrolment procedures and regulations. Students who have paid fees, or have a HECS-HELP or FEE-HELP loan and want a refund must apply in writing using the appropriate 'Application for Remission of Debt and Re-crediting of Student Learning Entitlement' form to the University:

Attention: Remission of Fees, HECS-HELP and FEE-HELP
Manager Student Records
La Trobe University, Victoria 3086

To seek further information and advice on Remission of Debt and Re-crediting of Student Learning Entitlement for HECS-HELP and FEE-HELP, visit your local Student Administration Office.

Detailed information on the University's policies and procedures regarding Remission of Debt and Re-crediting of Student Learning Entitlement is available at the University's website: www.latrobe.edu.au/acadserv/current/fees

Refunds

To seek further information and advice regarding refunds visit your local Student Administration Office or access detailed information regarding the University's refund policies and procedures and appropriate application forms at www.latrobe.edu.au/acadserv/current/fees

Other information about fees and charges

Incidental fees (fees for goods and services incidental to studies) – legislation

Commonwealth supported students and domestic fee-paying students generally must be able to complete the requirements of their course of study without the imposition of fees that are not a student

contribution amount or a tuition fee.

However, certain fees are not considered to be student contribution amounts or tuition fees (see clause 33.3) [HESA – s19-109]. One fee that is not considered a tuition fee or a student contribution amount is a fee that is incidental to studies.

The criteria for deciding if a fee is incidental are set out in Chapter 12 of the Commonwealth Grant Scheme Guidelines [HESA – s19-105(3) (f)] and are described in clauses 19.2 and 19.3.

Circumstances in which providers may levy fees

In accordance with chapter 12 of the Commonwealth Grant Scheme Guidelines, a provider may charge a student for a good or service related to the provision of their course if one of the following criteria applies:

- the fee is for a good or service that is not essential to the course of study, for example:
 - access to Internet and computer facilities (except where these are required as part of a course)
 - printing of notes from the Internet or discs
 - graduation ceremonies in cases where the student is not required to attend the ceremony in order to obtain their award.
- the fee is for an alternative form or alternative forms of, access to a good or service that is an essential component of a course but is otherwise made readily available at no additional charge by the provider, for example:
 - lecture notes or tapes, provided that lectures are available to students free of charge
 - electronic provision of essential information if the information is also readily available free of charge in another form (e.g., in the university library)
 - reading material, such as anthologies of required readings, if these texts are also available free of charge
- the fee is for an essential good or service that the student has the choice of acquiring from a supplier other than the provider and is for:
 - equipment or items that become the physical property of the student and that are not consumed during the course of study; for example:
 - artwork, fabric for sewing class, first aid courses, police clearance checks, musical instruments, protective clothing or footwear, stethoscopes, dance shoes, and reference tests
 - food, transport and accommodation costs associated with the provision of field trips
- the fee is a fine or penalty, if the charge is levied principally as a disincentive and not in order to raise revenue or cover administrative costs, for example:
 - fines or penalties for late enrolments, late variations to enrolments, late withdrawals from a course, and late payment of charges
 - review of grade if a student has already passed the unit but is seeking to improve their grade
 - and a charge for an assessment of prior learning in circumstances where a person has not applied for entry to the institution

Circumstances in which providers must not levy fees

Providers must not charge students for a good or service which is required for a course of study unless that good or service, or an alternative to it, is also available to students at no additional charge, for example: course materials, such as unit outlines, reading lists, tutorial or seminar topics and problems, assignment and essay questions, and requirements and guidelines for the presentation of work; access to library books, periodicals and manuals; clinic, laboratory or workshop materials such as anaesthetics, chemicals, filters, fuel, fertilisers, animal feed or crops used in practical sessions or research; access to computers or other on-line resources; recognition of prior learning if the student is enrolled with the provider or the student is applying for enrolment (including auditions); equipment and manuals which a professional in the field would not be required to own, such as fixtures in a clinic, laboratory or workshop; or large items of equipment and relevant workshop manuals required for their use; admissions services; examinations or assessments including practical assessment, for example, which requires the services of musical accompanists; reassessment of results where a student has failed an assessment and thereby failed a subject or unit; and mailing charges associated with distance education.

Financial assistance

A variety of assistance options are available for students. All intending applicants are advised to check current details with the Student Administration Office on each campus that are available for assistance on all financial matters.

Aboriginal Study Assistance Scheme (Abstudy)

Abstudy is a Commonwealth government scheme for Aboriginal and Torres Strait Islander students. In order to receive this benefit, a student must be studying an approved course and not receiving any other government assistance. Further advice and application forms are available from your local Aboriginal Liaison Unit/Officer. Forms are also available at DEST offices or Centrelink. Tel: 132 317.

Austudy and Youth Allowance

Austudy is the Commonwealth government student assistance scheme, which assists students 25 years of age and over, undertaking approved full-time secondary and tertiary studies.

For those under 25 years of age the Youth Allowance provides similar benefits. The assistance is subject to a means test and to certain conditions of eligibility.

All students are encouraged to obtain advice and, if appropriate, apply through the relevant student advisory service on their campus. For additional information visit the website at www.centrelink.gov.au

Loans schemes

Two schemes are available to eligible students:

Student Loan Fund

Loans are available to assist students to support essential needs in order to complete their studies. Essential needs may include but are not limited to books, equipment, computer software and hardware, travel for research and course placement.

Loans will not be granted for daily parking costs at University campuses and daily transport costs.

More information about the Student Loan Fund is available from:

Tel: (03) 9479 3827

Web: www.latrobe.edu.au/finaid/ or

Email: finaid@latrobe.edu.au

OS-HELP in 2008

OS-HELP is a loan scheme available to assist eligible undergraduate students to undertake some of their study overseas. Students may receive up to \$5299 per six-month period. OS-HELP loan funds can be used for any of the associated expenses incurred when studying overseas, such as airfares, accommodation or settling expenses.

For further information go to the 'Going to Uni' website at www.goingtouni.gov.au or contact the OS-HELP Officer to obtain an application package via email at oshelp@latrobe.edu.au

Postgraduate awards

La Trobe University offers a number of awards for candidates who wish to undertake a higher degree by research. Scholarships are awarded on the basis of excellence to persons of exceptional promise. Details are available from the Research and Graduate Studies Office at the Melbourne (Bundoora) Campus. The closing date for applications for candidature and scholarship is 31 October 2008 for Australian and New Zealand citizens and 30 September 2008 for international applicants.

To be eligible for most awards applicants must have completed at least four years of tertiary studies or equivalent, and hold qualifications at Honours 1 or equivalent level.

Application kits and further details on the eligibility criteria and conditions are available directly from the school in which you wish to study, or by accessing the website at

www.latrobe.edu.au/rgso/scholarships.htm#candidature

Successful research applicants will normally receive a non-taxable stipend.

Research Training Scheme (RTS)

The RTS provides block grants to eligible higher education institutions to support research training for students undertaking Doctorates and Masters by research. The RTS provides these students, referred to as Commonwealth-funded HDR students, with a Commonwealth-funded place for up to a maximum period of four

years' full-time equivalent study for a Doctorate by research and two years' full-time equivalent study for a Masters by research.

An RTS student must be:

- an Australian citizen
- an Australian permanent resident or New Zealand citizen
- enrolled in an accredited higher degree by research course.

All students interested in pursuing higher degree studies by research should make enquiries directly to the postgraduate coordinator in the relevant faculty/school. Please contact:

Scholarships, awards and prizes

La Trobe University will offer a number of scholarships for commencing and continuing students in 2008, ranging in value from \$2000–\$5000 per year, including Commonwealth Scholarships. Some scholarships will assist rural and regional students, or those from a low socio-economic background, or Indigenous students. Others will recognise students with exceptional academic results. Grants are also available for honours students. More than 450 scholarships are awarded annually to commencing and continuing students across all faculties and campuses of the University. Further information and application forms, can be obtained at www.latrobe.edu.au/scholarships or see the 'Scholarships and prizes' chapter in this *Handbook*. The application process and closing dates vary for each scholarship program.

The Scholarships Unit is responsible for administering university-wide undergraduate scholarships, including Commonwealth Scholarships. Faculties, campuses, and residential colleges also offer and administer a wide range of scholarships and prizes for students at all levels, in most courses. Visit the same web page (above) for eligibility details and how to apply.

ACADEMIC MATTERS

Academic misconduct (plagiarism, cheating in examinations)

La Trobe University regards academic honesty as the foundation of teaching, learning, and research. It requires its academic staff and students to observe the highest ethical standards in all aspects of academic work. The University demonstrates its commitment to these values by awarding due credit for honestly conducted scholarly work, and by penalising academic dishonesty and all forms of cheating.

At La Trobe University:

- it is the responsibility of the academic staff to conduct research according to ethical standards of scholarship, and to teach their students ethical learning and research practices; and
- it is the responsibility of the student to acquire a clear understanding of how to avoid unethical practices and to employ this knowledge in their work submitted for assessment

Plagiarism

One form of academic cheating is plagiarism: the reproduction of someone else's words, ideas or findings and presenting them as one's own without proper acknowledgment. There are many forms of plagiarism, including the following:

- direct copying of sentences, paragraphs or other extracts from someone else's published work (including on the Internet and in software) without acknowledging the source;
- paraphrasing someone else's words without acknowledging the source;
- using facts and information derived from a source without acknowledging it;
- using ideas directly derived from an identifiable author without acknowledging the source; and/or
- producing assignments, which should be the student's own, independent work in collaboration with and/or using the work of other people (e.g., a student or tutor)

The University has a comprehensive Academic Misconduct Policy and associated regulations that provide improved information and training for students and staff. The policy also includes a list of recommended penalties for offences ranging from plagiarism through to cheating in examinations. Students found guilty of academic misconduct may receive penalties ranging from a requirement to participate in academic counselling or a reduction in marks for an individual piece of assessment for minor cases, through to suspension from your course in serious cases or repeat offences.

The policy also requires all students to complete a Statement of Authorship for all work submitted for the purposes of assessment. The Academic Misconduct Policy is available on the University's website at www.latrobe.edu.au/policies/assets/downloads/academic_misconduct.pdf. Turnitin is software used by the University to deter plagiarism. If your lecturer indicates that you will be using this system, it is available at: www.latrobe.edu.au/turnitin/. This website also provides valuable links to information on academic honesty and avoiding plagiarism.

Unauthorised material in examinations

Another form of academic misconduct is bringing unauthorised material into examination venues. Students found guilty of this offence may be awarded zero marks in part of the examination, the whole examination, the unit concerned, or may be suspended for a defined period of time or excluded from the University. Details of materials allowed to be taken into an examination venue are provided on the examination timetable, on the official University notice-board, at the entrance to the examination venue and on the front cover of the examination paper. If an item is not specifically referred to it will be deemed unauthorised and should not be brought into the examination. The only items permitted in an examination venue not requiring authorisation are writing instruments, an eraser and an unmarked ruler. Translation dictionaries brought into examination venues should be unmarked. It is therefore suggested that students check this requirement at the beginning of the semester to save them from having their translation dictionaries confiscated during the examination.

Academic progress requirements

Every course offered by the University must be completed within a specified period of time. The maximum period for the completion of courses is included in the University's Academic Progress Policy. Similar constraints apply to Honours years, graduate diplomas, Masters degree programs and doctoral degrees.

Students who do not satisfy academic progress requirements over a set progression period will receive formal written advice and may be required to present their case to Faculty Academic Progress Committee (APC), as to why their enrolment should be allowed to continue.

Failure to meet satisfactory academic progress normally involves coursework students failing to meet one or more of the following conditions within a specific Progression Period (as defined by the Faculty):

- failing more than 50% of the sum of their unit enrolment in credit points – if no previous APC event;
- failing more than 60% of the sum of their unit enrolment in credit

points – if previous APC event;

- failing a unit a second or subsequent time; and/or
- failing to meet specific enrolment conditions as set by the faculty

At the time of printing this *Handbook*, the University's Academic Progress Policy was under review and may be subject to change for 2008.

Faculty Progression Periods are set by the faculty responsible for the administration of the course. The University has a comprehensive Academic Progress Policy for coursework students and associated regulations that provide details of how the APC process is administered by the University. The Academic Progress Policy for coursework students and access to the associated Regulations are available on the University's website at www.latrobe.edu.au/policies/assets/downloads/academic_progress.pdf

Research students receive a copy of the *Handbook for Candidates and Supervisors for Masters degrees by Research and Doctoral Degrees* at enrolment. Alternatively, this document can be accessed on the web at

www.latrobe.edu.au/rgso/information/forms/INFOSUPC.rtf

International students holding a student visa are reminded that condition 8202 requires them to maintain satisfactory academic progress.

An international student will not be reported to DIAC as being in breach of condition 8202 until after they have been excluded by the Academic Progress Committee or the Academic Progress Review committee has made a final decision for exclusion and the time for lodging an appeal has elapsed. Until then, it is recommended that students approach their faculty and continue to attend classes.

Academic advice

Academic Skills Assistance and Study Advice

In each faculty there are advisers of studies who help students plan their courses, and there are Language and Academic Skills (LAS) advisers who assist students in academic skills and practices.

Advisers of studies

Consult your school or faculty office for a list of advisers of studies.

Language and Academic Skills (LAS) advisers

At Bendigo and Melbourne (Bundoora) a number of units work in cooperation. The LAS advisers work with students to develop their study skills. Students can be assisted to develop their reading, writing, note-taking and speaking skills. This is done through individual consultations and workshops.

To find out more about how we can help you do your best, contact one of the LAS units below. You can also visit the website for more information at www.latrobe.edu.au/lasu/

Students on other campuses should contact their campus manager or student administration centre or see the regional campus entry in this *Handbook*.

Class timetables

Class Timetables are administered by Academic Services Division for the University. Timetabled units offered by all campuses of La Trobe University are available by unit, department, or student ID selections via: www.latrobe.edu.au/timetable/

Students have the opportunity to view their own personal timetable by entering their student ID number and password.

Access to Timetable information may also be obtained via StudentOnLine:

www.latrobe.edu.au/acadserv/current/studentonline.html

Examinations and assessment

Official examination periods

First semester examinations	6 to 26 June 2008
Second semester/annual examinations	31 October to 20 November 2008

Students are required to be available for the entire duration of all official examination periods. Students should also note that they may be required to undertake examinations that are not conducted within the official examination period.

Examination timetables

Official examination timetables for centrally administered mid-year and end-of-year examinations are usually published approximately five weeks prior to the examination period commencing. Timetables are published on the web via the University's homepage and on notice-boards, together with central examination rules and other important information regarding examination conduct. The University provides no information regarding examination dates, time and/or locations over the telephone. Students should contact their campus Student Administration Office directly for information regarding supplementary/special examination periods and timetable publication. In the event of a student being unable to be present for an examination, the candidate must notify the relevant course authority of details within 72 hours of the examination, and in the case of medical incapacity, a medical certificate must be supplied.

If a candidate has two examinations set down for the same examination session, they must contact their Student Administration Office at least three weeks prior to the commencement of the examination period and complete a request for an 'Alternative Examination Arrangements' form.

Alternative examination arrangements

Alternative examination arrangements may be made for semester, annual, special or supplementary examinations for students who have a permanent or temporary disability, mental health issue and/or ongoing medical condition. For example, candidates may be given breaks during examinations, be provided with additional time to complete their examination or sit their examinations in an alternative venue.

Students with a permanent or long-term disability, mental health issue and/or ongoing medical condition should consult the Disability Liaison Officer in the first instance. All other students should contact their Student Administration Office directly to obtain relevant application details. Requests for alternative examination arrangements must be submitted to Student Administration Offices at least three weeks prior to the commencement of the examination period.

Special consideration

Special consideration may be granted in extenuating circumstances that may have adversely affected your ability to undertake your studies. For further information contact your local Student Administration Office who will assist you.

Applications relating to special consideration for performance at an examination must be submitted to your Student Administration Office within 72 hours after the commencement of the examination. In some instances it may be appropriate to discuss the matter with an advisor of studies in the relevant faculty or school before lodging an application.

Applications for special consideration relating to performance during an academic period must be submitted to your Student Administration Office prior to any examination to which such application relates. It is important that you communicate with your lecturer as early as possible for assistance with issues related to missed work.

Throughout the year valuable teaching support services are also available to you at the various campus locations:

- Equity and Access – www.latrobe.edu.au/equity/
- Counselling – www.latrobe.edu.au/counselling/
- Language and Academic Skills Unit – www.latrobe.edu.au/lasu
- English as a Second Language – www.latrobe.edu.au/lasesl/index.html

Further information can be found by visiting the websites for each of these services. We encourage you to use these services, which are provided to support you to achieve academic success.

The University policies on examinations, including special consideration are available on the website at www.latrobe.edu.au/policies/

NOTE: At the time of writing, special consideration policies and procedures are under review. Students are encouraged to check the website periodically for the latest information.

Examination results

Examination results will be emailed to all students via their official La Trobe student email account as results are finalised. Examination results are also available via StudentOnLine. Scheduled result release dates are established each year and generally occur mid-July for first semester results and the second week in December for second semester. Personal records are available from local Student Administration Offices. A charge of \$6.00 applies for personal records. Official academic transcripts can be ordered through local Student Administration Offices. A charge of \$15 applies for a weekly service and \$30 for a daily service. Additional copies cost \$2 per copy. Students can print an unofficial transcript from StudentOnLine at no cost.

Assessment procedures for coursework units

Work presented by students during their studies is assessed in a variety of ways. It is important to understand the methods used and the expectations of the examiners. If you have queries relating to assessment for a particular unit you should approach the examiner for clarification in the first instance.

The most commonly used methods of assessment at La Trobe are described briefly below – in almost every case, a student's performance in each method is measured and contributes to the final mark and grade awarded at the end of the year.

The expectations of examiners will vary widely according to the nature of the unit and the method of assessment. The general principle, however, is that the student is expected to demonstrate a knowledge and understanding of the topic being examined rather than an ability for rote learning, although there are many occasions on which the latter is also necessary.

Written examinations

Written examinations are normally of one to three hours' duration. They may consist of multiple-choice questions requiring minimal response, many questions requiring brief response or a few questions requiring extensive response. Frequently they are set in formal examination periods (end of Semester One and end-of-year), but this is not always the case.

Essays

These are normally a few hundred to several thousand words in length, and may be set at any time of the year.

Clinical and social work placements

Most Health Sciences students and some other groups of students are required to undertake placements for various periods of time in relevant practical environments which test their skills and knowledge and impart new skills.

Work experience

Students in agriculture, engineering and some science courses are required to undertake up to 12 weeks of relevant work experience during their courses, which does not always contribute to the final mark.

Projects

Projects may be specified or left to the student's choice – they range from minor to major.

Practical classes

Normally of one or more hours' duration, these are generally task-oriented, supervised and conducted at regular intervals (e.g., weekly).

Continuous assessment

This combines some of the above methods and may be an alternative to end-of-semester or end-of-year written examinations. The marks for many individual pieces of work are aggregated to give a final mark.

Class attendance and submission of written work

Attendance at lectures is not normally recorded, but may be recorded at tutorials and is often monitored for practical classes. In many units satisfactory attendance at tutorials or practical classes is compulsory and essential for a pass in the unit.

The submission of essays, assignments and other written work is recorded, and failure to submit without an acceptable reason may lead to the award of a fail grade.

Examination grades

A	80 – 100%
B	70 – 79%
C	60 – 69%
D	50 – 59%
P	Ungraded pass. May also denote satisfactory completion of a Masters Prelim course or postgraduate thesis
EX	Exempted from unit
X	No formal grade has yet been recorded in the case of a course or unit taken over several years, and the student may proceed with the remainder of the course
H1, H1A, H2, H2A, H2B, H3	Results for Honours and Masters (Preliminary) course
HN	Honours fail
KH	Honours withdrawn very early
K	Withdrawal – not counted as a failure
KN	Withdrawal – counted as a failure
N	Failure
NA	Results not yet available
NC	Granted a conceded pass
NCE	Granted a conceded pass – May sit a centrally administered examination if desired
NCA	Granted a conceded pass – May sit further assessment if desired, which will exclude a centrally administered examination
NP	Failure (which may be converted to a conceded pass when more marks are available)
NS	Did not present any work for assessment (to count as a failure)
NX	Excluded from examination (to count as a failure)
PS	Ungraded pass after supplementary assessment
SA	Supplementary assessment granted
SAE	May present for supplementary assessment – which will include a centrally administered examination
SAA	May present for supplementary assessment – which will not include a centrally administered examination
SAH	Supplementary assessment granted (to complete a compulsory [Hurdle] component)
SAHE	May present for supplementary assessment in a compulsory (Hurdle) component – which will include a centrally administered examination
SAHA	May present for supplementary assessment in a compulsory (Hurdle) component – which will not include a centrally administered examination
SP	Granted a special examination
SPE	Granted a special examination – which will include a centrally administered examination
SPA	Granted a special examination – which will not include a centrally administered examination
W	Result withheld
**	No result available

Supplementary assessment

The University has recognised two situations (detailed in points 1 and 2 below) in which it is appropriate to provide the opportunity for supplementary assessment to facilitate student progression. The supplementary assessment policy applies only to undergraduate units including units being studied on a non-award basis and postgraduate

course work students where a Hurdle requirement exists in an assessment for units:

1. A student who has obtained 50 per cent or more in a unit but who has failed to meet a compulsory (Hurdle) requirement shall be offered supplementary assessment in order to meet this requirement, unless it is impractical to provide this assessment. Upon successful completion of the supplementary assessment, the original mark will stand. (See also point 4.)
2. An undergraduate student shall be offered supplementary assessment in any failed unit for which a mark of 47 per cent or more has been obtained if a single piece of work or assessment is worth more than 50 per cent of the assessment in the unit. Upon successful completion of supplementary assessment, the final mark awarded shall be 50 per cent.
3. Supplementary assessments shall not be awarded where less than 47 per cent is obtained in a unit or where all assessment items are worth 50 per cent or less of the total assessment in the unit.
4. Students who fail to complete the assessment for a unit may be denied supplementary assessment by the faculty concerned. Further, supplementary assessment may be denied where it is impractical to provide it (e.g., a practical course or tutorial performance).
5. Students shall be given a minimum of one week's notice for supplementary (and special) examination, including details of the assessment.
6. Supplementary assessment in normal circumstances should be held only at the end of a progression period or the teaching period in which the unit is undertaken unless faculty boards determine that appropriate arrangements, including the mandatory one week's notice to students, can be made at the end of an earlier semester.
7. Supplementary assessments should be provided in the first progression period for students who fail an absolute prerequisite for a second progression period unit. In this case, care must be taken to minimise the impact on the second progression period studies. Part-time students may be offered supplementary assessment where it is impossible to meet the normal criteria for the award of supplementary assessment (e.g., an enrolment in one or two units). However, such supplementary assessment given in advance is taken into account when further units are completed.
8. Supplementary assessments should be comparable in standard with the initial assessment for a unit, or at least a major segment of it.
9. All supplementary assessment for the academic year must be finalised by the end of the week after central supplementary and special examinations conclude (see special consideration policy). This will normally prevent the offer of supplementary assessment following a special examination for a unit.

The University's policy on supplementary assessment is available on the policies website at www.latrobe.edu.au/policies/assets/downloads/supplementary_assessment.pdf

Reconsideration of assessment results

At the time of printing this *Handbook*, the University's Reconsideration of Assessment Policy was under review and may be subject to change for 2008. Requests for advice on performance in assessment tasks should be addressed in the first instance to the member of staff (e.g., examiner) concerned. The Head of School should then be approached should re-marking be desired. Any student has the right to appeal to the faculty Dean and finally the Ombudsman should they still be dissatisfied.

The University Ombudsman

Mr Cliff Picton

Located within the Offices of Equity and Access

Room 136, Level 1, Peribolos East

Melbourne (Bundoora) Campus

Tel: (03) 9479 1897

Fax: (03) 9479 3897

Email: c.picton@latrobe.edu.au

Graduations

Ceremonies at the Melbourne (Bundoora) campus are generally held in the Union Hall during late March, April and May. Ceremonies are also held at Albury-Wodonga, Mildura and Shepparton in March and April, and Bendigo in early May.

Ceremonies for mid-year qualified students are held in either late September or early October at the Melbourne (Bundoora) campus. Graduation ceremonies and Presentation of Degree ceremonies for international students are usually held in Hong Kong, Singapore and Kuala Lumpur during early September. Further details are available from relevant Student Administration Offices.

Graduation packages providing all information are mailed to students on the successful completion of their course. Onshore international students can request a 'graduation letter' from the IPO in order to extend their visa to remain in the country for graduation.

In 2008, La Trobe University will be moving to a new Student Information System which may result in the graduation periods contracting to accommodate the implementation.

For further information regarding graduations go to www.latrobe.edu.au/graduations

CAMPUS AND STUDENT SERVICES

Careers and employment

Location: Level 1, Peribolos East,

Tel: (03) 9479 2459

Fax: (03) 9479 1989

Email: careers@latrobe.edu.au

Web: www.latrobe.edu.au/careers

La Trobe's Careers and Employment office aims to help you achieve your career goals by providing career advice and preparing you for the job market. You can find information on services available at each La Trobe campus via the campus listings in this handbook.

Some services are available to all students via Career Hub, a web-based, one-stop-shop for advice and information on careers and employment. Career Hub is the place to go to look for a casual, part-time, or graduate job. It's also your starting point for information about career planning, writing resumes and covering letters, preparing for interviews, prospects for working in Australia and overseas, further study options and lots more. You'll also see what's happening in careers and employment at each campus, and find answers to frequently asked questions. Simply go to the webpage (above), register and start your search.

Chaplains

Location: Rooms 420, 422, 424

Level 4, Humanities 3, Melbourne (Bundoora) campus

Helen Bell, tel: (03) 9479 3180, email: h.bell@latrobe.edu.au

Peter Leslie, tel: (03) 9479 1479, email: p.leslie@latrobe.edu.au

Liam Mackle, tel: (03) 9479 2979, email: l.mackle@latrobe.edu.au

The chaplaincy team at La Trobe seeks to help students and staff work through spiritual and pastoral issues within their own lives and the wider world. The three chaplains are Christian chaplains who work within a context of respect for other religions or expressions of faith. Confidential support, counsel and encouragement are offered to people of all backgrounds. Where desired, the chaplains will attempt to refer people to someone from an appropriate religious or faith background. The chaplains are available for individual consultation and for group discussions. All are welcome to use the chapel and kitchen facilities which are located on Humanities three, level four.

A prayer room is available for Muslim students.

Indigenous education

Prospective Indigenous Australian students can access advice on entry to University and enrolment procedures by contacting the Indigenous Student Recruitment Officer on (03) 5444 7205 or email indigenous_enquiries@latrobe.edu.au.

Aboriginal and Torres Strait Islander people are strongly encouraged to apply for entry to La Trobe University and will be considered on an individual basis. All applicants, including VCE students and non-VCE applicants, should apply through VTAC and complete the appropriate section of the VTAC SEAS application form with relevant supporting evidence and statements. However, direct applications to the University are also possible.

Information for both prospective and currently enrolled Indigenous students is also available on the Office of the Director, Indigenous Education website www.latrobe.edu.au/indigenous.

Indigenous Student Service Units are based on the following La Trobe University Campuses:

Albury-Wodonga: (03) 9479 3428

Bendigo: (03) 5444 7812

Melbourne (Bundoora): (03) 9479 3817

Mildura: (03) 9479 3428

Shepparton: (03) 5444 7812

Staff provide academic, cultural, and personal support to students to ensure that the university experience is positive and to enhance students' academic and educational outcomes.

Students have access to:

- Indigenous Tutorial Assistance Scheme (ITAS)
- computers
- study area
- Indigenous Australian resource library.

Indigenous cultural activities are hosted throughout the year.

Information and Communication Technology

ICT at La Trobe University is provided by central and local facilities and resources. Computer laboratories, IT support and student services for specific applications and learning requirements is provided locally by campuses, Faculties and Libraries. Faculty/campus IT support officers and lecturers are generally the students' first point of contact for IT support.

Student computer labs

Computing and printing facilities are available to students for official activity on campus. Student computer labs can be found in Faculties, Libraries and general access areas on all campuses.

A list of the general access computer labs is available at:

www.latrobe.edu.au/students/studyhalls.html

Students are required by the University to abide by its Internet Code of Practice.

How to access University computers and systems? What is my username and password?

Students are provided with a single username and password, which they can use to access the student system, various computer labs, and other computing services including the Internet.

Your student username and password is located on the top of your 'Statement of Account'. This username and password controls access to:

- StudentOnLine
- WebCT
- student email
- CBT (Computer Based Training)
- computer access on campus.

What if I forget my password?

Your password can be changed by calling the Study Hall on tel: 1300 786 535 or visiting the Study Hall and campus IT support staff. You will need to show your student card as proof of identity.

Once you know what your current password is please register to use the 'Password Reset Utility':

www.latrobe.edu.au/ict/services/accounts/resetpw

Registering to use the 'Password Reset Utility' will allow you to change your own password at your convenience from any computer with access to the Internet.

Email

La Trobe University uses email correspondence as the primary method of contact with students for administrative matters via the official La Trobe University student email account.

Your student email address is: username@students.latrobe.edu.au and your email can be accessed from: <https://owa.latrobe.edu.au>

More information about student email:

www.latrobe.edu.au/ict/services/email/access_support

Dial-in access

Modem access is available to all students for campus-based services only. Time limits and conditions apply.

Undergraduate students in the metropolitan area requiring modem access are encouraged to arrange a modem or broadband connection with an ISP.

Postgraduate students should contact their local IT support staff or the ICT Service Desk for information on modem access.

Internet access for students at La Trobe University

There are three levels of internet access that students may require:

1. Information from systems or services on campuses.
2. Information from systems or services at other educational or research institutions across Australia
3. Information on the world wide web

For one and two there is currently no cost for accessing information from these sites. For 3, students are accountable for all use as this incurs a cost to the University.

Restrictions may be placed on internet access to control or introduce costs at the discretion of the Faculty. The restrictions are generous enough to ensure that student learning requirements are not impacted. Students residing at University colleges have external Internet access on a 'user pays' basis from within the colleges.

StudentOnLine

StudentOnLine controls all your La Trobe University enrolment and notification details. It enables you to vary your enrolment, check results and change postal and email notification details. Access StudentOnLine at:

www.latrobe.edu.au/acadserv/current/studentonline.html

A Frequently Asked Questions (FAQ) page can be accessed at: www.latrobe.edu.au/acadserv/current/studenrolFAQ.html

WebCT

WebCT is La Trobe University's learning and management system. If your lecturer indicates that you will be using this system, it is available at: webct.latrobe.edu.au.

This link also has valuable student information including what to do if you are unable to log in to the WebCT system.

Anti-Virus software

La Trobe University requires all computers to have up-to-date anti-virus software installed and provides Sophos Anti-Virus at no charge. Sophos Anti-Virus can be downloaded from: www.latrobe.edu.au/ict/services/support/antivirus

Wireless computer access

Wireless computer access is available at various locations throughout La Trobe University. Information to configure your computer to use the wireless network along with details of locations where wireless access is available can be found at:

www.latrobe.edu.au/ict/services/networks/wireless_network

Library systems

Your student Username and Password allows you to:

- view and renew loans
- access restricted materials
- make bookings
- place a hold on Library material.

Copyright guide for students

Copying for research and study is permitted under the Australian Copyright Act and covers any material given to you by your lecturer. General copyright information relating to other materials is available at: www.latrobe.edu.au/copyright/scg

(See also General Information – the University – Copyright – in previous section.)

IT training for students (free)

The computer based training (CBTs) consist of the International Computer Driving Licence (ICDL) and cover computer basics, using the computer and managing files, word processing, spreadsheets, presentation packages, databases and e-mail, as well as internet and web activities. The courses are self paced and available free, online (and for download), at www.latrobe.edu.au/cbt

Postgraduate students can also apply to do IT instructor-led courses. Further information can be found at: www.latrobe.edu.au/steps

Plagiarism software (Turnitin)

Turnitin is software used at La Trobe University to deter plagiarism. If your lecturer indicates that you will be using this system, it is available at: www.latrobe.edu.au/turnitin

This website also provides valuable links to information on academic honesty and avoiding plagiarism.

Student Services Melbourne (Bundoora) Campus**Accommodation Services**

Location: Level 1, Peribolos East building, Melbourne (Bundoora) Campus
Tel: (03) 9479 5479, (03) 9479 1565
Fax: (03) 9479 5478
Email: living@latrobe.edu.au
Web: www.latrobe.edu.au/accommodation/

The service exists to assist students with information and advice about housing. You may contact us for assistance with both on-campus and off-campus accommodation, as well as for information about tenancy, short-term housing, and accommodation for staff and visitors.

Chisholm College

Tel: (03) 9479 2875
Fax: (03) 9479 1211
Email: chisholm@latrobe.edu.au
Web: www.latrobe.edu.au/chisholm

Chisholm College, best known for its international perspective, is the embodiment of a successful multicultural community. A wonderful and exciting cultural mix of Australian and international residents produces a vibrant and active college community with a distinctive social and academic life.

The self-catering arrangements of the college are complemented by a cafeteria, which serves evening meals and snacks. Kitchen and bathroom facilities are designed so that students share with no more than 11 people. Free, shared laundry facilities are provided. All rooms have provision for direct computer access to the Internet. The college has a spacious and recently modernised activities area with cafeteria, a TV room with FOXTEL satellite service, 5.1 surround sound theatre, library, table tennis, billiards and other facilities. In 2008, a new Arts Centre is being launched, with an international lounge, music room, creative arts room and lounges. A refurbishment of several accommodation towers will have been completed by 2008 as well. Residential assistants care for the academic and general wellbeing of residents, and a flexible academic support program is available to all. A generous fund is set aside for bursaries and scholarships.

Glenn College

Tel: (03) 9479 5100
Fax: (03) 9479 5151
Email: glenn@latrobe.edu.au
Web: www.latrobe.edu.au/glenn

Glenn College, La Trobe University's oldest college, is situated in a picturesque setting on the Melbourne (Bundoora) campus overlooking the Moat. Glenn is a fully catered college, providing breakfast and dinner seven days per week. A wide range of main courses is offered, accommodating various vegetarian and other preferences, with self-serve selection of vegetables and salads. Our wonderful dining hall is a great place to make and meet friends, as are other communal areas of college.

Each of the bed/study rooms is fully furnished and equipped with blankets, pillow and all bed linen. All rooms are equipped with telephone and Internet connections. Bathrooms and free laundries are located close to all rooms and two residential assistants are in charge of each floor. These senior students are available to assist and guide new residents and together with Coordinators and the Warden of College they also constitute the leadership and after-hours response team 24 hours a day. The college has a recreation room and TV

lounges with Fox Sport channels, table tennis and billiards rooms. An academic mentoring team of senior students is available to address first-year students' academic needs and queries. Faculty dinners bring together those doing similar courses, senior students and university staff, and provide residents with valuable contacts. Glenn provides a living environment conducive to academic success, social development, and cultural enrichment and personal, individual and group development.

Menzies College

Tel: (03) 9479 1071
Fax: (03) 9479 3690
Email: menzies@latrobe.edu.au
Web: www.latrobe.edu.au/menzies

Menzies College has been substantially upgraded over the past three years, and now offers superb, modern facilities. Residents have well-equipped single study-bedrooms, with access to modern kitchens, common rooms and bathrooms. Support and development is provided through trained seniors (pastoral and welfare), an elected and active Student Club (with an executive and reps to organise events and activities), study mentors (offering weekly academic support across subject areas), as well as the administrative staff and Warden of College. The college also has around 30 academic associates, full-time University staff who support its academic programs. Outstanding facilities include a new IT centre (42 PCs), large learning resource centre (with textbook purchase scheme), the Menzies Global Lounge, *Challenge Works* (student leadership development centre), a student club room (cable TV, pool, table tennis), a large modern fitness centre (with sauna), a health sciences support room (with models, library and equipment, and a separate massage room), a music practice room, and function rooms. There are barbecue areas, a modern café (with meal plans), a mini-mart, beer garden, and a student-run licensed bar with DVD-TV projection facilities.

A strong academic and development program includes seminars, extensive professional development courses, study focus groups, and Faculty dinners. Menzies College prides itself on offering more than just a place to live: it is a place to make friends, get involved in community living, and get the most from your time at university.

Waterdale Apartments

Tel: (03) 9479 3201 Fax: (03) 9479 3200
Email: housing@latrobe.edu.au
Web: www.latrobe.edu.au/housing/waterdale

Waterdale Apartments are being made available to first-year students for the first time in 2008. Each apartment consists of three bedrooms, a bathroom, kitchen and lounge area. The appeal of the apartments will be to students looking for budget accommodation, just off the main campus, supported by residential programs. A student centre is being refurbished to provide students with an attractive social area, and this will also be the site for events, meetings and organised activities. Residential assistants, a Warden, and access to study support will all help new students settle in and enjoy the benefits of a convenient location, a smooth transition to their new life and a collegial living environment.

Borchardt Library

Centrally located in the Agora at the Melbourne (Bundoora) Campus, the Borchardt Library is the one library on that campus. It is the focal point for accessing information and developing research skills. It has extensive collections with over 1.5 million volumes of books and journals, a reserve collection of high use reading material in print or electronic format, and audiovisual and electronic materials to support the learning, teaching and research of the University.

Around 300 workstations give access to the ever increasing information resources available on the web – the catalogue, subject guides, databases, electronic books and journals, examination papers and more. Students can use their own laptops with the wireless network which operates in the Library. Although much of the Library is for quiet study, there are areas set aside for viewing a DVD or working together in a group.

Library staff are on hand to give advice and help in using the Library, finding information, using databases and the catalogue, and they provide tours and training sessions to support the University community in developing effective information searching skills.

Community Children's Centre

All Day Care, Sessional Care, Kindergarten, Parent Care
Location: Between car parks four and six, with access from the Ring Road
Tel: (03) 9479 2122 or (03) 9478 9422
Fax: (03) 9479 3623,
Email: children@latrobe.edu.au
Web: www.latrobe.edu.au/www/child/

The Children's Centre provides full-time, part-time and casual care for children of students and staff. In addition to providing high quality care for children, the Centre provides a kindergarten program.

Counselling Service

Location: Level 2, Peribolos East
Tel: (03) 9479 2956
Email: counselling@latrobe.edu.au
Web: www.latrobe.edu.au/counselling

The Counselling Service provides counselling and group programs, which promote psychological and social development, thereby optimising opportunities for academic success. Students use the service to discuss study-related issues (motivation, procrastination, and anxiety about exams or class presentations), personal dilemmas, family and relationship issues, or to talk over significant life decisions. Counselling is confidential and free. The service runs a comprehensive group program, advertised widely at the commencement of each semester.

Deaf Academic Services

Level 1, Peribolos East
Melbourne (Bundoora) Campus
Tel: (03) 9479 3603
TTY: (03) 9479 2309
Mobile/SMS: 0434 072 466
Email: deaf_support@latrobe.edu.au

Deaf Academic Services can provide educational support to deaf and hearing impaired students. For further information contact the Disability and Deaf Liaison Officer.

Disability Liaison Officer and Disability Access

Disability Liaison Officer
Equity and Access Unit
Level 1, Peribolos East
Melbourne (Bundoora) Campus
Tel: (03) 9479 2900
Email: disability_support@latrobe.edu.au
Disability Liaison Officers are also available at regional campuses

Educational support services are available to students with disabilities, mental health issues or ongoing medical conditions. Students are required to provide relevant medical or professional documentation and attend a confidential interview with the Disability Liaison Officer. This information will provide the basis for a tailored academic support program.

Equity and Access Unit

Level 1, Peribolos East
Melbourne (Bundoora) Campus
Tel: (03) 9479 2900
Email: equity@latrobe.edu.au
Website: www.latrobe.edu.au/equity

The Equity and Access Unit provides a wide range of support services to staff and students. The role of the unit is to promote full and equal participation of all students within La Trobe University and to foster an environment free of discrimination and harassment.

The Equity and Access Unit has responsibility for leading and co-ordinating policy development, and the implementation of a range of strategies in response to equal opportunity and affirmative action legislation. Some examples of the unit's many involvements include policy and planning, disability/additional needs, complaint conciliation, affirmative action, information, referral and education. Equity Officers are located at each campus.

La Trobe University Guild

The La Trobe University Guild is a newly created body within the Division of Student Services that seeks to provide students with the opportunity to access a range of on campus services and programs essential to supporting, enhancing and enriching university life. These

include:

- Sport
- Recreation
- Social activities
- Events /entertainment
- Cultural activities
- Welfare and Support Services
- Exclusive member benefits program.

For further information about the La Trobe University Guild contact tel: 03 9479 2314 or visit our website at: www.latrobe.edu.au/guild

Health Service

La Trobe Private Hospital
Corner Plenty Rd and Kingsbury Drive
Bundoora, VIC, 3083
Tel: (03) 9473 8885; AH tel: (03) 9429 5677

La Trobe University Medical Centre is located inside the La Trobe Private Hospital next to the Melbourne (Bundoora) Campus. Free parking for patients is available. There is a tram stop just across the road from the centre, and tram services are frequent.

Doctors provide bulk billing services for La Trobe University students and staff. Standard consultation fee (Level B): \$50 Mon-Sun and for overseas students.

GP services and subspecialties: diving medicals, medicals, sports medicine, travel medicine, work cover, family medicine, immunisation.

Also located on site: pathology, radiology, pharmacy, gastroenterologist, gynaecology, orthopaedic surgeon, sports physician, Life Care physiotherapy, blood bank.

Office of the Director, Indigenous Education

The Indigenous Student Service Unit at Bundoora is:

Ngarn-gi Bagora Indigenous Centre
Agora West, Ground Level
Bundoora Campus
Tel: (03) 9479 3817 or (03) 9479 5806
Fax: (03) 9479 1863
Email: alo@latrobe.edu.au

Support and guidance is available to students who are Australian Aboriginal and/or Torres Strait Islanders. Please refer to the Office of the Director, Indigenous Education entry in this handbook for details.

Sports Centre

Fun, Fitness, Health and Wellbeing. One of the best ways to meet people and become involved is to visit the University Sports Centre.

The Sports Centre on the Bundoora Campus includes a 25 metre indoor heated swimming pool, a fully equipped gymnasium, table tennis facilities, a dance studio, squash courts, tennis courts and a multi purpose stadium that hosts basketball, badminton, volleyball and indoor soccer. Train on your own or participate in one of a number of programs such as group exercise, dance, yoga, or pilates. Additional services include first aid training, massage and nutrition.

With over 20 affiliated sporting clubs there is something for everyone, from social to competition. Sporting clubs include Alpine skiing, Australian Rules, basketball, cricket, hockey, mountaineering, netball, soccer, surfing, tennis and water skiing. A complete list of details can be found on the website: www.latrobe.edu.au/sport or sport@latrobe.edu.au

PUBLIC TRANSPORT AND PARKING

Location of Bundoora Campus

The Melbourne (Bundoora) Campus is situated in the north-eastern Melbourne suburb of Bundoora, at the intersection of Plenty Road and Kingsbury Drive, 14 km from the city centre (Melway street directory reference: 19 G7).

Maps

Free pocketsize Travel Smart Access Maps are available from the Union Services Centre on the second level of the Agora. These also show the various bicycle routes to and from Campus.

A leaflet detailing the Melbourne (Bundoora) self-guided campus tour

is particularly helpful for new students and staff.

Maps for people with disabilities are available which show the location of accessible pathways, lifts, suitable parking areas and building access points. These maps are available from the Equity and Access Office on Level One, Peribolos East, Bundoora.

Travelling by tram

Route 86: Telstra Dome, City – Bundoora/RMIT

Tram 86 runs directly from the Harbour Esplanade in Docklands (near the Telstra Dome), along Bourke St, via Southern Cross (previously Spencer Street) Station, through the city, up Smith Street in Collingwood, through Clifton Hill, up High Street through Northcote and Preston. From there it turns right up Plenty Road, stopping at the La Trobe University Medical Centre, and continues on to RMIT Bundoora Campus. Travel time to La Trobe University from the City (or the reverse) is around 45 mins to one hour depending on traffic.

Travelling by train

There is no direct train route to the campus. You will need to connect with a bus service from the train station. More information and timetables are available from: www.metlinkmelbourne.com.au/

Travelling by bus

There are a number of buses that travel to La Trobe University daily. More information, timetables, and routes are available from www.metlinkmelbourne.com.au/

Nightrider bus

Timetables and maps are available on www.metlinkmelbourne.com.au/transport_maps/nightrider.php

Campus bus

A circular campus bus service operates every half hour between 8.00 am and 6.15 pm, Monday to Sunday. Please view the map and timetable for further information. An after-hours service is also available to escort students/staff from the library to car parks, residences and the tram stop.

Car parking

All vehicles (other than motor cycles) parked at the University between 8.00 am and 5.00 pm Monday to Friday must display a current parking permit or daily vending machine ticket. Parking permits are purchased from the Traffic and Parking office while daily tickets can be purchased from vending machines located in most of the car parks. A limited number of reserved permits are available to staff and students. For more parking information please contact Traffic and Parking or visit the web site: www.latrobe.edu.au/bg/parking.html

Car-pooling

A car pool service exists for car-owners and people seeking rides. When carpooling, members are entitled to a permit that guarantees them a space in the carpool car park. It's a great way to meet new people and share the cost of getting to the University. More information available on: www.latrobe.edu.au/carpool/

Disabled parking

Spaces for disabled drivers are available in most of the car parks closest to the University buildings. Car parks one and eight also have a number of disabled bays. Visit the Traffic and Parking office for further information.

Travelling by bicycle

Cycling to campus is a great way to keep fit and it's free! Pick up a free Travel Smart Access Map (available from Contact in the Agora) for details of suggested bike routes to and from the University.

There are about 150 bike lockers on-campus available for hire. Keys are available from the Administration Office, Union Building, on the first day of semester each year.

The Union Building and the Sports Centre have free showers in the main male and female toilets. Free towels and soap for the Union showers are available from the Union Administration Office on presentation of your student

Student Organisations

LA TROBE UNIVERSITY POSTGRADUATE ASSOCIATION INC (LUPA)

Upper Level, West End
Union Building
Melbourne (Bundoora) Campus
Tel: (03) 9479 2438
Fax: (03) 9479 5617
Email: lupaoffice@latrobe.edu.au
Website: www.latrobe.edu.au/lupa

A committee of management, which represents the interests of postgraduate students, governs the La Trobe University Postgraduate Association Inc. (LUPA). A team comprised of the committee, staff and friends of LUPA works together to provide services and support for postgraduates. LUPA provides a range of services including academic seminars, advocacy, representation, a monthly e-newsletter, and social events.

Our academic seminar program is one of our most recognised and utilised services, providing essential information to help postgraduates complete their degrees. La Trobe academics and other experts who are fully conversant with their particular topic present seminars. Topics include writing a literature review, quantitative, qualitative research methodologies, and thesis examination. Special seminars are also held specifically for postgraduate coursework students.

LUPA offers an advocacy service to all postgraduate students who need advice or support concerning their academic degree. The service provides an avenue for students to address concerns when they arise such as thesis writing, supervision, submission requirements, and examination. LUPA advocates can direct you to suitable officers within the University who can assist you or they can liaise with people for you.

Representation on University committees is one of the ways that the postgraduate voice can be heard. LUPA has a number of postgraduate representatives who sit on key University committees, including the Academic Board and the RGSO Higher Degrees Committee (Research). These forums enable LUPA to present postgraduate views to the decision-making bodies of the University.

The team at LUPA knows the importance of having some fun to balance all that academic activity. LUPA holds a number of social activities throughout the year for this express purpose. Events such as the annual cultural night and the wine tasting and cheese evening allow students to unwind with people who share common goals and experiences and to talk to other people who understand the postgraduate experience.

LUPA is increasingly utilising electronic means of communication to both distance and local students. The website contains useful resources such as articles as well as online membership application (see www.latrobe.edu.au/lupa). LUPA members can choose to receive a monthly e-newsletter that contains information about postgraduate issues, upcoming seminars and events and a feature article aimed at assisting postgraduates in some part of their studies.

Like all community organisations, the success of LUPA is dependent on the input from the postgraduate community. If you are interested in becoming a member of the committee, feel that you have the skills or enthusiasm to assist LUPA, or just wish to put forward an idea, please contact us.

SPORTS CENTRE

Location: Near car park 6, Melbourne (Bundoora) campus
Email: sport@latrobe.edu.au
Website: www.latrobe.edu.au/sport

Fun, fitness, health and wellbeing. One of the best ways to meet people and become involved is to visit the University Sports Centre. The Sports Centre on the Bundoora Campus includes a 25-metre indoor heated swimming pool, a fully equipped gymnasium, table tennis facilities, a dance studio, squash courts, tennis courts, and a multi purpose stadium that hosts basketball, badminton, volleyball, and indoor soccer. Train on your own or participate in one of a number of programs such as group exercise, dance, yoga, or pilates. Additional services include first aid training, massage, and nutrition.

With over 20 affiliated sporting clubs, there is something for everyone, from social to competition. Sporting Clubs include Alpine skiing, Australian Rules, basketball, cricket, hockey, mountaineering, netball, soccer, surfing, tennis, and water skiing. A complete list of details can be found on the website.

Students' Representative Council Inc. (SRC)

Agora (behind Campus Cafe)
Melbourne (Bundoora) Campus
Tel: (03) 9479 2976
Fax: (03) 9479 3550
Email: reception@srclatrobe.org.au
Website: www.srclatrobe.org.au

The La Trobe University Students' Representative Council (SRC) acts as the student voice on campus as well as within the wider community. It is one of only two bodies on campus that are wholly controlled by students (LUPA being the other one). All students of the Melbourne (Bundoora) Campus are members, the SRC represents the views, opinions of La Trobe University students in a diverse range of forums both on and off campus, as well as providing services that are prompted by student need, and which are independent of the University.

At the SRC annual elections, nine students are elected as the SRC office-bearers, as well as editors of the student magazine *Rabelais*. These students are elected to specific portfolios for a period of 12 months. The portfolios cover President, General Secretary and seven activist offices being Welfare, Women's, Indigenous, Education, Environment, dis (Ability) and Queer. Each of these departments has evolved over the past 30 years to create an effectively run student organisation that promotes and upholds the ideals of student control of student affairs. SRC office-bearers all work to build a collective of students who provide the impetus and direction for campaigns and activity. The SRC is the principal way for students to be involved in extracurricular activities and to work for progressive change in the university environment. The SRC is affiliated to the peak student representative body, the National Union of Students (NUS).

The SRC Inc. also provides the following services for students, often borne out of a fundamental need on campus, which are either free or incur a low cost: bookbinding, faxing, *The Age* subscriptions, photocopying. The SRC Inc. will assist any student with difficulties and, as part of its bid to combat student poverty, our Welfare department provides a free breakfast for students every Wednesday during semester. SRC Inc. meetings are held once a month to discuss policy and debate issues, and are open to students. The SRC also funds and administers:

- clubs and societies
- *Rabelais* student media
- student advocacy (details below).

Clubs and societies

SRC Office
Agora (behind Campus Cafe)
Tel: (03) 9479 2976
Email: clubs@srclatrobe.org.au

If you have ever eaten lunch alone, you have probably wondered how some people have managed to find stacks of friends within five minutes of their first day. The answer is clubs and societies. Social, cultural, spiritual and political clubs at La Trobe are organised by the Students' Representative Council Inc. (SRC). There are more than 35 SRC clubs and societies and any enrolled student may start a new club.

So, how do Clubs and Societies help you to make friends? By contributing to a vibrant campus culture through activities, social events, displays, and performances, clubs and societies assist students to meet up with like-minded others and find their niche on campus. Filling in those gaps between classes becomes a lot easier with the help of a few friendly faces. With all clubs on campus overseen by the clubs and societies Council, clubs and societies is one of only two bodies on the whole campus that are run entirely by students. All of the clubs on campus exist because there were students who wanted to

start them, and other students who wanted to be part of them. So visit www.srclatrobe.org.au and see if there is a club on campus that interests you. If you want to start your own club, drop by the Clubs and Societies lounge or the Student Representative Council (Level 2 Agora, behind Campus Café), and we'll give you all the information and help you'll need to set one up!

Rabelais student media

SRC Office
Agora (behind Campus Cafe)
Tel: (03) 9479 1028
Email: editors@rabelais.org.au
Website: www.rabelais.org.au

Rabelais is the student magazine of the La Trobe University Students' Representative Council. As a department within the SRC, the magazine provides opportunities for students to publish, debate and reflect. With an open editorial policy, youth-focused content and student-elected editors, the magazine is one of few opportunities for students to publish while they are still honing their journalism or creative writing skills. *Rabelais* enables information to be reported directly to the student body, including details of University changes, important dates and events, social gatherings and other campus life information.

Published ten times throughout the academic year since its inception in 1967, the magazine offers a wide range of opportunities to La Trobe students. In addition to the regular editions of *Rabelais*, there are also five special editions particular to various departments of the SRC. These are *Rebellious* (Women's), *Rebel Q* (Queer), *Green Rab* (Environment), *Indig Rab* (Indigenous-Australian), and an election edition. These special editions are coordinated and produced by the relevant collective on campus, with the assistance of the *Rabelais* editors.

Student advocacy

SRC Office
Agora (behind Campus Cafe)
Tel: (03) 9479 1189

The Student Advocate is the first point of contact for all students with academic and/or campus life problems. One well-recognised example of academic concerns addressed by the Student Advocate is the area of 'show cause' applications arising from allegations of unsatisfactory academic progress. Apart from attendances at hearings where the Student Advocate provides an active advocacy role, there are also a large number of applications made by students, where students are provided with advice about procedures and prerequisites for applications. This advice and assistance can be provided without fear or favour due to the current independence of the position.

INTERNATIONAL PROGRAMS OFFICE

Prospective students
Tel: (03) 9627 4805
Or free call within Australia: 1800 619 768
Enquiries relating to submitted applications and current students
Tel: (03) 9479 1199
Email: international@latrobe.edu.au
Website: www.latrobe.edu.au/international

The International Programs Office (IPO) is generally the first point of contact for international students at the University. It remains a place on campus where students are always welcome to go for advice, information and support. The IPO is open Monday to Friday, 9.00 am – 5.00 pm. The office is closed for lunch 12.30 pm – 1.30 pm from the third week of semester onwards.

IPO services

A wide range of staff work at the IPO, specialising in a variety of areas. You may already have met some of us in person, on the phone, or via email. IPO staff assist you by:

- processing your application
- arranging to meet you at the airport
- booking temporary accommodation for you
- answering your questions about fees and admissions throughout your studies

They also provide services and support including:

- assistance with visa, health insurance and temporary accommodation arrangements
- a Pre-departure guide for the relevant campus
- a Welcome Festival orientation program to assist with your transition to studying in Australia and at La Trobe University
- international Support Services staff who offer advice and support on personal, financial or cultural issues, transition to life in Australia and study at La Trobe
- specialised information for students with families
- a Sponsored Students coordinator to offer specialised support to sponsored students
- specialised support for students studying at La Trobe University on an exchange program
- advice for students who wish to study at an overseas institution as part of their degree
- a range of social activities and programs varying from campus to campus, such as day trips, a Weekend Homestay program and a Language Exchange program
- a Returning Home program to ease your transition to returning home

The IPO can also advise you on your rights as an international student according to the National Code of Practice. The Code can also be downloaded from the following website: aei.dest.gov.au/AEI/ESOS/NationalCodeOfPractice2007/National_Code_2007.pdf

International student support services programs

Each semester, the IPO runs a variety of programs (including social activities and competitions) in, which all international students are encouraged to participate. For more information see: www.latrobe.edu.au/international/supportservices

Friendship program

A series of fun and inexpensive social activities are held throughout the semester. This program provides opportunities to meet students – both Australian and international – in a relaxed environment.

Language Exchange

Language Exchange is a program, which brings local and international students together to exchange language skills and share cultural knowledge. Students are put in contact with a student who is

learning their native language (or a language in which they are fluent). International students are then able to practise their English skills in exchange for assisting local (and sometimes other international) students with the language they are learning.

InterNews

InterNews is a fortnightly email newsletter of important and interesting information for international students, ranging from events on campus and around Melbourne to relevant changes in University and immigration regulations. All international students are encouraged to subscribe to *InterNews*, and also to contribute items. If you'd like to subscribe, email your request to: studentsupport@latrobe.edu.au

COMING TO AUSTRALIA

Student visas

It is the responsibility of students to ensure they obtain and maintain a valid passport and student visa to enter Australia for study purposes. The electronic Confirmation of Enrolment (eCOE) form issued by the International Programs Office on receipt of acceptance is used to apply for a student visa at the nearest Australian diplomatic mission. Students are also required to demonstrate that they have sufficient funds to cover tuition fees and living expenses.

The International Programs Office can provide advice on matters related to student visas including procedures for visa extension and permission to work.

Contact:
International Programs Office
Level 2, Peribolos East
Melbourne (Bundoora) Campus
Tel: (03) 9479 1199
Email: international@latrobe.edu.au
Website: www.latrobe.edu.au/international

Visa conditions

Student visas are issued by the Department of Immigration and Citizenship (DIAC) with a number of conditions attached, including the following:

- 8202 – satisfy academic requirements (students must be enrolled full-time and make satisfactory academic progress)
- 8533 – advise the University within seven days of arrival in Australia of your current residential address and of any changes of address within seven days of each change
- 8501 – maintain acceptable health insurance cover during the entire stay in Australia
- 8101 – the student and their family members must not work without permission.

The University is obliged to notify DIAC if students breach visa conditions, change their course, or intermit or discontinue their studies.

Permission to work

Students are not automatically granted the right to work on a student visa. If students wish to get a job while studying, they must wait until classes have started to apply for Permission To Work (PTW) on their student visa. Applications can be lodged online or students can make an appointment with DIAC. The application fee is A\$60. This process may change in 2008. If PTW (a student visa with condition 8105) is granted, a student may work for a maximum of 20 hours a week while their course is in session. For visa purposes a course is 'in session' for the duration of the published semesters, including any official examination periods. There is no restriction on working hours during vacation times. Spouses of undergraduate and some postgraduate coursework students are permitted to work a maximum of only 20 hours a week at all times. However, spouses of Masters and PhD students can work unlimited hours if they apply for permission to work after the Masters or Doctoral program has commenced.

Some scholarships may also place restrictions on working hours, particularly for postgraduate students. Students may undertake a work placement as part of their course requirements as long as it is a registered part of their course. If students volunteer or take part in unpaid work, DIAC requires them to apply for permission to work. Any volunteer or unpaid work counts towards the limit of 20 hours per week.

Further information:

DIAC

Email: international@latrobe.edu.au

Tel: (03) 9479 1199

Overseas Student Health Cover

As a condition of a student visa, all international students must have Overseas Student Health Cover (OSHC). OSHC provides medical and hospital insurance cover for international students and their dependants while in Australia.

La Trobe University currently has an agreement with OSHC Worldcare, a private health fund, for the provision of OSHC. La Trobe University's policy is that students purchase health cover for the duration of their course. This one-off payment saves students needing to renew their OSHC each year and avoids any price increases during that period.

OSHC rates for 2008 are:

Length of Stay	Single	Family
6 months	A\$185	A\$370
1 year	A\$370	A\$740
2 years	A\$675	A\$1410
3 years	A\$1058	A\$2117

Note: Commencing students using another OSHC provider must make payment arrangements with the provider directly, as La Trobe can only accept payment for OSHC Worldcare. If you choose to use a provider other than OSHC Worldcare, you must provide proof of OSHC to the Department of Immigration and Citizenship (DIAC) before your visa is issued. A list of OSHC providers is available from the Department of Health and Ageing via www.latrobe.edu.au/international/predeparture/visa

For further information on student visa regulations, visit the DIAC website: www.immi.gov.au

Note: for Norwegian and Swedish students: OSHC is not required by Norwegian students, as they are covered by the Norwegian National Insurance Scheme. Swedish students whose insurance is provided by CSN International do not need to take out OSHC; however Swedish students not covered by the Swedish National Board of Student Aid must purchase OSHC.

TUITION FEES FOR INTERNATIONAL STUDENTS

La Trobe University offers undergraduate, postgraduate and research fee-paying places to international students. Annual tuition fees vary from course to course.

Fees for 2008

Students commencing studies in 2008 should note that the tuition fee listed in their letter of offer is for commencing students for the 2008 academic year only.

Fee increases

La Trobe University reserves the right to adjust annual tuition fees for continuing students. However, the University undertakes that any tuition fee increase will not exceed seven percent per annum and will be applied on 1 January each year for the duration of that year.

Credit point load

Tuition fees are also based on the standard credit point load for each course. In some courses or due to student load variations, semester loads may vary above or below the normal credit point load per

semester. Students will be invoiced for fees based on their actual credit point load for each semester.

Payment of fees

For all teaching periods, international fees are due and payable on the date specified on the University's Statement of Account.

First semester fees

Students pay their first semester's tuition fees when they accept their offer to La Trobe University. However, in some courses or due to student load variations, semester loads may vary above or below the normal credit point load per semester. Students will be invoiced for fees based on their actual credit point load for each semester.

Dates of payment – Unit Census dates

How students will be billed in subsequent semesters depends on each unit's Census date. The Census date is the last date for students to withdraw from a particular unit and not incur financial liability.

For units that run for the entire semester, students will be billed in two instalments: the first instalment is due during week one of that semester and the second instalment is due during week eight.

For units that do not run for an entire semester (e.g., Graduate School of Management units that run for a term), students will be required to pay the total fee by the particular Census date.

In recognition of the possible impact on full-fee students studying in Australia, quarterly payments of annual tuition fees are allowed (for only semester-length units) once students have paid initial fees of six months in advance. This is achieved by splitting the January–June and July–December payments into halves.

Any other unit fees are due by the Census date, for example, 'All Year' units are due by 30 April.

The provision of this payment option does not remove any fee liability with respect to the Unit Census dates. To check the Census dates for units, see:

www.latrobe.edu.au/acadserv/fees/newsis_census_2008.php

Further information

If students are experiencing difficulties paying fees, they should speak to a reporting officer in the International Programs Office.

You can receive further information and advice on Census dates and refunds from the International Programs Office.

ADMISSIONS AND ENROLMENT FOR INTERNATIONAL STUDENTS

Admissions

International students applying for undergraduate or postgraduate coursework programs or postgraduate research programs must submit their applications directly to the International Programs Office.

International students currently undertaking VCE must apply through VTAC, in accordance with normal VTAC guidelines. However, direct applications lodged by VCE students may also be accepted after mid-January.

New international applicants who meet the required academic and English language requirements for the program they have applied for will be contacted by the International Programs Office by way of a letter of offer.

For further information see www.latrobe.edu.au/international/apply

Advanced standing

Unless currently undertaking the VCE in Victoria, applicants should apply direct to the University for advance standing.

International students must apply for advanced standing by the end of their first week of classes if this has not already been granted.

Students must maintain a full-time enrolment (except during the final term, semester or teaching period of their course). The only exceptions to this are for academic progress reasons, or because a student has received advanced standing.

Note: This would need to be approved by a faculty Course Adviser.

If a student's course length is reduced because of advanced standing granted, the Department of Immigration and Citizenship (DIAC) will be advised. Students will be issued with a new electronic

Confirmation of Enrolment (eCOE) to take to DIAC.

Note: If a student completes their course earlier than indicated on the eCOE, they are required to leave the country 28 days after completion of the course (or apply for a new visa).

The International Programs Office can provide advice on matters related to international students including procedures for visa extension.

International Programs Office
Level 2, Peribolos East
Melbourne (Bundoora) Campus
Website: www.latrobe.edu.au/international
Email: international@latrobe.edu.au
Tel: (03) 9479 1199

English language proficiency

Applicants whose principal language of instruction was not English must provide evidence of their proficiency in English. This can be done by achieving a satisfactory result in VCE English (any) or in an International English Language Testing System (IELTS) or another test acceptable to the University. For more information on La Trobe University's English language requirements please see: www.latrobe.edu.au/international/apply

Enrolment

Variation of enrolment for international students

To comply with visa conditions international students must:

- maintain satisfactory academic progress
- maintain a full-time study load, except when in the last semester/term of their course. Students may be permitted to enrol in less than a normal full-time load, but only with the permission of their School or Faculty.

The International Programs Office can provide advice on matters related to international students including procedures for visa extension.

Deferral of enrolment (prior to commencement of course)

International students holding a student visa should note that deferral for more than six months usually results in cancellation of their student visa. Within 28 days of the date of deferral, a student is required either to leave the country or to apply for another visa.

Intermission of course (after commencement of course)

International students holding a student visa should note that intermission (taking an official leave of absence) of their course for a period more than six months usually results in cancellation of their student visa. Within 28 days of the date of intermission, a student is required either to leave the country or apply for another visa.

Transfer of course

International Students who wish to transfer their course either before they have commenced, or in their first semester of enrolment need to consult the International Programs Office. All other continuing students should consult their School/Faculty. In some cases international students will need to apply for a new student visa if they transfer their course.

Discontinuation of enrolment (withdrawal)

Students contemplating discontinuation of enrolment are strongly encouraged to discuss this with a course adviser and consult with counselling services, or the International Student Support Services staff at the International Programs Office.

Liability for international tuition fees is dependant upon the date the discontinuation has been approved by both the IPO and the School/Faculty. If an international student chooses to discontinue their course in the first semester of their enrolment the refund policy applies. See www.latrobe.edu.au/international/apply.

After the first semester of enrolment, a student needs to discontinue units they are enrolled in before each of their Census dates in order to not incur fees. If a student discontinues their enrolment after some of their unit Census dates, they can apply for Remission of Debt. Under exceptional circumstances an International Student may be re-credited some fees.

Students who discontinue their enrolment will normally be required to reapply direct to the International Programs Office for re-admission to the course, or admission to a new course.

The International Programs Office will notify the Department of Immigration and Citizenship (DIAC) when a course discontinuation is lodged. Visas normally remain valid for only 28 days from the date of notification to DIAC.

For further information contact the International Programs Office.

Student Identification and contact

It is one of the conditions (8533) of a student visa that students advise the University within seven days of arrival in Australia of a current residential address and of any changes of address within seven days of each change. DIAC requests these contact details from the University in order to contact you.

Scholarships

There are a number of scholarships available for international students. International students should contact the International Programs Office or refer to the following website: www.latrobe.edu.au/international/scholarships

Academic progress requirements

International students holding a student visa are reminded that condition 8202 requires them to maintain satisfactory academic progress.

An international student will not be reported to DIAC as being in breach of condition 8202 until after they have been excluded by the Academic Progress Committee and the time for lodging an appeal has elapsed or the Academic Progress Review committee has made a decision. Until then, it is recommended that students approach their Faculty and continue to attend classes.

STUDENT EXCHANGE PROGRAMS

Student exchange offers a unique opportunity for self-discovery, as well as broadening educational horizons. La Trobe University encourages all students to include one or two semesters studying overseas as part of their degree program. When studying on exchange, tuition fees are waived at the host institution. The range of countries and exchange partners available under the La Trobe University Exchange Program caters for students from all study areas. Students accepted into the exchange program may receive a generous exchange grant.

FAQ

Why go on student exchange?

- Live in and learn about a different country
- Immerse yourself in another culture and gain a broader understanding of your area of study
- Make new friends and international contacts
- Combine travel and study
- Student Exchange enhances future job prospects.

Where can I go?

- La Trobe has more than 80 partner universities around the world.
- A full list of our partners is available at www.latrobe.edu.au/international/exchange/partners.html

Am I eligible?

Student exchange is available to all students, including full-fee paying international students, who are enrolled in, and will be eligible to maintain enrolment in La Trobe University award courses, at undergraduate or postgraduate level for the period of exchange. Undergraduate students must have completed the first year of their undergraduate degree course at a satisfactory academic level. Postgraduate students who have been enrolled for approximately one year and who have made satisfactory progress with their research are eligible for selection. Once selected by La Trobe, applicants must also satisfy the admission requirements of the host university.

Will it take longer to finish my studies?

No, most students are able to receive full credit for their semester or year of exchange.

Can I study part-time on exchange?

No, you can apply if you are a part-time student at La Trobe, but you must be enrolled full-time for the period of exchange.

How much does it cost?

- students selected for exchange may receive a generous exchange grant
- students pay their normal fees (HECS-HELP, FEE-HELP, or Full Fees) to La Trobe University for the duration of their exchange and receive a fee waiver from the host university. Travel and living expenses are covered by the student
- if students receive Youth Allowance or government scholarships they can usually continue to receive these whilst overseas. Information on living costs in each country is available from the International Office
- OS-HELP is also available. This is a Commonwealth Government loan scheme, which assists eligible undergraduate students to undertake some of their course of study overseas. For more information please visit the following website:
www.goingtouni.gov.au

* *Travel restrictions currently apply. We do not anticipate sending students to these countries/institutions in the near future.*

Foundation and Diploma courses are taught in a small classroom coursework environment designed to improve the students' academic and English language skills. University level Diploma subjects are moderated and assessed by the faculties. These programs are also offered via associate universities, and by other institutions overseas and in Sydney. For more details go to www.latrobe.edu.au/fsp/paths.html.

Clinical placements

Students may be able to carry out their clinical placement abroad. For more information please contact your School/Faculty or contact the International Programs Office.

Short programs

La Trobe University now has short programs available to students who are time poor or cannot afford to spend an entire semester abroad. Short programs may be partially funded and can allow students to complete a unit of their studies aboard. For more information, please visit www.latrobe.edu.au/international/exchange

LA TROBE UNIVERSITY INTERNATIONAL COLLEGE

Fax: (03) 9479 3676

Website: www.latrobe.edu.au/college

Email: college@latrobe.edu.au

CRICOS Provider Numbers: 00070G, 00115M

In 2007, the Language Centre (est.1974) merged with the Foundation Studies and Diploma Programs unit (est.1995) to become the International College. With over 33 years of English language teaching expertise, quality accreditations by peak industry bodies, including ISO 9001, the International College provides students with the best possible integrated educational and cultural experience. Students have access to comprehensive student support services, including accommodation (on and off campus), student advisors and counsellors, and free computer labs, as well as access to La Trobe University facilities, student clubs and associations. The International College is based at the Bundoora (Melbourne) campus, and offers:

English Programs:

- English Language Intensive courses for overseas students (ELICOS), including:
English for Further Studies: offering academic skills for Direct Entry to University
General English, and Business English;
- Certificate II in Professional Communication Skills – Internship programs
- English Teacher training – via the University of Cambridge Certificate in English Language Teaching to Adults (CELTA)
- specialised group programs and study tours
- ELICOS programs at the Bendigo campus (depending on demand).

Foundation Studies: offers an academic bridge into first year of any university degree

Students obtaining the minimum required grades and any stated prerequisites as set by each Faculty are guaranteed a position in their chosen course. Entry requirements for each degree are predetermined see www.latrobe.edu.au/international/downloads/apply_req.pdf

Diploma Programs:

The Diploma of Business Administration and the Diploma of Information Systems offer equivalents to University first year. Successful students gain entry into second year of the corresponding degrees.

Scholarships and Prizes

UNIVERSITY WIDE AWARDS

Commonwealth Scholarships (CS)

Further information: www.latrobe.edu.au/scholarships

Commonwealth Scholarships assist rural and regional, low income and Indigenous full-time students with financial support associated with their study in an undergraduate degree program for up to four years. The scholarships are available to Australian citizens or holders of Australian permanent humanitarian visas. Indigenous Australian students are particularly encouraged to apply.

There are three types of Commonwealth Scholarships (CS):

- Commonwealth Education Costs Scholarship (CECS) – value \$2162 per year indexed
- Commonwealth Accommodation Scholarship (CAS) – value \$4324 per year indexed
- Indigenous Access Scholarships (IAS) – one off payment \$4000

These scholarships will be exempt for the purposes of the Social Security Act and thus income from these scholarships will not be taken into account when applying the Personal Income Test for Youth Allowance, Austudy, Abstudy, or the primary payment of students receiving a Pensioner Education Supplement.

DM Myers University Medal

The DM Myers University Medal is awarded annually to the outstanding undergraduate student graduating in each Faculty (usually an Honours graduate). The medallion was donated by the first Vice-Chancellor of La Trobe University, Dr David Myers, CMG. The medallion was designed by Andor Meszaros, a medallionist and sculptor of international repute, who came to Australia from Hungary in 1939 and whose major works include the King George V Memorial Statue (King George V Hospital, Sydney) in marble, an altarpiece in the Canterbury Cathedral and the 1956 Olympic Medallion.

Distinguished Alumni Award

The Distinguished Alumni Award is awarded to eminent La Trobe University Alumni in Australia and across the continents, who have demonstrated the following:

- Outstanding professional or community service achievements
- Inspirational leadership in their field
- Exceptional human qualities

The University is keen to recognise the outstanding contribution Alumni make to their professions and the community. Nominations for the Award can be lodged with the University's Alumni and Development Office.

Harvey Naghten Memorial Award (up to \$1000)

A grant of up to \$1000 may be awarded annually (subject to availability of funds) to a student who has completed at least the first year of an undergraduate course, has been able to remain at University through their own efforts despite difficulties and has assisted others within or outside the University during their period of study at La Trobe. Further information: www.latrobe.edu.au/scholarships

Honours Year Grants Scheme (maximum \$2000)

The University encourages academically qualified students enrolling for Honours and experiencing financial hardship to apply for a grant from the Honours Year Grants Scheme. A number of grants of up to \$2000 will be awarded, with payment conditional upon the recipient accepting the terms and conditions of the grant and enrolling as an Honours year student in the same academic year. Check the web in early August for up to date advice regarding the following year's grants. Applicants should not wait for an invitation to do Honours. For further information: www.latrobe.edu.au/scholarships

La Trobe Alumni Prize (\$1000)

The La Trobe Alumni Prize recognises the contribution and achievements of final year students studying for their pass degree, or who are in the penultimate year of their Honours degree.

The prize is awarded to an outstanding student from each of the five faculties. Prize recipients are determined by the Faculty Boards.

La Trobe Academic Excellence Scholarships (LAES) (\$2000)

La Trobe University offers a number of scholarships to support students commencing tertiary studies, who enrol at any Victorian Campus of the University and who achieve outstanding marks in their Victorian Certificate of Education (or equivalent) completed within the past two years. The scholarship is valued at \$2000 per year for the normal duration of the course including Honours if applicable. Further information: www.latrobe.edu.au/scholarships

La Trobe University Housing Company Residential Scholarships (\$500)

A number of scholarships are available to undergraduate or postgraduate students enrolled at the Bundoora Campus. Each scholarship is valued at \$500 and is awarded mid-year each year. The scholarship is to provide assistance to students who can demonstrate their successful commencement of, or progress in university study, and who can demonstrate a financial need with respect to the costs of accommodation whilst undertaking their studies. These costs may be incurred within University-managed accommodation, e.g., Barnes Way flats, The University Lodge, the Colleges, or in the community outside the University. Application information is available from the middle of the year, usually June. Further information from Rod Coade, tel: (03) 9467 1940.

La Trobe Indigenous Students Scholarships (LISS) (\$5000)

In recognition of the importance of creating opportunities for Indigenous Australian students to complete higher education, La Trobe University has made available up to ten scholarships annually for Indigenous students commencing full or part-time studies at any Victorian Campus of the University. The scholarship is valued at \$5000 per year for the normal duration of the course including Honours if applicable. For further information: www.latrobe.edu.au/scholarships

La Trobe Vice-Chancellor's City of Whittlesea Scholarships (LVCWS) (\$3000)

A limited number of scholarships are available for commencing first year students who enrol in courses offered at the Bundoora Campus of La Trobe University. Applicants must be residents of the City of Whittlesea. The scholarship is valued at \$3000 per year for the normal duration of the course including Honours if applicable, www.latrobe.edu.au/scholarships

La Trobe Study Support Scholarships (LSSS) (\$3000)

A number of scholarships are available annually to assist students experiencing financial need and/or educational disadvantage. Students must be commencing full-time undergraduate studies at any Victorian Campus of the University. A LSSS is valued at \$3000 per year for the normal duration of the course in which the student is first enrolled, including Honours if applicable. www.latrobe.edu.au/scholarships

La Trobe Vice-Chancellor's Regional Scholarships (LVCRS) (\$3000)

Five scholarships will be available for students commencing first year full-time undergraduate studies at each of La Trobe's regional Campuses at Albury-Wodonga, Bendigo, Mildura and Shepparton. The scholarship is valued at \$3000 per year for the normal duration of the course including Honours if applicable, www.latrobe.edu.au/scholarships

La Trobe University Women's Network Award

The La Trobe University Women's Network Award supports a female postgraduate student on the Bundoora Campus. The Award targets disadvantaged women students who are continuing postgraduate studies and have demonstrated involvement in community or student activities. Both Australian and international students are able to apply. Applications are encouraged from women who belong to one of the student equity groups, that is, students from socio-economically disadvantaged backgrounds, students from a non-English speaking background, students with disabilities, students from rural and/or

isolated areas, Aboriginal and Torres Strait Islander students, and/or women in non-traditional areas of study. The recipient of the award can select a prize of either a book voucher from the University bookshop with a value of \$250 or a conference reimbursement to the value of \$250. Application for the award should be made on the application proforma available from the Women's Network webpage: www.latrobe.edu.au/womnet

Pauline Toner Award (up to \$1000)

Awarded annually to a student who has completed at least two years of undergraduate study and has made significant contributions in the areas of conservation, social issues or education. Applications are particularly welcome from students undertaking Honours and postgraduate study. Further information from: www.latrobe.edu.au/scholarships

Targeted Travelling Scholarships

Targeted Travelling Scholarships are awarded by the Vice-Chancellor under the International Network of Universities (INU) scheme to assist students to spend a semester studying abroad at designated INU partner universities, with credit towards their La Trobe degrees. The value of each scholarship varies depending on the country in which students study, but comprises a return economy airfare as well as assistance with accommodation and living costs. Selection criteria include demonstrated academic achievements, potential to complete successfully a full-time semester of study in an unfamiliar environment, and the ability to act as an ambassador for Australia and for La Trobe University. The Faculties invite, and short-list, high-performing students to submit a scholarship application at the end of each year. The short-listed applications are then assessed by a selection committee appointed by the Vice-Chancellor.

A student is eligible to receive only one such award during the course of their studies at La Trobe University.

Funding is also available under this scheme to assist postgraduate students, in special circumstances, to travel to partner universities to undertake research towards their degrees.

Contact: Ms Joanna Watts, Executive Officer to the Pro Vice-Chancellor (Strategic Development), email: j.watts@latrobe.edu.au

Vice-Chancellor's language scholarships

A number of language scholarships may be available for students enrolled in modern language courses as part of a course at La Trobe University. The aim of these scholarships is to enable students to improve their language skills by undertaking language study overseas. For further information please visit: www.latrobe.edu.au/international/exchange/

Westpac Banking Corporation Award (\$1000)

Awarded annually to an undergraduate student who has carried out outstanding community work, either within La Trobe University or outside. Applicants must have a good academic record and have completed first year. Further information from: www.latrobe.edu.au/scholarships

Scholarships for international students

There are a number of scholarship opportunities available to high-achieving international students who are applying to study undergraduate, postgraduate coursework or postgraduate research programs at La Trobe University. These include the Australian Development Scholarships, the Australian Leadership Awards, the Melbourne Australia International Scholarships, the Malaysia Australia Colombo Commemorative Scholarships, the Australian Partnership Scholarships, La Trobe University Postgraduate Research Scholarships and a limited number of Endeavour International Postgraduate Research Scholarships. For further information, please visit: www.latrobe.edu.au/international/scholarships

Other scholarship opportunities may be available from sponsoring bodies in the home country of the prospective student. La Trobe University also encourages students to seek information about these potential opportunities.

RESIDENTIAL COLLEGE AWARDS FOR STUDENTS BEGINNING THEIR STUDIES AT LA TROBE UNIVERSITY, BUNDOORA

Chisholm College

Chisholm College Aboriginal and Torres Strait Islander Accommodation Award

To give substance to its policy of supporting the increase of access of students of Aboriginal or Torres Strait Islander descent to La Trobe University, Chisholm College offers one full Accommodation Award to a person of ATSI background, at any level of study including entry and postgraduate, who has gained a place at La Trobe University and is in need of accommodation for completion of their university studies. Economic needs, compassionate grounds and/or any disability with evidence of appropriate academic potential will also be evaluated in granting this award.

For more information visit: www.latrobe.edu.au/chisholm or contact the College Warden on (03) 9479 2899.

Chisholm College Academic Awards (\$150 book voucher and certificate of merit)

These annual awards are made to the most outstanding Chisholm undergraduate in each of La Trobe University's five faculties at Bundoora. The recipients are selected by the Warden of College, on the basis of the official results for the academic year in question. The awards take the form of a certificate of merit and a book voucher to the value of \$150. For more information visit: www.latrobe.edu.au/chisholm or contact the College Warden on (03) 9479 2899.

Chisholm College Entry Scholarships (up to \$1000 per semester)

In keeping with the Chisholm College commitment to academic excellence, up to 20 Entry Scholarships are distributed at the beginning of each academic year. The scholarships are awarded on the basis of academic merit and potential contribution to college life. The scholarships are offered for first semester but are renewable subject to outstanding academic performance in second semester. These scholarships are valued at up to \$1000 per semester and are made to domestic and overseas students undertaking full-time study. Students must be resident, or have an offer of residency, for Chisholm College, and must be enrolled La Trobe students. For more information visit: www.latrobe.edu.au/chisholm or contact the College Warden on (03) 9479 2899.

Glenn College

Glenn College Entry Scholarships (up to \$1000 per semester)

Entry Scholarships are awarded for academic excellence to new residents enrolling in each of the following faculties: Health Sciences; Science, Technology and Engineering; Law and Management; Humanities and Social Sciences and Education. Up to six Entry Scholarships are awarded on the basis of academic merit and potential contribution to College life. The scholarships are offered for first semester but are renewable subject to outstanding academic performance in second semester. These scholarships are valued at up to \$1000 per semester. For more information visit: www.latrobe.edu.au/glenn or contact the College Warden on (03) 9479 5100.

Glenn College Leadership Awards (\$500 per semester)

Three Leadership Awards are available each year for students joining Glenn College in each of the following categories:

- demonstrated leadership and potential contribution to college
- demonstrated sport achievement and potential
- demonstrated cultural, society or music achievement and potential.

These Leadership Awards are valued at \$500 per semester, and are renewable after first semester subject to contribution to college life. For more information visit www.latrobe.edu.au/glenn or contact the College Warden on (03) 9479 5100.

Menzies College

Menzies College Entry Prize Scholarships (approx. \$2000 per semester)

Up to three entry scholarships are available for undergraduate students entering Menzies College. The scholarships are awarded on the basis of academic merit and potential contribution to college life. The scholarships are offered for first semester but are renewable subject to outstanding academic performance in mid-year results (value is approximately \$2000 per semester). Information and application forms are available from Menzies College on www.latrobe.edu.au/menzies or contact the College Warden on (03) 9479 1071.

Menzies College Entry Scholarships (approx. \$1300 per semester)

Up to five entry-level scholarships are available for undergraduate students entering Menzies College. The scholarships are awarded on the basis of academic merit and potential to contribute to the cultural or community life of college. The value of these scholarships is 30 percent remission of residential fees; the scholarships are valued at approximately \$1300 per semester (and are renewable for second semester subject to academic performance). Information and application forms are available from Menzies College on www.latrobe.edu.au/menzies or contact the College Warden on (03) 9479 1071.

Menzies College Law Scholarship (\$1000)

The College offers new residents two scholarships to students enrolling in law (students transferring to main campus are eligible). The scholarships are awarded on the basis of academic merit and potential to contribute to the cultural or community life of college. The value of each scholarship is \$1000. Information and application forms are available from Menzies College on www.latrobe.edu.au/menzies or contact the College Warden on (03) 9479 1071.

Menzies College Leadership Awards (up to \$500)

Up to five leadership awards per semester, each worth up to \$500, are given to students joining college who are able to contribute with distinction to the sporting, cultural or community life. Students wishing to be considered for these awards should note this in their Application for College Accommodation, in Section E, and supply as much documentation as possible. The awards are made in the first few weeks of each semester.

Menzies College Music Scholarship (\$500)

The college offers one music scholarship to a student entering college who has strong musical talent and a willingness to participate in the musical life of college. The value of the scholarship is \$500. Information and application forms are available from Menzies College on www.latrobe.edu.au/menzies or contact the College Warden on (03) 9479 1071.

Menzies College Sporting Scholarship (\$500)

The college has a superb sporting tradition and has won the inter-college sporting trophy for the past six years. We are keen to attract outstanding young sportsmen and sportswomen. If you have ability and the willingness to contribute to the college's sporting program, you may be eligible for the Sporting Scholarship. Two scholarships are awardable, one for a male and one for a female student joining Menzies. The value of the scholarship is \$500. Information and application forms are available from Menzies College on www.latrobe.edu.au/menzies or contact the College Warden on (03) 9479 1071.

Targeted Regional Scholarships (up to \$1000 each)

Entry-level scholarships, each worth up to \$1000, will be available for students with outstanding contributions to make to Menzies College from key regional areas, including (but not exclusive to) Wangaratta, Bendigo, Shepparton, Ballarat, Albury-Wodonga, and Tasmania. Information and application forms are available from Menzies College on www.latrobe.edu.au/menzies or contact the College Warden on (03) 9479 1071.

FACULTY OF EDUCATION

For further information, contact the Faculty of Education Office on (03) 5444 7885.

Faculty Awards

Dean's Medal

Awarded to the outstanding graduating student in the Faculty of Education at each campus.

Stewart E Fraser Memorial Exemplary Thesis Award (\$1000 and a commemorative base-metal medal)

Prize for the best major thesis written by a Masters or doctoral level candidate in the Faculty of Education.

School of Educational Studies

Marta Rado Memorial Prize (\$75 book voucher)

The prize is donated by former colleagues, relatives and friends in memory of Dr Marta Rado who, as an early pioneer of communicative language teaching and bilingual education, was responsible for the rise to prominence of language teacher education at La Trobe University. The prize is awarded annually to a student in the primary or secondary LOTE method in the Graduate Diploma in Education, who will be most likely to further the cause of LOTE education in Victoria through innovative and dynamic teaching.

Design and Technology Teachers Association Victoria (DATTA Vic) (subscription, \$100 book voucher, publications and certificate)

The prize is awarded to the most outstanding student in the Graduate Diploma in Technology Education at the Bundoora or Albury/Woodonga campuses, and provides a one-year subscription to the Design and Technology Teachers Association Victoria (DATTA Vic), a \$100 book voucher, a resources pack from the DATTA (which includes CDs and publications) and a certificate recognising excellence in the area of technology teaching.

For further information, contact the Faculty of Education Office on: (03) 5444 7885.

School of Education

Australian Literacy Educators' Association Award (subscription)

Awarded for academic excellence in literacy studies to students graduating with a primary education degree. The award is one year's subscription to ALEA.

Bruce Palmer Award (\$200)

Awarded annually to a student at the Bendigo Campus who has excelled in the education studies components of the Graduate Diploma in Education.

George Colson Award (\$200)

Awarded annually to a student who has excelled in the language education component of any teacher education course at the Bendigo Campus.

KG Scarrott Award (\$500)

Awarded annually to a student completing the degree of Bachelor of Education at the Bendigo Campus who has attained consistent excellence in the practicum component of the course, coupled with an outstanding academic record.

Mike Molnar Award (\$200)

Awarded annually to a student at the Bendigo Campus who has excelled in some aspect of the second year of the School's pre-service teaching degree.

Design and Technology Teachers Association Victoria (DATTA Vic) (subscription, \$100 book voucher, publications and certificate)

The prize is awarded to the most outstanding student in the Graduate Diploma in Technology Education at the Bendigo campus, and

provides a one-year subscription to the Design and Technology Teachers Association Victoria (DATTA Vic), a \$100 book voucher, a resources pack from the DATTA (which includes CDs and publications) and a certificate recognising excellence in the area of technology teaching.

For further information, contact the Faculty of Education Office on: (03) 5444 7885.

School of Outdoor Education and Environment

John Martin Memorial Award (\$300)

Awarded annually to a student in Bachelor of Arts (Outdoor Education) who is entering the second year of study. It is an award that recognises and encourages the fullest involvement in study and enjoyment of life involving the outdoors and other relevant activities.

Laurie Leeson Award (\$200)

Awarded annually to a student who has excelled in environmental education in any course offered by the School of Outdoor Education and Environment.

For further information, contact the Faculty of Education Office on (03) 5444 7885.

FACULTY OF HEALTH SCIENCES

For further information regarding prizes offered by the Faculty of Health Sciences, tel: (03) 9479 3575 or email: LHS@latrobe.edu.au

Faculty Awards

Graduate Research Prize (\$250 each)

One prize is awarded to the postgraduate student or students who complete(s) the most outstanding graduate diploma project or masters by coursework minor thesis project. Another prize is awarded to the postgraduate student or students who complete(s) the most outstanding masters by research thesis or PhD thesis. Nominations close on 31 December.

Faculty of Health Sciences Postgraduate Coursework Award for Excellence (\$1000)

This award is given to the most outstanding postgraduate coursework student in the Faculty of Health Sciences who has achieved the highest weighted average of marks.

Margaret and Alan Hamer Research Prize (\$250)

Heads of Schools may nominate undergraduate students for this prize based on the standard of a research project completed while on a course. A group of students that jointly completes a research project may also be nominated. Nominations close on 31 December.

Professional Placement Scholarship Program

This is a competitive scholarship program offered to assist Health Sciences students meet additional accommodation, travel and other living costs incurred as a result of undertaking a professional placement in a location more than 50 kilometres away from their usual place of residence. The scholarship is only available to those undertaking a professional placement of more than one week in duration. Each scholarship is valued at \$40 per day of placement with a maximum of \$200 per week. There are two application rounds for scholarships each academic year. Several scholarships of up to \$1000 may be awarded annually to students in second year or above enrolled in the Faculty of Health Sciences. The award is based on academic achievement and personal circumstances. Further information is available from: www.latrobe.edu.au/scholarships

Division of Allied Health

School of Human Communication Sciences

Andrew Dean Fildes Foundation Award for Language Learning Disabilities (\$200)

Awarded to the speech pathology student who completes the best research paper related to language learning disabilities.

Freda Hooper Memorial Award (\$200)

Awarded annually to a speech pathology undergraduate student who has made a significant contribution to the speech pathology field beyond the normal requirements of their course of study.

Language Learning Disability Special Interest Group Award (\$200)

Awarded to the final year student in the Bachelor of Speech Pathology who has completed a research project of high standard and/or made a significant contribution to the area of language learning disabilities.

School of Human Communication Sciences – Clinical Achievement Award (\$100 and certificate)

Awarded in recognition of excellence in clinical skills. Nominations will be accepted from internal and external clinical educators. The Clinical Achievement Award will be presented to one student from each of the second, third and fourth year levels of the undergraduate Bachelor of Speech Pathology and the final year of the Master of Speech Pathology course.

School of Human Communication Sciences Honours Publication Award (\$100)

Awarded to one Honours year student who has a paper accepted for a peer-reviewed publication within 18 months of completing the Honours program.

Speech Pathology Australia Student Award

Awarded to a final year speech pathology student for outstanding academic achievements and/or excellent clinical achievements throughout the course, especially in the final year. The prize is a certificate and an upgrade of membership from student to full membership.

Victorian Speak Easy Association Speech Pathology Student Award (\$100 and certificate)

Awarded annually to a speech pathology student who has demonstrated academic and clinical excellence in the area of stuttering and its treatment.

Victorian Voice Interest Group Speech Pathology Student Award (\$200 and certificate)

Awarded to the final year student in the Bachelor of Speech Pathology who completes the best Honours research project or pass degree project related to voice science and/or voice disorders.

Winston S Rickards Prize Medal

Awarded annually (provided that there is a candidate of sufficient merit) for the best paper submitted on therapeutic principles and their application in the field of communication disorders. The prize is a medallion.

School of Occupational Therapy

AAOT Victoria Inc. New Graduates Award for Clinical Excellence (\$100)

Awarded to an occupational therapy student based on excellence in clinical practice throughout the course.

Accredited Occupational Therapist (AccOT) Prize

Awarded to the student with the highest weighted result in HLT3IPA for undergraduate students and the highest weighted result for OCT5APP for entry-level students. There will be a nomination for each from BOT and MOTP students. The prize is a certificate, payment of first biennial fee for joining AccOT and a photo in OT Australia's national newsletter.

The Alfred Group – Janet Sloane Stroke Rehabilitation Grant (\$500)

Awarded to a student in the Bachelor of Occupational Therapy who submits a suitable, high quality proposal to undertake research in the area of stroke rehabilitation in their final year.

Award for Excellence (Master of Occupational Health Student) (\$100)

Awarded to the Master of Occupational Health student with the highest weighted average overall upon completion of their award.

Award for Excellence (Master of Occupational Therapy Practice First year Student) (\$100)

Awarded to the Master of Occupational Therapy Practice first year student with the highest weighted average overall.

Award for Excellence (Postgraduate Diploma in Occupational Health and Safety student) (\$100)

Awarded to the Postgraduate Diploma in Occupational Health and Safety student with the highest weighted average overall upon completion of their award.

Award for Excellence (First year student) (\$100)

Awarded to the first year undergraduate student with the highest weighted average in Occupational Therapy theory units: OCT1THA and OCT1THB.

Award for Excellence (Second year student) (\$100)

Awarded to the second year undergraduate student with the highest weighted average in the Occupational Therapy intervention units: OCT2INA, OCT2INB and OCT2INC.

Award for Excellence (Third year student) (\$100)

Awarded to the third year undergraduate student with the highest weighted average overall.

Commonwealth Rehabilitation Service – Award for Excellence (\$250 book voucher and certificate)

Awarded to an entry-level student with the highest weighted average in academic work and demonstrated excellence in fieldwork.

Derek Stewart Award (\$100 book voucher)

This prize Honours the memory of Derek Stewart and is donated by the Mt Eliza Centre. Awarded to a third year occupational therapy student who has demonstrated excellence in the area of geriatric rehabilitation.

Honours Prize (\$100 book voucher)

Awarded to the Honours student in the Bachelor of Occupational Therapy who has achieved the highest mark for their thesis.

Invergowrie Paediatric Prize (\$200 book voucher)

Awarded to the most outstanding final year student in the Bachelor of Occupational Therapy who has demonstrated excellence in the discipline of paediatric occupational therapy.

Janet Sloane Award (\$100)

This award acknowledges the contribution Janet Sloane made to the occupational therapy profession. Awarded to the most outstanding occupational therapy student(s) for excellence in a final year research project relevant to activities of daily living, community health or ergonomics.

Lifestyle and Rehabilitation – Student of the Year Award (\$500 and plaque)

Awarded to the most outstanding final year student in the Bachelor of Occupational Therapy (and associated double degrees) or the Master of Occupational Therapy Practice who has achieved the highest weighted average.

Mental Illness Fellowship Victoria – Award for Excellence (\$500)

Awarded to a third year undergraduate or entry-level student who has provided the most outstanding contribution to the Mental Illness Fellowship Victoria for the year.

Surgical Synergies Splinting Prize (\$500)

Awarded to an occupational therapy student who achieves excellence in the academic and clinical aspects of splinting.

School of Physiotherapy

Aquatic Physiotherapy Group Prize (\$100 book voucher and certificate)

Awarded to the final year student who shows outstanding ability in the field of hydrotherapy in their final year elective studies.

Brooks Running Award

Awarded to the postgraduate student who displays the highest standard in the unit Professional Development for Sports Physiotherapists. The prize is a running pack including running shoes and other sporting apparel to the value of \$500.

Cardiorespiratory Physiotherapy Australia (Victorian Branch) Prize

Awarded to the student who gains the highest marks in cardiothoracic units of the Bachelor of Physiotherapy. The prize is a book to the value of \$50 to \$100 and a certificate.

Constance Read Memorial Prize (\$100 and certificate)

Awarded to the final year student who gains the highest percentage of marks in the physiotherapy skills components in the second year of the Bachelor of Physiotherapy. Donated by a number of physiotherapists in memory of Miss Constance Read, a member of the physiotherapy staff at the Royal Children's Hospital.

Continence and Women's Health Special Group Prize (book and certificate)

Awarded to the final year student who shows outstanding ability in this field of physiotherapy. Donated by members of the Continence and Women's Health Special Group of the Victorian Chapter of the Australian Physiotherapy Association.

Eliza McAuley Memorial Prize (\$250 and certificate)

Awarded to the final year student who is most outstanding at the clinical practice units. Donated by a member of the Association in the memory of Miss Eliza McAuley, whose foresight gave a sound basis on which the course has been built.

Elsevier Australia Book Prize (Year 1) (\$100 book voucher and certificate)

Awarded to the first year physiotherapy student who shows the most outstanding ability in the field of anatomy.

Elsevier Australia Book Prize (Year 2) (\$100 book voucher and certificate)

Awarded to the second year physiotherapy student who shows the most outstanding ability in the field of anatomy.

Gerontology Special Group Prize

Awarded to the final year student who achieves the highest mark in the unit PTY4PRG (Physiotherapy in Rehabilitation and Gerontology). Donated by the Gerontology Special Group of the Victorian Chapter of the Australian Physiotherapy Association. The prize is a one-year membership to Gerontology Special Interest Group and a certificate.

HNA Physiotherapy Award

Awarded to the final year student with the highest fourth year clinical elective result in Private Practice Management. The prize is reimbursement of 50 percent of the cost of approved APA Continuing Education courses within the first 12 months since graduation to a maximum value of \$500.

Josephine Jennings and Edith Pratt Memorial Prize (\$100 and certificate)

Awarded to the student who achieves the highest percentage of marks over the full Bachelor of Physiotherapy course. Donated by the members of the Australian Physiotherapy Association as a perpetual memorial to Miss Jennings and Miss Pratt, both of whom played a large part in the early training of physiotherapists in Victoria.

Kay Spencer Memorial Award (\$250 book voucher)

Awarded to the student who gains the highest mark in an evidence-based practice critically appraised topic in neurology. The prize is in memory of Kay Spencer, a valued member of the School of Physiotherapy staff. It is provided by the Spencer family, members of staff and the Physiotherapy Students' Association.

Musculoskeletal Physiotherapy Prize (\$100 book voucher)

Awarded to the student with the highest overall mark in PTY3MSP (Musculoskeletal Physiotherapy – Theory and Practice).

Neurology National Group Prize (\$100, certificate and membership)

Awarded to the final year student who achieves the highest combined clinical and theory marks in neurology.

Paediatric Special Group Prize (\$100 book voucher and certificate)

Awarded to the final year physiotherapy student who achieves the highest aggregate marks in the second year and fourth year paediatric physiotherapy units.

Patricia Cosh Award (\$100 book voucher and certificate)

Awarded to a student in the Bachelor of Physiotherapy who has demonstrated outstanding leadership skills.

Physiotherapists Registration Board of Victoria Award (\$500)

Awarded to the undergraduate student who achieves the highest marks in the unit PTY4EBP (Evidence-based Practice in Physiotherapy).

Physiotherapy Research Foundation Research Prize (\$150 and certificate)

Awarded to the final year physiotherapy student who achieves the highest aggregate mark in the unit PTY4HON.

Department of Clinical Vision Sciences**Diana Craig Memorial Prize (\$250)**

This prize commemorates the contribution of Diana Craig to orthoptics. It is awarded by the Orthoptic Association of Australia (Victorian Branch) to the student who gains the highest marks for the most outstanding research thesis undertaken in the orthoptics Honours program.

J Ringland Anderson Prize (\$250)

Awarded annually by the Orthoptic Association of Australia (Victorian Branch) to the student who gains the highest marks for the orthoptic components of the final year of the Bachelor program.

The Leonie Collins Memorial Prize

Awarded to the best fourth year student presentation at the Annual La Trobe University Orthoptic Student Conference. The prize is an engraved plaque.

The Orthoptic Association of Australia Inc. Prize for Second Year Orthoptics (\$125 book voucher and certificate)

Awarded to the student achieving the best results in the core Orthoptic units in the first and second semesters of the second year of the Bachelor of Orthoptics and Ophthalmic Science degree.

The Orthoptic Association of Australia Inc. Prize for Third Year Orthoptics (\$200 book voucher and certificate)

Awarded to the student achieving the best results in the core Orthoptic units in the first and second semesters of the third year of the Bachelor of Orthoptics and Ophthalmic Science degree.

Department of Podiatry**Australian Podiatry Association (Vic.) Award for Excellence**

Awarded to the most outstanding fourth year Bachelor of Podiatry student for excellence in clinical studies. The award is a 12-month membership to the Australian Podiatry Association, and malpractice insurance cover of \$2,000,000.

Brooks Prize for Podiatric Medicine

Awarded to the third year Bachelor of Podiatry student who achieves the highest mark in the unit, Podiatric Specialisations (POD3PSP). The prize is a \$500 voucher for Brooks' footwear and apparel.

EQUUS Podiatric Award (text books to the value of \$300)

Awarded to the Bachelor of Podiatry (Honours) student who achieves the highest overall score for an Honours thesis.

Foot Solutions Second Year Prize (\$250)

Awarded to the Bachelor of Podiatry student who achieve the highest aggregate score for studies in second year.

Foot Solutions Third Year Prize (\$250)

Awarded to the Bachelor of Podiatry student who achieves the highest aggregate score for podiatry core units in third year.

Foot Solutions Fourth Year Clinical Prize (\$250)

Awarded to the Bachelor of Podiatry student who achieves the highest score for studies in the fourth year unit POD4PCP (Podiatry Clinical Practice).

Interpod Prize for Second year Orthoses (\$200)

Awarded to the most outstanding second year student in the Bachelor of Podiatry who has achieved the highest combined mark for the units POD2POA and POD2POB (Podiatric Orthoses).

Interpod Prize for Third year Orthoses (\$300)

Awarded to the most outstanding third year student in the Bachelor of Podiatry who has achieved the highest combined mark for the units POD3POA and POD3POB (Podiatric Orthoses).

The Lamisil Dermatology Award (\$200 La Trobe University bookshop voucher)

Awarded to the first year Bachelor of Podiatry student who achieves the highest mark in the unit, Podiatric Dermatology (POD1PDM).

Podiatrists Registration Board Award (\$1000)

Awarded to the final year Bachelor of Podiatry student who achieves the highest overall score.

National Centre for Prosthetics and Orthotics**Australian Orthopaedic Association Prize (\$100)**

Awarded to the most outstanding second year Bachelor of Prosthetics and Orthotics student who achieves the highest aggregate score for all prosthetics and orthotics core units offered in that year.

Australian Orthotic Prosthetic Association Inc. (Victorian Section) Prize

Awarded to the most outstanding first year Bachelor of Prosthetics and Orthotics student who achieves the highest weighted average for all first year units. The prize consists of a \$75 La Trobe University bookshop voucher and student membership to the Australian Orthotic Prosthetic Association until the completion of the student's degree (including Honours if applicable).

EH Armstrong Prize for Services to Lower-Limb Amputees (\$250 La Trobe University book voucher)

International Society for Prosthetics and Orthotics (ISPO) Prize

Awarded to the most outstanding third year Bachelor of Prosthetics and Orthotics student who achieves the highest aggregate score for all prosthetics and orthotics units offered that year. The prize consists of a \$250 La Trobe University book voucher and a one-year membership to ISPO.

The Otto Bock Prize (\$250 and plaque)

Awarded to the Bachelor of Prosthetics and Orthotics (Honours) student who achieves the highest overall result in the Honours year. This prize is sponsored by Otto Bock (A/Asia) Pty Ltd.

Robert Gardner Memorial Prize

Awarded to the Bachelor of Prosthetics and Orthotics student or students who achieve(s) the highest result in the third year unit, Independent Study Project (POR3ISP). The prize is the textbook *Atlas of Orthoses and Assistive Devices*. This memorial prize is jointly sponsored by the Australian Orthotic Prosthetic Association (AOPA) and Elsevier Science/Harcourt Australia.

Division of Health Studies

School of Human Biosciences

The School of Human Biosciences Prize (\$100)

Awarded to the student with the highest aggregate in third year physiology units, Advanced Physiology A and Advanced Physiology B.

School of Public Health

ASORC Feldman Award in Rehabilitation Counselling (\$250)

Awarded annually by the Victorian Branch of the Australian Society of Rehabilitation Counsellors to the student in the Postgraduate Diploma in Rehabilitation Studies course who has demonstrated the most outstanding knowledge and skills in the field of rehabilitation counselling.

Clinical Classification Prize (\$50 and certificate)

Awarded by the Health Information Management Association of Australia (Victorian Branch) to the Bachelor of Health Information Management student with the highest aggregate score in second year health classification units.

The Costigan Prize for Excellence in PHE1PHA and PHE1PHC (\$150 McGraw-Hill book voucher)

One prize is awarded to the student with the highest mark in PHE1PHA (Introduction to Public Health A) and one prize is awarded to the student with the highest mark in PHE1PHC (Introduction to Public Health C).

CRS Australia Award for Excellence in Vocational Rehabilitation (\$250 book voucher)

Awarded to the most outstanding final year student in the Postgraduate Diploma in Rehabilitation Studies who has achieved outstanding academic results and outstanding fieldwork reports in units relevant to vocational rehabilitation.

Health Information Management Association of Australia (Vic. Branch) Prize (\$250 and certificate)

Awarded annually by the Health Information Management Association of Australia (Victorian Branch) to the Bachelor of Health Information Management Pass or Honours degree student who demonstrates academic excellence, with the highest aggregate score in the third year and fourth year health information management and related specified units.

Prize for Clinical Coding (\$200 and certificate)

Awarded by the National Centre for Classification in Health to the Bachelor of Health Information Management student with the highest mark in the final year clinical coding unit.

Top Bachelor of Health Sciences Student (\$100 La Trobe University bookshop voucher and a certificate)

Awarded to the Bachelor of Health Sciences student with the highest aggregate score in core third year units.

Top School of Public Health Honours Thesis (\$250 La Trobe University bookshop voucher and a certificate)

Awarded to the Bachelor of Health Sciences or Bachelor of Health Information Management Honours student whose thesis is judged as being the best.

Victorian WorkCover Authority Prize (\$200)

Awarded to the student who has achieved outstanding performance in the occupational rehabilitation component of the Postgraduate Diploma in Rehabilitation Studies.

Division of Nursing and Midwifery

Alzheimer's Australia Victoria Prize (\$200)

Awarded to the student enrolled in the gerontic nursing major within the Postgraduate Diploma in Advanced Nursing who attains the highest mark for the unit, Geropsychiatric Nursing and who demonstrates an understanding of the needs of people with a dementing illness and their carers, and how to provide best practice for them. Available for metropolitan students only.

Cancer Council Victoria Prize (\$200)

Awarded to the student who has shown outstanding success in cancer nursing or palliative care nursing at postgraduate level. Available for metropolitan students only.

The Caroline Pippett Memorial Prize (\$300 and \$200 book voucher)

Awarded to the final year metropolitan undergraduate nursing student who clearly demonstrates a loving and caring attitude towards patients.

Elsevier Excellence in the Care of Older People Prize (\$100 book voucher)

Awarded to the first year nursing student in the Bachelor of Nursing or Bachelor of Nursing Science who has excelled in care of older people.

Elsevier Gerontic Nursing Clinical Practice Prize (\$150 book voucher)

Awarded to the final year nursing student in the Bachelor of Nursing or Bachelor of Nursing Science who has demonstrated excellence in gerontic nursing clinical practice.

Joyce Wickham Medal

Awarded to the student who, being of sufficient merit, has in the relevant year demonstrated significant leadership at postgraduate level. Available for metropolitan students only. The award is in the form of an engraved silver medallion.

Royal College of Nursing, Australia High Achiever Award

Awarded to the highest-achieving student in the final year of the Bachelor of Nursing (pre-registration) course. The prize is a one-year membership to the college and a certificate.

Royal College of Nursing, Gerontic Nursing Prize

Awarded to a student who maintains the highest average for all pieces of work submitted for the Postgraduate Diploma of Advanced Nursing (Gerontic Nursing). Available for metropolitan students only. The prize is a one-year membership to the college and a certificate.

The Royal Women's Hospital Midwifery Student Research Award (\$1000)

Awarded to a midwifery student or recent graduate to support presentation of research findings at an international or national conference.

The Villa Maria Society Aged Care Prize (\$500)

Awarded to a student enrolled in one of the undergraduate nursing courses at the Melbourne (Bundoora) Campus who has shown particular skills and interest in the area of aged care.

FACULTY OF HUMANITIES AND SOCIAL SCIENCES

For further information regarding prizes offered by the Faculty of Humanities and Social Sciences, phone: (03) 9479 2023 or email: lhuss@latrobe.edu.au

Faculty awards

Allan Martin Prize (\$2000)

This award Honours Allan Martin, Foundation Professor of History (1966–73) and Dean of Humanities (1970 and 1971), a pioneer of interdisciplinary studies at the University. It will be awarded to the student writing the best interdisciplinary Honours thesis in the Faculty of Humanities and Social Sciences.

Faculty of Humanities and Social Sciences Scholarships (\$1000 each)

Ten academic merit scholarships will be awarded to students completing their VCE in 2007. Any student enrolled in the first year of any one of the Faculty's Bachelor degrees is eligible for a scholarship. Scholarships will be awarded to the ten students with the highest enter scores.

School of Communication, Arts and Critical Enquiry

David Hume First year Philosophy Prize (\$100)

Awarded each year to the student who is placed first among all students enrolled in a first year philosophy unit, provided the work is of A-level standard. The prize will be shared in the case of A-level students placed equal first.

Awarded each year to the student placed first (or shared between students placed equal first) among eligible students completing their fourth year (Honours) in philosophy, provided the student (or students) is (are) awarded a first-class Honours for that year. Eligible students are those who take no more than one course component (out of three) from outside those offered as fourth year philosophy units.

Derick Marsh Shakespeare Prize (\$200)

Awarded annually for the best essay written by an undergraduate student in English on a topic concerned with an aspect of Shakespeare's work.

Geoffrey John Blunden Prize in Philosophy (\$500)

Awarded annually for the best essay by an undergraduate student on a topic concerned with the welfare of non-human animals.

Meridian Prize (\$100)

Awarded annually by Meridian: The La Trobe University English Review and the English Program for the best fourth year long essay submitted by a completing Honours student in English.

René Descartes Prize (\$100)

Awarded each year to the student enrolled in second year philosophy who has completed at least two units in the same year at an A-level standard and who has the best results.

Victorian Women's Trust Prize (book)

Awarded annually to the student placed first amongst all the students enrolled in the Gender, Sexuality and Diversity Studies first year unit Sex, Gender and Diversity.

Wirrianda Philosophy Prize (\$100)

Awarded annually to a female student enrolled at fourth year level in Honours philosophy (or joint Honours philosophy) who has completed her Bachelor of Arts at La Trobe University in the prior year and has, of the female students so qualifying, the best results in third year philosophy units.

School of Historical and European Studies

Alumni Prize for the Best First year Student in Art History (\$100 book voucher)

Awarded annually to the student with the highest academic results in two semester units at first year level in art history.

Celtic Club Essay Prize (\$150)

Awarded to the best undergraduate essay in a unit related to the history of Ireland.

Consul-General of Switzerland Prize (book prize)

Awarded to the first year student who achieves excellence or high distinction in each of the three Swiss languages (French, German and Italian).

Dante Alighieri Society President's Prize (\$200)

Awarded to the first year student with the highest mark in either ITA12ADB (Advanced Italian 1B) or ITA12BEB (Beginners Italian 1B). The winner must be continuing Italian studies at a higher year level.

David Johanson Prize (\$350)

Established in memory of David Johanson who taught history from 1968 to 1985. It is usually awarded for the best third year essay in any history unit, but occasionally it is awarded to another year level.

First year History Prize (\$100 book voucher)

Normally awarded to the student with the best result(s) in first year history (excluding American History), provided that the achievement is meritorious.

Godden Mackay Logan Heritage Essay Award (\$250)

Awarded for the best essay in a heritage unit in Archaeology.

Liliane Gay – Alliance Française Prize (\$150)

Donated by Alliance Française of Victoria, the prize is awarded to the student who has obtained a pass at A level in one of the units taught in the French program. The prize is awarded to the student who, in the opinion of the staff of the French program, has done the most meritorious work in French studies. The prize may be shared equally between two or more students. Native speakers of French are not eligible for the prize.

Peter Cook Prize in Australian History (\$500)

Established to commemorate the outstanding teaching of the late Dr Peter Cook, the prize is awarded annually for the best first-class Honours thesis in Australian history. If there is no such thesis, the prize will be awarded for the best first-class Honours thesis in the History program.

Peter Reynolds Honours Prize in Art History (\$100 book voucher)

Awarded annually to the student with the highest first-class Honours (H1) result in art history. The selection committee has discretion not to award the prize if the result is a borderline H1.

Royal Historical Society of Victoria Prize

This provides a certificate and a three-year subscription to the Royal Historical Society of Victoria to the third year student with the highest mark in Australian history.

RW (Wally) Thompson Prize (\$100)

Awarded annually to the student enrolled in any introductory/beginners language unit within the Spanish program who achieves the highest average mark over the two semesters of the introductory year.

Second/Third year American History Prize (\$100 book voucher)

Normally awarded to the student with the best result in a second/third year United States history unit, provided that a result of sufficient merit is achieved.

Second year Australian History Prize (\$100 book voucher)

Awarded to the student with the highest mark in a second year Australian history unit.

School of Social Sciences

First year Sociology Prize (\$100)

Awarded annually to the student with the highest final mark in a first year sociology unit.

Henry Martell – DK Agencies Essay Prize (\$350 book prize)

Awarded annually for the best essay on any topic relating to the Indian subcontinent by an undergraduate in any unit.

Holding Redlich Law/Politics Prize (\$250)

Awarded annually to the student in third year with best overall result for law and politics units combined, and who has completed one of the politics Honours prerequisite units.

Hugo Wolfsohn Memorial Prize (\$100)

This is awarded annually to the student with the most distinguished record in a first year politics unit.

Jean Martin Prize in Sociology (\$250)

Awarded annually to the student submitting the best fourth year Honours thesis based on an empirical study of Australian society, where there is a thesis of sufficient merit.

La Trobe Politics Society Inc. Essay Prize (\$150)

Awarded annually for the essay judged to be the best submitted by an undergraduate student in a second year or third year politics unit.

Lorraine Donnan Prize (\$100)

Awarded annually to the student with the highest mark in a social theory unit at second year level.

FACULTY OF LAW AND MANAGEMENT

financial need to the School Manager. Closes usually end of March each year. For further details contact: tourism@latrobe.edu.au

The Dura-Wear Achievement Award (\$250)

Awarded to a student, enrolled at the Bundoora Campus only, for excellence in the unit Service Operations Management with the highest mark.

The Rydges on Bell Award (\$250)

Awarded to the commencing Honours student with the most original project centred on regional tourism.

Tourism Alliance Victoria Scholarship (\$1000)

Awarded to the commencing Honours student with the most original project centred on regional tourism.

Graduate School of Management**ASTA Solutions Pty Ltd Award for Excellence in Management Information Systems (\$500)**

Awarded to the student with the highest overall mark for Management Information Systems and/or Advanced Management Information Systems.

Bendigo Bank Scholarships (payment of remaining course fees up to \$18,000 for each scholarship)

Two scholarships to be awarded to MBA students enrolled at Bendigo Campus. One of the scholarships will be awarded to a Bendigo Bank staff member, of at least three years. The scholarships are awarded to students who have successfully completed the Graduate School of Management's Graduate Certificate in Business Administration, have demonstrated a good overall academic performance and a commitment to fostering community development in Bendigo.

Commercial Travellers' Association Marketing Prize (\$500)

Awarded to the student achieving the best results in the units, Marketing, and Advanced Marketing in the MBA program.

Hudson Global resources Award for Academic Excellence in Human Resource Management (\$500)

Awarded to the most outstanding MBA student in the HRM specialist stream.

MAPS Marketing Award for Excellence in Services Marketing and Management (\$250)

Awarded to any MBA, GradDipBA or GradCertBA student with the highest overall result for the unit, Services Marketing and Management.

Pearson Education Australia Award for Most Outstanding Students in Organisational Behaviour (\$350 book voucher)

Awarded to the two students in the MBA, GradDipBA or GradCertBA with the highest overall marks in the unit, Organisational Behaviour.

Siemens VDO Award (\$2500 vehicle navigation equipment)

Awarded to the MBA student with the highest overall result for the units, Strategic Management and Corporate Strategy.

FACULTY OF SCIENCE, TECHNOLOGY AND ENGINEERING

For further information regarding prizes offered by the Faculty of Science, Technology and Engineering, phone: (03) 9479 2220 or email: sci.tech@latrobe.edu.au

Faculty awards**David Kelly Medal (medallion)**

Awarded to the best fourth year student in the areas of engineering and mathematical sciences, life sciences, molecular sciences, and psychological sciences.

Dean's Scholarships for Excellence (\$6000 each)

Up to ten scholarships will be awarded to students commencing in courses across the Faculty each year. Scholarships will be offered at both city and regional Campuses. Each scholarship is of one year's duration, awarded annually to eligible commencing students. Additional information and application forms are available from the Faculty Office, tel: (03) 9479 2220.

Dean's Medal for Outstanding Service to Science and Engineering (Medallion)

This prize will be awarded by the Dean in recognition of an outstanding contribution to the fields of science or engineering, or who have provided significant support to the Faculty of Science, Technology and Engineering.

The Nancy Millis PhD Excellence Prize (\$200)

The prize is awarded annually to the student who demonstrates the most outstanding PhD in the Faculty of Science, Technology and Engineering.

Agriculture**Australian Institute of Agricultural Science and Technology (Melbourne) Prize (\$100)**

Awarded to the best overall fourth year Bachelor of Agricultural Science student.

Department of Sustainability and Environment (DSE) Cadetship Program

The Department of Sustainability and Environment (DSE) offers sponsored cadetships to students finishing VCE or first year university, who are keen to study an approved science degree at a recognised Victorian university. Each cadet would receive an annual allowance of \$9000, a book allowance of up to \$500 for each year of study, access to hands-on job experience during their university course and is assured of four years of full-time work upon graduating. For further information and an 'Expression of Interest' form, contact the DSE website: www.dse.vic.gov.au/dse/ and type 'Careers' in KeySearch.

GW Leeper Memorial Prize (\$150)

Awarded to the student with the best result in the unit, AGR2SS – Soil Science.

Rural Finance Corporation Scholarships (\$6000)

Rural Finance offers up to six new scholarships each year across different Rural Finance regions. Scholarships are awarded to first or second year students undertaking their first undergraduate degree, which is agriculturally related, at a tertiary institution in Victoria. Students must be under the age of 26 years as at 1 January in the year of application to university. Additionally they must be able to demonstrate a career commitment to agriculture, not only students planning to take up farming as a career but also students planning to provide consultancy, research, technological and other advice to agricultural industries. Scholarships are worth up to \$6000 per year for the duration of the course. Further information and application forms can be obtained from the Rural Finance website: www.ruralfinance.com.au. Applications close on 31 May each year.

Biochemistry**Biochemistry Honours Prize (\$400)**

Awarded to the student who achieves the highest overall mark (for thesis and coursework).

Bruce Stone Third year Biochemistry Prize (\$300)

Awarded to the student who achieves the highest average mark in the third year level units, Biological Macromolecules and Molecular Biology and Molecular Cell Biology.

Second year Biochemistry Prize (\$200)

Awarded to the student who achieves the highest average mark in the two second year level units, Biochemistry and Molecular Biology A and Biochemistry and Molecular Biology B.

Bioinformatics**VABC Bioinformatics Entrance Scholarships (\$5000)**

The VABC Bioinformatics Entrance scholarship is awarded annually to an eligible commencing student enrolling in the Bioinformatics program of a Bachelor of Biological Science/Bachelor of Science Double Degree (this scholarship may also be possible for students enrolling in a Bachelor of Computer Science/Bachelor of Science). Additional information can be obtained by contacting the Department of Mathematical and Statistical Sciences. Tel: (03) 9479 2600.

Biology**McGraw-Hill Prize (\$500 voucher)**

Awarded annually to the student or students with the highest aggregate mark in BIO10F (Organisation and Function of Cells and Organisms) who proceeds to enrol in second year level biological sciences units.

Botany**AB Wardrop Book Prize (\$100 book voucher)**

Awarded to the most outstanding student in third year botany. This award Honours the memory of Emeritus Professor Alan Buchanan Wardrop, Foundation Professor of Botany from 1966 to 1986.

AB Wardrop Honours Prize (\$200)

Awarded to the most outstanding student in botany Honours, in recognition of research excellence.

Second year Botany Book Prize (\$100 book voucher)

Awarded to the most outstanding student in second year botany.

Chemistry**Max O'Connor Honours Year Prize in Chemistry (\$150 book voucher)**

Awarded to the most outstanding Honours graduate in chemistry.

Michael Grant Third year Prize in Chemistry (\$100 book voucher)

Awarded to the most outstanding student in third year chemistry.

The Professor Jim Morrison Prize in First year Chemistry sponsored by McGraw-Hill (\$200 book voucher)

Awarded to the top first year student enrolled in chemistry.

The Trevor Broxton Prize in Chemistry (\$100 book voucher)

Established in the memory of Dr Trevor Broxton who taught in the Department from 1969 to 2002. The Prize is awarded annually to the top second year student enrolled in chemistry in the Bachelor of Science based on their performance in CHE2FND, CHE2DEV, CHE2CWQ or CHE2RWD.

Computer Science and Computer Engineering**Australian Computer Society (Victorian Branch) Award in Computer Science (\$100 book voucher)**

Awarded to the best final year student in each of the following courses:

- Bachelor of Computer Science
- Bachelor of Information Systems
- Bachelor of Computer Science/Bachelor of Commerce
- Bachelor of Information Systems/Bachelor of Business
- Bachelor of Computer Systems Engineering
- Bachelor of Software Engineering
- Bachelor of Computer Network Engineering
- Bachelor of Computer Technology
- Bachelor of Computer Science (Honours)/Bachelor of Electronic Engineering

Azurn Scholarship (\$2000 per annum)

The Azurn scholarship is awarded annually to an eligible commencing female student in any of the four-year Bachelor of Computer Systems Engineering, Bachelor of Software Engineering or the Bachelor of Computer Network Engineering courses in the Department of Computer Science and Computer Engineering. The scholarship is generously sponsored by Azurn Limited. Further information and application details are available from the Department of Computer Science and Computer Engineering, tel: (03) 9479 1374.

Computer Science and Computer Engineering Scholarships (\$1000)

Multiple scholarships of \$2000 each are available to students commencing courses in the fields of computer science, computer engineering and information technology. Further information and application details are available from the Department of Computer Science and Computer Engineering, tel: (03) 9479 1374.

Department Prize for the Bachelor of Computer Systems Engineering (\$75)

Awarded to the most outstanding third year student in the Bachelor of Computer Systems Engineering.

Department Prize for the Graduate Diploma in Computer Science (full-time) (\$75)

Awarded to the best student in the full-time graduate diploma.

Department Prize in Computer Science (\$75)

Awarded to the most outstanding third year student in computer science.

Engineers Australia Award (\$300)

Awarded to the most outstanding final year student in a computer-engineering course.

Honours Prize in Computer Science (\$150)

Awarded to the most outstanding student in the Honours year of computer science.

Master of Information Technology Prize (\$150)

This prize is awarded annually to the top final year student in the Master of Information Technology or its variants, who achieves the highest average overall mark.

Masters Prize – Computer Science (\$150)

This prize is awarded annually to the top final year student in the Master of Computer Science or Master of Information Systems who achieves the highest average overall mark.

Microsoft Australia Computer Games Technology Scholarship

Awarded to a high-achieving VCE student commencing a degree within the Department of Computer Science and Computer Engineering. Microsoft Australia Limited has donated this scholarship, which is designed to encourage students to pursue a career in games technology. Suitable applicants are required to complete an application form through the Department of Computer Science and Computer Engineering and should be able to demonstrate an interest in games technology. For further details on eligibility, contact the University's Department of Computer Science and Computer Engineering, tel: (03) 9479 1374.

Oakton Prize for Excellence in Software Design and Development (\$1000)

Awarded annually to a third year student enrolled in a four-year course undergraduate course based primarily in the Department of Computer Science and Computer Engineering (including students proceeding to an Honours degree) who demonstrates the most outstanding innovation and leadership in software design and development.

Scholarships for Excellence (\$6000)

Awarded to outstanding students commencing an undergraduate degree within the Department of Computer Science and Computer Engineering. Additional information and application forms are available from the Department of Computer Science and Computer Engineering, tel: (03) 9479 1283.

Scholarships for International Students studying year 12 or equivalent in Victoria (\$6000)

Awarded to outstanding overseas students who have completed year 12 or equivalent in any school in Victoria and are commencing an undergraduate degree within the Department of Computer Science and Computer Engineering. Additional information and application forms are available from the Department of Computer Science and Computer Engineering, tel: (03) 9479 1283.

Scholarships for Outstanding Female Students (\$6000)

Awarded to outstanding female students commencing an undergraduate degree within the Department of Computer Science and Computer Engineering. Additional information and application forms are available from the Department of Computer Science and Computer Engineering, tel: (03) 9479 1283.

Scholarships for Rural and Regional Students (\$6000)

Awarded to outstanding students from rural and regional Australia, commencing an undergraduate degree within the Department of Computer Science and Computer Engineering. Additional information and application forms are available from the Department of Computer Science and Computer Engineering, tel: (03) 9479 1283.

Sony Foundation Australia Computer Games Technology Scholarship

Awarded to a high-achieving VCE student commencing a degree within the Department of Computer Science and Computer Engineering. The Sony Foundation Australia Limited has donated this scholarship, which is designed to encourage students to pursue a career in games technology. Suitable applicants are required to complete an application form through the Department of Computer Science and Computer Engineering and should be able to demonstrate an interest in games technology. For further details on eligibility contact the University's Department of Computer Science and Computer Engineering, tel: (03) 9479 1374.

Sony Foundation Australia Honours Scholarship

Awarded on the basis of outstanding academic performance in third year computer science to a student pursuing Honours in games technology.

TS Dillon Prize for Excellence (\$300)

This prize is awarded annually to the graduating student enrolled in an undergraduate degree in the Department of Computer Science and Computer Engineering with the best academic performance in all years and across all units.

Electronic Engineering**Cooper Tools Prize for PCB Engineering and Construction**

Awarded to a final year electronic engineering student for excellence in Printed Circuit Board (PCB) engineering and construction of their final year project. In awarding the prize the panel assesses engineering excellence in the design and construction in the final year project. Particular attention is given to the circuit layout and physical aspects of the project implementation. The prize is a Weller soldering station.

Cooper Tools Prize for Third year Project

Awarded to the student with the best third year speciality project. In awarding the prize the panel assesses engineering excellence in the design and construction in the third year project. Particular attention is given to the circuit layout and physical aspects of the project implementation. The prize is a soldering tool.

Electronic Engineering Prize for Best Masters Project (\$100)

Awarded to the best project from students enrolled in a coursework masters program, based on implementation and presentation of the project, as well as its innovation and application to industry or research.

Electronic Engineering Scholarship (\$1000)

Up to five scholarships of \$1000 each are available to students commencing the Bachelor of Electronic Engineering course at the Melbourne (Bundoora) Campus. Further information and application details are available from the Department of Electronic Engineering, tel: (03) 9479 2036.

Electronic Engineering Third year Prize (\$100)

Awarded to the most outstanding student in third year electronic engineering (or fourth year for students undertaking a double degree) where the result is of sufficient merit.

EMCSI Pty Ltd Prize for Best Thesis (\$100)

Awarded to the final year electronic engineering student with the best final year thesis. The prize is awarded on the basis of an excellent thesis and presentation of that thesis at the Hooper Seminars. The depth of the research and understanding and implementation of the material by the student are also prime considerations.

Hooper First year Scholarship (\$2000)

Awarded to a commencing student who has demonstrated high academic achievement (normally enter-based). The student must also demonstrate the ability to work well independently, work co-operatively, communicate ideas effectively, and motivate both self and others.

Hooper Memorial Prize for the Best Oral Presentation (\$200)

Donated by EMCSI Pty Ltd, this prize is awarded to the electronic engineering student who gives the best oral presentation at the Hooper Memorial Student Project Seminar. Qualities assessed are presentation skills, communication skills and technical competence.

Hooper Memorial Prize for the Best Poster (\$200)

Donated by Future Fibre Technologies Pty Ltd, this prize is awarded to the electronic engineering student who presents the best poster at the Hooper Memorial Project Seminar.

IEEE Prize for Technical Innovation and Engineering Achievement (\$100)

Donated by the Institute of Electrical and Electronics Engineers IEEE Victorian Section, this prize is awarded to the student whose project demonstrates the greatest technical innovation and engineering excellence during the Hooper Memorial Student Project Seminar. In addition, the presentation of the project must be of a high standard.

Soanar Plus Prize for Best Use of Embedded Microcontroller (\$250 voucher)

Awarded to the final year electronic engineering student displaying the final year project with the most innovative embedded system. Technical innovation, accomplishment, usefulness and novelty in the use of an embedded microcontroller or control system will be considered in awarding the prize.

Tad Szental Prize in Electronic Engineering (\$1000)

Awarded to the best electronic engineering graduate from one of the biomedical, communication, electronic systems or optical streams of the engineering course.

Wanda Henry Memorial Scholarship (\$2000 per annum)

Awarded to an outstanding student enrolling in the Bachelor of Electronic Engineering/Master of Biomedical Engineering double degree who completed the final year of the VCE (or equivalent) in the preceding year and who demonstrates specified qualities. Other double-degree options within the Department may be considered. Further information and application details are available from the Department of Electronic Engineering, tel: (03) 9479 2036.

Genetics

Genetics First year Prize (\$200 book voucher)

Awarded to the student achieving the highest mark in Genetics, Human Biology and Evolution (BIO1GEN).

Genetics Third year Prize (\$200 book prize)

This is awarded to the student with the best average mark in third year genetics units.

Mathematics

Arthur Jones Essay Prize (\$250)

This prize is to be awarded annually to a student enrolled in at least one second year or third year mathematics unit, for a mathematical essay on a topic not covered in undergraduate units offered by the Department. The prize is in honour of Dr Arthur Jones, who inspired staff and students by his dedication to student learning.

The Department Prize in Mathematics and Statistics (\$100)

Awarded to the top first year student enrolled in the Bachelor of Mathematical and Statistical Science based on their performance in MAT1CFN, MAT1CLA, MAT1DM and STA1SS.

First year Scholarships in Mathematics and Statistical Science (\$1000 each)

Awarded to a first year student with high overall performance in VCE studies (or equivalent) and has a demonstrated interest and an intention to pursue major studies in mathematics or statistics.

The National Bank of Australia Prize in Third year Mathematics (\$500)

Awarded annually to the student in either the double degree, Bachelor of Finance/Bachelor of Science or the Bachelor of Mathematical and Statistical Science who has achieved the highest combined mark in third year mathematics units.

Professor CJ Eliezer Prizes in Mathematics

Awarded annually to the student in each year group (from second year to fourth year) having achieved the highest combined mark in mathematics units. Two prizes at second year, one prize at third year and one prize at fourth year:

- the top second year mathematics student in the Bachelor of Mathematical and Statistical Science (\$100);
- the top remaining second year mathematics student in any degree including the Bachelor of Mathematical and Statistical Science (\$100);
- the top third year mathematics student (apart from the National Bank of Australia prize winner) in any degree including the Bachelor of Mathematical and Statistical Science (\$100);
- the top fourth year mathematics student in any degree (\$200)

Texas Instruments Prize

The prize of an advanced Texas Instruments programmable calculator is awarded to the student having achieved the highest combined mark in MAT1CFN (Calculus, Functions and Number Systems) and MAT1CLA (Calculus and Linear Algebra), and who enrolls in 40 credit points of second year mathematics units.

Medical Science

The CSL Award for Medical Science (\$250)

Awarded to the student who achieves the highest average mark in the third year level units Metabolic, Cognitive and Genetic Disorders and Neuromuscular Disorders, Infectious Diseases and Cancer Biology.

Hema and Bala Kumble Family Award for Third year Medical Science (\$1000)

Awarded to the student with the highest aggregate of marks across all units undertaken in the third year of the Bachelor of Medical Science.

Hema and Bala Kumble Family Award for Bachelor of Medical Science with Honours (\$1000)

This prize is to be awarded to the student with the highest mark in the Honours year from those eligible for qualification as Bachelor of Medical Science with Honours.

Microbiology

Australian Society for Microbiology Prize – Second Year (\$75)

Donated by the Victorian Branch of the Society and awarded to the outstanding student completing MIC2IM and MIC2MVM and who is continuing on to MIC3AMM and MIC3EPM.

Australian Society for Microbiology Prize – Third Year (\$150)

Donated by the Victorian Branch of the Society and awarded to the outstanding student completing both MIC3AMM and MIC3EPM.

RD Schnagl Award – Third Year (\$150)

Awarded to the top student in microbiology who is undertaking the Honours degree in the Department of Microbiology in the following year.

Physics**Andrew Downing Prize in Physics – Third Year (\$100)**

Awarded to the most outstanding student in third year physics.

Head of Department's Prize in Physics – Fourth year (\$200)

Awarded to the most outstanding student in a fourth year physics course.

Head of Department's Prize in Physics – First Year (\$100)

Awarded to the most outstanding student in first year physics.

KD Cole Prize in Physics – Second Year (\$100)

Awarded to the most outstanding student in second year physics.

Psychological Science**Australian Psychological Society Prize (12 months free Associate Membership of the Society)**

Awarded to a fourth year student who, being of sufficient merit, has in that year pursued with most distinction a fourth year course in psychology. The prize may be awarded to a student in the Bachelor of Psychological Science with Honours or a student in the Postgraduate Diploma of Psychology.

George Singer Prize (\$500)

Awarded annually to the student who obtains the most outstanding result in first year behavioural neuroscience.

La Trobe University Alumni Association Psychology Chapter Prize (\$500)

This prize is awarded annually to the student achieving the highest average mark in Psychology units (PSY1PYA, PSY1PYB, PSY2PYA, PSY2PYB and PSY3PYA, PSY3PYB, or their equivalent units) weighted by credit points, across the three years of all APS accredited degrees offered in the School of Psychological Science. This prize is donated by the Psychology Chapter of the La Trobe University Alumni Association.

Psychology Honours Prize (Medallion)

Awarded to the top Bachelor of Psychological Science student in the psychology Honours year.

Statistical Science**Statistics Section First year Prize (\$150 book voucher)**

Awarded to the most outstanding student in first year statistical science units.

Statistics Section Second year Prize (\$150 book voucher)

Awarded to the most outstanding student in second year statistical science units.

Statistics Section Third year Prize (\$150 book voucher)

Awarded to the most outstanding student in third year statistical science units.

Statistics Section Fourth year Prize (\$150 book voucher)

Awarded to the most outstanding student in fourth year statistical science units.

Viticulture and Wine Production**Mitchelton Wines Prize for Viticultural Science and Wine Production**

Awarded annually to the student enrolled on a full-time basis in the Bachelor of Viticultural Science and Wine Production with the highest average mark over the units undertaken towards the first year of the degree. The final decision will be based on academic merit. The prize, which consists of a \$200 book voucher and a magnum of Print Shiraz, is donated by Mitchelton Wines.

Yering Station Prize for Viticultural Science and Wine Production

Awarded annually to the student enrolled on a full-time basis in the Bachelor of Viticultural Science and Wine Production with the highest average mark over the units undertaken towards the final year of the degree. The final decision will be based on academic merit. The prize, which is donated by Yering Station, consists of a \$200 Winetitles book voucher.

Zoology**AD Instruments Prize (\$250)**

Awarded annually to the student with the highest aggregate mark in the animal physiology stream of zoology Honours. The prize is donated by AD Instruments.

First year Prize in Zoology (\$50)

Awarded to the most outstanding student in BIO1AD – Animal Diversity, Ecology and Behaviour.

Ian Thornton Prize (\$200)

Awarded to the student who achieves the highest final mark for a zoology thesis. The prize will only be awarded where the thesis is of sufficient merit. This award Honours the memory of Emeritus Professor Ian Thornton, Foundation Professor of Zoology at La Trobe University from 1966 to 1991.

Peter Rawlinson Award (\$250)

Awarded to the Honours or postgraduate diploma student showing outstanding potential for research in animal ecology. The award Honours the memory of Peter Rawlinson, a staff member between 1967 and 1991.

Second year Prize in Zoology (\$100)

Awarded to the most outstanding student in second year zoology.

Third year Prize in Zoology (\$150)

Awarded to the most outstanding student in third year zoology.

W Dathanarayana Prize (\$60 book voucher)

Awarded to the most outstanding final year student in the ecology stream of zoology.

ALBURY-WODONGA CAMPUS**Campus awards****City of Wodonga 'Learning City' Prize (\$500)**

Awarded to a graduate who commenced study as a mature-aged student and has demonstrated superior academic achievement and a contribution to life-long learning. For further details contact Tammy Ebert, tel: (02) 6024 9782 or email: opvc.aw@latrobe.edu.au

La Trobe University Albury-Wodonga Campus Medal

Awarded to a high-achieving final year student who has made a significant contribution to the Albury-Wodonga community through study or extra curricular activity. For further details contact Tammy Ebert, tel: (02) 6024 9782 or email opvc.aw@latrobe.edu.au

La Trobe University Vice-Chancellor's Regional Scholarships (LVCRS)

Five scholarships will be available for students commencing first year full-time undergraduate studies at each of La Trobe's regional Campuses at Albury-Wodonga, Bendigo, Mildura and Shepparton. The scholarship is valued at \$3000 per year for the normal duration of the course including Honours if applicable. www.latrobe.edu.au/scholarships

Lisa Malone Scholarship (\$2000)

This scholarship pays tribute to the work of Lisa Malone, former resident of Wodonga and student in social work at La Trobe University. The scholarship provides \$2000 for a year of study in any course that contributes to community development and welfare. Applicants must demonstrate evidence of commitment to social development either in Australia or overseas.

For further details contact Ann Kerin, tel: (02) 6024 9790, email: a.kerin@latrobe.edu.au or view the website: www.latrobe.edu.au/studadmin/aw/lisamalone.htm

Faculty of Education

Dean's Medal

Awarded to the outstanding graduating student in the Faculty of Education at each Campus.

Design and Technology Teachers Association Victoria (DATTA Vic) (subscription, \$100 book voucher, publications and certificate)

The prize is awarded to the most outstanding student in the Graduate Diploma in Technology Education at the Bundoora or Albury/Wodonga campuses, and provides a one-year subscription to the Design and Technology Teachers Association Victoria (DATTA Vic), a \$100 book voucher, a resources pack from the DATTA (which includes CDs and publications) and a certificate recognising excellence in the area of technology teaching.

For further information, contact the Faculty of Education Office on: (03) 5444 7885.

Faculty of Health Sciences

Division of Nursing and Midwifery

For further information phone: (02) 60249730.

Albury-Wodonga Private Hospital Prize (\$500)

Awarded to the most outstanding first year student in nursing.

Elsevier Undergraduate Academic Achievement Award (\$150 book voucher)

Awarded to a pre-registration Bachelor of Nursing student who, through a book review of between 750 and 1000 words, can demonstrate critical thinking skills and provides student feedback and user critiquing.

Kerry Faul Memorial Prize – Wodonga West Rotary Club (\$1000)

Awarded for academic distinction and demonstrated commitment to high quality nursing.

Royal College of Nursing Australia High Achiever Award

Awarded to the student with the best academic result for the final year in nursing. The prize is one year's membership to the RCNA.

Wodonga Regional Health Services Prize (\$300)

Awarded to the most outstanding second year student in nursing.

School of Social Work and Social Policy

For further details contact Administration Officer, tel: (02) 6024 9802 or email: socialwork.aw@latrobe.edu.au

Helen Horton Memorial Prize – Department of Human Services

Awarded for outstanding performance by a graduating social work student. Work placement within the Department of Human Services.

Faculty of Humanities and Social Sciences

For further details contact Jennifer Turner, tel: (02) 6024 9805 or email: j.turner@latrobe.edu.au

Dean's Merit Prize – First Year

Awarded to the most outstanding first year undergraduate student in the Bachelor of Arts.

Dean's Merit Prize – Second Year

Awarded to the most outstanding second year undergraduate student in the Bachelor of Arts.

Dean's Merit Prize – Third Year

Awarded to the most outstanding third year undergraduate student in the Bachelor of Arts.

Faculty of Law and Management

For further details contact the Academic Services Officer, tel: (02) 6024 9850 or email: business.aw@latrobe.edu.au or tourism.aw@latrobe.edu.au

Please note that all Faculty of Law and Management prizes and scholarships are currently under review.

Andrea Hore Business Scholarship

Awarded to a student who has achieved outstanding academic results in their first year of study in a Business degree offered by the School of Business at the Albury-Wodonga Campus and made a demonstrable and positive contribution to the wider community.

Birallee Prize (\$200)

Awarded to a second year student for the best demonstration of acquired skills in Hospitality Management.

Commercial Club Prize (\$250)

Awarded for the best academic achievement in the unit, Food and Beverage Operations 1B in the Bachelor of Business (Hospitality Management).

CPA Australia – Prizes

Best first year Accounting student. (\$100 plus framed certificate).
Best second year Accounting student (\$200 plus framed certificate).
Best third year Accounting student (\$300 plus framed certificate and enrolment into the first segment of CPA Program valued at \$650).

Dean's Medal (Regional Campus)

Awarded to the outstanding graduating student from a regional Campus in the Faculty of Law and Management.

Deans Commendations

Awarded to the top student (A average) in each year in each program

Dianne and Paul McGrath Prize – Felmile Pty Ltd

Awarded for the best Business plan submitted by students in the unit, Entrepreneurship.

Evan Patullo Memorial Scholarship

Awarded to a domestic student enrolling in their first year of the Bachelor of Business degree offered through the School of Business, Albury-Wodonga Campus.

School of Sport, Tourism and Hospitality Management (Albury-Wodonga Campus) Award (\$250 and certificate)

Awarded for best overall performance in third year in the Bachelor of Business (Hospitality Management) degree at Albury-Wodonga Campus.

School of Sport, Tourism and Hospitality Management (Albury-Wodonga Campus) Award (\$250 and certificate)

Awarded for best overall performance in second year in the Bachelor of Business (Hospitality Management) degree at Albury-Wodonga Campus.

Faculty of Science, Technology and Engineering

Dean's Medal – Albury-Wodonga

This prize will be awarded annually to the most outstanding student in the Faculty of Science, Technology and Engineering completing an undergraduate program (including Honours) who is from the Albury-Wodonga Campus. Students who transfer to Melbourne (Bundoora) after a pass degree to complete an Honours year will also be eligible for the award. The final decision will be based on academic merit and will take into consideration the student's entire academic record.

Department of Environmental Management and Ecology

For further details contact the Administration Officer, tel: (02) 6024 9885 or email: r.bahrij@latrobe.edu.au

The Environmental Group Prize for Waste Water Management (up to \$750)

Annual membership of the Waste Water Operators Association of Australia and all expenses paid to attend the Annual Conference of the Waste Water Operators of Australia (including registration and accommodation costs) to a value of up to \$750. The prize is awarded to a third year student in the Bachelor of Science in Environmental Management and Ecology who has the highest aggregate mark in Environmental Pollution Control and Water and Air Quality in second year and who has a keen interest in waste water management.

Esler and Associates Prize (\$100)

Awarded to the most outstanding third year student in two units that have a soil and water component within the Bachelor of Science in Environmental Management and Ecology.

Hamilton-Smith Rotary Scholarship for Environmental Studies (\$2000)

This scholarship is awarded to a student undertaking the second year of the Bachelor of Science in Environmental Management and Ecology.

The John Hill – Albury-Wodonga Campus Chemistry Prize (\$100 book voucher)

Awarded for the best overall performance in first year chemistry (defined as CHE11GEN/BAS plus CHE12APL) at the Albury-Wodonga Campus by a student enrolled in the Bachelor of Science in Environmental Management and Ecology.

Norske Skog Prize (\$500)

Awarded to the best first year student in the Bachelor of Science in Environmental Management and Ecology.

North-East Catchment Management Authority Prize (\$250)

Awarded to the student with the best overall performance in the third year of the Bachelor of Science in Environmental Management and Ecology.

Environmental Management and Ecology Second year Prize (\$200)

Awarded for outstanding academic achievement in the second year of the Bachelor of Science in Environmental Management and Ecology.

Grassland Society of Southern Australia Albury-Wodonga Branch Scholarship (\$1000)

Awarded to a first year Bachelor of Agricultural Science student at the Albury-Wodonga Campus, based on academic merit and their interest in, and commitment to agriculture as a career.

BENDIGO CAMPUS

Campus awards

La Trobe University Alumni, Bendigo Chapter Undergraduate Scholarship (\$500)

Awarded to a final year full-time student at the Bendigo Campus who has successfully completed all units in the previous years of their course and has contributed to the welfare of the student community. Further information and application form available from www.latrobe.edu.au/scholarships

La Trobe University Alumni, Bendigo Chapter Postgraduate Scholarships (\$500)

Available to a student enrolled or approved to enrol in an approved postgraduate (research or coursework) course at the Bendigo Campus. Further information and application form available from the following website: www.latrobe.edu.au/scholarships

La Trobe University Vice-Chancellor's Regional Scholarships (LVCRS) (\$3000)

Five scholarships will be available for students commencing first year full-time undergraduate studies at each of La Trobe's regional Campuses at Albury-Wodonga, Bendigo, Mildura and Shepparton. The scholarship is valued at \$3000 per year for the normal duration of the course including Honours if applicable. Further information and application form available from www.latrobe.edu.au/scholarships

Bendigo Student Association Scholarship (\$500)

Awarded to an undergraduate student who has satisfactorily completed all units in at least the first year of their degree and is continuing into a second or subsequent year as a full-time student at the Bendigo Campus. Preference for the award will be given to applicants who can demonstrate a contribution to the University and/or the Bendigo Student Association. Further information and application form available from www.latrobe.edu.au/scholarships

Bendigo Tertiary Education Anniversary Foundation BRIT Scholarship (\$1000)

The scholarship is based on academic merit and awarded to a student who has successfully completed an undergraduate degree at the Bendigo Campus of La Trobe University and who has gained entry into a Bendigo Regional Institute of TAFE Certificate IV or higher level course.

Further information and application form available from www.latrobe.edu.au/scholarships

Bendigo Tertiary Education Anniversary Foundation Scholarship and Roger Jalland Medal (\$1000 and medal)

Awarded to a full-time student who has successfully applied for entry into a university degree-level course at the Bendigo Campus through the La Trobe University/Bendigo Regional Institute of TAFE articulation agreement. Further information and application form available from www.latrobe.edu.au/scholarships

Box-Ironbark Research Scholarship (approximately \$500 per annum)

Awarded to a full-time masters by research or PhD student who is undertaking a project relating to the Box-Ironbark forests and woodlands. Further information and application form available from www.latrobe.edu.au/scholarships

Davey Family Scholarship (\$500)

Available to a full-time undergraduate student who is commencing higher education for the first time. Applicants must clearly demonstrate how the scholarship will be used to support their study and provide details of family circumstance and family financial position. Preference will be given to applicants from the Eaglehawk (postcode 3556) region. Further information and an application form is available from www.latrobe.edu.au/scholarships

Graduation Award (approximately \$500)

Available to any full-time student at the Bendigo Campus attempting a first tertiary qualification, who has successfully completed all units in the previous year of an approved course. They will be awarded to the students most in need of financial assistance. Further information and application form available from www.latrobe.edu.au/scholarships

La Trobe University/Bendigo Bank Academy of Sport Scholarship (value up to \$2000)

Available to full-time undergraduate students at the Bendigo Campus who are qualified to be, or have been, a participant in the Bendigo Bank Academy of Advanced Performance Program. Preference will be given to students who can demonstrate academic merit as well as ongoing membership in the local association and their continued involvement in the sport in which they were involved in the Bendigo Bank Academy of Sport. Further information and application form available from www.latrobe.edu.au/scholarships

Leslie Kilmartin Regional Scholarship (\$500)

The scholarship will be awarded to a full-time undergraduate student who is commencing higher education for the first time, after a period away from full-time study. To be eligible applicants must be attempting their first university qualification, should not have been in full-time education in the past three years, must clearly demonstrate how the scholarship will be used to support their study, and should provide details of family circumstance and family financial position. Preference for the scholarship will be given to applicants from the central and northern Victoria region. Further information and application form available from www.latrobe.edu.au/scholarships

Residential Student Bursary (awarded as a fortnightly rental discount, totalling between \$600 and \$2000 per year)

The number of bursaries awarded varies according to need (30 granted in 2007). The bursary is aimed at supporting students from central and northern Victoria and southern New South Wales undertaking higher education at the Bendigo Campus, who have applied for a place in one of the student residences, who have demonstrated financial need and can prove effective benefit of the bursary. If there are residual funds bursaries may also be granted to students from other regions.

WJC Banks Prize (approximately \$750)

Awarded annually to a graduate or graduand of the Bendigo Campus who is undertaking full-time study at the Bendigo Campus, enrolled as a Master by research, or Doctor of Philosophy candidate. Further information and application form available from www.latrobe.edu.au/scholarships

Arts and Planning**Amy Huxtable Memorial History Prize (\$100)**

Awarded for an outstanding historically-oriented research project undertaken by a final year student in the Bachelor of Arts.

Bendigo Campus Humanities Staff Award (approximately \$100)

This award is made each year to a student who has successfully completed the third year of the Bachelor of Arts course at the Bendigo or Shepparton Campus. It is based on academic merit.

Bendigo Irish Association Prize (\$200)

Awarded bi-annually to a Bendigo Campus student in the unit, Modern Literature for an essay on some aspect of Yeats' work, which has been submitted in the course of normal studies.

Kylie Morrow Memorial Award (\$500)

Awarded annually to the most outstanding full-time Bachelor of Arts student at the Bendigo Campus who has successfully completed all units in the first year of the course and is proceeding into the second year of the course.

La Trobe University Bendigo/Theosophical Society Perennial Philosophy Undergraduate Prize (\$750)

A prize for the best undergraduate essay of at least three thousand words on any aspect of the perennial philosophy (east or west). The submissions will be assessed by the Bendigo staff teaching in the Philosophy and Religious Studies discipline.

La Trobe University Bendigo/Theosophical Society Perennial Philosophy Undergraduate Prize (\$750)

Awarded to the student, enrolled in the Bachelor of Arts or the Bachelor of Arts (Honours), with the best undergraduate essay of at least three thousand words on any aspect of the perennial philosophy (east or west).

National Trust (Bendigo Branch) Award (\$200)

The Central Victorian Branch of the National Trust of Australia presents a prize annually for a research thesis of outstanding quality that contributes to an understanding of Victoria's heritage, undertaken by a student successfully completing a Bachelor of Arts Honours or a Graduate Diploma in Regional Studies (History) at the Bendigo Campus.

Parsons Brinckerhoff Prize (\$1000)

This prize to be awarded to the outstanding student graduating from the Bachelor of Urban, Rural and Environmental Planning course, based on the student's academic work over the four years of the course. The award will first be offered in 2011.

R Robert Clark Memorial Award (\$500)

Awarded annually to the most outstanding second year student undertaking the Bachelor of Arts full time.

Shakespeare Prize (\$250)

Awarded each year by the Bendigo Shakespeare Society to a first year literature student for an essay on some aspect of Shakespeare's work, which has been submitted in the course of normal studies at the Bendigo Campus.

Civil Engineering**Australian Steel Institute Steel Design Award (\$200)**

Awarded to a second year student in the Bachelor of Civil Engineering course at Bendigo, who has demonstrated excellence in steel design.

City of Greater Bendigo/La Trobe University Civil Engineering Scholarship

Available to commencing full-time students undertaking an undergraduate Civil Engineering course at the Bendigo Campus. Applicants must have completed their secondary education in Central and Northern Victoria and have a strong academic background. Recipients will acquire financial support in the form of a \$1250 scholarship per year for the duration of the course (4 years), fully paid vacation work experience during years two and three of the course and access to career mentoring advice from City of Greater Bendigo Civil engineers. For further information and application form: www.latrobe.edu.au/ceps/ce/s_ships

City of Greater Bendigo/La Trobe University Civil Engineering Scholarship

Available to second year full-time students enrolled in a Civil Engineering course at the Bendigo Campus. Applicants must have completed their secondary education in Central and Northern Victoria and have a strong academic background. Recipients will acquire financial support in the form of a \$2500 scholarship per year in years three and four of the course, fully paid vacation work experience during years two and three of the course and access to career mentoring advice from City of Greater Bendigo Civil Engineers. For further information and application form: www.latrobe.edu.au/ceps/ce/s_ships

City of Greater Bendigo Prize (\$400)

Awarded to the student achieving the best results in transport engineering in the final year of the Bachelor of Civil Engineering course at Bendigo.

Civil Engineering Staff Award (\$400)

This award is financed by contributions made each pay period by civil engineering staff at the Bendigo Campus. It is awarded to a first year engineering student continuing a course at the Bendigo Campus who achieves the highest average in first year examinations.

Coliban Water Civil Engineering Scholarships (\$3000)

Scholarships will be awarded to first year full-time Bachelor of Civil Engineering students from regional Victoria who have successfully completed the Victorian Certificate of Education or equivalent within the last 12 months, undertaking their degree at the Bendigo Campus. Further information and application form are available from www.latrobe.edu.au/ceps/ce/s_ships.htm

Coomes Consulting Group/La Trobe University Civil Engineering Scholarship Program

Scholarships are available for full-time undergraduate Civil Engineering students in any year of their course. Recipients will receive financial support in the form of a \$5000 scholarship per year for the duration of the course (four years), fully paid vacation work experience during each year of the course and access to career mentoring advice from Coomes Consulting Group engineers. For further information and application form: www.latrobe.edu.au/ceps/ce/s_ships

Engineers Australia Book Prize

Awarded by the Victorian Division (Structural Branch) to a Bendigo student who, throughout their final year, has achieved distinction in some aspect of study associated with structural engineering.

Engineers Australia Student Award (\$600)

The award of \$600, a medal and two years free graduate membership of the institution will be made by the Victorian Division and Bendigo Chapter of Engineers Australia to a Bendigo final year engineering student on the basis of their academic record and involvement in extracurricular activities and special projects.

Foundation for Rural and Regional Renewal/Pratt Water Civil Engineering Cadetship Program

This cadetship is available to commencing full-time students undertaking an undergraduate Civil Engineering course at the Bendigo Campus. Applicants should reside in the Murrumbidgee catchment area and be attempting their first tertiary qualification. Applicants are selected on the basis of academic merit, relevant La Trobe University selection criteria and partnership between the applicant and the employer-partner. For further information and application form: www.latrobe.edu.au/ceps/ce/s_ships

Goulburn-Murray Water/La Trobe University Civil Engineering Scholarship Program

Scholarships are available to full-time undergraduate Civil Engineering students undertaking their degrees at the Bendigo Campus. Recipients will receive financial support in the form of a \$5000 scholarship per year for the duration of the course (4 years), fully paid vacation work experience during each year of the course and access to career mentoring advice from Goulburn-Murray Water engineers. For further information and application form: www.latrobe.edu.au/ceps/ce/s_ships

Grampians Wimmera Mallee Water/La Trobe University Civil Engineering Scholarship Program

This scholarship is available to a commencing full-time student in an undergraduate Civil Engineering course at the Bendigo Campus. Recipients will receive financial support in the form of a \$5000 scholarship per year for the duration of the course (four years), fully-paid vacation work experience during each year of the course and access to career mentoring advice from Grampians Wimmera Mallee Water engineers. For further information and application form: http://www.latrobe.edu.au/ceps/ce/s_ships

Murray Irrigation/La Trobe University Civil Engineering Scholarship Program

This scholarship is available to a commencing full-time student undertaking a Civil Engineering course at the Bendigo Campus. Applicants must have completed their secondary education in Northern Victoria or Southern New South Wales. Recipients will acquire financial support in the form of \$5000 per annum for the four years duration of the course and fully paid work experience will be offered. For further information and application form: http://www.latrobe.edu.au/ceps/ce/s_ships

North East Water/La Trobe University Civil Engineering Scholarship Program

This scholarship is available for an undergraduate second year full-time Civil Engineering student at the Bendigo Campus. Recipients will receive financial support in the form of a \$5000 scholarship per year for the duration of the course (four years), fully paid vacation work experience during each year of the course and access to career mentoring advice from North East Water engineers. For further information and application form: http://www.latrobe.edu.au/ceps/ce/s_ships

Shire of Campaspe/La Trobe University Civil Engineering Scholarship Program

This Scholarship is available to a second or later-year, full-time undergraduate Civil Engineering student studying at the Bendigo Campus. Applicants must have completed their secondary education in Central and Northern Victoria or Southern New South Wales, have a strong academic background, and not hold any other Civil Engineering Scholarships. Financial support is in the form of a \$5000 Scholarship per year for the duration of the course (four years), fully-paid vacation work experience during each year of the course and access to career mentoring advice from the Shire of Campaspe engineers. For further information and application form: http://www.latrobe.edu.au/ceps/ce/s_ships

SJE Consulting/La Trobe University Civil Engineering Scholarship Program

Available to a commencing full-time student undertaking an undergraduate Civil Engineering course at the Bendigo Campus. Recipients will acquire financial support in the form of a \$1000 scholarship per year for the duration of the course (four years), paid vacation work experience and access to career mentoring advice from SJE Consulting Engineers. For further information and application form: http://www.latrobe.edu.au/ceps/ce/s_ships

General information about the Faculty of Education

The Faculty of Education caters for a wide range of interests in areas related to education and the environment including undergraduate and graduate teaching programs; TESOL and applied linguistics; outdoor education and environment; nature tourism and natural resources education; and specialist graduate programs for professionals at graduate certificate, graduate diploma and Masters degree levels. The Faculty also provides the opportunity for research at both Masters and Doctoral level. The Faculty provides professional development activities and programs for teachers on a range of educational issues across all curriculum areas. Students from other Faculties of the University may apply to enrol in some individual education units. The Faculty consists of three schools: the School of Education, the School of Outdoor Education and Environment and the School of Educational Studies. Programs are offered at Melbourne (Bundoora) and at the regional campuses of Bendigo, Albury-Wodonga, Mildura and Shepparton. Some programs are also offered offshore.

School of Education

Locations:

Bendigo

Enquiries: (03) 5444 7907

Email: bendigoeducation@latrobe.edu.au

Mildura

Enquiries: (03) 5051 4009

The School of Education offers programs at the Bendigo and Mildura campuses and is committed to providing a rich learning environment for students and staff through innovative programs and services in areas related to education. The School's focus is on pre-service, in-service and postgraduate courses for teachers and other professionals with an interest in education. The school is committed to research and other scholarly activities that advance the teaching profession. Programs offered are informed by current research and are designed to meet the needs of the university's regional and international communities. Students have an opportunity to explore widely with leaders in their particular field of interest.

Specialist areas of study include:

- curriculum and policy
- gifted education
- health education
- information and communication technology
- language and literacy
- middle years
- multimedia education
- physical education
- pre-service teacher education

School of Outdoor Education and Environment

Location: Bendigo Campus

Enquiries: (03) 5444 7285

Email: outdoor.bendigo@latrobe.edu.au

The School offers undergraduate programs in Outdoor Education and Environment including Nature Tourism and Natural Resources Education as well as graduate programs in research (Masters and PhD) and postgraduate coursework at Graduate Diploma and Masters levels. The School's focus is on developing knowledge about nature, building relationships with the land, and understanding place, culture, language, and experience. Students have an opportunity to explore widely with leaders in their particular field of interest.

Studies in outdoor education and the environment include:

- environmental studies: bush, rock, local, river, winter alpine
- leadership
- natural resources education
- naturalist studies
- nature tourism
- outdoor education
- outdoor and physical education
- outdoor recreation education

School of Educational Studies

Locations:

Melbourne (Bundoora) Campus

Education Buildings 1 and 2

Tel: (03) 9479 2546

Albury-Wodonga Campus

Tel: (02) 6024 9865

Shepparton Campus

Tel: (03) 5833 2589

Email: education@latrobe.edu.au

The School of Educational Studies offers Education (including TESOL and Applied Linguistics) programs in Melbourne (Bundoora), Albury-Wodonga and Shepparton. Some programs are also offered offshore. The School supports the development of educational communities both within and outside Australia; encourages the development and application of new knowledge and ideas through research, teaching and community engagement; promotes open discourse and intellectual integrity in all interactions between staff, students and the wider community; and values interdisciplinary perspectives on education and the reflective development of knowledge and practice.

Specialist studies include:

- pre-service teacher education
- adult education
- applied linguistics (including TESOL and LOTE teaching)
- cross cultural communication
- multicultural education
- counselling
- student welfare and guidance
- curriculum and policy
- educational administration and leadership
- information and communication technology
- multimedia education
- language and literacy
- science and mathematics education
- technology education
- industry training, and
- vocational education and training.

General course enquiries

Enquiries about prerequisites, admission requirements and requests for applications for coursework degrees, by both current and prospective students, should be directed to the relevant campus and school office. Local students apply through VTAC for undergraduate courses and selected graduate teaching programs.

International students

Admission of international students is coordinated by the university's International Programs Office. For information on application procedures, accommodation, visa requirements, fees contact the office on +61 3 9479 1199 or write to International Programs Office, La Trobe University, Victoria, 3086, Australia. Website: www.latrobe.edu.au/international

Course regulations

All courses offered by the Faculty of Education are governed by a university regulation that specifies the entrance and other requirements of the course. These are supplemented by information contained in this *Handbook* and by other faculty and school policies.

Each course has its own rules of progression and most schools produce specific procedures that operate under the authority of the university regulations and faculty guidelines.

Professional placements

Some courses require students to undertake unpaid professional teaching practice placements. Placements may be located in either metropolitan or rural areas. In most courses that require students to undertake placements, the placement involves being assigned to a school, or other approved educational setting, on a full-time basis over a period of days or weeks. In some cases students undertake placement interstate or overseas.

The university maintains insurance policies to protect students undertaking outside practical placement (practicum) as a compulsory course requirement, or fieldwork or other work undertaken off campus as part of a course or approved research work. Further information is available from the La Trobe University Insurance Office (website: www.latrobe.edu.au/insurance/) or Faculty or School Office.

Working with children check

The Victorian Department of Education and Training requires a satisfactory criminal record check for all teacher education students undertaking practicum requirements in Victorian Department of Education and Training schools. It is expected that equivalent requirements will exist for all other Victorian schools. Upon first enrolling in teacher education courses, students will be required to complete a 'Working with Children Check' form available at Australia Post offices. Students must provide a certified copy of their valid 'Working with Children' card prior to undertaking teaching placements. Confirmation of a criminal record may jeopardise a student's ability to gain access to a suitable, or any, practicum placement(s) and may therefore delay or prevent completion of the course.

Fees

Both 'Commonwealth supported' and 'fee-paying' places are available. Australian citizens and holders of Permanent Humanitarian visas offered either a Commonwealth supported place or a fee-paying place are eligible to defer the tuition fees by using the HECS-HELP or Fee-HELP Commonwealth Government loan schemes. Further information on HECS-HELP and Fee-HELP can be found at www.goingtouni.gov.au.

Further information on Faculty of Education courses and fees is available on the website: www.latrobe.edu.au/education/courses and www.latrobe.edu.au/education/courses/fees.

Flexible teaching arrangements

In order to accommodate student needs, some units are taught in a mode different from the normal regular weekly classes. For example, modes may include block mode (i.e., intensive weekend or week-long classes), classes taught outside of normal semester dates, classes taught via web-based teaching or a combination of on-line learning and face-to-face classes.

Units offered by the Faculty of Education

A full list of undergraduate units offered by the Faculty of Education appears at the end of this chapter, in alphabetical order. Students should note that units published in the hardcopy *Handbook* are subject to change and should refer to the Unit Database for up-to-date information: (www.latrobe.edu.au/udb_public).

Unit timetable

Unit timetables are available on the La Trobe website: www.latrobe.edu.au/students/timetables.html or from the Education enquiries office on the campus of enrolment.

Single degrees

Bachelor of Education – Bendigo (RBED)

Bachelor of Education – Mildura (RBEDM) ¹

Note: ¹ First year and fourth year only are offered at Mildura. Students in first year at Mildura must transfer to Bendigo for second and third years and have the option of completing fourth year at Mildura or Bendigo.

Note: This course is currently being reaccruited and may vary slightly in 2008.

The course is a four-year full-time program. It consists of 480 credit points of study. Units are categorised as Teaching Studies, Curriculum Studies, Discipline Studies and Electives. Practicum and Field Experience units provide essential school-based experiences that contextualise the theoretical components of Teaching and Curriculum Studies. All students, by the end of the course, must have demonstrated the ability or the potential to meet the professional expectations of a beginning teacher. The course is structured so that students may satisfy other specialist teaching requirements, which may then be noted on their formal academic transcript. Possible pathways are:

- Languages Other Than English (LOTE)
- Middle Years P-9
- Catholic Education
- Honours.

Professional recognition

The course is recognised by the Victorian Institute of Teaching (VIT). Graduates from the course are eligible for employment in government, Catholic and independent schools in Victoria, other Australian states or overseas. Graduates may also pursue a range of careers in the human services and training sectors.

Admission requirements

Applicants must satisfy the University's normal entrance requirements, including a study score of at least 25 in Units 3 and 4 of English. Applicants who have a study score of at least 20 in a LOTE will be deemed to have an ENTER up to 3.0 percentage points higher.

A special entry provision exists for Aboriginal applicants. Applicants should, in the first instance, consult the Coordinator of the Aboriginal Tertiary Support Unit.

The Victorian Department of Education and Training requires a satisfactory criminal record check for all teacher education students undertaking practicum requirements in Victorian Department of Education and Training schools. It is expected that equivalent requirements will exist for all other Victorian schools. Prior to commencing the course, students will be required to complete a 'Working with Children Check' form available at Australia Post offices. Students must provide a certified copy of their valid 'Working with Children' card prior to undertaking teaching placements. Confirmation of a criminal record may jeopardise a student's ability to gain access to a suitable, or any, practicum placement(s) and may therefore delay or prevent completion of the course.

Course structure

(Note: This course is currently being reaccruited and the course structure listed below is subject to change).

Teaching Studies (7 units)

All students will study seven units in preparation for teaching.

Year	Teaching period	Unit name	Unit code	Credit points
1	TE-SEM-1	Introduction to Teaching	EDU1ITT	15
1	TE-SEM-2	Theories of Learning	EDU1TL	15
1	TE-SEM-2	Inclusive Education	EDU1IE	15
2	TE-ALLYR	Practicum B	EDU2PRB	15
3	TE-ALLYR	Practicum C	EDU3PRC	15
4	TE-SEM-1	Field Experience A	EDU4FEA	15
4	TE-SEM-2	Field Experience B	EDU4FEB	15

These units provide the professional orientation and the practical perspectives that complement the curriculum studies.

Curriculum Studies (11 units)

All students will study 11 units in curriculum and methods of teaching in the Key Learning Areas of the primary school.

Year	Teaching period	Unit name	Unit code	Credit points
1	TE-SEM-1	Mathematics Teaching	EDU1MT	15
1	TE-SEM-2	Learning Language	EDU1LL	15
2	TE-SEM-1	Science Teaching	EDU2ST	15
2	TE-SEM-2	Art and Music Education	EDU2AME	15
2	TE-SEM-2	Studies of Soc. and Environment	EDU2SOS	15
3	TE-SEM-1	Health and Physical Education	EDU3HPE	15
3	TE-SEM-1	Literacy Teaching	EDU3LT	15
3	TE-SEM-2	Mathematics Learning	EDU3ML	15
3	TE-SEM-2	Science Learning	EDU3SL	15
4	TE-SEM-1	Literacy for All	EDU4LFA	15
4	TE-SEM-2	Numeracy for All	EDU4NFA	15

These units address the dimensions described as the content knowledge and skills for teaching. They include issues such as appropriate content, methods of teaching and strategies for supporting and assessing pupils' learning.

Discipline Studies (minimum 8 units)

All students are required to study a three-unit sequence in a discipline area. Students will be encouraged to choose at least four units in an area that can satisfy the requirements for a minor. The purpose of the discipline studies is to broaden teachers' background knowledge.

Education Discipline Studies

There is also a four-unit sequence in the discipline of education.

Year	Teaching period	Unit name	Unit code	Credit points
1	TE-SEM-1	Learning Technologies	EDU1LT	15
2	TE-SEM-1	The Contemporary Child	EDU2TCC	15
2	TE-SEM-2	Indigenous Studies	EDU2IS	15
3	TE-SEM-1	Education in a Network Society	EDU3ENS	15

These units address the theoretical perspective of education. The thinking and learning undertaken within the units can be generalised to non-school educational contexts.

Electives (6 units)

Students can choose up to six other electives from discipline studies or, in their third and fourth years, advanced teaching and curriculum studies. Students may use their six elective units to satisfy a major in these disciplines, or begin a second minor or major. These electives allow students to pursue their own areas of interest.

Pathways

The course will be structured so that students may satisfy other specialist teaching requirements in particular fields. These will be noted on their formal academic transcript.

Languages Other Than English (LOTE)

Specialist languages include Bahasa Indonesia and AUSLAN.

Key: * LOTE Teaching Method includes vacation classes.

Catholic Education Pathway

This pathway qualifies teachers for accreditation in Religious Studies and Catholic teaching. It includes four elective units that must be completed:

Year	Teaching period	Unit name	Unit code	Credit points
3	TE-SEM-1	Teaching Scripture in Catholic Schools	EDU3TSC	15
3	TE-SEM-2	Learning for Catholic Religious Education	EDU3LRE	15
4	TE-SEM-1	Catholic Religious Education Principles and Metho	EDU4REP	15
4	TE-SEM-2	Spirituality and Values in Catholic Education	EDU4SVE	15

Honours Pathway

This is a research based pathway for students interested in developing a deeper understanding of a specific topic. It includes a compulsory curriculum unit at Year 4. Entry is by invitation only.

Year	Teaching period	Unit name	Unit code	Credit points
4	TE-ALLYR	Education Thesis	EDU4THE	60

A full description of units, including the unit name, unit code, credit points, campus/location, unit coordinator, class requirements, assessment, prerequisites and readings, appears at the end of this chapter. For the most recent descriptions of units students should access the Unit Database at www.latrobe.edu.au/udb_public.

Bachelor of Educational Studies – Albury-Wodonga (EDBEW), Bendigo (RBES), Bundoora (ABES)

The course is designed for people professionally concerned with education. It is structured to meet a variety of needs of teachers or other professionals who wish to pursue education studies in their field of interest. The course is a pathway to further studies in education but unless it is preceded by a three-year recognised primary teaching course, it is not accredited for registration as a teacher in Victoria, Australia. The Bachelor of Educational Studies provides sound foundation studies in education for those wishing to progress to the

Graduate Diploma in Education (Primary) which is recognised by the Victorian Institute of Teaching as a one-year postgraduate teacher training course for graduates.

Admission requirements

A bachelor degree or a recognised two-year tertiary diploma or equivalent.

Course structure

The course consists of 120 credit points of study which may be taken as 15 or 20 credit point units over one-year full-time or part-time equivalent. With the approval of the course convenor, units of study may be selected from those available in the Bachelor of Education, the Graduate Diploma in Educational Studies or other undergraduate or postgraduate programs relevant to the course of study.

Suggested units of study include:

At the Albury-Wodonga Campus

Bachelor of Physical and Health Education – Bendigo (EBPHEB)

The course provides a qualification to teach in both primary and secondary schools. It combines studies in primary education with specialist studies in physical education, health, welfare, and social work. The course is taken over four years full-time and consists of 31 units of study. These units are categorised as Teaching Studies, Curriculum Studies, and Discipline Studies. Practicum and Field Experience units provide essential school-based and practical experiences that contextualise the theoretical components of the course. By the end of the course all students must have demonstrated the ability or the potential to meet the professional expectations of a beginning teacher.

Professional recognition

The course provides graduates with accreditation to register with the Victorian Institute of Teaching (VIT) as specialist physical education and health teachers in the years Prep to Year-12 and as generalist teachers in primary schools. Students completing this degree will also undertake four units in social work. This allows them to complete a sub-major in welfare studies and equips them to take on welfare positions in schools. Students completing this degree are eligible for employment in government, Catholic and independent schools in Victoria, other Australian states or overseas.

Admissions requirements

Applicants must satisfy normal university entry requirements – completion of VCE or mature age entry. Students require a study score of at least 25 in Units 3 and 4 of English and a study score of 25 or higher in one of Physical Education or Health and Human Development. Special entry provision for NONYR12 is available.

The Victorian Department of Education and Training requires a satisfactory criminal record check for all teacher education students undertaking practicum requirements in Victorian Department of Education and Training schools. It is expected that equivalent requirements will exist for all other Victorian schools. Prior to commencing the course, students will be required to complete a 'Working with Children Check' form available at Australia Post offices. Students must provide a certified copy of their valid 'Working

with Children' card prior to undertaking teaching placements.

Confirmation of a criminal record may jeopardise a student's ability to gain access to a suitable, or any, practicum placement(s) and may therefore delay or prevent completion of the course.

Course structure

The course is a four-year full-time program. It consists of 480 credit points of study.

Teaching Studies (5 units)

Students will study five units in preparation for teaching.

Unit name	Unit code	Credit points
Introduction to Teaching	EDU1ITT	15
Theories of Learning	EDU1TL	15
Practicum B	EDU2PRB	15
Practicum C	EDU3PRC	15
Middle Yrs: Num, Lit and Welfare	EDU4NLW	20

Curriculum Studies (7 units)

Students will study seven units in curriculum and methods of teaching in the Key Learning Areas of the primary school.

Unit name	Unit code	Credit points
Mathematics Teaching	EDU1MT	15
Learning Language	EDU1LL	15
Science Teaching	EDU2ST	15
Art and Music Education	EDU2AME	15
Studies of Soc. and Environment	EDU2SOS	15
Physical Education P to 12	EDU2PEM	15
Health Education P to 12	EDU2HEM	15

Education Discipline Studies (Sub-major)

Students will study a four-unit sequence in the discipline of education.

Unit name	Unit code	Credit points
Learning Technologies	EDU1LT	15
The Contemporary Child	EDU2TCC	15
Indigenous Studies	EDU2IS	15
Education in a Network Society	EDU3ENS	15

Physical Education (Major)

Students will study 12 units in curriculum and methods of teaching in the area of physical education.

Unit name	Unit code	Credit points
Introduction to Outdoor Education	OED1IOE	15
Human Body Systems	EDU1HBS	15
The Contemporary Child	EDU2TCC	15
Exercise and Performance	EDU2EXP	15
Active Lifestyles	EDU4AL	15
Movement Perspectives	EDU2MP	15
Skill Learning	EDU3SKL	15

Sport Injury Management	EDU4SIM	15
Public Health Nutrition	HLT3PHN	15

Health Education (Sub-major)

Students will study four units in curriculum and methods of teaching in the area of health education.

Unit name	Unit code	Credit points
The Contemporary Child	EDU2TCC	15
Relationships, Gender and Sexuality	EDU3RGS	15
Public Health Nutrition	HLT3PHN	15
Human Body Systems	EDU1HBS	15

Social Work Units (Sub-major Welfare Studies)

Students will study four units in social work.

Unit name	Unit code	Credit points
Introduction to Social Work A	SWP1ITP	15
Introduction to Social Work B ¹	SWP2ITP	20
Relationships, Gender and Sexuality	EDU3RGS	15
Social Work Practice with individuals, families and groups	SWP3IFG	20

¹ Should SWP2ITP not be available, the unit SWP1PPI – Policy, Poverty and Inequality shall substitute

A full description of units, including the unit name, unit code, credit points, campus/location, unit coordinator, class requirements,

assessment, prerequisites and readings, appears at the end of this chapter. For the most recent descriptions of units students should access the Unit Database at www.latrobe.edu.au/udb_public.

Bachelor of Physical and Outdoor Education – Bendigo (EBPOEB)

The program provides a qualification to teach in secondary schools in the specialist areas of Physical Education and Outdoor Environmental Studies. The course consists of 32 units. These units are categorised as Teaching Studies, Curriculum Studies, Discipline Studies and Electives. Practicum and Field Experience units provide essential school-based and practical experiences that contextualise the theoretical components of the course. By the end of the course, all students must have demonstrated the ability or the potential to meet the professional expectations of a beginning teacher.

Professional recognition

The course entitles graduates to apply for registration with the Victorian Institute of Teaching (VIT) as specialist teachers of Years 7 to 12 Outdoor Environmental Studies and Physical Education. VIT-registered graduates are eligible for employment in government, Catholic and independent schools in Victoria, other Australian states or overseas.

Admissions requirements

Applicants must satisfy the normal University entrance requirements: completion of VCE or alternate mature age entry. Students will also be required to have gained a study score of 25 or higher in one of Physical Education, Health and Human Development or Outdoor Environmental Studies at VCE units 3 and 4 level. Please note that from 2009, applicants must have VCE mathematics at units 1 and 2 (excluding Foundation maths). For 2007 and 2008 entry, students who have not satisfactorily completed VCE mathematics at units 1 and 2 (excluding Foundation maths) will be required to complete a bridging mathematics program in the first year of the course. Non year-12 applicants must submit a supplementary application form. Those meeting admission requirements but without a year-12 completion in the last 3 years are required to complete a Special Tertiary Admissions Test (STAT) in numeracy and literacy.

The Victorian Department of Education and Training requires a satisfactory criminal record check for all teacher education students undertaking practicum requirements in Victorian Department of Education and Training schools. It is expected that equivalent requirements will exist for all other Victorian schools. Prior to commencing the course, students will be required to complete a 'Working with Children Check' form available at Australia Post offices. Students must provide a certified copy of their valid 'Working with Children' card prior to undertaking teaching placements. Confirmation of a criminal record may jeopardise a student's ability to gain access to a suitable, or any, practicum placement(s) and may therefore delay or prevent completion of the course.

Course structure

The course is a four-year full-time program. It consists of 480 credit points of study.

First year

Teaching period	Unit name	Unit code
TE-SEM-1	Reading Australian Landscapes	OED1RAL
TE-SEM-1	Skill Learning	EDU3SKL
TE-SEM-1	Outdoor Living and Travel Skills	OED1AOL
TE-SEM-1	Sport and Recreation A	OED1SRA
TE-SEM-2	Naturalist Studies	OED1NS
TE-SEM-2	Human Body Systems	EDU1HBS
TE-SEM-2	Worldviews and the Environment	OED1WE
TE-SEM-2	Sport and Recreation B	OED1SRB

Second year

Teaching period	Unit name	Unit code
TE-SEM-1	Bush Environments	OED2BE
TE-SEM-1	Outdoor Leadership A	OED2OLA
TE-SEM-1	Social Psychology of Sport	EDU3SPS
TE-SEM-1	Movement Perspectives	EDU2MP
TE-SEM-2	Environments elective*	
TE-SEM-2	Outdoor Leadership B	OED2OLB

TE-SEM-2	Exercise and Performance	EDU2EXP
TE-SEM-2	Sport and Skill Analysis	EDU3SSA

Third year

Teaching period	Unit name	Unit code
TE-SEM-1	Education in the Outdoors	OED3EO
TE-SEM-1	Learning and Communication Technologies	EDU3LCT
TE-SEM-1	Inclusive Sport Education	EDU4INS
TE-SEM-1	Teaching in Environments elective**	
TE-SEM-2	Field Experience E	OED3FEE
TE-SEM-2	Public Health Nutrition	HLT3PHN
TE-SEM-2	Active Lifestyles	EDU4AL
TE-SEM-2	Indigenous Studies	EDU2IS

Fourth year

Teaching period	Unit name	Unit code
TE-SEM-1	Teaching Practice and Skills (20cp)	EDU4TPS
TE-SEM-1	Outdoor Education Teaching Method (10cp)	EDU4OEA
TE-SEM-1	The Context of Learning (20cp)	EDU4COL
TE-SEM-1	Physical Education Method (10cp)	EDU4PEA
TE-SEM-2	Teaching Practice and Models (20cp)	EDU4TPM
TE-SEM-2	Outdoor Education Teaching Method (10cp)	EDU4OEB
TE-SEM-2	Issues in Secondary Education(20cp)	EDU4SEI
TE-SEM-2	Physical Education Method (10cp)	EDU4PEB

Electives

* Environment electives are selected from OED2WAE Winter Alpine Environments, OED2RE River Environments, and OED2R Rock Environments.

** Teaching in Environments electives are selected from OED3TWA Teaching in Winter Alpine Environments, OED3TRE Teaching in River Environments, OED3TR Teaching in Rock Environments.

A full description of units, including the unit name, unit code, credit points, campus/location, unit coordinator, class requirements, assessment, prerequisites and readings, appears at the end of this chapter. For the most recent descriptions of units students should access the Unit Database at www.latrobe.edu.au/udb_public.

Bachelor of Arts (Natural Resources Education) – Bendigo (EBNRE)

The course provides a comprehensive introduction to outdoor environmental education in community and government organisations, community environmental education, land management and environmental studies. Graduates of the 3-year course will have a comprehensive mix of natural sciences and natural resources management. Employment opportunities for graduates will be in areas of land management, environmental education and environmental interpretation outside the formal education sector. The course provides a pathway to further studies in the environment or education at the postgraduate level.

Admission requirements

Students should satisfy the normal University entrance requirements, including a study score of at least 20 in Units 3 and 4 of English.

Special requirements

Special entry applicants or students who have completed year-12 more than 12 months prior to application may be invited to attend a selection interview and must complete a Supplementary Information Form. Special entry applicants may also be required to sit for the Special Tertiary Admissions Test (STAT).

Students should ensure they are aware of the physical components and location requirements of the course. Students with a disability, medical condition or any concerns which may affect potential participation in some of the practical components of the course are invited to discuss their options with the course coordinator.

Course structure

The course is a three-year full-time program. It consists of 360 credit points of study.

First year

Teaching period	Unit name	Unit code
TE-SEM-1	Biology of the Cell and Organism	BIO1CO
TE-SEM-1	Ways of Knowing Nature	OED1WKN
TE-SEM-1	Reading Australian Landscapes	OED1RAL
TE-SEM-1	Outdoor Living and Travel Skills	OED1AOL

TE-SEM-2	Materials Geology	GEO1MG
TE-SEM-2	Naturalist Studies	OED1NS
TE-SEM-2	World Views and the Environment	OED1WE
TE-SEM-2	Outdoor Environments	OED1OEE

Second year

Teaching period	Unit name	Unit code
TE-SEM-1	Ecology	BIO2ECO
TE-SEM-1	Regional Catchment Studies	OED2RCS
TE-SEM-1	Environmental Interpretation	OED2EI
TE-SEM-1	Elective (see below)	
TE-SEM-2	Australian Culture and Land	OED2ACL
TE-SEM-1	Local Environs Study	OED2LES
TE-SEM-2	Environmental Law	LST2EL
TE-SEM-2	Elective (see below)	

Third year

Teaching period	Unit name	Unit code
TE-SEM-1	Teaching Natural History	OED3TNH
TE-SEM-1	Parks and Wildlife Management	OED3PWM
TE-SEM-1	Naturalist Studies: Interpretation	OED3NSI
TE-SEM-1	Elective (see below)	
TE-SEM-2	Politics of Land Management	OED3PLM
TE-SEM-2	Education for Sustainability	OED3ES
TE-SEM-2	Elective (see below)	
TE-SEM-2	Elective (see below)	

Electives

Units available from other courses may be taken as electives, subject to timetable considerations and the meeting of prerequisites. Where possible, core units are timetabled to enable students to have access to selected electives in the following disciplines: biology, economics, geology, marketing, photojournalism, and sociology and cultural studies.

A full description of units, including the unit name, unit code, credit points, campus/location, unit coordinator, class requirements, assessment, prerequisites and readings, appears at the end of this chapter. For the most recent descriptions of units students should access the Unit Database at www.latrobe.edu.au/udb_public.

Bachelor of Arts (Nature Tourism) – Bendigo (RBANT)

Nature tourism involves the study of natural environments, human-nature relationships, and the practice of nature guiding and environmental interpretation. The course features a three-year sequence of environmental studies, nature tourism, education theory about leading and guiding groups in the outdoors, and outdoor and field naturalist practice. Students undertake at least 90 days of practical work, specialist studies in nature tourism, environmental studies, and land management. They also take elective studies from other disciplines such as economics, marketing, geography, or biology.

Graduates may gain work as nature guides and planners in the nature tourism industry, land management agencies and in other settings such as school camps and nature centres. They may undertake further training in business to work as owner-operators of nature tourism businesses. When combined with a Graduate Diploma in Education the course leads to a teaching qualification in either primary or secondary schools.

Admission requirements

Students should satisfy the normal University entrance requirements, including a study score of at least 20 in Units 3 and 4 of English.

Special requirements

Special entry applicants or students who have completed year-12 more than 12 months prior to application may be invited to attend a selection interview and must complete a Supplementary Information Form. Special entry applicants may also be required to sit for the Special Tertiary Admissions Test (STAT).

Students should ensure they are aware of the physical components and location requirements of the course. Students with a disability, medical condition or any concerns which may affect potential participation in some of the practical components of the course are invited to discuss their options with the course coordinator.

Course structure

The course is a three-year full-time program. It consists of 360 credit points of study.

First year

Teaching period	Unit name	Unit code
TE-SEM-1	Ways of Knowing Nature	OED1WKN
TE-SEM-1	Outdoor Living and Travel Skills	OED1AOL
TE-SEM-1	Reading Australian Landscapes	OED1RAL
TE-SEM-1	Elective (see below)	
TE-SEM-2	Worldviews and the Environment	OED1WE
TE-SEM-2	Naturalist Studies	OED1NS
TE-SEM-2	Outdoor Environments	OED1OEE
TE-SEM-2	Elective (see below)	

Second year

Teaching period	Unit name	Unit code
TE-SEM-S	River and Wetland Environments	OED2RWE
TE-SEM-1	Regional Catchment Studies	OED2RCS
TE-SEM-1	Environmental Interpretation	OED2EI
TE-SEM-1	Elective (see below)	
TE-SEM-2	Australian Culture and Land	OED2ACL
TE-SEM-2	Bush Environments	OED2BE
TE-SEM-2	Sustainable Nature Tourism	OED2SNT
TE-SEM-2	Elective (see below)	

Third year

Teaching period	Unit name	Unit code
TE-SEM-1	Education in Outdoors	OED3EO
TE-SEM-1	Parks and Wildlife Management	OED3PWM
TE-SEM-1	Naturalist Studies: Interpretation	OED3NSI
TE-SEM-1	Elective (see below)	
TE-SEM-2	Politics of Land Management	OED3PLM
TE-SEM-2	Education for Sustainability	OED3ES
TE-SEM-2	Nature Tourism Practicum	OED3NTP
TE-SEM-2	Elective (see below)	

Electives

Units available from other courses may be taken as electives, subject to timetable considerations and the meeting of prerequisites. Where possible, core units are timetabled to enable students to have access to selected electives in the following disciplines: biology, economics, geology, marketing, photojournalism, and sociology and cultural studies.

A full description of units, including the unit name, unit code, credit points, campus/location, unit coordinator, class requirements, assessment, prerequisites and readings, appears at the end of this chapter. For the most recent descriptions of units students should access the Unit Database at www.latrobe.edu.au/udb_public.

Bachelor of Arts (Outdoor Education) – Bendigo (RBAOE)

Outdoor education is the study of the relationships humans have with nature through outdoor experiences. The program is designed for motivated students who seek careers in outdoor education, adventure guiding, environmental education or related fields. A strong emphasis is placed on environmental knowledge and gaining practical experience. The course combines practical fieldwork outdoor activities with theoretical studies. Core fieldwork units include: bushwalking, paddling, cross-country skiing, rock climbing, and naturalist studies. The academic perspective centres on how knowledge is shaped by new environments and how the environment, in turn, is shaped by our thoughts and practices. The theoretical aspects of the program include: environmental science studies and outdoor education concepts drawn from psychology, education, eco-psychology, environmental ethics and eco-philosophy. Students undertake a minimum of 130 days of practical work over three years. Graduates from the course are employed by schools, at camps, in outdoor travel and by land management authorities and commercial outdoor companies. When combined with the Graduate Diploma in Education (Primary or Secondary) the course leads to a teaching qualification in either primary or secondary schools. Graduates may also go on to the Bachelor of Arts (Honours) (Outdoor Education), and/or to Masters and Doctoral study.

Professional recognition

The Bachelor of Arts (Outdoor Education) has been accepted by the Victorian Institute of Teaching for recognition as preparation for teaching in primary and secondary schools when combined with a fourth year Graduate Diploma in Education.

Admission requirements

Students should satisfy the normal university entrance requirements, including a study score of at least 20 in Units 3 and 4 of English.

Special requirements

Special entry applicants or students who have completed year-12 more than 12 months prior to application may be invited to attend a selection interview and must complete a Supplementary Information Form. Special entry applicants may also be required to sit for the Special Tertiary Admissions Test (STAT). Applicants must ensure that they are physically fit to undertake course activities.

Students should ensure they are aware of the physical components and location requirements of the course. Students with a disability, medical condition or any concerns which may affect potential participation in some of the practical components of the course are invited to discuss their options with the course coordinator.

Course structure

The course is a three-year full-time program. It consists of 360 credit points of study.

First year

Compulsory units:

Teaching period	Unit name	Unit code
TE-SEM-1	Ways of Knowing Nature	OED1WKN
TE-SEM-1	Outdoor Living and Travel Skills	OED1AOL
TE-SEM-1	Field Experience A	OED1AFE
TE-SEM-1	Reading Australian Landscapes	OED1RAL
TE-SEM-2	Worldviews and the Environment	OED1WE
TE-SEM-2	Naturalist Studies	OED1NS
TE-SEM-2	Field Experience B	OED1BFE
TE-SEM-2	Outdoor Environments	OED1OEE

Second year

Compulsory units:

Teaching period	Unit name	Unit code
TE-SEM-S	Field Experience C	OED2FEC
TE-SEM-1	Outdoor Leadership A	OED2OLA
TE-SEM-1	Environment Elective 1*	
TE-SEM-1	Elective (not environment elective)	
TE-SEM-2	Australian Culture and Land	OED2ACL
TE-SEM-2	Outdoor Leadership B	OED2OLB
TE-SEM-2	Environment Elective 2*	
TE-SEM-2	Elective (not environment elective)	

*Outdoor Environment Electives:

TE-SEM-1	Bush Environments	OED2BE
TE-SEM-1	Rock Environments	OED2RE
TE-SEM-2	Local Environs Study	OED2LES
TE-SEM-2	River Environments	OED2RE
TE-SEM-2	Winter Alpine Environments	OED2WAE

Third year

Compulsory units:

Teaching period	Unit name	Unit code
TE-SEM-1	Education in the Outdoors	OED3EO
TE-SEM-1	Field Experience D	OED3FED
TE-SEM-1	Teaching Environment Elective 1*	
TE-SEM-1	Elective (not environment elective)	
TE-SEM-2	Teaching and Program Development	OED3TPD
TE-SEM-2	Field Experience E	OED3FEE
TE-SEM-2	Teaching Environment Elective 2*	
TE-SEM-2	Elective (not environment elective)	

*Teaching Environment Electives:

TE-SEM-1	Teaching in Bush Environments	OED3TBE
TE-SEM-1	Teaching in Rock Environments	OED3TR
TE-SEM-2	Teaching in River Environments	OED3TRE
TE-SEM-2	Teaching in Winter Alpine Environments	OED3TWA

A full description of units, including the unit name, unit code, credit points, campus/location, unit coordinator, class requirements,

assessment, prerequisites and readings, appears at the end of this chapter. For the most recent descriptions of units students should access the Unit Database www.latrobe.edu.au/udb_public.

Bachelor of Arts (Outdoor Environmental Education) – Bendigo (EBOEE)

The course prepares students for teaching and leading in fields relevant to outdoor environmental education with emphasis on natural history, environmental studies and social and cultural aspects of the environment. The course is similar to the Bachelor of Arts (Outdoor Education) but provides the opportunity for students to become more specialised in fewer environments with a focus on environmental education studies. Graduates are employed in formal and informal education settings, local government agencies and commercial providers of outdoor environmental education or outdoor education. Teaching in government schools requires an additional one year Graduate Diploma in Education (Primary or Secondary).

Admission requirements

Students should satisfy the normal university entrance requirements, including a study score of at least 20 in Units 3 and 4 of English.

Special requirements

Special entry applicants or students who have completed year-12 more than 12 months prior to application may be invited to attend a selection interview and must complete a Supplementary Information Form. Special entry applicants may also be required to sit for the Special Tertiary Admissions Test (STAT). Applicants must ensure that they are physically fit to undertake course activities.

Students should ensure they are aware of the physical components and location requirements of the course. Students with a disability, medical condition or any concerns which may affect potential participation in some of the practical components of the course are invited to discuss their options with the course coordinator.

Course structure

The course is a three-year full-time program. It consists of 360 credit points of study.

First year

Compulsory units:

Teaching period	Unit name	Unit code
TE-SEM-1	Ways of Knowing Nature	OED1WKN
TE-SEM-1	Outdoor Living and Travel Skills	OED1AOL
TE-SEM-1	Field Experience A	OED1AFE
TE-SEM-1	Reading Australian Landscapes	OED1RAL
TE-SEM-2	Worldviews and the Environment	OED1WE
TE-SEM-2	Naturalist Studies	OED1NS
TE-SEM-2	Field Experience B	OED1BFE
TE-SEM-2	Outdoor Environments	OED1OEE

Second year

Teaching period	Unit name	Unit code
TE-SEM-1	River and Wetland Environments	OED2RWE
TE-SEM-1	Outdoor Leadership A	OED2OLA
TE-SEM-1	Environmental Interpretation	OED2EI
TE-SEM-1	Elective	
TE-SEM-2	Australian Culture and Land	OED2ACL
TE-SEM-2	Local Environs Study	OED2LES
TE-SEM-2	Bush Environments	OED2BE
TE-SEM-2	Elective (Not Outdoor Leadership B)	

Third year

Teaching period	Unit name	Unit code
TE-SEM-1	Education in the Outdoors	OED3EO
TE-SEM-1	Field Experience D	OED3FED
TE-SEM-1	Teaching Natural History	OED3TNH
TE-SEM-1	*Elective	
TE-SEM-2	Teaching and Program Development	OED3TPD
TE-SEM-2	Education for Sustainability	OED3ES
TE-SEM-2	Field Experience E	OED3FEE
TE-SEM-2	*Elective	

* Electives cannot be Outdoor Environment units or Teaching Environment units

A full description of units, including the unit name, unit code, credit points, campus/location, unit coordinator, class requirements, assessment, prerequisites and readings, appears at the end of this chapter. For the most recent descriptions of units students should access the Unit Database www.latrobe.edu.au/udb_public.

Bachelor of Arts (Outdoor Recreation Education) – Bendigo (EBORE)

The course prepares students for teaching and leading in fields relevant to outdoor recreation education with an emphasis on environmental and social responsibility and cultural aspects of outdoor recreation. The course is similar to the Bachelor of Arts (Outdoor Education) but provides the opportunity for students to become expert at activities in a wider range of environments. Graduates are employed in informal education settings, by youth at risk agencies, local government agencies and commercial outdoor recreation providers. The course involves 160 days of practical experience throughout the course. Elective study units include: bushwalking, rock climbing, cross-country skiing, cycling, paddling, and naturalist studies. Teaching in government schools requires additional completion of a one year Graduate Diploma in Education (Primary or Secondary).

Professional recognition

The Bachelor of Arts (Outdoor Recreation Education) has been accepted by the Victorian Institute of Teaching for recognition as preparation for teaching in primary and secondary schools when combined with a fourth year Graduate Diploma in Education.

Admission requirements

Students should satisfy the normal university entrance requirements, including a study score of at least 20 in Units 3 and 4 of English.

Special requirements

Special entry applicants or students who have completed year-12 more than 12 months prior to application may be invited to attend a selection interview and must complete a Supplementary Information Form. Special entry applicants may also be required to sit for the Special Tertiary Admissions Test (STAT). Applicants must ensure that they are physically fit to undertake course activities.

Students should ensure they are aware of the physical components and location requirements of the course. Students with a disability, medical condition or any concerns which may affect potential participation in some of the practical components of the course are invited to discuss their options with the course coordinator.

Course structure

The course is a three-year full-time program. It consists of 360 credit points of study.

First year

Compulsory units:

Teaching period	Unit name	Unit code
TE-SEM-1	Ways of Knowing Nature	OED1WKN
TE-SEM-1	Outdoor Living and Travel Skills	OED1AOL
TE-SEM-1	Field Experience A	OED1AFE
TE-SEM-1	Reading Australian Landscapes	OED1RAL
TE-SEM-2	Worldviews and the Environment	OED1WE
TE-SEM-2	Naturalist Studies	OED1NS
TE-SEM-2	Field Experience B	OED1BFE
TE-SEM-2	Outdoor Environments	OED1OEE

Second year

Teaching period	Unit name	Unit code
TE-SEM-S	Field Experience C	OED2FEC
TE-SEM-1	Outdoor Leadership A	OED2OLA
TE-SEM-1	Bush Environments or	OED2BE
TE-SEM-1	Local Environs study	OED2LES
TE-SEM-1	Rock Environments	OED2R
TE-SEM-2	Australian Culture and Land	OED2ACL
TE-SEM-2	Outdoor Leadership B	OED2OLB
TE-SEM-2	Winter Alpine Environments	OED2WAE
TE-SEM-2	River Environments	OED2RE

Third year

Compulsory units:

Teaching period	Unit name	Unit code
TE-SEM-1	Education in the Outdoors	OED3EO
TE-SEM-1	Field Experience D	OED3FED

TE-SEM-1	Teaching Environment Elective 1*	
TE-SEM-1	Teaching Environment Elective 2*	
TE-SEM-2	Teaching and Program Development	OED3TPD
TE-SEM-2	Field Experience E or elective**	OED3FEE
TE-SEM-2	Teaching Environment Elective 3*	
TE-SEM-2	Outdoor Environmental Education Practical Extension	OED3OPE

*Teaching Environment Electives:

TE-SEM-1	Teaching in Bush Environments	OED3TBE
TE-SEM-1	Teaching in Rock Environments	OED3TR
TE-SEM-2	Teaching in River Environments	OED3TRE
TE-SEM-2	Teaching in Winter Alpine Environments	OED3TWA

**Third year elective: To permit those who wish to be teachers to be eligible for geography teaching method.

A full description of units, including the unit name, unit code, credit points, campus/location, unit coordinator, class requirements, assessment, prerequisites and readings, appears at the end of this chapter. For the most recent descriptions of units students should access the Unit Database www.latrobe.edu.au/udb_public.

Double degrees

Bachelor of Arts/Bachelor of Arts Education – Melbourne (Bundoora) (AZAAE)

This double degree requires completion of 540 credit points over four years of full-time study or equivalent part-time study. Students complete a Bachelor of Arts degree in specific teaching disciplines and gain a secondary teaching qualification. The course provides the opportunity for students to engage in education related studies (including teaching practice in schools) while developing their knowledge in the Humanities and Social Sciences disciplines. As part of the arts degree students must take two arts disciplines offered by the Faculty of Humanities and Social Sciences and which are available to be taken as a teaching methods in the Graduate Diploma in Education (Secondary) at La Trobe (see arts units listed below). Students intending to take a Languages Other Than English (LOTE) method will be required to complete the third-year advanced level of their chosen language.

The first year of the degree consists of the foundation arts units. During the second and third years of the degree students will enrol in both arts and education units which include supervised teaching practice in schools. In the final year students will undertake the more intensive teacher training component of the degree, including studies in educational philosophy, curriculum and theory, teaching practice in schools and the two teaching methods units.

Please note: students must complete a 'Working with Children Check' form available at Australia Post offices. Students must provide a certified copy of their valid 'Working with Children' card prior to undertaking teaching placements

Teaching period	Requirements
	First year (120 credit points)
TE-SEM-1	First year unit arts discipline A (15 credit points), first year unit arts discipline B (15 credit points), first year arts elective (15 credit points), first year arts elective (15 credit points)
TE-SEM-2	First year unit arts discipline A (15 credit points), first year unit arts discipline B (15 credit points), first year arts elective (15 credit points), first year arts elective (15 credit points)
	Second year (140 credit points)
TE-SEM-1	Second year unit arts discipline A (20 credit points), second year unit arts discipline B (20 credit points), second year arts elective (20 credit points), EDU2TPA Teaching Practice A (20 credit points)
TE-SEM-2	Second year unit arts discipline A (20 credit points), second year unit arts discipline B (20 credit points), EDU4HE Holistic Education (20 credit points)
	Third year (140 credit points)
TE-SEM-1	Third year unit arts discipline A (20 credit points), third year unit arts discipline B (20 credit points), third year arts elective (20 credit points), EDU4IE Issues in Education (20 credit points) (vacation summer school unit)
TE-SEM-2	Third year unit arts discipline A (20 credit points), third year unit

TE-SEM-1	arts discipline B (20 credit points), EDU 3TPB Teaching Practice B (20 credit points)
	Fourth year (140 credit points) EDU4COL Context of Learning (20 credit points), education method 1 (10 credit points), education method 2 (10 credit points), EDU4TPS Teaching Practice and Skills (20 credit points), education elective (20 credit points) EDU4SEI Issues in Secondary Education (20 credit points), education method 1 (10 credit points), education method 2 (10 credit points), EDU4TPM Teaching Practices and Models (20 credit points)

Arts disciplines available for specific methods

Students must select their arts disciplines (A and B above) from two different method areas.

Drama method: Theatre and drama

English method: English, linguistics

LOTE method (Languages Other Than English)

Chinese, Indonesian, Italian, Japanese, Modern Greek, Spanish.

Students wanting to do a LOTE method must complete the third year advanced level of their chosen language.

Media studies method

Media studies, cinema studies

Humanities (Previously SOSE method (Studies of Society and Environment))

Aboriginal studies, anthropology, art history, development studies; gender, sexuality and diversity studies; history, legal studies, philosophy, politics, religious studies, sociology. Students wanting to take a Humanities or SOSE method must choose both Discipline A units and two of their first year arts electives from the disciplines listed here. Students should seek approval from the course adviser in the Faculty of Education to ensure that they have at least one discipline that is not generally classified by the teacher accreditation authority as cultural studies.

ESL method (English as a Second Language)

Linguistics (LOTE studies are also recommended)

Bachelor of Science/Bachelor of Science Education – Bendigo (SZSSEB), Melbourne (Bundoora) (SZSSE), Albury-Wodonga (STBSSW)

This innovative double degree has been developed in response to the Federal Government's 'Innovation Statement' and aims to integrate full science degree studies with a complete teaching qualification, with a particular emphasis on mathematics, statistics (taught as part of mathematics in secondary schools), physics, chemistry, and/or information technology. Graduates of this double degree will have a deepened understanding of their teaching units and will be equipped to adapt their teaching to engage with the needs of their teaching settings, including their own students and the nature of the areas of knowledge and behaviour that constitute the discipline. In this program, emphasis is placed on the teacher's ability to adapt teaching to continuously changing circumstances while fostering deep understanding of relevant areas of scientific disciplines.

Please note: students must complete a 'Working with Children' check form, available from Australia Post offices. Students must provide a certified copy of their valid 'Working with Children' card prior to undertaking teaching placements in schools.

Albury-Wodonga Campus: Only the first year of this degree is available at the Albury-Wodonga campus. Students who successfully complete the first year of the degree transfer to the Melbourne (Bundoora) campus to complete the remaining three years. Students who enrol in the Bachelor of Science/Science Education at the Albury-Wodonga campus can only select Chemistry and Mathematics as their major units of study.

Scholarships

Some scholarships may be available for this degree. Prospective applicants should contact the Faculty of Science, Technology and Engineering Faculty office.

Course structure

This double degree is of four and a half years full-time or equivalent part-time duration and requires the completion of 540 credit points overall. Students may complete this double degree in four years as part of an accelerated study program.

Students will gain a foundation in science in the first year. Combined studies in science and education will commence in the second year and continue during the third year. Two science disciplines must be studied through to third year: the major discipline comprising units to the value of 60 credit points in the third year and the minor discipline 30 credit points. The major discipline must be one of mathematics, statistics, physics, and chemistry or computer science. (Note that the first year statistics discipline requirement may be satisfied by enrolling in STA1SS and one of STA1LS or MAT1DM). The minor discipline may also be chosen from among the major discipline areas or from any other science discipline offered by the Faculty of Science, Technology and Engineering. The science disciplines are those defined for the Bachelor of Science degree. The final year will consist of full teacher training, including the practicum requirement and will include a combined science and education project. Normally, students would be expected to have satisfactorily completed all of the requirements for the first three years before progressing to the fourth year.

Notes:

Your unit choices at first and second year must ensure that one of mathematics, physics, chemistry, statistics or computer science can be taken as a major at third year level. You cannot have a major/minor combination of mathematics and statistics as double mathematics method is not offered in the fourth year.

You will be qualified to teach subjects corresponding to your chosen major and minor disciplines, but not subjects corresponding to your terminating first year science discipline. If your major or minor is in physics or chemistry, you will also be qualified to teach secondary school general science. As general science also covers biology, such students should consider taking a first year biology unit as a first year level elective.

The research project must relate to science education or mathematics education.

All units must be chosen in consultation with, and approved by the course adviser.

BUNDOORA CAMPUS**First year (120 credit points)**

Unit name	Credit points
30 credit points in each of three different science disciplines	90
First year level electives (education units excluded)	30
Note: the maximum number of credit points in any one science discipline is	45.

Second year (140 credit points)

Teaching period	Unit name	Unit code	Credit points
TE-SEM-1	Teaching Practice A	EDU2TPA	20
	40 credit points in each of two different science disciplines		80
	20 credit points second year level elective(s) (chosen from any discipline and which may be a further science or education unit)		20
	20 credit point education unit (chosen from the list below)		20

Third year (140 credit points)

Teaching period	Unit name	Unit code	Credit Points
TE-SEM-S	Issues in Education	EDU4IIE	20
TE-SEM-1	Science Education Mentoring?	EDU3SEM	10
or			
TE-SEM-2			
TE-SEM-2	Teaching Practice B	EDU3TPB	20
	60 credit points chosen from one of the disciplines: mathematics, physics, chemistry, statistics, computer science		60
	30 credit points chosen from a single science discipline (which differs from that already chosen as the major discipline)		30

Fourth year (140 credit points)

Teaching period	Unit name	Unit code	Credit Points
TE-SEM-1	Context of Learning	EDU4COL	20
TE-SEM-1	Teaching Practice and Skills	EDU4TPS	20
TE-SEM-1	Research Practicum	EDU4RP	20
or			

TE-SEM-2			
TE-SEM-2	Issues in Secondary Education	EDU4SEI	20
TE-SEM-2	Teaching Practice and Models	EDU4TPM	20

Plus two method units to be chosen from the following

Teaching period	Unit name	Unit code	Credit Points
TE-SEM-1 and	Chemistry Teaching Method	EDU4CHA	10
TE-SEM-2		EDU4CHB	10
TE-SEM-1 and	IT Teaching Method	EDU4ITA	10
TE-SEM-2		EDU4ITB	10
TE-SEM-1 and	Mathematics Teaching Method	EDU4MAA	10
TE-SEM-2		EDU4MAB	10
TE-SEM-1 and	Physics Teaching Method	EDU4PHA	10
TE-SEM-2		EDU4PHB	10
TE-SEM-1 and	Science Teaching Method	EDU4SCA	10
TE-SEM-2		EDU4SCB	10

List of education units available at the Bundoora Campus

Note that units may vary from year to year according to availability.

Teaching period	Unit name	Unit code	Credit Points
TE-SEM-1 and	Issues in Science Education 1 ¹	EDU4SC1	15
TE-SEM-2	Issues in Science Education 2 ¹	EDU4SC2	15
TE-SEM-1	Approaches to Pastoral Care	EDU4APC	20

TE-SEM-2	Holistic Education	EDU4HE	20
TE-SEM-2	Working With Different Learning Needs	EDU5WWD	20
TE-SEM-S	Classroom Discipline	EDU4CSD	20

Key: ¹ Not available in 2008.

² Students taking EDU3SEM in first semester must be available to commence the training session mid-late February 2008.

A full description of units, including the unit name, unit code, credit points, campus/location, unit coordinator, class requirements, assessment, prerequisites and readings, appears at the end of this chapter. For the most recent descriptions of units, students should access the Unit Database at www.latrobe.edu.au/udb_public.

Honours degrees

Bachelor of Education with Honours – Bendigo (RBED)

Please refer to the Honours Pathway in the entry for Bachelor of Education.

Bachelor of Arts (Honours) (Nature Tourism) – Bendigo (RHANT)

This course provides a fourth year of theoretical and practical studies for high achieving students. The year has a research focus and is intended to provide a basis for further study at the Master's and Doctoral levels. In addition to writing an honours thesis, each student must undertake a specialised coursework program.

Admission requirements

Applicants must have achieved highly in the Bachelor of Arts (Nature Tourism) with a performance at B level demonstrated in substantial parts of the course, with an overall average of C or above. Third year and second year results are weighted more heavily than first year results. Normally, students will not be permitted to enrol more than two years after completing a pass degree.

Course structure

The course can be undertaken by full-time study for one year or part-time study for two years. It is valued at 120 credit points.

Teaching period	Unit name	Unit code
TE-ALLYR	Research Thesis (Outdoor Education and Nature Tourism Honours)	OED4TON
TE-SEM-1	Outdoor Education and Nature Tourism Honours Seminar A	OED4SEA
TE-SEM-1	Research Methods in Outdoor Education and Nature Tourism Honours	OED4RM

Electives

Students must take two additional units which may be chosen from the following or from other units offered in the School or in other schools or universities, with approval from the Honours Coordinator.

Teaching period	Unit name	Unit code
TE-SEM-1	Regional Catchment Studies	OED2RCS
TE-SEM-1	Readings Outdoor Education Honours	OED4RD
or		
TE-SEM-2		
TE-SEM-2	Outdoor Education and Nature Tourism Honours Seminar B	OED4SEB

Regulations

The Chief Examiners' Meeting has specific responsibility for determining an appropriate degree classification for each candidate, based on the weightings of grades allocated to the Seminar A, Research Methods, two elective units (12.5% each) and the research project (50%). A candidate must satisfactorily complete the research project in order to graduate. Normally, a candidate who fails to satisfy the examiners will not be permitted to repeat the course or to write supplementary examinations.

A full description of units, including the unit name, unit code, credit points, campus/location, unit coordinator, class requirements, assessment, prerequisites and readings, appears at the end of this chapter. For the most recent descriptions of units students should access the Unit Database at www.latrobe.edu.au/udb_public.

Not available in 2008

EDU1ESL ENGLISH AS A SECOND LANGUAGE I (15. CPs Sem. TE-SEM-1 BU. TE-SEM-2 BU.) *Ms Julianne East, Ms Suzanne Fegan*

This interdisciplinary elective subject gives students from language backgrounds other than English the opportunity to further develop their English language skills in an academic context. The theoretical component analyses cross cultural differences in academic discourse and explores the cultural values which shape those differences. The practical component relates these differences to the interpretation and creation of academic discourse, including: writing essays/reports using English patterns of logic/direct expression; language and culture of critical analysis applied to critical reading skills; and the use of argument and evidence in written texts.

Prerequisite: From language background other than English, with minimum English language entry requirement of the University.

Class requirements: One two-hour tutorial per week.

Assessment: One 1500-word essay (30%), Online and tutorial exercises (equivalent to 1500-words) (30%), One 800-word essay (20%), 2-hour class test (20%).

Prescribed Reading:

ESL-1 book of readings La Trobe University

EDU1GCL GENRES IN CHILDREN'S LITERATURE (15. CPs Sem. TE-SEM-1 BE, MI.) *BE: Mr David Beagley, MI: Ms Deb Neal*

In this unit, students study current theories of genres relating to children's literature as a form of social practice. Topics covered include modernist and post modern picture books, traditional European folk and fairy tales, fantasy and realistic fiction, and poetry.

Class requirements: Two 1-hour lectures and one 2-hour tutorial/workshop per week.

Assessment: One 1500-word written assignment (30%), one weekly readings diary – equivalent to 1000-words (20%), evidence of tutorial preparation through participation (10%), one 2-hour written examination (40%).

Recommended Reading:

Lukens, R. (2002) *A Critical Handbook of Children's Literature*, 7th edn. Boston: Allyn and Bacon.

Cullinan, B. and Galda, L. (2006) *Literature and the Child*, 6th edn. Belmont, CA: Wadsworth/Thomson Learning.

Anstey, M & Bull, G (2000) *Reading the Visual: Written and Illustrated Children's Literature* Sydney: Harcourt Australia.

EDU1HBS HUMAN BODY SYSTEMS (15. CPs Sem. TE-SEM-2 BE.) *Dr*

Ashley Woodcock

This subject is a prerequisite for the second-year general studies subjects, Biomechanics and Exercise Physiology as well as the fourth year subject, Sports Medicine.

This unit aims to provide students with a basic knowledge of the structure, functions, and interrelationships of the major anatomical and physiological systems of the human body directly related to movement. Through a series of interactive lectures and laboratory classes students will investigate basic terminology, and the basis of structure and function of the skeletal, muscular, circulatory, and respiratory systems.

Class requirements: One 2-hour lecture and one 2-hour laboratory session per week.

Assessment: Weekly practical work (40%), one 1.5-hour mid-semester test (30%), one 1.5-hour end of semester examination (30%).

Prescribed Reading:

Marieb, E.N (2003) *Anatomy and physiology colouring workbook 7th edn*. San Francisco, Cal: Benjamin Cummings.

Marieb, E.N (2003) *Essentials of human anatomy and physiology (7th)* San Francisco, Cal: Benjamin Cummings.

EDU1HCL HISTORY OF CHILDREN'S LITERATURE 1 (15 CPs Sem. TE-SEM-2 BE, MI.) *BE: Mr David Beagley, MI: Ms Debbie Neal*

In this unit, students investigate the influence of traditional literature on themes and genres in nineteenth and early twentieth century texts for children. Topics covered include myths, legends, folk and fairy tales, and their influence on the emergence of the genres of fantasy and realism.

Prerequisite: EDU11GCL.

Class requirements: Two 1-hour lectures and one 2-hour tutorial per week.

Assessment: One set of webpages, with research notes (equivalent to a 1500–2000-word essay) (30%), one annotated bibliography (equivalent to a 1000-word essay) (10%), evidence of tutorial preparation through participation (10%), one 2-hour final examination (40%).

Hourihan, M. (1997) *Deconstructing the Hero: Literacy theory and children's literature* London, New York: Routledge.

Zipes, J. (1997) *Happily Ever After: fairy tales, children and the culture* New York: Routledge.

EDU1IE INCLUSIVE EDUCATION: STUDENT DIVERSITY, WELFARE AND INCLUSIVE (15 CPs Sem. TE-SEM-2 BE, MI.) *BE: Ms Cherry Rattue, MI:*

Mrs Debra Neal

In this unit, students are provided with an introduction to the philosophy and concepts underlying the wellbeing of all students with specific focus on inclusive education and student welfare. As part of this unit students will consider the functional implications of student diversity and the pedagogical process and practical adaptations that enable teachers to include students with additional learning, behavioural, emotional, and environmental needs. The provision of challenging learning activities through the effective differentiation of the curriculum will be explored.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: One 2-hour examination (40%), One 1250-word assignment (30%), Attendance, class participation, and Practicum observation report – equivalent to a 1250-word essay (30%)

Prescribed Reading:

As detailed annually in the anthology *Anthology of Readings: Welfare, Disability and Inclusion* Bendigo: La Trobe University.

Recommended Reading:

Ashman, A & Elkins, J (Eds) (2002) *Educating Children with Diverse Abilities* Australia: Prentice Hall.

EDU1TT INTRODUCTION TO TEACHING PRACTICE (15 CPs Sem. TE-SEM-1 BE, MI.) *Mr Wilf Savage*

In this unit, students will engage in a lecture-tutorial program combined with school-based activities to study how students learn, and what teachers must do so that learning can be maximised. The focus for the unit is primarily upon the role of the teacher in the learning experience, and the content of the lecture tutorial program draws upon, yet simultaneously illuminates the experiences of students in the concurrent practicum program.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week. 12 days of school experience.

Assessment: One 10-minute tutorial presentation (20%), one 750-word essay (15%), a 1250-word essay (25%), practicum reports (performance assessed by reports from practicum supervisors) (10%). 12 days of (compulsory) supervised teaching practice – hurdle requirement. Satisfactory participation and performance to defined exit standards are required to meet the compulsory hurdle assessment, one 1-hour examination (30%).

Preliminary Reading:

Whitton, D. et al. *Learning for Teaching; Teaching for Learning* Melbourne: Thomson, 2004.

EDU1LL LEARNING, LANGUAGE, AND ENGLISH/LITERACY (15 CPs Sem. TE-SEM-2 BE, MI.) *BE: Ms Debra Edwards, MI: Ms Deb Neal*

In this unit students will be involved in the development of self knowledge including an understanding of the influence of their identities and cultures on their development as English/Literacy teachers. Personal competencies including an explicit knowledge about language codes and conventions and the use of technologies to enhance personal learning and as a way of ensuring currency of curricular policies, programs and resources will be considered. Students will be introduced to the developmental nature of language and literacy learning; knowledge of a range of language and literacy learning theories and associated approaches and programs with a focus on the early years of schooling.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: One 1500-word assignment (30%), one 2-hour examination (40%), attendance, participation, and completion of weekly class activities, equivalent to 1000-word essay (30%). Students will be expected to keep a 'Learning Language Notebook' recording reading and preparation for lectures and tutorials, tutorial and WebCT activities, and lecture notes.

EDU1LT LEARNING TECHNOLOGIES – INFORMATION/COMMUNICATION (15 CPs Sem. TE-SEM-1 BE, MI.) *Ms Chris Campbell*

In this unit students develop information literacy knowledge, skills and values required for both the application of technology in teaching

and learning as well as learning to teach about technology. Topics for this unit include the Internet, software applications for educators, integrating multimedia and educational software applications as well as creating curriculum materials. Issues to be addressed will include those related to ethics, sociology, psychology and communications theory. This unit provides an introduction to practical computing skills and the integration of technology into the classroom. Students will be assisted to achieve the learning outcomes endorsed by the Victorian Institute for Teaching.

Class requirements: Two 1-hour lectures and one 1-hour tutorial/workshop per week.

Assessment: Computer laboratory set activities including online activities – equivalent to a 2000-word essay (40%), multi-page educational website equivalent to 1000-word essay (25%), individual task, digital portfolio equivalent to one 1500-word essay (35%).

Prescribed Reading:

Campbell C. *Electronic readings – various* La Trobe University.

EDU1MT THE TEACHING OF NUMBER, CHANCE AND DATA, AND ALGEBRA (15 CPs Sem. TE-SEM-1 BE, MI.) *Dr Dona Martin*

Using concepts drawn from the topics of number, chance and data, and algebra, the structure of mathematics, the goals of mathematics teaching, the nature of the mathematics curriculum, and ways of engaging pupils in mathematics learning are explored. Students will be given the opportunity to broaden their personal understandings of, and attitudes to, these key mathematical concepts using problem solving and investigative approaches. The students will examine how understanding of these key mathematical concepts contributes to the development of numerate citizens, and how such approaches contribute to their own learning, and the implications for their mathematics teaching.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: One 15-minute content assignment (10%). It is a hurdle requirement that all students demonstrate appropriate understanding of relevant mathematical content for primary teaching, one 2-hour examination (40%), one 1000-word assignment (30%), one 15-minute tutorial presentation and one 1000-word assignment (20%).

EDU1MUA INTRODUCTION TO MUSIC LANGUAGE AND CULTURE (15 CPs Sem. TE-SEM-1 BE.) *Mr Peter Butler***PART A Lecture series**

This unit is a general introduction to music using both formal lectures and practical hands on experiences designed to give the student a personal and developing insight into the music of western and non-Western societies. The program includes theoretical fundamentals – meter including rhythmic note grouping, rests, scales, and keys along with practical vocal and instrumental classroom exercises for developing aural and rhythmic discrimination. In-class and individual weekly practice on the ear training program auralia in the computer lab will also be undertaken.

PART B Piano Laboratory

Chordal piano playing method. Major, minor and seventh chords in all of their inversions on the keyboard. Techniques for providing a pianistic accompaniment to any song in which only the melody and chords are given. A variety of playing styles will be taught.

Class requirements: One 2-hour lecture and one 1-hour piano laboratory per week.

Assessment: One 1000-word assignment (15%), one 10-minute seminar presentation (15%), one 10-minute individual piano examination (40%), one 2-hour final examination (30%)

Prescribed Reading:

Alberts *Adult All-in-One Level 1 Piano Course*.

EDU1MUB MUSIC B (15 CPs Sem. TE-SEM-2 BE.) *Mr Peter Butler*

PART A Lecture Series

The History unit aims to familiarise students with the key aspects of musical form and style during the Baroque, Rococo, Classical and Romantic periods 1700–1900. Theoretical Studies continues on from Music A in building the students' knowledge of music theory in terms of both aural recognition and written notation – scales, intervals and triads. Aural training and sight singing builds on Music A in developing reading fluency and the aural discrimination of rhythm, intervals, scales, chords and melodic dictation.

PART B Instrumental Tuition

Students undertake 10 weeks of instrumental tuition on any instrument outside of the university. Students may continue with a pre-existing instrument or commence with a new instrument.

Prerequisite: EDU1MUA.

Class requirements: One 2-hour lecture, one 30-minute individual instrumental lesson and one 30-minute individual aural practice (Auralia Program) per week.

Assessment: One 1000-word assignment (15%), one 10-minute individual instrumental examination (30%), one 1.5-hour final examination (40%), one 1000-word assignment (15%).

Prescribed Reading:

Butler P *Music B Readings and Lecture Notes* Bendigo: La Trobe University, Media Services.

Stockdale

Not available in 2008

EDU1TL THEORIES OF LEARNING (15 CPs Sem. TE-SEM-2 BE, MI.) *Dr*

Craig Deed

A lecture-tutorial program based on the second half of a full-year study associated with how students learn, and what teachers must do so that learning can be maximized. The unit is designed to familiarise students with established theories, which attempt to explain the nature of learning, how it happens, and the forces which influence human motivation.

Prerequisite: EDU11ITT, EDU1ITT.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: Tutorial participation and one oral tutorial presentation equivalent to a 1000-word essay (20%), One 1500-word essay (30%), Completion of two Online modules -equivalent to 1000-word essay (20%), one practicum journal(reflective) of 2000 to 3000-words (equivalent to a 1000-word essay) (20%), school practicum supervisors report (10%). Eight day practical work hurdle (compulsory). Satisfactory participation and performance to defined exit standards are required to meet the compulsory hurdle assessment.

EDU2ACL AUSTRALIAN CONTEMPORARY CHILDREN'S LITERATURE (15 CPs Sem. TE-SEM-1 BE.) *Mr David Beagley*

In this unit, students analyse recent trends in, and critical perspectives on, contemporary Australian children's literature including print and non-print texts.

Prerequisite: EDU1GCL, EDU1HCL.

Class requirements: Two 1-hour lectures per week and one 2-hour tutorial/workshop per week.

Assessment: One 1500 to 2000-word assignment (30%), commentaries and reviews – equivalent to a one 1000-word assignment (20%), evidence of tutorial preparation through participation (10%), one 2-hour final examination (40%).

Recommended Reading:

EDU2AME ART AND MUSIC EDUCATION (15 CPs Sem. TE-SEM-2 BE.) *Dr*

Penelope Collet

This unit provides an introduction to teaching the arts with focus on contemporary directions in early childhood and primary education. The focus on visual art and music curricula includes practical and arts appreciation skills, teaching strategies and activities appropriate for the classroom. The music and art components examine arts frameworks from across Australia and overseas, aesthetics, middle years, indigenous cultures and current research into art education. The unit aims to equip the students with an understanding of the constantly evolving nature of, and philosophy of the arts and its implications on curriculum design.

Class requirements: Two 1-hour lectures per week. Two 1-hour tutorials per week.

Assessment: One 1250-word essay (25%), 10 folio reports equally 1250-words in total (25%), one 15-minute practical test (15%), one 1000-word assignment (20%), and one 1-hour examination (15%).

Prescribed Reading:

Butler P. 2003 *Book of Readings for Music Education*. Bendigo: La Trobe University.

Penelope Collet

Not available in 2008

EDU2EXP EXERCISE AND PERFORMANCE (15 CPs Sem. TE-SEM-2 BE.) *Mr*

Ashley Woodcock

Through a series of interactive lectures and practical laboratory classes students will examine the physiological changes which occur in the human body when subjected to exercise and environmental stress. Concepts such as the energy continuum, nutrition, performance, and the benefits of active lifestyles are investigated so that students can apply such knowledge in terms of physical fitness assessment and exercise prescription.

Prerequisite: EDU1HBS.

Class requirements: One 2-hour lecture and one 2-hour laboratory class per week.

Assessment: Weekly Laboratory assignments – equivalent of 2000-words (40%), One 1-hour mid-semester test (25%), One 1.5-hour final examination (35%).

Prescribed Reading:

Wilmore JH. & Costill DL. (2006) *Physiology of Sport and Exercise. 3rd edn*. Human Kinetics, Champaign, Ill.

EDU2HEM HEALTH EDUCATION METHOD: PREP TO 12 (15 CPs Sem. TE-ALL-YR BE.) *Ms Cathleen Farrelly*

In this unit students undertake a practical and theoretical study in Health Education curriculum from Prep to year-12. Lectures and tutorials focus on the issues impacting on the design and implementation of Health Education curriculum, teaching and learning strategies including assessment and evaluation strategies. Students are introduced to the concepts, framework and learning outcomes, of the Physical, Personal and Social Learning strand of the Victorian Essential Learning Standards. Students are also introduced to the structure and content of the VCE Health and Human Development study design. Current texts and resources used in schools will be examined.

Students will implement and critically evaluate the teaching of health education lessons whilst they are on teaching practicum.

Class requirements: 2-hours per week. This unit is not available for Study Abroad students.

Assessment: One 1200-word literature review (30%), one 1500-word curriculum project (35%), evaluation and presentation of teaching

resource (equivalent to 500-words) (10%), implementation and evaluation of health lessons (equivalent to 1000-words) (25%).

EDU2IS INDIGENOUS STUDIES (15 CPs Sem. TE-SEM-2 BE.) *Mr Ray Nichol*

In this unit, students address historical perspectives on interactions between Indigenous Australians, governments and non-Indigenous Australians. Students examine the origins diversity and history of Indigenous peoples; contemporary perspectives relevant for teaching, including awareness of Indigenous cultures; reconciliation; impact of current political movements; strategies for combating racism; communication; and sensitivities and protocols. The unit introduces culturally and linguistically inclusive strategies and general terminology appropriate for teaching Indigenous students. The emphasis is on understanding of, and respect for, Indigenous cultures and their political, cultural, social and educational aspirations.

Class requirements: Two 1-hour lectures and one 2-hour tutorial per week.

Assessment: One 1000-word critical document review (15%). Specific details of assessment requirements available in first lecture, one 1500-word research essay (40%), one 10-minute tutorial presentation (15%), and one 1000-word assignment (30%).

EDU2MP MOVEMENT PERSPECTIVES (15 CPs Sem. TE-SEM-1 BE.) *Dr Ashley Woodcock*

In this unit students will be able to develop a theoretical understanding of, and the application of, biomechanical principles related to human movement. Through a series of lectures and practical laboratory classes students are provided with an opportunity to devise, trial, and evaluate strategies related to efficient human performance in sport.

Class requirements: One 2-hour lecture and one 2-hour laboratory class per week.

Assessment: One 750-word practical assignment (20%), one 2000-word assignment (50%), one 1.5-hour final examination (30%).

EDU2PEM PHYSICAL EDUCATION METHOD: PREP TO 12 (15 CPs Sem. TE-ALL-YR BE.) *Dr Ashley Woodcock*

In this unit students will be introduced to a theoretical basis and skill foundation in teaching physical education in a school setting. Emphasis will be on qualities of an effective physical education teacher and physical teaching practices. Students will be provided with the opportunity to apply a range of knowledge and skills to development and evaluation of a P-10 physical education curriculum. The curriculum will be linked to the concepts, framework and learning outcomes contained in the Physical, Personal and Social

Learning strand of the Victorian Essential Learning Standards. This unit will prepare beginner teachers to teach post-compulsory physical education. Students will be introduced to the structure and content of the VCE Physical Education Study Design, and will be provided with the knowledge and skills to plan, teach, assess and resource physical education.

Class requirements: Two-hours per week. This unit is not available for Study Abroad students.

Assessment: School-based component and dialogue journal (1200-words) (30%), curriculum project (1500-words) (35%), course outline and time-line for units 1 and 2 in VCE Physical Education (1000-words) (20%), developing school assessed coursework in Physical Education Units 3 and 4 (800-words) (15%).

EDU2PRB PRACTICUM B – FOCUS ON CLASSROOM MANAGEMENT

(15 CPs Sem. TE-ALL-YR BE.) *Dr Jennifer O'Shannessy, Mr Wilf Savage*

Students will undertake two separate three-week teaching rounds during the year, one in each semester, and each in a different school. The accompanying lecture-tutorial program seeks both to feed upon and inform the students' school experiences, and encourage critical reflection upon several key issues: lesson planning/preparation, alternative instructional approaches, the developing of productive working relationships in the classroom, and the establishment and maintenance of a classroom management plan.

Prerequisite: EDU11ITT, EDU12TL.

Class requirements: Two 1-hour lectures and one 2-hour tutorial per week (semester 2 only), plus 30 days of school experience (15 days each semester).

Assessment: One 2000-word assignment (30%), one 2-hour examination (30%), practicum performance (as assessed by supervisors' reports) (40%). To pass this subject, students must successfully complete 30 days of supervised teaching practice. Criteria for assessment will be supplied with subject outline.

EDU2REE SOCIAL AND EDU PERSPECTIVES OF MULTICULTURALISM IN AUST (15 CPs Sem. TE-SEM-1 BE.) *Dr Jennifer O'Shannessy*

Not available in 2008

EDU2SOS STUDIES OF SOCIETY AND ENVIRONMENT (15 CPs Sem. TE-SEM-2 BE.) *Mr Raymond Nichol*

In this unit, students are provided with opportunities to develop knowledge and appreciation of Australian society, particularly contemporary social issues and their significance for educators. Students examine the history and role of social studies, social education and Studies of Society and Environment (SOSE) in school programs and develop the ability to plan, implement and evaluate SOSE programs in schools, particularly primary schools.

Class requirements: One 2-hour lecture and one 1-hour tutorial/seminar per week.

Assessment: One 30 minute seminar presentation and one 500-word summary (30%), one 3–4-hour lesson teaching task and evaluation equivalent to 500-words (10%), one 2500-word curriculum project – unit development, resource folder and reflective journal (50%), attendance and participation (10%).

Not available in 2008

EDU2ST SCIENCE TEACHING (15 CPs Sem. TE-SEM-1 BE.) *Mr Peter Cox, Dr Premnadh Kurup*

In this unit students will develop competence and skills to teach science in primary schools. Students will explore science, with a particular focus on the concepts within physical and chemical sciences. They will explore innovative pedagogies related to teaching and learning in science. Students investigate curriculum resources available for teaching science topics, with a particular focus on VELs. Students will participate in a School Based Program in a primary school and design, implement, and evaluate a science unit over seven afternoon sessions.

Class requirements: One 1-hour lecture and one 2-hour practical per week.

Assessment: One school based science teaching program reflective journal (equivalent to 2000-word essay) (40%). In order to pass this subject, a minimum of 80% attendance is required at all practical classes as well as an overall mark of at least 50%, one team presentation – written overview and self-paced topic reviews (equivalent 1500-word essay) (30%), one 1.5-hour final examination (30%).

EDU2SUA SUBSTANCE USE IN AUSTRALIAN SOCIETY (15 CPs Sem. TE-SEM-2 BE.) *Ms Cathleen Farrelly*

In this unit students will aim to increase awareness and understanding of the physical, psychological, social and economic issues surrounding substance use and abuse in our society. Students will explore a range of public policy issues relating to abuse prevention and harm minimisation with particular relevance for school environments.

Class requirements: Two 1-hour lectures and one 2-hour tutorial per week.

Assessment: Group tutorial presentation (15 minutes per member) (20%). To pass this subject students must attend 80% of the tutorials as well as obtaining an overall mark of 50% or greater, one 2000-word research paper (50%), one 1000-word media analysis (20%), contribution and participation in class debate (10 minutes per person) (10%).

Prescribed Reading:

Farrelly C. (compiler) *Book of Readings*. Bendigo: La Trobe University.

EDU2TCC A STUDY OF COGNITIVE, PHYSICAL, SOCIAL and EMOTIONAL DEV. (15 CPs Sem. TE-SEM-1 BE.) *Mrs Lyn Taylor*

Child development is examined from an intellectual, physical, emotional, moral, social and psychological perspective in the context

of a changing world. Genetic and environmental forces which shape this unique pattern of growth and development are explored in the context of classroom practice. The unit covers the history and theories of child development, physical and motor development, catering for individual differences, perceptual development, personality, attachment and attachment behaviour, the self, social competence and identity and changing families.

Class requirements: Three 1-hour lectures and one 1-hour tutorial per week.

Assessment: One 1.5-hour examination (50%), one 1000-word tutorial presentation (20%), one 1500-word assignment (30%).

EDU2TPA TEACHING PRACTICE A (20 CPs Sem. TE-SEM-1 BU.) *Dr Bernie Neville*

This subject is available to students enrolled in double degree education programs.

In this unit, students will observe students and teachers at work and undertake supervised teaching practice in order to gain insight into what is involved in school-based teaching in specific method areas. Students are placed in a school for 15 days under the supervision of a qualified teacher. During this placement they will teach a minimum of ten classes in the first of their method areas, and will spend the remainder of the time in observation, tutoring and other associated duties. They will be expected to explore the texts and materials that are used in their subject area, the different ways in which teachers and students approach the unit, the level of engagement of students, the ways in which student work is assessed and the level of resourcing of this unit area in the school. Prior to commencement of the teaching practicum, students will attend two 3-hour campus-based lecture/seminars to prepare for it.

Prerequisite: Completed first year of BA/BAE or equivalent.

Class requirements: Two 3-hour lecture/seminars plus 15 days of supervised teaching practice in a school. This unit is not available for Study Abroad students.

Assessment: One 1000-word reflective journal (20%), one 1500-word oral presentation (25%), a satisfactory report/evaluation by the supervising teacher, (55%).

EDU3ENS SOCIAL, POLITICAL, LEGAL and ECONOMIC CONTEXTS OF EDUCATION. (15 CPs Sem. TE-SEM-1 BE.) *Mr Wilf Savage*

Students completing this unit will examine the social, cultural, political, economic, legal and global contexts of education from a sociological, comparative and historical perspective. The unit covers the issues including teachers work in the global world, issues of professionalism, legal responsibility, the culture of the school, the world of work and schooling, public and private schooling, community and parental involvement, rurality, gender, race, ethnicity and indigenous education.

Class requirements: Three 1-hour lectures and one 1-hour tutorial per week.

Assessment: One 1750-word essay (40%), one 2-hour examination (60%).

Prescribed Reading:

Castells M. *The Rise of the Network Society*. London: Blackwells, 2002.

EDU3HPE STUDIES IN TEACHING AND LEARNING HEALTH AND PHYSICAL EDU (15 CPs Sem. TE-SEM-1 BE.) Ms Cathleen Farrelly

This unit provides a practical and theoretical study in health and physical education curriculum development. Lectures and tutorials focus on the issues impacting on the design and implementation of health and physical education curriculum, teaching and learning strategies including assessment strategies. Students will be given the opportunity to critically evaluate current curriculum guidelines and packages as well as developing knowledge and skills in the development of units of work in health and physical education for primary schools.

Class requirements: Two 1-hour lectures and two 1-hour tutorials per week.

Assessment: one 2000-word teaching resource plan (50%), one 1000-word portfolio of teaching strategies (20%), one 1500-word response to readings (30%).

Prescribed Reading:

Farrelly C & Stockdale M. (2001) (compilers) *Health and Physical Education Readings*. Bendigo: La Trobe University.

EDU3LCT LEARNING AND COMMUNICATION TECHNOLOGIES (15 CPs Sem. TE-SEM-1 BE.) Ms Chris Campbell

In this unit students will develop information literacy knowledge, skills and values required for both the application of technology in teaching and learning as well as learning to teach about technology. Topics include the Internet, software applications for educators, integrating multimedia and educational software applications as well as creating curriculum materials. Issues addressed include those related to ethics, sociology, psychology and communications theory. This unit provides an introduction to practical computing skills and the integration of technology into the classroom. Students will be assisted to achieve the learning outcomes endorsed by the Victorian Institute for Teaching.

Class requirements: One 1-hour lecture and one 2-hour tutorial/workshop per week.

Assessment: Computer laboratory set activities – equivalent to a 750 to 900-word essay (20%). Satisfactory completion of 15 day teaching practicum is a hurdle requirement of this unit. In school observation and software – equivalent to a 750 to 900-word essay (20%), multi-page educational website – equivalent to 1000-word essay (25%). individual task, digital portfolio – equivalent to a 1500-word essay (35%).

Prescribed Reading:

Campbell C. *Electronic readings – various* La Trobe University.

EDU3LRE LEARNING FOR CATHOLIC RELIGIOUS EDUCATION (15 CPs Sem. TE-SEM-2 BE.) Dr JENNY MASTERS

In this unit students will gain an understanding of the historical development of the Christian Church and tradition through examining Catholic tradition in its communal, sacramental and liturgical dimensions and implications for Catholic schooling. Students will demonstrate understanding of the technical language of religious education and an understanding of the sources and structure of the core content of Religious Education: Revelation as expressed through Scripture and Tradition, and experienced through creation and human experience. Students will develop an understanding of Catholic beliefs organized around the eight strands of the Religious Education curriculum: God, Jesus Christ, Church, Sacraments, Scripture, Christian Prayer, Christian Life, and Religion and Society.

Recommended Prior Studies: EDU31TSC.

Class requirements: One 2-hour lecture and one 2-hour tutorial per week. This unit is not available for Study Abroad students.

Assessment: One 2000-word essay. One 20 minute verbal presentation (40%), three reviews of 500-words each (35%), one 20 minute verbal presentation (25%).

Recommended Reading:

Ryan M. (1997) *Foundations of religious education in Catholic schools: An Australian perspective*. Wentworth Falls, Social Science Press.

Groome T. (1991) *Sharing faith: A comprehensive approach to religious education and pastoral ministry*. San Francisco: Harper Collins.

EDU3LT LITERACIES: NEW TIMES AND TENSIONS (15 CPs Sem. TE-SEM-1 BE.) Ms Debra Edwards

In this unit, students are introduced to the developmental nature of language and literacy learning beyond the early years. A practical knowledge of curriculum programs and assessment practices at various levels of schooling; current debates in literacy teaching; innovations in language and literacy pedagogy e.g., multiliteracies; preparing to teach students for the global nature of society while still valuing and addressing local discourses and identities.

Prerequisite: EDU1LL.

Class requirements: Two 1-hour lectures and one 2-hour tutorial per week.

Assessment: One 1000-word group presentation and written plan (20%), one 2-hour examination (40%), one 1500-word reading task (40%).

EDU3ML MATHEMATICS LEARNING (15 CPs Sem. TE-SEM-2 BE.) Dr

Robert Hunting

Using concepts drawn from the topics of measurement (including: length, perimeter, area, volume, capacity, mass and weight, and time) and space (including: 2 and 3 dimension shape, symmetry, position, angles, nets, angles and polygons), students explore the structure of mathematics, the goals of mathematics teaching, the nature of the mathematics curriculum, and ways of engaging pupils in mathematics learning. Students will be given the opportunity to broaden their personal understandings of, and attitudes to, key mathematical concepts using problem solving and investigative approaches. The students will examine how such approaches contribute to their own learning, and the implications for the learning of students in schools. In particular learning strategies such as grouping, collaboration, and technology- supported learning will be emphasised.

Prerequisite: EDU11MT.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: One 2-hour examination (50%), one 2000-word assignment (30%), one 15-minute tutorial presentation and one 500-word assignment (20%).

EDU3MUE PRIMARY CLASSROOM MUSIC CURRICULUM DESIGN and IMPLEMENTATION (15 CPs Sem. TE-SEM-1 BE.) Mr Peter Butler

Lecture Series

In this unit, students examine through lecture and seminar presentation the construction of imaginative music curricula in the

primary school with special (but not sole) reference to the curriculum and standards framework. There is practical instruction in Kodaly and Orff music methods for years P–3, including a weekly vocal ensemble /conducting workshop exploring repertoire appropriate to schools.

Prerequisite: EDU22MUD.

Class requirements: One 3-hour lecture per week.

Assessment: One 2000-word assignment (30%), 15-minute individual aural skills assessment (30%), 15-minute workshop conducting assessment (40%).

EDU3MUF MUSIC F (15 CPs Sem. TE-SEM-2 BE.) *Mr Peter Butler*

Lecture Series

In this unit, students examine through lecture and seminar presentation, the construction of imaginative music curricula in the primary school with special (but not sole) reference to the curriculum and standards framework. There is practical instruction in Kodaly and Orff music methods for years 4–6, including a weekly vocal ensemble /conducting workshop exploring vocal repertoire and preparation appropriate to schools.

Prerequisite: EDU31MUE.

Class requirements: One 3-hour lecture per week.

Assessment: One 2000-word assignment (30%), 15-minute individual aural skills assessment (30%), 15-minute workshop conducting assessment (40%).

EDU3PLC POSTCOLONIAL LITERATURE FOR CHILDREN (15 CPs Sem. TE-SEM-2 BE.) *Mr David Beagley*

In this unit, students study current theoretical frameworks for interpreting colonial and postcolonial children's literature and consider a range of evaluative issues entailed in applying these frameworks to different postcolonial texts. Texts from England, Canada, the United States of America, New Zealand and Australia will be analysed.

Prerequisite: EDU11GCL, EDU12HCL, EDU21ACL.

Class requirements: Two 1-hour lectures and one 2-hour tutorial/workshop per week.

Assessment: One 1500 to 2000-word assignment (30%), commentaries and reviews – equivalent to a one 1000-word assignment (20%), evidence of tutorial preparation through participation (10%), one 2-hour final examination (40%).

Recommended Reading:

EDU3PRC PRACTICUM C – CURRICULUM DEVELOPMENT (15 CPs Sem. TE-ALL-YR BE.) *Mr Wilf Savage, Dr Jennifer Sheed*

Students will undertake two separate teaching rounds during the year, each in a different school (Semester 1: three weeks; Semester 2: four weeks). The accompanying lecture-tutorial program will seek both to feed upon and inform the students' school experiences, and encourage critical reflection focused upon the areas of: curriculum development; pedagogical strategies; student assessment, and catering for children with special needs.

Prerequisite: EDU1ITT, EDU2PRB.

Class requirements: Two 1-hour lectures and one 2-hour tutorials per week (semester 2 only), plus 35 days of school experience (15 days in semester 1 and 20 days in semester 2).

Assessment: One 1000-word tutorial presentation (20%), one 1500-word essay (20%), practicum performance (as assessed by supervisors' reports) (40%). To pass this subject, students must successfully complete 35 days of supervised teaching practice. Criteria for assessment will be supplied with subject outline, one 1500-word essay (20%)

EDU3RGS RELATIONSHIPS, GENDER AND SEXUALITY (15. CPs Sem. TE-SEM-1 BE.) *Ms Cathleen Farrelly*

In this unit students examine a range of issues related to the formation, maintenance and dissolution of human relationships. Students will explore topics including psychosocial development, influences on constructions of gender and sexual identity, violence in relationships. Related matters of sexual and reproductive health are examined along with public health policy responses. Students will gain accreditation to use the protective behaviours program accredited by the child protection society which is relevant not only to a range of vocations involving children and young adults but to the personal development of the students themselves.

Class requirements: Two 1-hour lectures and one 2-hour tutorial per week.

Assessment: One 2000-word literature review. (35%), one 2000-word essay (45%). Minimum of 80% attendance at all tutorials and the personal safety program training to gain a pass grade, one 10-minute tutorial presentation/discussion (20%).

EDU3SEM SCIENCE EDUCATION MENTORING (10 CPs Sem. TE-SEM-1 BU. TE-SEM-2 BU.) *Dr Wan Ng*

This unit is only available to students enrolled in the Bachelor of Science/Bachelor of Science Education. Students taking this unit must be available for the training session from mid to late February, for Semester 1 enrolment or training session during June/July non-teaching period for Semester 2 enrolments.

Students attend an introductory half-day training program and spend a minimum of thirty nine-hours in secondary schools for the semester, under the supervision of a teacher. Students will undertake classroom mentoring, and observe classroom teaching and other related activities, participating where appropriate. Students will not be undertaking teaching practice. The emphasis of this unit is on development of communication skills and as part of their assessment, students will complete a portfolio summarising their experiences, comprising a log book and a reflective report. Teachers will complete a short questionnaire advising on the communication and organisational skills demonstrated by the student in the classroom.

Prerequisite: Normally, completion of the second year of the BSc/BScEd course.

Class requirements: One half-day training program and three–four-hours per week of supervised mentoring experience in schools. This unit is not available for Study Abroad students.

Assessment: Teacher questionnaire equivalent to 500-words (25%), completed log book, (approximately 1000-words) (35%), one 1200-word (minimum) essay (40%).

EDU3SKL SKILL LEARNING (15 CPs Sem. TE-SEM-1 BE.) *Ms Maree*

Stockdale

In this unit students develop a theoretical understanding of skilled human performance. Through a series of lectures and laboratory classes the processes involved in acquiring motor skills are investigated together with the factors influencing such learning. This knowledge is integrated into a coaching context utilising a sport setting as a medium of instruction. Concepts such as error detection and correction, mental practice, instructional feedback and types of practice are investigated.

Class requirements: One 2-hour lecture per week. One 2-hour practical class per week.

Assessment: One 500-word practical assignment (10%), one 2000-word assignment (45%), one 2-hour final examination (45%).

Recommended Reading:

Pyke, F.S Edn. (2001) *Better coaching (2nd edn)* Champaign, Ill: Human Kinetics.
Christina, R.W & Corcos, D.M (1988) *Coaches guide to teaching sport skills* Champaign, Ill: Human Kinetics.

EDU3SL SCIENCE LEARNING (15 CPs Sem. TE-SEM-2 BE.) *Ms Barbara Tadich*

Students are introduced to concepts of the physical, chemical, biological and earth sciences, required for the key learning areas in primary school science. The unit aims to develop an understanding of similarity, relationships, diversity, classification and factors affecting the survival of living things; relationships of the structure of organisms to their function; ecosystems; properties/uses of matter and chemical changes compared to physical changes and genetics. Investigations include: earth and atmosphere; physical environment; the solar system; concepts of energy, forces, light, sound, heat and electricity; the transformation of energy/energy conservation: energy, mechanical, magnetic and electrostatic forces.

Prerequisite: EDU2ST.

Class requirements: One 1-hour lecture and one 2-hour tutorial/practical per week.

Assessment: One 2000-word reflective essay (40%). In order to pass this subject, a minimum of 80% attendance is required at all practical classes as well as an overall mark of at least 50%, one 1500-word project (30%), one 1.5-hour final examination (30%).

EDU3SPS SOCIAL PSYCHOLOGY OF SPORT (15 CPs Sem. TE-SEM-1 BE.)

Mr Ashley Woodcock

Through interactive lectures and tutorials, students develop knowledge and understandings of theories in social psychology and how they relate to sport and physical activity. Students analyse some of the methods used in social psychological research and have the opportunity to implement some applications of these methods in the sport and physical setting.

Prerequisite: EDU1HBS.

Class requirements: 3-hours per week for thirteen weeks, or the equivalent.

Assessment: One oral presentation – equivalent to a 250 to 500-word assignment (10%), one 2000-word written assignment (45%), one 2-hour Exam (45%).

Recommended Reading:

EDU3SSA SPORT and SKILL ANALYSIS (15 CPs Sem. TE-SEM-2 BE.) *Dr Ashley Woodcock*

Students learn about and experience methodical ways of analysing the specific objectives, demands and strategies of skills and sports. Laboratory sessions provide students with an insight into the generic strategies and analytical methods which can be utilised in a number of sports settings.

Prerequisite: EDU21MP, EDU2MP.

Class requirements: One 3-hour lecture/workshop per week for thirteen weeks, or equivalent.

Assessment: Five laboratory reports totalling 2000-words (50%), one 2500-word assignment (50%).

Recommended Reading:

EDU3TE DESIGN AND TECHNOLOGY EDUCATION (15 CPs Sem. TE-SEM-2 BE. TE-SEM-S BE.) *Dr Simon O'Mallon*

In this unit students develop the skills and knowledge to incorporate the interdisciplinary strands of VELS into their daily classroom program. Areas covered include the development of design skills, knowledge and understanding of good design, whilst nurturing creativity and innovation through designing and making. Supported by a range of practical activities and tasks, students will examine the methodology, processes, assessment, OH & S issues and diversity of technology based on the design process that is available at primary level.

Class requirements: One 1-hour lecture and one 2-hour tutorial/workshop per week. This unit is not available for Study Abroad students.

Assessment: One 20-minute oral tutorial presentation (20%), one 1500-word essay (30%), one portfolio of workshop competencies and activities – equivalent to a 2000-word essay (50%).

EDU3TPB TEACHING PRACTICE B (20 CPs Sem. TE-SEM-2 BU.) *Dr Bernie Neville*

This subject is available to students enrolled in undergraduate Education double degree programs. In this unit, students will observe students and teachers at work and undertake supervised teaching practice in order to gain insight into what is involved in school-based teaching in specific method areas. Students are placed in a school for 15 days under the supervision of a qualified teacher. During this placement they will teach a minimum of ten classes in the second of their method areas, and will spend the remainder of the time in observation, tutoring and other associated duties. They will be expected to explore the texts and materials that are used in their subject area, the different ways in which teachers and students approach the unit, the level of engagement of students, the ways in which student work is assessed and the level of resourcing of this unit area in the school. Prior to commencement of the teaching practicum, students will attend two 3-hour campus-based lecture/seminars to prepare for it.

Prerequisite: Completed second year of Education double degree program or equivalent.

Class requirements: Two 3-hour lecture/seminars plus 15 days of supervised teaching practice in a school. This unit is not available for Study Abroad students.

Assessment: One 1000-word reflective journal (20%), one 1500-word oral presentation (25%), a satisfactory report/evaluation by the supervising teacher (55%).

EDU3TSC TEACHING SCRIPTURE IN CATHOLIC SCHOOLS (15 CPs Sem. TE-SEM-1 BE.) *Dr Jenny Masters*

In this unit students will be introduced to the Bible, its composition, chronology, genres, and provenance, attending to both the Hebrew scriptures and the Christian testament. Students will explore the historical, political, geographical, socio-cultural and religious frameworks behind the production of biblical texts. They will learn to apply a variety of methods of textual analysis, based on the principles of Catholic biblical criticism. Students will research and apply a number of methodologies for teaching scripture texts in the primary classroom, and explore the understandings and uses of the Bible by Christian communities and individuals.

Class requirements: One 2-hour lecture and one 2-hour tutorial per week. This unit is not available for Study Abroad students.

Assessment: One 2500-word essay (40%), one 1000-word essay (30%), one verbal presentation of 20 minutes (30%).

Prescribed Reading:

Catholic Edition *The Bible* – new revised standard version Any of various editions.

EDU4ABS ABORIGINAL STUDIES (20. CPs Sem. TE-SEM-2 BE.) *Mr Ray Nichol*
Not available in 2008

EDU4AE2 ART EDUCATION B2 (20. CPs Sem. TE-W29-45 AW.) *Ms Christine Bottrell*

In this unit students will take practical workshops in a range of media suitable for use in a variety of learning environments and situations. The place of arts practice and responding to the Arts in contemporary theory is examined. Emphasis is placed on reflecting upon, responding to, and making visual art forms. Students develop understanding in visual aesthetics, design and contemporary Australian art theory.

Prerequisite: EDU22AME.

Class requirements: Five full days comprising two 1-hour lectures, five 4-hour studio workshops and four 3-hour seminars on weekends during the semester. This unit is not available for Study Abroad students.

Assessment: Practical workshop folio (equivalent to 3000-word essay) (50%), one 3000-word research assignment (50%).

EDU4AL ACTIVE LIFESTYLES (15 CPs Sem. TE-SEM-2 BE.) *Dr Ashley Woodcock*

Through a series of interactive lectures and practical laboratory classes students will gain knowledge and understandings about concepts related to physical fitness and wellness. Students will be presented with information concerning lifestyle changes designed to enhance optimal health and wellbeing.

Class requirements: One 2-hour lecture per week and one 2-hour laboratory class per week.

Assessment: Weekly laboratory assignments with the total equalling 2500-words (50%), one 1-hour mid-semester test (25%), one 1-hour final examination (25%).

Prescribed Reading:

Not available in 2008

EDU4AR AT RISK STUDENTS: POLICIES, PROGRAMS AND PRACTICE (15 CPs Sem. TE-SEM-5 BE.) *Dr Penelope Collet*

In this unit, issues concerning students designated as being at risk are addressed. The ways in which students are identified and described at risk of school failure and social exclusion are examined. The implications for practice of labelling students at risk are investigated. Programs intended to assist at risk students are researched and evaluated.

Class requirements: Five 7-hour days in block mode during the semester.

Assessment: One 4000-word research report based on analysis of interview data collected by students (100%).

EDU4CSE COMMUNICATION IN SPECIAL EDUCATION (15 CPs Sem. TE-SEM-2 BE.) *Dr Jennifer Sheed*

In this unit students will explore various types of interpersonal communication and the barriers encountered by those with exceptional needs. Current theories of language development and the acquisition of speech are reviewed. The aetiology and manifestations of language delays and disabilities will be considered. Augmentative and alternative forms of communication will be introduced and the role of assistive technologies will be discussed.

Class requirements: Six 6-hour days block mode during the semester or by independent study (as negotiated).

Assessment: One 4000-word written research report (90%), one 5-minute oral presentation (10%).

Not available in 2008

EDU4FEA FIELD EXPERIENCE A – FROM STUDENT TO PROFESSIONAL (15 CPs Sem. TE-SEM-1 BE, MI.) *BE: Mr Wilf Savage, BE: Dr Jennifer Sheed, MI: Ms Debbie Neal*

In this unit, students focus on the transition from student teacher to graduate teacher. The unit will be organised around the themes of essential professional knowledge embodied in the professional standards for graduating teachers current in the various Australian States and Territories with a particular focus on Victoria. The field experience component of the unit will involve students spending a minimum of eight days in schools with a view to strengthening their understandings of the knowledge needed to take their place as a staff member in a school. It will also involve students in data collection and research in order to develop a professional portfolio in response to the professional standards for graduating teachers. Topics examined include schools as institutional work sites, school level planning, teacher recruitment practices, performance management and professional practice.

Prerequisite: EDU11ITT, EDU12TL, EDU22PRB, EDU1ITT, EDU1TL, EDU3PRC, EDU2PRB.

Class requirements: Minimum of 8 days in schools, three x 6-hour days in block mode during semester and 1-hour workshop 8 weeks. This unit is not available for Study Abroad students.

Assessment: Develop a professional portfolio (2000-word equivalent) (50%), one 2000-word assignment (50%).

EDU4FEB FIELD EXPERIENCE B – THE TEACHER AND THE CURRICULUM (15 CPs Sem. TE-SEM-1 BE, TE-SEM-2 BE, MI.) *BE: Mr Wilf Savage, BE: Dr Jennifer Sheed, MI: Ms Debbie Neal*

This unit represents a culmination of the student's four-year practicum program. In the weeks leading up to the three-week practicum, which forms the core of the unit, students will spend several days familiarising themselves with their host classroom. During the practicum period, they will be focused upon planning, teaching and assessing units of work, upon individualising instruction, and catering for children with particular needs. Students are expected to assume more and more the role of a full-time teacher, and to demonstrate the ability to work with children for sustained periods. In addition, particular attention will be placed upon the student's appraisal of themselves as commencing teachers.

Prerequisite: EDU11ITT, EDU22PRB, EDU32PRC, EDU41FEA, EDU4FEA, EDU3PRC, EDU2PRB, EDU1ITT, EDU1TL.

Class requirements: Fifteen days of classroom teaching experience, followed by class presentations on topics researched in the course of their time in school.

This unit is not available for Study Abroad students.

Assessment: One 1500-word self-appraisal essay (30%), one 15-minute tutorial presentation exploring a topic researched during time in school (20%), assessment of teaching performance (50%). 15 days of (compulsory) supervised teaching practice – hurdle requirement. Satisfactory participation and performance to defined exit standards are required to meet the compulsory hurdle assessment.

EDU4GTD GIFTED EDUCATION AND TALENTED DEVELOPMENT (15 CPs Sem. TE-SEM-2 BE.) *Dr Michael Faulkner*

In this unit, students investigate and evaluate models of provision for gifted and talented students, at system, school, and class levels. These include within class enrichment, differentiated curriculum, compacted curriculum, acceleration, mentoring, flexible vertical timetabling, and on-line programs. Students also explore outside school enrichment options, and investigate the multiple ways gifted and talented students can be encouraged and supported in their learning.

Prerequisite: EDU41GTY.

Class requirements: Three 6-hour days (weekends) and seven 3-hour evening workshops.

Assessment: One 1000-word seminar presentation (25%) in order to pass this subject, a minimum of 75% attendance is required at all classes/tutorials as well as an overall mark of at least 50%, one 3500-word assignment (75%).

Recommended Reading:

EDU4GTY EXPLORING THE CHARACTERISTICS OF THE TALENTED AND GIFTED (15 CPs Sem. TE-SEM-1 BE.) *Dr Michael Faulkner*

This unit provides an introduction to student giftedness, including an exploration of the characteristics of the gifted and talented. The unit covers models and myths of giftedness, school system provision for precocious learners, and prevailing social attitudes towards such children. The unit includes aspects of modes and strategies of identification, temperament and personality, asynchronous child development, motivation, learning style development, social and emotional issues of development, theories of underachievement, and issues relating to teacher-parent relationships.

Class requirements: One 1-hour lecture and one 2-hour tutorial per week.

Assessment: One 2000-word assignment (50%) in order to pass this subject, a minimum of 75% attendance is required at all classes/tutorials as well as an overall mark of at least 50%, one 1000-word seminar presentation (20%), one 1500-word essay (30%).

EDU4HSW HELPING SKILLS FOR WELL-BEING (15 CPs Sem. TE-SEM-1 BE.) *Dr Michael Faulkner*

In this unit, an introduction to the relationship between effective whole school policy and practices and individual student well-being will be provided. Students will also be introduced to the micro-skills of effective helping for all students but particularly for those with additional or special needs. It will incorporate study on the psychological, social and education implementations of effective school-side and individual helping practices for students.

Class requirements: A combination of full days, evenings and weekends.

Assessment: One 1000-word assignment (20%) This subject has a 75% class attendance hurdle requirement, one 15-minute seminar presentation (20%), and one 3000-word assignment (60%).

EDU4IAS INCLUSIVE AND SPECIAL EDUCATION (15 CPs Sem. TE-SEM-1 BE.) *Dr MICHAEL FAULKNER*

In this unit students will be provided with an overview of the philosophical, political, and practical issues that face practitioners in schools and in the wider community, as they address human diversity. Rather than explore the issues in depth, they will be identified and discussed with a view to providing a comprehensive basis for further study. From this basis each student will select an area for specific study, reviewing the literature and comparing it to current and local practice and/or experience. The report of this research will comprise the assessment task.

Class requirements: Five 6-hour seminar days during the semester.

Assessment: One 4000-word research report (90%), one 5-minute oral presentation (10%).

Through lectures, practical sessions and field work, students learn about a wide range of disabilities, including the aetiology, diagnosis and prognosis of the specific condition. Students gain knowledge about the most common types of disabilities and cite ways to adapt activities and determine categories of placement for children and adults with disabilities. In addition, students study how to cater for the interests, needs and abilities of individuals with disabilities when planning and implementing physical education programs in the regular school setting and physical recreation programs in the community.

Class requirements: One 3-hour lecture/workshop per week or equivalent block mode.

Assessment: One 1500-word assignment (35%), one 3000-word field work report (65%).

EDU4ISP INDEPENDENT STUDY PROGRAM (20 CPs Sem. TE-SEM-1 BE, MI, TE-SEM-2 BE, MI.) *BE: Mr Ray Nichol, MI: Ms Debbie Neal*

In this unit students will examine an area of theoretical and/or professional interest not covered in other subject offerings. Students negotiate with a supervisor the specific problem to be investigated; the means by which the problem can be resolved, and the manner in which the findings are to be presented for assessment. Approval is required from the Course Coordinator.

Class requirements: Equivalent of one-hour per week supervisory conference, plus independent study.

Assessment: One 5000-word research assignment (100%).

Preliminary Reading:

Negotiated Readings

EDU4ISS INDEPENDENT STUDENT STUDY (15 CPs Sem. TE-SEM-1 BE, MI, TE-SEM-2 BE, MI.) *BE: Dr Jenny Masters, MI: Ms Debbie Neal*

In this unit students will examine an area of theoretical and/or professional interest. Students negotiate with the course coordinator the specific problem to be investigated; the means by which the problem can be investigated; and the manner in which the findings are to be presented for assessment.

Class requirements: Equivalent of one-hour per week supervisory conference, plus independent study.

Assessment: One 4500-word research report (100%).

Preliminary Reading:

Negotiated Readings.

EDU4IT INTERACTIVE TECHNOLOGIES (15 CPs Sem. TE-SEM-1 BE, TE-SEM-2 BE, MI.) *BE: Ms Chris Campbell, MI: Ms Deb Neal*

Students will apply the principles of instructional design learning theory and product development to build an interactive web environment. The focus will be on information design, project management and evaluation, understanding the basic elements of a hypertext environment through the development of a project. Students will develop skills in emergent technologies such as interactive whiteboard technologies and digital storytelling.

Quota: 22. First enrolled up to quota.

Class requirements: Three-hours per week.

Assessment: Develop an interactive whiteboard lesson and lesson plan – equivalent to a 1200-word essay (20%) individual task, website design statement and rationale – equivalent a 2500-word essay (30%). Group task, one major interactive website creation project – equivalent to a 3000-word essay (50%).

Recommended Reading:

Various. *Electronic readings available on WebCT.* Latrobe University.

EDU4LFA WEAVING THE THREADS OF LITERACY EDUCATION (15 CPsSem. TE-SEM-1 BE, MI, TE-SEM-2 BE.) *Ms Debra Edwards, Ms Debbie Neal*

In this unit students are involved in the development of understandings of the need to acknowledge and prepare students for the global nature of society while still valuing and addressing local discourses and cultural and linguistic diversity and knowledge of current debates in relation to teaching English as a second or other language. An awareness of issues and debates in relation to current practices including curriculum literacies, multiliteracies, indigenous perspectives and Aboriginal English, critical literacies, middle year's literacies will also be considered.

Prerequisite: EDU31LT.

Class requirements: Two 1-hour lectures and one 2-hour tutorial per week.

Assessment: One 1500-word essay (30%), one 2-hour examination (open book) (40%), one 1500-word assignment (unit of work) (30%).

EDU4LM LOTE TEACHING METHOD (20 CPs Sem. TE-SEM-1 BE.) *Mr**Robin Hutchison*

Topics covered in this unit include second language acquisition theories and principles, the nature and extent of cultural aspects of language learning, LOTE policies and programs (federal and state), LOTE curriculum design (planning, implementation and evaluation), pedagogical and assessment strategies, promotion of LOTE in the community, resources, a comparison of first and second language acquisition.

Prerequisite: Students must have an approved undergraduate language major. Indonesian 3A and 3B can be taken concurrently. Students must have an approved undergraduate advanced language major or equivalent.

Class requirements: 60-hours (classes are taught in block mode). This unit is not available for Study Abroad students.

Assessment: Develop mock LOTE class, equivalent to a 1000-word essay (25%), 2000 to 3000-word reflective journal, equivalent to a 1000-word essay (25%), 1000-word assignment and class presentation (25%), WebCT online quiz, short-answer tasks, equivalent to a 1000-word essay (25%).

EDU4LP LOTE PRACTICUM (20 CPs Sem. TE-SEM-1 BE, TE-SEM-2 BE.) *Mr**Robin Hutchison*

This unit comprises 22 days supervised teaching practice in a primary or secondary school. Students will prepare and teach lessons which reflect the strategies and techniques learned in LOTE Teaching Methodology and incorporating school and system requirements. They will maintain a folder of lesson plans together with observations on classroom practice.

Prerequisite: Three years post-VCE LOTE or equivalent and EDU41LTM (can be done concurrently).

Class requirements: 22 days of supervised teaching practice and observation in a primary or secondary school. This unit is not available for Study Abroad students.

Assessment: Practicum supervisor reports (60%). To pass this subject, students must successfully complete 22 days of supervised teaching practice. Criteria for assessment will be supplied with subject outline, a 2000-word folio of plans and observation notes (40%).

EDU4MYL SUPPORTING MIDDLE YEARS STUDENTS: LEARNING and TRANSITIONS (15 CPs Sem. TE-SEM-1 BE, TE-SEM-2 BE.) *Dr Michael**Faulkner**Not available in 2008*

EDU4NFA INCLUSIVE APPROACHES TO NUMERACY TEACHING (15 CPsSem. TE-SEM-2 BE, MI.) *BE: Dr Dona Martin, MI: Ms Debbie Neal*

The emphasis in this unit is on research based approaches to numeracy teaching, with emphasis on flexibility in task and pedagogy to address the specific needs of all students. In particular the issues associated with data informed teaching, understanding the structured curriculum, matching experiences to students needs, utilising technology effectively, activity and game based learning, using open-ended tasks in teaching and assessment, assessment of student learning generally, as well as affective issues including engagement and self efficacy will be explored. The emphasis will be on linking theory and practice through classroom based research projects.

Prerequisite: EDU32ML, EDU3ML.

Class requirements: Block mode equivalent to 40-hours of weekly classes.

Assessment: One 3000-word report of classroom based research (50%), one 1500-word assignment (50%).

EDU4PEA PHYSICAL EDUCATION TEACHING METHOD A (10 CPs Sem.TE-SEM-1 BE.) *Dr Ashley Woodcock*

This unit represents the first semester of study for the all-year unit and is designed to provide a theoretical basis and skill foundation in teaching physical education in a school setting. Emphasis will be on qualities of an effective physical education teacher and physical education teaching practices. The unit will provide the student with the opportunity to apply a range of knowledge and skills to the development and evaluation of a 7-10 physical education curriculum. The curriculum will be linked to the concepts, framework and learning outcomes contained in the health and physical education key learning area of the curriculum and standards framework II. This unit will prepare beginner teachers to teach post-compulsory physical education. It aims to introduce students to the structure and content of senior secondary physical education study design, and provide the student with the knowledge and skills to plan, teach, assess and resource physical education.

Class requirements: One 2-hour lecture per week. This unit is not available for Study Abroad students.

Assessment: One 1500-word curriculum project (25%) This represents the combined year long assessment for the units EDU4PEA and EDU4PEB. one 1500-word senior secondary program design (25%), one 1000-word paper and one 10-minute oral presentation (30%), four 250-word abstracts (20%).

EDU4PPB PROMOTING POSITIVE BEHAVIOUR (15 CPs Sem. TE-SEM-2BE.) *Dr Penelope Collet*

In this unit, irritating, disruptive and challenging behaviours that occur in school and other settings will be identified. Frameworks for understanding such behaviours will be investigated. A range of responses to such behaviours will be explored. The philosophical and ethical issues underpinning program design and behaviour change management will be examined. Students will explore their own philosophy of behaviour management at both the class and school level. On this basis students will develop a flexible range of strategies for addressing student behaviour.

Class requirements: Four 7-hour seminar days, prescribed reading and reflective tasks in preparation for each seminar. This unit is not available for Study Abroad students.

Assessment: One 1500-word literature review (40%), one 2500-word class behaviour program (60%).

EDU4REP CATHOLIC RELIGIOUS EDUCATION PRINCIPLES AND METHOD (15 CPs Sem. TE-SEM-1 BE.) *Dr Barbara Tadich*

In this unit students will develop an understanding of the nature, historical development and purposes of religious education through an analysis of relevant church documents. Students will identify, examine and critique a variety of approaches to religious education by exploring and analysing relevant religious education curriculum approaches and resource materials of selected Australian Catholic schooling systems. Students will examine, critique, and develop assessment, reporting and evaluation processes used in religious education. Students will develop and implement plans for effective teaching and learning strategies in the religious education classroom. Students will participate in learning opportunities in religious education.

Recommended Prior Studies: EDU31TSC, EDU32LRE.

Class requirements: One 2-hour lecture and one 2-hour tutorial per week. This unit is not available for Study Abroad students.

Assessment: One essay of 2000-words (40%), preparation and evaluation of religious education lesson plans – equivalent to 2500-word essay (60%).

Recommended Reading:

EDU4RTA ART EDUCATION AND RESPONDING TO ART (15 CPs Sem. TE-SEM-2 BE.) *Dr Penelope Collet*

This unit comprises practical workshops in a range of activities suitable for the classroom or specialist art facility. The place of arts practice and responding to art in contemporary pedagogy and art education theory is examined. Students develop understandings in visual aesthetics and design, art history and theory.

Class requirements: One 1-hour lecture and one 2-hour tutorial per week (or equivalent block mode, or supervised independent study).

Assessment: One 3000-word research assignment (50%), practical workshop art folio and visual diary (50%). Students are required to produce four pieces of work representing each medium workshop, and a visual diary.

Prescribed Reading:

Wright, S (1991) *The Arts in Young Children, and Learning* Boston: Allyn and Bacon.

EDU4SIM SPORTS INJURY MANAGEMENT (15 CPs Sem. TE-SEM-2 BE.) *Dr Ashley Woodcock*

Students are introduced to the concepts of sports medicine in order to acquire knowledge of most common sporting injuries, their causes and appropriate preventative measures. Students also gain knowledge in various forms of immediate and rehabilitative treatment. Through participation in practical workshops students learn to apply the basic principles of physical conditioning in the design of fitness and rehabilitative programs. This unit also provides students with an understanding of environmental influences on physical performance, the role of administration and other precautionary procedures.

Prerequisite: EDU11HBS, EDU1HBS.

Class requirements: One 3-hour lecture/workshop per week.

Assessment: One 500-word practical assignment (30%). It is a hurdle requirement that students gain Level 2 workplace first aid accreditation (ungraded), one 2000-word assignment (30%), one 2-hour final examination (40%).

EDU4SIT STUDIES IN INFORMATION TECHNOLOGY (20 CPs Sem. TE-SEM-1 AW, BU, SH. TE-SEM-2 AW. TE-W38-44 AW.) *Mr Bruce Pridham, Dr Damon Cartledge*

Students will undertake nominated TAFE modules at the level of Certificate I in Information Technology or attend nominated lectures and workshops at La Trobe University. These studies provide training in word processing, spreadsheets, business and presentation graphics and desk-top publishing. Students will be introduced to concepts and ideas relating to the integration of ICT within the curriculum. The unit provides students with an opportunity to develop expertise in interactive multimedia, both on and off the internet. The course will provide students with a sufficient knowledge base in information technology to be able to use IT as a teaching tool in the technology and VET curriculum.

Class requirements: Six intensive weekend sessions. This unit is not available for Study Abroad students.

Assessment: One 4000-word equivalent e-portfolio (80%), one 20-minute presentation (20%).

EDU4SVE SPIRITUALITY AND VALUES IN CATHOLIC EDUCATION (15 CPs Sem. TE-SEM-2 BE.) *Dr Barbara Tadich*

In this unit students will be introduced to various models of understanding the human person and explore the function of virtues/values in the development and experience of the person in communal contexts. Students will critically analyse theories of moral

development, review and evaluate literature and recent thinking on the role of the spiritual dimension of personal meaning-making. Students will learn and apply methodologies that address and develop the affective and spiritual domains of learning and explore possible descriptions and implications of a spirituality of teaching.

Recommended Prior Studies: EDU31TSC, EDU32RE, EDU41REP.

Class requirements: One 2-hour lecture and one 2-hour tutorial per week.

This unit is not available for Study Abroad students.

Assessment: One 2000-word essay (50%), two 500-word book and/or article reviews (25%), one unstructured reflective journal of 2000 to 3000-words (25%).

Recommended Reading:

Latrobe University 2006 *Book of readings* Latrobe University

EDU4THE EDUCATION THESIS (60 CPs Sem. TE-ALL-YR BE.) *Mr Raymond Nichol*

In this unit, students will be introduced to educational research including qualitative and quantitative data collection. The unit will include a literature review, methodology, approaches to data collection and analysis. On completion of the unit, students will have produced a dissertation or research project of 15,000-words in a particular area of interest relating to education.

Class requirements: One 3-hour workshop per week and meetings by arrangement with a supervisor. This unit is not available for Study Abroad students.

Assessment: One 15,000-word dissertation (100%).

Prescribed Reading:

Robson, C. (1995) *Real world research* Oxford UK. Blackwell.

EDU4TLT TEACHING AND LEARNING IN TAFE (20 CPs Sem. TE-ALL-YR AW, BU, SH.) *Dr Damon Cartledge*

This unit is taught by approved Institutes of TAFE. The focus is on planning teaching and learning, delivering training and conducting assessment in the context of a national vocational education and training system. The unit aims to develop knowledge of key policies for training and directly influence the delivery of programs; develop the skills, knowledge and attitudes to plan, prepare, present and evaluate a range of learning experiences; introduce managing diversity approaches in training delivery; provide knowledge and competency-based assessment techniques; develop the skills necessary to apply that knowledge to a variety of assessment situations and make impartial decisions, and to reinforce the interpersonal skills necessary to deliver a participatory approach to assessment. This unit is mapped to outcomes within the Certificate IV of Training and Assessment.

Class requirements: Attendance at 36-hours of lectures or equivalent intensive program.

Assessment: Written exercises (30%), written and oral competency tasks (70%).

Prescribed Reading:

TAFE *Book of Readings: Certificate IV in Training and Assessment* 2000

EDU4TOC TALKING AND ORAL COMMUNICATION (20 CPs Sem. TE-SEM-1 AW, BU.) *Dr Molly Travers*

Not available in 2008

EDU4TPV TEACHING PRACTICE (VET) (20 CPs Sem. TE-SEM-1 AW, BU, SH. TE-SEM-2 AW, BU, SH.) *AW: Dr Kim Keamy, BU: Dr Damon Cartledge*

The VET Teaching Practice comprises a total of 60-hours or corresponding days of supervised teaching undertaken either in the school or TAFE context in which the student currently works or an arranged setting. Supervision will be undertaken by the Head of Department in the School or Institution, or a delegated supervisor who is a trained teacher. La Trobe University supervision will be undertaken at intervals as arranged throughout the teaching practice period.

Class requirements: 60 days of supervised teaching or equivalent days.

This unit is not available for Study Abroad students.

Assessment: A reflective journal and a satisfactory supervisor's report (100%).

ENG1ASA ACADEMIC SKILLS FOR TERTIARY STUDY A (15. CPs Sem. TE-SEM-1 BE, SH. TE-SEM-2 BE, SH.) *BE: Ms Karin Moses, SH: Mr David Jones*

Offered subject to sufficient enrolments. This unit makes explicit the cognitive process and linguistic structure of analytical texts. The unit uses discourse analysis to develop multiple language and learning skills. It incorporates generic and discipline specific material. The unit aims to develop students' academic skills and provide students with the ability to present oral and written work at the required level of technicality, formality and abstraction. Although students will be given the opportunity to improve their oral presentation skills, much of the focus is on the writing of research reports and essays.

Class requirements: Four-hours per week. This unit is not available for Study Abroad students.

Assessment: Two class exercises (15%) assessable in class activity, 750-word essay/report (15%), 1500-word essay/report (20%), oral presentation based on major essay/report (15%), 2.5-hour final examination (35%). Students must pass the written examination to pass the subject.

ENG1ASB ACADEMIC SKILLS FOR TERTIARY STUDY B (ESL) (15 CPs Sem. TE-SEM-1 BE. TE-SEM-2 BE.) *Ms Karin Moses, Mr David Jones*

Offered subject to sufficient enrolments. This unit is designed for students from non-English speaking backgrounds – both international students and Australian citizens or permanent residents. The unit aims to improve students' understanding of English academic discourse while providing them with a framework for coming to terms with Australian learning paradigms. While students are given the opportunity to develop their oral presentation skills, the focus of the unit is on the construction of a variety of written academic texts including discursive essays, and business and science reports.

Class requirements: Four-hours per week.

This unit is not available for Study Abroad students.

Assessment: 3 class exercises (10%) assessable in class activity, 750-word essay/report (15%), 1500-word essay/report (20%), Oral presentation based on major essay/report (15%), 3-hour final examination (40%). students must pass examination to pass subject.

ENG1SIW SKILLS IN WRITING (15. CPs Sem. TE-SEM-1 BE.) *Ms Karin Moses, Ms Anne Scott*

This unit is designed for students enrolled in the Mathematics/Science bridging course. The unit develops students' writing skills to the required level of technicality, formality and abstraction. The unit provides students with the opportunity to practise the skills needed to use appropriate and accurate vocabulary and grammatical structures, interpret assignment and examination questions and topics, take

concise and reliable notes, read more effectively, write coherent and logically sequenced paragraphs, use references to retrieve and signal information as required, understand and use appropriate staging for a variety of academic genres and prepare an outline for, and write reports and essays.

Class requirements: Four-hours. This unit is not available for Study Abroad students.

Assessment: Exercise, assignments and examination (100%).

INM4LTM LOTE TEACHING METHODOLOGY (15 CPs Sem. TE-SEM-1 BE.)

Mr Robin Hutchison

Not available in 2008

OED1AAL ADVENTURES IN AUSTRALIAN LANDSCAPE (15 CPs Sem. TE-SEM-1 BE. TE-SEM-2 BE.) *Dr Peter Martin*

In this unit students will be introduced to the diversity of Australia's landscape and the human to nature relationships that are afforded. Drawing upon discipline knowledge in outdoor education and environmental studies the unit encourages an introductory understanding of Australian environments, their landform, flora, fauna, and the human nature relationships such environments have promoted and enabled over time. As well as theoretical knowledge of outdoor education practice and environmental study, students will develop experiential knowledge of a diversity of Australian environments via outdoor education style journeys.

Quota: 18. The subject is most suited to students undertaking a semester abroad program within the School of Outdoor Education and Environment. Preference will be given to such students. Additional international students may enrol after confirmation with the course coordinator.

Class requirements: One 1-hour lecture per week and eight field trip days.

Assessment: One 6000-word unstructured journal (80%), one 1000-word assignment (20%).

Prescribed Reading:

Book of Readings University Bookshop.

OED1AFE FIELD EXPERIENCE A (15 CPs Sem. TE-SEM-1 BE.) *Ms Terry Gaechter*

In this unit students will develop the knowledge and skills required for safe exploration of outdoor environments. Theory and practical work encourages the development of safe practice, reasonable judgement, understanding of self, care for others and the environment, sound preparation, and the ability to learn from experience.

Co-requisite: OED1AOL.

Class requirements: Twelve 1-hour tutorials/lectures and nine days practical work spread over the 13 week semester.

Assessment: One 2500-word assignment (60%) Practical work completion hurdle (compulsory). Satisfactory participation and performance to defined exit standards are required to meet the practical compulsory hurdle assessment. One 1.0-hr exam (40%).

Prescribed Reading:

Mason, B. (1995) *Path of the Paddle*. (Rev Edn) Leicester: Cordee
Tempest, G. (1996) *Rock climbing: Getting Started* Melbourne: Penfolk Publishing.

OED1AOL OUTDOOR LIVING AND TRAVEL SKILLS (15 CPs Sem. TE-SEM-1 BE.) *Mr Peter Dingle*

In this unit students are introduced to the knowledge and skills required for safe participation in self-reliant wilderness travel. Bush competency, navigation theory and skills, understanding of self as a participant, and the principles of social psychology are a primary focus. First aid knowledge and skills are also covered. Practical work encourages the development of safe practice, reasonable judgement, care for others and the environment, sound preparation, and the ability to learn from experience.

Class requirements: Seven 1-hour lectures and four 1-hour tutorials plus nine days of practical work spread over 13 weeks.

Assessment: One 2-hour examination (50%). Practical work hurdle (compulsory). Satisfactory participation and performance to defined exit standards are required to meet the compulsory hurdle assessment, one 500-word gear making assignment (10%), one 1000-word learning summary assignment (40%).

Prescribed Reading:

Book of Readings Media Services, La Trobe University, Bendigo.

OED1BFE FIELD EXPERIENCE B (15 CPs Sem. TE-SEM-2 BE.) *Mr Peter Dingle*

In this unit students will be able to develop further the knowledge and skills required for safe exploration of outdoor environments. Theory and practical work encourages the development of safe practice, reasonable judgement, understanding of self, care for others and the environment, sound preparation, and the ability to learn from experience.

Recommended Prior Studies: OED1AFE.

Class requirements: Twelve 1-hour lectures/tutorials and eight days practical work spread over 13 weeks.

Assessment: One 2250-word major assignment (60%). Practical work hurdle (compulsory). Satisfactory participation and performance to defined exit standards are required to meet the compulsory hurdle assessment. One 1.5-hour exam (40%).

OED1IOE INTRODUCTION TO OUTDOOR EDUCATION (15 CPs Sem. TE-SEM-1 BE.) *Ms Alison Lugg*

In this unit students are introduced to the nature and scope of outdoor education. Students cover a range of foundation outdoor education content and processes including: how schools use outdoor education, the professional skills demanded by outdoor education, the relationship between outdoor education, physical education and environmental education, and safety and risk management in outdoor education fieldwork. As part of the unit students will undertake four days of outdoor education practical work.

Class requirements: Two 1-hour lectures/tutorials per week, plus four days of fieldwork.

Assessment: One 2-hour final examination (50%), one 1500-word assignment (50%). Hurdle requirements: attendance at field trips.

Prescribed Reading:

Martin, P *A readings packet of material will be prepared for this unit*. La Trobe University.

OED1NS NATURALIST STUDIES (15 CPs Sem. TE-SEM-2 BE.) *Mr Gregg Muller*

In this unit the students will focus on understanding, recording and reflecting on natural places through field observation and experience. Students will be introduced to the skills of field observation and recording in natural history. They will develop practical knowledge of identification and classification, and expertise in planning and undertaking short excursions and multi-day educational trips in natural settings.

Recommended Prior Studies: BIO11AE.

Class requirements: 17-hours of lectures/tutorials and seven days practical work over 13 weeks.

Assessment: One 2000-word assignment (35%), one 1000-word assignment (25%), one 1.5-hour practical examination (40%).

OED1OEE OUTDOOR ENVIRONMENTS (15 CPs Sem. TE-SEM-2 BE.) *Dr Ruth Lawrence*

In this unit students will explore the natural and cultural characteristics of riverine, box and ironbark forests, and mountain and alpine areas of south-eastern Australia. Changing attitudes towards the land are explored by a chronological examination of Aboriginal and European occupation of the continent. Current land management issues are explored through a number of case studies, with particular emphasis on land use conflicts in the Australian alpine area.

Recommended Prior Studies: OED1RAL.

Class requirements: 2-hours lecture and 2-hours tutorials/field trips per week.

Assessment: 1500-word assignment (30%). Practical work hurdle (compulsory). Satisfactory participation and performance to defined exit standards are required to meet the compulsory hurdle assessment, 1000-word field report (20%), tutorial participation (10%), measured by contribution to analytical discussion, one 2-hour exam (40%).

OED1RAL READING AUSTRALIAN LANDSCAPES (15 CPs Sem. TE-SEM-1 BE.) *Dr Lesley Hodgson*

Students are introduced to the processes that shape Australian landscapes. Selected environments are used to illustrate influences and interrelationships of climate, ecology and land forming processes on the natural system. Through practical work, field work and assignments students learn to use a range of techniques that will enable them to read landscapes from a naturalist's and an outdoor educator's perspective.

Class requirements: 2-hours lectures per week, 4-hours tutorials per semester, 22-hours field experience per semester.

Assessment: One 2-hour final examination (50%), one 2000-word assignment (50%). Practical work hurdle (compulsory). Satisfactory participation and performance to defined exit standards are required to meet the compulsory hurdle assessment.

Prescribed Reading:

Augee, M. and Fox, M. 2000 *Biology of Australia and New Zealand* Pearson Education: Australia.

OED1SRA SPORT AND RECREATION A (15 CPs Sem. TE-SEM-1 BE.) *Dr Peter Martin*

In this unit students will cover safety and skill acquisition of selected sport and recreation activities. Selected activities will be negotiated with individual students. Students will cover content related to training regimes, contextual parameters influencing performance, ethics and participation in the selected sport and recreation activities. The unit incorporates both theoretical and practical learning modes.

Co-requisite: Must be enrolled in course EBPOEB, EBPHEB.

Class requirements: Equivalent to 4 hours per week e.g., 7-hours lectures and tutorials and nine days practical work spread over the 13 week semester, usually as 1-hour tutorial per week, plus practical work. In some weeks practical work will replace the tutorial.

Assessment: One 3500-word assignment (80%), practical work (20%).

Recommended Reading:

Unit coordinator *Book of Readings* Latrobe University.

OED1SRB SPORT AND RECREATION B (15 CPs Sem. TE-SEM-2 BE.)

Dr Peter Martin

In this unit students will cover safety and skill acquisition of selected sport and recreation activities. Selected activities will be negotiated

with individual students and will be different to activities selected in OED11SRA. Students will cover content related to training regimes, contextual parameters influencing performance, ethics and participation in the selected sport and recreation activities. The unit incorporates both theoretical and practical learning modes.

Co-requisite: Must be enrolled in course EBPOEB, EBPHEB.

Class requirements: Equivalent to 4 hours per week e.g., 7-hours lectures and tutorials and nine days practical work spread over the 13 week semester, usually as 1-hour tutorial per week, plus practical work. In some weeks practical work will replace the tutorial.

Assessment: One 3500-word assignment (80%), practical work (20%).

Recommended Reading:

Unit coordinator *Book of Readings* Latrobe University.

OED1WE WORLD VIEWS AND THE ENVIRONMENT (15 CPs Sem. TE-SEM-2 BE.) *Ms Alison Lugg*

In this environmental studies unit students are introduced to some of the ideas and cultural beliefs that have shaped the way Australians perceive and interact with natural environments, and explore the implications of these perceptions for their practice. Students investigate aspects of traditional western European belief systems, as well as current developments in environmental studies that seek to critically reflect on human-nature relationships. Practical trips are designed to enable students to analyse how underlying environmental worldviews have shaped the diverse ways in which different groups have responded to natural environments through action observation and evaluation.

Recommended Prior Studies: OED11WKN, OED11AOL.

Class requirements: One 1-hour lecture and approximately one 1-hour tutorial per week. Five days of practical work.

Assessment: One 1600-word assignment (40%). Practical work hurdle (compulsory). Satisfactory participation and performance to defined exit standards are required to meet the compulsory hurdle assessment, one 1200-word assignment (30%), and one 1-hour examination (30%).

Prescribed Reading:

OED1WKN WAYS OF KNOWING NATURE (15 CPs Sem. TE-SEM-1 BE.) *Ms Terry Gaechter*

In this unit students are introduced to the theoretical and practical study of human-nature relationships. The potential for outdoor education and nature tourism to educate people for environmentally sensitive living is explored. Students will examine different ways of knowing nature, such as experiential knowledge, indigenous knowledge and 'knowing nature as a naturalist'. Emphasis is placed on developing academic skills of critical enquiry, critical reading, referencing, and presentation of written work. Practical trips provide opportunities for observation and reflection which are recorded through journal keeping.

Class requirements: One 1-hour lecture, one 1-hour tutorial per week plus six days of practical work.

Assessment: One 2500-word assignment (60%), one 1.5-hr exam (40%).

Prescribed Reading:

Book of Readings Media Unit: La Trobe Uni, Bendigo.

Recommended Reading:

Kellert, S. *Kinship to Mastery* Washington DC: Island Press 1997.

OED2ACL AUSTRALIAN CULTURE AND LAND (15 CPs Sem. TE-SEM-2 BE.) *Mr Alistair Stewart*

Students will learn about the indigenous and European culture origins and characteristics of land tenure and management of both public and private lands in Australia. They will be introduced to the history of our current land management system. Students will engage with ideas related to the cultural construction of nature and the way in which

current beliefs and practices about land use are imbedded in cultural accident and history. In exploring the current institutional and legal structures involved in land use, students will be able to understand why differing expectations, regulations and practices apply to a range of land designations.

Recommended Prior Studies: OED12OEE.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week plus one 3-day field trip.

Assessment: One 2000-word assignment incorporating field trip report (50%). Practical work hurdle (compulsory 3-day field trip).

Satisfactory participation and performance to defined exit standards are required to meet the compulsory hurdle assessment, one 2.5-hour examination (50%).

Recommended Reading:

OED2BE BUSH ENVIRONMENTS (15 CPs Sem. TE-SEM-1 BE. TE-SEM-2 BE.) *Ms Genny Blades, Mr Phil Robertson*

This unit includes content of natural history, land management, and ecology directly relevant to selected bush environments of south eastern Australia. Students will develop technical expertise of bushwalking to enable safe exploration and promote experiential and interpretative knowledge of bush environments.

Prerequisite: BIO1AE.

Recommended Prior Studies: BIO1AE.

Class requirements: Seven 1-hour lecture/tutorials and nine-days practical work.

Assessment: One 2500-word assignment (50%). Ongoing assessment of practical skills and knowledge (hurdle-compulsory). Satisfactory participation and performance to defined exit standards are required to meet the compulsory hurdle assessment, 1500-word assignment (50%).

OED2CO COMMUNITY IN OUTDOOR EDUCATION (15 CPs Sem. TE-SEM-2 BE.) *Ms Terry Gaechter*
Not available in 2008

OED2EI ENVIRONMENTAL INTERPRETATION (15 CPs Sem. TE-SEM-1 BE.) *Dr Lesley Hodgson*

In this unit students will be introduced to the theory and practice of environmental interpretation and its role in the context of education and nature tourism. Students will critically examine theory and practice of effective interpretation through examination of interpretive venues and other materials, including some of their own. The emphasis will be on developing interpretive skills with a focus on both natural and cultural interpretation settings.

Class requirements: Two 2-hour lectures and two 2-hour tutorials per week and two days of field work.

Assessment: Two 1000-word minor assignment (25%), one 2500-word major assignment (50%).

OED2FEC FIELD EXPERIENCE C (15 CPs Sem. TE-SEM-1 BE. TE-SEM-2 BE. TE-SEM-S BE.) *Mr Sean Murray*

In this unit students will develop the knowledge and skills required to undertake an extended journey in a remote natural environment and consolidate their outdoor education journey skills, environmental

knowledge, and introductory outdoor leadership skills. Theory and practical work encourages the development of safe practice, reasonable judgment, understanding of self, care for others and the environment, sound preparation, and the ability to learn from experience.

Recommended Prior Studies: OED1BFE.

Class requirements: eight hours of tutorials and 18 days practical work.

Assessment: 1500-word assignment (50%), 1500-word assignment (50%). Practical work hurdle (compulsory). Satisfactory participation and performance to defined exit standards are required to meet the compulsory hurdle assessment.

Recommended Reading:

OED2LES LOCAL ENVIRONS STUDY (15 CPs Sem. TE-SEM-2 BE.) *Mr Gregg Muller*

In this environmental studies unit students will work in small teams to plan and implement experiential education programs within a 100 kilometres radius of the campus. They will research an educational theme and plan and implement two associated field trips. They will complete a two-day cycle safety workshop in preparation, and will learn to use a handheld GPS for navigation and mapping.

Class requirements: Equivalent to four hours of contact per week, normally as seven hours of introductory lectures and nine days of practical work, in three blocks.

Assessment: GPS practical assessment 15 minutes (10%), planning assignment 2000-words (50%). Must be satisfactory in order to participate in practical work, assignment 1500-words (40%). Practical work hurdle (compulsory). Satisfactory participation and performance to defined exit standards are required to meet the compulsory hurdle assessment.

Preliminary Reading:

www.education.vic.gov.au/referenceguide/enviro/4_4.htm
Department of Education.

OED2OLA OUTDOOR LEADERSHIP A (15 CPs Sem. TE-SEM-2 BE.) *Mr Glyn Thomas*

In this unit students will be provided with an introduction to the theory and practice of small group leadership in the outdoors as relevant to outcomes of outdoor/environmental education and personal and group development. Students will also consider elements of effective leadership applied to nature based, or adventure, activity, including communication, facilitation and instruction.

Prerequisite: OED12WE.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week with variation due to the schedule of practical work.

Assessment: One 1500-word assignment (40%). Practical work hurdle (compulsory). Satisfactory participation and performance to defined exit standards are required to meet the compulsory hurdle assessment, one 2500-word assignment (60%).

Prescribed Reading:

Book of Readings Media Services, La Trobe University, Bendigo.

OED2OLB OUTDOOR LEADERSHIP B (15 CPs Sem. TE-SEM-1 BE.) *Mr Sean Murray*

Students further develop outdoor leadership competence and gain experience in small group leadership in outdoor/environmental education. Knowledge of safety/risk management, trip planning, remote area first aid, stress/burnout, social psychology, disability issues, legal liability, certification and professional ethics is developed.

Recommended Prior Studies: OED21OLA.

Class requirements: eight days practical work and 13 hours of lectures/tutorials spread over the 13 week semester, usually as 1-hour

tutorial per week, plus practical work. In some weeks practical work will replace the tutorial.

Assessment: One 1500-word planning and experience summary (40%) Practical work hurdle (compulsory). Satisfactory participation and performance to defined exit standards are required to meet the compulsory hurdle assessment, one 2-hour exam (60%).

Prescribed Reading:

Book of Readings Media Services, La Trobe University, Bendigo.

OED2RCS REGIONAL CATCHMENT STUDIES: RESOURCES AND MANAGEMENT (15 CPs Sem. TE-SEM-1 BE.) *Dr Ruth Lawrence*

In this unit the water resources in Australia are examined at catchment scale and on a regional basis. The processes and properties of Australian surface water runoff, groundwater movement and water quality will be examined, and the interrelationships between landform, land use and hydrology are explored. Particular emphasis will be placed on properties of northern Victoria catchments. Specific topics to be examined include floodplain management, urban hydrology, river regulation, and interactions between shallow groundwater and surface land features. Principles of catchment management are introduced and several case studies of contrasting management strategies are detailed.

Class requirements: One 1-hour lecture and one 1-hour tutorial per week plus six days of field work.

Assessment: One 2-hour examination (50%), two 1250-word field reports (50%).

Preliminary Reading:

Smith, D.I. *Water in Australia: Resources and Management* Oxford University Press 1998.

OED2RE RIVER ENVIRONMENTS (15 CPs Sem. TE-SEM-1 BE. TE-SEM-2 BE.)

Mr Peter Dingle

Students will develop technical expertise of paddling to enable safe exploration and promote experiential and interpretative knowledge of river environments as preparation for peer leadership. This unit includes content of natural history, land management, hydrology and ecology directly relevant to selected river environments of South Eastern Australia.

Recommended Prior Studies: OED1OEE.

Class requirements: One 1-hour lecture and approximately one 1-hour tutorial per week. Eight days practical work.

Assessment: One 2000-word learning summary assignment (50%) Ongoing assessment of practical skills and knowledge hurdle – compulsory. Satisfactory participation and performance to defined exit standards are required to meet the compulsory hurdle assessment, one 1500-word assignment and a 10 minute presentation (50%).

Prescribed Reading:

Book of Readings. Media Services, La Trobe University, Bendigo.

OED2RON READINGS IN OUTDOOR EDUCATION AND NATURE TOURISM (15 CPs Sem. TE-SEM-1 BE. TE-SEM-2 BE.) *Mr Andrew Brookes*

This unit is offered at third-unit level also. Enrolment must be approved by the course coordinator.

Readings in outdoor education and nature tourism provides an opportunity for students to pursue study in depth in particular areas of the disciplines of outdoor education or nature tourism in response to personal professional and academic interests. The specific tasks within the unit are individually negotiated according to student learning objectives and experience. With guidance from a lecturer, students prepare a learning plan for readings or a project, and carry out the plan with supervision. The unit may involve practical field work.

Class requirements: Equivalent of one half-hour per week supervisory conference plus independent study. Up to eight days of practical work if appropriate to learning plan.

Assessment: One 500-word learning plan (15%), one 1000-word assignment (35%), one 3000-word assignment (50%).

Recommended Reading:

Depends on readings chosen. *Individually determined.* Current.

OED2RWE RIVER AND WETLANDS ENVIRONMENTS (15 CPs Sem. TE-SEM-S BE.) *Mr Alistair Stewart*

This subject is normally only available to students enrolled in the Bachelor of Arts (Nature Tourism) or Bachelor of Arts (Outdoor Education) courses. In this unit, students will build on previous experience in the Murray Catchment. Students undertake an extended practical experience to consolidate their knowledge of natural and cultural history, land management and ecology directly relevant to selected river and wetland environments of south-eastern Australia. They will examine the notions of water in a dry landscape, developing understanding of how catchment use determines river health through exploration of the lower reaches of the Murray River. Students will develop naturalist and paddling expertise, and knowledge of river and riparian ecology to enable exploration and promote experiential and interpretive knowledge of river and wetland environments.

Prerequisite: OED12OEE.

Class requirements: Seven 1-hour lectures and 18 days of field studies spread throughout the semester.

Assessment: One 1750-word assignment (40%), one 2000-word assignment (60%).

Preliminary Reading:

MacKay, N & Eastburn, D. Eds *The Murray* Canberra: Murray Darling Basin Commission (1990).
Sinclair, P. *The Murray: A River and Its People* Melbourne University Press. 2001.

OED2SNT SUSTAINABLE NATURE TOURISM (15 CPs Sem. TE-SEM-2 BE.)

Dr Lesley Hodgson

This unit is offered at third-unit level also.

Not available in 2008

OED2WAE WINTER ALPINE ENVIRONMENTS (15 CPs Sem. TE-SEM-2 BE.)

Mr Sean Murray

Students will examine aspects of natural history, land management, snow deposition and ecology directly relevant to selected alpine environments of South Eastern Australia. Students will develop technical expertise of cross-country ski touring to enable safe exploration and promote experiential and interpretative knowledge of winter alpine environments.

Recommended Prior Studies: OED12OEE.

Class requirements: One 1-hour lecture nine days of practical work.

Assessment: One 1500-word pre trip organisation assignment (35%), one 1500-word assignment (teaching resource kit) (35%), one 20-minute oral presentation (30%). Ongoing assessment of practical skills and knowledge hurdle – compulsory. Satisfactory participation and performance to defined exit standards are required to meet the compulsory hurdle assessment.

Prescribed Reading:

Green, K. (edn.) 1998 *Snow: a natural history; an uncertain future* Australian Alps Liaison Committee (Canberra).

OED3ENT EDUCATIONAL NATURE TOURISM (15. CPs Sem. TE-SEM-2 BE.)

Mr Andrew Brookes

Not available in 2008

OED3EO EDUCATION IN THE OUTDOORS (15 CPs Sem. TE-SEM-1 BE.) *Mr*

Andrew Brookes

Students examine the social and cultural context of education and implications for outdoor education. Components include discourses on the outdoors and 'the bush', curriculum enquiry and implications for teaching in the outdoors. Students plan, implement and evaluate a three day outdoor education or nature tourism experience.

Class requirements: 32 hours of lectures or tutorials, 4 days practical work spread over the 13 week semester usually as 2-hours lecture and 1-hour tutorial per week, although this may vary somewhat due to the schedule of practical work.

Assessment: 1500-word assignment (35%), average of both assignment grades must be 50% or better, 1000-word lesson plan (30%). Lesson plan grade must be 50% or better, 1500-word assignment (35%), practical work (0%). Participation is compulsory. Participation must satisfy standard.

Prescribed Reading:

Brookes, A. (1998) *Place and experience in Australian outdoor education and nature tourism* Outdoor recreation. Umee, Sweden.

OED3ES EDUCATION FOR SUSTAINABILITY (15 CPs Sem. TE-SEM-2 BE.)

Dr Lesley Hodgson

Students study the concept of sustainability, particularly in relation to outdoor education and nature tourism practice. The unit explores concepts of and debates about sustainability and considers practical implications and ethical dilemmas.

Prerequisite: OED12WE.

Class requirements: 26-hours lectures, 11-hours tutorials, and 3 days practical work spread over 13 weeks, usually as 2-hours lecture and 1-hour tutorial per week, although this may vary somewhat due to the schedule of practical work.

Assessment: Two 2000-word assignments (100%).

Recommended Reading:

Scott, W & Gough, S (2003) *Key Issues in Sustainable Development and Learning: A Critical Review* Routledge-Falmer, London.

Scott, W & Gough, S (2003) *Sustainable Development and Learning: Framing the Issues* Routledge-Falmer, London.

OED3FED FIELD EXPERIENCE D (15 CPs Sem. TE-SEM-1 BE.) *Mr Andrew*

Brookes

Students undertake a negotiated program to extend their outdoor education preparation. The emphasis is on leading and teaching in the outdoors and students are encouraged to build on their experience in specialist areas of their choice. Practical experience may include advanced skill development, field work placement (practicum) and peer trip leading.

Class requirements: One 1-hour lecture and approximately one 1-hour tutorial per week and eight days practical work.

Assessment: One 1000-word field experience plan plus satisfactory completion of practical work. (100%) Ungraded pass/fail. Satisfactory completion of field experience plan (1000-words) and satisfactory completion of practical work (compulsory hurdle), according to defined criteria.

Prescribed Reading:

Book of Readings Media Services, La Trobe University. Bendigo.

OED3FEE FIELD EXPERIENCE E (15 CPs Sem. TE-SEM-1 BE. TE-SEM-2 BE.)

Mr Andrew Brookes

Students undertake a negotiated program to extend their outdoor education preparation. The emphasis is on evaluation of students' learning and their readiness for leading and teaching in the outdoors. Practical experience may include advanced skill development, fieldwork placement (practicum) and peer trip leading.

Recommended Prior Studies: OED31FED.

Class requirements: One 1-hour lecture and approximately one 1-hour tutorial per week plus eight days practical work.

Assessment: 3750-word field experience evaluation plus satisfactory completion of practical work. (100%). Ungraded pass/fail.

Satisfactory completion of field experience evaluation and satisfactory completion of practical work (compulsory hurdle), according to defined criteria.

Recommended Reading:

Camping Association of Victoria Inc. (1997) *Camping with Confidence: Australian Campsite Accreditation* Melbourne. CAV.

OED3NSI NATURALIST STUDIES: INTERPRETATION (15 CPs Sem. TE-SEM-1 BE.)

Ms Lesley Hodgson

In this unit students examine the contribution of naturalist studies to our culture as a context for development of their own philosophy and practice in nature tourism. This is done through reading and reflecting on the ways in which earlier generations of Australian naturalists have documented the landscape and its natural history. In field work students will explore, develop and present an interpretative program about one such landscape. Students will develop such programs using current educational models of interpretation. In written work, students will reflect on the work of earlier naturalists and enhance their own appreciation of field naturalists' skills and interests.

Class requirements: One 1-hour lecture and approximately one 2-hour tutorials per week. four days field work.

Assessment: One 3000-word or equivalent major project (60%). The project could be a Naturalist Diary report or practical planning exercise or essay, one 1500-word or equivalent minor project (40%). This project could be a practical demonstration of interpretive skills in presenting a plan, program or information face-to-face in brochure/pamphlets, display or video form, field trip (0%). To pass this subject students must complete four days of field work (hurdle ungraded).

Prescribed Reading:

Book of Readings Media Services, La Trobe University, Bendigo.

Recommended Reading:

Farber, P. (2000) *Finding Order in Nature: The Naturalist Tradition from Linnaeus to E.O. Wilson* John Hopkins University Press. Baltimore and London.

Allen, D. (1994) *The Naturalist in Britain: A Social History* University Press, Princeton. New Jersey.

OED3NTP NATURE PRACTICUM (15 CPs Sem. TE-SEM-2 BE.) *Mr Phil Robertson*

In this unit students will develop and deliver components of a community based natural history program and observe/experience program delivery in the Nature Tourism and Environmental Education field. In classes and in the field, students will also cover professional issues, networking and job application processes.

Class requirements: One 1-hour lecture and one 1-hour tutorial per week or equivalent over eight weeks. Two days of program development and delivery – linked to spring in the Bendigo Bush and eight days practicum (five days with outside agency).

Assessment: Develop and deliver a nature tourism/environmental education program (equivalent to a 2500 assignment) (60%) Develop and deliver a program for a community agency spring in the Bendigo Bush, one 500-word personal workplace project (10%). Develop a personal curriculum vitae and/or job application, eight days practicum placement (0%). Hurdle requirement includes three days Lyell forest, one 1500-word assignment or equivalent project (30%). Report on and evaluation of practicum placement experience.

Recommended Reading:

Tzaros, C. 2005 *Wildlife of the Box-Ironbark Country* CSIRO Publishing. Melbourne.

OED3OPE OUTDOOR ENVIRONMENTAL PRACTICAL EXTENSION (15 CPs Sem. TE-SEM-1 BE. TE-SEM-2 BE. TE-SEM-3 BE.) *Mr Glyn Thomas*

Permission of the unit coordinator and course coordinator

In this unit students will critically examine the cultural and environmental features of a particular place in the context of outdoor education and/or nature tourism practice. The unit will incorporate: student research and presentations, and practical experience in the selected place.

Co-requisite: Available only to students enrolled in Bachelor of Arts (Outdoor Education) and Bachelor of Arts (Nature Tourism).

Class requirements: Equivalent to four hours per week. For example: seven hours of lectures and tutorials and nine days of practical work.

Assessment: 3000-word assignment (80%). Assignment includes research into a particular facet of the place and participation in field work. One 20 minute presentation (equivalent 1000-words) (20%). Presentation is of the research findings from the assignment.

OED3PWM PARKS AND WILDLIFE MANAGEMENT (15. CPs Sem. TE-SEM-1 BE.) *Mr Gregg Muller*

In this unit students will develop a working knowledge of key elements in natural and cultural resource management, with particular reference to protected areas. Topics include weeds and feral animals, legal and scientific approaches to natural resource management, use of protected areas as a baseline for research and management, and the interplay between natural and cultural resource management. Case studies focus on biodiversity and heritage management practices in south eastern Australia.

Prerequisite: OED22ACL.

Class requirements: Two 1-hour lectures and one 2-hour tutorial or field trip per week.

Assessment: Two 2000-word assignments (90%), tutorial attendance and participation (10%).

Prescribed Reading:

Book of Readings Media Services, La Trobe University, Bendigo.

Recommended Reading:

Worboys, G., Lockwood, M. & De Lacy, T. (2001) *Protected Area Management: Principles and Practice* OUP.

OED3TBE TEACHING IN BUSH ENVIRONMENTS (15 CPs Sem. TE-SEM-1 BE. TE-SEM-2 BE.) *Mr Andrew Brookes*

Students apply and extend bushwalking and navigation skills and environment interpretive knowledge to be able to conduct outdoor/environmental education learning experiences. Teaching, environmental interpretive content, bush travel skills and group management skills relevant to bush environments will be covered.

Prerequisite: OED2OLB, OED2FEC.

Class requirements: One 1-hour lecture and approximately one 1-hour tutorial per week. Eight days practical work.

Assessment: Two 2000-word assignments (10%). Ongoing assessment of practical skills and knowledge (hurdle compulsory). Satisfactory participation and performance to defined exit standards are required to meet the compulsory hurdle assessment.

Prescribed Reading:

Ministry of Education (1998) *Camping and bush activities safety guidelines* Melbourne: Dept. of Education

OED3TNH TEACHING NATURAL HISTORY (15 CPs Sem. TE-SEM-1 BE. TE-SEM-2 BE.) *Mr Andrew Brookes*

In this unit students will plan, implement, and review education experiences with a natural history focus. Students will refine their own knowledge of the locales in which they will teach, prepare a safety management plan, and develop teaching strategies. They will spend at least four days of the practical work in a teaching or guiding role.

Class requirements: One 1-hour lecture per week and eight days of field trips.

Assessment: One 2000-word teaching plan (50%), one 2000-word assignment (50%).

Prescribed Reading:

Department of Education *Safety Guidelines: Camping and Bush Activities* Department of Education: Melbourne 1998.

OED3TPD TEACHING AND PROGRAM DEVELOPMENT (15 CPs Sem. TE-SEM-2 BE.) *Ms Genny BLADES*

In this unit students will study ecological approaches to teaching curriculum development and apply these to outdoor education teaching and program planning and evaluation. Students plan, implement and evaluate a four day outdoor education camp program.

Recommended Prior Studies:

OED31EO.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week and four days practical work.

Assessment: 1000-word lesson plan (25%), practical work hurdle (compulsory). Satisfactory participation and performance to defined exit standards are required to meet the compulsory hurdle assessment, 1000-word teaching evaluation (25%), and 2000-word major assignment (50%).

Prescribed Reading:

Book of Readings Media Services, La Trobe University, Bendigo.

OED3TRE TEACHING IN RIVER ENVIRONMENTS (15 CPs Sem. TE-SEM-1 BE. TE-SEM-2 BE.) *Mr Glyn Thomas*

Students apply and extend technical paddling skills and river

environment interpretive knowledge to be able to conduct outdoor/environmental education learning experiences. Teaching, environmental interpretive content, paddling skills and group management skills relevant to river environments will be covered.

Prerequisite: OED2RE OED2OLB.

Class requirements: 13-hours lectures or tutorials and eight days practical work spread over the 13 week semester, usually as 1-hour lecture or tutorial per week plus practical work. In some weeks, practical work will replace the lectures and tutorials.

Assessment: Two 2000-word assignments (100%). Ongoing assessment of practical skills and knowledge (hurdle – compulsory). Satisfactory participation and performance to defined exit standards are required to meet the compulsory hurdle assessment.

Prescribed Reading:

Book of Readings Media Services, La Trobe University, Bendigo.
Ministry of Education (1991) *Canoeing: safety guidelines* Victoria.
Smith, D.I. (1998) *Water in Australia: resources and management*. Melbourne: OUP.

OED3TWA TEACHING IN WINTER ALPINE ENVIRONMENTS (15 CPs Sem. TE-SEM-2 BE.) *Mr Andrew Brookes*

Students apply and extend cross country ski touring and snow camping skills and environment interpretive knowledge to be able to conduct outdoor/environmental education learning experiences. Teaching, environmental interpretive content, snow travel skills and group management skills relevant to snow environments will be covered.

Prerequisite: OED2OLB.

Class requirements: One 1-hour lecture and approximately one 1-hour tutorial per week plus eight days practical work.

Assessment: Two 2000-word assignments (100%). Ongoing assessment of practical skills and knowledge (hurdle – compulsory). Satisfactory participation and performance to defined exit standards are required to meet the compulsory hurdle assessment.

Prescribed Reading:

Ministry of Education (1992) *Snow activities: safety guidelines* Victoria.

OED4BRB RESEARCH THESIS (OUTDOOR EDUCATION AND NATURE TOURISM) B (30 CPs Sem. TE-SEM-2 BE.) *Dr Peter Martin*
Not available in 2008

OED4RD READINGS IN OUTDOOR EDUCATION (15 CPs Sem. TE-SEM-1 BE. TE-SEM-2 BE.) *Mr Andrew Brookes*

In this unit students will individually negotiate topics according to their learning objectives and experience. Students undertake projects and study in specific aspects of outdoor education or nature tourism.

Class requirements: One-hour per fortnight supervisory conference plus independent study.

Assessment: One 4500-word assignment (100%).

Preliminary Reading:

Individually negotiated according to research topics.

OED4RM RESEARCH METHODS IN OUTDOOR EDUCATION and NATURE TOURISM HONOURS (15. CPs Sem. TE-SEM-1 BE.) *Mr Andrew Brookes*

In this unit students will be introduced to research in outdoor education and nature tourism, largely from a qualitative perspective. The skills of question formulation, literature analysis, research design, research methods, sampling, data collection, data analysis and research report writing are taught. Students develop a research proposal and critically analyse published research.

Class requirements: Supervised reading and consultation equivalent to four-hours per week.

Assessment: Two 2000-word assignments: research design and paper critique (100%).

Preliminary Reading:

Henderson, K. A. (1991) *Dimensions of choice: Qualitative research in recreation and park administration*, Venture, State College, PA.
Erlandson, D. A., Harris, E. L., Skipper, B. L. and Allen, S. D. (1993) *Doing naturalistic inquiry: A guide to methods*. Newbury Park, CA: Sage.

OED4ROE READINGS OUTDOOR EDUCATION AND NATURE TOURISM HONOURS (15. CPs Sem. TE-SEM-1 BE. TE-SEM-2 BE.) *Mr Andrew Brookes*

Students learn to search literature comprehensively in the area in which they will conduct their research. The skills of literature review preparation are taught, including literature search and retrieval, question formulation, organisation of literature, referencing, critical and comparative analysis and writing for publication.

Class requirements: Class teaching and/or individual supervision equivalent to 2-hours per week for 13 weeks.

Assessment: 4000-word assignment (100%). Students must complete one major literature review assignment. This subject will contribute 20% to the final determination of honours.

Preliminary Reading:

Hart, C. (1998) *Doing a literature review: releasing the social science research imagination*. London: Sage.
N. Buchanan and J. Feldhusen eds. *In Conducting research and evaluation in gifted education*. New York: Teachers College Press: 33-50.

OED4SEA OUTDOOR EDUCATION OR NATURE TOURISM HONOURS SEMINAR A (15 CPs Sem. TE-SEM-1 BE.) *Dr Andy Brookes*

Seminars concerning professional issues in nature tourism and outdoor education are presented by staff, visitors, and students. Students will report on work in progress and present a summary of their work in readings, their study of a professional issue, and their research project.

Class requirements: One 3-hour seminar per week.

Assessment: Readings seminar. 1500-word paper and a 10-minute presentation (40%), professional issue seminar. 2000-word papers and a 15-minute presentation (50%), contributions to seminar discussions (10%). Seminar participation will be assessed on evidence of preparation and analytical discussion.

Preliminary Reading:

Orr, D. (1992) *Ecological literacy: Education and the transition to a post modern world*.
Albany, NY, USA: State University of New York Press.
Seddon, G. (1997) *Land prints: Reflections on place and landscape*. Cambridge, UK: Cambridge University Press.

OED4SEB OUTDOOR EDUCATION OR NATURE TOURISM HONOURS SEMINAR B (15 CPs Sem. TE-SEM-2 BE.) *Dr Andy Brookes*

Seminars concerning professional issues in nature tourism and outdoor education are presented by staff, visitors, and students. Students will report on work in progress and present a summary of their work in readings, their study of a professional issue, and their research project.

Prerequisite: OED41SEA.

Class requirements: One 3-hour seminar per week.

Assessment: Research seminar. 1500-word paper and a 10-minute presentation (40%), professional issue seminar. 2000-word paper and a 15-minute presentation (50%), contribution to seminar discussions (10%). Seminar participation will be assessed on evidence of preparation and analytical discussion.

Preliminary Reading:

Slattery, Patrick (1995) *Curriculum Development in the Post modern Era*. New York: Garland.
Bowers, C. A. (1995) *Educating for an ecologically sustainable culture: Rethinking moral education, creativity, intelligence, and other modern orthodoxies*. Albany, NY: State University of New York Press.

OED4TAP RESEARCH THESIS/OUTDOOR EDUCATION OR NATURE TOURISM HONOURS (15 CPs Sem. TE-SEM-1 BE. TE-SEM-2 BE.) *Mr Andrew Brookes*

In this unit students will be able to develop a research proposal to study a question in the field of outdoor education or nature tourism, conduct the study and prepare a report of the results.

Class requirements: Seminar, teaching or individual supervision, equivalent to 1-hour per week for 13 weeks. This unit is not available for Study Abroad students.

Assessment: 15,000-word research report (100%). Graded assessment based on a 15,000-word research report assessed by two examiners.

This represents the combined thesis assessment. This unit will contribute 60% to the final determination of honours.

Preliminary Reading:

Bell, J. (1999) *Doing your research project: A guide for first-time researchers in education and social science*. 3rd edn. Buckingham, UK: Open University Press.

Stake, R. E. (1995) *The art of case study research*. Thousand Oaks, CA: Sage.

OED4TBP RESEARCH THESIS/OUTDOOR EDUCATION OR NATURE TOURISM HONOURS (30 CPs Sem. TE-SEM-1 BE. TE-SEM-2 BE.) *Mr Andrew Brookes*

In this unit students will be able to develop a research proposal to study a question in the field of outdoor education or nature tourism, conduct the study and prepare a report of the results.

Class requirements: Seminar, teaching or individual supervision, equivalent to 1-hour per week for 13 weeks. This unit is not available for Study Abroad students.

Assessment: 15,000-word research report (100%). Graded assessment based on a 15,000-word research report assessed by two examiners. This represents the combined thesis assessment. The thesis contributes 60% to the final determination of honours.

Preliminary Reading:

Bell, J. (1999) *Doing your research project: A guide for first-time researchers in education and social science*. 3rd edn. Buckingham, UK: Open University Press.

Stake, R. E. (1995) *The art of case study research*. Thousand Oaks, CA: Sage.

OED4TON RESEARCH THESIS/OUTDOOR EDUCATION OR NATURE TOURISM HONOURS (60. CPs Sem. TE-ALL-YR BE. TE-SEM-2 BE.) *Mr Andrew Brookes*

In this unit students will be able to develop a research proposal to study a question in the field of outdoor education or nature tourism, conduct the study and prepare a report of the results.

Class requirements: Seminar, teaching or individual supervision, equivalent to 1-hour per week for 26 weeks.

Assessment: 15,000-word research report (100%). A graded assessment will be based on a 15,000-word research report assessed by two examiners. This subject will contribute 60% to the final determination of honours.

Preliminary Reading:

Bell, J. (1999) *Doing your research project: A guide for first-time researchers in education and social science*. 3rd edn. Buckingham, UK: Open University Press.

Stake, R. E. (1995) *The art of case study research*. Thousand Oaks, CA: Sage.

Web: www.latrobe.edu.au/health/

The Faculty of Health Sciences caters for a wide range of interests in the education of health professionals by offering a wide range of undergraduate, postgraduate coursework and Graduate Entry Master Programs. The Faculty also provides opportunity for research at both a Master and Doctoral level. Students from other Faculties of the university may apply to enrol in some individual health sciences units.

The Faculty consists of four Divisions:

- Allied Health
- Health Studies
- Nursing and Midwifery, and
- Research.

Courses are offered at the Albury-Wodonga, Bendigo, Melbourne (Bundoora and City), Mildura and Shepparton campuses. The Faculty also teaches at a number of hospitals, offers some courses via distance education, and teaches some courses overseas.

There are several externally funded centres and institutes that are part of the Faculty including:

- Australian Institute for Primary Care
- Australian Research Centre in Sex, Health, and Society
- Mother and Child Health Research Centre
- Musculoskeletal Research Centre
- The Bouverie Centre – Victoria's Family Institute, which provides family therapy clinical services and offers postgraduate programs in family therapy.

Requirements for admission to undergraduate courses

Information about the VCE prerequisite units and other admission requirements are available from the University's Office for Prospective Students or from the Faculty of Health Sciences.

Course regulations

All courses offered by the Faculty are governed by a University regulation that specifies the entrance and other requirements of the course.

Each course also has its own rules of progression and most schools produce specific procedures that operate under the authority of the University Regulations and Faculty guidelines. Details of assessment in each unit are available on discipline notice boards from the beginning of the academic year.

A student in a full-time professional course may be required to pass all units of a specified year level before proceeding to units at the next year level, or achieve such a standard as to be awarded a pass in the year as a whole. A conceded pass in a unit, which is not a prerequisite for studies in the following year, will normally entitle a student to proceed to the next year, if all other units are passed. A conceded pass is not awarded for a unit which is a prerequisite unit for a unit which must be taken later in the course.

It is faculty policy that where a professional placement unit has a prerequisite unit, the prerequisite unit must be passed within the previous three years.

The Faculty applies the University academic progress rules along with a time limit rule where a student must complete the course in a specified period of time equivalent to twice the full-time length of the course plus one year. This time limit includes any intermissions.

For further information, consult the relevant Division or Faculty office.

Students with a disability

Most of the courses conducted by the Faculty of Health Sciences include some type of clinical or professional practice experience, which is a compulsory requirement of the course. The Faculty recognises that professional and clinical placements can present particular challenges to students with disabilities. Every effort will be made to make reasonable adjustments to the learning experience and assessment requirements of a clinical or professional practicum within the requirements of the course. In order to do this, students who have a temporary or permanent disability of any type, which may have an impact upon their ability to complete course requirements, are encouraged to meet with the course coordinator prior to the commencement of the course.

Health procedures

It is strongly suggested that students undergo a medical examination with a view of preventing or detecting disease.

To further reduce health risks, it is strongly recommended that:

- tuberculin testing is undertaken prior to attending hospital clinics, with follow-ups as necessary
- all students be immunised against hepatitis B
- all students be immunised against rubella, measles and mumps
- all students are up-to-date with their immunisation against poliomyelitis, diphtheria, and tetanus.

Students with an infectious condition such as HIV or HBV should take every reasonable precaution to ensure that no other person is placed at risk of infection, as advised by their treating doctor.

Students should note that many hospitals require students to be immunised prior to allowing students to attend a professional placement. Students who are not immunised may jeopardise their ability to gain access to a suitable (or any) professional placement(s), and may therefore delay or prevent completion of the course

Uniforms and class materials

Some courses require a prescribed uniform for hospital and clinical activities. Details are available from the relevant course coordinator or administrative officer.

Schools may charge students for expendable materials supplied where students to their direct personal benefit consume the materials or where students may wish to retain continuing possession of the materials concerned. Students may be charged deposits for non-consumable items issued for temporary use. Schools may recover the cost of lecture notes and other printed material issued to students, if no student is compelled to acquire such notes or materials.

Professional placements

Please note that most courses require students to undertake unpaid professional placements. In most courses that require students to undertake professional placements, the placement involves being assigned to an agency on a full-time basis over a period of weeks. Students may be required to attend placements located in either metropolitan or regional areas for which the student is expected to meet any travel and accommodation costs. Some financial support from the Faculty may be available but there is no guarantee of financial support. In some cases, students undertake placement interstate or overseas. For overseas placements, students may be eligible to apply for the Government OS-Help Loan.

The types of places where students may attend a professional placement include major hospitals, health care networks, schools, community centres, and clinics.

The University maintains insurance policies to protect students undertaking professional placement outside of the University as a compulsory course requirement or other work undertaken off-campus as part of a course or approved research work. Further information is available from the University Insurance Office website: www.latrobe.edu.au/insurance/, Faculty office or Division.

National Police Record Check

In those courses where students are required to undertake professional placements, students may meet vulnerable people. Most agencies require students to provide the results of a National Police Record Check. The cost of obtaining a record check from the Victorian Police is payable by the student directly to Victoria police. In 2007, the volunteer fee for the record check was \$13.30. Students should obtain the *Consent to Check and Release National Police Record* application form from their division of enrolment or it can be downloaded from the Victoria Police website. Students should complete the application form and obtain a signature from the division office, which will allow the check to be obtained at the volunteer rate. The certificate is valid for the current year only. Students will be expected to obtain a new police security clearance each year in which a professional placement is required.

Students undertaking placement in New South Wales will also require a National Police Record Check. This check will include a 'Working with Children' check. Details are available from the division of enrolment.

Students being placed in Victoria may also be required to obtain a 'Working with Children' check.

Confirmation of a criminal record may jeopardise a student's ability to gain access to a suitable (or any) professional placement(s), and may therefore delay or prevent completion of the course. Any questions or concerns relating to these checks should be directed to the relevant school office or placement coordinator.

Flexible teaching arrangements

In order to accommodate student needs, some units are taught in a mode different from the normal face-to-face or regular weekly classes. For example, modes may include block mode (i.e., intensive weekend or weeklong classes), classes taught outside of the normal teaching period dates such as placement units, or classes taught via distance education or web-based teaching. Please refer to unit descriptions for those units that are offered by flexible teaching arrangements.

Fees

The Australian Government has introduced a new system of fees for Australian universities. From 2005, the Higher Education Loan Programme (HELP), available to Australian citizens and holders of permanent humanitarian visas will be available to assist students with the payment of their university fees.

HECS-HELP – for Australian citizens and holders of a permanent humanitarian visa if enrolled in a Commonwealth-supported place
FEE-HELP – for eligible fee-paying students enrolled at eligible higher education providers. Loans will cover up to the full amount of their tuition fees with students able to borrow up to an amount determined by the Federal Government

OS-HELP – for eligible full-time Commonwealth supported students who wish to study one or two study periods overseas. Loans will be up to \$5000 per six-month study period. OS-HELP loans will be subject to a 20 per cent loan fee.

For more information, please refer to www.hecs.gov.au.

Organisation of the Faculty

DIVISION OF ALLIED HEALTH

Associate Dean: Professor Karen Dodd

Executive Officer: Ms Alison Davies

Tel: (03) 9479 5815

Email: alliedhealth@latrobe.edu.au

Web: www.latrobe.edu.au/health/healthsci_schoolcent

The Division of Allied Health offers professional courses in Occupational Therapy, Physiotherapy, Podiatry, Prosthetics and Orthotics, Orthoptics, Social Work, Speech Pathology, Deaf Studies and Family Therapy. In addition, the Division offers a wide range of coursework Masters Degrees, Professional Doctorate degrees, research training degrees, and discipline-specific short courses for postgraduate allied health professionals. Teaching is conducted at Melbourne (Bundoora), with some courses also offered at the La

Trobe University campuses at Albury-Wodonga, Bendigo, Mildura, and Shepparton. For further information, contact the Division.

School of Human Communication Sciences

Head of School: Associate Professor Jenni Oates

Tel: (03) 9479 5815

Email: hcs@latrobe.edu.au

Web: www.latrobe.edu.au/hcs/

The School of Human Communication Sciences is located at the Melbourne (Bundoora) campus and is the only provider of speech pathology educational programs in Victoria. Speech pathologists diagnose, treat, and provide management services to people of all ages with communication disorders, which may be evident in speech, language, voice and fluency disorders, in reading and spelling problems and in swallowing disorders.

School of Occupational Therapy

Head of School: Associate Professor Linsey Howie

Tel: (03) 9479 5815

Email: ot_general@latrobe.edu.au

Web: www.latrobe.edu.au/occtherapy/

The School of Occupational Therapy is located at the Melbourne (Bundoora) campus. The School offers quality undergraduate and postgraduate courses and undertakes research and community service activities in related fields. Occupational therapy addresses people's occupational needs and the loss of daily living skills that follow physical, emotional, psychological, and social disorders. Occupational therapists assist individuals to make the transition from dependence to independence, maximising personal productivity, wellbeing, and quality of life. For further information, contact the School.

School of Physiotherapy

Head of School: Dr Megan Davidson

Tel: (03) 9479 5815

Email: physiotherapy@latrobe.edu.au

Web: www.latrobe.edu.au/physiotherapy/

The School of Physiotherapy is located at the Melbourne (Bundoora) campus with some students eligible to do their third and fourth year in Bendigo. The School offers quality entry level and postgraduate courses and undertakes research in physiotherapy and other health-related areas. The School is one of the major tertiary education programs for obtaining physiotherapy qualifications in Victoria. Clinical schools in which students undertake core clinical education are located at Bayside, Barwon, Bendigo, Eastern and Northern Health networks. A sixth clinical school is comprised of a network of private and public hospitals in metropolitan and rural Victoria and in Tasmania. Physiotherapists are experts in the assessment, measurement, and treatment of movement disorders, pain, and disability in people of all ages. For further information, contact the School.

School of Social Work and Social Policy

Head of School: Associate Professor Margarita Frederico

Tel: (03) 9479 5815

Email: socialwork.inquiries@latrobe.edu.au

Web: www.latrobe.edu.au/socialwork/

The School of Social Work and Social Policy prepares undergraduate and postgraduate students for the practice of professional social work and work in the human services in accordance with current and likely social conditions, occupational opportunities, intervention strategies, and key value principles. The aim is to stimulate students to develop a substantial knowledge about and critical analysis of the nature of society, its patterns of distribution of opportunities and resources, its range of beliefs and customs and the relationship of individuals to each other and to the wider society, and an understanding of the nature of social policy and in particular its aims, range, politics and value bases. The school offers courses at Albury-Wodonga, Bendigo, Melbourne (Bundoora) and Mildura.

A 'pathway' program into social work is available at Mildura through the Bachelor of Arts degree within the Faculty of Humanities and Social Sciences.

Details of the courses offered are provided elsewhere in the Handbook. For the Mildura course, please contact the Bachelor of Social Work Course Coordinator, Ms Paula Bruce, tel: (03) 5051 4012 or email: p.bruce@latrobe.edu.au

Department of Clinical Vision Sciences

Head of Department: Associate Professor Kerry Fitzmaurice
Tel: (03) 9479 5815
Email: studyorthoptics@latrobe.edu.au
Web: www.latrobe.edu.au/orthoptics/

The Department of Clinical Vision Sciences provides one of only two tertiary education programs in the discipline of Orthoptics in Australia. Located on the Melbourne (Bundoora) campus the Department offers high quality undergraduate and postgraduate courses as well as undertaking research in areas related to clinical vision sciences. The undergraduate degree qualifies graduates for registration as an orthoptist - an allied health professional who undertakes clinical evaluation and non-surgical management of eye disease, disorders of the eye movement and visual systems, and vision rehabilitation.

Department of Podiatry

Acting Head of Department: Dr Adam Bird
Tel: (03) 9479 5815
Email: podiatry@latrobe.edu.au
Web: www.latrobe.edu.au/podiatry/home.html

Located on the Melbourne (Bundoora) campus, the Department of Podiatry offers a four-year undergraduate podiatry program with a pass and honours stream available. The Department also runs a fully functional podiatry clinic on campus, which provides a service to the surrounding areas plus an opportunity for students to become involved in patient care under supervision. The Department also undertakes research and provides community service in related areas. Podiatry is an allied health profession that deals with prevention, diagnosis, and management of foot and ankle pathology across a broad range of client populations.

National Centre for Prosthetics and Orthotics

Head of Department: Mr Rowan English
Tel: (03) 9479 5815
Email: hs-po@latrobe.edu.au
Web: www.latrobe.edu.au/ncpo/

The National Centre for Prosthetics and Orthotics is located at the Melbourne (Bundoora) campus. The Centre offers quality undergraduate and postgraduate courses and undertakes research and community service activities in related fields.

The prosthetist-orthotist is responsible for the provision of prostheses (artificial limbs) to people with amputations, and orthoses (supportive devices) to people with musculoskeletal disabilities. The responsibilities of the prosthetist-orthotist include; assessment of the client, the design, fabrication, fitting and alignment of prostheses and orthoses, and the monitoring and review of the devices used by their clients. The prosthetist-orthotics is an integral member of the health care team with a clinical, technical, advisory, and educational role.

National Institute for Deaf Studies and Sign Language Research (NIDS)

Director: Professor Jan Branson
Tel: (03) 9479 2283 (voice and TTY)
Fax: (03) 9479 3074
Email: nids@latrobe.edu.au
Web: www.latrobe.edu.au/hcs/nids

The National Institute for Deaf Studies and Sign Language Research offers units in AUSLAN (Australian Sign Language) and Deaf Studies in Melbourne (Bundoora) and Bendigo campuses.

The Bouverie Centre

Head of Centre: Dr Colin Reiss
Tel: (03) 9376 9844
Fax: (03) 9376 9890
Email: bouverie.centre@latrobe.edu.au
Web: www.latrobe.edu.au/bouverie

The Bouverie Centre, Victoria's Family Institute, is a statewide, integrated academic, clinical and community consultation agency, specialising in family approaches within mental health service provision. Clinical and community consultation services are targeted to deal with relevant adult, youth and child-related family difficulties, as well as providing some more specialised teams working with the impact of sexual abuse and acquired brain injury. The Centre has a long history of providing training to professionals working with families, offering award courses at the graduate certificate, Master, PhD and professional Doctorate levels, as well as a comprehensive continuing education program. Further information can be obtained from the website www.latrobe.edu.au/bouverie

DIVISION OF HEALTH STUDIES

Associate Dean: Professor Chris Handley
Executive Officer: Belinda Bain
Tel: (03) 9479 1750

Email: School of Human Biosciences,
School.Human.Biosciences@latrobe.edu.au
Email: School of Public Health, sph@latrobe.edu.au
Web: School of Human Biosciences, www.latrobe.edu.au/humanbio/
Web: School of Public Health, www.latrobe.edu.au/publichealth

The Division of Health Studies comprises the Schools of Human Biosciences and Public Health. Its aim is to improve the health of individuals and communities through excellence in learning and teaching and research relevant to contemporary health professionals in clinical, administrative and research roles.

The Division is responsible for the Bachelor degrees of Health Sciences, Health Information Management, and Public Health (Bendigo). It also offers a rich array of postgraduate courses, including the popular Master in Public Health, and research training at both the Masters and Doctoral levels.

An important part of the Division's role is to support clinical courses across the Faculty of Health Sciences through the teaching of core units in human anatomy and physiology, pharmacology, pathology, health administration and management and related areas. In this way, the Division contributes to the education of nurses, speech pathologists, physiotherapists, occupational therapists, podiatrists, prosthetists and orthotists, orthoptists, oral health professionals, social workers, counsellors, art therapists, as well as health sector managers, administrators and medical scientists.

School of Human Biosciences

Head of School: Associate Professor Douglas Rogers
Tel: (03) 9479 1750
Email: School.Human.Biosciences@latrobe.edu.au
Web: www.latrobe.edu.au/humanbio/

The School of Human Biosciences offers units at all undergraduate levels, including Honours, in a variety of basic and applied sciences that underpin the coursework of the clinical schools of the faculty, and of the Bachelor of Health Sciences. The School also offers physiology and anatomy units to students enrolled in other faculties of the University.

School of Public Health

Head of School: Professor Sandra Leggat
Tel: (03) 9479 1750
Email: sph@latrobe.edu.au
Web: www.latrobe.edu.au/publichealth/

The School of Public Health, located at the Melbourne (Bundoora) and Bendigo campuses, is one of the largest in Australia and is recognised as a leader in health policy and management and for the distinct contribution made by its social and behavioural scientists. The school provides multidisciplinary education, research, consultancy and community service in the field of public health, and offers the Bachelor of Health Information Management and the Bachelor of Health Sciences undergraduate degrees plus the Bachelor of Pastoral

Care (Graduate Entry). The school offers double-degree programs in the Bachelor of Health Information Management/Bachelor of Health Sciences, Bachelor of Health Sciences/Bachelor of Business, Bachelor of Health Sciences/Bachelor of Commerce, Bachelor of Health Sciences/Bachelor of International Development, Bachelor of Health Sciences/Bachelor of International Relations and the Bachelor of Health Sciences/Bachelor of Media Studies and also teaches in the Bachelor of Arts/Bachelor of Health Sciences. For further information on courses, contact the School.

DIVISION OF NURSING AND MIDWIFERY

Associate Dean: Professor Gerald A Farrell

Executive Officer: Joy Stubbings

Tel: (03) 9479 5950

Email: nurrec@latrobe.edu.au

Web: www.latrobe.edu.au/nursing/

The Division offers courses for entry into professional nursing and midwifery practice and a range of courses for registered nurses. Teaching is conducted at Melbourne (Bundoora), Albury-Wodonga, Bendigo, Mildura, and Shepparton campuses, but the Division has clinical schools at the Alfred Hospital, Austin Health, the Royal District Nursing Service, Bundoora Extended Care Centre, Albury-Wodonga Private Hospital, and Bendigo Health Care Group where some specialist units are taught. For further information, contact the Division.

DIVISION OF RESEARCH

Associate Dean: Professor Anthony Smith

Tel: (03) 9479 3583

Email: health@latrobe.edu.au

Web: www.latrobe.edu.au/health

The Division encompasses Australian Institute for Primary Care (AIPC), Australian Research Centre in Sex, Health and Society (ARCS), and Mother and Child Health Research Centre (MCHR), and Musculoskeletal Research Centre.

Australian Institute for Primary Care

Director: Associate Professor Peter Foreman

Inquiries

Tel: (03) 9479 3700

Email: aipc@latrobe.edu.au

Web: www.latrobe.edu.au/aipc

The Australian Institute for Primary Care promotes quality improvement and best practice in all areas of primary health care. It supports the integration of theory and practice in primary health care and promotes the standing and visibility of primary health care and community health services. The institute conducts research, consultancy, and education in community health services development, health promotion, and social issues in health, in particular in the areas of primary health and aged care.

The Australian Institute for Primary Care includes the Centre for Development and Innovation in Health, The Lincoln Centre for Ageing and Community Care Research, and the Centre for Quality in Health and Community Services. It provides secretariat services for the Quality Improvement Council. The Health Issues Centre is co-located at the Institute. Institute staff contribute to teaching and supervision in the School of Public Health. Research students may now also enrol directly through the institute.

Australian Research Centre in Sex, Health, and Society

Director: Professor Marian Pitts

Tel: (03) 9285 5382

Email: arcshs@latrobe.edu.au

Web: www.latrobe.edu.au/arcshs

The Australian Research Centre in Sex, Health, and Society, located at the Melbourne (City) Campus, was established in 1992 with core funding from the Victorian Health Promotion Foundation. Staff at the centre research the social, psychological, epidemiological, and cultural aspects of human sexuality and sexual health in a national and international context. In addition to conducting their own research, staff at the centre supervise postgraduate students and conduct a short course in research design in qualitative social enquiry.

The centre has a strong commitment to consulting and involving relevant community groups during the formulation and conduct of research and in providing feedback on research findings.

Mother and Child Health Research Centre

Director: Professor Judith Lumley

Tel: (03) 8341 8500

Email: mchr@latrobe.edu.au

Web: www.latrobe.edu.au/mchr

Mother and Child Health Research (formerly the Centre for the Study of Mothers' and Children's Health) was established in 1991 with a program grant from the Victorian Health Promotion Foundation and research grants from a range of agencies. In November 1994, the centre became part of the Faculty of Health Sciences at La Trobe University. MCHR has a broad public health and population focus taking account of the social aspects of health and medical care, valuing the contribution of a range of disciplines, seeing the health of mothers and babies as integrally related, and taking the health concerns of women themselves seriously. MCHR emphasises the need for research, service development, evaluation, and policy to be linked. Further information can be obtained from the web site at www.latrobe.edu.au/mchr/

Musculoskeletal Research Centre

Head of Centre: Associate Professor Hylton Menz

Tel: (03) 9479 5766

Email: h.menz@latrobe.edu.au

Web: www.latrobe.edu.au/mrc

The Musculoskeletal Research Centre (MRC) was established in January 2000. The aim of this centre is to draw together researchers, academics, and clinicians from a range of schools at the university, the La Trobe University Medical Centre, and other health care institutions. Research at the MRC provides an evidence base for clinical practice in the musculoskeletal and sports field. The MRC also provides a central focus for personnel, equipment, and funding to advance knowledge in this area. Further information can be obtained from the MRC website www.latrobe.edu.au/mrc.

Units Offered by the Faculty

A full description of Health Sciences units appears at the end of this chapter, in alphabetical order by unit code. Students should note that units published in the hardcopy Handbook are subject to change and should refer to the unit database for up-to-date information: www.latrobe.edu.au/udb_public

Electives units offered by the Faculty appear at the end of the courses section prior to the unit descriptions.

Courses Offered by the Faculty

DIVISION OF ALLIED HEALTH

Bachelor of Arts with a sequence in Deaf Studies – Melbourne (Bundoora) (ABA)

For details on the Bachelor of Arts course structure, see the entry in the Faculty of Humanities and Social Sciences section of this *Handbook*.

National Institute for Deaf Studies and Sign Language Research

Tel: (03) 9479 2283

Australian sign language (AUSLAN) is the native language of Australia's deaf community. The units in AUSLAN emphasise learning the language in its social and cultural context. Classes are mainly conducted in AUSLAN. Students with no prior knowledge of the language, as well as those with previous experience, are welcome. Staff teach the units offered from the National Institute for Deaf Studies and Sign Language Research, who are engaged in a wide range of research in the area.

Course structure

All units are normally sequentially based and are offered subject to the availability of appropriate staffing and minimum enrolments.

First year

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1 or TE-SEM-S	DFS1ANA	AUSLAN 1A	15
TE-SEM-2 or TE-SEM-S	DFS1ANB	AUSLAN 1B	15

Second year

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1	DFS2ANA	AUSLAN 2A	20
TE-SEM-2	DFS2ANB	AUSLAN 2B	20

Third year

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1	DFS3ANA	AUSLAN 3A	20
TE-SEM-2	DFS3ANB	AUSLAN 3B	20

Bachelor of Human Services – Albury-Wodonga (HBHSVW); Bendigo (HBHSVB); Melbourne (Bundoora) (HBHSV)

Albury-Wodonga
Tel: (02) 6024 9802
Bendigo
Tel: (03) 5444 7415
Melbourne (Bundoora)
Tel: (03) 9479 5815
Duration: 3 years

This course is designed to prepare graduates for work in welfare agencies in service provision, research, and administrative roles. Students will develop the knowledge, values, and skills appropriate for understanding the welfare needs of individuals, families, groups, and communities and methods of responding to these needs. Students will develop the capacity for analysing and working effectively within welfare organisations, including work in interdisciplinary teams. Elective studies are available in social policy, community work, and a range of fields of practice.

The curriculum of the course is based on a philosophy of social justice, and is taught within an adult-learning model.

Degree requirements

The course is offered as a three-year degree for post-VCE entry. Advanced standing may be offered to suitably qualified applicants. After successful completion of one year of this degree, students may apply to transfer to the Bachelor of Social Work/Bachelor of Human Services.

After successful completion of two years of this degree, students may apply to transfer to the two-year degree Bachelor of Social Work (Advanced Standing).

Course structure

Students are required to undertake a course of studies equivalent to that listed below. Some unit codes differ depending upon the campus of offer. The following course structure is that for the Melbourne (Bundoora) Campus. For the structure of courses offered at the Albury-Wodonga and Bendigo campuses, please refer to those campus entries elsewhere in this *Handbook*.

Electives, subject to approval, may be chosen from the complete range of units offered on the campus where a student is enrolled. From time to time students may be required to attend some lectures and seminars in block mode and/or out of normal university hours.

First year

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1	PSY1PYA	Psychology A	15
TE-SEM-1	SOC1SAC	Self and Community: Introduction to Sociology	15
TE-SEM-1	SWP1ITP	Introduction to Social Work A	15
TE-SEM-1		Elective	15
TE-SEM-2	PSY1PYB	Psychology B	15

TE-SEM-2	SOC1AAB	Australia and Beyond: Introduction to Sociology	15
TE-SEM-2	SWP1SPP	Social Policy and Practice A	15
TE-SEM-2		Elective	15

Second year

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1	SWP2DLC	Development Across the Life Course in Social Contexts	20
TE-SEM-1	SWP2PPH	Professional Practice: History and Values	30
TE-SEM-1		Elective	20
TE-SEM-2	SWP2OCP	Organisation Contexts of Social Work Practice	20
TE-SEM-2	SWP2REC	Social Work and Reflective Communication	20
TE-SEM-2	SWP2RES	Research for Social Work Practice A	10

Third year

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1		Elective	20
TE-SEM-1		Elective	20
TE-SEM-1	SWP3LER	Social Work Practice: Law Ethics and Human Rights	15
TE-SEM-2	HLT3IPA	Interdisciplinary Professional Practice	15
TE-WK29-35	SWP3FOP	Fields of Social Work Practice A	15
TE-WK29-35	SWP3RES	Research for Social Work Practice B	15
TE-SEM-2		Elective	20

Bachelor of Occupational Therapy – Melbourne (Bundoora) (HBOT)

Division of Allied Health: (03) 9479 5815
Duration: 4 years

Occupational therapy aims to address people's occupational needs and the loss of daily living skills, which follows physical, emotional, psychological, and social disorders. Units studied in the Bachelor of Occupational Therapy include general and health sciences, professional and clinical studies. It provides graduates with the skills necessary for the delivery of quality occupational therapy services. The World Federation of Occupational Therapists (WFOT) recognises the Bachelor of Occupational Therapy and graduates are normally eligible for membership of OT AUSTRALIA, the Australian Association of Occupational Therapists Inc (AAOT).

Degree requirements

This is a four-year, full-time course. Students must successfully complete all units outlined in the course structure.

Throughout the course, students must obtain not less than 1000 hours of supervised clinical experience in a variety of hospital and community settings. Clinical placements must be taken in both metropolitan and rural settings and students may apply for an interstate or overseas placement. Fieldwork is often undertaken outside standard teaching periods in second and third year of the course. Students must undertake at least one fieldwork block in a rural setting. All travel and accommodation costs are at students' expense.

Course structure

This course incorporates lectures, tutorials, and practica and research projects. The Bachelor of Occupational Therapy has a coordinator for each year of the course.

The first year of the course focuses on the normal structure and function of the human body, psychological and social development processes. Students are introduced to the theories and principles upon which occupational therapy is based and learn to analyse the role of activities in promoting a person's competence, health, and sense of wellbeing.

In the second and third years, students progressively learn more about disease, disability, and disadvantage. They develop skills in the therapeutic use of activities, the application of individual and group assessment and treatment techniques, and the design and adaptation of equipment and environmental modification. Students also learn how to evaluate research in occupational therapy and the fundamentals of research design.

In the fourth year, students continue to refine their knowledge and skills, largely in elective areas and learn more about administration, management and the health care system.

An integral part of the course is the provision of supervised clinical experiences, with clinical placements enabling students to develop a sound basis for professional practice. Placements are completed in a variety of clinical settings and may take place in Melbourne, country Victoria and elsewhere.

Victorian state government legislation requires staff and students who work with clients and food preparation in any manner to complete a short course on 'food hygiene for food handlers'. The School of Occupational Therapy gives all first year students the opportunity to complete this course in order to meet the requirements of their clinical placements.

First year

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1	HBS1APH	Human Anatomy and Physiology	15
TE-SEM-1	OCT1THA	Introduction to Occupational Therapy 1	30
TE-SEM-1	PSY1PYA	Psychology A	15
TE-SEM-2	HBS1ALU	Anatomy: Lower and Upper Limbs	10
TE-SEM-2	HBS1HBF	Human Body Function	10
TE-SEM-2	OCT1DEV	Human Development for Occupational Therapists	10
TE-SEM-2	OCT1THB	Occupational Therapy B: Studies in Human Occupation	5
TE-SEM-2	PSY1PYB	Psychology B	15
TE-SEM-2	STA1OCT	Statistics for Occupational Therapy	10

Second year

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1	HBS2NEU	Neurosciences A	5
TE-SEM-1	HBS2PAG	General Pathology	5
TE-SEM-1	OCT2CON	Occupational Therapy Conditions	5
TE-SEM-1	OCT2CPS	Clinical Psychiatry	5
TE-SEM-1	OCT2THC	Occupational Therapy C: Theory, Process and Practice	25
TE-SEM-1	PHE1RMH	Research Methods in Health 1	5
TE-SEM-2	OCT2INA	Occupational Therapy Intervention A: Psychosocial Practice	20
TE-SEM-2	OCT2INB	Occupational Therapy Intervention B: Physical Intervention	20
TE-SEM-2	OCT2INC	Occupational Therapy Intervention C: Paediatrics in Occupational Therapy	10
TE-SEM-2	OCT2PRB	Clinical Practice	10
TE-SEM-2	OCT2THD	Occupational Therapy D: Occupational Living	10

Third year

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1	OCT3AGP	The Ageing Population	10
TE-SEM-1	OCT3IND	Occupational Therapy Intervention D: Neurological Interventions	25
TE-SEM-1	OCT3INE	Occupational Therapy Intervention E: Psychosocial Intervention	10
TE-SEM-1	OCT3PRC	Clinical Practice	15
TE-SEM-2	OCT3INF	Occupational Therapy Intervention F: Integrated Practice	10
TE-SEM-2	OCT3PRD	Clinical Practice	15
TE-SEM-2	OCT3THE	Occupation, Personal and Community Development	15
TE-SEM-2 or	OCT3CRA	Critical Review in Occupational Therapy A (Pass)	5
TE-SEM-2 plus	OCT3RSB	Research for Occupational Therapists (Honours)	5
TE-SEM-1	Elective	Taken outside of School of Occupational Therapy	15

Fourth year

Teaching period	Unit code	Unit title	Credit points
TE-ALLYR or	OCT4CRB	Critical Review in Occupational Therapy B (Pass)	40
TE-ALLYR	OCT4RSD	Occupational Therapy Research Project (Honours)	40
TE-SEM-1	HLT3IPA	Interdisciplinary Professional Practice	15
TE-SEM-1	OCT4THG	Occupational Therapy G: Adult Learning in Practice	5
TE-SEM-2 plus	OCT4PRE	Clinical Practice	40
TE-SEM-2	Electives	Taken within the School of Occupational Therapy (10 credit points each elective)	20

Electives

Students must complete elective units across third and fourth year of the undergraduate program, at 35 credit points. The elective in third year will be selected from outside the School of Occupational Therapy, but from within the university.

Elective units from within the School of Occupational Therapy

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1	OCT4AMH	Advanced Issues in Mental Health	10
TE-SEM-1	OCT4AGW	Advanced Group Work	10

TE-SEM-1	OCT4AOT	Applied Orthotics in Therapy	10
SUMMER	OCT4AOT	Applied Orthotics in Therapy	10
TE-SEM-1	OCT4CAM	Child and Adolescent Mental Health in Occupational Therapy	10
TE-SEM-1	OCT4CGA	Counselling From A Gestalt Approach	10
TE-SEM-1	OCT4CHI	Occupational Therapy Practice with Children	10
TE-SEM-1	OCT4NEU	Neurological Rehabilitation in Occupational Therapy	10
TE-SEM-1	OCT4OCC	Occupational Health	10
TE-SEM-1	OCT4OSC	Occupational Science	10
TE-SEM-1	OCT4RCD	Therapeutic Relationships In Chronic Diseases	10
TE-SEM-1	OCT4RCF	Working With Children and Families	10
TE-SEM-1	OCT4RCT	Assisting People In Crisis and Emotional Trauma	10
TE-SEM-1	OCT4ULI	Upper Limb Intervention	10
TE-SEM-1	OCT4SEN	Sensory Rehabilitation: Assessment and Training	10
TE-SEM-1	OCT4NSI	Neuroscience Intervention	10
TE-SEM-1	OCT4OAD	Occupational Adaptation	10
TE-SEM-1	OCT4RLG	Loss and Facilitating Grieving	10
TE-SEM-1	OCT4RPD	Living with Pain and Disability	10
TE-SEM-1	OCT4SCR	Sexual Counselling	10

Note: Electives units are offered subject to sufficient enrolments and some units may not be offered.

Elective units from outside Occupational Therapy

Students are able to select a 15-credit point unit from within the university, with the following conditions:

- the unit is of an equivalent academic level
- there are no timetable clashes with the School of Occupational Therapy units
- the elective taken from outside the school is approved by both the fourth year coordinator and the elective coordinator.

Honours degree

An Honours program is available to those students who have achieved results of a high academic standard. Honours eligibility is determined by a system that weights the marks achieved in first, second and third year units (first teaching period). The Honours course runs over three teaching periods commencing in the second teaching period of third year, and students who are eligible for admission to the Honours stream will be informed prior to its commencement. The units only taken by Honours students are:

Teaching period	Unit code	Unit title	Credit points
TE-SEM-2	OCT3RSB	Research for Occupational Therapists (Honours)	5
TE-ALLYR	OCT4RSD	Occupational Therapy Research Project (Honours)	40

Grades awarded to students successfully completing Honours are H1, H2A, H2B or H3.

Bachelor of Occupational Therapy/Bachelor of Psychological Science – Melbourne (Bundoora) (HZOTBB)

Division of Allied Health: (03) 9479 5815

Duration: 5 years

Broadly, the goal of occupational therapy is to habilitate and rehabilitate people who have difficulties managing their daily activities. Occupational therapy aims to address people's occupational needs and the loss of daily living skills which follows physical, emotional, psychological and social disorders. Behavioural science provides a comprehensive education in psychology, in which graduates complete an approved three-year sequence of studies accredited by the Australian Psychological Society.

The Bachelor of Behavioural Science is an established foundation for the further education, training and supervised experience required for registration as a professional psychologist with the Psychologists Registration Board of Victoria and for membership of the Australian Psychological Society (APS).

Degree requirements

This is a five-year, full-time course. Students must successfully complete all units outlined in the course structure. Throughout the course students must obtain not less than 1000 hours of supervised clinical experience in a variety of hospital and community settings.

Course structure

This course incorporates a combination of lectures, tutorials, practical and laboratory sessions. In the first year of the course, students learn about normal human functioning and development, and are introduced to occupational therapy theory and studies in human occupation. In subsequent years, students progressively learn more about impairment, disability and handicaps and their impact on human occupations, as well as learning about research and evaluation. Students are introduced to the methods of research and analysis used in psychology, and are taught theories and knowledge in four core content areas: biological psychology; developmental and cognitive psychology; individual differences and abnormal psychology; and social psychology. Students will develop skills in the therapeutic use of occupations, individual and group assessment, and therapy techniques. They will also learn to design equipment and adapt environments to promote optimum performance of persons with disabilities.

Integral to the degree is the provision of supervised occupational therapy clinical experiences, enabling students to develop a sound basis for professional practice. Placements are completed in a variety of clinical settings and may take place in Melbourne, country Victoria and elsewhere.

Victorian state government legislation requires staff and students who work with clients and food preparation in any manner to complete a short course on 'food hygiene for food handlers'. The School of Occupational Therapy gives all first year students the opportunity to complete this course in order to meet the requirements of their clinical placements.

First year

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1	HBS1APH	Human Anatomy and Physiology	15
TE-SEM-1	OCT1THA	Introduction to Occupational Therapy 1	30

Honours degree

An Occupational Therapy Honours program is available to those students who have achieved results of a high academic standard. Eligibility for occupational therapy Honours is determined by a system which weights first, second and third year units (first teaching period). The Honours course runs over three teaching periods commencing in the second teaching period of fourth year, and students who are eligible for admission to the Honours stream will be informed prior to its commencement. The units only taken by Honours students are:

Teaching period	Unit code	Unit title	Credit points
TE-SEM-2	OCT3RSB	Research for Occupational Therapists (Honours)	5
TE-ALLYR	OCT4RSD	Occupational Therapy Research Project (Honours)	40

Grades awarded to students successfully completing Honours are H1, H2A, H2B or H3.

The Honours program in Behavioural Science will be available as an additional sixth year to students who meet the prerequisites.

A full description of units, including the unit name, unit code, credit points, campus/location, unit coordinator, class requirements, assessment, prerequisites and readings, appears at the end of this chapter. For the most recent descriptions of units students should access the unit database at www.latrobe.edu.au/udb_public

Bachelor of Occupational Therapy/Bachelor of Ergonomics, Safety and Health – Melbourne (Bundoora) (HZOTBE)

Division of Allied Health: (03) 9479 5815

Duration: 5 years full-time

Broadly, the goal of occupational therapy is to habilitate and rehabilitate people who have difficulties managing their daily activities. Occupational therapy aims to address people's occupational needs and the loss of daily living skills which follows physical, emotional, psychological and social disorders. Ergonomics is an applied science in which basic knowledge drawn from both psychological and biological sciences is developed by researchers and applied via professions such as engineering, organisational psychology, occupational therapy and physiotherapy. Its purpose is to optimise the operating efficiency of the person-task-environment system by adapting task and environment factors to fit human needs and capacities.

Degree requirements

This is a five-year, full-time course. Students must successfully complete all units outlined in the course structure. Throughout the course students must obtain not less than 1000 hours of supervised clinical experience in a variety of hospital and community settings.

Course structure

This course incorporates lectures, laboratory classes, tutorials, practical and research projects. In the first year of the course, students learn about normal human functioning and development, and are introduced to occupational therapy theory and studies in human occupation. In subsequent years, students progressively learn more about impairment, activity limitations and participation restrictions and their impact on human occupations, as well as learning about research and evaluation. There will be an increasing emphasis on ergonomics, with students studying the biological and psychological bases of ergonomics, the relationship between ergonomics and ageing, ergonomics in the workplace, and ergonomics analysis and evaluation methods. Students will also complete projects in both occupational therapy and ergonomic practice.

Integral to the degree is the provision of supervised occupational therapy clinical experiences, enabling students to develop a sound basis for professional practice. Placements are completed in a variety of clinical settings and may take place in Melbourne, country Victoria and elsewhere.

Victorian state government legislation requires staff and students who work with clients and food preparation in any manner to complete a short course on 'food hygiene for food handlers'. The School of Occupational Therapy gives all first year students the opportunity to complete this course in order to meet the requirements of their clinical placements.

Honours degree

An Honours program is available to those students who have achieved results of a high academic standard. Eligibility for Honours is determined by a system that weights first second and third year units. The Honours course runs over three teaching periods commencing in the second teaching period of third year, and students who are eligible for admission to the Honours stream will be informed prior to its commencement. The units taken only by Honours students are:

Teaching period	Unit code	Unit title	Credit points
TE-SEM-2	OCT3RSB	Research for Occupational Therapists (Honours)	5
TE-ALLYR	OCT4RSD	Occupational Therapy Research Project (Honours)	40

Grades awarded to students successfully completing Honours are H1, H2A, H2B or H3. Students who perform at a high level in the ergonomics component of the double degree may undertake an additional honours year, preparing students for postgraduate research in ergonomics.

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1	HBS4HPA	Honours in Human Physiology and Anatomy	60
TE-SEM-2	HBS4HPA	Honours in Human Physiology and Anatomy	60

Bachelor of Orthoptic and Ophthalmic Sciences – Melbourne (Bundoora) (HBOOS)

Division of Allied Health: (03) 9479 5815

Duration: 3.5 years full-time

The course equips graduates to provide specialist clinical investigation of eye disease, including diagnosis of eye movement disorders, non-surgical management of specific eye problems and rehabilitation techniques for people with low vision. Studies include anatomy, physiology, ocular pathology, professional and clinical studies.

Clinical placements are undertaken at selected city, rural/regional, interstate and overseas hospitals and clinics. Some clinical placements are undertaken during teaching period breaks and students are expected to undertake an interstate or overseas placement at least once during the course. Students must meet the travel and accommodation costs associated with clinical practice. Prescribed uniforms are compulsory at all clinical placements and dress regulations are displayed on school notice boards. It is expected that students will purchase some clinical equipment for use in clinical examinations.

Degree requirements

This is a full-time course of 3.5 years' duration. Students are required to attend the Melbourne (Bundoora) Campus and external clinical placements.

Students are assessed through a variety of methods, such as examinations, assignments and practical work. Details of assessment in each unit are available from the school at the beginning of the academic year. Students are expected to purchase lecture and laboratory manuals.

Course structure

First year

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1	HBS1APH	Human Anatomy and Physiology	15
TE-SEM-1	ORT1OAP	Protective Structures and Clear Media	15
TE-SEM-1	ORT1OPV	Optics and Vision	15
TE-SEM-1	PHE1PHC	Introduction to Public Health C	10
TE-SEM-1	PHE1PCS	Introduction to Professional Communication Skills	5
TE-SEM-2	HBS1HBF	Human Body Function	10
TE-SEM-2	ORT1ANT	Anterior Segment	15
TE-SEM-2	ORT1REF	Refraction	15
TE-SEM-2	ORT1RET	Retina	15
TE-SEM-2	PHE1PHD	Introduction to Public Health D	5

Second year

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1	HBS2NEU	Neurosciences A	5
TE-SEM-1	HBS2PAG	General Pathology	5
TE-SEM-1	ORT2BIN	Binocular Vision	15
TE-SEM-1	ORT2BMI	Biomedical Instrumentation	5
TE-SEM-1	ORT2CLI	Clinical Practice A	10
TE-SEM-1	ORT2RET	Retinal Disorders	15
TE-SEM-1	PHE1RMH	Research Methods in Health 1	5
TE-SEM-2	HBS2PHA	Pharmacology	5
TE-SEM-2	ORT2CON	Concomitant Strabismus	15
TE-SEM-2	ORT2NEU	Neuro-ophthalmic Disorders A	15
TE-SEM-2	ORT2OPH	Ophthalmic Practice	15
TE-SEM-2	ORT2RDO	Research Design in Orthoptic Practice	5
TE-SEM-2	PHE2RMH	Research Methods in Health 2	5

Third year

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1	ORT3EYE	Eye Health Care Systems	10
TE-SEM-1	ORT3INC	Incomitant Strabismus	15
TE-SEM-1	ORT3NEU	Neuro-ophthalmic Disorders B	15
TE-SEM-1	PHE2BDA	Behavioural Determinants of Health A	5
TE-SEM-1		Elective	15
TE-SEM-2	ORT3CLI	Clinical Practice B	60

Fourth year

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1	HLT3IPA	Interdisciplinary Professional Practice	15
TE-SEM-1	ORT4OPH	Case Management – Ophthalmic Disorders	15
TE-SEM-1	ORT4REH	Case Management – Rehabilitation	15
TE-SEM-1	ORT4SPO	Case Management – Strabismus and Paediatric Ophthalmology	15

Professional recognition

Graduates are eligible for registration with the Australian Orthoptic Board. Graduates are eligible for membership of the Orthoptic Association of Australia, which entitles graduates to membership of the International Orthoptic Association. The Bachelor of Orthoptic and Ophthalmic Sciences is generally recognised internationally, in particular in the UK, USA, Europe and Asia.

Honours year (HHOOS)

Students may be invited to undertake the Honours program. Offers are made on the basis of academic merit. The Honours program is undertaken in the second half of third year and continues through the second teaching period of the fourth year. Honours units are taken concurrently with the undergraduate units in semester two of third year and semester one of fourth year. Honours students normally undertake the Faculty unit Interdisciplinary Professional Practice (HLT3IPA) in semester two of fourth year.

Third year

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1		Same as pass stream	60
TE-SEM-2	ORT3CLH	Clinical Practice B Honours	50
TE-SEM 2/S	ORT3CLR	Orthoptic Critical Literature Review	10

Fourth year

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1	ORT4OPH	Case Management – Ophthalmic Disorders	15
TE-SEM-1	ORT4REH	Case Management – Rehabilitation	15
TE-SEM-1	ORT4SPH	Case Management – Strabismus and Paediatric Ophthalmology	15
TE-WO7-22	PHE4RMH	Research Methods in Health 4	15
TE-SEM-2	HLT3IPA	Interdisciplinary Professional Practice	15
TE-SEM-2	ORT4ORP	Orthoptic Research Project	45

Advanced status

Enrolment with advanced status is available to qualified orthoptists wishing to upgrade to a Bachelor's degree. Contact the school Administration Manager for details.

Bachelor of Physiotherapy – Bendigo (HBPHBE), Melbourne (Bundoora) (HBPH)

Division of Allied Health: (03) 9479 5815

Duration: 4 years

Physiotherapists assess and treat patients with temporary or long-term physical injuries, movement disorders or disability, aiming to achieve the highest possible degree of recovery, activity, participation and quality of life. They may work independently or as members of health care teams. Physiotherapists are active in the prevention of illness and injury and in the promotion of health. Physiotherapists are also involved in clinical research, movement rehabilitation, ergonomics and the management of health care organisations. Units include general and health sciences, professional, clinical and research related studies.

Degree requirements

The course involves pre-clinical and clinical study over four years and is offered on a full-time basis. Students are required to complete all of the units listed in the course structure and are normally expected to complete all of one year's work before enrolling in a later-year unit. In each year, the physiotherapy units are usually co-requisites for each other. Earlier year physiotherapy units are prerequisites for study in later years.

Students are required to reach a satisfactory standard in both the theoretical/written and practical/clinical components of all physiotherapy units in the course. All students have the opportunity to complete 15 credit points of elective units in third year.

Course structure

During the first part of the course, students study basic biological, medical and behavioural sciences, including anatomy, physiology, psychology, and research methods. The theory and application of specific physiotherapy techniques and the clinical reasoning process are introduced. All students undertake the first two years of study at the Melbourne (Bundoora) Campus. In the third and fourth years, students build on and apply their knowledge and skills to the physiotherapy management of specific disorders and acquire skills in health promotion, evidence-based practice and outcomes measurement. Students treat patients under supervision in hospitals and other clinical settings, in metropolitan and rural settings, in order to gain a sound basis for clinical practice. For students enrolled in the Melbourne (Bundoora) program, lectures, demonstrations and practical sessions are held at the Melbourne (Bundoora) Campus. All students enrolled in the Bendigo program will complete third and fourth year studies based at Bendigo Health. Assessment is conducted by means of written, practical and clinical examinations as well as web-based assignments. Details for each unit are available at the beginning of the semester. Attendance requirements for practical classes and clinics must be met in order to be eligible for assessment in these units.

Clinical practica are often undertaken outside standard teaching periods. Bundoora program students are expected to undertake at least one five-week clinical practicum in a rural setting and Bendigo program students must undertake at least one in a metropolitan setting. All travel and accommodation costs are at students' expense.

First year

Teaching period	Unit code	Unit title	Credit points

TE-SEM-1	PTY4PRG	Physiotherapy in Rehabilitation and Gerontology	10
plus			
TE-SEM-1		Core Clinical Practicum	20–40
TE-SEM-2		Clinical Electives	40

Third year electives

Third year elective units (or suitable electives from elsewhere within the university) – these units have quotas – please check relevant unit descriptions online.

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1	HBS2PEA	Design for Safe System Performance	15
TE-SEM-1	PTY3FEL	Introduction to Feldenkrais	15
TE-SEM-1	PHE3SEP	Sport and Exercise Psychology	15
TE-SEM-1	HBS3APP	Advanced Physiology and Pathology	15
TE-SEM-1	OCT3OHS	Introduction to Occupational Health and Safety Principles and Legislation	15
TE-SEM-1	DFS1ANA	Auslan 1A	15

Core clinical practica

Four 5-week, full-time clinical placements are undertaken between the middle of third year to the middle of fourth year in the course. Students are allocated to a clinical school for the four core units. All travel and accommodation costs are at students' expense. Students undertake two or three of the clinics in third year, and one or two in fourth year. Students must gain experience in the areas of cardiorespiratory physiotherapy, neurological physiotherapy, and musculoskeletal physiotherapy. The unit codes and titles are as follows:

Teaching period	Unit code	Unit title	Credit points
TE-SEM-2	PTY3CCA	Core Clinical A	20
TE-SEM-2	PTY3CCB	Core Clinical B	20
TE-SEM-2	PTY3CCC	Core Clinical C	20
TE-SEM-1	PTY4CCC	Core Clinical C	20
TE-SEM-1	PTY4CCD	Core Clinical D	20

Elective clinical practica

The clinical elective comprises two full-time, 5-week clinical placements. The specific areas of practice are selected to complement and build on the student's prior clinical experiences and/or to develop an area of particular interest.

Teaching period	Unit code	Unit title	Credit points
TE-SEM-2	PTY4CEA	Clinical Elective A	20
TE-SEM-2	PTY4CEB	Clinical Elective B	20

The electives require completion of all four core clinical units as a prerequisite.

Professional recognition

Students are required to register with the Physiotherapist Registration Board of Victoria.

Graduates are eligible for registration with the Physiotherapists Registration Board in any state or territory. Registration is an essential prerequisite for physiotherapy practice in Australia.

Honours program

A sequence of units in the third and fourth years of the course leads to the award of an Honours degree. Applicants are selected at the end of the second year on the basis of academic results achieved in the first and second year units of the Bachelor of Physiotherapy. From each of these units, a grade point average is calculated. Further details are made available at the commencement of the Honours program. Honours candidates undertake a research design unit in place of the third year elective and a research project in place of the unit PTY4EBP Evidence-based Practice in Physiotherapy in fourth year.

Teaching period	Unit code	Unit title	Credit points
TE-ALLYR	PTY3HON	Research Design in Physiotherapy	15
TE-ALLYR	PTY4HON	Honours Thesis	45

Bachelor of Physiotherapy/Bachelor of Ergonomics – Melbourne (Bundoora) (HZPHE)

Division of Allied Health: (03) 9479 5815

Duration: 5 years

Note: This program is only available to continuing students.

Physiotherapists assess and treat patients with temporary or long-term physical injuries, movement disorders or disability, aiming to achieve the highest possible degree of recovery, activity, participation and quality of life. They may work independently or as members of health care teams. Physiotherapists are active in the prevention of illness and injury and in the promotion of health. Physiotherapists are also involved in clinical research-movement rehabilitation, ergonomics and the management of health care organisations. Units include general and health sciences, professional, clinical and research related studies.

The Physiotherapy/Ergonomics double degree was established to provide students with a course to broaden their knowledge base and work opportunities within the fields of physiotherapy and ergonomics. Ergonomics is an applied science in which basic knowledge is drawn from both psychological and biological sciences and is then applied via professions such as physiotherapy, occupational therapy, engineering and organisational psychology.

Degree requirements

The course involves pre-clinical and clinical study over five years and is offered on a full-time basis. The first two years of the double degree are the same as those for the Bachelor of Physiotherapy course. Students are required to complete all of the units listed in the course structure and are expected to complete all of one year's work before enrolling in a later-year unit. In each year, the physiotherapy units are usually co-requisites for each other. Earlier year physiotherapy units are prerequisites for study in later years.

Students are required to reach a satisfactory standard in both the theoretical/written and practical/clinical components of all physiotherapy units in the course.

Students are admitted to the course after satisfactory completion of first and second year of the Bundoora Bachelor of Physiotherapy course. Students in the Bendigo program are not eligible. Applicants will be selected on the basis of their academic results in this course. Eligible students must have a minimum C-grade average, with no fails in any unit.

Course structure

During the first part of the course, students study basic biological, medical and behavioural sciences, including anatomy, physiology, psychology and research methods, and the theory and application of specific physiotherapy techniques, and the clinical reasoning process is introduced. In the third and fourth years, students build on and apply their knowledge and skills to the physiotherapy management of specific disorders, and acquire skills in health promotion, evidence-based practice and outcomes measurement. Also, there will be an increasing emphasis on ergonomics, with students studying the biological and psychological basis of ergonomics, the relationship between ergonomics and ageing, ergonomics in the workplace, and ergonomics analysis and evaluation methods. Students will also complete projects in ergonomic practice. Students treat patients under supervision in hospitals and other clinical settings in order to gain a sound basis for clinical practice. Lectures, demonstrations and practical sessions are held at the Melbourne (Bundoora) Campus. Students attend a variety of clinical settings in a number of hospitals and special centres for observation and practice both in metropolitan and rural settings.

Assessment is conducted by means of written, practical and clinical examinations as well as web-based assignments. Details for each unit are available at the beginning of the semester. Attendance requirements for practical classes and clinics must be met in order to be eligible for assessment in these units.

Clinical practicals are often undertaken outside standard teaching periods. Students must undertake at least one 5-week clinical practicum in a rural setting. All travel and accommodation costs are at students' expense.

On successful completion of all physiotherapy units in fourth year, students will be eligible to register to practice with the Physiotherapist Registration Board of Victoria. The fifth year is comprised entirely of units in the Bachelor of Ergonomics.

First year

Teaching period	Unit code	Unit title	Credit points
TE-ALLYR	PTY1CLP	Physiotherapy Clinical Practice 1	10
TE-SEM-1	HBS1PPA	Physiology A	15
TE-SEM-1	HBS1APA	Anatomy for Physiotherapy A	15
TE-SEM-1	PHE1PHC	Introduction to Public Health C	10
TE-SEM-1	PTY1PSA	Physiotherapy Skills A	15
TE-SEM-2	HBS1BBE	Biophysical Bases of Electrotherapy	5
TE-SEM-2	HBS1BHM	Biomechanics of Human Movement	10
TE-SEM-2	HBS1APB	Anatomy for Physiotherapy B	15
TE-SEM-2	PHE1RMH	Research Methods in Health 1	5
TE-SEM-2	PTY1PSB	Physiotherapy Skills B	15

Second year

Teaching period	Unit code	Unit title	Credit points
TE-ALLYR	PTY2CLP	Physiotherapy Clinical Practice 2	15
TE-SEM-1	HBS2PPB	Physiology B	15
TE-SEM-1	HBS2APC	Anatomy for Physiotherapy C	15
TE-SEM-1	PHE2BDA	Behavioural Determinants of Health A	5
TE-SEM-1	PTY2CDP	Child Development in Physiotherapy	5
TE-SEM-1	PTY2PSC	Physiotherapy Skills C	15
TE-SEM-2	HBS2NSM	Neuroscience of Sensation and Movement	5
TE-SEM-2	HBS2PPY	Pathology and Pharmacology	10
TE-SEM-2	PHE2BDB	Behavioural Determinants of Health B	5
TE-SEM-2	PHE2RMH	Research Methods in Health 2	5
TE-SEM-2	PTY2EPA	Electrophysical Agents	15
TE-SEM-2	PTY2PAE	Paediatric Physiotherapy	5
TE-SEM-2	PTY2PSD	Physiotherapy Skills D	10

Third year

Teaching period	Unit code	Unit title	Credit points
TE-ALLYR	PTY3PHE	Interpersonal Processes and Professional Practice	5
TE-SEM-1	PTY3CRP	Cardiorespiratory Physiotherapy – Theory and Practice	15
TE-SEM-1	PTY3NEU	Neurological Physiotherapy – Theory and Practice	15
TE-SEM-1	PTY3MSP	Musculoskeletal Physiotherapy – Theory and Practice	15
TE-SEM-1	HBS2PEA	Design for Safe System Performance	15
plus			
TE-SEM-2		Core Clinical Practicum	60

Fourth year

Teaching period	Unit code	Unit title	Credit points
TE-ALLYR	PTY4EBP	Evidence-based Practice in Physiotherapy	20
TE-SEM-2	HLT3IPA	Interdisciplinary Professional Practice	15
TE-SEM-1	PTY4AMS	Advanced Musculoskeletal Physiotherapy	5
TE-SEM-1	PTY4PWH	Introduction to Physiotherapy in Women's Health	5
TE-SEM-1	PTY4PRG	Physiotherapy in Rehabilitation and Gerontology	10
TE-SEM-1	HBS2PEB	Workload, Stress and Performance Management	15
TE-SEM-2	HBS2BEM	Biological Bases of Ergonomics M	15
TE-SEM-2	HBS2BEW	Healthy Workplace Design	15
plus			
TE-SEM-1		Core Clinical Practicum	20
TE-SEM-2	PTY4CEA	Clinical Elective	20

Fifth year

Teaching period	Unit code	Unit title	Credit points
TE-ALLYR	HBS3EAM	Ergonomics Analysis Methods	40
TE-ALLYR	HBS3ESS	Ergonomics and Systems Safety	25
TE-SEM-1	HBS3DAI	Systems Data Analysis	20
TE-SEM-2	HBS3ESH	Reviews of Ergonomics, Safety and Health Issues	20
TE-SEM-1	HBS3EAG	Ergonomics and Ageing	15
TE-SEM-1	OCT3OHS	Introduction to Occupational Health and Safety	15

Core clinical practica

Four 5-week, full-time clinical placements are undertaken between the middle of third year to the middle of fourth year in the course. All travel and accommodation costs are at students' expense. Students undertake three clinics in third year, and one in fourth year. Students must gain experience in the areas of cardiorespiratory physiotherapy, neurological physiotherapy, and musculoskeletal physiotherapy. The unit codes and titles are as follows:

Teaching period	Unit code	Unit title	Credit points
TE-SEM-2	PTY3CCA	Core Clinical A	20
TE-SEM-2	PTY3CCB	Core Clinical B	20
TE-SEM-2	PTY3CCC	Core Clinical C	20
TE-SEM-1	PTY4CCC	Core Clinical C	20
TE-SEM-1	PTY4CCD	Core Clinical D	20

Elective clinical practica

The clinical elective comprises one full-time, 5-week clinical placement. The specific areas of practice are selected to complement and build on the students prior clinical experiences and/or to develop an area of particular interest.

Teaching period	Unit code	Unit title	Credit points
TE-SEM-2	PTY4CEA	Clinical Elective A	20

The electives require completion of all four core clinical units as a prerequisite.

Professional recognition

Students are required to register with the Physiotherapists Registration Board of Victoria.

Graduates are eligible for registration with the Physiotherapists Registration Board in any state or territory. Registration is an essential prerequisite for clinical practice in Australia.

Honours year

Students who perform at a high level in the ergonomics component of the double degree may undertake an additional Honours year, preparing students for postgraduate research in ergonomics. Eligibility is based on completion of a degree including units offered by the School of Human Biosciences (or equivalent) at an acceptable standard.

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1	PTY4HPA	Honours in Human Physiology and Anatomy	60
TE-SEM-2	PTY4HPA	Honours in Human Physiology and Anatomy	60

Bachelor of Podiatry – Melbourne (Bundoora) (HBPDP)

Division of Allied Health: (03) 9479 5815

Duration: 4 years full-time

This is the podiatry professional qualification. The podiatrist is a health professional whose area of speciality is the diagnosis and management of lower limb disorders, with particular emphasis on the foot and ankle. Podiatrists offer a range of preventative, curative and palliative treatments to patients of all ages in both the public and private sectors. Podiatrists can go on to specialise in various areas such as sports injuries, biomechanics, diabetes, rheumatology, paediatrics and surgery.

Clinical placements are undertaken at selected city and rural/regional hospitals and clinics. Students may also undertake their clinical placement in interstate and overseas hospital and clinics if available. Students must meet the travel and accommodation costs associated with clinical practice. Students are expected to purchase two sets of clinical instruments, one at the start of first year and one at the start of second year, at cost of approximately \$400 in first year and \$270 in second year. Students are also required to purchase a uniform to be worn during clinical sessions.

Degree requirements

Students must complete all the units below. Students who meet the appropriate requirements will be invited to participate in an Honours program.

Course structure

First year

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1	HBS1APH	Human Anatomy and Physiology	15
TE-SEM-1	HBS1BMT	Materials	10
TE-SEM-1	PHE1PHC	Introduction to Public Health C	10
TE-SEM-1	POD1PCP	Preclinical Podiatry	10
TE-SEM-1	POD1PDM	Podiatric Dermatology	15
TE-SEM-2	POD2ALF	Anatomy: Lower Limb and Foot	10
TE-SEM-2	HBS1BHM	Biomechanics of Human Movement	10
TE-SEM-2	HBS1HBF	Human Body Function	10
TE-SEM-2	PHE1PHD	Introduction to Public Health D	5
TE-SEM-2	PHE1RMH	Research Methods in Health 1	5
TE-SEM-2	POD1PBM	Podiatric Biomechanics 1	10
TE-SEM-2	POD1PCS	Podiatric Clinical Skills	10

Second year

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1	HBS2NEU	Neurosciences A	5
TE-SEM-1	PHE2RMH	Research Methods in Health 2	5
TE-SEM-1	POD2PAS	Podiatric Assessment	10
TE-SEM-1	POD2PBM	Podiatric Biomechanics 2	10
TE-SEM-1	POD2PLA	Podiatric Anaesthesia	10
TE-SEM-1	POD2POA	Podiatric Orthotic Practice 2A	10
TE-SEM-2	HBS2PPY	Pathology and Pharmacology	10
TE-SEM-2	MIC2MVM	Medical and Veterinary Microbiology	20
TE-SEM-2	POD2PMX	Podiatric Management	10
TE-SEM-2	POD2POB	Podiatric Orthotic Practice 2B	10
TE-ALLYR	POD2PCP	Podiatric Clinical Practice 2	20

Third year

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1	HBS3CPH	Clinical Pharmacology for Podiatrists	10
TE-SEM-1	POD3PMD	Podiatric Medicine	15
TE-SEM-1	POD3POA	Podiatric Orthotic Practice 3A	5
TE-SEM-1	POD3PSG	Podiatric Surgery: Theory	10
TE-SEM-2	PHE3ARM	Advanced Research Methodology	10
TE-SEM-2	POD3POB	Podiatric Orthotic Practice 3B	5
TE-SEM-2	POD3PPH	Podiatric Pharmacology	10
TE-SEM-2	POD3PSP	Podiatric Specialisations	15
TE-ALLYR	POD3PCP	Podiatric Clinical Practice 3	30
TE-ALLYR	POD3PST	Podiatric Surgery Practice	10

Fourth year (pass)

The fourth year is available in two streams – pass and Honours. The pass stream offers the opportunity for more extensive clinical practice both within the Health Sciences Clinic and at external institutions.

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1 or TE-SEM-2	POD4PEC	Podiatric External Clinic	45
TE-SEM-1 or TE-SEM-2	POD4PCP	Podiatry Clinical Practice	45
TE-SEM-1 or TE-SEM-2	HLT3IPA	Interdisciplinary Professional Practice	15
TE-SEM-1 or TE-SEM-2		Elective(s)	15

Fourth year (Honours)

A full-time, research-based fourth year of study leading to an Honours degree provides students of appropriate academic ability with the opportunity to study at a higher level and develop podiatric research skills. Selection into the Honours stream is based on academic results in third year units, a B average or above being required in third year podiatry units, and on the availability of supervisors.

Teaching period	Unit code	Unit title	Credit points
TE-ALLYR	POD4PHC	Podiatry Honours Clinic	40
TE-ALLYR	POD4PHT	Podiatry Honours Thesis	65
TE-SEM-1 or TE-SEM-2	HLT3IPA	Interdisciplinary Professional Practice	15

Professional recognition

The Bachelor of Podiatry is recognised throughout Australasia. On completion of the podiatry course, podiatrists must register with the Podiatrists Registration Board in the state in which they intend to practise.

Bachelor of Prosthetics and Orthotics – Melbourne (Bundoora) (HBPO)

Division of Allied Health: (03) 9479 5815

Duration: 3.5 years, full-time equivalent

Prosthetics and orthotics is the clinical discipline related to the provision of prostheses (artificial limbs) to people with amputations, and orthoses (supportive devices) to people with musculoskeletal weaknesses or neurological disorders. The role of the prosthetist/orthotist is a clinical one, with responsibilities including patient assessment, prescription and supply of prostheses and orthoses, caseload management liaison with other members of the multidisciplinary health team and supervision of manufacturing tasks related to prosthetic and orthotic fabrication. The prosthetist/orthotist combines knowledge of anatomy, physiology, biomechanics, pathology and materials with physical skills such as patient assessment, casting, measuring and alignment to provide prosthetic and orthotic treatment specific to each individual patient. Clinical placements are undertaken throughout the course. Students must meet the travel and accommodation costs associated with clinical placements. Please refer to the Faculty of Health Sciences policy on Health Procedures; Uniforms and class materials; clinical or professional placements and Police security clearance for further information.

Course structure

First year

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1	HBS1APH	Human Anatomy and Physiology	15
TE-SEM-1	HBS1BMT	Materials	10
TE-SEM-1	PHE1PHC	Introduction to Public Health C	10

TE-SEM-2	HLT3IPA	Interdisciplinary Professional Practice	15

Fourth year (pass degree)

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1	POR4CED	Clinical Education D	60

Honours

A fourth year of study at Honours level provides students who have appropriate academic ability with the opportunity to continue their studies at a higher level and to develop their theoretical knowledge and research skills. The units listed below must be completed in the Honours year.

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1	POR4HLR	Honours Literature Review	30
TE-SEM-1	POR4CEH	Clinical Education H	30
TE-SEM-2	POR4HRP	Honours Research Project	60

Bachelor of Social Work – Albury-Wodonga (HSBSWW), Bendigo (RBSW), Melbourne (Bundoora) (HBSW)

Note: This program is only available to continuing students.

Albury-Wodonga

Tel: (02) 6024 9802

Bendigo

Tel: (03) 5444 7415

Melbourne (Bundoora)

Tel: (03) 9479 5815

Duration: 4 years

The course entitles graduates entry into the profession of social work, and the degree is recognised by the Australian Association of Social Workers (AASW). Part-time study is available. Students will develop the knowledge, values and skills appropriate to understanding the needs commonly experienced by individuals, families, groups and communities and the appropriate responses for aiding personal and social adjustment and social development.

The degree prepares students to practise in a wide range of social work roles, including direct service, research, administration and social policy and planning. Study areas include social welfare history, social work practice methodologies, socio-personal systems, community organisation, research methods, social policies and programs, laboratory work and field studies.

The curriculum of the course is based on a philosophy of social justice, and is taught within an adult-learning model. Students are encouraged to relate their relevant experiences to the theories and practice knowledge presented in the program.

Degree requirements

The course is not offered to new students in 2008.

Course structure

Continuing students are required to undertake a course of studies equivalent to that listed below. From time to time students may be required to attend some lectures and seminars in block mode and/or out of usual university hours. For the purpose of Higher Education Contribution Scheme (HECS) this course is valued at 120 credit points per year or 60 credit points per teaching period.

Third year

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1	SWP3COM	Social Work Practice in Communities	15
TE-SEM-1	SWP3IFG	Social Work Practice with Individuals, Families and Groups A	20

Bachelor of Social Work (Advanced Standing) – Albury-Wodonga (HBSWAW), Bendigo (RBSWBE), Melbourne (Bundoora) (HBSWAS), Mildura (HSBSWM)

Albury-Wodonga
Tel: (02) 6024 9802
Bendigo
Tel: (03) 5444 7415
Melbourne (Bundoora)
Tel: (03) 9479 5815
Mildura
Tel: (03) 5051 4012
Duration: 2 years

The course qualifies graduates for entry into the profession of social work. The degree is recognised by the Australian Association of Social Workers (AASW). Students will develop the knowledge, values and skills appropriate to understanding the needs commonly experienced by individuals, families, groups and communities and the appropriate responses for personal and social adjustment, and social development.

The degree prepares students to practise in a wide range of social work roles, including direct service, research, administration and social policy and planning. Units offered are a mix of theoretical, practical and field-based studies. This reflects the nature of social work within contemporary society which demands that a competent social work graduate understands their practice in terms of ideas about individuals, groups and communities, knowledge of how society operates, the values of the profession, and has a range of practice skills. The course includes 70 days (in each year) of placement in a professional social work agency.

The curriculum of the course is based on a philosophy of social justice, and is taught within an adult-learning model. Students are encouraged to relate their relevant experiences to the theories and practice presented in the program.

Degree requirements

The course is offered as a two-year (advanced standing) degree for applicants with at least two years of approved university study. Further advanced standing may be offered to suitably qualified applicants.

Course structure

Students are required to undertake a course of studies equivalent to that listed below.

From time to time students may be required to attend some lectures and seminars in block mode and/or out of normal university hours.

At Mildura this course is taught in block mode only, i.e., four consecutive days of lectures, seminars and tutorials, in approximately 10 blocks, across two semesters in each of the two years. Students will be required to attend some lectures, seminars and tutorial out of normal University hours (generally weekends).

For the purpose of the Commonwealth Supported Places Scheme (CSP) a full-time enrolment is 120 credit points per year or 60 credit points per teaching period.

First year			
Teaching period	Unit code	Unit title	Credit points
TE-SEM-1	SWP3COM	Social Work Practice in Communities	15
TE-SEM-1	SWP3IFG	Social Work Practice with Individuals, Families and Groups A	20

Bachelor of Social Work/Bachelor of Human Services – Albury-Wodonga (HZSWHW), Bendigo (HZSWHB), Melbourne (Bundoora) (HZSWH)

Albury-Wodonga
Tel: (02) 6024 9802
Bendigo
Tel: (03) 5444 7415
Melbourne (Bundoora)
Tel: (03) 9479 5815
Duration: 4 years

The course qualifies graduates for entry into the profession of social work and equips graduates to work effectively in complex organisations and in the policy environment of human services. The Bachelor of Social Work is recognised by the Australian Association of Social Workers (AASW). Students will develop the knowledge, values and skills appropriate to understanding the needs commonly experienced by individuals, families, groups and communities and the appropriate responses for personal and social adjustment, and social development. Students will develop the knowledge and skills for analysing the organisational and policy context of social work and human service practice.

This double degree prepares students to practise in a wide range of social work roles and to perform these roles effectively in the complex organisation setting that is characteristic of contemporary social work practice. These roles include direct service, research, administration and social policy and planning. Units offered are a mix of theoretical, practical and field-based studies. This reflects the nature of social work within contemporary society which demands that a competent social work graduate understands their practice in terms of ideas about individuals, groups and communities, knowledge of how society operates, the values of the profession, and has a range of practice skills. Students will be prepared for effectively integrating theory into practice and to work effectively in complex and changing organisations. The course includes 70 days of placement (in each of the third and fourth years) in a professional social work agency.

The curriculum of the course is based on a philosophy of social justice, and is taught within an adult-learning model. Students are encouraged to relate their relevant experiences to the theories and practice presented in the program.

Degree requirements

The course is offered as a four-year degree for post-VCE entry. Advanced standing may be offered to suitably qualified applicants.

Course structure

Students are required to undertake a course of studies equivalent to that listed below. Some unit codes differ depending upon the campus of offer. The following course structure is that for the Melbourne (Bundoora) Campus. For the structure of courses offered at the Albury-Wodonga and Bendigo campuses, please refer to those campus entries elsewhere in this *Handbook*.

Electives, subject to approval, may be chosen from the complete range of units offered on the campus where a student is enrolled. From time to time students may be required to attend some lectures and seminars in block mode and/or out of normal university hours.

For the purpose of the Commonwealth Supported Places Scheme (CSP), a full-time enrolment is 120 credit points per year or 60 credit points per teaching period.

Bachelor of Social Work with Honours – Albury-Wodonga (HSHSWW), Bendigo (RHSW), Melbourne (Bundoora) (HSHSW)

An Honours program is offered in the final year of the Bachelor of Social Work and the Bachelor of Social Work (Advanced Standing) degrees.

Admission requirements

Honours will be offered to those students who have achieved results of a high academic standard at the end of the third year of the Bachelor of Social Work and at the end of year one of the Bachelor of Social Work (Advanced Standing) on the basis of that year's study. In addition to specified unit requirements, Honours students are required to prepare a research proposal and then write and submit an Honours thesis of 10000-12000-words by the end of the Honours year.

Course structure

Students are required to undertake a course of studies equivalent to that listed below. From time to time students may be required to attend some lectures and seminars in block mode and/or out of normal university hours.

For the purposes of the Commonwealth Supported Places Scheme (CSP) a full-time enrolment is 120 credit points per year or 60 credit points per teaching period.

First year

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1	HLT3IPA	Interdisciplinary Professional Practice	15
TE-SEM-1	SWP4HOA	Social Work Honours A	20

TE-SEM-1	SWP4IFG	Social Work Practice with Individuals, Families and Groups B	20
TE-SEM-1	SWP4SPP	Social Policy and Practice B	20
TE-WK36-49	SWP4FEB	Field Education B	40
TE-SEM-2	SWP4HOB	Social Work Honours B	20

Grades awarded to students successfully completing Honours are H1, H2A, H2B or H3.

Bachelor of Social Work (Honours)/Bachelor of Human Services – Albury-Wodonga (H2HSWW), Bendigo (H2HSWB), Melbourne (Bundoora) (H2HSW)

This course will be offered subject to University approval.

An Honours program is offered in the final year of the Bachelor of Social Work/Bachelor of Human Services Degree.

Admission requirements

Honours will be offered to those students who have achieved results of a high academic standard at the end of the third year of the Bachelor of Social Work/Bachelor of Human Services on the basis of that year's study. In addition to specified unit requirements, Honours students are required to prepare a research proposal and then write and submit an Honours thesis of 10,000-12,000-words by the end of the Honours year.

Course structure

Students are required to undertake a course of studies equivalent to that listed below. From time to time students may be required to attend some lectures and seminars in block mode and/or out of normal university hours.

For the purposes of the Commonwealth Supported Places Scheme (CSP) a full-time enrolment is 120 credit points per year or 60 credit points per teaching period.

First year

TE-SEM-1	HLT3IPA	Interdisciplinary Professional Practice	15
TE-SEM-1	SWP4HOA	Social Work Honours A	20
TE-SEM-1	SWP4IFG	Social Work Practice with Individuals, Families and Groups B	20
TE-SEM-1	SWP4SPP	Social Policy and Practice B	20
TE-WK36-49	SWP4FPP	Field Education and Program Planning	55
TE-SEM-2	SWP4HOB	Social Work Honours B	20

Grades awarded to students successfully completing Honours are H1, H2A, H2B or H3.

Bachelor of Speech Pathology – Melbourne (Bundoora) (HBSP)

Division of Allied Health: (03) 9479 5815

Duration: 4 years

This program provides prospective speech pathologists with a broad-based knowledge of normal development, the anatomy and function of the human body, causes and types of communication and swallowing disorders, and prevention and treatment strategies for communication and swallowing problems. The growth of the profession calls for speech pathologists with alert, critical minds and the ability to conduct systematic investigations into human communication problems.

Clinical education

Clinical experience is a major component of the program and is gained at the La Trobe Communication Clinic (on the Melbourne (Bundoora) Campus) and through external clinical placements in hospitals, schools, rehabilitation centres, community health centres, early childhood centres, private practice, in metropolitan, rural and interstate settings. Clinical placements begin in the first year of the course with observational experiences and progress through each year of the course.

Degree requirements

This is a four-year, full-time course. Students who meet the appropriate requirements will be invited to participate in an Honours program.

Course structure

A key feature of the program in first year is Problem Based Learning (PBL). Each fortnight students are presented with an actual speech pathology case. Tutorial group discussions together with follow-up and some formal classes help students work towards a resolution of these clinical cases. There are four major themes underpinning the course: scientific basis of speech pathology; communication, self and society; clinical skills; and professional attitudes and development. The focus of the PBL units in first year is Normal Communication and Swallowing Processes.

First year

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1	PHE1PHC	Introduction to Public Health C	10
TE-SEM-2	PHE1PHD	Introduction to Public Health D	5
TE-SEM-1	HBS1APH	Human Anatomy and Physiology	15
TE-SEM-2	HBS1HBF	Human Body Function	10
TE-SEM-1	HCS1NCA	Normal Communication and Swallowing Processes A	35
TE-SEM-2	HCS1NCB	Normal Communication and Swallowing Processes B	35
TE-SEM-1	HCS1PPA	Professional Practice Year One A	5
TE-SEM-2	HCS1PPB	Professional Practice Year One B	5

Second year

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1	HCS2APA	Acquiring Professional Competency A	5
TE-SEM-2	HCS2APB	Acquiring Professional Competency B	10
TE-ALLYR	HCS2DDP	Developmental Disorders Clinic	20
TE-SEM-1	HBS2NEU	Neurosciences A	5
TE-SEM-1	HCS2AUD	Basic Audiology	10
TE-SEM-1	HCS2DLP	Disorders of Language and Phonology	20
TE-SEM-1	PHE1RMH	Research Methods in Health 1	5
TE-SEM-2	HCS2DSS	Disorders of Speech and Swallowing	20
TE-SEM-2	HCS2DVL	Disorders of Voice and Laryngectomy Rehabilitation	15
TE-SEM-2	PHE2RMH	Research Methods in Health 2	5
TE-SEM-1 or TE-SEM-2		Elective(s)	5

Third year

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1	HCS3CLI	Third year Clinic ¹	15
TE-SEM-1	HCS3DSS	Disorders of Speech and Swallowing Clinic ¹	10
TE-SEM-1	HCS3APH	Aphasia	20
TE-SEM-1	HCS3APC	Acquiring Professional Competency 3	15
TE-SEM-1	PHE3RDA	Research Design and Analysis	5
TE-SEM-1	HCS3AAC	Augmentative and Alternative Communication	5
TE-SEM-2	HCS3AUR	Auditory-Visual Rehabilitation	10
TE-SEM-2	PHE3PDH	Psychiatric Disorders in Health Care	5
TE-SEM-2	HCS3RDC	Research Design for Communication Disorders ²	15
TE-SEM-2	HCS3STU	Stuttering	15
TE-SEM-2	PHE3CND	Central Nervous System Disorders and Human Behaviour	5
TE-SEM-1 or TE-SEM-2		Elective at third year level (pass degree only)	15

Key: ¹ Students will vary their enrolment once placement is allocated.

² Intending Honours students only in lieu of elective.

Note: Students cannot progress to fourth year without completing all third year units.

Fourth year – pass degree

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1	HCS4PDA	Pass Degree Project in Speech Pathology A	15
TE-SEM-2	HCS4PDB	Pass Degree Project in Speech Pathology B	20
TE-SEM-1	HLT3IPA	Interdisciplinary Professional Practice	15
TE-SEM-1	HCS4PRA	Professional Practice in Speech Pathology A	30
TE-SEM-2	HCS4PRB	Professional Practice in Speech Pathology B	30
TE-SEM-1 or TE-SEM-2		Elective at fourth year level	10

Fourth year – Honours degree

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1 and TE-SEM-2	HCS4HDP ¹	Honours Degree Project in Speech Pathology	50

TE-SEM-1	HLT3IPA	Interdisciplinary Professional Practice	15
TE-SEM-1	HCS41PRA	Professional Practice in Speech Pathology A	30
TE-SEM-2	HCS42PRB	Professional Practice in Speech Pathology B	30

Key: ¹ Students enrol in this unit in semester 1 and semester 2 to fulfil the Honours degree program of the course.

Professional recognition

Graduates of the Bachelor of Speech Pathology are normally eligible for membership of the Speech Pathology Association of Australia and are able to work in several overseas countries after completing certain requirements.

Honours program

Students who have successfully completed the first three years of the course may be invited to participate in the Honours program. To participate, a student must normally have obtained a B-grade average or higher across all second and third year units offered by the School of Human Communication Science, and in PHE3RDA and HCS3RDC or their equivalents.

DIVISION OF HEALTH STUDIES

Bachelor of Health Information Management – Melbourne (Bundoora) (HBHIM)

Division of Health Studies: (03) 9479 1750

Duration: 3.5 years full-time, part-time available

This course equips graduates for an excellent range of career opportunities in the health care field. Health information management graduates are in great demand because of their highly specialised skills. Their choice of work includes:

- coding of diseases and operations and analysis of health data
- analysis of a health service's case mix (i.e., types and costs of cases treated)
- developing or running the electronic health record systems
- managing disease databases in health screening programs, disease registries and clinical trials
- undertaking health information and business analysis
- undertaking project management and design of health information systems for medical decision making and patient care
- managing clinical risk and quality management systems to ensure patients receive the highest quality of care
- managing clinical trials data
- working as a hospital or health facility privacy officer
- undertaking disease-related research using health information.

Alternatively, they may choose to work in managerial positions, running the health information service for a hospital or other health service, or in general administration positions.

Course structure

There are four core streams of study:

- clinical knowledge, including disease classification systems
- health informatics, with a large emphasis on electronic health (e-health) information
- management of health information systems and organisations, and of the quality of health care
- analysis of health data.

Students have the opportunity to specialise in third and fourth years. They also are required to participate in professional practice, which involves fieldwork activities in health care facilities and services.

First year

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1	HBS1HFU	Introduction to Human Function	5
TE-SEM-1	HIM1MTA	Medical Terminology	15
TE-SEM-1	HIM1MHA	Management of Health Information Systems A	15
TE-SEM-1	PHE1PHC	Introduction to Public Health C	10
TE-SEM-1	HIM1HIA	Health Informatics A	15
TE-SEM-2	HBS1HBF	Human Body Function	10
TE-SEM-2	HIM1HCA	Health Classification A	15
TE-SEM-2	HIM1MHB	Management of Health Information Systems B	15
TE-SEM-2	HIM1HIB	Health Informatics B	15
TE-SEM-2	PHE1RMH	Research Methods in Health 1	5

Second year

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1	HBS2PAG	General Pathology	5
TE-SEM-1	HIM2HCB	Health Classification B	10
TE-SEM-1	HIM2HIC	Health Informatics C	10
TE-SEM-1	HIM2MHC	Management of Health Information Systems C	15
TE-SEM-1	HIM2MTC	Advanced Medical Terminology	5
TE-SEM-1	STA1LS	Statistics for Life Sciences	15
TE-SEM-2	HIM2AHA	Analysis of Health Data A	10
TE-SEM-2	HIM2HCC	Health Classification C	10
TE-SEM-2	HIM2HID	Health Informatics D	10
TE-SEM-2	HIM2LAE	Health Information Law and Ethics	10
TE-SEM-2	HIM2MHD	Management of Health Information Systems D	15
TE-SEM-2	HBS2PAS	Systemic Pathology	5

Third year

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1/2	HLT3IPA/	Interdisciplinary Professional Practice	15
TE-SEM-1	HIM3HSI	Health Systems Implementation	10
TE-SEM-1	HIM31HIP	Health Information Professional Practice	35
TE-SEM-2	HIM3HCD*	Health Classification D	15
TE-SEM-2	HIM3HIE*	Health Informatics E	15
TE-SEM-2	HIM3MHE	Management of Health Information Systems E	15
TE-SEM-2	HIM3AHB	Analysis of Health Data B	15
TE-SEM-2	Elective(s)*	Elective studies may include HIM3HCD and HIM3HIE	15

Key: * Specialisation: Students are required to take units HIM3MHE and HIM3AHB plus HIM3HCD and HIM3HIE (recommended), or one of HIM3HCD or HIM3HIE plus elective studies at third or fourth year level of 15 credit points.

Fourth year

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1	HIM4MHF	Management of Health Information Systems F	15
<i>Plus at least two of the following</i>			
TE-SEM-1	HIM4HCE	Health Classification E	15
TE-SEM-1	HIM4HIF	Health Informatics F	15
TE-SEM-1		Elective studies in health data analysis (at fourth or third year level within the university)	15
<i>and/or</i>			
TE-SEM-1		Elective studies (at fourth or third year level within the university)	15
		Total	60

Key: All students must take HIM4MHF.

* Specialisation: HIM4HCE and/or HIM4HIF (both recommended) and other approved elective studies up to 15 credit points, at third or fourth year level within the University, plus an additional 15 credit point elective unit (third or fourth year level within the University).

Professional recognition

Graduates may apply for full membership of the Health Information Management Association of Australia. Students are eligible for student membership of the professional association.

Honours (HHIM)

Students may be invited to undertake the Honours program on academic merit based on the weighted average of third year units. The Honours program is undertaken in the fourth year of the course, and provides students with the opportunity to continue their studies at a higher academic level and to develop their theoretical knowledge and research skills. The Honours program runs concurrently with the first teaching period of the undergraduate fourth year and continues in the second teaching period of that year. The units listed below must be completed in the Honours year.

Bachelor of Health Information Management/Bachelor of Health Sciences – Melbourne (Bundoora) (HZHIHS)

Division of Health Studies: (03) 9479 1750
 Course Coordinator (BHlthInfoMan): (03) 9479 5722
 Course Coordinator (BHlthSc): (03) 9479 1745
 Duration: 4.5 years

This 4.5-year double-degree enables students to acquire a strong background in health sciences, with a focus on human anatomy and physiology or public health, together with a career-specific qualification in the professional field of health information management. The double degree provides professional skills and education for a range of career directions associated with the delivery of health services and the management of patient health information. The combination of studies offered by the BHlthInfoMan/BHlthSc gives graduates significant career flexibility: they are equipped to work in all sectors of the health care industry ranging from hospitals to community health centres, disease research centres, rehabilitation and community-based health services, and government health departments.

Major units include: health and human behaviour, health of Australians, human biosciences, management of health information systems, medical terminology, health classification, and health informatics. The human biosciences elective units enhance the skills of those students who wish to develop a career focus in clinical classification, which is an area of specialisation in health information management with high employer demand. There are compulsory professional practice components in each year of the course. From second year, students can specialise in major studies in human biosciences or public health. From third year, there are opportunities for further specialisation in health classification, health informatics, or analysis of health data, which are selected according to students' future career interests.

Programs of study

The course requires a total of 585 credit points taken over 4.5 years. Students must complete a minimum number of credit points from each course at each year level, as shown in the table below. The degree can be completed in 4 years where students undertake summer studies in third or fourth year. Students make a decision at the end of teaching period 1, first year, regarding which stream of the Bachelor of Health Sciences they will take (i.e., Human Anatomy and Physiology or Public Health). Streaming commences in Teaching Period 2.

In certain circumstances it may be necessary for students to substitute certain units or alter their pattern of enrolment in the double-degree; this requires written approval by the course coordinator.

Course	First-year units	Second-year units	Third-year units	Fourth-year units	Total credit points
BHIM	90	105	90	30	315
BHlthSci	100	80	90	0	270

Course structure: BHlthInfoMan/BHlthSc (Public Health stream)

TE-SEM-2	HIM2MHD	Management of Health Information Systems D	15
TE-SEM-2	PHE2ARM	Applied Research Methods in Health	20

Key: * As part of the specialisation offered in the Bachelor of Health Information Management, students may elect, during the fourth and fifth years of the double degree BHLthInfoMan/BHLthSc (Anatomy and Physiology stream), to enrol in any of the following units to a minimum of 55 credit points: HIM3HCD Health Classification D, HIM4HCE Health Classification E, HIM3HIE Health Informatics E, HIM4HIF Health Informatics F, HIM3HSI Health Systems Implementation, or an elective unit in medical statistics or analysis of health data.

A full description of units, including the unit name, unit code, credit points, campus/location, unit coordinator, class requirements, assessment, prerequisites and readings, appears at the end of this chapter. For the most recent descriptions of units students should access the unit database at www.latrobe.edu.au/udb_public

Bachelor of Health Sciences – Melbourne (Bundoora) (HBHS)

Division of Health Studies: (03) 9479 1750

Course Coordinator: (03) 9479 3290

Duration: 3 years full-time, part-time available

In this course students gain a broad understanding of health sciences, and have the opportunity to develop specialist knowledge in a particular field within human anatomy and physiology, ergonomics, safety and health or public health. Public health areas include disability and rehabilitation and health promotion.

The degree may be awarded as a pass degree, a double degree with the Bachelor of Arts (see the Faculty of Humanities and Social Sciences chapter), Bachelor of Business, Bachelor of Commerce, Bachelor of International Development, Bachelor of Health Information Management, Bachelor of International Relations, Bachelor of Media Studies, Bachelor of Pastoral Care, or as a degree with Honours. To enter the Honours year, a student must normally have completed the requirements for the pass degree and have achieved academic results of a high standard.

Graduates may apply to continue their studies at a postgraduate level in areas such as community health, ergonomics, gerontology, health promotion, human biosciences, public health, and rehabilitation.

Degree requirements

The pass degree is designed to be completed in three years of full-time study or an equivalent period of part-time study. To qualify for the pass degree a student must complete units to the value of 360 credit points. Students may enrol in up to 130 credit points per year without special permission from the course coordinator.

Course structure

In the first year of the course, students are required to complete the six core units described below, plus units at least to the value of 30 credit points from any faculty of the university. Prerequisites must be satisfied. Students must choose one of three major areas of study once they commence the second year of the course. These areas are:

- human anatomy and physiology,
- public health, and
- ergonomics, safety and health.

Public health units cover the fields of disability and rehabilitation and health promotion.

Students must discuss their unit selection with a course adviser before enrolment. Within the degree requirements, unit selection is limited by timetable clashes, prerequisites, co-requisites, quotas and unit incompatibility. Electives can be chosen from any faculty of the University, including Health Sciences. Students must complete 120 credit points at each year level.

First year

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1	HBS1API	Introduction to the Human Body	15
TE-SEM-1	PHE1HOA	Health of Australians	15

TE-SEM-1	PHE1PHA	Introduction to Public Health A	15
TE-SEM-2	HBS1HRB	Regulation of Human Body Function	15
TE-SEM-2	PHE1AHS	Australia's Health Care System	15
TE-SEM-2	PHE1PHB	Introduction to Public Health B	15
TE-SEM-1 or TE-SEM-2		First year electives	30

Second year

From second year, students will select units to the equivalent of at least 80 credit points from within one of the core streams as listed below. In addition, students must take 40 credit points of approved second year units from any faculty of the university, including Health Sciences.

Third year

Units to the equivalent of at least 60 credit points must be selected from the core streams as listed below. In addition, students must take up to 60 credit points of approved third year units from any faculty of the university, including Health Sciences.

Stream: Ergonomics, Safety and Health

Second year

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1	HBS2PEA	Design for Safe System Performance	15
TE-SEM-1	HBS2PEB	Workload, Stress and Performance Management	15
TE-SEM-2	HBS2BEW	Healthy Workplace Design	15
TE-SEM-2	HBS2BEM	Biological Bases of Ergonomics (M)	15
TE-SEM-2	PHE2ARM	Applied Research Methods in Health	20

Third year

Teaching period	Unit code	Unit title	Credit points
TE-ALLYR	HBS3ESS	Ergonomics and Systems Safety	25
TE-ALLYR	HBS3EAM	Ergonomics Analysis and Measurement Methods	40
TE-SEM-1	HBS3DAI	Systems Data Analysis	20
TE-SEM-2	HBS3ESH	Review of Ergonomics Safety and Health Issues	20
TE-SEM-1	OCT3OHS	Introduction to Occupational Health and Safety Principles and Legislation	15

Stream: Human Anatomy and Physiology

Second year

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1	HBS2ALL	Anatomy: Lower limb	20
TE-SEM-1	HBS2HPA	Human Physiology A	20
TE-SEM-2	HBS2ATL	Anatomy: trunk and upper limb	20
TE-SEM-2	HBS2HPB	Human Physiology B	20

Third year

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1	HBS3APA	Advanced Physiology A	30
TE-SEM-2	HBS3APB	Advanced Physiology B	30

Stream: Public Health

Second year

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1	PHE2EBD	Environmental and Social Determinants of Health	20
TE-SEM-1	PHE2HSD	Health Skills Development	20
TE-SEM-2	PHE2ARM	Applied Research Methods in Health	20
TE-SEM-2	PHE2LCI	Living with Chronic Illness and Disability	20

Third year

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1	PHE3PHP	Public Health Programs	30
plus one of:			
TE-SEM-1	PHE3PFA	Participatory Field Study A	30
TE-SEM-2	PHE3PFB	Participatory Field Study B	30

In addition to the above core Health Sciences units, there are other relevant units available for Bachelor of Health Science students from within the School of Human Biosciences and the School of Public Health. These are listed in the table below. Please note that the availability of these units changes from year to year, subject to minimum enrolment data.

Second year electives (offered subject to sufficient enrolments)

Teaching period	Unit code	Unit title	Credit points
TE-SEM-W	HBS2FSA ^{1&2}	Fertility, Reproductive Technology and Society A	10
TE-SEM-W	HBS2FSB ^{1&2}	Fertility, Reproductive Technology and Society B	15
TE-SEM-1	PHE2CPH	Communication Processes in Health Care	20
TE-SEM-2	PHE2CHP	Community Health Promotion	20
TE-SEM-2	PHE22OPH	Organisational Psychology of Health Services	20

Key: ^{1&2} Taught in block mode during winter vacation – offered alternate years.

Third year electives (offered subject to sufficient enrolments)

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1	HBS3DIS ²	Drugs in Sport	15
TE-SEM-1	HBS3KIN ²	Kinesiology	30
TE-SEM-2	HBS3DIU ²	Drugs in Use	15
TE-SEM-S	HBS3RHE ³	Reproductive Health	15
TE-SEM-S	HBS3RSH ³	Reproductive and Sexual Health	10
TE-SEM-2	HBS3TIP ¹	Topics in Pathophysiology *	15
TE-SEM-1	PHE3SPH	Studies in Public Health	30
TE-SEM-1	PHE3IGA	Introduction to Gerontology A	10
TE-SEM-1	PHE3IGB	Introduction to Gerontology B	15
TE-SEM-2	PHE3IHI	Introduction to Health Information Systems	30
TE-SEM-2	PHE3PPH	Psychosocial Perspectives of Health and Illness	15
TE-SEM-1	PHE3SEP	Sports and Exercise Psychology	15
TE-SEM-2	PHE3DDA	Death, Dying and Grief A	10
TE-SEM-2	PHE3ddb	Death, Dying and Grief B	15
TE-SEM-2	PHE3DUA	Drug Use and Addictive Behaviour A	10
TE-SEM-2	PHE3DUB	Drug Use and Addictive Behaviour B	15
TE-SEM-S	PHE3HIC ⁴	Health Informatics for Clinical Practice	15
TE-SEM-2	PHE3ISB	Illness and Spirituality	15
TE-SEM-2	PHE3LDA	Living with Disability in the Australian Community A	10
TE-SEM-2	PHE3LDB	Living with Disability in the Australian Community B	15

Key: ¹ Students studying third year units Advanced Physiology A and B cannot take this unit due to overlap of unit content.

² Units not offered in 2008.

³ Taught in block mode during winter vacation; offered alternate years. Can be taken at 2 or 3 year level.

⁴ Taught in block mode during summer vacation (early February).

Honours year

The Honours program requires an additional year of full-time study, or an equivalent period of part-time study, in the schools of Public Health and Human Biosciences units listed below. To qualify, a student must normally have achieved the requirements for the pass degree and demonstrated academic excellence in a unit area relevant to one of the contributing schools. Students contemplating Honours are encouraged to undertake appropriate research methods elective units in the second and third years.

School of Public Health Honours program (120 credit points) (HHHS)

In the School of Public Health, the Honours program involves four major components, PHE4THA Thesis Preparation (15 credit points) and PHE4THB Thesis (60 credit points) consisting of a 10,000–12,000-word thesis, completion of two coursework components PHE4RMH and PHE4AIH (15 credit points each), and an elective from the school's postgraduate diploma electives to the value of 15 credit points.

School of Human Biosciences Honours program (120 credit points) (HHHS)

The Honours year provides students with specialised training in practical research. As well as providing the setting for a disciplined approach to research in the laboratory, the school will provide training in methods of oral and written communication of research results at an advanced level. The program normally involves supervised research projects, although coursework may be applicable in some circumstances. The assessment for the Honours year is two 15-minute seminars, a literature survey, an analysis of a scientific paper, a thesis of 10,000–12,000-words and the supervisor's assessment. Students undertake unit HBS4HPA (120 credit points) Honours in Human Physiology and Anatomy all year.

Credit for TAFE diplomas

Up to 12 months' credit (120 credit points) may be granted for certain TAFE diplomas to students entering the Bachelor of Health Sciences. The credit may be granted as a mixture of specified and unspecified credit, depending on the applicant's background. Where possible, candidates who have studied units related to the Bachelor of Health Sciences units (determined by the course coordinator) will be granted specified credit. Credit will be granted only to students who meet normal admission requirements. The completion of a designated TAFE diploma does not guarantee entry to the course.

Students who have completed the three-year Ambulance Officer Training Course at the Ambulance Officer Training Centre of Victoria will be granted up to 180 credit points of credit towards the Bachelor of Health Sciences. This comprises credit for all first year units and unspecified credit of 60 credit points for second year units excluding School of Human Biosciences units.

Details of the designated TAFE diplomas which will attract 120 credit points of credit in the Bachelor of Health Sciences are available from the course administrator in the School of Public Health, tel: (03) 9479 2558.

Bachelor of Health Sciences/Bachelor of Business – Melbourne (Bundoora) (HZHSB)

Division of Health Studies: (03) 9479 1750

Course Coordinator: (03) 9479 3290

School of Business: (03) 9479 1667

For details of Bachelor of Business units, see entries in the Faculty of Law and Management section of this *Handbook*.

This four-year double-degree course is designed to allow students to pursue their areas of interest in both business and health sciences. The combination of health science and business will provide students with the opportunity to combine the stream units already existing in the Bachelor of Health Sciences with Bachelor of Business units.

Combined with the Bachelor of Health Sciences, the degree equips students with specific skills and knowledge in health administration, health policy and health services management enabling them to pursue a career in management in either the public or private health services. Many unit combinations are possible enabling students to build their course to suit their particular interests for their future careers.

The health sector is a large and complex industry and provides interesting careers with a need for the ability to participate in, and respond to, a rapidly changing environment. The double-degree should provide graduates with the confidence and skills necessary for such a specialised career.

Programs of study

The course requires a total of 540 credit points taken over four years. Students are required to take units to the total of 270 credit points from each discipline consisting of the following year levels.

Faculty	First-year units	Second-year units	Third-year units
Health Sciences	90	120	60
Law and Management	105	75*	90*

Key: * Note that at least one major series of Business Studies units must be completed (that is, eight units in the one area). Please see entries in the Faculty of Law and Management section of this *Handbook* for sequences of units constituting a major in each area.

Course structure

Suggested first year

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1	PHE1PHA	Introduction to Public Health A	15
TE-SEM-1	HBS1API	Introduction to the Human Body	15
TE-SEM-2	PHE1PHB	Introduction to Public Health B	15
TE-SEM-2	HBS1HRB	Regulation of Human Body Function	15
TE-SEM-1 or TE-SEM-2	ACC1AMD	Accounting for Management Decisions	15
TE-SEM-1 or TE-SEM-2	ECO1IMI	Microeconomics	15

TE-SEM-1 or TE-SEM-2	ECO1ISB	Introductory Statistics for Business	15
TE-SEM-1 or TE-SEM-2	MGT1FOM	Foundations of Management	15
TE-SEM-1 or TE-SEM-2	ECO1IMA	Macroeconomics	15

Suggested second year

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1	PHE1HOA	Health of Australians	15
TE-SEM-2	PHE1AHS	Australia's Health Care System	15
TE-SEM-1 and TE-SEM-2		Two 20-credit point units in each teaching period from Health Sciences at level 2 (see BHSc course manual)	40

TE-SEM-2			
TE-SEM-1 or TE-SEM-2	LST1BSL	Business Law	15
TE-SEM-1 or TE-SEM-2	BUS1MIS	Management Information Systems	15
TE-SEM-2		Two second year elective units from the School of Business as part of a designated major	30

Suggested third year

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1		Two 20-credit point units from Health Sciences at level 2	40
TE-SEM-1		Two second year elective units from the School of Business, at least one of which must be part of a designated major	30
TE-SEM-2		Two 20-credit point units from Health Sciences at level 2	40
TE-SEM-2		One second year elective unit from the School of Business	15

Suggested fourth year

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1		30 credit points of unit (s) from Health Sciences at level 3	30
TE-SEM-1		Three third year elective units from the School of Business, as part of a designated major	45
TE-SEM-2		30 credit points of unit (s) from Health Sciences at level 3	30
TE-SEM-2		Three third year elective units from the School of Business, as part of a designated major	45

Note: To satisfy requirements for a Business degree, students must complete eight units from a designated major at levels two or three and complete at least 90 credit points at third year level.

Bachelor of Health Sciences/Bachelor of Commerce – Melbourne (Bundoora) (HZHSC)

Division of Health Studies: (03) 9479 1750

Course Coordinator: (03) 9479 3290

School of Business: (03) 9479 1667

Duration: 4 years

For details of Bachelor of Commerce units, see entries in the Faculty of Law and Management section of this *Handbook*.

This four-year double-degree course is designed to allow students to pursue their areas of interest in both commerce and health sciences. The combination of health science and commerce will provide students with the opportunity to combine the stream units already existing in the Bachelor of Health Sciences with Bachelor of Commerce units. The graduates of such a degree will be able to apply the knowledge and skills of an accountant to the health area. Combined with the Bachelor of Health Sciences, the degree equips students with specific skills and knowledge in health administration, health policy and health services management enabling them to pursue a career in the public or private health services sector. Many unit combinations are possible enabling students to build their course to suit their particular interests for their future careers.

The health sector is a large and complex industry and provides interesting careers with a need for the ability to participate in, and respond to, a rapidly changing environment. The double degree should provide graduates with the confidence and skills necessary for such a specialised career.

Programs of study

The course requires a total of 540 credit points taken over four years.

Faculty	First-year units	Second-year units	Third-year units
Health Sciences	90	80 10 elective(s) ¹	60
Law and Management	135	75	90

Key: ¹ Taken from either the School of Public Health or Human Biosciences.

Health Sciences requirements

Students must complete the following core units from the Bachelor of Health Sciences. These would normally be taken in the first two years of study. All units are worth 15 credit points.

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1	HBS1API	Introduction to the Human Body	15
TE-SEM-1	PHE1PHA	Introduction to Public Health A	15
TE-SEM-1	PHE1HOA	Health of Australians	15
TE-SEM-2	HBS1HRB	Regulation of Human Body Function	15
TE-SEM-2	PHE1AHS	Australia's Health Care System	15
TE-SEM-2	PHE1PHB	Introduction to Public Health B	15

At second and third year level, students can choose any combination of units from those offered in the Bachelor of Health Sciences.

Commerce requirements

Students must complete the following units from the Bachelor of Commerce. All units are worth 15 credit points.

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1 or TE-SEM-2	ACC1AMD	Accounting for Management Decisions	15
TE-SEM-1 or TE-SEM-2	BUS1MIS	Management Information Systems 1	15
TE-SEM-1 or TE-SEM-2	ECO1ISB	Introductory Statistics for Business	15
TE-SEM-1 or TE-SEM-2	ECO1IMA	Macroeconomics	15
TE-SEM-1 or TE-SEM-2	ECO1IMI	Microeconomics	15
TE-SEM-1 or TE-SEM-2	LST1BSL	Business Law	15
TE-SEM-1 or TE-SEM-2	MGT1FOM	Foundations of Management	15
TE-SEM-2	LST2LBA	Law of Business Association	15
TE-SEM-1 or TE-SEM-2	ACC1IFA	Introductory Financial Accounting	15
TE-SEM-1 or TE-SEM-2	ACC2CRE	Corporate Reporting	15
TE-SEM-1 or TE-SEM-2	ACC2IMA	Introductory Management Accounting	15
TE-SEM-1 or TE-SEM-2	ACC2IMB	Intermediate Management Accounting	15
TE-SEM-1 or TE-SEM-2	FIN2FIN	Finance	15
TE-SEM-1 or TE-SEM-2	ACC3AFA	Advanced Financial Accounting	15
plus		One second year Business elective	15
TE-SEM-1 or TE-SEM-2		Two third year Business electives	30
TE-SEM-1		Three third year Accounting electives (Auditing and Taxation recommended)	45

Accreditation

This degree contains the units required for professional recognition with CPA Australia and the Institute of Chartered Accountants in Australia (ICAA).

Bachelor of Health Sciences/Bachelor of Economics – Melbourne (Bundoora) (HZHSE)

Division of Health Studies: (03) 9479 1750

Course Coordinator: (03) 9479 3290

School of Business: (03) 9479 1667

For details of Bachelor of Economics units, see entries in the Faculty of Law and Management section of this *Handbook*.

This four-year double-degree course is designed to allow students to pursue their areas of interest in both economics and health sciences. The combination of health sciences and economics will provide students with the opportunity to combine the health administration stream in the Bachelor of Health Sciences with Bachelor of Economics units. This program offers a comprehensive study of economics with specialisation in health. The study of economics offered by the Faculty of Law and Management when combined with the Bachelor of Health Sciences will provide students with knowledge and skills in health economics, public sector finance, economic evaluation, and health program development. The graduates of such a course will become skilled as health economists with a strong policy, health administration and economics background. Policy planning, and health research and evaluation in the health sector, are sought-after features in the applied economics area whether it is at the macro or micro level. The double degree should provide graduates with the confidence and skills necessary for such a specialised career.

Programs of study

The course requires a total of 540 credit points taken over four years. Students are required to take units to the total of 270 credit points from each discipline consisting of the following year levels.

Faculty	First-year units	Second-year units	Third-year units
Health Sciences	90	80 10 elective(s) ¹	60 30 elective(s) ¹
Law and Management	90	60 30 electives ² (at second year or equivalent third year)	30 60 electives ²

Key: ¹ Taken from either the School of Public Health or the School of Human Biosciences.

² Taken from the School of Business.

There is no further intake into this course. Currently enrolled students will complete the following structure.

Health Sciences requirements

Students must complete the following core units from the Bachelor of Health Sciences. These would normally be taken in the first two years of study. All units are worth 15 credit points.

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1	HBS1API	Introduction to the Human Body	15
TE-SEM-1	PHE1PHA	Introduction to Public Health A	15
TE-SEM-1	PHE1HOA	Health of Australians	15
TE-SEM-2	HBS1HRB	Regulation of Human Body Function	15
TE-SEM-2	PHE1AHS	Australia's Health Care System	15
TE-SEM-2	PHE1PHB	Introduction to Public Health B	15

At second and third year, students can choose any combination of units from those offered in the Bachelor of Health Sciences.

Economics requirements

Students must complete the following units from the Bachelor of Economics plus an additional one first year Economics elective (15 credit points), three second year Economics electives (45 credit points) and four third year Economics electives (60 credit points).

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1 or TE-SEM-2	ECO1IQA	Introduction to Quantitative Analysis	15
TE-SEM-1	MAT1CFE	Calculus and Functions for Economics	15
TE-SEM-1	ECO1ISB	Introductory Statistics for Business	15
TE-SEM-1 or TE-SEM-2	BUS1MIS	Management Information Systems	15
TE-SEM-1 or TE-SEM-2	ECO1IMA	Macroeconomics	15
TE-SEM-1 or TE-SEM-2	ECO1IMI	Microeconomics	15
TE-SEM-1 or TE-SEM-2	ECO2ISB	Intermediate Statistics for Business	15
TE-SEM-1	ECO2MIT	Microeconomic Theory	15
TE-SEM-2	ECO2MAT	Macroeconomic Theory	15
TE-SEM-2	ECO2MWE	Modern World Economy	15
TE-SEM-1	ECO3MIA	Microeconomic Analysis	15
TE-SEM-2	ECO3MAA	Macroeconomic Analysis	15

Accreditation

Graduates may partly or fully satisfy the educational requirements of a number of professional organisations by completing approved units in accounting, economics, marketing and legal studies.

Bachelor of Health Sciences/Bachelor of Pastoral Care – Melbourne (Bundoora) (HZHSPC)

Division of Health Studies: (03) 9479 1750

Course Coordinator: (03) 9479 1454

Duration: 4 years full-time or part-time equivalent

This double degree provides the opportunity to study pastoral care in conjunction with a major in public health from within the Bachelor of Health Sciences. The health sciences component incorporates the units required for a public health major in the Bachelor of Health Sciences. The pastoral care component draws upon pastoral care units and other relevant elective units from the School of Public Health, and the units offered by the Faculty of Humanities and Social Sciences, principally from the Religion and Spirituality program and the School of Communication, Arts and Critical Enquiry. As with other public health disciplines, the pastoral care degree includes supervised practice units in the third year. Graduates will be qualified for employment as pastoral care workers or as public health professionals who bring a pastoral care dimension to their practice. This double degree will also equip graduates with the expertise to practise as a pastoral care worker in the field of community health, chronic illness, disability or palliative care.

Pastoral care workers are expected to have knowledge concerning:

- the principles of health care, including palliative care
- cultural perspectives on religion, spirituality, health and illness
- interpersonal processes relating to effective communication and relationship building.

Program of study

The course requires a total of 540 credit points taken over four years. Students are required to take units to the total of 270 credit points from each area consisting of the following year levels.

Faculty	First-year units	Second-year units	Third-year units
Public Health	90	90	90
Pastoral Care	90	90	90

Course structure

There is no further intake into this course. Students currently enrolled will complete the following structure:

Second year

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1	PHE2EBD	Environmental and Social Determinants of Health	20
TE-SEM-1	PHE2CPH	Communication Processes in Health Care	20
TE-SEM-2	PHE2CLI	Living with Chronic Illness and Disability	20
plus			
TE-SEM-2 or TE-SEM-2	AST1ASR	Asian Religions	15
		Another first year level unit from Religion and Spirituality Studies	
plus one of			
TE-SEM-1 or TE-SEM-1	PHI1FMV	Freedom, Mind and Value	15
		An approved first year level unit in philosophy	
plus			
TE-SEM-1		First year elective taken from anywhere in the university	15
TE-SEM-2		Second year electives taken from anywhere within the university	30
		TOTAL	135

Third year

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1	PHE2HSD	Health Skills Development	20
TE-SEM-2	PHE3DDB	Death, Dying and Grief	15
plus one of			
TE-SEM-1	AST2INB	Introduction to Buddhism	20
	HIS2ABR	Aboriginal Religions	20
	PHI2BIE	Introduction to Bioethics	20

PHI2POR	Philosophy of Religion	20
	An approved second level unit in philosophy or in Religion and Spirituality Studies or a second level humanities or social science unit approved by the course coordinator	20

plus			
TE-SEM-1	PHE3PFA	Participatory Field Study A	30
TE-SEM-2	PHE2ARM	Applied Research Methods in Health	20

Bachelor of Health Sciences/Bachelor of International Development – Melbourne (Bundoora) (HZHSDS)

Division of Allied Health: (03) 9479 1750

Faculty of Humanities and Social Sciences: (03) 9479 2023

Duration: 4 years

For details of Bachelor of International Development units, see entries in the Faculty of Humanities and Social Sciences section of this *Handbook*.

This four-year double-degree course provides students with the knowledge and skills relevant to analysing situations and delivering services which involve the intersection of health services and community development. Poor health is one of the major challenges which cultures and countries face as they attempt to develop socially, economically and politically. In these circumstances population health strategies require an understanding of economic and social development. It is anticipated that many of the graduates of this double degree would find employment in the development assistance field.

Programs of study

The course requires a total of 540 credit points taken over four years. Students are required to take units to the total of 270 credit points from each discipline consisting of the following year levels.

Faculty	First-year units	Second-year units	Third-year units
Health Sciences	90	120	60
Humanities and Social Sciences	90	80	100

Health Sciences requirements

Students must complete the following core units from the Bachelor of Health Sciences.

First year

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1	HBS1API	Introduction to the Human Body	15
TE-SEM-1	PHE1PHA	Introduction to Public Health A	15
TE-SEM-1	PHE1HOA	Health of Australians	15
TE-SEM-2	HBS1HRB	Regulation of Human Body Function	15
TE-SEM-2	PHE1AHS	Australia's Health Care System	15
TE-SEM-2	PHE1PHB	Introduction to Public Health B	15

At second and third year level, students complete units from the Public Health Stream of Study in the Bachelor of Health Sciences.

International Development Studies requirements

Students must complete the following units from the Bachelor of Development International. All first year units are worth 15 credit points.

First year

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1	ANT1CAG	Culture and Globalisation: introduction to anthropology	15
TE-SEM-1	HIS1CAM	The Conquest of the Americas: Aztecs, Incas, Mayans and Spaniards	15
TE-SEM-2	HIS1DEV	Globalisation: The Rise of the Modern World	15
TE-SEM-2		One first year Bachelor of International Development unit	15

Second year

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1	ANT2DGC	Development, Globalisation and Culture	20
TE-SEM-2	HIS2WOR	The World since 1945	20
TE-SEM-1		One first year Bachelor of International Development unit	15
TE-SEM-1		One first year Bachelor of International Development unit	15
TE-SEM-2		One first year Bachelor of International Development unit	15

Third year

Teaching period	Unit code	Unit title	Credit points
TE-SEM-2	SOC3DIP	Development in Practice	20
TE-SEM-1		One third year DST elective unit	20
TE-SEM-2		Three third year DST elective units	60

Bachelor of Health Sciences/Bachelor of International Relations – Melbourne (Bundoora) (HZHSIR)

Enquiries: Division of Health Studies reception (03) 9479 1750

Faculty of Humanities and Social Sciences: (03) 9479 2023

Duration: 4 years

For details of Bachelor of International Relations units, see entries in the Faculty of Humanities and Social Sciences section of this *Handbook*.

This four-year double-degree develops, in students, knowledge of health sciences and international relations. With the increasing internationalisation of health services there is an increasing need for health professionals to understand the dynamics of international relations. It is anticipated that graduates of the combined degree will find employment in private enterprise, in government departments and in the not-for-profit non-government organisation sector.

Programs of study

The course requires a total of 540 credit points taken over four years. Students are required to take units to the total of 270 credit points from each discipline consisting of the following year levels.

Faculty	First-year units	Second-year units	Third-year units
Health Sciences	90	120	60
Humanities and Social Sciences/Law and Management	90	80	100

Health Sciences requirements

Students must complete the following core units from the Bachelor of Health Sciences.

First year

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1	HBS1API	Introduction to the Human Body	15
TE-SEM-1	PHE1PHA	Introduction to Public Health A	15
TE-SEM-1	PHE1HOA	Health of Australians	15
TE-SEM-2	HBS1HRB	Regulation of Human Body Function	15
TE-SEM-2	PHE1AHS	Australia's Health Care System	15
TE-SEM-2	PHE1PHB	Introduction to Public Health B	15

At second and third year level, students complete units from the Public Health Stream of Study in the Bachelor of Health Sciences.

International Relations requirements

Students must complete the following units from the Bachelor of International Relations. All first year units are worth 15 credit points.

First year

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1	POL1SNS	States, Nations and Security: World in Transition	15
TE-SEM-2	POL1EEH	Economy, Environment and Human Rights: World in Transition	15
TE-SEM-1		One first year IR unit from Electives A in BIR course description	15
TE-SEM-2		One first year IR unit from Electives A in BIR course description	15
TE-SEM-1		One first year IR unit from Electives B in BIR course description	15
TE-SEM-2		One first year IR unit from Electives B in BIR course description	15

Second year

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1	POL2IPP	International Public Policy	20
TE-SEM-1		One second year IR unit from Electives A in BIR course description	20
TE-SEM-2		One second year IR unit from Electives A in BIR course description	20
TE-SEM-2		One second year IR unit from Electives B in BIR course description	20

Third year

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1		One third year IR unit from Electives A in BIR course description	20
TE-SEM-2	POL3PCW	Professional Competence: Transition to the Workplace	20
TE-SEM-2		One third year IR unit from Electives B in BIR course description	20
TE-SEM-1		One third year IR unit from Electives A or B in BIR course description	20
TE-SEM-2		One third year IR unit from Electives A or B in BIR course description	20

Bachelor of Health Sciences/Bachelor of Media Studies – Melbourne (Bundoora) (HZHSMS)

Division of Health Studies: (03) 9479 1750

School of Communication Arts and Critical Enquiry: (03) 9479 2616

Duration: 4 years

For details of Bachelor of Media Studies units, see entries in the Faculty of Humanities and Social Sciences section of this *Handbook*.

Public expectations about improved and extended health services are often gained from the media, and the public debate about health policy is also extensively played out in the media. This double degree in health sciences and media studies is proposed on the premise that increasingly there is a need for health professionals who have an understanding of the old and new media and that, concomitantly, there is a parallel need for media professionals who better understand health issues.

Programs of study

The course requires a total of 540 credit points taken over four years. Students are required to take units to the total of 260 credit points from each discipline with 20 credit points taken from electives within either Health Sciences or Media Studies units.

Faculty	First-year units	Second-year units	Third-year units
Health Sciences	90	80	90 20 electives ¹
Humanities and Social Sciences	60	100	100 20 electives ¹

Key: ¹ 20 credit points of electives can be taken from either Health Sciences or Media Studies level 2 or level 3 units.

Course structure**First year**

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1	HBS1API	Introduction to the Human Body	15
TE-SEM-1	PHE1PHA	Introduction to Public Health A	15

Bachelor of Pastoral Care (Graduate Entry) – Melbourne (Bundoora) (HBPC)

Division of Health Studies: (03) 9479 1750

Course Coordinator: (03) 9479 1745

Duration: 2 years full-time or part-time equivalent

Note: This course is only available to applicants who have completed an undergraduate degree or equivalent.

This course offers graduates a means of obtaining pastoral care training that complements previous education and experience and is sufficiently comprehensive to equip them with the range of knowledge and skills required for pastoral care practice in health care settings.

Study areas include the history of pastoral care provision, pastoral practice methodologies, public health knowledge and skills, knowledge of the Australian health system, philosophical approaches to key issues in holistic health care provision, and selected cultural contexts of human religious and spiritual belief. The curriculum itself comprises the BPC component of the double degree BHSc/BPC, with some additional public health electives included. The purpose of these additional electives is to ensure that graduates entering without a health sciences background are able to take core public health units, whilst those with a health sciences background will be able to choose electives from a range of humanities and social science units. Students will be encouraged to make their elective choices, in consultation with the course adviser, to complement the knowledge and skills they bring to the program. The degree includes supervised practice units in the second (final) year.

Course structure**First year**

Teaching period	Unit code	Unit title	Credit points

DIVISION OF NURSING AND MIDWIFERY

Bachelor of Nursing (pre-registration) – Albury-Wodonga (HBNPRW), Bendigo (RBN), Melbourne (Bundoora) (HBN), Mildura (HBNM), Shepparton (HBNUP)

Tel: (03) 9479 5950

Duration: 3 years full-time

This comprehensive course leads to registration as a Division 1 nurse with the Nurses Board of Victoria. It is offered across the Albury-Wodonga, Bendigo, Melbourne (Bundoora), Mildura and Shepparton campuses. Students are required to undertake a course of studies equivalent to that listed below. Some unit codes differ depending upon the campus of offer. The following course structure is that of the Albury-Wodonga, Melbourne (Bundoora), Mildura and Shepparton campuses. For further information regarding Albury-Wodonga, Mildura and Shepparton and the structure of courses offered at the Bendigo Campus, please refer to those campus entries elsewhere in this *Handbook*. Note that the teaching period in which a unit is offered may change.

The Bachelor of Nursing (pre-registration) is a three-year pass degree. An Honours year is also available for candidates who meet the entrance requirements.

The philosophy of the course views students as active participants in the learning process. This enhances the development of the critical thinking and problem-solving skills that enable the graduate to respond to the changing demands of health care services. The course involves study in nursing theory, practice and research, human biosciences and public health.

The on-campus skills laboratory enables students to practise and develop clinical nursing skills in a simulated and supportive environment. For enrolled students, the clinical learning component occurs in hospitals and health care agencies within regional and metropolitan areas (depending on your campus of enrolment).

This course is offered on a full-time basis. Part-time study is not recommended, but may be considered at the discretion of the Undergraduate Course Coordinator. It is also offered as a two-year, full-time Graduate Entry program at the Melbourne (Bundoora) Campus, with one year of advanced standing being granted to selected applicants with an Australian Bachelor degree or equivalent. An additional year of study is available at Honours level for students who have achieved an outstanding academic record. Students who enrol in the Honours stream may apply for registration as a Division 1 nurse at the completion of pass-degree studies.

Professional recognition

Graduates are eligible for registration as Division 1 nurses with the Nurses Board of Victoria. After registration, graduates are eligible for membership of the Royal College of Nursing Australia.

Course structure (3-year program) (HBN)

First year

Teaching period	Unit code	Unit title	Credit points

Bachelor of Nursing (Honours) – Melbourne (Bundoora) (HHN), Bendigo (RHN), Albury-Wodonga (HSHNW)

An Honours stream, normally undertaken on a part-time basis over two years, is available as the fourth year of the Bachelor of Nursing. This course is available at the Albury-Wodonga, Bendigo and Melbourne (Bundoora) campuses. To be eligible students should have achieved a B-grade average or above in third year studies. Students with a Bachelor of Nursing from another institution may be considered for entry.

Students are assisted to demonstrate academic and investigative skills in critical review and analysis of data which are at a higher level than normally expected of pass-level students and to broaden and deepen their theoretical knowledge in the discipline of nursing as a preparation for graduate study.

Course structure

Honours students enrol in four course work units, participate in research seminars and submit a research essay or project comprising 10,000–12,000 words or the equivalent. Both first and second years are based on part-time study. Study mode includes the attendance at fortnightly research seminars.

Advanced standing

Students undertaking an approved graduate year program while enrolled in the Honours course may apply for credit for the Nursing Practicum elective. To receive the credit, student's need to have completed a minimum of 52 days of clinical practice and provide a satisfactory report of their clinical progress from the graduate year program coordinator.

First year

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1	NSG4RHP	Research Honours Preparation	15
TE-SEM-1		Nursing practicum elective from approved list	15
TE-SEM-2	NSG4NTP	Thesis preparation	15

Second year

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1	NSG4NTH	Thesis	30
TE-SEM-2	NSG4NTH	Thesis	30

Bachelor of Nursing (Graduate Entry Program) – Melbourne (Bundoora) (HBNPRG)

Tel: (03) 9479 5950

Duration: 2 years full-time

The Bachelor of Nursing (Graduate Entry) is a two-year course available to students who have completed an Australian Bachelor degree (or equivalent) and prepares graduates for Division 1 registration. It is offered at the Melbourne (Bundoora) Campus only. This course requires previous study in human anatomy and physiology. Students without previous study in this area are required to successfully complete a short course in human anatomy and physiology prior to the commencement of this course.

Professional recognition

Graduates are eligible for registration as Division 1 nurses with the Nurses Board of Victoria. After registration, graduates are eligible for membership of the Royal College of Nursing Australia.

First year

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1	NSG1AAS	Nursing Art and Science	15
TE-SEM-1	HBS2PAT	Pathophysiology in Nursing	15
TE-SEM-1	NSG2MED	Medication Management for Nurses	15
TE-SEM-1	NSG1HAS	Health Assessment for Nurses	15
TE-SEM-1	NSG1FUN	Fundamentals of Nursing Practice	15
TE-SEM-2	NSG2EBP	Evidence Based Nursing	15

TE-SEM-2	NSG3INT	Managing Complex Interactions in Nursing	15
TE-SEM-2	NSG2CAF	Child and Family Nursing Practice	15

Honours

An Honours year may be undertaken as a third year of this program. See the Honours description above.

Bachelor of Nursing (Division 2 Conversion) – Melbourne (Bundoora) (HSBNC), Albury-Wodonga (HSBNCW), Bendigo (BEBND2), Mildura (HBNCM), Shepparton (HBNCP)

Tel: (03) 9479 5950

Duration: 2 years full-time, 3 years part-time Mildura and Shepparton

The Bachelor of Nursing (Division 2 Conversion) is a 2-year course available to students who hold a current Division 2 registration and wish to upgrade their qualification to Division 1. It is offered at the Albury-Wodonga, Bendigo, Melbourne (Bundoora), Mildura and Shepparton campuses. The following course structure is that of the Albury-Wodonga, Bendigo and Melbourne (Bundoora) campuses. Please refer to the relevant sections of this *Handbook* for the structure at Mildura and Shepparton. Successful completion of this course prepares graduates for Division 1 registration. This course requires all students to successfully complete a short course in human anatomy and physiology prior to the commencement.

Professional recognition

Graduates are eligible for registration as Division 1 nurses with the Nurses Board of Victoria. After registration, graduates are eligible for membership of the Royal College of Nursing Australia.

First year – Albury-Wodonga, Bendigo, and Melbourne (Bundoora)

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1	NSG1LIL	Information Literacy for Nurses	15
TE-SEM-1	NSG1AAS	Nursing Art and Science	15
TE-SEM-1	NSG1HAS	Health Assessment for Nurses	15
TE-SEM-1	HBS2PAT	Pathophysiology in Nursing	15
TE-SEM-1	NSG2MED	Medication management for Nurses	15
TE-SEM-2	NSG2EBP	Evidence Based Nursing	15
TE-SEM-2	NSG2LEA	Law, Ethics and Accountability for Nurses	15
TE-SEM-2	NSG2MHL	Mental Health Nursing Practice	15
TE-SEM-2	NSG2AUA	Acute Nursing Practice A	15

Second year – Albury-Wodonga, Bendigo and Melbourne (Bundoora)

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1	NSG3NTF	Nursing the Future	15
TE-SEM-1	NSG3AUB	Acute Nursing Practice B	15
TE-SEM-1	NSG3GER	Gerontic Nursing Practice	15

Advanced Diploma in Nursing – Melbourne (Bundoora) (HDIAN), Bendigo (RDN), Albury-Wodonga (HDIANW)

Tel: (03) 9479 5950

Duration: 1 year part-time or 1 semester full-time*

Note: This course will only run full-time upon sufficient enrolment numbers

The course is a part-time course offered over two semesters. The course may be available full-time over one semester if there is sufficient demand. This course is offered across the Albury-Wodonga, Bendigo and Melbourne (Bundoora) campuses.

Application is by direct admission. The applicant should be a previously registered nurse on the Division 1 register, but who has allowed his or her registration to lapse or an international registered nurse wishing to obtain registration in Victoria. The application form should include a copy of the lapsed registration certificate plus a letter of approval to undertake the course, obtained from the Nurses Board of Victoria. Applications close at the end of October. Late applications may be considered if places are available.

Professional recognition

Graduates are eligible for registration as Division 1 nurses with the Nurses Board of Victoria. After registration, graduates are eligible for membership of the Royal College of Nursing Australia.

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1 or TE-SEM-2	NSG1HAS	Health Assessment for Nurses	15
TE-SEM-1 or TE-SEM-2	NSG2MED	Medication Management for Nurses	15
TE-SEM-1 or TE-SEM-2	NSG2AUA	Acute Nursing Practice A	15
TE-SEM-1 or TE-SEM-2	NSG2MHL	Mental Health Nursing Practice	15

A full description of units, including the unit name, unit code, credit points, campus/location, unit coordinator, class requirements, assessment, prerequisites and readings, appears at the end of this chapter. For the most recent descriptions of units students should access the unit database at www.latrobe.edu.au/udb_public

Bachelor of Nursing (post-registration) – Albury-Wodonga (HSBNW), Bendigo (RBNP), Melbourne (Bundoora) (HBNP)

Tel: (03) 9479 5950

Duration: 1 year full-time or 2 years part-time

This course enables registered nurses to expand and practically apply their knowledge base. This course is available at the Albury-Wodonga, Bendigo and Melbourne (Bundoora) campuses. It aims to provide students with academic and practical skills and the attitudes required to comprehend, critically analyse and evaluate new knowledge in nursing. Graduates of the course will have a strong discipline base for postgraduate study.

Consistent with the rationale of the course, the Division of Nursing and Midwifery aims to prepare qualified nurses to:

- develop further a discipline perspective through the study of relevant literature
- acquire the ability to interpret and utilise nursing research findings
- critically examine issues related to health care delivery systems and the implications for nursing and recipients
- broaden and deepen their knowledge of nursing practice in order to expand their role in a selected practice setting
- demonstrate commitment to learning as a life-long process.

Stream A

Admission requirements

This course is open to nurses who hold a diploma from a college or university or who hold a nursing certificate from a hospital-based

program. Applicants must be eligible for registration as Division 1 nurses with the Nurses Board of Victoria.

Advanced standing

Holders of a three-year Australian Diploma in Nursing may apply for advanced standing.

Course structure

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1 or TE-SEM-2	NSG1HAS	Health Assessment for Nurses	15
TE-SEM-2	NSG2EBP	Evidence-based Nursing	15

Plus six electives chosen with the agreement of the Undergraduate Course Coordinator.

Stream B

Admission requirements

This course is designed for nurses who hold a diploma or degree in nursing from a college or university or who hold a nursing certificate from a hospital-based program and are not currently registered with the Nurses Board of Victoria. This course is available at the Albury-Wodonga, Bendigo and Melbourne (Bundoora) campuses. Local applicants must have been previously registered as Division 1 or Division 3 nurses with the Nurses Board of Victoria and wish to re-enter the nursing profession. Students are required to provide the university with a letter from the Nurses Board of Victoria granting permission to undertake the course with the intention of applying for registration or re-registration.

Professional recognition

Graduates are eligible for membership of the Royal College of Nursing, Australia.

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1	NSG2MED	Medication Management	15
TE-SEM-1	NSG2MHL	Mental Health Nursing Practice	15
TE-SEM-2	NSG2EBP	Evidence-based Nursing	15

Bachelor of Nursing Science – Bendigo (RBNS), Melbourne (Bundoora) (HBNS)

Tel: (03) 9479 5950

Duration: 4 years full-time

* For Continuing Students Only

This is Australia's first four-year degree leading to registration as a Division 1 nurse with the Nurses Board of Victoria. This course is available at the, Bendigo and Melbourne (Bundoora) campuses. The course represents the ideal educational preparation for registered nurses and received numerous commendations from across Australia and the profession. While it has a number of units in common with the three-year Bachelor of Nursing, it aims to prepare the nurse leaders of the future. To this end the entry score is higher, students have a greater opportunity to develop their clinical skills in an area of particular interest, with enhanced research preparation and skills now required of nurses in management, leadership, negotiation and delegation.

Professional recognition

Graduates are eligible for registration as Division 1 nurses with the Nurses Board of Victoria. After registration, graduates are eligible for membership of the Royal College of Nursing Australia.

Course structure

The following course structure is that for Melbourne (Bundoora) campus. For further information regarding the course structure of the Bendigo course, please refer to the relevant entries elsewhere in this *Handbook*. The course provides an opportunity to study an Honours or pass stream from third year.

First year

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1	PHE1PHA	Introduction to Public Health A	15
TE-SEM-1	HBS1API	Introduction to Human Body	15

Bachelor of Nursing/Bachelor of Midwifery – Melbourne (Bundoora) (HZNM)

Tel: (03) 9479 5950

Duration: 4 years full-time

This four-year double-degree leads to registration as a Division 1 nurse and endorsement to practise as a midwife with the Nurses Board of Victoria. The course is offered on a full-time basis at the Melbourne (Bundoora) Campus only.

The course is designed to:

- prepare graduates to assume practice roles in a broad range of health care settings – midwifery and nursing
- provide graduates with the theoretical preparation, public speaking ability, and presentation and negotiation skills to enable them to assume future leadership roles in the health care system
- provide graduates with in-depth understanding of the roles of the midwife and nurse in social change, to be capable of taking a politically informed stance to support health for all.

The Nursing and Midwifery studies are integrated in such a way that students who decide not to pursue the midwifery pathway during the four-year program will need to withdraw from it and re-enrol in the Bachelor of Nursing. (This may be done up to the end of second year without the student incurring any penalty.)

Professional recognition

Graduates are eligible for registration as Division 1 nurses and endorsement as a midwife with the Nurses Board of Victoria. After registration, graduates are eligible for membership of the Royal College of Nursing Australia and the Australian College of Midwives.

Course structure

The following course structure is that for the Melbourne (Bundoora) Campus.

TE-SEM-1	NSG3NTF	Nursing The Future	15
TE-SEM-1	MID4CBA	Compromised Birth A	30
TE-SEM-1	NSG3AUB	Acute Nursing Practice B	15
TE-SEM-2	NSG3AUC	Acute Nursing Practice C	15
TE-SEM-2		Midwifery/Nursing elective from approved list	15
TE-SEM-2	MID4CBB	Compromised Birth B	30

Faculty Electives

The following electives are available to students from anywhere in the university who have the relevant prerequisites. The list is sorted by year level, teaching period and discipline.

First year units

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1	HCS1ANA	AUSLAN 1A	15
TE-SEM-1	HCS1EDS	Academic English for Deaf Students	15
TE-SEM-1	HIM1HIA	Health Informatics	15
TE-SEM-1	HIM1MTA	Medical Terminology	15
TE-SEM-1	PHE1CSG	Culture, Society and the Health and Men and Women	15
TE-SEM-1	PHE1IPC	Person Centred Care	15
TE-SEM-2	HCS1ANB	AUSLAN 1B	15
TE-SEM-2	PHE1BHN	Public Health for Nutrition Studies	15
TE-SEM-S	HCS1ANA	AUSLAN 1A	15
TE-SEM-S	HCS1ANB	AUSLAN 1B	15

Second year units

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1	HCS2ANA	AUSLAN 2A	20
TE-SEM-1	HCS2ECS	Effective Communication for the Successful Professional	15
TE-SEM-1	PHE2HSD	Health Skills Development	20
TE-SEM-2	HBS2PAS	Systemic Pathology	5
TE-SEM-2	HCS2ANB	AUSLAN 2B	20
TE-SEM-2	PHE2OPH	Organisational Psychology of Health Services	20
TE-SEM-S	HBS23FSA ^{2,3}	Fertility, Reproductive Technology and Society A	10
TE-SEM-S	HBS23FSB ^{2,3}	Fertility, Reproductive Technology and Society B	15
TE-SEM-S	HBS23RHE ^{1,3}	Reproductive Health	15
TE-SEM-S	HBS23RHS ^{1,3}	Reproductive and Sexual Health	10
TE-SEM-2	PHE2CHP	Community Health Promotion	20

Third year units

Teaching period	Unit code	Unit title	Credit points
TE-SEM-1	HBS3DIS ²	Drugs in Sport	15
TE-SEM-1	HCS3ANA	AUSLAN 3A	20
TE-SEM-1	HCS3ECS	Effective Communication for the Successful Professional	15
TE-SEM-1	PHE3IGA	Introduction to Gerontology A	10
TE-SEM-1	PHE3SEP	Sport and Exercise Psychology	15
TE-SEM-1	HIM4PIS	Professional Issues	20
TE-SEM-1	POR3PGA	Pathological Gait Analysis	15
TE-SEM-2	HBS3DIU ²	Drugs in Use	15
TE-SEM-2	HBS3TIP	Topics in Pathophysiology	15
TE-SEM-2	HCS3ANB	AUSLAN 3B	20
TE-SEM-2	HCS3ANC	AUSLAN 3C	20
TE-SEM-2	PHE3LDA ²	Living with Disability in the Australian Community A	10
TE-SEM-2	PHE3DDA	Death, Dying and Grief A	10
TE-SEM-2	PHE3ddb	Death, Dying and Grief B	15
TE-SEM-2	PHE3DUA	Drug Use and Addictive Behaviour A	10
TE-SEM-2	PHE3DUB	Drug Use and Addictive Behaviour B	15
TE-SEM-2	PHE3EPH ²	Ecology and Public Health	15
TE-SEM-2	PHE3IH ²	Introduction to Health Information Systems	30
TE-SEM-2	PHE3ISB	Illness and Spirituality	15
TE-SEM-2	PHE3LDB ²	Living with Disability in the Australian Community B	15
TE-SEM-2	PHE3PPH	Psychosocial Perspectives of Health and Illness	15
TE-SEM-S	HBS3RHE ³	Reproductive Health	15
TE-SEM-S	HBS3RSH ³	Reproductive and Sexual Health	10
TE-SEM-S	PHE3HIC	Health Informatics for Clinical Practice	15
TE-SEM-2	PHE3SPH	Studies in Public Health	30

Key: ¹ Can be taken at third year level.

² Not offered in 2008.

³ Offered in block mode over winter vacation on alternate years. Also offered at third year level.

UNIT DESCRIPTIONS

DFS1ANB AUSLAN 1B (15 CPs Sem. TE-SEM-2 BE, BU. TE-SEM-S BU. TE-W28-28 BU.) *Ms Berna Hutchins*

The offering of this unit as a one-week intensive is subject to sufficient enrolments

In this unit, students continue to concentrate on developing practical abilities in both the reception and production of Australian sign language (Auslan) to a level of basic communicative competence. Students are introduced to the grammatical structures of Auslan and the use of the language in its appropriate cultural and social content.

Prerequisite: DFS1ANA or equivalent.

Class requirements: One 3-hour seminar per week. WebCT is utilised in this unit.

Assessment: Class exercises equivalent to 700 words (20%), two 15-minute live signing tests (40%), and one 2-hour examination (40%).
Hurdle requirement: Must obtain a pass in all components of assessment (0%).

Prescribed Reading:

Branson, J. Edn. *Auslan 1 B Readings and workbook* NIDS, La Trobe University, 2008.

Branson, J. et al. *Introduction to Auslan level 2* NIDS, La Trobe University, 1995.

DFS1EDS ACADEMIC ENGLISH FOR DEAF STUDENTS (15. CPs Sem. TE-SEM-1 BU.) *Professor Jan Branson*

In this unit, deaf students are introduced to the wide range of skills needed in a university environment. It enables students to develop their English language literacy and numeracy skills in an academic context. Students will examine the issues in developing written academic discourse from a deaf perspective. The course will focus on reading and writing English particularly in relation to producing essays, tutorial papers and laboratory reports and in the critical evaluation of written texts. Library studies will include bibliographic research skills. It will also consider ways of understanding statistics as used in academic reports. Students will be introduced to the main computer programs used for essay production and the use of email and the Internet.

Class requirements: One 4-hour seminar per week. WebCT is utilised in this unit.

Assessment: Class exercises equivalent to 500-words (10%), one 20-minute individual class presentation (20%), one 500-word essay (10%), and one 2500-word essay (60%).

Prescribed Reading:

Bate, D. and Sharpe, P. *Handbook for university students* Harcourt Brace 1996.

DFS2ANA AUSLAN 2A (20. CPs Sem. TE-SEM-1 BE, BU.) *Professor Jan Branson*

In this unit, students concentrate on further developing their communicative competence in both receptive and productive skills. Students focus on the use of informal registers and discourse forms in the language. The issue of language variation within the deaf community will be discussed.

Prerequisite: DFS1ANB or equivalent.

Class requirements: One 2-hour seminar or lecture plus one 2-hour tutorial per week. WebCT is utilised in this unit.

Assessment: Four class exercises total equivalent to 1200 words (20%), two 15-minute live signing tests (40%), and one 2-hour examination (40%). Hurdle requirement: Must obtain a pass in all components of assessment

Prescribed Reading:

Branson, J. Edn. *Auslan 2A Readings* NIDS, La Trobe University 2008.

Auslan 2A Student Video NIDS, La Trobe University 2008.

DFS2ANB AUSLAN 2B (20. CPs Sem. TE-SEM-2 BE, BU.) *Professor Jan Branson*

In this unit, students continue to concentrate on further developing their communicative competence in both receptive and productive skills. Students focus on formal registers and discourse forms used in the language. The issue of language variation within the deaf community will be discussed.

Prerequisite: DFS2ANA or equivalent.

Class requirements: One 2-hour seminar / lecture and one 2-hour tutorial per week. WebCT is utilised in this unit.

Assessment: Two 15-minute live signing tests (40%), one 2-hour examination (40%), four class exercises total equivalent to 1200 words (20%). Hurdle requirement: Must obtain a pass in all components of assessment (0%).

Prescribed Reading:

Branson, J. Edn. *Auslan 2B Readings and workbook* NIDS, La Trobe University 2008.

Auslan 2B Student video NIDS, La Trobe University 2008.

DFS3ANA AUSLAN 3A (20. CPs Sem. TE-SEM-1 BE, BU.) *Ms Anne Bremner*

This unit critically examines the emergence of the deaf community in Australia and its development out of the colonialisation of Australia. It examines the very beginnings of that community from the arrival of the first deaf person in Australia on the Second Fleet and the establishment of schools of the deaf in the 19th century to the community today. It traces the historical origins of linguistic and educational ideas that the early members of the community brought with them to Australia. Topics studied include the impact of spoken and written languages on the development of Auslan and other signing systems.

Prerequisite: DFS2ANB or equivalent.

Class requirements: One 4-hour seminar or lecture per week. WebCT is utilised in this unit.

Assessment: Four class exercises total equivalent to 1200 words (20%), two 15-minute live signing tests (40%), and one 2-hour examination (40%). Hurdle requirement: Must obtain a pass in all components of assessment (0%).

Prescribed Reading:

Branson, J. (ed.) *Auslan 3A Readings* NIDS, La Trobe University 2008.

Recommended Reading:

Fischer, R. and Lane, H. *Looking back* Signum Press, Hamburg 1993.

DFS3ANB AUSLAN 3B (20. CPs Sem. TE-SEM-2 BE, BU.) *Ms Anne Bremner*

In this unit, students will examine the structures of signs and sequences from a linguistic perspective. Students will explore the theme of sign language universals, focusing on how sign languages develop grammatical structures that are linked to the visual-spatial dimension in which these languages operate. Specific topics examined are space and grammars; incorporating pronominalisation, verb inflection, role shift and time marking, classifiers, non-manual markers and sign order.

Prerequisite: DFS3ANA or equivalent.

Class requirements: One 4-hour seminar or lecture per week. WebCT is utilised in this unit.

Assessment: Two 15-minute live signing tests (40%), one 2-hour examination (40%), four class exercises equivalent to 1200 words (20%). Hurdle requirement: Must obtain a pass in all components of assessment (0%).

Schembri, A. *The structure and formation of signs in Auslan* North Rocks Press 1996.

HBS1ALB ANATOMY: UPPER LIMB, LOWER LIMB AND FOOT (15. CPs Sem. TE-SEM-2 BU.) *Dr Sherrie Wentworth*

In this unit, the contents are taught in 3 modules. Module 1 covers the regional anatomy of the lower limb from the pelvic girdle to the foot. Module 2 covers the detailed anatomy of the foot and its function, particularly relating to the role of the joints, intrinsic musculature and fascia in weight bearing. Module 3 covers upper limb from the pectoral girdle to the hand (including the role of the hand in grasp). Emphasis is placed on the application of anatomical principles (first met in HBS1APH) in order to correlate structure with function in developing an understanding of the anatomical bases of everyday activities. Lectures will be supported by practical sessions which will include surface anatomy and the examination of appropriate cadaver specimens.

Co-requisite: HBS1APH.

Class requirements: Nineteen 1-hour lectures and 8 hours of practical classes are conducted per module.

This unit is not available for study abroad students.

Assessment: Two tests per module (equivalent to 150-words each) (30%). There are 3 modules, one 3-hour written examination (70%). Hurdle requirement: participation in all components of the assessment.

Prescribed Reading:

HBS1ALB. Current Edn. student manual.

Recommended Reading:

Snell, R.S. *Clinical anatomy* 7th Edn. Lippincott Williams and Wilkins 2004.

Moore, K. L., and Dalley, A. F. *Clinically oriented anatomy* 5th Edn., Lippincott Williams and Wilkins 2006.

HBS1ALF ANATOMY: LOWER LIMB AND FOOT (10. CPs Sem. TE-SEM-2 BU.) *Dr Richard Duckett*

In this unit, two consecutive modules are taught. Module 1 covers the regional anatomy of the lower limb from the pelvic girdle to the foot. Module 2 covers the detailed anatomy of the foot and its function, particularly relating to the role of the joints, intrinsic musculature and fascia in weight bearing. Emphasis is placed on the application of anatomical principles (first met in HBS1APH) in order to correlate structure with function in developing an understanding of the anatomical bases of everyday activities. Lectures will be supported by practical sessions which will include surface anatomy and the examination of appropriate models.

Co-requisite: HBS1APH.

Class requirements: Three 1-hour lectures and one 1.5-hour practical class per week for the duration of each module. WebCT will be used as a means of communication and document delivery.

This unit is not available for study abroad students.

Assessment: Four practical tests (equivalent to 150-words each) (20%), one 2-hour written examination (80%). Hurdle requirement: participation in all components of the assessment.

Prescribed Reading:

Snell, R.S. *Clinical anatomy for medical students* 7th Edn. Williams and Wilkins 2004.

Moore, K. L. and Dalley, A. F. *Clinically oriented anatomy* 5th Edn. Williams and Wilkins 2005.

Drake, R.L., Vogl, W. and Mitchell, A.W.M. *Gray's anatomy for students* Elsevier, Churchill and Livingstone 2005.

HBS1ALF Current Edn. student manual.

HBS1ALU ANATOMY: LOWER AND UPPER LIMBS (10. CPs Sem. TE-SEM-2 BU.) *Dr Richard Duckett*

In this unit, two consecutive modules are taught. Module 1 covers the regional anatomy of the lower limb from the pelvic girdle to the foot (considering the foot simply as a platform supporting the limb). Module 2 covers upper limb from the pectoral girdle to the hand (including the role of the hand in grasp). Emphasis is placed on the application of anatomical principles (first met in HBS1APH) in order to correlate structure with function in developing an understanding of the anatomical bases of everyday activities. Lectures will be supported by practical sessions, including surface anatomy, examination of appropriate cadaver specimens and computer aided learning activities.

Co-requisite: HBS1APH.

Class requirements: Three 1-hour lectures and one 1.5-hour practical class per week for the duration of each module. WebCT will be used as a means of communication and document delivery.

This unit is not available for study abroad students.

Assessment: 4 practical tests (equivalent to 150-words each) (20%), one 2-hour written examination (80%). Hurdle requirement: student participation in all components of the assessment.

Prescribed Reading:

Snell, R.S. *Clinical anatomy for medical students* 7th Edn. Lippincott Williams and Wilkins 2004.

Moore, K. L., and Dalley, A. F. *Clinically oriented anatomy* 5th Edn. Williams and Wilkins 2005.

Drake, R.L., Vogl, W. and Mitchell, A.W.M. *Gray's anatomy for students* Elsevier Churchill Livingstone 2005.

HBS1ALU Current Edn. student manual.

HBS1AON ANATOMY: ORGANS (5 CPs Sem. TE-SEM-2 AW, BU, MI, SH.) *Dr Jodi Sita*

In this unit, the principles of anatomy which begun in HBS1API will be developed and applied to the location and physical relationships between major organ systems of the head and trunk. Emphasis will be placed on cardiovascular, respiratory, digestive, renal and reproductive systems, paralleling the functional approach to these in HBS1HBF. Lectures will be supported by practical sessions, including surface anatomy and examination of cadaver specimens.

Co-requisite: HBS1HBF, HBS1API.

Class requirements: Eighteen 1-hour lectures and four 2-hour practical classes per semester.

This unit is not available for study abroad students.

Assessment: One 10-minute multiple choice test (equivalent to 200 words) (10%), one 300-word assignment (20%), one 1-hour written examination (70%). Hurdle requirement: student must participate in all components of the assessment.

Recommended Reading:

Blackhouse, K.M., Haching, R.T. *Clinical surface anatomy* Mosby 1998.

Moore, L.M. and Agur, A.M.R. *Essential clinical anatomy* 2nd Edn. Lippincott, Williams and Wilkins 2002.

HBS1AON Current Edn. student manual.

HBS1APA ANATOMY FOR PHYSIOTHERAPY A (15 CPs Sem. TE-SEM-1 BU.)

Dr Rod Green

In this unit students will be introduced to the principles of bones, joints, skeletal muscles, nerves, vessels and skin. These principles will be applied to regional anatomy of the lumbar vertebral column and lower limb. Embryological development relevant to an understanding of the gross anatomy will be covered in each region. Lectures will be supported by practical classes including examination of appropriate cadaver, histological and radiographic materials and CAL activities. Application of anatomical principles will be utilised to correlate structure with function in developing an understanding of the anatomical bases of everyday activities and some pathological conditions.

Class requirements: Three 1-hour lectures, one 2-hour practical class, and one 1-hour practical class per week.

Assessment: One 3-hour written examination (80%), five practical tests (equivalent to 150 words each) (20%). Hurdle requirement: participation in all components of assessment.

Prescribed Reading:

Moore, K.L. and Dalley, A.F. *Clinically oriented anatomy* 5th Edn. Lippincott, Williams and Wilkins 2006.

Rohen, J.N., Yokochi, C. and Lutjen-Drecoll, E. *Colour atlas of anatomy* 5th Edn. Lippincott, Williams and Wilkins.

HBS1APA Anatomy for Physiotherapy A manual Current Edn.

HBS1APB ANATOMY FOR PHYSIOTHERAPY B (15 CPs Sem. TE-SEM-2 BU.)

Dr Rod Green

In this unit students will be introduced to the mechanics of connective tissues and the principles of anatomy covered in HBS1APA will be applied to regional anatomy of the vertebral column and upper limb. Embryological development relevant to an understanding of the gross anatomy will be covered in each region. Lectures will be supported by practical classes including examination of appropriate cadaver, histological and radiographic materials and CAL activities. Application of anatomical principles will be utilised to correlate structure with function in developing an understanding of the anatomical bases of everyday activities and some pathological conditions. Students' ability to correlate structure with function will be assessed by the presentation of a seminar comparing homologous components of the upper and lower limb.

Co-requisite: HBS1APA.

Class requirements: Three 1-hour lectures, one 2-hour practical class, and one 1-hour practical class per week.

This unit is not available for study abroad students.

Assessment: One 2.5-hour written exam (70%), five practical tests (equivalent to 150 words each) (20%), one 15-minute verbal presentation (in groups of 2) (10%). Hurdle requirement: participation in all components of assessment.

Prescribed Reading:

Moore, K.L. and Dalley, A.F. *Clinically oriented anatomy* 5th Edn. Lippincott, Williams and Wilkins 2006.

Rohen, J.N., Yokochi, C. and Lutjen-Drecoll, E. *Colour atlas of anatomy* 5th Edn. Lippincott, Williams and Wilkins.

HBS1APB Anatomy for Physiotherapy B manual Current Edn.

HBS1APH HUMAN ANATOMY AND PHYSIOLOGY (15. CPs Sem. TE-SEM-1 BU.) *Dr Richard Duckett, Dr Susan Malcolm*

In this unit students will be introduced to basic physiological and anatomical concepts that will be further developed in semester 2. Physiology lectures will cover homeostasis, body fluids, the cell and plasma membrane, mechanisms by which substances cross the membrane, the nervous system and skeletal muscle. Anatomy lectures

will cover anatomical terminology, tissues, skin, the musculoskeletal system, nerves and regional anatomy. Lectures are supported by practical classes and tutorials.

Incompatible unit: HBS1API, HBS1HFU.

Class requirements: Four 1-hour lectures per week with five 2-hour practical classes and five 1-hour tutorial/workshops per semester.

This unit is not available for study abroad students.

Assessment: Three 5-minute tests in practical classes (equivalent to a total of 1000-words) (15%). Hurdle requirement: participation in all components of the assessment, one 2-page diagram-based assignment (equivalent to 500-words) (5%), one 1.5-hour written anatomy examination (40%), one 1.5-hour written physiology examination (40%)

Recommended Reading:

HBS1API INTRODUCTION TO THE HUMAN BODY (15. CPs Sem. TE-SEM-1 AW, BU, MI, SH.) AW: Dr Charu Mishra, BU: Dr Susan Malcolm, BU: Dr Jodi Sita

In this unit students will be introduced to basic physiological and anatomical concepts that will be further developed in semester 2. Physiology lectures will cover homeostasis, body fluids, the cell and plasma membrane, mechanisms by which substances cross the membrane, the nervous system and skeletal muscle. Anatomy lectures will cover anatomical terminology, tissues, skin, the musculoskeletal system, nerves and regional anatomy. Lectures are supported by practical classes and tutorials.

Incompatible unit: HBS1APH, HBS1HFU.

Class requirements: Four 1-hour lectures per week, nine 1-hour practical classes and five 1-hour tutorials over the semester.

Assessment: Two short multiple question tests (10%). Hurdle requirement: participation in all components of the assessment, one 2-page diagram-based assignment (10%), one 350-word assignment (10%), one 1.5-hour written anatomy exam (35%), one 1.5-hour written physiology exam (35%).

HBS1BBE BIOPHYSICAL BASIS OF ELECTROTHERAPY (5.0 CPs Sem. TE-SEM-2 BU.) Dr Alex Ward

In this unit, students cover the areas of electricity, electric and magnetic fields, sound and electromagnetic waves and their effect on biological tissues. It is intended as fundamental background and preparation for electrotherapy as studied by physiotherapy students. The electricity topic includes different kinds of stimulus waveform and the electrical properties of skin, as background for transcutaneous electrical stimulation. The fields and waves topics include the production of electric and magnetic fields and sound and electromagnetic waves and their effects on tissue.

Class requirements: One 1-hour lecture, one 1-hour tutorial per week and one 2-hour practical classes per week for three weeks.

This unit is not available for study abroad students.

Assessment: One 2-hour written examination (90%), three combined laboratory and practical tests (10%)

HBS1BHM BIOMECHANICS OF HUMAN MOVEMENT (10. CPs Sem. TE-SEM-2 BU.) Mr David Orr

In this unit, students develop an overview of the biomechanical analysis of human movement. Emphasis is placed on the biomechanics of human gait. The areas of kinematics, kinetics, muscle mechanics and energetics are covered. This unit presents an integration of mechanical, physiological and anatomical concepts and principles and their application to the biomechanics of human movement. Students enrolled in Bachelor of Physiotherapy, Bachelor of Podiatry and Bachelor of Prosthetics and Orthotics will be given priority in order to meet the requirements of their course. Other

students who wish to enrol in this unit must gain permission from the unit coordinator.

Class requirements: Two 1-hour lectures, one 1-hour tutorial per week and five 2-hour practical classes over the semester. WebCT will be used as a means of communication (email) and document delivery. Some lecture presentations may be available online.

Assessment: One 2.5-hour written examination (90%), five combined laboratory and practical tests (equivalent to 500-words in total) (10%).

HBS1BMT MATERIALS (10 CPs Sem. TE-SEM-1 BU.) Mr David Orr

In this unit students will examine the chemical, physical and mechanical properties of some metals, polymers, ceramics, adhesives and abrasives used in the fabrication of orthotic and prosthetic devices. Mechanical aspects of the use of fibre composites are discussed. Students enrolled in the Bachelor of Podiatry and Bachelor of Prosthetics and Orthotics will be given priority in order to meet requirements of their course. Other students who wish to enrol in this unit are to gain permission from the unit coordinator.

Class requirements: Two 1-hour lectures, one 1-hour tutorial per week and six fortnightly 2-hour practical sessions (starting week 2 or 3 depending on practical group allocation). WebCT will be used as a means of communication (email) and document delivery but not as a means of teaching.

Assessment: One 2.5-hour written examination (90%), six laboratory reports and practical tests (Equivalent to 500-words in total) (10%).

HBS1HBF HUMAN BODY FUNCTION (10. CPs Sem. TE-SEM-2 AW, BU, MI, SH.) AW: Dr Charu Mishra, BU: Ms Jane McCooey

In this unit, students' understanding of the functioning human body, introduced in semester one is extended. Begins with an overview of how the endocrine system contributes to regulation of body functioning and hence to homeostasis. Descriptions of selected hormones and their functions illustrate the general principles. Most of the unit is devoted to the study of body systems, including the cardiovascular system, respiratory system, renal system, digestive system and metabolism, reproductive system. Interactions between the systems to meet challenges to normal functioning imposed by changes within and external to the body are discussed. Concludes by considering changes in body functioning with development from a neonate to a very old person.

Co-requisite: HBS1API or HBS1APH or HBS1HFU or BIO1OIF.

Class requirements: Four 1-hour lectures and one 1-hour tutorial (voluntary attendance) per week.

Assessment: One 40-minute written examination mid-semester (20%), one 2-hour examination at the end of the semester (80%).

Prescribed Reading:

Marieb, E. and Hoehn K. *Human anatomy and physiology* 7th Edn. Pearson, Benjamin-Cummings 2007.

HBS1HFU INTRODUCTION TO HUMAN FUNCTION (5.0 CPs Sem. TE-SEM-1 BU.) Dr Susan Malcolm

In this unit students will be introduced to basic physiological concepts that will be further developed in Semester 2. Lectures will cover homeostasis, body fluids, the cell and plasma membrane mechanisms by which substances cross the membrane, the nervous system and skeletal muscle. Lectures are supported by tutorials.

Incompatible unit: HBS1API, HBS1APH

Class requirements: Twenty 1-hour lectures over the semester and five 1-hour tutorials.

Assessment: One 1.5-hour written examination (100%). Hurdle requirement: must attempt two take-home multiple choice tests.

Prescribed Reading:

HBS1HFU Current Edn. student manual.

Marieb, E. and Hoehn, K. *Human anatomy and physiology* 7th Edn. Pearson 2007.

HBS1HPM HUMAN PHYSIOLOGY FOR MEDICINAL CHEMISTRY (15. CPs Sem. TE-SEM-2 BU.) Ms Jane McCooey

In this unit students will study an overview of the endocrine system contribution to the regulation of body function, and hence to homeostasis. Descriptions of selected hormones and their functions will illustrate the general principles. Most of the unit is devoted to the

study of body systems, including the nervous system, cardiovascular system, respiratory system, renal system, digestive system and metabolism, and the reproductive systems. The unit will address interactions which occur between body systems in order to meet the challenges to normal functioning imposed by changes both within and external to the body. The unit will conclude with consideration of changes in body function due to development from a neonate to a very old person.

Co-requisite: BIO1OF.

Class requirements: Four 1-hour lectures, one 1-hour tutorial per week and six 1-hour workshops per semester.

This unit is not available for study abroad students.

Assessment: One 40-minute written examination (15%), Three written tests (equivalent to 1000-words in total) (5%), one 2-hour written examination at the end of semester (80%).

Prescribed Reading:

Marieb, E.N. and Hoehn, K. *Human anatomy and physiology* 7th Edn. Pearson, Benjamin-Cummings 2007.

HBS1HRB REGULATION OF HUMAN BODY FUNCTION (15. CPs Sem. TE-SEM-2 BU.) *Ms Elizabeth Brown, Professor Chris Handley*

In this unit, students will focus on the organisation of living cells, including the comparison between prokaryotic and eukaryotic cells. Students will develop further their understanding of cellular and tissue physiology, including aspects of the integration and regulation of metabolism. Students will consider the organisation, expression and the roles of genes in cell and tissue physiology, as well as the mechanism of protein synthesis in mammalian cells. Students will explore integrative processes within the body by several examples from anatomy and physiology including the reproductive and the nervous systems.

Co-requisite: HBS1API.

Class requirements: Four 1-hour lectures per week and one 2-hour practical or small group class per fortnight.

This unit is not available for study abroad students.

Assessment: One 3-hour written examination (80%), six 10-minute multiple choice question tests in practical classes (20%).

Recommended Reading:

Marieb, E.N. and Hoehn, K. *Human anatomy and physiology* 7th Edn., Pearson 2007.

Widmaier, E.P., Raff, H. and Strang, K.T. *Vander's human physiology: the mechanisms of body functions* 10th Edn. McGraw-Hill 2006.

HBS1PPA PHYSIOLOGY A (15. CPs Sem. TE-SEM-1 BU.) *Dr Alex. Ward*

In this unit the study of cell biology is followed by nerve and muscle physiology, the endocrine system, the digestive system and the immune system. Cell biology covers the areas of cell structure and function, biological molecules, buffering, cellular metabolism, membrane structure and transport and cell-to-cell communication. Principles of endocrinology are introduced as an example of intercellular and inter-organ communication and control. The excitability of nerve and muscle cells is described in biomolecular terms and this is followed by nerve and muscle physiology. A description of the digestive system emphasizes regulation of digestive processes and blood glucose. Emphasis is placed on the principles of homeostasis as preparation for a more detailed study of the organ systems in HBS2PPB.

Class requirements: Four 1-hour lectures, one 1-hour tutorial per week and one 2-hour practical session per week for eight weeks.

This unit is not available for study abroad students.

Assessment: One 3-hour written examination (80%), eight multiple choice tests during semester (10-minutes each) (20%).

Prescribed Reading:

HBS1PPA. Student manual, current Edn.

Widmaier, E., Raff, H., and Strang, K. *Human physiology* 10th Edn. McGraw-Hill 2006.

HBS2ALL ANATOMY: LOWER LIMB (20. CPs Sem. TE-SEM-1 BU.) *Dr James Wickham*

In this unit students gain knowledge in the anatomical principles of bones, joints, skeletal muscles, nerves, vessels and skin. These principles will be applied to regional anatomy of the lower limb.

Embryological development relevant to an understanding of the gross anatomy will be covered in each region. Lectures will be supported by practical classes, including surface anatomy and examination of appropriate cadaver materials. Emphasis is placed on the application of anatomical principles to correlate structure with function in developing an understanding of the bases of everyday activities and related clinical problems

Prerequisite: Pass of 60C in HBS1API and a grade average of C in first year (Bachelor of Health Science students). Bachelor of Science students must achieve a grade of C for BIO1OF or equivalent and a grade average of C in first year. Bachelor of Science-Medical Science students are exempted.

Quota: 85. Quota does not apply to Health Sciences students who meet the prerequisite requirements and to Medical Science students. Remaining places will be allocated on the basis of performance in BIO1OF (Organisation and function of cells and organisms).

Class requirements: Three 1-hour lectures, one 1-hour practical and one 2-hour practical class per week. Resources are available on WebCT.

This unit is not available for study abroad students.

Assessment: One 3-hour written examination (75%), five practical tests (equivalent to 400 words each) (25%).

Prescribed Reading:

Drake, R.L., W. and Mitchell, A.W. *Gray's anatomy for students* Elsevier Churchill Livingstone 2005.

HBS2ALL Current Edn. student manual.

HBS2APC ANATOMY FOR PHYSIOTHERAPY C (15 CPs Sem. TE-SEM-1 BU.)

Dr Sherrie Wentworth

In this unit students are taught how the principles of anatomy covered in HBS1APA and HBS1APB are applied to regional anatomy of the thorax, abdomen and head and neck, including neuroanatomy. Lectures are supported by practical classes including examination of appropriate cadaver, histological and radiographic materials and CAL activities. Applications of anatomical principles are utilised to correlate structure with function in developing an understanding of the anatomical bases of everyday activities and some pathological conditions.

Prerequisite: HBS1APA, HBS1APB.

Class requirements: Three 1-hour lectures, one 2-hour practical class and one 1-hour practical class per week.

Assessment: Five practical tests (equivalent to 150-words each) (20%). Hurdle requirement: participation in all components of the assessment, one 3-hour written examination (80%)

HBS2APC Current Edn. student manual.

HBS2ATL ANATOMY: TRUNK AND UPPER LIMB (20. CPs Sem. TE-SEM-2 BU.) *Dr James Wickham*

In this unit, the anatomical principles of bones, joints, skeletal muscles, nerves, vessels and skin are applied to regional anatomy of the trunk and upper limb. Embryological development relevant to an understanding of the gross anatomy will be covered in each region. Lectures will be supported by practical classes, including surface anatomy and examination of appropriate cadaver material. Emphasis is placed on the application of anatomical principles to correlate structure with function in developing an understanding of the bases of everyday activities and related clinical problems.

Co-requisite: HBS2ALL.

Class requirements: Three 1-hour lectures, one 1-hour practical and one 2-hour practical class per week. Resources are available on WebCT.

This unit is not available for study abroad students.

Assessment: Four practical tests, 12-minutes each (20%), one 3-hour written examination (70%), one 10-minute oral class presentation (10%).

HBS2BEM BIOLOGICAL BASES OF ERGONOMICS (M) (15. CPs Sem. TE-W29-34 BU.) *Dr Owen Evans*

In this unit, biological principles and findings relevant to the practice of ergonomics are presented in terms of their applications to a variety of human factors and physical ergonomics issues. Topics include metabolic and cardio-respiratory capacities in relation to work performance; musculoskeletal factors in relation to force exertion; work in hot environments; occupational biomechanics and kinesiology in relation to workplace manual handling issues; musculoskeletal disorders; work rates and rest breaks; and issues related to the physical work environment including heat and vibration.
Prerequisite: PHE1IBA and HBS1API or PSY1PYA, PSY1PYB, HBS1APH and HBS1HBF or HBS1PPA, HBS1BHM, HBS2PPB, HBS1APA, and HBS1APB.

Class requirements: One 2-hour seminar and one 3-hour practical class per week (Weeks 1-6) plus online class material equivalent to three hours of classroom contact per week.

Assessment: Five 600-word written reports of practical session activities (50%). To pass the unit, at least four of the five reports must be submitted, and a total mark for them of at least 25/50 must be achieved, one 1.5-hour written examination (50%). To pass the unit, a pass in the exam is required.

Recommended Reading:

Bridger, R.S. *Introduction to Ergonomics* Taylor and Francis 2nd Edn. 2003.

HBS2BEW HEALTHY WORKPLACE DESIGN (15. CPs Sem. TE-W35-42 BU.)

Dr Owen Evans

In this unit, biological principles and findings relevant to the practice of ergonomics are presented in terms of their applications to a variety of human factors and physical ergonomics issues. Topics include anthropometry, work postures and movements in relation to workstation design; musculoskeletal factors in relation to static loads; musculoskeletal disorders; workload and rest breaks; and issues related to the physical work environment including lighting, noise and vibration.

Prerequisite: PHE1IBA and HBS1API; or PSY1PYA, PSY1PYB, HBS1APH and HBS1HBF; or HBS1PPA, HBS1BHM, HBS2PPB, HBS1APA and HBS1APB; or equivalents.

Class requirements: One 2-hour seminar and one 3-hour practical class per week (weeks 7-13) plus online class material equivalent to three hours of lectures per week.

Assessment: Five 600-word written reports of practical session activities (50%). To pass the unit, at least four of the five reports must be submitted, and a total mark for them of at least 25/50 must be achieved, one 1.5-hour written examination (50%). To pass the unit, a pass in the exam is required.

HBS2FSA FERTILITY, REPRODUCTIVE TECHNOLOGY AND SOCIETY A

(10. CPs Sem. TE-W27-28 BU.) *Ms Elizabeth Brown*

This unit is offered at third unit level also. Not available in 2008.

HBS2FSB FERTILITY, REPRODUCTIVE TECHNOLOGY AND SOCIETY B

(15. CPs Sem. TE-W27-28 BU.) *Ms Elizabeth Brown*

This unit is offered at third unit level also.

Not available in 2008.

HBS2HPA HUMAN PHYSIOLOGY A (20. CPs Sem. TE-SEM-1 BU.) *Dr*

Johannes Schuijers

In this unit, students gain knowledge in systemic physiology study which includes homeostasis, the peripheral nervous system (autonomic, somatic and special senses), the muscular system cardiovascular system and principles of endocrinology. Lectures will be supported by a comprehensive practical and tutorial or workshop program.

Prerequisite: Students must have attained a grade of at least 60 C in HBS1API or BIO1OF (or equivalent) and a grade average of C in the first year of their course. Exemptions include Bachelor of Medical Science, Bachelor of Nutritional Science and Bachelor of Electronic Engineering/Master of Biomedical Engineering students.

Quota: 160. Quota does not apply to Health Sciences (including double-degree) students who meet prerequisite requirements, and Medical, Bachelor of Electronic Engineering/Master of Biomedical Engineering and Nutritional Science students. Remaining places will be allocated on the basis of performance in BIO1OF Organisation and function of cells and organisms.

Class requirements: Three 1-hour lectures, one 3-hour practical session and one 1-hour tutorial per week.

Assessment: Two 1000-word practical reports (20%), eight multiple choice practical tests (equivalent to 1000-words) (10%). held at the conclusion of relevant practical classes, three 20-minute tests throughout semester (equivalent to 1000 words) (20%), one 2-hour written examination (50%).

HBS2HPB HUMAN PHYSIOLOGY B (20. CPs Sem. TE-SEM-2 BU.) *Dr*

Johannes Schuijers

In this unit, students will continue the study of physiology from HBS2HPA. Lectures will address the physiology of body systems and include the central nervous system, respiratory, renal, digestive and body defence systems and the function of selected connective tissues. The lectures will also be supported by a comprehensive practical and tutorial or workshop program.

Co-requisite: HBS2HPA or equivalent.

Class requirements: Three 1-hour lectures, one 3-hour practical session and a one 1-hour tutorial per week.

This unit is not available for study abroad students.

Assessment: Two 1000-word practical reports (20%), eight multiple choice practical tests (equivalent to a total of 1000 words) (10%). At the conclusion of relevant practical classes, three 20-minute tests throughout the semester (equivalent to a total of 1000 words) (20%), one 2-hour written examination (50%).

Prescribed Reading:

Vander, A., Sherman, J. and Luciano, D. *Human physiology* 8th Edn. McGraw Hill 2001.

HBS2NEU NEUROSCIENCES A (5.0 CPs Sem. TE-SEM-1 BU.) *Dr Doug*

Rogers

In this unit, the functional anatomy of the central nervous system and its blood supply are presented. The neural connections and physiological process involved in movement and sensation are emphasised and the effects of lesions to different components of the motor and sensory systems discussed. Neural plasticity and the potential mechanisms for recovery of function following nervous system damage are considered.

Prerequisite: HBS1APH.

Class requirements: Two 1-hour lectures per week and one 2-hour practical class per semester.

Assessment: One 1-hour multiple choice question examination at the end of semester (75%), One 30-minute mid-semester multiple choice question test (25%).

Prescribed Reading:

HBS2NEU student manual, current Edn.

Recommended Reading:

Bhatnagar, S. *Neuroscience for the study of communication disorders* 2nd Edn. Philadelphia, Lippincott, Williams and Wilkins 2002.

HBS2NSM NEUROSCIENCE OF SENSATION AND MOVEMENT (5.0 CPs

Sem. TE-SEM-2 BU.) *Dr Doug Rogers*

In this unit the neural connections and physiological process involved in movement and sensation are presented and the effects of lesions to different components of the motor and sensory systems are discussed. Somatic sensation, vision and vestibular function are emphasised in the consideration of sensation. The contributions to motor control of cortical areas, basal ganglia, cerebellum, brainstem and spinal cord

are considered and the principles of human motor control and motor learning are introduced. Neural plasticity and the potential mechanisms for recovery of function following nervous system damage are considered

Prerequisite: HBS1PPA, HBS2PPB, HBS2APC.

Class requirements: Two 1-hour lectures per week and two 2-hour practical classes per semester.

Assessment: One 1.5-hour written examination (100%).

Prescribed Reading:

Learning resources are provided on WebCT.

HBS2PAG GENERAL PATHOLOGY (5.0 CPs Sem. TE-SEM-1 BU.) *Mr Robert Paine*

This unit is only available to students enrolled in the Bachelor degrees of Occupational Therapy, Health Information Management, Orthoptic and Ophthalmic Sciences, and Prosthetics and Orthotics.

In this unit students will explore the fundamental principles and concepts of disease. Emphasis is placed on general pathological processes in diseases, including inflammation, healing, neoplasia and circulatory disorders. Some specific pathological conditions of the body systems, (eg, heart and joint disorders) will be used as examples and integrated into discussions of general pathology.

Prerequisite: HBS1HBF, HBS1API, HBS1AON; or equivalent.

Recommended Prior Studies: An approved human physiology unit.

Class requirements: Two 1-hour lectures per week. Some lectures will be delivered via WebCT.

This unit is not available for study abroad students.

Assessment: One 30-minute written mid-semester test (25%), one 1-hour written final exam (75%).

HBS2PAS SYSTEMIC PATHOLOGY (5 CPs Sem. TE-SEM-2 BU.) *Mr Robert Paine*

In this unit students will follow on from the study of pathological principles of disease covered in HBS21PAG. Disorders of the body systems, including gastrointestinal, respiratory, renal, reproductive, endocrine, skin, sensory and nervous disorders are discussed.

Prerequisite: HBS2PAG or equivalent.

Class requirements: Two one-hour lectures per week. Some lectures will be delivered via WebCT.

This unit is not available for study abroad students.

Assessment: One 30-minute written mid-semester test (30%), one 1-hour written final examination (70%).

HBS2PAT PATHOPHYSIOLOGY IN NURSING (15 CPs Sem. TE-SEM-1 AW, BE, BH, BU, HK, MI, SH, SI.) *AW: Dr Charu Mishra, BE: Dr Terri Meehan-Andrews, BE: Dr Adrian Verrinder, BU: Mr Robert Paine*

In this unit students will examine disorders which may be experienced by individuals over the life-span, emphasising the underlying biological mechanisms that produce signs and symptoms, and the risk factors and contributing causes of disorders. Specifically, general pathological processes will be discussed with emphasis on disturbed function, adaptation to injury, inflammation, tissue healing, immunological disorders, neoplasia, fluid imbalance, thrombosis, embolism and vascular disorders. In addition to general pathological processes, emphasis will be given to relevant disorders of the respiratory, cardiovascular, and renal gastrointestinal, endocrine, skeletal and nervous systems.

Prerequisite: HBS1HBF, except for students enrolled in the HSBNC, HSBNCW, BEBND2, HBNCM, HBNC, HBNPRG, HBNPGW.

Class requirements: Four 1-hour lectures per week and one 1-hour seminar or tutorial per week. Some lectures will be given via WebCT.

Assessment: One 45-min mid-semester test (20%), one 3-hour final examination (80%)

Prescribed Reading:

Porth, C.M. *Pathophysiology concepts of altered health states* Lippincott New York 2005.

HBS2PEA DESIGN FOR SAFE SYSTEM PERFORMANCE (15 CPs Sem. TE-W08-15 BU.) *Ms Jodi Oakman*

In this unit, psychological principles and findings relevant to the practice of ergonomics are presented in terms of their applications to

a variety of human factors and cognitive ergonomics issues. Topics include perception and the design of information displays; human error and accident prevention, and more broadly, the human information processing system, decision-making and cognition in relation to safe and efficient system performance. Emphasis is on identifying the ways in which human functional characteristics influence design and evaluation criteria for a range of products and systems.

Prerequisite: PHE1IBA and HBS1API; or PSY1PYA, PSY1PYB, HBS1APH and HBS1HBF; or PHE1HBB and PHE2BDA

Class requirements: One two hour seminar and one 3-hour practical class per week (for seven weeks) over the first half of the semester. online class material equivalent to three hours of lectures per week.

Assessment: Four 750-word written reports (50%) To pass the unit all four reports must be submitted, and a total mark for them of at least 25/50 must be achieved, one 1.5-hour written examination (50%). To pass the unit, a pass in the exam is required.

Recommended Reading:

Wickens, C.D., Lee, J., Lin, Y.D. and Gordon-Becker, S. *An introduction to human factors engineering* Pearson-Prentice Hall 2004.

HBS2PEB WORKLOAD, STRESS AND PERFORMANCE MANAGEMENT (15 CPs Sem. TE-W16-21 BU.) *Ms Jodi Oakman*

In this unit, psychological principles and findings relevant to the practice of ergonomics are presented in terms of their applications to a variety of human factors and cognitive ergonomics issues. Topics include motivation, attitudes, learning and cognitive skill development related to training, behavioural modification and system safety; attentional capacity limitations and mental workload in relation to performance, stress, occupational health and performance management. Emphasis is on identifying the ways in which human functional characteristics influence occupational health and performance.

Prerequisite: PHE1IBA and HBS1API; or PSY1PYA, PSY1PYB, HBS1APH and HBS1HBF; or PHE1HBB and PHE2BDA; or equivalents; and HBS2PEA.

Class requirements: One 2-hour seminar and one 3-hour practical class per week (for seven weeks) over the first half of the semester. online class material equivalent to three hours of lectures per week.

Assessment: Three 1000-word written reports. (50%) To pass the unit, all three reports must be submitted, and a total mark for them of at least 25/50 achieved, one 1.5-hour written examination at end of semester (50%). To pass the unit, a pass in the exam is required.

HBS2PHA PHARMACOLOGY (5 CPs Sem. TE-SEM-2 BU.) *Dr Elly Djouma*

In this unit students are given the opportunity to learn about general principles of pharmacology, including drug classification, prescriptions and formulations, and basic pharmacodynamics and pharmacokinetics. These principles are applied to drug therapy of infectious, immune, and inflammatory disorders, and to aspects of systematic pharmacology such as drugs affecting the cardiovascular, respiratory, and musculo-skeletal and nervous systems. Emphasis is placed on human pharmacology including clinical topics such as adverse drug reactions and interactions. Ocular drugs of relevance will be considered.

Prerequisite: HBS1HBF or an approved human physiology unit.

Incompatible unit: HBS2PPY, NSG2MED, HBS3APA, HBS3APB, HBS3CPH.

Class requirements: One 2-hour lecture per week.

Assessment: One 30-minute multiple choice mid-semester test (20%), one 1-hour written examination (80%).

Recommended Reading:

Rang, H.P., Dale, M.M., Ritter, J.M. and Moore, P.K. *Pharmacology* Churchill Livingstone 2003.

Bryant, B.J., Knights, K.M., and Salerno, E. *Pharmacology for health professionals* Elsevier 2003.

HBS2PMC PHARMACOLOGY FOR MEDICINAL CHEMISTS (20 CPs Sem. TE-SEM-2 BU.) *Dr Karina Aprico*

In this unit, students will learn the general principles of pharmacology, including drug classification, prescriptions and formulations, and basic pharmacodynamics and pharmacokinetics. These principles will be applied to drug therapy of infectious,

immune, and inflammatory disorders, and aspects of systematic pharmacology such as drugs affecting the cardiovascular, respiratory, and musculo-skeletal and nervous systems. Emphasis is placed on human pharmacology including clinical topics such as adverse drug reactions and intersections. Particular attention will be paid to pharmaceutical industry applications.

Prerequisite: HBS1HPM.

Quota: 40. Course enrolments

Class requirements: Three 1-hour lectures and one 3-hour laboratory/workshops per week.

Assessment: One 30-minute multiple choice mid-semester test (10%). Hurdle requirement: Students must obtain 45% on examination to pass this unit, one 2-hour written examination (45%), three 300-word laboratory reports (5% each) (15%), group presentation (10minutes/member) (20%), 600-word critical essay (10%).

Recommended Reading:

Rang, H.P., Dale, M.M., Ritter, J.M. and Moore, P.K. *Pharmacology* 5th Edn. Churchill Livingstone 2003.
Bryant, B.J., Knights, K.M. and Selerno, E. *Pharmacology for health professionals* Elsevier 2003.

HBS2PPB PHYSIOLOGY B (15. CPs Sem. TE-SEM-1 BU.) *Dr Phil Dooley*

In this unit the study of human systemic physiology from HBS1PPA is continued. It describes the physical and chemical principles and physiology of the heart, the vascular system, respiration, blood, renal function. Exercise physiology, maternal and perinatal physiology are also described. The relevant histology and physico-chemical principles are integrated with function.

Prerequisite: HBS1PPA.

Class requirements: Three 1-hour lectures and one 2-hour practical class per week.

This unit is not available for study abroad students.

Assessment: One 3-hour written examination (90%), one multiple choice test at each lab class throughout the semester (total equivalent to 750 words) (10%).

Prescribed Reading:

HBS2PPB Study guide current Edn.
Vander A. J., Sherman J. H. and Luciano D. S. *Human physiology* 8th Edn. McGraw-Hill 2001.

HBS2PPY PATHOLOGY AND PHARMACOLOGY (10 CPs Sem. TE-SEM-2 BU.) *Dr Brian Grills*

In this unit, the pathology component provides the student with the fundamental principles and concepts of pathology. Emphasis begins with general pathological processes including inflammation, healing, neoplasia, infection and cardiovascular disorders. Specific pathological conditions of the body systems, in particular, neuromuscular, joint, skeletal, respiratory and central nervous systems will also be addressed. The pharmacology component deals with general principles of pharmacology, including drug classification, prescriptions, schedules and formulations, and basic pharmacodynamics and pharmacokinetics. These principles are applied to drug therapy of immune, inflammatory and infectious disorders and to selected aspects of systematic pharmacology such as disorders of the cardiovascular, respiratory, musculoskeletal and nervous systems.

Prerequisite: HBS1APH and HBS1HBF or HBS1PPA and HBS2PPB or equivalent.

Class requirements: Four 1-hour lectures per week.

Assessment: One 2-hour written examination (Pathology) (67%), one 1-hour written examination (Pharmacology) (33%). Hurdle requirement: Students must pass both components.

HBS2RHE REPRODUCTIVE HEALTH (15. CPs Sem. TE-W26-27 BU.) *Ms Elizabeth Brown*

This unit is taught in the winter vacation in block mode.

In this unit, students will be provided with the opportunity to consider the factors which contribute to reproductive and sexual health and discuss the biological basis of human fertility. This emphasis continues with discussion of the regulation of fertility by either contraception or treatment of infertility. Human reproductive and sexual function throughout the life-span is discussed, with particular reference to the changes of puberty and ageing. Students will address

other aspects of reproductive health, such as breast self-examination, cervical cytology screening, sexually transmitted infections and unplanned pregnancy. Students will explore psychological factors which impinge on human sexual function or the regulation of fertility where appropriate. The relationship between this unit and health promotion and education, family planning and women's and men's health will be explored.

Prerequisite: HBS1HBF or HBS1HRB or HBS2HPA or HBS2HPB or BIO1OF.

Incompatible unit: HBS3RSH.

Class requirements: 26 hours of lectures/seminars and self directed learning equivalent to 13 hours over the unit. This unit is taught as block teaching.

Assessment: One 1-hour test to be conducted during the teaching of the unit (20%), one 3-hour examination to be held a week after the elective ceases (80%).

Recommended Reading:

Temple-Smith, M. and Gifford, S. (Eds) *Sexual health: an Australian perspective* IP communications Melbourne 2005.

HBS2RSH REPRODUCTIVE AND SEXUAL HEALTH (10. CPs Sem. TE-W26-27 BU.) *Ms Elizabeth Brown*

This unit is taught in the winter vacation in block mode.

In this unit, students will consider the factors involved in reproductive and sexual health and discuss the biological basis of human fertility. This emphasis continues with discussion of regulation of human fertility either by contraception or treatment of infertility. Human reproductive and sexual function throughout the lifespan is discussed, with particular reference to the changes of puberty and ageing. Students will address other aspects of reproductive health such as breast self-examination, cervical cytology screening, sexually transmissible infections and unplanned pregnancy. Students will explore the cultural and psychological factors which impinge on human sexual and reproductive health. Discussion will include reproductive health issues faced by marginalised groups of our community. The relationship between this unit and health promotion and education, family planning and women's and men's health will be explored.

Prerequisite: HBS1HBF or HBS1HRB or HBS2HPA or HBS2HPB or BIO1OF.

Incompatible unit: HBS3RHE

Class requirements: 26 hours of lectures/seminars and self directed learning equivalent to thirteen hours over the unit. This unit is taught as block teaching.

Assessment: One 1-hour test to be conducted during the teaching of the unit (20%), one 2-hour examination to be held a week after the elective ceases. (80%).

Recommended Reading:

Temple-Smith, M. and Gifford, S. (Eds) *Sexual health: an Australian perspective* IP communications Melbourne 2005.

HBS3ADP ANATOMY: DISSECTION PROJECT (15 CPs Sem. TE-SEM-1 BU.)

Dr Rod Green

Not available in 2008.

HBS3APA ADVANCED PHYSIOLOGY A: CELL COMMUNICATIONS SYSTEMS (30 CPs Sem. TE-SEM-1 BU.) *Dr Andrew Bendrups*

In this unit, students will explore aspects of advanced physiology, focusing on recent research findings, general physiological principles and their applications. The unit begins by introducing the principles of pharmacology and pathology. The neural and endocrine systems are then examined as complex examples of cell communication. All areas are investigated from a theoretical and practical viewpoint, including applications in the fields of pathophysiology and pharmacology.

Prerequisite: HBS2HPA, HBS2HPB.

Class requirements: Four 1-hour lectures and two 3-hour practical sessions per week supplemented by WebCT-based online content.

This unit is not available for study abroad students.

Assessment: One 3-hour written examination (70%), eight 300-word laboratory reports (16%), one 1200-word research report (8%), six 300-word assignments (6%).

Prescribed Reading:

Berne, R.M., Levy, M.N., Koeppen, B.M. and Stanton, B.A. Edn. *Physiology* 5th Edn. Mosby 2005.

HBS3APB ADVANCED PHYSIOLOGY B: NORMAL FUNCTION, DRUGS AND DISEASE (30 CPs Sem. TE-SEM-2 BU.) *Ms Elizabeth Brown*

In this unit, students will explore aspects of advanced physiology, focusing on recent research findings, general physiological principles and their applications. The unit content is taken from a selection of major topics which include musculo-skeletal, cardiovascular, respiratory and reproductive function. All areas are investigated from a theoretical and practical viewpoint, including applications in the fields of pathophysiology and pharmacology.

Prerequisite: HBS2HPA, HBS2HPB.

Class requirements: Four 1-hour lectures and two 3-hour practicals per week.

This unit is not available for study abroad students.

Assessment: One 3-hour written examination (70%), eleven 300-word laboratory reports (22%), one 5-minute seminar presentation (2%), six 300-word assignments (6%).

Prescribed Reading:

Berne, R.M., Levy, M.N., Koeppen, B.M. and Stanton, B.A. Edn. *Physiology* 5th Edn. Mosby 2004.

HBS3APP ADVANCED PHYSIOLOGY AND PATHOLOGY (15. CPs Sem. TE-SEM-1 BU.) *Dr Susan Malcolm, Mr Robert Paine*

In this unit, students further develop their knowledge in the areas of physiology and pathology. In pathology, lecture topics may include the pathophysiology of conditions affecting the cardiovascular, respiratory, musculoskeletal and nervous systems. In physiology, lecture topics may include exercise metabolism, sport nutrition, neurophysiology and pregnancy.

Prerequisite: HBS2PPB, HBS2PPY.

Class requirements: One 2-hour lecture and one 1-hour lecture or seminar per week.

This unit is not available for study abroad students.

Assessment: One 20-minute individual seminar presentation (70%), six 500-word assignments (30%). Hurdle requirement: 80% attendance.

HBS3CPH CLINICAL PHARMACOLOGY FOR PODIATRISTS (10. CPs Sem. TE-SEM-1 BU.) *Dr Karina Aprico*

Podiatry students only.

In this unit, podiatry students further their understanding of safe, effective handling and administration of drugs and increase their knowledge of effects of drugs in patients. The core topics of pharmacodynamics (actions of drugs) and pharmacokinetics (how the body handles drugs) are extended, and then this information is applied to clinically important groups of drugs. Emphasis is placed on clinical aspects including therapeutic monitoring and adverse drug interactions, and students are encouraged to relate the unit to podiatric practices.

Recommended Prior Studies: Second year level studies in physiology and pharmacology.

Class requirements: Average of two hours of lectures per week, three 2-hour practical sessions and three 2-hour tutorials over the semester.

This unit is not available for study abroad students.

Assessment: One 1.5-hour written examination (60%), five written exercises (equivalent to 500-words each) (20%), one group assignment/presentation (equivalent to 500-words) (20%). Hurdle requirement: students must pass all components.

Recommended Reading:

Rang, H.P., Dale, M.M., Ritter, J.M. and Moore, P.K. *Pharmacology* Churchill Livingstone 2006.

Bryant, B.J., Knights, K.M., and Salerno, E. *Pharmacology for health professionals* Elsevier 2006.

HBS3DAI SYSTEMS DATA ANALYSIS (20 CPs Sem. TE-SEM-1 BU.) *Dr Owen Evans*

In this unit students develop the professional ergonomics competencies required to critically evaluate ergonomics research publications and professional reports, and to analyse quantitative data

about ergonomics, safety and health issues. They investigate a range of practical questions relevant to practitioners in ergonomics, community safety and occupational health and safety, and develop familiarity with publicly available databases in these domains (e.g., those of Vic Roads and the Office of the Accident, Safety and Compensation Council). As part of these activities, students are expected to develop the capacity to work independently in using SPSS to analyse, interpret and present results.

Prerequisite: PHE2ARM or equivalent, and at least two of HBS2PEA, HBS2PEB, HBS2BEM, HBS2BEW, or equivalent.

Class requirements: Fourteen 1.5-hour seminar and computer-based classes equivalent to 21 hours, and 24 hours of computer-based practical work.

This unit is not available for study abroad students.

Assessment: Five 1200-word written reports (100%). Hurdle: At least four of the five reports must be submitted, achieving a total mark of at least 50/100.

HBS3DIS DRUGS IN SPORT (15 CPs Sem. TE-SEM-1 BU.) *Coordinator to be advised*

Not available in 2008.

HBS3DIU DRUGS IN USE (15. CPs Sem. TE-SEM-2 BU.) *Coordinator to be advised*

Not available in 2008.

HBS3EAG ERGONOMICS AND AGEING (15 CPs Sem. TE-SEM-1 BU.) *Dr Owen Evans*

In this unit, age-related changes in people's physical and psychological functioning, capacities and limitations are reviewed in terms of the ergonomics implications for design of a range of environments within which older people may need or wish to function. Emphasis is on the ways in which ergonomists can adjust or redesign tasks and jobs, tools and equipment, information presentations and many other aspects of our environment to better meet the changing characteristics of our ageing population.

Prerequisite: HBS2PEB, HBS2BEW.

Class requirements: Eleven 1.5 hour lectures and seminars, 39 hours of self-paced study using online and paper-based resources and ten 1 hour tutorials.

This unit is not available for study abroad students.

Assessment: One 20-minute oral presentation, plus one 500-word written summary report (30%), two 1500-word written reports (70%). To pass the unit, both reports must be submitted, and a total mark for them of at least 35/70 must be achieved.

HBS3EAM ERGONOMICS ANALYSIS AND MEASUREMENT METHODS

(40 CPs Sem. TE-ALL-YR BU.) *Dr Owen Evans*

In this unit, techniques used by ergonomists to analyse and evaluate a wide range of activities, equipment and environments are presented, and their relative advantages and disadvantages for use in assessing and improving human performance efficiency, safety, health and/or general well-being are identified. Students gain practical experience in applying a selection of these techniques to analyse, measure, evaluate and/or design activities in a range of environments. There is particular emphasis on workplace applications related to work tasks and jobs, related equipment, workstations, physical and psychosocial environments; workload and stress (both physical and psychological).

Prerequisite: HBS2PEA, HBS2PEB, HBS2BEM, HBS2BEW.

Co-requisite: HBS3ESS.

Quota: 30. Total of intake quotas for the two double degree courses is under this limit; elective and single unit enrolments will be limited as required.

Class requirements: Two 2-hour lectures, two 1-hour tutorials, one 3-hour lab class and 6 hours of field activities per week.

This unit is not available for study abroad students.

Assessment: Five 1400-word written reports (50%) To pass the unit, at least four of the five reports must be submitted, and a total mark for them of at least 20/40 must be achieved, one 3-hour written examination at the end of semester (50%). To pass the unit, a pass in the exam is required.

HBS3ESH REVIEWS OF ERGONOMICS, SAFETY AND HEALTH ISSUES

(20 CPs Sem. TE-SEM-2 BU.) *Dr Wendy Macdonald*

In this unit each student will be required to select an ergonomics-related issue related to human wellbeing and/or overall system performance and/or safety within one of a variety of contexts (eg workplaces, transport systems, public facilities. Topics will be selected from those proposed by supervising staff, with topic variations negotiated on an individual basis.

Prerequisite: HBS2PEA, HBS2PEB, HBS2BEM, HBS2BEW or equivalent.

Class requirements: Independent study equivalent to 176 hours, plus five 3-hour and six 1.5-hour seminars.

This unit is not available for study abroad students.

Assessment: One 5000-word written report (90%) To pass the unit, both the written and oral reports must be completed, one 20-minute oral presentation (10%).

HBS3ESS ERGONOMICS AND SYSTEMS SAFETY (25 CPs Sem. TE-ALL-YR BU.) *Dr Wendy Macdonald*

In this unit students will be given the opportunity to consider the contribution of ergonomics to human wellbeing and overall system safety in a variety of contexts, including workplaces, transport systems, residential communities and public facilities. Specific topics include various systems for injury prevention; evaluation of workplace interventions; participative ergonomics; professional competence, standards and ethics. Seminar-based analysis of case studies is used extensively to assist in developing students' capacities to apply their knowledge in a range of different environments. A supervised practicum is the final element of this unit.

Prerequisite: HBS2PEA, HBS2PEB, HBS2BEM, HBS2BEW.

Quota: 30. Total of intake quotas for the two double degrees is under this limit; BHSc enrolments into the ergonomics stream will be limited as required.

Class requirements: Semester 1: one 2-hour lecture and one 3-hour seminar per week; Semester 2: one 2-hour seminar per week and a 39-hour practicum in suitable blocks over the semester (supervised work experience).

This unit is not available for study abroad students.

Assessment: Three 2000-word written reports on case studies (100%). **Hurdle:** Must complete a 10-minute oral presentation, 300-word written report, pass practicum report, submit all case studies reports and achieve a total mark for them of at least 43/85, to pass the unit

HBS3RHE REPRODUCTIVE HEALTH (15 CPs Sem. TE-W26-27 BU.) *Ms*

Elizabeth Brown

This subject is taught in the winter vacation in block mode.

In this unit, students will be provided with the opportunity to consider the factors which contribute to reproductive and sexual health and discuss the biological basis of human fertility. This emphasis

continues with discussion of the regulation of fertility by either contraception or treatment of infertility. Human reproductive and sexual function throughout the life-span is discussed, with particular reference to the changes of puberty and ageing. Students will address other aspects of reproductive health, such as breast self-examination, cervical cytology screening, sexually transmitted infections and unplanned pregnancy. Students will explore psychological factors which impinge on human sexual function or the regulation of fertility where appropriate. The relationship between this unit and health promotion and education, family planning and women's and men's health will be explored.

Prerequisite: HBS1HBF or HBS1HRB or HBS2HPA or HBS2HPB or HBS1LS1.

Incompatible unit: HBS3RSH.

Class requirements: 26 hours of lectures/seminars and self directed learning equivalent to 13 hours over the unit. This unit is taught as block teaching.

Assessment: One 1-hour test to be conducted during the teaching of the unit (20%), one 3-hour examination to be held a week after the elective ceases (80%).

Recommended Reading:

HBS3RSH REPRODUCTIVE AND SEXUAL HEALTH (10 CPs Sem. TE-W26-27 BU.) *Ms Elizabeth Brown*

This unit is taught in the winter vacation in block mode.

In this unit, students will consider the factors involved in reproductive and sexual health and discuss the biological basis of human fertility. This emphasis continues with discussion of regulation of human fertility either by contraception or treatment of infertility. Human reproductive and sexual function throughout the lifespan is discussed, with particular reference to the changes of puberty and ageing. Students will address other aspects of reproductive health such as breast self-examination, cervical cytology screening, sexually transmissible infections and unplanned pregnancy. Students will explore the cultural and psychological factors which impinge on human sexual and reproductive health. Discussion will include reproductive health issues faced by marginalised groups of our community. The relationship between this unit and health promotion and education, family planning and women's and men's health will be explored.

Prerequisite: HBS1HBF or HBS1HRB or HBS2HPA or HBS2HPB or HBS1LS1.

Incompatible unit: HBS3RHE.

Class requirements: 26 hours of lecture/seminars (block teaching).

Assessment: One 1-hour test to be conducted during the teaching of the unit (20%), one 2-hour examination to be held a week after the elective ceases (80%).

Recommended Reading:

O'Connor, V. and Kovacs, G. *Obstetrics, gynaecology and women's health* Cambridge University Press 2003.

HBS3TIP TOPICS IN PATHOPHYSIOLOGY (15 CPs Sem. TE-SEM-2 BU.) *Dr Brian Grills*

Offered subject to sufficient enrolments.

In this unit, students will be able to extend previous basic knowledge in pathophysiology. Topics covered include healing in various tissues, neoplasia, infectious disease, bone disease, joint disorders and neurological disease. Students are given the opportunity to explore a topic of their choice in the seminar presentation.

Prerequisite: HBS2PAG or equivalent.

Class requirements: Two 1-hour lectures (weeks 1-10) and three 2-hour seminar presentations (weeks 11-13).

Assessment: One 2000-word assignment (50%), one 20-minute seminar presentation (25%), one 1-hour examination (25%).

HBS4HPA HONOURS IN HUMAN PHYSIOLOGY AND ANATOMY (60 CPs Sem. TE-SEM-1 BU. TE-SEM-2 BU.) *Dr Brian Grills*

In this unit, students are provided with one year of specialised training in practical research. As well as providing experience in research, training is also provided in the communication of research results in oral and written presentations at an advanced level. Students must complete semester 1 and semester 2 of this unit.

Prerequisite: Completion of a degree including units offered by the School of Human Biosciences (or equivalent) at an acceptable standard.

Class requirements: Minimum of one 2-hour consultation with supervisor per week.

This unit is not available for study abroad students.

Assessment: one 2500-word literature survey (15%), one 20-minute associated oral presentation (5%), one 3-hour written analysis examination of a scientific paper (15%), one 20-minute associated oral presentation (15%), supervisor's assessment as outlined in Honours booklet (10%), one 10,000-word thesis (40%).

HCS1ANA AUSLAN 1A (15 CPs Sem. TE-SEM-1 BE, BU. TE-W06-07 BU. TE-W28-28 BU. TE-W46-48 BU.) *Ms Berna Hutchins*

*Not available in 2008.***HCS1NCA NORMAL COMMUNICATION AND SWALLOWING PROCESS A** (35 CPs Sem. TE-SEM-1 BU.) *Dr Miranda Rose*

This unit represents one semester of a year long program. In this unit, students will be introduced to the acquisition, development, and mechanisms of normal processes in communication (speech, language, voice, fluency) and swallowing. This unit utilises Problem Based Learning (PBL) cases, signpost lectures, and skill classes. These experiences enable students to learn about the normal development (across the lifespan) of swallowing and of communication. Students will observe and discuss the variation within the normal range of communication and swallowing with a view to the implications for the individual and to society at large. PBL notes and/or lecture notes for this unit will be available on WebCT.

Class requirements: One 2-hour PBL tutorial, 4-hours of resource classes in week 1, three 2-hour PBL tutorials, 6-hours of resource classes per fortnight in weeks 2 to 13.

Assessment: One 500-word written assignment (5%), one 1500-word written assignment (15%), one one-hour class test (2000-word equivalent) (20%), two 2-hour written examinations (50%), one 30-minute practical examination (10%).

HCS1NCB NORMAL COMMUNICATION AND SWALLOWING PROCESSES B (35 CPs Sem. TE-SEM-2 BU.) *Dr Miranda Rose*

This unit represents one semester of a year long program. In this unit, students will build on the knowledge and skills acquired in HCS1NCA regarding the acquisition, development, and mechanisms of normal processes in communication (speech, language, voice, fluency) and swallowing. This unit utilises Problem Based Learning (PBL) cases, signpost lectures, and skill classes. These experiences enable students to learn more about the normal development (across the lifespan) of swallowing and of communication. Students will observe and discuss the variation within the normal range of communication and swallowing with a view to the implications for

the individual and to society at large. PBL notes and/or lecture notes for this unit will be available on WebCT.

Class requirements: two 2-hour PBL tutorials, 5-hours of resource classes in weeks 1, 2 and 13, and three 2-hour PBL tutorials, 6-hours of resource classes per fortnight in weeks 3 to 12.

Assessment: one 500-word written assignment (5%), one 2000-word written assignment (20%), one 30-minute class test (5%), two 2-hour written examinations (40%), one 45-minute practical examination (15%), one 10-minute individual oral presentation (5%), one 60-minute class test (10%).

Prescribed Reading:

HCS1PPA PROFESSIONAL PRACTICE YEAR ONE A (5 CPs Sem. TE-SEM-1 BU.) *Dr Beverly Joffe*

This unit represents one semester of a year long program. In this clinical unit, students increase their awareness and basic understanding of the nature of the speech pathology discipline, the culture of the speech pathology workplace and the required competencies, roles and functions of the speech pathologist. Further, this unit assists students to enhance knowledge of normal communication and swallowing by participating in a range of basic pre-clinical and clinical activities. The unit encompasses structured observations (on and off campus), lectures and tutorial/debrief sessions. Students learn about communication and related issues across the life span. They learn to record such behaviours, and share knowledge and insights gained through these experiences and reflections as learning. Clinical Education handbook and/or Lecture notes for this unit will be available on WebCT.

Co-requisite: HCS1NCA, HCS1NCB.

Class requirements: Ten 1-hour lectures, three 1-hour tutorial/debrief sessions and three pre-clinical tasks. Students also complete a first aid course. In addition, a two-day observational clinical placement is completed in Speech Pathology clinics in Melbourne or regional Victoria (between Semesters 1 and 2).

Assessment: Reflective tasks (34%), Portfolio of pre-clinical tasks (66%).

Prescribed Reading:

School of Human Communication Sciences (available on WebCT)
HCS Clinical Education Handbook for Students 2008.

HCS1PPB PROFESSIONAL PRACTICE YEAR ONE B (5 CPs Sem. TE-SEM-2 BU.) *Dr Beverly Joffe*

This unit represents one semester of a year long program.

In this clinical unit, students further increase their awareness and basic understanding of the nature of the speech pathology discipline, the culture of the speech pathology workplace and the required competencies, roles and functions of the speech pathologist. Moreover, this unit assists students to enhance knowledge of normal communication and related behaviours by participating in a range of basic pre-clinical and clinical activities. The unit encompasses structured observations (on and off campus), group processes, and tutorial/debrief sessions, sharing knowledge and insights gained through these experiences, reflective learning and experience in formal written documents. Clinical Education forms and/or lecture notes for this unit will be available on WebCT.

Co-requisite: HCS1NCA, HCS1NCB.

Class requirements: Four 1-hour tutorial/debrief sessions, two 7-hour days structured observation of external clinics in the inter-semester break and 6 pre-clinical tasks.

Assessment: One 1500-word assignment (43%), reflective tasks (14%), portfolio of pre-clinical tasks (43%).

Not available in 2008.

HCS2APA ACQUIRING PROFESSIONAL COMPETENCY A (5 CPs Sem. TE-SEM-1 BU.) *Dr Beverly Joffe*

This unit represents one semester of a year long program. In this unit students focus on roles and responsibilities in professional speech pathology practice. Students also learn about culturally sensitive practice, report writing and reflective practice are also addressed. The unit is team taught and a range of teaching styles are incorporated, including case based learning and a small component of online learning. Lecture notes for this unit will be available on WebCT.

Prerequisite: HCS1PPA, HCS1PPB, HCS1NCA, HCS1NCB.

Co-requisite: HCS2DDP, HCS2DLP.

Class requirements: Two 1-hour lectures per week.

This unit is not available for study abroad students.

Assessment: One portfolio comprising work-related exercises (approx 1500-words) (50%), one 60 minute test at end of semester 1 (50%).

Prescribed Reading:

School of Human Communication Sciences (available on WebCT).

HCS Clinical Education Handbook for Students 2008.

Joffe, B. *HCS2APC Readings* 2008.

HCS2APB ACQUIRING PROFESSIONAL COMPETENCY B (10 CPs Sem. TE-SEM-2 BU.) *Dr Beverly Joffe*

This unit represents one semester of a year long program. In this unit students focus on roles and responsibilities in professional speech pathology practice. The unit also addresses the development of clinical reasoning skills. Students learn to identify processes involved in clinical reasoning. There is an emphasis on developing an understanding of generic principles and practices involved in assessing, counselling and treating clients and measuring outcomes across age and disorder type. An additional objective is to facilitate a basic integration and application of theoretical and practical knowledge. The unit is team taught and a range of teaching styles are incorporated. Lecture notes for this unit will be available on WebCT.

Prerequisite: HCS1PPA, HCS1PPB, HCS1NCA, HCS1NCB.

Co-requisite: HCS2DDP.

Class requirements: Two 1-hour lectures per week in semester 2.

Assessment: One 2-hour short answer examination at end of Semester 2 (75%), one essay (approx 2000 words) (25%).

Prescribed Reading:

School of Human Communication Sciences *HCS Clinical Education Handbook for Students* 2007

Joffe, B. *HCS2APC Readings* 2007.

HCS2AUD BASIC AUDIOLOGY (10. CPs Sem. TE-SEM-1 BU.) *Dr Chyrisse Heine*

This unit serves as an introduction to hearing assessment and management of hearing loss relevant to speech-language pathology students. Emphasis is given to case history taking, otoscopy, hearing screening, audiometric interpretation, amplification, central auditory processing referral options and amplification considerations. This unit will also cover audiological advances in electrophysiological assessment, hearing aid technology, cochlear implants and aural rehabilitation identifiers. Included is a practical clinical component where students develop competence in performing and interpreting hearing screening procedures. It serves as a basis for the more advanced material covered in HCS3AUR Auditory Visual Rehabilitation. Lecture notes for this unit will be available on WebCT.

Prerequisite: HCS1NCA, HCS1NCB.

Co-requisite: HCS2APA, HCS2APB.

Class requirements: One 2-hour lecture per week, one 1-hour workshop (week 2), plus six hours of clinical practice (hearing screening).

Assessment: One 2-hour examination (60%). Hurdle requirements: completion of compulsory workshop and clinical hearing screening components, one 500-word assignment (20%), one 500-word hearing screening report (20%).

Recommended Reading:

HCS2DDP DEVELOPMENTAL DISORDERS CLINIC (20 CPs Sem. TE-W08-46 BU. TE-W09-47 BU.) *TBA*

In this unit students work in small groups with a clinical supervisor in order to develop client management skills. Students work with individuals who have language and/or speech impairments and their families. Students will develop and integrate their knowledge of assessment, treatment and prevention of communication impairments of a developmental nature. Students gain a working knowledge of the stages of human communication development, communication disability and the health, social and cultural factors which influence these. The clinics operate within the School, or in satellite clinics staffed by La Trobe supervisors. Clinical Education forms and handbook for this unit will be available on WebCT.

Prerequisite: HCS1NCA, HCS1NCB, HCS1PPA, HCS1PPB.

Co-requisite: HCS2APA, HCS2APB, HCS2DLP.

Class requirements: One 3-hour orientation session and one 3.5-hour clinical session per week for 12 weeks. 4 hours of class for phonetic transcription in weeks 1 and 2.

Assessment: Continuous evaluation as specified in the HCS Clinical Education Handbooks. (100%). Hurdle requirements: Attendance at Orientation session. Phonetic transcription task.

Prescribed Reading:

School of Human Communication Sciences (available on WebCT)

HCS Clinic Handbook 2008.

HCS2DLP DISORDERS OF LANGUAGE AND PHONOLOGY (20 CPs Sem. TE-SEM-1 BU.) *TBA*

In this unit, students focus on a detailed study of the issues and principles in the assessment and treatment of speech and language impairments in children. The assessment unit covers physiological, cognitive, and learning problems which affect semantic, syntactic, morphologic, articulatory and phonologic, pragmatic skills, conversational skills, and literacy skills. The treatment unit uses hypothetical cases to match treatments to client needs. The unit on children with special needs reviews issues related to special populations such as specific language impairment, intellectual disabilities, Pervasive Development Disorders etc. Lecture notes for this unit will be available on WebCT.

Prerequisite: HCS1NCA, HCS1NCB.

Co-requisite: HCS2DDP.

Class requirements: Two 2-hour lectures and one 1-hour workshop per week.

Assessment: One 2.5-hour exam (50%), one 1-hour quiz (10%), one group assignment (equivalent to 500-words per student) (30%), one 1-hour quiz (10%).

Prescribed Reading:

Bauman-Waengler, J. *Articulatory and phonological impairments* Allyn and Bacon 2007.

HCS2DSS DISORDERS OF SPEECH AND SWALLOWING (20 CPs Sem. TE-SEM-2 BU.) *Ms Deb Phyland*

In this unit students are introduced to theoretical concepts and clinical techniques used in the assessment and management of speech and

swallowing disorders of structural and neurogenic origin. This unit covers both developmental and acquired disorders. Lecture notes for this unit will be available on WebCT.

Prerequisite: HBS1APH, HCS1NCA, HCS1NCB.

Co-requisite: HCS2DVL, HBS2NEU.

Class requirements: One 3-hour lecture and one 2-hour lecture per week.

Assessment: One 30-minute in-class test (20%). Hurdle requirements: participation in group tutorial presentation on the speech and swallowing profile of a designated neurological condition.

Participation in two oral peripheral sessions, one 800-word assignment (30%), one 2-hour final examination (combination of multiple choice and short answer questions (50%))

Prescribed Reading:

HCS2DVL DISORDERS OF VOICE AND LARYNGECTOMY

REHABILITATION (15. CPs Sem. TE-SEM-2 BU.) *Dr Jenni Oates*

In this unit, students are introduced to the study of the perceptual, acoustic and physiological aspects of normal and abnormal voice production. The unit involves a comprehensive examination of aetiologies of voice disorders, diagnostic and evaluation procedures and symptomatic, medical and psychosocial rehabilitation approaches for psychogenic, functional and organic vocal pathologies.

Laryngectomy rehabilitation is an overview of the medical and psychosocial aspects of laryngeal cancer, including aetiologies, classification and diagnosis, medico-surgical treatment, prognosis and social, emotional and vocational implications. Students undertake a detailed examination of the speech pathologist's role in pre- and post-operative counselling and speech rehabilitation. Oesophageal speech, trachea-oesophageal puncture speech and artificial larynx training procedures are emphasised. Lecture notes for this unit will be available on WebCT.

Prerequisite: HCS1NCA, HCS1NCB, HBS1APH.

Co-requisite: HCS2DSS.

Class requirements: 52 hours of lectures, workshops and self-study projects.

Assessment: One 2000-word voice essay (55%), one 30-minute voice listening test (15%), and one 1.5-hour exam in laryngectomy (30%)

Prescribed Reading:

HCS2ECS EFFECTIVE COMMUNICATION FOR THE SUCCESSFUL

PROFESSIONAL (15. CPs Sem. TE-SEM-1 BU. TE-SEM-2 BU. TE-W07-07 BU. TE-W08-08 BU. TE-W25-30 BU. TE-W27-28 BU. TE-W48-51 BU.) *Dr Susan Block*
Offered subject to sufficient enrolments.

This unit is an elective that is usually offered during semester breaks over one intensive week. This unit aims to enhance the individual's normal communication skills (e.g., speech, voice and language) in order to facilitate success of the graduate in the competitive workplace. Students will be provided with the opportunity to gain an understanding of the principles of effective verbal and non-verbal communication with particular reference to the ability to present information clearly to groups. Students will be given a range of opportunities to practise their communication skills within a group situation and receive and give feedback on their performances and those of their class peers.

Prerequisite: Completion of first year of Bachelor Degree or equivalent.

Class requirements: An intensive week of lectures, workshops and self-directed learning.

Assessment: Class participation (15%). Hurdle requirement: class attendance, one 1000-word critique on a prepared video-taped (25%), one 10-minute prepared class presentation (30%), support notes for presentation (equivalent to approximately 2000 words) (15%), interactive role play assessment (15%).

Covey, Stephen *The 7 habits of highly effective people* Smith and Shuster 1992.

HCS3AAC AUGMENTATIVE AND ALTERNATIVE COMMUNICATION (5.0

CPs Sem. TE-SEM-1 BU.) *Ms Karen Bloomberg, Ms Hilary Johnson*

In this unit students will be introduced to a variety of augmentative and alternative communication (AAC) systems and strategies. The procedures involved in the selection and application of AAC for people with complex communication needs will be presented. This course will provide a range of tools and resources which will address the communication needs of clients with developmental, acquired and progressive disabilities. Lecture notes for this unit will be available on WebCT.

Class requirements: One 2-hour lecture per week.

Assessment: One 1500-word group report of an interview equivalent to 500-words/member (30%), one group assignment - vocabulary selection equivalent to 150 words/member (30%), one 1200-word assignment - problem solving (40%).

Not available in 2008.

HCS3APC ACQUIRING PROFESSIONAL COMPETENCY (15. CPs Sem. TE-SEM-1 BU. TE-SEM-2 BU.) *Ms Fiona Ross*

In this unit students will develop new clinical abilities and integrate their existing knowledge of communication disorders and swallowing. They will develop their competency in speech pathology through case based learning which aims to provide a comprehensive, evidence based view of speech pathology assessment and management of clients. There are two major components of this unit: (1) work with a simulated client to develop knowledge and skills with clients with neurological disorders, and (2) case studies of clients with a range of complex diagnostic, psycho-social and speech pathology management needs. Clinical Lecture notes for this unit will be available on WebCT.

Prerequisite: HCS2DDP, HCS2APA, HCS2APB.

Co-requisite: HCS3APH.

Class requirements: One 3-hour workshop or equivalent per week.

Assessment: One 1500-word assignment (60%). Hurdle requirements: attendance at class presentations and submit diagnostic report, one 20-minute class presentation equivalent to 2250-words per student (40%).

Prescribed Reading:

HCS3APH APHASIA (20. CPs Sem. TE-SEM-1 BU.) *Dr Jacinta Douglas*

In this unit students develop a working knowledge of the major approaches to the diagnosis and treatment of acquired aphasia and related disorders. An integrated approach to aphasia classification,

assessment and treatment through the recovery process is presented. In addition to aphasia, the evaluation and treatment of communication disorders associated with traumatic brain injury, right hemisphere dysfunction and dementia are covered. Lecture notes for this unit will be available on WebCT.

Class requirements: One 3-hour and one 2-hour lecture per week.

Assessment: One professional case report (equivalent to a 2000-word written assignment) (30%), one 3-hour examination (70%).

Recommended Reading:

Chapey, R. Edn. *Language intervention strategies in adult aphasia and related neurogenic communication disorders* 4th Edn. Baltimore: Williams and Wilkins 2001.

HCS3AUR AUDITORY VISUAL REHABILITATION (10. CPs Sem. TE-SEM-1 BU. TE-SEM-2 BU.) *Dr Chyrisse Heine*

In this unit students will study communication disorders resulting from hearing and vision loss, with special emphasis on diagnostic and therapeutic methods employed with hearing loss from childhood to old age. Topics include early intervention, speech and language management with sensory loss, auditory processing disorder, cochlear implantation, and speech conversation management and communication strategies. Lecture notes for this unit will be available on WebCT.

Prerequisite: HCS2AUD.

Class requirements: One 2-hour lecture per week.

Assessment: One 1.5-hour examination (50%), two 500-word assignments (each assignment 25%) (50%).

Prescribed Reading:

Bellis, T. *Central auditory processing disorders in the educational setting* Thompson; Delmar Learning 2003.
Alpiner, J.G. and McCarthy, P.A. *Rehabilitative audiology - children and adults* Lipponcott, Williams and Wilkins 2000.

HCS3CLI 3RD YEAR CLINIC (15 CPs Sem. TE-SEM-1 BU. TE-SEM-2 BU. TE-W08-46 BU. TE-W09-47 BU.) *Ms Rachel Davenport*

In this unit students are expected to extend and enhance client management skills in a clinical setting external to the La Trobe Communication Clinic. It involves incremental skill development in a developmental or acquired disorders clinical setting. This experience occurs over 13 weeks. Clinical Education forms and handbook for this unit will be available on WebCT.

Prerequisite: HCS2DDP, HCS2DSS.

Co-requisite: HCS3APC, HCS3DSS.

Class requirements: one 3.5-hour clinical session per week for 13 weeks in either Semester 1 or 2, and one 3-hour orientation session in orientation week. Variation of Enrolment will occur once placements are allocated.

Assessment: Continuous evaluation as specified in the HCS Clinical Education Handbook for Students. (100%). Hurdle requirement: attendance at orientation session in orientation week.

Prescribed Reading:

School of Human Communication Sciences (available on WebCT)
HCS Clinical Education Handbook for Students 2008.

HCS3DSS DISORDERS OF SPEECH AND SWALLOWING CLINIC (10 CPs Sem. TE-SEM-1 BU. TE-SEM-2 BU. TE-W08-46 BU. TE-W09-47 BU.) *Ms Deb Phyland*

In this unit students are expected to develop client management skills in the area of Disorders of Speech and Swallowing. This clinical experience occurs incrementally over 5 weeks in semester 1 or 2, or during mid-semester break, and includes attendance at one tutorials. Clinical Education forms and handbook for this unit will be available on WebCT.

Prerequisite: HCS2DDP, HCS2DSS.

Co-requisite: HCS3APC, HCS3CLI.

Class requirements: One 3.5-hour clinical session per week for 5 weeks, attendance at one 1.5-hour tutorials. Variation of Enrolment will occur once placement is allocated.

Assessment: Continuous evaluation as specified in the HCS Clinical Education Handbook for Students (100%). Hurdle requirement: attendance at orientation session in orientation week.

Prescribed Reading:

School of Human Communication Sciences (available on WebCT)
HCS Clinical Education Handbook for Students 2008.

HCS3ECS EFFECTIVE COMMUNICATION FOR THE SUCCESSFUL PROFESSIONAL (15. CPs Sem. TE-SEM-1 BU.) *Ms Georgia Dacakis*

Offered subject to sufficient enrolments

In this elective unit, students aim to enhance the individual's normal communication skills (e.g., speech, voice and language) in order to facilitate success of the graduate in the competitive workplace. Students will be provided with the opportunity to gain an understanding of the principles of effective verbal and non-verbal communication with particular reference to the ability to present information clearly to groups. Students will be given a range of opportunities to practise their communication skills within a group situation and receive and give feedback on their performances and those of their class peers.

Prerequisite: Completion of first year of Bachelor Degree or equivalent.

Class requirements: 39 hours of lectures, workshops and self-directed learning over one semester.

Assessment: One 1000-word critique on a prepared video-taped presentation (40%), one 15-minute prepared class presentation (15%), one 3-minute unprepared presentation (10%), one 600-word reflective journal (20%), and class participation equivalent to 1000 words (15%). Hurdle requirement: class attendance.

Preliminary Reading:

Mohan, T., McGregor, H., Saunders, S. and Arohee, R.
Communicating! Theory and practice 4th Edn. Harcourt Brace 1997.

HCS3RDC RESEARCH DESIGN FOR COMMUNICATION DISORDERS (15. CPs Sem. TE-SEM-2 BU.) *Professor A. Perry*

This unit is compulsory for prospective honours degree students. Subject to approval of the unit coordinator, students select a research question which becomes a focus for a computer-assisted literature search and a research design proposal. Lectures and seminars are included to guide students in their independent work. Lecture notes and forms for this unit will be available on WebCT.

Prerequisite: PHE2RMH.

Co-requisite: PHE3RDA.

Quota: 15. Determined by academic merit; based on second and third year academic performance.

Class requirements: 26 hours of lectures, 120 hours of independent study and meetings with staff supervisors.

Assessment: One 4000-word research design proposal (100%). Hurdle requirements: satisfactory completion of one computer literature search and one seminar presentation.

Recommended Reading:

Portney, L.G. and Watkins, M.P. *Foundations of clinical research - applications to practice* New Jersey, Prentice Hall Health 2000.
Polgar, S. and Thomas, S.A. *Introduction to research in the health sciences* Churchill Livingstone 2000.

HCS3STU STUTTERING (15. CPs Sem. TE-SEM-2 BU.) *Dr S. Block*

In this unit the description of stuttering is covered, as is its aetiology, assessment, methods of treatment, maintenance of fluency and various types of service delivery. The unit aims to provide students with the opportunity to consider stuttering from the point of view of the individual who stutters and to consider the evidence for best practice in treatment at various ages and stages. Lecture notes for this unit will be available on WebCT.

Class requirements: Two 2-hour lectures per week.

Assessment: One video assessment (20%), one 2000-word essay/case description (50%), one 1500-word essay/case description (30%).

Preliminary Reading:

Turnbridge, N. *The stutterer's survival guide* Addison Wesley.

Recommended Reading:

Onslow, M. and Packman, A. (Eds). *Early stuttering: a handbook of intervention strategies* Singular Press 1999.

HCS4HDP HONOURS DEGREE PROJECT IN SPEECH PATHOLOGY (25CPs Sem. TE-SEM-1 BU. TE-SEM-2 BU.) *Professor Alison Perry*

For honours students only. This unit is a year long program and students are to enrol into both semesters.

In this unit students review the relevant literature, refine a research question and research design in conjunction with an academic staff supervisor. Depending on the question posed, the method used in the project may involve one or more of literature evaluation, empirical or experimental study, case study, inferential or theoretical work or surveys. The unit consists mainly of pilot work and data collection, data analysis, seminar presentation, and writing of a minor thesis. Lecture/Seminar notes for this unit will be available on WebCT.

Prerequisite: HCS3RDC.

Class requirements: 141 hours (3 one-hour seminars, 10-hours of small-group meetings, or discussions with staff supervisors and 128-hours of independent work).

Assessment: One 20-minute seminar (10%) The assessment listed is for the year long program, one 10000 to 12000-word minor thesis. (90%). The assessment listed is for the year long program.

Prescribed Reading:

American Psychological Association *Publication manual of the American psychological association* American Psychological Association, 1995.

Recommended Reading:

HCS4PDA PASS DEGREE PROJECT IN SPEECH PATHOLOGY A (15 CPsSem. TE-SEM-1 BU.) *Dr Susan Block*

In this unit following a review of relevant literature, students work in groups to design and commence an innovative project under the direction of academic staff. The project will consist of an applied practice project of relevance to human communication and its disorders. The scope of suitable projects and method of study is wide. The range of projects includes, but is not limited to: an evidence-based practice study, a poster display illustrating a clinical condition, information manuals, and audiovisual material for community education, a clinical program evaluation, a clinical audit or resource development plans. The project will normally not involve work with human subjects. Lecture/Seminar notes for this unit will be available on WebCT.

Prerequisite: HCS3CLI, HCS3DSS, HCS3APC.

Co-requisite: HCS4PDB.

Class requirements: 6 hours of small group meetings or discussions with staff supervisors and 105 hours of group project work.

Assessment: One project design paper where each member is responsible for 2500-words (100%).

HCS4PDB PASS DEGREE PROJECT IN SPEECH PATHOLOGY B (20 CPsSem. TE-SEM-2 BU.) *Dr Susan Block*

In this unit following a review of relevant literature, students work in groups to design and commence an innovative project under the direction of academic staff. The project will consist of an applied practice project of relevance to human communication and its disorders. The scope of suitable projects and method of study is wide. The range of projects includes, but is not limited to: an evidence-based practice study, a poster display illustrating a clinical condition, information manuals, and audiovisual material for community education, a clinical program evaluation, a clinical audit or resource development plans. The project will normally not involve work with human subjects. Lecture/Seminar notes for this unit will be available on WebCT.

Prerequisite: HCS3CLI, HCS3DSS, HCS3APC.

Co-requisite: HCS4PDA.

Class requirements: 6 hours of small group meetings or discussions with staff supervisors and 105 hours of group project work.

Assessment: One final report or equivalent where each member is responsible for 5500-words (80%). Students will receive an individual grade. This will be based on group perception of input as well as that of the Unit Coordinator and Project Supervisor, one 30-45-minute seminar presentation equivalent to 2000 words (20%).

HCS4PRA PROFESSIONAL PRACTICE IN SPEECH PATHOLOGY A (30 CPsSem. TE-SEM-1 BU.) *Ms Rachel Davenport*

This unit represents one semester of year long program. Students develop entry level in the management of clients with a variety of acquired and developmental communication and swallowing disorders. Students attend 36 days of a general clinical experience during semester. This experience may be undertaken internally at La Trobe Communication Clinic or in external agencies (which may be a rural/remote facility), or a combination of internal and external experiences. Students participate in a range of speech pathology activities under the supervision of a qualified speech pathologist. Students develop skills in a broad range of activities associated with the role of a speech pathologist including aspects of clinic management. Clinical Education forms and handbook for this unit will be available on WebCT.

Prerequisite: HCS3APC, HCS3CLI, HCS3DSS.

Class requirements: 36 days of clinical placements, one 3-hour orientation session in orientation week, one two-hour tutorial per month. Weekly drop-in tutorials with LTU Clinical Education coordinator available. Personal, email or telephone contact also available as needed.

Assessment: Continuous evaluation as specified in the HCS Clinical Education Handbook for Students (100%). Hurdle requirement: attendance at orientation session in orientation week.

Prescribed Reading:

School of Human Communication Sciences (available on WebCT) *Clinical Education Handbook for Students* 2008.

HCS4PRB PROFESSIONAL PRACTICE IN SPEECH PATHOLOGY B (30 CPsSem. TE-SEM-2 BU.) *Ms Rachel Davenport*

School of Human Communication Sciences (available on WebCT) *Clinical Education Handbook for Students* 2008.

HIM1HCA HEALTH CLASSIFICATION A (15 CPs Sem. TE-SEM-2 BU.) *Dr**Diana Cheng*

In this unit, students' knowledge of diseases, diagnostic and therapeutic procedures, and specialist clinical applications relating to each body system is further developed through the use of clinical classification. They are introduced to the conventions and rules for classification of diseases and treatments, use of the International Classification of Diseases-Tenth Revision-Australian Modification (ICD-10-AM), selection of principal diagnoses, and application of Australian clinical coding standards. Students work with medical records to become familiar with their content and structure, and with the recording conventions used by clinicians.

Prerequisite: HIM1MTA, HBS1HFU.

Class requirements: One 2-hour lecture, one 1-hour tutorial and one 1-hour practical per week.

Assessment: One 1-hour examination (mid-semester) (25%). Hurdle requirement: Students are required to complete three practical exercises, one 2-hour examination (75%).

Prescribed Reading:

Health Information Management Program. *HIM1HCA Workbook* SPH 2007.
 National Centre for Classification in Health. *International Classification of diseases* 5th rev. NCCCH 2006.

HIM1HIA HEALTH INFORMATICS A (15 CPs Sem. TE-SEM-1 BU.) Ms

Belinda Torney

In this unit, students are introduced to health informatics, information technology and health industry software and hardware. Students become familiar with 'The Internet', common business software and other selected software used in the management of health information and in the wider health industry. There is a major emphasis on the application of health knowledge bases in health care systems; students retrieve and review data from Health Wiz, and analyse community morbidity data.

Class requirements: Two 1-hour lectures, one 2-hour lab class per week. WebCt will be used as a means of communication and document delivery.

Assessment: One 1200-word assignment (20%), one 1.5-hour examination (50%). Must achieve 45% (22.5/50) in final exam, one 1500-word assignment (30%).

Prescribed Reading:

Shelly, G.B. et al *Discovering computers 2008: a gateway to information* Thompson Course Technology 2007.

HIM1HIB HEALTH INFORMATICS B (15 CPs Sem. TE-SEM-2 BU.) Ms

Belinda Torney

In this unit, students are introduced to concepts in health informatics and e-Health, including health information and tele-health. General systems concepts, health care models and standards are addressed. Generic Patient Index requirements are examined, as are control processes, data modelling, and data flow. Basic concepts in informatics, system design and the role of the health information manager in IT project and system specification and management are addressed, as are customer interfaces in radiology, pathology, pharmacy and other clinical systems. Students examine applications of health software including appointments, waiting list, disease indices, and decision-support ware, and are introduced to the electronic patient record.

Prerequisite: HIM1HIA, HIM1MHA.

Class requirements: Two 1-hour lectures, one 2-hour lab class per week. WebCT will be used as a means of communication and document delivery.

Assessment: Two 1200-word assignment (50%), one 1.5-hour examination (50%). Must achieve 45 % (22.5/50) in final exam to pass unit.

Prescribed Reading:

Shelly G.B., Cashman, T.J. and Vermaat M. *Discovering computers 2008: a gateway to information* Thompson Course Technology.

HIM1MHA MANAGEMENT OF HEALTH INFORMATION SYSTEMS A (15 CPs Sem. TE-SEM-1 BU.) Ms Dianne Williamson

In this unit, students are introduced to the sources, collection, storage, manipulation and applications of health data and information. Key Australian health databases are introduced. Manual and electronic health record formats are explored, as are issues of useability, security, privacy, quality, access and linkage. Acute- and non-acute care information systems are studied, including rehabilitation, mental health, geriatric, ambulatory care and emergency care systems. The functional components of a health information service and the responsibilities of health information managers are examined. Students become familiar with electronic and manual systems for health record identification, filing, tracking, and other health information service functions appropriate to facilities of varying size and category.

Class requirements: One 2-hour and one 1-hour lecture and one 1-hour tutorial per week.

Assessment: One 1000-word assignment (25%), one 1.5 hour examination (50%), one 1000-word assignment (25%).

Recommended Reading:

La Tour, K.M. Eichenwald, S. Eds *Health information management: concepts, principles and practice* AHIMA 2002.
 Abdelhak, M. et al. *Health information: management of a strategic resource* W.B. Saunders 2001.

HIM1MHB MANAGEMENT OF HEALTH INFORMATION SYSTEMS B (15 CPs Sem. TE-SEM-2 BU.) Ms Dianne Williamson

In this unit students focus on decision-making and information sharing in health information services. They learn business communication skills: policy, procedure, report and technical specification development and formulation; and oral business presentations. Students design electronic and hard copy health record forms. They examine Australian standards and accreditation systems for all categories of health information services. Health data and documentation quality issues and solutions are identified. Students undertake a one-week professional studies placement in an assigned, non-metropolitan healthcare facility where they learn health information systems and health information manager responsibilities; regular contact is maintained with the University Supervisor.

Prerequisite: HIM1MHA.

Class requirements: two 1-hour lectures and one 1-hour tutorial per week, one week of clinical/professional studies in an assigned, non-metropolitan health care facility.

Assessment: Two 1000-word assignment (50%), one 1.5-hour examination (50%). Hurdle requirement:s for professional studies placement component: attendance (100% of prescribed time), completion of journal and portfolio, and satisfactory practical performance (0%). Student's performance is monitored by the University Supervisor who also conducts post-placement assessment interview.

Recommended Reading:

Abdelhak, M. et al. *Health information: management of a strategic resource* 2nd Edn. W.B. Saunders 2001

HIM1MTA MEDICAL TERMINOLOGY (15 CPs Sem. TE-SEM-1 BU.) Ms Kate Wendt

In this unit, students are introduced to the terminology, diseases and diagnostic and therapeutic procedures relating to each body system, as well as to terms used in specialist areas of medicine, surgery, pathology, imaging, nursing and allied health. The function of clinical terminology is explored in the context of the classification of diseases and treatments.

Class requirements: One 2-hour lecture and one 2-hour seminar per week.

Assessment: One 1-hour examination (mid-semester) (30%), one 2-hour examination (60%), one 750-word assignment (10%).

Prescribed Reading:

Student's choice: Chanter, D. *Medical Dictionary The Language of Medicine* 7th Edn., Saunders 2004.

HIM2AHA ANALYSIS OF HEALTH DATA A (10 CPs Sem. TE-SEM-2 BU.) Ms Dianne Williamson

In this subject, students are introduced to national, state and facility-level systems of health data collection, and undertake hands-on analysis of these data for health care business and clinical applications. Skills are gained in managing the data for several state-level systems for which health information managers have responsibility, including those for admitted, elective surgery, emergency and mental health patients, the Agency Information Management System, and the state cancer and other morbidity reporting systems. Case studies are used to analyse and report facility-level morbidity, mortality, clinical outcome, productivity, and utilisation data.

Prerequisite: HIM1MHA, STA1LS, HIM1HIA.

Class requirements: Two 1-hour lectures and one 1-hour practicum per week.

Assessment: One 1000-word assignment (30%), one 1.5-hour examination (70%).

Prescribed Reading:

Analysis of Health Data A Workbook B. Health Information Management Program, School of Public Health, 2006
Department of Human Services. PRS/2 Manual 14th Edn., DHS 2004

HIM2HCB HEALTH CLASSIFICATION B (10. CPs Sem. TE-SEM-1 BU.) *Dr Diana Cheng*

In this unit, students study the specialist chapters of ICD-10-AM with particular emphasis on the relevant Australian Coding Standards and the Victorian Additions to the Standards. An extensive workbook provides the opportunity for practical application of this knowledge. Students are required to group all of their work using AR-DRG software in the computer laboratory. Students are introduced to the complexities of abstracting clinical information from the medical record by use of class sets of simulated records.

Prerequisite: HIM1MTA, HIM1HCA, HBS1HFU, HBS1HBF.

Co-requisite: HBS2PAG, HIM2MTC.

Class requirements: One 2-hour lecture, one 1-hour tutorial and one 1-hour practicum per week, plus some work requirements must be undertaken online.

Assessment: Three practical exercises (15%). Hurdle requirement: one 2-hour final practical examination (60%), one 1-hour practical exam (mid-semester) (25%).

Prescribed Reading:

Health Information Management Association of Australia. *Australian dictionary of clinical abbreviations, acronyms and symbols* 4th Edn., HIMAA 2004.

HIM2HCC HEALTH CLASSIFICATION C (10. CPs Sem. TE-SEM-2 BU.) *Dr Diana Cheng*

In this unit students continue to develop competencies, to clinical coder level, in the assignment of disease and procedure codes, with significant focus on use of the International Classification of Diseases-Australian Modification (ICD-10-AM) and the related Australian Coding Standards. There is some emphasis on the structure of classification systems used previously in the health industry, the development of skills in retrieval of information classified according to a range of systems, and the impact of between-system variations in coded data. Students are introduced to the applications of encoder software, and to the comparative differences between ICD-10-AM and its antecedent versions used in Victorian hospitals.

Prerequisite: HIM1MTA, HBS1HFU, HBS1HBF, HBS2PAG, HIM2MTC, HIM2HCB.

Co-requisite: HBS2PAS.

Class requirements: One 1-hour lecture, one 2-hour practicum per week.

Assessment: One 2-hour final practical examination (75%). Hurdle requirement: four practical exercises, one 1-hour practical examination mid-semester (25%).

Prescribed Reading:

HIM2HIC HEALTH INFORMATICS C (10. CPs Sem. TE-SEM-1 BU.) *Ms Belinda Torney*

In this unit, students will build skills for health software specification and management in applied clinical environments. Students learn the principles for defining health information systems, and the associated

specification requirements. Broad areas for learning include extended health applications and techniques of accessing health data, including smartcards, warehousing, and browsers. Clinical systems are addressed in depth, and include: decision-support systems; waiting list, pathology, radiology and pharmacy systems; community-level care systems; health business and finance systems; and system linkage and mapping.

Prerequisite: HIM1HIA, HIM1HIB, HIM1MHA.

Class requirements: Two hours of lectures and one 1-hour laboratory session per week. WebCt will be used as a means of communication and document delivery.

Assessment: One 1000-word practical assignment (30%), one 1.5-hour examination (70%).

Recommended Reading:

Coiera, E. *A guide to health informatics* London Arnold 2003.

HIM2HID HEALTH INFORMATICS D (10 CPs Sem. TE-SEM-2 BU.) *Ms Heather Grain*

In this unit, students' knowledge and skills are developed in health database design and management, and in factors underpinning data quality, through the design, manipulation, maintenance, storage and retrieval of health data in electronic systems. The content includes MS Access as a tool for database development and information manipulation, and explores the principles of logic and control of computer systems and the data within them, including health data representation and standards requirements and tools to support stakeholder use of health data. Health Wiz and the Victorian Admitted Episodes Data are used in exploring data quality theory and evaluation in health care; other Australian health data collections are used to illustrate the range of health data, responsibilities in data governance, and issues surrounding health data management.

Prerequisite: HIM1MHA, HIM1HIA, HIM1HIB.

Class requirements: Two 1-hour lectures and one 1-hour practical laboratory session per week delivered by a combination of face-to-face and problem based Internet learning are used.

Assessment: One 1000-word practical assignment (15%), one 1-hour examination (70%), one 1000-word practical assignment (15%).

HIM2LAE HEALTH INFORMATION LAW AND ETHICS (10. CPs Sem. TE-SEM-2 BU.) *Ms Kerin Robinson*

In this unit, students become familiar with ethics and the law as they pertain to electronic and hard-copy health records, the utilisation of health information, the management of health information systems and services, and associated responsibilities of health care facilities and their staff. Topics include: introduction to bioethical theories and principles and their application to confidentiality, consent and other health information issues; introduction to the legal system, negligence, vicarious liability, contract and bailment relevant to health information; and freedom of information, and other health-related legislation. Addresses the legal and ethical aspects of access, privacy and security of patient information, e-health, health information linkage, and health information issues associated with the new biomedical and health technologies.

Recommended Prior Studies: Available to minimum year level 2 students. BHIM students must have completed unit HIM1MHA.

Class requirements: Three 1-hour lectures per week. WebCT will be used as a means of communication (email) and document delivery but not as a means of teaching.

Assessment: One 2000-word assignment (40%), one 2-hour examination (60%).

HIM2MHC MANAGEMENT OF HEALTH INFORMATION SYSTEMS C (15 CPs Sem. TE-W03-21 BU.) *Ms Kerin Robinson*

In this unit students will be introduced to the philosophies of significant management theorists and their relevance to contemporary health information service management. Key theories are applied, through case studies, to practical health information management practice. Students are encouraged, through discussion, research and presentations to create a model for managing health information departments and services. Students undertake a four-week professional placement in a health information service to gain a working knowledge of the role and responsibilities of health information managers, including the management of human and systems resources. Regular contact between students and La Trobe University Supervisors is maintained during placement via Web-CT, telephone, onsite visits and emails.

Prerequisite: HIM1MHA, HIM1MTA, HIM1HCA, HIM1MHB.

Class requirements: One 2-hour lecture and one 1-hour seminar per week plus one 4-week clinical placement prior to commencement of semester. Students are required to log onto WebCT on a weekly basis. WebCT will be used as a means of communication (email) and document delivery but not as a means of teaching.

Assessment: One 15-minute verbal presentation and related assignment (analysis of research) (15%), one 1-hour examination (35%). Students must pass both theoretical and practical (placement) components in order to pass unit. Satisfactory report from supervisor. (50%). Performance during placements is monitored regularly against established competencies by the University Supervisor, who also conducts post-placement assessment interview (0%). Assessment based on criteria per Professional Studies manual. Hurdle requirement: satisfactory attendance and performance at all placements.

HIM2MHD MANAGEMENT OF HEALTH INFORMATION SYSTEMS D (15 CPs Sem. TE-SEM-2 BU.) *Ms Kate Wendt*

In this unit, students focus on the relationship between health information and health service financing, and advanced management for health information services. Topics include: clinical costing; case mix systems including non-acute, acute, and ambulatory and severity of illness models; reporting and interpreting case mix data; and the application of case mix data to utilisation review and quality management. Covers planning and management of health information service and systems business plan development, policy development and departmental financial and budgetary management.

Prerequisite: HIM1MHA, HIM1MHB, HIM2MHC.

Class requirements: One 2-hour lecture and two 1-hour lectures per week.

Assessment: One 2-hour examination (60%), one 1750-word assignment (40%).

Duckett, S. *The Australian health care system* Melbourne Oxford 2004.

HIM2MTC ADVANCED MEDICAL TERMINOLOGY (5 CPs Sem. TE-SEM-1 BU.) *Dr Diana Cheng*

This unit provides in-depth knowledge of medical terminology related to diseases and operative procedures. The latest advances in medicine and surgery are presented. Knowledge is gained in diagnostic, therapeutic and

radiological techniques and drug therapy. Students develop knowledge transfer skills for diagnostic and procedural classification (taught in an associated subject), and learn to interpret clinical information (e.g., diagnoses, procedures, laboratory tests, drug

reactions, investigations, therapeutic procedures) for the purpose of accurately classifying clinical information according to international classification systems. The content of this unit is critical to graduates performance as clinical coders in the Australian case mix financial reimbursement system.

Prerequisite: HIM1MTA, HIM1HCA.

Class requirements: two 1-hour lectures per week.

Assessment: one 500-word (equivalent) assignment (30%), one 1.5-hour final examination (70%).

Prescribed Reading:

Chabner, D.E. *The language of medicine 7th Edn.* W.W. Saunders and Co. 2003.

Bryant, B., Knights, K. and Salerno, E. *Pharmacology for health professionals* Mosby 2003.

HIM3AHB ANALYSIS OF HEALTH DATA B (15 CPs Sem. TE-SEM-2 BU.) *Ms Kerin Robinson*

In this unit, students focus on the collection, interpretation and utilisation of health information beyond the client-patient treatment and disease-operation classification stages. It covers methodologies applied in epidemiological and health information-based research including relevant concepts, principles, strategies, data sources, and analytical techniques. Students learn to conduct and support epidemiological studies, provide data management in clinical and pharmaceutical trials, undertake clinical risk management, and critically appraise the literature. Students learn to analyse coded health information. Data management and regulatory issues relating to quality management and evaluation, privacy, security and release of information are addressed.

Prerequisite: HIM2AHA, HIM2MHC.

Class requirements: one 2-hour lecture and one 2-hour seminar per week. WebCT will be used as a means of communication (email) and document delivery but not as a means of teaching.

Assessment: two 1250-word assignments (40%) 2, one 2-hour examination (60%).

Prescribed Reading:

Health Information Management Program. *HIM32AHB student workbook 2006* School of Public Health 2006.

HIM3HCD HEALTH CLASSIFICATION D (15 CPs Sem. TE-SEM-2 BU.) *Ms Belinda Torney*

In this unit students focus on health classification in the hospital setting with emphasis on understanding AR-DRGs and the technical and process development of relevant software and grouper logic; national development processes relating to the Commonwealth of Australia's International Classification of Diseases, 10th Edn. Australian Modification (ICD-10-AM), which is based upon the World Health Organisation's International Classification of Diseases classification system; the technical relationship between coding and funding in the public and private hospital systems; the management of hospital coding and case mix services; and Australian Standards for the coding service. Students develop proficiency in advanced clinical coding, and in understanding the coding audit function and the relationships, for DRG assignment, between coded and demographic data.

Prerequisite: HIM2HCB, HIM2MTC, HIM2MHC, HIM2HIC, HIM2HCC, HIM2MHD, HIM2LAE.

Class requirements: one 2-hour lecture, one 1-hour tutorial and one 2-hour practicum per week. WebCT will be used as a means of communication and document delivery.

Assessment: one 2-hour examination (60%), one 1-hour (mid-semester) examination (25%), one 1000-word practical coding assignment (15%).

Prescribed Reading:

Health Information Management Program. *HIM3HCD Workbook* SPH 2008.

National Centre for Classification in Health *International classification of diseases and related health problems-tenth revision. Australian Modification* 5th Edn. NCCCH 2006.

HIM3HIE HEALTH INFORMATICS E (15 CPs Sem. TE-SEM-2 BU.) *Ms**Belinda Torney*

In this unit students gain knowledge in health information technology system function analysis, system modelling and cases in healthcare, product testing and evaluation, implementation, and administration of the maintenance process, including development of requirements for system modification. Students prepare a training plan and gain practical experience in training for use and support of new health care products. There is a focus on health care business process redesign.

Prerequisite: HIM2HIC, HIM2HID, HIM2MHC.

Class requirements: one 2-hour lecture and two 1-hour practicum per week. WebCT will be used as a means of communication and document delivery. Some work requirements will be undertaken online.

Assessment: one 2-hour examination (50%), two 1250-word assignments (50%).

HIM3HIP HEALTH INFORMATION PROFESSIONAL PRACTICE (35 CPsSem. TE-SEM-1 BU.) *Ms Dianne Williamson*

In this unit students develop their knowledge and skills through engaging in health information management practice across the whole-of-health: epidemiological research; clinical trials; health information systems design and development; health information and communication technology (ICT) management; patient safety systems; health information management. They are based in healthcare facilities; state and national health information units; disease registries; health software and systems development organisations; and health research centres for one nine-week block, or four- and five-week blocks. Seminar series participation and a formal presentation are required. Regular contact with University supervisors is maintained during placements via WebCT, telephone, email, and on-site visits.

Prerequisite: HIM2MHC, HIM2MHD, HIM2HIC, HIM2HID, HIM2HCB, HIM2HCC, HIM2AHA, HIM2LAE.

Class requirements: 12 hours of seminars held block-mode at end of semester plus a total of 9 weeks (7.5-hour day) professional placement. It is expected that students will log onto WebCT on a weekly basis.

Assessment: Satisfactory report placement Agency (70%). Assessment is based on the criteria as per Professional Studies Manual. Student performance is monitored regularly by University Supervisor, who also conducts post-placement assessment interview, one 15-minute seminar presentation (15%). Hurdle requirement: satisfactory attendance and performance is required at all placements, one 1500-word placement report (15%).

School of Public Health *Health Information Management Program, School of Public Health. Health Information Professional Practice information booklet* SPH 2007.

HIM3HSI HEALTH SYSTEMS IMPLEMENTATION (10 CPs Sem. TE-SEM-1BU.) *Ms Kate Wendt*

In this unit students learn the theory and principles supporting health systems implementation. They develop practical implementation skills by learning and using relevant software and completing, through simulation, a practical work-based implementation. The focus of the unit is on systems relating to health information management and technologies. Students are also introduced to relevant contractual requirements and specifications associated with implementations in hospitals, epidemiological research centres, the public health area, and other health care and health information environments.

Class requirements: This unit is offered primarily by distance education, consisting of 113 hour modules. This will be supplemented by 6 hours of face-to-face workshops/tutorials and ongoing online support.

Assessment: 1-hour written examination (40%), 2000-word project and contract management assignment (50%), completion of online tasks (10%).

Prescribed Reading:

Students are referred to a set of selected readings.

HIM3MHE MANAGEMENT OF HEALTH INFO SYSTEMS E (15 CPs Sem. TE-SEM-2 BU.) *Ms Kerin Robinson*

This unit is presented with a health information management and health information technology systems approach to healthcare patient and client safety. A whole-of-health perspective is taken and the frameworks, standards, design, and limitations of relevant health information systems are explored. The applications of health technologies are examined in the context of their direct and indirect contributions to improved health information and patient and client safety in acute and non-acute healthcare facilities, epidemiological and health research centres, and the public health arena.

Prerequisite: HIM2MHC.

Class requirements: one 2-hour lecture and one 2-hour seminar per week. This unit is not available for Exchange and Study Abroad students. WebCT will be used as a means of communication (email) and document delivery but not as a means of teaching.

Assessment: one 1250-word assignment (20%), one 2-hour examination (60%), one 1,250-word assignment (20%).

Recommended Reading:

Students are referred to a set of selected readings

HIM4HCE HEALTH CLASSIFICATION E (15 CPs Sem. TE-SEM-1 BU.) *Dr**Diana Cheng*

In this unit, health classification in government and private-sector, non-hospital environments is addressed. There is a focus on coded data as information in the context of users, applications, analysis, and measures of quality. The unit includes alternative classification systems, classification in the electronic medical record, and general practice classifications. Students develop skills in advanced clinical coding for high cost DRGS, complex cases and adverse events. There is an introduction to the coding audit function, including requirements of funding bodies, analysis and applications of audit findings, and responsibilities of governments and other purchasers for quality data collections.

Prerequisite: HIM2HCB, HIM2HCC, HBS2PAS, HBS2PAG, HIM2MTC.

Class requirements: one 2-hour lecture, one 1-hour tutorial and one 1-hour practicum per week.

Assessment: one 1-hour examination (mid-semester) (25%), one 2-hour examination (60%), one 1000-word assignment (15%).

HIM4HIF HEALTH INFORMATICS F (15 CPs Sem. TE-SEM-1 BU.) *Mrs**Heather Grain*

In this unit, students examine the development of the electronic health record in Australia and internationally. Topics include: policies, technical issues, and barriers to development and implementation of electronic health records; national and international standards relating to content, systems and data exchange; record structure and content; clinical vocabularies; requirements of clinicians and other users; and privacy and consent issues relating to electronic health information. Students explore recent advances in health industry hardware and software which impact on electronic health records. There is a focus on existing and emerging electronic health records systems and their effects on health care providers, managers, and consumers.

Prerequisite: HIM2HID.

Class requirements: one 2-hour lecture and one 2-hour seminar per week, plus visits to operational sites and web-based learning.

Assessment: one 2-hour examination (50%), one 2000-word assignment (50%).

HIM4MHF MANAGEMENT OF HEALTH INFORMATION SYSTEMS F (15 CPs Sem. TE-SEM-1 BU.) *Mrs Kerin Robinson*

This unit is taught via case studies in health information management, with emphasis on the impact of advanced information technologies, the management of change, and professional issues and strategic planning and management in health information services. Staffing practices specific to health information services are addressed and students participate in simulated health information service employment and performance management interviews and a staff training program. Health workplace legislation and its effects on the management of health information services are examined. Professional issues, and the effects of policy developments on the management of health information services, are explored via a problem-based approach.

Prerequisite: HIM2MHC, HIM2MHD, HIM3PRA.

Class requirements: one 2-hour lecture, one 1-hour lecture and one 1-hour seminar per week. WebCT will be used as a means of communication (email) and document delivery but not as a means of teaching.

Assessment: one 2.5-hour examination (60%), one 1000-word assignment (20%), one 1000-word assignment (20%).

HLT3IPA INTERDISCIPLINARY PROFESSIONAL PRACTICE (15 CPs Sem. TE-SEM-1 AW, BE, BU, DE, MI, SH. TE-SEM-2 AW, BE, BU, DE, MI.) *Dr Helen Cleak, Ms Dianne Williamson*

In this web-based unit, students across the Faculty of Health Sciences study together in interdisciplinary groups in preparation for professional practice. This unit consists of four online modules: Professional Development, Provision of Care within the Context of Human Service Systems and Implementing a Plan to Improve Service Quality, Professional Accountability and Organizational Dynamics - Working Effectively in Health and Human Service Organizations. Through guided activities, students will be encouraged to critically reflect on the structure and influences on the human services organization, develop interdisciplinary awareness and explore the contribution of other professions, consider the rights and expectations of service consumers and apply the key issues of ethical decision making within the context of relevant law.

Prerequisite: Bachelor of Health Sciences students must have completed at least 240 credit points. All other courses must have completed one of the following units: NSG2EBP, HIM2HCC, ORT3CLI, OCT3PRD, PTY32CPC, PTY32MPC, PTY32NPC, PTY32SSP, POD3PCP, POR2CEB, POR2CEB, HCS30CLI, HCS30PPR, SWP3FEA, ORH33CPE.

Bachelor of Health Sciences students must have completed at least 240 credit points.

Incompatible unit: HLT32IPA

HLT31IPA

Class requirements: 8 hours of lectures/seminars over two days during Orientation Week plus a flexible learning package equivalent to 3 hours of classroom contact per week. Students have regular contact with lecturers via the unit coordinator using telephone, fax and email.

Assessment: three 500-word online group task (30%). Hurdle requirements: students are required to participate in all online tasks, and must pass all assessment components in order to pass this unit, one 1500-word online assignment (40%), participation/contribution to online discussions as per guidelines provided to students (10%), one 750-word online group tasks (20%), one 1500-word group online assignment (40%), participation/contribution to online discussions as per guidelines provided to students (10%).

MID1FOU FOUNDATIONS OF MIDWIFERY (15 CPs Sem. TE-SEM-1 BU.)

Ms Margaret Pszczolkowski

In this unit students are encouraged to explore what it means to be a midwife and provide woman-centred care. Students examine the forces influencing midwifery developments, and develop an understanding of the language of midwifery as well as the importance of models of midwifery care. Topics include cultural considerations relating to childbirth, specific medico-legal issues and ethics for midwifery practice.

Class requirements: One 2-hour lecture over 10 weeks, one 1-hour tutorial over 9 weeks, 1-hour self-directed learning over 10 weeks and 7 hours of field visits.

This unit is not available for study abroad students.

Assessment: one 3000-word assignment (75%). Hurdle requirement: whilst clinical assessment is ungraded students must achieve at a designated level. Students must pass theory and clinical to pass the subject, one 1000-word assignment (25%).

MID1PRE PREGNANCY IN MID PRACTICE (15 CPs Sem. TE-SEM-2 BU.) *Ms*

Michelle Newton

In this unit students will be introduced to human pregnancy and will be assisted to provide women-centred midwifery care from pre-conception to the onset of labour. Students build on their knowledge of human anatomy, physiology and behavioural health sciences in developing an understanding of normal pregnancy. Students have the opportunity to learn about the role of the midwife in providing information, choices and support to empower the woman and her family during the antenatal period.

Prerequisite: MID1FOU.

Class requirements: 30-hours of lectures, six 1-hour issue based learning, three 1-hour laboratory/tutorial sessions across the semester and 80 hours of clinical practicum in acute and community care settings (weeks 11-13). This unit may have an online component. This unit is not available for study abroad students.

Assessment: one 3-hour exam (80%). Hurdle requirement: whilst clinical assessment is ungraded students must achieve at a designated level. Students must pass theory and clinical to pass the subject. One 1000-word assignment (20%). Students must pass theory and clinical to pass the unit.

MID2NBA NORMAL BIRTH POSTNATAL A (15 CPs Sem. TE-SEM-1 BU.) *Ms**Margaret Pszczolkowski*

In this unit students will be offered the opportunity to study birth from the perspective that it is a normal life cycle social event and about the role of the midwife in providing information, choices and support to empower the woman and her family during labour and birth.

Prerequisite: MID1FOU, MID1PRE.

Class requirements: Two 3-hour lecture per week over five weeks, one 1-hour problem based learning per week over six weeks, one 1-hour learning session per week over three weeks plus a 120 hour clinical practicum of approximately forty hours per week over three weeks.

This unit is not available for study abroad students.

Assessment: one 3-hour examination (80%). Students must pass both the theory and clinical components to pass the subject one 1000-word clinical report (20%). Hurdle requirement: whilst the clinical assessment is ungraded students must achieve at a designated level.

MID2NBB NORMAL BIRTH POSTNATAL B (30 CPs Sem. TE-SEM-2 BU.) *Dr**Helen McLachlan*

In this unit students will be offered the opportunity to build on the knowledge and skills gained in MID2NBA and birth is further studied from a perspective that is a normal life cycle social event. This unit undertakes to further study normal birth and the postnatal period in this context and to expand knowledge in relation to the role of the midwife. The unit encompasses the knowledge, skills and attitudes related to understanding the variety of complex physiological and psychological adaptations a woman makes from the birth until the first 28 days.

Prerequisite: MID2NBA.

Class requirements: two 3-hour lecture per week over five weeks, one 1-hour problem based learning per week over nine weeks, plus a 160 hour clinical practicum of approximately forty hours per week over four weeks. This unit may have an online component.

This unit is not available for study abroad students.

Assessment: one 3-hour written examination (40%). Clinical assessment of problem-solving, psychomotor and communication skills and professional development in line with the ACMI competencies, one 3000-word assignment (40%). Students must pass the theoretical and clinical components to pass the unit, One 1500-word assignment (20%).

MID3CPR COMPROMISED PREGNANCY (15 CPs Sem. TE-SEM-2 BU.)*Professor Susan McDonald*

In this unit students will be assisted to recognise and manage situations that compromise the normal pregnancy process and that have the potential to be harmful to the woman and the foetus/baby. Studies incorporate the provision of safe competent care during pregnancy whilst supporting the woman's choices and being an advocate for the woman.

Prerequisite: MID2NBA.

Class requirements: 30-hours of lectures over the semester, 9 hours of self directed learning equivalent to 1-hour of class contact per week over nine weeks plus a 80 hour clinical practicum of approximately forty hours per week over two weeks. This unit may have an online component.

This unit is not available for study abroad students.

Assessment: one 1000-word assignment (20%). Clinical assessment of problem-solving, psychomotor and communication skills and professional development in line with the ANMC competencies, one 3-hour written examination (80%). Students must pass theory and clinical to pass the unit.

Prescribed Reading:

MID3NEO NEONATAL MIDWIFERY PRACTICE (30 CPs Sem. TE-SEM-1 BU.)*Ms Michelle Newton*

In this unit students will be offered the opportunity to examine the beginnings of life from conception through to the first twenty eight days following birth. Students can explore issues relating to parenting for healthy infants and infants who are compromised due to pathology. Students can build upon interpersonal skills when examining concepts of attachment, grief and loss. Also explored are the relationships between maternal conditions and the effects on the infant, and the impact to the health industry, local community and society surrounding the birth of a premature or abnormal infant.

Prerequisite: MID2NBB.

Class requirements: One 6-hour lecture day over 5 days (block mode), 22 hours of self directed learning equivalent to 2-hours of class contact per week over 11 weeks plus a 160 hour clinical practicum of approximately 40 hours per week over 4 weeks. This unit may have an online component.

This unit is not available for study abroad students.

Assessment: one 3-hour written examination (40%), clinical assessment of problem-solving, psychomotor and communication skills and professional development in line with the ACMI competencies, one 3000-word case study (40%). Students must pass the theoretical and clinical component to pass the subject, One 1500-word assignment (20%).

MID4CBA COMPROMISED BIRTH A (30 CPs Sem. TE-SEM-1 BU.) *Ms**Margaret Pazczolkowski*

In this unit students will be assisted to recognise and manage situations that compromise the birth process and which have the potential to be harmful to the woman and the foetus/baby. Studies incorporate the provision of safe competent care during labour and birth whilst supporting the woman's choices and being an advocate for the woman. Developing an understanding of the boundaries of midwifery practice in a birth setting and knowing when to refer the woman to other health professionals as determined by the woman's need for care are explored. The unit also includes the management of situations such as emergency care, and birth options that may be considered as a result of the challenge to the normal birth process.

Prerequisite: MID3CPR.

Class requirements: Five 6-hour lecture days (block mode), 22 hours self directed learning equivalent to 2 hours per week over 11 weeks plus a 160-hour clinical practicum of approximately 40 hours per week over 4 weeks. This unit may have an online component.

This unit is not available for study abroad students.

Assessment: one 3-hour written examination (40%). Clinical assessment of problem-solving, psychomotor and communication skills and professional development in line with the ACMI competencies, one 4500-word clinical report (60%). Students must pass theory and clinical to pass the unit.

Prescribed Reading:

Pairman, S., Pincombe, J., Thorogood, C. and Tracy, S. *Midwifery: preparation for practice* Sydney Elsevier 2006.

MID4CBB COMPROMISED BIRTH B (30 CPs Sem. TE-SEM-2 BU.) *Ms Margaret Pszczolkowski*

In this unit students will be offered the opportunity to build on knowledge and experience gained in MID4CBA. Students will be assisted to recognise and manage situations that compromise the birth process and which have the potential to be harmful to the woman and the foetus/baby. Studies incorporate the provision of safe competent care during labour and birth whilst supporting the woman's choices and being an advocate for the woman. Further developing an understanding of the boundaries of midwifery practice in a birth setting and knowing when to refer the woman to other health professionals as determined by the woman's need for care are explored. The unit consolidates the students' knowledge in relation to the management of situations, such as emergency care, and birth options that may be considered as a result of the challenge to the normal birth process.

Prerequisite: MID4CBA.

Class requirements: one 7-hour lecture day, 14-hours of facilitated sessions per semester, 31 hours of self directed learning equivalent to 3 hours of class contact per week over ten weeks plus a 240- hour clinical practicum of approximately 40 hours per week over 6 weeks. This unit may have an online component.

This unit is not available for study abroad students.

Assessment: one 5500-word clinical report (80%), clinical assessment of problem-solving, psychomotor and communication skills and professional development in line with the ACMI competencies, one 2-hour written examination (20%). Students must pass theory and clinical to pass the subject.

Prescribed Reading:

NSG1AAS NURSING ART AND SCIENCE (15 CPs Sem. TE-SEM-1 AW, BE, BU, MI, SH.) *AW: Ms Yolanta McLaughlin, BE: Ms Gamble Kerrie, BU: Mr Bill McGuinness*

In this unit students will be provided with an introduction to the theoretical framework of the curriculum as an underpinning for professional nursing practice. The foundations of the program are discussed in the context of nursing as a discipline and a profession. Creative and scientific processes and concepts that underlie and guide nursing practice are explored from a historic, holistic and global perspective. Students are introduced to various nursing roles in health care by examination of professional nursing practice. The concepts of nursing as an art, nursing as a science and of care and caring within a professional, legal and ethical framework are examined. Students will explore dimensions of the nurse-patient relationship. In particular they will develop skill in initiating, maintaining and concluding effective therapeutic and professional communication. Students will also be expected to maintain a reflective journal and to engage in group discussions.

Class requirements: 26-hours of lectures, 13-hours of problem-based learning (fortnightly class based tutorials and 7 hours of web based tutorials) and 16 hours of clinical placement over the semester. This unit will have an online component and may also be offered in block mode (2 consecutive 6 hour days, 3 times over the semester). There may be various to this structure on difference campuses.

Assessment: one 1800 word assignment (40%). Hurdle requirement: Completion of a clinical learning activity related to communication skill and professional development, one 2200-word written essay (60%). Students must pass both the theoretical and clinical components to pass the subject.

Recommended Reading:

Crisp, J. and Taylor, C. (Eds) *Potter and Perry's fundamentals of nursing* 2nd Edn. Sydney Elsevier Mosby 2005

NSG1FUN FUNDAMENTALS OF NURSING PRACTICE (15 CPs Sem. TE-SEM-1 AW, BU, TE-SEM-2 AW, BE, BU, MI, SH.) *AW: Ms Yolanta McLaughlin, BE: Ms Kerrie Gamble, BU: Dr Michael Bauer*

In this foundation unit students will learn how to assist clients to meet their activities of daily living. Students will study the effect of immobility on the individual's ability to self-care. Using an issues based learning approach, students are introduced to therapeutic nursing practices which are designed to promote, maintain and improve health status and provide comfort. Emphasis will be placed on fundamental nursing skills including basic life support. Related topics include alterations in comfort, hygiene, nutrition, elimination, respiration, circulation, body temperature and infection control. Students will also develop skills in individualised care as a beginning member of the nursing team with awareness of legal, ethical and professional responsibilities. Students are introduced to the interactions between micro organisms and humans including the roles of microbes in health maintenance and in infectious diseases.

Co-requisite: NSG1HAS and students must be enrolled in one of the following: HBNPRG, HBNPGW, BEBN2, RBN, HBNM, HBNPRW, HBNUP, HBNSCW, RBNS, HBNS, HZNM, HBN or BIO1LS1, HBS1AP1 or equivalent.

Class requirements: one 2-hour lecture and one 2-hour laboratory practice session (weeks 1-10), one 2-hour tutorial (weeks 1-6) plus a 80-hour clinical placement. This unit will have an online component. Block mode: two consecutive 7-hour days 4 times across the semester plus a 80-hour clinical placement. There may be variation to the structure on different campuses.

Assessment: 2-hour end of semester examination (50%). Hurdle requirement: successful completion of clinical practicum, one 2000-word written project (50%). Students must pass the theoretical and the clinical components to pass the unit.

NSG1HAS HEALTH ASSESSMENT FOR NURSES (15 CPs Sem. TE-SEM-1 AW, BE, BU, MI, SH. TE-SEM-2 AW, BE, BU, MI, SH. TE-W34-43 BH. TE-W47-06 SI.) *Ms Yolanta McLaughlin, Ms Sharon Kendall, Ms Bev Blanch, Ms Bernadette Griffiths, Dr Beverley Wood*

In this unit students will focus on the knowledge, techniques and skills needed by the nurse to perform comprehensive health assessments of individuals across the life span. Students are provided with information on normal findings of assessment and will be able to use this in identification of healthy individuals. Students are introduced to a variety of Health Assessment frameworks, including the Functional Health Assessment framework to facilitate a comprehensive health assessment. Critical thinking skills will be developed in order to assist students to synthesise collected data. Emphasis will be placed on assessment techniques and documentation of findings. The use of technology and supervised practice on campus and clinical facilities will facilitate the development of skills required for assessment of clients. Laboratory experiences, focusing on selected psychomotor and interpersonal skills, are designed to support the development of relevant health assessment skills.

Prerequisite: Students must be enrolled in HBN, HBNPRW, RBN, HBNM, HBNPRG, HSBNC, HSBNCW, BEBN2, HBNM, HBNUP, HBNCP, HBNSCW, RBNS, HBNS, HDIAN, HZNM, RDN, HDIANW or have passed HBS1LS1, BIO1LS1, HBS1API or equivalent.

Class requirements: 24-hours of lectures, 12-hours of tutorials, 12-hours of laboratory sessions and 40 hours of clinical practice. This unit will have an online component and may be offered in block mode (two consecutive 6-hour days four times over the semester).

This unit is not available for study abroad students.

Assessment: one 1500-word health assessment report (25%). Students must pass both the theoretical and clinical components to pass the subject, one 1500-word clinical reasoning exercise (25%), 40 minute practical clinical skills examination (50%).

NSG1LIL INFORMATION LITERACY FOR NURSES (15 CPs Sem. TE-SEM-1 AW, BE, BU, MI, SH.) AW: Ms Eileen Clark, BE: Dr Julie Ellis, BU: Dr TBA, MI: Ms Bev Blanch

In this unit the students will be assisted to develop the information literacy and written communication/documentation skills required of a nurse in the 21st century. Informatics and Evidence Based Practice are key aspects of that contemporary nursing practice. Students will be assisted to meet the CAUL information literacy standards, develop an understanding of the role of written communications/documentation and information technology in the practice of nursing, and a beginning appreciation of the role of evidence as it informs nursing practice. Further, the students will be provided with a foundation on information management and processing principles used to support the data, information, and knowledge needs in the provision and delivery of nursing and health care. In this unit students will become practised in the use of both electronic media and traditional written and oral communication skills in the communication of a well-developed argument.

Class requirements: 13 hours of lectures plus directed activities equivalent to 26 hours of classroom contact across the semester. This unit will have an online component.

Assessment: one 2500-word assignment (60%), one 1500-word assignment (40%).

NSG2AUA ACUTE NURSING PRACTICE A (15 CPs Sem. TE-SEM-1 AW, BE, BU, MI, SH. TE-SEM-2 AW, BE, BU, MI.) AW: Ms Nanette Lundie, BE: Ms Adele Callaghan, BU: Mrs Robin Ray

In this unit students will be offered the opportunity to gain the knowledge, techniques and skills needed by the nurse to care for the person experiencing episodic illness in a hospital. Using a problem based learning approach the focus will be on the effect of episodic illness on skin integrity (wounds), nutritional status and elimination. Further themes for exploration include pain management, fluid and electrolyte balance, and issues surrounding hospitalisation. Students will be introduced to beginning technical skills as well as the knowledge necessary for planning and implementing individualised care while considering cultural, social, psychological, ethical, and legal aspects of care.

Prerequisite: NSG1HAS, NSG1FUN. If student enrolled in HBNPRG, HBNPGW, BEB2 then must have passed NSG1HAS, NSG1FUN, NSG2MED, HBS2PAT. If student enrolled in HSBNC, HSBNCW, RBN2, BEBND2, HBNCM, HBNCN then must have passed NSG1HAS, NSG2MED, HBS2PAT.

Co-requisite: NSG2MED, HBS2PAT.

Class requirements: Bundoora/Albury-Wodonga/Mildura campus: two 2-hour lectures per week over 5 weeks, one 2-hour problem based learning group per week over 5 weeks, one 2-hour laboratory session per week over 5 weeks plus clinical practicum of 15 days over 3 or 4 weeks (105 hours). Bendigo campus: as above except with a 105-hour clinical practicum of 35 hours per week over 3 weeks. Or alternatively 2 consecutive 5-hour seminar days four times across the semester plus a 105 hour clinical practicum of 35 hours per week over 3 weeks. This unit may have an online component.

This unit is not available for study abroad students.

Assessment: one 2000-word case study (50%). Students must pass the theoretical and clinical component to pass the unit, one 2-hour examination (50%). Hurdle requirement: clinical assessment of clinical reasoning, psychomotor and communication skills and professional development in line with the ANCI competencies using the Bondy scale.

NSG2CAF CHILD AND FAMILY NURSING PRACTICE (15 CPs Sem. TE-SEM-2 AW, BE, BH, BU, HK, MI, SH, SI.) AW: Ms Nanette Lundie, BE: Ms Diana Guzys, BU: Ms Sharon Gan, MI: Ms Bev Blanch

In this unit students will be offered the opportunity to gain knowledge and skills to work in a respectful and collaborative partnership with families to identify and manage health concerns, and provide quality care for children and families in a variety of settings. Students will investigate and critically appraise issues related to socio-cultural, structural, developmental and emotional perspectives, as well as specific knowledge and skills to assess health status of families. The effects of disadvantages on the child and family, with emphasis on families of children with special needs will be explored. Using more developed interpersonal skills, students will develop evidence-based family focused initiatives to promote optimal family functioning and health.

Prerequisite: NSG1FUN, NSG1HAS, PHE1PHB or HLT1HAS, HBS1AON, HBS1HBF or BIO12LS2 or HBS1LS2.

Class requirements: 20 hours of lectures, 10 hours of tutorials, 6 hours of directed learning activities online and 3 hours of self directed learning across the semester. This unit may have an online component.

Assessment: one 2000-word scenario based clinical decision making exercise (50%). Hurdle requirement: all assessment requirements must be completed to be eligible for a pass grade in this unit. You must obtain a mark of 50% to pass this unit, one 2000-word family assessment assignment (50%).

Prescribed Reading:

NSG2EBP EVIDENCE BASED NURSING (15 CPs Sem. TE-SEM-1 AW, BE, BU, HK, SI. TE-SEM-2 AW, BE, BU, MI, SH, SI.) AW: Ms Eileen Clark, BE: Ms Fran Sheehan, BH: Dr Beverley Wood, BU: Dr Simon Black, HK: Dr Beverley Wood, MI: Ms Bev Blanch, SI: Dr Beverley Wood

In this unit students will be offered the opportunity to examine the nature and sources of evidence for nursing practice and the processes through which this evidence is generated. Information on the research process and the methods for obtaining and evaluating the application of evidence to practice will be provided. Exploration of the research process includes: conceptual basis, methodology, data collection, data analysis, and presentation and utilization of research and the development of evidence based practice.

Prerequisite: NSG1FUN.

Class requirements: Bundoora/Albury-Wodonga campus: two 1-hour lectures per week over 7 weeks, one 1-hour lecture per week over 2 weeks, one 2-hour tutorial per week over 7 weeks and 7 hours of self directed learning equivalent to 1-hour of class contact per week over 7 weeks. Bendigo campus: as above or alternatively two consecutive 5-hour seminar days four times across the semester. This unit may have an online component.

This unit is not available for study abroad students.

Assessment: one 1-hour tutorial test (25%), one 2000-word critical appraisal of published research (50%), one discussion and interaction, equivalent to 1000 words (25%)

Prescribed Reading:

Trinder, L. and Reynolds, S. *Evidence based practice: a critical appraisal* Blackwell Science Oxford 2000.

Recommended Reading:

Beanland, C., Schneider, Z., LoBiondo-Wood, G. and Haber, J. *Nursing research: methods, critical appraisal and utilisation* 1st Edn. Mosby Sydney 1999.

NSG2LEA LAW, ETHICS AND ACCOUNTABILITY FOR NURSES (15 CPs Sem. TE-SEM-1 HK, SI. TE-SEM-2 AW, BE, BH, BU, HK, MI, SH, SI. TE-SEM-3 AW, BH, HK, SI. TE-W01-08 BH. TE-W45-03 SI.) *Ms Nanette Lundie, Mr Ron Picard, Mr Les Fitzgerald, Ms Kathleen Tori, Dr Beverley Wood, Ms Susan Hunter, Dr Beverley Wood*

In this unit students will be assisted to examine the legal, ethical and accountability issues which impact on the practice of nursing. Individual responsibility of the nurse is emphasised through investigation of professional ethical and legal accountability, and forms of regulation. Current models for ethical decision-making are explored and applied in the analysis of selected ethical problems in nursing practice. The students are encouraged to examine and clarify personal and professional values and beliefs and develop a reflective approach to their practice.

Class requirements: 16 hours of lectures, 16 hours of tutorials (comprising fact-to-face and tutor-facilitated online activity), and 7 hours of self-directed learning equivalent to 1-hour of class contact. Lectures and face-to-face tutorials are conducted in the first 5-8 weeks of semester (the number of weeks depending on the campus), while online and self directed learning occurs across the semester. This may vary in offshore programs.

This unit is not available for study abroad students.

Assessment: one 1000-word scenario based ethical decision making exercise (30%) (individual assessment), one 2500-word written assignment (60%) (individual assessment), one online discussion and interaction, equivalent to 500-words (10%).

Recommended Reading:

NSG2MED MEDICATION MANAGEMENT FOR NURSES (15. CPs Sem. TE-SEM-1 AW, BE, BU, MI, SH. TE-W09-21 BU.) *Ms Nanette Lundie, Dr Sharon Kendall, Ms Gayle McKenzie, Ms Bev Blanch*

In this unit students will be offered the opportunity to develop knowledge of safe and ethical practice in medication administration. Information will be provided to students on pharmacologic, pharmacokinetic, and pharmacodynamic principles essential for clinical practice and the basic principles of pharmacol therapeutics and pharmacological interventions in nursing including the related nursing responsibilities will be introduced. Emphasis will be placed on clinical aspects including dosing regimes and compliance, paediatric and geriatric pharmacology, adverse drug reactions and interactions, post-surgical care, and polypharmacy. An overview of the clinical application of classifications of drugs on human systems will be provided.

Prerequisite: NSG1HAS, NSG1FUN, HBS1AON, HBS1HBF or HBS1LS2 or Students must be enrolled in HBNPRG, HBNPGW, BEBN2, HSBNC, HSBNCW, BEBND2, HBNCM, HBNCN.

Class requirements: 26-hours of lectures and 13-hours of facilitated small group sessions across the semester. This unit may have an online component.

This unit is not available for study abroad students.

Assessment: one 2-hour written examination (60%), one 1500-word assignment (30%), one 30-minute drug calculation examination (10%). Hurdle requirement: must achieve mastery of 80% in the drug calculation examination to pass the unit.

NSG2MHL MENTAL HEALTH NURSING PRACTICE (15 CPs Sem. TE-SEM-1 AW, BU. TE-SEM-2 AW, BE, BU, MI, SH.) *AW: Ms Eileen Petrie, BE: Ms Susan Kidd, BU: Mr Alan Robins*

In this unit students will be offered the opportunity to discuss the general principles and practices of psychiatric/mental health nursing and their impact on the individual and their family. Theoretical explanations of mental health and mental illness, the manifestation and classification of mental illness, and major treatment modalities will be explored. Therapeutic and psychosocial interventions are discussed within the context of the broad socio-cultural environment. Topics will include current debates on mental health and illness, psychiatric disorders, populations at risk, continuity of care and cross-cultural perspectives on mental health and illness. Students will also be offered the opportunity to examine the framework for mental health service delivery in Victoria.

Prerequisite: NSG2AUA, NSG2MED, HBS2PAT.

Co-requisite: NSG2AUA if student enrolled in HSBNC, HSBNCW, RBN2, BEBND2, HBNCM, HBNCN, HBNPRG, HBNPGW, BEBN2.

Class requirements: 30 hours of lecture/tutorial across the semester. Content to be delivered in flexible lecture and tutorial combination. This unit may be offered block mode across the semester in the format of seminar days. In addition a 140-hour clinical practicum of 35 hours per week over 4 weeks. This unit may have an online component.

This unit is not available for study abroad students.

Assessment: one 1750-word written assignment (40%). Hurdle requirement: clinical assessment of clinical reasoning, psychomotor and communication skills and professional development in line with the ANCI competencies using the Bondy scale, one 2-hour written examination (60%).

NSG2PMH PROMOTING MENTAL HEALTH A (15 CPs Sem. TE-SEM-1 AW, BE, BU.)

AW: Ms Eileen Petrie, BE: Ms Sue McConnachie, BU: Mr Alan Robins

In this unit students will be assisted to explore the role of the nurse in assessing individuals, family and group needs. Students are introduced to theories and models for health promotion and health education and the principles of planning, implementing and evaluating programs in a variety of health related settings. Students will develop their own health education strategies appropriate to cultural and lifespan needs. The mental health promotion needs of individuals, families and communities will be explored in diverse cultures and in various settings.

Class requirements: two 1-hour lectures per week over ten weeks, one 1-hour tutorial per week over 10 weeks, self directed learning equivalent to 1-hour of class contact per week over 10 weeks plus 70 hours of clinical practicum of 35 hours per week over 2 weeks and 2-hours of clinical supervision per week over 10 weeks. The unit may be offered in block mode: one 5-hour seminar day four times across the semester, self directed learning equivalent to 1-hour of class contact per week over 10 weeks plus a 70-hour clinical practicum of 35 hours per week over 2 weeks and 2-hours of clinical supervision per week over 10 weeks. This unit may have an online component.

This unit is not available for study abroad students.

Assessment: one 3000-word health education session (70%). Hurdle requirement: whilst the clinical assessment is ungraded, students must achieve at a designated level, one 30 minutes group presentation (10-minutes per member) (20%), interaction with and contribution to online discussion equivalent to 500-words (10%).

NSG2PRH PROMOTING HEALTH IN NURSING PRACTICE (15 CPs Sem. TE-SEM-1 AW, BE, BH, BU, HK, MI, SH, SI.) AW: Ms Eileen Petrie, BE: Ms Kerrie Gamble, BE: Ms Di Guzys, BU: Ms Sandra Lucas

In this unit students will be assisted to explore the role of the nurse in assessing individuals, family and group needs. Students are introduced to theories and models for health promotion and health education and the principles of planning, implementing and evaluating programs in a variety of health related settings. Students will develop their own health education strategies appropriate to cultural and lifespan needs.

Prerequisite: NSG1HAS, PHE1PHB.

Class requirements: 13 hours of lectures and 13 hours of tutorials per semester, plus a 35-hour clinical practicum. This unit may have an online component.

Assessment: one 40-minute group presentation of a health education session - 10 minutes per member (40%). Hurdle requirement: clinical assessment of clinical reasoning, psychomotor and communication skills and professional development in line with the ANMC competencies using the Bondy scale, one 3000-word health promotion assignment (60%). Students pass the theoretical and clinical components to pass the unit.

NSG3AUB ACUTE NURSING PRACTICE B (15 CPs Sem. TE-SEM-1 AW, BE, BH, BU, MI, SI.) AW: Ms Ann Kuypers, BE: Ms Helen Aikman, BU: Ms Elizabeth Watt, MI: Ms Bev Blanch

In this unit students will be offered the opportunity to further develop their knowledge and skills by caring for people experiencing complex health problems require nursing intervention. Previously learnt technical, interpersonal and decision-making skills are further developed while aspects of health education, and legal and ethical aspects are incorporated to provide individualised care. Using a problem based learning approach students will be offered the opportunity to study the effect of complex acute and chronic illness by focusing on patients situation that involve conditions that seriously alter absorption and utilization of food and fluids; metabolism and endocrine function, elimination of bodily waste. The students will also be offered the opportunity to study the effect that these have on other body systems.

Prerequisite: NSG2AUA, NSG2MED, HBS2PAT.

Class requirements: five 3-hour lectures, ten 1-hour problem-based learning groups and ten 1-hour laboratory sessions across the semester. A 105-hour clinical practicum of 35 hours per week over three weeks. Communication and discussion via WebCT.

This unit is not available for study abroad students.

Assessment: one 2-hour written examination (50%) Students must pass the theoretical and clinical components to pass the subject, one 2500-word case study (50%). Hurdle requirement: clinical assessment of clinical reasoning, psychomotor and communication skills and professional development in line with the ANCI competencies using the Bondy scale.

NSG3AUC ACUTE NURSING PRACTICE C (15 CPs Sem. TE-SEM-2 AW, BE, BH, BU, HK, MI, SI.) AW: Ms Ann Kuypers, BE: Ms Helen Aikman

In this unit students will be provided with the opportunity to consolidate knowledge and skills in order to effectively prioritise care

for a group of clients experiencing a range of complex co-morbidities. Using a problem-based learning approach students will be offered the opportunity to study the effect of complex acute and chronic illness by focusing on patient situations involving serious alterations in cardiac, respiratory and neurological function, and the effect that these have on other body systems. A feature of this unit is the development of the student's ability to incorporate therapies involved in the helping role of the nurse whilst managing a case load of patients.

Prerequisite: NSG3AUB.

Class requirements: five 2-hour lectures, ten 1-hour problem-based learning session and ten 1-hour laboratory sessions across the semester plus 140-hour clinical practicum of 35 hours per week over four weeks.

This unit is not available for study abroad students.

Assessment: one 2000-word case study (50%). Hurdle requirement: clinical assessment of clinical reasoning, psychomotor and communication skills and professional development in line with the ANCI competencies using the Bondy scale, one 2000-word assignment (50%). Students must pass the theoretical and clinical component to pass the subject.

Prescribed Reading:

NSG3CAC CANCER NURSING THEORY (15 CPs Sem. TE-SEM-1 AW, BE, BU, MI, SH. TE-SEM-2 AW, BE, BU, MI, SH.) AW: Ms Yolanta McLaughlin, BE: Dr Sharon Kendall, BU: Ms Rosaleen Rudd, MI: Ms Bev Blanch

In this unit students will be offered the opportunity to develop a beginning knowledge about the nature of nursing a client with cancer. Students will be provided with the opportunity to acquire knowledge pertaining to the nature of cancer and aspects of cancer prevention, treatment and rehabilitation, with particular emphasis on cancer nursing. Information on aspects of epidemiology in relation to cancer, the physiology of cancer and oncology emergencies will be provided.

Prerequisite: NSG1HAS.

Class requirements: one 2-hour lecture and one 1-hour tutorial per week for ten weeks; one 3-hour laboratory session during the semester; plus 6 hours of self directed learning activities equivalent to one hour of classroom contact per week for 6 weeks. This unit may be offered in block mode: two consecutive 6-hour seminar days three times across the semester and 6 hours of self directed learning activities equivalent to 1-hour of classroom contact per week for 6 weeks. This unit may have an online component. .

Assessment: one 1000-word scenario based assessment (25%), one 2500-word participation portfolio (50%), and one 1000-word critical reasoning exercise (25%).

Prescribed Reading:

Langhorne, M., Fulton, J. and Otto, S. *Oncology Nursing* 5th Edn. C.V. Mosby, St Louis 2004.

NSG3CAD MENTAL HEALTH NURSING PRACTICE: CHILD AND

ADOLESCENT (15 CPs Sem. TE-SEM-2 AW, BE, BU.) AW: Ms Eileen Petrie, BE: Ms Susan McConnachie, BU: Mr Alan Robins

In this unit students will develop skills relevant to the health of infants, children and adolescents within a variety of settings, including children and adolescents from diverse cultural and geographic backgrounds. Critical appraisal of issues related to child and family health from a socio-cultural, structural, developmental and emotional perspective will occur. A major focus is on children and families and the development of specific evidence based knowledge, skill and interventions necessary to assess health status, promote health and well-being and to prevent or manage illness, injury and/or disability.

Prerequisite: NSG2PMH.

Class requirements: Two 1-hour lectures per week over 10 weeks, one 2-hour tutorial per week over 8 weeks, self directed learning equivalent to 1-hour of class contact per week over four weeks plus 70-hour clinical practicum of 35 hours per week over 2 weeks and 2-

hours of clinical supervision per week over 10 weeks. Or alternatively, two consecutive 5-hour seminar days four times across the semester plus a 70-hour clinical practicum of 35 hours per week over two weeks and 2 hours of clinical supervision per week over 10 weeks. This unit may have an online component.

This unit is not available for study abroad students.

Assessment: one 2000-word family case study report (50%), one 2000-word scenario based clinical decision making exercise (50%).
Hurdle requirement: whilst the clinical assessment is ungraded students must achieve at a designated level.

Prescribed Reading:

NSG3CAN CANCER NURSING IN PRACTICE (15 CPs Sem. TE-SEM-1 AW, BE, BU. TE-SEM-2 AW, BE, BU.) AW: Ms Yolanta McLaughlin, BE: Ms Sharon Kendall, BU: Ms Kathy Swift
Not available in 2008.

NSG3CAR CARDIAC REHABILITATION NURSING IN PRACTICE (15 CPs Sem. TE-SEM-1 AW, BE, BU. TE-SEM-2 AW, BE, BU.) AW: Ms Jan Berry, BE: Mr Leigh Kinsman, BU: Ms Nikki Phillips

This subject may not be offered every year.

In this practice based subject students will be offered the opportunity to explore the role of cardiac rehabilitation in the recovery from cardiac problems and the prevention of disease progress. The aims of cardiac rehabilitation will be explored according to the best available evidence. Barriers and enablers to the cardiac rehabilitation process will be investigated. Patient education models, risk factor management, social support and the role of diet and exercise will be explored.

Prerequisite: NSG1HAS.

Class requirements: one 2-hour lecture and one 1-hour tutorial per week for 10 weeks; one 3-hour laboratory session during the semester; 6 hours of self directed learning activities equivalent to one hour of classroom contact per week for 6 weeks; plus a one week 35-hour clinical practicum. This unit may be offered in block mode: two consecutive 6-hour seminar days three times across the semester; 6 hours of self directed learning activities equivalent to one hour of classroom contact per week for 6 weeks; plus a one week 35-hour clinical practicum. This unit may have an online component.

This unit is not available for study abroad students.

Assessment: one 1000-word scenario based assessment (25%). Hurdle requirement: whilst the clinical assessment is ungraded, students must achieve at a designated level, one 1750 participation portfolio (50%). Students must successfully pass both the theoretical and practical component to pass the subject, one 1000-word clinical reasoning exercise (25%).

Recommended Reading:

NSG3CAT CHILD AND ADOLESCENT NURSING THEORY (15 CPs Sem. TE-SEM-2 AW, BE, BU, MI.) Ms Sharon Gan

This subject may not be offered every year.

In this unit students will be offered the opportunity to extend their knowledge of paediatric nursing building on the information presented in Child and Family Nursing Practice. The focus will be on the acquisition of knowledge and skills required to assist the child and the family in times of health deviation. Information will be provided on nursing interventions that assist in promoting, maintaining, and restoring health of infants, children and adolescents.

Prerequisite: NSG2CAF, NSG1HAS.

Class requirements: 20 hours of lectures, 10 hours of online tutorials, 3 hours of laboratory sessions and 6 hours of self directed learning across the semester. This unit will have an online component.

This unit is not available for study abroad students.

Assessment: one 2500-word participation portfolio (50%), one 2000-word critical reasoning exercise (50%)

Recommended Reading:

Hockenberry, M., Wilson, D., Winkelstein, M and Klien N *Wong's nursing care of infants and children* Mosby, St Louis 2003.

NSG3COG CONTROVERSIES IN GERONTIC NURSING (15 CPs Sem. TE-SEM-2 AW, BE, BU, MI.) AW: Ms Yolanta McLaughlin, BE: Dr Amanda Kenny, BU: Dr Susan Koch

This unit may not be offered every year.

In this unit students will be challenged to consider issues that raise ethical and moral challenges for nurses and society. Lifestyle choices and social stereotypes will be explored. Case study examples will be used to highlight the complexity of delivering care that involves personal lifestyle choices and contexts.

Prerequisite: NSG1HAS.

Class requirements: one 2-hour lecture and one 1-hour tutorial per week for ten weeks during the semester plus 9 hours of self directed learning activities equivalent to one hour of classroom contact per week for nine weeks. This unit may be offered in block mode: two consecutive 6-hour seminar days three times across the semester and 6 hours of self directed learning activities equivalent to one hour of classroom contact per week for six weeks. This unit may have an online component.

This unit is not available for study abroad students.

Assessment: one 20-minute case study presentation (25%), one 2500-word evidenced based practice assignment (50%), one 1000-word critical reasoning exercise (25%)

Recommended Reading:

NSG3COM COMPLEMENTARY PRACTICES IN NURSING (15 CPs Sem. TE-SEM-2 AW, BE, BU.) AW: Ms Yolanta McLaughlin, BE: Ms Amanda Kenny, BU: Dr Pauline McCabe
Not available in 2008.

NSG3CPC COMMUNITY PSYCHIATRIC NURSING IN PRACTICE (15 CPs Sem. TE-SEM-1 AW, BE, BU. TE-SEM-2 AW, BE, BU.) AW: Ms Maureen Cuskelly, BE: Ms Susan Kidd, BU: Ms TBA
Not available in 2008.

NSG3CPR COMMUNITY NURSING PRACTICE (15 CPs Sem. TE-SEM-2 AW, BE, BH, BU, HK, MI, SI.) AW: Ms Eileen Petrie, BE: Ms Kerrie Gamble, BE: Ms Di Guzys, BU: Ms Sandra Lucas

In this unit students will be offered the opportunity to analyse the role of the nurse in facilitating health with individuals and groups in the community. An issues based learning approach will be utilised, allowing students to apply theories and models for community development, social marketing and primary health care to practice situations. In analysing community practice roles, students will be asked to critique their own values relating to lifespan, culture and social issues that impact health and be accountable (both ethically and legally) for their contribution to health service provision. Students will be able to build on knowledge gained in Information Literacy for Nurses to develop a multimedia package.

Prerequisite: NSG1LIL, NSG2AUA, NSG2PRH and NSG3AUB or students must be enrolled in HZNM. If students enrolled in HBNPRG, HBNPGW, BEBN2, HSBNC, HSBNCW, BEBND2, HBNCM, HBNCN then must have passed NSG2AUA, NSG3AUB.

Class requirements: 16-hours of lectures, 14-hours of problem based learning and 7-hours of self directed learning plus a 105 hour clinical practicum of approximately 35 hours per week. This unit may have an online component.

This unit is not available for study abroad students.

Assessment: one 2000-word equivalent multimedia package based on a community assessment (50%). Hurdle requirement: clinical assessment of clinical reasoning, psychomotor and communication skills and professional development in line with the ANMC competencies using the Bondy scale, one 2000-word community development practice analysis (50%). Students must pass the theoretical and clinical components to pass the unit.

NSG3CPS COMMUNITY PSYCHIATRIC NURSING THEORY (15 CPs Sem.

TE-SEM-1 AW, BE, BU. TE-SEM-2 AW, BE, BU.) AW: Ms Maureen Cuskelly, BE: Ms Susan Kidd, BU: Ms TBA

Not available in 2008.

NSG3CRE CARDIAC REHABILITATION NURSING THEORY (15 CPs Sem.

TE-SEM-1 AW, BE, BU. TE-SEM-2 AW, BE, BU.) AW: Ms Janet Berry, BE: Mr Leigh Kinsman, BU: Ms Nicole Phillips

This subject may not be offered every year.

In this unit students will be offered the opportunity to explore the role of cardiac rehabilitation in the recovery from cardiac problems and the prevention of disease progress. The aims of cardiac rehabilitation will be explored according to the best available evidence. Barriers and enablers to the cardiac rehabilitation process will be investigated. Patient education models, risk factor management, social support and the role of diet and exercise will be explored.

Prerequisite: NSG1HAS

Class requirements: one 2-hour lecture and one 1-hour tutorial per week for ten weeks; one 3-hour laboratory session during the semester; plus 6 hours of self directed learning activities equivalent to one hour of classroom contact per week for six weeks. This unit may be offered in block mode: two consecutive 6-hour seminar days three times across the semester and 6 hours of self directed learning activities equivalent to one hour of classroom contact per week for six weeks. This unit may have an online component.

This unit is not available for study abroad students.

Assessment: one 1000-word scenario based assessment (25%), one 2500-word participation portfolio (50%), and one 1000-word critical reasoning exercise (25%)

Recommended Reading:

LeMone, P., Burke, K.M. *Medical-surgical nursing: critical thinking in client care* 2nd Edn. Prentice-Hall Inc, Sydney 2000.

NSG3DDA MENTAL HEALTH NURSING PRACTICE: DRUG AND

ALCOHOL (15 CPs Sem. TE-SEM-2 AW, BE, BU.) AW: Ms Eileen Petrie, BE: Ms Sue McConnachie, BU: Mr Alan Robins

In this unit students are provided with the opportunity to integrate theory and practice in implementing strategies to deal with drug and alcohol misuse. Exploration will take place of the theoretical explanations for drug and alcohol misuse in society, and the implications of substance misuse on individuals, families and communities. Competencies will be developed in primary prevention, early and acute intervention, rehabilitation, and harm minimisation. Examination will take place of the particular needs and challenges of working with individuals, families, and communities from diverse cultural groups and from a range of geographical and practice settings.

Prerequisite: NSG2PMH, NSG3CAD, NSG2MHL, NSG3MOP, NSG3IMS.

Class requirements: Two 1-hour lectures per week over 10 weeks, one 1-hour problem based learning group per week over 10 weeks, one 1-hour laboratory session per week over 10 weeks plus a 70 hour clinical practicum of 35 hours per week over 2 weeks and 2 hours of clinical supervision per week over 10 weeks. Or alternatively one 6-

hour seminar day five times across the semester plus a 70 hour clinical practicum of 35 hours per week over 2 weeks and 2 hours of clinical supervision per week over 10 weeks. This unit may have an online component.

This unit is not available for study abroad students.

Assessment: one 3000-word clinical case study (50%). Hurdle requirement: whilst the clinical assessment is ungraded, students must achieve at a designated level, one online assessment equivalent to 1500-words (50%).

Prescribed Reading:

Elders, R., Evans, K. and Nizzett, D. *Psychiatric and mental health nursing* Marrickville Australia Elsevier 2005.

NSG3GER GERONTIC NURSING PRACTICE (15 CPs Sem. TE-SEM-1 AW, BE,

BH, BU, HK, MI, SI.) AW: Ms Yolanta McLaughlin, BE: Ms Julie Ellis, BU: Dr Susan Koch

In this unit students will be offered the opportunity to consider the health needs of older people in diverse settings. The examination of the social, psychological, and biological aspects of ageing; demographics of ageing, health and ageing, ageing in place, acute care and the principles of long-term care and of rehabilitation will be included. The importance of the nurses' roles in promoting, maintaining, and restoring the health of older adults will be stressed. The students will be encouraged to focus on the independent role of the nurse and an interdisciplinary approach to the planning and implementation of client care and development skills in management, team work, delegation and prioritising care. As part of the clinical experience, students may be required to undertake evening and weekend work in this unit.

Prerequisite: NSG2AUA, NSG2MED, HBS2PAT.

Class requirements: 40 hours: - 20 hours of lecturers, 10 hours of tutorials, 10 hours of self-directed learning. 140 hour clinical practicum. This may include weekends and evenings work. This unit may have an online component.

This unit is not available for study abroad students.

Assessment: one 2500-word evidence-based case management review (60%). Hurdle requirement: clinical assessment of clinical reasoning, psychomotor and communication skills and professional development in line with the ANCI competencies using the Bondy scale, one 1500-word written assignment (40%). Students must pass the theoretical and clinical components to pass the subject.

Prescribed Reading:

Koch, S. and Garratt, S. *Health assessment of the older person: a practical guide for health care workers* MacLennan and Petty Sydney 2001.

NSG3IMS MENTAL HEALTH NURSING: INTERVENTION MODALITIES

(15 CPs Sem. TE-SEM-1 AW, BE, BU.) AW: Ms Eileen Petrie, BE: Ms Sue McConnachie, BU: Mr Alan Robins

In this unit students are provided with the skills and competencies needed to select, apply and evaluate selected intervention modalities - psychopharmacology, case management, group therapy, and rehabilitation - for use with individuals and families experiencing mental illness and disorder. Examination will take place of the theoretical underpinnings and clinical application of these modalities. Interventions will be based on a comprehensive assessment of needs, and will be informed by an understanding of evidence based practice. Analysis will be undertaken of the particular intervention modality needs of consumers from diverse cultures. At all times, critical reflection on practice will be emphasised, with a focus on the need to develop strategies to maintain the well-being of self and fellow workers.

Prerequisite: NSG2PMH, NSG2MHL, NSG3CAD.

Class requirements: one 1-hour lectures per week over 10 weeks, one 1-hour problem based learning group per week over 10 weeks, one 1-hour laboratory session per week over 10 weeks, plus a 70-hour clinical practicum of 35 hours per week over 2 weeks and 2-hours of clinical supervision per week over 10 weeks. Or alternatively one 6-

hour seminar day five times across the semester plus a 70-hour clinical practicum of 35 hours per week over two weeks and 2 hours of clinical supervision per week over 10 weeks. This unit may have an online component.

This unit is not available for study abroad students.

Assessment: small group presentation (20-minutes per member) (40%), one 2500-word assignment (60%).

Prescribed Reading:

Elders, R., Evans, K. and Nizzette, D. *Psychiatric and mental health nursing* Marrickville Australia Elsevier 2005.

NSG3INT MANAGING COMPLEX INTERACTIONS IN NURSING (15 CPs Sem. TE-SEM-1 HK, TE-SEM-2 AW, BE, BU, HK, MI, TE-SEM-3 HK.) *Ms Ann Kuypers, Ms Sharon Kendall, Ms Elizabeth Pascoe, Dr Beverley Wood*

In this unit, students are placed in situations that are unique to professional nursing practice, that require a complex range of knowledge, skill and awareness. Engagement in complicated, often stressful and distressing encounters requires the nurse to be equipped with a sophisticated repertoire of skills, including 'awareness' of self and others. Effective intervention on a variety of levels is seen as an essential role of the professional nurse. The students will be given a theory base for understanding human behaviour, and basic mental health concepts are introduced. Emphasis will be placed on theory-based strategies to improve interaction, and coping with individuals, families, and other health care professionals. The unit focuses on the complex events and interactions that occur in health care settings.

Prerequisite: NSG3AUB or students must be enrolled in HZNM

Co-requisite: NSG3AUC or students must be enrolled in HZNM.

Class requirements: Two hours of lectures six times over the semester and two hours of problem based learning activities seven times over the semester as well as thirteen hours of directed activities over the semester. This may vary in offshore programs.

This unit is not available for study abroad students.

Assessment: one 2000-word critical reflective portfolio (50%), one 2000-word online assessment (50%).

NSG3NSN NEUROSCIENCE NURSING IN PRACTICE (15 CPs Sem. TE-SEM-1 AW, BE, BU, TE-SEM-2 AW, BE, BU.) *AW: Ms Jan Berry, BE: Mr Jim Kevin, BU: Ms Nicole Phillips*

This subject may not be offered every year.

In this practice based subject the focus will be on the nursing management of people with both acute and chronic conditions related to disturbances in neurological function. Students will be provided with the opportunity to develop the knowledge and skills necessary to care effectively and efficiently for people experiencing neurological disorders.

Prerequisite: NSG1HAS.

Class requirements: one 2-hour lecture and one 1-hour tutorial per week for 10 weeks; one 3-hour laboratory session during the semester; 6 hours of self directed learning activities equivalent to one hour of classroom contact per week for 6 weeks; plus a one week 35-hour clinical practicum. This unit may be offered in block mode: two consecutive 6-hour seminar days three times across the semester; 6 hours of self directed learning activities equivalent to one hour of classroom contact per week for 6 weeks; plus a one week 35-hour clinical practicum. This unit may have an online component.

This unit is not available for study abroad students.

Assessment: one 1000-word scenario based assessment (25%). Hurdle requirement: whilst the clinical assessment is ungraded, students must achieve at a designated level. One 1750-word participation portfolio (50%). Students must successfully pass both the theoretical and practical component to pass the subject, one 1000-word clinical reasoning exercise (25%).

Prescribed Reading:

NSG3NTF NURSING THE FUTURE (15 CPs Sem. TE-SEM-1 AW, BE, BH, BU, HK, MI, SI, TE-SEM-2 BH, HK, SI.) *AW: Ms Ann Kuypers, BE: Ms Fran Sheean, BU: Ms Helen Forbes, BU: Ms Elizabeth Pascoe*

In this unit students will be assisted to focus on directions for professional development. The influence of research and evolving nursing knowledge on professional roles will be examined, and students will be introduced to frameworks for analysing selected

contemporary issues and trends in health care that will shape future nursing practice. Contemporary strategies for managing the delivery of nursing care will be explored and the associated role requirements in nursing analysed. In addition, each student will have the opportunity to reflect on professional development, consider future career directions and prepare a curriculum vitae. Pre-registration students will focus on transition to the registered nurse role and preparation of applications for graduate positions, while post-registration students will concentrate on career planning and exploration of expanded nursing roles.

Prerequisite: NSG2AUA, NSG2LEA, NSG2EBP.

Class requirements: One 2-hour lecture eight times over the semester and one 2-hour tutorial five times over the semester. This unit may have an online component.

This unit is not available for study abroad students.

Assessment: one 2000-word portfolio (50%), one 2000-word professional issues case study (50%).

NSG30CH OCCUPATIONAL HEALTH NURSING THEORY (15 CPs Sem. TE-SEM-2 AW, BE, BU, MI.) *Ms Robin Ray*
Not available in 2008.

NSG3PAC PALLIATIVE CARE NURSING THEORY (15 CPs Sem. TE-SEM-1 AW, BE, BU. TE-SEM-2 AW, BE, BU.) *AW: Ms Yolanta McLaughlin, BE: Ms Eileen Petrie, BE: Ms Sharon Kendall, BU: Ms Margaret O'Connor*
Not available in 2008.

NSG3PAL PALLIATIVE CARE IN NURSING PRACTICE (15 CPs Sem. TE-SEM-1 AW, BE, BU. TE-SEM-2 AW, BE, BU.) *AW: Ms Yolanta McLaughlin, BE: Ms Sharon Kendall, BU: Ms Margaret O'Connor, BU: Ms Kathy Swift*
Not available in 2008.

NSG3PEO PERI OPERATIVE NURSING THEORY (15 CPs Sem. TE-SEM-1 BE, BU. TE-SEM-2 AW, BE, BU, MI.) *AW: Ms Ann Kuypers, BU: Ms Deb Fleckner*

This subject may not be offered every year.

In this unit students are introduced to fundamental theoretical aspects of peri operative nursing, including nursing in the context of the operating room and associated environments. Content will be provided that will extend students knowledge of aspects of infection and its control in the operating suite. The students are given insight into the variety of roles of the nurse in the operating suite. The principles of surgical intervention and wound management are discussed. Information on the operating room environment, including design, and patient and staff safety will be provided. An emphasis is placed on the care of the patient in the operating suite.

Prerequisite: NSG1HAS.

Class requirements: one 2-hour lecture and one 1-hour tutorial per week for 10 weeks; one 3-hour laboratory session during the semester; plus 6 hours of self directed learning activities equivalent to one hour of classroom contact per week for 6 weeks. This unit may be offered block mode: two consecutive 6-hour seminar days three times across the semester and 6 hours of self directed learning activities equivalent to one hour of classroom contact per week for 6 weeks. This unit may have an online component.

This unit is not available for study abroad students.

Assessment: one 2000-word assignment (50%), one 2000-word portfolio (50%).

NSG3PSE PSYCHIATRIC NURSING THEORY (15 CPs Sem. TE-SEM-1 BE. TE-SEM-2 AW, BE, BU, MI.) *AW: Ms Eileen Petrie, BE: Ms Sue McConnachie, BU: Mr Alan Robins*

This unit may not be offered every year.

In this unit students will be provided with the opportunity to build on their knowledge of mental health nursing. Students will be asked to examine the phenomena of psychiatry and psychiatric nursing from various points of view that have, as their common focus, the impact of psychiatric disorders and psychiatric health interventions on the person and groups of people.

Prerequisite: NSG1HAS, NSG2MHL

Class requirements: one 2-hour lecture and one 1-hour tutorial per week for 10 weeks; one 3-hour laboratory session during the semester; plus 6 hours of self directed learning activities equivalent to one hour of classroom contact per week for 6 weeks. This unit may be offered in block mode: two consecutive 6-hour seminar days three times across the semester and 6 hours of self directed learning activities equivalent to 1-hour of classroom contact per week for 6 weeks. This unit may have an online component.

This unit is not available for study abroad students.

Assessment: one 1000-word scenario based assessment (25%), one 2500-word participation portfolio (50%), and one 1000-word critical reasoning exercise (25%)

Prescribed Reading:

NSG3WMT WOUND MANAGEMENT NURSING THEORY (15 CPs Sem. TE-SEM-1 AW, BE, BU. TE-SEM-2 AW, BE, BU.) *AW: Ms Jan Berry, BE: Mr Les Fitzgerald, BU: Mr Bill McGuinness*

This subject may not be offered every year.

An important aspect of nursing work is to care for a person's integument by preventing or minimizing tissue damage and providing effective wound management. Appropriate management of a person with a wound requires specific knowledge of wound healing processes, an awareness of factors that influence healing outcomes and the skill to select and implement relevant interventions. In this unit the student will be provided with information to facilitate knowledge and skill development in these key areas. Students will be encouraged to explore contemporary evidence and knowledge, actively participate in the discussion of the clinical management of clients requiring wound management, and contribute to case discussions.

Prerequisite: NSG1HAS.

Class requirements: one 2-hour lecture and one 1-hour tutorial per week for 10 weeks; one 3-hour laboratory session during the semester; plus 6 hours of self directed learning activities equivalent to one hour of classroom contact per week for 6 weeks. This unit may be offered in block mode: two consecutive 6-hour seminar days three times across the semester and 6 hours of self directed learning activities equivalent to 1-hour of classroom contact per week for 6 weeks. This unit may have an online component.

This unit is not available for study abroad students.

Assessment: one 2500-word case study (50%), one 1000-word critical reasoning exercise (25%), one online activity, equivalent to 500-words (12%), one online activity, equivalent to 500-words (13%)

Prescribed Reading:

Dealey, C. *The care of wounds: a guide for nurses* 2nd Edn. Blackwell Science, Oxford 1999.

NSG4CPA CLINICAL NURSING PROJECT A (15 CPs Sem. TE-SEM-1 AW, BE, BU, TE-SEM-2 AW, BE, BU.) AW: Ms Eileen Clark, BE: Dr Amanda Kenny, BU: Ms Eileen Clark

In this unit students will be assisted to plan a clinical nursing project under the guidance of a supervisor who is associated with one of the School's or Department's research groups. Generally, the clinical projects will be directed at quality improvement or clinical audit and provide the students with the skills to engage in these activities as part of their professional practice. The research-based skills needed to undertake quality improvement or clinical audit will be covered in this planning unit.

Prerequisite: NSG2EBP.

Class requirements: individual supervision and attendance at seminars equivalent to 1-3 hours per week. Must have contact no less than the equivalent of 13 hours across the semester.

This unit is not available for study abroad students.

Assessment: one 2000-word rationale (45%), one 2500-word detailed plan for clinical project (55%).

NSG4HIA HIGH ACUITY NURSING PRACTICE (15 CPs Sem. TE-SEM-1 AW, BE, BH, BU, HK, SI.) AW: Ms Jan Berry, BE: Ms Kathleen Tori, BU: Ms Helen Forbes

In this unit students will be provided with the opportunity to participate in the nursing care of clients with multiple and/or complex health care needs or multi-system failure. Students will be encouraged to focus on the nurse's role in caring for the critically ill patient, particularly the interface of technology and caring roles. The effect of critical illness on the patient, family and the nurse will be examined. Emphasis will also be placed on the nurse's role as coordinator of care.

Prerequisite: NSG21AUC.

Class requirements: two consecutive 5-hour seminar days twice across the semester and 6 hours of self directed learning equivalent to 1-hour of class contact per week over 6 weeks plus a 140-hour clinical practicum of 35 hours per week for 4 weeks. This unit may have an online component.

This unit is not available for study abroad students.

Assessment: one 2000-word assignment (40%). Students must pass both the theoretical and clinical components to pass the unit, one 3-hour examination (60%). Hurdle requirement: whilst the clinical assessment is ungraded students must achieve at a designated level.

Prescribed Reading:

Kinney, M.R. *AACN's clinical reference for critical care nursing* McGraw Hill New York 1998.

NSG4HRP HONOURS RESEARCH PROJECT (30. CPs Sem. TE-ALL-YR AW, BU, TE-SEM-1 AW, BU, TE-SEM-2 AW, BU.) AW: Ms Eileen Clark, BU: Ms Nicole Phillips
Not available in 2008.

NSG4NTH THESIS (30 CPs Sem. TE-SEM-1 AW, BE, BH, BU, HK, SI. TE-SEM-2 AW, BE, BH, BU, HK, SI.) AW: Ms Eileen Clark, BE: Ms Julie Ellis, BH: Dr Beverley Wood, BU: Dr Bill Koch, HK: Dr Beverley Wood

In this unit students will complete a total of 60 credit points in order to successfully complete the thesis component of Honours. Students are required to undertake a nursing research project associated with one of the research interests of the School or Discipline under the guidance of a supervisor. Students are required to attend regular research seminars designed to provide peer and academic support and guidance. Regular contact with the project supervisor is required.

Prerequisite: NSG2EBP, NSG3RHP NSG4RHP.

Class requirements: Individual supervision and attendance at seminars equivalent to 1-3 hours per week. Must have contact no less than the equivalent of 13 hours across the semester.

This unit is not available for study abroad students.

Assessment: One 15000-word thesis (100%). Students are expected to enrol in and successfully complete 60 credit points of this unit in order to complete the thesis.

NSG4NTP THESIS PREPARATION (15 CPs Sem. TE-SEM-1 AW, BE, BU, TE-SEM-2 AW, BE, BU.) AW: Ms Eileen Clark, BE: Ms Julie Ellis, BU: Dr Bill Koch

In this unit, students are provided with a forum to explore research methodologies while assisting them to select a topic and a framework for their research. Students are also provided with an opportunity to defend and refine their plan for the research project. Students are required to attend regular research seminars designed to provide peer and academic support and guidance. Regular contact with the project supervisor is required.

Prerequisite: NSG2EBP, NSG3RHP, NSG4RHP.

Class requirements: Individual supervision and attendance at seminars equivalent to 1-3 hours per week. Must have contact no less than the equivalent of 13 hours across the semester.

This unit is not available for study abroad students.

Assessment: One 20-minute seminar presentation on research topic (20%), one 3000-word research proposal (80%).

Prescribed Reading:

NSG4PCO NURSING PRACTICE CONSOLIDATION (15 CPs Sem. TE-SEM-2 AW, BE, BH, BU, HK, SI.) BE: Ms Kathleen Tori, BH: Dr Beverley Wood, BU: Ms Elizabeth Watt, HK: Dr Beverley Wood

In this unit students will be provided with further opportunity to synthesise and consolidate knowledge and skills acquired throughout the course in the delivery of patient centred care for a group of clients, a major focus is on the development of leadership skills. The students will be provided with the opportunity to further develop discharge planning skills as well as developing their role as a professional nurse by supporting and directing care provided by other health care team members and responding to the needs of patients, their families and their colleagues in relation to patient, family and nurse education.

Prerequisite: NSG4HIA.

Class requirements: one 1-hour seminar per week over 6 weeks, one 1-hour problem based learning session per week over the semester, 7 hours of self directed learning equivalent to 1-hour of class contact per week across 7 weeks plus a 200-hour clinical practicum of 40 hours per week for 5 weeks. This unit may have an online component.

This unit is not available for study abroad students.

Assessment: one 4000-word clinically based learning contract (100%). Students must pass both the theoretical and clinical components to pass the subject.

Hurdle requirement: whilst the clinical assessment is ungraded students must achieve at a designated level.

Recommended Reading:

Chang, E. and Daly, J. *Transitions in nursing* Maclellan and Petty Sydney 2001.

NSG4PHP PUBLIC HEALTH PRACTICE (15 CPs Sem. TE-SEM-2 BE, BU.) Ms Sandra Lucas
Not available in 2008.

NSG4RHP RESEARCH HONOURS PREPARATION (15 CPs Sem. TE-SEM-1 AW, BE, BH, BU, HK, SI.) AW: Ms Eileen Clark, BE: Ms Julie Ellis, BU: Dr Bill Koch

In this unit students will be given content and guidance to prepare them to undertake an Honours project. Students will be offered the opportunity to be introduced to the predominant research paradigms and students will attain the knowledge and skills to plan, and implement a research study using one research approach. An overview of different research processes; discussing the ethical issues in conducting research using human subjects will be presented.

Prerequisite: NSG2EBP.

Class requirements: Three 4-hour seminars across the semester. This unit has an online component equivalent to 27 hours of learning.

This unit is not available for study abroad students.

Assessment: one 2000-word assessment (50%), one 2000-word assessment (50%).

Prescribed Reading:

Minichiello, V., Sullivan, G., Greenwood, K. and Axford, R. *Research methods for nursing and health sciences* Sydney Pearson 2003.

NSG4RIN READINGS IN NURSING (15. CPs Sem. TE-SEM-2 AW, BE, BU.)

AW: Ms Eileen Clark, BE: Dr Julie Ellis, BU: Dr Bill Koch

Offered subject to sufficient enrolments. Enrolment must be approved by course coordinator.

In this unit students are provided with the opportunity to select an area within nursing they wish to investigate fully. It is envisaged that the chosen topic will be investigated thoroughly through examination of the current literature.

Class requirements: negotiated with individual supervisors; equivalent to 39 hours per semester. This unit will have an online component.

This unit is not available for study abroad students.

Assessment: one 3000-word essay (60%), one 20-minute class presentation (40%).

NSG4RMA RESEARCH METHODS A (15. CPs Sem. TE-SEM-2 BU.) Dr Ken

Sellick

Not available in 2008.

OCT1DEV HUMAN DEVELOPMENT FOR OCCUPATIONAL THERAPISTS

(10 CPs Sem. TE-SEM-2 BU.) Ms Jane Galvin

In this unit students are introduced to the occupational development of humans through infancy, childhood, adolescence, early and middle adulthood. Issues relating to physical, cognitive and affective areas of development are discussed with reference to appropriate theoretical frameworks. There will be particular emphasis on motor development in infancy and childhood. The aim is to provide students with a comprehensive knowledge base of various facets of normal development. This will provide the necessary foundation to undertake further study in intervention processes across the life span within the occupational therapy framework.

Class requirements: one 2-hour lecture per week (weeks 1-13) and one 2-hour lecture (weeks 5-9).

Assessment: one 1-hour multiple-choice/short answer exam (50%), one 1500-word written assignment (50%). Hurdle requirement: must obtain a pass in both examination and assignment

OCT1THA INTRODUCTION TO OCCUPATIONAL THERAPY 1 (30 CPs Sem.

TE-SEM-1 BU.) Ms Janet Fricke

This unit is an introduction to occupational therapy and prepares students for their first fieldwork placement. It is a combination of lectures, practical classes, tutorials and clinical fieldwork. The theory component provides an overview of the historical development of the profession, current issues in occupational therapy theory, practice and an introduction to the occupational engagement process.

The practical skills component includes therapeutic handling, mobility devices, wheelchair use, record writing and universal precautions. Students will undertake 4 days fieldwork experience once a week during semester 1. This will allow students to apply the skills they have learnt and to develop an understanding of occupational therapy practice in a variety of settings.

Class requirements: twelve 2-hour tutorials, twelve 1-hour lectures (weeks 1-13), three 2-hour practical classes (throughout semester 1), 32 hours of fieldwork (4 separate days per semester), self-directed learning activities equivalent to 8 hours classroom contact per semester.

Assessment: one 2000-word clinical fieldwork journal (10%). Journal, workbook and reading summaries are to be submitted on the last Friday of Semester One, one 3000-word class handout and one group presentation (three students per group). (20%), one 10-minute clinical

assessment/practical examination (20%). Hurdle requirement: all components must be passed. Satisfactory completion of clinical fieldwork, observation tasks and reading summaries, one 2000-word disability experience report and reflection on disability presentation (10%). Learning contract for fieldwork (10%), one 800-word Summary of reading material (15%). Hurdle requirement: attendance 80% tutorials and 90% clinical fieldwork (0%), one 1500-word case Summary (15%).

Prescribed Reading:

Canadian Association of Occupational Therapists *Enabling occupation: an occupational therapy perspective* Ottawa: CAOT Publications ACE 2002

OCT1THB OCCUPATIONAL THERAPY B: STUDIES IN HUMAN

OCCUPATION (5 CPs Sem. TE-W27-43 BU.) Ms Anne Williams

In this unit students will examine experiential learning processes that underpin people's engagement in occupations. Students will develop beginning skills in the planning, facilitation and evaluation of experiential learning designed to enable occupational engagement. The relevance of experiential learning to the processes of enabling participation in occupations used in occupational therapy practice is explored.

Class requirements: one 2-hour practicum per week.

Assessment: one 1000-word written reflective report on the facilitated activity session (70%), one 40-minute group facilitated activity session (4 members per group) (30%). Hurdle requirement (0%):

1. Individual occupational analysis
2. Group occupational analysis and plan for experiential learning session.

Prescribed Reading:

Unit Manual

OCT2ADL ACTIVITIES OF DAILY LIVING (5.0 CPs Sem. TE-W34-43 BU.) Ms

E. Martin

In this unit students are introduced to the application of basic ergonomic principles to occupational therapy interventions used when addressing the daily living needs of people with various disabilities. Topics covered include assessments, personal care, feeding and diet, dressing, home management, building modification, technical drawing, and powered wheelchairs and scooters. This unit provides students with practical assessment approaches and skills relevant to interventions in a range of occupational therapy practice settings.

Prerequisite: OCT1THA, OCT2CON.

Incompatible unit: OCT2THD.

Class requirements: two 1-hour lectures (weeks 9 and 11), three 2-hour lectures (weeks 5, 6 and 7) eight 2-hour practicum (weeks 5, 6, 8-13), one 2-hour Independent Living Centre (ILC) visit (week 8). Lectures are supported by WebCT.

Assessment: one 500-word written assignment with technical drawings (33%). This is part of a group assignment (five students per group), one 30-minute multiple choice exam (33%). Hurdle requirement: students must attend at least 80% of the practical sessions in order to pass this unit. Students must pass all components of assessment, one 5-minute group presentation (34%). This is part of a group presentation (5 students per group).

OCT2THD Unit Manual.

OCT2CON OCCUPATIONAL THERAPY CONDITIONS (5 CPs Sem. TE-SEM-1

BU.) Mrs E. Froude

In this unit students are introduced to the major medical and physical conditions treated by occupational therapists across the life span. Topics include congenital, neurological, orthopaedic and sensory disorders. Diagnostic processes, aetiology, clinical manifestations, medical interventions and implications are addressed.

Prerequisite: HBS1HBF.

Co-requisite: HBS2PAG, HBS2NEU.

Class requirements: one 2-hour lecture per week. Notes for classes available on WebCT.

Assessment: one 45-minute multiple-choice exam (50%) mid-semester, one 1-hour multiple-choice exam (50%) end-semester.

Recommended Reading:

School Of Occupational Therapy *OCT21CON Unit Manual* SOT 2007.

OCT2CPS CLINICAL PSYCHIATRY (5.0 CPs Sem. TE-SEM-1 BU.) *Ms Lisa Chaffey*

The aim of this unit is to provide students with a knowledge of clinical psychiatry and mental health and illness issues that are relevant to current occupational therapy practice. Students are introduced to the aetiology, symptomatology, classification, assessment and treatment of mental disorders in children, adolescents and adults. Topics include schizophrenia, anxiety and affective disorders; neuropsychiatric disorders (including psychiatry of old age); disorders related to personality development, substance misuse, eating, gender, crisis and trauma; issues related to suicide, child abuse and the mentally ill offender; and the public health issues of prevention, and service provision for the care of people with mental illness.

Prerequisite: PSY1PYA, PSY1PYB.

Class requirements: one 2-hour lecture per week.

Assessment: one 1-hour written examination (80%), one 30-minute multiple-choice examination (20%).

Prescribed Reading:

Bloch, S. and Singh, B. S. 2nd ed. *Foundations of clinical psychiatry* Melbourne University Press 2001.

OCT2INA OCCUPATIONAL THERAPY INTERVENTION A: PSYCHOSOCIAL PRACTICE (20 CPs Sem. TE-W34-43 BU.) *Dr L. Howie*

In this unit students are introduced to the literature on human occupation and the psychological theories that inform occupational therapy practice with individuals and groups. Learning in this unit emphasises the acquisition of skills, namely the application of principles, assessments and interventions to individuals, and the observation, group process analysis, reporting and leadership of activity groups. Students will participate in an experiential training group and individual case study sessions. The unit is taught in 2 units: Unit 1. Groups; Unit 2. Cognitive/Behavioural.

Prerequisite: OCT2THC.

Class requirements: two 1-hour lectures per week (weeks 5-13), nine 2-hour practicum (weeks 5-13) and nine 2-hour tutorials (weeks 5-13).

Assessment: Unit 1: one 20-minute verbal presentation with a 500-word outline of the verbal presentation (10%), Unit 1: one 1000-word written report (20%), Unit 2: one 20-minute verbal presentation with a 500-word outline of the verbal presentation (30%), Unit 1 and 2: one 2000-word essay (40%).

OCT2INB OCCUPATIONAL THERAPY INTERVENTION B: PHYSICAL INTERVENTION (20 CPs Sem. TE-SEM-2 BU.) *Dr G. French*

In this unit, students are given the opportunity to develop their knowledge and skills related to occupational therapy theory, practice, and intervention for people with occupational dysfunction due to musculoskeletal and general medical conditions. The approach is client-centred and intervention is based on the biomechanical model, the medical model, the model of human occupation and the Canadian occupational performance model. Students gain knowledge and skills

in the observation, assessment, and intervention of a range of problems, including reduced strength, endurance, manual dexterity and work condition, limited range of movement, pain, oedema, scars and disturbances of peripheral sensation. There is an opportunity to trial skills gained in a simulated clinical environment.

Prerequisite: HBS2PAG, OCT2CON, OCT2THC.

Co-requisite: OCT2THD.

Class requirements: A WebCT enhanced unit with two 1-hour lectures (weeks 5-13), one 1-hour tutorial (weeks 5-13) and eighteen 3-hour practicum (weeks 5-13).

Assessment: practical examination in two parts (total 30 minutes) (40%). Part a) movement evaluation/splinting evaluation.

Part b) evaluation of range of motion/manual muscle testing/sensory assessment. One 2-hour written examination (60%). Hurdle requirements: students must attend 80% of tutorials/practicum, complete all class splints, and pass all assessments in order to pass this unit.

OCT2INC O.T. INTERVENTION C: PAEDIATRICS IN OCCUPATIONAL THERAPY (10. CPs Sem. TE-W34-43 BU.) *Mrs Elspeth Froude*

In this unit students are presented with the theory and skills associated with occupational therapy intervention for children and adolescents. Students gain practical skills in observing and assessing developmental skills and abilities in infants and children. The influence of the environment on the child's performance will be explored and ways of enhancing performance and participation in childhood occupations will be addressed. Emphasis is placed on the importance of play. Current treatment approaches will be introduced. Social-emotional issues and how they relate to children will also be addressed.

Prerequisite: OCT1DEV, OCT2CON.

Class requirements: one 2-hour lecture per week (weeks 5-13) and nine 3-hour practicum (weeks 5-9, 11-14). Class notes available on WebCT.

Assessment: one 3000-word group written assessment completed in pairs (50%), one 1-hour examination (50%).

Prescribed Reading:

Case-Smith, J. *Occupational therapy for children* 5th Edn. Mosby 2005.

Kramer, P. and Hinojosa, J. *Paediatric Occupational Therapy* 2nd Edn. Lippincott Williams and Wilkins 1999.

OCT2PRB FIELDWORK (10. CPs Sem. TE-SEM-1 BU. TE-SEM-S BU. TE-W25-51 BU. TE-W29-32 BU. TE-W45-48 BU.) *Ms Lieve De Clercq*

This four week, fieldwork experience consists of observation, description, and practice of core skills for occupational therapy practice. Students are required to observe, describe, and practice skills in assessment, interviewing, report writing, counselling, group process evaluation, and the evaluation of occupational forms used in activity groups. Debriefing sessions are provided to develop competence in observation, description, and behavioural practice in order to facilitate learning of these skills.

Prerequisite: Successful completion of all first year units, OCT2THC.

Class requirements: 140 hours at a fieldwork agency over 4 weeks, including attendance at briefing and debriefing sessions.

Assessment: Satisfactory completion of OCT2PRB student task (100%), satisfactory achievement of Student Placement Evaluation Form objectives (0%). PASS/FAIL Hurdle requirements 1-3 (0%). Hurdle requirement: 1: Completion of learning contract and diary

during placement (0%). Hurdle requirement: 2: Completion of mid-way and final self-evaluation using Student Placement Evaluation Form (SPEF) during placement (0%). Hurdle requirement: 3: Submission of timesheets.

OCT2THC OCCUPATIONAL THERAPY C: THEORY, PROCESS, AND PRACTICE (25. CPs Sem. TE-SEM-1 BU.) *Ms E. Fossey, Dr P. Lentin*

The theoretical principles taught in OCT1THA and OCT1THB are linked to the principles underlying occupational therapy practice. The unit includes two parts. In Part one, students are introduced to counselling theory, models, process, skills and strategies and the concepts of the therapeutic relationship and therapeutic use of self as used within culturally appropriate occupational therapy client-centred practice to facilitate client occupational performance and life participation. In Part two, students explore recent theoretical approaches to studying human occupation and examine processes by which these concepts are applied to understand human engagement in occupations and its influences on health. Students also study clinical reasoning in occupational therapy, models of health practice, assessment principles and methods, interviewing methods and process, principles and methods of oral and written reporting and the occupational therapy intervention planning and implementation process.

Prerequisite: OCT1THA, OCT1THB, PSY1PYA, PSY1PYB.

Class requirements: Thirteen 2-hour lectures (weeks 1–13), nine 1-hour lectures (weeks 1–9), one 2-hour practicum per week, and two 1.5-hour practicum per week.

Assessment: Part 1, one 1-hour written examination. Part 2, one 2-hour written examination (90%) one exam for Part 1, one exam for Part 2, class attendance Parts 1 and 2 (0%). Hurdle requirement: two 10-minute class presentations (Part 1), two 10-minute class presentations (Part 2) (10%).

Prescribed Reading:

OCT2THD OCCUPATIONAL THERAPY D: OCCUPATIONAL LIVING (10. CPs Sem. TE-W34-43 BU.) *Ms E. Martin*

Students are introduced to the ergonomic and occupational therapy applied principles, which influence an individual's performance within different settings. Human factors, task and job design, tools and equipment design, workstation features, environmental factors and system issues will be addressed. These parameters are explored in relation to occupational therapy interventions used when addressing the activities of daily living needs of people with various disabilities. Students will gain experience through practical evaluation. They will have the opportunity to practice skills relevant to assessments and occupations relating to personal care, mobility, eating, home management, and evaluation, building modification and technical drawing.

Prerequisite: OCT1THA, OCT2CON.

Incompatible unit: OCT2ADL

Class requirements: One 2-hour lecture per week, one 2-hour Independent Living Centre (ILC) visit (week 7), and eight 2-hour practicum (weeks 5, 6, 8–13). Lectures are supported by WebCT.

Assessment: One 1000-word written assignment with technical drawings (33%). This part of a group assignment (five students per group), one 1-hour multiple-choice exam during the examination period (33%). Hurdle requirement: students must attend at least 80% of the practical sessions and must pass all components of assessment in order to pass this unit, one 5-minute group presentation (34%). This is part of a group presentation (five students per group).

OCT2THD unit manual

OCT3AGP THE AGEING POPULATION (10. CPs Sem. TE-W09-16 BU.) *Ms*

Robin Lovell

In this unit, students are provided with an understanding of the experience of ageing from a range of perspectives, including biological, psychological, and social. Topics include cultural and demographic aspects of ageing, psychosocial aspects of ageing and adaptation, functional age-related changes, health, and well-being in old age, and clinical preventative aspects of ageing. The unit applies a multi-disciplinary approach to the understanding of conceptual and professional issues in ageing. WebCT is used to distribute lecture materials.

Class requirements: One 1-hour and one 2-hour lectures per week (weeks 2–7), two 2-hour lectures (week 1), and three 1-hour tutorials (weeks 2–7).

Assessment: One 1000-word take-home examination (40%). Hurdle requirement: students must pass all components to pass the unit, one 1000-word journal article review (30%), and two 400-word short answer questions (30%).

OCT3AOT THE APPLICATION OF ORTHOTIC DEVICES IN UPPER LIMB THERAPY (10. CPs Sem. TE-SEM-2 BU.) *Dr G. French*

Not available in 2008.

OCT3CRA CRITICAL REVIEW IN OCCUPATIONAL THERAPY A (5 CPs Sem. TE-SEM-2 BU.) *Mrs C. Imms*

This unit covers research procedures in qualitative and quantitative methods and extends the evidence-based practice knowledge and skills of students. Students will be introduced to the concept of evidence-based practice in occupational therapy and guided through the process of how to ask clinically relevant questions, search for the evidence, and critically appraise published research. Learning in this unit is based on developing thorough, efficient, and practical skills to search for and appraise the highest level and quality of evidence to answer clinical questions.

Prerequisite: PHE1RMH, STA1OCT, OCT2PRB.

Incompatible unit: OCT3RSB.

Class requirements: Eleven 1-hour lectures, one 1.5-hour library practicum, and eight 1.5-hour research practicum. Self-directed learning activities equivalent to 2-hours classroom contact per week. This unit is supported by WebCT.

Assessment: Two 1500-word assignments per group (80%) three students per group, one 750-word report per group (20%) three students per group, one 750-word individual practise tasks (0%). Hurdle requirement: two 1500-word individual practise tasks (0%).

OCT3IND OCC THERAPY INTERVENTION D: NEUROLOGICAL INTERVENTION (25. CPs Sem. TE-W09-21 BU.) *Dr Carolyn Unsworth, Ms*

Ursula Winzeler

In this unit, students are prepared to assess and treat clients who have disorders of movement and sensation and acquired disorders of cognition and perception. Theoretical approaches to practice in this field are presented and reviewed. Students learn how to apply theory in practise and are trained in a variety of neurological assessments. Students are also provided with a range of strategies for intervention and are given the opportunity to practice these with clinical cases. This unit is comprised of two modules: Motor Control, and Cognitive/Perceptual Neurological Rehabilitation.

Prerequisite: OCT2INB, HBS2NEU.

Class requirements: Module 1: two 1-hour lectures per week (weeks 1–8), two 2-hour practicum per week (weeks 1–8).

Module 2: one 2-hour lecture per week (weeks 1–8), one 1.5-hour tutorial per week (weeks 1–8).

Assessment: All components of the assessment must be successfully completed to pass this unit. One 7000-word case study completed in a pair (Module 2) (50%), one 2000-word case study (Module 1) (25%), one 2-hour examination (Module 1) (25%).

OCT3INE OCC THERAPY INTERVENTION E: PSYCHOSOCIAL INTERVENTION (10. CPs Sem. TE-SEM-1 BU.) *Ms Priscilla Ennals*

In this unit, students will be introduced to case management principles and skills in mental health practice. The unit is concerned with the development of occupational therapy intervention plans for individuals experiencing psychosocial dysfunction. The 'Occupational performance process model' (Canadian Association of Occupational Therapists, 1997) is used as a framework to direct the occupational therapy intervention process. Principles of psychiatric rehabilitation and recovery are introduced to inform the development of appropriate assessment and intervention plans. Elements of client centred practice and environmental factors are emphasised. Students are normally expected to undertake OCT3PRC or OCT3PRD during the same academic year.

Prerequisite: OCT2INA, OCT2PRB, OCT2CPS.

Class requirements: One 1-hour lecture (weeks 1–5), one 2-hour lecture (weeks 1–5), three 3-hour practical classes (weeks 2–4), eight 1.5-hour tutorials (weeks 5–8) and seven 3-hour resource based learning sessions (weeks 1, 3–8).

Assessment: One 2000-word written assignment (50%), one 20-minute oral examination in a group (5 members per group) including a 750-word summary (50%).

Canadian Association of Occupational Therapists *Enabling occupation: an occupational therapy perspective* CAOT Publications ACE.

OCT3INF OCCUPATIONAL THERAPY INTERVENTION F: INTEGRATED PRACTICE (10. CPs Sem. TE-W26-44 BU.) *Mr Michael Sainsbury*

In this unit, students are given the opportunity to build upon the knowledge and skills gained in OCT2THD or OCT2ADL. It expands on occupational therapy intervention approaches relevant to personal activities of daily living and vocational and community-based human occupation. Work as human occupation is explored, including issues related to prevention, and rehabilitation. Topics addressed include occupational injuries, occupational health and safety, job design, work capacity evaluation and worksite assessments and programs. Students will also gain experience in addressing client needs related to seating, personal mobility, independent transportation options including motor vehicle driving, product design evaluation and prescription, human intimacy needs, community-based rehabilitation and augmented/assisted communication.

Prerequisite: OCT2THD or OCT2ADL.

Class requirements: Eight 2-hour lectures (weeks 1–6, 9, 10), one 3-hour lecture (week 8), two 3.5 hour practicum (weeks 1, 4 or 2, 4) four 2-hour practicum (weeks 6, 7, 11 and 12), four hours of self directed learning and a 1-hour in-class exam. Learning is augmented through WebCT.

Assessment: One 1-hour multiple-choice exam (50%), one work-site assessment and a 30-minute class presentation (30%). Four students per group, one 1000-word worksite report (20%).

OCT32INF Unit Manual

OCT3NEU NEUROLOGICAL REHABILITATION IN OCCUPATIONAL THERAPY (10. CPs Sem. TE-SEM-2 BU.) *Ms U. Winzeler*
Not available in 2008.

OCT3PRC CLINICAL PRACTICE (15 CPs Sem. TE-W19-23 BU. TE-W24-28 BU. TE-W44-48 BU.) *Ms Priscilla Ennals, Ms Robin Lovell*

In this third year, clinical education unit the focus is on the development of core occupational therapy skills in one specific practice area such as mental health, neurological rehabilitation, acute care, paediatrics, or aged care. Students are required to demonstrate skills in data gathering, intervention/programme planning, implementation, and evaluation, recording and reporting and practise these skills in an ethical and professional manner. They are expected to apply and describe the application of the clinical reasoning process and occupational therapy theory.

Prerequisite: OCT2PRB.

Co-requisite: OCT3INE OR OCT3IND.

Class requirements: 200 hours at a clinical fieldwork agency over 5 weeks, including attendance at briefing and tutorial sessions.

Assessment: Satisfactory performance rating by clinical supervisor (100%). Hurdle requirements: submission of completed time sheets and reports. Attendance at tutorial or participation in online discussion.

Submission of halfway and final reports to school tutor.

OCT3PRD CLINICAL PRACTICE (15 CPs Sem. TE-W19-23 BU. TE-W24-28 BU. TE-W44-48 BU.) *Ms Priscilla Ennals, Ms Robin Lovell*

In this third year, clinical education unit the focus is on the development of core occupational therapy skills in one specific practice area such as mental health, neurological rehabilitation, acute care, paediatrics, or aged care. Students are required to demonstrate skills in data gathering, intervention/programme planning, implementation, and evaluation, recording and reporting and practise these skills in an ethical and professional manner. They are expected to apply and describe the application of the clinical reasoning process and occupational therapy theory.

Prerequisite: OCT2PRB, OCT3INE, and OCT3IND.

Class requirements: 200 hours at a clinical fieldwork agency over 5 weeks, including attendance at briefing and tutorial sessions.

Assessment: Satisfactory performance rating by clinical supervisor (100%). Hurdle requirements: submission of completed time sheets and reports.

Attendance at tutorial or participation in online discussion.

Submission of halfway and final reports to school tutor.

OCT3RSB RESEARCH FOR OCCUPATIONAL THERAPISTS (5.0 CPs Sem. TE-W26-44 BU.) *Dr Linsey Howie*

In this unit, students will build on earlier research units to enable them to gain advanced skills in academic writing and the design and conduct of research using quantitative and qualitative methodologies in occupational therapy research. Each student designs and prepares a protocol for a research study (based on a clinical case study, substantial literature review, survey, or other study using quantitative or qualitative methodology) to be carried out in OCT4RSD. Students will receive individual supervision from staff members with expertise in the area in which the student is investigating.

Prerequisite: PHE1RMH, STA1OCT, OCT2PRB.

Incompatible unit: OCT3CRA.

Class requirements: Eleven 1.5-hour practicum sessions (weeks 2-9 and 11-13); Individual-directed research; contact with staff supervising research studies.

Assessment: One 1500-word research proposal (100%).

OCT3THE OCCUPATION, PERSONAL, AND COMMUNITY

DEVELOPMENT (15 CPs Sem. TE-W26-44 BU.) *Ms Ellie Fossey, Dr Primrose Lentin*

In this unit, students will explore the relationships between participation in occupations, health, and well-being and develop awareness of related social policy issues. The unit will enable the student to develop skills in analysing occupational needs and facilitating health outcomes through occupational engagement for diverse populations within client-centred and community contexts.

Prerequisite: OCT1THB, OCT2THC, OCT1THA, OCT2PRB.

Class requirements: One 2-hour lecture, one 3-hour practicum per week and self-directed project.

Assessment: One 2000-word essay (50%), one 20-minute group presentation and one 1500-word group poster along with written handout (50%).

OCT4AGW ADVANCED GROUP WORK (10. CPs Sem. TE-SEM-1 BU.) *Dr Linsey Howie*

This unit introduces students to the core concepts of Gestalt Therapy Theory, and supports the development of skills in relating these concepts to understanding group processes and delivering effective group interventions. The core principles of phenomenology, awareness, field theory, contact, and the dialogic approach, as they are relevant to a Gestalt orientation to group therapy, will be explored. This unit will give students the opportunity to experience and observe a Gestalt approach to group work and to reflect on their own process and the processes of the group. It aims to develop student awareness of their interpersonal styles of relating, and relationships with the group, as a basis for acquiring sound group leadership skills.

Prerequisite: OCT2INA.

Class requirements: One 2-hour introduction session, eight 3-hour experiential training group (weeks 2–10).

Assessment: One 2000-word written assignment (100%), one oral group report equivalent to 500-words (0%).

Recommended Reading:

Huckaby MA. *An overview of the theory and practice of Gestalt group process* In E. C. Nevis (Ed.) *Gestalt Therapy: Perspectives and applications* – New York: Gardner Press.

OCT4AMH ADVANCED ISSUES IN MENTAL HEALTH (10 CPs Sem. TE-SEM-1 BU.) *Ms Priscilla Ennals*

This unit is concerned with developing an understanding of current mental health practice and the issues for occupational therapists working in this area. The unit aims for students to develop the knowledge, skills, and problem-solving ability that will equip them for practice in a range of mental health settings. It also aims to promote occupational therapy practice, which is evidence-based, client-centred, and reflective. Consequently, this subject includes both the day-to-day issues of working in mental health as well as some of the more abstract and reflective issues associated with mental health practice.

Prerequisite: OCT3INE.

Class requirements: One 2-hour lecture/seminar per week.

Assessment: One 10 minute oral presentation and a 500-word handout on the content of the presentation (30%) taking the form of a contribution to a debate, one 1500-word essay (70%). Hurdle requirement: students are required to pass each part of the assessment to satisfactorily complete this subject.

Recommended Reading:

Bloch S., Singh BS. (Eds) *Foundations in clinical psychiatry* Melbourne University Press 1994.

OCT4AOT THE APPLICATION OF ORTHOTIC DEVICES IN UPPER LIMB THERAPY (10. CPs Sem. TE-SEM-1 BU. TE-SEM-S BU.) *Dr G. French*

In this unit, a problem solving/clinical reasoning approach is used to investigate clinical problems that respond to the application of orthotic devices and will enable students to develop an integrated program that supports other intervention strategies. Students have the opportunity to develop skills in the fabrication of thermoplastic and soft materials splints appropriate to occupational problems of clients associated with a range of conditions. Students are also exposed to the assessment and training of clients with upper limb prostheses. Theoretical, practical and clinical components are included, the latter providing observations of relevant client interventions in local fieldwork settings. This unit utilises WebCT.

Prerequisite: HBS1ALU, HBS2PAG, OCT2INB, or equivalent.

Incompatible unit: OCT3AOT.

Class requirements: A WebCT enhanced unit with one 6-hour practicum per week (weeks 1–4) and one 2-hour clinical visit in either week 1, 2, 3 or 4.

Assessment: Satisfactory completion of class splints and evaluation forms based on established criteria (30%), one 2000-word manuscript (70%).

OCT4CAM ADOLESCENT MENTAL HEALTH IN OCCUPATIONAL THERAPY (10. CPs Sem. TE-SEM-1 BU.) *Ms Siann Bowman*

In this unit, students will be presented information on specific areas of adolescent mental health and the relation of these areas to occupational therapy practice. They will be provided with relevant literature on each topic and encouraged to seek further literature when required to answer questions each week on the specific topic presented. They will be requested to select a topic of interest and supported to examine the findings of current research studies, background literature and receive lectures from practitioners of adolescent services currently providing intervention within Melbourne. Students will integrate their findings to describe best practice in occupational therapy intervention and present the outcomes of their study in essay form.

Prerequisite: OCT3INE.

Class requirements: One 2-hour seminar per week.

Assessment: Five 400-word written assignments (65%), one 1000-word written assignment (35%).

Recommended Reading:

Lougher L. *Occupational therapy for child and adolescent mental health* Churchill Livingstone 2001.

OCT4CGA COUNSELLING FROM A GESTALT APPROACH (10 CPs Sem. TE-SEM-1 BU.) *Dr Linsey Howie* *Not available in 2008.*

OCT4CHI OCCUPATIONAL THERAPY PRACTICE WITH CHILDREN (10. CPs Sem. TE-SEM-1 BU.) *Mrs Elspeth Froude*

This elective provides the opportunity for students to assess a child with developmental difficulties and provide therapy in the form of a group or individual program. Particular emphasis will be placed on developing fine motor skills. Workshops will be provided on assessment, setting goals and objectives, treatment planning and working with children.

Prerequisite: OCT2INC.

Class requirements: One 2-hour practicum per week. Class notes available on WebCT.

Assessment: One 1500-word report (50%) includes background information, assessment and progress. Conduct a treatment session and complete a 1200-word treatment plan (40%). Assessed by established criteria as outlined in the subject manual. A plan of 1200 words must be submitted to the subject coordinator prior to the session, one 300-word written evaluated self-reflection (10%). Hurdle requirement: 100% attendance.

Recommended Reading:

Dunn, W. *Paediatric occupational therapy* Thorofare: Slack 1991.

OCT4CRB CRITICAL REVIEW IN OCCUPATIONAL THERAPY B (40 CPs Sem. TE-ALL-YR BU.) *Ms Christine Imms*

In this unit, students will work in small groups to search and critically evaluate the literature to determine the evidence to answer a clinical question. A clinical question will be identified within the student's allocated research stream in relation to a selected field of occupational therapy. Students will prepare a critical review of the literature in the format of reviews of papers and summaries of evidence. Clinical expertise will be integrated with the research evidence after students have undertaken a presentation/interview with an identified clinician. Students will present their work at the final year research seminar.

Prerequisite: OCT3CRA.

Class requirements: Semester 1: eight 1-hour lectures, one 1.5-hour library practicum, five 1.5-hour research practicum, twelve 1-hour tutorials per week, plus self-directed learning activities equivalent to 2 hours classroom contact per week. Semester 2: Three 1-hour lectures, four 1-hour tutorials, self-directed learning activities equivalent to 2 hours classroom contact per week plus attendance at a two-day seminar (week 14). This unit is supported by WebCT.

Assessment: Five 2500-word group reports (3 students per group) (30%), one 30-minute group presentation (3 students per group) (15%). Hurdle requirement: students must attend presentation seminar and participate as a group discussant for one group within your stream at seminar and must achieve more than 50% on the presentation. Three 1500-word individual essays (25%). Hurdle requirement: Students must submit drafts of the critically appraised papers and must each achieve more than 50% on final essay. One 4000-word essay per group (3 students per group) (30%). Hurdle requirement: students must submit a draft of this paper and must achieve more than 50% grade on this paper.

One 1000-word logbook per group (3 students per group) (0%). Hurdle requirement: Must make satisfactory progress one 45-minute group presentation (3 students per group) (0%). Hurdle requirement: Must make satisfactory progress. One 500-word abstract per group (3 students per group) (0%). Hurdle requirement: must make satisfactory progress. One 1500-word group report (3 students per group) (0%). Hurdle requirement: Must make satisfactory progress.

OCT4NEU NEUROLOGICAL REHABILITATION IN OCCUPATIONAL THERAPY (10. CPs Sem. TE-SEM-1 BU.) *Ms Ursula Winzeler*

In this unit students will investigate commonly occurring adult neurological conditions and extend their knowledge of occupational therapy interventions in this area. Students will be given the opportunity to appraise literature on an adult neurological condition of their choice. Students will gain experience in a range of evidence-based practice aimed at enhancing occupational performance. This unit utilises WebCT.

Prerequisite: OCT3IND.

Incompatible unit: OCT3NEU.

Class requirements: one 3-hour seminar (weeks 2-9), two 3-hour seminars (week 1) and web-based tasks.

Assessment: one 2500-word manuscript (80%), one 10-minute individual oral presentation (20%). Hurdle requirement: 80% attendance (0%).

Recommended Reading:

Shumway-Cook, A. and Woollacott, M.H. *Motor control - translating research into clinical practice* 3rd Edn. Philadelphia: Williams and Wilkins 2007.

OCT4NSI NEUROSCIENCE INTERVENTION (10. CPs Sem. TE-SEM-1 BU.)

Dr Carolyn Unsworth

Not available in 2008.

OCT4OCC OCCUPATIONAL HEALTH (10. CPs Sem. TE-SEM-1 BU.) *Ms*

Marilyn Di Stefano

In this unit, students are given the opportunity to explore the role of the occupational therapist working within occupational health and safety. Topics include models and theories of occupational health and disease, understanding work and workers in Australia, hazards in the workplace, assessment tools of occupational health practice, assessing the workplace and the role of the therapist in occupational health practice, e.g., ergonomics and work site assessment, vocational rehabilitation and health promotion.

Prerequisite: OCT3INF.

Class requirements: one 3-hour seminar per week (weeks 1-9). Some off-site visits may be included.

Assessment: one 20-minute seminar presentation in pairs (50%), one 2000-word written assignment completed in pairs (50%).

OCT4OSC OCCUPATIONAL SCIENCE (10. CPs Sem. TE-SEM-1 BU.) *Ms Ellie*

Fossey

Not available in 2008.

OCT4PRE FIELDWORK (40. CPs Sem. TE-SEM-1 BU. TE-TERM-1 BU. TE-W33-42 BU.) *Ms Lieve De Clercq*

In this unit students will undergo a ten week fieldwork experience providing them the opportunity for consolidation and enhancement of skills at beginning practitioner level. Using a learning contract, students will negotiate their learning objectives with the supervisor at their placement.

Prerequisite: Successful completion of HLT3IPA and OCT4THG.

Class requirements: two 1-hour lectures prior to fieldwork placement. 10 weeks full-time attendance at a fieldwork agency, including two fieldwork tutorials sessions conducted by University staff and web discussion forum facilitated by University staff.

Assessment: Satisfactory achievement of Student Placement Evaluation Form objectives (100%). PASS/FAIL Hurdle requirements 1-3 (0%). Hurdle requirement: 1: completion of learning contract and diary during placement.(0%). Hurdle requirement 2: completion of mid-way and final self-evaluation using Student Placement Evaluation Form (SPEF) during placement.(0%). Hurdle requirement 3: submission of timesheets.

Prescribed Reading:

OCT4RCD THERAPEUTIC RELATIONSHIPS IN CHRONIC DISEASES (10

CPs Sem. TE-SEM-1 BU.) *Ms Elizabeth Martin*

Not available in 2008.

OCT4RCF RELATING TO CHILDREN AND FAMILIES (10 CPs Sem. TE-SEM-1 BU.) *Ms Jane Galvin*

In this unit, students are provided with the opportunity to explore the principles and practice of developing therapeutic relationships with children and families. The elective is structured to provide seminars where students will critique literature related to the themes of the elective, to view video vignettes and share relevant personal interactions they have had with children. There is also a self-directed learning package, which involves developing a new relationship with a child in order to develop skills and analyse the process. Elective themes explore therapeutic relationships in relation to: play, temperament and behaviour, sexuality, family focused care, paediatric therapeutic environments and special circumstances, (e.g., death and dying).

Prerequisite: OCT2INC.

Quota: 20. Offered as an elective with a number of other electives. Students nominate priorities for electives allocation.

Class requirements: one 2-hour seminar per week (weeks 1, 2, 3, 5, 6, 8, 9 and 11), plus self directed learning activities equivalent to 8 hours of classroom contact spread over the semester.

Assessment: one 2000-word essay (70%), one 750-word summary of the self-directed project (30%) (0%). **Hurdle requirement:** attendance of all seminars (0%). **Hurdle requirement:** students must pass both components

OCT4RCT ASSISTING PEOPLE EXPERIENCING EMOTIONAL CRISIS AND TRAUMA (10 CPs Sem. TE-SEM-1 BU.) *Dr Primrose Lentin*

In this unit, occupational therapists gain an understanding of the issues and therapeutic approaches related to working with people who are experiencing emotional crisis and trauma. Crisis, traumatic stress and occupational therapy theories will be considered in conjunction with narratives of the lived experience of survivors. Topics studied in the unit are: defining traumatic life events, traumatic stress, emotional crisis and emotional trauma; traumatic life experiences such as child abuse, adults abused as children, domestic violence, criminal violence, war, disaster, social and cultural dislocation and persecution and trauma related illnesses and injuries; strategies to assist survivors; and issues of vicarious traumatisation.

Prerequisite: OCT3INE.

Quota: 20. Offered as an elective with a number of other electives. Students nominate priorities for elective allocation.

Class requirements: 34 hours seminars prior to semester and 72 hours of seminars weeks 7-13.

Assessment: one 2000-word essay (70%), group presentation, 15-minutes per group member (3 members per group) (30%). **Hurdle requirement:** 80% attendance at seminar sessions.

Recommended Reading:

Readings will be advised at commencement of the unit.

OCT4RLG LOSS AND FACILITATING GRIEVING (10 CPs Sem. TE-SEM-1 BU.) *Dr Primrose Lentin*

The experience of loss is common and is particularly associated with the issues of health, illness and disability experienced by clients. However, understanding the emotional response of grief and facilitating the grieving is often overlooked in occupational therapy courses. This unit offers students an opportunity to reflect on personal and clinical experiences in relation to occupational therapy theory and practice and to further develop their understanding and skills for working therapeutically with clients experiencing emotional loss within an occupational therapy frame of reference.

Quota: 20. Offered as an elective with a number of other electives. Students nominate priorities for electives allocation.

Class requirements: one 2-hour seminar per week.

Assessment: one 2000-word essay (75%), group presentation, 15-minutes per group member (3 members per group) (25%). **Hurdle requirement:** 80% attendance at seminar sessions.

OCT4RPD LIVING WITH PAIN AND DISABILITY (10 CPs Sem. TE-SEM-1 BU.) *Dr Scott Presnell*

In this unit, occupational therapy students are provided with a beginning understanding of therapeutic approaches related to working with people and living with people with pain and disability. The unit will explore and define the ways occupational therapists can best use counselling when working with those in pain and those dealing with disability; the counselling approaches that are most suitable; and the issues that arise related to psychological (beliefs), cultural and religious factors. Principles to guide practice will be developed in class.

Class requirements: Two-day workshop (equivalent to 14 hours) prior to semester and three 2-hour seminars in weeks 11-13.

Assessment: one 2000-word essay (70%), group presentation, 10 minutes per group member (3 members per group) (30%).

OCT4RSD OCCUPATIONAL THERAPY RESEARCH PROJECT HONOURS (40. CPs Sem. TE-ALL-YR BU.) *Dr Linsey Howie*

In this unit, students are required to complete a research study based on the research protocol developed in OCT3RSB and prepare a thesis. The research study should have the potential to contribute to knowledge in the discipline. Students receive individual supervision from staff members with expertise in the area the student is investigating. Student involvement includes conducting a research study (based on a clinical case study, survey, other study using a quantitative or qualitative methodologies, or a theory paper),

participation in a final year student seminar and non-compulsory attendance at School of Occupational Therapy research seminars.

Prerequisite: OCT3RSB.

Incompatible unit: OCT4CRB.

Class requirements: Semester 1: thirteen 1.5-hour seminars (weeks 1-13), Semester 2: two 3-hour presentations (week 2), 219 hours of self-directed research, including supervisor contact, presentation of research at seminar and attendance at 4th year seminar.

Assessment: one 12,000-word thesis (100%). **Hurdle requirement:** presentation of research in a student research seminar.

Prescribed Reading:

Minichielli, V. Sullivan, G. Greenwood, F. Axford, R. *Research Methods for Nursing and Health Science* 2nd Edn. Prentice Hall, Sydney 2004

Recommended Reading:

American Psychological Association *Publication manual of the American Psychological Association* 5th Edn. American Psychological Association 2001.

OCT4SCR SEXUAL COUNSELLING (10 CPs Sem. TE-SEM-1 BU.) *Ms Leanne Kewish, Dr Primrose Lentin*

In this unit, occupational therapy students are provided with a beginning understanding of therapeutic approaches related to working with people with issues of sexuality. The unit will focus on issues that have been raised by clients and therapists regarding sexual counselling, particularly as they apply to people with psychosocial and physical impairments. Students will work with problems they have encountered in clinics and with case studies in order to develop their therapeutic reasoning around sexuality issues.

Quota: 20. Offered as an elective with a number of other electives. Students nominate priorities for elective allocation.

Class requirements: one 2-hour seminar per week.

Assessment: one 2000-word essay (75%), group presentation, 10 minutes per group member (3 members per group) (25%). **Hurdle requirement:** 80% attendance at seminars.

OCT4SEN SENSORY REHABILITATION: ASSESSMENT AND TRAINING (10. CPs Sem. TE-SEM-1 BU.) *Dr L. Carey*

In this unit students will have the opportunity to develop advanced knowledge and skills in the assessment and training of somato sensations following peripheral and central nervous system lesions. Current clinical assessments will be critically reviewed and new quantitative measures presented. Principles of training, based on perceptual and motor learning literature, will be discussed critically. New evidence-based sensory training programs will be demonstrated. Students will acquire 'hands on' experience of the new assessment and training techniques and the focus will be on the practical application of these. Recent evidence of neural plasticity will be reviewed and the resulting implications for clinical practice will be discussed.

Prerequisite: OCT3IND or equivalent.

Class requirements: Nine 2-hour lecture/seminar sessions, four 2-hour practical sessions.

Assessment: One 3000-word written assignment (100%).

OCT4THG OCCUPATIONAL THERAPY G: ADULT LEARNING IN PRACTICE (5.0 CPs Sem. TE-SEM-1 BU.) *Ms Lieve De Clercq*

This pre-professional unit introduces students to concepts related to the role as adult learner, in the transition from student to practitioner, including self-directed learning, giving and receiving feedback, reflective practice, self-evaluation, learning styles, and identifying and setting personal learning goals through the use of a learning contract.

It will also prepare students for their professional practice subject OCT4PRE by addressing personal and professional issues associated with a 10-week placement.

Prerequisite: OCT3PRC, OCT3PRD.

Co-requisite: HLT3IPA.

Class requirements: six 1-hour lectures (weeks 2-7) and 6 two-hour practicum (weeks 2-7).

Assessment: Hurdle Requirement: (0%):

1. Submission of a diary to identify external and internal learning needs.
2. Attendance of sessions, learning Contract (equivalent to 1500 words) (100%). Graded as satisfactory/unsatisfactory.

OCT4ULI UPPER LIMB INTERVENTION (10. CPs Sem. TE-SEM-1 BU.) Ms

Angela Chu

Not available in 2008.

ORT1ANT ANTERIOR SEGMENT (15 CPs Sem. TE-SEM-2 BU.) Dr Linda

Malesic

In this unit, students are provided with an understanding of the anatomy and physiology of the anterior chamber, aqueous production and the maintenance of intra-ocular pressure. The implications of the physiological and structural changes in intra-ocular pressure and the lens will be considered. Both the theoretical knowledge and methods of instrumentation required for clinical investigation will be covered, with the methods of anterior segment examination, ocular biometry, binocular microscopy and intraocular pressure measurements being some of the areas included.

Prerequisite: ORT1OAP.

Co-requisite: HBS1HBF.

Class requirements: two 1.5-hour lectures, and one 1-hour practical class per week, including web-based learning. Teaching is supported by online materials using WebCT.

Assessment: one 2.5-hour written examination (80%). Hurdle requirement: both the written and practical examinations must be passed in order to gain a pass in the unit, two 10-minute practical examinations (20%).

Recommended Reading:

ORT1OAP PROTECTIVE STRUCTURES AND CLEAR MEDIA (15 CPs Sem. TE-SEM-1 BU.) Dr Linda Malesic

In this unit, students are provided with a general knowledge of the anatomy, physiology and embryological development of the orbit, the globe and adnexa in relation to the associated structures of the head and neck. A preliminary study of the anatomy and physiology of the protective layers and clear media of the eye is provided.

Co-requisite: HBS1APH.

Class requirements: two 1-hour lectures, one 1-hour tutorial class per week. Teaching is supported by online materials using WebCT.

Assessment: one 1-hour class based unit test in semester (20%), one 3-hour written examination (80%).

ORT1OPV OPTICS AND VISION (15 CPs Sem. TE-SEM-1 BU.) Dr Suzanne

Vassallo

Must be enrolled in the Bachelor of Orthoptics and Ophthalmic Sciences course.

In this unit, students will gain an understanding of the basis of visual acuity and optical principles in relation to the refractive system of the eye. This unit integrates knowledge of the physics of light and the

principles of physical optics with the ocular system, its refractive errors and physiological defects. The basis of visual acuity and accommodation are also included. The theoretical content and the clinical investigatory skills of visual acuity testing and lens measurement are integrated throughout this unit, provided by a combination of lectures, tutorials, self-directed learning packages and instrumentation sessions.

Class requirements: two 2-hour lectures and one 2-hour practical class per week (or equivalent). Teaching is supported by online materials using WebCT.

Assessment: one 10-minute practical examination (10%), one 2-hour written examination (75%), one 1-hour in class written test (10%), one 500-word report (5%). Linked to library orientation session.

Hurdle requirements: To pass unit, student must attend a library orientation and all practical sessions throughout the unit

Vassallo, S. *ORT1OPV* Current Edn. student manual.

ORT1REF REFRACTION (15 CPs Sem. TE-SEM-2 BU.) Mr Zoran

Georgievski

In this unit, students expand on the principles studied in ORT11OPV, providing them with an understanding of the principles of refraction, the clinical assessment, measurement and correction of refractive errors. The unit includes an introduction to dispensing and the principles of the manufacture and fitting of spectacles. Students will gain experience in the methods of both objective and subjective refraction through instrumentation sessions, with further clinical experience at clinical placements throughout the course.

Prerequisite: ORT1OPV.

Class requirements: two 1.5-hour lectures and one 1-hour practical class per week. In addition, students are encouraged to participate in active WebCT discussion. Teaching is supported by online materials using WebCT.

Assessment: one 2.5-hour (end of semester) written examination (80%). Hurdle requirement: both the practical examinations overall and written examination must be passed in order to gain a pass in this unit, four 5-minute practical examinations (during semester) (20%).

Recommended Reading:

Students will be expected to gain information from any relevant texts or journals.

ORT1RET RETINA (15 CPs Sem. TE-SEM-2 BU.) Mrs Meri Vukicevic

In this unit, students gain an understanding of the anatomy and physiology of the posterior segment and retina. This unit includes the normal anatomy and physiology of the uveal tract, retina and visual pathway. The process of vision is explained through understanding the specialized anatomy and physiology of the retinal neurones and the anatomy of the intra-ocular visual pathways.

Prerequisite: ORT1OAP, HBS1APH.

Co-requisite: ORT1ANT, HBS1HBF.

Class requirements: three two-hour classes per week, a combination of lectures and practical sessions. Teaching is supported by online materials using WebCT.

Assessment: two 30-minute tests throughout the semester (10%) 5% each test, one 2-hour written examination (80%), one 10-minute practical examination (10%). Hurdle requirement: both the 2-hour written exam and the 10-minute practical exam need to be passed in order to gain a pass in this unit.

ORT2BIN BINOCULAR VISION (15. CPs Sem. TE-SEM-1 BU.) *Dr Connie Koklanis*

In this unit, students will gain an understanding of the physiological concepts of ocular movement and binocular single vision. The student will also gain experience in the use of orthoptic instruments in the assessment of the normal ranges of ocular motility and binocular vision as a preliminary to the assessment, diagnosis and management of patients with orthoptic problems.

The unit includes the general characteristics and the investigation of concomitant strabismus and the sensory adaptations that occur. The principles of management of these disorders will be introduced. The format of problem based learning and instrumentation sessions will allow integration of the theoretical concepts and the clinical investigatory skills.

Prerequisite: ORT1REF, ORT1RET.

Class requirements: two 1.5-hour lectures and one 2-hour practical class per week. Teaching is supported by online materials using WebCT.

Assessment: two 45-minute tests during the semester (2x10=20%), one 2.5-hour written examination at the end of semester (65%).
Hurdle requirement: the practical exams overall and the 2.5 hour end of semester exam must be passed in order to gain a pass in this unit, four 5-minute practical examinations (15%).

Prescribed Reading:

ORT2BIN Learning goal packages as directed

ORT2BMI BIOMEDICAL INSTRUMENTATION (5 CPs Sem. TE-SEM-1 BU.)

Dr Suzane Vassallo

In this unit, students cover a wide range of issues relevant to the safe and accurate use of modern biomedical electronic equipment for diagnostic and therapeutic applications. Emphasis is on the practical issues related to biomedical instrumentation. Examples of specific instrument types discussed include ultrasound apparatus, electrocautery equipment, evoked potential systems, and electro-oculography. Failure to appreciate the implications of the processing carried out by these devices can lead to misinterpretation of the findings obtained. Topics covered include computerised acquisition of data and signal processing. Relevant demonstrations will be presented. This unit is also available as an elective for any other students.

Class requirements: one 2-hour lecture per week. Teaching is supported by online materials using WebCT.

Assessment: Assignment work (500-words) (50%), one 1-hour class test (50%).

Recommended Reading:

ORT2CLI CLINICAL PRACTICE A (10. CPs Sem. TE-SEM-1 BU.) *Dr Linda Malesic*

In this unit, students are provided with clinical experience to allow the theoretical knowledge and the investigative and management procedures learnt in the previous subjects to be applied in the clinical setting. This unit will provide supervised clinical experience in the investigation and management of ophthalmic disorders and an introduction to strabismus and binocular vision.

Prerequisite: ORT1REF, ORT1ANT, ORT1RET.

Co-requisite: ORT2BIN, ORT2RET.

Class requirements: two 3-hour clinical sessions and one 1-hour seminar per week. In addition, students are required to participate in 1-hour of active WebCT discussion per week. Teaching is supported by online materials using WebCT.

Assessment: one group role-play presentation (20%), one 1000-word case report (30%), five 200-word clinical report assessments (40%), and WebCT discussion participation as specified on unit homepage. (10%). Hurdle requirement: attendance at 100% of clinical placements and seminars and submission of the clinical handbook.

ORT2CON CONCOMITANT STRABISMUS (15 CPs Sem. TE-SEM-2 BU.) *Mr*

Zoran Georgievski

In this unit, students are provided with an understanding of the aetiology, investigation, characteristics, diagnosis and management of concomitant strabismus and its sensory adaptations. The clinical methods of investigation of concomitant strabismus include measurement of the deviation, and assessment of binocular visual and ocular motor functions. Management techniques include optical, orthoptic, surgical and pharmacological methods. The format of problem-based learning and instrumentation sessions allows the application of theoretical principles to particular case problems and the achievement of clinical skills.

Prerequisite: ORT2BIN, ORT2CLI.

Class requirements: two 1.5-hour lectures and one 2-hour practical class per week. In addition, students are encouraged to participate in active WebCT discussion. Teaching is supported by online materials using WebCT.

Assessment: Two practical / verbal examinations (each 10 minutes) in weeks 12-13 (15%), one 2.5-hour written examination (70%). Hurdle requirement: both the written and practical examinations must be passed in order to gain a pass in this unit. One 30-minute (mid-semester) written examination (15%).

ORT2NEU NEURO-OPHTHALMIC DISORDERS A (15. CPs Sem. TE-SEM-2

BU.) *Dr Connie Koklanis*

In this unit, students are introduced to the sensory neuronal processes of visual function from the retina through the visual pathway to the extra-striate cortex. The basis of visual perception is also introduced. The student will gain knowledge of the aetiology and effects of disorders of the visual pathway and will be able to perform the orthoptic investigation procedures for diagnosis of these problems, including perimetry, pupil function and colour vision testing. The student will be introduced to the more common neuro-pathological processes and to general neurological imaging investigations.

Prerequisite: ORT1RET, HBS1HBF, HBS2NEU.

Class requirements: two 2-hour lectures or two 2-hour practical classes per week. Teaching is supported by online materials using WebCT.

Assessment: one 45-minute in-class written test (10%), one 2.5-hour written examination (80%), one 10-minute practical exam (10%).
Hurdle requirement: practical exam and the 2.5-hour end of semester exam must be passed in order to gain a pass in this unit.

ORT2OPH OPHTHALMIC PRACTICE (15. CPs Sem. TE-SEM-2 BU.) *Dr*

Suzane Vassallo

In this unit, students are provided with an understanding of anterior segment pathology and the role of the orthoptist in the investigation and management (including surgical) of these disorders. Students will also gain an understanding of the microbial infections which may affect humans - as well as their subsequent management - via the microbiology component of this unit. This unit will provide the student with further knowledge of the effects of systemic disease on refractive errors and ocular dysfunction as well as the pathological causes of refractive error, surgical assisting techniques, ultrasonography procedures and interpretation of ultrasound results will also be discussed. In sum, the student will be expected to develop their skills of ophthalmic case management via in-class practical sessions and discussion of case reports.

Prerequisite: ORT1ANT, ORT1REF, ORT2BMI, ORT2RET.

Co-requisite: HBS2PAG.

Class requirements: one 3-hour seminar or practical session per week for 13 weeks, and involvement in a total of 11 hours of peer mentoring during the course of the semester. Teaching is supported by online materials using WebCT.

Assessment: one 1200-word assignment (10%), one 30-minute written in-class test during semester (15%), one 2.5-hour written examination (75%). Hurdle requirements: a pass must be achieved in all components of the assessment in order to gain an overall pass in this unit.

ORT2RDO RESEARCH DESIGN IN ORTHOPTIC PRACTICE (5 CPs Sem. TE-SEM-2 BU.) *Dr Kerry Fitzmaurice*

In this unit (which is used as a vehicle unit) students are introduced to low vision practice in orthoptics. Students will apply research methodologies to gain knowledge about the cause and impacts of low vision. Students will also be introduced to research practice in the wider orthoptic discipline.

Prerequisite: PHE1RMH.

Co-requisite: PHE2RMH.

Class requirements: one 2-hour seminar/group discussion per week. Teaching is supported by online materials using WebCT.

Assessment: two 700-word assignments (100%).

ORT2RET RETINAL DISORDERS (15 CPs Sem. TE-SEM-1 BU.) *Dr Kerry Fitzmaurice*

This unit provides the student with a continued understanding of the anatomical and physiological basis of retinal disorders. The student will study the pathological processes including the aetiology, investigation, progression and management of various retinal disorders including retinal degenerations, circulatory problems, traumatic, toxic and developmental disorders. The retinal problems associated with systemic disorders, in particular endocrine and metabolic disorders, will be covered. This unit is designed to prepare the student for clinical placement, with the application of previously learnt procedures and inclusion of further instrumentation for the investigation of retinal function, such as ophthalmoscopy, electrophysiological testing and fundus photography.

Prerequisite: ORT1RET HBS1HBF.

Co-requisite: HBS2PAG.

Class requirements: four hours of lectures, tutorials, self-directed learning or instrumentation sessions per week. Teaching is supported by online materials using WebCT.

Assessment: two 15-minute unit tests (20%), one 2-hour written examination (60%). Both the written and practical components must be passed in order to gain a pass in the subject, one 20-minute practical examination (20%).

Preliminary Reading:

James, B. Chew, C. and Bron, A. *Lecture notes on ophthalmology* 9th Edn. Blackwell Science 2003.

Recommended Reading:

Kanski, J. J. and Thomas, D. J. *The eye in systemic disease* 2nd Edn. Butterworth-Heinemann London 1990.

ORT3CLI CLINICAL PRACTICE B (HONOURS STREAM) (50 CPs Sem. TE-SEM-2 BU.) *Mr Zoran Georgievski*

In this unit, students are provided with further clinical experience in the investigation and management of acute and chronic ophthalmic disorders, disorders of ocular motility and strabismus, and the management of clients with visual or general disability. The student will undertake two clinical block placements during the semester and will be expected to gain experience of clinical investigation procedures, problem diagnosis, management decisions and the implementation of treatment programs and general practice management concerns.

Prerequisite: ORT2OPH, ORT3NEU, ORT3INC, ORT3EYE.

Class requirements: 10-week clinical placement. Teaching is supported by online materials using WebCT.

This unit is not available for study abroad students.

Assessment: assessment is pass/fail basis only based on reports from clinical educator and 10-minute viva voce (100%). Must meet all criteria: maintain clinical journal; participate in WebCT discussion; attend briefing sessions; deliver 15-minute conference presentation; submit a 1000-word case study assignment.

ORT3CLI CLINICAL PRACTICE B (60 CPs Sem. TE-W26-42 BU. TE-W34-47 BU. TE-W38-48 BU.) *Mr Zoran Georgievski*

In this unit students are provided with further clinical experience in the investigation and management of acute and chronic ophthalmic disorders, disorders of ocular motility and strabismus, and the management of clients with visual or general disability. The student will undertake three 4-week clinical block placements between July-December and will gain experience in clinical investigation procedures, problem diagnosis, management decisions and the implementation of treatment programs and general practice management concerns. Students are strongly advised to undertake part of their placement outside of metropolitan Melbourne in designated facilities across Australia and or overseas.

Prerequisite: ORT2OPH, ORT3NEU, ORT3INC, ORT3EYE.

Class requirements: a total of 12 weeks of clinical block placement. Teaching is supported by online materials using WebCT.

Assessment: assessment is pass/fail basis based on reports from clinical educators and 10-minute viva voce (100%) Must meet all criteria: maintain clinical journal; participate in WebCT discussion; attend briefing sessions; deliver 15-minute conference presentation and submit a 1000-word case study assignment.

ORT3CLR CRITICAL LITERATURE REVIEW (10 CPs Sem. TE-SEM-2 BU. TE-SEM-S BU.) *Dr Suzane Vassallo*

Only available to Bachelor of Orthoptic and Ophthalmic Sciences (Honours) program.

In this unit students will undertake a critical review of the literature which is of particular relevance to the honours research project. Students are expected to demonstrate an advanced ability to critically evaluate the published literature.

Prerequisite: selection into the Bachelor of Orthoptic and Ophthalmic Sciences (Honours) program.

Class requirements: The equivalent of 26 hours of literature search and review in consultation with supervisor. Teaching is supported by online materials using WebCT.

This unit is not available for study abroad students.

Assessment: one 3000-word critical literature review (100%).

ORT3EYE EYE HEALTH CARE SYSTEMS (10 CPs Sem. TE-SEM-1 BU.) *Mr Zoran Georgievski*

In this unit students are introduced to the concepts of primary health care, health, illness, health promotion and education. The primary health care concept and the factors that determine one's health, both individual and external, are considered. The range of providers which are part of the primary eye health sector and the particular role that the orthoptist can contribute will be explored. The concepts of epidemiology in relation to ocular disease will be introduced and an awareness will be created of the orthoptist's contribution to patient and community health promotion and education.

Class requirements: two 2-hour lecture/seminar classes per week. Teaching is supported by online materials using WebCT.

Assessment: two 750-word assignments (60%) (or equivalent), one 20-minute group presentation to class (20%), one 750-word assignment (20%).

Recommended Reading:

Naidoo, J. and Willis, J. *Health promotion foundations for practice* London Bailliere Tindall 1994.

Green, W.H. and Simons-Morton, B.G. *Introduction to health education* Macmillan 1984.

ORT3INC INCOMITANT STRABISMUS (15 CPs Sem. TE-SEM-1 BU.) *Mr Zoran Georgievski*

In this unit, students are provided with an understanding of the theoretical concepts of the investigation, diagnosis and management

of incomitant strabismus and diplopia. The normal anatomy and function of the extraocular muscles are presented in conjunction with an introduction to the concepts of binocular vision. In the format of problem-based learning, this unit integrates the theoretical concepts of the aetiology, investigation, characteristics, diagnosis and management of the neurogenic, myogenic and mechanical strabismus with the clinical instrumentation procedures required to investigate disorders of ocular motility.

Prerequisite: ORT2BIN, ORT2CON, HBS2NEU.

Co-requisite: ORT3NEU.

Class requirements: two 1.5-hour lectures and one 2-hour practical class per week. In addition, students are encouraged to participate in active WebCT discussion. Teaching is supported by online materials using WebCT.

Assessment: one 30-minute (mid-semester) written examination (15%), Two practical / verbal examinations, (each 10-minutes) in weeks 12-13 (15%), one 2.5-hour (end of semester) written examination (70%). Hurdle requirement: both the practical exams overall and 2.5-hour written exam must be passed in order to gain a pass in this unit.

ORT3NEU NEURO-OPHTHALMIC DISORDERS B (15 CPs Sem. TE-SEM-1 BU.) *Dr Linda Malesic*

In this unit students are provided with an understanding of the investigation and management of disorders of the eye movement systems. The cortical and sub-cortical control, pathways and function of the different types of eye movements are studied, with the characteristic eye signs that result from disorders of these systems. The theoretical concepts are learnt in conjunction with the clinical investigation techniques, including eye movement measurement. The eye movement disorders are studied within the context of the general cortical disorders that may result from neurological pathology and other neuro-muscular syndromes that commonly affect ocular motor function.

Prerequisite: ORT2NEU, ORT2CON, HBS2NEU.

Co-requisite: ORT3INC.

Class requirements: two 2-hour lectures/problem discussion or instrument sessions per week. Teaching is supported by online materials using WebCT.

Assessment: one 1000-word assignments (10%), one 2.5-hour written examination (80%), one 1-hour mid-semester unit test (10%)

Prescribed Reading:

Ciuffreda, K. J. and Tannen, B. *Eye movement basics or the clinician* St.Louis, Mosby 1995

ORT4OPH CASE MANAGEMENT - OPHTHALMIC DISORDERS (15 CPs Sem. TE-SEM-1 BU.) *Dr Suzane Vassallo*

In this problem based learning unit, the student is provided with the opportunity to expand on the knowledge gained in the previous theoretical subjects and clinical placements. The unit will be based around commonly seen ophthalmic case problems including the modern investigation and management of cataract, glaucoma, refractive errors, systemic disease and neurological disorders. Students are also expected to revisit basic practical skills and to contribute to the management of various case reports via in-class discussions. Medicolegal considerations will also be highlighted.

Prerequisite: ORT3CLI.

Class requirements: two 2-hour seminars or practical sessions per week. Teaching is supported by online materials using WebCT.

Assessment: one 10-minute viva voce examination (15%), one 1.5-hour written examination (70%), one folio of clinical competency (15%). Folio material is to be gathered during the 3rd year semester 2 block placement.

Hurdle requirements: all of the components of assessment must be passed in order to obtain a pass in this unit.

Recommended Reading:

Students will be expected to gain information from any relevant texts and journals.

ORT4ORP ORTHOPTIC RESEARCH PROJECT (45 CPs Sem. TE-SEM-2 BU.)

Dr Suzane Vassallo

Subject to selection into the Honours program.

In this unit students will conduct a research project under supervision. The research should have the potential to advance the knowledge of vision science. The student should gain a knowledge of research design, data collection, data analysis and research reporting.

Prerequisite: Selection into Bachelor of Orthoptic and Ophthalmic Sciences (Honours) program and ORT3CLR.

Class requirements: no formal requirements but students are expected to allocate the equivalent 12 hours per week plus attend research seminars and participate in group discussions of journal articles. Teaching is supported by online materials using WebCT.

Assessment: one 10,000-word thesis (90%). Hurdle requirement: 10-minute presentation of thesis proposal, one 15-minute oral presentation of research results (10%).

ORT4REH CASE MANAGEMENT - REHABILITATION (15 CPs Sem. TE-SEM-1 BU.) *Dr Kerry Fitzmaurice*

In this unit, students will be provided with a knowledge of the principles and practice of rehabilitation in the presence of vision impairment. This includes the study of the functional problems associated with vision impairment and the development of rehabilitation programs. The student is able to explore the functional aspects of vision in conjunction with traditional diagnostic measures in order to interpret the visual capabilities of clients and consequently to design strategies to assist those with special needs.

Prerequisite: ORT3CLI.

Class requirements: two 2-hour lectures or seminars per week.

Teaching is supported by online materials using WebCT.

Assessment: one 1500-word assignment (25%), one 1.5 hour written examination (50%), one 10-minute viva voce examination (25%).

ORT4RTP RESEARCH THESIS/PROJECT (60. CPs Sem. TE-ALL-YR BU.) *Dr Kerry Fitzmaurice*

This project is the main emphasis of the honours or post graduate diploma year. It includes project design, literature review, data collection, analysis of results, presentation of seminars and the preparation of a 10,000-word assignment on the research project.

Class requirements: self directed research and meetings with supervisor, equivalent to 7 hours per week. Teaching is supported by online materials using WebCT.

Assessment: one 10,000-word assignment on the research project topic and participation in case presentations (100%).

ORT4SCP SPECIALIST CLINIC PRACTICE (30. CPs Sem. TE-ALL-YR BU.) *Dr Kerry Fitzmaurice*

The area of clinical practice should be relevant to the honours and or post graduate diploma research project and involves some data collection. The main emphasis is to develop specialised clinical skills in a particular area of interest. The clinical setting may be external or within the University. Three contact hours per week are recommended. By the end of third year, the general clinical expertise expected is that of a graduate orthoptist. This unit allows concentrated specialised skills to be proficiently attained.

Class requirements: clinical practice and self-directed learning equivalent to 3 hours per week. Teaching is supported by online materials using WebCT.

Assessment: one 3750-word assignment on the material presented (100%).

ORT4SPO CASE MANAGEMENT - STRABISMUS AND PAEDIATRIC OPHTHALMOLOGY (15 CPs Sem. TE-SEM-1 BU.) Dr Connie Koklanis

This problem-based learning subject allows the continued application of the theoretical and clinical knowledge studied in previous years to various orthoptic problems. Principles of paediatric ophthalmology and the diagnosis and management of common eye problems in children and infants will also be a focus of this subject. The development of clinical reasoning skills is consolidated by the continued study of patient management problems. These problems include such areas as concomitant strabismus, sensory disorders and adaptations, and ocular motor disorders. The selection of diagnostic and treatment procedures is considered within the context of entire patient management to consider factors such as systemic medical problems and age group. Issues of practice management will be discussed, including professional ethics, medico-legal concerns and appropriate referral.

Prerequisite: ORT3CLI.

Class requirements: two 1.5-hour classes and one 1-hour class per week. Teaching is supported by online materials using WebCT.

Assessment: one 750-word assignment (10%), 10-minute viva voce (10%), 3-hour written examination (80%). Both the 3-hour examination and the viva voce must be passed in order to gain a pass in the unit.

Recommended Reading:

Students will be expected to gain information from any relevant texts or journals.

PHE1AHS AUSTRALIA'S HEALTH CARE SYSTEM (15. CPs Sem. TE-SEM-2 BU.) Dr Simon Barraclough

This unit presents students with an overview of the historical development, structures, programmes, workforce, and some of the major issues, of the Australian health care system. The role of various levels of government in the provision of health care in terms of policy formulation, advocacy, regulation funding, delivery, and the provision of welfare is explored. The economic dimensions of health care as an important sector of the Australian economy are identified. Values associated with the funding and providing health care are considered. Comparative international perspectives are presented. This unit encourages critical thinking about the nature and performance of the health care system. Student groups will investigate and report upon a particular issue in the health care system.

Class requirements: one 2-hour lecture and one 2-hour tutorial per week.

Assessment: one 30-min group seminar presentation (20%), one 1-hour short-answer examination (in class) (40%), one 1500-word essay (40%).

PHE1BHN PUBLIC HEALTH FOR NUTRITION STUDIES (15. CPs Sem. TE-SEM-2 BU.) Dr Jane Pierson

Offered subject to sufficient enrolments.

In this unit, students learn topics which are organised into three broad groupings. In Population Health, content includes basic epidemiological concepts, health patterns and trends in Australia, and diet and nutrition as risk factors for disease. In Health, Nutrition and Society, content includes sociological analyses of inequalities in health and health care, changing definitions of health and illness, political and ethical issues in public health and nutrition, and socio-cultural understandings of food and eating. In Behaviour and Nutrition, content includes behavioural influences on health, biological regulation of eating and body weight, psychological and social factors which influence eating behaviours, exercise, and biopsychosocial aspects of eating disorders.

Class requirements: three 1-hour lectures (all students) and one 3-hour seminar or practicum per week (BScNutrition students only).

Assessment: one 2-hour examination (50%), one 2000-word report (50%).

PHE1CSG CULTURE, SOCIETY AND THE HEALTH OF MEN AND WOMEN (15 CPs Sem. TE-SEM-1 BU.) Professor Pranee Liamputtong

In this unit, students are provided with the opportunity to study issues relating to men, women and health within the social and cultural aspects of the societies in which they live. The health of men and women within the socio-cultural and political economy of Western

and non-Western societies will be examined in order to produce a critical awareness of 'why things are the way they are and how they can be improved'. Topics relating to women's health include: why women's health? the medicalisation of women's health; women and health services, women and reproductive health, motherhood and postnatal depression; women and violence and women as healers. Secondly, issues relating to gender irregularity; emerging men's health issues and men's health promotion are included. Students will be encouraged to examine women's and men's health within social, cultural and political contexts within the Australia and international settings.

Class requirements: one 2-hour lecture and one 1-hour tutorial per week.

Assessment: one 2500-word essay (60%), one 1500-word research summary (40%). Research summary includes an oral presentation.

Recommended Reading:

Sabo, D., and Gordon, D.F. *Men's health and illness: Gender powers and the body* Sage, Thousand Oaks California.

Doyal, L. *What makes women sick: Gender and political enemy of health* London, Macmillan 1995.

Saltman, D. *Women's health: An introduction to issues* Sydney: Harcourt Brace 1991.

PHE1HEM HUMAN ECOLOGY AND MICROBIOLOGY (15 CPs Sem. TE-SEM-2 BU.) Ms Eileen Clark, Professor Colin Torrance, Dr Rae Walker Not available in 2008.

PHE1HOA THE HEALTH OF AUSTRALIANS (15. CPs Sem. TE-SEM-1 BU.) Ms Prue Bagley

In this unit, students will be introduced to descriptive epidemiology and epidemiological methods. Students will learn about key definitions, measurements and determinants of health status and the application of these principles and methods to public health interventions. A particular emphasis will be placed on the social determinants of health and lectures will address an analysis of the health status of various population subgroups as well as for key risk factors and health conditions. Students will also be introduced to the basic principles and methods for health research. Materials will cover local, national and global perspectives.

Class requirements: Two 1-hour lectures and one 2-hour tutorial per week.

Assessment: one group presentation (10 minutes per student) (20%), one 90-minute examination (40%), one 1000-word essay (20%), one 1000-word essay (20%). Hurdle requirement: tutorial attendance and participation.

Prescribed Reading:

Keleher, H., and Murphy, B. (Eds.) *Understanding health: a determinants approach* Oxford University Press, Melbourne 2004.

Recommended Reading:

Polgar, S., and Thomas, S. *Introduction to research in health sciences* 4th Edn. Churchill Livingstone 2000.

PHE1IPC PERSON-CENTRED CARE (15 CPs Sem. TE-SEM-1 BU, DE.) Dr Bruce Rumbold

In this unit students will be introduced to a person-centred holistic approach, pastoral care, with a specific focus on encounters within the health care system. Pastoral care, like health care itself, has its roots in religious traditions, but focuses upon the broader issues of spirituality and meaning that are significant in contemporary multicultural, pluralist settings. The unit explores the theoretical underpinnings of pastoral care, possibilities for pastoral care across the life span, contemporary health care debates around religion, spirituality and health, and pastoral care practice. While pastoral care may be practised as a specialist discipline, it is relevant to all health care practitioners interested in the spiritual dimension of human experience, and how this might be affected by the onset of illness.

Class requirements: one 3-hour seminar.

Assessment: one 1000-word tutorial paper (20%), one 1500-word book review (30%), one 2000-word essay (50%).

Recommended Reading:

Lartey, E. *In living Colour: an intercultural approach to pastoral care and counselling* Rev. Edn. Jessica Kingsley 2003.

PHE1PCS INTRODUCTION TO PROFESSIONAL COMMUNICATION**SKILLS** (5.0 CPs Sem. TE-SEM-1 BU.) *Ms Janet Carnegie*

In this unit, students are provided with a knowledge of the processes of interpersonal communication. The student will be introduced to the communication skills required, particularly in relation to the orthoptic clinical setting. This will include such aspects as the clinician-patient relationship, the interdisciplinary relationships and the role of the student in these fields. The unit will cover aspects of verbal, non-verbal and written communications and issues surrounding loss and grief and multiculturalism will be addressed.

Class requirements: two hours of seminars and group discussions per week.

Assessment: group presentation (5-minutes per member) plus presentation summary (equivalent to 750-words). (50%), self-assessment journal (equivalent to 1000 words) (50%)

Recommended Reading:

Adler, R and Rodman, G *Understanding human communication* 6th Edn. Fort Worth: Harcourt Brace.

PHE1PHA INTRODUCTION TO PUBLIC HEALTH A (15 CPs Sem. TE-SEM-1 AW, BU, MI, SH.) *AW: Mrs Nanette Lundie, BU: Dr Paul O'Halloran, Ms Janet Carnegie*

Albury/Wodonga campus: available only to Bachelor of Nursing students.

Public Health practice operates at individual, social and structural levels. That is, public health knowledge is acquired from these multiple sources and public health interventions can be targeted at the individual, social, or structural level. In this unit, students will predominately address public health at the individual level. The principal aim of the unit is to provide foundation knowledge pertaining to preventive work with individuals at multiple levels in the health care system. Topics are organised into the broad groupings related to health (e.g., learning), regulatory systems (obesity, motivation and developmental) and social influences on health (development, communication processes), and personality, stress and mental health.

Incompatible unit: PHE1PHC.

Class requirements: three 1-hour lectures and one 1-hour tutorial per week.

Assessment: one 1.5-hour examination (50%), four 300-word short answer questions (20%), one 1200-word essay (20%), tutorial participation (10%).

Prescribed Reading:

McMurray, A. *Community health and wellness: a socioecological approach* 2nd Edn. Marrickville, N.S.W. Mosby 2003.
Passer, M.W., and Smith, R.E. *Psychology: the science of mind and behaviour* 3rd Edn. Boston, MA: McGraw-Hill 2007.

PHE1PHB INTRODUCTION TO PUBLIC HEALTH B (15 CPs Sem. TE-SEM-2 AW, BU, MI, SH.) *AW: Ms Eileen Clark, BU: Ms Prue Bagley*

In this unit students are introduced to social understandings of health and health care practice. Changing definitions of health and illness are examined, inequalities in health and health care are analysed from different sociological perspectives, and some key political and ethical issues are explored. The aim is to develop students capacity to view current health concerns in a public health perspective and to understand how this relates with other professional practice perspectives.

Incompatible unit: PHE1PHD.

Class requirements: one 2-hour lecture and one 1-hour tutorial per week.

Assessment: one 1-hour examination (30%), one 2500-word tutorial assignment (40%), one 10 minute tutorial presentation (30%).

Prescribed Reading:

Germov, J. *Second opinion* Oxford University Press 2005.

Recommended Reading:

Davis, A. and George, J. *States of health: health and illness in Australia* Harper Educational 1998.

PHE1PHC INTRODUCTION TO PUBLIC HEALTH C (10 CPs Sem. TE-SEM-1 BU.) *Dr Paul O'Halloran, Ms Janet Carnegie*

Public Health practice operates at individual, social and structural levels. That is, public health knowledge is acquired from these multiple sources and public health interventions can be targeted at the individual, social, or structural level. This unit will predominately address public health at the individual level. The principal aim of the unit is to provide foundation knowledge pertaining to preventive work with individuals at multiple levels in the health care system. Topics are organised into the broad groupings related to health (e.g., learning), regulatory systems (obesity, motivation and emotion), developmental and social influences on health (development, communication processes), and personality, stress and mental health.

Incompatible unit: PHE1PHA

Class requirements: three 1-hour lectures and one 1-hour tutorial per week.

Assessment: one 1.5-hour examination (70%), four 300-word short answer questions (20%), tutorial participation (10%).

Prescribed Reading:

McMurray, A. *Community health and wellness: socioecological approach* 2nd Edn. Marrickville, N.S.W. Mosby 2003.

PHE1PHD INTRODUCTION TO PUBLIC HEALTH D (5.0 CPs Sem. TE-SEM-2 BU.) *Ms Prue Bagley*

In this unit students are introduced to social understandings of health and health care practice. Changing definitions of health and illness are examined, inequalities in health and health care are analysed from different sociological perspectives, and some key political and ethical issues are explored. The aim is to place current health concerns in a broader perspective than that offered by biomedical understandings alone, and to encourage students to incorporate a public health perspective within their professional formation.

Incompatible unit: PHE1PHB.

Class requirements: one 1-hour lecture and one 1-hour tutorial per week.

Assessment: one 1-hour examination (50%), one 1000-word essay (50%). Hurdle requirement: tutorial attendance and participation (including a 5-minute presentation).

Prescribed Reading:

Germov, J. *A second opinion* Oxford University Press 2005.

PHE1RMH RESEARCH METHODS IN HEALTH 1 (5 CPs Sem. TE-SEM-1 BU, DE. TE-SEM-2 BU.) *Mr Stephen Polgar*

In this unit, students are introduced to the basic principles for conducting research in the health sciences and demonstrates how these principles are utilised for advancing health practices. Topics include the scientific method and clinical practice, qualitative and quantitative approaches to design, sampling, data collection and analysis, theories and the formulation of hypothesis and research questions. Particular emphasis is placed on how research is conducted with people who may be ill and disabled, and how social and ethical considerations shape health related research. At the conclusion of the unit, students will be able to critically evaluate fundamental aspects of professionally relevant publications. Detailed course materials are available enabling students to take a flexible self-directed approach to learning.

Class requirements: one 1-hour lecture per week and seven 1-hour tutorials over the semester.

Assessment: one 1.5-hour multiple-choice examination (100%).

Prescribed Reading:

Polgar, S. and Thomas, S.A. *Introduction to research in the health sciences* 4th Edn. Churchill Livingstone 2000.

PHE2ARM APPLIED RESEARCH METHODS IN HEALTH (20 CPs Sem. TE-SEM-2 BU.) *Dr Jane Pierson*

In this unit, students are given the opportunity to further develop their knowledge and skills of conducting applied health research using a problem solving approach. Topics include qualitative and quantitative research design, data collection strategies, data analysis and interpretation and reporting of findings.

Class requirements: three 1-hour lectures and one 1-hour tutorial/practice class per week.

Assessment: one 2-hour examination (50%), two 1500-word assignments (50%).

PHE2BDA DETERMINANTS OF HEALTH A (5.0 CPs Sem. TE-SEM-1 BU.) *Ms Janet Carnegie*

The aim of this unit is to explore some of the ways in which social sciences, and interpersonal theories contribute to the understanding and management of illness and disability within the community. The unit examines the Australian Health Priority Areas and identifies environmental factors which influence the chance of becoming ill or disabled from a Public Health perspective. The unit comprises four major study areas: clinical practices and social contexts; lifestyle risk and protective factors; conceptualising illness/injury and treatment, and applying public health principles to improve health outcomes. Social and individual responses to illness and disability are discussed in relation to their influence on recovery and rehabilitation. A particular focus is how public health principles are applied to the practices of the physiotherapy and orthoptics professions.

Prerequisite: PHE1PHA or PHE1PHC.

Class requirements: 20 hours of lectures and 6 hours of tutorials.

Assessment: one 1-hour exam (80%), tutorial exercise (20%).

Recommended Reading:

Kolt, G and Anderson, M. *Psychology in the Physical and Manual Therapies* Churchill Livingstone 2004.

PHE2BDB DETERMINANTS OF HEALTH B (5.0 CPs Sem. TE-SEM-2 BU.) *Dr Paul O'Halloran, Mr Stephen Polgar*

In the first part of this unit, students acquire knowledge that will be of assistance in the evaluation and interpretation of the patient's emotional and psychological capacities. Topics covered include neuropsychology and psychiatric disorders in relation to delivering health care in a physiotherapy setting. The second part of the unit deals specifically with interpersonal processes in physiotherapy practice, with a primary focus on working with clients to facilitate treatment outcomes.

Prerequisite: PHE2BDA.

Class requirements: 13 hours of lectures and tutorials (weeks 1-7), and 13 hours of workshops (weeks 8-13).

Assessment: one 1-hour examination (50%), one 1500-word unstructured reflective journal (50%).

Recommended Reading:

Kolb, B and Whishaw, I.Q. *Human Neuropsychology* 5th Edn. New York: W.H. Freeman; Basingstoke: Palgrave Macmillan 2003.

French, S. *Physiotherapy: a psychosocial approach* 2nd Edn. Oxford: Butterworth-Heinemann 1997.

PHE2CHP COMMUNITY HEALTH PROMOTION (20 CPs Sem. TE-SEM-2 BU.) *Dr Rae Walker*

In this unit, students are given the opportunity to develop, through practice-based learning skills and knowledge of health promotion practice. Key ideas and strategies used in health promotion at the community level will be explored. Content will include capacity building at different levels, social marketing, working with hard to reach community groups. The application of learning to practice will be stressed.

Incompatible unit: HLT3PHP, HLT3HP.

Class requirements: one 2-hour lecture and one 2-hour tutorial per week, plus self-directed extra mural learning activities (equivalent to two hours of classroom contact per week).

Assessment: one 1000-word group presented report (15%), one 1000-word individual tutorial paper (25%), one 20-minute group presentation equivalent to 1000-word (10%). Hurdle requirement: one 3000-word individual paper (50%).

Preliminary Reading:

SPH PHE2CHP School of Public Health student workbook 2007

PHE2CPH COMMUNICATION PROCESSES IN HEALTH CARE (20 CPs Sem. TE-SEM-1 BU.) *Dr Paul O'Halloran*

In this unit, students will be given the opportunity to increase their knowledge, understanding and skills in communicating in interpersonal and group settings. The principal aim of this unit is to identify the existing interpersonal skills of students and provide an

opportunity for their development and consolidation when applied in health and public health settings. Given that the subject adopts a skills-based orientation a one-hour lecture will be supported by a three-hour seminar which will provide students with a forum for building and developing effective communication styles, appreciating contextual considerations (e.g., culture), and developing an understanding of the application of interpersonal communication skills in a range of settings (e.g., therapeutic, social, and public health).

Class requirements: one 1-hour lecture per week and one 3-hour seminar/workshop per week.

Assessment: 30-minute class presentation in pairs (20%), one 1500-word write up of presentation (20%), one 2000-word essay (30%), one 2000-word diary (unstructured reflective journal) (20%), attendance and participation in workshops/tutorials (10%). Hurdle requirement: 75% class attendance and participation in interpersonal communication workshops.

Recommended Reading:

PHE2EBD ENVIRONMENTAL AND SOCIAL DETERMINANTS OF HEALTH

(20 CPs Sem. TE-SEM-1 BU.) *Dr Bruce Rumbold*

In this unit students are given the opportunity to develop a multi-level understanding of influences on the health of individuals and populations. Key determinants of health, and the risk and protective factors associated with them, will be examined from bio-psycho-social, social systems and ecological perspectives, where: a biopsychosocial perspective on health emphasises biomedical, psychological and social-psychological determinants of health; a social system perspective places particular emphasis on the effect of broader social processes and social institutions upon health and illness; and an ecological perspective focuses on ways the physical and natural environment influences health outcomes.

Prerequisite: PHE1IBA or PHE1HHB.

Class requirements: two 1-hour lectures and one 2-hour tutorial per week.

Assessment: one 2500-word essay (40%), one 2-hour examination (40%), one group presentation of 10-minutes per student (20%).

Recommended Reading:

Marmot, M., and Wilkinson, R. *Social determinants of health* (seconded) Oxford: Oxford University Press 2006.

PHE2HSD HEALTH SKILLS DEVELOPMENT (20 CPs Sem. TE-SEM-1 BU.) *Mr Rick Hayes*

In this unit students are introduced to health promotion principles and theoretical frameworks through 'practical-based' learning. The unit specifically focuses on interpersonal skills required for health promotion practice and the development of productive relationships. Students develop their education, group work and individual communication skills, explore the interpersonal dynamics of small group learning principles and issues in the empowerment of health service users. Concepts of self-care, health literacy, problem-solving, self-management and life skills development will provide the basic context for skills development. There will be an opportunity for experiential learning through the use of group exercises and reflective teaching sessions.

Incompatible unit: HLT4HED/HLT4HED.

Class requirements: two hours of lectures/seminars and two hours of tutorials/workshops per week.

Assessment: one group class presentation (equivalent to 1000 words of individual work) (10%), one 2000-word equivalent take-home exam (35%), one 1000-word learning diary report (15%). Hurdle requirements: attendance and participation in reflective teaching lessons, one 2000-word essay (40%)

Prescribed Reading:

PHE2INP INTERPERSONAL PROCESSES (5.0 CPs Sem. TE-SEM-2 BU.)

Dr Paul O'Halloran, Ms Janet Carnegie

Not available in 2008.

PHE2LCI LIVING WITH CHRONIC ILLNESS AND DISABILITY (20 CPs

Sem. TE-SEM-2 BU.) *Dr Greg Murphy, Dr Paul O'Halloran*

In this unit, students are given the opportunity to examine the dimensions of chronic illness and disability with emphasis on issues pertaining to management of these conditions at a community level. The content of the unit includes presentation of the World Health Organisation's classification systems relevant to disability (ICIDH, ICF), and illustration of the application of this framework to ill-health conditions across the life-span. Health policy issues relevant to the design of disability and rehabilitation services in the community are also closely examined.

Prerequisite: PHE1PHA, PHE1PHC or PSY1PYA.

Incompatible unit: PHE3LDA, PHE3LDB.

Class requirements: two 1-hour lectures per week and one 2-hour seminar per week.

Assessment: one 2-hour examination (45%), one class presentation (20 minute per student) (20%), one 2000-word essay (25%), tutorial participation and activities (10%).

Recommended Reading:

PHE2OPH ORGANISATIONAL PSYCHOLOGY OF HEALTH SERVICES (20

CPs Sem. TE-SEM-2 BU.) *Mr James Cauty*

In this unit students will be introduced to the psychology of work performance, including the performance of individual clinicians and as well as that of health professionals working in teams. Organisational psychology considerations such as organisational goal setting and work-life balance are also addressed. Practical activities which complement the lecture program give students the opportunity to apply lecture concepts to practical work and social situations relevant to students.

Class requirements: one 2-hour lecture and one 2-hour tutorial per week.

Assessment: one 3000-word assignment (60%), one 2500-word tutorial paper (40%).

Recommended Reading:

Katz, D. and Kahn, R. *The social psychology of organisations* New York Wiley 1990.

PHE2RHC RESEARCH IN HEALTH CARE (15 CPs Sem. TE-SEM-1 BU, DE, MI,

OS. TE-SEM-2 AW, BE, BU, DE, MI.) *AW: Ms Eileen Clark, BU: Mr Stephen Polgar*

Not available in 2008.

PHE2RMH RESEARCH METHODS IN HEALTH 2 (5 CPs Sem. TE-SEM-1 BU,

TE-SEM-2 BU, DE.) *Mr Stephen Polgar*

In this unit students are given the opportunity to develop the material presented to them in PHE1RMH. Both quantitative and qualitative methods of data collection and analysis are treated, with an emphasis on application of these methods to clinical practice and the critical evaluation of clinical research publications. Topics include research and clinical practice, ethics, qualitative approaches to data collection and analysis, inferential data analysis and the interpretation, synthesis and utilisation of research findings.

Prerequisite: PHE1RMH.

Class requirements: one 1-hour lecture per week and seven 1-hour tutorials per week over the semester.

Assessment: one 1.5-hour multiple-choice examination (100%).

Prescribed Reading:

Polgar, S., and Thomas S. *Introduction to research in the health sciences* 4th Edn. Churchill Livingstone 2000.

PHE3ARM ADVANCED RESEARCH METHODOLOGY (10. CPs Sem. TE-SEM-

2 BU.) *Mr Stephen Polgar*

In this unit, students are given the opportunity to build upon knowledge already gained in quantitative and qualitative research design, methodology and statistics. Students will be expected to design a research project which could be carried out later. They will be expected to present their research proposal to the class prior to submission. Anyone intending to undertake an honours program or other research-based postgraduate studies is encouraged to undertake this unit. Students will be directed to relevant readings in their professional area.

Prerequisite: PHE2RMH.

Class requirements: one 2-hour lecture/seminar per week.

Assessment: four 700-word assignments (25% each) (100%).

Prescribed Reading:

Polgar, S., and Thomas, S. *Introduction to research in health sciences* 4th Edn. Melbourne, Tertiary Press 2003.

Schwartz, M., and Polgar, S. *Statistics for evidence based health care* Melbourne, Tertiary Press 2003.

PHE3CND CENTRAL NERVOUS SYSTEM DISORDERS AND HUMAN

BEHAVIOUR (5.0 CPs Sem. TE-SEM-2 BU.) *Mr Stephen Polgar*

In this unit, students are provided with a broad introduction to the relationship between central nervous system functioning and human behaviour. Topics include functional organisation of the brain, lateralisation of language, motor sensory organisation, psychoactive drugs, methods of investigation and assessment of neurological and behavioural changes in brain-damaged individuals, patterns of motor, cognitive and emotional impairments associated with degenerative diseases and focal injury. Introduces students to working with people with brain disorders and to gain an understanding of the mechanisms by which the brain actively responds to illness and injury. Relates to clinical subjects addressing information processing deficits and the rehabilitation of individuals with central nervous system impairments.

Prerequisite: HBS2NEU.

Class requirements: one 2-hour lecture/seminar per week.

Assessment: one 1.5-hour examination (100%)

Prescribed Reading:

Kolb, B. and Wishaw, I. Q. *Fundamentals of human neuropsychology* 4th Edn. 1996.

PHE3CQM CURRENT ISSUES IN QUALITY MANAGEMENT (10. CPs Sem.

TE-SEM-2 BU.) *Ms Mary Ell*

Not available in 2008.

PHE3DDA DEATH, DYING AND GRIEF A (10. CPs Sem. TE-SEM-2 BU.)

Dr Fran McInerney

Offered subject to sufficient enrolments

In this unit, students are given the opportunity to explore social, cultural and historical factors which are the context of contemporary beliefs and practices concerning death, dying and grief. Particular attention is paid to the experiences of dying and grieving people, their care-givers and the responses made to them by Australian health services. The aim is to provide participants with a deeper understanding of the social and cultural contexts surrounding death in ways that will influence their personal and professional development.

Class requirements: one 1-hour lecture and one 1-hour seminar per week.

Assessment: one 2000-word assignment (70%), one 10-minute oral seminar presentation (30%).

Prescribed Reading:

Kellehear, A. *Death and dying in Australia* Oxford University Press, Melbourne 2000.

PHE3ddb DEATH, DYING AND GRIEF B (15. CPs Sem. TE-SEM-2 BU.)

Dr Fran McInerney

Subject to sufficient enrolments.

In this unit, students are given the opportunity to explore social, cultural and historical factors which are the context of contemporary

beliefs and practices concerning death, dying and grief. Particular attention is paid to the experiences of dying and grieving people, their care-givers and the responses made to them by Australian health services. The aim is to provide participants with a deeper understanding of the social and cultural contexts surrounding death in ways that will influence their personal and professional development. *Class requirements:* one 1-hour lecture and two 1-hour seminars per week.

Assessment: one 3000-word assignment. (70%), one 1500-word seminar presentation (30%).

Prescribed Reading:

Kellehear, A.. *Death and dying in Australia* Oxford University Press, Melbourne 2000.

PHE3DUA DRUG USE AND ADDICTIVE BEHAVIOUR A (10. CPs Sem. TE-SEM-2 BU.) *Ms Janet Carnegie*

Offered subject to sufficient enrolments

In this unit, students are introduced to public health perspectives on alcohol and drugs. It provides an introduction to harm minimisation and health promotion approaches currently in practice. Popular myths about drugs and drug taking will be addressed.

Class requirements: thirteen 1-hour lectures and thirteen 1-hour seminars.

Assessment: one 20-minute group presentation (35%) (2-3 members per group), one 1-hour exam (25%), one 2000-word essay (40%).

Recommended Reading:

Hamilton, M, King, T, and Ritter, A (Eds.) *Drug Use in Australia: Preventing Harm* Oxford University Press 2004.

PHE3DUB DRUG USE AND ADDICTIVE BEHAVIOUR B (15. CPs Sem. TE-SEM-2 BU.) *Ms Janet Carnegie*

Offered subject to sufficient enrolments.

In this unit, students are introduced to public health perspectives on alcohol and drugs. It provides an introduction to harm minimisation and health promotion approaches currently in practice. Popular myths about drugs and drug taking will be addressed.

Class requirements: one 1-hour lecture and one 1-hour seminar per week plus fieldwork.

Assessment: one 20 minute group presentation including site visit (35%) 2-3 members per group, one 1-hour exam (25%), one 3000-word essay (40%).

Recommended Reading:

Hamilton, M, King, T, and Ritter, A (Eds.) *Drug Use in Australia: Preventing Harm* Oxford University Press 2004.

PHE3EPH ECOLOGY AND PUBLIC HEALTH (15 CPs Sem. TE-SEM-2 BU.) *Dr*

Priscilla Robinson, Dr Rae Walker

Not available in 2008.

PHE3HIC HEALTH INFORMATICS FOR CLINICAL PRACTICE (15 CPs Sem. TE-W05-07 BU.) *Ms Heather Grain*

Offered subject to sufficient enrolments.

In this unit, health practitioners are introduced to the use of computer technology in the health industry. Skills are developed in the use and management of patient information systems, appointment systems and decision support software including electronic health records, practice management, health statistics collection systems.

Quota: 44. First come first serve basis.

Class requirements: Block-mode: (week prior to commencement of Sem.2) twenty-six hours of lectures and thirteen hours of tutorials with web based components. WebCT will be used as a means of communication (email) and document delivery. Some lecture presentations and resource material will be available on WebCT.

Assessment: one 2000-word assignment (50%), one 2-hour examination (50%).

PHE3IGA INTRODUCTION TO GERONTOLOGY A (10 CPs Sem. TE-SEM-1 BU.) *Dr Jane Pierson*

Offered subject to sufficient enrolments.

In this unit, students in a wide range of professions are provided with an understanding of the experience of ageing from a range of perspectives, including biological and psychosocial. Topics include cultural and demographic aspects of ageing, psychosocial aspects of ageing and adaptation, structural and functional age-related changes, health and well-being in old age and clinical and preventative aspects of ageing. The unit applies a multi-disciplinary approach to the understanding of conceptual and professional issues in ageing.

Incompatible unit: PHE3IIGB.

Class requirements: one 2-hour lecture and one 1-hour lecture per week and three 1-hour tutorials during semester.

Assessment: one 1000-word take-home examination (40%). Hurdle requirement: students must pass all components to pass the subject, one 1000-word journal article review (30%), and one 1000-word report on issues in the print media (30%).

Prescribed Reading:

PHE3IHI INTRODUCTION TO HEALTH INFORMATION SYSTEMS (30. CPs Sem. TE-SEM-2 BU.) *Ms Heather Grain*

In this unit, students are given the opportunity to obtain skills in the use and design of data and software products and computer technology solutions to health information systems. Students are introduced to the practical skills required to develop, analyse and use health information storages and to the processes of software selection and implementation in a clinical environment.

Class requirements: One 2-hour lecture (with some web based components) and one 2-hour tutorial/practicum per practicum week. WebCT will be used as a means of communication (email) and document delivery. Some lecture presentations and resource materials will be available on WebCT.

Assessment: one 2-hour examination health-software (70%), one 7000-word assignment on software design and evaluation project (30%).

PHE3ISB ILLNESS AND SPIRITUALITY (15 CPs Sem. TE-SEM-2 BU, DE.)

Bruce Rumbold

Subject to sufficient enrolments.

In this unit, students are given the opportunity to review contemporary theories of illness narratives, and first person accounts of illness experience and of care giving in illness examined in order to develop a phenomenology of offering and receiving care in chronic and life-threatening illness. Particular attention will be paid to contemporary understandings of and approaches to spirituality emerging from such narratives. Implications for assessing the spiritual strengths and needs of both patients and caregivers and developing spiritual care plans will be discussed in the context of the emerging health care spiritual assessment literature.

Class requirements: one 2-hour lecture and one 1-hour tutorial per week.

Assessment: one 1500-word literature review (40%), one 2500-word essay (60%).

Recommended Reading:

Rumbold, B. (Ed.) *Spirituality and Palliative Care* Oxford University Press, Melbourne 2002.

PHE3PDH PSYCHIATRIC DISORDERS IN HEALTH CARE (5.0 CPs Sem. TE-SEM-2 BU.) *Dr Paul O'Halloran, Ms Janet Carnegie*

In this unit, students are provided with a critical introduction to the study of psychiatric disorders, especially as they present in general health settings. An historical introduction to the area is presented, issues of classification are discussed and attention is given to various theoretical perspective's that inform the area, especially behavioural, cognitive-behavioural and psychodynamic. Traditional psychiatric phenomena and disorders are examined in the light of these theories. Current policies and models of care are briefly considered.

Prerequisite: PHE1PHA, PHE1PHC or PSY1PYA.

Class requirements: thirteen 1-hour lectures and thirteen 1-hour tutorial seminars.

Assessment: one 1.5-hour examination (80%), one class presentation (20%).

Prescribed Reading:

Kings, A.M., Neale, J., Johnson, S.L. *Abnormal psychology* 10 Edn. New York: Wiley, 2007.

PHE3PFA PARTICIPATORY FIELD STUDY A (30. CPs Sem. TE-SEM-1 BU.)

Mr Rick Hayes, Dr Greg Murphy

It is also preferred that students complete unit PHE2CHP.

In this unit, BHSc students undertake a practice placement in a relevant organisation or agency in order to conduct approved tasks or various relevant activities designed to achieve specific learning objectives. The aim of the unit is to give students an opportunity to integrate theoretical concepts in a supervised practice based setting to strengthen relevant skills, for example, skills in project development and implementation. The seminar series seeks to orient students to practical concerns of a work environment and to gain a broad perspective of potential employment possibilities.

Prerequisite: PHE2EBD, PHE2LCI, PHE2HSD.

Class requirements: A minimum of 80 hours fieldwork is required, plus supporting weekly seminars (2 hours). Placements will be negotiated and discussed with students prior to commencement. Students will be expected to develop placement objectives with their agency supervisor which will be confirmed by unit coordinator.

Assessment: 15-20 minute seminar presentation (individual) (10%). Hurdle requirement: one 3000-word report (50%), one 2000-word learning journal report (25%), one 1500-word placement position description, and A4 flyer (15%).

PHE3PFB PARTICIPATORY FIELD STUDY B (30. CPs Sem. TE-SEM-2 BU.)

Mr Rick Hayes, Dr Greg Murphy

The aims of the unit are to give students an opportunity to integrate theoretical concepts in a supervised practice based setting to strengthen relevant skills, for example, skills in project development and implementation. The seminar series seeks to orient students to practical concerns of a work environment and to gain a broad perspective of potential employment possibilities.

Prerequisite: PHE2HSD, PHE2EBD and PHE2LCI.

Class requirements: A minimum of 80 hours fieldwork is required, plus supporting weekly seminars (two hours). Placements will be negotiated and discussed with students prior to commencement. Students will be expected to develop placement objectives with their agency supervisor which will be confirmed by subject coordinator.

Assessment: 15-20 minute seminar presentation (individual) (10%). Hurdle requirement: one 3000-word report (50%), one 1500-word placement position description and A4 flyer (15%), one 2000-word learning journal report (25%).

PHE3PFC PARTICIPATORY FIELD STUDY C (30. CPs Sem. TE-SEM-1 BU.) *Dr*

Bruce Rumbold

Unit only available to students enrolled in the Bachelor of Health Sciences/Bachelor of Pastoral Care degree and Bachelor of Pastoral Care (Grad Entry).

In this unit, students undertake a practice placement in a relevant organisation or agency in order to conduct approved tasks or various relevant activities designed to achieve specific learning objectives. The aim of the unit is to give students an opportunity to integrate theoretical concepts in a supervised practice based setting to strengthen relevant skills, for example, skills in project development and implementation. This unit is only available to students who are already undertaking another placement in same.

Class requirements: A minimum of 80 hours fieldwork is required, plus supporting weekly seminars (2 hours). Placements will be negotiated and discussed with students prior to commencement. Students will be expected to develop placement objectives with their agency supervisor which will be confirmed by unit coordinator.

Assessment: 15-20 minute seminar presentation (individual) (25%), one 3000-word report (50%). Hurdle requirement: submission of learning journal report (equivalent to 2000 words), one 1500-word placement position description and A4 flyer (25%).

PHE3PHP PUBLIC HEALTH PROGRAMS (30 CPs Sem. TE-SEM-1 BU.) *Dr*

Jane Pierson

In this unit students are introduced to the theory and practice of developing and assessing a range of public health programs, including community health programs that support the management of disability and illness and health promotion programs. A set of principles, general frameworks and strategies, relevant to the development and the assessment of such health interventions, is presented.

Prerequisite: PHE2EBD or PHE2LCI.

Class requirements: One 2-hour lecture and one 2-hour seminar per week, plus self-directed extra mural learning activities equivalent to two hours of classroom contact per week.

Assessment: One 2-hour examination (50%), one 4000-word practical report based on class exercises plus extra-mural research (50%).

Recommended Reading:

PHE3PPH PSYCHOSOCIAL PERSPECTIVES OF HEALTH AND ILLNESS

(15. CPs Sem. TE-SEM-2 BU.) *Dr Bruce Rumbold*

Offered subject to sufficient enrolments.

In this unit students examine the effects of social, cultural and attitudinal factors on individual responses to developmental and health state transitions and try to identify those social conditions which encourage independent functioning and the maintenance of health. Topic areas are selected from gender and health, technology and health, life-course transitions, and culturally diverse community groups.

Class requirements: 2-hours of lectures and 1-hour of tutorial per week.

Assessment: One 3000-word essay (70%), one 1000-word essay (30%).

Recommended Reading:

Browning, C and Thomas, S (Eds.) *Behavioural change: an evidence-based handbook for social and public health* Churchill Livingstone, 2005.

PHE3RDA RESEARCH DESIGN AND ANALYSIS (5.0 CPs Sem. TE-SEM-1 BU.)

Mr Stephen Polgar

In this unit, students are given the opportunity to develop their methodological skills beyond that achieved in earlier units. Students are able to explore the contribution of design, data collection and measurement towards ensuring more rigorous and effective clinical practice. Topics include designing and analysing studies using two groups, three or more groups, complex designs, correlation and simple and multiple regression.

Prerequisite: PHE2RMH.

Class requirements: One 2-hour lecture/seminar per week.

Assessment: Three 800-word group assignments (2 students per group) (100%).

Prescribed Reading:

Polgar, S., and Thomas, S. *Introduction to research in health sciences* 4th Edn. Edinburgh; Churchill Livingstone 2000.

PHE3SEP SPORT AND EXERCISE PSYCHOLOGY (15. CPs Sem. TE-SEM-1 BU.)

Dr Paul O'Halloran

In this unit, students focus on the scope, aims and techniques of sport and exercise psychology. The scope of sport psychology: its importance in changing community health behaviours; working with special groups such as disabled persons, elite athletes, and non-sport performers (for example, dancers), older populations, and individuals undergoing rehabilitation. The aim of sport psychology should not be limited to winning, but should be oriented to achieving personal goals, whether they be improving performance, improving fitness and health, or simply increasing enjoyment. Techniques include the use of cognitive-behavioural techniques to increase motivation, reduce competition anxiety, improve concentration, enhance teamwork, and manage stressors outside of the sport area (for example, work, study, family).

Class requirements: One 2-hour lecture and self-directed learning activities equivalent to one-hour of classroom contact per week.

Assessment: One 30-minute group presentation (20%), one 1500-word literature review (30%), one 1.5-hour written examination (50%).

Hurdle requirement: 75% class attendance and participation.

Recommended Reading:

Williams, J. Edn. *Applied sport psychology: personal growth to peak performance* 5th Edn. McGraw Hill: Boston 2006

PHE3SPH STUDIES IN PUBLIC HEALTH (30 CPs Sem. TE-SEM-1 BU.) Dr

Rae Walker

In this unit, students will examine the concepts and principles underpinning current public health practice. There is a critical analysis of different perspectives in public health including

environmental and social approaches. The effects of public health interventions and their implications are explored. These principles and assumptions are applied by students to contemporary public health case studies and health protection issues.

Prerequisite: PHE1HOA.

Class requirements: Two hours of lectures and two hours of tutorials per week plus self-directed activities equivalent to one-hour of classroom contact per week.

Assessment: One 4000-word individual essay (50%), one 2500-word individual tutorial paper (20%), one 1500-word group tutorial paper and 10-minute presentation (20%), group independent learning task (equivalent to 1500 words) (10%).

Prescribed Reading:

PHE4AIH ADVANCED ISSUES IN HEALTH (15. CPs Sem. TE-SEM-1 BU.)

Professor Pranee Liamputtong

In this unit students develop advanced skills and knowledge in understanding the relationships between theory and method in health research, clinical and non-clinical health practice and evaluation and applying this knowledge in practice. This unit includes examination of the relationships between ontologies, epistemologies, methodologies and methods used in the health domain. Interdisciplinary, transdisciplinary and multi-disciplinary theories and methods are presented for evaluation in terms of plausibility and efficacy. In addition, it provides students with an understanding of the various hierarchies of knowledge utilised in the health sciences (including the relationships between sociology, psychology, biomedicine, anthropology, economics, feminisms, etc.) and the impact of power relations on the theoretical and methodological debates.

Class requirements: One 3-hour seminar per week.

Assessment: One 1000-word report on four seminars/colloquia (25%).

Hurdle requirement: attendance at School/Faculty seminars and colloquia, one 3000-word theoretical framework (75%).

PHE4IAT INTRODUCTION TO ART THERAPY (10 CPs Sem. TE-SEM-1 BU.)

Ms Hannah Menahemi

Offered unit to sufficient enrolments.

In this unit students will explore art therapy through experiential learning. The focus will be the experience of art therapy as a non-verbal medium, to understand how art therapy 'works' through regular personal engagement in creative art experiential process with a variety of art media.

Quota: 20. Bachelor of Occupational Therapy students given priority and selected based on a preference system. Other students selected on a first come basis.

Class requirements: one 2-hour workshop/seminar per week.

Assessment: one class art project (equivalent to 500 words) (20%), one 1500-word essay (50%), one 10-minute individual class presentation of self, using multi art media (30%).

Recommended Reading:

Rubin, J. *Art therapy: an introduction* New York: Brunner/Mazel 1990.

Allen, P.B. *Art is a way of knowing* Boston: Shambala 1995.

PHE4RMH RESEARCH METHODS IN HEALTH 4 (15. CPs Sem. TE-SEM-1

BE. TE-W07-22 BU.) Professor Pranee Liamputtong

In this unit students develop advanced skills in a range of quantitative and qualitative research approaches directly applicable to research

and evaluation in the health sciences, as a preparation for an honours thesis. Students are introduced to advanced health research and evaluation skills, citation standards, literature review techniques, preparation of ethics applications, preparation and defence of the thesis protocol, and skills in thesis writing. Data analysis techniques relevant to the student's thesis are discussed.

Class requirements: 39 hours of lectures and workshops.

Assessment: One 4500-word methodology (100%).

Recommended Reading:

Thomas, S. *How to write health science papers, dissertations and theses* Edinburgh: Churchill Livingstone 2000.

Polgar, S., and Thomas, S. *Introduction to research in the health sciences* 4th Edn. Edinburgh: Churchill Livingstone 2000.

Liamputtong, P., and Ezzy, D. *Qualitative research methods: a health focus* Melbourne: Oxford University Press 2005.

Schwartz, M. and Polgar, S. *Statistics for evidence-based health care* Croydon: Tertiary Press 2003.

PHE4THA THESIS PREPARATION (15. CPs Sem. TE-SEM-1 AW, BU.) *AW: Dr*

Guin Threlkeld, BU: Dr Paul O'Halloran, Ms Dianne Williamson

This unit must be taken in conjunction with PHE4THB or equivalent

In this unit, students identify a significant research issue and, under supervision conduct a critical review of the literature relevant to the area of study. Students derive appropriate research questions, develop an appropriate research methodology, and prepare a project proposal and Ethics Committee submission. This unit must be taken in conjunction with PHE4THB or equivalent.

Co-requisite: PHE4THB.

Class requirements: Students participate in Project Committee meetings and meet with thesis supervisor on a regular basis.

Assessment: Ethics Committee submission (50%). This unit is graded as a pass or fail, one 3000-word research project proposal (50%).

PHE4THB THESIS (60. CPs Sem. TE-SEM-1 AW, BU. TE-SEM-2 AW, BU.) *AW:*

Dr Guin Threlkeld, BU: Dr Paul O'Halloran, Ms Dianne Williamson

This unit must be taken in conjunction with PHE4THA.

In this unit, students conduct and report on an original research project that addresses a significant research issue. Under supervision, students are required to conduct the planned study, select and conduct appropriate analyses, and write a report on the project. This unit must be taken in conjunction with PHE4THA.

Prerequisite: PHE4THA.

Class requirements: Students complete the project under supervision.

Assessment: one 10,000-12,000-word thesis (100%). This unit is taken in conjunction with PHE4THA.

POD1PBM PODIATRIC BIOMECHANICS 1 (10. CPs Sem. TE-SEM-2 BU.) *Dr*

Shannon Munteanu

In this unit students are introduced to a broad range of topics related to podiatric biomechanics. These include the evolutionary and embryological development of the lower limb, normal and abnormal mechanics and function of the lower limb and foot, the gait cycle, the development of footwear from both historical and psychosocial perspectives, shoe construction and footwear fitting. Aspects of footwear as diagnostic and therapeutic also investigated. Additionally, students will commence sessions looking at measurement of lower limb motion.

Co-requisite: HBS1ALF.

Class requirements: one 2-hour lecture and one 1-hour practical session per week.

Assessment: one 1.5-hour written examination (70%), one 1200-word literature review assignment (30%). Hurdle requirement: must pass both components.

Prescribed Reading:

current Edn. student manual *POD1PBM Recommended Reading:*

Valmassy, R.L. *Clinical biomechanics of the lower extremities* Mosby, St.Louis 1996.

Michaud, T. C. *Foot orthoses and other forms of conservative foot care* 2nd Edn. Williams and Wilkins Baltimore 1997.

POD1PCP PRECLINICAL PODIATRY (10. CPs Sem. TE-SEM-1 BU.) *Mr*

Matthew Oates

In this unit students are introduced to the concepts and principles which underpin podiatric practice and the delivery of professional health care services. Topics include orientation to the podiatry profession, infection control, medical ethics, record keeping and communication skills.

Class requirements: one 2-hour lecture and one 1-hour of self-directed learning (take-home tasks, web quests and readings) per week.

Assessment: one 1-hour 45-minute written examination (60%), one 1000-word journal article assignment (40%).

Recommended Reading:

Mitchell, K. R. and Lorat, T. J. *Bioethics for medical and health professionals* Social Sciences Press 1991.

Gardner, J. F. and Peel, M. *Introduction to sterilization, disinfection and infection control* 2nd Edn. Churchill Livingstone 1991.

Lorimer, D., French, G., O'Donnell, M., Burrow, G. and Wall, B. *Neale's disorder of the foot* 7th Edn. Churchill Livingstone 2005.

POD1PCS PODIATRIC CLINICAL SKILLS (10. CPs Sem. TE-SEM-2 BU.) *Mr*

Matthew Oates

In this unit students will have the opportunity to gain essential skills in podiatry practise. Integrating theoretical principles covered in POD1PDM and POD1PCP, the student will practise a variety of techniques utilised in the management of skin disorders, infection control principles, construction of simple dressings and pads, patient communication skills and record keeping. The student will also have the opportunity to observe podiatric practice in a clinical setting.

Class requirements: 26 hours of clinical practice and 7 hours of guided clinical observation.

Assessment: one 1500-word case study assignment (60%), one 15-minute Objective Structured Clinical Examination (OSCE) (40%).

Hurdle requirement: must pass both components as well as completion of clinical tasks and attendance at all clinical and observation sessions.

Recommended Reading:

Merriman, L.M. and Turner, W. *Clinical skills in treating the foot* 2nd Edn. Churchill Livingstone 2005.

POD1PDM PODIATRIC DERMATOLOGY (15. CPs Sem. TE-SEM-1 BU.) *Mr*

Daniel Bonanno

In this unit students undertake a comprehensive examination of the basic principles of podiatric management of cutaneous pathologies. Topics include structure and function of skin and its appendages, common infections of the lower extremity and their management, diagnostic principles, testing procedures and dermatological terminology. This unit will focus on dermatological conditions which are commonly encountered in podiatric practice.

Class requirements: two 2-hour lectures and one 1-hour of self directed learning per week.

Assessment: one 2.5-hour written examination (70%), one 1500-word group assignment (20%), one 15-minute class test (10%). Hurdle requirement: students must pass all components.

Recommended Reading:

Gawkrodger, D.J. *Dermatology: an illustrated colour text* Churchill Livingstone, 1992.

White, G.M., and Cox, N.H. *Diseases of the skin, a colour atlas and text* Mosby 2000.

Baran, R., Barth, J.H. and Dawber, R. *Nail disorders: common presenting signs, differential diagnosis and treatment* Martin Dunitz, 1991.

POD2PAS PODIATRIC ASSESSMENT (10. CPs Sem. TE-SEM-1 BU.) *Dr Adam*

Bird

In this unit students will be provided with a comprehensive foundation knowledge of the theories, principles and practice of assessment and diagnosis used in podiatry. The unit will cover examination and assessment procedures for vascular, musculoskeletal, neurological and osseous conditions related to the lower limb, by applying basic principles of diagnosis and various testing assessment techniques.

Prerequisite: HBS1ALF, POD1PDM, HBS1HBF, POD1PBM, POD1PCS.

Co-requisite: POD2PCP.

Class requirements: one 3-hour lecture per week.

Assessment: one 2-hour written examination (80%), one 1500-word group essay (students to work in pairs) (20%). Hurdle requirement: must pass both components.

Recommended Reading:

Tollafeld, L.M. and Merriman, D.R. *Assessment and diagnosis of the foot* Churchill Livingstone 1997.

Robbins, G.J. *Primary podiatric medicine* Saunders 1994.

POD2PBM PODIATRIC BIOMECHANICS 2 (10. CPs Sem. TE-SEM-1 BU.) Dr

Adam Bird

In this unit students learn about the relationships between abnormal locomotor function (patho mechanics) and the development of lower extremity pathology. A comparison is made to normal function of the human locomotor system. Additionally, a number of alternative biomechanical models of the foot are discussed, and students are encouraged to critically evaluate recent developments in the field.

Prerequisite: POD1PBM, HBS1ALF, HBS1BHM.

Co-requisite: POD2PAS, POD2PCP.

Class requirements: one 2-hour lecture and one 1-hour practical session per week.

Assessment: one 2.5-hour written examination (100%).

Recommended Reading:

Valmassey, R.L. *Clinical biomechanics of the lower extremities* C.V. Mosby 1996.

Michaud, T.C. *Foot orthoses and other forms of conservative foot care* Michaud, T.C. 1997.

POD2PCP PODIATRIC CLINICAL PRACTICE 2 (20 CPs Sem. TE-ALL-YR BU.)

Ms Felicity Prentice

In this unit students will begin to treat patients, consolidate their skills learned in the first year and develop professional clinical competencies. Practical application is made of knowledge gained from subject matter covered in podiatric assessment and management, biomechanics, anatomy, physiology and microbiology.

Prerequisite: HBS1APH, POD1PCP, POD1PDM, HBS1HBF, POD1PBM, POD1PCS, HBS1ALF.

Co-requisite: POD2PAS, POD2POA, POD2POB, POD2PBM, POD2PMX.

Class requirements: One 3-hour clinical session and one 2-hour clinical learning session per week for each semester (130 hours per year). All students are expected to undertake training in Level 1 CPR.

Assessment: One 1500-word case study/literature review assignment in semester one (10%), one 45-minute Objective Structured Clinical Exam in semester one (40%), one 45-minute Objective Structured Clinical Exam in semester two (50%). Hurdle requirements: students must pass all assessment components; attend all rostered clinical sessions; complete two practice exams (one per semester) and all clinical tasks as specified in manual.

Prescribed Reading:

Lorimer, D.L. *Neale's Disorders of the Foot: Diagnosis and Management* 7th Edn. Churchill Livingstone 2005.

Recommended Reading:

Logan, B., Singh, D., Hutchings, R. *McMinn's Colour Atlas of Foot and Ankle Anatomy* Mosby 2004.

POD2PLA PODIATRIC ANAESTHESIA (10. CPs Sem. TE-SEM-1 BU.) Ms

Lesley Newcombe

In this unit students study three main areas of theory related to local anaesthesia: chemistry and pharmacology of local anaesthetics, clinical use and administration of local anaesthetics, and the recognition and treatment of adverse drug reactions associated with the use of local anaesthetics. Students are introduced to the practical use of local anaesthetics, as throughout the latter part of the semester, under supervision, students perform a range of local anaesthetic practical sessions.

Prerequisite: POD1PCS, POD1PCP, HBS1ALF, HBS1APH, HBS1HBF.

Class requirements: one 2-hour lecture/practical per week and 13 hours self directed learning (CD-ROM showing injection techniques).

Assessment: one 1.5-hour written examination (100%). Hurdle requirement: students must also complete a 30-minute practical

clinical component demonstrating competency in administering an local anaesthetic. Students must pass both components.

Recommended Reading:

De Jong, R.W. *Local Anaesthetics* Mosby, St Louis. 1994.

POD2PMX PODIATRIC MANAGEMENT (10. CPs Sem. TE-SEM-2 BU.) Dr

Adam Bird

In this unit students will be provided with the opportunity to develop an understanding of the principles of prevention versus treatment, approaches to management planning, implementation of podiatric treatments, therapy and intervention techniques. A case-based problem-solving approach to the various dermatological, musculoskeletal, neurological and osseous conditions related to the lower limb will be used. Areas covered include treatment by means of padding, strapping and taping, orthoses, physical therapies and surgery.

Prerequisite: HBS1ALF, POD1PDM, HBS1HBF, POD1PBM, POD1PCS.

Co-requisite: POD2PCP, POD2POB.

Class requirements: one 3-hour lecture per week.

Assessment: one 2-hour written examination (80%), one 1500-word group essay on literature relevant to a case study (students work in pairs) (20%). Hurdle requirement: must pass both components

Recommended Reading:

Tollafeld, L.M. and Merriman, D.R. *Clinical skills in treating the foot*. 2nd Edn. Churchill Livingstone, 2005.

POD2POA PODIATRIC ORTHOTIC PRACTICE 2A (10. CPs Sem. TE-SEM-1

BU.) Mr Daniel Bonanno

In this unit students will be introduced to the materials and practical techniques for the fabrication/modification and manufacture of direct moulded foot orthoses and modification of prefabricated foot orthoses.

Prerequisite: HBS1BMT, HBS1ALF, POD1PCP, POD1PBM.

Co-requisite: POD2PAS, POD2PCP.

Class requirements: Self directed reading. One 2-hour 'Orthoses Learning Session' and one 2-hour practical session per fortnight.

Assessment: Completion of Direct Moulded EVA Device (30%), Modification of Prefabricated Orthoses (30%), objective assessment by clinical supervisor (10%), objective structure clinical Examination (OSCE) (30%)

Prescribed Reading:

POD2POA student manual Current Edn.

POD2POB PODIATRIC ORTHOTIC PRACTICE 2B (10 CPs Sem. TE-SEM-2

BU.) Mr Daniel Bonanno

In this unit students will build on the skills and knowledge obtained in POD2POA. Students will refine their skills in taking plaster impressions of the foot, plaster model modifications and the manufacture of functional foot orthoses.

Prerequisite: POD2POA.

Co-requisite: POD2PCP, POD2PMX.

Class requirements: Self directed reading. One 2-hour orthoses Learning Sessions' and one 2-hour practical session per fortnight.

Assessment: Completion of casted foot orthotic device (45%), objective assessment by clinical supervisor (10%), Objective Structure Clinical Examination (OSCE) (45%).

Prescribed Reading:

POD2POB student manual Current Edn.

POD3PCP PODIATRIC CLINICAL PRACTICE 3 (30 CPs Sem. TE-ALL-YR BU.)

Ms Felicity Prentice

In this unit students participate in advanced clinics in the diagnosis and management of a wide variety of podiatric cases, including paediatric, geriatric, sporting injuries and a range of systemic disorders, including high risk category patients. Students participate in specialist diagnostic clinics, including biomechanical, vascular, and new patient evaluations. In addition to the involvement in the Health Sciences Clinic located at Bundoora, students are placed in external clinics, in hospitals, community health centres and private practices. Attendance at all clinical sessions are compulsory.

Prerequisite: POD2PCP, POD2PLA, POD2PAS, POD2PMX.

Co-requisite: POD3POA, POD3POB, POD3PMD.

Class requirements: 234 hours of clinical practice during the year. Students will rotate between internal and external clinics. The external clinical placements comprise of 2 two-week block placement. The block placements occur at the end of each semester. It is expected that students will undertake a rural and a metropolitan placement. Prior to external clinical placements, students are required to hold a current CPR certificate, undergo a police check and provide evidence of up-to-date immunisation as outlined in the 3rd year manual.

Assessment: One 2000-word case study/literature review assignment in semester one (10%), One 60 minute Objective Structured Clinical Exam in Semester One (40%), one 60-minute Clinical Viva Examination in Semester Two (50%). Hurdle requirements: students must pass all assessment components; attend all rostered clinical sessions; complete two practice exams (one per semester) and all clinical tasks as specified in manual.

Recommended Reading:

Merriman, L.M. and Turner W. (Eds.) *Assessment of the lower limb* 2nd Edn. Churchill Livingstone 2002.

Turner, W. and Merriman, L.M. (Eds.) *Clinical skills in treating the foot* 2nd Edn. Churchill Livingstone 2005.

POD3PMD PODIATRIC MEDICINE (15. CPs Sem. TE-SEM-1 BU.) *Mr Craig Payne*

In this unit students will study the podiatric manifestations, treatment and management of a wide range of medical conditions which, affects the lower extremity. Emphasis is placed on diabetes mellitus, vascular disorders, neurological disorders and rheumatologic disorders.

Prerequisite: HBS2PPY, POD2PAS, POD2PMX.

Class requirements: two 2-hour lectures per week. Teaching is supported by online materials using WebCT.

Assessment: one 1.5-hour written examination (50%), one 1.5-hour written test (50%). Hurdle requirement: must complete 3 online WebCT modules to pass the unit.

Prescribed Reading:

POD3PMD current Edn. student manual.

POD3POA PODIATRIC ORTHOTIC PRACTICE 3A (5.0 CPs Sem. TE-SEM-1 BU.) *Dr Adam Bird*

In this unit, students will consolidate knowledge and skills developed in the first and second years of the orthotics program. Emphasis is placed on diagnosis, prescription, manufacture, dispensing and assessment of moulded orthotic devices, associated impression techniques and patient management.

Prerequisite: POD2POB, POD2POA.

Co-requisite: POD3PCP.

Class requirements: one 3-hour practical session per week.

Assessment: one 1500-word case study (100%). Hurdle requirements: completion of one pair of custom foot orthoses, completion of orthotic tasks and attendance.

Prescribed Reading:

POD3POA current Edn. student manual.

POD3POB PODIATRIC ORTHOTIC PRACTICE 3B (5 CPs Sem. TE-SEM-2 BU.) *Dr Adam Bird*

In this unit students will consolidate knowledge and skills developed in the prior components of the orthotics program. Emphasis is placed on the diagnosis, prescription, manufacture, dispensing and assessment of moulded orthotic devices, associated impression techniques and patient management.

Prerequisite: POD3POA.

Co-requisite: POD3PCP.

Class requirements: one 3-hour practical class per week.

Assessment: one 1500-word case study (100%). Hurdle requirement: completion of one pair of custom foot orthoses, task list and attendance.

Prescribed Reading:

POD3POB current Edn. student manual.

POD3PPH PODIATRIC PHARMACOLOGY (10 CPs Sem. TE-SEM-2 BU.) *Ms Lesley Newcombe*

In this unit the disease processes of particular interest to the podiatrist are examined and the indications and contraindications for

appropriate drug therapies are reviewed. The pharmacokinetics, dynamics and prescription protocols for schedule 4 drugs of interest to the podiatrist are covered in detail. The adverse effects and potential complications of these drugs are also discussed.

Prerequisite: HBS2PPY, MIC2MVM.

Co-requisite: POD3PCP, HBS3CPH.

Class requirements: three hours of lectures/practicals per week.

Assessment: one 1.5-hour written examination (80%), one 2000-word case study assignment (20%). Hurdle requirement: students must pass both components.

Recommended Reading:

Rang, H.P, Dale, M.M. and Ritter, J.M. *Pharmacology* 4th Edn. Churchill Livingstone, Edinburgh 1999.

POD3PSG PODIATRIC SURGERY: THEORY (10 CPs Sem. TE-SEM-1 BU.) *Ms*

Lesley Newcombe

In this unit, students will be given the opportunity to cover the general principals of podiatric surgery including pre-operative assessment and the indications for surgical procedures of the foot and ankle. Regional anaesthesia and regulations concerning sterile techniques are reviewed in relation to surgical practice both in the clinic and theatre setting. General surgery and trauma of the foot and ankle are discussed in terms of management principles and long term sequelae.

Prerequisite: POD2PLA, POD2PMX, POD2PAS, POD2PBM, POD2PCP.

Class requirements: one 2-hour lecture per week.

Assessment: one 2.5-hour written examination (100%).

Recommended Reading:

Dockery, G. *A colour atlas of forefoot surgery* Butterworth, 1994.

McGlamry, E.D. et al. *Comprehensive textbook of foot surgery, vols 1 and 2* 3rd Edn. Williams 2001.

POD3PSP PODIATRIC SPECIALISATIONS (15 CPs Sem. TE-SEM-2 BU.) *Mr*

Craig Payne

In this unit students will study in detail the lower extremity problems of specific population groups which are seen in podiatric practice, as well as issues involved in dealing with these groups. Topics covered include sports medicine, paediatrics, and geriatrics.

Prerequisite: HBS2PPY, POD2PAS, POD2PMX.

Class requirements: two 2-hour lectures per week.

Assessment: one 2.5-hour written examination (70%), one 1500-word assignment or one 20-minute oral presentation (30%).

POD3PST PODIATRIC SURGERY PRACTICE (10 CPs Sem. TE-ALL-YR BU.)

Ms Felicity Prentice

In this unit students will receive hands-on instruction in the performance of cutaneous surgery. They will participate in podiatric surgical clinics where principles of peri-operative management are put into practice and also participate in surgical clinical learning sessions (SLS). Students will also have the opportunity to assess patients post-operatively and be involved in their management.

Prerequisite: POD2PLA, POD2PMX, POD2PAS, POD2PBM, POD2PCP.

Co-requisite: POD3PSG.

Class requirements: 12 hours of supervised participation in internal podiatric surgical clinics and 12 hours of surgical learning sessions per semester.

Assessment: One 30-minute Observational Structure Clinical Examination (OSCE) (90%), objective assessment by clinical supervisor as per Podiatry Surgical Handbook (10%). Hurdle requirement: completion of surgical log and attendance.

Recommended Reading:

Dockery, G. *A colour atlas of forefoot surgery* Butterworth 1994

McGlamry E.D. et al. *Comprehensive textbook of foot surgery, vols 1 and 2* Williams 1992.

POD4PCP PODIATRY CLINICAL PRACTICE (45 CPs Sem. TE-SEM-1 BU. TE-SEM-2 BU.) *Ms Nikki Frescos*

In this unit students further develop, integrate and enhance treatment management skills. The clinical education is provided through the Health Sciences Clinic and other specialty facilities. The fourth year students also act as mentors and advisors working closely with third

years to guide them through history taking, patient assessment, treatment planning and implementation. It is a requirement that students have a current CPR certificate and have undertaken a police check and have up-to-date immunisation.

Prerequisite: HBS3CPH, POD3PMD, POD3POA, PHE3ARM, POD3POB, POD3PPH, POD3PSG, POD3PSP, POD3PCP, POD3PST.

Co-requisite: POD4PEC.

Class requirements: 234 hours supervised clinical placement in either first or second semester.

This unit is not available for study abroad students.

Assessment: one 45-minute clinical VIVA based on paediatric patient with a pathology affecting the lower limb (50%). Hurdle requirement: attendance at all scheduled clinical sessions. Must pass both components of clinical exam, one 45-minute clinical VIVA (face-to-face oral exam) based on lower limb sports injury (50%).

POD4PEC PODIATRY EXTERNAL CLINIC (45 CPs Sem. TE-SEM-1 BU. TE-SEM-2 BU.) *Ms Nikki Frescos*

In this unit students will rotate through a number of external clinic placement settings for periods ranging from one day to seven weeks. The placement settings include podiatric clinics in hospitals, community health centres and private practices. Students participate in clinics including: endocrinology, vascular pathology, orthopaedics, rheumatology, psychiatry, neurology, gerontology, dermatology, high risk infectious diseases, human locomotor studies, paediatrics, sports medicine and rehabilitation. It is a requirement that students have a current CPR certificate, have undertaken a police check and have up-to-date immunisation.

Prerequisite: HBS3CPH, POD3PMD, POD3POA, PHE3ARM, POD3POB, POD3PPH, POD3PSG, POD3PSP, POD3PCP, POD3PST.

Co-requisite: POD4PCP.

Class requirements: 272 hours of clinical practice. Students must have undertaken 20% of their placement by relevant semester census date. Students are required to maintain regular contact with the clinical coordinator by submitting a learning contract, mid and final placement reports and participating in an online chat forum, via WebCT.

Assessment: one individual learning contract, 8000-word equivalent (50%) Project carried out in external clinic, one 2500-word assignment, based on a case study or activity at the placement (35%). Hurdle requirement: completion of 272 hours on clinical placement, At least seven postings on WebCT, 1500-word equivalent (15%). Postings must be relevant to clinical placement practice.

Preliminary Reading:

TBA

POD4PHC PODIATRY HONOURS CLINICS (40 CPs Sem. TE-ALL-YR BU.) *Ms Nikki Frescos*

In this unit, Honours Students are provided with settings in which to extend their clinical knowledge and skills.

Prerequisite: HBS3CPH, POD3PMD, POD3POA, PHE3ARM, POD3POB, POD3PPH, POD3PSG, POD3PSP, POD3PCP, POD3PST.

Co-requisite: POD4PHT.

Class requirements: 234 hours of clinical practice which comprises a one-week block in private practice, 4-hour evening sessions at the Health Sciences clinic per week and 6-hour clinic supervision of second year students per week. It is a requirement that students must have a current CPR certificate and have up-to-date immunisation.

Assessment: One 45-minute clinical VIVA (face-to-face oral exam) based on lower limb sports injury (50%), one 45-minute clinical VIVA based on paediatric patient with a pathology affecting the lower limb (50%). Hurdle requirement: attendance at all scheduled internal and external clinical sessions. Must pass both components of clinical exam.

POD4PHT PODIATRY HONOURS THESIS (65 CPs Sem. TE-ALL-YR BU.) *Mr Craig Payne*

This unit is the major component of the B.Pod[Hons] year. In this unit students complete a research project, engaging in data collection and analysis of results, and prepare a thesis under the supervision of a staff member.

Prerequisite: HBS3CPH, POD3PMD, POD3POA, PHE3ARM,

POD3POB, POD3PPH, POD3PSG, POD3PSP, POD3PCP, POD3PST.

Co-requisite: POD4PEC.

Class requirements: Self-directed research equivalent to 12 hours of class contact per week plus 1-2 hour meetings with supervisor per week.

Assessment: One 12,000-word thesis (90%). Thesis must be equivalent in quality and style to an article acceptable for a refereed scientific journal, one 20-minute presentation of the research project (10%).

POD4PPJ PODIATRY PROJECT (15 CPs Sem. TE-ALL-YR BU.) *Coordinator to be advised*

In this unit, students will undertake project work in an area of specific interest in podiatry. The project topic and type are selected and developed by the student and discussed with a supervisor during the initial weeks of the unit. The project is conducted with ongoing liaison with the unit coordinator/appointed supervisor and may take the form of a literature review/evaluation, project work or the development of materials or a program including electronic and web based projects. A verbal presentation of the work undertaken is to be delivered at a negotiated time.

Prerequisite: HBS2NEU, PHE2RMH, POD2PAS, POD2PBM, POD2PCP, POD2PLA, POD2POA, HBS2PPY, MIC2MVM, POD2PMX, POD2POB.

Class requirements: This unit consists of self directed study over the year equivalent to 5-6 hours per week. Meetings with project supervisors will be scheduled as required to offer support and facilitate project development.

Assessment: one 4000-word assignment (75%), one 20-minute presentation (25%).

Prescribed Reading:

Various sources Handouts to be given and students to source readings specific to their area of study.

POD4WPP WRITING A PODIATRIC PUBLICATION (10 CPs Sem. TE-ALL-YR BU.) *Coordinator to be advised*

In this unit, students will select and research an area of podiatry, and write a paper that would be suitable for submission for publication to a scientific journal. The topic and paper type are chosen by the student and developed in collaboration with a supervisor, in the first two weeks of the unit. Examples of appropriate paper types include literature reviews, case reports or discussion papers pertaining to relevant clinical practice/practice management issues. Students are encouraged to utilise experiences from internal and external clinical placements when developing topics, collecting resources and undertaking writing, for this unit.

Prerequisite: HBS2NEU, PHE2RMH, POD2PAS, POD2PBM, POD2PCP, POD2PLA, POD2POA, HBS2PPY, MIC2MVM, POD2PMX, POD2POB.

Class requirements: This unit consists of self-directed study over the whole year of approximately 4-hours per week. Meetings with project supervisors will be scheduled as required to offer support and facilitate development of the paper.

Assessment: one 3000-word assignment written in a format for publication (100%).

Prescribed Reading:

Various sources Handouts to be given by Podiatry supervisors Students to be notified at commencement of semester or teaching.

POI10AI INTRODUCTION TO APPLIED ORTHOTICS (5 CPs Sem. TE-W47-06 BU.) *Mr Anthony Francis*

In this unit, students are introduced to design and fabrication of orthoses for the spine and upper limbs. Further emphasis of safe laboratory and management skills.

Co-requisite: POI1SUL.

Class requirements: one 3-hour laboratory session per week.

This unit is not available for study abroad students.

Assessment: One orthotic project submitted during semester, 1250-words equivalent (100%).

Prescribed Reading:

POI10AI current Edn. student manual.

Recommended Reading:

Bowker, P., Condie, D., Bader, D. and Pratt, D. Wallace, W.A.(Eds.) *Biomechanical basis of orthotic management*. Butterworth Heinemann 1993.

POI2CEB CLINICAL EDUCATION B (5 CPs Sem. TE-W47-06 BU.) Ms

Kaisha Gurry

In this unit students undertake a one week block of prosthetic and orthotic experience. There is opportunity for students to observe the functioning of a centre, and management in relation to the Prosthetist and Orthotist. Students will also gain an understanding of the interdisciplinary team approach to health care and reinforce their theoretical knowledge from a client management view point.

Prerequisite: POI2CPB, POI2OTA, POI2TTT.

Co-requisite: POI1OAI, POI2OAA, POI2TTA.

Class requirements: 1-week of clinical experience during the summer semester.

This unit is not available for study abroad students.

Assessment: satisfactory performance during placement assessed by established criteria (70%). Hurdle requirement: students must pass both components to receive a pass in this unit, one 500-word assignment (30%).

Recommended Reading:

Frankel, V. and Norden, M. *Basic biomechanics of the skeletal system* Lea and Febieger 1980.

Robbins, S.L. and Kumar, V. *Basic pathology* 4th Edn. W. B. Saunders 1987.

Urdang. *Medical and nursing dictionary* C.V Mosby 1983.

POI2OAA APPLIED LOWER LIMB ORTHOTICS A (5 CPs Sem. TE-W47-06

BU.) Mr Anthony Francis

In this unit students gain knowledge and skills in the assessment, prescription, casting, fabrication, alignment and evaluation of ankle-foot orthoses. Students are required to demonstrate effective communication skills with clients and colleagues. The unit includes applied orthotic theory, anatomy, pathology and biomechanics relevant to foot and ankle-foot orthotic management.

Prerequisite: POI2CPB, POI2OTA.

Class requirements: Distance education unit equivalent to 24 hours of demonstration, clinical and practical classes.

This unit is not available for study abroad students.

Assessment: One orthotic project (equivalent to 1250 words) due during the semester (100%).

Prescribed Reading:

Bowker, P., Condie, D., Bader, D. and Pratt, D. Wallace, W.A.(ed.). *Biomechanical basis of orthotic management* Butterworth Heinemann 1993.

POI2TTA APPLIED TRANSTIBIAL PROSTHETICS (10 CPs Sem. TE-W47-06

BU.) Mr Les Barnes

In this unit students gain skills and knowledge in assessment, prescription, design, casting, fabrication, fitting and alignment for trans-tibial prostheses. The student is expected to communicate effectively with amputee clients and colleagues. Includes applied trans-tibial prosthetic theory and areas of applied anatomy, pathology and biomechanics appropriate to the level of prosthetic management.

Prerequisite: POI2CPB, POI2TTT.

Class requirements: one 2-hour laboratory, one 1-hour clinic and one 1-hour tutorial per week.

This unit is not available for study abroad students.

Assessment: Three prosthetic projects, equivalent to 1000 words each (100%). Each project is worth 33.3%. Hurdle requirement: students must pass each project to pass unit.

Prescribed Reading:

American academy of orthopaedic surgeons. *Atlas of limb prosthetics* 2nd Edn. Mosby 1995.

Canadian association of prosthetists and orthotists. *Clinical aspects of lower extremity prosthetics: trans-tibial, symes and partial foot amputations* Elgan Enterprises 1991.

POI3OAB APPLIED LOWER LIMB ORTHOTICS B (5 CPs Sem. TE-W47-06

BU.) Ms Margaret Hodge

In this unit, students are provided with knowledge and skills in the assessment, prescription, casting, alignment and evaluation of hip, knee and knee-ankle-foot orthoses. Students are required to demonstrate effective communication skills with clients and colleagues. The unit includes applied orthotic theory, anatomy, pathology and biomechanics relevant to hip, knee and knee-ankle-foot orthotic management.

Prerequisite: POI2CPB, POI3OTB, POI2OTA.

Co-requisite: POI2OAA.

Class requirements: 26 hours block mode equivalent to 2 hours of demonstration, clinic or practical class per week.

This unit is not available for study abroad students.

Assessment: one orthotic project, 1250-word equivalent (100%).

Prescribed Reading:

Bowker, P., Condie, D., Bader, D. and Pratt, D. Wallace, W.A.(Ed.). *Biomechanical basis of orthotic management* Butterworth Heinemann, 1993.

NCPO staff *POI3OAB Practical manual* Current Edn. student manual

POI3TFA APPLIED TRANSFEMORAL PROSTHETICS (10 CPs Sem. TE-SEM-S

BU.) Dr Michael Dillon

In this unit, students gain clinical skills and knowledge in assessment, prescription, design, casting, fabrication, fitting and alignment for trans-femoral prostheses. Student are expected to communicate effectively with amputee clients and colleagues. Includes applied trans-femoral prosthetic management and areas of anatomy, pathology and biomechanics appropriate to the level of prosthetic management.

Prerequisite: POI2CPB, POI3TFT, POI2TTT or recognised study in a previous trans-fem prosthetics program.

Co-requisite: POI2TTA.

Class requirements: The unit will be delivered in an intense teaching block over two weeks. Students will undertake about 52 hours of practical tuition comprising demonstrations, tutorials clinical as well as technical work.

This unit is not available for study abroad students.

Assessment: one trans-femoral project, 2500-word equivalent (100%).

POR1CEA CLINICAL EDUCATION A (5.0 CPs Sem. TE-W26-26 BU. TE-W27-

27 BU.) Miss Angela Scardamaglia

In this unit, students are assigned to prosthetic and orthotic clinical facilities for block clinical placements in which they are familiarised with clinical practice in prosthetics and orthotics. The placement provides experiential contact with the clinical environment and introduces students to observational and recording practices. Students may be involved in practical prosthetic and orthotic tasks during these placements.

Co-requisite: POR1CPI.

Class requirements: one week of full-time clinical placement (35 hours) during the mid year break.

Assessment: clinical performance in placement (100%) completion of minimum requirements and submission of log book.

POR1CPI INTRODUCTION TO PROSTHETIC AND ORTHOTIC CLINICAL

PRACTICE (5 CPs Sem. TE-SEM-1 BU.) Mr Wes Pryor

In this unit, students will be introduced to the role of the prosthetist and orthotist and learn the use of appropriate language, terminology and behaviour to function within a multi-disciplinary professional environment. Students will be given a history of the development of prosthetics and orthotics, as well as an introduction to the prosthetic and orthotic treatment process, medical record keeping, confidentiality, infection control, occupational health and safety issues for working within public and private facilities, health-care systems such as case mix and the role of medical, nursing and allied health professionals in health care.

Class requirements: four 1-hour tutorials throughout the semester and one 1-hour of self directed learning on the web per week.

Assessment: Group Written Assignment (500-word equivalent)

(50%). Students are allocated into assignment groups and prepare a paper related to one of the key topic areas, Two 30-minute quizzes (50%). Quiz A examines modules 1-3, Quiz B examines modules 4. Each quiz will consist of 520 multiple choice questions and one extended response.

Prescribed Reading:

All prescribed readings are provided online in digital format

POR1OAI INTRODUCTION TO APPLIED ORTHOTICS (10 CPs Sem. TE-SEM-2 BU.) *Mr Anthony Francis*

In this unit, students are introduced to design and fabrication of orthoses for the spine and upper limbs. Further emphasis of safe laboratory and management skills.

Co-requisite: POR1SUL.

Class requirements: two 3-hour laboratory sessions per week.

Assessment: Three orthotic projects submitted during semester, 1500 words equivalent each (100%). Hurdle requirement: must pass all projects

Prescribed Reading:

POR1OAI current Edn. student manual

Recommended Reading:

Bowker, P., Condie, D., Bader, D. and Pratt, D. Wallace, W.A.(Eds.). *Biomechanical basis of orthotic management* ButterworthHeinemann 1993.

POR1PTI INTRODUCTION TO PROSTHETICS (15 CPs Sem. TE-SEM-1 BU.)

Mr Les Barnes

In this unit, students are introduced to theoretical and applied applications in prosthetics with particular emphasis on upper limb componentry, design and fitting. Safe laboratory practice and management skills are also covered.

Class requirements: one 2-hour lecture and two 3-hour laboratory sessions per week .

Assessment: one 1.5-hour written exam (40%), one 1000-word assignment (20%), one 10-minute oral presentation (10%). Projects: 1 transradial training prosthesis (1000-word equivalent) and 3 prosthetic (125-word equivalent each) (30%). Must pass all components to pass unit.

Prescribed Reading:

POR1PTI current Edn. student manual

Recommended Reading:

Shurr, D.G. and Cook, T.M. *Prosthetics and orthotics* Appleton and Lange 1990.

POR1SUL THEORY OF SPINAL AND UPPER LIMB ORTHOTICS (10 CPs Sem. TE-SEM-2 BU.) *Mr Anthony Francis*

In this unit students gain knowledge in the use of appropriate terminology used in orthotics. Knowledge of orthotic theory including principles, the treatment process, assessment prescription considerations and biomechanical basis of upper limb and spinal orthotic management. Orthotic treatments of a variety of upper limb and spinal pathologies are presented in the context of multi-disciplinary care. This unit includes applied anatomy, pathology and biomechanics relevant to upper limb and spinal orthotic management.

Co-requisite: POR1OAI, HBS1ALB.

Class requirements: one 2-hour and one 1-hour lecture/tutorial per week.

This unit is not available for study abroad students.

Assessment: one 1.5-hour written examination (60%), one 1000-word assignment (30%), one 10-minute oral presentation (equivalent to 500-words) (10%). Hurdle requirement: must pass all components to pass subject.

Prescribed Reading:

POR1OTI/POR1OAI current Edn. student manual

Recommended Reading:

Shurr, D.G and Cook, T.M. *Prosthetics and orthotics* Appleton and Lange 1990.

POR2CPB PATIENT EVALUATION (15 CPs Sem. TE-SEM-1 BU.) *Ms Sarah Anderson*

In this unit students are introduced to the theory and practice of prosthetic and orthotic patient evaluation. Principles of normal and pathological body postures and function are addressed and particular attention is directed to the assessment of musculoskeletal and neuromuscular disorders affecting the limbs and spine. Practical sessions provide experience in assessment techniques.

Prerequisite: POR1CPI, HBS1ALB and HBS1APH.

Co-requisite: POR2OAA, POR2OTA and HBS2NEU; or HBS2NEU and POR2OTA.

Class requirements: Distance education package equivalent to 9 hours lectures and 18 hours clinical sessions across the semester.

Assessment: one 1-hour written examination (40%), one 20-minute clinical assessment (40%), one 20-minute oral presentation (20%). Hurdle requirement: must pass all components to pass unit.

Prescribed Reading:

Hoppenfeld, S. *Physical examination of the spine and extremities* Appleton Century Crofts 1976.

POR2OAA APPLIED LOWER LIMB ORTHOTICS A (15 CPs Sem. TE-SEM-1 BU.) *Mr Anthony Francis*

In this unit students will cover knowledge and skills in the assessment, prescription, casting, fabrication, alignment and evaluation of foot and ankle-foot orthoses. Students are required to demonstrate effective communication skills with clients and colleagues. The unit includes applied orthotic theory, anatomy, pathology and biomechanics relevant to foot and ankle-foot orthotic management.

Prerequisite: POR1SUL, POR1OAI, HBS1ALB, HBS1BHM.

Co-requisite: POR2CPB, POR2OTA.

Class requirements: one 1-hour demonstration, one 2-hour clinical and one 3-hour practical per week.

Assessment: five orthotic projects (equivalent to 750 words each) due during the semester (100%). Hurdle requirement: must pass all projects

Prescribed Reading:

Bowker, P., Condie, D., Bader, D. and Pratt, D. Wallace, W.A.(Eds..) *Biomechanical basis of orthotic management* Butterworth Heinemann 1993.

POR2OMF ORTHOTIC MANAGEMENT OF FRACTURES (15 CPs Sem. TE-SEM-2 BU.) *Ms Sarah Anderson*

In this unit, students will be given the opportunity to cover specialised knowledge and skill in the assessment, prescription, fitting and evaluation of removable and non-removable orthoses for upper and lower limb fracture management. Theory includes an introduction to medical imaging and the biology of fractures as well as principles and clinical applications of fracture orthoses. Practical experience in the application of fracture orthoses is provided.

Prerequisite: POR2CPB, POR2OTA and POR2OAA; or POR2CPB, POR2OTA, HBS1ALB and POR1SUL.

Class requirements: one 1-hour lecture, one 1-hour demonstration or tutorial and one 2-hour clinic session per week.

Assessment: four orthotic projects due during the semester, each 500-word equivalent (50%), one 1.5-hour written examination (40%), one case study/take-home test in radiology, equivalent of 250 words (10%). Hurdle requirement: must pass all components

Prescribed Reading:

Sarmiento, A. and Latta, L.L. *Functional fracture bracing* Springer verlag 1995.

McRae, R. *Practical fracture treatment* Churchill Livingstone 1994.

POR2OTA THEORY OF LOWER LIMB ORTHOTICS A (15 CPs Sem. TE-SEM-1 BU.) *Ms Margaret Hodge*

In this unit, students gain knowledge of orthotic theory including principles, the treatment process, assessment, prescription considerations and biomechanical basis of lower limb orthotic management. Orthotic treatment of a variety of foot and ankle-foot pathologies are presented in the context of multi-disciplinary care. Includes applied anatomy, pathology and biomechanics relevant to foot and ankle-foot orthotic management.

Prerequisite: HBS1ALB, POR1SUL POR1OAI and HBS1BHM.

Co-requisite: POR2CPB and POR2OAA.

Class requirements: two 2-hour lectures, tutorials or demonstration sessions per week, some are provided via online methods.

Assessment: one 1.5-hour written examination (50%), one 10-minute oral presentation during the semester (10%), one 1500-word written assignment (30%). Hurdle requirements: students are required to pass all components to pass subject, one 30 minute mid-semester quiz (equivalent to 500-words) (10%).

POR2TTA APPLIED TRANSTIBIAL PROSTHETICS (15 CPs Sem. TE-SEM-2 BU.) *Mr Les Barnes*

In this unit, students will cover skills and knowledge in assessment, prescription, design, casting, fabrication, fitting and alignment for transtibial prostheses. The student is expected to communicate effectively with amputee clients and colleagues. Includes applied transtibial prosthetic theory and areas of applied anatomy, pathology and biomechanics appropriate to the level of prosthetic management.

Prerequisite: POR1PTI, HBS1BHM, POR2CPB, HBS1ALB.

Co-requisite: POR2TTT.

Class requirements: 6 hours per week including a mix of clinical work, laboratory / fabrication work and demonstrations.

Assessment: four prosthetic projects, equivalent to 1000 words each (100%). Each project is worth 25%. Hurdle requirement: students must pass each project to pass unit.

Prescribed Reading:

American academy of orthopaedic surgeons. *Atlas of limb prosthetics* 2nd Edn. Mosby, 1995.

Canadian association of prosthetists and orthotists. *Clinical aspects of lower extremity prosthetics: transtibial, symes and partial foot amputations* Elgan Enterprises 1991.

POR2TTT THEORY OF TRANSTIBIAL PROSTHETICS (15 CPs Sem. TE-SEM-2 BU.) *Mr Les Barnes*

In this unit, students will be given the opportunity to cover knowledge in prosthetic principles, assessment, prescription considerations and design possibilities for transtibial prostheses. Includes applied anatomy, pathology and biomechanics appropriate to the level of prosthetic management.

Prerequisite: POR1PTI, HBS1BHM and HBS1ALB.

Co-requisite: POR2TTA .

Class requirements: one 2-hour lecture and one 2-hour tutorial per week.

Assessment: one 1.5-hour written exam (45%), one 1500-word written assignment (35%), one 20-minute individual oral presentation (20%). Hurdle requirement: Must pass all components.

Prescribed Reading:

American academy of orthopaedic surgeons. *Atlas of limb prosthetics* 2nd Edn. Mosby 1992.

Canadian association of prosthetists and orthotists. *Clinical aspects of lower extremity prosthetics: transtibial, symes and partial foot amputations* Elgan Enterprises 1991.

POR3BCD ESTABLISHING BASES FOR CLINICAL DECISIONS (10 CPs Sem. TE-SEM-1 BU.) *Mr Wesley Pryor*

In this unit, students consider Evidence-Based Practice (EBP) principles of clinical decision-making, set in a prosthetics and orthotics context. A variety of topics are examined including clinical decision-making, EBP, development (evaluation and design) and research processes; designing for persons with disabilities; ethical considerations in research and all components of research and development (R&D) proposal preparation. Emphasis is placed on R&D methods, literature review, proposal question and aims, outcome measurement, method design, data presentation and analysis. Students apply EBP techniques and R&D processes to generate a proposal for a development or research project.

Prerequisite: POR2CPB, POR2OAA, POR2OTA, POR2TTT and POR2TTA.

Class requirements: one 2-hour lecture or one 1-hour seminar / tutorial per week.

Assessment: one 2500-word written assignment (90%), one 250-word computer based assignment (10%). Hurdle requirement: students must present one 5-minute oral presentation (not assessed) and are required to pass all components to pass unit.

POR3ISP PROSTHETICS AND ORTHOTICS INDEPENDENT STUDY PROJECT (15 CPs Sem. TE-SEM-2 BU.) *Dr Tim Bach*

In this unit students are involved in directed study or research by students working independently or in small groups. Two streams are possible. A clinical challenges stream involves completion of a number of small problem-based learning tasks. A research stream involves completion of a single, more extended research or development project.

Prerequisite: POR3BCD.

Class requirements: one 2-hour lecture/tutorial every second week and five hours of independent project work per week.

Assessment: one 20-minute oral presentation (30%). Students working in pairs present an oral presentation of 20 minutes, a total of 3000 words written assessment (70%). Hurdle requirement: must pass all components to pass subject.

POR3OAB APPLIED LOWER LIMB ORTHOTICS B (15 CPs Sem. TE-SEM-2 BU.) *Mr Anthony Francis*

In this unit, students are provided with knowledge and skills in the assessment, prescription, casting, fabrication, alignment and evaluation of hip, knee and knee-ankle-foot orthoses. Students are required to demonstrate effective communication skills with clients and colleagues. The unit includes applied orthotic theory, anatomy, pathology and biomechanics relevant to hip, knee and knee-ankle-foot orthotic management.

Prerequisite: POR2OTA, POR2OAA, POR2CPB.

Co-requisite: POR3OTB.

Class requirements: one 1-hour demonstration, one 2-hour clinic and one 3-hour practical per week.

Assessment: completion of one knee-ankle-foot orthosis, 2400-word equivalent (60%), completion of one knee-ankle-foot orthosis cast, 800-word equivalent (20%), completion of one patient assessment for knee ankle foot orthosis, 800-word equivalent (20%). Hurdle: completion of 1 diagnostic cast, 400-word equivalent and 1 prefabricated orthosis tutorial, 100-word equivalent. Must achieve satisfactory standard of all orthotic projects and patient assessments.

Prescribed Reading:

Bowker, P., Condie, D., Bader, D. and Pratt, D. Wallace, W.A.(ed.). *Biomechanical basis of orthotic management* Butterworth Heinemann 1993.

NCPO staff *POR3OAB Practical Manual* Current Edn. student manual

POR3OTB THEORY OF LOWER LIMB ORTHOTICS B (15 CPs Sem. TE-SEM-2 BU.) *Ms Margaret Hodge*

In this unit, students will be given the opportunity to increase their depth of knowledge of orthotic theory, including principles, the treatment process, assessment, prescription considerations and biomechanical basis of lower limb orthotic management. Orthotic treatment of a variety of hip, knee and knee-ankle-foot pathologies is presented. The unit includes applied hip, knee and knee-ankle-foot orthotic management, as well as anatomy, pathology and biomechanics relevant to hip, knee and knee-ankle-foot orthotic management.

Prerequisite: POR2OTA, POR2OAA and POR2CPB; or POR2OTA, POR2CPB, HBS1ALB and POR1SUL.

Co-requisite: POR3OAB.

Class requirements: two 2-hour lectures, tutorials or demonstration sessions per week, some are provided via online methods.

Assessment: one 1500-word written assignment (40%), one 2-hour written exam (50%), one 30-minute quiz, equivalent to 500-words (10%). Hurdle requirement: must pass all components to pass.

Prescribed Reading:

Bowker, P. Condie, D. Bader, D. and Pratt, D. Wallace, W.A.(Eds.). *Biomechanical basis of orthotic management* Butterworth Heinemann 1993.

POR3PGA PATHOLOGICAL GAIT ANALYSIS (15 CPs Sem. TE-SEM-1 BU.)

Dr Tim Bach

Offered subject to sufficient enrolments.

In this unit students will cover current research in pathological gait biomechanics related to restoration and rehabilitation of lower limb

function. It provides students with an opportunity to review normal human locomotion and the gait patterns characteristic of various gait pathologies with special emphasis on prosthesis and orthosis users. Instrumentation systems used in gait analysis are reviewed.

Prerequisite: HBS1BHM or equivalent.

Recommended Prior Studies: Prior knowledge of prosthetic/orthotic theory is recommended.

Class requirements: one 2-hour lecture and one 2-hour seminar per week.

Assessment: one 1500-word take-home written examination (35%), one 20-minute individual verbal presentation (20%), one compendium of resources (equivalent to 500-words) related to pathological gait (10%). Hurdle requirement: must pass all components to pass subject, one 1500-word assignment (35%).

POR3TFA APPLIED TRANSFEMORAL PROSTHETICS (15 CPs Sem. TE-SEM-1 BU.) *Dr Michael Dillon*

In this unit, students gain clinical skills and knowledge in assessment, prescription, design, casting, fabrication, fitting and alignment for transfemoral prostheses. Student are expected to communicate effectively with amputee clients and colleagues. Includes applied transfemoral prosthetic management and areas of anatomy, pathology and biomechanics appropriate to the level of prosthetic management.

Prerequisite: POR2TTT, POR2TTA.

Co-requisite: POR3TFT.

Class requirements: 6 hours per week including a mix of clinical work, laboratory / fabrication work and demonstrations.

This unit is not available for study abroad students.

Assessment: one 15-minute clinical exam (10%), one 450-word medical record entry (20%), one cast assessment (10%), one complete transfemoral prosthesis (40%), one transfemoral cast and modification (20%). Students must pass all projects to pass unit.

POR3TFT THEORY OF TRANSFEMORAL PROSTHETICS (15 CPs Sem. TE-SEM-1 BU.) *Dr Michael Dillon*

In this unit, students will be given the opportunity to cover knowledge of prosthetic principles, assessment, prescription considerations and design possibilities for transfemoral prostheses; including applied anatomy, pathology and biomechanics appropriate to the level of prosthetic management.

Prerequisite: POR2TTT, POR2TTA.

Co-requisite: POR3TFA.

Class requirements: 4 hours per week, including a mix of lectures and tutorials, averaging 3 hours of lectures and 1-hour of tutorial per week.

This unit is not available for study abroad students.

Assessment: one 1.5-hour final exam (50%), two 45-minute quizzes (30%), one 1000-word self directed learning task (20%). Hurdle requirement: must pass all components.

POR3ULP UPPER LIMB PROSTHETICS (10 CPs Sem. TE-SEM-2 BU.) *Mr Les Barnes*

A pass grade must be attained in POR2CPB in order to maintain enrolment in this unit.

In this unit, students are provided with knowledge in the assessment, prescription, casting, fabricating, fitting and aligning of upper limb prostheses. Includes applied anatomy and biomechanics of the upper limb relevant to upper limb prosthetic function. Students are expected to communicate effectively with clients and colleagues during this unit.

Prerequisite: POR1PAI, POR1PTI and HBS1ALB; or HBS1ALB, POR1SUL and HBS1BMT

Class requirements: one 2-hour lecture, or clinical demonstration and one 2-hour laboratory class per week.

Assessment: one 750-word written assignment (20%), one 1.5-hour written examination (50%), one prosthetic project, equivalent of 750 words (30%). Hurdle requirement: students must pass all components to pass this unit.

POR4CEH CLINICAL EDUCATION H (30 CPs Sem. TE-W14-23 BU, OS.) *Miss Angela Scardamaglia*

In this unit students are assigned to prosthetic and orthotic clinical facilities for block clinical placements. Students, while working under

supervision, are required to demonstrate initiative and ability in the areas of clinical activities, patient treatments and laboratory work. They are expected to participate as a team member and provide patient evaluations and relevant prosthetic and orthotic solutions including fitting and objective critiques of their treatment procedures.

Prerequisite: POR2CEB, POR3TFT, POR3TFA, POR3OTB, POR3OAB.

Co-requisite: POR4HLR.

Class requirements: 280 hours of block placement in first semester. Students are expected to participate in weekly online tutorials with the unit coordinator whilst on placement.

Assessment: one 70-minute clinical examination (90%). Hurdle requirement: must pass all components to pass unit, objective assessment by clinical supervisor (10%).

POR4HLR HONOURS LITERATURE REVIEW (30. CPs Sem. TE-SEM-1 BU.)

Dr Tim Bach

Acceptance into honours stream is prerequisite.

In this unit students are provided with the opportunity to review and evaluate literature in an area related to prosthetics and orthotics. Students will select a topic for review after consultation with their supervisor. Normally, the literature review forms a chapter of the honours thesis, although it may involve an investigation of an area which is broader than, or substantially different from, that of the honours thesis project.

Class requirements: one 2-hour seminar each week. Students are also expected to meet weekly with their supervisor and to participate in the school seminar series when scheduled.

Assessment: one 1500-word critique of a research article - due mid-June (25%), one 5000-word literature review due end of Semester 1 (50%), one 20 -minute oral presentation in mid-April (25%). Due dates may vary as a result of clinical education placement arrangements. Hurdle requirement: must pass all components to pass unit.

POR4HRP HONOURS RESEARCH PROJECT (60. CPs Sem. TE-SEM-2 BU.)

Dr Tim Bach

Acceptance into honours stream is prerequisite.

Students complete an independent research project under the direction of their supervisor. The project may take the form of an experiment, a case study or a survey as determined in consultation with the student's supervisor. The projects should have potential to make a worthwhile contribution to prosthetics and/or orthotics knowledge.

Co-requisite: POR4CEH, POR4HLR.

Class requirements: one 2-hour seminar per week. Students are also expected to consult regularly with their supervisor and to participate in the School seminar series when scheduled.

Assessment: one 10,000 to 12,000-word thesis (80%), one 20-minute oral presentation of the thesis (20%).

PTY1CLP PHYSIOTHERAPY CLINICAL PRACTICE 1 (10 CPs Sem. TE-ALL-YR BU.) *Ms Marilyn Mackenzie*

In this unit students will prepare for their first clinical experience. The theory component provides a framework to explore patients' experiences within the healthcare system. The focus is on empathetic, safe and ethical practice. The practical component covers manual handling, mobility aids, record writing and universal precautions and immediately precedes the clinical experience. The clinical experience allows students to observe health care delivery in a variety of work place settings, to apply the knowledge and skills taught in this and other first year subjects to client management, and to develop interpersonal skills and professional behaviours and attitudes.

Co-requisite: HBS1APA, HBS1PPA, PHE1PHC, PTY1PSA, HBS1APB, HBS1BBE, HBS1BHM, PHE1RMH, PTY1PSB.

Class requirements: Web based learning modules equivalent to 14 hours of classroom contact, three 1.5-hour practical classes and two 1-hour tutorials prior to clinical experience. One week (32 hours) of clinical experience. Clinical experience will be scheduled in one week of either mid-year, mid-semester 2 vacation or end of semester vacations.

This unit is not available for study abroad students.

Assessment: Continuous clinical assessment (50%). Assessment is performed by the supervising physiotherapist at the completion of the

one-week clinical experience, 1500-word portfolio (50%). The portfolio is assessed by the unit coordinator.

Prescribed Reading:

Worksafe Victoria *Transferring people safely: a practical guide to managing risk* Victorian Workcover Authority 2002.

PTY1PSA PHYSIOTHERAPY SKILLS A (15 CPs Sem. TE-SEM-1 BU.) *Ms*

Rowena English

In this unit students are introduced to the study of normal human movement and the relationship between structure and function. It also provides an introduction to physiotherapy assessment and treatment techniques related to the lower limb. Consideration will be given to normal and abnormal movement with an emphasis on safety, effectiveness and handling skills.

Co-requisite: HBS1APA, HBS1PPA, PHE1HHB, PTY1CLP.

Class requirements: Two 1-hour lecture, one 1-hour tutorial, two 1.5-hour practical classes and one 1-hour practical class per week.

Assessment: one 1.5-hour written examination (50%), one 20-minute clinical assessment (40%), one 1000-word video-based assignment (10%). Hurdle requirement: students must pass both the written and practical examinations.

Prescribed Reading:

Clarkson, H.M. *Joint motion and function assessment: a research based practical guide* Lippincott, Williams and Wilkins 2005.

PTY1PSA Physiotherapy Skills A Manual. current Edn.

PTY1PSB PHYSIOTHERAPY SKILLS B (15 CPs Sem. TE-SEM-2 BU.) *Ms*

Rowena English

In this unit students will further develop the study of normal human movement, the relationship between structure and function and the principles of physiotherapy assessment and treatment with emphasis on the cervical, thoracic and lumbar spine and upper limb.

Prerequisite: HBS1APA, HBS1PPA, PHE1HHB.

Co-requisite: HBS1APB, HBS1BBE, HBS1BHM, PHE1RMH, PTY1CLP.

Class requirements: One 1-hour lecture, one 1-hour tutorial, two 1.5-hour practical classes and one 1-hour practical class per week.

Assessment: one 2-hour written examination (50%), one 20-minute clinical assessment (50%). Hurdle requirement: students must pass both the written and practical examinations for physiotherapy skills.

Prescribed Reading:

Clarkson, H.M. *Joint motion and function assessment: a research based practical guide* Lippincott Williams and Wilkins 2005.

Levangie, P. and Norkin, C. *Joint structure and function: a comprehensive analysis* 4th Edn. F A Davis Company 2005.

PTY1PSB Physiotherapy Skills B manual. current Edn.

PTY2CDP CHILD DEVELOPMENT IN PHYSIOTHERAPY (5 CPs Sem. TE-SEM-1 BU.) *Dr Nora Shields*

In this unit students will develop skills in observation and analysis of normal patterns of movement in children. The focus is a study of the development of normal coordination, a necessary prerequisite for understanding normal variations in the overall development of the child. This forms the background for the study of conditions which students encounter in paediatric physiotherapy. All aspects of development are studied, from conception to the age of six, with the emphasis on the development of movement and normal postural control.

Prerequisite: PTY1CLP, HBS1APA, HBS1PPA, PHE1HHB, PTY1PSA, HBS1APB, HBS1BBE, HBS1BHM, PHE1RMH, PTY1PSB.

Co-requisite: HBS2PPB, HBS2APC, PHE2BDA, PTY2CLP, PTY2PSC.

Class requirements: five 1-hour lectures, nine 1.5-hour tutorials, six self learning guides.

Assessment: one 1.5-hour final examination (100%).

PTY2CLP PHYSIOTHERAPY CLINICAL PRACTICE 2 (15 CPs Sem. TE-ALL-YR BU.) *Ms Marilyn Mackenzie*

Students must satisfactorily complete a St John Ambulance Level 2 or equivalent first aid course prior to the second year clinical block placements.

In this unit students are provided with the opportunity to gain essential knowledge and skills related to physiotherapy professional practice. The theory component further extends the ethical and legal responsibilities of physiotherapy students, and includes physiotherapy record writing and skills in subjective assessment. The clinical decision making process is introduced in the theory component for application in the clinical tutorials and the placement. The practical component emphasises the application of knowledge and the acquisition of basic skills of communication, patient assessment and treatment in the clinical environment.

Prerequisite: HBS1APA, HBS1PPA, PHE1HHB, PTY1PSA, HBS1APB, HBS1BBE, HBS1BHM, PHE1RMH, PTY1CLP, PTY1PSB.

Co-requisite: HBS2APC, HBS2PPB, PHE2BDA, PTY2CDP, PTY2PSC, HBS2NSM, HBS2PPY, PHE2BDB, PHE2RMH, PTY2EPA, PTY2PAE, PTY2PSD.

Class requirements: Four 1-hour lectures, 76 hours of clinical tutorials, visits and block clinical placement. Clinical placements will be scheduled in either the mid-year, mid-semester 2 vacation or end of year semester vacations. Students are also required to be available for a 1-week structured clinical placement during the mid year vacation.

This unit is not available for study abroad students.

Assessment: a 2000-word clinical portfolio and a clinical assessment. (50%). Hurdle requirement: a satisfactory level of safety. Attendance and participation in class work and clinical visits (50%). Assessment based on achievement of clinical competencies as provided in PTY2PSC handbook.

PTY2EPA ELECTROPHYSICAL AGENTS (15 CPs Sem. TE-SEM-2 BU.) *Ms*

Stacey Lucas-Toumbourou

In this unit students are introduced to the principles and practice of using electro physical agents (EPAs) in physiotherapy treatment and diagnosis. The syllabus covers therapeutic heat and cold, electrical stimulation, myoelectric biofeedback and real-time ultrasound. The focus is on safe, research-based, clinically effective practice. Topics are considered in terms of their physiological effects; indications, precautions and contraindications for use; dosage; principles and techniques of application; clinical effectiveness; and equipment management.

Prerequisite: PTY1CLP, HBS1APA, HBS1PPA, PHE1HHB, PTY1PSA, HBS1APB, HBS1BBE, HBS1BHM, PHE1RMH, PTY1PSB.

Co-requisite: PTY2CLP, HBS2NSM, HBS2PPY, PHE2BDB, PHE2RMH, PTY2PAE, PTY2PSD.

Class requirements: two 1-hour lectures and two 1.5-hour practical sessions per week.

Assessment: one 1.5-hour written examination (50%), one 25-minute practical examination (50%). Hurdle requirement: both the written and practical examinations must be passed to pass this unit.

PTY2PAE PAEDIATRIC PHYSIOTHERAPY (5 CPs Sem. TE-SEM-2 BU.) *Dr*

Nora Shields

In this unit students are provided with the theoretical background for assessing and managing children with posture and movement disabilities. Emphasis is on the assessment and treatment of children with neurological and orthopaedic conditions. Students also gain insight into working in a multi-disciplinary team and realising the importance of this for the total needs of the child and family.

Prerequisite: PTY1CLP, HBS1APA, HBS1PPA, PHE1HHB, PTY1PSA, HBS1APB, HBS1BBE, HBS1BHM, PHE1RMH, PTY1PSB.

Co-requisite: HBS2NSM, HBS2PPY, PHE2BDB, PHE2RMH, PTY2CLP, PTY2EPA, PTY2PSD.

Class requirements: Block mode: seventeen 1-hour lectures and five 1.5 hour tutorials (weeks 1-6).

Assessment: one 1.5-hour written examination. (100%).

Prescribed Reading:

Physiotherapy in paediatrics - practical manual Current Edn. School of Physiotherapy, La Trobe University.

PTY2PSC PHYSIOTHERAPY SKILLS C (15 CPs Sem. TE-SEM-1 BU.) Ms

Stacey Lucas-Toumbourou

In this unit, students further develop and deepen their understanding of physiotherapy assessment and treatment techniques, as well as beginning to develop clinical reasoning skills. The three areas covered are soft tissue injuries, hydrotherapy and orthotics in physiotherapy. Lectures, practical classes and self-directed learning modules are used to develop student's knowledge and skills in these three areas.

Prerequisite: HBS1APA, HBS1PPA, PTY1PSA, HBS1APB, HBS1BBE, HBS1BHM, PHE1HHB, PHE1RMH, PTY1CLP, PTY1PSB.

Co-requisite: HBS2PPB, HBS2APC, PHE2BDA, PTY2CLP, PTY2CDP.

Class requirements: two 1-hour lectures, two 1.5-hour practical classes per week, plus weekly self-learning guide.

Assessment: one 2-hour written examination (50%), one 20-minute practical examination (50%). Hurdle requirement: both the written and practical examinations must be passed to pass this unit.

PTY2PSD PHYSIOTHERAPY SKILLS D (10 CPs Sem. TE-SEM-2 BU.) Dr

Belinda Bilney

In this unit students will cover the theoretical and practical study of assessment and treatment techniques used in physiotherapy, with special emphasis on the spine and mobility. Students will study analysis and re-education of movement dysfunction, including gait and balance, and will be introduced to physiotherapy management of the neurological client, and cardiorespiratory physiotherapy.

Prerequisite: PTY1CLP, HBS1APA, HBS1PPA, PHE1HHB, PTY1PSA, HBS1APB, HBS1BBE, HBS1BHM, PHE1RMH, PTY1PSB, HBS2APC.

Co-requisite: PTY2CLP, HBS2NSM, HBS2PPY, PHE2BDB, PHE2RMH, PTY2PAE, PTY2EPA.

Class requirements: Two 1-hour lectures and two 1.5 hour practical sessions per week.

Assessment: One 1-hour written examination (50%). Hurdle requirements: demonstration of a satisfactory level of safety. Students are required to reach a satisfactory standard in both the theoretical and practical examinations of the assessment, one 20-minute clinical assessment (50%).

PTY3CCA CORE CLINICAL A IN PHYSIOTHERAPY PRACTICE (20 CPs Sem. TE-W01-05 BE, BU. TE-W30-34 BE, BU. TE-W35-39 BE, BU. TE-W40-44 BE, BU.)

BE: Dr Helen McBurney, BU: Dr Belinda Bilney

In this unit students will develop clinical competencies in the assessment of a patient's problems and needs, the analysis of assessment findings, the formulation of short and long-term goals, and the development, implementation and evaluation of an intervention plan. Students will also develop appropriate professional behaviours and learn to operate effectively within the health care system. Students will be supervised by qualified physiotherapists. This unit is one of four Core Clinical Practicum in which students will develop basic clinical competencies required for safe and effective patient management. The four complementary practicum will provide experience in musculoskeletal, cardiorespiratory and neurological conditions in various health care settings, with patients of all ages.

Prerequisite: PTY3CRP, PTY3MSP, PTY3NEU.

Co-requisite: PTY3PHE, PTY3CCB.

Class requirements: Five weeks of full-time clinical experience (32 hours per week, a total of 160 hours) W31-35, or W36-40 or W41-45. Exact weeks may vary depending on placement availability with clinical agencies.

This unit is not available for study abroad students.

Assessment: Continuous clinical assessment (80%), 1500-word written assignment (20%). Hurdle requirement: a pass must be achieved in both written and clinical components, in order to pass the unit.

Prescribed Reading:

Unit manuals for PTY3MSP, PTY3NEU, PTY3CPR AND PTY3PHE.

PTY3CCB CORE CLINICAL B IN PHYSIOTHERAPY PRACTICE (20 CPs Sem.

TE-W35-39 BE, BU. TE-W40-44 BE, BU. TE-W45-49 BE, BU.) BE: Dr Helen

McBurney, BU: Ms Felicity Blackstock

In this unit students will develop clinical competencies in the assessment of a patient's problems and needs, the analysis of assessment findings, the formulation of short and long-term goals, and the development, implementation and evaluation of an intervention plan. Students will also develop appropriate professional behaviours and learn to operate effectively within the health care system. Students will be supervised by qualified physiotherapists. This unit is one of four Core Clinical Practicum in which students will develop basic clinical competencies required for safe and effective patient management. The four complementary practicum will provide experience in musculoskeletal, cardiorespiratory and neurological conditions in various health care settings, with patients of all ages.

Prerequisite: PTY3CRP, PTY3MSP, PTY3NEU.

Co-requisite: PTY3PHE, PTY3CCA.

Class requirements: Five weeks of full-time clinical experience (32 hours per week, a total of 160 hours) W36-40, W41-45 or W46-50. Exact weeks may vary depending on placement availability with clinical agencies.

This unit is not available for study abroad students.

Assessment: Continuous clinical assessment (80%), 1500-word written assignment (20%). Hurdle requirement: a pass must be achieved in both written and clinical components, in order to pass the unit.

Prescribed Reading:

Unit Manuals for PTY3MSP, PTY3NEU, PTY3CRP and PTY3PHE

PTY3CCC CORE CLINICAL C IN PHYSIOTHERAPY PRACTICE (20 CPs Sem.

TE-W25-29 BE, BU. TE-W40-44 BE, BU. TE-W45-49 BE, BU.) BE: Dr Helen

McBurney, BU: Ms Merilyn Mackenzie

In this unit students will develop clinical competencies in the assessment of a patient's problems and needs, the analysis of assessment findings, the formulation of short and long-term goals, and the development, implementation and evaluation of an intervention plan. Students will also develop appropriate professional behaviours and learn to operate effectively within the health care system. Students will be supervised by qualified physiotherapists. This unit is one of four Core Clinical Practicum in which students will develop basic clinical competencies required for safe and

effective patient management. The four complementary practicum will provide experience in musculoskeletal, cardiorespiratory and neurological conditions in various health care settings, with patients of all ages.

Prerequisite: PTY3CRP, PTY3MSP, PTY3NEU.

Co-requisite: PTY3PHE, PTY3CCA, PTY3CCB.

Class requirements: Five weeks of full-time clinical experience (32 hours per week, a total of 160 hours) W41-45, W46-50. Exact weeks may vary depending on placement availability with clinical agencies. This unit is not available for study abroad students.

Assessment: Continuous clinical assessment (80%), 1500-word written assignment (20%). Hurdle requirement: a pass must be achieved in both written and clinical components, in order to pass the unit.

Prescribed Reading:

Unit Manuals for PTY3MSP, PTY3NEU, PTY3CRP and PTY3PHE.

PTY3CRP CARDIORESPIRATORY PHYSIOTHERAPY - THEORY AND PRACTICE (15 CPs Sem. TE-SEM-1 BE, BU.)

BE: Dr Helen McBurney, BU:

Ms Felicity Blackstock

In this unit students are introduced to the aetiology, pathology, clinical features, complications and management of common cardiac and respiratory conditions. Emphasis is on the development of physiotherapy skills to assess and treat patients with these conditions. Evidence based practice is applied to patient care in the areas of general and specialist surgery, intensive and coronary care, cardiac and pulmonary rehabilitation, respiratory medicine and chest trauma.

Prerequisite: PTY2CLP, HBS2APC, HBS2PPB, PHE2BDA, PTY2CDP, PTY2PSC, HBS2NSM, HBS2PPY, PHE2BDB, PHE2RMH, PTY2EPA, PTY2PAE, PTY2PSD.

Co-requisite: PTY3PHE, PTY3NEU, PTY3MSP.

Class requirements: three 1-hour lectures and two 1.5 hour practical classes per week.

Assessment: one 2-hour written examination (50%), one 20-minute practical examination (50%). Hurdle requirement: demonstration of a satisfactory level of safety. To pass this subject, students must obtain a pass in both the written and practical examinations.

Prescribed Reading:

PTY3CRP cardiorespiratory physiotherapy manual current Edn. School of Physiotherapy, La Trobe University.

PTY3FEL INTRODUCTION TO FELDENKRAIS (15. CPs Sem. TE-SEM-1 BU.)

Ms Janet McConville

This unit introduces students to the Feldenkrais method through awareness of movement lessons, discussions, handling activities and a clinical visit. The Feldenkrais method is comprised of awareness through movement, where the student is taken through structured movement sequences usually in a group and functional integration that is one- to-one hands on. The method uses movement to increase a person's self awareness in action, generating a quality of ease and efficiency of movement, improving posture and breathing and enhancing self image.

Co-requisite: PTY3PHE, PTY3CRP, PTY3MSP, PTY3NEU.

Quota: 25. Bachelor of Physiotherapy students will be given preference. Remaining places will be allocated based on academic merit.

Class requirements: One 6-hour workshop (week 1), one 2.5-hour workshop per week (weeks 2-13) and a one 2-hour clinical visit.

Assessment: one 2500-word written assignment (80%). Hurdle requirement: satisfactory attendance and participation in class work. Pass in verbal presentation, Learning in clinic and reflective notes, (equivalent to 500-1000 words) (20%), one 15-minute verbal presentation - Pass or Fail grade only (0%).

Prescribed Reading:

Feldenkrais, M Awareness Through Movement: Health Exercises for Personal Growth Harper Collins, San Francisco 1990.

PTY3HON RESEARCH DESIGN IN PHYSIOTHERAPY (15. CPs Sem. TE-ALL-YR BE, BU.)

Professor Karen Dodd

Applicants are selected on the basis of previous academic performance in 1st and 2nd year.

This unit runs concurrently with the undergraduate course and is offered as the first part of a two-year program in third and fourth years, leading to the award of a honours degree. This unit introduces students to the principles of conducting research which is of relevance to physiotherapy. Each student works closely with a supervisor who guides the development of a research project. In addition, students attend regular lectures, seminars and laboratory sessions in which the theoretical and pragmatic aspects of conducting research are discussed. Topics include writing skills for literature reviews, the use of computers in research and the application of principles of research design as learnt in PHE1RMH and PHE2RMH. Emphasis is placed on encouraging the student to apply principles of critical analysis to the theory and practice of research.

Prerequisite: PTY2CLP, HBS2APC, HBS2PPB, PHE2BDA, PTY2CDP, PTY2PSC, HBS2NSM, HBS2PPY, PHE2BDB, PHE2RMH, PTY2EPA, PTY2PAE, PTY2PSD, PHE1RMH. .

Co-requisite: PTY3PHE, PTY3CRP, PTY3MSP, PTY3NEU.

Class requirements: 28 hours of lectures/seminars and 37 hours of contact with supervisor for individual consultation and independent work.

Assessment: one 3500-4500-words systematic literature review and research proposal essay (100%). Hurdle requirement: 20-minute verbal research proposal presentation.

PTY3MSP MUSCULOSKELETAL PHYSIOTHERAPY - THEORY AND PRACTICE (15 CPs Sem. TE-SEM-1 BE, BU.)

Ms Janet McConville

In this unit students are introduced to cause, pathology, clinical features and management of common musculoskeletal conditions, including fractures, soft tissue injuries and vertebral syndromes. Emphasis is on the development of physiotherapy skills to assess and treat patients with these conditions.

Prerequisite: PTY2CLP, HBS2APC, HBS2PPB, PHE2BDA, PTY2CDP, PTY2PSC, HBS2NSM, HBS2PPY, PHE2BDB, PHE2RMH, PTY2EPA, PTY2PAE, PTY2PSD.

Co-requisite: PTY3PHE, PTY3CRP, PTY3NEU. .

Class requirements: Two 1-hour lectures and two 1.5-hour practical sessions per week.

Assessment: one 2-hour written examination (50%), one 20-minute practical examination (50%). Hurdle requirement: demonstration of a satisfactory level of safety. To pass this subject, students must obtain a pass in both the written and practical examinations.

Prescribed Reading:

PTY3MSP orthopaedic practical manual current Edn. School of Physiotherapy, La Trobe University.

PTY3NEU NEUROLOGICAL PHYSIOTHERAPY - THEORY AND PRACTICE (15 CPs Sem. TE-SEM-1 BE, BU.)

Dr Belinda Bilney

In this unit students are able to learn to assess, measure, educate and rehabilitate people with movement disorders and reduced mobility arising from neurological disorders. Students gain an understanding of the aetiology, pathology, clinical presentation and medical and surgical management of common neurological conditions. Skills in movement training are learned by working with expert clinicians, academics, other students and patients and movement analysis and measurement skills are developed to a high standard. Self learning guides complement lectures and practical classes.

Prerequisite: PTY2CLP, HBS2APC, HBS2PPB, PHE2BDA, PTY2CDP, PTY2PSC, HBS2NSM, HBS2PPY, PHE2BDB, PHE2RMH, PTY2EPA, PTY2PAE, PTY2PSD.

Co-requisite: PTY3PHE, PTY3CRP, PTY3MSP.

Class requirements: Two 1-hour lectures and two 1.5-hour practicals or tutorials per week, one visit to a spinal unit.

Assessment: one 2-hour written examination (60%), one 20-minute practical examination (40%). Hurdle requirement: demonstration of a satisfactory level of safety. To pass this unit, students must obtain a pass in both the written and practical examinations.

Prescribed Reading:

Carr, J., Shepherd R. *Stroke rehabilitation - guidelines for exercise and training to optimise motor skill* Butterworth Heinemann 2003.

PTY3PHE INTERPERSONAL PROCESSES AND PROFESSIONAL PRACTICE

(5 CPs Sem. TE-ALL-YR BE, BU.) BE: Dr Helen McBurney, BU: Dr Megan Davidson, BU: Dr Paul O'Halloran

In this unit students will focus on interpersonal communication skills, analysis of interactions between clinicians and clients and essential knowledge and skills related to physiotherapy professional practice. It encourages the adaptation of clinical reasoning to include case load management, the physiotherapist's role as educator, ethics and quality issues and the development of professional attitudes related to personal learning. Emphasis is placed on providing preparation and support as the students move into clinical settings.

Prerequisite: PTY2CLP, HBS2APC, HBS2PPB, PHE2BDA, PTY2CDP, PTY2PSC, HBS2NSM, HBS2PPY, PHE2BDB, PHE2RMH, PTY2EPA, PTY2PAE, PTY2PSD.

Co-requisite: PTY3CRP, PTY3MSP, PTY3NEU, PTY3CCA, PTY3CCB.

Class requirements: Module 1 (wk 10 to 17) - One 1.5-hour workshop per week Module 2 (wk 18 to 22) - Three 1.5-hour workshops and two self directed learning tasks. Block mode - One 8-hour workshop over 2 days in week 29 prior to commencement of semester 2 clinic blocks.

Assessment: Attendance and participation in groups (20%), 1200 word workshop journal (30%), 1000-word assignment (50%).

Prescribed Reading:

School of Physiotherapy *PTY3PHE - Interpersonal processes and professional practice manual* Current Edn. La Trobe University.
School of Public Health *Readings for interpersonal processes 3* La Trobe University.

PTY4AMS ADVANCED MUSCULOSKELETAL PHYSIOTHERAPY (5 CPs Sem.

TE-SEM-1 BE, BU.) Ms Janet McConville

This unit builds on the theoretical knowledge and skills obtained in the third year musculoskeletal physiotherapy subjects, so that graduates are better equipped with the skills necessary for treating musculoskeletal disorders. The unit includes revision and refinement of mobilising and manipulation techniques; and information on hand therapy and the management of people with burns.

Prerequisite: PTY3PHE, PTY3CRP, PTY3MSP, PTY3NEU.

Co-requisite: PTY4EBP, PTY4PRG, PTY4PWH, HLT3IPA.

Class requirements: one 1-hour lecture per week and 10 hours of practical sessions per semester.

Assessment: Satisfactory rating by supervisor. Refer to performance criteria in PTY4AMS manual (100%). Hurdle requirement: attendance at all classes. If unable to attend any class, refer to PTY4AMS manual for compulsory requirements.

Recommended Reading:

Maitland G.D *Vertebral manipulation* 6th Edn. Butterworths, London 2001

PTY4CCB CORE CLINICAL B IN PHYSIOTHERAPY PRACTICE (20 CPs Sem.

TE-W01-05 BE, BU.) BE: Dr Helen McBurney, BU: Ms Felicity Blackstock

In this unit students will develop clinical competencies in the assessment of a patient's problems and needs, the analysis of assessment findings, the formulation of short and long-term goals, and the development, implementation and evaluation of an intervention plan. Students will also develop appropriate professional behaviours and learn to operate effectively within the health care system. Students will be supervised by qualified physiotherapists. This unit is one of four Core Clinical Practicum in which students will develop basic clinical competencies required for safe and effective patient management. The four complementary practicum will provide experience in musculoskeletal, cardiorespiratory and neurological conditions in various health care settings, with patients of all ages.

Prerequisite: PTY3CRP, PTY3MSP, PTY3NEU.

Incompatible unit: PTY3CCB.

Class requirements: Five weeks of full-time clinical experience (32 hours per week, a total of 160 hours) in W02-06. Exact weeks may

vary depending on placement availability with clinical agencies.

This unit is not available for study abroad students.

Assessment: Continuous clinical assessment by the supervising therapist against explicit criteria (70%). Hurdle requirement: criteria for clinical assessment are provided to students and supervising therapists prior to commencement of the clinical practicum, 1500-word written assignment (30%). Hurdle requirement: a pass must be achieved in both written and clinical components in order to pass the unit.

Prescribed Reading:

Unit Manuals for PTY3MSP, PTY3NEU, PTY3CRP and PTY3PHE.

PTY4CCC CORE CLINICAL C IN PHYSIOTHERAPY PRACTICE (20 CPs Sem.

TE-W01-05 BE, BU. TE-W09-13 BE, BU. TE-W14-19 BE, BU. TE-W20-24 BE, BU.)

BE: Dr Helen McBurney, BU: Dr Belinda Bilney

In this unit students will develop clinical competencies in the assessment of a patient's problems and needs, the analysis of assessment findings, the formulation of short and long-term goals, and the development, implementation and evaluation of an intervention plan. Students will also develop appropriate professional behaviours and learn to operate effectively within the health care system. Students will be supervised by qualified physiotherapists. This unit is one of four Core Clinical Practicum in which students will develop basic clinical competencies required for safe and effective patient management. The four complementary practicum will provide experience in musculoskeletal, cardiorespiratory and neurological conditions in various health care settings, with patients of all ages.

Prerequisite: PTY3PHE, PTY3CCA, PTY3CCB.

Co-requisite: PTY4CCD.

Class requirements: Five weeks of full-time clinical experience (32 hours per week, a total of 160 hours) W02-06, W10-14, W16-20 or W21-25. Exact weeks may vary depending on placement availability with clinical agencies.

This unit is not available for study abroad students.

Assessment: Continuous clinical assessment (80%), 1500-word written assignment (20%). Hurdle requirement: a pass must be achieved in both written and clinical components, in order to pass the unit.

Prescribed Reading:

Unit manuals for PTY3MSP, PTY3NEU, PTY3CRP and PTY3PHE.

PTY4CCD CORE CLINICAL D IN PHYSIOTHERAPY PRACTICE (20 CPs Sem.

TE-W01-05 BE, BU. TE-W09-13 BE, BU. TE-W14-19 BE, BU. TE-W20-24 BE, BU. TE-W25-29 BE, BU.) BE: Dr Helen McBurney, BU: Dr Nicholas Taylor

In this unit students will develop clinical competencies in the assessment of a patient's problems and needs, the analysis of assessment findings, the formulation of short and long-term goals, and the development, implementation and evaluation of an intervention plan. Students will also develop appropriate professional behaviours and learn to operate effectively within the health care system. Students will be supervised by qualified physiotherapists. This unit is one of four Core Clinical Practicum in which students will develop basic clinical competencies required for safe and effective patient management. The four complementary practicum will provide experience in musculoskeletal, cardiorespiratory and neurological conditions in various health care settings, with patients of all ages.

Prerequisite: PTY3PHE, PTY3CCA, PTY3CCB, PTY3CCC .

Co-requisite: PTY4CCC .

Class requirements: Five weeks of full-time clinical experience (32 hours per week, a total of 160 hours) W02-06, W10-14, W16-20 or W21-25 and W26-30. Exact weeks may vary depending on placement availability with clinical agencies.

This unit is not available for study abroad students.

Assessment: Continuous clinical assessment (80%), 1.5 hour written exam (20%). Hurdle requirement: a pass must be achieved in both written and clinical components, in order to pass the unit.

Prescribed Reading:

Unit manuals for PTY3MSP, PTY3NEU, PTY3CRP and PTY3PHE.

PTY4CEA CLINICAL ELECTIVE A (20 CPs Sem. TE-W30-34 BE, BU. TE-W35-39 BE, BU. TE-W40-44 BE, BU.) *BE: Dr Helen McBurney, BU: Dr Megan Davidson, BU: Ms Marilyn Mackenzie*

In this unit, final year students are provided with a range of opportunities to develop knowledge and skills in specific and specialist areas of clinical practice. The specific area of practice is selected to complement and build on the student's prior clinical experiences, and/or to develop an area of particular interest. Students are required to undertake a clinical project which is negotiated with the hospital/clinic.

Prerequisite: PTY3CCA, PTY3CCB, PTY3CCC OR PTY4CCC, PTY4CCD.

Class requirements: 5-week full-time clinical placement (160 hours) W31-35, W36-40, W41-45. Exact weeks may vary depending on placement with clinical agencies.

This unit is not available for study abroad students.

Assessment: Continuous clinical assessment (80%), clinical project equivalent to 1500-words (20%).

PTY4CEB CLINICAL ELECTIVE B (20 CPs Sem. TE-W35-39 BE, BU. TE-W40-44 BE, BU. TE-W45-49 BE, BU.) *BE: Dr Helen McBurney, BU: Dr Megan Davidson, BU: Ms Marilyn Mackenzie*

In this unit, final year students are provided with a range of opportunities to develop knowledge and skills in specific and specialist areas of clinical practice. The specific area of practice is selected to complement and build on the student's prior clinical experiences, and to develop an area of particular interest. Students are required to undertake a clinical project which is negotiated with the hospital/clinic.

Prerequisite: PTY3CCA, PTY3CCB, PTY3CCC or PTY4CCC, PTY4CCD.

Quota: 115.

Class requirements: 5-week full-time clinical placement (160 hours), W36-40, W41-45, W46-50. Exact weeks may vary depending on placement with clinical agencies.

This unit is not available for study abroad students.

Assessment: Continuous clinical assessment (80%), clinical project equivalent to 1500-words (20%).

PTY4EBP EVIDENCE-BASED PRACTICE IN PHYSIOTHERAPY (20 CPs Sem. TE-ALL-YR BE, BU.) *BE: Dr Helen McBurney, BU: Dr Megan Davidson*

In this unit students will develop the basic knowledge and skills required for evidence-based practice in physiotherapy. Students will develop skills in formulating answerable clinical questions, searching for the available evidence, critical appraisal of the literature and making decisions about practice based on the evidence. The unit is comprised of lectures, tutorials and online modules relating to the location and critical appraisal of systematic reviews, randomised controlled trials and other experimental designs, qualitative research and evaluations of diagnostic tests.

Prerequisite: PTY3PHE, PTY3CRP, PTY3MSP, PTY3NEU.

Incompatible unit: PTY4HON

Class requirements: six 1-hour lectures, six 1.5-hour tutorials, and 90 hours of web-based self-directed learning tasks and undertaking a critically appraised topic under the guidance of a topic supervisor.

Assessment: Two 1500-word critically appraised papers (40%), one 1-hour exam (20%), and 20-minute verbal presentation (40%).

Prescribed Reading:

Herbert, R. et al. *Practical evidence-based physiotherapy* Edinburgh: Elsevier Butterworth Heinemann 2005.

PTY4HON HONOURS THESIS (45 CPs Sem. TE-ALL-YR BE, BU.) *Professor Karen Dodd*

In this unit, students complete the second part of a two-year program for a honours degree. Under the supervision of an academic staff member, students will be required to plan, conduct and report on original research.

Prerequisite: PTY3HON, PTY3PHE, PTY3CRP, PTY3MSP, PTY3NEU.

Co-requisite: PTY4AMS, PTY4PWH, PTY4PRG, HLT3IPA, PTY4CCC AND/OR PTY4CCD.

Incompatible unit: PTY4EBP.

Class requirements: Students will be required to plan, conduct and report on original research. This involves one full day of presentations and one 1-hour meeting per week with supervisor.

This unit is not available for study abroad students.

Assessment: one, 13500-word thesis (100%). Hurdle requirement: one 30-minute verbal presentation.

PTY4PRG PHYSIOTHERAPY IN REHABILITATION AND GERONTOLOGY (10 CPs Sem. TE-W07-24 BE, BU.) *BE: Dr Helen McBurney, BU: Ms Marilyn Mackenzie*

In this enquiry based unit, the topics covered are rehabilitation theory and practical aspects of physiotherapy management in rehabilitation and gerontology. Students gain an understanding of physical and psycho-social aspects of ageing in health and disease and develop an understanding of the role of physiotherapy in health care teams.

Prerequisite: PTY3PHE, PTY3CRP, PTY3MSP, PTY3NEU.

Co-requisite: PTY4PWH, PTY4AMS, PTY4EBP OR PTY4HON, HLT3IPA, PTY4CCC AND/OR PTY4CCD.

Class requirements: Contact hours are scheduled over 3 weeks (11/2 - 31/3) and during a subsequent 5 week theory block. Students work in small groups to present 4 case management plans which include interdisciplinary management. Self-learning module on management of circulatory conditions and lymph oedema (1.5-2 hours).

Assessment: Group (consisting of 8-10 students) four case management plans of 2500 words each. (80%). Contribution to group tasks and attendance at a minimum of 80% of group meetings is a hurdle requirement, Peer Assessment (20%).

PTY4PWH INTRODUCTION TO PHYSIOTHERAPY IN WOMEN'S HEALTH (5 CPs Sem. TE-SEM-1 BE, BU.) *Mrs Diana Spurr*

In this unit students are introduced to the fundamental knowledge and skills necessary for working in the field of physiotherapy in women's health and continence. The knowledge component includes specific anatomy, physiology and pathology. Skills acquired are of two kinds: those extrapolated from other areas of physiotherapy practice and those specific to the unit. Group dynamics and adult learning skills are further practised and small group teaching is experienced.

Prerequisite: PHE3PHE, PTY3CRP, PTY3NEU, PTY3MSP.

Co-requisite: PTY4EBP OR PTY4HON, PTY4AMS, PTY4PRG, HLT3IPA, PTY4CCC AND/OR PTY4CCD.

Class requirements: two 3-hour seminars, five 1.5-hour practical sessions, one 1-hour practical session and four 1.5-hour student presentation sessions per semester.

Assessment: One 15-minute teaching facilitation session with class design peer handout (70%), one 30-minute written examination (30%). Hurdle requirement: students must satisfactorily complete both components to receive an overall pass in the unit.

Prescribed Reading:

SWP1ITP INTRODUCTION TO SOCIAL WORK A (15 CPs Sem. TE-SEM-1 AW, BE, BU. TE-SEM-2 MI.) *Dr Sue Hodgkin, Ms Grace Brown, Dr Christine Bigby, Ms Paula Bruce*

In this unit students will be orientated to a university mode of study. They will be introduced to the complex and often contested nature of social work and the diverse knowledge base that informs social work practice. Students will gain an understanding of the core values, the history and current orientation of social work. Ideas that social problems are constructed and understood differently across time and in accordance with different value and theoretical perspectives are

explored. Using selected examples, the impact of societal organisation on individuals and social problems will be examined.

Class requirements: one 2-hour lecture and one 1.5-hour tutorial per week.

Assessment: one study skills and library assignment equivalent to 1250 words (30%), one 1500-word essay (40%), one group class presentation equivalent to 500 words (10%), and one individual write up equivalent to 1000 words (20%).

SWP1OPW ORGANISATIONAL APPROACHES TO POLICY WORK (10 CPs Sem. TE-W06-11 AW, BE, BU.) AW: Ms Robyn Mortlock, BE: Ms Di Cox, BU: Ms Maureen Long

In this unit students learn about the policies organisations develop to alleviate poverty in society and the approach they take to implement these policies through their services, research, advocacy and social action. Students explore and analyse the history, mission, values, policies and actions of one Australian organisation involved in poverty alleviation.

Class requirements: five hours of seminars and 30 hours of self directed study.

Assessment: one oral presentation equivalent to 1000 words (10%), one 2000-word essay (organisational analysis) (90%).

SWP1PPI POLICY, POVERTY AND INEQUALITY (25 CPs Sem. TE-SEM-2 AW, BE, BU.) AW: Ms Robyn Mortlock, BE: Ms Di Cox, BU: Ms Maureen Long

In this unit students are introduced to various historical, contemporary and comparative understandings of poverty and inequality. Students examine various definitions and ways to measure poverty, and explore the impact of poverty and inequality on individuals and society.

Australian social policy approaches to the alleviation of poverty are discussed in relation to various groups at particular risk of poverty. Students learn about the policies organisations develop to alleviate poverty in society and the approach they take to implement these policies through their services, research, advocacy and social action. Students analyse the history, mission, values, policies and actions of one Australian organisation involved in poverty alleviation.

Class requirements: two 1-hour lectures per week for 13 weeks, seven 1-hour tutorials per semester, five 2-hour tutorials per semester and 30 hours of self-directed study.

Assessment: one 2000-word essay (organisational analysis) (30%), one 2500-word essay (policy analysis) (40%), one 1500-word fact sheet (20%), one presentation equivalent to 1000 words (10%).

SWP2DLC DEVELOPMENT ACROSS THE LIFE COURSE IN SOCIAL CONTEXTS (20 CPs Sem. TE-SEM-1 AW, BE, BU.) AW: Dr Judith Gibbs, BE: Dr Jennifer Lehmann, BU: Dr John McCormack

In this unit students will build on first year psychological studies and explore human development within a social context, drawing out implications for social work practice. It focuses on human development across the life course and the key roles played by relationships in influencing development. It considers the challenges to individual and social functioning of non-normative factors such as illness, impairment and disability during the life course. It covers particular implications for social work practice when development becomes problematic as well as in normal development transitions.

Class requirements: two 1-hour lectures and one 1-hour tutorial per week.

Assessment: one 2000-word essay (40%), one 3000-word essay (60%).

SWP2HSO SOCIAL WORK IN HUMAN SERVICE ORGANISATIONS A (10 CPs Sem. TE-SEM-2 AW, BE, BU.) AW: Ms Virginia Mansel Lees, BE: Dr Jennifer Lehmann, BU: Ms Margarita Frederico

In this unit students are introduced to the organisational context of social work practice. In the context of the interface of policy and practice, students will explore the role of human service organisations in the delivery of social services and the practice of social work. Through lectures, seminars and required visits to organisations the student will examine the organisational knowledge and skills necessary to practice effectively in the organisational context of welfare.

Class requirements: one 1-hour lecture and one 1-hour tutorial per week. Three of the tutorial hours will be allocated as time for students to undertake organisational visits.

Assessment: one 2000-word paper on organisational case study (66%), one 1-hour examination (for Albury-Wodonga and Bundoora) (34%). In Bendigo the examination will be substituted by one structured investigative journal of approximately 2000 words.

Recommended Reading:

SWP2ITP INTRODUCTION TO SOCIAL WORK B (20 CPs Sem. TE-SEM-1 AW, BE, BU.) AW: Ms Virginia Mansel Lees, BE: TBA, BU: Dr Helen Cleak

In this unit students will be provided with an understanding of the theoretical foundations and values of social work and social work practice. This unit will examine what social workers need to know, the values and ideology that frames social work and then what they do in practice. This will enable students to develop an overall map of the knowledge and skills required for social work, with a particular emphasis on the systems theory and an approach to practice that is known as the ecosystem perspective. The student will be introduced to the major contexts in which a generalist social worker operates and the different forms and levels of intervention, namely the micro, mezzo and macro levels and the role of social workers in these different settings.

Class requirements: one 2-hour lecturer per week and 14 hours of tutorials over the semester.

Assessment: one 1500-word research essay (40%), one 3500-word essay (60%).

Prescribed Reading:

Payne, M. *Modern social work theory* 3rd Edn. Palgrave 2005.

SWP20CP ORGANISATIONAL CONTEXTS OF SOCIAL WORK PRACTICE

(20 CPs Sem. TE-SEM-2 AW, BE, BU.) AW: Ms Virginia Mansel Lees, BE:

Dr Jennifer Lehmann, BU: Ms Margarita Frederico

In this unit students will explore the role of human service organisations in the delivery of social services and the practice of social work. Through lectures and tutorials, or seminars, student will examine organisation theory and the organisational knowledge and skills necessary to practice effectively in the organisational context of social and community services which is characterised by complex developments in policy, practice interventions and accountability. Student will complete an investigatory assessment task of an organisation, as approved by the unit coordinator.

Prerequisite: SWP2PPH.

Class requirements: two 1-hour lectures and one 1-hour tutorial per week for Bundoora and Albury-Wodonga students; one 3-hour seminar per week for Bendigo students; 10-hours of self directed learning per semester; two hours of tutorial time will be allocated for students to undertake organisational visits.

Assessment: one 2000-word paper on organisational case study (35%), one structured investigative journal of approximately 2000 words (30%), one 2-hour examination (for Albury-Wodonga and Bundoora) (35%). In Bendigo the examination will be substituted by one 2000-word essay).

Recommended Reading:

SWP2PPH PROFESSIONAL PRACTICE: HISTORY AND VALUES (30 CPs

Sem. TE-SEM-1 AW, BE, BU.) AW: Ms Virginia Mansel Lees, BE: TBA, BU: Dr Helen Cleak

In this unit students will be provided with an understanding of the theoretical foundations and values of social work and social work practice. This unit will examine what social workers need to know, the values and ideology that frames social work and then what they do in practice. This will enable students to develop an overall map of the knowledge and values required for social work, with a particular emphasis on the systems theory and an approach to practice that is known as the ecosystem perspective. The student will be introduced to the major contexts in which a generalist social worker operates and the different forms and levels of intervention, namely the micro, mezzo and macro levels and the role of social workers in these different settings. Throughout the unit students will be encouraged to explore, articulate and share their experiences and relate them to their ongoing development as social work students.

Class requirements: one 2-hour lecture per week, one 2-hour tutorial per week and 15 hours of self directed learning.

Assessment: one 3500-word essay (40%), one 4000-word research essay (60%). Hurdle requirement: students must present one 10-minute individual poster presentation.

Prescribed Reading:

Payne, M. *Modern Social Work Theory* 3rd Edn. Palgrave 2005.

SWP2REC SOCIAL WORK AND REFLECTIVE COMMUNICATION (20 CPs

Sem. TE-SEM-1 MI. TE-SEM-2 AW, BE, BU.) AW: Ms Robyn Mortlock, BE:

Dr Jennifer Lehmann, BU: Dr Trish McNamara, MI: Ms Paula Bruce

In this unit students are encouraged to critically examine how their values and beliefs shape emotional and behavioural responses. Students are helped to develop a foundation for effective interpersonal communication based on conscious use of self and critical self-reflection. Students are exposed to human communication issues relevant to social work from the microsystems level to the macro level of society. Students will study different models of communication emphasising the importance of understanding social diversity. Largely experiential seminars will encourage students to become aware of their own interactional style in one to one situations and in groups, and to become increasingly self-confident communicators.

Class requirements: one 2-hour lecture and one 2-hour seminar per week.

Assessment: one 2500 - 3000-word essay (50%), one group presentation (15 minutes per member) (25%), one 1500-word individual write up of presentation (25%).

Prescribed Reading:

Adler, R. and Rodman, G. *Understanding human communication* 9th Edn. Oxford University Press 2006.

SWP2RES RESEARCH FOR SOCIAL WORK PRACTICE A (10 CPs Sem. TE-

SEM-2 AW, BE, BU.) AW: Dr Suzanne Hodgkin, BE: Ms Pascal Janice, BU: Dr Martin Ryan

In this unit students will be introduced to core concepts in the research process as it applies to social work practice. There will be an overview of both quantitative and qualitative approaches to research. Students will explore the key concepts involved in planning, designing and implementing a social work research study. This knowledge of these concepts will be developed through the preparation of a literature review and a research proposal.

Class requirements: one 1-hour lecture and one 1-hour tutorial per week.

Assessment: one 2000-word essay (60%), one 1000-word essay (40%).

Prescribed Reading:

Bouma, G. and Ling, R. *The research process* 5th Edn. Oxford University Press, South Melbourne 2004.

Recommended Reading:

Bryman, A. *Social research methods* 2nd Edn. Oxford University Press 2004.

SWP3COM SOCIAL WORK PRACTICE IN COMMUNITIES (15 CPs Sem.

TE-SEM-1 AW, BE, BU, MI.) AW: Ms Robyn Mortlock, BE: Ms Dianne Cox, BU: Dr Carmel Laragy, MI: Ms Paula Bruce

In this unit students will focus on social work practice at the community and societal levels. It covers conceptual and theoretical underpinnings of community development including principles, such as active citizenship and participatory democracy. It has a broad focus in that it covers social, economic, political, cultural, environmental and personal development. It will examine community development as a framework to facilitate people, communities and organisations to engage in the change process and to promote social well-being and community building.

Class requirements: two 1-hour lectures and one 1-hour seminar per week. .

Assessment: one 2000-word essay (40%), one group 3000-word essay (40%), one group presentation (5-minutes per member) (20%).

Prescribed Reading:

SWP3FEA FIELD EDUCATION A (40 CPs Sem. TE-W36-49 AW, BE, BU, MI. TE-W44-07 AW, BE, BU, MI.) AW: Mr Jerry Sweeting, BE: TBA, BU: Dr Helen Cleak, MI: Ms Paula Bruce

This unit will offer students the opportunity to integrate different theoretical perspectives and skills by undertaking a supervised fieldwork practicum. Students are placed in a range of human service organisations and are required to become experiential learners who can reflect critically on their practice and who can demonstrate beginning skills in appropriate social work skills. SWP3FEA is the first and SWP4FEB the second of two fieldwork placements to be undertaken by the students under the supervision of a qualified social worker with the liaison support of an academic staff member. Each placement period is 14 weeks full-time as required by the AASW and is normally taken in second semester (September to December) each year. As part of the practicum, students will be required to attend 10-hours of preparatory seminars (held in both first and second semester) and 10-hours of seminars throughout the practicum to integrate theory with the practicum experience.

Prerequisite: SWP3IFG, SWP3LER.

Class requirements: Field placement of 14 weeks full-time (70 days) and 8 hours of preparatory lectures/seminars.

Assessment: learning agreement, mid placement and final placement reports as per BSW Field Education Handbook (100%). Assessed as pass or fail grade.

Recommended Reading:

Cooper, L. and Briggs, L. *Fieldwork in the human services* Allen and Unwin, Sydney 2000.

SWP3FOA FIELD EDUCATION AND ORGANISATIONAL ANALYSIS (55 CPs Sem. TE-W36-49 AW, BE, BU.) AW: Mr Jerry Sweeting, BE: Ms TBA, BU: Dr Helen Cleak

In this unit students will have the opportunity to integrate different theoretical perspectives and skills by undertaking a supervised and supported fieldwork practicum. Students are placed in a human service organisation and encouraged to become experiential learners who can reflect critically on their practice and who can demonstrate beginning skills in appropriate social work tasks and roles. Students explore the nature of the placement as a learning experience and the organisational context of field education. Students undertake a 14-week full-time fieldwork placement under the supervision of a qualified social worker with regular contact and support directly and online from an academic staff member. The unit has additional explicit focus on the organisational context's impact on practice.

Prerequisite: SWP2OCP, SWP3IFG, SWP3LER.

Class requirements: Field placement of 14 weeks full-time (70 days); 10 hours of preparatory lectures/seminars in semester 1 and 2; 18 hours of integrative lectures/seminars and guided reading.

Assessment: One 1500-word essay on reflective preparation for placement (10%), all evaluation documentation as per BSW Field Education Handbook equivalent to 9000 words (70%). Also involves presentations at integrative seminars, one 2000-word essay on an organisational analysis (20%). Unit is assessed as pass or fail grade only

Recommended Reading:

Cooper, L. and Briggs, L. *Fieldwork in the human services* Allen and Unwin 2000.

SWP3FOP FIELDS OF SOCIAL WORK PRACTICE A (15 CPs Sem. TE-W29-35 AW, BE, BU, MI.) AW: Dr Guinevere Threlkeld, BE: Ms Di Cox, BU: Ms Maureen Long, MI: Ms Paula Bruce

In this unit students are introduced to the practice of social work in diverse fields exploring context, policies, programs and practice in various fields. The content helps to integrate social work knowledge and builds on core social work knowledge and skills, introducing further knowledge and skills specific to the field being studied. Specific fields are selected by the School each year and may include social work practice and mental health; children and families; ageing; grief and loss; disability; protective services, health; addiction studies; child protection; poverty and inequality; and international social work.

Class requirements: five hours of seminars/lectures per week for 6 weeks plus self directed learning activities equivalent to 9 hours of classroom contact across the semester.

Assessment: One 1000-word essay (25%) one 20-minute verbal presentation may be undertaken in lieu of the 1000-word essay, one 3000-word essay (75%).

Recommended Reading:

SWP3IFG SOCIAL WORK PRACTICE WITH INDIVIDUALS, FAMILIES AND GROUPS A (20 CPs Sem. TE-SEM-1 AW, BE, BU, MI.) BE: Ms Jan Pascal, BE: TBA, BU: Mr Mark Furlong, MI: Ms Paula Bruce

In this unit students will be introduced to a basic understanding of theories and models of social work practice with individuals, families and groups integrated with structured opportunities to develop and refine: self-knowledge; critical reflection and casework interview skills. Students will also develop skills in undertaking casework assessment and interventions. As such, this unit aims to integrate theoretical models with direct casework practice. Throughout, this unit encourages active participation in role plays, value clarification exercises, exploring social and personal assumptions, as well as developing an awareness of relationship between social and personal issues. The expected outcome for this unit is the achievement of a level of competence in social work practice sufficient for entry into a first supervised fieldwork placement.

Recommended Prior Studies: SWP2ITP, SWP2REC.

Class requirements: two 1-hour lectures and one 3-hour seminar per week.

Assessment: one 1000-word personal reflection (15%), one 1000-word case formulation (15%), one 2000-word follow-on case study (50%), simulated casework interviews equivalent to a 20-minute verbal presentation (20%). Hurdle requirement: students must obtain a pass standard in the simulated casework interviews and attend 80% of seminars/tutorials in order to obtain a pass in this unit.

SWP3ITP INTRODUCTION TO SOCIAL WORK (10 CPs Sem. TE-SEM-1 AW, BE, BU, MI.) AW: Ms Virginia Mansel Lees, BE: Dr Jennifer Lehmann, BU: Mr David Green, MI: Ms Paula Bruce

This unit is available to Bachelor of Social Work (Advanced Standing) students only.

In this unit two-year BSW (Advanced Standing) students are provided with opportunities to relate prior learning and experiences to the key values and orientation, the knowledge-base and the skills of social work, including its multilevel analytic and interventive nature. They will cover aspects of the Social Work profession, the historical and contemporary construction of social problems and the welfare state (with a particular focus on the contemporary restructuring of the welfare state) and key defining issues for contemporary social work practice.

Class requirements: one 1-hour lecture per week for 12 weeks and one 2-hour seminar per fortnight during semester.

Assessment: one 1000-word exploratory learning essay (40%), one 1500-word essay investigating a social work issue (60%).

SWP3LER SOCIAL WORK PRACTICE: LAW ETHICS AND HUMAN RIGHTS (15 CPs Sem. TE-SEM-1 AW, BE, BU, MI.)

AW: Dr Guinevere Threlkeld, BE: Ms Grace Brown, BU: Dr Carmel Laragy, MI: Ms Paula Bruce

In this unit students explore the foundations of legal and ethical decision-making, the implications of working within the Australian legal system and address concepts of moral philosophy that underpin the AASW Code of Ethics and AASW Practice Standards. Students examine the human rights regime, its relevance to social work and the role of ethics from various perspectives in social work practice. They explore a process for ethical decision-making. There is an examination of the legal contexts within which social workers function and which they are expected to understand in their practice.

Class requirements: two 1-hour lectures (weeks 1-5), one 1-hour lecture (weeks 6-13), one 1-hour tutorial per week for 12 weeks plus an additional 8 hours for two court visits during semester.

Assessment: one 1750-word court report (40%), one 2000-word essay (60%).

SWP3RES RESEARCH FOR SOCIAL WORK PRACTICE B (15 CPs Sem. TE-W29-35 AW, BE, BU, MI.)

AW: Dr Guinevere Threlkeld, BE: Ms Grace Brown, BU: Dr John McCormack, MI: Ms Paula Bruce

In this unit students will build on previous research education to provide research skills and knowledge for direct application in social work practice. A range of approaches to social work practice research will be explored including evidence-based research, clinical research and qualitative methods. There will also be significant input on data analysis, both qualitative and quantitative in the unit.

Recommended Prior Studies: SWP2RES.

Class requirements: two 2-hour lectures and one 1-hour computer laboratory/seminar per week for 6 weeks plus self directed learning activities equivalent to 3 hours of classroom contact across the teaching period.

Assessment: one 2500-word research proposal (65%), one 1500-word data analysis exercise (35%).

SWP4DIV DIVERSITY AND SOCIAL WORK PRACTICE (10 CPs Sem. TE-W29-35 AW, BE, BU, MI.)

AW: Ms Virginia Mansel Lees, BE: Ms Di Cox, BE: Dr Jennifer Lehmann, BU: Mr Mark Furlong, MI: Ms Paula Bruce

This unit will particularly emphasize social work practice methods in a diverse society. In order to introduce and develop the concept of 'diversity and social work practice' three broad arenas of 'difference' will be featured from amongst the many forms of social and cultural diversity. These arenas are not exclusive but will in this instance be: Indigenous Australians; sexuality; and migration and culture. As social workers are expected to practice within a framework of social and cultural difference, the aim of the unit is to introduce students to, and to promote values and skills for, 'difference-competent practice' and 'anti-oppressive practice'.

Class requirements: One 2-hour lecture, one 1-hour lecture and one 1-hour tutorial per week for 6 weeks across the semester.

Assessment: One 1000-word essay (40%), one 1500-word essay (60%).

Recommended Reading:

Dominelli, L. *Anti-oppressive social work theory and practice* Palgrave 2002.

Mullaly, B. *Challenging oppression, a critical social work approach* Oxford University Press 2002.

SWP4FEB FIELD EDUCATION B (40 CPs Sem. MI. TE-W26-39 BE. TE-W36-49 AW, BE, BU, MI.)

AW: Mr Jerry Sweeting, BE: TBA, BU: Dr Helen Cleak, MI: Ms Paula Bruce

In this unit, students will undertake a supervised fieldwork practicum which will provide opportunities to integrate theoretical knowledge with practice and develop competencies to the standard required by AASW. Students are placed in a range of human service organisations to demonstrate their knowledge and skills and further develop their practice knowledge. SWP3FEA is the first and SWP4FEB the second of two fieldwork placements to be undertaken by students under the supervision of a qualified social worker with the liaison support of an academic staff member. Each placement period is 14 weeks full-time as required by the AASW and is normally taken at the end of second semester (September to December) each year. As part of the practicum, students will be required to attend 6-hours of preparatory seminars (held in both first and second semester) and 10-hours of seminars throughout the practicum to integrate theory with the practicum experience.

Prerequisite: SWP3COM, SWP3FEA, SWP4IFG, SWP4SPP, SWP4DIV, SWP4FOP.

Class requirements: Field placement of 14 weeks full-time (70 days) and 6-hours of preparatory lectures/seminars.

Assessment: learning agreement, mid-placement and final placement reports as per BSW Field Education Handbook (100%). Assessed on pass or fail grade.

Recommended Reading:

SWP4FOP FIELDS OF SOCIAL WORK PRACTICE B (15 CPs Sem. TE-W29-35 AW, BE, BU, MI.)

AW: Dr Guinevere Threlkeld, BE: Ms Di Cox, BU: Ms Maureen Long, MI: Ms Paula Bruce

In this unit students are introduced to the practice of social work in diverse fields exploring context, policies, programs and practice in various fields. The content helps to integrate social work knowledge

and builds on core social work knowledge and skills, introducing further knowledge and skills specific to the field being studied. Specific fields are selected by the School each year and may include social work practice and mental health; children and families; ageing; grief and loss; disability; protective services, health; addiction studies; child protection; poverty and inequality; and international social work.

Prerequisite: SWP3FOP, SWP3FEA.

Class requirements: five hours of seminars/lectures per week for 6 weeks plus self directed learning activities equivalent to 9 hours of classroom contact across the semester.

Assessment: One 1000-word essay (25%) one 20-minute verbal presentation may be undertaken in lieu of the 1000-word essay, one 3000-word essay (75%).

Recommended Reading:

SWP4FPP FIELD EDUCATION AND PROGRAM PLANNING (55 CPs Sem. TE-W37-50 AW, BE, BU.) AW: Mr Jerry Sweeting, BE: TBA, BU: Dr Helen Cleak

In this unit students will have the opportunity to integrate different theoretical perspectives and skills by undertaking a supervised and supported fieldwork placement. Students are placed in a human service organisation and are required to be experiential learners who can reflect critically on their practice and can demonstrate graduate level skills in a range of social work roles and tasks. In first semester students focus on program design and evaluation. In second semester students commence a 14-week placement under the supervision of a qualified social worker with regular contact and support directly and online from an academic staff member. They also complete a program plan or program evaluation.

Prerequisite: SWP3COM, SWP3FOA, SWP4IFG, SWP4SPP, HLT3IPA, SWP4FOP, SWP4DIV.

Class requirements: 6 hours pre-placement seminars; 15 hours of integrative seminars; field placement of 14 weeks full-time (70 days); and participation in online forum throughout placement.

Assessment: One 3000-word essay on integration of theory and practice and critical reflections (30%). All assessment is calculated as pass or fail grade only. Students must submit all documentation to pass the unit, all evaluation documentation as per BSW Field Education Handbook equivalent to 9000 words (70%). This assessment includes participation in online discussion throughout the placement.

Recommended Reading:

SWP4HOA SOCIAL WORK HONOURS A (20 CPs Sem. TE-SEM-1 AW, BE, BU.) AW: Dr Guinevere Threlkeld, BE: Dr Jennifer Lehmann, BU: Professor Allan Borowski

Available only to BSW Honours students. Successful completion of Third year of the BSW degree and a high level of academic performance. In addition, honours students must enrol in all BSW Year 4 units except Diversity in Social Work Practice and Fields of Practice B. This unit represents one semester of a year-long program and must be taken in conjunction with SWP4HOB.

In this unit the major tasks for honours students are: (1) the satisfactory completion of a research proposal, and (2) a seminar presentation of their research topic. Please note that this unit is to be undertaken with SWP4HOB.

Prerequisite: SWP3COM, SWP3IFG, SWP3LER, SWP3FOP, SWP3RES, SWP3FEA

Class requirements: one 2-hour seminar per week in semester one and attendance at regular thesis supervision sessions as required by the supervisor.

This unit is not available for study abroad students.

Assessment: one 30-minute seminar presentation of research proposal (20%) assessed as pass/fail grade only. Students must pass both components to pass unit, one 3000-word (approximately) research proposal (80%).

Recommended Reading:

Bryman, A. *Social Research Methods* 2nd Edn. Oxford University Press 2004.
Grinnell, R.M. *Social work research and evaluation* 6th Edn. F.E. Peacock 2001.

SWP4HOB SOCIAL WORK HONOURS B (20 CPs Sem. TE-SEM-2 AW, BE, BU.) AW: Dr Guinevere Threlkeld, BE: Dr Jennifer Lehmann, BU: Professor Allan Borowski

Available only to BSW Honours students. Successful completion of Third year of the BSW degree and a high level of academic performance. In addition, honours students must enrol in all BSW Year 4 units except Diversity in Social Work Practice and Fields of Practice B. This unit represents one semester of a yearlong program and must be taken in conjunction with SWP4HOA.

Available only to BSW Honour

In this unit the major tasks for honours students is the completion, under supervision, of an honours research thesis of 10,000-12,000-words that addresses a meaningful research question. Please note that this unit is to be undertaken with SWP4HOA.

Prerequisite: SWP4HOA.

Class requirements: four 2-hour seminars in semester 2 and attendance at regular thesis supervision sessions as required by the supervisor.

This unit is not available for study abroad students.

Assessment: One 10,000-12,000-word thesis (100%). This assessment is taken in conjunction with that of SWP4HOA.

Recommended Reading:

Bryman, A. *Social research methods* 2nd Edn. Oxford University Press 2004.
Grinnell, R.M. *Social work research and evaluation* 7th Edn. Oxford University Press 2005.

SWP4IFG SOCIAL WORK PRACTICE WITH INDIVIDUALS, FAMILIES AND GROUPS B (20 CPs Sem. TE-SEM-1 AW, BE, BU, MI.) AW: Ms Virginia Mansel Lees, BE: TBA, BU: Dr Noel Renouf, MI: Ms Paula Bruce

In this unit the aim is to build on the content of SWP3IFG and to develop for students a more advanced level of knowledge, values and skill in relation to social work practice with individuals, families and groups. In addition there will be coverage of key areas of contemporary practice such as case management, multi-cultural service users and the tension between structural and post-structural perspectives. Throughout, this unit encourages active participation in skills training using role plays, value clarification exercises, exploring social and personal assumptions, as well as developing an awareness of the relationship between social and personal issues. The expected outcome for this unit is the achievement of a level of competence in social work practice sufficient for entry into the final supervised fieldwork placement.

Prerequisite: SWP3IFG, SWP3FEA.

Class requirements: two 1-hour lectures and one 3-hour seminar per week.

Assessment: one 1000-word essay (20%), one major 2000-word critical reflection (35%), one 1500-word follow-on case study (25%), simulated casework interviews equivalent to a 20-minute verbal presentation (20%). Hurdle requirement: students must obtain a pass standard in the simulated casework interviews and attend 80% of seminars/tutorials in order to obtain a pass in this unit.

SWP4SPP SOCIAL POLICY AND PRACTICE B (20 CPs Sem. TE-SEM-1 AW, BE, BU, MI.) AW: Dr Guinevere Threlkeld, BE: Ms Di Cox, BU:

Professor Allan Borowski, MI: Ms Paula Bruce

In this unit students are enabled to be policy practitioners through the development of skills and knowledge about how the social policy contexts affects social work practice, and how to intervene effectively in the policy process. It introduces students to the meaning of social policy and its concepts and frameworks for understanding and developing policies. This unit covers material about the welfare state, how it operates in Australia and in other countries and how it is changing.

Class requirements: three 1-hour lectures per week for 13 weeks and one 1-hour tutorial per week for 10 weeks.

Assessment: One 2500-word essay (40%), one 3500-word essay (60%).

Faculty of Humanities and Social Sciences

General information

Disciplines

The faculty's disciplines are Ancient Greek, anthropology, archaeology, art history, Chinese, cinema studies, English, history, Indonesian, Italian studies, Japanese, linguistics, media studies, Modern Greek, philosophy (including logic), politics, sociology, Spanish and theatre and drama.

Areas of study

The faculty's areas of study are Aboriginal studies, ancient Mediterranean studies, Asian studies, Australian studies, development studies, environmental enquiry, European cultures, gender, sexuality and diversity studies, Latin American studies, Modern Greek studies, modern Mediterranean studies, North American studies, peace studies, religion and spirituality studies.

In addition to the areas of study listed above, it is also possible to study AUSLAN, French, and German. Subject to enrolment numbers, the following languages may also be offered: Catalan, Galician, Hindi, Latin, Portuguese, and Sanskrit.

International students

Admission of international students is coordinated by the university's International Programs Office. For information on application procedures, accommodation, visa requirements, fees, contact the office on (03) 9479 1199, or write to International Programs Office, La Trobe University, Bundoora, Victoria 3086 Australia.

Non-native English speakers who wish to develop their language and academic skills should contact the Language and Academics Skills (ESL) Unit.

The units EDU1ESL English as a Second Language 1 and EDU4ESL English as a Second Language 2 are available for credit to international students from non-English speaking backgrounds that have not successfully completed an Australian Year 12 English unit. These units help to develop students' English skills in an academic environment and may be taken in either teaching period. For further information, obtain a leaflet from the International Programs Office or contact the Language Centre.

Academic progress

Students are regarded as not having made satisfactory academic progress if they have not passed at least one-half of their enrolment, or if they have failed to meet a condition previously imposed on them by the Academic Progress Committee. For the purpose of this rule, a current enrolment is taken to include any unit in which a student remains enrolled at the completion of the unit or any unit awarded a KN or NS grade.

The faculty considers the examination results in early December. Students who have failed to satisfy academic progress requirements may be required to attend academic counselling before they are permitted to re-enrol in their course. Students in the first year of their enrolment will be allowed to re-enrol, but must pass a minimum of two-thirds of their next enrolment or attend academic counselling. Students who have had academic counselling for two consecutive years will be required to make a case for their continuing enrolment (through the faculty's 'show cause' process) if they fail to meet academic progress requirements in the subsequent year.

Normally, the maximum time allowed to complete the Bachelor of Arts is ten years of part-time study.

Unit enrolment

The unit coordinator's signature is required for enrolment in any unit after the first week of semester. Unit enrolment after the third week of semester requires the signature of the Head of School.

Unit quotas

Quotas are imposed on some first year units. These include media studies and drama units. Quotas are also applied to later year units in some schools and departments. For details, see the specific unit descriptions at www.latrobe.edu.au/udb_public.

Students allocated a place in a quota-controlled unit must confirm their acceptance of the place by attending class in the first week, or by contacting the lecturer in charge before the end of the first week. Otherwise, the place may be made available to a student on the waiting list.

Completion of a unit

Completion of a unit requires satisfactory performance at such examinations, as are set, attendance at such lectures, tutorials and other classes as are required and satisfactory completion of any exercises and work required.

A student who has not complied with the requirements for a unit may be refused admission to the annual examination in that unit.

Availability of unit

Schools may decide not to offer listed first-, second- or third year units if insufficient students choose to enrol.

All units are offered subject to the availability of appropriate staffing and resources and students should consult the advisers of studies in the relevant disciplines.

Prerequisites

A student may not enrol for any unit without having completed the prerequisites for that unit, except with the permission of the coordinator for that unit.

Units that may be taken at either second- or third year level

Where a unit is listed at both second- and third year levels, students may enrol either at second year level (e.g., ARH2MIM) or at third year level (e.g., ARH3MIM) but not at both levels.

UNIT DESCRIPTIONS

A full description of units appears at the end of each discipline section, in alphabetical order by unit code. Students should note that units published in the hardcopy *Handbook* are subject to change and should refer to the online *Handbook* for up-to-date information (see www.latrobe.edu.au/udb_public).

For an explanation of teaching periods and campus codes see the Foreword at the beginning of this *Handbook*.

Single degrees

Bachelor of Arts (ABA) – Melbourne (Bundoora)

The degree of Bachelor of Arts may be taken in the Faculty of Humanities and Social Sciences either as a pass degree or with honours. The pass degree, if taken full-time, is designed to be completed within three years.

It is the responsibility of students to ensure that they familiarise themselves with course requirements and that they are enrolled in units that conform to those requirements. Students are encouraged to contact the faculty's Enquiries Office if they have any questions regarding requirements for their course.

Admission requirements

Prerequisite studies: a study score of at least 25 in VCE units 3 and 4 English or equivalent is required for entry to the Bachelor of Arts. The faculty will consider for admission applicants from all entrance categories.

Applicants who have not completed a Year 12 or equivalent may apply under alternative category entry. See the current VTAC Guide for more details.

Further information may be obtained from the faculty's Enquiries Office.

Course requirements

To qualify for the degree of Bachelor of Arts, students must satisfactorily complete a minimum of 360 credit points, with at least 120 credit points at third year level and include in their course a single major OR a double major.

Single major (130 credit points)

A major consists of 130 credit points, including at least 60 credit points at third year level, in a discipline (or area of study) offered by the faculty, noting that majors in some disciplines must include specific units or combinations of units.

First year

Teaching period

TE-SEM-1	Major	Elective	Elective	Elective
TE-SEM-2	Major	Elective	Elective	Elective

Second year

TE-SEM-1	Major	Elective	Elective
TE-SEM-2	Major	Elective	Elective

Third year

TE-SEM-1	Major	Major	Elective
TE-SEM-2	Major	Elective	Elective

Double major (130 credit points)

A double major consists of 130 credit points in each of two different disciplines. This consists of 30 credit points at first year level and 40 credit points at second year-level and 60 credit points at third year level in each discipline.

First year

TE-SEM-1	Major 1	Major 2	Elective	Elective
TE-SEM-2	Major 1	Major 2	Elective	Elective

Second year

TE-SEM-1	Major 1	Major 2	Elective
TE-SEM-2	Major 1	Major 2	Elective

Third year

TE-SEM-1	Major 1	Major 1	Major 2
TE-SEM-2	Major 1	Major 2	Major 2

Course regulations

A maximum of 205 credit points may be taken from any single discipline in the faculty.

120 credit points (60 credit points in each semester) is a full-time study load for each year level. Students require permission from the faculty to overload by taking more than 60 credit points in any teaching period. Permission is normally based on the student's previous academic record.

First year units

Students must take a minimum of 90 credit points at first year level from units offered by the faculty. A maximum of 45 credit points may be taken in any one discipline.

A minimum of 120 credit points and a maximum of 135 credit points of first year units may normally be included in the degree.

In special circumstances, a student may put a case to be allowed to take 150 credit points of first year level units. Approval for this should be sought from the faculty's Enquiries Office.

Units from other La Trobe faculties and other universities

Students may take two semester units at each year level from other La Trobe faculties or other universities.

The exceptions to this requirement are that students taking mathematics and computer science may take 30 credit points at first year level, 40 credit points at second year level and 60 credit points at third year level. Students who have the permission of the Psychology Department may include 30 credit points at first year level, 60 credit points at second year level and 60 credit points at third year level of psychology units.

Students may, with permission, study units from another tertiary institution in a discipline that is not available at La Trobe University. Applicants for cross-institutional study in a discipline that is available at La Trobe University require written approval from the head of that school or department. This should be submitted to the faculty's Enquiries Office.

Bachelor of Arts with Honours (AHA) – Melbourne (Bundoora)

Most disciplines and areas of study offer an honours program. The program consists of a fourth year of full-time study and may involve prerequisite studies at second or third year level. The honours year may be taken part-time over two years.

Students interested in honours should discuss the matter with the relevant head of school or Honours Coordinator as early as possible, as specific requirements vary.

If you wish to enrol in a combined honours course, you should provide a statement in writing of your course requirements and consult your head of school who will discuss your proposal with the head of school of the other discipline.

Bachelor of Archaeology (ABAR) – Melbourne (Bundoora)

The pass degree will require 360 credit points (120 at each year level). Students must complete 225 credit points of archaeology units, made up of 45 credit points at first year level, 80 credit points at second year level and 100 credit points at third year level including the core unit ARC3AAR Approaches to Archaeological Research.

Elective units (75 credit points at first year, 40 credit points at second year and 20 credit points at third year) should be selected on advice, from appropriate units in (for example) history, art history, anthropology, Greek studies or geology.

Students will be encouraged to plan their enrolment around a particular area of interest. Suggested streams of study are listed in the table below.

First year (120 credit points)

Students complete the three first year core units listed below, and five first year Elective units, which can be from anywhere in the faculty or from elsewhere in the university.

Teaching period	First year core unit title	Unit code
TE-SEM-1	Discovering Archaeology	ARC1DAR
TE-SEM-2	Dawn of Humanity	ARC1DOH
TE-SEM-2	The Archaeology of Ancient Civilisations	ARC1AAC

Second year (120 credit points)

Students complete a minimum of four archaeology units (80 credit points) from List A below. Students are recommended to select units within one of the three streams. The remaining 40 credit points can be additional archaeology units or can be from elsewhere in the faculty or the university, subject to students having gained any prerequisites for those units.

Third year (120 credit points)

Students complete the core unit ARC3AAR (20 credit points) and a minimum of four units (80 credit points) from List A below. Again, students are recommended to continue to choose units within the stream in which they specialised during their second year. The remaining 20 credit points can be additional archaeology units or can

be from elsewhere in the faculty or the university, subject to students having gained any prerequisites for those units.

Compatible units from other schools

The following units are particularly suitable for study in conjunction with archaeology. They are not normally credited towards an archaeology major. Please check discipline lists for unit availability.

Unit name	Unit code
-----------	-----------

First year units (15 credit points)

Animal Diversity, Ecology and Behaviour	BIO1AD
Culture and Globalisation: introduction to anthropology	ANT1CAG
Our Global Village: introduction to anthropology	ANT1FET
Processes that Shape the Earth	GEO1PRO
The Nature of Language and Communication A	LIN1NLA

Second and third year units (20 credit points)

Environmental Geoscience: landscape and climate change	GEO2EGL
Environmental Geoscience: remote sensing and GIS	GEO2EGR
Heritage Sites and Landscapes in Australia	HIS2HSL/HIS3HSL
Introduction to Ethnographic Research	ANT2MQA/ANT3MQA
Migration to Australia in the 19th and 20th Centuries	HIS2MTA/HIS3MTA

Honours degree

Students who have completed the requirements for the Bachelor of Archaeology degree with a high level of performance in all

archaeology units will be eligible to be considered for admission to the honours year. The honours year will consist of two fourth year units dealing with method, theory and practice, and a research thesis.

Bachelor of Arts in Contemporary European Studies (ABACE) – Melbourne (Bundoora)

This three-year degree consists of 360 credit points (120 credit points at each year level). Students complete core and Elective units at each year level as shown below. Students may study either full-time or part-time.

First year (120 credit points)

Students must complete:

- the five core units (75 credit points) listed below, and
- three Elective units (45 credit points) offered at the university.

Teaching period	First year core unit title	Unit code
TE-SEM-1	Modern Europe A: from monarchies to nations 1760-1890	HIS1MEA
TE-SEM-2	Windows on Contemporary Europe: cultures in transformation	EST1WEA
TE-SEM-2	Modern Europe B: the twentieth century	HIS1MEB

30 credit points of a European language

Second year (120 credit points)

Students must complete:

- the two second year core units (40 credit points) listed below
- at least two units at second year level (40 credit points) from List A below, and
- two second year level Elective units (40 credit points) either from List A or other units offered at the university.

Teaching period	Second year core unit title	Unit code
TE-SEM-1	Europe Transformed ... and one of ...	HIS2EUT
TE-SEM-2	European Travel and Art	ARH2ETA
TE-SEM-2	Revolutions in Central Europe	POL2RCE

Third year (120 credit points)

Students must complete:

- the two third year core units (40 credit points) listed below
- at least two units at third year level (40 credit points) from List A below, and
- two third year level Elective units (40 credit points) either from List A or other units offered at the university.

Teaching period	Third year core unit title	Unit code
TE-SEM-1	The European Union ... and one of ...	HIS3EUU
TE-SEM-2	The Politics of Economic Regions	POL3PER
TE-SEM-2	Imagining Europe: cultural perception of European identity ¹	EST3IEU

List A (all units 20 credit points)

Students should check individual discipline listings for availability of the following units.

Unit name	Unit code
Being and world	PHI2BAW/PHI3BAW
Contemporary Italian Cinema	CST2CIC/CST3CIC
Cultural Interactions ² (15 Credit Points)	THS3CUI

Key: ² Normal unit prerequisites not required for enrolment in these units.

Honours degree

Students who have completed the requirements for the Bachelor of Arts in Contemporary European Studies degree with a high level of performance in all units will be eligible to be considered for admission to the honours year. The honours year will consist of one fourth-year core unit, one fourth-year Elective unit and a research thesis.

Bachelor of Asian Studies (ABAS) – Melbourne (Bundoora)

This is a three-year degree for students who wish to specialise in Asian languages and Asian studies. The degree can be studied on a full-time or part-time basis. An honours program is also available. The pass degree requires completion of 360 credit points and, if taken full-time, is designed to be completed in three years, with students completing 120 credit points at each year level. It has been especially designed to allow students who are commencing study of an Asian language or continuing from VCE level to achieve relatively high proficiency within the space of a three-year degree. This degree also enables students to design a course drawing upon other degree programs including the Bachelor of Arts, Bachelor of Commerce, Bachelor of Economics, Bachelor of Tourism and Hospitality and Bachelor of Laws. The core languages available are Chinese, Indonesian, and Japanese. In their second and third years, students draw Electives from the list of Asian studies Electives.

Students may not take Chinese dialect speakers units as core language in the Bachelor of Asian Studies.

First year (120 credit points)

In their first year, students study:

- three core units AST1BCE, AST1IJI, and AST1ICI
- 30 credit points of the core Asian language units
- 15 credit points chosen from the Asian studies Elective list below, and
- 30 credit points of Electives from anywhere in the faculty.

Teaching period

TE-SEM-1	Core language	AST1BCE	AST1IJI	Elective
TE-SEM-2	Core language	Asian Studies Elective	AST1ICI	Elective

Core Asian language units (30 credit points)

Chinese Stream: First year Chinese language units (see entry for Chinese).

Indonesian Stream: First year Indonesian language units (see entry for Indonesian).

Japanese Stream: First year Japanese language units (see entry for Japanese).

Core Asian studies units (45 credit points)

Teaching period	Unit title	Unit code
TE-SEM-1	Introduction to Asia: Japan and Indonesia	AST1IJI
TE-SEM-1	Introduction to Asian Culture and Traditions	AST1BCE
TE-SEM-2	Introduction to Asia: China and India	AST1ICI

Asian studies Electives (First year) (15 credit points)

Select at least one Elective drawn from the following list or an additional Asian language (Chinese, Hindi, Indonesian, Japanese, or Sanskrit).

Teaching period	Unit name	Unit code
TE-SEM-1	Culture and Globalisation: introduction to anthropology	ANT1CAG
TE-SEM-1	Long-term Economic Change	ECO1LEC
TE-SEM-1	States, Nations and Security	POL1SNS
TE-SEM-1	The Nature of Language and Communication A	LIN1NLA
TE-SEM-2	Economy, Environment and Human Rights	POL1EEH
TE-SEM-2	Our Global Village: introduction to anthropology	ANT1FET
TE-SEM-2	Globalisation: the Rise of the Modern World	HIS1DEV
TE-SEM-2	The Nature of Language and Communication B	LIN1NLB

Second year (120 credit points)

- 60 credit points of the core Asian language units
- 20 credit points chosen from the Asian studies Elective list below, and
- 40 credit points of Electives from anywhere in the faculty.

TE-SEM-1	Core language	Core language	Elective
TE-SEM-2	Core language	Asian Studies Elective	Elective

Core Asian language units (60 credit points)

Chinese Stream: Second year Chinese language units (see entry for Chinese).

Indonesian Stream: Second year Indonesian language units (see entry for Indonesian).

Japanese Stream: Second year Japanese language units (see entry for Japanese).

Third year (120 credit points)

- 60 or 80 credit points of the core Asian language units
- 20 credit points chosen from the Asian studies Elective list below, and
- 20 or 40 credit points of Electives from anywhere in the faculty.

TE-SEM-1	Core language	Core language	Elective
TE-SEM-2	Core language	Core or Elective	Elective

Core Asian language units (60 credit points)

Chinese Stream: Third year Chinese language units (see entry for Chinese).

Indonesian Stream: Third year Indonesian language units (see entry for Indonesian).

Japanese Stream: Third year Japanese language units (see entry for Japanese).

Asian studies Electives (Second and Third year)

Students should check individual discipline listings for availability of the following units.

Unit title	Unit code
Animated Film	CST2/3ANF
Applied Anthropology	ANT2/3APA
Archaeology of East Asia	ARC2/3AEA
Australia, Asia and the World	POL2/3AAW
Bilingualism and Second Language Acquisition	LIN2/3BSA
Cities and People	SOC2/3CAP
Contemporary Film	CST2/3CFI
Cross-cultural Communication	LIN2/3CCC
Culture, Race and Difference	ANT2/3CRD
Development, Globalisation and Culture	ANT2/3DGC
Economic Growth and Development	ECO2EGD
Emergence of Chinese Civilisation	ARC2/3ECC
Goddesses, Sexuality and Liberation: India and Beyond	AST2/3GSL
India in English	ENG2/3IIE
Intercultural Performance	DRA2/3IPF
International Relations: the Cold War and the great power	POL2/3INR
Introduction to Buddhism	AST2/3INB

Introduction to Hinduism	AST2/3INH
Language in Asia	LIN2/3LIA
Love and Eroticism in Asian Literature	AST2/3LEA
Popular Asian Cinema	AST2/3PAC
Postcolonial Perspectives	ANT2/3PCP
Second Asian language	
Society and State in Japan and China	AST2/3EAS
South-East Asian Politics: change and conflict	POL2/3SEA

Honours degree

The Bachelor of Asian Studies honours year comprises coursework (50%) and the writing of a thesis (50%). The coursework component will reflect the student's previous training:

- one unit in the appropriate language (Chinese, Indonesian, or Japanese)
- one unit in the discipline area previously selected by the student, and
- one methodology unit relating to Asian studies.

Students will also complete a thesis in English of 12000 to 15000 words on a topic related to Asian language, society, or culture. With permission, students may alternatively submit a substantial research essay in English, plus an annotated translation of an approved text in a relevant language, to a combined total of 12000 to 15000 words.

In all cases, students wishing to enrol in the Bachelor of Asian Studies honours year should apply to the Program Convener by October of the third year of their course.

Bachelor of Creative Arts (ABCA) – Melbourne (Bundoora)

This three-year degree consists of 360 credit points, 120 credit points at each year level for full-time study. Part-time is also available. Students choose units from those listed and can choose to focus their degree around one of the areas of creative writing, writing for the screen and the media, criticism or performance and production; or may combine units from several of these areas.

First year (120 credit points)

In their first year students study five units (75 credit points) from the following list of first year units. The remaining three units (45 credit points) are Elective units and may be selected from this list or from other university units.

Teaching period	Unit title	Unit code
TE-SEM-1	Introducing Literature: the short story	ENG1ILS
TE-SEM-1	Introduction to Film Analysis	CST1IFA
TE-SEM-1	Screen Narrative: television, film and video games ¹	CST1SNT
TE-SEM-1	Screenplay Analysis ¹	CST1SCA
TE-SEM-1	Theatre Knowledge and Practices	DRA1TKP
TE-SEM-2	Introduction to Screenwriting	CST1ITS
TE-SEM-2	Making Sense of the Movies	CST1MSM
TE-SEM-2	Process-based Performance	DRA1PBP
TE-SEM-2	Text, Criticism and the Visual	ENG1TCV
TE-SEM-2	Writing your Own Life	ENG1WYL

Key: ¹ Not available in 2008.

Second year (120 credit points)

Students select four units (80 credit points) from the second year units listed below. The remaining two units (40 credit points) are Elective units and may be selected from this list or from other university units.

Third year (120 credit points)

Students select four units (80 credit points) from the third year units listed below including the compulsory core unit CST3CIP Creative Industry Research. The remaining two units (40 credit points) are Elective units and may be selected from this list or from other university units.

Students should check individual discipline listings for availability of the following units.

Unit title	Unit code
Advanced Performance Making	DRA3APM
Advanced Screenwriting	CST2/3ADS
Australian Drama from 1955 to the Present Day	DRA2/3AUD
Broadcast and Electronic Journalism	MST3BEJ

Writing for Radio	MST2/3WFR
Writing for Video	MST2/3WV
Writing Poetry	ENG2/3WRP
Writing, the Internet and Performance	DRA2/3WIP

Key: ² Core unit.

Honours

The honours program is designed to provide students with an opportunity to develop skills, which will prepare them for further academic study or for work in specific fields involving creative writing, screenwriting, writing for the media and theatre production. Students are selected into honours at the end of their third year. Prospective students should make their interest known to the Creative Arts Honours Coordinator by November for commencement in semester one or early June for commencement in second semester.

The normal requirement for selection is consistently high performance (at least a B average) in the creative arts units.

The Bachelor of Creative Arts honours year allows students to:

- incorporate more than one discipline i.e., Creative Arts 4, or
- concentrate on one discipline i.e., Cinema Studies 4, English 4 or Theatre and Drama 4.

Creative Arts 4

The course consists of:

- two fourth year units offered by the cinema, English, media studies or theatre and drama programs
- a thesis which consists of a negotiated practical project in script writing, creative writing, performance or production which explores a research question, and
- a 5000-word exegesis to support the thesis.

Students wishing to concentrate on one discipline should check the requirements for honours in the Cinema studies, English or Theatre and Drama sections of this *Handbook*.

Bachelor of International Development (ABID) – Melbourne (Bundoora)

This degree is designed to equip students with an appreciation of issues in social, economic, and political development from a multidisciplinary perspective. Possible career opportunities are available in fields related to government and non-government organisations working towards sustainable development, poverty alleviation, and well-being. The degree consists of 360 credit points, which can be completed in three years of full-time study. Part-time enrolment is also available. Students must include all compulsory units to qualify for this degree.

Credit towards the degree may be awarded for approved units at overseas universities with which La Trobe University has an exchange or study abroad agreement. Prior approval must be obtained from the Chair of the Development Studies Committee.

First year (120 credit points)

In their first year, students study:

- 45 credit points of the compulsory core units listed below
- 45 credit points from List A below, and
- 30 credit points of Electives.

Compulsory core units (15 credit points each)

Teaching period	Unit title	Unit code
TE-SEM-1	Conquest of the Americas: Aztecs, Incas, Mayans, Spaniards	HIS1CAM
TE-SEM-1	Culture and Globalisation: introduction to anthropology	ANT1CAG

Honours degree

An honours program is available. Entry into the honours year is by application at the end of the student's third year of study. Students considered for admission will normally have at least a B average in development studies units.

Bachelor of International Relations (ABIR) – Melbourne (Bundoora)

The degree of Bachelor of International Relations may be awarded either as a pass degree or as a degree with honours and can be studied on a full-time or part-time basis. The pass degree requires completion of 360 credit points and, if taken full-time, can be completed in three years with students completing 120 credit points at each year level. It has been designed to allow students to gain an overview of international relations, and provides the opportunity to specialise in a particular area (e.g., East Asia) or in a particular field (e.g., diplomacy, economy, or legal studies).

First year (120 credit points)

In first year, students study:

- 30 credit points of the compulsory core units listed below,
- 30 credit points from List A below,
- 30 credit points from List B below and
- 30 credit points of Electives

Teaching period	Unit title	Unit code
TE-SEM-1	States, Nations and Security: world in transition	POL1SNS

Key: ² Taught in Spanish.

In addition to these units, students will be expected to participate in six workshops in the first year, five workshops in the second year and six workshops in the third year, which are part of the requirements for POL3PCW. Each workshop will be of two to three hours.

Honours

Entry into the honours year is by application at the end of the student's third year of full-time study. Students considered for admission will normally have a mid-B average result for their second and third year units and will have completed either POL3HON Politics in the Twentieth Century or POL2TWP/POL3TWP Theories of World Politics.

The Bachelor of International Relations honours year includes two coursework units, one of which has an International Relations focus. Suitable units will be indicated in the Honours *Handbook*. Students may choose one other fourth year unit from the offerings in the School of Social Sciences or another school at La Trobe University, provided that the unit has a strong international relations focus. As well, students will undertake a minor thesis of 12000 to 15000 words on a topic relevant to the study of International Relations. Either of the Bachelor of International Relations Coordinators, Professor Joseph Camilleri, or Dr Tony Jarvis must approve choice of units and thesis topics.

Bachelor of Journalism (ABJ) – Melbourne (Bundoora)

The Bachelor of Journalism is a vocationally oriented degree and consists of 360 credit points that can be completed in three years of full-time study. Part-time enrolment is also available. First year consists of 60 credit points of core units and 60 credit points of Elective units. Second and third years consist of 40 credit points of core units, 40 credit points of journalism stream units, and 40 credit points of Elective units. The unit MST2PAS/MST3PAS Press and Society must be taken as an Elective in either second or third year. Subject to the availability of places, students can take up to one unit from the video/television or audio/radio streams.

Course structure

Third year (20 credit points)

TE-SEM-1	Broadcast and Electronic Journalism	MST3BEJ
TE-SEM-2	Advanced Journalism Design	MST3AJD

Elective units

See the complete listing of units under Media Studies in this *Handbook*.

Honours

Students are selected into honours at the end of their third year. The principal requirement for selection is consistently high performance (normally at least a B average) in media units; and in particular, distinction in third year media units. Prospective students should make their interest known to the Media Studies Honours Coordinator by early June for commencement in second semester or November for commencement in first semester. Honours candidates are expected to undertake preliminary reading and writing in the break, which precedes their initial enrolment.

Two pathways are available. The first pathway requires the completion of two coursework units at fourth year level, a seminar presentation, and a 12000 to 15000-word thesis. The second pathway requires the completion of two coursework units at fourth year level, a seminar presentation, a reflective essay of 6000 words and a creative production. For full details of the fourth year offerings, see the Media studies entry in the *Postgraduate Handbook*.

Bachelor of Legal Studies (LBLS) – Melbourne (Bundoora)

This degree provides students with an opportunity to pursue their interest in legal studies within a distinctive degree. The course offers a unique interdisciplinary understanding of the law and its nature, operation and effects. This is acquired by combining legal studies units with suitable units drawn from other disciplines taught in the university, especially humanities and social sciences units. Students can construct a coherent program of study directed toward law-related vocations in areas such as research, policy development, criminology, and criminal justice.

To underscore the vocational aspect of the degree, students undertake the foundation skills-based unit Legal Practices (LST1LEP) as part of the first year of this program. In third year the unit LST3LSW Legal Studies Workplace Practice provides an intensive overview of vocational practices and pathways for graduates in legal studies. It may be possible for students to undertake a small number of law Electives, which will be treated as legal studies units for the purposes of the degree.

Whilst the Bachelor of Legal Studies does not guarantee entry into the Bachelor of Laws, students with a sufficient ENTER score and

strong performance in their La Trobe University studies may apply for admission into the four-year undergraduate law degree or a combined degree after either first or second year. Graduates in the Bachelor of Legal Studies with strong academic results may apply for admission into the three-year graduate law program.

Admission requirements

Admission requirements are VCE English units 3 and 4 and a study score of at least 25 in English (any).

Degree requirements

Students admitted to the undergraduate degree of Bachelor of Legal Studies must complete:

- a total of three years of full-time study or its equivalent
- a total of 360 credit points, with no more than 120 credit points at first year level and at least 120 credit points at third year level
- a minimum of 165 credit points in legal studies with 45 credit points at first year level and a minimum of 60 credit points in each of second and third year.

Course structure**First year**

Three third year legal studies units	60
Three third year Electives	60

Honours program in legal studies for Bachelor of Legal Studies and Bachelor of Arts students

This is a full-year program available only to students who have been admitted to either honours candidature or, in some cases, to Master of Arts (Preliminary) candidature in legal studies. The course comprises a research thesis and two honours units.

Research thesis

Students complete a 12000-word research thesis. Research extends throughout the honours year and requires each student to produce a thesis on his or her chosen topic, under supervision. Prospective candidates are strongly advised to identify a thesis topic and arrange for supervision before the end of their third year in the bachelor program.

Honours units

Students must complete two approved fourth year units. The units will be selected with the advice and consent of the Legal Studies Honours Coordinator.

Prerequisites

Normally, completion of a three-year pass degree is required, with achievement of at least a B average in undergraduate legal studies units.

Professional recognition

Completion of the course does not qualify a student for any professional recognition.

Bachelor of Media Studies (ABMS) – Melbourne (Bundoora)

The Bachelor of Media Studies is a vocationally oriented degree and consists of 360 credit points that can be completed in three years of full-time study. Part-time enrolment is also available. After first year, students must choose to follow one stream. Streams offered are

journalism, audio/radio, and video/television. First year consists of 60 credit points of core units and 60 credit points of Elective units. Second and third years consist of 40 credit points of core units, 40 credit points drawn from the journalism, video/television or audio/radio stream and 40 credit points of Elective units. Subject to availability of places, students can take up to one additional stream unit in place of an Elective unit.

Course structure

First year

TE-SEM-1	MST1CCO	MST1MTN	Elective	Elective
TE-SEM-2	MST1AAC	MST1WFM	Elective	Elective

Second year

TE-SEM-1	MST2RTM	stream unit	Elective
TE-SEM-2	MST2RMA	stream unit	Elective

Third year

TE-SEM-1	MST3MIN	MST3BEJ	Elective
TE-SEM-2	MST3MPD	stream unit	Elective

Core units

Teaching period	Unit title	Unit code
First year (15 credit points)		
TE-SEM-1	Constructing Communication	MST1CCO
TE-SEM-1	Making the News	MST1MTN
TE-SEM-2	Audience and Communication	MST1AAC
TE-SEM-2	Writing for Media	MST1WFM

Second year (20 credit points)

TE-SEM-1	Researching the Media	MST2RTM
TE-SEM-2	Researching Media Audiences	MST2RMA

Third year (20 credit points)

TE-SEM-1	Media Industries	MST3MIN
TE-SEM-2	Media Project Development	MST3MPD

Stream units

Second year (20 credit points)

Teaching period	Unit title	Unit code
-----------------	------------	-----------

Journalism stream

TE-SEM-1	Computer-assisted Journalism	MST2CAJ
TE-SEM-2	Journalism Production Workshop	MST2JPW

Radio/audio stream

TE-SEM-1	Radio Sound Production	MST2RSP
TE-SEM-2	Writing for Radio	MST2WFR

Video/television stream

TE-SEM-1	Single Camera Video	MST2SCV
TE-SEM-2	Writing for Video – Non-fiction	MST2WVF

Third year (20 credit points)

Teaching period	Unit title	Unit code
-----------------	------------	-----------

Journalism stream

TE-SEM-1	Broadcast and Electronic Journalism	MST3BEJ
TE-SEM-2	Advanced Journalism and Design	MST3AJD

Radio/audio stream

TE-SEM-1	Broadcast and Electronic Journalism	MST3BEJ
TE-SEM-2	Advanced Media Production – Radio	MST3MPR

Video/television stream

TE-SEM-1	Broadcast and Electronic Journalism	MST3BEJ
TE-SEM-2	Advanced Media Production – Television	MST3MPT

Elective units

See the complete listing under Media Studies in this *Handbook*.

Honours

Students are selected into honours at the end of their third year. The principal requirement for selection is consistently high performance (normally at least a B average) in media units and, in particular, distinction in third year media units. Prospective students should make their interest known to the Media Studies Honours Coordinator by early June for commencement in second semester or November for commencement in first semester. Honours candidates are expected to undertake preliminary reading and writing in the break that precedes their initial enrolment.

Two pathways are available. The first pathway requires the completion of two coursework units at fourth year level, a seminar presentation, and a 12000 to 15000-word thesis. The second pathway requires the completion of two coursework units at fourth year level, a seminar presentation, a reflective essay of 6000 words and a creative production. For full details of the fourth year offerings, see the Media studies entry in the *Postgraduate Handbook*.

Bachelor of Social Sciences (ABSS) – Melbourne (Bundoora)

The degree of Bachelor of Social Sciences may be awarded either as a pass degree or as a degree with honours and can be studied on a full-time or part-time basis. The pass degree requires completion of 360 credit points and, if taken full-time, is designed to be completed in three years with students completing 120 credit points at each year level. The course allows students to major in one of the social science disciplines and complete units in policy and social research methods.

First year (120 credit points)

In their first year, students study six introductory social sciences units from List A below and in addition complete two Elective units, as follows. In first year, each unit is worth 15 points.

TE-SEM-1	List A unit	List A unit	List A unit	Elective unit
TE-SEM-2	List A unit	List A unit	List A unit	Elective unit

List A

Teaching period	Area/Unit title	Unit code
Anthropology		
TE-SEM-1	Culture and Globalisation: introduction to anthropology	ANT1CAG
TE-SEM-2	Our Global Village: introduction to anthropology	ANT1FET

Asian studies

TE-SEM-1	Introduction to Asia: Japan and Indonesia	AST1IJ
TE-SEM-1	Introduction to Asian culture and traditions	AST1BCE
TE-SEM-2	Introduction to Asia: China and India	AST1ICI

Legal Studies

TE-SEM-1	Law and Society	LST1LAS
TE-SEM-2	Crime and Criminology	LST1CCR

Politics

TE-SEM-1	Australian Politics: government and society	POL1AUP
TE-SEM-2	Representation and Participation in Australian Politics	POL1RAP

Sociology

TE-SEM-1	Self and Community: introduction to sociology	SOC1SAC
TE-SEM-2	Australia and Beyond: introduction to sociology	SOC1AAB

Second year (120 credit points)

In second year, students select a core discipline from anthropology, politics, or sociology and complete the following:

- two second year units (40 credit points) from their chosen core discipline, including any designated core units (see below)
- the unit SOC2MSR Introduction to Social Research Methods (20 credit points)
- one second year policy unit (20 credit points) from List A below, and
- two second year Elective units (40 credit points).

The following is an example of a second year program.

TE-SEM-1	Social Science core discipline unit	SOC2MSR	Elective unit
TE-SEM-2	Social Science core discipline unit	Policy unit from List A	Elective unit

Second year core disciplines

Students should check individual discipline listings for availability of the following units.

Area/Unit title	Unit code
Anthropology	
Aboriginal Australia	ANT2ABA
Anthropological Concepts and Practice	ANT2ACP
Applied Anthropology	ANT2APA
Australian Aboriginal History	HIS2AAH
Body, Mind and Culture	ANT2BMC
Childhood and Culture	ANT2CAC

Current Issues in Anthropology²
Kinship, Gender and Marriage
Postcolonial Perspectives
Psychological Anthropology
Symbols, Psyche and Society

Legal Studies

Aborigines and the Law in Australia
Crime and Psychology
Crime, Law and Culture
Discrimination and the Law
Law, Rights and Social Justice
Punishment in Context

Politics

Australian Political Culture²
Nations and States²

Sociology

Community Studies
Comparative Social Movements
Current Issues in Sociology²
Deviance, Criminality and Social Control
Disintegration and Dread in Modern Society
Food, Drink and World History: ancient world to modern Australia
Gender and Sexuality: contemporary debates
Heritage Sites and Landscapes in Australia
Migration to Australia in the Nineteenth and Twentieth Centuries
New Religious Movements
Society and State in Japan and China
Sociological Theories of Deviance
Sociology and Everyday Life
Sociology of Culture
Theory, Culture and Society

Key: ² Core unit.

List A

Students should check individual discipline listings for availability of the following units.

Policy/Unit title	Unit code
Asian-Pacific Cities	SOC2APC
Critical Social Policy	SOC2CSP
Development, Globalisation and Culture	ANT2DGC
Ethnicity and Identity: social and political approaches	SOC2EAI
Families and Change	SOC2FAC
International Law and International Organisation	POL2ILO
Politics and the Economy	POL2PAE
The Politics of Economic Regions	POL2PER
Sex, Gender and Work	SOC2SGW
Social Policy, Welfare and the State	SOC2SWS
Sociology of Health and Illness	SOC2SHI
Sociology of Health and Medicine	SOC2SHM

Third year (120 credit points)

In third year, students complete the following:

- two third year units (40 credit points) from the chosen core discipline below
- one research methodology unit (20 credit points) from List B below
- one third year policy unit (20 credit points) from List A below, and
- two third year level Elective units (40 credit points).

The following is an example of a third year program.

TE-SEM-1	Social Science core discipline unit	Policy unit from List A	Elective unit
TE-SEM-2	Social Science core discipline unit	Research methodology unit from List B	Elective unit

Third year core disciplines

Students should check individual discipline listings for availability of the following units.

Area/Unit title	Unit code
Anthropology	
Aboriginal Australia	ANT3ABA
Anthropological Concepts and Practice	ANT3ACP
Applied Anthropology	ANT3APA
Body, Mind and Culture	ANT3BMC

Childhood and Culture
Displacement, Flight and Refuge

List B

Students should check individual discipline listings for availability of the following units.

Area/Unit title	Unit code
Research methodology units	
Introduction to Ethnographic Research	ANT3MQA
Introduction to Qualitative Research Methods	SOC3MQB
Quantitative Methods in Social Research	SOC3MTB

Diploma in Languages (ADIL) – Melbourne (Bundoora)

This diploma allows students to complete a three-year sequence in a foreign language while maintaining the requirements for their chosen degree. This diploma must be taken concurrently with a bachelor program. To complete the Diploma in Languages students must undertake a minimum of 120 credit points in one of Post VCE

French, Chinese, Modern Greek, Indonesian, Italian, Japanese, or Spanish. Students enrol in their chosen language at each year level and are normally expected to enrol in less than a full-time load in their degree units for that year. This process will extend the period required to complete both programs to five years. The relevant language coordinator will advise students about the level of entry and sequence of units to be taken for the diploma.

Double degrees

Double degrees allow students to undertake two courses at the same time, giving them a dual qualification after four years. By exploring two separate fields of study, students enrich and widen their educational, personal, and social experiences and may significantly enhance their employment prospects. The double degrees that include the Bachelor of Arts are described below, as well as two other double degrees administered by the faculty.

Bachelor of Arts/Bachelor of Arts Education (AZAAE) – Melbourne (Bundoora)

This double degree requires completion of 540 credit points over four years of full-time study or equivalent part-time study. Students complete a Bachelor of Arts degree in specific teaching disciplines and gain a secondary teaching qualification. The course provides the opportunity for students to engage in education related studies (including teaching practice in schools) while developing their knowledge in the Humanities and Social Sciences disciplines. As part of the arts degree students must take two arts disciplines offered by the Faculty of Humanities and Social Sciences and which are available to be taken as a teaching methods in the Graduate Diploma in Education (Secondary) at La Trobe (see arts units listed below). Students intending to take a Languages Other Than English (LOTE) method will be required to complete the third year advanced level of their chosen language.

The first year of the degree consists of the foundation arts units. During the second and third years of the degree, students will enrol in both arts and education units, which include supervised teaching practice in schools. In the final year, students will undertake the more intensive teacher-training component of the degree, including studies in educational philosophy, curriculum, and theory, teaching practice in schools and the two teaching methods units.

Please note: students must complete a 'Working with Children Check' form available at Australia Post offices. Students must provide a certified copy of their valid 'Working with Children' card prior to undertaking teaching placements.

First year (120 credit points)

TE-SEM-1	First-year unit arts discipline A (15 credit points)	First-year unit arts discipline B (15 credit points)	First-year arts elective (15 credit points)	First-year arts elective (15 credit points)
TE-SEM-2	First-year unit arts discipline A (15 credit points)	First-year unit arts discipline B (15 credit points)	First-year arts elective (15 credit points)	First-year arts elective (15 credit points)

Second year (140 credit points)

TE-SEM-1	Second-year unit arts discipline A (20 credit points)	Second-year unit arts discipline B (20 credit points)	Second-year arts elective (20 credit points)	EDU2TPA Teaching practice A (20 credit points)
TE-SEM-2	Second-year unit arts discipline A (20 credit points)	Second-year unit arts discipline B (20 credit points)		EDU4HE Holistic education (20 credit points)

Third year (140 credit points)

TE-SEM-1	Third-year unit arts discipline A (20 credit points)	Third-year unit arts discipline B (20 credit points)	Third-year arts elective (20 credit points)	EDU4IIE Issues in education (20 credit points)
TE-SEM-2	Third-year unit arts discipline A (20 credit points)	Third-year unit arts discipline B (20 credit points)		EDU 3TPB Teaching practice B (20 credit points)

Fourth year (140 credit points)

TE-SEM-1	EDU4COL Context of learning (20 credit points)	Education method 1 (20 credit points all year)	Education method 2 (20 credit points all year)	EDU4TPS Teaching practice and skills (20 credit points)	Education elective (20 credit points)
TE-SEM-2	EDU4SEI Issues in secondary education (20 credit points)			EDU4TPM Teaching practices and models (20 credit points)	

Arts disciplines available for specific methods

Students must choose their arts disciplines (A and B above) from two different methods.

Drama method

Theatre and drama.

English method

English, linguistics.

LOTE method (language other than English)

Chinese, Indonesian, Italian, Japanese, Modern Greek, Spanish. Students wanting to do a LOTE method must complete the third year advanced level of their chosen language.

Media studies method

Media studies, cinema studies.

Humanities or SOSE method (Studies of Society and Environment)

Aboriginal studies, anthropology, art history, development studies; gender, sexuality, and diversity studies; history, legal studies, philosophy, politics, religious studies, sociology. Students wanting to take a Humanities or SOSE method must choose both Discipline A units and two of their first year arts Electives from the disciplines listed above. Students should seek approval from the course adviser in the Faculty of Education to ensure that they have at least one discipline that is not generally classified by the teacher accreditation authority as cultural studies.

ESL method (English as a second language)

Linguistics, LOTE (language other than English) studies are also recommended.

Bachelor of Arts/Bachelor of Commerce (LZAC)

See the Faculty of Law and Management chapter in this *Handbook* for a full description.

A degree in commerce provides both a professional accounting qualification and a strong business background. The arts degree allows students to pursue other areas of interest and learn skills, which complement the commerce studies. Many unit combinations are possible. For example, students may study a language, politics, or sociology of a particular region (such as Asia or Europe) and combine this with a management emphasis in the commerce course. Alternatively, they might study legal studies, focusing on law and social policy or criminology and criminal justice, with an accounting major.

Bachelor of Arts/Bachelor of Economics (LZAE)

See the Faculty of Law and Management chapter in this *Handbook* for a full description.

This program offers a comprehensive study of economics with the option of specialising in one or two areas within arts. Many unit combinations are possible, enabling students to build their courses to suit their interests. For instance, they may combine an Asian specialisation in the economics course with the study of an Asian language, politics, or sociology. Alternatively, they might combine legal studies, focusing on law and social policy, with a public policy emphasis in economics.

Bachelor of Arts/Bachelor of Health Sciences (AZAHS) – Melbourne (Bundoora)

This four-year double degree is designed to allow students to pursue their areas of interest in both arts and health sciences. Students select units from the Faculty of Health Sciences and the Faculty of Humanities and Social Sciences. Programs of interest might include gender, sexuality and diversity studies and health promotion; legal studies and public health; human biosciences and archaeology.

Course advisers are available to assist students in designing programs to meet their individual interests. The course requirements are set out below. Lists of health sciences units may be found in the Health Sciences chapter.

Programs of study

The course requires 540 credit points taken over four years, with a minimum of 250 credit points from Humanities and Social Sciences and 260 credit points from Health Sciences. The remaining 30 credit points can be taken from either or any faculty. The maximum number of credit points permitted at first year level is 195.

Students must complete a minimum:

- 90 credit points of first year units, 80 credit points of second year units and 90 credit points of third year units from Health Sciences
- 90 credit points of first year units, 80 credit points of second year units and 80 credit points of third year units from Humanities and Social Sciences.

Health Sciences requirements

Students must complete the following core units from the Bachelor of Health Sciences. These would normally be taken in the first two years of study. All are 15-credit point units.

Unit title	Unit code
Australia's Health Care System	PHE1AHS
Introduction to Public Health A	PHE1PHA
Introduction to Public Health B	PHE1PHB
Introduction to the Human Body	HBS1API
Regulation of Human Body Function	HBS1HRB
The Health of Australians	PHE1HOA

For second and third year level units, students can choose any combination of units from those offered, or can specialise in one of human physiology and anatomy, public health (including rehabilitation and health promotion) or ergonomics, safety and health.

Arts requirements

To complete the Bachelor of Arts, students must complete at least one major of 130 credit points (with 60 credit points at third year level) in a single discipline offered by the Faculty of Humanities and Social Sciences. Students are limited to a maximum of 45 credit points at first year level in any Arts discipline.

Honours

An honours program will be offered to high achieving students and will require an additional full-time year of study. Honours may be undertaken in either arts or health sciences. Details of the specific programs will be available from the relevant faculties.

Bachelor of Arts/Bachelor of Science (SZAS)

See the Faculty of Science, Technology, and Engineering chapter in this *Handbook* for a description of the course. This course is designed to allow students to pursue their areas of interest in both science and arts.

Bachelor of Media Studies/Bachelor of Asian Studies (AZMSAS) – Melbourne (Bundoora)

This four-year double degree combines the study of the media and the development of practical media communication skills with Asian language and cultural studies. Students choose a core language from Chinese, Japanese, or Indonesian for the Asian studies degree and choose a practical media studies stream from journalism, video production, or radio/audio production for the media studies degree.

Course structure

Students must complete 550 credit points: 280 credit points in media studies and 270 credit points in Asian studies. For the media studies degree students complete 60 credit points of first year units, 120 credit points of second year units and 100 credit points of third year units. For the Asian studies degree students complete 90 credit points of first year units, 80 credit points of second year units and 100 credit points of third year units.

Units

Core and stream units are listed below the following table. Elective units can be found in the Asian studies and Media studies sections of this *Handbook*. The following is a typical arrangement of the core and Elective units over the four years of the double degree.

Teaching period	Unit title	Unit code
First year (135 credit points)		
TE-SEM-1	Constructing Communication	MST1CCO
TE-SEM-1	Introduction to Asia: Japan and Indonesia	AST1IJI
TE-SEM-1	Introduction to Asian Culture and Traditions	AST1BCE
TE-SEM-1	Making the News	MST1MTN
TE-SEM-1	First year core Asian language unit	
TE-SEM-2	Audiences and Communication	MST1AAC
TE-SEM-2	Introduction to Asia: China and India	AST1ICI
TE-SEM-2	Writing for the Media	MST1WFM
TE-SEM-2	First year core Asian language unit	
Second year (140 credit points)		
TE-SEM-1	Researching the Media	MST2RTM
TE-SEM-1	Second year media studies Elective unit	
TE-SEM-1	Second year core Asian language unit	
TE-SEM-1	Second year core Asian language unit	
TE-SEM-2	Researching Media Audiences	MST2RMA
TE-SEM-2	Second year media studies Elective unit	
TE-SEM-2	Second year core Asian language unit	
Third year (135 credit points)		
TE-SEM-1	Second year media studies stream unit	
TE-SEM-1	Third year media studies Elective unit	
TE-SEM-1	First year Asian studies Elective unit	
TE-SEM-1	Third year Asian language unit	
TE-SEM-2	Second year media studies stream unit	
TE-SEM-2	Second year Asian studies Elective unit	
TE-SEM-2	Third year Asian language unit	
Fourth year (140 credit points)		
TE-SEM-1	Media Industries	MST3MIN
TE-SEM-1	Broadcast and Electronic Journalism	MST3BEJ
TE-SEM-1	Third year Asian language unit	
TE-SEM-2	Media Project Development	MST3MPD
TE-SEM-2	Third year media studies stream unit	
TE-SEM-2	Third year Asian studies Elective unit	
TE-SEM-2	Third year Asian studies Elective unit

Electives

See the Media studies section of this *Handbook* for Elective units.

Asian studies units

Core language – see discipline entry in this *Handbook* for unit titles and codes.

Chinese beginners or advanced.

Japanese beginners or advanced.

Indonesian beginners or advanced.

Electives

See Asian studies section of this *Handbook* for units available for a major in Asian studies.

Disciplines and areas of study**Aboriginal studies**

Program Coordinator: Dr John Morton.

Students qualify for a degree with an Aboriginal studies major by taking approved combinations of units from anthropology, archaeology, behavioural health sciences, English, genetics and human variation, history, legal studies, linguistics, religious studies, and sociology. Units either focus explicitly on aspects of Aboriginal societies or offer thematic, theoretical, or methodological approaches directly relevant to Aboriginal studies.

Program of study

Students qualifying for a degree with an Aboriginal studies major must accrue at least 130 credit points from the units listed below, including at least 30 credit points at first year and at least 60 credit points at third year. At least 60 credit points must be accrued from the set of core units marked with the superscript 2.

Important notice: not all of the units listed below will be available every year.

Unit title	Unit code
First year units (15 credit points)	
Culture and Globalisation: introduction to anthropology	ANT1CAG
Dawn of Humanity	ARC1DOH
Discovering Archaeology	ARC1DAR
Our Global Village: introduction to anthropology	ANT1FET
Introduction to Aboriginal Australia ²	ANT1IIA
Myth, Legend and History	HIS1MLH
Representation and Participation in Australian Politics	POL1RAP
Sex, Gender and Diversity ²	GSD1SGD
Second or third year units (20 credit points)	
Aboriginal Australia ²	ANT2ABA/ANT3ABA
Aborigines and Law in Australia ²	LST2ALA/LST3ALA
Ancient Technologies	ARC2ANT/ARC3ANT
Anthropological Concepts and Practice	ANT2ACP/ANT3ACP
Applied Cultural Heritage Management	ARC2ACH/ARC3ACH
Applied Anthropology	ANT2APA/ANT3APA
Archaeology of Animals	ARC2ZOO/ARC3ZOO
Archaeology of Indigenous Victoria ²	ARC2AIV/ARC3AIV
Australian Aboriginal History ²	HIS2AAH/HIS3AAH
Australian Cinema	CST2CAC/CST3CAC
Bilingualism and Second Language Acquisition	LIN2BSA/LIN3BSA
Contemporary Australian Politics and Public Policy	POL2CAP/POL3CAP
Contemporary Feminist Thought	ENG2CFT/ENG3CFT
Cross-cultural Communication	LIN2CCC/LIN3CCC
Culture, Race and Difference	ANT2CRD/ANT3CRD
Current Issues in Anthropology	ANT2CIA/ANT3CIA
Discrimination and the Law	LST2DAL/LST3DAL
Gender Relations in Australian Society	HIS2GRA/HIS3GRA
Heritage Sites and Landscapes in Australia	HIS2HSL/HIS3HSL
Ice Age Australia ²	ARC2ICE/ARC3ICE
Inventing the Bush	ENG2ITB/ENG3ITB
Introduction to Ethnographic Research ³	ANT2MQA/ANT3MQA
Kinship, Gender and Marriage	ANT2KAM/ANT3KAM
Managing Archaeology	ARC2MAN/ARC3MAN
Memory, Myth and History	HIS2MMH/HIS3MMH
People, Power and Protest: transforming modern Australia	HIS2PPP/HIS3PPP
Reconciliation ²	POL2REC/POL3REC
Re-situating Modernism: decolonising contexts	ENG2REM/ENG3REM
Twentieth-century Australian Literature: inventing the past	ENG2TAL/ENG3TAL

Third year units (30 credit points)

Community and Cross-cultural Perspectives on Human Nutrition NUT3CPN

Ecological and Evolutionary Genetics GEN3EEG

Key: ² Core units: students majoring in Aboriginal studies must complete at least 60 credit points of these.

³ Students must complete a research project based on Aboriginal studies for this to be considered a core unit.

Honours

To be considered for honours, students normally must have completed a major in Aboriginal studies with at least a B average. Intending honours students are advised to consult the Coordinator of Aboriginal Studies before enrolling at second or third year level. It is possible to combine honours in Aboriginal studies with honours in another discipline.

A full description of these units (including the unit name, unit code, credit points, campus/location, unit coordinator, class requirements, assessment, prerequisites, and readings) appears at the end of each discipline entry. For the most recent descriptions of all units, please access the unit database at www.latrobe.edu.au/udb_public.

Anthropology

Program Coordinator: Dr Alberto Gomes.

Anthropology is the study of humanity with a focus on cultural diversity. Using a range of theoretical perspectives and research methods from fieldwork and discourse analysis, anthropologists attempt to understand, appreciate, and explain cultural differences and similarities. The ultimate intellectual aim is to develop a more informed and critical outlook on one's own culture and in the process achieve a better understanding of what it is that makes us human.

While anthropologists are renowned for their studies of such exotic practices as witchcraft and cannibalism, they are today more interested in familiar and everyday issues: social inequality, poverty, globalisation, global warming, information technology, development, identity politics, and childhood experiences. The anthropology units offered reflect this diversity of interests.

The Anthropology Program offers a fourth year at honours level and a postgraduate degree by research.

Programs of study

In the first year of study, students are introduced to basic concepts in a range of topic areas and social processes. In the second and third years, students can select from a range of units covering topics such as gender, family, kinship and marriage, anthropological concepts and practice, Aboriginal anthropology, comparative studies of other societies, development, psychological anthropology, childhood, and others.

A major in anthropology consists of 130 credit points of anthropology units or units cross-listed as equivalent to anthropology, units (see the list below). A major will include at least 30 credit points at first year level and at least 60 credit points at third year level of anthropology (or equivalent) units.

Students taking 130 or more credit points in anthropology, or wishing to proceed to honours, must complete at either second or third year level the following two units.

Unit title	Unit code
Introduction to Ethnographic Research	ANT2MQA or ANT3MQA
Current Issues in Anthropology	ANT2CIA or ANT3CIA

Students who wish to proceed to honours must have successfully completed at least 130 credit points in anthropology (or nominated equivalent units). Intending honours students are strongly advised to include SOC3PSS in their major.

Teaching period	Unit title	Unit code

Honours

The course comprises a core unit, an Elective or internships, a second-semester research seminar and a research thesis. The length of the honours thesis is between 12000 and 15000 words. Research for the thesis extends through the honours year and is undertaken with the guidance of a supervisor. The program welcomes enquiries about the structure of the course, the Elective units available, the internship program, and other aspects of the honours course.

Entry into the honours year is by application at the end of the student's third year of study. Students considered for admission will normally have a least a B average in units of sociology or anthropology (the honours program is run jointly by Anthropology and sociology) up to 130 credit points. These units will normally include 20 credit points of units classified as research methods, and ANT2CIA/ANT3CIA Current Issues in Anthropology. Prospective honours students are encouraged to take additional anthropology units to this minimum requirement and to include SOC3PSS Practising Social Sciences in their major.

A full description of these units (including the unit name, unit code, credit points, campus/location, unit coordinator, class requirements, assessment, prerequisites, and readings) appears at the end of each discipline entry. A full description of ANT units appears below. For the most recent descriptions of all units, please access the unit database at www.latrobe.edu.au/udb_public.

UNIT DESCRIPTIONS

ANT1CAG CULTURE AND GLOBALISATION: INTRODUCTION TO ANTHROPOLOGY (15. CPs Sem. TE-SEM-1 BU.) Dr Alberto Gomes

Anthropology is the study of different ways of life, with the aim of understanding what it means to be human. Students taking this unit are introduced to anthropology by focusing on such questions as: How do capitalism, consumerism, and globalisation affect us? Is the world turning into one big shopping mall, full of people who listen to the same music and watch the same movies? What are the causes and effects of global problems such as racism, sexism, terrorism, poverty, disease, and global warming? Why do we give presents at Christmas and Valentine's Day? As well as developing an informed and critical

outlook on their own social worlds, students will gain skills relevant in a multicultural and global setting. Students taking this unit are advised to combine it with Anthropology 1FET.

Please note: a repeat evening lecture and an evening tutorial are available in this unit.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: One 2000-word written assignment (50%), one 1.5-hour multiple-choice examination (30%), one 500-word written assignment (20%)

ANT1FET OUR GLOBAL VILLAGE: INTRODUCTION TO ANTHROPOLOGY (15. CPs Sem. TE-SEM-2 BU.) Dr Helen Lee

We focus on global change and its impact on societies worldwide, in areas such as childhood and youth, gender and sexuality, kinship and the family, and the movement of people through migration. Students are introduced to key concepts in anthropology, such as culture, tradition and identity, and the methods and theories anthropologists have used over time to understand human societies. Some of the more controversial aspects of anthropology are explored, as are the exciting possibilities emerging for anthropology in the 21st century.

Please note: a repeat evening lecture is available in this unit.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: One 2000-word written assignment (50%), one 1.5-hour multiple-choice examination (30%), one 500-word written assignment (20%)

ANT1IIIA INTRODUCTION TO ABORIGINAL AUSTRALIA (15 CPs Sem. TE-SEM-1 BU.) Ms Julie Andrews

In this unit, students will be introduced to various elements of Indigenous Australia. Students will study a broad range of issues of relevance to contemporary Aborigines and Torres Strait Islander people. While there will be a particular emphasis on the Indigenous people of Victoria, students will gain an understanding of regional variation throughout Australia. Issues discussed include identity, self-representation, spirituality, family, gender, land, politics, law, economics, education, health, history, art, and music. Students intending to major in Aboriginal Studies are strongly advised to take this unit.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: One 2000-word essay (50%), one 1.5-hour multiple-choice exam (30%), one 500-word written assignment (20%)

Recommended Reading:

Bourke, C, Bourke, E, & Edwards, B (Eds) *Aboriginal Australia* University of Queensland Press 1998.

Grossman, M (Ed) *Blacklines: contemporary critical writing by Indigenous Australians* Melbourne University Press 2003.

ANT2ABA ABORIGINAL AUSTRALIA (20. CPs Sem. TE-SEM-2 BU.) Dr John Morton

This unit is offered at third year level also.

This unit examines the main defining features of Aboriginal life in Australia. It looks at the relationship between the pre-colonial past and the contemporary situation where Aboriginal people are an indigenous minority. Students gain an understanding of the Dreaming, family life, politics, foraging, and connections to land as key elements of Aboriginal identity. These are also examined in the context of contemporary issues such as the Aboriginal art market, the stolen generation, urbanisation, the recognition of customary law and land rights legislation. The unit also looks at how indigenous Australians are represented in the public domain. This unit would also suit students undertaking a development studies or Aboriginal studies major, who, subject to approval, may enrol in the unit without the standard prerequisites.

Prerequisite: 30 credit points of first year sociology or anthropology, or AST1IJI and AST1ICI, or unit coordinator's approval.

Class requirements: One 3-hour lecture or seminar per week.

Assessment: One 2500-word essay (50%), one 1000-word essay plan (20%), one 1500-word take-home examination (30%). Third year students will be expected to show a greater achievement of discipline specific skills in their written work than second year students.

Preliminary Reading:

Rowse, T *After Mabo: interpreting indigenous traditions* Melbourne University Press 1993.
 Edwards, W H *An introduction to Aboriginal societies* Social Science Press 1988.
 Beckett, J R (Ed) *Past and present: the construction of Aboriginality* Aboriginal Studies Press any edn.

ANT2ACP ANTHROPOLOGICAL CONCEPTS AND PRACTICE (20. CPs Sem. TE-SEM-1 BU.) *Dr Chris Eipper*

This unit is offered at third year level also.

Human sacrifice; purity and pollution, dirt, hair and etiquette; Santa Claus and Christmas gifts; royal weddings and funerals; virgin mothers, sons of god and similar miracles. What have anthropologists had to say about such things? How have they investigated them and how have they sought to explain them? This unit focuses on and explores a series of emblematic cases that illustrate the anthropological imagination and the ethnographic approach to human experience, social life, and intellectual inquiry.

Prerequisite: 30 credit points of first year sociology or anthropology, or AST1IJ and AST1ICI, or unit coordinator's approval.

Class requirements: One 3-hour seminar lecture per week.

Assessment: One 3000-word essay (60%), one 2-hour examination (40%). Third year students will be expected to show a greater achievement of discipline specific skills in their written work than second year students.

Preliminary Reading:

Keessing, R *Cultural anthropology: a contemporary perspective* Holt, Rinehart, and Winston 1981.

ANT2APA APPLIED ANTHROPOLOGY (20 CPs Sem. TE-SEM-1 BU.) *Dr Ray Madden*

This unit is offered at third year level also.

In this unit, we examine the ways in which anthropology is used in a number of practical contexts outside of universities. Students will be provided with an overview of the relevance and application of anthropological research to particular arenas, such as cultural heritage management, community development, the environments, social impact assessment, education, health, land rights, migration, Indigenous affairs and the performance of expert witness duties in courts or tribunals. These matters will be illustrated by examples of applied anthropological research methodology in various countries, with particular emphasis on Australia and the Asia-Pacific region.

Prerequisite: 30 credit points from first year sociology, first year anthropology, AST1IJ, AST1ICI or unit coordinator's approval.

Class requirements: One 3-hour lecture/seminar per week.

Assessment: One 3000-word essay (60%), one 2-hour exam (40%). Third year students will be expected to show a greater achievement of discipline-specific skills in their written work than second year students.

Preliminary Reading:

Toussaint, S & Taylor, J (Eds) *Applied anthropology in Australasia* University of Western Australia Press 1999.

ANT2ASF VISUAL ANTHROPOLOGY: DOCUMENTING CULTURES (20. CPs Sem. TE-SEM-2 BU.) *Dr Lorraine Mortimer*

This unit is offered at third year level also.

Not available in 2008

ANT2BMC BODY, MIND AND CULTURE (20. CPs Sem. TE-SEM-1 BU.) *Dr Michele Stephen*

This unit is offered at third year level also.

Current approaches, sociological, cultural, and psychoanalytic, to the following questions will be examined in the light of Melanie Klein's theory of fantasy and primal desire. Why is body substance, along with concepts of pollution and purity, of such concern in human cultures? Why do fears of sorcery and witchcraft exist in many human cultures? Why is gift exchange and reciprocity an important dynamic? Why is second burial a widespread phenomenon? Why are male initiation rituals prominent in societies studied by anthropologists? Why in most human cultures do men dominate women? In addition, why have women accepted male domination?

Prerequisite: 30 credit points of first year sociology or anthropology, or AST1IJ and AST1ICI, or unit coordinator's approval. Students are

advised that a prior knowledge of psychoanalytic theory will be an advantage.

Class requirements: One 3-hour lecture/workshop per week.

Assessment: One 3000-word essay (60%), one 2000-word take-home examination (40%). Third year students will be expected to show a greater achievement of discipline-specific skills in their written work than second year students.

Prescribed Reading:

Klein, M *Envy and gratitude and other works 1946-1963* Virago Press 1993.

Klein, M *Love, guilt, and reparation: and other works 1921-1945* Virago Press 1988.

ANT2CAC CHILDHOOD AND CULTURE (20. CPs Sem. TE-SEM-1 BU.) *Dr Helen Lee*

This unit is offered at third year level also.

Not available in 2008

ANT2CIA CURRENT ISSUES IN ANTHROPOLOGY (20. CPs Sem. TE-SEM-2 BU.) *Dr John Morton*

This unit is offered at third year level also.

What is the state of play in anthropology today? What are the possibilities? This unit introduces students to topics and themes of importance in contemporary ethnographic debate. A key objective is the consolidation of what has already been learnt in other subjects (including first year and, ideally, anthropological concepts and practice) so as to provide a thorough grounding which will be beneficial to those undertaking further study in anthropology.

Prerequisite: 30 credit points of first year sociology or anthropology, or AST1IJ and AST1ICI, or unit coordinator's approval.

Class requirements: One 3-hour seminar lecture per week.

Assessment: One 3000-word essay (60%), one 2-hour examination (40%). Third year students will be expected to show a greater achievement of discipline specific skills in their written work than second year students.

Preliminary Reading:

Eriksen, T H *A history of anthropology* Pluto Press 2001.

ANT2CRD CULTURE, RACE AND DIFFERENCE (20 CPs Sem. TE-SEM-2 BU.)

To be advised

This unit is offered at third year level also.

In this unit, we examine current approaches in anthropology and related disciplines to the ways individuals and groups seek to define themselves, or are defined by others, as members of distinctive groups based on phenotype, culture, religion, and/or sexuality. The unit provides an overview of anthropological theories of cultural and racial identity formation. This is done in the context of a range of concrete examples of identity politics in particular social and historical contexts in the Asia Pacific region, North America and Europe. Bringing together a variety of theoretical approaches to the study of identity politics will enable students to assess and develop a critical perspective on practices of identification and exclusion in the modern world.

Prerequisite: 30 credit points of first year sociology or anthropology, or AST1IJ and AST1ICI, or unit coordinator's approval.

Class requirements: One 3-hour lecture/seminar per week.

Assessment: One 3000-word essay (60%), one 2-hour examination (40%). Third year students will be expected to show a greater achievement of discipline-specific skills in their written work than second year students.

ANT2DDD DISPLACEMENT, DEVELOPMENT, DISADVANTAGE: STUDY TOUR (20 CPs Sem. TE-W26-30 BU.) *Professor Sandy Gifford*

This unit is offered at third year level also.

Offer is subject to a minimum enrolment of 15 students.

In this unit, students are offered an intense learning-by-immersion experience into issues of forced displacement, development, and disadvantage in one of a number of countries in Asia, Europe, and Africa. During the study tour we will examine the push and pull factors associated with forced displacement including environmental causes, development induced displacement, civil unrest, genocide and stateless communities and human trafficking. The study tour will visit these different displaced communities, NGOs working with people

who are survivors of human rights abuses, academic research centres and International Organizations that work with refugees. Participant observation, seminars, and informal discussions will focus on the learning and reflection about the causes, consequences, and solutions to forced displacement. In this unit, we will examine the socio-cultural contexts and factors underlying forced displacement, flight, asylum, and resettlement from a broad anthropological perspective.

Prerequisite: 30 credit points of first year sociology or anthropology or coordinator's approval.

Quota: 25. Priority will be given to students in their final year of study. Second priority will be given to students with some background in issues of forced displacement (e.g., enrolled in a relevant course or completed a relevant subject or other relevant experience in refugee issues)

Class requirements: 162 contact hours comprising:

Pre-departure seminars (10 hours) (attendance required) and 22 days in country.

20 hours pre-reading, informal contact hours in Bangladesh and post visit reading and assessment.

This unit is not available for Study Abroad students.

Assessment: One 3000-word essay (50%), one 2000-word reflective journal essay (50%). Third year students will be expected to show a greater achievement of discipline-specific skills in their written work than second year students.

Prescribed Reading:

Refugees by Numbers www.unhcr.ch UMHCR 2004.

ANT2DFR DISPLACEMENT, FLIGHT AND REFUGE (20 CPs Sem. TE-SEM-1 BU.) *Professor Sandy Gifford*

This unit is offered at third year level also.

Anthropology is one of the key disciplines of refugee studies. In this unit, the socio-cultural contexts and factors underlying forced displacement, flight, asylum, and resettlement from an anthropological perspective will be examined. One of the most pressing challenges to global and local well-being is the scale and complexity of the problem of refugees and other displaced peoples. Explanations of and solutions to the growing numbers of displaced persons are complex and contentious. We will critically explore different perspectives about push factors underlying displacement, the contexts, and experiences of flight, the search for a new place and the dilemmas of resettlement. We will consider questions of the unmaking and remaking of cultural life and social institutions, the nature and impact of torture and trauma, the shattering and remaking of identities, connections to place and notions of belonging.

Prerequisite: 30 credit points from first year sociology, anthropology, or AST1IJI, AST1ICI.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: One 3000-word essay (60%), one 2000-word reflective journal (40%). Third year students will be expected to show a greater achievement of discipline-specific skills in their written work than second year students.

Preliminary Reading:

Gourevitch, P *We wish to inform you that tomorrow we will be killed with our families: stories from Rwanda* Farrar, Straus & Giroux 1998.

Prescribed Reading:

Helton, A *The price of indifference: refugees and humanitarian action in the new century* Oxford University Press 2002.

Fadiman, A *The spirit catches you and you fall down* Farrar, Straus & Giroux 1998.

Scheper-Hughes, N (Ed) *Violence in war and peace: an anthology* Blackwell 2004.

ANT2DGC DEVELOPMENT, GLOBALISATION AND CULTURE (20 CPs Sem. TE-SEM-1 BU.) *Dr Alberto Gomes*

This unit is offered at third year level also.

In this unit, students are introduced to central issues and themes in the anthropological study of development, neo-liberalism, and globalisation. Questions addressed include – What are the various theories and discourses of development and globalisation? What are the implications of development, neo-liberalism, and globalisation for cultures and communities, particularly, but not exclusively, in Africa, Asia, and Latin America? What are the varied responses (from

peaceful protest to violent acts of terrorism) of communities to issues and problems related to neo-liberalism and globalisation?

Prerequisite: 30 credit points of first year sociology or anthropology, or AST1IJI or AST1ICI, or unit coordinator's approval.

Class requirements: One 3-hour lecture or seminar per week.

Assessment: Two 2500-word essays (100%). Third year students will be expected to show a greater achievement of discipline-specific skills in their written work than second year students.

ANT2KAM KINSHIP, GENDER AND MARRIAGE (20 CPs Sem. TE-SEM-2 BU.) *Dr Helen Lee*

This unit is offered at third year level also.

Anthropologists have long been fascinated by kinship and marriage, which are central to human social organisation. In this unit, we look at how anthropological approaches to these forms of relationships have changed over time and critically assess recent work in this field. We examine the role and significance of kinship and marriage in many different societies, looking at issues such as gender and power, identity and emotion, social change and family violence. The future of kinship and marriage will also be considered, in the light of continuing social change and the development of new reproductive technologies.

Prerequisite: 30 credit points of first year sociology or anthropology, or AST1IJI and AST1ICI, or unit coordinator's approval.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: One 2000-word essay (40%), weekly class assignments (1500-word equivalent) (30%), one genealogical exercise (500-word equivalent) (10%), one 1-hour class test (1000-word equivalent) (20%). Third year students will be expected to show a greater achievement of discipline-specific skills in their written work than second year students.

ANT2MQA INTRODUCTION TO ETHNOGRAPHIC RESEARCH (20 CPs Sem. TE-SEM-2 BU.) *Dr Ray Madden*

This unit is offered at third year level also.

Ethnography is social research, of relatively small scale, usually focused on a single setting or group. Data are collected through a range of techniques employed in fieldwork, but the emphasis is on participant observation and informal interviewing. Through class discussions and practical experience, students become familiar with these techniques.

Prerequisite: 30 credit points of first year sociology or anthropology, or AST1IJI AND AST1ICI, or enrolment in an Aboriginal studies major.

Class requirements: One 2-hour lecture and one 1-hour group discussion per week.

Assessment: Field notes (1000 word equivalent) (15%), one 3000-word ethnographic paper (70%), one 1000-word research proposal (15%). Third year students will be expected to show a greater achievement of discipline specific skills in their written work than second year students.

ANT2PCP POSTCOLONIAL PERSPECTIVES (20 CPs Sem. TE-SEM-2 BU.)

Coordinator to be advised

This unit is offered at third year level also.

What was the impact of colonisation on people's everyday lives? In areas such as family life, gender relations, social organisation and economic activity, what changes occurred and in what ways did people resist change? In this unit students look at how, in today's 'postcolonial' world, societies with varying degrees of political independence are dealing with these many effects of colonisation. Students are introduced to the theories that have emerged in anthropology to address 'post-colonialism'. A particular focus of the unit is the Asia Pacific region with its diverse experiences of colonialism and its aftermaths.

Prerequisite: 30 credit points of first year sociology or anthropology or politics, or AST1IJI and AST1ICI, or unit coordinator's approval.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: One 3000-word essay (60%), one 2000-word class assignment (40%). Third year students will be expected to show a greater achievement of discipline specific skills in their written work than second year students.

Archaeology

Program Coordinator: *Dr Richard Cosgrove* (sem 1), *Dr Phillip Edwards* (sem 2).

The Archaeology Program is a world-renowned centre of research into the archaeological past. Units are directed towards providing an understanding of the past, using both archaeological, and other evidence. Emphasis is given to the evolution of modern people and their social and technical developments with a focus on both Australia and other parts of the world. In all units, attention is given to the techniques and theories that contribute to the study of archaeology.

A number of units outside the discipline are particularly suitable for study in conjunction with archaeology. These units may be, but are not normally, credited towards an archaeology major.

Archaeological excavations, in which students are encouraged to participate, are held during the year. Excursions to archaeological sites may also be arranged. They may be compulsory and involve some additional expenditure.

Programs of study

Students who wish to qualify for a degree with a major in archaeology must take at least 130 credit points of archaeology, which must include the equivalent of 30 credit points at first year level in archaeology, and 60 credit points at third year level.

Teaching period	Unit title	Unit code
First year units (15 credit points)		
TE-SEM-1	Discovering Archaeology	ARC1DAR
TE-SEM-2	Dawn of Humanity	ARC1DOH
TE-SEM-2	The Archaeology of Ancient Civilisations	ARC1AAC
Second and third year units (20 credit points)		
TE-SEM-1	African Archaeology ¹	ARC2AFR/ARC3AFR
TE-SEM-1	Ancient Maya Civilisation of Mexico and Guatemala ¹	ARC2ANM/ARC3ANM
TE-SEM-1	Applied Cultural Heritage Management ¹	ARC2ACH/ARC3ACH
TE-SEM-1	The Archaeology of Ancient Mexico, Culminating with the Aztec Empire	ARC2AZT/ARC3AZT
TE-SEM-1	The Archaeology of Animals ¹	ARC2ZOO/ARC3ZOO
TE-SEM-1	Archaeology of East Asia ¹	ARC2AEA/ARC3AEA
TE-SEM-1	Archaeology of the Middle East	ARC2AME/ARC3AME
TE-SEM-1	Archaeology of the Modern World	ARC2AMW/ARC3AMW
TE-SEM-1	Emergence of Chinese Civilisation ¹	ARC2ECC/ARC3ECC
TE-SEM-1	Managing Archaeology	ARC2MAN/ARC3MAN
TE-SEM-1	Palaeolithic Archaeology	ARC2PAL/ARC3PAL
TE-SEM-2	Ancient Technologies	ARC2ANT/ARC3ANT
TE-SEM-2	Archaeology of Indigenous Victoria	ARC2AIV/ARC3AIV
TE-SEM-2	Historical Archaeology in Australia ¹	ARC2HAA/ARC3HAA
TE-SEM-2	Ice Age Australia ¹	ARC2ICE/ARC3ICE
TE-SEM-2	Maya Hieroglyphic Writing ¹	ARC2MHW/ARC3MHW
TE-SEM-2	Mediterranean Archaeology ¹	ARC2MED/ARC3MED
TE-SEM-2	Rise and Fall of Civilisations	ARC2RFC/ARC3RFC
TE-SEM-2	World of the Pharaohs: the archaeology of Ancient Egypt	ARC2EGY/ARC3EGY
TE-SEM-2	World Writing Systems: survey and analysis	ARC2WRS/ARC3WRS
Third year units (20 credit points)		
TE-SEM-1	Reading Course A	ARC3RCA
TE-SEM-2	Approaches to Archaeological Research	ARC3AAR
TE-SEM-2	Reading Course B	ARC3RCB

Key: ¹ Not available in 2008.

Compatible units from other schools

The following units are particularly suitable for study in conjunction with archaeology. They are not normally credited towards an archaeology major.

Unit title	Unit code
First year units (15 credit points)	
Animal Diversity, Ecology and Behaviour ²	BIO1AD
Culture and Globalisation: introduction to anthropology	ANT1CAG
Our Global Village: introduction to anthropology	ANT1FET
Processes that Shape the Earth	GEO1PRO
The Nature of Language and Communication A	LIN1NLA
Second and third year units (20 credit points)	
Environmental Geoscience: landscape and climate change	GEO2EGL
Environmental Geoscience: remote sensing and GIS	GEO2EGR
Heritage Sites and Landscapes in Australia	HIS2HSL/HIS3HSL

Introduction to Ethnographic Research ANT2MQA/ANT3MQA
 Migration to Australia in the 19th and 20th Centuries HIS2MTA/HIS3MTA
 Key: ² Approval must be obtained from the Faculty of Science, Technology and Engineering.

Honours

The honours degree requires intensive study of the discipline at second, third and fourth years. To enter the fourth year, a student is normally expected to have completed at least 130 credit points of archaeology, including the equivalent of 30 credit points at first year level in archaeology, and at least 60 credit points in third year (including ARC3AAR). A high level of performance in all archaeology units is required.

A full description of these units (including the unit name, unit code, credit points, campus/location, unit coordinator, class requirements, assessment, prerequisites, and readings) appears at the end of each discipline entry. A full description of ARC units appears below. For the most recent descriptions of all units, please access the unit database at www.latrobe.edu.au/udb_public.

UNIT DESCRIPTIONS

ARC1AAC ARCHAEOLOGY OF ANCIENT CIVILISATIONS (15. CPs Sem. TE-SEM-2 BU.) *Dr Phillip Edwards*

During the Renaissance, Western artists looked to their Greek and Roman antecedents for inspiration and in so doing, rediscovered the rich material remains of these earliest Western civilisations. With the growth of the discipline in the 19th century, archaeologists broadened their horizons, some in search of booty with which to stock the new museums of industrial Europe, others concerned to test the veracity of the biblical account and a growing number concerned to explore the common features and origins of the urban civilisations. In this unit, we provide an historical account of this early research, together with a review of contemporary modes of explanation. We survey the elaborate variety of complex human societies that have arisen in the last 6000 years, including Egypt and Mesopotamia, the Mediterranean and Western Europe, the Indus Valley, Mesoamerica, Peru, and sub-Saharan Africa.

Class requirements: One 1-hour lecture, one 1-hour film and one 1-hour tutorial per week.

Assessment: One 2000-word essay (50%), one 1000-word assignment (20%), one 1-hour examination (30%)

Prescribed Reading:

Scarre, C & Fagan, B *Ancient civilisations* Prentice Hall 2003.

ARC1DAR DISCOVERING ARCHAEOLOGY (15. CPs Sem. TE-SEM-1 BU.)

Professor Li Liu

Archaeologists study the material traces of past human societies to try to understand how we came to be the way we are. From the stone tools and animal bones discarded by our earliest ancestors, they can trace the evolution of the behaviours we regard as the hallmarks of our humanity. From the more varied remains created by more recent societies archaeologists study the critical transformations that have shaped the modern world: the origins of language, food production, and complex societies. A series of case studies based on current La Trobe projects are used to explore the methods and theories that archaeologists employ in pursuit of these goals.

Class requirements: One 1-hour lecture, one 1-hour film and one 1-hour tutorial per week.

Assessment: One 2000-word essay (40%), three 330-word tutorial assignments (30%), one 1-hour examination (30%)

Prescribed Reading:

ARC1DOH DAWN OF HUMANITY (15 CPs Sem. TE-SEM-2 BU.) *Dr Nicola Stern*

Our ancestors neither looked, nor behaved, like us. In this unit, students will be introduced to our tool-using ancestors, the worlds

they inhabited and the behaviours in which they engaged. We will investigate the way in which archaeologists build a picture of the very remote past from the bits of broken-up animal bones and chipped stone tools that survive in the archaeological record. This provides a springboard for discussing current understanding of the changes in technology, diet, social organisation, and cognition that characterised our evolutionary story. We have, of course, a particular interest in the origin of our own species and in the establishment of modern cognition and behaviour.

Class requirements: One 1-hour lecture, one 1-hour film and one 1-hour tutorial per week.

Assessment: One 1500-word essay (40%), one 1.5-hour examination (40%), two 500-word class assignments (20%)

Prescribed Reading:

Scarre, C (Ed) *The human past* Thames and Hudson 2005.

ARC2ACH APPLIED CULTURAL HERITAGE MANAGEMENT (20 CPs Sem. TE-SEM-1 BU.) *Dr Sam Spiers*

This unit is offered at third year level also.

Not available in 2008

ARC2AEA ARCHAEOLOGY OF EAST ASIA (20 CPs Sem. TE-SEM-1 BU.)

Professor Li Liu

This unit is offered at third year level also.

ARC2AFR AFRICAN ARCHAEOLOGY (20 CPs Sem. TE-SEM-1 BU.) *Dr*

Nicola Stern

This unit is offered at third year level also.

Not available in 2008

ARC2AIV ARCHAEOLOGY OF INDIGENOUS VICTORIA (20 CPs Sem. TE-SEM-2 BU.) *Dr David Frankel*

This unit is offered at third year level also.

In this unit students concentrate on developments in Australia during the Holocene. Taking a regional perspective, students examine evidence and ideas about the prehistory of different parts of the continent, with particular reference to southeast Australia. In each case, historical and ethnographic evidence provides the basis for understanding Aboriginal society and economy at the time of European contact. Differences over time are examined through archaeological data and consideration is given to how these very recent systems developed. Conflicting explanations for prehistoric change that stress environmental, social, technological and demographic factors are examined in the light of available archaeological evidence.

Prerequisite: At least 15 credit points of archaeology units, or coordinator's approval.

Class requirements: One 1-hour lecture and one 2-hour workshop per week.

Assessment: One 2500-word essay (50%), one 1500-word essay (35%), one 1-hour examination (15%). Third year students will be expected to show a greater achievement of discipline specific skills in their written work than second year students.

Preliminary Reading:

Flood, J *Archaeology of the Dreamtime*. Harper Collins 1999, rev edn

Prescribed Reading:

Mulvaney, D J & Kamminga, J *Prehistory of Australia* Allen and Unwin 1999.

ARC2AME ARCHAEOLOGY OF THE MIDDLE EAST (20. CPs Sem. TE-SEM-1 BU.) *Dr Phillip Edwards*

This unit is offered at third year level also.

In this unit, we trace fundamental innovations in the human career, which were played out in the Middle East. The region was the cradle of crucial developments including the advent of the earliest farming societies and literate civilisations. Focusing on South-west Asia, the unit continues to investigate its archaeology from the Bronze and Iron Ages to the period of western ascendancy in the Hellenistic to Byzantine periods, concluding with the arrival of the Crusaders in the region. Political conditions, international rivalry, and the massive size of many archaeological sites all played their parts in producing a distinctive brand of Middle Eastern archaeology.

Prerequisite: At least 15 credit points of Archaeology subjects, or coordinator's approval.

Class requirements: One 1-hour lecture and one 2-hour workshop per week.

Assessment: Two 1500-word essays (50%), four short assignments (20%), one 1-hour examination (30%). Third year students will be expected to show a greater achievement of discipline specific skills in their written work than second year students.

Preliminary Reading:

Levy, T E (Ed) *The archaeology of society in the Holy Land* Leicester University Press 1998.

ARC2AMW ARCHAEOLOGY OF THE MODERN WORLD (20. CPs Sem. TE-SEM-1 BU.) *Dr Susan Lawrence*

This unit is offered at third year level also.

In this unit students gain a theoretical and a methodological introduction to the archaeology of European expansion. Topics addressed in the lectures include theoretical issues in the development of historical archaeology as an area of research, colonialism, gender, ethnicity, indigenous historical archaeology, urbanisation, maritime archaeology, material culture studies, and cultural resource management. Supplementary reading in each of these areas is provided and class participation is encouraged.

Prerequisite: At least 15 credit points of archaeology, history, or coordinator's approval.

Class requirements: One 2-hour lecture and one 1-hour laboratory session per week.

Assessment: One 2500-word essay (40%), one 1500-word laboratory report (35%), one 1000-word assignment (25%). Third year students will be expected to show a greater achievement of discipline specific skills in their written work than second year students.

Preliminary Reading:

ARC2ANM ANCIENT MAYA CIVILISATION OF MEXICO AND GUATEMALA (20 CPs Sem. TE-SEM-1 BU.) *Professor Peter Mathews*

This unit is offered at third year level also.

Not available in 2008

ARC2ANT ANCIENT TECHNOLOGIES (20 CPs Sem. TE-SEM-2 BU.) *Dr Nicola Stern*

This unit is offered at third year level also.

Items of technology make up by far the bulk of the archaeological record and their analysis and interpretation touches on almost every aspect of archaeological theory and practice. A broad range of problems is investigated through the study of material remains: questions about the cognitive abilities and adaptive strategies of our ancestors, about the social and economic structures of human societies and about the patterns of interaction between them. An equally broad range of theoretical and methodological approaches is employed to generate the information needed to answer these questions. Implementing these approaches is a daunting task without some practical knowledge about how to identify, describe, and analyse these remains and one of the aims of this unit is to show how this is done.

Prerequisite: 15 credit points of Archaeology units, or the coordinator's approval.

Class requirements: One 1-hour lecture and one 2-hour workshop per week.

Assessment: One 3000-word essay (55%), three data analysis assignments (2000-words equivalent) (45%). Third year students will be expected to show a greater achievement of discipline-specific skills in their written work than second year students.

Recommended Reading:

ARC2AZT ARCHAEOLOGY OF ANCIENT MEXICO, CULMINATING WITH THE AZTEC EMPIRE (20 CPs Sem. TE-SEM-1 BU.) *Professor Peter Mathews*
This unit is offered at third year level also.

The Aztecs are the most famous ancient Mexican culture, but in fact, they were the last of a long sequence of civilisations in what archaeologists call ancient Mesoamerica. Other cultures include the Olmec (Mesoamerica's first great civilisation), the Zapotec and Mixtec cultures, Teotihuacan, and the Toltecs. In this unit, we will consider each of these in turn. Along the way, we shall look at various aspects of ancient Mesoamerica, from subsistence and trade, to politics, religion, and worldview. The seminars will deal with topical issues, such as agriculture, writing, the calendar, and warfare.

Prerequisite: 15 credit points of archaeology or coordinator's approval.

Class requirements: Two 1-hour lectures and one 1-hour seminar per week.

Assessment: Three map and short identification quizzes (15%), one 1-hour mid-term examination in class (25%), one 3000-word essay (60%). Third year students will be expected to show a greater achievement of discipline-specific skills in their written work than second year students.

Recommended Reading:

Townsend, R F *The Aztecs* Revised edn., Thames and Hudson 2000.

ARC2ECC EMERGENCE OF CHINESE CIVILISATION (20. CPs Sem. TE-SEM-1 BU.) *Professor Li Liu*

This unit is offered at third year level also.

Not available in 2008

ARC2EGY WORLD OF THE PHARAOHS: THE ARCHAEOLOGY OF ANCIENT EGYPT (20 CPs Sem. TE-SEM-2 BU.) *Professor Peter Mathews*

This unit is offered at third year level also.

For 3000 years, the culture of Ancient Egypt exerted a profound influence in the eastern Mediterranean. In this unit, students are introduced to the archaeology and art of this fascinating civilisation. The approach will be chronological from the pyramids of the Old Kingdom to the painted tombs and sculptured temples of the New Kingdom and the multicultural world of Ptolemaic Egypt. Topics to be considered will include state formation in the Nile valley, the political and religious significance of monumental building and sculpture, planned towns, tomb painting and religious symbolism, craft techniques and conventions.

Prerequisite: 15 credit points of first year archaeology or art history or coordinator's approval.

Class requirements: One 1-hour lecture and one 2-hour seminar per week.

Assessment: Three map and short answer quizzes (15%), one 3000-word essay (60%), and one 1-hour class test (25%). Third year students will be expected to show a greater achievement of discipline specific skills in their written work than second year students.

ARC2MAN MANAGING ARCHAEOLOGY (20 CPs Sem. TE-SEM-1 BU.) *Dr**Peter Davies**This unit is offered at third year level also.*

Archaeology has played a key role in developing Australia's 'heritage industry', and this unit explores the current role of archaeological knowledge in our society. It will introduce students to the conceptual and procedural skills required to work effectively as a professional archaeologist. Students will review the development of cultural resource management, explore the role of archaeological knowledge in the cultural conservation process, including the main provisions of legislation and policy relating to archaeology in Australia, and the role and responsibilities of Indigenous communities, government departments and other stake-holders.

Prerequisite: At least 15 credit points of archaeology or coordinator's approval.

Incompatible unit: ARC21AHM, ARC31AHM

Class requirements: One 1-hour lecture and one 2-hour workshop per week.

Assessment: Two 2000-word essays (80%), one 1000-word class assignment (20%). Third year students will be expected to show a greater achievement of discipline specific skills in their written work than second year students.

Prescribed Reading:

TE-SEM-1 BU.) *Dr**Nicola Stern**This unit is offered at third year level also.*

In this unit students trace the sequence of events that make up the story of human evolution and explore current understanding of the dynamics underlying those events. This includes discussion of the strategies being employed to reconstruct the behaviour of extinct species for which there are no living analogues. Topics include the earliest archaeological traces, the expansion of the biogeographic range and the establishment of modern human behaviour patterns.

Prerequisite: At least 15 credit points of archaeology or coordinator's approval.

Class requirements: One 1-hour lecture and one 2-hour workshop per week.

Assessment: One 3000-word essay (60%), ten 200-word short assignments (40%). Third year students will be expected to show a greater achievement of discipline specific skills in their written work than second year students.

Prescribed Reading: Klein, R G

The human career 2nd edn, University of Chicago Press 1999.

ARC2RFC RISE AND FALL OF CIVILISATIONS (20 CPs Sem. TE-SEM-2 BU.)*Professor Li Liu**This unit is offered at third year level also.*

Ancient societies have gone through many cycles of development and decline in terms of the level of social complexity. This unit introduces theoretical and practical approaches in archaeology relating to understanding of social-political change. Discussion topics include the emergence of social inequality, acquisition, and maintenance of power by elites, function of ritual and ideology in relation to social

transformation, and variability of political economy associated with the development of social complexity. Special attention is placed on the current debate about cultural evolution – how and why civilisations emerged, progressed, and collapsed in different parts of the world.

Prerequisite: At least 15 credit points of archaeology units, or coordinator's approval.

Incompatible unit: ARC21TMA, ARC31TMA

Class requirements: One 1-hour lecture and one 2-hour tutorial per week.

Assessment: One class presentation (20%), one 1500-word essay (30%), one 3000-word essay (50%). Third year students will be expected to show a greater achievement of discipline specific skills in their written work than second year students.

ARC2WRS WORLD WRITING SYSTEMS: SURVEY AND ANALYSIS (20 CPsSem. TE-SEM-2 BU.) *Professor Peter Mathews**This unit is offered at third year level also.*

A survey of world writing systems that have been developed over the past 5000 years. In this unit, students will look at a variety of ancient scripts, from Sumerian cuneiform to Japanese, and from Cretan Linear B to Mexican picture writing. We will examine features of the scripts and of writing in general, and the decipherment process of several scripts. Included in the survey are cuneiform writing and Egyptian hieroglyphs, deciphered almost 200 years ago by the French scholar Jean-Francois Champollion.

Prerequisite: At least 15 credit points of archaeology or coordinator's approval.

Class requirements: Two 1-hour lectures and one 1 hour workshop per week.

Assessment: One 2500-word research paper (50%), five 500-word assignments (50%).

Third year students will be expected to show a greater achievement of discipline-specific skills in their written work than second year students.

Prescribed Reading:

Pope, M *The story of decipherment* Rev edn, Thames and Hudson 1999.

Robinson, A *The story of writing* Thames and Hudson 1995.

ARC2ZOO THE ARCHAEOLOGY OF ANIMALS (20 CPs Sem. TE-SEM-2 BU.)*Dr Richard Cosgrove**This unit is offered at third year level also.**Not available in 2008***ARC3AAR APPROACHES TO ARCHAEOLOGICAL RESEARCH** (20 CPs Sem.TE-SEM-2 BU.) *Dr Phillip Edwards*

In this unit, students are introduced to the fundamental principles of archaeological research, and how research programs are designed and developed and arguments justified. Practical and technical issues are considered in linking theory and practice. Attention is paid to analytical approaches to the collection, documentation, organisation, presentation, and explanation of archaeological evidence from excavations and surveys, including stone tools, pottery, and animal remains. This unit is a prerequisite for students wishing to enrol in Archaeology Honours, and is a core component of the B. Archaeology degree.

Prerequisite: At least 90 credit points of archaeology, or coordinator's approval.

Class requirements: One 3-hour workshop per week.

Assessment: One 3000-word essay (50%), one 1000-word assignment (25%), one 1000-word assignment (25%)

Art history

Coordinator: Dr Diane Kirkby.

The Art History Program was established to teach and to conduct research in the history of Western art. In contemporary society, visual forms of communication play a major role in our daily experience. Art history investigates this experience through the visual analysis of art and architecture in historical and contemporary cultures and through the study of the language of images.

Specialisations

Areas of specialisation are Baroque art, architecture, Early Christian, medieval art, and architecture, Italian Renaissance art, Australian and American 20th century art.

Students may take the following units in art history as part of their degree. However, a major in art history is not available.

Teaching period	Unit title	Unit code
First year units (15 credit points)		
TE-SEM-1	Art from Renaissance to Van Gogh	ARH1ARW
TE-SEM-2	Art from Picasso to Koons	ARH1APK
Second and third year units (20 credit points)		
TE-SEM-1	Art of Byzantium and Rome c312–c1320 (on-line unit)	ARH2AOB/ARH3AOB
TE-SEM-1	Discover Australia: current issues and debates	AUS2DAU/AUS3DAU
TE-SEM-2	America since 1945: pop art, politics and popular culture ¹	ARH2AWA/ARH3AWA
TE-SEM-2	America's War in Vietnam: culture and politics ¹	HIS2AWV/HIS3AWV
TE-SEM-2	Australian Image and Identity: landscape and culture ¹	ARH2AII/ARH3AII
TE-SEM-2	Contemporary Art and its Origins	ARH2CAO/ARH3CAO
TE-SEM-2	Making America: from Pocahontas to prohibition	ARH2MAM/ARH3MAM
TE-SEM-2	Medieval Europe 600–1200 (on-line unit)	ARH2MEU/ARH3MEU
TE-SEM-2	World of the Pharaohs: the archaeology of Ancient Egypt	ARC2EGY/ARC3EGY
Third year units (20 credit points)		
TE-SEM-1	Reading Course A ²	ARH3RCA
TE-SEM-2	Reading Course B ²	ARH3RCB

Key: ¹ Not available in 2008.

² Special prerequisites apply.

A full description of ARH units (including the unit name, unit code, credit points, campus/location, unit coordinator, class requirements, assessment, prerequisites, and readings) appears below. For the most recent descriptions of all units, please access the unit database at www.latrobe.edu.au/udb_public.

UNIT DESCRIPTIONS

ARH1ARW ART FROM RENAISSANCE TO VAN GOGH (15. CPs Sem. TE-SEM-1 BU. TE-SEM-2 AW.) *Dr Lisa Beaven*

In this unit the major movements, styles and artists in Europe from the Renaissance to the end of the nineteenth century are studied. Students will be introduced to methods of visual analysis, to the meaning of images and to recent theories of art. We will also consider issues of patronage, conceptions of the role of the artist and the function of art and its relationship to the market. Together with the other first-year art history subject, this unit serves as an introduction to second-year offerings in the discipline.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: One 1000-word essay (25%), one 2000-word essay (50%), one 1-hour slide test (25%)

Prescribed Reading:

Barnet, S *A short guide to writing about art* Longman 1996.
Fleming, J. & Honour, H *A world history of art* Laurence King 1995.
Hall, S *Dictionary of subjects and symbols in art* John Murray 1984.
Levey, M *From Rococo to revolution* Thames and Hudson 1985.
Eisenman, S F *Nineteenth century art: a critical history* Thames and Hudson 1994.

ARH1APK ART FROM PICASSO TO KOONS (15CPS SEM. TE-SEM-2 BU)

Ms Robyn McKenzie

In this unit we survey the major art movements of the twentieth century. Students will develop a knowledge of the development of modernism through familiarity with the work of the central figures of early twentieth century movements: Fauvism, Cubism, Futurism, De Stijl and the Bauhaus, Russian Constructivism, Purism, Dada and Surrealism. Students will focus on understanding the concept of the avant-garde. In the unit we then trace the development of art in the later decades of the twentieth century through Pop Art, Minimalism and Conceptual Art, to the Postmodern and the concept of the past-avant-garde. We will conclude by looking at the art of now. In the unit we seek to develop students' visual literacy and the unit provides an introduction to study in the discipline in later years.

Class Requirements: Two 1-hour lectures and one 1-hour tutorial per week

Assessment: One 1000-word essay (25%), one 2000-word essay (50%), one 1-hour slide test (25%)

Recommended Reading:

Stangos, N *Concepts of modern art: from Fauvism to Postmodernism* 3rd Ed, Thames & Hudson 1994.

ARH2AII AUSTRALIAN IMAGE AND IDENTITY: LANDSCAPE AND CULTURE (20 CPs Sem. TE-SEM-2 BU.) *Coordinator to be advised*

This unit is offered at third year level also.

Not available in 2008

ARH2AOB ART OF BYZANTIUM (20 CPs Sem. TE-SEM-1 AW, BU, MI.)

Coordinator to be advised

This unit is offered at third year level also.

Beginning with art from the reign of Emperor Constantine (312-337), students will study major works of early Christian art and architecture in Constantinople and Rome, as well as in the Byzantine capitals Milan and Ravenna from c. 312-726. They will explore the different attitudes to iconoclasm in the East and in Rome before analysing Byzantine art and architecture in centres such as Hosios Lukas, Daphni, and Nea Moni. They will also consider the transformation of Byzantine art in medieval Italy, in Rome, Venice, and Sicily.

Prerequisite: Any first year Art History subject.

Class requirements: Fully online subject: students listen to one 1-hour recorded and illustrated lecture, read an online presentation, and engage in a discussion forum each week.

This unit is not available for Study Abroad students.

Assessment: Two 2000-word essays (80%), five 200-word short assignments (20%). Third year students are expected to show greater levels of achievement of discipline-specific skills than second year students.

Preliminary Reading:

ARH2BAA BAROQUE ART AND ARCHITECTURE (20. CPs Sem. TE-SEM-1 BU.) *Dr Lisa Beaven*

This unit is offered at third year level also.

Not available in 2008

ARH2CAO CONTEMPORARY ART AND ITS ORIGINS (20 CPs Sem. TE-SEM-2 BU) *Ms Robyn McKenzie*

This unit is offered at third-year level also.

In this unit students investigate the art of the recent past: (Australian and international) installation, video, post-conceptual painting, new media, relational art. Contemporary art, as it is called, is now middle-aged. We will seek to understand its present construction and processes through its history, tracing its origins back to the neo-avant-garde movements of the 1960s and 1970s: Pop, Minimalism, Conceptual art, Process and Systems art, Earth art, Performance, Feminist art. As well as identifying principal concerns contemporary art practice has taken as its subject, we will be looking at its development through an analysis of the workings of the 'Art World' as a system.

Prerequisites: 15 credit points of first-year art history

Class Requirements: One 2-hour lecture and one 1-hour tutorial per week

Assessment: One 1000-word exercise (20%), one 2500-word essay (50%), one tutorial presentation (1500-words equivalent) (30%). Third year students will be expected to show a greater achievement of discipline-specific skills in their written work than second year students.

Stallabrass, J *Contemporary art: a very short introduction* Oxford University Press 2006.

ARH2MAM MAKING AMERICA: FROM POCAHONTAS TO JAZZ AND PROHIBITION (20 CPs Sem. TE-SEM-2 AW, BU.) *Dr Diane Kirkby*

This unit is offered at third year level also.

How did the US produce such memorable figures as gangster Al Capone, movie-mogul Walt Disney, and blues singer Billie Holiday? In this unit, we examine the intersection of art, politics, and social history. Starting with the republican culture of the post-Revolutionary era, we ask what place did women; wilderness and Indians have in the 'New World' vision and manifest destiny of the new republic? How did slavery create new arts forms, lead to the Civil War, and connect with feminist politics? In the wealth and power generated by industrialisation, immigration, and urbanisation there existed conflict, oppression, and political resistance that was the source of a uniquely dynamic modern culture shaped by race and gender.

Prerequisite: 30 credit points of first year History and/or 30 credit points of first year Art History.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: One 2500-word essay (40%), one short answer test (25%), one 1-hour exam (35%). Third year students will be expected to show a greater achievement of discipline-specific skills in their written work than second year students.

Preliminary Reading:

Woloch, N. *Women and American experience* 3rd edn. McGraw Hill

ARH2MEU MEDIEVAL EUROPE C 600-C 1200 (20. CPs Sem. TE-SEM-2

AW, BU, MI.) *Coordinator to be advised*

This unit is offered at third year level also.

Offered subject to enrolment numbers.

This subject is only available as a fully on-line subject

In this unit students consider the art and architecture of Europe in the Middle Ages starting in the Dark Ages, when the Roman Empire had declined, in the face of barbarian invasions. We analyse selected examples of the art of these barbarian peoples. The career of Gregory the Great spans the end of the ancient Roman world and the early middle Ages. The rise of Islam in the seventh century led to the Muslim conquest of Spain and the subsequent campaigns of reconquest. From the tenth century, the pilgrimage to Santiago de Compostela was most popular. The monks of Cluny promoted the pilgrimage. Students will look in detail at the Romanesque and early Gothic art and architecture to be found along the pilgrim routes through France and Spain, and at the art and architecture associated with monasteries.

Prerequisite: 15 credit points of first year art history or coordinators approval.

Class requirements: Students complete the equivalent of thirteen 3-hour sessions on-line via WebCT. This includes one presentation and one lecture online each week, with fortnightly exercises.

Assessment: Two 2000-word essays (80%), five online exercises (1000-words equivalent) (20%). Third year students will be expected to show a greater achievement of discipline-specific skills in their written work than second year students.

ARH3RCA READING COURSE A (20. CPs Sem. TE-SEM-1 BU.) *Coordinator to be advised*

This unit allows selected students to undertake a more detailed study of an artist, theme, movement, and so forth. Enrolment in this unit may be made only on application to the Program Coordinator, with a supporting statement of the program of study from the supervisor. Approval is given only to Art History students of exceptional aptitude and motivation. Written applications should be made to the Program Coordinator after discussion with the appropriate staff member who has agreed to supervise the program of study.

Prerequisite: Approval of the Program Coordinator.

Class requirements: Regular consultations with the staff member supervising the unit.

Assessment: Two 2500-word papers (100%)

ARH3RCB READING COURSE B (20. CPs Sem. TE-SEM-2 BU.) *Coordinator to be advised*

Asian studies

Program Coordinator: Dr Kaori Okano.

Students in the Asian Studies Program may complete a three-year major in one of the languages (Chinese, Japanese, Indonesian and Sanskrit) offered by the program. Hindi is also offered at first and second year levels. The Asian Studies Program offers a Bachelor of Asian Studies degree and offers a major in Asian studies as part of the Bachelor of Arts degree. The program also offers a number of units, taught in English, which may be taken towards either of these degrees. These units are listed at the end of the Asian studies section.

Teaching period	Unit title	Unit code
First year units (15 credit points)		
TE-SEM-1	Introduction to Asia: Japan and Indonesia	AST1IJI
TE-SEM-1	Introduction to Asian Culture and Traditions	AST1BCE
TE-SEM-2	Introduction to Asia: China and India	AST1ICI
Second and third year units (20 credit points)		
TE-SEM-1	Goddesses, Sexuality and Liberation: India and beyond	AST2GSL/AST3GSL
TE-SEM-1	Introduction to Buddhism	AST2INB/AST3INB
TE-SEM-1	Love and Eroticism in Asian Literature ¹	AST2LEA/AST3LEA
TE-SEM-2	Introduction to Hinduism ¹	AST2INH/AST3INH
TE-SEM-2	Popular Asian Cinema ¹	AST2PAC/AST3PAC
TE-SEM-2	Society and State in Japan and China	AST2EAS/AST3EAS

Key: ¹ Not available in 2008.

Asian studies in the Bachelor of Arts

A major in Asian studies may be taken through approved combinations of units from the disciplines of anthropology, archaeology, Chinese, cinema studies, economics, English, Hindi, history, Indonesian, Japanese, linguistics, politics, religious studies, Sanskrit, and sociology.

Programs of study

To qualify for a degree with a major in the Asian studies area of study:

- a student must complete 130 credit points from the Asian studies units listed below. These 130 credit points should include 60 credit points at third year level, drawn from at least two separate disciplines (one of which may be an Asian language), and
- at least 110 credit points of the total 360 credit points for the degree must be in a single discipline. These 110 credit points may be in either Asian or non-Asian units and may include the Asian

studies units used to fulfil the above requirement. While not required, it is recommended that students include some non-Asian content in the study of this discipline.

The study of an Asian language, while not required as part of the Asian studies major, is highly recommended. All units are offered subject to the availability of appropriate staff and minimum enrolments.

Important notice: Not all of the units listed below will be available every year. See the unit lists for the specific disciplines, where units unavailable in 2008 will be noted.

Honours

The Asian Studies Program manages three quite distinct honours programs in Asian studies:

- the honours program for students completing a Bachelor of Arts with an Asian studies language major, with a strong language emphasis
- the honours program for students completing a Bachelor of Arts with an Asian studies area of study major, which has an Asian studies or disciplinary emphasis
- an honours program for students completing a Bachelor of Asian Studies.

This entry is concerned only with the second of these, the Asian studies area of study honours program. For information on Asian language programs, see the separate entries under Chinese, Indonesian and Japanese. For information on honours in the Bachelor of Asian Studies, see the separate entry under Bachelor of Asian Studies.

Bachelor of Arts (Honours) in Asian studies (area of study)

Students who have qualified for a degree by taking a major in the Asian studies area of studies may apply to enter a fourth year to complete their degree with honours. In addition, students who qualify for admission to honours in another discipline and who wish to develop their skills in Asian languages or studies in their fourth year may apply to the Asian Studies Program for admission into the Asian studies area of study honours program. In all cases, students wishing to enrol in fourth year Asian studies should apply to the program coordinator by October of the third year of their course.

Students entering fourth year honours in Asian studies are normally required to have proficiency in an Asian language equivalent to that attained after two years of successful study at tertiary level. Students enrolling in Asian studies with a view to the eventual completion of an honours degree should therefore plan their course with this possible requirement in mind. Enquiries should be directed to the program convenor or to an adviser of studies.

In the fourth year, students are required to complete additional studies in the area of their specialisation and to write a minor thesis on an approved topic of between 10000 and 15000 words, depending on the weighting of coursework and thesis components.

A full description of these units (including the unit name, unit code, credit points, campus/location, unit coordinator, class requirements, assessment, prerequisites, and readings) appears at the end of each discipline entry. A full description of AST units appears below. For

the most recent descriptions of all units, please access the unit database at www.latrobe.edu.au/udb_public.

UNIT DESCRIPTIONS

AST1BCE INTRODUCTION TO ASIAN CULTURE AND TRADITIONS (15. CPs Sem. TE-SEM-1 BU.) *Dr James Leibold*

In this unit, students are introduced to the major cultural traditions that have shaped Asian societies. We will explore the key linguistic, cultural, religious, and literary/artistic beliefs and practices which emerged in pre-modern times and which are central to an understanding of contemporary Asia. A required workbook of readings may be purchased from the University Bookshop, and is available from the Library.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: One 1500-word essay (40%), tutorial exercises (500 words equivalent) (20%), one 2-hour examination (40%)

AST1ICI INTRODUCTION TO ASIA: CHINA AND INDIA (15. CPs Sem. TE-SEM-2 AW, BU.) *Dr James Leibold*

Successful completion of this unit may be counted towards first year requirements for Asian studies, politics, sociology, and anthropology. In this unit, students are introduced to India and China. To ensure a systematic approach, we focus on how countries are run (government) how people connect with each other (society) and how people perceive themselves and how outsiders perceive them (culture) The unit is both contemporary and historical. We examine pre-European history, the arrival and ejection of European imperialists and the condition of these countries today. With AST11IJ, the unit prepares students for more detailed study of Asia and for further study in Politics, History, Sociology, and Anthropology. It provides sound background for the study of Asian languages.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: Tutorial-based tasks (500 words equivalent) (15%), one 500-word exercise (15%), one 1500-word essay (35%), one 1.5-hour final examination (35%)

Recommended Reading:

AST1IJI INTRODUCTION TO ASIA: JAPAN AND INDONESIA (15. CPs Sem. TE-SEM-1 AW, BU, MI.) *Dr Kaori Okano*

Successful completion of this unit may be counted towards first year requirements for Asian studies, politics, sociology, and anthropology. Students are introduced to two of Australia's Asian neighbours, Japan and Indonesia. To ensure a systematic approach, we focus on how countries are run (government), how people connect with each other (society) and how people perceive themselves and how outsiders perceive them (culture). The unit is both contemporary and historical. We examine pre-European history, the impact of European imperialists and the condition of these countries today. With AST1ICI, students are prepared for more detailed study of Asia and for further study in Politics, History, Sociology, and Anthropology. They are provided with a sound background for the study of Asian languages. A required workbook of readings may be purchased from the University Bookshop, and is available from the Library.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: Tutorial exercises (500-word equivalent) (15%), one 500-word exercise (15%), one 1500-word essay (35%), one 1.5-hour final examination (35%)

Recommended Reading:

Hunter, J *The emergence of modern Japan* Longman 1989.

AST2EAS SOCIETY AND STATE IN JAPAN AND CHINA (20 CPs Sem. TE-SEM-2 BU.) *Dr James Leibold*

This unit is offered at third year level also.

In this unit, students are introduced to the society and politics of Japan and China in the post-War period. The unit focuses on the discrete social and political systems of each state, on the relationship between social and political systems in each case, and on comparative study of the two states and societies. Aspects of the social systems under study include occupation, ethnicity, gender, education, age, and geographical location. Aspects of political systems covered include state constitutions and agencies, political parties, citizenship, social movements, and political participation.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: One 1000-word book review (20%), one 2500-word research essay (50%), one 1-hour examination (20%), tutorial exercises (500-words equivalent) (10%). Third year students will be expected to show a greater achievement of discipline-specific skills in their written work than second year students.

Stockman, N *Understanding Chinese society* Polity 2000.

AST2GSL GODDESSES, SEXUALITY AND LIBERATION: INDIA AND BEYOND (20 CPs Sem. TE-SEM-1 BU.) *Dr Greg Bailey*

This unit is offered at third year level also.

In this unit, students are introduced to the representation of the goddess in the religious traditions of India and, by way of comparison, to those of old Europe and Mesopotamia. Through an analysis of a selection of mythic and religious texts, we will study the images of goddesses in several religious traditions and will investigate what this image tells us about gender relations, sexuality and the status of women in the cultures studied. We will also examine the extent to which goddesses are gender exclusive or whether they include both genders in their ambit. The approach will be historical as well as sociological.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: One 1500-word class paper (30%), one 3500-word essay (70%). Third year students will be expected to show a greater achievement of discipline-specific skills in their written work than second year students.

AST2INB INTRODUCTION TO BUDDHISM (20. CPs Sem. TE-SEM-1 BU.)

Dr Greg Bailey

This unit is offered at third year level also.

In this unit, students are introduced to Buddhist philosophy from its very beginnings to the later developments of the Mahayana. They will concentrate on five topics: theories about the general nature of the world and living beings (especially humans); theories of causality (for example, of karma and rebirth); theories of the absolute (that is, of nirvana, Buddha hood, tathata); theories of practice, that is, meditation and ethics; the early history of Buddhism.

Prerequisite: Any first year History, Religious Studies, Philosophy or Asian Studies subject, or lecturer's permission.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: One 1500-word class paper (30%), one 3500-word essay (70%). Third year students will be expected to show greater achievement of discipline-specific skills in their written work than second year students.

AUSLAN

Program Coordinator: Professor Jan Branson (Faculty of Health Sciences).

Australian sign language (AUSLAN) is the native language of Australia's deaf community. The units in AUSLAN emphasise learning the language in its social and cultural context. Classes are mainly conducted in AUSLAN. Students with no prior knowledge of the language, as well as those with previous experience, are welcome. AUSLAN is available as a sequence within the Bachelor of Arts. Full details of the units offered can be found in the Health Sciences section of the *Handbook*.

Australian studies

Program Coordinator: Dr Gwenda Tavan (Politics).

Australia is not the world, even if it is our world: it is in fact many worlds. Australia is a creation of the world system: it is truly global as well as local. From early contact with the Portuguese, Dutch, British, and French, many Indigenous Australians were curious about people from other cultures. Sometimes cultural exchanges occurred and trading networks were established. This was evident in Northern Australia where trading occurred between Indigenous Australians and the Macassar anglers. Since British colonisation in 1788, large numbers of immigrants have settled in Australia from around the globe. Originally, the majority of settlers came from Britain. More recently, Australia has accepted greater numbers of migrants from Asia, Africa, and the Middle East. This settlement has earned Australia its reputation as a migrant nation. Through migration and international relationships with countries such as the United States of

America, contemporary Australian society is reflective of a rich diversity of cultures. Australian studies give students the opportunity to explore issues concerned with the development and maintenance of the Australian nation. It encourages students to contextualise the Australian experience within the larger framework of a global society.

Australian studies is an innovative and challenging interdisciplinary program, which offers students an understanding of the world in which they live. The program allows students to combine in-depth studies of Australian issues with comparative analyses of other countries and cultures. The knowledge and communication skills gained in this program enable students to access a variety of career pathways such as business, government, education, international civil service, media, museums and galleries, nongovernmental organisations and the arts.

Australian studies is recognised as one of the university's areas of strength in research and teaching. The program encourages students to critically analyse and investigate issues associated with Australian society and culture. Australian studies units are taught by many world renowned academics from the disciplines of archaeology, anthropology, art history, cinema studies, English, history, linguistics, media studies, politics, sociology, and theatre and drama. The interdisciplinary nature of the program allows students to apply different methodological and theoretical approaches to issues such as popular culture, race, class, gender, politics, heritage, environment, and visual and literary arts.

Teaching period	Unit title	Unit code
Second and third year unit (20 credit points)		
TE-SEM-1	Discover Australia: Current Issues and Debates	AUS2DAU/AUS3DAU

Australian studies in the Bachelor of Arts

A major in Australian studies may be taken through approved combinations of units from the list below

Programs of study

Students may qualify for a degree with a major in Australian studies by completing at least 130 credit points from the list below, including at least 40 credit points at second year and 60 credit points at third year level. Such a major is made up of approved combinations of units from the disciplines of anthropology, archaeology, art history, cinema studies, English, history, legal studies, linguistics, media studies, politics, religious studies, sociology and theatre and drama. Students intending to major in Australian studies must complete the core unit AUS2DAU/AUS3DAU: Discover Australia: current issues and debates. Students who commenced their Australian studies major prior to 2000 will be deemed to have completed the equivalent of this unit.

First year units in archaeology, art history, cinema studies, English, history, linguistics, politics, and sociology are acceptable. In choosing first year units, students should note the prerequisites for units which they plan to take at second and third year levels. The following are recommended for students who wish to specialise in Australian studies.

Before enrolling, intending students should discuss their plans with the adviser of studies in the area.

Important notice: Not all of the units listed below will be available every year. See the unit lists for the specific disciplines, where units unavailable in 2008 will be noted.

Chinese

Program Coordinator: Dr Xu Yuzeng

The Chinese language program offers an extensive range of units from beginners to honours level and postgraduate study. Three entry-level units are available to cater to students with differing standards in the Chinese language. At second and third year level, specialist units are available in Chinese for professional purposes, Chinese culture studies, and translation training.

At all levels, the emphasis is on the development of communicative skills in oral Mandarin and written Chinese, as well as the development of general intellectual skills through the study of Chinese civilisation using Chinese language sources. At senior levels, there is a focus on more specialised Chinese language use for academic or professional purposes.

Students are strongly encouraged to complete studies in another discipline with a China–Asia focus such as history, politics, linguistics, cinema, or economics to complement their language study. Students are encouraged to undertake further language study in China. If a student is in receipt of a university scholarship or award that covers tuition fees at the institution in China, they are eligible to enrol in China in-country studies. Self-funded students who pay tuition fees in China are not eligible to enrol in the in-country studies Program. However, they may be able to claim credit points for successful completion of language studies at an authorised institution in China. Students must seek permission from the Asian Studies Program Coordinator in advance if they wish to take up this option. Self-funded students can be awarded up to 60 credit points towards their degree for language study in China.

Students may enrol at beginners, advanced or other levels depending on their background and experience. Commencing students are allocated to the appropriate class by the lecturer. Students normally require at least a C grade pass in their current Chinese unit to proceed to the next level.

Programs of study

To qualify for a degree with a major in Chinese, a student must pass a minimum of 130 credit points of Chinese units, including 60 credit points of third year units. Depending on a student's prior knowledge of and/or qualifications in Chinese language when they commence their degree, there are three different major streams: beginners, advanced and dialect speakers. Students whose first language is Mandarin should refer to the section below. The major requirements for these streams are as follows.

Beginners' stream

This stream is for students with no prior knowledge of Chinese. These students must pass the six units CHI1BEA, CHI1BEB, CHI2BEA, CHI2BEB, CHI3BEA and CHI3BEB, and one other third year unit in Chinese.

Advanced stream

This stream is for students who have previously completed VCE Chinese or equivalent. These students must pass the six units CHI1ADA, CHI1ADB, CHI2ADA, CHI2ADB, CHI3ADA and CHI3ADB, and one other third year unit in Chinese. Note: students wishing to qualify as Chinese language teachers in schools must complete this stream. This is the requirement to take Chinese language as a teaching method in the Diploma of Education or the double degree Bachelor of Arts/Bachelor of Arts Education.

Dialect speakers' stream

This stream is for students who already have fluency in a Chinese dialect but without formal education in Chinese language. These students must pass the six units CHI1DSA, CHI1DSB, CHI2APA, CHI2CMT, CHI3CPA and CHI3CPB, and one other third year unit in Chinese.

Honours

Students who have qualified for a degree by taking a major in Australian studies with at least a B average may be considered for a place in the honours year. They are normally required to have 130 credit points in Australian studies, including the core Australia studies unit. Prospective applicants should contact the coordinator of the area as early as possible in their degree in order to plan their combination of units. In the fourth year, students take additional studies and write a research essay of 12000 to 15000 words on an approved topic.

A full description of these units (including the unit name, unit code, credit points, campus/location, unit coordinator, class requirements, assessment, prerequisites, and readings) appears at the end of each discipline entry. A full description of AUS unit appears below. For the most recent descriptions of all units, please access the unit database at www.latrobe.edu.au/udb_public.

UNIT DESCRIPTIONS

AUS2DAU DISCOVER AUSTRALIA: CURRENT ISSUES AND DEBATES (20

CPs Sem. TE-SEM-1 BU.) *Dr Gwenda Tavan*

This unit is offered at third year level also.

In this subject students are introduced to Australian society, its historical development, and the major issues and debates it is grappling with in the early 21st century. Analysis centres on six themes: Indigenous and non-Indigenous relations, settler societies, land and geography, politics and power, culture and nation, Australia in a globalising world. In this unit, we utilise various active learning methods and mediums: lectures, tutorials, fieldwork exercises, excursions, film, and web-based activities. This unit will be of interest to students seeking an introduction to contemporary Australian society.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: Tutorial exercises (1000-words equivalent) (20%), one 1500-word reflective exercise (30%), one 2500-word research essay (50%). Third year students will be expected to show a greater achievement of discipline-specific skills in their written work than second year students.

Mandarin speakers

Students whose first language is Mandarin may join the dialect speakers stream from the second year onwards. A major in Chinese is not available for native Mandarin speakers now, however the following units are available: CHI2/3APA, CHI2/3CCT, CHI2/3CMT, CHI3CPA, and CHI3CPB.

Teaching period	Unit title	Unit code
First year units (15 credit points)		
TE-SEM-1	Chinese Advanced 1A	CHI1ADA
TE-SEM-1	Chinese Beginners 1A	CHI1BEA
TE-SEM-1	Chinese Dialect Speakers 1A	CHI1DSA
TE-SEM-1	Introduction to Asian Culture and Traditions	AST1BCE
TE-SEM-2	Chinese Advanced 1B	CHI1ADB
TE-SEM-2	Chinese Beginners 1B	CHI1BEB
TE-SEM-2	Chinese Dialect Speakers 1B	CHI1DSB
Second year units (20 credit points)		
TE-SEM-1	Chinese Advanced 2A	CHI2ADA
TE-SEM-1	Chinese Beginners 2A	CHI2BEA
TE-SEM-2	Chinese Advanced 2B	CHI2ADB
TE-SEM-2	Chinese Beginners 2B	CHI2BEB
Second or third year units (20 credit points)		
TE-SEM-1	Chinese Classical Texts	CHI2CCT/CHI3CCT
TE-SEM-1	Chinese for Professional and Academic Purposes A	CHI2APA/CHI3APA
TE-SEM-1	Chinese for Professional Purposes A	CHI2PPA/CHI3PPA
TE-SEM-1	Cross-cultural Communication	LIN2CCC/LIN3CCC
TE-SEM-1	Emergence of Chinese Civilisation ¹	ARC2ECC/ARC3ECC
TE-SEM-1	Love and Eroticism in Asian Literature ¹	AST2LEA/AST3LEA
TE-SEM-2	Chinese Modern Texts	CHI2CMT/CHI3CMT
TE-SEM-2	Language in Asia ¹	LIN2LIA/LIN3LIA
Third year units (20 credit points)		
TE-SEM-1	Chinese Advanced 3A	CHI3ADA
TE-SEM-1	Chinese Beginners 3A	CHI3BEA
TE-SEM-1	Readings in Contemporary Chinese Prose A	CHI3CPA
TE-SEM-2	Chinese Advanced 3B	CHI3ADB
TE-SEM-2	Chinese Beginners 3B	CHI3BEB
TE-SEM-2	Readings in Contemporary Chinese Prose B	CHI3CPB

Honours

Students wishing to enter fourth year honours in Chinese should normally have completed a Chinese major of at least 130 credit points, including 60 credit points at third year level, with suitably high grades. Students who wish to proceed to honours should apply to the Chinese Language Coordinator before they complete their third year. The Chinese 4 Program consists of two parts:

- coursework: students complete 60 credit points of coursework in their honours year
- thesis: a thesis of 12000 to 15000 words in an area of Chinese studies must be submitted. The topic must be agreed upon by the student and their supervisor(s) at the beginning of the course and is to be written in English.

A full description of these units (including the unit name, unit code, credit points, campus/location, unit coordinator, class requirements, assessment, prerequisites, and readings) appears at the end of each discipline entry. A full description of CHI units appears below. For the most recent descriptions of all units, please access the unit database at www.latrobe.edu.au/udb_public.

UNIT DESCRIPTIONS**CHI1ADA CHINESE ADVANCED 1A** (15. CPs Sem. TE-SEM-1 BU.) *Dr Gao Baoqiang*

In this unit, students will extend their skills in oral and written communication and learn more complex grammatical structures of the spoken language. Topics covered include University life, dining, directions, health, dating, and interaction with the Chinese-speaking community. A further 200 characters are taught. Admission of students into this unit may be determined by means of a questionnaire and/or written and oral test.

Prerequisite: VCE Chinese or equivalent and subject coordinator's approval.

Incompatible unit: CHI21BEA

Class requirements: One 2-hour lecture and one 2-hour workshop per week.

Assessment: Four written exercises (30%), one 1-hour written test (20%), oral and aural tests (20%), one 1-hour end of Semester examination (30%)

Prescribed Reading:

Yao, T et al. *Integrated Chinese Level 1/2 Textbook* Boston 1997.

Yao, T et al. *Integrated Chinese Level 1/2 Workbook* Boston 1997.

Yao, T et al. *Integrated Chinese level 1/2 character workbook* Boston 1997.

CHI1ADB CHINESE ADVANCED 1B (15. CPs Sem. TE-SEM-2 BU.) *Dr Gao Baoqiang*

By the end of this unit students will be able to use the most common sentence patterns of colloquial Chinese and will have acquired an additional 200 characters. Students will extend their communicative repertoire to include everyday life in a Chinese context, including shopping at Chinese markets, sports and Chinese pastimes and using public transport in China.

Prerequisite: CHI1ADA or equivalent.

Incompatible unit: CHI22BEB

Class requirements: One 2-hour lecture and one 2-hour workshop per week.

Assessment: Four written exercises (30%), one 1-hour written test (20%), oral and aural tests (20%), one 1-hour end of Semester examination (30%)

Prescribed Reading:

Yao, T et al. *Integrated Chinese Level 1/2 Textbook* Boston 1997.

Yao, T et al. *Integrated Chinese Level 1/2 Workbook* Boston 1997.

Yao, T et al. *Integrated Chinese level 1/2 character workbook* Boston 1997.

CHI1BEA CHINESE BEGINNERS 1A (15. CPs Sem. TE-SEM-1 BU.) *Dr Xu Huiling*

This is an introductory unit in the Chinese language (Mandarin) designed for students with no background in the language. The aim of this unit is to provide integrated training in speaking, listening, reading, and writing through interactive classroom activities and home assignments. The topics covered include introduction, Chinese kinship terms, family, hobbies, making appointments, meeting friends. The unit also comprises foundation work on the Romanised phonetic system, pinyin, and the Chinese writing system. Students should attain a basic level of competence in oral and written Chinese and a working knowledge of approximately 160-200 characters by the end of the unit.

Prerequisite: Coordinator's approval.

Incompatible unit: First year Chinese subjects for beginners.

Class requirements: Two 1-hour lectures and two 1-hour tutorials per week.

Assessment: Two assignments (600-word equivalent) (15%), two written examinations (2000-word equivalent) (50%), four oral presentations (800-word equivalent) (20%), quizzes (600-word equivalent) (15%)

Prescribed Reading:

Yao, T et al. *Integrated Chinese Level 1/1 Character workbook* Boston 1997.

Yao, T et al. *Integrated Chinese Level 1/1 Textbook* Boston 1997.

Yao, T et al. *Integrated Chinese Level 1/1 Workbook* Boston 1997.

CHI1BEB CHINESE BEGINNERS 1B (15. CPs Sem. TE-SEM-2 BU.) *Dr Xu Huiling*

In this unit students build on the foundation skills taught in Chinese Beginners A and further extend their communicative repertoire to include school life, shopping, using transportation and talking about the weather. Students learn to write a further 180 characters, bringing the total to 300, and learn to recognise up to 400 characters.

Prerequisite: CHI1BEA.

Class requirements: Two 1-hour lectures and two 1-hour tutorials per week.

Assessment: Quizzes (600-word equivalent) (15%), two assignments (600-word equivalent) (15%), two written examinations (2000-word equivalent) (50%), four oral presentations (800-word equivalent) (20%)

Prescribed Reading:

Yao, T et al. *Integrated Chinese Level 1/1 Character workbook* Boston 1997.
 Yao, T et al. *Integrated Chinese Level 1/1 Textbook* Boston 1997.
 Yao, T et al. *Integrated Chinese Level 1/1 Workbook* Boston 1997.

CHI1DSA CHINESE DIALECT SPEAKERS 1A (15. CPs Sem. TE-SEM-1 BU.)

Dr Xu Yuzeng

This unit is an intermediate course designed for students who speak a Chinese dialect. It comprises Chinese newspaper reading and oral and aural skills in Mandarin. The aims of the course are to enhance students' communication skills in everyday Chinese and to extend their ability to comprehend, discuss, and translate news and current affairs. Classes are conducted in Mandarin.

Prerequisite: Unit coordinator's approval.

Incompatible unit: CHI1IDA

Class requirements: One 2-hour lecture and one 1-hour workshop per week.

Assessment: two 500-character assignments (30%), one 1-hour written test (20%), one 10-minute oral presentation (20%), one 2-hour end of Semester examination (30%)

CHI1DSB CHINESE DIALECT SPEAKERS 1B (15. CPs Sem. TE-SEM-2 BU.)

Dr Xu Yuzeng

This unit is an intermediate unit designed for students who speak a Chinese dialect. It comprises Chinese newspaper reading and oral and aural skills in Mandarin. The aims of the unit are to further enhance students' communication skills in everyday Chinese and to extend students' ability to comprehend, discuss, and translate news and current affairs. Classes are conducted in Mandarin.

Prerequisite: CHI1DSA or unit coordinator's approval.

Incompatible unit: CHI3ADB

Class requirements: One 2-hour lecture and one 1-hour workshop per week.

Assessment: Two 500-character assignments (30%), one 2-hour end of semester examination (30%), one 10-minute oral presentation (20%), one 1-hour written test (20%)

CHI2ADA CHINESE ADVANCED 2A (20 CPs Sem. TE-SEM-1 BU.)

Dr Xu Huiling

The main aims in this unit are for students to develop communicative competence in topics of everyday interest in Chinese society, to consolidate skills in simple correspondence and expository writing and to enhance oral and aural skills by viewing and discussing a Chinese feature film. Topics covered include eating and food, shopping, education, media and family life.

Prerequisite: CHI1ADB or unit coordinator's approval.

Incompatible unit: CHI3BEA

Class requirements: Two 1-hour lectures and two 1-hour workshops per week.

Assessment: Three assignments (1500-word equivalent) (30%), two written examinations (2500-word equivalent) (50%), two role-plays (1000-word equivalent) (20%)

Prescribed Reading:

Liu, Y et al. *Integrated Chinese Level 2 Textbook* Boston 1997.
 Liu, Y et al. *Integrated Chinese Level 2 Workbook* Boston 1997.

CHI2ADB CHINESE ADVANCED 2B (20 CPs Sem. TE-SEM-2 BU.)

Dr Xu Huiling

Students develop communicative competence in topics of everyday interest in Chinese and Australian society, consolidate skills in simple correspondence and expository writing, and enhance oral and aural skills by viewing and discussing a Chinese feature film. Topics covered include travel, sport, festivals, and environment.

Prerequisite: CHI2ADA or coordinator's approval.

Incompatible unit: CHI3BEB

Class requirements: Two 1-hour lectures and two 1-hour tutorials per week.

Assessment: Two assignments (500-word equivalent) (12%), two written examinations (2000-word equivalent) (50%), four oral presentations/tests (1000-word equivalent) (25%), quizzes (500-word equivalent) (13%)

Prescribed Reading:

Yao, T et al. *Integrated Chinese Level 2 Workbook* Boston 1997.
 Yao, T et al. *Integrated Chinese Level 2 textbook* Boston 1997.

CHI2APA CHINESE FOR PROFESSIONAL AND ACADEMIC PURPOSES A

(20. CPs Sem. TE-SEM-1 BU.) *Dr Xu Yuzeng*

This is an advanced level language unit for students with substantial background in the Chinese language who wish to enhance their ability to use Chinese in professional and/or academic contexts. Students read and discuss material from such sources as newspapers, journals, contemporary literature, media broadcasts, and films. They complete assignments in areas, which focus on a practical application of Mandarin (Chinese) including in business, trade, tourism, education, or linguistics. Students acquire skills in personal and business correspondence.

Prerequisite: CHI1DSB or coordinator's approval.

Incompatible unit: CHI3APA

Class requirements: One 2-hour lecture and one 2-hour workshop per week.

Assessment: Two 500-word translations (25%), two 500-word class assignments (25%), one oral test (10%), and one 2-hour examination (40%)

Prescribed Reading:

Zhao, H *Business writing in Chinese* Beijing Language and Culture University 1994.

Xu, Z *Practical writing for foreigners* Sinolingua Press 1994.

Module of China's current affairs Prepared by the lecturer.

CHI2BEA CHINESE BEGINNERS 2A (20 CPs Sem. TE-SEM-1 BU.)

Dr Gao Baoqiang

In this unit students further develop skills in oral communication and are introduced to the more complex grammatical structures of the spoken language. Students extend their skills in oral and written communication and learn more complex grammatical structures of the spoken language. Topics include University life, employment in Australia, cars and travel, living conditions and dining out. The focus is on discussing life in Australia with the Chinese-speaking community. A further 250 characters are taught.

Prerequisite: CHI1BEB or unit coordinator's approval.

Incompatible unit: CHI1ADA

Class requirements: Two 1-hour lectures and two 1-hour workshops per week.

Assessment: Four 300-word written exercises (30%), one 1-hour written test (20%), one 10-minute oral and aural test (20%), one 2-hour end of semester examination (30%)

Prescribed Reading:

Yao, T et al. *Integrated Chinese Level 1/2 Character Workbook* Boston 1997.

Yao, T et al. *Integrated Chinese Level 1/2 Textbook* Boston 1997.

Yao, T et al. *Integrated Chinese Level 1/2 Workbook* Boston 1997.

CHI2BEB CHINESE BEGINNERS 2B (20 CPs Sem. TE-SEM-2 BU.)

Dr Gao Baoqiang

In this unit students further develop skills in oral communication and are introduced to the more complex grammatical structures of the spoken language. By the end of the Semester, students will be able to use the most common sentence patterns of colloquial Chinese and will have acquired an additional 250 characters. Students extend their communicative repertoire to include everyday life in an overseas Chinese context, including shopping at Chinese markets, renting, Chinese past times and using public transport in China. An additional video class focuses on life in Beijing.

Prerequisite: CHI2BEA or coordinator's approval.

Incompatible unit: CHI1ADB

Class requirements: One 2-hour lecture and one 2-hour workshop per week.

Assessment: Four 300-word written exercises (30%), one 1-hour written test (20%), one 10-minute oral and aural test (20%), one 2-hour end of Semester examination (30%)

Prescribed Reading:

Yao, T et al. *Integrated Chinese Level 1/2 Character Workbook* Boston 1997.

Yao, T et al. *Integrated Chinese Level 1/2 Textbook* Boston 1997.

Yao, T et al. *Integrated Chinese Level 1/2 Workbook* Boston 1997.

CHI2CCT CHINESE CLASSICAL TEXTS (20. CPs Sem. TE-SEM-1 BU.) *Dr Xu Yuzeng*

This unit is offered at third year level also.

This unit comprises a two-hour workshop in classical Chinese and a one-hour seminar in topics on Chinese civilisation. Students gain an understanding of selected key texts of Chinese civilisation such as works of philosophy, poetry, and narratives, within their historical context. Students acquire a basic understanding of the fundamentals of classical Chinese and learn to appreciate the difference between classical and modern Chinese.

Prerequisite: CHI1ADB or CHI1DSB or CHI2BEB. Enrolment is subject to coordinator's approval.

Class requirements: One 2-hour lecture and one 1-hour workshop per week.

Assessment: one 2000-word essay on a topic drawn from Chinese civilisation (30%), one 8-minute oral presentation (20%), one 500-word assignment in Chinese (20%), one 2-hour examination (30%). Third year students will be expected to show a greater achievement of discipline-specific skills in their written work than second year students.

Prescribed Reading:

Han, J *China's culture heritage* Beijing Language and Culture University 2000.

CHI2CMT CHINESE MODERN TEXTS (20 CPs Sem. TE-SEM-2 BU.) *Dr Xu Yuzeng*

This unit is offered at third year level also.

This unit comprises a 2-hour lecture in modern and contemporary Chinese and 1-hour seminar in topics on Chinese civilisation at modern and contemporary times. The aim of this unit is to give students an understanding of selective key texts of Chinese civilisation such as works of philosophy, poetry, and narratives, within their historical context. Students will acquire a basic understanding of the fundamentals of modern Chinese.

Prerequisite: CHI2ADB, CHI1DSB, or coordinator's approval.

Incompatible unit: CHI22CRT, CHI32CRT

Class requirements: One 2-hour lecture and one 1-hour seminar per week.

Assessment: One 1000-word essay in English (25%), one 1000-word assignment in Chinese (25%), one 2-hour exam (30%), one 8-minute oral presentation (20%). Third year students will be expected to show greater achievement of discipline-specific skills in their written work than second year students.

Prescribed Reading:

Han, J *China's culture heritage* Beijing Language and Culture University 2000.

CHI2PPA CHINESE FOR PROFESSIONAL PURPOSES A (20. CPs Sem. TE-SEM-1 BU.) *Dr Gao Baoqiang*

This unit is offered at third year level also.

In this unit, students are introduced to the use of Chinese for professional purposes at an elementary level. Through role-play and video viewing, students acquire communicative ability in a range of professional situations such as formal introductions, exchange of name cards, travel arrangements, banquets, shopping, initial negotiations, and phone calls. The focus is on the acquisition of oral skills together with an understanding of the cultural background necessary for successful communication in Chinese communities. Topics covered include cultural differences, Chinese language, gender relations, family, and self-image in Chinese society.

Prerequisite: CHI1ADB, CHI1BEB, CHI1DSB, or equivalent standard.

Class requirements: One 2-hour lecture and one 2-hour workshop per week.

Assessment: Two 800-word assignments in English (30%), class presentations (20%), one 2-hour written test (40%), role-play, or oral test (10%)

Prescribed Reading:

Brick, J *China: a handbook on intercultural communication* Macquarie University 1996.

CHI3ADA CHINESE ADVANCED 3A (20. CPs Sem. TE-SEM-1 BU.) *Dr Gao Baoqiang*

This unit is designed to broaden the scope of students' communicative repertoire to include discussion of Chinese current affairs. The unit comprises Chinese newspaper reading and TV news broadcasts. Additionally, students view and discuss contemporary Chinese short films. Oral ability and aural comprehension on everyday topics are further extended.

Prerequisite: CHI2ADB or coordinator's approval.

Incompatible unit: CHI1DSA

Class requirements: One 2-hour lecture and one 2-hour workshop per week.

Assessment: One 10-minute oral presentation (20%), two 1000-word assignments (40%), one 2-hour end of Semester test (40%)

Prescribed Reading:

Teng, S & Sun, L *Taiwan Today* Extended edn Tunghai University 1999.

CHI3ADB CHINESE ADVANCED 3B (20. CPs Sem. TE-SEM-2 BU.) *Dr Gao Baoqiang*

This unit is designed to broaden the scope of students' communicative repertoire to include discussion of Chinese current affairs. The unit comprises Chinese newspaper reading and TV news broadcasts. Additionally, students view and discuss contemporary Chinese short films. Oral ability and aural comprehension on everyday topics are further extended.

Prerequisite: CHI3ADA or coordinator's approval.

Incompatible unit: CHI1DSB

Class requirements: One 2-hour lecture and one 2-hour workshop per week.

Assessment: One 10-minute oral presentation (20%), two 1000-word assignments (40%), one 2-hour end of semester test (40%)

Prescribed Reading:

Teng, S & Sun, L *Taiwan Today* Extended edn Tunghai University 1999.

CHI3APA CHINESE FOR PROFESSIONAL AND ACADEMIC PURPOSES A (20. CPs Sem. TE-SEM-1 BU.) *Dr Xu Yuzeng*

This is an advanced level language unit for students with substantial background in the Chinese language who wish to enhance their ability to use Chinese in professional and/or academic contexts. Students read and discuss material from such sources as newspapers, journals, contemporary literature, media broadcasts, and films. They complete assignments in areas which focus on a practical application of Mandarin (Chinese) including in business, trade, tourism, education, or linguistics. Students acquire skills in personal and business correspondence.

Prerequisite: CHI1DSB or coordinator's approval.

Incompatible unit: CHI2APA

Class requirements: One 2-hour lecture and one 2-hour workshop per week.

Assessment: Two 500-word translations (25%), two 500-word class assignments (25%), one oral test (10%), and one 2-hour examination (40%)

Prescribed Reading:

Zhao, H *Business writing in Chinese* Beijing Language and Culture University 1994.

Xu, Z *Practical writing for foreigners* Sinolingua Press 1994.

Module of China's current affairs Prepared by the lecturer.

CHI3BEA CHINESE BEGINNERS 3A (20 CPs Sem. TE-SEM-1 BU.) *Dr Xu Huiling*

In this unit students develop communicative competence in topics of everyday interest in Chinese society; consolidate skills in simple correspondence and expository writing and enhance oral and aural skills by viewing and discussing a Chinese feature film. Topics include eating and food, shopping, education, media and family life.

Prerequisite: CHI2BEB or coordinator's approval.

Incompatible unit: CHI2ADA

Class requirements: Two 1-hour lectures and two 1-hour workshops per week.

Assessment: Three assignments (1500-word equivalent) (30%), two written examinations (2500-word equivalent) (50%), two role-plays (1000-word equivalent) (20%)

Prescribed Reading:

Yao, T et al. *Integrated Chinese Level 2 Textbook* Boston 1997.
Yao, T et al. *Integrated Chinese Level 2 Workbook* Boston 1997.

CHI3BEB CHINESE BEGINNERS 3B (20 CPs Sem. TE-SEM-2 BU.) *Dr Xu Huiling*

In this unit students develop communicative competence in topics of everyday interest in Chinese society; consolidate skills in simple correspondence and expository writing and enhance oral and aural skills by viewing and discussing a Chinese feature film. Students read some micro-stories published in China, which satirise contemporary Chinese society.

Prerequisite: CHI3BEA or coordinator's approval.

Incompatible unit: CHI2ADB

Class requirements: Two 1-hour lectures and two 1-hour workshops per week.

Assessment: Three assignments (1500-word equivalent) (30%), two written examinations (2500-word equivalent) (50%), two role-plays (1000-word equivalent) (20%)

Prescribed Reading:

Yao, T et al. *Integrated Chinese Level 2 Textbook* Boston 1997.
Yao, T et al. *Integrated Chinese Level 2 Workbook* Boston 1997.

CHI3CPA READINGS IN CONTEMPORARY CHINESE PROSE A (20. CPs Sem. TE-SEM-1 BU.) *Dr Xu Yuzeng*

This unit is designed to allow honours and other high-level students to further extend their ability to translate primary data from Chinese into English and from English into Chinese. Readings are drawn mainly from social and cultural topics on contemporary China.

Prerequisite: CHI2APA, CHI3APA, or coordinator's approval.

Class requirements: One 2-hour lecture and one 1-hour workshop per week.

Assessment: Two 1500-word translation assignments (40%), two 500-word class exercises (30%), one 1000-word end-of-semester test (30%)

Prescribed Reading:

Module of readings Prepared by the lecturer.

CHI3CPB READINGS IN CONTEMPORARY CHINESE PROSE B (20. CPs Sem. TE-SEM-2 BU.) *Dr Xu Yuzeng*

This unit is designed to allow high level and honours students to further extend their ability to translate primary data from Chinese into English and from English into Chinese. Readings are drawn mainly from social and cultural topics on contemporary China.

Prerequisite: CHI3CPA or coordinator's approval.

Class requirements: One 2-hour lecture and one 1-hour workshop per week.

Assessment: Two 1500-word translation assignments (40%), two 500-word class exercises (30%), one 1000-word end-of-semester test (30%)

Prescribed Reading:

Module of readings Prepared by the lecturer.

Honours

To apply for entry to honours following completion of the degree, a student is normally expected to have completed at least 130 credit points of cinema studies units with an average mark of 70% or better. Application does not guarantee a place in the honours year, selection for which is based upon recommendations of lecturers and the Program's ability to provide adequate supervision.

Honours students are required to complete 60 credit points of coursework at fourth year level, including CST4IAM Issues and Methods, taken at its earliest availability. In addition, an honours student is expected to submit a 12000 to 15000-word thesis on a topic approved by the Program and is entitled to an oral examination on the thesis. There is some possibility for an honours thesis to involve practical or production work. Enquiries should be directed to the Honours Coordinator.

A full description of CST units (including the unit name, unit code, credit points, campus/location, unit coordinator, class requirements, assessment, prerequisites, and readings) appears below. For the most recent descriptions of all units, please access the unit database at www.latrobe.edu.au/udb_public.

UNIT DESCRIPTIONS

CST1IFA INTRODUCTION TO SCREEN ANALYSIS (15. CPs Sem. TE-SEM-1 BU.) *Ms Anna Dzenis*

In this unit, students are provided with the basic tools and techniques for screen analysis. We begin with the structure and grammar of film narrative and its mechanisms for producing coherence and meaning. Topics include the classic narrative model, formalist analysis, mise en scene, large narrative structures, character formation, imagery, and formal completeness. Further topics include modernist narrative: the ambiguous image and sound.

Class requirements: One 3-hour screening, one 1-hour lecture and one 1-hour tutorial per week. Attendance at lectures, screenings, and tutorials is a requirement of this unit.

Assessment: One 1000-word mise en scene analysis (25%), one 1000-word analysis of a critical article (25%), one 2000-word essay (50%)

Preliminary Reading:

Bordwell, D & Thompson, K *Film art: an introduction* McGraw-Hill 1997.

CST1ITS INTRO TO SCREENWRITING (15 CPs Sem. TE-SEM-2 BU.) *Mr Harry Kirchner*

Only available to students in the Bachelor of Creative Arts

In this unit, students are introduced to the craft of screenwriting through a series of practical tasks and through a theoretical examination of screenwriting texts. Students should be prepared to have their work workshoped in class. Students will become familiar with the various industry-accepted screenwriting formats used for fiction film and television drama. Students will also be introduced to the methodology used by government and private organisations for the assessment of screenplay material.

Incompatible unit: CST22WFS, CST32WFS

Class requirements: One 4-hour workshop per week. Attendance at the workshop is a requirement of this unit.

This unit is not available for Study Abroad students.

Assessment: One 800-word fiction screenplay (15%), one 2,200-word fiction screenplay (60%), one 1000-word essay (25%)

Recommended Reading:

Seeger, L *Making a good script great* Samuel French Trade 1994.
Field, S *Screenplay: the foundations of screenwriting* Dell Pub Co. 1994.

McKee, R *Story: substance, structure, style, and the principles of screenwriting* Methuen 1999.

Aaronson, L *Television writing: the ground rules of series, serials, and sitcom* AFTRS 2000.

Vogler, C *The writer's journey: mythic structure for storytellers and screenwriters* Boxtree 1999.

CST1MSM MAKING SENSE OF THE MOVIES (15. CPs Sem. TE-SEM-2 BU.) *Mr Rolando Caputo*

In this unit, different approaches to interpreting films will be examined. These may include debates about film as a new twentieth century art form and as popular culture; conflicting ideas about authorship in cinema; concepts of the film spectator and questions of gender, race, and sexuality; national cinema and identity; post-modern and postcolonial critiques. A wide range of films will be screened.

Class requirements: One 3-hour screening, one 1-hour lecture and one 1-hour tutorial per week. Attendance at lectures, screenings, and tutorials is a requirement of this unit.

Assessment: One 2000-word essay (50%), one 2000-word essay (50%)

Recommended Reading:

Nichols, B *Movies and methods* Vol 2, University of California Press 1985.

CST1SCA SCREENPLAY ANALYSIS (15 CPs Sem. TE-SEM-1 BU.) *Dr Hester Joyce*

Not available in 2008

CST1SNT SCREEN NARRATIVE (15 CPs Sem. TE-SEM-1 BU.) *Ms Anna Dzenis*

Not available in 2008

CST2ADS ADVANCED SCREENWRITING (20 CPs Sem. TE-SEM-1 BU.) *Mr Harry Kirchner*

This unit is offered at third year level also.

In this unit, students will be provided with the opportunity to refine skills acquired in other practical and theoretical screenwriting units, and critically examine current industry trends and practices. Students will develop a major piece of work in three parts, which may provide the opportunity for further development in third year screenwriting units.

Prerequisite: For CST2ADS: 30 credit points of first year cinema studies or coordinator's approval, for CST3ADS: 20 credit points of second year cinema studies or coordinator's approval.

Incompatible unit: CST22WFS/CST32WFS

Quota: 20. Preference given to Bachelor of Creative Arts, Graduate Diploma, or Graduate Certificate in Creative Writing students, then third year cinema studies major students in academic merit order

Class requirements: One 3-hour workshop per week.

Assessment: One 1000-word pitch document (20%), one 2000-word storyline (40%), and one 2000-word (20-minute) screenplay segment (40%). Third year students will be expected to show a greater achievement of discipline-specific skills in their written work than second year students.

CST2ALC EXPERIMENTAL CINEMA (20. CPs Sem. TE-SEM-1 BU.) *Dr Gabrielle Murray*

This unit is offered at third year level also.

In this unit, the history of a number of alternative film making practices is examined. The unit will include an analysis of the relationship of experimental and avant-garde film making practices to those of the mainstream. Topics discussed include: different meanings of 'experimental' in cinema ranging from political opposition to niche marketing and different ways of being 'alternative' in the cinema ranging from textual alternative to modes of production and consumption.

Prerequisite: For CST2ALC: 30 credit points of first year cinema studies or coordinator's approval. For CST3ALC: 20 credit points of second year cinema studies or coordinator's approval.

Quota: 45. Determined by academic merit. Preference will be given to third year students.

Class requirements: One 4-hour screening/seminar per week.

Assessment: One 2000-word essay (40%), one 3000-word essay (60%). Third year students will be expected to show a greater achievement of discipline specific skills in their written work than second year students.

Recommended Reading:

Dixon, W W & Foster, G (Eds) *Experimental cinema: the film reader* Routledge 2002.

Adams Sitney, P (Ed) *The avant-garde film: a reader of theory and criticism* New York UP 1978

Krauss, R E *The originality of the avant-garde and other modernist myths* The MIT Press 1986.

CST2ANF ANIMATED FILM (20. CPs Sem. TE-SEM-2 BU.) *To be advised*

This unit is offered at third year level also.

Not available in 2008

CST2CAC AUSTRALIAN CINEMA (20. CPs Sem. TE-SEM-1 BU.) *Dr Felicity Collins*

This unit is offered at third year level also.

In this unit, we will focus on Australian films in national and international contexts. By studying cultural and economic factors shaping the 'aesthetic force-field' of Australian cinema, students will engage with current debates about the Australian film industry. A sense of place in different film genres will be discussed in terms of national identity. Topics include: the bush and mateship myths; the desert and purgatorial narratives; the suburbs and grotesque comedy; the inner city and romantic comedy; the beach and myths of origin; Australians abroad; post-colonial encounters with Aboriginality; the international film made in Australia.

Prerequisite: For CST2CAC: 30 credit points of first year cinema studies or coordinator's approval.

For CST3CAC: 20 credit points of second year cinema studies or coordinator's approval.

Quota: 45. Determined by academic merit. Preference will be given to third year students.

Class requirements: One 4-hour lecture/seminar per week.

Assessment: One 2000-word essay (50%), one 1500-word assignment (25%), one 1500-word assignment (25%). Third year students will be expected to show a greater achievement of discipline specific skills in their written work than second year students.

Recommended Reading:

Collins, F & Davis, T *Australian cinema after Mabo* Cambridge UP 2004

O'Regan, T *Australian national cinema* Routledge 1996.

Dermody, S, Jacka, E (Eds) *The imaginary industry: Australian film in the late 80s* AFTRS 1988.

CST2CAS CINEMA AND SEXUALITY (20 CPs Sem. TE-SEM-1 BU.) *Mr*

Rolando Caputo

This unit is offered at third year level also.

From its origins in the less than reputable 'peep-show' and nickelodeon parlours of the late Nineteenth Century, the cinema has been at the centre of debates about the nature of erotic imagery and the voyeuristic inclinations of its public. This unit examines the representations of sexuality from the silent film era to the present. Topics covered include the iconic use of actors as fetish objects; the role of illusionism, fantasy, and desire in film; sexuality and genre; psychoanalytic theories on the nature of sexual identity and spectatorship; issues of morality and censorship.

Prerequisite: For CST2CAS: 30 credit points of first year cinema studies or coordinators approval.

For CST3CAS: 20 credit points of 2nd year Cinema Studies or coordinators approval.

Quota: 45. Determined by academic merit. Preference given to 3rd year students

Class requirements: One 1-hour lecture, one 1-hour seminar, and one 2-hour screening.

Assessment: One 2000-word essay (40%), one 3000-word essay (60%). Third year students will be expected to show a greater achievement of discipline-specific skills in their written work than second year students.

Preliminary Reading:

Lenne, G *Sex on the screen: eroticism in film*. St Martin's Press 1985.

Prescribed Reading:

Mulvey, L *Fetishism and curiosity* Indiana UP 1996.

Freud, S *On sexuality* The Penguin Freud Library, Vol 7, London 1991.

Shaviri, S *The cinematic body* University of Minnesota Press 1993.

Recommended Reading:

Paz, O *An erotic beyond: Sade* Harcourt Brace & Co. 1993.

Durgnat, R *Eros in the cinema* Calder and Boyars 1966.

CST2CFI CONTEMPORARY WORLD CINEMA (20. CPs Sem. TE-SEM-2 BU.)

Ms Anna Dzenis

This unit is offered at third year level also.

In this unit, through close textual and theoretical analysis, students will study contemporary cinema from The French New Wave to Art House Cinema to the latest Hollywood blockbusters. Topics to be considered include: theories of visuality; debates about popular culture; post-modern strategies; digital aesthetics; identity and biography; cyborgs and new technology; the road movie; new Hollywood cinema; authors of the independent sector; and contemporary art house cinema from Hong Kong, Japan, Spain, France, Germany, Taiwan and Iran. Films screened will be selected from the work of Goddard, Kubrick, Cronenberg, Assayas, Wong Kar-Wai, the Coen Brothers, De Palma, Lynch, Mann, Almodovar, and Kiarostami among others.

Prerequisite: For CST2CFI: 30 credit points of first year cinema studies or coordinator's approval.

For CST3CFI: 20 credit points of second year cinema studies or coordinator's approval.

Quota: 45. Determined by academic merit. Preference will be given to third year students.

Class requirements: One 4-hour screening/seminar per week.

Assessment: One 1500-word essay (35%), one 3500-word essay

(65%). Third year students will be expected to show a greater achievement of discipline specific skills in their written work than second year students.

Recommended Reading:

Bordwell, D, Carrol, N (Eds) *Post-theory reconstructing film studies* University of Wisconsin Press 1996.

CST2CIC CONTEMPORARY ITALIAN CINEMA (20. CPs Sem. TE-SEM-1 BU.)

Mr Rolando Caputo

This unit is offered at third year level also.

Not available in 2008

CST2CLH HOLLYWOOD CINEMA (20. CPs Sem. TE-SEM-2 BU.) *Dr Felicity*

Collins

This unit is offered at third year level also.

In this unit students look at the Hollywood film industry and the kinds of films it produced under the studio system from 1917-47, the changes that took place in the industry and its audiences in the 1950s and 1960s, and the emergence of New Hollywood, the high concept film, the blockbuster and auteur film in the 1970s and 1980s. We will conclude by examining current trends including transnational exchanges and global Hollywood in the digital era.

Prerequisite: 30 credit points of first year cinema studies or coordinators approval.

Incompatible unit: CST2CAM

Class requirements: One 3-hour lecture/screening and one 1-hour tutorial per week.

Assessment: One 2000-word essay (35%), two 500-word visual tests (30%), one 2000-word essay (35%). Third year students will be expected to show a greater achievement of discipline-specific skills in their written work than second year students.

Prescribed Reading:

Neale, S *Contemporary Hollywood cinema* Routledge 1998.

Maltby, R *Hollywood cinema* Blackwell 2003.

Bordwell, D, Staiger, J, Thompson, K *The classical Hollywood cinema* Routledge 1996.

Jacobs, L *Wages of sin* Uni of Wisconsin Press 1991.

CST2COM COMEDY (20. CPs Sem. TE-SEM-1 BU.) *To be advised*

This unit is offered at third year level also.

Not available in 2008

CST2DOC DOCUMENTARY CINEMA (20. CPs Sem. TE-SEM-1 BU.) *Dr*

Gabrielle Murray

This unit is offered at third year level also.

Not available in 2008

CST2FCR SCREEN CRITICISM (20. CPs Sem. TE-SEM-2 BU.) *Ms Anna*

Dzenis

This unit is offered at third year level also.

In this unit students examine how and why criticism is written. Topics discussed include the induction of critical models and the historical development of film criticism; major issues, such as realism, style/content distinctions, and social utility claims; critical strategies; and the proper objectives of criticism. Great emphasis will be put on writing (and rewriting); students must be prepared to write frequently, to discuss writing in detail, and to analyse and workshop their own essays and those of their colleagues.

Prerequisite: For CST2FCR: 30 credit points of first year cinema studies or coordinators approval.

For CST3FCR: 20 credit points of second year cinema studies or coordinators approval.

Quota: 45. Determined by academic merit. Preference will be given to third year students.

Class requirements: One 4-hour lecture/tutorial/workshop per week. Attendance at the lecture/tutorial/workshop is a requirement of this unit.

Assessment: Seven 700-word essays (100%) Third year students will be expected to show a greater achievement of discipline specific skills in their written work than second year students.

CST2FNO FILM NOIR: ALIENATION AND DARKNESS IN THE CINEMA

(20. CPs Sem. TE-SEM-2 BU.) *Dr Geoff Mayer*

This unit is offered at third year level also.

Throughout the history of the cinema, a pessimistic mode has counter-pointed the dominant optimistic and 'escapist' bias of the classical or popular cinema. Although in this unit students will focus primarily on the development of film noir in the American cinema during the 1940s, other periods and other national cinemas, such as the British and Australian cinema, will also be examined. Students will study the formal and cultural roots of this mode, together with its resurgence in the latter part of the 20th century.

Prerequisite: For CST22FNO: 30 credit points of first year cinema studies or coordinators approval.

For CST32FNO: 20 credit points of second year cinema studies or coordinators approval.

Quota: 45. Determined by academic merit. Preference will be given to third year students.

Class requirements: One 4-hour lecture/tutorial/screening per week. Attendance at lectures, screenings, and tutorials is a requirement of this unit.

Assessment: One 1500-word essay (30%), one 2000-word take-home test (40%), one 1500-word essay (30%). Third year students will be expected to show a greater achievement of discipline specific skills in their written work than second year students.

Preliminary Reading:

Naremore, J *More than night: film noir in its contexts* University of California Press 1998.

Prescribed Reading:

Mayer, G & McDonnell, B *Encyclopaedia of film noir* Greenwood 2007.

CST2GES GENRE STUDIES (20. CPs Sem. TE-SEM-2 BU.) *Dr Gabrielle Murray*

This unit is offered at third year level also.

Genre occupies an important place in the study of cinema. In this unit issues surrounding the definition of genre and the history of genre criticism will be addressed. The examples are drawn primarily from early American cinema to the present, although a comparative study is also made with models of other international genres. Topics covered include the evolution of genre styles from classical to post-modern; the cultural specificity of particular genres in relation to their wider appeal and cultural relevance; the relation of genre to industry and authorship; the evolution of genre styles and iconography.

Prerequisite: For CST2GES: 30 credit points of first year cinema studies or coordinator's approval.

For CST3GES: 20 credit points of second year cinema studies or coordinator's approval.

Quota: 45. Determined by academic merit. Preference will be given to third year students.

Class requirements: One 4-hour screening/seminar per week.

Assessment: One 3000-word essay (60%), one 2000-word essay (40%). Third year students will be expected to show a greater achievement of discipline specific skills in their written work than second year students.

Prescribed Reading:

Neale, S *Genre and Hollywood* Routledge 2000.

Schatz, T *Hollywood genres* Random House 1981.

This unit is offered at third year level also.

Not available in 2008

CST2SAC STORYTELLING & THE CINEMA (20 CPs Sem. TE-SEM-1 BU.) *Dr Geoff Mayer*

Beginning with the study of the narrative characteristics of the classical Hollywood cinema, in particular the significance of narrative causality, goal-oriented stories, recognisable forms of closure, and multiple systems of motivation, this unit will focus on the longevity and pervasiveness of this aesthetic system and its place in the cinema in the twenty-first century. Film examples drawn from the 1940s and 1950s will be compared with examples from the contemporary cinema, including American, British, and Australian films, to highlight continuing patterns, cultural inflections, and cyclic deviations from the classical mode of film narration.

Prerequisite: 30 credit points of first year cinema studies.

Class requirements: One 1-hour lecture, one 1-hour seminar, and one 2-hour screening per week.

Assessment: One 2500-word test (50%), one 2500-word essay (50%)

Prescribed Reading:

Mayer, G *Roy Ward Baker* Manchester UP 2004.

Recommended Reading:

Bordwell, D *Narration in the fiction film* Methuen 1985.

Thompson, K *Storytelling in the new Hollywood* Harvard UP 1999.

Bordwell, D, Staiger, J, Thompson, K *The classical Hollywood cinema* Routledge 1985.

CST2SCN SCREENPLAY AS NARRATIVE FORM (20 CPs Sem. TE-SEM-1 BU.)

Mr Rolando Caputo

This unit is offered at third year level also.

Students examine the role that screenwriters and the screenplay narrative form have had over the course of film history; the screenplay as document within the studio system model; the rise of the writer-director auteur; and the screenwriter working in non-studio contexts (Australia and Europe). Particular attention is given to how screenwriters adapt their work to fulfil certain genre requirements. This provides for consideration of the conception of narrative form/style, character, and theme that arise from the written page and are shaped and reshaped by the audio-visual language of cinema.

Prerequisite: For CST2SCR: 30 credit points of first year cinema studies or coordinator's approval.

For CST3SCR: 20 credit points of second year cinema studies or coordinator's approval.

Quota: 40. Preference given to BCA students, then third year cinema studies major students, in academic merit order

Class requirements: One 4-hour seminar/screening per week.

Assessment: One 2000-word essay (40%), one 3000-word essay (60%). Third year students will be expected to show a greater achievement of discipline-specific skills in their written work than second year students.

Unit only available to students enrolled in the Bachelor of Creative Arts

Students will develop research, report writing and presentation skills by undertaking a research project into the creative industries, choosing a case study from film, television, new media, performing or publishing industries. Students will gain an overview of the commercial, cultural and policy contexts which influence the creative industries in Australia and internationally. Research projects will focus on a local or national production company, policy issue, festival, government body, cultural organisation, or community arts group according to student interests.

Prerequisite: Completion of first and second year of the Bachelor of Creative Arts.

Class requirements: One 3-hour seminar per week.

This unit is not available for Study Abroad students.

Assessment: One 2000-word bibliographic essay (40%), one 2000-word research report (40%), one 1000-word seminar paper (20%)

Preliminary Reading:

Cunningham S, Turner, G *The media in Australia, tests, audience* 3rd edn. 2001.

Recommended Reading:

This unit provides selected students with an opportunity to make a more detailed study of some particular aspect of film study. A program of reading, discussion, and written work is organised.

Class requirements: Assessment and readings are determined for individual cases.

CST3RCB READING COURSE B (20. CPs Sem. TE-SEM-2 BU.) *Coordinator**to be advised*

This unit provides selected students with an opportunity to make a more detailed study of some particular aspect of film study. A program of reading, discussion, and written work is organised.

Prerequisite: Coordinator and lecturer's approval.

Class requirements: Assessment and readings are determined for individual cases.

CST3SCN SCREENPLAY AS NARRATIVE FORM (20 CPs Sem. TE-SEM-1 BU.)*Mr Rolando Caputo**See CST2SCN for full unit description.***CST3SED SCRIPT DEVELOPMENT** (20 CPs Sem. TE-SEM-2 BU.) *Dr Hester**Joyce*

In this unit, students are introduced to the process of script development as it is applied in the film and television industry. Through a series of screenings, exercises and workshops, students will participate in a simulation of the script development process across drafts of a major elective script project or screenplay treatment. Students will also examine the script development process and the role of script editing in development.

Prerequisite: 20 credit points of second year cinema studies or coordinator's approval.

Quota: 40. Preference given to BCA, Grad Dip in Creative Writing & Grad Dip in Professional Writing & Speech students, then third year cinema studies major students in academic merit order.

Class requirements: One 3-hour workshop per week. Attendance is a requirement.

Assessment: one 1000-word annotated filmography (20%), one 1500-word report on a script/screenplay draft and presentation (30%), one 1000-word amended script or treatment material (20%), one 1500-word report on a second draft script/screenplay (30%)

Recommended Reading:

Neale, S *Genre and Hollywood* Routledge 2000.

Seger, L *Making a good script great* Samuel French Trade 1994.

Aronson, L *Scriptwriting updated* AFTRS 2000.

CST3VAC VIOLENCE AND THE CINEMA (20 CPs Sem. TE-SEM-2 BU.) *Dr**Gabrielle Murray**See CST2VAC for full unit description.**Not available in 2008***CST3VID INTRO TO VIDEO PRACTICE** (20. CPs Sem. TE-SEM-2 BU.) *Mr**Harry Kirchner*

Many students find it advantageous to bring their theoretical and analytical skills into a practical context. Students are introduced to filmmaking practices through participation in their own group video productions. In these productions, students will specialise in camera, directing, editing, or production management, using digital production equipment.

Prerequisite: 20 credit points of second year cinema studies or coordinator's approval.

Quota: 15. Preference given to Bachelor of Creative Arts and Graduate Diploma in Creating Writing students, then third year

cinema studies major students in academic merit order

Class requirements: One 4-hour workshop per week. Attendance at workshop is a requirement of this unit.

This unit is not available for Study Abroad students.

Assessment: Role in-group production assessed according to criteria outlined in subject handout (50%), one 1000-word essay (20%), one 5-minute verbal presentation (10%), one 6-minute screenplay (10%), one practical exercise editing, or camera (10%)

Prescribed Reading:

Mollison, M *Producing videos: a complete guide* Allen and Unwin, 2003.

Development studies

Program Coordinator: Dr Michael Connors (Politics).

Since 1945, national governments, multilateral agencies (such as the United Nations, the World Bank, and USAID), and non-governmental organisations have pursued Programs of social and economic change (referred to as 'development' or 'modernisation') for people mainly in Africa, Latin America and Asia. These Programs are aimed explicitly at improving the welfare of people and relieving social problems such as poverty, disease, landlessness, economic 'backwardness', inequality and illiteracy. Keeping in step with the implementation of development Programs are studies about developmental issues, emanating from a range of disciplines including anthropology, economics, history, law, politics, and sociology. While some of these advocate certain developmental theories, policies and practices, several provide critical evaluations of developmental issues and Programs.

The Development Studies Program enables students to become familiar with and acquire an understanding of the various developmental issues covered in several selected units (listed below) offered from a range of disciplines across the university. Issues assessed in the various units include development and underdevelopment, imperialism, dependency, the emergence of newly industrialising countries (particularly in East Asia), gender and development, global environmental problems and development practice.

Programs of study

Students may take a major in development studies, structured according to the following requirements. The major of 130 credit points should include:

- at least 30 credit points of first year units in economics, history, legal studies, politics, sociology or anthropology: students are, however, recommended to take two of the three units ANT1CAG, HIS1CAM and HIS1DEV
- at least 40 credit points of second year units, selected from the list of approved development studies units
- at least 60 credit points of third year units, selected from the list of approved development studies units.

As well, units for the development studies major must be selected from at least two different disciplines.

Important notice: Not all of the units listed below will be available every year. See the unit lists for the specific disciplines, where units unavailable in 2008 will be noted.

Unit title	Unit code
First year units (15 credit points)	
Students are recommended to take 30 credit points of the following units:	
Conquest of the Americas: Aztecs, Incas, Mayans & Spaniards	HIS1CAM
Culture and Globalisation: introduction to anthropology	ANT1CAG
Globalisation: the rise of the modern world	HIS1DEV
<i>Students may, however, count first year units from any of the following disciplines towards the first year requirements of a major in development studies: anthropology, economics, history, legal studies, politics, and sociology.</i>	

Second- and third year units (20 credit points)

Applied Anthropology	ANT2APA/ANT3APA
Charting the Colonial Pacific	HIS2CCP/HIS3CCP
Comparative Social Movements	SOC2CSM/SOC3CSM
Crises in South Asia: weapons, women, well-being	POL2CSA/POL3CSA
Critical Social Policy	SOC2CSP/SOC3CSP
Development, Globalisation and Culture	ANT2DGC/ANT3DGC
Displacement, Flight and Refuge	ANT2DFR/ANT3DFR

International Law and International Organisation	POL2ILO/POL3ILO
International Relations: the Cold War and the great powers	POL2INR/POL3INR
Introduction to Ethnographic Research	ANT2MQA/ANT3MQA
Latin America through Film and Popular Culture	HIS2LFP/HIS3LFP
Living with Colonialism: resistance and accommodation	HIS2LWC/HIS3LWC
Peace and Change	POL2PAC/POL3PAC
Political Change and Development in the Third World	POL2DDA/POL3DDA
Politics and the Economy	POL2PAE/POL3PAE
The Politics of Economic Regions	POL2PER/POL3PER
Politics of Non-violent Activism	POL2PNV/POL3PNV
Postcolonial Perspectives	ANT2PCP/ANT3PCP
Reconciliation	POL2REC/POL3REC
Social Policy, Welfare and the State	SOC2SWS/SOC3SWS
Sociology of the Environment	SOC2SOE/SOC3SOE
South-East Asian Politics: change and conflict	POL2SEA/POL3SEA
The World Since 1945	HIS2WOR/HIS3WOR
Other units may be available, by agreement with the area coordinator.	

Honours

The faculty offers a Bachelor of Arts with honours in development studies for students who have completed a Bachelor of Arts. Students who intend to undertake honours in development studies are normally expected to have completed a development studies major with a B average at third year level. Interested students who do not satisfy these requirements are encouraged to consult the Chair of the Development Studies Committee.

Students enrolled in the pass degree who hope to proceed to honours should contact the chair of the committee as early as possible in their course.

The course consists of a research thesis of 12000 to 15000 words, together with two fourth year units from different disciplines, determined in negotiation with the lecturers in charge and the Chair of the Development Studies Committee.

A full description of these units (including the unit name, unit code, credit points, campus/location, unit coordinator, class requirements, assessment, prerequisites, and readings) appears at the end of each discipline entry. For the most recent descriptions of all units, please access the unit database at www.latrobe.edu.au/udb_public.

English

Program Coordinator: Mr Chris Palmer.

Units offered in the English Program reflect the broad nature of the discipline. The units embrace a variety of literary traditions and genres. Critical approaches and methodologies are equally diverse. Some units draw upon the practices of other disciplines and through these provides a context for the exploration of new ideas emerging from the cross-fertilisation of diverse fields of study. Units focus on various aspects and periods of literature in English, including Australian literature, American literature, new literatures, women's writing, biography and autobiography, as well as English literature and creative writing in various modes. Units focusing on cultural studies, psychoanalytic theory and the relations between medical, psychoanalytic and literary discourse are also offered.

Availability of units

When planning a major students should note that units that are available in one year might not necessarily be available in the next. In some instances, each of a pair of units is offered in alternate years. Every effort is made by the program to give one-year notice when a unit is to be withdrawn the following year, but unforeseen circumstances may preclude such advance notice. If the enrolments for any second or third year unit fail in any year to reach the minimum figure considered viable by the program, the unit will lapse for that year.

Readings

Readings are listed in each unit entry on the unit database online at www.latrobe.edu.au/udb_public. Lecturers and tutors normally use the edition of the set texts available from the university bookshop.

Attendance requirements

Attendance at lectures and tutorials is obligatory. In order to pass any English unit, it is necessary to have submitted all the written work for the unit. The final date for submission of written work will be included in information given to students at the beginning of each unit.

English expression requirements

In order to pass any English unit, students must attain an acceptable standard of English expression. Tutors will offer guidance with expression difficulties, and further help with language and literacy problems is available from the Humanities Academic Skills Unit or from the Language and Academic Skills (ESL) Unit located in the Humanities 3 building. The program's conventions of style and format are specified in the section on essay writing in the Essential Guide available to students at www.latrobe.edu.au/english/essential.htm and must be followed in the preparation of all written work.

Prerequisites

Thirty credit points of first year English is the normal prerequisite for second year English.

Forty credit points of second year English is the prerequisite for third year English.

Programs of study

Students who wish to satisfy the degree requirements by taking a major in English are required to take a minimum of 130 credit points of English. 130 credit points of English are required for admission to honours in English but intending honours students are strongly urged to include more English units in their degree.

The normal pattern for an English major is 30 credit points at first year level, 40 credit points at second year level and 60 credit points at third year level.

Students intending to complete a major in English are strongly advised to include in their course a selection of literature from different periods and in different genres.

In order to ensure an appropriate spread of units and to avoid overlap, students may be prohibited from taking both a drama unit offered by the Theatre and Drama Program and an English program unit in drama if three or more texts are prescribed in common on the reading lists of the two units.

Teaching period	Unit title	Unit code
First year units (15 credit points)		
TE-SEM-1	Introducing Literature: the short story	ENG1ILS
TE-SEM-1	Spirituality and Rites of Passage	ENG1SRP
TE-SEM-1	Texts over Time: introduction to literature	ENG1TOT
TE-SEM-2	Classic Victorian Novels: becoming an adult in the 19th century ¹	ENG1CVN
TE-SEM-2	Poetry and Desire ¹	ENG1PYD
TE-SEM-2	Text, Criticism and the Visual	ENG1TCV
TE-SEM-2	Writing your Own Life	ENG1WYL
Second or third year units (20 credit points)		
TE-SEM-1	American Literature of the 20th Century	ENG2ALT/ENG3ALT
TE-SEM-1	British and American Romanticism	ENG2BAR/ENG3BAR
TE-SEM-1	Love and Eroticism in Asian Literature ¹	AST2LEA/AST3LEA
TE-SEM-1	Renaissance Voices and Counter Voices	ENG2REV/ENG3REV
TE-SEM-1	Re-situating Modernism: decolonising contexts	ENG2REM/ENG3REM
TE-SEM-1	Shakespeare in Adaptation ¹	ENG2SIA/ENG3SIA
TE-SEM-1	Twentieth-century Australian Literature: inventing the past ¹	ENG2TAL/ENG3TAL
TE-SEM-1	Women Writing A	ENG2WWA/ENG3WWA

TE-SEM-2	Narrative Analysis A ¹	ENG2NAA/ENG3NAA
TE-SEM-2	Psychoanalysis and Fictions ¹	ENG2PAF/ENG3PAF
TE-SEM-2	Re-thinking Jane Austen	ENG2RJA/ENG3RJA
TE-SEM-2	Shakespeare and Contemporaries	ENG2SAC/ENG3SAC
TE-SEM-2	Tragedy and the Classical World	ENG2TCW/ENG3TCW
TE-SEM-2	Women Writing B	ENG2WWB/ENG3WWB
TE-SEM-2	Writing Fiction	ENG2WFI/ENG3WFI

Third year units (20 credit points)

TE-SEM-1	Creating Non-fiction	HUS3CNF
TE-SEM-1	Honours Seminar A (for prospective honours students only)	ENG3HSA
TE-SEM-1	Publishing and Editing	MST3PAE
TE-SEM-1	Reading Course A	ENG3RCA
TE-SEM-2	Honours Seminar B (for prospective honours students only) ¹	ENG3HSB
TE-SEM-2	Reading Course B	ENG3RCB
TE-SEM-2	Writing Autobiography	ENG3WAB

Key: ¹ Not available in 2008.

Honours

Students who do well in second year English receive a letter inviting them to consider taking honours (a fourth year) in English, but any student may ask to be admitted to honours after consultation with the Honours Coordinator and the English Program Coordinator.

Applicants for admission to honours in their fourth year should have completed first year English and, normally, a minimum of two second year English semester units. All third year intending honours students are required to include in their English major the 20-credit point, third year honours seminar, either ENG3HSA or ENG3HSB. By the end of their third year, honours students must have completed 130 credit points of English (including either ENG3HSA or ENG3HSB).

Intending honours students are strongly recommended to include more English units in their degree. Students may take up to 205 credit points of English.

Permission to continue into fourth year is normally conditional on results of 70% or better in the English units of the pass degree.

Applications are considered by a program committee. All admissions to the fourth year honours program, including applications for part-time study, are subject to the approval of the English Program Coordinator. Joint honours, a fourth year honours course shared between English and another discipline, can be arranged. Mid-year entry is also possible. Students interested in the possibility of joint honours should apply in the first instance to the Honours Coordinator.

The fourth year's work consists of three semester-long units selected from a range of fourth year units and a research essay of 12000 to 15000 words on a topic arranged at the end of the third year's work and approved by the Honours Coordinator. There is also a methodology component. The three units are worth 45% of the final result (15% for each unit), the research essay 50%, and the methodology component 5%.

Fourth year units

A complete list of fourth year units, together with details of texts, unit requirements and assessment, is published in an honours brochure available from the English Program.

A full description of ENG units (including the unit name, unit code, credit points, campus/location, unit coordinator, class requirements, assessment, prerequisites, and readings) appears below. For the most recent descriptions of all units, please access the unit database at www.latrobe.edu.au/udb_public.

UNIT DESCRIPTIONS

ENG1CVN CLASSIC VICTORIAN NOVELS: BECOMING AN ADULT IN THE 19TH CENT (15. CPs Sem. TE-SEM-2 BU.) Dr Leela Gandhi

Not available in 2008

ENG1ILS INTRODUCING LITERATURE: THE SHORT STORY (15 CPs Sem. TE-SEM-1 BU.) Ms Carol Merli, Dr Paul Salzman

In this unit, students are introduced to a wide range of short stories from diverse cultures and historical periods. Students are also introduced to more general issues of literary criticism and ways of reading, with an emphasis on issues such as gender, race, and identity. The unit covers the short story in a historical context but also looks at the structure of the short story as a specific literary form, and at genres and styles such as the gothic tale, the ghost story, fairytales, the modernist and postmodernist story.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: One 1,200-word essay (30%), one 1,800-word essay (40%), five 200-word tutorial exercises (30%)

Prescribed Reading:

Baldwin, D *Riverside anthology of short fiction* 1998

ENG1PYD POETRY AND DESIRE (15 CPs Sem. TE-SEM-2 BU.) *Dr Susan*

Bradley Smith

Not available in 2008

ENG1SRP SPIRITUALITY AND RITES OF PASSAGE (15. CPs Sem. TE-SEM-1 BU.) *Dr David Tacey*

In this unit, students will explore the claims and hopes of spirituality, its recent emergence in secular contexts, its uneasy relationship with religion, its rise to prominence in the present post-modern situation. According to recent research, spiritual questions loom large at critical stages in the life cycle, especially at the transition to adulthood and mid-life, and at defining moments that bring suffering, difficulty, and vulnerability. First, we will explore the topic of spirituality through a series of critical essays, then we will explore spiritual themes, problems, and motifs in the work of a range of mainly modern poets. Poets will include Matthew Arnold, Thomas Hardy, W.B. Yeats, T.S. Eliot, Philip Larkin, Sylvia Plath, Margaret Atwood, Seamus Heaney, Les Murray, and Judith Wright.

Class requirements: One 2-hour lecture/seminar and one 1-hour tutorial per week.

Assessment: One 1500-word essay (40%), one 1000-word class paper (20%), one 1500-word essay (40%)

Prescribed Reading:

O'Donohue, J *Anam Cara* Bantam 1998.

Atwood, M *Surfacing* Virago 1972.

Ferguson, M (Ed) *The Norton anthology of poetry* 5th edn. Norton 2005.

Tacey, D *The spirituality revolution* Harper Collins 2003.

ENG1TCV TEXT, CRITICISM AND THE VISUAL (15. CPs Sem. TE-SEM-2 AW, BU, MI.) *Professor Sue Thomas*

Students study a range of novels and plays, together with film adaptations of them. Topics covered in discussions include the ways texts tell stories and present personality, gender and genre, issues of representation in contemporary culture and what might be meant by describing some of the texts and films as 'popular' and some as 'classic'. The films will be studied as interpretations of literary texts. Prescribed texts must be purchased before the beginning of the semester.

Class requirements: One 1-hour lecture and one 1-hour tutorial per week and six 2-hour film screenings.

Assessment: One 1500-word essay (35%), one 1500-word essay (35%), class tests (1000-words equivalent) (30%)

Prescribed Reading:

Melville, H *Billy Budd and other stories* Pearson.

Fest, J *Inside Hitler's bunker* Macmillan Paperback.

Shakespeare, W *Richard III* Any edition.

Leonard, E *Rum Punch* Penguin.

James, H *Washington Square* Penguin.

ENG1TOT TEXTS OVER TIME: INTRODUCTION TO LITERATURE (15. CPs Sem. TE-SEM-1 AW, BU, MI.) *Mr Chris Palmer*

This unit is an introduction to the discussion and analysis of a range of literary texts, including plays, poems, and novels. Its aim is to develop awareness of the possibilities of constructing meaning and significance in texts. In addition to the set texts, there will be a subject reader for poetry.

Class requirements: One 1-hour lecture, one 1-hour on-line workshop and one 1-hour tutorial per week.

Assessment: Two 1500-word essays (80%), tutorial exercises (1000-words equivalent) (20%)

Prescribed Reading:

Atwood, M *Alias Grace* Virago.

Conrad, J *Heart of darkness* Norton.

Austen, J *Mansfield Park* Penguin.

Shakespeare, W *The merchant of Venice* Penguin.

Fugard, A *The township plays – the Island* Oxford.

ENG1WYL WRITING YOUR OWN LIFE (15. CPs Sem. TE-SEM-2 BU.) *Dr*

Alexis Harley

Telling stories about ourselves is a fundamental human activity. This unit is for those who want to put those stories into writing, to write autobiography. People often assume that putting your life down on paper is easy, but actually, there is an art to it. This unit introduces you to some aspects of that 'art': structuring your life story, deciding what to put in or leave out, getting a perspective on yourself, and more. The main emphasis will be on prose writing. The unit also covers some more general issues that will prepare you for later studies in English.

Class requirements: One 1-hour lecture and one 2-hour tutorial/workshop.

Assessment: One 1000-word critical essay/creative writing (30%), one 1500-word critical essay/creative writing (35%), one 1500-word critical essay/creative writing (35%)

ENG2ALT AMERICAN LITERATURE OF THE 20TH CENTURY (20. CPs Sem. TE-SEM-1 BU.) *Dr Alison Ravenscroft*

This unit is offered at third year level also.

In this unit students focus on the emergence of new kinds of writings in the United States from the early decades of the century through to its close, with particular reference to modernist and postmodernist fiction. We will consider the kinds of challenges that have been made to conventional narrative and linguistic forms in the course of this century, examining the effects of contestations over notions of truth, history, and memory. In particular, we will explore the relations between the old and the new, including between the traditional American canons and emerging literatures.

Prerequisite: 30 credit points of first year English.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: One 3500-word essay (70%), one 1500-word class paper (30%). Third year students will be expected to show a greater achievement of discipline specific skills in their written work than second year students.

Prescribed Reading:

Morrison, T *Beloved* Picador.

Ellison, R *Invisible man* Penguin.

DeLillo, D *Mao II* Picador.

Barnes, D *Nightwood* Faber.

Larsen, N *Quicksand and passing* Rutgers.

Doctorow, E L *The book of Daniel* Picador.

Pynchon, T *The crying of lot 49* Picador.

Faulkner, W *The sound and the fury* Norton.

ENG2BAR BRITISH AND AMERICAN ROMANTICISM (20. CPs Sem. TE-SEM-1 AW, BU, MI.) *Dr Iain Topliss*

This unit is offered at third year level also.

In this unit we an introduction to poetry of the period 1790-1870, from William Blake to Emily Dickinson. Emphasis is placed on close reading of poems. Classes give attention to the social, religious, and political context. The poets' own critical writings are considered along with contemporary and academic criticism.

Prerequisite: 30 credit points of first year English.

Class requirements: One 1-hour lecture or seminar per week and one 2-hour tutorial per week.

Assessment: One 2000-word exercise (40%), one 3000-word essay (60%)

Prescribed Reading:

Wu, D (Ed) *Romanticism: an anthology* Blackwell 2005.

ENG2CFT CONTEMPORARY FEMINIST THOUGHT (20. CPs Sem. TE-SEM-2 BU.) *Dr Alison Ravenscroft*

This unit is offered at third year level also.

Ideas emanating from post structuralism, psychoanalysis, and critical race theory have challenged some of the older certainties of western feminisms. In this unit, students are introduced to key concepts underlying recent feminist work in the area of gender, race, and embodiment. We examine a range of questions posed by recent feminist writers, for instance: can 'women' remain the unit of feminism, and, what is the nature of white western feminism's encounter with race and cultural difference? These questions are

studied through a range of written texts as well as film.

Prerequisite: 30 credit points of first year English. This pre-requisite is waived for Gender, Sexuality and Diversity Studies students.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: One 2000-word class paper (40%), one 3000-word final essay (60%). Third year students will be expected to show a greater achievement of discipline specific skills in their written work than second year students.

Recommended Reading:

Colebrook, C *Gender* Palgrave Macmillan 2004.

Butler, J *Gender trouble: feminism and the subject of identity* Routledge 1999.

Morrison, T *Playing in the dark: whiteness and the literary imagination* Harvard University Press 1992.

ENG2HCC HUMOUR, COMEDY AND CULTURE (20. CPs Sem. TE-SEM-2 BU.) Dr Iain Topliss

This unit is offered at third year level also.

Not available in 2008

ENG2IIE INDIA IN ENGLISH (20. CPs Sem. TE-SEM-2 BU.) Dr Leela

Gandhi

This unit is offered at third year level also.

Not available in 2008

ENG2IML INTRODUCTION TO MEDIEVAL LITERATURE (20. CPs Sem. TE-SEM-2 BU.) Coordinator to be advised

This unit is offered at third year level also. Not available in 2008

ENG2ITB INVENTING THE BUSH (20. CPs Sem. TE-SEM-2 BU.) Dr Sue Martin

This unit is offered at third year level also.

What is the bush? In this unit students consider the meaning and importance of the idea of the Australian bush in various narratives from the nineteenth century. These writings will be considered in the context of empire, gender, ethnicity, and class. Consideration will also be given to the circulation and understandings of the bush in some twentieth-century texts. In addition to the prescribed reading, a course reader available at the beginning of the semester contains additional literature, critical reading, extracts from explorer journals and 'lost child' narratives.

Prerequisite: 30 credit points of first year English.

Class requirements: One 1-hour lecture and one 2-hour seminar per week.

Assessment: One 1500-word research exercise (30%), class exercises (1000-words equivalent) (20%), one 2500-word essay (50%). Third year students will be expected to show a greater achievement of discipline-specific skills in their written work than second year students.

Prescribed Reading:

Pilkington, D *Follow the rabbit proof fence* UQP.

Frost, L *No place for a nervous lady* Penguin.

Furphy, J *Such is life* Halstead.

Davidson, R *Tracks* Verso.

Lee, C (Ed) *Turning the century* UQP.

ENG2JCP JUNG'S CULTURAL PSYCHOLOGY (20. CPs Sem. TE-SEM-2 BU.)

Dr David Tacey

This unit is offered at third year level also.

In this unit, students are introduced to Jung's psychology, with particular emphasis upon the application of Jung's thought to cultural and literary studies. We consider the differences between Freud and Jung, explore Jung's theories about the structure and dynamics of the psyche, and examine Jung's contributions to the study of myth, archetype, and symbolism.

Class requirements: One 2-hour lecture/seminar and one 1-hour tutorial per week.

Assessment: One 3000-word essay (60%), one 2000-word essay (40%). Third year students will be expected to show a greater achievement of discipline specific skills in their written work than second year students.

Preliminary Reading:

Jung, C G *Memories, dreams, reflections* Any edition.

Prescribed Reading:

Malouf, D *An imaginary life* Picador.

Tacey, D *How to read Jung* Granta 2006.

Campbell, J (Ed) *The portable Jung* Penguin.

ENG2NAA NARRATIVE ANALYSIS A (20. CPs Sem. TE-SEM-2 BU.) Dr Iain Topliss

This unit is offered at third year level also.

Not available in 2008

ENG2PAF PSYCHOANALYSIS AND FICTIONS (20. CPs Sem. TE-SEM-2 BU.)

Dr Kay Souter

This unit is offered at third year level also. Not available in 2008

ENG2REM RE-SITUATING MODERNISM: DECOLONISING CONTEXTS

(20. CPs Sem. TE-SEM-1 BU.) Professor Sue Thomas

This unit is offered at third year level also.

Modernism is the name given retrospectively to a range of early twentieth-century experimental and avant-garde trends in literature and the arts. Appreciation of its aesthetic theories and practices has been very influential in the institutionalisation of Western literary criticism and the histories of European canon-formation. In this unit modernism and variously modernist writing in English are re-situated in the contexts of colonial and post-independence cultures and experiences of gender, race, class, sexuality, desire, ethnicity, nation, and expatriation. Students examine the ways in which writers have negotiated and shaped modernist practices of representation, tensions between the narrative possibilities of modernism and realism and the recent Western anthropological, psychological and philosophical theories, which often informed modernist practices of representation.

Prerequisite: 30 credit points of first year English.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: One 2000-word essay (40%), tutorial exercises (equivalent 1000-words) (20%), one 2000-word essay (40%). Third year students will be expected to show a greater achievement of discipline specific skills in their written work than second year students.

Prescribed Reading:

Naipaul, V *A bend in the river* Picador.

Head, B *A question of power* Heinemann.

Coetzee, J *Disgrace* Random House.

Conrad, J *Heart of darkness* Penguin.

White, P *The aunt's story* Random House.

Achebe, C. *Things fall apart* Heinemann.

Rhys, J *Voyage in the dark* Penguin.

ENG2REV RENAISSANCE VOICES AND COUNTER VOICES (20. CPs Sem. TE-SEM-1 BU.) Dr Paul Salzman

This unit is offered at third year level also.

Recent theoretical approaches to the Renaissance have emphasised the tension between the discourse of authority and its potential subversion, especially through the 'counter-voices' of supposedly marginalised groups, such as women. In this unit students examine a selection of poems, plays, and prose works, paying particular attention to the struggles of counter-voices to be heard. *Henry V* and *Coriolanus* will be taught first.

Prerequisite: 30 credit points of first year English.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: One 2000-word essay (40%), one 3000-word essay (60%). Third year students will be expected to show a greater achievement of discipline specific skills in their written work than second year students.

Prescribed Reading:

Middleton, T *A chaste maid in Cheapside* Revels.

Jonson, B *Bartholomew Fair in Three Comedies* Penguin.

Shakespeare, W *Coriolanus* Oxford.

Salzman, P (Ed) *Early modern women's writing* Oxford.

Shakespeare W *Henry V* Penguin.

Shakespeare, W *Much ado about nothing* Oxford

Shakespeare, W *The taming of the shrew* Oxford.

Middleton, T *Women beware women in Five Plays* Penguin.

ENG2RJA RE-THINKING JANE AUSTEN (20. CPs Sem. TE-SEM-2 BU.) *Dr Kay Souter**This unit is offered at third year level also.*

This unit is designed for students who already have some acquaintance with Jane Austen's work. Beginning with her literary precursors, and her early attempts at writing, students look at several major novels in the light of their reception over the past 200 years. Recent film and television adaptations of Austen's novels are drawn upon to illuminate the various ways these texts have been, and can be, read.

Prerequisite: 30 credit points of first year English.

Class requirements: One 3-hour seminar per week.

Assessment: One 1000-word reflective journal (20%), one 2000-word essay (40%), two 1-hour class tests (40%). Third year students will be expected to show a greater achievement of discipline-specific skills in their written work than second year students.

Preliminary Reading:

Wiltshire, J *Recreating Jane Austen* Cambridge UP.

McMaster, J & Copeland, E (Eds) *The Cambridge companion to Jane Austen* Cambridge UP.

Prescribed Reading:

Austen, J *Emma* Penguin.

Burney, F *Evelina* World's Classics.

Morrell, J *Four English comedies* Penguin.

Austen, J *Mansfield Park* Penguin.

Austen, J *Northanger Abbey, Lady Susan, the Watsons* World's Classics.

Austen, J *Persuasion* Penguin.

Austen, J *Pride and prejudice* Penguin.

ENG2SAC SHAKESPEARE AND CONTEMPORARIES (20. CPs Sem. TE-SEM-2 AW, BU, MI.) *Mr Chris Palmer**This unit is offered at third year level also.*

A study of various forms of tragedy and tragi-comedy in Shakespeare and the drama of his age. Discussion of these plays will also give attention to their historical context, their importance now and to current critical approaches.

Prerequisite: 30 credit points of first year English.

Class requirements: One 1-hour tutorial and one 2-hour lecture/seminar per week.

Assessment: One 2000-word essay (40%) Third year students will be expected to show a greater achievement of discipline specific skills in their written work than second year students., one 2000-word essay (40%), one 1000-word exercise (20%)

Prescribed Reading:

Marlowe, C *Doctor Faustus* Oxford.

Shakespeare, W *Hamlet* Everyman.

Shakespeare, W *Macbeth* Oxford.

Shakespeare, W *Measure for measure* Penguin.

Salgado, (Ed) *Three Jacobean Tragedies* Penguin.

ENG2SIA SHAKESPEARE IN ADAPTATION (20 CPs Sem. TE-SEM-1 BU.) *Mr Chris Palmer**This unit is offered at third year level also.**This unit is offered at third year level also.**Not available in 2008***ENG2TAL TWENTY-FIRST CENTURY AUSTRALIAN LITERATURE:****INVENTING THE PAST** (20. CPs Sem. TE-SEM-1 BU.) *Dr Sue Martin**This unit is offered at third year level also.**Not available in 2008***ENG2TCW TRAGEDY AND THE CLASSICAL WORLD** (20. CPs Sem. TE-SEM-2 BU.) *Mr Terry Collits**This unit is offered at third year level also.*

This is an introduction to tragedy as a dramatic form in Ancient Greece. We examine selected works of Aeschylus, Sophocles and Euripides, all studied in translation. We also consider other writers relevant to tragedy, such as Homer, Plato, Aristotle, and Nietzsche. Attention is given to the ways contemporary literary theories (e.g., feminist or psychoanalytic) might influence our readings of Greek tragedies.

Prerequisite: 30 credit points of first year English.

Class requirements: One 1-hour lecture and one 2-hour class each week.

Assessment: One 2000-word essay (40%), one 3000-word essay (60%). Third year students will be expected to show a greater achievement of discipline specific skills in their written work than second year students.

Prescribed Reading:

Euripides *Medea and other plays* Trans. Philip Vellacott, Penguin.

Euripides *The Bacchae and other plays* Trans. Philip Vellacott, Penguin.

Homer *The Odyssey* Trans. Robert Fitzgerald, Farrer, Strauss, and Giroux.

Aeschylus *The Oresteia* Trans. Robert Fagles, Penguin.

Aristotle *The Poetics* Trans. Malcolm Heath, Penguin.

Nietzsche *The birth of tragedy* Trans. Shaun Whiteside, Penguin.

Sophocles *The three Theban plays* Trans. Robert Fagles, Penguin.

ENG2WFI WRITING FICTION (20 CPs Sem. TE-SEM-2 BU.) *Dr Catherine Padmore**This unit is offered at third year level also.**This unit is offered at third year level also.*

This unit is taught through a combination of lectures and seminars. It is designed for those who wish to write fiction and focuses on the craft of fiction, particularly style and structure. There will be discussion both of student work and of selected fictional texts in classes. Prescribed reading and text lists will be available in the first class.

Prerequisite: 30 credit points of first year English.

Class requirements: One 1-hour lecture and one 2-hour seminar per week.

Assessment: One 2000-word assignment (40%), one 2500-word assignment (50%), tutorial exercises (500-words equivalent) (10%). Third year students will be expected to show a greater achievement of discipline specific skills in their written work than second year students.

ENG2WRP WRITING POETRY (20. CPs Sem. TE-SEM-1 BU.) *Dr Susan Bradley Smith**This unit is offered at third year level also.**This unit is offered at third year level also.*

This is an introductory unit in the art of writing poetry in which students will develop aspects of poetry craft as well as discover their own poetic style. Readings of contemporary Australian poetry and essays will be included and we will encourage the development of critical perspectives in response to both the readings, and the profession of writing. The unit will be conducted in the workshop mode, and will include readings from working poets.

Prerequisite: 30 credit points of first year English.

Class requirements: One 3-hour seminar per week per week.

Assessment: Portfolio of creative work (2500-words equivalent) (50%), one 2500-word critical essay (50%). Third year students will be expected to show a greater achievement of discipline specific skills in their written work than second year students.

Prescribed Reading:

Whitworth, J *Writing poetry* A & C Black.

Recommended Reading:

The best Australian poems Latest edn. Black Inc.

ENG2WWA WOMEN WRITING A (20. CPs Sem. TE-SEM-1 BU.) *Ms Carol Merli**This unit is offered at third year level also.*

This unit looks at nineteenth-century writing by women. Questions are raised about the effect of gender on writing during this period – about the ideologies within which women wrote and about the material circumstances in which their writing was disseminated. There will be a special emphasis on the female gothic. In addition to the texts listed below there will be a course reader including extracts from novels and poetry by Emily Dickinson and Christina Rossetti.

Prerequisite: 30 credit points of first year English.

Class requirements: One 1-hour lecture, one 1-hour tutorial and one 1-hour online workshop per week.

Assessment: One 1500-word exercise (35%), one 3500-word essay (65%). Third year students will be expected to show a greater achievement of discipline specific skills in their written work than second year students.

Prescribed Reading:

Shelley, M *Frankenstein* Norton.
 Bronte, C *Jane Eyre* Penguin.
 Austen, J *Northanger Abbey* Penguin.
 Chopin, K *The awakening* Norton.
 Bronte, A *The tenant of Wildfell Hall* Penguin.

ENG2WWB WOMEN WRITING B (20. CPs Sem. TE-SEM-2 BU.) *Ms Carol Merli*

This unit is offered at third year level also.

In this unit, students will look at twentieth-century writing by women in English. We examine the ways that women writers of the period have re-visioned and resisted restrictions we call 'Victorian', such as sexual repression, limited opportunity and constricted horizons. Students will consider the construction of female subjectivity, particularly in relation to the intersections of race, class, and gender.
Prerequisite: 30 credit points of first year English.

Class requirements: One 1-hour lecture, one 1-hour tutorial and one 1-hour online workshop per week.

Assessment: One 1500-word exercise (35%), one 3500-word essay (65%). Third year students will be expected to show a greater achievement of discipline specific skills in their written work than second year students.

Prescribed Reading:

The honours seminar is an advanced unit normally taken only by students intending to proceed to fourth year honours. Students are normally required to take a 20-credit point honours seminar to be eligible for entrance to Honours. In this unit students concentrate on a variety of contemporary theoretical approaches to English studies. Topics include the history of the discipline, the idea of a canon, feminist theory, psychoanalysis, contemporary Marxism, post-colonial theory, new historicism, queer theory, and cultural studies.

Prerequisite: Head of Program's approval.

Class requirements: One 2-hour seminar and one 1-hour lecture per week.

This unit is not available for Study Abroad students.

Assessment: One 1500-word essay (30%), one 2500-word essay (50%), tutorial exercises (1000-words equivalent) (20%)

The desire to tell one's story is age-old and profound. We do it constantly in conversations, letters, emails, and elsewhere. Sophisticated auto biographers take the storying of the self a step further, drawing upon an array of possible forms and techniques in order to render themselves compelling to their readers. In this unit through workshops, lectures and discussions of published autobiographies, we teach the craft of autobiographical writing – but not in a formulaic way. Like other forms of personal and creative writing, autobiography is a matter of finding one's own voice – of discovering how the story can best be told.

Prerequisite: 40 credit points of second year English.*Class requirements:* One 1-hour lecture and one 2-hour workshop per week.*Assessment:* One 3000-word assignment (60%), one 2000-word assignment (40%)*Prescribed Reading:*Bayley, J. *Elegy for Iris* St Martin's 1999McCarthy, M *Memories of a Catholic girlhood* PenguinDillard, A., and Conley, C. The main aim of this unit is to improve each individual student's writing skills through the study and practice of non-fiction prose. The weekly class combines reflection on the characteristics of good writing with practical exercises in a range of formats and styles. The student will be introduced to concepts of how purpose, readership, and medium affect the format, style and language of what is written.

Prerequisite: 40 credit points of English at second year level OR entry to the Graduate Certificate or Graduate Diploma in Creative Writing.

Class requirements: One 3-hour lecture/seminar each week.*Assessment:* One 2000-word essay (40%), class exercises, written exercises and assignments (3000-words equivalent) (60%)**European studies**

Program Coordinator: To be advised

The units listed below are taught in English and are available to all students.

Teaching period	Unit title	Unit code
First year units (15 credit points)		
TE-SEM-1	Greece and the Balkans in the Twentieth Century	EST1GAB
TE-SEM-2	Windows on Contemporary Europe: cultures in transformation	EST1WEA
Second or third year units (20 credit points)		
TE-SEM-1	Ethnic and Civil Conflict in Southern Europe and Cyprus	EST2ECC/EST3ECC
TE-SEM-1	European Languages in Context: issues in language	EST2ELC/EST3ELC
WK 1 – 15	Renaissance Italy (offered in Italy)	EST2REI/EST3REI
TE-SEM-1	Romeo and Juliet: fact, fiction, film ¹	EST2RJS/EST3RJS

TE-SEM-2	Imagining Europe: cultural perceptions of European identity ¹	EST2IEU/EST3IEU
TE-SEM-2	Renaissance Italy	EST2REI/EST3REI
TE-SEM-2	Transterritorial Hellenism: a journey through some sites	EST2TTH/EST3TTH
Third year units (20 credit points)		
TE-SEM-1	Reading Course A	EST3RCA
TE-SEM-2	Reading Course B	EST3RCB

Key: ¹ Not available in 2008.**Major in European cultures**

This is an interdisciplinary major focusing on European societies and their cultures, and is taught entirely in English. Units may be chosen from those listed above and from specific units from other programs. Students are strongly encouraged, but not required, to acquire proficiency in a second European language other than English and to consider taking a double major, combining European cultures with a European language discipline. At least one year of language study is required for admission to fourth year honours in this area.

Program of study

Students who wish to satisfy the requirements for a major in European cultures must complete at least 130 credit points of which 30 credit points are normally at first year level, 40 credit points at second year level and 60 credit points at third year level. All units are offered subject to the availability of appropriate staffing and minimum enrolments. EST2REI/EST3REI Renaissance Italy will be taught in Prato (Italy) in January 2008.

Teaching period	Unit title	Unit code
First year units (15 credit points)		
TE-SEM-1	Modern Europe A: from monarchies to nations 1760–1890	HIS1MEA
TE-SEM-1	Greece and the Balkans in the twentieth century	EST1GAB
TE-SEM-2	Windows on Contemporary Europe: cultures in transformation	EST1WEA
TE-SEM-2	Modern Europe B: the twentieth century	HIS1MEB
	First year European language units (French, German, Italian, Ancient and Modern Greek or Spanish)	
Second or third year unit (20 credit points)		
TE-SEM-1	Charting the Colonial Pacific	HIS2CCP/HIS3CCP
TE-SEM-1	Ethnic and Civil Conflict in Southern Europe and Cyprus	EST2ECC/EST3ECC
TE-SEM-1	Europe Transformed	HIS2EUT/HIS3EUT
TE-SEM-1	European Languages in Context: issues in language	EST2ELC/EST3ELC
WK 1 – 15	Renaissance Italy (offered in Italy)	EST2REI/EST3REI
TE-SEM-1	Romeo and Juliet: fact, fiction, film ¹	EST2RJS/EST3RJS
TE-SEM-1	The European Union	HIS2EUU/HIS3EUU
TE-SEM-2	Imaging Europe: cultural perceptions of European identity ¹	EST2IEU/EST3IEU
TE-SEM-2	Imagining Contemporary Greece: cinema, song and text	EST2ICG/EST3ICG
TE-SEM-2	Renaissance Italy ¹	EST2REI/EST3REI
TE-SEM-2	Riots and Rebellions	HIS2RAR/HIS3RAR
TE-SEM-2	Transterritorial Hellenism: a journey through some sites	EST2TTH/EST3TTH

Third year units (20 credit points)

TE-SEM-1	Reading Course A	EST3RCA
TE-SEM-2	Reading Course B	EST3RCB

Key: ¹ Not available in 2008.

Students wishing to include in the major another unit with European content not on the list may seek the program coordinator's permission to do so.

Recommended units

The following units are highly recommended for students majoring in European cultures but due to the structure of the program, they do not count towards the major.

Unit title (15 credit points)	Unit code
Ancient Mediterranean Culture – the Greek achievement	ANG1AMC
Art from Rembrandt to Warhol: constructing the modern	ARH1ARW
The Archaeology of Ancient Civilisations	ARC1AAC
Women in Ancient Greek Drama ¹	ANG1WAG
(20 credit points)	
Medieval Italy ¹	ITA2MEI/ITA3MEI
Modern Drama A	DRA2MOA/DRA3MOA
Spain Today	SPA2SPT/SPA3SPT
The Making of Modern Italy	HIS2MMI/HIS3MMI

Key: ¹ Not available in 2008.

Honours

Qualified students may enrol in the fourth year honours program in European Cultures. Students may enrol solely in European Cultures or combine with Honours in another discipline. To be considered for admission to honours, students must normally complete the pass degree with a major in European Cultures and have obtained at least a B average in their third year units. They should have also successfully completed at least one-year's study of a European language. Students undertaking honours are required to complete two fourth year coursework units, an honours seminar and a 15000-word thesis.

A full description of these units (including the unit name, unit code, credit points, campus/location, unit coordinator, class requirements, assessment, prerequisites, and readings) appears at the end of each discipline entry. A full description of EST units appears below. For the most recent descriptions of all units, please access the unit database at www.latrobe.edu.au/udb_public.

UNIT DESCRIPTIONS**EST1GAB GREECE AND THE BALKANS IN THE TWENTIETH CENTURY**

(15. CPs Sem. TE-SEM-1 BU.) *Dr Despina Michael*

In this unit, students will explore the rise of Greece as a nation-state in the context of the Balkans and the ways in which political conflict and modernisation in the 20th century have exacerbated ethnic tensions in the region. The interplay of domestic and international factors in the construction/manipulation of modern aggressive national ideologies is investigated. The focus is on both high politics and their effects on people's lives. Topics include the impact of the Balkan Wars and of World War I; the failure of democracy in the interwar years; Nazi occupation; civil war; Communist regimes and right-wing dictatorships; and the revival of nationalism in the 1990's. We conclude by evaluating the prospects for the 'Europeanization' of the Balkans.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: Two 1000-word tutorial papers (50%), one 2000-word research essay, (50%). Students have the option of taking a 2-hour final exam instead of writing a 2000-word research essay.

Mazower, M *The Balkans: a short history* Modern Library, 2000

EST1WEA WINDOWS ON CONTEMPORARY EUROPE: CULTURES IN TRANSFORMATION (15. CPs Sem. TE-SEM-2 BU.) *Mr Antonio Pagliaro*

This is an introduction to the cultural manifestations of major socio-historical events in twentieth-century Europe that shaped life in countries such as France, Spain, Italy, and Greece. Among issues to

be examined are the roles and effects of the political Right and Left, wars, dictatorships, the relationship between Church and State, the changing role of women, tradition and modernity, migration, multiculturalism, and ethnic and cultural identities.

Class requirements: One 2-hour lecture/seminar and one 1-hour tutorial.

Assessment: Two 1000-word written exercises (50%), one 2-hour exam (50%)

EST2ECC ETHNIC AND CIVIL CONFLICT IN SOUTHERN EUROPE AND CYPRUS (20. CPs Sem. TE-SEM-1 BU.) *Dr Despina Michael*

This unit is offered at third year level also.

In this unit students investigate civil wars motivated by ideological differences within a single culture or by identity conflicts over ethnicity, race, and religion within a multiethnic polity. We explore similarities and differences in the experiences of Spain, Italy, Greece, and Cyprus with nation-building, social revolution, modernization, civil war, and reconciliation in the twentieth century. The response of the International community to civil conflict and ethnic tensions in these countries is examined together with the ways in which outside intervention has shaped the length and internal dynamics of the conflicts. We conclude with an assessment of the prospect for a lasting peace in Cyprus and of the challenges of justice, reconciliation, and economic reconstruction.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: One 2-hour final exam (50%), two 1500-word tutorial papers (50%). Third year students will be expected to show a greater achievement of discipline-specific skills in their written work than second year students.

Preliminary Reading:

Thomas, H. *The Spanish Civil War* Penguin 2001

Prescribed Reading:

Close, D. *The origins of the Greek Civil War* Longman 1995.

EST2ELC EUROPEAN LANGUAGES IN CONTEXT: ISSUES IN LANGUAGE

(20 CPs Sem. TE-SEM-1 BU.) *Ms Ana Maria Ducasse*

This unit is offered at third year level also.

In this unit students examine issues in learning European languages such as: popular ideas about language learning, how language is learned in the classroom, what factors shape the learning and approaches to explaining second language learning. Using trans-European case studies, other issues affecting language learning that will be covered include cultural awareness, politics, gender, and identity. Lectures are taught in English, with parallel tutorials in English and Spanish (students majoring in Spanish will attend tutorials in Spanish and complete their written work in the Spanish language). Students attending tutorials in Spanish must have completed SPA1ADB, SPA1INB, or SPA2BEB.

Class requirements: One 1.5-hour lecture and one 1.5-hour tutorial per week.

Assessment: three 30-minute class tests (30%), one 2000-word essay in English or one 1000-word essay in Spanish (40%), one 1.5-hour examination (30%). Third year students will be expected to show a greater achievement of discipline-specific skills in their written work than second year students.

EST2ICG IMAGING CONTEMPORARY GREECE: CINEMA, SONG AND TEXT (20 CPs Sem. TE-SEM-2 BU.) *Dr Despina Michael*

This unit is offered at third year level also.

In this unit, students are introduced to Greek history through cultural representation. The tumultuous history of 20th century Greece will be explored through film, song and other texts. Perceptions of significant events will be looked at from diverse perspectives, especially their portrayal in cinema and popular music. Cultural and social values, including the family, women, kinship, non-conformity, political polarization, and national identity will also be studied. The creation of culture is inextricably linked to the political, social and economic

evolution of a country and students will gain a deeper knowledge about major historical events—the Asia Minor Catastrophe, the German Occupation, the Civil War, the Dictatorship, the Cyprus crisis and EU accession—through the unique representations of film-makers, writers, poets and popular musicians. Students will gain skills in textual analysis and understanding about the diversity of evidence used when we undertake to ‘image the past’.

Class requirements: One 3-hour lecture/workshop per week.

Assessment: One 1000-word essay (20%), one 1500-word essay (30%), one 2500-word take-home exam/major essay (50%). Third year students will be expected to show a greater achievement of discipline-specific skills in their written work than second year students.

This unit is offered at third year level also. Not available in 2008.

EST2REI RENAISSANCE ITALY (20. CPs Sem. TE-SEM-2 BU. TE-W01-15 BU.)

Mr Antonio Pagliaro, Dr Nicole Prunster

This unit is offered at third year level also.

This unit is offered in Italy in January 2008 and offers students an opportunity to study near Florence, where the Italian Renaissance began. Students are offered an introduction to Italian humanism and Italian Renaissance literature and society through the study of representative prose and verse works. Cultural tours to nearby cities and towns are an integral part of this unit. Particular attention is paid to the manner in which a new vision of society and of individual merit evolves in the period.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

This unit is not available for Study Abroad students.

Assessment: one 2000-word essay (to be completed on return from Italy) (40%), one 1000-word presentation prepared in Melbourne in advance for oral delivery in Italy (20%), one 2000-word critical, reflective journal (4 entries) on sites/cities visited, written in Italy (40%). Third year students will be expected to show a greater achievement of discipline-specific skills in their written work than second year students.

EST2RJS ROMEO AND JULIET: FACT, FICTION, FILM (20. CPs Sem. TE-SEM-1 BU.) *Dr Nicole Prunster*

This unit is offered at third year level also.

Not available in 2008

EST2TTH TRANSTERRITORIAL HELLENISM: A JOURNEY THROUGH SOME SITES (20. CPs Sem. TE-SEM-2 BU.) *Professor Anastasios Tamis*

This unit is offered at third year level also.

In this unit students explore issues in the modern construction of ethno-national, civic, multiple and other identities. We examine the evolution of the concept of ‘Hellenism’ and the diversity of its manifestations in various parts of the modern world by way of an imaginary journey through the cities of Istanbul, Izmir, Thessaloniki, Paris, Stuttgart, Nicosia, New York, and Melbourne. We explore the life of Greeks as Ottoman subjects, students and scholars, victims of genocide, political exiles, guest workers, Europeans, and citizens of multi-cultural states, as well as the impact of the Greek Orthodox Church, Greek irredentism, political conflict, and modernisation on Greek identity. Competing visions of Hellenism that developed in these cities will be juxtaposed to the realities of Greece today.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: One 500-word website review (15%), one 2000-word book review (30%), one 2000-word research essay or one 2-hour final examination (40%), tutorial exercises (500-word equivalent) (15%). Third year students will be expected to show a greater achievement of discipline-specific skills in their written work than second year students.

TE-SEM-1	French Advanced 3A	FRE3ADA
TE-SEM-2	French Advanced 3B	FRE3ADB

A full description of these units (including the unit name, unit code, credit points, campus/location, unit coordinator, class requirements, assessment, prerequisites, and readings) appears below. For the most recent descriptions of all units, please access the unit database at www.latrobe.edu.au/udb_public.

UNIT DESCRIPTIONS

1160091 INTERMEDIATE FRENCH FIRST YEAR A (15 CPs Sem. TE-SEM-1 BU.) Dr Alastair Hurst

This unit is designed to provide students with a systematic revision and consolidation of the essential structures of French. Classes will present grammar, syntax, and vocabulary in meaningful situations. The unit also stresses the productive aspect of language use in practical situations while extending grammatical and lexical knowledge and refining oral skills by means of regular small-group activities. Students will also spend time in private study working on written and oral exercises and using on-line resources. On completion of the unit, students should be able to sustain conversations and express opinions in French on topics of general interest, have consolidated their knowledge of the basic structures of French, and have attained a good level of competence in written production. This unit is not available to students who have completed Year 12 French or equivalent.

Prerequisite: 4 or 5 years of secondary school French or equivalent.

Incompatible unit: 1160092

Class requirements: Four hours of language classes and 1-hour of web laboratory/unsupervised private study work per week.

This unit is not available for Study Abroad students.

Assessment: Two written assignments (equivalent to 800 words) (25%), one 10-minute oral test (20%), one 15-minute listening comprehension test (15%), one 1.5-hour written exam (40%)

Prescribed Reading:

Baker, A. et al. *Collages, revision de grammaire* 5th edn, McGraw-Hill

1160092 BEGINNERS FRENCH SECOND YEAR A (15 CPs Sem. TE-SEM-1 BU.) Dr Alastair Hurst

This unit is designed to provide students with a systematic revision and consolidation of the essential structures of French. Classes will present grammar, syntax, and vocabulary in meaningful situations. The unit also stresses the productive aspect of language use in practical situations while extending grammatical and lexical knowledge and refining oral skills by means of regular small-group activities. Students will also spend time in private study working on written and oral exercises and using on-line resources. On completion of the unit, students should be able to sustain conversations and express opinions in French on topics of general interest, have consolidated their knowledge of the basic structures of French, and have attained a good level of competence in written production. This unit is not available to students who have completed Year 12 French or equivalent.

Prerequisite: Completion of 116123 with B grade pass or adequate knowledge of French (4 or 5 years of secondary school French or equivalent).

Incompatible unit: 1160091

Class requirements: Four hours of language classes and 1-hour of web laboratory/unsupervised private study work per week.

This unit is not available for Study Abroad students.

Assessment: Two written assignments (equivalent to 800 words) (25%), one 10-minute oral test (20%), one 15-minute listening comprehension test (15%), one 1.5-hour written exam (40%)

Prescribed Reading:

Baker, A et al *Collages, revision de grammaire* 5th ed, McGraw-Hill

1160111 INTERMEDIATE FRENCH FIRST YEAR B (15 CPs Sem. TE-SEM-2 BU.) Dr Alastair Hurst

In this unit, we aim to help students transfer their adult reading skills from their native language to French, in order to be able to use French written sources for the same purpose as they use written sources in their own language. These purposes may be reading for information, reading for specialised study (literature, history, and philosophy), and reading for pleasure. We aim primarily to enable students to develop effective and appropriate reading strategies, so that they become independent and successful readers.

Prerequisite: 1160091.

Incompatible unit: 1160112

Class requirements: Three hours of seminars per week.

This unit is not available for Study Abroad students.

Assessment: Regular take-home and class exercises during semester totalling 3000-words (60%), one 2-hour final examination (40%)

Prescribed Reading:

Conde, M. *Le Coeur a rire et a pleurer* Poche 2001

Baker, A et al *Collages, varietes culturelles* 5th edn, McGraw-Hill

116121 BEGINNERS FRENCH 1A (15. CPs Sem. TE-SEM-1 BU.) Dr Alastair Hurst

This unit is an intensive language unit for beginners, with a focus on the development of speaking, listening, reading, and writing skills and an introduction to French culture through the materials used for language acquisition. Students successfully completing the course should be able to read simple French, write accurately and make sense of and participate in a variety of communicative situations presented in French, within the limits of the vocabulary and tenses introduced in the unit. Any student who has ever presented for Year 12 French or the equivalent is ineligible for this unit. Students with four or five years of high school French or the equivalent should enrol in Intermediate French A and B.

Class requirements: Four hours of language per week.

This unit is not available for Study Abroad students.

Assessment: Written work and class tests (40%), one 2-hour written examination (30%), two 15-minute listening comprehension tests (15%), one 10-minute oral exam (15%). Students who have attended less than 80% of classes will not be eligible to sit the final examination.

Prescribed Reading:

Amon, E., Muyskens, J.A. and Omaggio Hadley, A.C. *Vis-a-vis. Beginning French* 4th edn. McGraw-Hill 2007

116123 BEGINNERS FRENCH 1B (15 CPs Sem. TE-SEM-2 BU.) *Dr*

Alastair Hurst

In this unit students build on writing and reading skills acquired in Beginners French 1A. Students successfully completing the unit should be able to write accurately in basic French, using the range of grammatical structures studied and in a range of genres from short descriptive texts to letters and poems; read a variety of French texts from poems to newspaper items and short articles; and appreciate aspects of Francophone cultures. Any student who has ever presented for Year 12 French or the equivalent is ineligible for this unit.

Prerequisite: 116121.

Class requirements: Four hours of language classes per week.

This unit is not available for Study Abroad students.

Assessment: Written work and class tests (40%), one 2-hour written examination (30%), two 15-minute listening comprehension tests (15%), one 10-minute oral exam (15%). Students who have attended less than 80% of classes will not be eligible to sit the final examination.

Prescribed Reading:

Amon, E., Muyskens, J.A. and Omaggio Hadley, A.C. *Vis-a-vis. Beginning French* 4th edn. McGraw-Hill 2007

116131 ADVANCED FRENCH 1A (15 CPs Sem. TE-SEM-1 BU.) *Dr*

Alistair Hurst

In this unit, students undertake written and oral exercises designed to consolidate Year 12 linguistic skills, enhancing both fluency and accuracy. These will include discussions on topics of social, cultural, and political significance. Aural comprehension activities will develop listening accuracy, and will involve authentic audiovisual materials including films, songs, news reports and other media. Written work will include grammar revision and application via exercises and composition, as well as analysis of authentic texts. Reading skills are enhanced by studying a range of genres and styles. Students should improve their reading comprehension and begin to develop skills in critical analysis.

Prerequisite: VCE French or equivalent.

Class requirements: Four hours of language classes per week.

This unit is not available for Study Abroad students.

Assessment: Class exercises during semester (2500-words equivalent) (50%), one 500-word assignment (30%), one end of semester exam (20%)

Prescribed Reading:

Olivier, J. and Beaudoin, M. *Grammaire française* 3rd edn. Thomson Nelson 2004

116133 ADVANCED FRENCH 1B (15 CPs Sem. TE-SEM-2 BU.) *Dr*

Alistair Hurst

In this unit students undertake written and oral exercises and activities designed to consolidate and develop the linguistic and communicative skills gained in first semester, further enhancing both fluency and accuracy. These will include discussions on topics of social, cultural, and political significance. Aural comprehension activities will further develop listening accuracy, and will involve authentic audio-visual materials including films, songs, news reports and other media. Written work will include grammar exercises involving more sophisticated structures, analysis of more complex authentic texts, and compositions demonstrating enhanced argumentative skills. By broadening the range of genres and styles studied, students should continue to improve their reading comprehension and to build on skills in critical analysis acquired in first semester.

Prerequisite: 116131.

Class requirements: One 3-hour of language class and one 1-hour textual studies class per week.

This unit is not available for Study Abroad students.

Assessment: Class exercises during semester (2500-words equivalent) (50%), one 500-word assignment (30%), one end of semester exam (20%)

Prescribed Reading:

Olivier, J. and Beaudoin, M. *Grammaire française* 3rd edn. Thomson Nelson 2004

FRE3ADA ADVANCED FRENCH 3A (20 CPs Sem. TE-SEM-1 BU.)

Coordinator to be advised

In this unit, students will build on the linguistic skills developed in second year advanced French. Emphasis will be placed on improving students' fluency through a range of oral exercises and discussions. Written expression will be developed through specific exercises, textual analysis and grammatical exercises.

Prerequisite: 116016 French 2: Language B or equivalent.

Class requirements: Three hours of language classes per week.

Assessment: One 1000-word journal (20%), one 1000-word essay (20%), one 15-minute oral presentation (20%), one 2-hour written examination (40%)

Prescribed Reading:

Hawkins, R. and Towell, R. *French grammar and usage* Arnold 1996

FRE3ADB ADVANCED FRENCH 3B (20 CPs Sem. TE-SEM-2 BU.)

Coordinator to be advised

In this unit, students will build on the linguistic skills developed Advanced French 3A. Emphasis will be placed on improving students' fluency through a range of oral exercises and discussions. Written expression will be developed through specific exercises, textual analysis and grammatical exercises.

Prerequisite: FRE3ADA or equivalent.

Class requirements: Three hours of language classes per week.

Assessment: One 1000-word journal (20%), one 1000-word essay (20%), one 15-minute oral presentation (20%), one 2-hour written examination (40%)

Prescribed Reading:

Hawkins, R. and Towell, R. *French grammar and usage* Arnold 1996

Gender, sexuality, and diversity studies

Program Coordinator: Dr Terrie Waddell.

Gender, sexuality and diversity studies (GSD) is an interdisciplinary area of critical inquiry focussing on how our bodies and identities are categorised and lived out in social, political and ethical relations. More specifically, GSD examines the complex interrelationships existing between such diverse markers of identity as sex, gender, femininity, masculinity, sexuality, ethnicity, nationality, class, and age. Primarily based on the themes, concerns and perspectives emerging from feminist scholarship, post-colonial studies, and queer theory, GSD gives students the opportunity to hone skills in critical thinking, effective writing, media and textual analysis, historical and sociological investigations and legal interpretations. In drawing on a wide variety of disciplines in one area study, GSD is unique, offering students more scope and flexibility when constructing their degrees. The interdisciplinary focus additionally provides students with a breadth of knowledge and range of skills applicable to all professional, public, and personal life choices one makes after university study. Students may enrol in a major, double major or single units of GSD studies.

Programs of study

Students who wish to satisfy the requirements for the degree with a major in GSD studies must complete 130 credit points in the area, including 60 credit points at third year level and at least 40 credit points from the core units listed below. A major in GSD studies should preferably be commenced in first year. However, it is possible to be accepted into the major at second year based on satisfactory completion of approved first year humanities, social sciences, or legal studies units.

Most units accredited as part of GSD studies may be taken without the usual disciplinary prerequisite. However, students wishing to do so are advised to seek approval from the unit coordinator.

Double Majors

Given the pertinence of gender, sexuality and diversity issues in the workplace, media, government policy and legislative change, GSD offers a perfect double major with other areas of study. Other studies might include sociology and politics, media studies, history,

Australian studies and legal studies. This expands the opportunities for both interdisciplinary and interdisciplinary post-graduate research. At the same time, a double major adds to qualifications for employment opportunities.

Gender Studies Units

Teaching period	Unit title	Unit code
First year units (15 credit points)		
TE-SEM-1	Sex, Gender and Identity	GSD1SGI
TE-SEM-2	Sex, Gender and Diversity	GSD1SGD
Second or Third year units (20 credit points)		
TE-SEM-1	Gender and Sexuality: contemporary debates	GSD2GES/GSD3GES
TE-SEM-1	Reading Course A	GSD3RCA
TE-SEM-2	Contemporary Feminist Thought	GSD2CFT/GSD3CFT
TE-SEM-2	Gender and Development	GSD2GAD
TE-SEM-2	Reading Course B	GSD3RCB

Important notice: Not all of the units listed below will be available every year. See the unit lists for the specific disciplines, where units unavailable in 2008 will be noted.

Unit title	Unit code
Core units	
Contemporary Feminist Thought	GSD2CFT/GSD3CFT
Gender and Development	GSD2GAD

Reading Course A	GSD3RCA
Reading Course B	GSD3RCB
Key: ¹ Not available in 2008.	

Honours

Qualified students may enrol in the fourth year honours program in gender, sexuality, and diversity studies. Students may enrol in honours solely in GSD studies, or combine it with honours in another discipline. To qualify for admission to honours, students must normally have completed the pass degree with a major in GSD studies and have obtained an average grade of B in relevant units. Students who do not have a B average should consult the Honours Coordinator and may be considered for admission. Enquiries about the honours program should be directed to the GSD Studies Honours Coordinator.

Students undertaking honours are required to complete two coursework units (20% each) and a 15000-word thesis (50%). Attendance at a fortnightly honours seminar is compulsory. A 3000-word essay will be submitted as a part of this seminar. This is worth 10% of the final result.

A full description of these units (including the unit name, unit code, credit points, campus/location, unit coordinator, class requirements, assessment, prerequisites, and readings) appears at the end of each discipline entry. A full description of GSD units appears below. For the most recent descriptions of all units, please access the unit database at www.latrobe.edu.au/udb_public.

UNIT DESCRIPTIONS

GSD1SGD SEX, GENDER AND DIVERSITY (15. CPs Sem. TE-SEM-2 BU.) *Dr Carol D'Cruz*

In this unit, we introduce Sex, Gender, and Diversity as an interdisciplinary project, drawing from a variety of thematic and theoretical perspectives. We investigate how the concept of diversity resituates our understandings of identity and draws out the implications this has upon sex/gender relations. In other words, one is never simply or only a woman or a man. Inscriptions of ethnicity, race, class, sexuality among other categories both intersect with and transcend ways in which sex/gender relations are played out in social and political life. Theoretical perspectives draw from philosophy, media and cultural studies, sociology, literature, indigenous studies, law and history. Students will engage with a variety of materials including film, statistics, historical texts, autobiography, and advertisements to explore the possibilities and limitations for concepts of identity and diversity to promote social transformation, equity, and social justice.

Class requirements: One 2-hour lecture and one 1-hour tutorial.

Assessment: One 1500-word essay, (40%), one 2-hour examination (45%), tutorial reading tasks (500-word equivalent) (15%)

Recommended Reading:

Hooks, b. *Black looks, race and representation* South End Press 1992
Morgan, S. *My place* Fremantle Arts Centre Press 1987.

GSD1SGI SEX, GENDER AND IDENTITY (15. CPs Sem. TE-SEM-1 BU.) *Dr Carol D'Cruz*

In this introduction to Gender, Sexuality, and Diversity Studies, we look at some contemporary debates surrounding sex/gender relations, focussing on topics such as identity formation of gender, representation, the body, and institutions, such as the family, work, and sport, among others. We use issues such as sex/gender classifications and stereotyping, reproductive rights and responsibilities, changing patterns of family formations, gender and violence, and sport to open up broader debates and themes pertaining to how sex and gender produce and inscribe one's identity. Our objects of analysis include media images in advertising, film, television and magazines, stories, and cartoons. We also examine case studies where sex/gender discrimination and harassment are at issue. In this way, we introduce the basic conceptual language of GSD Studies: ideas about 'identity', 'sex roles', 'subjectivity', 'gender', the 'sexual division of labour', 'discourse' and 'representation'.

Class requirements: One 2-hour lecture and one 1-hour tutorial.

Assessment: One 800-word paper (15%), one 1,200-word journal (30%), one 2-hour examination (45%), tutorial participation (10%)

Recommended Reading:

Hughes, K. P. (Ed) *Contemporary Australian feminism 2* Longman 1977.

Beasley, C. *What is feminism anyway? Understanding contemporary feminist thought* Allen and Unwin 1999.

GSD2CFT CONTEMPORARY FEMINIST THOUGHT (20. CPs Sem. TE-SEM-2 BU.) *Dr Alison Ravenscroft*

This unit is offered at third year level also.

Ideas emanating from post structuralism, psychoanalysis, and critical race theory have challenged some of the older certainties of western feminisms. In this unit, students are introduced to key concepts underlying recent feminist work in the area of gender, race, and embodiment. We examine a range of questions posed by recent feminist writers, for instance: can 'women' remain the unit of feminism, and, what is the nature of white western feminism's encounter with race and cultural difference? These questions are studied through a range of written texts as well as film.

Prerequisite: 30 credit points of first year English. This pre-requisite is waived for Gender, Sexuality and Diversity Studies students.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: One 2000-word class paper (40%), one 3000-word final essay (60%). Third year students will be expected to show a greater achievement of discipline specific skills in their written work than second year students.

Recommended Reading:

Colebrook, C *Gender* Palgrave Macmillan 2004.

Butler, J *Gender trouble: feminism and the subject of identity* Routledge 1999.

Morrison, T *Playing in the dark: whiteness and the literary imagination* Harvard University Press 1992.

GSD2GAD GENDER AND DEVELOPMENT (20 CPs Sem. TE-SEM-2 BU.) *Dr Wendy Mee*

Students will be introduced to gender and related critiques of development, now central to all contemporary development programs and activities. The unit is organised thematically to cover major gender-related critiques and issues. These may include feminist critiques of development economics; women, gender and sustainable development; gender-based forms of violence and exploitation; women's human rights; and sexuality and reproductive health. Through the consideration of case studies, students should become familiar with gender-related theories and practice in the context of contemporary development approaches.

Prerequisite: 30 credit points of first year anthropology, gender studies or sociology.

Class requirements: One 3-hour lecture/seminar per week.

Assessment: One group project (1000-words equivalent) (20%), one 1500-word literature review (30%), one 2500-word essay (50%)

GSD2GES GENDER AND SEXUALITY: CONTEMPORARY DEBATES (20. CPs Sem. TE-SEM-1 BU.) *Dr Lorraine Mortimer*

This unit is offered at third year level also.

In this unit, we trace changes in feminist theory and explore contemporary arguments about masculinity and femininity, mind and body, the personal, and the social in relation to everyday life. Historical debates and political struggles are related to present-day ones, including controversies surrounding maternity, the family and the men's movement. We explore the ways in which social theory has been gendered, often disembodied and removed from a broader ecological context. We ask questions about democratic alternatives for future relationships between women and men. Along with theoretical writing, we consider literature, discussions in the press, and popular representations in film and on television.

Prerequisite: 30 credit points of first year sociology or anthropology or politics or Asian studies or gender, sexuality and diversity studies, or subject coordinator's approval.

Class requirements: One 2-hour lecture and one 1-hour seminar per week.

Assessment: One 3000-word essay (60%), one 2-hour examination (40%). Third year students will be expected to show a greater achievement of discipline specific skills in their written work than second year students.

GSD3RCA READING COURSE A (20. CPs Sem. TE-SEM-1 BU.) *Dr Terrie Waddell*

A limited number of students may be permitted by the Coordinator of GSD Studies to undertake an individual reading course by arrangement with an appropriate member of staff. Approval is normally only given if there is no substantial overlap between the proposed topic and the content of an existing unit. A program of reading, discussion, and written work should be formulated in consultation with the appropriate member of staff and submitted to the Coordinator for approval. Students are advised not to enrol in the unit prior to receiving the Coordinator's approval.

Prerequisite: At least two GSD Studies subjects passed at second- or third year level.

Incompatible unit: WST31RCA

Class requirements: Regular supervision sessions as arranged for each individual student.

Assessment: Essay or a research report totalling 5000 words. (100%)

GSD3RCB READING COURSE B (20. CPs Sem. TE-SEM-2 BU.) *Dr Terrie Waddell*

A limited number of students may be permitted by the Coordinator of GSD Studies to undertake an individual reading course by arrangement with an appropriate member of staff. Approval is normally only given if there is no substantial overlap between the proposed topic and the content of an existing subject. A program of reading, discussion, and written work should be formulated in consultation with the appropriate member of staff and submitted to the Coordinator for approval. Students are advised not to enrol in the unit prior to receiving the Coordinator's approval.

Prerequisite: At least two GSD Studies units passed at second or third year level.

Incompatible unit: WST32RCB

Class requirements: Regular supervision sessions as arranged for each individual student.

Assessment: Essay (s) or a research report totalling 5000 words (100%)

German

Program Coordinator: To be advised.

German units are available by special arrangement with the German Department of The University of Melbourne for accreditation towards a La Trobe University degree. Special enrolment arrangements apply and details may be obtained from the faculty's Enquiries Office.

Beginners German is not available to students who have completed VCE German or equivalent.

Teaching period	Unit title	Unit code

UNIT DESCRIPTIONS

126126 BEGINNERS GERMAN 1A (7.5 CPs Sem. TE-SEM-1 BU.) *Dr Brigit Lang*

Students are introduced to the basic spoken language. They should also achieve the level of spoken language competency required for admittance into second semester Beginners German.

Co-requisite: 126127.

Class requirements: Two-hours of language seminars per week.

This unit is not available for Study Abroad students.

Assessment: One 10-minute oral examination (60%), one 30-minute aural examination (40%)

Prescribed Reading:

D. Dollenmeyer *Neue Horizonte* (Textbook and Workbook) latest edn., Heath and Co.

126127 BEGINNERS GERMAN 1B (15. CPs Sem. TE-SEM-1 BU.) *Dr Brigit Lang*

This is an introduction to spoken and written German for students with little or no knowledge of the language. Students are introduced to the basic spoken language and some of the grammatical structures, along with the capacity to apply these principles in speech and writing. They should develop the ability to read and evaluate a small range of German texts and achieve the level of language competency required for admittance into second semester Beginners German.

Co-requisite: 126126.

Class requirements: Four hours of language seminars per week.

This unit is not available for Study Abroad students.

Assessment: One 3-hour examination (70%), short weekly assignments, and fortnightly vocabulary tests totalling 1000-words (30%)

Prescribed Reading:

Dollenmeyer, D *Neue Horizonte* Textbook and Workbook (latest ed) Heath and Co.

126128 BEGINNERS GERMAN 1C (7.5 CPs Sem. TE-SEM-2 BU.) *Dr Brigit Lang*

Students acquire a clear and accurate spoken fluency at a basic standard of the language. They should also develop a familiarity with important German cultural habits and should acquire the level of competency required for admittance into Intermediate German.

Prerequisite: 126001/126002 or 126126/126127.

Co-requisite: 126129.

Class requirements: Two hours of language seminars per week.

This unit is not available for Study Abroad students.

Assessment: One 1-hour written test (40%), one 20-minute oral test (60%)

Prescribed Reading:

Dollenmeyer, D *Neue Horizonte* Textbook and Workbook (latest edn) Heath and Co.

126129 BEGINNERS GERMAN 1D (15. CPs Sem. TE-SEM-2 BU.) *Dr Brigit Lang*

This is an extension of the work done in first semester Beginners German. Students endeavour to command knowledge of the principal grammatical structures of the German language and attain the capacity to apply these in writing. They also endeavour to command the ability to read and evaluate a wide variety of texts ranging from newspaper items to journal articles, short stories, and poems. Students should also achieve the level of language competency required for admittance into Intermediate German.

Prerequisite: 126001/126002 or 126126/126127.

Co-requisite: 126128.

Class requirements: Four hours of language seminars per week.

This unit is not available for Study Abroad students.

Assessment: One 3-hour examination (70%), short weekly assignments and fortnightly vocabulary tests equivalent to 1000-words (30%)

Prescribed Reading:

Dollenmeyer, D *Neue Horizonte* Textbook and Workbook (latest edn) Heath and Co.

Greek studies

Program Coordinator: Ms Maria Herodotou

The Greek Studies Program offers students the opportunity to study aspects of Greek language, culture, history, and politics from the ancient world to contemporary Greece within the context of Europe. Structured around three separate areas of specialisation (ancient Mediterranean studies, Modern Greek studies and modern Mediterranean studies), the program allows students to focus on their own particular interests while also developing a critical understanding of the evolution of Greek culture. Each area of specialisation is made up of combinations of units from the disciplines of Greek and European studies, art history, archaeology, history, politics, English, and others, enabling students to study civilisations, languages, and history from an interdisciplinary and transnational perspective.

One of the objectives of the program is to integrate into the subject matter the teaching of academic writing, argumentation, and computer skills. Melbourne's large Greek community provides learners of Greek with a stimulating cultural and social environment in which to observe and practise what they study, both as students and as professionals after graduation. Students of Greek studies are also encouraged to undertake approved study in Greece or Cyprus during their course, gaining credit towards their degree.

Area 1: Ancient Mediterranean studies

The Mediterranean basin has been a highly influential spawning ground for diverse cultures from antiquity to the present. This area of Greek studies allows students to become familiar with the Mediterranean civilisations and, in particular, the Ancient Greek achievement, by taking units offered by various programs within the faculty. Students may pursue their interests in a variety of fields, including history, philosophy, religion, archaeology, language, and literature. By selecting from a large pool of approved units, students will be able to develop an understanding of broad historical and artistic developments in the ancient Mediterranean region, as well as the role of the emergence and collapse of these civilisations in the construction of Modern Greek and European identities.

Programs of study

Students who major in ancient Mediterranean studies must complete a minimum of 130 credit points from the lists below (including the two core units), of which:

- 30 credit points must consist of units in Ancient Greek language, to be taken normally before the beginning of third year, and
- At least 60 credit points must be at third year level (see second- and third year unit list below).

Ancient Greek Units

Teaching period	Unit title	Unit code
First year units (15 credit points)		
TE-SEM-1	Ancient Greek Beginners 1A	ANG1BEA
TE-SEM-1	Women in Ancient Greek Drama ¹	ANG1WAG
TE-SEM-2	Ancient Greek Beginners 1B	ANG1BEB
TE-SEM-2	Ancient Mediterranean Culture – the Greek achievement (core unit)	ANG1AMC
Second or third year units (20 credit points)		
TE-SEM-1	Ancient Greek Intermediate 2C	ANG2INC/ANG3INC
TE-SEM-2	Ancient Greek Intermediate 2D	ANG2IND/ANG3IND
TE-SEM-2	From Homer to Hollywood: the perennial Greek hero/heroine (core unit)	ANG2HHH/ANG3HHH

Key: ¹ Not available in 2008.

Additional units for major

Important notice: Not all of the units listed below will be available every year. See the unit lists for the specific disciplines, where units unavailable in 2008 will be noted.

Unit title	Unit code
First year units (15 credit points)	
Ancient Civilisations	HIS1ACA
Archaeology of Ancient Civilisations	ARC1AAC
Art from Greece to the Renaissance: the body in perspective	ARH1AGR
Critical Thinking	PHI1CRT
Greek Beginners 1A	GST1BEA
Greek Beginners 1B	GST1BEB
Myth, Legend, and History	HIS1MLH
Second year units (20 credit points)	
Greek Beginners 2A	GST2BEA
Greek Beginners 2B	GST2BEB
Second or third year units (20 credit points)	
Imaging Contemporary Greece: cinema, song, text	EST2ICG/EST3ICG
Managing Archaeology	ARC2MAN/ARC3MAN
Mediterranean Archaeology	ARC2MED/ARC3MED
Plato and the Meaning of Being	PHI2PAM/PHI3PAM
Rise and Fall of Civilisations	ARC2RFC/ARC3RFC
Tragedy and the Classical World	ENG2TCW/ENG3TCW
Transterritorial Hellenism	EST2TTH/EST3TTH
World of the Pharaohs: the archaeology of ancient Egypt	ARC2EGY/ARC3EGY

Honours

Students who fulfil the requirements for a major in Greek studies (area 1, ancient Mediterranean studies) and who perform well in their work (at least a B average in their core units) are strongly encouraged to enrol in the honours program at fourth year level. Students who wish to enrol in the honours program should apply by September of their third year of study. The honours and masters preliminary program has two components, coursework, and a thesis. For the coursework component, students are required to complete the equivalent of 60 credit points of fourth year units. Coursework counts for 50% of the final honours assessment. The units approved for the honours course (area 1) will be chosen from a variety of disciplines according to the student's area of specialisation, and subject to approval by the Greek Studies Honours Coordinator and the Honours Coordinator of the other discipline(s) concerned.

For the research component, students are required to complete a 12000 to 15000-word thesis on an approved topic under the guidance of an approved supervisor. The thesis is to be submitted for marking during the second semester and it counts for 50% of the final honours assessment.

Area 2: Modern Greek studies

This area combines the study of the spoken and written language of contemporary Greece with the study of literature, history, society, and culture. First year units introduce students to the broader context of Modern Greek culture and society while later-year units place greater emphasis on competence in the language by examining works of literature in the original Greek. Language units are taught at a variety of levels for beginners, intermediate and advanced learners, as well as for native speakers of Modern Greek. Students may participate in a study abroad program in either Greece or Cyprus.

Units also prepare students for a variety of career paths including teaching, translating, interpreting, health, banking, tourism, and related industries in Australia and within the European Union.

Programs of study

Students who major in Modern Greek studies must complete a minimum of 130 credit points from the list below, including at least 60 credit points at third year level. Depending on students' knowledge of Modern Greek language, this total of credit points must include one of the following sequences of core units.

Advanced: students who have passed VCE Modern Greek or its equivalent will complete:

- the two language units for advanced students (GST1ADA and GST1ADB), and
- four of the core units from the list below including two at third year level.

These students will complete one other unit at third year level from the list below.

Beginners: students with no knowledge of Modern Greek will complete the six language units for beginners (GST1BEA, GST1BEB, GST2BEA, GST2BEB, GST3BEA, and GST3BEB).

These students will complete one other unit at third year level from the list below.

Intermediate: Students with intermediate competence in Modern Greek but less than is required to pass VCE Modern Greek will complete:

- the four language units for intermediate students (GST1INA, GST1INB, GST2INA and GST2INB), and
 - two of the core units from the list below at third year level.
- These students will complete one other unit at third year level from the list below.

In addition, students are strongly advised to take the unit EST1GAB Greece and the Balkans in the 20th Century (15 credit points).

Important notice: not all of the units listed below will be available every year. See the unit lists for the specific disciplines, where units unavailable in 2008 will be noted.

Teaching period	Unit title	Unit code
First year units (15 credit points)		
TE-SEM-1	Greek Advanced 1A	GST1ADA
TE-SEM-1	Greek Beginners 1A	GST1BEA
TE-SEM-1	Greek Intermediate 1A	GST1INA
TE-SEM-1	Greece and the Balkans in the 20th Century	EST1GAB
TE-SEM-2	Greek Advanced 1B	GST1ADB
TE-SEM-2	Greek Beginners 1B	GST1BEB
TE-SEM-2	Greek Intermediate 1B	GST1INB
TE-SEM-2	The Nature of Language and Communication B	LIN1NLB
Second year units (20 credit points)		
TE-SEM-1	Greek Beginners 2A	GST2BEA
TE-SEM-1	Greek Intermediate 2A	GST2INA
TE-SEM-2	Greek Beginners 2B	GST2BEB
TE-SEM-2	Greek Intermediate 2B	GST2INB
Second or third year units (20 credit points)		
TE-SEM-1	Ethnic and Civil Conflict	EST2ECC/EST3ECC
TE-SEM-1	Formal Standard Greek ^{1,2}	GST2FSG/GST3FSG
TE-SEM-1	Greek Immigrants in Australia ²	GST2GIA/GST3GIA
TE-SEM-1	Varieties of Modern Greek ²	GST2VMG/GST3VMG

Third year units (20 credit points)		
TE-SEM-1	Greek Beginners 3A	GST3BEA
TE-SEM-1	Reading Course A	GST3RCA
TE-SEM-2	Greek Beginners 3B	GST3BEB
TE-SEM-2	Reading Course B	GST3RCB
TE-SEM-S	Reading Course C	GST3RCC
TE-SEM-2	Translation: legal and medical ^{1,2}	GST3TLM

Key: ¹ Not available in 2008.

² Core unit (see rules for advanced and intermediate students above).

Honours

Students who fulfil the requirements for a major in Greek studies (area 2, Modern Greek studies) and who perform well in their work (at least a B average in Modern Greek units) are strongly encouraged to enrol in the honours program at fourth year level. Students who wish to enrol in the honours program should apply by September of their third year of study. The honours and masters preliminary program has two components, coursework, and a thesis. For the coursework component, students are required to complete the equivalent of 60 credit points of fourth year units. A list of units offered is available from the Greek Studies Honours Coordinator. Coursework counts for 50% of the final honours assessment. For the research component, students are required to complete a 12000 to 15000-word thesis on an approved topic under the guidance of an approved supervisor. The thesis is to be submitted for marking during the second semester and it counts for 50% of the final honours assessment.

Area 3: Modern Mediterranean studies

This area of specialisation traces the evolution of the modern Mediterranean over the course of four centuries. It aims to provide a historical perspective on the ways in which the formerly unified centre of European civilisation broke apart into the very different

regions that characterise it today: southern Europe, eastern Mediterranean, and North Africa. Through the study of the region's history, politics, economies, societies and cultures, students investigate aspects of continuity and change in the Mediterranean as well as the development of the divide between southern and northern Europe and between the two Mediterranean shores.

The wide range of available units from a large number of disciplines allows students the possibility to pursue their individual interests in a particular region of the Mediterranean while studying several major themes in the history of the modern world. Such themes include: nation building in Europe; the experiences of Fascism, Nazi occupation, communism and civil wars; transitions to democracy and modernisation; Europe's Americanisation, Europeanization and globalisation; the impacts of colonialism and decolonisation in Europe and in Africa; mass migrations; and human rights, women's rights, minority rights and their impact on states, societies and cultures. Central to this area is the objective to provide students with the opportunity of professional development by acquiring a number of practical skills, such as language, oral communication, academic writing, and data analysis. Acquisition of these skills will enhance students' employment possibilities in the Australian public and private sectors, the European Union, international organisations, research institutions and the media. It is for this reason that students are highly encouraged to select as many of the second and third year units listed below as possible.

Programs of study

Students who wish to major in modern Mediterranean studies must complete a minimum of 130 credit points from the schedule below (including the three core units), of which:

- 30 credit points must consist of units in Modern Greek language, to be taken at any level and normally before the beginning of third year (refer also to the entry for Modern Greek studies above), and
- At least 60 credit points must be at third year level (see second/third year unit list below).

Highly recommended: students are highly recommended to undertake at least 30 credit points in Spanish (including Catalan, Galician and Portuguese), Italian or French, which can be taken at any level and normally before the beginning of third year. Refer to Spanish, Italian studies and French in this *Handbook* for details regarding prerequisites.

Important notice: Not all of the units listed below will be available every year. See the unit lists for the specific disciplines, where units unavailable in 2008 will be noted.

Unit title	Unit code
Core units	
Greece and the Balkans in the Twentieth Century	EST1GAB
Europe Transformed	HIS2EUT/HIS3EUT
Ethnic and Civil Conflict in Southern Europe and Cyprus	EST2ECC/EST3ECC

Transterritorial Hellenism: a journey through some sites	EST2TTH/EST3TTH
The World since 1945	HIS2WOR/HIS3WOR

Key: ¹ Not available in 2008.

Honours

Students who fulfil the requirements for a major in Greek studies (area 3, modern Mediterranean studies) and who perform well in their work (at least a B average in their core units) are strongly encouraged to enrol in the honours program at fourth year level. Students who wish to enrol in the honours program should apply by September of their third year of study. The honours and masters preliminary program has two components: coursework and a thesis. For the coursework component, students are required to complete the equivalent of 60 credit points of fourth year units. Coursework counts for 50% of the final honours assessment. The units approved for the honours course (area 3) will be chosen from a variety of disciplines according to the student's area of specialisation, and subject to the approval of the Greek Studies Honours Coordinator and the Honours Coordinator of the discipline(s) concerned.

For the research component, students are required to complete a 12000 to 15000-word thesis on an approved topic under the guidance of an approved supervisor. The thesis is to be submitted for marking during the second semester and it counts for 50% of the final honours assessment.

A full description of these units (including the unit name, unit code, credit points, campus/location, unit coordinator, class requirements, assessment, prerequisites, and readings) appears at the end of each discipline entry. A full description of GST units appears below. For the most recent descriptions of all units, please access the unit database at www.latrobe.edu.au/udb_public.

UNIT DESCRIPTIONS

ANG1AMC ANCIENT MEDITERRANEAN CULTURE – THE GREEK ACHIEVEMENT (15. CPs Sem. TE-SEM-2 BU.) *Dr Despina Michael*

In this unit, students are introduced to the diversity of the ancient Greek achievement, which has exercised a fundamental and continuing influence upon later European literature and culture. Several of the following aspects are treated, usually focusing on material from the 5th century BC. Literature of various genres (epic, tragedy, comedy, etc), philosophy, art, history, architecture, religion, mythology. A variety of sources are treated to enable students to build up a picture of Greek society as a whole. Texts are read in translation and students are encouraged to consider certain questions of method, (for example, historical versus literary evidence) in dealing with the study of a culture removed in time and nature from our own.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: One 2000-word essay (40%), one 1000-word tutorial paper (30%), one 1000-word tutorial paper (30%)

Prescribed Reading:

Homer *The Iliad*. Trans. R. Fagels, Penguin.
 Thucydides *The Peloponnesian war* Trans. R. Warner, Penguin 1954.
 Euripides *The Bacchae and other plays* Penguin
 Plato *The republic* Penguin
 Aristophanes *The wasps; the poet and the women; the frogs* trans. D. Barrett, Penguin 1964.

Recommended Reading:

Jones, P. V. et. al. *The world of Athens* CUP 1984.

ANG1BEA ANCIENT GREEK BEGINNERS 1A (15 CPs Sem. TE-SEM-1 BU.)

Ms Dimitra Petrelli

This is an introduction to the ancient Greek language. The emphasis is upon learning to read the language with confidence and fluency. Texts deal with aspects of the historical and cultural world of the Greeks, who have exercised a major influence on European traditions. Ancient Greek will be of interest to those studying ancient religious traditions, philosophy, history, art history, linguistics, literature, and Modern Greek.

Class requirements: One 1-hour lecture and one 2-hour workshop per week.

Assessment: One 1-hour test (20%), weekly translation exercises (30%), one 2-hour test (50%)

Prescribed Reading:

Balme, G. and Lawall, G. *Athenaze* Vol.1 OUP 1995.

ANG1BEB ANCIENT GREEK BEGINNERS 1B (15 CPs Sem. TE-SEM-2 BU.)*Ms Dimitra Petrelli*

This unit builds upon Ancient Greek 1A and introduces further features of Greek grammar. The texts to be read will expand knowledge of vocabulary and acquaint students with other features of the Hellenic thought-world.

Prerequisite: ANG1BEA.

Class requirements: One 1-hour lecture and one 2-hour workshop per week.

Assessment: One 1-hour test (20%), weekly translation exercises (30%), one 2-hour test (50%)

Prescribed Reading:

Balme, G. and Lawall, G. *Athenaze* Vol.1 OUP 1995.

ANG1WAG WOMEN IN ANCIENT GREEK DRAMA (15 CPs Sem. TE-SEM-1 BU.)

Coordinator to be advised

Not available in 2008

ANG2HHH FROM HOMER TO HOLLYWOOD: THE PERENNIAL GREEK HERO/HEROINE (20 CPs Sem. TE-SEM-2 BU.)

Coordinator to be advised

This unit is offered at third year level also.

In this unit, the definition of heroism is traced through successive phases of Greek tradition from antiquity to the present day using a variety of sources ranging from ancient/ medieval epics to modern heroic ballads and popular songs, from theatre and novels to film, comics and cartoons. Students select Greek heroes and heroines for in-depth study from the range surveyed, including warriors of the Homeric epics, tragic and comic heroes/heroines of ancient Greek theatre, Alexander the Great, Digenis Akritas and the legendary defenders of medieval Eastern Christianity, the social bandits, nationalist rebels and militia-men of the 15th to 19th centuries, the low-life 'macho' of 20th century urban Greece, the Greek version of the Marxist guerrilla, and the Hollywood reincarnations of Odysseus, Herakles and others.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: One 2000-word essay (40%) Third year students will be expected to show a greater achievement of discipline specific skills in their written work than second year students., one 1500-word tutorial paper (30%), one 1500-word tutorial paper (30%)

Prescribed Reading:

Homer. *The Iliad* Penguin (trans. R. Fagels)

Homer. *The Odyssey* Penguin (trans. R. Fagels)

ANG2INC ANCIENT GREEK INTERMEDIATE 2C (20. CPs Sem. TE-SEM-1 BU.)

Ms Maria Herodotou

This unit is offered at third year level also.

In this unit, students are introduced to texts of major literary importance in the original Greek. The focus will be on one prose work, Book 2 of History of the Peloponnesian War of Thucydides, and one work in verse, The Birds of Aristophanes. Supplementary extracts from other authors will be also be studied, and knowledge of Greek grammar will be reinforced and progressively enhanced.

Prerequisite: ANG1BEB or equivalent.

Class requirements: One 1-hour lecture and one 2-hour workshop per week.

Assessment: One 30-minute test (15%), class exercises (1000-words equivalent) (20%), one 2-hour test (35%), one 1500-word essay (30%). Third year students will be expected to show a greater achievement of discipline specific skills in their written work than second year students

Prescribed Reading:

Liddell, H.G. and Scott, R. *Greek-English lexicon* Abridged edn. OUP

ANG2IND ANCIENT GREEK INTERMEDIATE 2D (20. CPs Sem. TE-SEM-2 BU.)

Ms Maria Herodotou

This unit is offered at third year level also.

In this unit, students are introduced to texts of major literary importance in the original Greek. The works for special study will be extracts from selected Greek historians, orators, and playwrights, as well as non-literary sources, especially inscriptions.

Prerequisite: ANG2INC or equivalent.

Class requirements: One 1-hour lecture and one 2-hour workshop per week.

Assessment: One 30-minute test (15%), class exercises (1000-words equivalent) (20%), one 2-hour test (35%), one 1500-word essay (30%). Third year students will be expected to show a greater achievement of discipline specific skills in their written work than second year students

Preliminary Reading:

Liddell, H.G. and Scott, R. *Greek-English lexicon* Abridged edn. OUP

ANG3HHH FROM HOMER TO HOLLYWOOD: THE PERENNIAL GREEK HERO/HEROINE (20 CPs Sem. TE-SEM-2 BU.)

Coordinator to be advised

See ANG2HHH for full unit description.

ANG3INC ANCIENT GREEK INTERMEDIATE 2C (20. CPs Sem. TE-SEM-1 BU.)

Ms Maria Herodotou

See ANG2INC for full unit description.

ANG3IND ANCIENT GREEK INTERMEDIATE 2D (20. CPs Sem. TE-SEM-2 BU.)

Ms Maria Herodotou

See ANG2IND for full unit description.

GST1ADA GREEK ADVANCED 1A (15. CPs Sem. TE-SEM-1 BU.)

Ms Maria Herodotou

In this unit, Year 12 level Greek skills are consolidated and extended through exercises in understanding a variety of authentic spoken and written materials and through practice at speaking and writing with due attention to grammatical accuracy and appropriate usage. The materials used also serve as an introduction to Greek society and culture and aspects of Modern Greek history.

Prerequisite: VCE Modern Greek or equivalent.

Class requirements: One 1-hour lecture and one 2-hour practical language class per week.

Assessment: Regular written and oral assignments (1000 words equivalent) (30%), one 500-word project (15%), one 2-hour written test (40%), one oral/aural test (15%)

Prescribed Reading:

Class course book and other material provided in class

Panagopoulou, E. and Hatzipanayiotidi, A.

Ellinika yia prohorimenous Triandafyllidis Foundation 1997.

Stavropoulos, D. and Hornby, A. *Oxford English-Greek learner's dictionary* OUP 1982.

Stavropoulos, D. *Oxford Greek-English learner's dictionary* OUP 1988.

GST1ADB GREEK ADVANCED 1B (15. CPs Sem. TE-SEM-2 BU.)

Ms Maria Herodotou

Students' oral and literacy skills in Greek are consolidated and extended through exercises in understanding a variety of authentic spoken and written materials and through practice at speaking and writing with due attention to grammatical accuracy and appropriate usage. The materials used also serve as an introduction to Greek society and culture and aspects of Modern Greek history.

Prerequisite: GST1ADA or equivalent.

Class requirements: One 1-hour lecture and one 2-hour practical language class per week.

Assessment: Regular written and oral assignments (1000-words equivalent) (30%), one 500-word project (15%), one 2-hour written test (40%), one oral-aural test (15%)

Prescribed Reading:

Panagopoulou, E. and Hatzipanayiotidi, A. *Ellinika yia prohorimenous* Triandafyllidis Foundation 1997.

Stavropoulos, D. and Hornby, A. *Oxford English-Greek learner's dictionary* OUP 1982.

Stavropoulos, D. *Oxford Greek-English learner's dictionary* OUP 1988.

GST1BEA GREEK BEGINNERS 1A (15. CPs Sem. TE-SEM-1 BU.)

Ms Maria Herodotou

This unit is for complete beginners and allows students to acquire practical skills in understanding and expressing basic information, such as personal details, needs, wishes, likes and dislikes in speech and writing. Relevant aspects of contemporary Greek society and culture are also introduced. The emphasis throughout is on practice at

listening, reading, speaking and writing Greek in everyday situations, with various audio-visual aids being used.

Class requirements: Two 2-hour practical language classes per week.

Assessment: Regular assignments and class exercises (35%), two 1-hour written tests (40%), one oral-aural test (25%)

Prescribed Reading:

Bien, P. et al *Greek today. A course in the modern language and culture* Dartmouth College Press

Stravopoulos, D. and Hornby, A. *Oxford English-Greek learner's dictionary* OUP 1982

Stavropoulos, D. *Oxford Greek-English learner's dictionary* OUP 1988

GST1BEB GREEK BEGINNERS 1B (15. CPs Sem. TE-SEM-2 BU.) Ms Maria Herodotou

This unit is a continuation of GST1BEA with students learning to handle common interpersonal transactions in Greek with confidence as well as to understand and produce (in speech and writing) simple descriptions, narrations and expressions of attitudes and opinions. Relevant aspects of contemporary Greek society and culture are also introduced. The emphasis continues to be on practice at listening, reading, speaking and writing Greek in everyday situations, but students are also introduced to the structure of the language.

Prerequisite: GST1BEA or equivalent.

Class requirements: Two 2-hour practical language classes per week.

Assessment: Regular assignments and class exercises (30%), two 1-hour written tests (40%), two oral-aural tests (30%)

Prescribed Reading:

Bien, P. et al *Greek today. A course in the modern language and culture.* Dartmouth College Press

Stravopoulos, D. and Hornby, A. *Oxford English-Greek learner's dictionary* OUP 1982

Stavropoulos, D. *Oxford Greek-English learner's dictionary* OUP 1988

GST1INA GREEK INTERMEDIATE 1A (15. CPs Sem. TE-SEM-1 BU.) Ms Dimitra Petrelli

Students learn to speak and write in Greek about a wide range of aspects of Modern Greek culture and society in an informed and coherent manner and to interpret short literary texts. Vocabulary and knowledge of grammar are systematically extended in the course of these readings and discussions.

Prerequisite: Admission is based on a placement test prior to enrolment. This unit is not for students who have attempted VCE Modern Greek. Such students must enrol for GST1ADA.

Class requirements: Three 1-hour practical language classes per week.

Assessment: Regular assignments and class exercises (30%), two 1-hour written tests (40%), one oral-aural test (30%)

Preliminary Reading:

Dimitra, D. and Papaheimonou, M. *Greek now 2+2 Nostos*,

Prescribed Reading:

Stavropoulos, D. and Hornby, A. *Oxford English-Greek learner's dictionary* OUP 1982.

Stavropoulos, D. *Oxford Greek-English learner's dictionary* OUP 1988.

GST1INB GREEK INTERMEDIATE 1B (15. CPs Sem. TE-SEM-2 BU.) Ms Dimitra Petrelli

Students learn to speak and write in Greek about a wide range of aspects of Modern Greek culture and society in an informed and coherent manner and to interpret short literary texts. Vocabulary and knowledge of grammar are systematically extended in the course of these readings and discussions.

Prerequisite: GST1INA or equivalent. This unit is not for students who have attempted VCE Modern Greek.

Class requirements: Three practical language classes per week.

Assessment: regular assignments and class exercises (30%), one 500-word essay in Greek (20%), one 1-hour written test (25%), one oral-aural test (25%)

Prescribed Reading:

Dimitra, d. and Papaheimonou, M. *Greek now 2+2 Nostos*

Stavropoulos, D. and Hornby, A. *Oxford English-Greek learner's dictionary* OUP 1982.

Stavropoulos, D. *Oxford Greek-English learner's dictionary* OUP 1988.

GST2BEA GREEK BEGINNERS 2A (20. CPs Sem. TE-SEM-1 BU.) Ms Dimitra Petrelli

Students learn to discuss issues relating to contemporary Greek and Australian society in Greek, extending their vocabulary and knowledge of grammar. Oral and literacy skills are developed through use of news media reports, magazine articles, and film.

Prerequisite: GST1BEB or equivalent.

Class requirements: Three 1-hour practical language classes per week.

Assessment: Regular assignments and class exercises (30%), two 1-hour written tests (40%), two oral-aural tests (30%)

Prescribed Reading:

Dimitra, D. and Papaheimonou, M. *Greek now 2+2 Nostos*

Stavropoulos, D. and Hornby, A. *Oxford English-Greek learner's dictionary* OUP 1982.

Stavropoulos, D. *Oxford Greek-English learner's dictionary* OUP 1988.

GST2BEB GREEK BEGINNERS 2B (20. CPs Sem. TE-SEM-2 BU.) Ms Dimitra Petrelli

Students learn to talk and write in Greek about a wide range of aspects of Modern Greek culture and society in an informed and coherent manner and to interpret short literary texts. Vocabulary and knowledge of grammar are systematically extended in the course of these readings and discussions.

Prerequisite: GST2BEA or equivalent.

Class requirements: Three 1-hour practical language classes per week.

Assessment: regular assignments and class exercises, (20%), two 500-word essays in Greek, (20%), two 1-hour written tests, (40%), two oral-aural tests, (20%)

Prescribed Reading:

Dimitra, D. and Papaheimonou, M. *Greek now 2+2 Nostos*

Stavropoulos, D. and Hornby, A. *Oxford English-Greek learner's dictionary* OUP 1982.

Stavropoulos, D. *Oxford Greek-English learner's dictionary* OUP 1988.

GST2GIA GREEK IMMIGRANTS IN AUSTRALIA (20. CPs Sem. TE-SEM-1 BU.) Professor Tasos Tamis

This unit is offered at third year level also.

In this unit aspects of the history of pre- and post-World War II settlement of Greeks in Australia are studied, such as employment and living conditions, the development of Greek communities, the role of the Greek Church, the provision of Greek religious and language instruction, the creation of the Greek language press and electronic media, and the entry of Greeks into the mainstream of Australian society, culture and politics. The prospects for the future of the Greek-Australian community are also considered.

Prerequisite: GST1ADB or GST1INB or equivalent.

Class requirements: One 1-hour lecture and one 2-hour workshop per week.

Assessment: One 1000-word tutorial paper, (20%), one 2000-word essay, (40%), one 2-hour test, (40%)

Prescribed Reading:

Kapardis, A. and Tamis, T. *Australiotes Hellenes* River Seine Press 1988.

Gilchrist, H. *Australians and Greeks* Vols. 1, 2 and 3, Halstead Press 1992 to 2004

GST2GPP GREEK FOR PROFESSIONAL PURPOSES (20. CPs Sem. TE-SEM-2 BU.) *Ms Maria Herodotou*

This unit is offered at third year level also.

In this unit students' ability to use Modern Greek in professional and academic contexts is enhanced by studying material from a range of Greek professional, academic, and scientific literature, broadcasts, and documentaries and through assignments involving practical application of the higher and technical registers of Modern Greek. Professional fields covered include education, law, medicine, social services, science, engineering, trade, banking, accounting, and tourism. Advanced Greek grammar, syntax, and appropriate vocabulary is studied and practised.

Prerequisite: GST1ADB or GST1INB or equivalent.

Class requirements: One 1-hour lecture and one 2-hour practical class per week.

Assessment: regular assignments of up to 1500 words (25%), one 750-word project (15%), one 2-hour written test (40%), one oral-aural test (20%). Third year students will be expected to show a greater achievement of discipline-specific skills in their written work than second year students.

GST2INA GREEK INTERMEDIATE 2A (20. CPs Sem. TE-SEM-1 BU.) *Ms Maria Herodotou*

Students' skills in Greek are consolidated and extended through exercises in understanding a variety of authentic spoken and written materials and through practice at speaking and writing. Due attention is given to grammatical accuracy and appropriate usage. The materials used also serve as an introduction to Greek society and culture and aspects of Modern Greek history.

Prerequisite: GST1INB or equivalent.

Class requirements: One 1-hour lecture and one 2-hour practical language class per week.

Assessment: Regular written and oral assignment (1,250-words equivalent) (25%), one 1000-word project (20%), one oral-aural test (15%), one 2-hour written test (40%)

Prescribed Reading:

Panagopoulou, E. and Hatzipanayiotidi, A. *Ellinika yia prohorimenous* Triandafyllidis Foundation 1997.

Stavropoulos, D. *Oxford Greek-English learner's dictionary* OUP 1988.

GST2INB GREEK INTERMEDIATE 2B (20. CPs Sem. TE-SEM-2 BU.) *Ms Maria Herodotou*

In this unit, students' oral and literacy skills in Greek are consolidated and extended through exercises in understanding a variety of authentic spoken and written materials and through practice at speaking and writing. Due attention is given to grammatical accuracy and appropriate usage. The materials used also serve as an introduction to Greek society and culture and the history of the language question in modern Greece.

Prerequisite: GST2INA or equivalent.

Class requirements: One 1-hour lecture and one 2-hour practical language class per week.

Assessment: Regular written and oral assignments (1,250-words equivalent) (25%), one 1000-word project (20%), one 2-hour written test (40%), one oral-aural test (15%)

Prescribed Reading:

GST2ITG ISSUES IN TEACHING GREEK (20. CPs Sem. TE-SEM-2 BU.) *Ms Maria Herodotou*

This unit is offered at third year level also.

Not available in 2008

GST2TGL TWENTIETH-CENTURY GREEK LITERATURE (20. CPs Sem. TE-SEM-2 BU.) *Ms Maria Herodotou*

This unit is offered at third year level also.

In this unit, students are introduced to selected examples of Greek poetry and short fiction written in the twentieth century and develop techniques for their interpretation and analysis. The selections represent the major thematic preoccupations of Greek writers during this period and their connection with historical, political, and social developments is explored, as are the characteristics of the different genres and styles of writing. Texts studied include poetry by Cavafy, Varnalis, Seferis, Ritsos, Elytis and Charalambides and prose by Doucas, Myrivilis, Chatzis, Millieux, Samarakis, Vasilikos, Ioannou, and Philippou-Pierides.

Prerequisite: GST1ADB or GST1INB or equivalent.

Class requirements: One 1-hour lecture and one 2-hour tutorial per week.

Assessment: One 1000-word tutorial paper (25%), one 2000-word essay (50%), one 2-hour test (25%). Third year students will be expected to show a greater achievement of discipline-specific skills in their written work than second year students.

GST2VMG VARIETIES OF MODERN GREEK (20. CPs Sem. TE-SEM-1 BU.)

Ms Maria Herodotou

This unit is offered at third year level also.

In this unit, students learn to identify the characteristics of phonology, morphology, syntax, and lexicon, which distinguish informal, colloquial, and non-standard varieties of Modern Greek from the formal standard language. Theory of linguistic variation, including differences between spoken and written forms, informal and formal style/registers, and regional/social dialects are studied with specific reference to Modern Greek. Contemporary issues such as the impact on the Greek language of Globalisation, information technology and Political Correctness are also considered. Appropriate use of the varieties of spoken and written Greek is practised with due attention to grammar and usage.

Prerequisite: GST1ADB or GST1INB or equivalent.

Class requirements: One 1-hour lecture and one 2-hour practical language class per week.

Assessment: Regular assignments up to 1500-words (30%), one 750-word project (20%), one 2-hour written test (30%), one oral-aural test (20%). Third year students will be expected to show a greater achievement of discipline-specific skills in their written work than second year students.

GST3RCA READING COURSE A (20. CPs Sem. TE-SEM-1 BU.) *Ms Maria Herodotou*

A limited number of students studying Modern Greek may be permitted to take an individual reading subject. After consultation with an appropriate member of staff who agrees to act as supervisor, students wishing to take this unit should submit to the Program coordinator details of their proposed topic for approval, including bibliography. Approval is not given if there is substantial overlap between the proposed topic and the content of an existing subject. Students may enrol in this unit only if they have already completed all other optional subjects available.

Prerequisite: Program coordinator's approval.

Class requirements: Regular supervision sessions as arranged for each student.

Assessment: Two tutorial reports (20%), one 1000-word paper (20%), two 1500-word essays (60%)

Hindi

Program Coordinator: Dr Peter Friedlander.

Hindi is the national language of India spoken by around half a billion people in India and around the world today. It reflects the culture of India as its core is a fusion of elements from Sanskrit (the classical language of ancient India) with Persian and Arabic vocabulary, which represent the Islamic contribution to Indian culture. Hindi adds to this recipe a seasoning of borrowings from English, Portuguese and other European languages. What is more, today Hindi is the most popular language of news media in India, with more readers of Hindi papers, and more viewers of Hindi TV, than any other Indian language. On top of all of this Hindi is really quite accessible for learners with a script which is easy to learn, and beautiful to write, and a grammar which is no more complicated than that of some European languages. All of this makes Hindi the ideal language unit for students who want to study Indian culture, religion, society, media or politics.

The first two first year units are introductory units designed to teach a basic level of communicative competence in modern Hindi, emphasising learning the language in its appropriate social context. The second year units are intermediate level units, which introduce students to reading modern Hindi short stories and the registers of Hindi used in news media such as newspapers and magazines. In addition to lectures on basic Hindi grammar, there are conversation classes and translation exercises from Hindi to English and vice-versa.

Teaching period	Unit title	Unit code
First year units (15 credit points)		
TE-SEM-1	Beginning Hindi 1A	HND1BEA
TE-SEM-2	Beginning Hindi 1B	HND1BEB
Second year units (20 credit points)		
TE-SEM-1	Beginning Hindi 2A	HND2BEA
TE-SEM-2	Beginning Hindi 2B	HND2BEB

A full description of these units (including the unit name, unit code, credit points, campus/location, unit coordinator, class requirements, assessment, prerequisites, and readings) appears below. For the most recent descriptions of all units, please access the unit database at www.latrobe.edu.au/udb_public.

UNIT DESCRIPTIONS

HND1BEA BEGINNING HINDI 1A (15 CPs Sem. TE-SEM-1 BU.) *Dr Peter Friedlander*

This unit is designed for people with little or no previous knowledge of Hindi. Primary emphasis will be placed on developing the proficiency necessary to converse with native speakers on a variety of subjects. The Hindi script is introduced and topics covered include asking questions, forms of greetings, shopping, introducing one's self, train travel, family life, health issues, village life, planning trips, studying in college and popular media. At the end of this unit, you should be able to read and write basic Hindi and take part in simple conversations.

Incompatible unit: HND1DBA

Class requirements: One 1-hour lecture and two 1-hour tutorials per week.

Assessment: Three written and oral assignments (2000-words equivalent) (50%), one 10-minute oral examination (10%), one 1-hour written examination (30%), one 500-word character exercise (10%)

Prescribed Reading:

Friedlander, P. *Beginning Hindi 1* La Trobe University 2003

McGregor, R.S. *The Oxford Hindi-English dictionary* OUP 1993

HND1BEB BEGINNING HINDI 1B (15 CPs Sem. TE-SEM-2 BU.) *Dr Peter Friedlander*

This unit continues from HND1BEA. At the end of this unit students should be able to read and write everyday Hindi and understand and participate in conversations on topics such as people's occupations, going on holiday, visiting sacred sites, leisure and entertainment, and Indian food and customs.

Prerequisite: HND1BEA.

Incompatible unit: HND1DBB

Class requirements: One 1-hour lecture and two 1-hour tutorials per week.

Assessment: Three written and oral assignments (2000-words equivalent) (50%), one 10-minute oral examination (10%), one 1-hour written examination (30%), one 500-word diary exercise (10%)

Prescribed Reading:

Friedlander, P. *Beginning Hindi 2* La Trobe University 2003

Verma, S. K. *Oxford English-Hindi dictionary* OUP 2003

McGregor, R.S. *The Oxford Hindi-English dictionary* OUP 1993

HND2BEA BEGINNING HINDI 2A (20 CPs Sem. TE-SEM-1 BU.) *Dr Peter Friedlander*

This unit is only offered by distance mode

This unit is based around developing the skills you need to read modern Hindi texts. By using texts as exemplars of contemporary Hindi language and perspectives on South Asian society, the unit will enable students to access a wide range of modern Hindi usages. We will read stories by well-known authors on topics that include the partition of India and Pakistan, traditional urban and rural lifestyles, and modern perceptions of the caste system. We will also explore issues related to vocabulary, usage, and idiom. In addition, the unit will focus on the development of active language skills in both oral and written forms.

Prerequisite: HND1BEB.

Class requirements: The distance-learning package containing written material is divided into 13 sessions, each the equivalent of a 3-hour classroom session. Academic supervision is by e-mail, phone, fax, or post.

This unit is not available for Study Abroad students.

Assessment: two 800-word written and oral assignments (40%), one 10-minute oral examination (10%), one 2-hour written examination (30%), one 800-word written and oral assignment (20%)

Prescribed Reading:

Chaturvedi, M. and Tiwari, B (Eds) *A practical Hindi-English dictionary* National Publishing House 1994

Bulke, K. *An English-Hindi dictionary* S. Cand and Co. 1984

Friedlander, P. *Open Learning Australia course Hindi 12* La Trobe University 1999

HND2BEB BEGINNING HINDI 2B (20 CPs Sem. TE-SEM-2 BU.) *Dr Peter Friedlander*

This unit is only offered by distance mode

This unit is based around reading modern Hindi news media. The main texts will include articles about topics including pollution, politics, technology, terrorism, communal issues, and sports coverage. We will use these texts to explore issues related to the parallel Sanskrit and Urdu vocabularies of Hindi, the structure of complex sentences and the use of idioms and proverbs. In addition, the unit will focus on the development of active language skills in both oral and written forms.

Prerequisite: HND2BEA.

Class requirements: The distance-learning package containing written material is divided into 13 sessions, each the equivalent of a 3-hour classroom session. Academic supervision is by e-mail, phone, fax, or post.

This unit is not available for Study Abroad students.

Assessment: two 800-word written and oral assignments (40%), one 10-minute oral examination (10%), one 2-hour written examination (30%), one 800-word written and oral assignment (20%)

Prescribed Reading:

Chaturvedi, M. and Tiwari, B. (Eds) *A practical Hindi-English dictionary* National Publishing House 1994

Bulke, K. *An English-Hindi dictionary* S. Cand and Co. 1984

Friedlander, P. *Open Learning Australia course Hindi 22* La Trobe University 1999

History

Program Coordinator: Dr Richard Broome (sem. 1), Dr Katie Holmes (sem. 2)

The History Program offers a wide range of units covering aspects of European, British, North American, Latin American, and Australian history, as well as some units concentrating on the history of ideas, society, or culture rather than on particular regions or countries. It is therefore possible for students to select a major that allows them to concentrate to a considerable extent on certain areas (for example, European, American or Australian history) or themes (for example, culture contact, and social history, revolutionary movements in modern history, gender, and religion). Other relevant units, which may fit into such majors, are available in other programs in the faculty. The History Program also specialises in colonial, post-colonial histories and transnational perspectives.

Prerequisites

Students who have passed only one semester unit of first year history can enrol in later-year units with the permission of the program coordinator (a C grade or better will normally be required).

All units are offered subject to the availability of appropriate staffing and minimum enrolments. Depending on staff availability, it may also be necessary to set quotas on some units.

Programs of study

Those qualifying for the degree with a major in history must include at least 130 credit points, of which 30 credit points are normally at first year level, 40 credit points at second year level and 60 credit points at third year level. However, students may take up to 205 credit points of history units as part of their degree.

Those who think they might wish to pursue an honours degree in history are encouraged to take another 20 credit points of history in their second and third years.

Teaching period	Unit title	Unit code

Key: ¹ Not available in 2008.

² A special honours unit, students must apply to undertake this unit.

Other units approved for a major in history

Students qualifying for a degree by taking a major in history should note that no more than 15 credit points at first year and no more than 20 credit points at second and third year of units from this category might be credited towards a major in history.

Unit title	Unit code
First year units (15 credit points)	
Introduction to Asia: Japan and Indonesia	AST1IJI
Introduction to Asia: China and India	AST1ICI
Second or third year units (20 credit points)	
Historical Archaeology in Australia	ARC2HAA/ARC3HAA
Radio Theory and History	MST2RTH/MST3RTH

Honours

Coordinator: Dr Adrian Jones (Semester 1), Dr Tim Minchin (Semester 2).

An honours degree in history requires intensive study of the discipline during both third and fourth years. Separate honours studies commence in third year. To be eligible to apply for the Honours year students are normally expected to have completed at least 130 credit points of history units with a B grade average. While it is strongly recommended that students who wish to undertake Honours complete the special, third year honours preparation unit HIS3RHB, it is not compulsory to take the unit for admission to Honours. Students are encouraged to take at least 150 credit points of history units. Before the end of their second year, students who wish to enter the honours program should contact the Honours Coordinator. Students are advised to consult beforehand the history lecturers and tutors with whom they are studying, as a high standard is expected in the course.

History honours at fourth year consists of two components of coursework, each of which counts for 20% of the final mark; an examination in the general seminar which counts for 10% of the final mark; and a thesis of 12000 to 15000 words, which counts for 50% of the final mark.

A full description of these units (including the unit name, unit code, credit points, campus/location, unit coordinator, class requirements, assessment, prerequisites, and readings) appears at the end of each discipline entry. A full description of HIS units appears below. For the most recent descriptions of all units, please access the unit database at www.latrobe.edu.au/udb_public.

UNIT DESCRIPTIONS

HISTACA ANCIENT CIVILISATIONS (15 CPs Sem. TE-SEM-2 BU.) Dr Anne Gardner

Students will explore the historical development of some of the civilisations of the Ancient near East, Egypt, Greece, and Rome, within the period 3500 B.C.E. to 600 C.E., through the study of documents, art, and archaeological evidence. Such societies, rich in myth and legend, have often been considered the cradle of western civilisation. The major focus will be upon the characteristics and achievements – political, cultural, social, artistic, and religious – of these societies. Interaction between these civilisations, which has consequences for western society, will be considered. Students will also acquire an understanding of the context within which early Judaism, Christianity, and early Islam developed.

Class requirements: Two 1-hour lectures, one 1-hour film, and one 1-hour tutorial per week.

Assessment: One 1500-word tutorial paper (30%), tutorial participation (10%), final 1-hour examination (30%), one 1500-word essay (30%)

HIS1CAM CONQUEST OF THE AMERICAS: AZTECS, INCAS, MAYANS, SPANIARDS (15. CPs Sem. TE-SEM-1 BU.) *Dr Barry Carr, Dr Claudia Haake*

In this unit, students will examine aspects of Indian societies (primarily the Aztecs, Mayans, and Incas) on the eve of the European conquest of the Americas. The conquest will be explored in terms of the impact on native societies and attempts to resist and/or modify that impact. Myths and legends surrounding the clash of cultures will also be studied, as well as attempts by colonial and national governments to deal with indigenous people and their struggle to defend their lands and cultures in the face of new market opportunities generated by European interest in land, minerals, coffee, and sugar.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: One weekly quiz (1000-words equivalent (25%)), one 1000-word bibliographical analysis (25%), one 2000-word research essay (50%)

Prescribed Reading:

HIS1DEV GLOBALISATION: THE RISE OF THE MODERN WORLD (15 CPs Sem. TE-SEM-2 BE, BU, SH.) *Dr Robbie Robertson*

Multi-campus unit involving some delivery by video conferencing
 Globalisation is a process, much in the news, by which distant regions are increasingly linked, shaping our lives and affecting the fate of nations. In this unit, students will explore world history, by examining the process by which the wealthy countries expanded into and influenced the rest of the world. Today we think primarily in terms of industry, trade, and technology; in addition, in this unit we take a broader view of globalisation, including the expansion of European customs, laws and attitudes as well as technology.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: Weekly quiz (20%), one 1000-word bibliographic essay (30%), one 2000-word essay (50%)

HIS1MEA MODERN EUROPE A: FROM MONARCHIES TO NATIONS (15. CPs Sem. TE-SEM-1 BE, BU, SH.) *BU: Dr Philip Bull, BU: Dr Adrian Jones, BU: Dr Jennifer Ridden*

In this unit, students study how the old monarchical and paternalist orders of society in Europe were transformed by ideas of liberty, democracy, and nationalism. Initially the focus is upon the values and traditions of the Old Regimes. Students will then trace how these were undermined by the French and Industrial Revolutions. The impact of new ideas of rights, citizenship, nationality, democracy, and equality are the focus of studies of key and contrasting episodes in the history of European nations in the nineteenth century. In these developments can be seen the roots of the political and social crises of the twentieth century.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: Essay/exercises (2000-words equivalent) (60%), one 2-hour examination (40%). Alternatively, students may choose to reverse the percentage weightings of the two assessment components.

Preliminary Reading:

HIS1MEB MODERN EUROPE B: THE TWENTIETH CENTURY (15. CPs Sem. TE-SEM-2 AW, BU, MI.) *BU: Dr Philip Bull, BU: Dr Adrian Jones*

In this unit, students study the turbulent twentieth century in Europe,

beginning with the industrial, national, and imperial rivalries, which culminated in the First World War. The revolutions and revolutionary pressures, which arose out of that war, are examined as a background to the emergence of the ideologies of Fascism and Communism and the totalitarian regimes of Nazism and Stalinism. Post-war European prosperity and integration and the collapse of Communism are studied. Through this unit, students will gain a deeper understanding of the crises, which have characterised European history in the twentieth century.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: Essay/exercises (2000-words equivalent) (60%), one 2-hour examination (40%). Alternatively, students may choose to reverse the percentage weightings of the two assessment components

HIS1MLH MYTH, LEGEND AND HISTORY (15. CPs Sem. TE-SEM-1 BU, MI.) *Dr Diane Kirkby*

From ancient Greece and medieval Britain come some of the best-known names and places in history. Achilles, Troy, Rome, King Arthur, Guinevere, and Robin Hood – all have had glorious stories told about them. Their names have become synonymous with history and have been transmuted into fiction. In this unit, we read these stories and consider the power and attraction of myth in storytelling, literature, art, and film. We examine the archaeological evidence and material culture that support or challenge written texts. We also explore the links between mythic pasts, creation stories, gender, historical legends, and nation building. Just what is the relationship between myth, legend, fiction, and history?

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: One 500-word assignment (15%), one 1000-word assignment (25%), one 1.5-hour examination (40%), two 30-minute short answer tests (20%)

Preliminary Reading:

Grant, M. *The classical Greeks* Phoenix Paperback 1997.

This unit is offered at third year level also.

Not available in 2008

HIS2AAW AUSTRALIANS AT WAR: GENDERED PERSPECTIVES (20 CPs Sem. TE-SEM-2 BU.) *Dr Katie Holmes*

This unit is offered at third year level also.

War has played a crucial role in Australian history. It has also been decisive in shaping understandings of gender relations in the twentieth century western world. In this unit, we will explore the centrality of war and gender in ideas about Australian nationhood, memory, and mythmaking. We will ask questions about the relationships between gender, memory, race, war, and nationalism. These will be discussed with reference to the two world wars, the Vietnam War, the Gulf wars, and recent Peacekeeping forces. The unit will draw on films, literature, memoirs, letters, and diaries and will use the insights provided through cultural and social history, and feminist theory.

Prerequisite: 30 credit points of first year History and/or Gender Sexuality and Diversity Studies.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: One 2500-word research essay (50%), one 2000-word reflective essay (40%), tutorial exercises (500-words equivalent) (10%). Third year students will be expected to show a greater achievement of discipline-specific skills in their written work than second year students

HIS2AGR ANTIQUITY, GENDER AND RELIGION (20 CPs Sem. TE-SEM-1 BU.) *Dr Anne Gardner*

This unit is offered at third year level also.

In this unit students explore the influence of antiquity upon gender in the modern world, Judaism, Christianity and Islam. The role and status of men and women, gods and goddesses in the Ancient Near East and Mediterranean societies, as revealed by archaeological finds and mediated through myths, legends, historical documents and religious writings, are investigated. It will be discovered that some gender inequities are dependant upon dubious textual interpretations, or can be traced back to societies whose contextual framework was very different from our own.

Prerequisite: 30 credit points of History or Gender, Sexuality and Diversity Studies or coordinator's approval.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: One 1500-word tutorial paper (30%), one 2500-word essay (50%), one 1-hour examination (20%). Third year students will be expected to show a greater achievement of discipline-specific skills in their written work than second year students.

HIS2CCP CHARTING THE COLONIAL PACIFIC (20 CPs Sem. TE-SEM-1 BU.)

Dr Tracey Banivanua-Mar

This unit is offered at third year level also.

In this unit students consider at close quarters the nature of colonial relations in the Pacific. Starting with 'first contact' moments on the beaches of islands, we explore how Europeans and Islanders imagined themselves, the world, and their place in it; and end with 'first contact' tourism in the twenty-first century. Attention is paid to exploring the nature of cross-cultural interactions between European settlers, traders, or administrators on the one hand, and indigenous labourers and landowners on the other. While our geographical focus is the Pacific basin, the story of colonialism is told as part of a more global tale of the emergence of race; the Diaspora of Indigenous and colonised peoples; the gendered nature of colonial relations; and the ongoing and often violent negotiations of ownership over land, labour, and space. Students will engage critically with relevant debates about the writing and production of history and the implications of the past in the present.

Prerequisite: 30 credit points of first year history.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: One 1500-word critical essay (30%), one 3000-word research essay (50%), tutorial and/or WebCT-based participation exercises (500 words equivalent) (20%). Third year students will be expected to show a greater achievement of discipline-specific skills in their written work than second year students.

HIS2CWU CIVIL WAR TO CIVIL RIGHTS IN THE USA (20 CPs Sem. TE-SEM-1 BU.) *Dr Glenn Moore*

This unit is offered at third year level also.

In this unit, we explore race relations in the USA from the Civil War of the 1860s through to the origins of the post-World War II civil rights movement. An examination is made of how African-Americans achieved legal equality at the end of the Civil War only to find that slavery was soon replaced by a system of legal segregation that existed across the southern states until the 1960s. Black efforts to fight for racial justice are studied, paying particular attention to important civil rights leaders such as W.E.B. Dubois, Booker T. Washington, Ida B. Wells, and Marcus Garvey.

Prerequisite: 30 credit points of first year History or majoring in North American Studies.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: One 2500-word research essay (50%), one 2500-word research essay (50%)

HIS2EUT EUROPE TRANSFORMED (20 CPs Sem. TE-SEM-1 BU.) *Dr Adrian Jones*

This unit is offered at third year level also.

Cities have played a major role in shaping the modern history of European civilization. In lectures and some tutorials in this unit, we will consider case studies of the history of life and culture in some of the great cities of Europe: East and West, modern and early modern. In tutorials, students will be given the opportunity to pursue one topic in depth. Students can choose from a range of topics on offer.

Prerequisite: 30 credit points of first year history.

Class requirements: One 1-hour lecture and one 2-hour seminar per week.

Assessment: One 1000-word book report (20%), one 1500-word essay (30%), one 2.5-hour examination (50%). Third year students will be expected to show a greater achievement of discipline specific skills in their written work than second year students.

HIS2EUU THE EUROPEAN UNION (20 CPs Sem. TE-SEM-1 AW, BE, BU, MI.)

BU: Dr Stefan Auer, BU: Dr Philip Bull, BU: Dr Anthony Jarvis

This unit is offered at third year level also.

Within the history of the integration process and with a particular focus on the European Union (EU), students will evaluate the extent to which integration has changed the lives of citizens and relations between nation-states in Europe; critique EU policies and processes; analyse the EU's role as an international actor; and apply insights derived from integration theory. The lecture program for the unit will capitalise on the availability in Australia of many experts associated with the EU and its institutions, as well as providing more general contextual lectures on its history, functioning, and place in the contemporary world. Tutorials will be focused on ensuring that students develop an adequate understanding of how the EU functions, its relationships with member nations, and the ways in which it is important to the rest of the world, including Australia.

Prerequisite: Any first year history or politics subject.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: One seminar presentation (equivalent 500-words) (10%), two WebCT quizzes (10%), one 2000-word research essay (40%), one 2-hour examination (40%). Third year students will be expected to

show a greater achievement of discipline-specific skills in their written work than second year students.

HIS2FDA FOOD, DRINK AND WORLD HISTORY: ANCIENT WORLD TO MODERN AUSTRALIA (20. CPs Sem. TE-SEM-1 BU.) *Dr Diane Kirkby*

This unit is offered at third year level also.

From the food taboos of ancient civilisations and religious feasts of medieval Christian Europe, to Australia's multicultural and fast food cultures, food and drink have carried economic, political, and symbolic importance beyond simple nutrition. In this unit we trace the connections between food, drink and historical change as we explore the meaning of banquets to civic life in ancient Greece and Rome, the politics of introducing New World foods to European tables, the impact of colonialism on the diets of indigenous peoples, the changing significance of gender in eating and drinking customs and the transformation in household food, work and community with industrialisation and immigration.

Prerequisite: 30 credit points of first year history or equivalent.

Class requirements: One 1-hour lecture and one 2-hour tutorial per week.

Assessment: One 2500-word essay (40%), two 45-minute class tests (30%), one class presentation, and tutorial exercises (1000-words equivalent) (30%). Third year students will be expected to show a greater achievement of discipline-specific skills in their written work than second year students.

HIS2FLS FROM LENIN TO STALIN: THE FIRST DECADES OF SOVIET SOCIETY (20 CPs Sem. TE-SEM-2 BU.) *Dr Adrian Jones*

This unit is offered at third year level also.

What is Stalinism? How did it happen? In this unit students trace the social, intellectual, and political history of the Soviet Union in the first decades after 1917. The focus is on politics, film, and literature in their social and economic contexts. Reasons for, and consequences of, the degeneration of the democratic socialism of 1917 are considered.

Prerequisite: 30 credit points of first year history or equivalent.

Incompatible unit: HIS21RUC, HIS31RUC

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: One 2000-word class paper (40%), either one 2000-word research essay or one 2-hour exam (40%), tutorial exercises (1000 words equivalent) (20%). Third year students will be expected to show a greater achievement of discipline specific skills in their written work than second year students.

HIS2GAH GENOCIDES AND THE HOLOCAUST: EUROPE, ASIA, AFRICA (20. CPs Sem. TE-SEM-2 AW, BU.) *Dr Shannon Woodcock*

This unit is offered at third year level also.

In this unit, students examine the origins, course, and consequences of the Nazi Holocaust in Europe, together with genocidal conflicts in Asia (Cambodia), Europe (former Yugoslavia), and Africa (Rwanda 1959 to 1997). Questions discussed include – In what ways was the Nazi Holocaust unique? Are genocides and holocausts different phenomena? How does gender influence genocide? In the Holocaust and genocides who were the victims and who were the perpetrators? Were perpetrators significantly different from 'ordinary' citizens?

How are genocides remembered in film, testimonies and in public monuments? We will draw on case studies of concentration camp life, autobiographical and testimonial literature and pictorial and cinematic representations.

Prerequisite: 30 credit points of first year History.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: Weekly short blog (total 1000 words) (20%), one exercise in representation (1500-word equivalent) (30%), one 2500-word research essay (50%). Third year students will be expected to show a greater achievement of discipline-specific skills in their written work than second year students.

HIS2JFF JESUS: FACT OR FICTION? (20 CPs Sem. TE-SEM-1 BU.) *Dr Anne Gardner*

This unit is offered at third year level also.

In this unit students explore issues such as, Are the Gospels, the gospel truth? Is the Virgin birth story fact or fiction? Did Jesus really die on the cross? Is the Turin Shroud, the shroud of Jesus? Was Jesus the wicked priest, as some scholars suggest or the teacher of righteousness as others claim? These questions and many more will be explored in their historical context through the medium of modern scientific techniques, archaeological data, biblical and extra-biblical literature.

Prerequisite: 30 credit points of first year history or a unit counting towards a religious study major.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: One 1500-word tutorial paper (30%), one 2500-word essay (50%), one 1-hour examination (20%). Third year students will be expected to show a greater achievement of discipline specific skills in their written work than second year students.

HIS2LWC LIVING WITH COLONIALISM: RESISTANCE AND ACCOMMODATION (20 CPs Sem. TE-SEM-2 AW, BU.) *Dr Tracey*

Banivanua-Mar

This unit is offered at third year level also.

In this unit, students will examine the nature of resistance and accommodation in the late colonial era. With a concentration on movements in Australia, New Zealand and the islands of the Pacific during the twentieth century, we look at such ambiguously resistant cultural movements as 'cargo-cults' and millenarian movements; expressions of protest in music, sport, theatre, or dance; the emergence of nationalism and other local and transnational social movements; and the impact of civil wars. We will span a period from the beginning of the twentieth century and the post-war decline of colonialism, to the long era of decolonisation, neo-colonialism, and the entrenchment of international relations of dependency. Students will critique the meanings of 'resistance', 'accommodation', and 'decolonisation'. They will gain access to perspectives of Indigenous peoples, and will examine the philosophies and theories that accompanied the rise of local and global indigenous rights movements.

Prerequisite: 30 credit points of first year history.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: One 1500-word critical essay (30%), one 3000-word research essay (50%), tutorial and/or WebCT-based exercises (500 words equivalent) (20%). Third year students will be expected to show a greater achievement of discipline-specific skills in their written work than second year students.

HIS2MAM MAKING AMERICA: FROM POCAHONTAS TO JAZZ AND PROHIBITION (20 CPs Sem. TE-SEM-2 BU.) *Dr Diane Kirkby*

This unit is offered at third year level also.

How did the US produce such memorable figures as gangster Al Capone, movie-mogul Walt Disney, and blues singer Billie Holiday? In this unit, we examine the intersection of art, politics, and social history. Starting with the republican culture of the post-Revolutionary era, we ask what place did women; wilderness and Indians have in the 'New World' vision and manifest destiny of the new republic? How did slavery create new arts forms, lead to the Civil War, and connect with feminist politics? In the wealth and power generated by industrialisation, immigration, and urbanisation there existed conflict, oppression, and political resistance that was the source of a uniquely dynamic modern culture shaped by race and gender.

Prerequisite: 30 credit points of first year History and/or 30 credit points of first year Art History.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: One 2500-word essay (40%), one short answer test (25%), one 1-hour exam (35%). Third year students will be expected to show a greater achievement of discipline-specific skills in their written work than second year students.

Preliminary Reading:

HIS2MMH MEMORY, MYTH AND HISTORY (20 CPs Sem. TE-SEM-1 BU.) *Dr*

Bart Ziino

This unit is offered at third year level also.

In this unit, students will look at the relationship between history and individual and collective memory in the context of Australian history. We will explore the debates around 'oral history': is it a form of history or historical evidence? In addition, will consider the impact of Aboriginal memory on the writing of Australian history – with a particular focus on Captain Cook stories and the experience of the 'Stolen Generations'. Does history repress some memories while enshrining others? The role of monuments and memorials in making the experience of pioneers and soldiers central to national memory and history will also be investigated.

Prerequisite: 30 credit points of first year history.

Class requirements: One 1-hour lecture and one 2-hour tutorial per week.

Assessment: One 1500-word essay (30%), one 2000-word research essay (40%), one 1000-word class presentation (20%), and one 500-word test (10%). Third year students will be expected to show a greater achievement of discipline-specific skills than second year students.

HIS2MMI MAKING OF MODERN ITALY (20 CPs Sem. TE-SEM-1 BU.) *Mr*

Antonio Pagliaro

This unit is offered at third year level also.

In this unit, students will study the history of modern Italy from the creation of the modern nation state in the nineteenth century to the country's turbulent twentieth century. Italy will be studied as an example of how far a sense of common national identity can infuse populations that previously lacked it. Texts studied will include historical, literary and film sources. Students completing the unit should develop an understanding both of Italy's internal development and of how Italian experiences related to and were influenced by wider European developments. Students undertaking a major in Italian Studies will read materials and receive tutorials in Italian.

Prerequisite: 30 credit points of first year history or 30 credit points of first year Italian or 30 credit points of first year European Studies.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: One 1000-word written paper (20%), one 1500-word essay (30%), one 2-hour final exam (40%), one 500-word bibliographical exercise (10%). Third year students will be expected to show a greater achievement of discipline-specific skills than second year students.

HIS2NAE NATIVE AMERICAN ENDURANCE (20 CPs Sem. TE-SEM-2 BU.)

Dr Claudia Haake

This unit is offered at third year level also.

In this unit, students will examine Native Americans in the United States of the 20th century. Contrary to all (white) expectations, American Indians did not disappear or vanish, which was dramatised in the 1960s and 70s, when Native American activism became prominent. This ethnic revival was even more astonishing since many Native nations had been exposed to termination and relocation programs in the 1950s. The continued existence of Native Americans will be contrasted with the stereotype of the Vanishing American, which is rooted in historical expectations but manifests itself in literature and film. Thus, Native Americans continue to combat the stereotype and its effects. Students will be required to work with a number of primary sources, including photographs, treaties, legal texts, (auto) biographies and film, especially Hollywood movies.

Prerequisite: 30 credit-points of first year history.

Class requirements: One 2-hour lecture and one 1-hour workshop per week.

Assessment: One 2500-word essay (50%), one 2000-word reflective essay (40%), one class presentation (500 words equivalent) (10%). Third year students will be expected to show a greater achievement of discipline-specific skills in their written work than second year students.

This unit is offered at third year level also.

Initial classes in this unit will take place in December 2007 and travel to Turkey will occur in January 2008

In this travel and study unit, offered in association with Australians Studying Abroad and Monash University, students assess the cultural, social, architectural, and political history of the Ottoman Empire to the First World War. On location at historic sites in Turkey in Bursa, Edirne and Istanbul, the three Ottoman capitals, students examine six key periods of Ottoman history: the early Ottomans, the conquest of Constantinople, the 'classical' era of Suleyman the Magnificent and his successors, the eighteenth-century 'Tulip Age', nineteenth-century Europeanization and reform, and the Gallipoli campaign. Note: availability of this unit may be subject to Department of Foreign Affairs and Trade recommendations on travel to Turkey.

Prerequisite: Normally 30 credit points of first year history.

Class requirements: Three-week intensive study tour in Turkey; two 2-hour seminars in Melbourne.

This unit is not available for Study Abroad students.

Assessment: one 1000-word travel journal (12 entries) written in Turkey (20%), one 500-word tutorial presentation prepared in Melbourne in advance for oral delivery in Turkey (10%), one 1000-word paper written just after visiting the site of the informal tutorial presentation (20%), one 2500-word research essay submitted within 4 weeks of return (50%). Third year students are to show greater levels of achievement of discipline-specific skills than second year students.

Inalcik, H. *The Ottoman Empire: the classical age* Phoenix 1994

HIS2PPL PEASANTS AND POLITICS IN LATIN AMERICA (20. CPs Sem. TE-SEM-1 BU.) *Dr Barry Carr*

This unit is offered at third year level also.

Why and how do peasants act politically? In this unit, we will consider the many ways in which Latin American peasants and

agricultural workers have intervened politically in the 20th century. First we examine how peasant societies function culturally and economically, paying particular attention to the ways in which peasant movements have been viewed by historians, sociologists, anthropologists and political scientists. We then examine the circumstances under which peasants act together, in social banditry, land occupations and unionisation and then discuss peasant responses to revolutionary movements and the limits on the scope of such activity imposed by the economic and socio-cultural settings in which peasants live. Case studies from Mexico, Chile, Bolivia, Nicaragua, El Salvador, and Peru are examined. We will draw on novels, testimonial accounts, and materials in which 'peasants speak'.

Prerequisite: 30 credit points of first year history.

Class requirements: Two 1-hour lectures and one 1-hour workshop per week.

Assessment: One 2000-word essay (40%), one 2500-word essay (50%), one reading control test (10%). Third year students will be expected to show a greater achievement of discipline-specific skills in their written work than second year students.

Prescribed Reading:

Hobsbawm, E. *Bandits*, Penguin

HIS2PPP PEOPLE, POWER AND PROTEST: TRANSFORMING MODERN AUSTRALIA (20 CPs Sem. TE-SEM-2 BU.) *Dr Bart Ziino*

This unit is offered at third year level also.

In this unit students examine people's protests and power in modern Australia. What was the White Australia policy? Who fought for and against conscription? What were the Freedom Rides? How did environmental activists save the Franklin River? We explore Australia's hidden histories: how people survived the 1930s depression, why communists, homosexuals, and working mothers were defined as threats to the Australian way of life, how strikes and protest movements by workers, indigenous people, women, and peace activists transformed modern Australia. We consider the role that popular culture, sexual revolution and youth rebellion played and study international influences on Australia's social movements.

Prerequisite: 30 credit points of first year history.

Incompatible unit: HIS1PPP

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: One 2500-word research essay (45%), one 1500-word essay (30%), two 30-minute tests (25%). Third year students will be expected to show a greater achievement of discipline-specific skills in their written work than second year students.

Recommended Reading:

Macintyre, S. *A concise history of Australia* 2nd edn. Cambridge University Press 2004

HIS2RAR RIOTS AND REBELLIONS (20 CPs Sem. TE-SEM-2 BE, BU.) *BU:*

Dr Jennifer Ridden, BE: Dr Yolande Collins

This unit is offered at third year level also.

Students will be introduced to the study of riots and rebellions, and will explore what these movements can tell us about the transformation of pre-modern societies in the eighteenth century into modern societies in the nineteenth century. Examples include the 1798 Irish rebellion, the Scottish Jacobites, the Welsh Rebecca riots, and English machine-breaking protests, as well as the American War of Independence and the 1857 Indian rebellion. We will examine their changing aims and methods, their impacts on socio-economic and cultural relations, on political structures within domestic Britain, and on the development of a 'British world' overseas. Students will critically consider three common assumptions: that Britain's status as a pre-eminent industrial world power was unchallenged; that domestic Britain was both peaceful and secure; and the development of a 'British world' involved the reproduction of a relatively settled and homogenous society 'at home'.

Prerequisite: 30 credit points of first year history.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: One 1000-word essay (25%), ten 100-word written discussion notes on WebCT (25%), one 3000-word essay (50%). Third year students will be expected to show a greater achievement of discipline-specific skills in their written work than second year students.

HIS2UCR U.S. CIVIL RIGHTS MOVEMENT 1954-1968 (20 CPs Sem. TE-SEM-2 BU, MI.) *Dr Tim Minchin*

This unit is offered at third year level also.

In this unit students examine what is probably the most significant social movement in United States history. The central protests and demonstrations of this major movement are explored in detail in this unit. Drawing on both a substantial secondary literature and published primary sources, students identify the circumstances under which non-violent direct action protest was successful. Particular attention is given to the role of Dr Martin Luther King, Jr, and his role is assessed in relation to the ongoing 'man v. movement' debate.

Prerequisite: 30 credit points of first year history or majoring in the North American area of study.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: One 2500-word research essay (50%), one 2500-word research essay (50%)

Recommended Reading:

HIS2WOR THE WORLD SINCE 1945 (20. CPs Sem. TE-SEM-2 BU.) *Dr*

Claudia Haake

This unit is offered at third year level also.

In this unit, students will study the political, cultural, and economic forces that have shaped much of the world since the great Depression of the 1930s and World War II. Although it is primarily focused upon the Western nations, it also covers major changes in the third world, especially as they interact with the major Western nations. Special emphasis is paid to the lessons decision makers thought they learned from World War II and the emergence of what has been called 'historical justice'. Finally, some aspects of the globalisation of recent decades are highlighted.

Prerequisite: 30 credit points of first year history.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: One 2500-word essay (50%), one 2000-word reflective essay (40%), class presentation (10%). Third year students will be expected to show a greater achievement of discipline-specific skills in their written work than second year students.

Prescribed Reading:

HIS3RCA READING COURSE A (20. CPs Sem. TE-SEM-1 BU.) *Coordinator to be advised*

Individual reading units may occasionally be organised by arrangement with an appropriate member of staff and subject to approval of the History Program Coordinator (or, in the case of an area of study, the chairperson of the area) Approval is normally given to students in the third year of their course for a study program which follows up some aspect of a unit already studied, with a member of staff prepared to support the proposed reading unit and to supervise and assess the work done in it. After consultation with the appropriate

member of staff, students wishing to take this option should submit details of their proposed program, including a bibliography and details of assessment, to the appropriate person for approval.

HIS3RCB READING COURSE B (20. CPs Sem. TE-SEM-2 BU.) *Coordinator to be advised*

See HIS31RCA for description.

HIS3RHB REFLECTIVE AND NARRATIVE HISTORY (20. CPs Sem. TE-SEM-2 BU.) *Coordinator to be advised*

The History Program offers an exciting unit for students who are in the final year of their History major and who have demonstrated a high level of proficiency throughout their History major. This unit provides a unique experience for students to conclude and enhance their History major, and begin on the pathway to an Honours year in History. The unit is a writing workshop and focuses on the dimension of narrative in history. Students in tutorials discuss some unusual and some classic narrative histories. Students will write two essays, always working from unpublished documents, always conceiving and writing their own narratives. Writers' drafts are shared in class. The unit aims to hone students' capacities for independent research and for collaborative inquiry. Students can expect to explore, share and frame a variety of narrative styles.

Prerequisite: Honours coordinator's approval.

Assessment: One 3000-word essay (50%), one 1000-word essay (30%) and one take-home examination (20%)

Indonesian

Program Coordinator: Dr Novi Djenar.

Indonesian is the national language of the world's fourth most populous country and Australia's important neighbour. The study of Indonesian has two major objectives. One is to equip students with appropriate knowledge and skills to communicate effectively in this language. The other is to develop a sympathetic understanding of the complex and diverse cultures of Indonesia and the Malay world: Indonesia, Malaysia, Brunei, and Singapore.

In-country study

Students have the further opportunity, through formal classes and fieldwork, to develop practical language skills and to study the life, culture, and institutions of a South-East Asian country where Indonesian is used in everyday life. This work is normally undertaken within the framework of a course in Indonesian for foreign speakers, provided by one of the major Indonesian or Malaysian universities. Completion of a four-week course will be credited as 20 credit points, while completion of a six-week course will be credited as 40 credit points. Students are responsible for their own expenses. Students may take a maximum of 80 credit points of in-country study units towards their degree.

Students must seek permission from the Asian Studies Convenor in advance if they wish to take up this option.

Programs of study

To qualify for a degree with a major in Indonesian, a student must normally complete 110 credit points of Indonesian 1, 2 and 3, as well as 20 credit points of INM3TDA, INM3TDB or a relevant unit from another discipline such as linguistics, politics or sociology. Students are advised to note the prerequisites for the linguistics, politics, and sociology units that they wish to be included in the major. Students wishing to qualify as language teachers in schools are required to complete the third year advanced level of the language, in order to be able to take Indonesian as a teaching method towards the Diploma of Education.

Teaching period	Unit title	Unit code
First year units / core language units (15 credit points)		
TE-SEM-1	Indonesian Advanced 1A	INM1ADA
TE-SEM-1	Indonesian Beginners 1A	INM1BEA
TE-SEM-2	Indonesian Advanced 1B	INM1ADB
TE-SEM-2	Indonesian Beginners 1B	INM1BEB
Second year units (20 credit points)		
TE-SEM-1	Indonesian Advanced 2A	INM2ADA
TE-SEM-1	Indonesian Beginners 2A	INM2BEA
TE-SEM-2	Indonesian Advanced 2B	INM2ADB
TE-SEM-2	Indonesian Beginners 2B	INM2BEB
Second or third year units (20 credit points)		
TE-SEM-1	Cross-cultural Communication	LIN2CCC/LIN3CCC
TE-SEM-1	Development, Globalisation and Culture	ANT2DGC/ANT3DGC
TE-SEM-1	Goddesses, Sexuality and Liberation: India and beyond	AST2GSL/AST3GSL
TE-SEM-1	Introduction to Buddhism	AST2INB/AST3INB
TE-SEM-1	Love and Eroticism in Asian Literature ¹	AST2LEA/AST3LEA
TE-SEM-1	Translation and Discussion A	INM2TDA/INM3TDA

TE-SEM-1	Indonesian Beginners 3A	INM3BEA
TE-SEM-2	Indonesian Advanced 3B	INM3ADB
TE-SEM-2	Indonesian Beginners 3B	INM3BEB

Key: ¹ Not available in 2008.

Prescribed reading

All students taking language units more advanced than INM1BEA Indonesian Beginners 1A should acquire the following texts:

- Echols, J. M., and Shadily, H. An Indonesian-English dictionary. Gramedia 1989
- Echols, J. M., and Shadily, H. Kamus Inggris-Indonesia. Gramedia 1989
- Either Mintz, M. A student's grammar of Malay and Indonesian. EPB Publishers 1994 or Sneddon, J. Indonesian reference grammar. Allen & Unwin 1996.

Honours

Students wishing to enter the fourth year honours program in Indonesian should have a consistently high level of performance in Indonesian at the second and third year levels (normally at a level of B or above) and have satisfied requirements for the Bachelor of Arts pass degree. Indonesian 4 comprises a combination of coursework (50%) and a minor thesis (50%).

Coursework

Students must complete 60 credit points of coursework in their honours year. Students may be able to undertake some coursework components in Indonesia, Malaysia, Singapore, or Brunei. They will be required to return to the university by the beginning of the second semester in order to prepare and submit their minor thesis. Details of overseas study opportunities are available from the Honours Coordinator.

Thesis

Students must prepare, under supervision, a minor thesis of 12000 to 15000 words. The topic must be agreed upon by the student and their supervisor(s) at the beginning of the course and should be written in English.

A full description of these units (including the unit name, unit code, credit points, campus/location, unit coordinator, class requirements, assessment, prerequisites, and readings) appears at the end of each discipline entry. A full description of INM units appears below. For the most recent descriptions of all units, please access the unit database at www.latrobe.edu.au/udb_public.

UNIT DESCRIPTIONS

INM1ADA INDONESIAN ADVANCED 1A (15. CPs Sem. TE-SEM-1 BU.) Dr Novi Djenar

In this unit, students will consolidate language skills acquired in VCE Indonesian (Second Language) and extend them by reading, writing, and discussing current issues on Indonesian society and culture. On the completion of the unit, students should have consolidated their knowledge of Indonesian grammar and have acquired sufficient vocabulary to be able to describe and discuss some issues related to employment, gender, religion, and Indonesian cultural traditions.

Prerequisite: VCE Indonesian (second language) or equivalent.

Incompatible unit: INM2BEA

Class requirements: Two 2-hour combined lectures/tutorials per week.

Assessment: Two 600-word essays (30%), one oral test (20%), one 2-hour written test (30%), two oral presentations (20%)

Prescribed Reading:

Djenar, D. *A student's guide to Indonesian grammar* Oxford University Press 2003

INM1ADB INDONESIAN ADVANCED 1B (15. CPs Sem. TE-SEM-2 BU.) Dr Novi Djenar

In this unit students continue to develop their confidence in writing, reading, and discussing current issues on Indonesian society and culture. By the end of this unit students should have acquired a sound knowledge of Indonesian grammar and sufficient vocabulary to be able to read, describe and discuss some issues related to employment, gender, religion, and Indonesian cultural traditions.

Prerequisite: INM1ADA.

Incompatible unit: INM2BEB

Class requirements: Two 2-hour combined lectures/tutorials per week.

Assessment: Two 600-word essays (30%), one oral test (20%), one 2-hour written test (30%), oral presentation (20%)

Prescribed Reading:

Djenar, D. *A student's guide to Indonesian grammar*, Oxford UP 2003

INM1BEA INDONESIAN BEGINNERS 1A (15. CPs Sem. TE-SEM-1 BU.) Dr Novi Djenar

This is a unit for beginners, introducing students to basic Indonesian vocabulary and simple sentence patterns to enable them to engage in simple everyday communication. Students will learn to speak, write, and comprehend short texts and hold simple conversations in Indonesian on topics concerned with self, family, friends, and common everyday activities.

Class requirements: Two 1-hour lectures and two 1-hour tutorials per week.

Assessment: Two 400-word essays (30%), one oral test (20%), one 2-hour written test (30%), two oral presentations (20%)

Prescribed Reading:

Rafferty, E, Burns, M & Argazali, S R *Beginners Indonesian* Pre-publication edn., University of Wisconsin

INM1BEB INDONESIAN BEGINNERS 1B (15. CPs Sem. TE-SEM-2 BU.) Dr Novi Djenar

In this unit, students are provided with further instruction in basic Indonesian, with a continuing emphasis on developing skills in speaking, writing, and reading on topics related to self, family, friends, and common everyday activities. By the end of the unit, students should have a sound knowledge of basic Indonesian grammar and adequate vocabulary for further study in Indonesian.

Prerequisite: INM1BEA.

Class requirements: Two 2-hour combined lectures/tutorials per week.

Assessment: Two 400-word essays (30%), one oral test (20%), one 2-hour written test (30%), two oral presentations (20%)

Prescribed Reading:

Rafferty, E, Burns, M & Argazali, S R *Beginners Indonesian* Pre-publication edn., University of Wisconsin

INM2ADA INDONESIAN ADVANCED 2A (20. CPs Sem. TE-SEM-1 BU.) Dr Novi Djenar

In this unit students learn to read, write and discuss issues concerned with political and social developments in Indonesia through the study

of a range of authentic, unedited materials in Indonesian, which includes recent articles from newspapers and news magazines, and literary texts. Students are introduced to the history of contemporary Indonesian literature up to 1950s through the reading of short stories.

Prerequisite: INM1ADB or equivalent.

Incompatible unit: INM3BEA

Class requirements: Two 2-hour lecture/tutorials per week.

Assessment: Two 750-word essays (30%), one oral test (20%), one 2-hour written test (30%), two oral presentations (20%)

Prescribed Reading:

Aveling, H, and Sujatna, D (Eds) *Cermin: Indonesian Short Stories* 3rd edn. Black Swan, 2004

Firdaus *Diskusi*, Airlangga UP 2000

INM2ADB INDONESIAN ADVANCED 2B (20. CPs Sem. TE-SEM-2 BU.) *Dr*

Novi Djenar

In this unit students consolidate and expand their knowledge on social, cultural, and political developments in Indonesia through the study of authentic materials from newspapers and news magazines, and literary texts. On the completion of this unit students should have acquired a sophisticated understanding of some issues related to social and political developments in Indonesia and develop confidence in describing and discussing these issues in Indonesian.

Prerequisite: INM2ADA.

Incompatible unit: INM3BEB

Class requirements: Two 2-hour lecture/tutorials per week.

Assessment: Two 750-word essays (30%), one oral test (20%), one 2-hour written test (30%), two oral presentations (20%)

Prescribed Reading:

Aveling, H, and Sujatna, D (Eds) *Cermin: Indonesian Short Stories* 3rd edn. Black Swan 2004

Firdaus *Diskusi*, Airlangga UP 2000

INM2BEA INDONESIAN BEGINNERS 2A (20. CPs Sem. TE-SEM-1 BU.) *Dr*

Novi Djenar

In this unit students consolidate the language skills acquired in their first year of Indonesian. Students develop their knowledge of Indonesian society and culture through the study of a variety of written and audio-visual texts. By the end of the unit, students should be able to describe and discuss some current issues on employment, environment, gender, religion, and Indonesian cultural traditions.

Prerequisite: INM1BEB.

Incompatible unit: INM1ADA

Class requirements: Two 2-hour lecture/tutorials per week.

Assessment: Two 500-word essays (30%), one oral test (20%), one 2-hour written test (30%), two oral presentations (20%)

Prescribed Reading:

Djenar, D *A student's guide to Indonesian grammar*, Oxford UP 2003

INM2BEB INDONESIAN BEGINNERS 2B (20. CPs Sem. TE-SEM-2 BU.) *Dr*

Novi Djenar

Students continue to develop and expand the language skills necessary to write, read, and discuss current issues on Indonesian society and culture. On completion of the unit, students should have consolidated their knowledge of Indonesian grammar and acquired sufficient vocabulary to be able to describe and discuss some issues related to employment, gender, religion, and Indonesian cultural traditions.

Prerequisite: INM2BEA.

Incompatible unit: INM1ADB

Class requirements: Two 2-hour combined lectures/tutorials per week.

Assessment: Two 600-word essays (30%), one oral test (20%), one 2-hour written test (30%), two oral presentations (20%)

Prescribed Reading:

Djenar, D *A student's guide to Indonesian grammar* Oxford UP 2003

INM2TDA TRANSLATION AND DISCUSSION A (20 CPs Sem. TE-SEM-1

BU.) *Dr Novi Djenar*

This unit is offered at third year level also.

In this unit, students are introduced to the process of translation. Students will read and discuss critically a range of representative

Indonesian writings and develop skills for translating them into English. On completion of the unit, students should be able to identify some issues related to Indonesian/English translation and develop confidence in solving them in their written work.

Prerequisite: For INM2TDA: INM1BEB or INM1ADB

For INM3TDA: INM2BEB or INM2ADB.

Co-requisite: For INM2TDA: INM2BEA or INM2ADA

For INM3TDA: INM3BEA or INM3ADA.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: Five 500-word translations (50%), one 2500-word essay in English (50%). Third year students will be expected to show a greater achievement of discipline-specific skills in their written work than second year students.

INM2TDB TRANSLATION AND DISCUSSION B (20 CPs Sem. TE-SEM-2

BU.) *Dr Novi Djenar*

This unit is offered at third year level also.

In this unit students learn the skills of translation from Indonesian into English. Some theories of translation will be introduced and discussed. Students will critically read a range of representative writings in Indonesian and learn to develop confidence in translating them into English.

Prerequisite: For INM2TDB: INM2BEA or INM2ADA

For INM3TDB: INM3BEA or INM3ADA.

Co-requisite: For INM2TDB: INM2BEB or INM2ADB

For INM3TDB: INM3BEB or INM3ADB.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: Five 500-word translations (50%), one 2500-word essay in English (50%). Third year students will be expected to show a greater achievement of discipline-specific skills in their written work than second year students.

INM3ADA INDONESIAN ADVANCED 3A (20. CPs Sem. TE-SEM-1 BU.) *Dr*

Novi Djenar

In this unit students learn to understand different styles and registers of Indonesian through the study of authentic, unedited articles and major literary texts related to socio-cultural, political, scientific, and legal issues. Students will strengthen their knowledge and appreciation of the Indonesian society by engaging in sophisticated discussions and writing critical essays on these issues.

Prerequisite: INM2ADB.

Class requirements: Two 2-hour lecture/tutorials per week.

Assessment: Two 1000-word essays (30%), one 2-hour written test (30%), one oral test (20%), two oral presentations (20%)

INM3ADB INDONESIAN ADVANCED 3B (20. CPs Sem. TE-SEM-2 BU.) *Dr*

Novi Djenar

In this unit students consolidate their learning about Indonesian language and society by continuing to read and discuss critically written and audio-visual texts concerned with cultural, socio-political, scientific, and legal issues in Indonesia. On the completion of the unit, students should be able to identify some key issues in present-day Indonesia and be able to articulate their views in writing and speech. Students should also acquire a sound knowledge of the history of contemporary Indonesian literature and be able to relate key issues within it to contemporary Indonesian society.

Prerequisite: INM3ADA.

Class requirements: Two 2-hour lecture/tutorials per week.

Assessment: Two 1000-word essays (30%), one 2-hour written test (30%), one oral test (20%), two oral presentations (20%)

INM3BEA INDONESIAN BEGINNERS 3A (20. CPs Sem. TE-SEM-1 BU.) *Dr*

Novi Djenar

In this unit student, learn to read, write, and discuss issues concerned with political and social developments in Indonesia. This is achieved through the study of a range of authentic unedited materials in Indonesian, which includes articles from newspapers and news magazines, and literary texts. Students are introduced to contemporary Indonesian literature up to the 1950's.

Prerequisite: INM2BEB or equivalent.

Incompatible unit: INM2ADA

Class requirements: Two 2-hour lecture/tutorials per week.

Assessment: Two 750-word essays (30%), one 2-hour written test (30%), one oral test (20%), two oral presentations (20%)

Prescribed Reading:

Aveling, H. and Sujatna, D (Eds) *Cermin: Indonesian Short Stories* 3rd edn. Black Swan 2004

Firdaus *Diskusi*, Airlangga UP 2000

INM3BEB INDONESIAN BEGINNERS 3B (20 CPs Sem. TE-SEM-2 BU.) *Dr*

Novi Djenar

In this unit students consolidate and expand their knowledge on political and social developments in Indonesian through the study of authentic materials from newspapers and news magazines, and literary texts. On completion of this unit, students should have some familiarity with a number of landmark works in modern Indonesian literature and develop confidence in describing and discussing some political and social issues in Indonesian.

Prerequisite: INM3BEA.

Incompatible unit: INM2ADB

Class requirements: Two 2-hour lecture/tutorials per week.

Assessment: Two oral presentations (20%), two 750-word essays (30%), one 2-hour written test (30%), one oral test (20%)

Prescribed Reading:

Aveling, H. and Sujatna, D (Eds) *Cermin: Indonesian Short Stories* 3rd edn. Black Swan 2004

Firdaus *Diskusi*, Airlangga UP 2000

INM3TDA TRANSLATION AND DISCUSSION A (20 CPs Sem. TE-SEM-1

BU.) *Dr* Novi Djenar

See INM2TDA for full unit description.

INM3TDB TRANSLATION AND DISCUSSION B (20 CPs Sem. TE-SEM-2

BU.) *Dr* Novi Djenar

See INM2TDB for full unit description.

Italian studies

Program Coordinator: Mr Antonio Pagliaro.

Italian studies combines Italian language study and language skills with the study of Italy and its literature, history and civilisation. The first year units for students who have VCE Italian or equivalent are Italian Advanced 1A and 1B.

Two units for beginners (Italian Beginners 1A and 1B) are offered in first year and sequels to these are available at second and third year levels.

The unit ITA1PCI People of Contemporary Italy—which has no language prerequisite—is strongly recommended for all students who wish to broaden their knowledge of modern Italy.

Latin Beginners 1A and 1B are coordinated and taught by Italian studies. The European studies units EST2RJS/EST3RJS *Romeo and Juliet: Fact, Fiction, Film* and EST2REI/EST3REI *Renaissance Italy*, and the history unit HIS2MMI/HIS3MMI *The Making of Modern Italy* is also coordinated and largely taught by Italian studies and may be taken as part of the Italian studies major. EST2REI/EST3REI *Renaissance Italy* is taught in Prato (Italy) in January 2008.

Programs of study

Students will be assigned to language units according to their prior knowledge of Italian. The language streams will merge and be taught and assessed as follows.

There will be a three-year sequence of components for post-VCE students with an initial enrolment in Italian Advanced 1A.

Beginner students will take Italian Beginners 1A and 1B in first year. The continuations are Italian Beginners 2A and 2B, 3A and 3B.

Students shall not be deemed to have fulfilled the requirements of Italian Advanced 1A and 1B unless they pass both the language and non-language components of these units.

Assessment

Unless otherwise stipulated in individual unit descriptions, assessment is by coursework—including such tests as may be prescribed by the tutor as part of the unit—and by examination. Coursework consists of written and oral assignments. Most culture units involve the writing of a major essay and the presentation of at least one seminar paper per semester. Precise details are given by each tutor at the beginning of the unit. Language units involve regular weekly assignments and regular participation in oral work. Language work is also assessed by oral and written examination.

Assessment is based on judgements of the student's performance, aptitude, and ability. Students are encouraged to discuss their progress with their tutors and with the coordinator, who will be very happy to help them with any problems they may encounter in the course of their studies.

Major in Italian studies

Students who wish to satisfy the degree requirements by taking a major in Italian studies must undertake at least 130 points of Italian studies units, 60 credit points of which must be taken at third year level. Students who wish to proceed to honours are encouraged to take at least 150 credit points of Italian studies units.

Teaching period	Unit title	Unit code
First year units (15 credit points)		
TE-SEM-1	Italian Advanced 1A	ITA1ADA
TE-SEM-1	Italian Beginners 1A	ITA1BEA
TE-SEM-2	Italian Advanced 1B	ITA1ADB
TE-SEM-2	Italian Beginners 1B	ITA1BEB
TE-SEM-2	People of Contemporary Italy ¹	ITA1PCI
Second year units (20 credit points)		
TE-SEM-1	Italian Advanced 2A	ITA2ADA
TE-SEM-1	Italian Beginners 2A	ITA2BEA
TE-SEM-2	Italian Advanced 2B	ITA2ADB
TE-SEM-2	Italian Beginners 2B	ITA2BEB
TE-SEM-2	Italian Translation (on-line unit) ¹	ITA2ITT
Second or third year units (20 credit points)		
TE-SEM-1	Romeo and Juliet: fact, fiction, film ¹	EST2RJS/EST3RJS
TE-SEM-1	The Making of Modern Italy ²	HIS2MMI/HIS3MMI
WK 1 – 15	Renaissance Italy (offered in Italy in summer)	EST2REI/EST3REI
TE-SEM-2	Medieval Italy ¹	ITA2MEI/ITA3MEI
TE-SEM-2	Renaissance Italy ¹	EST2REI/EST3REI
Third year units (20 credit points)		
TE-SEM-1	Italian Advanced 3A	ITA3ADA

TE-SEM-1	Reading Course A	ITA3RCA
TE-SEM-2	Italian Advanced 3B	ITA3ADB
TE-SEM-2	Italian Beginners 3B	ITA3BEB
TE-SEM-2	Reading Course B	ITA3RCB

Key: ¹ Not available in 2008.

² Students majoring in Italian will have tutorials and texts in Italian.

Note: reading course A and B are only made available to third year students in special circumstances and with the permission of the program coordinator.

Other units recommended for students of Italian

Not all of the units listed below will be available every year.

Unit title	Unit code
Second or third year units (20 credit points)	
Bilingualism and Second Language Acquisition	LIN2BSA/LIN3BSA
Contemporary Italian Cinema	CST2CIC/CST3CIC
Cross-cultural Communication	LIN2CCC/LIN3CCC

Honours

Students majoring in Italian studies who achieve an average mark of at least 70% in second and third years may apply to undertake a fourth, honours year.

The honours year consists of:

- a coursework component of three semester units, and
- a 12000 to 15000 word minor thesis on a topic agreed upon between the student and the supervisor.

Honours students who have not completed the language units ITA3ADA and ITA3ADB will undertake these to count jointly as one fourth year unit and will complete all assessment items, including examinations in the unit.

Assessment is 50% coursework and 50% dissertation. Queries may be directed to the Honours Coordinator.

Study abroad

Students who undertake a three-month course at Perugia University for foreigners subsequent to completing their second year at La Trobe may obtain a maximum of 20 credit points of language at third year level. It is required, however, that the course undertaken be at least of level 4 or above and also that the students present the official university students' examination booklet certifying that they have obtained a satisfactory result at the official examination for that unit. Study at other tertiary institutions in Italy may also be credited on a similar basis, at the discretion of the program coordinator.

A full description of these units (including the unit name, unit code, credit points, campus/location, unit coordinator, class requirements, assessment, prerequisites, and readings) appears at the end of each discipline entry. A full description of ITA units appears below. For the most recent descriptions of all units students, should access the unit database at www.latrobe.edu.au/udb_public.

UNIT DESCRIPTIONS

ITA1ADA ITALIAN ADVANCED 1A (15. CPs Sem. TE-SEM-1 BU.) *Mr*

Antonio Pagliaro

In this unit students develop oral and written proficiency in Italian and are given an introduction to the culture and society of modern Italy. Audio-visual material, newspaper articles, and texts on contemporary Italian society are used to develop students' competence in speaking, reading, and writing and to broaden their knowledge of Italian culture and society. Students are also strongly advised to enrol in ITA1PCI.

Prerequisite: VCE Italian or equivalent.

Class requirements: One 1-hour language lecture, two 1-hour language workshops, and one 1-hour seminar per week.

Assessment: Language: continuous assessment based on oral participation in class and written exercises at home (25%), one 1-hour written class test (25%), Non-language: continuous assessment (at least one written class paper and class participation) (20%), one 1000-word essay. (30%)

Prescribed Reading:

Branciforte, S. and Grassi, A. *Parliamo italiano!* 3rd edn. Houghton Mifflin 2006

Branciforte, S. and O'Connor, B. *Parliamo italiano!*

Workbook/laboratory and video manual 3rd edn. Houghton Mifflin 2006

ITA1ADB ITALIAN ADVANCED 1B (15. CPs Sem. TE-SEM-2 BU.) *Mr*

Antonio Pagliaro

In this unit students continue to develop oral and written Italian language skills and knowledge of Italian culture and society using audio-visual material and written texts. Particular emphasis is placed on modern writers in order to give a better understanding of present-day Italian culture.

Prerequisite: ITA1ADA or equivalent or coordinator's approval.

Class requirements: One 1-hour language lecture, two 1-hour language workshops, and one 1-hour seminar per week.

Assessment: Non-language: continuous assessment (at least one written class paper and class participation) (20%), one 1000-word essay. (30%), Language: continuous assessment based on oral participation in class and written exercises at home (25%), one 1-hour written class test (25%)

Prescribed Reading:

Comencini, C. *Due partite*, Feltrinelli 2006

Branciforte, S. and Grassi, A. *Parliamo italiano* 3rd edn. Houghton Mifflin, 2006

Branciforte, S. and O'Connor, B. *Parliamo italiano!*

Workbook/laboratory and video manual 3rd edn. Houghton Mifflin 2006

ITA1BEA ITALIAN BEGINNERS 1A (15. CPs Sem. TE-SEM-1 BU.) *Dr Nicole*

Prunster

In this unit students develop competence in basic communicative and comprehension skills. Teaching and group work is carried out in

Italian and audio-visual materials are used. Students are strongly advised to also enrol in ITA1PCI.

Incompatible unit: ITA1BEA and ITA1BEB are not normally available to students qualified to enrol in ITA1ADA or ITA1ADB.

Class requirements: One 1-hour language lecture, two 1-hour language workshops, and one 1-hour conversation class per week.

Assessment: Two 1-hour written language tests (50%), weekly written work and class tests (25%), conversation tasks in class (25%)

Prescribed Reading:

Branciforte, S. and Grassi, A. *Parliamo italiano* 3rd edn. Houghton Mifflin 2006

ITA1BEB ITALIAN BEGINNERS 1B (15. CPs Sem. TE-SEM-2 BU.) *Dr Nicole*

Prunster

In this unit students build on their work in Italian Beginners 1A by extending their oral and written skills. It completes the introduction to basic grammatical structures and utilises both conversational workshops and creative writing. In this unit the audio-visual programs are integrated with the study of a literary text.

Prerequisite: ITA1BEA or coordinator's approval.

Incompatible unit: ITA1BEA and ITA1BEB are not available to students qualified to enrol in ITA1ADA or ITA1ADB

Class requirements: One 1-hour language lecture, two 1-hour language workshops, and one 1-hour conversation class per week.

Assessment: Two 1-hour written language tests (50%), weekly written work and class tests (25%), oral tasks in class (25%)

Prescribed Reading:

Branciforte, S. and Grassi, A. *Parliamo italiano* 3rd edn. Houghton Mifflin 2006

ITA1PCI PEOPLE OF CONTEMPORARY ITALY (15. CPs Sem. TE-SEM-2 BU.)

Mr Antonio Pagliaro

In this unit, authentic Italian materials, including text and film, are used to study the evolution of contemporary Italian society. Geographical and social differences, population movements within, out of, and into Italy and the relationships of individuals and families to one another and to the State are among the topics considered. A prior knowledge of Italian is not required for the unit. Linguistic skills of comprehension and expression are developed in the tutorial classes. This unit is strongly recommended to all first year Italian students.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: One 1000-word assignment (30%), one 2-hour final test (40%), one 1000-word assignment (30%)

Preliminary Reading:

Ginsborg, P. *Italy and its discontents: family, civil society, state 1980-2001*, Penguin 2003

ITA2ADA ITALIAN ADVANCED 2A (20. CPs Sem. TE-SEM-1 BU.) *Dr Nicole*

Prunster

In this unit students extend their knowledge of the structures and vocabulary of the Italian language by the use of graduated material including written texts and web sites, which also serve to enhance the students' understanding of many of the foremost issues in Italian society today.

Prerequisite: ITA1ADB or coordinator's approval.

Incompatible unit: ITA3BEA

Class requirements: One 1-hour lecture and two 1-hour seminars per week.

Assessment: Continuous assessment (based on oral participation in class and written exercises) (35%), one 1-hour written test (15%), one oral class test (15%), one 2-hour final examination (35%)

Prescribed Reading:

Lazzarino, G. and Moneti, A. *Da capo* 5th edn. Thomson Heinle 2003

Students should possess a good Italian/English dictionary

ITA2ADB ITALIAN ADVANCED 2B (20. CPs Sem. TE-SEM-2 BU.) *Dr Nicole*

Prunster

In this unit students continue as in Italian Advanced 2A to advance their understanding of Italian society and the structures and usage of the language.

Prerequisite: ITA2ADA or coordinator's approval.

Incompatible unit: ITA3BEB

Class requirements: One 1-hour lecture and two 1-hour seminars per week.

Assessment: Continuous assessment (based on oral participation in class and written exercises) (35%), one 1-hour written test (15%), one oral class test (15%), one 2-hour final examination (35%)

Prescribed Reading:

Lazzarino, G. and Moneti, A. *Da capo* 5th edn. Thomson Heinle 2003
Students should possess a good Italian/English dictionary

ITA2BEA ITALIAN BEGINNERS 2A (20. CPs Sem. TE-SEM-1 BU.) *Mr*

Antonio Pagliaro

In this unit students develop oral and written proficiency in Italian and introduce the student to the culture of modern Italy. Audio-visual material, newspaper articles, and texts on contemporary Italian society are used to develop students' competence in speaking, reading, and writing and to broaden their knowledge of Italian culture and society.

Prerequisite: ITA1BEB.

Class requirements: One 1-hour lecture, two 1-hour language workshops, one 1-hour conversation class, and one 1-hour seminar per week.

Assessment: Language: class participation and regular written assignments, (20%), one 1-hour written test, (20%), one 1-hour final examination (20%), Non-language: class participation (including a class presentation) (20%), one 1000-word essay, (20%)

Prescribed Reading:

Branciforte, S. and Grassi, A. *Parliamo italiano!* 3rd edn. Houghton Mifflin 2006
Branciforte, S. and O'Connor, B. *Parliamo italiano!*
Workbook/laboratory and video manual 3rd edn. Houghton Mifflin 2006

ITA2BEB ITALIAN BEGINNERS 2B (20. CPs Sem. TE-SEM-2 BU.) *Mr*

Antonio Pagliaro

Students build on the work commenced in Italian Beginners 2A to achieve a firm grounding in the language and an overview of Italy through its literature. Students will thus be equipped for more specialised study at third year level.

Prerequisite: IT2BEA or coordinator's approval.

Class requirements: One 1-hour lecture, two 1-hour language workshops, one 1-hour conversation class, and one 1-hour seminar per week.

Assessment: Language: class participation and regular written assignments (20%), one 1-hour written test (20%), one 1-hour final examination (20%), Non-language: class participation (including a class presentation) (20%), one 1000-word essay (20%)

Prescribed Reading:

Comencini, C. *Due partite*, Feltrinelli 2006
Branciforte, S. and Grassi, A. *Parliamo italiano* 3rd edn. Houghton Mifflin 2006
Branciforte, S. and O'Connor, B. *Parliamo italiano!*
Workbook/laboratory and video manual 3rd edn. Houghton Mifflin 2006

ITA2ITT ITALIAN TRANSLATION (20 CPs Sem. TE-SEM-2 BU.) *Mr Antonio*

Pagliaro

This is intended as a practical introduction to translating, principally from Italian to English, but also vice versa. Students study examples of translation from a number of fields including literature, bureaucracy, and advertising. They undertake shorter translation tasks as well as a longer translation in a field of their choice. The unit also includes an introduction to the theory of translation.

Prerequisite: ITA12ADB or ITA22BEB.

Class requirements: The distance-learning package (Web CT) is divided into 13 sessions, each the equivalent of a three-hour classroom session including on-line tutorials. .

Assessment: One 2-hour test (40%), eight translation exercises (equivalent 3000-words) (60%)

Prescribed Reading:

Baker, M. *In other words, a course book on translation* Routledge 1992

ITA2MEI MEDIEVAL ITALY (20. CPs Sem. TE-SEM-2 BU.) *Mr Antonio*

Pagliaro, Dr Nicole Prunster

This unit is offered at third year level also.

Not available in 2008

ITA2SAP STUDY ABROAD ITALY (20 CPs Sem. TE-SEM-S BU.) *Mr Antonio*

Pagliaro

This unit is offered at third year level also.

Not available in 2008

ITA3ADA ITALIAN ADVANCED 3A (20. CPs Sem. TE-SEM-1 BU.) *Mr*

Antonio Pagliaro

In this unit students develop advanced communicative skills. The purpose of the unit is to raise students to the threshold of language professionalism in spoken and written communication, understanding of contemporary Italy, discrimination between varieties of discourse and communicative situations. Students are provided with an introduction to specific skills, including reporting and summarising. The student's range of vocabulary, idiom, and syntactic resources is systematically extended using a wide variety of audio, video, and print materials. Each student pursues a thematic language project in Italian, maximising use of developing language resources around a topic or issue of personal interest. This unit is compulsory for students undertaking any subject in Italian at third year level in the A-stream.

Prerequisite: ITA2ADB or ITA3BEB.

Class requirements: Three hours of practical language per week.

Assessment: Eight 250-word assignments (20%), two 50-minute tests (40%), two 10-minute oral tasks (25%), and one 10-minute oral examination (15%)

Preliminary Reading:

De Rome, D. *Soluzioni!* – A practical guide to Italian grammar Arnold 2003

Prescribed Reading:

All students are required to possess their own Italian dictionary. Calvino, I.

Se una notte d'inverno un viaggiatore Einaudi

ITA3ADB ITALIAN ADVANCED 3B (20. CPs Sem. TE-SEM-2 BU.) *Mr*

Antonio Pagliaro

In this unit students develop bilingual skills in Italian and English. The unit is compulsory for students undertaking any subject in Italian at third year level in the A-stream. We aim to raise students to the threshold of language professionalism in terms of bilingual skills such as translating, interpreting and cross lingual information gathering. Students also pursue their own thematic language project.

Prerequisite: ITA3ADA.

Class requirements: three hours of practical language per week.

Assessment: eight 250-word assignments (20%), two 50-minute tests (40%), two 10-minute oral tasks (25%), one 10-minute oral examination (15%)

Preliminary Reading:

Hervey, S., Higgins, I., Cragie, S. and Gambarotta, P. *Thinking Italian translation* Routledge 2000

Prescribed Reading:

All students are required to possess an adequate Italian-English and English-Italian dictionary of their own. Calvino, I.

Se una notte d'inverno un viaggiatore Einaudi

ITA3BEA ITALIAN BEGINNERS 3A (20. CPs Sem. TE-SEM-1 BU.) *Dr Nicole*

Prunster

This unit is available to students who have already attained basic competence in spoken and written Italian. In the unit, students will broaden their knowledge of the structures and vocabulary of the Italian language by the use of graduated material including written texts and web sites, which serve to enhance the students' understanding of many of the foremost issues in Italian society today.

Prerequisite: ITA2BEB or coordinator's approval.

Incompatible unit: ITA2ADA

Class requirements: three 1-hour language classes and one 1-hour conversation class per week.

Assessment: continuous assessment (based on oral participation in class and written exercises) (35%), one oral class test (15%), one 1-hour written test (15%), one 2-hour final examination (35%)

Prescribed Reading:

Japanese

Program Coordinator: Dr Lidia Tanaka.

The Japanese Program offers undergraduate studies from beginner to honours level and postgraduate studies. Two entry-level units are available to cater for students with differing levels of language proficiency: the beginners' stream and post-VCE stream. A placement test and interview may be used to determine a student's suitability for entry into one of these streams.

The primary aim of the program is to enable students to gain a high level of language competence in modern Japanese and to develop an interest in a specific area of Japanese studies. La Trobe University has staff who specialise in Japanese literature, sociolinguistics, sociology and anthropology, cinema studies and politics. Students are

encouraged to take Japan-related units offered by these experts (and listed below) towards their Japanese major.

Students who wish to prepare for honours and/or postgraduate studies are strongly encouraged to complete some units in another discipline (e.g., literature or sociology) as well as their language studies.

Students can participate in an in-country study program (six or eleven months) as part of their degree through La Trobe's exchange agreements with the following institutions: Kyoto Tachibana University, Hiroshima University, Kumamoto Gakuen University, Saga University, Soka University, Ritsumeikan Asia-Pacific University, Akita International University and Momoyama University. Students who have studied Japanese at La Trobe for at least one year and have obtained at least a B average in their Japanese units are eligible to apply to participate in these programs.

Students must seek permission from the Asian Studies Convenor in advance if they wish to take up this option.

Programs of study

To qualify for a degree with a major in Japanese, a student must normally complete 110 credit points of Japanese 1, Japanese 2 and Japanese 3 and at least another 20 credit points at third year level from the units listed below.

Students wishing to qualify as language teachers in schools are required to complete the third year advanced level of the language. It is a requirement to take the language as a method in the Diploma of Education.

Teaching period	Unit title	Unit code
First year units (15 credit points)		
TE-SEM-1	Japanese Advanced 1A	JPN1ADA
TE-SEM-1	Japanese Beginners 1A	JPN1BEA

TE-SEM-2	Intercultural Performance ¹	DRA2IPF/DRA3IPF
TE-SEM-2	Language in Asia ¹	LIN2LIA/LIN3LIA
TE-SEM-2	Popular Asian Cinema ¹	AST2PAC/AST3PAC
TE-SEM-2	Society and state in Japan and China	AST2EAS/AST3EAS
Third year units (20 credit points)		
TE-SEM-1	Japanese Advanced 3A	JPN3ADA
TE-SEM-1	Japanese Beginners 3A	JPN3BEA
TE-SEM-2	Japanese Advanced 3B	JPN3ADB
TE-SEM-2	Japanese Beginners 3B	JPN3BEB
TE-SEM-2	Translation and Discussion B	JPN3TDB

Key: ¹ Not available in 2008.

Honours

Students wishing to undertake an honours year in Japanese should normally have completed a 130-credit point Japanese major, including 60 credit points at third year level, of which 20 credit points must be JPN3TDB Translation and Discussion B. Students are expected to attain at least a B average in the units that make up their Japanese major in the second and third years if they wish to qualify for entry to honours. Students wishing to do honours must consult with the Honours Coordinator at the end of their second year. The honours course has two components:

- coursework: students complete 60 credit points of coursework in their honours year,
- thesis: a 12000 to 15000 word minor thesis, in English, which must be written on a topic agreed upon between the student and their supervisor. The thesis must be based on original research which extensively uses materials—primary and secondary texts and/or other forms of data—in the Japanese language.

A full description of these units (including the unit name, unit code, credit points, campus/location, unit coordinator, class requirements, assessment, prerequisites, and readings) appears at the end of each

discipline entry. A full description of JPN units appears below. For the most recent descriptions of all units, please access the unit database at www.latrobe.edu.au/udb_public.

UNIT DESCRIPTIONS

JPN1ADA JAPANESE ADVANCED 1A (15. CPs Sem. TE-SEM-1 BU.) Dr

Lidia Tanaka

In this unit students aim to consolidate and develop basic knowledge of Japanese. It is designed to build up the student's intermediate competence in speaking, reading, and writing and brings the total number of characters learnt to approximately 250.

Prerequisite: VCE Japanese or coordinator's approval.

Incompatible unit: JPN2BEA

Class requirements: four 1-hour workshops.

Assessment: tutorial exercises (5%), one 1.5-hour written test (30%), one 15-minute oral and one aural test (25%), homework exercises (10%), one 1.5-hour written test (30%)

Preliminary Reading:

Makino, S. and Tsutsui, M. *A dictionary of basic Japanese grammar* The Japan Times 1986.

Nelson, A. N. *Japanese-English character dictionary* Tuttle 1997.

Progressive Japanese English dictionary Shogakukan 1986.

Prescribed Reading:

Banno, E. et al. *Genki Vol. 2* The Japan Times 1999

JPN1ADB JAPANESE ADVANCED 1B (15. CPs Sem. TE-SEM-2 BU.) Dr

Lidia Tanaka

In this unit students aim to consolidate and develop basic knowledge of Japanese. It is designed to build up the students' intermediate competence in speaking, reading, and writing. Building on the knowledge gained in JPN1ADA, this unit brings the total number of characters learnt to approximately 450.

Prerequisite: JPN1ADA or coordinator's approval.

Incompatible unit: JPN2BEB

Class requirements: four 1-hour workshops.

Assessment: tutorial exercises (5%), one 1.5-hour written test (30%), one 15-minute oral and one 40-minute aural test (25%), homework exercises (10%), one 1.5-hour written test (30%)

Preliminary Reading:

Makino, S. and Tsutsui, M. *A dictionary of basic Japanese grammar* The Japan Times 1986.

Nelson, A. N. *Japanese-English character dictionary* Tuttle 1997.

Progressive Japanese English dictionary Shogakukan 1986.

Prescribed Reading:

Banno, E. et al. *Genki Vol. 2* The Japan Times 1999

JPN1BEA JAPANESE BEGINNERS 1A (15. CPs Sem. TE-SEM-1 BU.) Dr

Lidia Tanaka

This is an introductory level language unit focusing on contemporary spoken and written Japanese. Students are provided with the ability to communicate in Japanese in various situations that they can encounter in Australia and Japan and to read and write at an elementary level. The hiragana and katakana syllabic scripts are taught, along with approximately 40 kanji characters.

Class requirements: one 1-hour lecture and three 1-hour workshops per week.

Assessment: two 1-hour written tests (50%), one 10-minute oral and one 30-min aural test (20%), tutorial exercises (5%), weekly 5-minute quiz (10%), homework exercises (15%)

Prescribed Reading:

Banno, E. et al. *Genki Vol. 1* The Japan Times 1999

JPN1BEB JAPANESE BEGINNERS 1B (15. CPs Sem. TE-SEM-2 BU.) Dr

Lidia Tanaka

In this introductory level language unit, students focus on contemporary spoken and written Japanese. They are provided with the ability to communicate in Japanese in various situations that they can encounter in Australia and Japan and to read and write at an elementary level. Building on the knowledge gained in JPN1BEA,

this unit brings the total number of kanji learnt to approximately 115.

Prerequisite: JPN1BEA or coordinator's approval.

Class requirements: one 1-hour lecture and three 1-hour workshops per week.

Assessment: two 1-hour written tests (50%), one 10-minute oral and one 30-min aural test (20%), tutorial exercises (5%), weekly 5-minute quiz (10%), homework exercises (15%)

Prescribed Reading:

Banno, E. et al. *Genki Vol. 1* The Japan Times 1999

JPN2ADA JAPANESE ADVANCED 2A (20 CPs Sem. TE-SEM-1 BU.) Dr

Kaori Okano

In this unit students consolidate the knowledge of Japanese acquired at the intermediate level and develops it to an advanced level. The total number of characters studied by the end of the course is approximately 600. The unit includes further study of grammar, the reading, writing and translation of advanced Japanese prose, and a further development of conversation skills.

Prerequisite: JPN1ADB or coordinator's approval.

Incompatible unit: JPN3BEA

Class requirements: four 1-hour workshops per week.

Assessment: one 2-hour mid-semester test (40%), three 5-minute oral and one 20-minute aural test (20%), one 2-hour end of semester test (40%)

Prescribed Reading:

Toki, S. et al. *Intermediate Japanese, J301*, 3A Corporation 1999

JPN2ADB JAPANESE ADVANCED 2B (20 CPs Sem. TE-SEM-2 BU.) Dr

Kaori Okano

In this unit students consolidate the knowledge of Japanese acquired at the intermediate level and develop it to an advanced level. The total number of characters studied by the end of the course is approximately 900. The unit includes further study of grammar, the reading, writing and translation of advanced Japanese prose, and a further development of conversation skills.

Prerequisite: JPN2ADA or coordinator's approval.

Incompatible unit: JPN3BEB

Class requirements: four 1-hour workshops per week.

Assessment: one 2-hour mid-semester test (40%), three 5-minute oral and one 30-minute aural test (20%), one 2-hour end of semester test (40%)

Prescribed Reading:

Toki, S. et al. *Intermediate Japanese J301*, 3A Corporation 1999

JPN2BEA JAPANESE BEGINNERS 2A (20 CPs Sem. TE-SEM-1 BU.) Dr Lidia

Tanaka

In this unit, students will aim to consolidate and develop basic knowledge of Japanese acquired at the first year level. The unit is designed to help students build up intermediate competence in speaking, reading, and writing. Building on the knowledge gained in Japanese Beginners 1B, this unit brings the total number of characters learnt to approximately 250.

Prerequisite: JPN1BEB or coordinator's approval.

Incompatible unit: JPN1ADA

Class requirements: four 1-hour workshops per week.

Assessment: one 1.5-hour mid-semester test (30%), one 10-minute oral and one 30-minute aural test (20%), weekly 10-minute test (equivalent 500-words) (10%), one 2-hour end of semester test (40%)

Prescribed Reading:

Banno, E. et al. *Genki Vol. 2* The Japan Times 1999.

Recommended Reading:

Makino, S. and Tsutsui, M. *A dictionary of basic Japanese grammar* The Japan Times 1986.

Progressive Japanese-English dictionary Shogakukan 1986.

JPN2BEB JAPANESE BEGINNERS 2B (20 CPs Sem. TE-SEM-2 BU.) Dr Lidia

Tanaka

In this unit students consolidate and develop the basic knowledge of Japanese acquired at the first year level. The unit allows students to build towards intermediate competence in speaking, reading, and

writing. Building on the knowledge gained in Japanese Beginners 2A, this unit brings the total number of characters learnt to approximately 450.

Prerequisite: JPN2BEA or coordinator's approval.

Incompatible unit: JPN1ADB

Class requirements: four 1-hour workshops per week.

Assessment: one 1.5-hour mid-semester test (30%), one 10-minute oral and one 30-minute aural test (20%), weekly 10-minute test (equivalent 500-words) (10%), one 2-hour end of semester test (40%)

Prescribed Reading:

JPN2TDA TRANSLATION AND DISCUSSION A (20 CPs Sem. TE-SEM-2 BU.) *Dr Lidia Tanaka*

This is a lower intermediate unit in Japanese in which students are expected to read, translate, and critically discuss a range of representative writings in Japanese. These include short stories, newspaper articles and readings in Japanese history, sociology, and politics, and so on.

Prerequisite: JPN2BEA or JPN2ADA.

Class requirements: one 3-hour workshop per week.

Assessment: one 2-hour written examination (30%), group discussion and written assignment (25%), weekly quiz (15%), one 2-hour written examination (30%)

Recommended Reading:

Makino, S. and Tsutsui, M. *A dictionary of basic Japanese grammar* The Japan Times 1986.

Nelson, A. N. *Japanese-English character dictionary* Tuttle 1997.

Progressive Japanese English dictionary Shogakukan 1986.

JPN3ADA JAPANESE ADVANCED 3A (20 CPs Sem. TE-SEM-1 BU.) *Dr Lidia Tanaka*

In this unit students further develop language competence and are offered an introduction to modern Japanese society and culture through reading selections from novels, short stories, essays and newspapers. Building on previous knowledge, this unit brings the total number of characters studied to approximately 1,300.

Prerequisite: JPN2ADB, JPN3BEB, or coordinator's approval.

Class requirements: four 1-hour workshops per week.

Assessment: two in-class assignments (30%), one 2-hour end-of-semester test (30%), three 7-minute oral tests (30%), weekly 10-minute quiz (500 words equivalent) (10%)

Prescribed Reading:

Toki, S. et al. *Intermediate Japanese J501*, 3A Corporation 1999

Nelson, A. N. *Japanese-English character dictionary* Tuttle 1985.

Progressive Japanese-English dictionary Shogakukan 1986.

JPN3ADB JAPANESE ADVANCED 3B (20 CPs Sem. TE-SEM-2 BU.) *Dr Lidia Tanaka*

In this unit students further develop language competence and are offered an introduction to modern Japanese society and culture through reading selections from novels, short stories, essays and newspapers. Building on previous knowledge, this unit brings the total number of characters studied to approximately 1,800.

Prerequisite: JPN3ADA or coordinator's approval.

Class requirements: four 1-hour workshops per week.

Assessment: two in-class assignments (30%), one 2-hour end-of-semester test (30%), three 7-minute oral tests (30%), weekly 10-minute quiz (500 words equivalent) (10%)

Prescribed Reading:

Toki, S. et al. *Intermediate Japanese J501*, 3A Corporation 1999

Progressive Japanese-English dictionary Shogakukan 1986.

Recommended Reading:

Nelson, A. N. *Japanese-English character dictionary* Tuttle 1985.

JPN3BEA JAPANESE BEGINNERS 3A (20 CPs Sem. TE-SEM-1 BU.) *Dr*

Kaori Okano

In this unit students consolidate the knowledge of Japanese acquired at the intermediate level and develop it to an advanced level. The total number of characters studied by the end of the unit is approximately 600. The unit includes the reading, writing, and translation of advanced Japanese prose, lectures on Japanese culture and society, and a further development of conversation skills.

Prerequisite: JPN2BEB or coordinator's approval.

Incompatible unit: JPN2ADA

Class requirements: four 1-hour workshops per week.

Assessment: one 2-hour mid-semester test (40%), three 5-minute oral and one 30-minute aural test (20%), one 2-hour end of semester test (40%)

Prescribed Reading:

Toki, S. et al. *Intermediate Japanese J301*, 3A Corporation 1999

JPN3BEB JAPANESE BEGINNERS 3B (20 CPs Sem. TE-SEM-2 BU.) *Dr*

Kaori Okano

In this unit students consolidate the knowledge of Japanese acquired at the intermediate level and develop it to an advanced level. The total number of characters studied by the end of the unit is approximately 900. The unit includes the reading, writing, and translation of advanced Japanese prose, and a further development of conversation skills.

Prerequisite: JPN3BEA or coordinator's approval.

Incompatible unit: JPN2ADB

Class requirements: four 1-hour workshops per week.

Assessment: one 2-hour mid-semester test (40%), three 5-minute oral and one 30-minute aural test (20%), one 2-hour end of semester test (40%)

Prescribed Reading:

Toki, S. et al. *Intermediate Japanese J301*, 3A Corporation 1999

JPN3TDB TRANSLATION AND DISCUSSION B (20 CPs Sem. TE-SEM-2 BU.) *Dr Lidia Tanaka*

This is an advanced course in Japanese in which students are expected to read, translate, and critically discuss a range of representative writings in Japanese literature, newspaper articles, readings in Japanese history, sociology, politics, etc.

Prerequisite: JPN3BEA or JPN3ADA.

Class requirements: one 3-hour workshop per week.

Assessment: one 2-hour written test (40%), two 1000-word translation assignments (30%), two 10-minute oral tests (20%), tutorial exercises (10%)

Latin

Program Coordinator: Mr Antonio Pagliaro (Italian Program).

Latin is basic to the evolution of Romance languages and to the development of linguistic theories about grammar. Many disciplines, especially for research purposes, may require a reading knowledge of Latin. It is often necessary in art history, European history, music, and religious studies to be able to read documents, inscriptions and so on in Latin.

The aim of this discipline is to introduce the classical language and to develop reading skills in a wide variety of texts, from the classical through to the Renaissance periods. Presently only first year Latin is available, taught co-operatively by staff from Italian and other programs.

Teaching period	Unit title	Unit code

Legal studies

Legal studies is an interdisciplinary field of enquiry that focuses on contextualising, exploring, and critiquing law, its nature, operation, and effects. By utilising the insights of various disciplines (including criminology, sociology and cultural studies), legal studies offers students an opportunity to study how law's existence and operation involves the constant negotiation of complex and competing perspectives and demands. Legal studies equips students with the knowledge and skills needed to analyse law's place and role within broader economic, social and political contexts, and enables contemporary questions relating to law, social justice, crime and criminal justice to be pursued in a distinctive and rigorous way. The faculty offers legal studies in both the Bachelor of Legal Studies and as a major with the Bachelor of Arts degree.

Legal studies units, except those specifically offered only to students enrolled in the Bachelor of Legal Studies, are available to students enrolled in any faculty. The number of units that may be taken depends on the rules of the degree for which a student is enrolled.

Programs of study

Students who wish to satisfy the Bachelor of Arts degree requirements by taking a major in legal studies must take 130 credit points of legal studies: 30 credit points at first year level, 40 credit points at second year level and 60 credit points at third year level. Units that count towards a major in legal studies are listed below.

Teaching period	Unit title	Unit code
First year units (15 credit points)		
TE-SEM-1	Law and Society	LST1LAS
TE-SEM-1	Legal Practices ²	LST1LEP
TE-SEM-2	Crime and Criminology	LST1CCR
Second or third year units (20 credit points)		
TE-SEM-1	Aborigines and Law in Australia	LST2ALA/LST3ALA
TE-SEM-1	Civil War to Civil Rights in the USA	HIS2CWU/HIS3CWU
TE-SEM-1	Crime, Law and Culture	LST2CLC/LST3CLC
TE-SEM-1	Critical Social Policy ¹	SOC2CSP/SOC3CSP
TE-SEM-1	Deviance, Criminality and Social Control ¹	SOC2DCS/SOC3DCS
TE-SEM-1	Discrimination and the Law	LST2DAL/LST3DAL
TE-SEM-1	The European Union	HIS2EUU/HIS3EUU
TE-SEM-1	International Law and International Organisation	POL2ILO/POL3ILO

TE-SEM-1	Introduction to American Politics	POL2IAP/POL3IAP
TE-SEM-1	Introduction to Social Research Methods	SOC2MSR/SOC3MSR
TE-SEM-1	Reconciliation	POL2REC/POL3REC
TE-SEM-2	Australian Aboriginal History ¹	HIS2AAH/HIS3AAH
TE-SEM-2	Crime and Psychology	LST2CAP/LST3CAP
TE-SEM-2	Law, Rights and Social Justice	LST2LSJ/LST3LSJ
TE-SEM-2	Peace and Change	POL2PAC/POL3PAC
TE-SEM-2	Punishment in Context	LST2PIC/LST3PIC
TE-SEM-2	Social Policy, Welfare and the State	SOC2SWS/SOC3SWS
TE-SEM-2	Social Theories of Deviance	SOC2STD/SOC3STD
TE-SEM-2	Violence and the Cinema ¹	CST2VAC/CST3VAC

Third year units (20 credit points)

Wk 02-07	Legal Studies Workplace Practice ²	LST3LSW
TE-SEM-1	Reading Course A	LST3RCA
TE-SEM-2	Reading Course B	LST3RCB

Key: ¹ Not available in 2008.

² Only available to students enrolled in the Bachelor of Legal Studies.

Honours

This is a full-year program available to students who wish to have the opportunity to pursue their interests more deeply through fourth year units and a research thesis. To be eligible for honours students should normally have completed a three-year pass degree with achievement of at least a B average in undergraduate legal studies units.

The course comprises a research thesis and two fourth year honours units. Students complete a 12000-word research thesis. Research extends throughout the honours year and requires each student to produce a thesis on the chosen topic under supervision. Prospective candidates are strongly advised to identify a thesis topic and arrange for supervision prior to the end of their third year in the bachelor program.

The units will be selected with the advice and consent of the Legal Studies Honours Coordinator.

A full description of these units (including the unit name, unit code, credit points, campus/location, unit coordinator, class requirements, assessment, prerequisites, and readings) appears at the end of each discipline entry. A full description of LST units appears below. For the most recent descriptions of all units, please access the unit database at www.latrobe.edu.au/udb_public.

UNIT DESCRIPTIONS**LST1CCR CRIME AND CRIMINOLOGY** (15 CPs Sem. TE-SEM-2 BU.) *Dr Sue Davies*

A critical introduction to the study of criminology is offered. The emergence of different criminological perspectives and methods are traced and the effects and implications of these for defining, explaining, and responding to crime are explored. The relationship between criminology, criminal justice systems, social policy, and social order are explored through reference to contemporary issues, debates and practice relating to crime and criminals, and 'law and order'.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: One 2000-word essay (50%), one 2-hour examination (50%)

Prescribed Reading:

CCR materials book available from bookshop **Recommended Reading:**

White, R. and Haines, F. *Crime and Criminology* Oxford University Press, 2001

LST1LAS LAW AND SOCIETY (15. CPs Sem. TE-SEM-1 BU.) *Dr Sue Davies*

Through the analysis of a number of case studies, students will develop an understanding of the operation of common law systems. Students also will be provided with the skills to assist them in commenting on law in its social context. Students will consider key concepts such as the 'rule of law' in the light of current national and international issues and the trend towards globalisation.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: One 2000-word essay (50%), one 2-hour examination (50%)

Prescribed Reading:

Horrigan, B. *Adventures in law and justice*, University of NSW Press 2003

LST1LEP LEGAL PRACTICES (15 CPs Sem. TE-SEM-1 BU.) *Dr Nicola Henry*

Only available to students in the Bachelor of Legal Studies.

In this subject, students will be introduced to basic legal concepts and skills relating to law making, judicial process, statutory interpretation, and legal research. Students will explore ways in which legal knowledge and practices are applied in different practical contexts, including courts and tribunals, law firms and community legal centres, community organisations, and government departments and agencies. The varied ways in which the law and legal knowledge contributes to the resolution of disputes, the investigation of social problems, and the formulation and evaluation of policy will be explored, as will the ethical dimensions of practicing law. A range of practitioners and professionals will offer insights into how legal knowledge and skills relate to the work that they do.

Incompatible unit: LAW11LIM

Class requirements: One 3-hour seminar per week.

Assessment: One 1500-word court report (40%), one 2-hour take-home exam (50%), one 30-minute multiple-choice examination (10%)

Prescribed Reading:

LST1LEP: Legal Practices Material book (to be purchased at bookshop)

LST2ALA ABORIGINES AND LAW IN AUSTRALIA (20. CPs Sem. TE-SEM-1 BU.) *To be advised*

This unit is offered at third year level also.

Issues relevant to the involvement and interaction of indigenous Australians with the law are addressed in this unit, with content reflecting the most topical and challenging legal issues relevant to indigenous Australians. The focus may vary from issues particularly relevant to criminal law (issues of evidence, the recognition of Aboriginal customary law), to property law (the questions raised by the 'Mabo' and 'Wik' decisions, the Native Title Act 1993 and their implications for resource and planning law). In addition to these main areas of study, we may consider issues relevant to domestic constitutional treaty law and its relevance for indigenous people in Australia, along with the operation of human rights and cultural heritage legislation.

Prerequisite: 30 credit points of first year legal studies.

Class requirements: One 2-hour seminar and one 1-hour lecture or workshop per week.

Assessment: One 2000-word essay (40%), one 3000-word essay (60%). Third year students will be expected to show a greater achievement of discipline-specific skills in their written work than second year students.

Prescribed Reading:

McRae, H., Nettheim, G. and Beacroft, L. *Indigenous legal issues* LBC Information Services 1997

LST2CAP CRIME AND PSYCHOLOGY (20. CPs Sem. TE-SEM-2 BU.)

Coordinator to be advised

This unit is offered at third year level also.

Selected psychological aspects of criminal behaviour (for example the relationship between mental disorder and crime, or offending and antisocial personality disorder) are examined. Arson, homicide (including serial killings and mass murder), and the profiling of offenders are examined in order to investigate the utility of psychological approaches to understanding criminal behaviour and crime investigation.

Prerequisite: 30 credit points of first year legal studies.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: One 2500-word essay (50%), one 2.5-hour open-book examination (50%). Third year students will be expected to show a greater achievement of discipline-specific skills in their written work than second year students.

Prescribed Reading:

Hollin, C. *Psychology and crime: an introduction to criminological psychology*, Routledge and Kegan Paul 1989

Feldman, P. *Psychology of crime*, Cambridge UP 1993

LST2CLC CRIME, LAW AND CULTURE (20 CPs Sem. TE-SEM-1 BU.) *Dr Sue Davies*

This unit is offered at third year level also.

In this unit, interdisciplinary scholarship and critical theory are used to examine the dynamic and complex relationship that exists between crime, law, and culture. We examine a diverse range of offences and their representation in legal, criminological, and popular domains. We explore how the manner in which crime is defined, enacted, dealt with, and interpreted relates to ever changing cultural, political, and economic contexts. We explore the significance of the representation of crime and law to broader issues of social order and power relations and the usefulness of critical interdisciplinary perspectives for understanding and responding to crime today.

Prerequisite: 30 credit points of first year legal studies.

Incompatible unit: LST22CSP, LST32CSP

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: One 1500-word essay (30%), one 2500-word research essay (50%), written tutorial exercises (1000-words equivalent) (20%). Third year students will be expected to show a greater achievement of discipline-specific skills in their written work than second year students.

Prescribed Reading:

CLC Materials book available from La Trobe Bookshop

LST2DAL DISCRIMINATION AND THE LAW (20. CPs Sem. TE-SEM-1 BU.)

Dr Nicola Henry

This unit is offered at third year level also.

Intersecting social and cultural forces in Australian society categorise citizens, often in ways that form the basis of, or legitimate, inequality. The nature of discrimination will be examined in the context of historical analysis and on ongoing attitudes or theories about identity, citizenship and the role of the legal system. Students gain an understanding of how social ordering, political imperatives and discrimination shape law and begin to think critically about prejudice and unequal treatment, the possibilities and limits of anti-discrimination measures, the concepts of formal and substantive equality and the pros and cons of affirmative action. We will focus on a number of topics: race, immigration, gender, disability, sexuality, and age.

Prerequisite: 30 credit points of first year legal studies or gender, sexuality and diversity studies or coordinator's approval.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: Written tutorial exercises (1000-words equivalent) (15%), one 1,200-word essay (25%), one 3000-word research essay (60%). Third year students will be expected to show a greater achievement of discipline-specific skills in their written work than second year students.

LST2LSJ LAW, RIGHTS AND SOCIAL JUSTICE (20. CPs Sem. TE-SEM-2 BU.)

Dr Nicola Henry

This unit is offered at third year level also.

In this unit students examine the relationships between law, human rights, and social justice. An overview of both national and international legal systems for the protection of human rights is offered. The topics include: the rights of the child, employment and income rights, asylum seekers and refugees, counter-terrorism, globalisation, armed conflict and genocide. Specific current issues in social justice are examined with a focus on both current and proposed strategies for ameliorating injustice and the difficulties inherent in this process. There is a strong focus on relating the material to everyday societal behaviours and prejudices, equipping students with the knowledge to involve themselves in the relevant activities or organisations active in the social justice arena.

Prerequisite: 30 credit points of first year legal studies.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: One 3000-word research essay (60%), one 2000-word take-home examination (40%). Third year students will be expected to show a greater achievement of discipline-specific skills in their written work than second year students.

LST2PIC PUNISHMENT IN CONTEXT (20 CPs Sem. TE-SEM-2 BU.) *Dr Sue Davies*

This unit is offered at third year level also.

In this unit, we explore legally sanctioned punishment as both a concept and a practice. We examine the philosophical, legal, and social significance attached to punishment as a response to crime and disorder, as well as tracing the different ways in which punishment has historically been understood, manifested, and analysed. Major shifts in practices of punishment are considered, with particular attention being paid to the emergence, nature, and role of the modern prison. The relationship between formal modes of punishment and everyday social practices is also explored.

Prerequisite: 30 credit points of first year legal studies.

Class requirements: One 2-hour lecture and one 1-hour tutorial per week.

Assessment: One 1500-word essay (30%), one 2500-word research essay (50%), written tutorial exercises (1000-words equivalent) (20%). Third year students will be expected to show a greater achievement of discipline-specific skills in their written work than second year students.

LST3LSW LEGAL STUDIES WORKPLACE PRACTICE (20 CPs Sem. TE-W02-07 BU.) *Dr Sue Davies*

Only available to students enrolled in the Bachelor of Legal Studies

In this unit, students completing the Bachelor of Legal Studies are provided with an overview of vocational pathways and applied practices in government and community sectors. Topics covered include: the structure and functions of government departments, statutory and community organizations; the interface between these and the legal system, in particular the criminal justice system and community corrections; the types of positions and programs that exist within these sectors; an overview of relevant terms, concepts and processes, such as research and policy development, community consultation, case-management, mentoring, advocacy, evaluation and tendering; the composition of client groups and the range of experiences, issues, and problems commonly presented; and the experiences of practitioners working in these sectors and their ethical and legal responsibilities.

Prerequisite: Completion of second year of the Bachelor of Legal Studies degree.

Class requirements: 39 contact hours over the period of a 5-day summer school.

This unit is not available for Study Abroad students.

Assessment: One 2000-word essay (40%), one 3-hour examination (60%). Third year students will be expected to show a greater achievement of discipline-specific skills in their written work than second year students.

LST3RCA READING COURSE A (20 CPs Sem. TE-SEM-1 BU.) *Dr Sue Davies*

A limited number of students may be permitted to take an individual reading subject. After consultation with an appropriate member of staff who agrees to act as a supervisor, students wishing to take this unit must submit an outline of the proposed topic and a preliminary bibliography to the unit coordinators for approval. Students may normally enrol in this unit only if they have already completed all other optional subjects available.

Prerequisite: Requires coordinator's approval.

Incompatible unit: LST3RCB

Class requirements: Regular meetings with nominated supervisor.

Assessment: One 5000-word essay (100%)

LST3RCB READING COURSE B (20 CPs Sem. TE-SEM-2 BU.) *Dr Sue Davies*

A limited number of students may be permitted to take an individual reading subject. After consultation with an appropriate member of

staff who agrees to act as a supervisor, students wishing to take this unit must submit an outline of the proposed topic and a preliminary bibliography to the unit coordinators for approval. Students may normally enrol in this unit only if they have already completed all other optional subjects available.

Prerequisite: Requires coordinator's approval.

Incompatible unit: LST3RCA

Class requirements: Regular meetings with nominated supervisor.

Assessment: One 5000-word essay (100%)

See LST2PIC for full unit description.

Linguistics

Program Coordinator: Professor Randy J. LaPolla.

Linguistics, broadly defined, is the analytical study of language and communication. It is concerned with human language in general, as well as with the structure of individual languages. As a discipline, it examines the design of language, how language relates to thought, how it functions in communication, how it functions in society, how it develops and changes, and how it is acquired and learned.

The main branches of study include applied (the application of linguistics to other domains such as teaching), historical (the study of language change), morphology (the study of word formation), phonetics (the study of sounds), phonology (the study of sound systems and syllable structure), psycholinguistics (the study of child language acquisition and processing), semantics (the study of meaning), sociolinguistics (the sociology of language and the study of variation in language related to social function), syntax (the study of sentence formation), and discourse analysis (the study of the organisation of language in communication).

The Linguistics Program emphasises basic techniques of description and analysis, empirically based inductive theoretical linguistics and applications of linguistics. The staff has expertise in a wide range of language areas. These include Australian Aboriginal languages; English (including Australian and other varieties of English); European languages; and the languages of China, South East Asia, and Papua New Guinea.

Linguistics is of interest to students of languages, archaeology, history, cognitive science, computer science, English, philosophy, politics, psychology, anthropology, gender studies, and sociology. Knowledge of linguistics is particularly useful for students interested in foreign and native language teaching. Students who are qualifying for a degree with a major in Aboriginal studies, Ancient Greek, archaeology, Asian studies, Australian studies, Chinese, cognitive science, Italian studies, Japanese, logic, or philosophy should note that some linguistics units might be credited to such majors. Students who would find a knowledge of English grammar of use in careers such as teaching should consider taking LIN1NLA The Nature of Language and Communication A, LIN1NLB The Nature of Language and Communication B and LIN2EUG/LIN3EUG English: a user's guide. The Linguistics Program welcomes part-time students and offers lectures and tutorials after 5pm in the first year units.

Programs of study

To qualify for a major in linguistics, a student must take 130 credit points in the discipline: 30 at first year level, 40 at second year level, and 60 at third year level. The 130 credit points must normally include the two first year units LIN1NLA The Nature of Language and Communication A and LIN1NLB The Nature of Language and Communication B, and the second or third year units LIN2LIS/LIN3LIS Language in Society, LIN2PHP/LIN3PHP Phonetics and Phonology, LIN2SEM/LIN3SEM Semantics and Pragmatics, and LIN2SYN/LIN3SYN Syntax. The first year units serve as prerequisites for most higher level linguistics units. The third year version involves a more demanding set of assignments and essay topics.

Teaching period	Unit title	Unit code
First year units (15 credit points)		
TE-SEM-1	The Nature of Language and Communication A ³	LIN1NLA
TE-SEM-2	The Nature of Language and Communication B ³	LIN1NLB
Second or third year units (20 credit points)		
TE-SEM-1	Cross-cultural Communication	LIN2CCC/LIN3CCC
TE-SEM-1	Language Across Time	LIN2LAT/LIN3LAT
TE-SEM-1	Phonetics & Phonology: the sounds of language ³	LIN2PHP/LIN3PHP
TE-SEM-1	Syntax: the relationship between meaning and structure ³	LIN2SYN/LIN3SYN
TE-SEM-2	Advanced Phonetics	LIN2ADP/LIN3ADP
TE-SEM-2	Advanced Phonology ¹	LIN2APH/LIN3APH
TE-SEM-2	Bilingualism and Second Language Acquisition ¹	LIN2BSA/LIN3BSA
TE-SEM-2	English: a user's guide	LIN2EUG/LIN3EUG
TE-SEM-2	Language in Asia ¹	LIN2LIA/LIN3LIA
TE-SEM-2	Language in Society ³	LIN2LIS/LIN3LIS
TE-SEM-2	Semantics and Pragmatics: the relationship between meaning and use ³	LIN2SEM/LIN3SEM
Third year units (20 credit points)		
TE-SEM-1	Discourse Analysis	LIN3DAS
TE-SEM-1	Reading Course A ²	LIN3RCA
TE-SEM-2	Reading Course B ²	LIN3RCB

Key: ¹ Not available in 2008.

² Special prerequisites apply.

³ Core units.

Honours

The Linguistics Program welcomes applications from suitably qualified students for honours and postgraduate study in linguistics. Students wishing to enter the fourth year honours course in linguistics should normally have completed at least a 130-credit point major with a B average. Students who have not fulfilled this requirement should see the Honours Year Coordinator.

The Linguistics Honours Program consists of two coursework components and a thesis of 15000 words. A leaflet giving details of the honours program is available from the program office.

A full description of these units (including the unit name, unit code, credit points, campus/location, unit coordinator, class requirements, assessment, prerequisites, and readings) appears below. For the most recent descriptions of all units, please access the unit database at www.latrobe.edu.au/udb_public.

LIN1NLA THE NATURE OF LANGUAGE AND COMMUNICATION A (15. CPs Sem. TE-SEM-1 BU.) *Dr Marija Tabain*

In this unit, students are introduced to the formal study of language. We begin with a description of the sounds of speech, and move through basic grammatical concepts to a consideration of how language may be represented in the human mind. Although the emphasis is on English in certain parts of the unit, in others, it is on the diversity of human languages, and much time will be spent comparing and contrasting English with other languages of the world. The unit is therefore particularly suited to students of foreign languages as well as to students who wish to further their knowledge of English. The unit is also suited to students of psychology and computer science who wish to become acquainted with the nature of human language and with its role in human cognition.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: One assignment (400-words equivalent) (10%), two assignments (800-words equivalent each) (40%), one 2-hour examination (50%)

LIN1NLB THE NATURE OF LANGUAGE AND COMMUNICATION B (15 CPs Sem. TE-SEM-2 BU.) *Professor Randy J. La Polla*

In this unit students continue their introduction to the nature of language commenced in LIN1NLA, moving on to the grammatical structure of words, clauses (simple sentences) and larger structures of discourse, and also discussing how the meaning of words and utterances is determined by how they are used, and how language develops and changes over time. These concepts are illustrated by examples taken from a wide range of languages.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: Three assignments (1500-words equivalent) (45%), one 2-hour examination (40%), tutorial exercises (500-words equivalent) (15%)

LIN2ADP ADVANCED PHONETICS (20 CPs Sem. TE-SEM-2 BU.) *Dr Marija Tabain*

This unit is offered at third year level also.

In this unit, we will provide an introduction to the theory and practice of acoustic phonetics, as well as an introduction to important articulatory phonetics techniques such as electro-palatography (EPG) and electro-magnetic articulography (EMA). Students will also be provided with grounding in the analysis of intonation, with particularly emphasis on the ToBI (Tones and Break Indices) model. Theoretical background and practical analysis skills will be equally emphasised.

Prerequisite: LIN2/3PHP or LIN2/3PHT.

Class requirements: One 3-hour lecture/practical per week.

Assessment: One practical assignment on acoustic phonetics (2000-words equivalent) (40%), one practical assignment on articulatory phonetics (2000-words equivalent) (40%), one practical assignment on intonation (1000-words equivalent) (20%). Third year students will be expected to show a greater achievement of discipline-specific skills in their written work than second year students.

LIN2APH ADVANCED PHONOLOGY (20 CPs Sem. TE-SEM-2 BU.) *Dr Marija Tabain*

This unit is offered at third year level also.

Not available in 2008

LIN2BSA BILINGUALISM AND SECOND LANGUAGE ACQUISITION (20 CPs Sem. TE-SEM-2 BU.) *Dr Tonya Stebbins*

This unit is offered at third year level also.

Not available in 2008

LIN2CCC CROSSCULTURAL COMMUNICATION (20 CPs Sem. TE-SEM-1 BU.) *Dr Tonya Stebbins*

This unit is offered at third year level also.

In this unit students consider how key cultural values are embedded in language use and the consequent problems in cross cultural communication that may arise. Areas such as non-verbal communication, discourse organisation, key words, politeness, greetings, requests, and attitudes to emotion are looked at across cultures to determine how these relate to greater cultural values of collectivism versus individualism or preserving social harmony versus open confrontation. Greater understanding of such inter-ethnic differences minimises cross cultural miscommunication, and strategies to deal with these differences are suggested. Cultures studied include Anglo Australian and American, Aboriginal Australian, Native American as well as several Asian and European cultures.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: One 1000-word assignment (20%), one 2000-word essay (40%), two 1000-word assignments (40%). Third year students will be expected to show a greater achievement of discipline skills in their written work.

Recommended Reading:

Holliday, A., Hyde, M. and Kullman, J. *Intercultural communication: an advanced resource book*, Routledge 2004

LIN2EUG ENGLISH: A USER'S GUIDE (20 CPs Sem. TE-SEM-2 BU.) *Dr Tonya Stebbins*

This unit is offered at third year level also.

In this unit, the grammatical structure of English is explained and students will have the opportunity to develop skills in grammatical analysis. The grammatical and stylistic conventions associated with standard written English are discussed and the institutional and social foundations of current conventions are examined. A better understanding of these areas should allow students to write with greater clarity and confidence.

Prerequisite: 15 credit points of first year linguistics or coordinator's approval.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: Three 1000-word written assignments (60%), one 2000-word essay (40%). Third year students will be expected to show a greater achievement of discipline-specific skills in their written work than second year students.

Crystal, D *Cambridge encyclopaedia of the English language* Cambridge 2003

LIN2LAT LANGUAGE ACROSS TIME (20 CPs Sem. TE-SEM-1 BU.) *Dr David Bradley*

This unit is offered at third year level also.

All languages are constantly changing just as other aspects of human society are also constantly changing. How and why do these changes begin? How and why do they take hold and spread? How can we explain them? This unit is an introduction to the study of language over time. We will examine changes at all linguistic levels: vocabulary, meaning, sounds, and grammar. Examples are drawn from the history of a wide range of languages: European, Pacific, and Asian. Part of the unit also gives students practice in reconstructing lost stages of languages, using the internal and comparative methods of reconstruction.

Prerequisite: Any first year linguistics subject or coordinator's approval.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: Three assignment (500-words equivalent each) (30%), one major assignment (1500-words equiv) (30%), one 2-hour test (40%). Third year students are to show greater levels of achievement of discipline-specific skills than second year students.

Aitchison, J. *Language change: progress or decay?* 3rd edn. Cambridge UP 2001

LIN2LIA LANGUAGE IN ASIA (20 CPs Sem. TE-SEM-2 BU.) *Dr David Bradley*

This unit is offered at third year level also.

Not available in 2008

LIN2LIS LANGUAGE IN SOCIETY (20 CPs Sem. TE-SEM-2 BU.) *Coordinator to be advised*

This unit is offered at third year level also.

This unit deals with the nature and function of speech variation within communities: social, ethnic, and gender and age differences; non-standard speech forms and their social functions; bilingualism and language contact; language shift and language death. Variation across communities is also considered in terms of different speech patterns used in different cultures.

Prerequisite: Any linguistics unit. Students who do not have the prerequisite for this unit, but who wish to take it, are encouraged to consult the coordinator to seek possible approval for enrolment.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: One 2000-word research assignment (40%), one 1000-word assignment (20%), two 1-hour tests (40%). Third year students will be expected to show a greater achievement of discipline-specific skills in their written work than second year students.

Prescribed Reading:

Wardhaugh, R *An introduction to sociolinguistics* 4th edn, Blackwell 2002

LIN2PHP PHONETICS AND PHONOLOGY: THE SOUNDS OF LANGUAGE (20 CPs Sem. TE-SEM-1 BU.) *Dr Marija Tabain*

This unit is offered at third year level also.

In this unit, we will introduce the theory and practice of phonetics (the study of the production and perception of the sounds of human languages). Theoretical background and practical analysis skills will be equally emphasised. In the unit, we will cover both segmental and prosodic aspects of speech, and special emphasis will be on the analysis of sound patterns within and across languages.

Prerequisite: 15 credit points of first year linguistics or coordinator's approval.

Class requirements: One 1-hour lecture, one 1-hour tutorial and one 1-hour laboratory session per week.

Assessment: One project assignment (2000 words equivalent) (40%), one auditory test (750 words equivalent) (15%), one production test (750 words equivalent) (15%), one segmental transcription assignment (750 words equivalent) (15%), one prosody transcription assignment (750 words equivalent) (15%). Third year students are expected to show higher levels of achievement of discipline-specific skills than second year students.

LIN2SEM SEMANTICS AND PRAGMATICS: THE RELATIONSHIP

BETWEEN MEANING AND USE (20. CPs Sem. TE-SEM-2 BU.) *Professor*

Randy La Polla

This unit is offered at third year level also.

In this unit we focus on how we understand what someone is trying to communicate to us when they say or write something to us, especially how the particular words and structures are used for the purpose of getting us to understand just what the speaker intends. As what a word or structure means depends on how it is used, we will look at the physical and cultural contexts within which communication occurs, and the role they play in the communication of meaning.

Prerequisite: 15 credit points of Linguistics, or coordinator's approval.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: Two exercises (1,800-words equivalent) (36%), one 1-hour mid-term exam (20%), tutorial exercises (1,200 words) (24%), one 1-hour final exam (20%). Third year students will be expected to show a greater achievement of discipline skills in their written work

Prescribed Reading:

Green, G. M. *Pragmatics and natural language understanding*, 2nd edn, Lawrence Erlbaum Assoc 1996

LIN2SYN SYNTAX: THE RELATIONSHIP BETWEEN MEANING AND

STRUCTURE (20. CPs Sem. TE-SEM-1 BU.) *Professor Randy J. La Polla*

This unit is offered at third year level also.

Through readings, lecture material, tutorial practice and discussion, and hands-on assignments, students are introduced to the relationship between syntactic (sentence and phrase) structure and the expression of meaning, that is, how speakers use different structures when attempting to express different meanings. The focus is on an analysis

of English structure using M. A. K. Halliday's Systemic Functional Grammar, but it is hoped the students will be able to apply what they have learned about constituency, structural relations, and semantic relations when thinking about other languages and other theories of structure.

Prerequisite: Any first year Linguistics unit. Students who do not have the prerequisite for this unit, but who wish to take it, are encouraged to consult the coordinator to seek possible approval for enrolment.

Class requirements: Two 1-hour lectures and one 1-hour tutorial per week.

Assessment: One 1.5-hour mid-term exam (30%), analysis of self-selected text (1000-words equivalent) (20%), one 2.5-hour final exam (50%). Third year students will be expected to show a greater achievement of discipline specific skills in their written work.

Prescribed Reading:

Halliday, M.A.K. *An introduction to functional grammar*, 2nd edn. Arnold 1994

LIN3DAS DISCOURSE ANALYSIS (20 CPs Sem. TE-SEM-1 BU.) *Dr Tonya*

Stebbins

In this unit, we will focus on the analysis of language above the sentence level and will explore the core concepts and methods of Discourse Analysis. Particular themes include discourse organisation, ethnography of communication, identity and subjectivity, and power and ideology. By the completion of the unit, students will be able to conduct discourse analysis on a text with reference to its linguistic structures and make the theoretical stance informing the analysis explicit in the discussion. Students will develop skills in a range of techniques associated with different approaches to discourse analysis. Each seminar session will involve discussion and practical analysis using materials such as newspaper articles, legal documents, and transcripts of conversations, interviews and narratives, novels, advertising, government forms.

Prerequisite: LIN2/3SYN and LIN2/3SEM.

Class requirements: One 3-hour seminar per week.

Assessment: Two 1000-word seminar papers (40%), one 1000-word practical assignment (20%), one 2000-word essay (40%)

Prescribed Reading:

Jaworski, A. & Coupland, N *The discourse reader* 2nd edn., Routledge 2006.

LIN3RCA READING COURSE A (20. CPs Sem. TE-SEM-1 BU.) *Coordinator*

to be advised

A limited number of students may be permitted by the Program Coordinator to undertake an individual reading course by arrangement with an appropriate member of staff. Approval is normally given only if there is no substantial overlap between the proposed topic and the content of an existing subject. A program of reading, discussion, and written work should be formulated in consultation with the appropriate member of staff and submitted to the Program Coordinator for approval.

Prerequisite: Any linguistics subject passed at second year level and Program Coordinator's approval.

Class requirements: Regular supervision sessions as arranged for each individual student.

Assessment: Assignments totalling 5000-words (100%)

LIN3RCB READING COURSE B (20. CPs Sem. TE-SEM-2 BU.) *Coordinator*

to be advised

A limited number of students may be permitted by the Program Coordinator to undertake an individual reading course by arrangement with an appropriate member of staff. Approval is normally given only if there is no substantial overlap between the proposed topic and the content of an existing subject. A program of reading, discussion, and written work should be formulated in consultation with the appropriate member of staff and submitted to the Program Coordinator for approval.

Prerequisite: Any linguistics subject passed at second year level and Program Coordinator's approval.

Class requirements: Regular supervision sessions as arranged for each individual student.

Assessment: Assignments totalling 5000-words (100%)

Program Coordinator: Dr Ross Brady (Philosophy).

Logic is the study of valid patterns of argument. As such, it has wide applications ranging from everyday reasoning to disciplines such as computing and mathematics, which employ profoundly complex reasoning. Introductory units in logic (for example LOG1BEL Beginning Logic and LOG2DLO/LOG3DLO Deductive Logic) enable students to assess many everyday arguments for validity using straightforward techniques and hence are invaluable in any area of human endeavour. The unit PHI1CRT/PHI1CRT Critical Thinking is designed to introduce students to the application of informal logical techniques to the critical analysis of discursive writing. We also offer the computationally oriented unit LOG2AUR/LOG3AUR Automated Reasoning that is quite valuable for students who are combining logic with computer science units and LOG2FOL/LOG3FOL Frontiers of Logic which gives students an account of recent logical developments since the 1960s.

As a discipline, logic has significant links with philosophy, mathematics, computer science, and linguistics. Some units in each of these disciplines are approved for credit towards a sequence in logic, and logic provides a useful adjunct to studies in any of these disciplines.

Programs of study

Students who wish to satisfy their degree requirements by a major in logic are required to take 130 credit points: 30 credit points at first year level, 40 credit points at second year level and 60 credit points at

third year level, and including at least 90 credit points of logic units. The balance can be selected from the list of units below.

Teaching period	Unit title	Unit code
First year units (15 credit points)		
TE-SEM-1	Critical Thinking	PHI1CRT
TE-SEM-2	Beginning Logic	LOG1BEL
TE-SEM-2	Critical Thinking ²	PHI1CRT
Second or third year units (20 credit points)		
TE-SEM-1	Automated Reasoning ¹	LOG2AUR/LOG3AUR
TE-SEM-1	The Ways of Paradox	PHI2TWP/PHI3TWP
TE-SEM-2	Deductive Logic	LOG2DLO/LOG3DLO
TE-SEM-2	Frontiers of Logic ¹	LOG2FOL/LOG3FOL
Third year units (20 credit points)		
TE-SEM-1	Reading Course A	LOG3RCA
TE-SEM-2	Reading Course B	LOG3RCB

Key: ¹ Not available in 2008.² Online unit.

Important notice: Not all of the units listed below will be available every year. See the unit descriptions for availability and semester of offer.

Other units approved for a logic major

Students should note that no more than 40 credit points from all units listed below might be credited towards a logic major without the specific approval of the Logic Coordinator.

Unit title	Unit code

Statistics units	

Honours

Students contemplating admission to the honours program, Logic 4, should consult the Logic Program Coordinator as soon as possible after the completion of second year, to plan a suitable third year reading course.

To be admitted to Logic 4, students are normally required to have taken at least a 130-credit point major in logic, with a minimum B average; to have taken units in their second and third years that enable them to fulfil the prerequisites of all the honours components to be taken; and have at least a B in LOG2FOL/LOG3FOL Frontiers of Logic or LOG2DLO/LOG3DLO Deductive Logic.

Logic 4 normally consists of a 12000 to 15000 word minor thesis (50%) plus three units. Approved units should be selected in consultation with the Logic Program Coordinator from the honours units offered by philosophy, mathematics, engineering, linguistics, and statistical sciences.

A full description of these units (including the unit name, unit code, credit points, campus/location, unit coordinator, class requirements, assessment, prerequisites, and readings) appears at the end of each discipline entry. A full description of LOG units appears below. For the most recent descriptions of all units, please access the unit database at www.latrobe.edu.au/udb_public.

UNIT DESCRIPTIONS**LOG1BEL BEGINNING LOGIC** (15. CPs Sem. TE-SEM-2 BU.) *Dr Ross**Brady*

In this unit, students are introduced to logic, which includes basic concepts (arguments, deduction, validity) categorical propositions and syllogisms and the symbols of propositional and predicate logic. We use truth tables to determine the validity of arguments in propositional logic and the finite universe method to test for invalidity in predicate logic. Students will also be introduced to some elementary natural deduction for propositional logic.

Class requirements: One 2-hour lecture and one 1-hour practice class per week.

Assessment: One 2-hour examination (50%), three assignments (2000-words equivalent) (50%)

Preliminary Reading:

Phillips, R. and Oakley, T. *Reason and argument* Revised edn. Monash Distance Education Centre 2001

Prescribed Reading:

Hurley, P. J. *A concise introduction to logic* 9th edn. Wadsworth 2006

LOG2AUR AUTOMATED REASONING (20. CPs Sem. TE-SEM-1 BU.) *Dr*

Ross Brady

This unit is offered at third year level also.

Not available in 2008

LOG2DLO DEDUCTIVE LOGIC (20 CPs Sem. TE-SEM-2 BU.) *Dr Ross Brady*

This unit is offered at third year level also.

In this unit, students will be introduced to the syntax and semantics of classical propositional and predicate logic. The principal validity/determining techniques to be used are truth trees and formal natural deduction. Students will also learn how to write informal but rigorous proofs using a natural deduction style. Students will be introduced to relevant logic, in particular to the strong relevant logic R and its natural deduction system, which is based on the Use Criterion (each hypothesis is used when deriving the conclusion). We will also introduce the relevant logic MC of meaning containment and its natural deduction system.

Prerequisite: PHI1CRT.

Incompatible unit: LOG12IDL

Class requirements: Two 2-hour lecture/seminars per week.

Assessment: Four 500-word assignments (40%), one 3-hour examination (60%). Third year students will be expected to show a greater achievement of discipline skills in their written work

Preliminary Reading:

Priest, G. *Logic: A very short introduction* Oxford UP 2000

Prescribed Reading:

Jacquette, D *Symbolic logic* Wadsworth 2001

Recommended Reading:

Jeffrey, R. *Formal logic: its scope and limits* McGraw-Hill 1967 or later edn

LOG2FOL FRONTIERS OF LOGIC (20 CPs Sem. TE-SEM-2 BU.) *Dr Ross*

Brady

This unit is offered at third year level also.

Not available in 2008

LOG3RCA READING COURSE A (20. CPs Sem. TE-SEM-1 BU.) *Dr Ross*

Brady

A limited number of students may be permitted by the Logic Coordinator to undertake a reading subject under the supervision of a staff member. Such students must have the approval of a staff member who is willing to supervise the student's reading course on a subject, which has been mutually agreed on. The student should submit details of the proposed program, including a bibliography and details of assessment to the Logic Coordinator, for approval. Specifically, a reading course in Modal and Temporal Logic may be made available.

Prerequisite: Approval of the Logic Coordinator. Students should have at least a B grade in LOG12IDL or LOG22/32DLO or LOG21/31FOL or equivalent.

Class requirements: Supervised reading course with regular contact with supervisor (on average, weekly).

Assessment: A combination of examinations, essays, assignments, or projects, to total 5000-words equivalent. (100%)

Prescribed Reading:

Hughes, G. E. and Cresswell, M. J. *A new introduction to modal logic* Routledge, 1996.

McArthur, R. P. *Tense logic* Reidel (Kluwer) 1976.

LOG3RCB READING COURSE B (20. CPs Sem. TE-SEM-2 BU.) *Dr Ross*

Brady

See LOG31RCA for full unit details.

Prerequisite: Approval of the Coordinator of Logic. Students should have at least a B grade in LOG12IDL; LOG22DLO or LOG32DLO; and LOG21FOL or LOG31FOL.

Class requirements: Supervised reading course with regular contact with supervisor (on average, weekly).

Assessment: A combination of examinations, essays, assignments, or projects, to total 5000 words equivalent (100%)

Prescribed Reading:

Hughes, G.E. and Cresswell, M.J. *A new introduction to modal logic* Routledge, 1996

McArthur, R.P. *Tense logic* Reidel (Kluwer) 1976

Media studies

Program Coordinator: Associate Professor Sue Turnbull.

The Media Studies Program has developed a unique approach to media education, combining the study of various media with the development of practical media skills. Consequently, the program offers a wide range of units that explore the historical, political, and cultural aspects of media and are linked to units that allow students to develop a range of media production skills. Media studies units are available in both the Bachelor of Media Studies and the Bachelor of Journalism degrees and as a major in the Bachelor of Arts degree.

Full details of the course structure for the Bachelor of Media Studies and the Bachelor of Journalism are available at the beginning of the Faculty of Humanities and Social Sciences chapter of this *Handbook*.

Media studies in the Bachelor of Arts

A media studies major in a Bachelor of Arts degree combines the study of media and media production with a wide range of other units, including politics, history, English, sociology, cinema studies, and drama.

Students taking a major in media studies must complete at least 130 credit points from the units listed below, including the core first year units MST1CCO Constructing Communication and MST1AAC Audiences and Communication, 40 credit points at second year level and 60 credit points at third year level. No more than 60 credit points of production units can be included in the major.

The unit listings below illustrate those units other than media studies units can be credited towards a media studies major.

Available units

The following units are available to students studying media studies in the Bachelor of Arts, Bachelor of Media Studies, and Bachelor of Journalism.

Teaching period	Unit title	Unit code
First year units (15 credit points)		
TE-SEM-1	Constructing Communication	MST1CCO
TE-SEM-2	Audiences and Communication	MST1AAC
Second and third year units (20 credit points)		
TE-SEM-1	Australian Cinema	CST2CAC/CST3CAC
TE-SEM-1	Cinema and Sexuality	CST2CAS/CST3CAS
TE-SEM-1	Image and Industry: Australian television	MST2IAI/MST3IAI
TE-SEM-1	New Media and Society	MST2NMS/MST3NMS
TE-SEM-1	Press and Society	MST2PAS/MST3PAS
TE-SEM-1	Radio Sound Production	MST2RSP/MST3RSP
TE-SEM-1	Radio Theory and History	MST2RTH/MST3RTH
TE-SEM-1	Researching the Media	MST2RTM/MST3RTM
TE-SEM-1	Single Camera Video	MST2SCV/MST3SCV
TE-SEM-2	Writing for Video – non-fiction	MST2WV/MST3WV
TE-SEM-2	Digital Media Cultures	MST2DMC/MST3DMC

TE-SEM-2	Hollywood Cinema	CST2CLH/CST3CLH
TE-SEM-2	Media and the Spectacular	MST2MAS/MST3MAS
TE-SEM-2	Popular Culture and the Media ¹	MST2PCM/MST3PCM
TE-SEM-2	Researching Media Audiences	MST2RMA/MST3RMA
TE-SEM-2	Screen Criticism	CST2FCR/CST3FCR
TE-SEM-2	Sex and the Media	MST2SAM/MST3SAM
TE-SEM-2	Violence and the Cinema ¹	CST2VAC/CST3VAC
TE-SEM-2	Writing for Radio	MST2WFR/MST3WFR

Third year units (20 credit points)

TE-SEM-1	Publishing and Editing	MST3PAE
TE-SEM-1	Reading Course A	MST3RCA
TE-SEM-2	Reading Course B	MST3RCB
TE-SEM-2	Advanced Media Production – Radio	MST3MPR
TE-SEM-2	Writing and Editing for Multimedia ²	MST3WEM

Key: ¹ Not available 2008.² Available only to Bachelor of Arts students.**Units with restricted availability**

The following units are only available to students in the Bachelor of Media Studies or Bachelor of Journalism.

Teaching period	Unit title	Unit code
First year units (15 credit points)		
TE-SEM-1	Making the News	MST1MTN
TE-SEM-2	Writing for the Media	MST1WFM
Second and third year units (20 credit points)		
TE-SEM-1	Computer Assisted Journalism	MST2CAJ/MST3CAJ
TE-SEM-2	Journalism Production Workshop	MST2JPW/MST3JPW
Third year units (20 credit points)		
TE-SEM-1	Broadcast and Electronic Journalism	MST3BEJ
TE-SEM-1	Media Industries	MST3MIN
